

D Emperor 4311

Chapter 4311: Ten breaths

The two walked towards Xianfu. Many people looked at Landing Ming and Ye Ling in unison.

Lu Ming looked as usual, his face calm, but his spiritual consciousness emanated, observing the changes at any time, and if anyone could recognize him, he would leave.

There are too many masters here, so many people shot together, Lu Ming absolutely can not stop.

Even if there is Ye Ling.

But what made Lu Ming happy was that these people glanced at Lu Ming and Ye Ling, and then turned their gazes back without any exception.

"No one recognizes me!"

Lu Ming was very happy.

Including those Tianren races, Lu Ming did not recognize Lu Ming, which made Lu Ming secretly relieved.

It seems that although Tianbing's armor retains his breath, the high-rise of Tiangong obviously hasn't let all the Celestials touch him.

This is better, no one recognizes him, he can be mixed in the crowd, touch the fish in muddy water, get the parts of the flying boat.

Lu Ming and Ye Ling stood aside and watched quietly.

At this moment, a group of people are studying around Xianfu.

Because there was a layer of power around Xianfu, they could not enter.

"This is the power of the formation. We must break this level of strength before we can enter. Xianfu is actually alive, but we are blocked by the strength of the formation!"

Someone came to the conclusion after observing.

"Formation? Can that be cracked?"

Someone asked.

"It's difficult, because this formation is the formation of the last era. The operating principle is very different from the current formation. Even if you want to crack it, it will take some time!"

Someone who is proficient in formation answers.

"Then hurry up and crack!"

A celestial being sighed coldly, with a commanding tone, and the tone was full of high charm.

The other people's faces sank slightly, and they were very upset.

But the opponent is a Celestial Clan, and they dare not talk back to each other, they can only hold the fire down, observe silently, and find the way to break the formation.

This level is seven days.

"There is a way!"

Suddenly, a strong man who looked like he was in his thirties.

Everyone knows that nature comes from the world's tortoise family, and is the most proficient in formation among the people on the scene.

"Is there a way to break through the formation?"

"real or fake?"

Everyone else's eyes were bright, revealing the look of expectation.

"No!"

The brave man of the world turtle shook his head.

"No, you said that there is a way, fooling us?"

Someone said uncomfortably.

"Listen to me!"

The brave man of the world turtle said, "I can't break through this formation, but I have a way to open a passage for people to enter, but I can only stick to ten breathing time Upon arrival, the channel will immediately disappear and the formation will restart."

"What? Only ten breaths? Then if we go in, wouldn't it be impossible to get out?"

A master of the Celestial race frowned, apparently unhappy with this result.

"No, I have studied. This formation can only be blocked. When it comes out, there should be no reaction."

The brave man of the world turtle.

Everyone's heart slightly relaxed.

That's okay, as long as you go in, there will be no worries when you come out.

However, they immediately thought of a problem, only ten breathing time, so many people on the scene, where is there time, it is estimated that only part of it can go in?

However, everyone wants to go in, how to allocate?

Many people froze their eyes and looked around.

Obviously, there will definitely be a fight in a moment, and everyone wants to go in, and there will inevitably be a war.

"Open the channel, my Celestial Clan, must go in. Who wants to fight with us?"

A young Celestial sneered, his blond hair fluttering in the wind, his eyes full of arrogance.

People of other races have avoided this person's gaze, but his face is more dignified.

Yes, the Celestials are definitely going in. No one dares to compete with them.

At the scene, there were about 30 people in the Celestial Clan. When these Celestial Clan entered the passage, they would definitely consume some time, and the time left for others would be shorter.

Competition will be more intense.

"Then I started breaking through!"

The brave man of that world turtle, and then discussed it with several other masters of formation, and then took out some miscellaneous materials and began to break the formation.

Others watched nervously, pouring power into the body, ready to shoot at any time, waiting for the moment to open the channel, and rushed into the immortal palace as soon as possible.

Time is slowly lost.

After a few hours.

"Give me!"

The strong man of the world turtle shouted, his hands quickly pinched the seal, a complex and mysterious rune flew out, and fell into the ground.

Buzz!

There was a slight tremor on the surrounding ground, and a brilliant glow of Tao appeared, and a gap appeared in the formation of the guardian fairy palace.

This gap is not very large and can accommodate up to ten people at the same time.

"walk into!"

A celestial being arrogantly shouted and rushed towards the channel first.

The other Celestial Clan kept up, and more than thirty Celestial Clan turned into a ray of ray of light and rushed towards the channel.

No one dared to compete with the Celestial Clan.

Uh, uh, uh!

The speed of the Celestial Clan is very fast. More than thirty people, with only two breaths, all rushed into the channel and entered the formation.

It took two breaths and eight breaths.

"Rush!"

"I must enter the Immortal Mansion, Danlu, cross the flying boat..."

Many people shouted in their hearts, gleaming with greed, and rushed towards the channel.

Thousands of people rushed towards a small passage together, and the black one was too crowded to enter at all.

Many people even bumped together, which naturally triggered a war.

"Go away, don't hinder me!"

"You're hindering me, it's you!"

"court death!"

"Go to die!"

Near the passage, various attacks erupted and a great dogfight broke out.

Immediately, someone was killed and his head flew away.

Someone shot, immediately involved others, and all of a sudden, there was a scuffle in the whole area.

Everyone wants to rush forward and rush into the channel, but someone is blocking it in front, what should I do? Only by killing each other can they rush in.

When the war broke out, some people were very conspicuous.

For example, the arrogance of the few celestial arrogance lists in the universe was rampant and invincible, and all the people who passed by and blocked them were killed.

Of course, the strongest are not only the geniuses of the universe's arrogant list, but also a few strong men, and their combat power is also extremely powerful.

These strong men have relatively long practice time and advanced cultivation, and they spend a lot of time on various source secrets and physical secrets, so the power of all aspects is also amazing.

These powerful beings continue to rush forward, approaching the entrance of the passage one after another.

Chapter 4312: Universe arrogance, blood pole

Lu Ming and Ye Ling are also very fast.

Lu Ming was like a phantom, flashing in the crowd, avoiding a series of attacks, and approaching the entrance of the channel at a very fast speed.

Some people even want to shoot Lu Ming, but just after shooting, they find that they have lost the trail of Lu Ming.

And Ye Ling, he is also extremely mysterious in body style, not worse than Lu Ming, and he does not need to do it, avoiding the attacks of other people and approaching the entrance of the tunnel.

When Lu Ming approached the entrance of the passage, time had passed three breaths, plus the two breaths used by the Celestial Clan, time had passed five breaths, and there were five breaths left.

At this time, after the Celestial Clan, more than fifty people rushed into the passage.

Just as Lu Ming was about to rush into the passage, there was a terrorist force behind him, attacking him.

This force gave Lu Ming a sense of crisis.

Not thinking about it, Lu Ming turned around with a punch.

A brilliant punch, collided with a blood-red sword light, burst into a violent roar, a terrible strength rushed in all directions, and a group of people around were the first to be hit by these strengths.

Ah...

Several consecutive screams sounded, and in an instant, seven or eight of the weaker ones were directly penetrated by these energies and fell to the spot.

Some of the more powerful ones are also injured, coughing up blood and retreating, with a look of panic in their eyes.

"It's you, blood pole!"

Lu Ming drank coldly.

He was attacked by a young man, dressed in a red robe, handsome in appearance, with red hair, and all eyes were full of evil light.

Lu Ming knows this person, this person is called Blood Pole, is a peerless Tianjiao on the list of the universe's Tianjiao, and comes from the top ten race blood races.

This person is ranked 89th in the universe, and is stronger than Gabbert.

"I can actually stop me, yes, your life, I want it!"

A **** smile appeared on Xueji's face, and a blood sword was condensed in his hand. The blood sword shuddered into hundreds of sword lights and slammed towards the landing.

Jianguang roared, extremely sharp and terrifying.

This blood pole, Xiu Wei also reached Divine Emperor's five-level realm, but the combat power should have surpassed that of Gabbert. Lu Ming estimated that this person may have reached the seven-star combat power.

It's really a peerless Tianjiao in the universe's Tianjiao list.

However, this person is not Lu Ming's opponent.

Lu Ming condensed a spear in his hand, and the spear shook, bursting out millions of guns, blocking the **** sword light.

Then, Lu Ming glanced indifferently at the blood pole, and did not continue to shoot, but his figure flashed into the gap of the formation.

"This kid, **** it!"

Blood pole continued to make moves, but Lu Ming didn't have any help. The tyrannical murderous opportunity appeared in his eyes. His body flashed into the formation gap.

At the same time, Ye Ling and Lu Ming rushed into the formation gap almost simultaneously.

As soon as they burst into the gap of formation, they came into a courtyard.

This is a courtyard in front of Xianfu.

This yard is planted with many plants, but these plants are withered, without leaves, and there are only twisted and dried branches.

"That branch is moving?"

Suddenly, Lu Ming found that the dry branches were moving again.

Upon closer inspection, Lu Ming's pupils shrank.

Because he found that above these branches, this centipede inhabited.

The black centipede is like a small sword.

This is Black Sword Centipede, Lu Ming once saw it in a purple-level pill field.

咻咻咻!

At this moment, those black sword centipedes moved and rushed towards Landing Ming. These people made a sharp sound of breaking the air, like a small sword.

puff!

Immediately, someone caught the shot, the body was pierced by the black sword centipede, and the screaming retreated.

Then, more black sword centipedes rushed to this person, wanting to kill this person in one fell swoop.

"Get out of here!"

The man shouted, took out a weapon from Taishang Xiancheng, and cut it out.

Clang clang!

The weapon of Taishang Xiancheng was cut on these black sword centipedes, and the sound of gold and iron intersecting was actually made, and Mars was everywhere.

More than ten black sword centipedes were cut off, but they were not cut off.

These black sword centipedes, continue to rush towards this person, very fast, and will also turn in the air.

Too many, this person has been injured, can not resist at all, barely blocked a few strokes, he was pierced by the black sword centipede and fell on the spot.

At this moment, almost everyone who entered Xianfu was attacked by Black Sword Centipede.

Lu Ming did not hesitate and took out a war sword.

This is the sword of Taishang Xiancheng. It is extremely sharp.

With a trembling of his wrist, the war knife cut through the air and split into dozens of blade lights in the air, slashing towards those black sword centipedes.

Keng! Keng! ...

Between the splashes of Mars, more than a dozen black sword centipedes were cut off and flew out, but were not cut off.

"So hard..."

Lu Ming's eyes narrowed.

These black sword centipedes were not cut off.

He remembers that those black sword centipedes could be easily cut off when they were in the purple-level pill field.

But now, it has not been cut off. The strength of this black sword centipede is stronger than that of the purple-level Danchang. I don't know how much.

After being cut off, these black sword centipedes twisted their bodies and rushed towards the landing.

"I don't believe it, I can't cut you!"

Lu Ming's eyes were cold, sixty trillion cells in the body tremble, and a trace of forbidden power rushed out from each cell, gathering into the power of the ocean and rushing into Lu Ming's arm, turning into a terrible power.

Uh!

The sword in Lu Ming's hand was cut out again.

In the previous move, Lu Ming only used two points.

Because he had contacted the Black Sword Centipede, he thought that two points of strength were enough, and then there would be fierce battles in the Immortal Mansion, and it would be a little to save some strength.

It's just that the strength of the Black Sword Centipede exceeded his expectations, and he could only use five points.

This time, when the war sword cut a dozen black sword centipedes, these black sword centipedes were easily cut open, cut in two pieces, and fell to the ground, no longer breathing.

The blood pole also rushed in after Lu Ming, who had wanted to continue to deal with Lu Ming, and because he was besieged by a large group of black sword centipedes, he could only fight against black sword centipedes.

Lu Ming's combat power is top-notch in the scene. He can kill the Black Sword Centipede, which does not mean that others can.

In fact, many people are in crisis at the moment.

Some of the weak combatants have already fallen to the ground, without the breath of life.

Even if the cultivation base is relatively strong, many people were injured.

Behind, there are still people rushing in.

Finally, ten breathing times are up.

Before and after, rushed into nearly 200 people.

But at this time, more than thirty people had died in the hands of Black Sword Centipede.

And the gate of that fairy house is still closed.

Chapter 4313: Within Xianfu

The gate of Xianfu is closed, and here, there are countless black sword centipedes attacking them, what should I do, do we have to retreat?

Many people are very unwilling.

I just came in, I had to quit, I got nothing, not even the gate of Xianfu.

But if you don't retreat, you will be killed by the black sword centipede.

How to do?

what!

At this moment, there was a scream, and someone died in the hands of the black sword centipede.

And, after being killed by Black Sword Centipede, Black Sword Centipede will crawl into the body of the slain and eat their essence. It is really miserable.

"Damn, retreat, retreat!"

"go!"

More than a dozen people finally collapsed, screaming and rushing outside.

Sure enough, as the brave man of the world's turtle family said, withdrawing, there will be no obstacles, and easily left the range of the formation and returned to the outside.

Outside the formation, you can also see the inside.

At the moment, many people outside the formation were pale, sweating and sweating, secretly rejoicing that they had not entered just now.

Especially for those with weak combat strength, they are even afraid of it. If they went in just now, they might have died in the hands of Black Sword Centipede at that moment.

Sure enough, the opportunity is not so easy to take, especially this kind of fairy house, is full of crisis.

Click!

At this time, the gate of Xianfu actually made a clicking sound, and then, opened!

Yes, the door of Xianfu opened automatically.

Lu Ming and others were stunned for a moment, and then they showed surprise.

"The gate of Xianfu opened, haha, I was lucky, I just wanted to quit!"

"Me too. Fortunately, I persisted for a while!"

"Rush!"

Suddenly, a figure flew the black sword centipede and then rushed towards the gate of the Xianfu.

Lu Ming and Ye Ling also shot continuously, flying around the black sword centipede, and then rushed towards the gate of Xianfu.

The first few people have rushed into the gate.

As soon as they rushed into the gate, the black sword centipedes stopped, and did not continue to pursue, and turned back to kill others.

Outside of the formation, the dozen or so people who had just retreated were stunned.

Then a flushed face flushed and almost vomited blood.

What are you doing? They had just quit, and the door of Xianfu opened.

Regret, regret.

If they insisted for a while, they could rush into the fairy palace.

Entering the Immortal Mansion, you may be able to get a great chance to cultivate for a rapid advance and change your destiny.

As soon as they thought of the possible chance that they might have just slipped out of their hands, they were so angry that they felt pain in their lungs and kidneys.

Lu Ming and Ye Ling's speed is very fast, the two can not breathe, also rushed into the gate.

As soon as they rushed into the gate, the black sword centipedes stopped chasing.

Behind the gate is a hall.

In front of the main hall, there are nine gates. Behind the gates, there is a dark, dark passage, which is obviously a passage.

At this moment, no one has acted, because I don't know which door to walk, nor which one is safe, or which one is dangerous, but are waiting for others to try.

Uh, uh, uh!

Behind, people rushed in constantly, others already came in.

"Boy, die for me!"

As soon as Blood Pole rushed into the hall, he stared at Lu Ming. He had a pair of blood-colored bat wings behind him. One wing, like a lightning bolt, rushed towards Lu Ming.

This time, instead of condensing the Hemorrhage Attack, Eli Claw caught Lu Ming.

His sharp claws are extremely sharp, surrounded by blood, and between his waves, there is a strong **** smell.

"Humph!"

Lu Ming snorted coldly, without fear, and greeted him with a fist.

The two figures collided together, the fists and claws intersected, and there were dozens of moves in an instant, and there was no victory or defeat.

The practice of Blood Pole is at the peak of Divine Emperor's Fivefold, and the combat power reaches seven stars, which is stronger than Gaborte.

However, Lu Ming's current cultivation practice has already reached the fourfold of Divine Emperor. If he tries his best, the combat power will completely crush the blood pole.

However, Lu Ming did not go all out, but the explosive ten-star combat power, and the blood pole battle became a tie.

The gun hit the bird!

If the performance is too strong now, it will definitely be targeted by others. If there is any treasure behind it, it is not easy to compete.

Therefore, Lu Ming's performance is relatively low-key, but only a tie with blood pole battle.

But in Lu Ming's view, it is already low-key, but in the view of others, it is simply horrified.

"What a terrible fighting power, who is this kid, but the Divine Emperor is fourfold, and can even draw a **** tie?"

"Blood Pole has a seven-star combat power, he is overwhelming and crushing others. Now, some people have even lowered their cultivation base, and they have become a tie with Blood Pole, terrible, terrible!"

"This person actually has ten stars?"

Many people took a breath, and watched Landing in shock.

Although in the Divine Emperor Realm, there is no limit of the Ninth Level of the Divine Emperor Realm, and based on the Divine Emperor Realm, the original divine power factor, the original secret technique, etc., are easier to comprehend, and the stronger will be stronger.

However, in the Divine Emperor Realm, the ten-star combat power is still very rare and extremely rare.

What is the origin of this person?

Especially the peerless Tianjiao on several other universe's Tianjiao list, the eyes are even more dignified.

Ten-star combat power, too terrible, will be their enemy.

In this Taishen fairy city, star power is the fundamental, but cultivation is the second.

Because in the Taishang fairy city, as long as there is Hong Huangdan, cultivation base will advance by leaps and bounds.

After being temporarily weakened, as long as there is enough Honghuang Dan, it will soon catch up.

With Lu Ming's combat power, once Xiu Wei catches up, it will be very scary.

Many people's eyes flickered, revealing a murderous opportunity to Lu Ming.

Bang Bang Bang...

Lu Ming and Xueji have already fought against each other for a hundred strokes, and neither of them has a victory or defeat. With a violent roar, the two retreat at the same time, facing each other.

"Damn!"

Blood pole roared in his heart and looked at Landing with cold eyes, but deep in his cold eyes, there was a deep shock.

Lu Ming's combat power is really beyond his expectations.

Just now, he has urged the fighting power to the extreme, and he can't take Lu Ming.

Dealing with a person who is one less advanced than him, he can't even win the other party. In this situation, he encountered this situation only once in his life.

This is the second time.

"who are you?"

Drink blood very cold.

He did not believe that Lu Ming was a silent and unknown generation, and most of them were some kind of arrogant.

In his mind, several of the most terrible evils quickly appeared, but they couldn't match Lu Ming.

Cultivation is not right. For the most terrible evildoers he knows, cultivation is more than the fourfold of Divine Emperor.

Lu Ming sneered and did not respond.

The eyes of others finally moved away from Lu Ming.

Because at this time, someone rushed towards the nine doors.

Someone couldn't help it.

Uh!

Two figures joined together and rushed into a gate without causing any anomalies.

Chapter 4314: Danlu and Puppet

"It's okay!"

Many people watched.

The two rushed into a door without causing any anomalies.

Is it good luck to just rush into a safe gate, or are all nine gates safe?

In the hearts of everyone, one thought arose.

Uh! Uh!

Someone rushed towards the safe gate, entered it, and disappeared.

"We are here too!"

The arrogance of a Celestial Clan said indifferently, and led a group of Celestial Clan to rush towards the gate.

The other eight gates are still uncertain, but at least this gate is safe, and this gate is naturally selected.

This made other people's hearts sink, and their faces looked a little ugly.

Some people originally wanted to rush into this gate, and then stopped.

Going to the door with the Celestial Clan, even if there are treasures, they will definitely not have their share.

Don't talk about treasures, maybe they will let them block the sword when they are in danger.

No one wants to go with the Celestial Clan.

"Let's try other gates!"

Finally, someone walked towards the other gates, ready to test it.

Unexpectedly, after entering the gate, they did not encounter any danger or abnormalities.

"It's okay? Are these nine doors without danger? Are we worried?"

"It's possible, maybe it's just nine ordinary doors!"

Many people talked secretly.

Two consecutive doors are fine, which makes many people more courageous.

Immediately, someone went to another door that no one had walked through.

It's still okay, there are no exceptions, it seems, just an ordinary door.

This time, it made more people bold.

"go!"

"Let's go too!"

Someone keeps on moving towards other gates.

Almost every door has someone walking, and the end result is all right.

Lu Ming and Ye Ling glanced at each other, then nodded, flashing, and headed towards the door on the far left. The two rushed into that door.

Xue Jiwang landed Ming Ming's figure, his eyes flickered a few times, and finally did not choose the same road as Lu Ming, but went to another gate.

Behind the gate is a passage, dark and deep.

Some people were running in the passageway. At first, the speed was not fast, guarding around, but did not encounter any abnormalities. Gradually, everyone became courageous and became faster and faster.

After running for about a few hundred miles, the light in the front lit up.

Channel, at the end.

"That is..."

Lu Ming's eyes moved.

He found that at the end of the passage is a huge platform.

Above the platform, there is a striped road, which is interwoven into a huge gossip picture.

On these gossip figures, there are some red furnaces placed.

There are twelve red furnaces in total.

One big and eleventh.

Large ones, about three meters in diameter, and small ones, about one meter in diameter.

Many people's eyes light up.

Unexpectedly, shortly after entering Xianfu, I saw twelve pill furnaces, which is comparable to a purple pill field.

Uh, uh, uh!

There were more than a dozen people in this passage, all bursting out at the moment, rushing towards the platform and towards the twelve Buddhas.

Lu Ming and Ye Ling also moved, and the two of them were directly facing the red furnace about three meters in diameter.

A three-meter-diameter red furnace is comparable to ten red-meter furnaces.

Therefore, it is not only Lu Ming and two who are staring at this great furnace.

There are several others.

"roll!"

One of them is a big man with a bald head and a buddhist body all over him.

He was very strong, waving his palms, and several golden palm prints slammed toward Landing Ming and others.

This is a pure Buddhism, with the six emperors of the Divine Emperor, the strength is very strong.

The golden palm print pressed out, and the terrifying terror, even Lu Ming, felt a trace of pressure.

boom!

Lu Ming punched out and collided with this golden palm print, blocking the golden palm print.

Ye Ling also printed a palm, which also blocked the golden palm print.

However, there are two other people, who are also rushing towards the three-meter-diameter Dan Furnace. These two people do not have the powerful fighting power of Lu Ming and Ye Ling.

The two screamed and fought hard to resist, but when the golden palm print was pressed, their attack was crushed, and the palm print pressed against them. They screamed, their bones were broken, their mouths coughed up blood, and they turned backwards. It flew out, already angry.

Four-star combat power!

The fighting strength of this strong man of the Buddha tribe has reached four stars, and his cultivation ability has reached the sixth level of Divine Emperor.

"Boy, if you want to fight with me, you may not be able to get this golden furnace from my hands!"

The strong Buddhist man sneered.

Having said that, his eyes on Lu Ming and Ye Ling were full of dignity.

Lu Ming and Ye Ling lightly blocked his attack just now, making him a little bit confused.

"Really, then it depends on your strength!"

Lu Ming smiled, his figure kept on, and rushed towards the Dan furnace.

The strong men of the Buddhism also rushed towards the Danlu.

Huh...

At this moment, there was a strong wind in the sky above, and there was a strong sound of breaking through the air.

Lu Ming's eyes narrowed, and he didn't want to think, punching upwards with a punch.

Above, a blade of light chopped towards Landing Ming and collided with Lu Ming's fist.

With a violent roar, Daoguang was blocked, and Lu Ming saw a tall figure, and backed away.

However, as this figure retreated, there were other figures that continued to pounce on the landing.

A total of several, the knife was cold and straight, slashing Lu Ming's head.

Lu Ming flashed, and quickly backed away, avoiding these knife lights.

"Is this... a puppet?"

Only then did Lu Ming see clearly the appearance of these figures.

They attacked them, adult-shaped, more than two meters tall, armed with war knives, but they were not flesh and blood, as if they were made of metal, but they were not a metal family.

In their eyes, there was a cold, ruthless light.

Lu Ming can see that this should be a puppet.

At the moment, at least hundreds of puppets appeared on the platform. They all looked exactly the same. Every burly figure had a powerful combat power. At this moment, some people had been killed.

Uh! Uh!

These puppets were in a vertical and horizontal shape, and they were cut out by a knife. A triple master of Divine Emperor was split in half and fell on the spot.

There were dozens of people on this platform. In a flash, Lu Ming, Ye Ling, and the Buddhism strong man were left.

Uh, uh...

Hundreds of puppets killed three people at Landing Ming. Hundreds of sword lights shrouded them in. Each sword light was amazingly powerful.

"kill!"

The strong man of the Buddhism shouted, and his body exuded gorgeous glow. Behind him, a big Buddha emerged. This big Buddha, with hundreds of arms, hundreds of arms, slammed toward the puppets.

Chapter 4315: Special puppet

Hundreds of golden palm prints collided with the lights of dozens of puppets and burst into a fierce roar.

However, these puppets were so strong that they were chopped off, and those golden palm prints shook violently, then collapsed.

Daoguang continued to slash towards the strong man of Buddhism.

The face of the strong man of the Buddhism changed greatly, his body suddenly retreated, and he kept blinking. He wanted to avoid these sword lights, but after all, he slowed down a bit and did not avoid them completely. In addition to his body protection, he left several wounds on his body.

At the same time, Lu Ming and Ye Ling also fought with these puppets.

At this moment, Ye Ling finally showed great strength. He turned into a phantom and wandered among the many puppets. While walking, his palms were continuously shot, and every paw shot, a puppet was shot and flew. In a moment, dozens of puppets were shot and flew out.

Lu Ming also almost exploded with full force, triggering a seven-fold combat power of Zhanzi Jue, which was almost useless.

He blasted dozens of punches in a row, and banged against dozens of puppets.

After a series of roars, Lu Ming felt a burst of violent power, his body could not help but retreat backwards.

Of course, during the period, he also hit the puppets with fists, and flew these puppets, but it was just a blow, these puppets had nothing at all.

"Using the weapons of the Taishang City!"

Aside, Ye Ling reminded.

In his hand, there was already an extra sword of war, which was the weapon obtained in this fairy city.

The sword of war turned into a sword light, and it was cut on several puppets.

Sure enough, these puppets were directly cleaved and cut in two.

The weapons of Taishang Xiancheng could indeed break these puppets.

In Lu Ming's hand, a battle sword also appeared.

Uh!

Lu Mingren's knives were united in one, slashed out, and beheaded a puppet.

Zizi...

The sword cut the puppet, and made a piercing sound. Eventually, the puppet's head was split, and the puppet fell directly to the ground.

However, Lu Ming's face was not happy.

It is more difficult to split the puppet than expected. Just now, I encountered a huge obstacle, which was very laborious.

Ye Ling looked relaxed, only to show that his strength was too strong.

Uh! Uh!

After splitting a puppet, Lu Ming continued to shoot, and the sword continued to cut out.

There were several puppets one after another, which were split by Lu Ming and scattered on the ground.

Although strenuous, Lu Ming couldn't stop the attack.

However, it is not so easy for the strong man of Buddhism.

He also took out a weapon from Taishang Xiancheng, an axe.

In the beginning, he was able to hack several puppets in succession, but gradually, his palms became numb and his arms shook slightly.

Splitting these puppets, the anti-shock force is too strong, and at the same time, it consumes too much force.

However, there are hundreds of puppets on this platform, and there are still puppets rushing towards them.

The strong men of the Buddhist clan roared and tried their best to confront. Soon, five or six puppets were hacked by him. A total of more than a dozen puppets died before him.

But at this moment, his power was almost exhausted, his arm was sore, and there was blood oozing from the tiger's mouth, and he couldn't hold the axe.

when!

He made another move with a puppet. This time, his arm trembled, and he could no longer hold the axe. The axe flew out and flew out. At the same time, there were at least ten puppets, killing the strong men of the Buddhism.

"No, help!" The brave man of the Buddhism cried out in despair and shouted for help.

But how could Lu Ming and Ye Ling save him?

Although Lu Ming did not feel bad about the Buddhism, after all, the Buddhism was standing on the side of the Tiangong, and he did not like it.

In addition, now that they are in a competitive relationship, how could Lu Ming save his enemy.

More than a dozen puppets rushed to the strong man of Buddhism. The strong man of Buddhism reluctantly resisted a few strokes, but in the end he lost, and was killed mercilessly.

After beheading the strong men of the Buddhism, these puppets continued to kill Lu Ming.

"Kill, kill!"

Lu Ming shouted, and the sword continued to cut out.

He is a taboo body, and every cell contains power. The power is as vast as the sea, but it is not so easy to exhaust.

Soon, there were more than thirty puppets, beheaded by Lu Ming, and turned into lifeless metal blocks scattered all over the place.

As for the other puppets, they have all been beheaded by Ye Ling.

I have to say that Ye Ling's combat power is unpredictable.

"Great!"

Lu Ming exclaimed.

"You are stronger, a battle at the same level, I will definitely be killed by you!"

Ye Ling said.

Then, the two began to act, flashed their bodies, and put away all the red furnaces. Finally, the two walked towards the biggest red furnace.

No matter who collects it, it is the same. They are cooperative relations, and the treasures they get will be evenly divided later.

But just as the two approached the Danlu, above them, there was a gust of wind, two sharp energies, and they killed Landing Ming and Ye Ling.

Quick, it was too fast, and Lu Ming was too late to dodge.

Lu Ming can only raise the sword and wave it to block it.

when!

With a violent roar, Lu Ming felt a powerful force, and rushed along the battle knife. Lu Ming's body retreated uncontrollably, feeling the blood and blood in his body.

On the other side, Ye Ling reacted extremely quickly, directly avoiding this attack and retreated to Lu Ming.

"Another puppet!"

Lu Ming's eyes moved.

This time they attacked the same puppet, but the number was only one.

This puppet looks slightly different from the previous puppet.

This puppet looks more beautiful in lines, looks closer to the human race, and looks more advanced.

At the center of his eyebrows, there is a red dot, like a ruby, inlaid on it.

It also carried a war sword in its hand.

"kill!"

The puppet sipped a little, his body slightly bent, and then suddenly flicked, rushed towards Landing Ming and Ye Ling, and Daoguang slashed towards Lu Ming and Ye Ling, the speed was extremely alarming.

"give it to me!"

Ye Ling opened his mouth, and before his words fell, he rushed over, and in the process of rushing out, his body burst into a strong breath.

call out!

The war sword in his hand turned into a brilliant sword light, stab toward the puppet, faster than the puppet's sword light.

"Good, is this Ye Ye's true combat strength?"

Lu Ming's eyes narrowed.

Ye Ling's sword is extremely terrifying. If he pierces him, Lu Ming feels that he can't stop it.

Ye Ling's cultivation base is the sixfold of Divine Emperor, but his combat power has definitely reached eight stars, or even higher.

As for the specific height, Lu Ming couldn't figure it out, because he didn't know if Ye Ling had used his full strength.

This kind of combat power is absolutely terrifying, and it is worthy of being one of the strongest arrogances of the annihilation army.

With a ding, the sword punctured the puppet's chest.

Chapter 4316: Flying boat parts

Ye Ling's terrible sword pierced the puppet's chest and made a sting.

Surprisingly, the tip of the sword did not pierce the puppet's chest, and Ye Ling's long sword could be seen bent up into an arc, and then the puppet was flew out.

The puppet was flew a few hundred meters away before stopping. But there was no scar on his chest, only a white spot.

"This... why is it so hard?"

Lu Ming glared, showing shock.

Ye Ling's sword was absolutely terrifying, coupled with the sharpness of the weapons of Taixian Xiancheng, even if that sword came, Lu Ming would have to use a pair of stabbings even if he used all the means.

But the sting on the puppet had no effect at all.

This is amazing.

"kill!"

The puppet roared, and his body rushed towards Ye Ling again. The sword was broken, and several hundred knives were cut out instantly.

The heavy shadow of the sword, looming towards Ye Ling, the speed is astonishing, as if to avoid inevitable.

However, Ye Ling obviously did not intend to evade.

The long sword in his hand shook, and the sky was covered with sword flowers, colliding with those sword lights.

Ding Ding Ding...

The sound of intensive collision sounded, and the collision hit hundreds of times in an instant, and all the knife lights were blocked, disappearing without a trace.

Then, Ye Ling's body flashed, and hundreds of phantoms appeared, attacking around the puppet.

Sword light, crazy puppet killing.

Or thorn, or cut...

Dangdang...

On the puppet, Mars was shining, and in a moment, at least hundreds of sword lights fell on the puppet.

However, it is useless.

It didn't work at all. There were no scars left on the puppet.

Instead, Ye Ling was careless and almost got slashed by the puppet.

In terms of combat power, Ye Ling's combat power is completely above this puppet, but the puppet's defensive power is too strong, and Ye Ling can't break it at all.

In this way, no matter how strong Ye Ling's fighting power is, this puppet can't help it.

"The point that attacked his eyebrows, when you just attacked, it always defended his eyebrows intentionally or unintentionally..."

Lu Ming shouted, he doubted this puppet, his brow was his flaw.

Ye Ling's eyes lit up, his figure flashed, and he rushed toward the puppet, and a sword pierced the puppet's brow.

Uh!

This time, the puppet did not fight back, but instead retreated, holding the sword on his forehead. Ye Ling's Jianguang was blocked by a bang.

With this power, the puppet retreated.

Wow, wow!

Ye Ling's wrist shook, his sword qi was vertical and horizontal, and dozens of sword lights spurted toward the puppet's eyebrows from different directions.

But the puppet didn't care about the rest of the place. Just looking at the eyebrow, the war sword was there, and Ye Ling couldn't break through his defense.

Dozens of consecutive moves have been blocked.

In this way, they are more certain that the puppet's eyebrows are his key.

"You open your sword with all your strength, I will attack!"

Lu Ming sent a voice to Ye Ling.

"it is good!"

Ye Ling nodded, holding the sword in both hands, the vast divine power rushed into the war sword, struggling to cut out a sword.

It's just a simple sword with no extra tricks, but the power is amazing.

when!

This sword was slashed on the puppet's sword and gave a violent roar. The puppet's body was slammed backwards. At the same time, his sword was also bombarded by a powerful force and shifted its direction from its eyebrow. Moved away.

It's now...

Lu Ming did not hesitate to perform the Great Aurora technique. Under the figure, he appeared in front of the puppet. The sword in his hand pierced the puppet's eyebrows.

Lu Ming was too fast. In an instant, he appeared in front of the puppet, and the puppet's sword was just opened by Ye Ling. This time, he could no longer resist the knife.

With a puff, Lu Ming seemed to stab a bubble, piercing the puppet's eyebrow.

At the next moment, a powerful and amazing breath broke out on the puppet.

Lu Ming was shocked. Was he guessing wrong? The puppet's eyebrows weren't the point?

Without hesitation, Lu Ming quickly backed away, retreated to Ye Ling, and watched alertly.

At this moment, the puppet was stiff and motionless, but the breath on his body was extremely violent, and at the same time, a rune appeared on his body, emitting a gorgeous glow.

Then an amazing scene appeared, the puppet's body began to twist and change, and finally became a strange thing.

This thing looks like an arc, like a corner of a ship.

"This...is it a part of crossing a ferry boat?"

Lu Ming was dumbfounded.

Aside, Ye Ling was also the same, hesitated for a while, and said: "This should be a part of the ferry boat. Unexpectedly, the parts of the ferry boat here actually exist in this form, and will become puppets..."

Ye Ling is a peerless demon who destroys the heavenly army. Like Lu Ming, he has also read some information about Taishang Xiancheng.

In the materials they have read, it is also mentioned that the parts of the ferry boat will exist in various forms, and the form will be different in different fairy palaces.

However, it is not mentioned that the parts of the ferry boat will become puppets and have a strong attack power.

"It turned out to be part of the ferry boat. It is no wonder that it is so hard. It seems that only puppets with red dots on their hearts are the parts of the ferry boat. The others are not."

Lu Ming said.

"No matter, let's put it away first and continue to look for other parts to fly through!"

Ye Lingdao.

Lu Ming nodded, flew up, and waved his hands away, collecting the parts of this flying boat.

After being put away, Lu Ming looked up and looked up.

Above this platform, there is also a platform suspended in midair.

Just now, those puppets came down from this platform.

In fact, the suspended platforms, not just this one, can also be seen floating one by one when looking further away.

This piece of void is very vast, with platforms floating everywhere.

These platforms are round, and the diameter of each platform is about a hundred miles.

"go!"

Lu Ming took a sip and rose up with Ye Ling toward the platform above.

Soon, the two successfully landed on the upper platform.

On this platform, it is already empty, and there is no puppet.

Above this platform, there is also a platform.

The two continue to rush towards the upper platform, where the geographical position is already very high, and you can overlook other places.

Standing here and looking, there are platforms everywhere, and at a glance, there are no fewer than hundreds of platforms.

On these platforms, there are flashing figures everywhere, all puppet figures.

Boom!

There were roars everywhere, wars everywhere.

"Blood pole..."

Lu Ming's eyes moved, and he saw the peerless Tianjiao in the universe's Tianjiao list, blood pole.

Chapter 4317: Heavy platform

The blood pole at this moment was extremely embarrassing. He turned into a blood-colored bat and turned into dozens of blood-colored bats, constantly flashing in the air, avoiding those puppet attacks.

The blood power is almost the same as that of the strong Buddhist before. They are not opponents of these puppets at all. At this time, they are besieged by dozens of puppets.

However, after all, he is a peerless arrogant, with many life-saving means. Under the siege of dozens of puppets, he was only seriously injured and was not killed. His body rushed crazy outside, escaping the platform, and then from a passageway. I rushed in and disappeared.

Not only this platform, but also on many other platforms, some people's bodies were seen and they came in with them.

Many people died, and some of them rushed out of the platform frantically.

Obviously, most of the people are not opponents of these puppets. The weaker ones were killed, and the stronger ones fought desperately.

Of course, there are also amazing capabilities.

On several platforms in the distance, Lu Ming saw several figures, holding weapons from Taishang Xiancheng, with vertical and horizontal shapes, beheading each puppet.

Two of them are peerless monsters on the universe's arrogant list, and their combat power is much stronger than the blood pole. Needless to say, the ranking must be far above the blood pole.

The rest are a few strong men.

The cultivation of these strong men is extremely advanced, and at the same time, the combat strength is also very strong. The overall combat strength is above the blood pole.

Obviously, the previous nine doors all led here.

"There, there is a special puppet!"

Lu Ming's eyes lit up and looked at a platform on the lower left.

That platform is the platform where the blood pole was located. Among them, there is a special puppet with red dots on the eyebrows, which is very similar to the puppets made by crossing the flying boat parts.

It is possible that this puppet was made of parts of a flying boat.

Before, it was this puppet that almost killed Xueji.

The two did not hesitate, their bodies flickered, rose into the air, and rushed to the platform.

As the two approached, the special puppet's eyes looked like Lu Ming and the two looked over.

"kill!"

This puppet, like a wise man, groaned in his throat.

Uh, uh, uh!

Immediately, the ordinary puppets were killed by Xiangming Ming and they were stricken with a knife, and they shone away from the landing.

Lu Ming and Ye Ling also rushed up and started a war with these puppets.

They are armed with weapons from Taishang Xiancheng, and they are extremely sharp. It is not difficult to deal with these puppets.

Ye Ling, in particular, was obviously very relaxed. When the armor shattered, a puppet was split.

Lu Ming was a little more difficult, but it was okay and could bear it.

The two joined forces and rushed forward, towards the special puppet.

Their goal is this special puppet. As for ordinary puppets, it's useless at all. If you can kill as little as possible, save less.

Soon, the two were approaching this special puppet.

"kill!"

This special puppet growled, holding a war knife, and killed them at Landing Ming.

The three figures, like three lightning bolts, cross each other.

Keng! Keng! ..

The attacks of Lu Ming and Ye Ling chopped the puppet's body, making a sonorous sound, and Mars was shining.

When they looked at each other, there was no trace left, as before.

Their eyes light up.

This puppet is also extremely hard, and it is the same as that of the part of the ferry boat. Then, this puppet is also the possibility of the part of the ferry boat.

"Cooperate as before!"

Lu Ming sent a voice to Ye Ling.

Ye Ling nodded, bursting out a strong breath, brandishing a war sword, and slashing towards the puppet's eyebrows.

The puppet can only wield a sword to resist, but Ye Ling's power, how powerful, this puppet's sword, was immediately swayed and shifted out.

Lu Ming had seized the opportunity to perform the Great Aurora technique, flashed his figure, and rushed to the front of the puppet, stab it out with a knife, and pierced the puppet's eyebrows.

After piercing, Lu Ming retreated sharply.

Sure enough, as before, this puppet burst out with a strong breath, a rune appeared on his body, and then his body shape changed drastically, turning into a strange thing.

The shape is different from the previous one, but it can also be seen that this is also a part of a flying boat.

"This should be the keel... the one before it should be the stern!"

Ye Lingdao.

The ferry boat is divided into nine parts including the bow, hull, stern, deck, keel and sail.

Only by collecting nine kinds of parts, a complete flying boat can be formed.

Only a complete ferry boat can pass through the Ecuadorian Sea, even if there is one kind of spare parts, that will not work.

Ye Ling's figure flashed, and he collected the parts of this flying boat.

The two men's eyes swept to other platforms.

In fact, there are not many puppets made by this kind of flying boat, and they are not available on every platform. The two people glanced at them and only saw a few platforms.

Of course, there are many platforms here, and there are definitely many puppets made by crossing parts.

Lu Ming also did not fight with those ordinary puppets, and started to practice, avoiding these puppets, rushing towards other platforms, specifically killing those special puppets.

With the cooperation of the two, there was no disadvantage. Soon, three special puppets were killed by them, and three parts were successfully obtained.

Together, the two have already obtained five parts for crossing the Ecuador.

It is a pity that one of the parts was duplicated and two pieces were obtained.

However, let's put it away first.

The parts of this kind of ferry boat are so difficult to obtain, they are absolutely precious, and they can be used to trade and exchange some treasures.

Dozens of platforms around were searched by Lu Ming and Ye Ling, and the two headed for other platforms further away.

In the distance, several eyes glanced at Lu Ming and Ye Ling, who were other masters.

These people just saw that Lu Ming and Ye Ling had obtained several pieces of ferry boat crossing. They looked very hot and very excited, but in their hearts, they were terrified.

They are mainly afraid of Ye Ling.

Although Lu Ming is strong, they can deal with it on their own, but Ye Ling's combat power makes them feel bottomless.

In the end, no one dared to shoot.

Lu Ming and Ye Ling came to the platform farther away, and they ran into that special puppet again.

The two cooperated and continued to hunt this special puppet.

After a period of time, they got a total of twelve parts for crossing the Ecuador. Unfortunately, only seven of the twelve parts were different, and five of them were repeated.

In this way, not even a flying boat can be formed.

Chapter 4318: Hematemesis

However, there are many platforms here, and they have not searched them all.

The two continued to rush towards the platform farther away.

However, after a while, they stared.

The situation on the front platform is somewhat beyond their expectations.

On these platforms, there are also puppets.

But these puppets were all beheaded, incomplete, metal bodies scattered everywhere.

At a glance, all of them were piecemeal metal puppets, none of them were intact, and they were all split with sharp edges.

Moreover, there is no trace of a special puppet.

"Who is so terrifying in strength, actually killed all the puppets on all platforms!"

Lu Ming took a breath.

"It should be a Celestial Clan. Although the Celestial Clan does not have the top masters this time, the average strength is very strong. Those Celestial Clan strong men are not weak. It is not difficult to work together to deal with these puppets!"

Ye Lingdao.

Lu Ming nodded, indeed, if there were several Ye Ling fighting forces on the side of the Celestial Clan, it was indeed not too difficult to deal with these puppets.

The two made a large circle on the platform in this area, and neither saw a good puppet, nor naturally saw a special puppet.

"It seems that all the puppets in this area have been killed, let's go!"

Lu Mingdao felt a little sorry.

This time, we did not raise a complete ferry boat.

"It seems that I can only go out and try my luck to see if I can get other parts of the ferry boat in other places. It is really not possible. I can only go to trade with others!"

Ye Lingdao.

There are two parts they are missing, maybe others will have more.

And the five extra parts that they have may be less for others.

In this way, you can trade.

Even more spare parts can be used to exchange Hong Huangdan with others.

The two returned along the same path, returned to the passage, and then exited toward the outside.

This time, the two have gained a lot.

Although he didn't collect all the parts of a ferry boat, Danlu obtained a lot.

Of course, not all platforms on this platform have Dan furnaces. In fact, there are few platforms with Dan furnaces.

There are dozens of platforms, and only one platform has a red furnace.

However, there are many platforms here, and Lu Ming and Ye Ling also have a lot to gain.

The three-meter-diameter Dan furnace received a total of six statues.

There are more than sixty monasteries with a diameter of one meter.

The two are evenly divided, each can have more than 30 statues, more than the accumulated Danlu before Lu Ming.

As long as you get together, cross the sea, and enter the core area of this star palace, you can use the red furnace to refining Honghuangdan crazy to improve the cultivation.

The two went back along the passage, but soon they stopped.

Because someone is in the way.

It is blood pole!

"It's you, very good!"

Blood pole saw Lu Ming and Ye Ling, revealing a terrible murderous opportunity.

"Blood Pole, you are hiding here, you're well wounded?"

Lu Ming smiled faintly.

This is the meaning of ironically running away before the blood pole was killed by a puppet.

Sure enough, the **** color in Xueji's eyes was thicker, and he growled: "Boy, you are looking for death. Now, hand over your storage rings, I can give you a happy heart!"

"It's you alone?"

Lu Ming sneered.

"What about us?"

This is that there was another sound, and behind the blood pole, the figure flickered and three figures appeared.

These people used to hide themselves before hiding themselves, but now they appeared.

Lu Ming understood that these people and Xueji had already cooperated, specifically hiding here and robbing the people who came back.

"Worry-free!"

Lu Ming whispered that one of the young people, he knew, was also on the list of the universe's arrogance. He ranked eighty on the universe's arrogance list, and he was extremely powerful.

The other two are two strong men. There is no doubt that they are also extremely powerful. Otherwise, they are not qualified to cooperate with the bloodless two.

"Now, are you qualified, hand over the storage rings on your body!"

The blood was cold, and the killing in his eyes was more intense.

A look that you want to do at any time.

"Blood Pole, you alone are not qualified, you know?"

Lu Ming drank coldly, stepped out, a strong breath, and pressed towards the blood.

"Boy, you want to die, I'll fulfill you!"

Blood extremely roared, his body wriggled, and turned into a blood-colored bat. The whole body was shrouded in blood, emitting an unpleasant smell, and screamed towards the landing.

boom!

Lu Ming shot, triggering a seven-fold warfare strategy, and punched out.

This time, Lu Ming did not show mercy under his staff. In addition to the unprecedented display, he urged the fighting power of the eleven stars.

The violent fist force collided with the blood pole, and a roar erupted, and then a screaming sounded, the blood pole's body retreated, a large mouth vomiting blood, and a wing had completely burst.

One stroke, blood was extremely devastating, and there was a deep shock and incredible in his eyes, shouting: "How is it possible? How is this possible? How could your combat power be so strong?"

On the side, Wuyou and the two strong men also showed shock.

Before, Lu Ming had been fighting with blood fiercely. The fighting power of the two was obviously similar.

Why is Lu Ming's fighting power soaring now?

"I just didn't want to expose too much, otherwise, with your strength, you can fight so many moves with me? Really naive and ridiculous?"

Lu Ming sneered, full of ridicule.

"you..."

The blood roared, and he spit out another blood.

It turned out that Lu Ming didn't show his full strength before, to put it bluntly, just to play with him, otherwise, he had already hung up.

He thought that his combat strength was not weaker than Lu Ming. It turned out that he was completely a joke in front of Lu Ming.

This blow is really too big.

He is a peerless demon on the universe's arrogant list, usually standing above him, when was he so humiliated?

"Kill, let's join together, kill this kid, and smash him to pieces!"

Blood roared.

"Shoot!"

Worry-free, two strong men shouted, and a powerful breath erupted, pushing the fighting power to the extreme and slamming towards the landing.

The fighting power of these people is really amazing, even stronger than the blood pole.

Lu Ming's eyes narrowed and he was ready to perform a ground breaking style.

At this time, Ye Ling spoke!

"I come!"

As soon as the voice fell, Ye Ling's figure flashed and rushed past Lu Ming. The sound of Jianming echoed through the channel, and a sword light flashed out.

Puff puff puff puff!

The blood was splattering, the blood was extremely, and the figures of the four worry-free people were suddenly stiff there.

The eyes of the four people, all glaring round, all in their eyes are full of panic, incredible, unwilling, desperate and other emotions.

In their eyebrows, there is a sword mark, and blood continuously flows out.

Their breath of life dissipated quickly.

Chapter 4319: Place of departure

Spike!

Blood Pole, Wuyou and the two strong men joined forces and were killed by Ye Ling with a sword.

The eyebrows of the four were pierced by Jianguang, their souls were annihilated, and they died.

With a thump, the bodies of the four fell to the ground.

The two universe Tianjiao list Tianjiao was just killed and fell on the spot.

Even, no one knows that the two peerless demon, just died.

"Good strength!"

Lu Ming was surprised at Ye Ling's strength again.

It's unfathomable!

If this kind of combat power is against him, he can't stop it.

Destroyer can fight against Tiangong and fight for many years, the strength is absolutely strong.

As one of the strongest evils on the side of the Heavenly Destruction Army, Ye Ling's talent should be comparable to some arrogance at the top of the Tiangong.

Even if it is not as good as it is absolutely extraordinary, Lu Ming was relieved at the thought of this.

Moreover, his cultivation base is two times lower than that of Ye Ling. If he is at the same level as Ye Ling, he has the confidence to fight above Ye Ling.

The two took away the storage rings of the four blood poles, and then left the place in a flash, and quickly returned outside the Xianfu, rushing towards the outside.

When passing the yard, they were besieged by those black sword centipedes again.

However, due to the combat power of the two of them, these black sword centipedes couldn't help them anymore. They successfully traversed the courtyard and withdrew from this fairy house.

Outside Xianfu, still surrounded by many people, at this moment, looked at Lu Ming and Ye Ling.

Some people's eyes are full of greed.

Entering Xianfu and exiting from Xianfu, did you get the treasure inside?

When thinking of Lu Ming and Ye Ling, there are probably treasures in Xianfu, and many people are very hot.

However, everyone is not stupid, Lu Ming and Ye Ling can safely withdraw from the Xianfu, the combat power is absolutely extraordinary, and some people have seen before that, Lu Ming made a few moves with the blood pole before entering the Xianfu. Points win or lose.

This kind of combat power is not what they can deal with. To deal with Lu Ming, there is only a dead end.

However, not everyone is afraid to start.

At this moment, there were a few people, their bodies flickered and surrounded Lu Ming and Ye Ling.

It was a few strong men, with a strong and powerful breath.

Although these people had not been able to enter Xianfu before, it was not that their combat power was weak, but their combat power was actually very strong, otherwise they would not dare to rush towards Landing Ming and Ye Ling.

The reason why they didn't rush into Xianfu before was because they had bad luck and only had a total of ten breathing time, they failed to catch up.

They are very confident in their fighting power.

"You two, hand over the storage ring!"

One of the strong men drank coldly.

Lu Ming and Ye Ling were speechless.

Another wave of robbery?

It was blood pole before, but now these people?

Why, do they look like they are bullying, or do these people have no eyes at all?

"well!"

Ye Lingdao.

"What's good?"

A strong man asked.

"You have to take the initiative to give us your treasures, it is naturally very good!"

Ye Ling said lightly.

Immediately, a cold killer burst into the eyes of several strong men.

In their view, Ye Ling's remarks were completely teasing them.

"court death!"

"Send them on the road first!"

A few strong men were cold, and the killers were as cold as a knife, so they had to shoot.

Lu Ming shook his head in silence for these people.

These strong men are undoubtedly very strong in their combat strength. Lu Ming himself may not have a full grasp of the match, but unfortunately, they have met Ye Ling, then the result is already doomed.

call out!

The dazzling sword light burst out and flickered away.

Several strong men entered the footsteps of Xueji and others, were pierced by Jianguang hole, annihilated their souls, and fell to the spot.

The people around took a breath and looked at Ye Ling in horror.

Those strong men, who had shown their strength before, were very scary, but they were directly killed by the second Ye Ling.

Fortunately, they didn't shoot just now.

Otherwise, the dead will be miserable.

With a wave of hand, the storage rings of several strong men were put away, and then the two left here and flew towards the distance.

After flying a long distance, the two found a hidden place to stop, and then took out the storage ring on their hands and counted it.

Blood pole and others, naturally there are many Danlu, Lu Ming and Ye Ling split equally.

In addition to the Dan furnace obtained from the Xianfu, there are nearly fifty of them.

Lu Ming added the previous 30 statues, and there are about 80 statues in his hand. This is a big gain. If all are urged, the speed of condensing Honghuang Pill will be very fast.

After the two separated, they then proceeded towards the direction of crossing the sea.

Two days later, the sky ahead became dark and dark.

On the ground in front, there is endless black mist. This piece of black mist not only covers the earth, but also the sky, separating the whole sky and earth.

Cross the sea!

This place of black mist is the sea crossing.

Separate the periphery and core of this star palace.

It is very dangerous to cross the sea of Ecuador. If you don't cross the Ecuadorian boat, it will be difficult to cross.

"Look, here is the starting point!"

Ye Ling pointed forward.

Lu Ming also saw that in the front, near the crossing of the sea, there is a city-like building.

Lu Ming has seen the information, this is the starting point.

It is not so easy to ride a ferry boat and cross the sea, and requires some conditions.

One of the conditions is that it is necessary to urge the ferry boat in a specific place. It is not possible to mobilize the ferry boat at any time by gathering nine parts.

Only when the special energy is absorbed in a specific place in the 'land of departure' can the ferry boat be started and the transitional sea can be crossed.

And this building in front of you is the place of departure.

If you want to cross the sea of transition, you must start from here.

Therefore, anyone who wants to enter the core area must come here and start from here.

From a distance, you can see people flashing in the city.

After arriving here, Ye Ling's appearance also changed a bit, fearing that people in Tiangong would recognize it.

Then the two flew towards the city.

Lu Ming could only fly daringly and fly into the city. Even if there were many people in Tiangong, there was a high probability of recognizing him, but he had to enter here.

I can only gamble, I hope no one recognizes Lu Ming.

Fortunately, the two entered through the city gate and met many people on the road. None of them recognized Lu Ming.

Soon, the two came to a remote place in the city.

There are many buildings in the city, many buildings are empty.

The two found an empty building to live in.

"Lu Ming, you stay here first, I will go out and check the situation."

Ye Lingdao.

After all, Lu Ming's goal is too large, and it is easy to be recognized when he goes out. Once recognized, it is more troublesome, which is not conducive to the plan behind them.

Chapter 4320: Secret trade fair

The plan behind them is to use their spare spare parts to exchange for what they need.

If Lu Ming is found, they can save their lives. It's not bad, don't want to exchange the parts of the flying boat.

"it is good!"

Lu Ming nodded.

After Ye Ling left, Lu Ming sat cross-legged, took out Hong Huangdan, and started refining.

During this time, although he did not refine Hong Huangdan, he got a lot of Hong Huangdan from others.

For example, Xueji and others got a total of about 100,000 Hong Huang Dan, and Ye Ling were evenly divided. Lu Ming also had nearly 50,000.

Although he wanted to break through to the five levels of Divine Emperor, at least 1.2 million Honghuang Pills were needed, but the difference was still very far away, but after refining and refining, cultivation can also improve some things.

In Taishang Xiancheng, you can't waste a little time.

When the mouth was sucked, tens of thousands of Honghuang Dan were sucked into the mouth, and then began to refine.

Lu Ming's refining of Hong Huang Dan is very fast. Fifty thousand Hong Huang Dans have been refined within a few hours. Lu Ming's cultivation practice has improved a bit, and his realm has become more stable.

Of course, there is still a long distance away from Divine Emperor Wuzhong.

After refining Hong Huangdan, Lu Ming continued to enlighten ordinary secrets, condensed the runes of secrets, and melted into the cells.

Of course, all of them are just getting started. If you want to practice to Dacheng, so many secret techniques require too much time, so you can only find opportunities later.

In a flash, two days passed.

At this time, Ye Ling was back.

"What news?"

Lu Ming finished his cultivation and asked.

"There is news. After three days, a secret trade fair will be held here. I have already obtained the quota. When we go together, we may be able to get the missing parts of the ferry boat. The extra parts may be exchanged for one. A large amount of Hong Huang Dan."

Ye Lingdao.

Lu Ming frowned slightly.

This is indeed good news, but if he goes together, will he not be recognized by the people in Tiangong?

Seeming to guess Lu Ming's idea, Ye Ling said: "Relax, this time, there will be no participation in the Tiangong people, there will be no Tianren race, nor will there be core disciples of the Tiangong big figures, all people of other races!"

"Those of the big races are also guarding against the Celestial Race. After all, the Celestial Race is too overbearing. If the Celestial Race people are involved in this fair, there will be no fairness. Maybe the treasure they fancy will be Buy at a low price or just **** it!"

Ye Lingdao.

Lu Ming suddenly, indeed.

It seems that this time the fair was a transaction carried out by other races without concealing the Celestial Clan.

Of other races, few people have seen Lu Ming.

Perhaps he knows his appearance, but not many people know the origin of his life.

In this way, Lu Ming was relieved.

"Okay, let's go together in two days!"

Lu Ming nodded.

In two days' time, it was just a matter of time.

The two set off and headed towards the east of the city.

To the east of the city, there are few buildings and fewer people, and relatively speaking, it is relatively remote.

Soon, the two came to a building.

Outside the building, there were two guards.

"Metal family!"

Lu Ming moved.

The two strong men guarded are metal clan from the top ten races.

"Two people, there are people living inside. Please find other places!"

A strong man from the metal family.

Ye Ling didn't speak, and took out two pieces of silver metal with strange patterns carved on it.

The two strong men of the metal family looked at each other and looked at each other. One of them said humanely: "Two, please!"

The words gave way and gave way.

The two went in.

Inside is a hall. There is a hole in the middle of the hall. When you walk in, it turns out to be a sloping downward stairway that extends all the way down.

The two went down the stairs, turned several times, and finally came to an end.

It turned out that there was a basement below, with some chairs in the basement.

At this time, there are already many people.

Lu Ming glanced over and found that there were already more than 20 people.

"Devil, Buddha, blood, and metal!"

Lu Ming's eyes flashed.

At a glance, he discovered the four races of the top ten races.

There are young people and strong men, but there is no doubt that they are all strong.

The four races, divided into four areas, sit together.

In some other chairs, there are also people sitting, these people are scattered, either alone, or three or two together.

These people just glanced at Lu Ming and Ye Ling at will, and they didn't care.

Lu Ming and Ye Ling walked to the two chairs on the edge and sat down.

Next, there were people coming constantly.

"Fighting Saint Clan, Soul Clan, Nine Plant Royal Clan, and Spirit Clan..."

Lu Ming meditation.

These races are one of the top ten races.

Among them, Lu Ming, the people of the nine major plant royal families and the spiritual clan, met for the first time.

In the wilderness universe, there are many plant life and various kinds of variety. Not all plant life can be called the top ten races.

Only the nine strongest royal families in plant life, these nine plant royal families, forming an alliance, are considered one of the top ten races.

There are also spirits.

The spirit family is very special, it is evolved from the spirit of heaven and earth, for example, the spirit of the five elements, such as the spirit of fire, the spirit of water, the spirit of gold, the spirit of wood, the spirit of gold, in addition, the spirit of wind, Ice Spirit, Electric Spirit, Light Spirit, Dark Spirit, etc.

The spirits of these heavens and earth evolved and turned into human form, and they are all called the spirit family.

The number of spirits is very scarce, but the strength is very scary. Each spirit has special skills, which is powerful and difficult to speculate.

Among the top ten races, the spirit people are the least, but they can be ranked into the top ten races, which shows that their strength is strong.

Demon Race, Buddha Race, Metal Race, Blood Race, Fighting Saint Race, Soul Race, Nine Great Plant Royal Race, Spirit Race...

"The top ten races have reached eight kinds, and the angels and the Yaxian have not arrived yet!"

Lu Ming whispered in his heart.

The Yaxian tribe, an extremely powerful and mysterious race, is respected by Honghuang Universe as the strongest race under the Celestial Clan.

There are not many Yaxian tribes, only a few more than the Ling tribes. They have always been very low-key, but no one doubts their strength.

Some people say that even the Celestial Clan must give the Yaxian Clan some face, which can be seen.

Lu Ming had never seen the Yaxian tribe before. Even when he was a sky soldier, he had never seen the Yaxian tribe because the Yaxian tribe would never go to the Tiangong.

"Okay, everyone is here!"

At this moment, a great man stepped forward and came to the center of the basement, stepping on the ground and bumping.

This is a strong man of the metal family, with a strong atmosphere, like a mountain.

"People are here? There is no angel family, it seems, it also excludes the angel family, very good..."

Lu Ming moved.

The people of the angelic family have a deep relationship with the clan of the human race. If you tell the clan of the angels, you are telling the clan of the humans. Therefore, it is normal to exclude the clan of the angels.
