

D Emperor 4301

Chapter 4301: Go to robbery

"Oh, it seems that you must have a red furnace or a red blaze?"

Lu Ming's eyes looked at the strongest man with the strongest reaction.

Because Lu Ming said to ask these people to surrender Danlu and Honghuangdan, this person shouted as if they were trampled on the tail. Obviously, there are situations.

Sure enough, when asked by Lu Ming, the person's face was white and very ugly.

"No, I didn't, you misunderstood!"

The person quickly defended.

"Have you taken the storage ring out and I'll know if I check it?"

Lu Ming said, stepping out, toward this person.

Seeing Lu Ming stepping forward, the person flew to the distance as soon as he gritted his teeth, and wanted to escape.

But he was not Gabbert, and even desperately, it was useless in front of Lu Ming.

Uh!

As soon as Lu Ming's body flashed, he caught up with this person and punched him out. The vast fist force crushed down. Although this person wanted to resist, it was useless. Under his fist strength, he turned into ashes, a storage ring, was caught in Lu Ming's hand.

Lu Ming checked it politely, and after a while, there was a hint of joy.

In this person's storage ring, there is indeed a red furnace with a diameter of about one meter.

Lu Ming put it away in a polite way.

"It's your turn!"

Lu Ming's eyes turned to others.

"Muyun, I don't have a red furnace, nor a Honghuang pill!"

"Neither do I!"

Many shouted.

"Are there any, I will check, hand over the storage ring on your body, check it for me!"

Lu Ming said ruthlessly, his eyes full of murderous opportunities.

Before, these people wanted to kill him, now he doesn't kill these people, it's already a side of the net, what's wrong with taking a little Danlu and Hong Huangdan?

Because of Lu Ming's magic power, these people dared not to obey and could only obey.

Lu Ming inspected the past one by one.

Just scanning Danlu and Honghuangdan, the speed is very fast, and it didn't take long for Lu Ming to check it again.

As a result, Lu Ming was disappointed.

A total of two red furnaces were found, plus the one who escaped before, a total of three.

As for Hong Huangdan, only 3,000 were found.

In fact, it is normal to think about it. These people are not very powerful. It is very difficult to **** the Dan Furnace. Unless they are lucky and encounter no one to snatch, it is difficult to get the Dan Furnace.

Lu Ming calculated, he now has a total of eighteen furnaces.

Seventeen small, about one meter in diameter.

A big one, about three meters in diameter.

This harvest is already very good.

"Muyun, I have something to tell you!"

At this time, a young man flew to Lu Ming and said to Lu Ming.

"what news?"

Lu Ming asked, a little curious, everyone else left, but the person didn't leave yet, and he had to tell him the news.

Judging from the origin of life, this person should be a demon.

"You want a Dan furnace, I know there is a Dan furnace in a place, and there are many!"

Demon youth said.

"Is there a place where there is a monastery? Ha ha, do you think I'm stupid? If you don't go by yourself, will you tell me?"

Lu Ming sneered, his eyes showing a hint of killing.

The Mozu youth turned slightly pale, and quickly said: "The red furnaces I mentioned are of Gabort. There are angels strong guards there, I will definitely not win it!"

"Galbert's?"

Lu Ming whispered.

"Yes, Gabbert got a lot of Dan furnace before, he didn't bring it on his body, because he wouldn't condense the Dan furnace. Gabor gave his Dan furnace to some of his men. The angels are guarding, in a place full of wilderness and gas, they are condensing Honghuangdan all the time!"

"In this way, the Dan Furnace will not be empty, and it can be effectively used to produce Honghuang Dan at all times. Gabron will give some to those who guard the Danhuang, and most of them will enter Gabbert. In his belt bag."

Demon youth said.

"Oh?"

Lu Mingqing snorted, in fact, already believed it.

Before Gabor killed the Demon Clan Tianjiao Mojie, and this person was a Demon, it was normal to tell Gabor where the Dan Furnace was hidden, because they had hatred.

Moreover, it makes sense that Gabbert did not carry the Dan furnace on his body, because he would not condense Hong Huang Dan.

Lu Ming is a person, there is no way, he can only take the Dan furnace on his body.

"Speak, where is Gabbert's Dan furnace?"

Lu Ming said.

"it's here..."

Immediately, the Demon Youth told Lu Ming the address in detail, and then left.

After the Demon Youth left, Lu Ming took out a storage ring.

This storage ring is Gabbert's.

Lu Ming checked it carefully.

Among the storage rings, there are other storage rings, one of which is still a demon, but to Lu Ming's disappointment, there is no one red furnace inside, but Hong Huang Dan, but Lu Ming found 10,000 of them.

These Honghuangdans were added by Gabbert and Mojie.

Lu Ming estimated that the two were not able to help them break through the realm because they were not enough to help them break through the realm, so they wanted to wait for more accumulation, refine together, and hit a new realm. Both are now cheaper Lu Ming.

"That Mojie's storage ring didn't even have a red hearth. Isn't it possible for the Mozu people to guard him and refining Honghuangdan? It was a pity that the Mozu youth didn't make it clear just now!"

Lu Ming murmured, and then his figure flashed, disappearing directly from here, and went in the direction that the Demon Youth said.

An hour later, a figure flashed over a mountain range, and a figure appeared, it was Lu Ming.

"In this area, the wild gas is really rich, suitable for condensing Hong Huangdan, it seems that the people of Gabor are here!"

A thought flashed in Lu Ming's heart, and he looked at the valley ahead.

In this area, the wild gas that belongs to that valley is the most intense, and the people of Gabor should be there to condense Hong Huang Dan.

The speed at which Danlu condenses Hong Huangdan, although related to the level of Danlu itself, is also related to the outside environment.

The outside world is full of famine, the faster the furnace will condense the famine, the faster it will be.

When Lu Ming condensed Honghuangdan before, Danlu could refine one furnace of Honghuangdan for half a day, and there were twelve Honghuangdans.

If the alchemy is practiced in a place where the gas is more intense, there may be more than twelve.

Immediately, Lu Ming condensed his breath and landed on the ground, silently heading towards the valley.

He did not know the strength of the people under Gabbert. If there is a stronger person, who is stronger than Gabbert, he still needs to dispel this idea.

Since it is under Gabor's men, most people of the younger generation will not surpass Gabort. I am afraid of that kind of strong man. I have cultivated for many years and cultivated to a high level. I have realized various secrets for many years. of.

Soon, Lu Ming came quietly to the top of the valley, performing a big hidden technique and hiding in the dark to observe.

Chapter 4302: Unbearable angel family

In the valley, there really was a group of people.

This group of people, all dressed in white robes, there are young and strong, the number is about thirty.

This kind of unique temperament, Lu Ming looked at it, and knew that it was an angel family.

These people formed a circle, and among them, placed a sacred hearth.

"Twelve red furnaces, one is three meters in diameter!"

Lu Ming's eyes lit up.

He found that there are a total of twelve ceremonial furnaces, eleven of which are about one meter in diameter and one is about three meters in diameter.

More than 30 angelic tribes surround the Dan furnace, one is to guard the Dan furnace, and the other is to maintain the operation of the Dan furnace, so that the Dan furnace can continuously condense the Honghuang Dan.

"Galbert is not here!"

Lu Ming's eyes flashed.

He was in the valley and did not see Gabbert.

He was a little disappointed in his heart, thinking that if Gabbert came back here and was seriously injured, he might be able to get rid of him.

Now it seems that Gabbert also had scruples and did not return to this place.

"These angel tribes seem to be the highest cultivation, and they only look like Divine Emperor Liuzhong. If I could get rid of this person first, I would be able to cope!"

Lu Ming thought, and then made a decision.

Decided to start.

After careful observation, he discovered that the strongest person among them should be Divine Emperor Liuzhong, a strong man.

Divine Emperor's Sixfold, which is three times higher than Lu Ming's cultivation practice, if this person is also a arrogant figure, and the combat power exceeds Samsung, then Lu Ming will have a hard time coping with it.

However, if you can get rid of this person first, the rest is not a fear.

Lu Ming condensed his breath, performed a big hidden technique, and quietly walked into the valley, quietly approaching the existence of the Divine Emperor Liuzhong.

The sixfold existence of the Divine Emperor sat at the mouth of the valley, the closest to Lu Ming.

Soon, Lu Ming was only about a kilometer away from this person.

It must be said that the great concealment technique is mysterious and extraordinary. It is a great ancient mystery that has the same name as the big moving technique and the great aurora. Among the three thousand great ancient secrets, it can rank in the top 100.

Close to this person kilometer, this person has not yet found.

The distance of one kilometer, for them, is no different from zero distance.

Great assassination!

Lu Ming exhibited the big assassination technique, and his palm seemed to turn into a long sword, stabbing towards the sixfold existence of the angelic emperor.

Thousands of kilometers away, it's almost instant!

Until Jianguang approached the six-strong strong of the angelic divine emperor, this person became vigilant.

With a roar, the person exploded with all his strength and wanted to move out to avoid Lu Ming's sword light, but he was still one step late.

Lu Ming's Jianguang stabbed him in the back of the head. At the very moment of the attack, he moved a little distance, causing Jianguang to deviate a little, but still stabbed in his head.

With a bang, the man's half of his head burst apart and his body fell forward.

Although he didn't hit the center of the stab, he didn't annihilate the person's soul, but his head burst, still hurting the person's soul, causing the person to be hit hard.

Will Lu Ming miss such an opportunity, the terrible attack started again, and he killed him in the past.

what!

The angelic Divine Emperor's sixfold existence roared, with angel wings spread out, covered in white light, and exploded in full force, wanting to resist.

At this moment, he finally saw who attacked him.

"Muyun..."

This angelic divine emperor's six-strength powerhouse growled.

"kill!"

It was Lu Ming's cold killing that responded to him. This time, Lu Mingshi exhibited a sky-breaking style and a bright gun, rushing towards this person.

boom!

The two's attacks collided together. At the moment of the collision, the Holy Light of the angel clan master was defeated, and the guns kept on hitting, hitting the remaining half of the head of this person.

With a bang, the person's head burst completely, and the soul was also under the gun, turning into nothingness. A headless body fell on the ground and finally awakened the others.

From the assassination of Lu Ming to the second attack to kill this person, it happened too quickly, until the person was completely killed, and other talents reacted.

"Muyun!"

"It's Muyun, damn, dare to sneak attack and kill him!"

"kill!"

The roars of these angel clan shouted to the landing.

Several of them are the strongest, Xiu Wei has reached the five levels of God Emperor, and the combat power is also two stars to Samsung, the fastest, turned into a white sword light, assassinated Lu Ming, want to kill Lu Ming in one fell swoop.

Although Lu Ming just killed the strongest among them, they believed that Lu Ming only killed the strongest among them in a sneak attack.

Now Lu Ming is in front of them, there is no chance of sneak attack, and the combat strength should not be too strong.

The existence of several **** emperors' five-fold, the earliest killed Lu Ming near.

"kill!"

Lu Ming took a light drink, and his fists blasted out continuously. A rage of energy turned into a boxing force and rolled out.

A total of four angel clan masters of the five emperors and five heavy layers, even without screaming, the body burst apart and was directly bombarded by Lu Ming's fist.

Their cultivation practice, although it reached the fivefold of Divine Emperor, but the most powerful of them was only three stars, and together, it was only three stars higher than the most common Divine Emperor.

Lu Ming's combat power, up to twelve stars, is naturally crushed and spiked against these people.

Sisisi...

This scene made other angels take a breath, their eyes full of fright.

They had killed Xiangming Lu quickly, and after seeing this scene, they madly manipulated the divine power to stop themselves.

However, it is too late.

Lu Ming's eyes were indifferent, his body seemed to turn into a spear, and he burst out of him, bursting out from his body.

Whether these angels are attacking or defending, under Lu Ming's guns, they are vulnerable.

The guns passed by, and angels were killed.

Of the more than thirty angels, five are left at once.

The remaining five, trembling with fear, were almost scared, and a face was twisted together because of fear.

"Fate!"

"Don't kill me, I am willing to surrender, I am willing to be a bull and a horse!"

"Please don't kill me!"

The five angels are all young people. At this moment, they are desperately begging for mercy, and there is still the courage to resist.

"Oh, is this the arrogance of the top ten races? It's just that!"

Lu Ming sneered, full of ridicule.

The natural arrogance of the angelic race of the top ten races is usually in the wilderness universe, standing high above the sky, overlooking the thousands of races, and instructing others of other small races.

But when facing death now, they are so unbearable that they are more greedy and afraid of death than ordinary people.

What face? What dignity? All are gone, all are gone.

Although the five angel clan Tianjiao held their anger in their hearts, they did not dare to show it on their faces, and they still begged at the landing cry.

Chapter 4303: Surrounded by the Terran

The heavenly arrogance of the five angels, who dared not flee, and did not dare to do it, could only watch the landing song with a pleading look.

Expect Lu Ming to show mercy and let them go.

"get out!"

Lu Ming waved casually.

The five angels were ecstatic and trembling with excitement.

They never expected that Lu Ming would really let them go.

Where do they still mean to stay halfway, like the dog of the bereavement, flying wildly towards the distance, and disappeared here in an instant.

Lu Ming didn't shoot, so the five angel clan Tianjiao left.

It's not that Lu Ming really showed mercy and couldn't bear to kill them.

Lu Ming deliberately put these people away, in order to fight against Gabbert.

After these people left, they would definitely go to Gabbert. If Gabbert knew that the hard furnace he had obtained was all in Lu Ming's hands, I wonder if he would die alive.

Even if you are not angry, you will be half angry, resulting in a slower injury.

This is the purpose of Lu Ming.

Anyway, the five angels, let go, let go, without any threat to him.

Lu Ming stepped forward and walked towards the twelve sacred furnaces, then waved his hands away and collected the twelve sacred furnaces.

He didn't mean to condense Hong Huangdan here. Although Honghuang is full of gas, it is easy to expose.

Let's condense Hong Huangdan in another place.

After the Dan furnace was put away, Lu Ming chose a direction at random, soared up, and wanted to leave.

But just a few miles away, Lu Ming stopped suddenly and quickly backed away.

"who?"

Lu Ming shouted, and at the same time glanced in all directions, revealing a dignified color.

Because he felt crisis in all directions.

Around, there are definitely strong people hiding.

"It's so sharp, but it's useless, Muyun. Today, your end is doomed!"

An indifferent voice sounded, and at the same time, there was a figure around it that emerged and surrounded Lu Ming Tuan.

The number of people is not much, only about twenty people, but the breath that comes out is extremely terrifying, making Lu Ming's eyes more dignified.

"Devil, Celestial..."

Lu Ming glanced over and found that some of them were demons and a few were celestial beings, but not young people, but strong men.

The most feared thing about Lu Ming is that these astral humans have given Lu Ming a strong sense of oppression.

"At least the Sixfold Divine Emperor..."

Lu Ming whispered in his heart.

This time, some trouble.

Celestials themselves are very talented. If you step out of a Celestials, they may reach the two-star power. The slightly stronger ones are all Samsung power.

And those with better talents and better ones will not be too difficult to achieve four-star combat power.

Coupled with their cultivation practices, such fighting power can completely crush Lu Ming.

"Did you report it?"

Lu Ming's eyes finally fell on a young Demon, and asked coldly.

This Demon Youth was the Demon Youth who had previously informed Lu Ming of the location of Gabor Dan Furnace.

Needless to say, this person brought them.

Missed!

This person should have been killed before.

Lu Ming didn't think so much before, so he told the location of Gabor Dan Furnace because Gabor killed Mojie, and he wanted to avenge him.

It now appears that he was wrong.

This person informed the location of the Gabor Dan Furnace. It was a double-edged strategy, which could strike Gabor and kill him, and make great contributions in front of the Celestial Clan.

So deep scheming.

If this person is not weak, he is a terrible opponent.

"Does this need to be said? Muyun, I can't kill you, but the strong men of the Celestial Clan can!"

Mozy youth sneered, his face full of pride.

Although it was not that he killed Lu Ming and could not get the position of the Son of Heaven, but the help of the Celestial Clan was killed, the credit is as great. He will definitely be valued by the Heavenly Palace in the future.

Thinking of the bright future, Lu Ming couldn't help but smile.

"Very good, your life, I'm going to make up..."

Uh!

Lu Ming's words had not yet fallen, and suddenly he exhibited the Great Aurora technique, and his body turned into an aurora, rushing towards the Demon Youth, and a terrible spear, killing the Demon Youth.

Humph!

At this moment, with a cold hum, a heavenly human race stepped out, a terrible breath erupted on his body, and a golden cannon fist slammed into Lu Ming, and Lu Ming's guns were blasted together.

boom!

A violent roar erupted, Lu Ming's spear collapsed instantly, his body violently threw back suddenly, and a spit of blood spewed out.

"Good combat strength!"

Lu Ming's eyes were more solemn.

The Celestial Clan that was shot just now is indeed the Sixth Cultivation of Divine Emperor, but it should have four-star combat power. This kind of combat power has exceeded Lu Ming by one star.

"Not an opponent, go for it!"

With a move in his heart, Lu Ming directly performed the big move technique and wanted to leave.

"Well, I knew you had performed the big move technique and blocked the space!"

A man of heaven and earth drank coldly.

Boom!

The surrounding people all burst into a strong breath, full of vitality, making the surrounding space very heavy, hindering Lu Ming's move technology.

No mystery is invincible, no matter how mysterious it is, it has its weaknesses.

The weakness of the big move is that once the space is disturbed, it is difficult to perform.

"kill!"

At the same time, another strong man from the Tianren race stepped out and landed on the ground.

He was holding a war halberd, exuding brilliant glow, and slashed towards the landing.

Quick, it's too fast.

Moreover, my timing was very precise, and at the moment Lu Ming failed to perform the move, he showed the killer.

The terrible sense of crisis made Lu Ming's hairs stand upside down.

"Great Defense, Great Shield..."

In an instant, Lu Mingshi exhibited nearly two hundred kinds of ancient secrets of defense, and placed more than two hundred defenses around his body.

At the same time, Lu Ming exhibited the speed-like secret technique, and his figure retreated to the rear.

As soon as the Celestial Clan shot, Lu Ming knew that he was invincible and terrifying. He was definitely not an opponent.

But he retreated quickly, the other party's attack was faster, the battle halberd still struck him.

The moment the battle halberd was cut, the defense under Lu Ming's body burst continuously.

It was almost just a breathing time. The two hundred multiple defenses around Lu Ming's body collapsed, and terrible energy bombarded Lu Ming.

"Unload me!"

Lu Ming shouted, his body shook sharply, and turned into a phantom, trying to get rid of this force.

But in the end, only a part of it was removed, and a part of the force bombarded him, causing his small body to burst apart.

Lu Ming coughed up blood, and his face was pale.

"Five-star combat power!"

A thought flashed in Lu Ming's heart.

Although this Celestial Clan is also the cultivation of Divine Emperor Liu Zhong, its combat power has reached five stars, which is two stars stronger than Lu Ming.

The two-star combat power can be completely crushed.

Chapter 4304: Dare to count me?

Under normal circumstances, the fighting power of the two stars is enough to kill in seconds.

But Lu Ming is special, his life-saving ability is too strong.

As long as he doesn't confront each other head-on, his life-saving means are numerous.

In itself, he is a taboo, and his vitality is extremely powerful.

In addition, there are too many ancient secrets mastered by Lu Ming, there are various types.

Defensive, speed, relief, escape, etc.

These exhibitions, together, let Lu Ming's life-saving ability reach the peak. Even if he is two stars higher than him, Lu Ming has successfully survived.

"I didn't die!"

The strong man of the Celestial Clan was also very surprised.

Lu Ming is more difficult to kill than expected.

"You block the surrounding space, don't let him escape, I'll take charge of killing him!"

The Celestial Clan shouted, and then continued to kill the landing.

As long as Lu Ming is blocked here and cannot escape, he will die in his hands sooner or later.

If one trick kills Lu Ming, then two tricks will not work, then two tricks will not work, then three tricks...

A few more tricks will kill Lu Ming sooner or later.

"You are so smart, you kill me, you can enjoy the credit alone..."

Lu Ming shouted and rushed towards the other side.

As soon as this remark came out, some people's faces changed.

Fortunately, those powerful demon races know that it is impossible to **** credit in front of the human race.

But other Celestials have other ideas.

Indeed, whoever kills Lu Ming is the one who has the credit, and who can be called the Son of Heaven.

Who does not want to be the Son of Heaven?

Especially for people whose age is not small.

They are already in their prime, and they are also sixfold in their cultivation ability. Their potential is much worse than those of the young Tianjiao.

In this way, their prospects are not good.

Perhaps reaching the peak of the Divine Emperor, it will be difficult to progress anymore, and it will be difficult to enter the Divine Realm.

But once they are sealed as children of heaven, their future and their destiny will be completely changed.

Even if their talent potential is not enough, but as long as they have so many resources accumulated, how can they break through the Divine Realm.

Therefore, Muyun's life is very important to them.

The face of the brave man who attacked Lu Ming changed his face and shouted: "Don't hit him, you block the space. If there is a flaw, he will run away..."

While roaring, he madly killed Lu Ming, for fear of being snatched away by others.

Naturally, he was also selfish, and wanted to kill Lu Ming himself to get the credit.

"He has been seriously injured and can't escape!"

"Yes, this person of Muyun, everyone has a share, can not be monopolized by you!"

"kill!"

How many other Celestial Clan heroes would miss such an opportunity and rushed to the landing to rush to the ground.

In this way, several masters took a siege to Lu Ming, causing Lu Ming to fall into a fatal crisis, but the peripheral blockade of the void appeared a flaw.

This is an opportunity!

Fight!

Lu Ming's eyes showed a fierce color, suddenly turned around and rushed towards one of the strong men of the Celestial Clan.

This strong man, Lu Ming played with him at the earliest. This man has a four-star combat power, which is only one star higher than Lu Ming's combat power. Among the few Tianren tribes on the scene, he is the weakest.

From this point on, the breakthrough is the most beneficial.

Lu Mingshi exhibited the sky-breaking style, his body turned into a spear, and rushed towards the Celestial Clan.

Moving forward, this time, Lu Ming went forward and shocked madly.

boom!

The two's attacks collided together, Lu Ming's attack was defeated, and a powerful force bombarded Lu Ming.

But this time, Lu Ming did not retreat.

If you retreat, you can remove some of the power, and the damage you receive will not be too great.

However, as soon as he retreats, he will be attacked by others, and Lu Ming will be even more dangerous.

Now, there is only one way forward, continue to strike forward.

As he continued to strike forward, Lu Ming suffered more damage, his body exploded continuously, and finally, most of his body exploded, leaving only the upper body still alive.

If you change to someone else, you will definitely be hit hard, leaving little combat power left.

But Lu Ming will not. He can be resurrected as long as there is only one cell left, not to mention that most of the cells are still there.

Lu Ming's combat power remains at its peak.

He tried his best to make a full impact, and finally successfully rushed through the strong man of the Celestial Clan.

"not good!"

"Damn!"

"Quickly stop him!"

Several other Celestial men roared.

However, it is too late.

Lu Ming has already exhibited the big move technique.

Uh!

This time, Da Nian moved successfully.

The demon masters around are not as strong as those of the Celestial Clan. They block the void and have flaws.

Lu Ming moved out of these flaws and rushed out of the encirclement.

However, Lu Ming did not go far away, but came out from the Mozu youth.

Even if this person dare to count him, would Lu Ming let go of each other?

When he saw Lu Ming suddenly appear beside him, the young demons of the Mozu were all screaming and screamed in horror.

"Help!"

"No one can save you. Since the moment you counted me, your destiny is destined to go on the road!"

A cold voice came from Lu Ming's mouth, and at the same time, a spear burst out.

Although Lu Ming has only half of his body left, his combat power has not been affected. This young Devil can't stop Lu Ming's attack at all.

The guns flashed, the eyebrows of this Demon youth were penetrated, and the soul was annihilated.

His eyes were wide, full of unwillingness, despair, and regret.

Yes, it is regret.

I knew that it would end like this. He would never provoke Lu Ming. Unfortunately, there is no regret medicine in the world.

"Damn!"

"kill!"

The strong men of the Celestial Clan, as well as some powerful Demon Clan, also screamed to the landing.

However, Lu Ming's big move technique continued to urge and disappeared directly from the place.

"Your life, I wrote it down, I will take it sooner or later, you wait for me..."

Lu Ming's voice was still floating in the air.

"chase!"

The celestial beings roared and chased away in the direction of landing Ming, but unfortunately, their speed was inferior to that of Lu Ming. The distance between the two parties was getting farther and farther, and Lu Ming's trail was soon completely lost.

"Damn, damn, **** it!"

The brave man of the Celestial Clan with five-star combat power roared endlessly, then looked at the others angrily, and said: "I tell you, don't shoot, block the void, now it's okay, it's a good idea, you must be responsible... "

"Responsible? It's ridiculous. Why did you do it, not me? You came to block the void, you just want to get the credit!"

"That's right, don't say it is so grand, you are wrong!"

Other Celestials sneered.

Chapter 4305: 110,000 Honghuangdan

When a few Celestial Clan arguing, Lu Ming had already moved hundreds of thousands of miles away.

At this point, Lu Ming did not continue to move, but instead flew, and at the same time he even spit a few mouthfuls of blood.

This time, his injury was really heavy, one of the heaviest times since cultivation.

"It seems that I am not careful enough. During this time, my fighting power has been skyrocketing, which makes me a little too confident. There are many people in the younger generation who are above me, not to mention that this time I still have a strong age. enter..."

Lu Ming secretly warned himself and summed up his experience.

His cultivation base is, after all, only the Divine Emperor is triple. In these two-tier worlds, he is much stronger than him. Too much, and he still needs to be more cautious in his future actions.

Similarly, the means should be more ruthless.

For example, the Demon Youth, after telling him where Gabor Dan Furnace was, it was time to get rid of the other party. In that case, no one knew where he was going.

This is the safest way.

Lu Ming flew while running the taboo force.

In the remaining cells, taboo forces continue to flow out to repair Lu Ming's body.

Lu Ming's lower body is growing quickly and recovering quickly.

In the course of Lu Ming's flight, the few Tianren tribesmen had already spread the news, seriously injured Muyun, and came out in the nearby area, calling on everyone to kill Lu Ming.

For a time, the wind surged, and many people even gave up searching for the Dan Furnace, giving up refining Hong Huang Dan, and besieging Lu Ming.

Compared to the position of the Son of Heaven or the Daughter of Heaven, the Danlu or Honghuang Dan is far worse.

People in this area are looking for Lu Ming. Some of them are proficient in array formation. They have deployed surveillance arrays in various places to capture Lu Ming's traces.

After Lu Ming flew a further flight, his lower half of the body grew completely and returned to its original state.

The breath also calmed down.

"Now I have reached thirty statues of Dan furnace, the speed of condensing Hong Huang Dan is greatly increased, now I want to find a place where Hong Huang is full of gas to refine Hong Huang Dan!"

Lu Ming thought, and then the consciousness emanated, and began to look up.

After a while!

Uh, uh, uh!

In front of me, there was a rainbow of light suddenly, rushing towards Landing Ming, Lu Ming found it far away.

"People over Tiangong!"

Lu Ming's eyes moved.

In Taishang Xiancheng, apart from the extermination of the heavenly army, everything else is considered to be a person in the heavenly palace.

"Muyun is over there!"

"Kill, don't let him run away!"

Those people clearly screamed at the landing, exuding cold killing one by one, with greedy light in their eyes.

"These people came to me, how do they know I am here?"

"Aren't people set up a surveillance array near here?"

Lu Ming's thoughts changed sharply, and with his mind, he quickly thought of the point.

These people are obviously purposeful and rushed towards him from afar.

Obviously, it was clear that he was here before he rushed towards him.

There was only one possibility, that is, there was a surveillance array nearby, and these people saw him, so they rushed towards him.

"The highest is only Divine Emperor Wuzhong, who also wants to kill me.

Lu Ming was already very angry in his heart. At the moment, it seemed to be ignited and burst out, full of murderous opportunities.

Lu Ming rushed over, turned his body into a spear, and killed him.

The strongest opponent is only Divine Emperor Wuzhong, and there is no level of arrogance like Gabort. Where is Lu Ming's opponent? It didn't take long for this piece of ground to leave a corpse.

This is a shock.

Later, Lu Ming performed a large-scale removal technique and left.

This time, Lu Ming used the big move technique all the way and was not flying.

Flying, it will be discovered by the surveillance array, but using the big move technique, it will not be discovered by the surveillance array.

Sure enough, Lu Ming did not touch the people in Tiangong behind him. He moved continuously for millions of miles and finally found a more suitable place.

This is a lake with a very wide range, and here, the lake is full of wilderness.

Lu Ming rushed directly into the lake and came to the bottom of the lake.

Then take out all 30 sacred furnaces, enter the forbidden power, start the sacred furnace, and let the smelter begin to condense Hong Huangdan.

Lu Ming himself took out some storage rings and began to count them.

These storage rings were left by Gabbert's men. These people guarded the Dan furnace and refined Hong Huang Dan there. There should be some Hong Huang Dan.

After all, they did not dare to refine themselves, but to turn to Gabbert.

Sure enough, in these people's storage rings, more than 10,000 Hong Huangdans were found. In addition to the more than 10,000 Lu Ming obtained before, Lu Ming already had more than 20,000.

"It's still coming soon!"

Lu Ming sighed.

Of course, this is based on your own strength. If you don't have strength, you will not only get Hong Huangdan, but you will also get in.

"First refine these more than 20,000 Honghuang Pills, and upgrade them first!"

Lu Ming nodded, and then took a deep breath. Tens of thousands of Hong Huang Dan were sucked into Lu Ming's mouth, turned into rolling energy, poured into the cells of the whole body, and then transformed into a taboo force.

Lu Ming felt clearly that his cultivation practice was rapidly ascending, slowly approaching the Divine Emperor's quadruple.

Soon, 10,000 Honghuangdan were refined, and Lu Ming sucked the remaining 10,000 Honghuangdan into his mouth and continued to refine.

When 20,000 Honghuang Pills were all refined, Lu Ming's cultivation practice was close to the late Emperor Triple Stage.

"Twenty thousand Honghuang Pills are only approaching the late Emperor Triple Triple. It seems that if you want to break through the Divine Emperor's Fourfold, at least 120,000 Honghuang Pills are needed. It seems that it will take some time to wait!"

Lu Ming thought, and then began to enlighten ordinary secrets.

Half a day later, thirty sacred furnaces began to emerge.

Buzz! Buzz! Buzz! ...

Thirty statues of the monastery vibrated together. From the exit, a large amount of elixirs flew out. They were caught by Lu Ming and all hauled in.

"575, the richness of the wasteland gas here is similar to the place where I made alchemy last time. A furnace of one meter in diameter, a furnace of twelve Honghuang, a furnace of three meters in diameter, and a furnace of ten meters in diameter There are one hundred and twenty in one furnace!"

Lu Ming whispered, he was quite satisfied with this.

At this rate, 1152 Honghuang Pills can be condensed in one day, and more than 110,000 in one hundred days.

Lu Minghong Huangdan was collected without refining. He planned to wait for the accumulation of one hundred thousand pieces, refining together, and rushed into the Divine Emperor's fourfold in one fell swoop.

He continued to understand ordinary secrets.

A variety of ordinary mysteries, turned into mystic runes, merged into Lu Ming's cells, allowing the taboo force to slowly change and slowly improve.

Time rushed, and in a blink of an eye, one hundred days passed.

There are already about 110,000 Hong Huang Dan in Lu Ming's hands.

Chapter 4306: Divine Emperor

In a hundred days, Lu Ming accumulated about 110,000 Honghuang Pills.

110,000 pieces, according to Lu Ming's calculation, enough to help him break through the Divine Emperor's quadruple realm.

Immediately stopped the esoteric secrets, began to refine Hong Huangdan.

When the mouth was sucked, tens of thousands of Hong Huang Dan were sucked into Lu Ming's mouth, and then transformed into taboo force. Lu Ming's cultivation behavior was quickly promoted.

Divine Emperor Triple Stage, Divine Emperor Triple Peak...

Lu Ming's cultivation practice, soared all the way to the peak of Divine Emperor Triple, and then launched a shock towards Divine Emperor Quadruple.

As long as Hong Huangdan is enough, the bottlenecks of these small realms in the Divine Emperor are nothing.

Soon after...

boom!

There was a slight roar inside Lu Ming's body, and then his breath skyrocketed, rising wildly.

Divine Emperor's fourfold, successful breakthrough.

Moreover, Lu Ming still has 10,000 Honghuang Pills left.

Similar to Lu Ming's calculation, from Divine Emperor Triple Break to Divine Emperor Quadruple, a total of 120,000 Honghuang Pills are required.

Because Lu Ming had already refined 20,000 tablets before, so there were 10,000 before the 110,000.

However, Lu Ming didn't keep it, and he also refined these 10,000 Honghuang Pills together.

After reaching the fourth level of Divine Emperor, if you want to break through the fifth level of Divine Emperor, you need the number of Honghuang Pills, at least a tenfold increase, at least 1.2 million, and 10,000 in each area. Naturally, it is not very useful, but it can also be used. Consolidate repairs, right?

An hour later, Lu Ming's breath calmed down, and his cultivation practice was firmly in the fourfold of Divine Emperor.

Breaking through a realm made Lu Ming's combat power soar a lot.

Now if you face Gabbert again, you can slap him to death. Of course, the premise is that there is no breakthrough.

"Finally reached the fourth level of the Divine Emperor, but to break through the five levels of the Divine Emperor, at least 1.2 million Honghuang Pills are needed. Too many. If it is refined by the red furnace in my hand, it will take three years. ..."

Lu Ming thought.

In three years, he will be able to break through to the five points of Divine Emperor. If it is outside, this speed is already amazingly fast, but in Taishang Xiancheng, he is not satisfied.

There are too many masters on the second floor of Taishang Xiancheng, he must improve as quickly as possible.

In addition, they are on the second floor and can not stay too long, at most only fifty years, they will leave in fifty years.

Yes, only fifty years.

Although Taishang Xiancheng will stay in the wilderness universe for thousands of years, they can only stay on the first, second, or third floors for fifty years.

Most of the rest of the time will be spent on native seeds.

That is the most important and the most time-consuming.

So, fifty years is too short, and there is really no time for him to waste.

If he stays here for a while, he consolidates Hong Huangdan with these golden furnaces in his hand. In three years, he can break through the fivefold of Divine Emperor, and in thirty years, he can break through the sixth of Divine Emperor.

Then, it's over.

It takes three hundred years to break through the Seventh Level of Divine Emperor, and time is not enough.

Divine Emperor Liu Chong's cultivation practice, there is no possibility to want to contend for the opportunity to condense the original seeds.

It is necessary to condense the seeds of the roots behind, and at each level, only the strongest group of talents have the opportunity.

He must break through the seventh level of the Divine Emperor or even reach the peak of the Divine Emperor before he can be sure enough to compete for the opportunity to condense his original seeds.

Therefore, it is not advisable to stay here and condense the Honghuang Pill with these golden furnaces.

Although, it is safest to do so.

In addition, he has to go to Xie Nianqing and Qiuyue.

Therefore, he has to compete, get more dan furnaces, get more Honghuang dan, so that he can quickly improve his cultivation.

With a wave of his hand, Lu Ming put away the thirty sacred furnaces, then rose into the sky and left the lake.

"According to the information given by Feihuang seniors, there are a total of 36 star palaces in the second world of Taishang Xiancheng. I should just be in the territory of one of the star palaces~!"

"Regardless of the star palace, they are divided into the outer area and the core area. At the beginning, they were all in the outer area. The outer area and the chance are the least. The level of the Dan furnace is not very high. The concentration is also very low!"

"And in the core area, there are not only more advanced Danlu furnaces, but also some Xianque Xianfu, and even the earth veins, which contain extremely rich Honghuang gas, which can condense the massive Honghuang Dan, the speed is extremely amazing!"

"However, if you want to enter the core area, you must cross the transitional sea, and if you want to cross the transitional sea, you must get a flying boat..."

In Lu Ming's mind, the materials given by Feihuang continue to emerge.

Then summarize these materials and formulate the next action plan.

There is no doubt that if you want to improve quickly, you must enter the core area.

In the peripheral area, when the realm is low, it may be very fast to rise. When the realm is high, after the sudden increase of required resources, the rise will be very slow. You must enter the core area to improve faster.

Moreover, according to the information of Feihuang, there are other opportunities in the core area, some of which contain shocking nature and are difficult to speculate.

Lu Ming estimates that some of today's top experts, such as those with more than seven levels of Divine Emperor, may have already entered the core area.

"I don't have a ferry boat on my hand, so it's difficult to wear the transitional sea. If I don't transition, I can only carry one person, but I can carry many people. Ride a boat and enter the core area!"

Lu Ming thought, made a decision, and then used the map given by Feihuang to identify the direction and flew towards the core area.

During the flight, Lu Ming's appearance and shape changed rapidly, and finally changed to another one.

Although this does not change the origin of his life, he spent a long time in the Tiangong. The Tiangong retained his breath. Once met, it is estimated that many people can recognize him.

But at least it will not be discovered by the opponent's surveillance array.

The monitoring array method can only distinguish the appearance, but not the source breath of life.

In this way, a lot of trouble is also saved.

Sure enough, for the next period of time, he was not under siege.

And if someone on the road meets the Tiangong, Lu Ming will get around, lest there be someone who can discern the origin of his life, it will inevitably be another war.

Although he is now a breakthrough, his combat power has greatly increased, but there is no guarantee that there are more terrifying characters over Tiangong.

In this way, Lu Ming did not encounter much trouble in the next two days.

But on the third day, Lu Ming made a discovery.

On the left front of Lu Ming's flight, a violent roar came, there was a gorgeous glow of the sky, and there was a roar.

"This roar..."

Lu Ming's eyes moved, this roar, like the roar of the original god.

Chapter 4307: Narrow path

Lu Ming actually heard the roar of the original gods.

However, as far as Lu Ming knows, there is no Divine Emperor Realm in the primitive spirits that exist today. That only shows that the roaring has the blood of the primitive gods, or cultivated the primitive **** body.

"Aren't they people of Primitive God Lake? Go and see!"

Lu Ming moved, and then flew in that direction.

The original Shenhui Lake belongs to the Heaven Destroyer. If the other party is in danger, he is not good to watch.

To the best of his ability, Lu Ming will help.

A few flashes crossed a distance of 100,000 miles and came to a mountain range.

"That is..."

As soon as he came here, Lu Ming stared.

In a mountain range in front, there is a purple ray of light diffused, in the purple ray of light, there is a huge gossip picture.

This is clearly a panacea.

Around the gossip chart, there are two people in a fierce confrontation.

One of them is surrounded by the other.

On the besieged side, several figures were particularly huge. They roared upward, and Lu Ming heard the roar of the original gods from them.

"Sure enough, they are the people of the original Shenhui Lake, and some other people who destroy the sky..."

Lu Ming moved.

The people who besieged and destroyed the Heavenly Army were naturally the people of the Heavenly Palace. There were more than fifty people, and there were only more than thirty people on the side of the Heavenly Army. Therefore, the Heavenly Army was completely downwind.

There is no red furnace on the gossip map, and it has obviously been put away.

"Actually they?"

Lu Ming's eyes flashed a murderous chance.

On both sides, there are people he knows.

There are several Tianjiao of the primitive Shenhu on the side of the Destruction Celestial Army. Lu Ming knew that one of them was the Tianjiao, Feiye, who he had also dealt with in the primitive Shenhu.

The Tiangong side is even more coincident. Among them, there are a few strong men of the Terran clan, the same ones who besieged Lu Ming and hit Lu Ming seriously.

Unexpectedly, I will meet here.

what!

Suddenly, a scream of sorrow sounded, and a huge figure was cut off from the head by a strong man of the Celestial Clan, and then his soul was annihilated.

This is a strong man with bloodlines of primitive gods and powerful combat power, but unfortunately he was still killed.

World War One is not an opponent of the Celestial Clan.

"Kill, kill these rebels!"

A brave man of heaven and earth cries.

"kill!"

The people on the other side of the Tiangong have a strong fighting spirit and fight madly.

You should know that beheading the rebels can get a lot of merit points, and the merit points are even higher than the demons.

In the eyes of the people in the Tiangong Temple, the head of the rebel represents the merits and treasures.

The Destroyer is even more invincible, and it is losing ground. It can only defend and cannot fight back.

"Damn, you don't deceive people too much, we can give you the furnace, when you want to give way..."

A voice sounded from the end of the Celestial Army, and it was Feiye.

It seems that the red furnace of this pill field fell into the hands of the destroyer.

"As long as you are killed, Danlu is still ours!"

A Celestial man sneered.

On the side of the Tiangong, he continued to attack with no mercy, and the annihilated Tianjun was at stake.

If you go on like this, those who destroy the Heavenly Army are likely to be completely destroyed.

"Masters on Tiangong, I should be able to cope!"

Lu Ming observed for a while and decided to shoot.

These people, who hit him seriously before, this hatred must be reported.

In addition, if you shoot, you can also save those who destroy the heavenly army, and you can do two things with one stone.

Uh!

Lu Ming rushed straight past, the speed is amazing, like a streamer.

As soon as Lu Ming rushed out, he alerted the strong man over Tiangong.

After a look, Lu Ming looked.

"It's him!"

"It's Muyun!"

The strong men of the Celestial People recognized Lu Ming at a glance.

Although Lu Ming changed her appearance and appearance, they have all seen Lu Ming and knew Lu Ming's life breath.

For people in their realm, people are recognized by the breath of life.

"It's him!"

At the same time, Lu Ming also recognized Lu Ming, and between them, they had already recorded each other's life breath.

"Unfortunately, he is the only one!"

"He alone can't save us at all, he can't help himself!"

"Why is he still rushing out, will he be sure?"

The thoughts of the people on the side of the Destruction Army came to mind.

"Muyun, he actually dared to show up!"

"kill him!"

On the side of the Tiangong, many people showed a hot glow.

Some of them responded quickly and rushed directly to the landing Ming, wanting to kill Lu Ming first.

A total of ten people rushed towards the landing, the speed is extremely fast, including the existence of a man of heaven and humanity, the sixfold of Divine Emperor.

"Damn, they were the first!"

The others in Tiangong shouted and wailed in their hearts, and accused themselves of taking a step slower, beating the credit of Muyun. That was huge. It could contain the Son of Heaven or the Daughter of Heaven.

On the side of the Tiangong, many people were annoyed and secretly blamed their slowness.

At this moment, the people in the Ten Heavenly Palaces are already approaching Lu Ming, and they have shot one after another. All kinds of attacks are going to the landing and they want to take the first step to kill Lu Ming and get credit.

"court death!"

Lu Ming kept on showing, breaking the sky, and turned the whole person into a spear.

He put his palms together and stretched forward, using his palms as the point of the gun and his body as the body of the gun, and rushed towards the ten strong men in Tiangong.

bump!

The attacks of the ten Tiangong strongmen were directly defeated by Lu Ming.

Lu Ming's body kept running, and he rushed past, and the bodies of the powerful Tiangong were penetrated by him.

Ahhhh!

These people screamed continuously, and in an instant, nine masters' bodies were torn by terrible energy and fell to the spot.

The strong man of the Celestial Clan was stronger. Although he was not killed on the spot, he was also hit hard, and he coughed up blood and retreated.

"Your cultivation..."

The terrified roar of the Celestial Clan, apparently did not expect that Lu Ming's cultivation practice actually lifted a weight so quickly.

"I said before, I will take your life sooner or later, go on the road!"

Lu Ming drank coldly and continued to rush out.

The strong man of the Celestial Clan could not stop Lu Ming's attack and was directly killed.

"This this..."

At this moment, the rest of the people in Tiangong froze, and a chill rose in their hearts.

Why is Lu Ming's combat power so strong?

More than a dozen masters rushed out, and were killed in just an instant. This kind of combat power is also terrifying.

If they were rushed out just now, the consequences would be disastrous.

"This kid, Xiuwei broke through!"

"Damn, he was so seriously injured before, how can he recover so quickly, and break through the cultivation base so quickly?"

A few Celestial Crows roared, somewhat unbelievably.

The people on the other side of the Heavenly Destruction Army have bright eyes, showing hope.

Lu Ming's combat power exceeded their imagination. Perhaps, this time he was saved.

Chapter 4308: Completely destroyed

"I said before, take your life sooner or later, few of you, take your life!"

Lu Ming's eyes fell on the strong men of the Celestial Clan.

At the same time, he urged his breath to the peak, stepped out, and forced toward the Tiangong.

Some weak, with a chill in their hearts, could not help but step back a few steps and dared not face Lu Ming.

"Don't be afraid, shoot together, join forces to kill him, the credit for killing him, we share equally!"

A strong man of the Celestial Clan roared. This man was extremely powerful. The Divine Emperor's Sixfold Cultivation Practice had five-star combat power.

"Good, let's go together!"

Other Celestial Masters also shouted.

boom! boom!

Immediately afterwards, a few strong men of the Celestial Clan took action, turning the power of the heavens, either holding a battle halberd, or a spear, or a battle sword, and slammed towards the landing.

Not only the Celestial Clan, but several strong men of other races also killed Lu Ming.

There are seven masters in total, all of which are the top masters present.

The seven masters shot, the power was shocking, the seven rays of light, entrapped the power of destruction, and killed Lu Ming's seven key points.

"Good to come!"

Lu Ming's eyes were cold, facing the seven masters, he did not retreat, and killed him directly.

At the same time, a ray of glow shone on his body, which is a great ancient secret of various defenses, a total of more than 200 kinds, covering him.

Uh!

Lu Ming turned into a spear and rushed to one of the six superpowers of the Divine Emperor. As for the attack of the other six, Lu Ming was too lazy to manage.

boom!

Lu Ming collided with the strong six-man of the Celestial Clan.

The powerful of the Celestial Clan is extremely powerful. The Divine Emperor has six heavy powers and five star powers. More than three months ago, Lu Ming was hit hard by a stroke.

But now, his overall combat power is not as good as Lu Ming, and it is one star worse than Lu Ming.

At the moment of the collision, the attack of the strong man of the Celestial Clan was defeated. The gunman continued to pierce the person. With a puff, the person's body was penetrated by the gunman's hole, and the body exploded into a large hole. Retreat.

One trick, hit hard!

More than three months ago, he hit Lu Ming with one stroke, but now, Lu Ming hit him with a stroke, and the situation is completely reversed.

At the same time, the attacks of six other masters also hit Lu Ming one after another.

Boom!

Lu Ming's two hundred multiple defenses on the surface of the body, continually shaking, made a violent roar.

Then, layer by layer defenses were torn apart.

In the end, the two hundred multiple defenses were all broken, but the strength of the six masters was almost exhausted. The remaining power bombarded Lu Ming, but left a few deep wounds on Lu Ming. I just received some minor injuries.

The improvement of the cultivation base and the improvement of the taboo power led Lu Ming to exhibit the ancient secrets and the power was also greatly improved.

More than three months ago, it could not be prevented, but now it can.

"Dead!"

Lu Ming spoke indifferently and continued to kill the strong man of the Celestial Clan who was wounded by him.

"Ah, get out!"

The terrified man of the Celestial Clan shouted in horror, retreating with all his strength, trying to escape into the crowd and let others block Lu Ming.

"Shoot!"

Would the Miss Tianjun miss such an opportunity, and shot one after another to kill the people on the other side of the Tiangong.

Some of the strongest masters in Tiangong side have dealt with Lu Ming. The remaining ones are not too top-notch masters. Although the number is still a little more than that of Destroying the Heavenly Army, the fighting power is not as good as the Destroying the Heavenly Army. Falling downwind.

In this way, they naturally cannot provide assistance to the Celestial Clan and others.

"You can't go away!"

Lu Ming opened his mouth indifferently, and Danao moved out. With a flash of his body, he appeared beside the strong man of the Celestial Clan.

This time, this person could no longer resist, and was directly pierced by the gunman's head and fell to the spot.

The other six attacked Lu Ming, but as before, it only caused Lu Ming a slight injury.

"Now, it's your turn!"

Lu Ming's indifferent voice sounded, cold eyes like a knife, swept to six other people, these six people were swept by Lu Ming's eyes, the skin was like a knife cut, and the roots of the hairs were raised.

Their figure could not help but retreat.

They retreated fast, Lu Ming chased faster.

Uh!

The sky-breaking style emerged, and the lance turned into a flash, as if it were aurora.

puff!

A Divine Emperor with six heavyweights and only a four-star power of the Celestial Clan master was directly killed and fell on the spot.

With only four-star combat power, Lu Ming couldn't stop even one move, and could only be killed by a spike.

After killing this person, Lu Ming turned around and killed another person.

Too fast, Lu Ming combined the great aurora technique and the big shift technique. These people couldn't escape at all. Every time the gun flashed, one person was killed.

Flashing five times in a row, all the remaining people were killed, and one was left.

The storage rings of these people all fell into Lu Ming's hands.

"Run away!"

The rest of the people fighting with the Heavenly Destruction Army, seeing this scene, the souls of the dead are daring to stay, and dare to flee in all directions.

"Don't let them escape, kill!"

"Kill, don't stay!"

This time, the people who destroyed the sky broke out and killed the people in the heavenly palace.

The people on the Tiangong side didn't want to fight anymore, they just wanted to escape, and they watched the landing sound all the time. I was afraid that Lu Ming would take action. The fighting power was not strong at all. Some people were constantly killed by the destroyers.

Lu Ming didn't keep his hand. He stepped on the void and killed towards the people in Tiangong.

He specially selected people who were cultivated to be strong, because these people most likely have Danlu or Honghuangdan, which can not be missed.

Lu Ming shot, the Tiangong side was even one-sided.

For the people in Tiangong, Lu Ming will not have the slightest sympathy.

These people stay, and in the future they will have to go to the opposite side and become adversaries. It is better to get rid of them as soon as possible.

After Lu Ming killed more than ten people, the others were all beheaded by the people who annihilated the Heavenly Army, and none of them fled.

After all, there are some top players on the side of the Celestial Destruction Army, which are not weaker than the existence of the strong men of the Celestial Clan.

"Hahaha, happy!"

"Kill the dogs in the Light Palace!"

The people on the destroyer's side laughed, very happy.

Rarely have the opportunity to hunt people in Tiangong like this.

Then, many people approached the landing.

"Muyun, this time, thank you for your help!"

"Thank you, thank you!"

Some people clenched their fists and thanked Landing for clenching their fists.

Humph!

Fei Ye sneered in his heart and stood aside without talking.

He was defeated by Lu Ming, and he was very upset.

But at that time he suppressed Xiu to fight Lu Ming, and he always thought that Lu Ming was not as good as him.

But Lu Mingzhan's fighting power revealed just now is extremely terrifying. Even if he doesn't suppress cultivation, he is no longer Lu Ming's opponent. This makes him envious, jealous, and hateful.

Chapter 4309: Ye Ling

"You are welcome, Tiangong is our common enemy. Since I have encountered it, I should have shot!"

Lu Ming smiled.

"In any case, thank you for your rescue this time. By the way, since we happened to meet, it is better to act together later, so the speed of collecting Honghuang Dan should be faster!"

At this time, a strong man proposed.

This strong man, who looks like he is in his thirties, has the blood of primitive gods in his body. His strength is very strong. He is a six-fold presence of a Divine Emperor, and is one of the strongest among the group of people who destroy the heavens.

Just now this person turned into a primitive god, roared and heard by Lu Ming.

"Do you act together?"

Lu Ming's eyes moved, revealing the color of intention.

In other places, Lu Ming is certainly not willing to act together. It is more free and easier to act alone. Even in danger, he can come and go freely.

But in this second world of Taishang Xiancheng, it is different.

Here, even if you get the Dan Furnace, you still need someone to keep it. You must urge the Dan Furnace from time to time, and the Dan Furnace will continue to run and condense the Honghuang Dan.

It's natural that there will be no gains like Lu Ming always carrying with him.

But you can cooperate with others.

For example, in cooperation with these annihilators, Lu Ming took out the Dan Furnace and asked these people to help the guards and help refine Hong Huang Dan.

In this way, both sides can be rewarded with one stone and two stones.

Therefore, cooperating with the other party, Lu Ming was quite moved.

"Action with him, I disagree!"

At this moment, a discordant voice sounded.

Everyone looked at the source of the sound, and it was Feiye.

Fei Ye looked at Landing Ming coldly and said, "We can't act with him. Don't forget, everyone in the Tiangong Temple is chasing and killing him. As long as he kills him, he will be called the Son of Heaven or Heaven." Daughter, under such conditions, the entire Tiangong people will be crazy!"

"Sooner or later he will be beheaded by the people in Tiangong. He will act with us, we will be affected by him, and he will bear the same risk!"

As soon as this remark came out, the face of the exterminators changed.

Indeed, they are also active in this area. Naturally, during this time, the people in Tiangong were all looking for Lu Ming crazy, wanting to kill Lu Ming and gaining great credit.

They act together with Lu Ming, they will also be very dangerous.

Some of them are grateful to Lu Ming for helping out before, but compared to his own life, that is naturally his own life is better than gratitude to Lu Ming.

So, for a time, no one spoke.

Even the strong man with the blood of primitive gods has a ugly face and no mouth.

"Ha ha!"

Lu Ming chuckled, how did these people repay his life-saving grace?

Hearing Lu Ming's laughter, some people turned red, showing shame.

But Fei Ye showed a proud look in her heart.

He didn't want to act with Lu Ming.

"Then... that's right, after all, Muyun saved us once. If it wasn't for Muyun's rescue, we might have been killed by the Tiangong Palace, so I proposed that the Dan furnace we got in the Dan field just now, How about giving Muyun some honors?"

The brave man who had the blood of primitive gods was really embarrassed and felt ashamed of Lu Ming.

"I disagree. Those red furnaces were exchanged for our lives. Why should we give them!"

Feiye immediately cried again.

"Yes, those red furnaces are our chances and the foundation of our lives. We will be promoted later to get more opportunities. We must rely on these red furnaces. I don't agree with him!"

The other person also called out. This person had a good relationship with Fei Ye, and naturally stood on Fei Ye's side.

"Everyone, the Dan furnace is the top priority. Whether you can get more opportunities later depends on these Dan furnaces. This is related to the future of all of us. If anyone is willing to give him, then you will share your share. give him!"

Fei Ye shouted.

Many people looked at each other, and some people were also in favor of giving Lu Ming a few golden furnaces to repay him, but now he is hesitant again.

"This..."

The strong man with blood of primitive gods also supports us.

Everyone else objected. He wouldn't agree with him alone. In the future, he wouldn't be able to mix and would be rejected by others.

He showed an embarrassed expression.

"No, there is more about Danlu, you keep it, and I prefer to act alone, let's go our own way!"

Lu Ming said coldly, then turned around and left.

After walking a few steps, Lu Ming stopped again, looked back at Fei Ye, and said, "I hope you won't ask me anything later."

After talking, Lu Ming did not stay, his figure flashed and disappeared directly from the place.

"It's ridiculous to ask him something, this kid is hard to protect himself, don't look at some combat power, but the master of Tiangong is like a cloud, just pull out one to shoot him, he can't be guaranteed, he will be killed at any time, we will later Something begs him, hehe!"

Fei Ye sneered, he was very comfortable to drive away Lu Ming.

"Feiye, don't be too lifelike!"

The strong man with blood of primitive gods scolded.

Fei Ye pours his mouth, not thinking.

...

Lu Ming flew all the way and continued towards the core area.

But after flying for a while, Lu Ming stopped suddenly.

"Who? Sneaky following behind, get me out!"

Lu Ming drank coldly, glanced like a power, glanced behind.

He had always felt that someone behind him followed him, and it felt that way after those who left with Feiye.

During this period, he performed several large-scale removal operations in succession, and he didn't get rid of this feeling. The person who secretly followed him was absolutely unusual.

The average person can't keep up with him.

"Brother Brother, no, it should be Brother Lu. Sure enough, I knew I couldn't hide!"

A chuckle came out, and then a figure emerged.

This is a young man, with a robe, obviously very elegant and handsome, with a smile on his face.

"You are... Ye Ling!"

Lu Ming looked at him and recognized the person.

This young man was not from the Heavenly Palace, but from the Destruction Army.

Earlier, Lu Ming took note of the origin of this person's life.

Before, it was this person who had followed him secretly.

"As soon as I leave Feiye's people, you will follow me in secret. What's the purpose?"

Lu Ming asked straight away.

"Of course I want to cooperate with Brother Lu!"

Ye Ling smiled.

Lu Ming's identity is not a big secret on the side of the Heaven Destruction Army. Many people know that Lu Ming is Muyun, and Ye Ling is also clear.

"Cooperate with me? Now Tiangong is chasing me everywhere, aren't you afraid of me getting involved?"

Lu Ming sneered.

Chapter 4310: Xianfu

"Afraid of getting involved? What's so afraid of?"

Ye Ling smiled faintly and continued: "Moreover, I am not as short-sighted as those of Fei Ye. As far as I know, the taboo bodies are all against the sky, and they have infinite luck. Kyrgyzstan, and encountering the fortunes of the sky, even those around you will benefit from it!"

"Cooperating with you, although it will be dangerous, but also accompanied by greater opportunities..."

"You are far-sighted, but why should I work with you?"

Lu Ming said.

"Now, your strength is not particularly strong and you need helpers. My current combat strength is above you and can help you. The two of us can complement each other and benefit from each other!"

Ye Lingdao, his expression looked very confident.

Lu Ming's eyes narrowed slightly.

This Ye Ling's strength is absolutely amazing, Lu Ming will not doubt it.

He could feel vaguely that this person's cultivation base is in the sixfold of Divine Emperor, but the combat strength cannot be measured by cultivation base, because this person is the top-level arrogance on the side of the extinct army.

What Fei Ye, in front of him, is not worth mentioning.

This person's combat power is definitely far above Lu Ming.

Now their cooperation is indeed beneficial to Lu Ming.

"Okay, I promise to cooperate!"

Lu Ming thought for a while and nodded in agreement.

Ye Ling is a natural arrogant on the side of the extinct army. They belong to the same camp and should not be harmful to him.

As Ye Ling said, their cooperation is a win-win situation.

"Haha, great!"

Ye Ling laughed.

"Since I left Feiye and others just now, you will follow me, so to speak, you have been there near that long ago?"

Lu Ming asked again.

This person has arrived long ago. Why not save Feiye and others?

"Don't think about it. At that time, I had just arrived, and when I arrived, the Tiangong had already been defeated by you. I didn't need my shot at all. I naturally didn't shoot, but I hid in secret!"

Ye Ling explained.

Lu Ming nodded. If this person had arrived long before, but had never shot, Lu Ming would have suspected this person's character.

"Brother Lu, looking at where you are going, is you want to go to the sea of crossing the river and then enter the core area?"

Ye Lingdao.

"Not bad!"

Lu Ming nodded.

"Can you fly a boat?"

Ye Ling asked.

"No!"

Lu Ming shook his head.

"How to transition to the Ecuadorian Sea without crossing the Ecuadorian boat?"

Ye Ling stared.

"That, try your luck!"

Lu Ming smiled awkwardly.

"Try your luck?"

Ye Ling's eyes were even bigger. He looked at Landing Ming as if he was watching something amazing. For a long time, he suffocated a sentence: "Sure enough it is the behavior style of taboo body!"

Lu Ming: "....."

"Do you have a boat?"

After a silence, Lu Ming asked.

"No, but I know there is a place, and I want to go with you!"

Ye Lingdao.

"Where?"

Lu Ming was interested.

"A fairy house is about to be born, and now a large number of people have rushed over. Generally, the fairy house is born, and there are usually parts for crossing the flying boat. You and I join forces and may not be able to gain something."

Ye Lingdao.

"Xianfu!"

Lu Ming's eyes lit up, and a ray of fine light flashed away.

In Taishang Xiancheng, in addition to the Danchang, there are some Xianfu Xianque, Xianfu Xianque, which is more advanced and rarer than Danchang, rarely born.

But inside Xianfu Xianque, there will be a greater chance.

Among the immortal ques in Xianfu, not only contains the sacred furnace, but also some other treasures, such as the parts of the flying boat.

"The birth of Xianfu, I am afraid that it will attract many masters. With the strength of the two of us, can we seize the parts of the ferry boat from those masters in Tiangong?"

Lu Ming whispered.

"Reassure, as far as I know, the strongest group of people in Tiangong, many have already entered the core area, and those who have not yet entered the core area are generally not too strong. We are more careful and may not be able to cope."

Ye Lingdao.

"Then do it!"

Lu Ming made a decision.

"That fairy house is now shrouded in formation, and no one has entered yet, let's go!"

Ye Lingdao immediately led the way and went in one direction, followed by Lu Ming.

Along the way, did not meet the people in Tiangong.

A few hours later, they came to a desert. According to Ye Ling, the location of Xianfu was in the desert.

"That is..."

After a while, Lu Ming glared and looked forward.

In the front, there is a bright ray of light, illuminating Tianyu.

Very far apart, you can see a huge immortal palace looming in the desert.

Arrived!

The two of them were shocked and moved on. The whole picture of the fairy house appeared in front of them.

A huge fortress in Xianfu stands like a huge fortress, standing in the desert, facing the direction of the front gate, and calling them on the landing side.

Outside Xianfu, there were many people around.

At a glance, there are at least thousands of people.

"A lot of masters!"

When Lu Ming glanced away, he saw a lot of Tianren races, some of them were strong and some were young.

Of course, more are from other races, and there are also middle-aged and young.

Among them, several young people drew the attention of Lu Ming.

"Tianjiao on the Universe Tianjiao list!"

Lu Ming moved.

There are only one hundred arrogances on the list of cosmic arrogances. The famous quake is in the vast universe. The fame is higher than that of many divine lords. They have their materials and portraits on them. Lu Ming has studied it, so he can recognize it when he sees it.

At this moment, among the crowd, there are several peerless arrogance on the universe arrogance list.

These people have outstanding temperament, standing in the crowd, like standing tall, even the Celestial Clan, it is difficult to hide their light.

"However, it is a relatively backward existence of the universe's arrogance list, interesting!"

Lu Ming whispered, with a hint of war in his eyes.

Gabbert, just ranked in the universe's arrogance list, ranked 98, be regarded as the gatekeeper of the universe's arrogance list.

These Tianjiao's rankings are all above Gabbert. I don't know how strong, Lu Ming is very curious.

"Inside, can anyone recognize you?"

Ye Ling asked Lu Ming.

"Hard to say!"

Lu Ming said, he was a little uncertain.

He stayed in the Tiangong Palace for a short time. Those who have seen him will see that he can recognize him from the breath of life.

There are so many people here, he can't figure it out, has anyone seen him.

In addition, the warrior armor that Lu Ming once passed through was taken back by the strong man of the Tiangong. The armor of the warrior was also contaminated with Lu Ming's breath. If anyone remembered the breath on the warrior of the warrior, he could recognize it. he.

Therefore, in Tiangong, how many people can recognize Lu Ming through the breath of life, and Lu Ming himself is not sure.

"I can only try my luck. I am not a descendant of primitive gods, nor did I practice primitive gods. There is no difference between the breath and the various races of the universe. These people cannot recognize me as the destroyer of the heavenly army. Recognize, we will retreat first!"

Ye Lingdao.

Then the two stepped forward and headed towards the fairy palace.
