

D Emperor 4331

Chapter 4331: ready to go

Behind, Ye Ling has already been killed, and the sharp sword light has killed the youth of the Celestial Race.

The horrible crisis made the celestial youth roar wildly.

He was filled with violent breath, burning the power of the sky, and began to desperately.

"Dare you!"

"Bold!"

The masters of other Celestials roared and wanted to rush over to rescue.

But, Tian Xuan Yue, will they let them do what they want?

Make every effort to entangle the masters of the Celestial Clan.

"You can't go away!"

Lu Ming spoke indifferently and attacked with Ye Ling.

The strength of the Tianjiao youth Tianjiao is, after all, worse than Lu Ming and Ye Ling. At this moment, even if the power of the sky is burning desperately, they cannot escape.

Moreover, they are already prepared, in any case, they must leave the Tianjiao youth Tianjiao.

The two men's attacks, guns and sword lights, covered the entire void.

No matter how the young people of Nintendo are shocked, they cannot rush out.

After several roars in a row, the youths of the Tianren tribe screamed and were ripped apart. They were hit hard and almost died.

If it weren't for his life-saving ability, it was stronger than others, and he was dead at the moment.

However, even if he didn't die, he was seriously injured and dying.

call out!

Ye Ling's sword light flashed away. At the next moment, the eyebrows of the youth of the Tianren race were penetrated, and the soul had been annihilated and fell on the spot.

Lu Ming rushed by and reached out, grabbing the storage ring of the Tianren youth in his hand.

"Damn, **** it!"

"You filthy miscellaneous, rebels, will soon be destroyed by my Celestial Clan!"

"Go, leave here first!"

Other Celestials roared, and at the same time they felt chills, and there was fear in their hearts.

They roared a few times, daring not to stay, and rushed towards the distance, trying to escape.

Lu Ming, Ye Ling and others did not pursue them.

These days, the fighting power of the human race is very strong. Although they have the upper hand, the advantage is not so great. The other party escapes with all their heart, and it is difficult for them to stay behind.

Anyway, the other party's storage ring has been left behind.

Uh, uh, uh!

The figure flashed, and Tian Xuanyue and others flew over.

"Tian Xuanyue, this time, thank you for your help!"

Ye Ling clenched their fists, and naturally they knew each other.

"No need to thank, we have been hiding nearby for a while, just waiting for the opportunity to shoot!"

Tian Xuanyue smiled and looked at Lu Ming, saying: "Lu Ming, I didn't expect your strength. I caught up so quickly. The taboo body is really terrible!"

"Brother Tianxuan is polite, this time, I really lost you!"

Lu Ming said politely.

Obviously, Tian Xuanyue had known the news for a long time, hiding in the dark in advance, waiting for the maneuver.

"By the way, take a look and see if there is a bow in the storage ring!"

Tianxuan Yue said.

Lu Ming nodded, holding the storage ring, and Sense went into it, and began to check.

At first glance, Lu Ming's face showed a happy look.

Inside, there is the position of the bow.

"Our luck is good, there are exactly two bow positions inside, we have one on each side!"

Lu Ming waved his hand, the two bow positions flew out, and one of them flew towards Tianxuanyue.

Tian Xuanyue reached out and took it.

"Cough, I still lack the position of the keel and the deck. Is there any inside?"

Tianxuan Yue coughed twice, a little embarrassed.

"Have!"

Lu Ming a little, waved his hand, the position of the keel and the deck also flew to Tianxuanyue.

This time, without the help of Tian Xuanyue, Lu Ming and Ye Ling alone could not get the bow position.

Now that he can get the bow position, he is very satisfied.

They have other parts, and it is useless to keep them.

"Thank you, Brother Lu Ming, for all the other things in this storage ring, we have enough for you!"

Tian Xuanyue laughed.

"Yeah, everything else belongs to you!"

The offspring of a primitive **** also said.

Lu Ming was also polite and put it away temporarily.

Because there are still a lot of Hong Huangdan, then it will be split evenly with Ye Ling.

"Then we will leave for now, see you in our core area!"

Tian Xuanyue clenched her fists, and then left with several descendants of primitive gods.

What they saw was that Lu Ming and Ye Ling joined forces.

And a few of them also joined forces.

And they did not intend to join forces with Lu Ming.

It's not that the more people who work together, the better.

The more people there are, the less they get if they get the chance.

The number of people is the same.

After Tian Xuanyue and others left, Lu Ming and Ye Ling also left here.

Over a hundred thousand miles away, Lu Ming and Ye Ling landed here in a mountain depression.

When the two waved their hands, the parts of the ferry boat flew out piece by piece, and a total of nine parts of the ferry boat flew into the air.

There seems to be an induction, and the nine parts vibrate, emitting a gorgeous glow, and then start to grow larger and begin to get closer to each other.

"There is a reaction!"

Lu Ming and Ye Lin both showed joy.

Sure enough, only nine kinds of parts were put together, and then there would be a response. When there were only eight kinds before, they also took it out and tried it. There was no response at all.

Clang...

The nine parts were put together. Eventually, a sailing ship appeared in front of Lu Ming.

Crossing a flying boat, this is a flying boat, like a sailing boat, which can carry hundreds of people at a time.

"We can finally enter the core area, Lu Ming, you keep it, let's go!"

Ye Lingdao.

He let Lu Ming close it, showing trust in Lu Ming.

The more he got along with Lu Ming, the more he discovered Lu Ming's horror. He had decided in his heart that he must make a good relationship with Lu Ming.

As long as Lu Ming is not dead, he will also get infinite benefits.

He is also a man with great opportunities, but he feels that he is definitely not comparable to Lu Ming.

Lu Ming nodded without any politeness, and put away the Due Feizhou with a wave of his hand.

Subsequently, the two rose into the sky and headed towards the place of departure.

Forming a ferry boat does not mean that you can control the ferry boat to start. You must start from the place of departure and absorb special energy to start.

The two came to the outside of the departure and did not rush to enter the departure place, but found a secret place to hide.

The Celestial Clan has suffered such a big loss, how can it be willing to give up?

If you want to start the ferry boat, you must absorb special energy at a specific place in the departure place. They do not need to find Lu Ming and others, as long as they wait for the rabbit, stay there, and wait for Lu Ming to come to the door.

Lu Ming estimates that there must be a large number of celestial clans ambushing in the place where they are starting now.

Although the strength of the two is good, it will not underestimate the Celestial Clan.

You know, this time entering Taishang Xiancheng, but including the young generation.

Within a stellar year, they are all strong men.

There must be someone who has practiced Divine Emperor Eightfold, even Divine Emperor Ninefold.

Also, how powerful will the arrogant characters of the young generation be?

When meeting such people, they are definitely not opponents.

Chapter 4332: 20,000 per person

So, let's talk about it for a while.

The two lived outside the place of departure, while practicing, and occasionally went to the place of departure to listen to the situation.

Anyway, Lu Ming still has many common occult techniques without enlightenment, and just has time to enlighten the occult technique.

In this way, the two were in this neighborhood, waiting for a year.

No way, for the sake of insurance, you can only wait for some time.

In this year, the number of people in the place of departure has not decreased but increased.

Although some people have already departed and entered the core area, more people have gathered from all directions, and most of these people have not sailed.

Lu Ming and Ye Ling heard from the population coming from behind. There seemed to be no trace of the Celestial Clan in the place of departure.

The two speculated that the Celestial Clan should have waited and entered the core area.

At this time, the two talents entered the place of departure.

Sure enough, the two were in the place of departure, and found no trace of the Celestial Clan.

set off!

The two went directly to the place where the ferry boat was absorbing energy.

The place of departure, near the crossing sea, has a huge cylinder. These cylinders are very thick and all have a diameter of several kilometers. There are more than a dozen.

The bottom of these cylinders, connected to the depth of the underground, can draw a peculiar energy from the depth of the underground.

To start a flying boat, you must first place it on top of the stone pillar and absorb that energy from the stone pillar.

"Huh, someone has to leave?"

When Lu Ming and Ye Ling came here, they found that one of the stone pillars had already stopped a ferry boat.

The ferry boat and the stone pillar exude a hazy glow, and it can be clearly seen that there is continuous energy, along the stone pillar, all the way up, into the ferry boat.

This is absorbing energy in crossing a flying boat.

Around this area, there are many people staying.

"Damn, it's a rebel!"

"Unfortunately, the masters of the Celestial Race and the top ten races have already entered the core area, otherwise, these rebels can be wiped out!"

"The people of the Celestial Race and the top ten races haven't left. Will these rebels dare to come out? Only when the people of the Celestial Race and the top ten races leave, will these rebels dare to come out."

Around, there was a talk.

Lu Ming and Ye Ling flew directly towards a stone pillar, and no one recognized Lu Ming and Ye Ling.

Those who can recognize Lu Ming from Lu Ming's life are generally from the Celestial Race, Angel Race, and other races. There are very few people who have seen Lu Ming from other races.

Lu Ming and the two landed on one of the pillars.

"Hey, Tian Xuan Yue them!"

Lu Ming's eyes moved.

There were many people standing on the deck of that flying boat, about 200 people.

One of them is dazzling, not Tianxuanyue, who can it be?

"Well, there is Fei Ye..."

Immediately, Lu Ming saw several acquaintances.

Some of them were really Fei Ye. When Lu Ming rescued them, they drove away Lu Ming.

At this moment, Tian Xuanyue and Fei Ye also found Lu Ming and Ye Ling.

They both took notes of each other's life origins and recognized them at a glance.

"This guy is not dead yet!"

Fei Ye's eyes were cold, and a flash of murderous thought flashed in her heart.

The whole Tiangong people are chasing and killing Lu Ming. Lu Ming is not yet dead, which makes him very surprised.

He thought Lu Ming had been killed by the people in Tiangong.

"It turned out to be Ye Ling. Lu Ming must have relied on Ye Ling to avoid it. Ye Ling, this person really likes to do more business..."

Feiye thought uncomfortably.

However, he did not directly call out Lu Ming's name, revealing Lu Ming's identity.

After all, they both belong to the annihilation of the heavenly army, and there are many other people who annihilate the heavenly army. If he is under the large public and deliberately exposes Lu Ming's identity, the annihilation of the heavenly army will certainly not allow him.

Therefore, the two parties just glanced silently and did not say hello.

"Huh, some people have climbed the stone pillars. Do they have to fly through the river?"

"Maybe there is?"

Many people whispered, and many people's eyes lit up.

There is a ferry boat, it means that you can enter the core place, but to see Lu Ming and Ye Ling, there are only two people, ferry boat, but can carry more than two hundred people.

They can take it.

This is why they are waiting around.

At this moment, Lu Ming waved his hand, and a ferry boat flew out and landed on the stone pillar.

As soon as the ferry boat landed on the stone pillar, it was attached to the stone pillar and resonated at the same time.

Buzz!

Both the stone pillar and the ferry boat whispered, and a rune appeared on it. Then, under the stone pillar, the color became brighter, that is, energy was absorbed.

The hazy light poured into the ferry boat, and the ferry boat was covered with a layer of hazy light.

Ride a flying boat and start absorbing special energy underground.

Lu Ming and Ye Ling moved into the ferry boat.

"Is it really a flying boat?"

"There are only two of them. We have a chance!"

Many people's eyes lit up, and then flew towards the pillars.

Lu Ming thought about it, and a light mask emerged from the flying boat, blocking the people outside.

During this time, the flying boat has already been refined by Lu Ming. Now that he has energy, he can be urged at will.

"Two, you only have two. You can carry more than two hundred people in a ferry boat. Let us go up and take us for a ride!"

"Yeah, take us for a ride, we will remember your kindness!"

"I am from the Tian'er Clan. What can you do with me in the future?"

The people around me have opened their mouths, or begged, or tempted, or promised...

Noisy.

"We can't finish so many of you!"

Lu Ming smiled casually.

Around this, there are at least thousands of people, all wanting to come up, where did they finish loading?

"Load me, load me, I will not forget your kindness, and I will definitely repay you in the future!"

"You repay, don't I, I repay ten times!"

"I am from the Tian'er family..."

"Go away, the Tian'er tribe is a fart, I am still the Yunyue tribe."

"What do you say? You dare to insult me, to death!"

"It's you who is dying!"

Outside the ferry boat, there was a lot of noise, and the smell of gunpowder was full.

"Okay, you don't have to quarrel. If you want to take a ferry boat, you can also pay a price. So, 20,000 Honghuangdan per person, as long as you take out 20,000 Honghuangdan, you can take the ferry boat. You go to the core area!"

Lu Ming said.

The scene was quiet, then there was a noise.

"What? One person wants 20,000 Hong Huang Dan!"

"It's too expensive, why don't you go grab it?"

"Yeah, it's too expensive, I can't get it out at all!"

Everyone yelled.

Chapter 4333: The horror of crossing the sea

"Twenty thousand Honghuangdan, is it expensive? You have to know that in the core area, Honghuangqi is extremely rich. As long as there is a Dan furnace, 20,000 Honghuangdan, it is easy to condense. Now it is worthwhile to pay 20,000 Honghuangdan. "

Lu Ming smiled and looked kind and amiable.

Anyway, there are only two of them, the ferry boat can be empty or empty, can earn more Honghuangdan, why not do it?

"However, I really don't have so many Hong Huang Dans. My condensed Hong Huang Dans are not enough for me to refine."

"I'm even worse. I don't even have a Dan furnace. I help other people guard the Dan furnace, and I earn a little Hong Huang Dan, which has long been used up."

"me too!"

Many people wailed and pleaded, but Lu Ming didn't bother to pay attention. He didn't believe that so many people would have no one to take out 20,000 Honghuang Dan.

"I have 20,000 Honghuangdan, I want a quota!"

"I want a quota too!"

...

Sure enough, someone bid.

"Take Hong Huangdan for me to check first!"

Lu Ming Road, and then will cross the barrier above the flying boat, opened a gap.

A strong man stepped out, waved his hand, and a storage ring flew in from the gap. Lu Ming took the storage ring and swept his mind, and found that there were 20,000 Hong Huangdan in it.

"You can come in!"

Lu Ming nodded, and thought about it, crossing the barrier around the flying boat, the opening was bigger, enough for one person to pass.

The strong man showed a happy look, his figure flickered, entered the ferry boat from the gap, and landed on the deck.

"Good opportunity, want my Honghuangdan, dream!"

At this moment, a thin figure suddenly rushed out of the crowd, toward the gap.

His speed is very fast, like a flash of lightning, and this person's cultivation level is very high, and he has reached the sixth level of Divine Emperor.

He didn't want to pay 20,000 Hong Huangdan, he wanted to go directly through the gap and rush into the ferry boat.

Lu Ming didn't seem to have time to close the gap. In an instant, this person was about to rush into the gap.

"Hahaha, as long as I rushed in, not only did I not have to pay Hong Huangdan, even this ferry boat was mine!"

In his thin and strong years, his eyes gleamed with fierce light. He not only did not want to pay 20,000 Hong Huang Dan, but also killed Lu Ming and Ye Ling to seize the crossing.

He is very confident in his own strength.

Now, the strongest group of people have entered the core area, and not many people are left behind.

In the next moment, he successfully entered the ferry boat.

Uh!

At this moment, a brilliant sword light flashed out, piercing his eyebrows.

Quick, too fast, so close to the thin and strong age, it is too late to avoid.

At the next moment, Jianguang disappeared, the eyebrows of the thin and strong men had been penetrated, and the soul had been annihilated.

His eyes were round, full of unwillingness and regret.

I knew it was the result. He would never do it. He would definitely pay 20,000 Honghuang Dan obediently.

It's a pity that the world didn't know it early, nor did it.

With a thump, the person's body fell on the deck.

"Good strength, terrible swordsmanship!"

Many people took a breath.

Just now, the thin and strong man, many people know and know that its strength is very strong. In the case of a large number of masters have entered the core area, not many people are his opponents.

Unexpectedly, as soon as this person rushed into the ferry boat, he was killed by a sword.

The eyes of everyone looked at Ye Ling, full of fear.

Ye Ling's strength is terrible.

At the same time, they looked at Lu Ming's eyes more dignified.

Obviously, Lu Ming and Ye Ling seem to be dominated by Lu Ming, Ye Ling is so terrible, so, Lu Ming?

Some people who had a crooked mind suddenly dispelled bad thoughts.

"Twenty thousand Hong Huangdan, a quota, is still valid, if someone has a crooked mind, it is the end of this person."

Lu Ming said coldly.

"I use 20,000 Honghuangdan, I want a quota!"

"I also want!"

This time, no one dared to toss out the tricks, one by one took out 20,000 Honghuang Dan to Lu Ming, and then entered the ferry boat.

There are more and more people in the ferry boat, and Lu Ming's gains are more and more.

Some people, even if they don't have 20,000 Hong Huang Dan, will try their best to raise money from others.

Soon, two hundred people had already boarded Lu Ming on their ferry boat.

Of the two hundred people, Lu Ming got four million Honghuang Dan, which was evenly divided with Ye Ling, and there were two million each.

This is a flying fortune, although it can't help Lu Ming to break through, it is also a lot of wealth.

Buzz!

At this moment, Tian Xuanyue's one of their crossing ferry boats hummed themselves, and the whole body was enveloped by the mysterious glow, rushing out towards the crossing sea, and rushing into the vast crossing sea.

It was Tian Xuanyue and they had already set off.

Lu Ming them, not so fast.

The crossing sea is very wide. To cross a flying boat, you must absorb enough energy to cross the crossing sea. Therefore, it is not so fast and it takes some time.

"People, it's already there. Please come back!"

Lu Ming Road, closed the barrier to cross the flying boat.

Many people sighed and could only go back and wait to see if anyone else had crossed the boat.

The two hundred people who boarded the ferry boat showed a happy look.

The sooner you enter the core area, the better you can seize the opportunity and gain more Honghuang Dan.

Time passed quickly, and soon, a day passed.

At this time, the energy to fly through the flying boat was finally sufficient.

"Get up!"

Lu Ming took a sip, and the Dou Fei boat vibrated, shrouded in a mysterious light, and then rose into the sky, rushed into the vast Doe Sea, and disappeared in front of everyone.

Crossing the sea of Ecuador is very broad, and there is black mist in the air.

Lu Ming and others stood on the deck and looked far away, but their sight was greatly hindered.

The black mist blocked their sight.

No one dared to despise this black mist. This black mist is very terrible. According to the records, this black mist has terrible corrosivity and can corrode everything, divine power, mystery, and even various weapons.

Once the creatures step into it, they will be corroded by this black mist.

Although, it won't be corroded and fell by the black mist at once, the general Divine Emperor can resist for a while.

However, the sea of crossing the sea is too vast, and no one can persevere for so long and jump across the sea of crossing the sea.

Under the constant corrosion of black mist, it will eventually run out of energy and fall.

Unless it is a strong master of God's realm.

However, the powerful of God's main realm cannot enter this level.

In addition, there is a more terrifying existence in the flying boat, which is called the ghost of crossing the river.

The ghost of crossing the river is even more terrifying. Once met, there is only one way to die.

Chapter 4334: Encountering Heaven and Man

If there is no crossing boat, no one can cross the crossing sea.

Crossing the ferry boat, flying at a very fast speed, breaking through the sky, flying towards the other side of the sea.

It takes about seven days at the speed of crossing a ferry boat to enter the core area through the entire sea of ferry crossing.

Time passed quickly, and soon, two days had passed, and they had already leaped and did not know how much distance.

Huh!

The black mist in front suddenly rolled up, and then, a giant appeared in front of everyone.

This is a black creature. The body is like a bug, but there are many arms around the body, which are constantly grasping the air, as if to crush something.

The most terrifying thing is the head of this creature.

There is a human face, the facial features are distorted, very fierce, like a ghost.

"This is... the ghost of Doe!"

Someone exclaimed and took a breath.

That's right, this is the most terrifying existence of the sea crossing the river, the ghost of crossing the river.

In the sea of crossing the river, the kind of dark mist is not the most terrifying. Most people can resist for a while, but when encountering this ghost of crossing the river, there is only one way to die.

Even the existence of Divine Emperor Peak is useless, and there is no chance to meet the ghost of crossing the river.

The ghost of Du'e is very large, which is 100 meters long, and flew towards the Du'e flying boat.

Everyone's heart could not help but be lifted up, and their hearts were all mentioned in their throats.

Even if there were crossing the river, everyone was still nervous.

The ghost of Du'e flew to the neighborhood, flying around the Du'e ship, with a pair of cold eyes, constantly glancing at everyone.

Some people were glanced at with this cold look, and goose bumps were all raised.

The ferry boat flew and continued to fly forward.

Creak...

The ghost of Du'e, with a harsh sound in his mouth, rushed towards the crowd.

Some people with unsettled minds, uncontrollably using their divine power, are ready to fight at any time.

Lu Ming, Ye Ling, standing quietly in the bow position, his face calm, his eyes motionless.

When the ghost of Du'e approached the Du'e flying boat and came into contact with the light emitted by the Du'e flying boat, he made a snorting sound, as if the ice and snow had encountered a flame and had to melt.

Black smoke erupted from the ghost of Dou E.

The ghost of Du'e screamed, his eyes were panic-stricken, and his body retreated backward.

Everyone saw that the body of the ghost of Du'e seemed to be a little smaller, and was affected by the light of Du'e's flying boat.

call!

Many people were relieved.

Sure enough, they were safe inside the ferry boat.

A ferry boat can not only block the black mist outside, but also the ghost of ferry.

The ghost of Du'e shrieked screamingly, made several rounds around the Du'e flying boat, and then flew towards the distance, then disappeared into the dark mist.

A big rock in everyone's heart was finally put down

The Du'e flying boat continued to fly forward, and the next time they met the ghost of Du'e again.

But in the end, they were all frightened by the crossing of the ferry boat.

Soon, four days have passed, and the journey has already crossed more than half. In three days, they will be able to completely cross the sea and enter the core area.

"Huh, what is that?"

Suddenly, someone exclaimed, pointing in the direction on the left.

Everyone's eyes also looked in that direction.

In the left direction, there is a ray of light that can be seen even through the black mist.

Moreover, it is also moving, and it seems to be synchronized with Lu Ming's ferry boat. Lu Ming's ferry boat flew forward, and the light also moved forward, always on Lu Ming's left side.

"Look, there is also on the right!"

Someone called.

Sure enough, everyone in the right direction also saw a ray of light, and they also moved with the landing sound, and their speed was about the same.

Lu Ming frowned, and had a bad hunch in his heart.

"Lu Ming, can you see it clearly? I have a bad feeling in my heart!"

Ye Ling sent a message to Lu Ming.

He has a similar feeling.

Genius is generally extremely keen on crisis.

"The mist is too thick, and I can't see clearly..."

Lu Ming shook his head, his face dignified. Suddenly, he stared and looked forward.

At this moment, in front of them, a ray of light also emerged.

"stop!"

Lu Ming thought about it, and the speed of crossing the flying boat slowed down, and finally stopped.

As soon as they stopped, the two beams of light on the left and right sides also stopped.

There was a commotion in the flying boat.

Many people feel a little uneasy, and the atmosphere is dignified.

The light in front of it became clearer and clearer, and gradually, everyone could see what it was.

A ferry boat.

That's right, it was also a ferry boat that actually flew in front of them. Did it return from the core area?

The flying boat ahead was getting clearer and clearer, and finally appeared in front of them.

"It's a Celestial Clan!"

Lu Ming and Ye Ling's eyes suddenly froze.

It can be clearly seen that there are some people standing on the deck of the ferry boat in front of them, all of these people are Celestial.

"It's a Celestial Clan, what do I think?"

"It scares me!"

As soon as they saw it, they were relieved.

The Celestial Clan will not deal with them for no reason.

"Look, the left and right sides are also flying boats!"

Someone called.

At this time, the two groups of lights on the left and right sides became more and more clear, and then two ferry boats emerged.

No accident, these two ferry boats are also a clan of humans.

"These human races are waiting for us here!"

Ye Ling's face was dignified.

"Some troubles, inside, it is estimated that there has been a long-term entry into the core area..."

Lu Ming whispered.

Celestial beings, there are a group of top experts who entered the core area earlier to seize the opportunity.

There is definitely the presence of Divine Emperor Bazhong and Divine Emperor Nine Heavy.

In the younger generation, there may not be such a high level of cultivation, but in the younger generation, there are definitely.

"It turns out that the adults of the Celestial Clan do not know what you are doing here?"

Lu Ming on their ferry boat, a young man clenched his fists and said respectfully.

"Waiting for you here!"

A strong man of the Celestial Clan, said coldly, looking at Lu Ming and Ye Ling, his eyes full of murderous opportunities.

This strong man, Lu Ming knew, was one of those masters who wanted to kill Lu Ming and Ye Ling before Tian Xuanyue arrived and was killed by them.

"Wait for us?"

Many people are a little dazed.

"Accurately, waiting for both of them!"

The strong man of the Celestial family pointed to Lu Ming and Ye Ling.

Ok?

On the deck, two hundred pairs of eyes looked at Lu Ming and Ye Ling, full of doubts.

"You guys, maybe you don't know who they are? Both of them are rebels!"

Heavenly human race strong man road.

Chapter 4335: Divine Emperor Nine Heavy

"What? Are they rebels?"

The two hundred people on the deck were frightened when they heard the words of the strong men of the Celestial Clan. They could not help but Lu Ming and Ye Ling opened the distance and glanced coldly at them.

"They are not only rebels, do you know who he is, he is Muyun, and killing him will be able to confine the Son of Heaven or the Daughter of Heaven!"

The man of heaven and man added another sentence.

After saying this, the Celestial Clan did not say anything, and stopped.

Because, he knew there was no need to say anything, because he could expect what would happen next.

Sure enough, after the two hundred people heard that Lu Ming was Muyun, the two hundred people breathed heavily, and their eyes showed a greedy light, and there was a killing.

Muyun!

They never imagined that this young man with them was Muyun, who wanted to kill Tian Tiangong quickly.

As long as he is killed, he can become the son of heaven, or the daughter of heaven, leap into Jackie Chan, walk in the clouds, and change his future destiny.

However, when their eyes fell on Ye Ling, they showed a sense of fear.

Ye Ling has shot before, the strength is very amazing.

"We shot together, even if this person is strong, it's useless."

"It's good, take action together. In the chaos, who killed Muyun is the credit!"

"Yes, kill!"

Many people shouted, and ultimately could not resist the temptation of the Son of Heaven or the Daughter of Heaven, and their minds were completely replaced by greed, desperate to kill Landing Ming and Ye Ling.

Two hundred people, at least a hundred people, killed Lu Ming.

"court death!"

Lu Ming and Ye Ling flashed cold light in their eyes.

咻咻!

In Lu Ming's hands, with the power of taboo, he condensed a spear and directly displayed the ground breaking style, pushing the fighting power to the extreme.

A burst of gunfire burst out and killed these people in the past.

At the same time, Ye Ling also shot, gorgeous sword light, covered with void.

Although there were no shortage of masters among the more than 100 shots, the existence of Divine Emperor Liuzhong is not a few, but none of them really threatened Lu Ming.

Lu Ming and Ye Ling, although there are only two people, but the offensive is more violent and more powerful than the more than 100 people.

At the moment of the collision between the two sides, the attack of more than one hundred people was defeated.

Ahhhh...

A scream rang out, and people were constantly being pierced by guns, or pierced by Jianguang, and fell to the spot.

"kill!"

Lu Ming and Ye Ling drank coldly, their bodies burst out, and various attacks poured out like a storm.

"Ah, no!"

"Fate!"

"Misunderstandings are all misunderstandings!"

The rest of them, yelling crazy, were scared.

Ye Ling's combat power completely exceeded their expectations and was more terrifying than expected.

However, the most terrifying thing is Lu Ming.

Lu Ming's cultivation practice is that it only has Divine Emperor's five weights, but the outbreak of combat power is no worse than Ye Ling.

Although they had more than a hundred shots, they were simply not vulnerable.

Lu Ming and Ye Ling, without the slightest softness, all kinds of killing tricks, constantly killing.

One by one was beheaded, and immediately, on the deck, more than one hundred corpses lay down, and the blood stained the ferry boat.

There are still eight or ninety people left. Those who didn't do it before are already stupid at this moment and are completely scared.

Their bodies were trembling, their lips were trembling, their pupils were wide, and their eyes were full of horror.

"Spare... Spare life!"

These people have begged for mercy.

"Get out, get out of the ferry boat!"

Lu Ming said indifferently.

"Hurry up and go to the ferry boat of the Celestial Clan!"

"go!"

The remaining eighty or ninety people rushed madly towards the outside, and flew towards the ferry boats of the three human races.

The number of the three celestial races is not full. The number of each is less than one hundred, and there are many people.

All of a sudden, Lu Ming and Lu Ling left no one left on their ferry boat.

These people flew towards three ferry boats of the Celestial Clan.

Between heaven and earth, those dark mists rushed toward those people frantically, and those people worked their divine power, laying heavy defenses around their bodies to resist the corrosion of the dark mists.

Although this kind of black mist is terrible, but with their cultivation practices, they can still resist a period of time.

They quickly approached three ferry boats of the Celestial Clan.

"Masters of the Celestial Clan, please let us get on the boat!"

"Please let us go up, we can't resist for too long!"

Those people pleaded.

"Huh, a bunch of waste, but also want to go up, and let themselves die outside!"

A strong man of heaven and earth drank coldly.

As soon as this statement came out, the faces of those eight or ninety people changed wildly.

Celestial Clan, won't they let them get on board?

If they are not allowed to board the ship, then they have only one way to go.

"Masters, please do well, let me get on the boat, your great kindness, I will not forget!"

"I beg you, let me get on the boat, I will be a bull and a horse in the future."

Many people shouted.

However, the three Celestials crossing the Ecuadorian boat were indifferent and unmoved, and many people showed their despair.

"Let me go up, let me go up..."

Finally, some people went crazy, rushing towards the ferry boat of the Celestial Clan, and wanted to rush into the ferry boat by brute force.

"court death!"

Some people in the Celestial Clan drank coldly and shot directly.

The shots were extremely powerful. These people could not resist it. In a few moments, dozens of people were killed, and then the body was transformed into nothingness under the corrosion of the black mist.

"Ah..."

The remaining people were desperate and rushed towards the landing naming their ferry boat.

"go!"

At this time, Lu Ming snorted, and took control of the flying boat, flew towards the rear, trying to escape.

This time, the Celestial Clan came prepared and absolutely sent out terrible masters to face the battle head-on. They were very dangerous.

However, the Celestials have already prepared.

When Lu Ming retreated, the three human races of the Terran Clan also started, and they chased to the landing together.

The rest of them were left behind and wailed in despair.

However, no one ignored them.

Lu Ming fully controlled the flying ferry boat, but the flying ferry boat of the celestial human race was chasing after him, biting them fiercely, and the distance between the two sides was still slowly getting closer.

"Lu Ming, you can't walk away, just die!"

Indifferent voices came from a flying boat.

But Lu Ming and Ye Ling said nothing, only to escape.

Uh, uh, uh!

At this time, two of the three ferry boats rushed out.

It is a strong man from the six Celestial Clan. Their speed is very fast. It is faster than the ferry boat. They approach Lu Ming quickly.

"This is... Divine Emperor Nine Heavy!"

Ye Ling exclaimed, his face changed greatly.

Lu Ming's complexion also changed greatly.

The other party really dispatched a terrible master, Divine Emperor Jiuzhong, and immediately dispatched six statues.

Chapter 4336: Airship disintegration

Divine Emperor Jiuzhong, cultivation base is much higher than them, the main thing is that the other party can not be ordinary Divine Emperor Jiuzhong, any one of the Celestial Clan, all have more than two stars of combat power.

And these six strong men, at this age, can reach Divine Emperor Nine Heavy, how could it only have two-star combat power.

This is their irresistible fighting power.

"Do you think you can survive by hiding in a flying boat? Really naive, break me!"

"broken!"

Six masters of the Terran drank coldly and shot at the same time.

Some people hold war Ge, some people hold long guns, some people hold war swords...

Six attacks, they blasted to the landing at the same time.

"All have control of the power of Xeontian..."

Lu Ming and Ye Ling's complexions were extremely dignified.

These six strong men are obviously geniuses of the Celestial Clan, and they actually control one of the four supernatural powers of the Celestial Clan.

Someone is in control of the power of punishment, someone is in control of the power of Tianzhu...

Although the mastery of the fire is not very advanced, it can only be said to be a first glance, but it also makes these people have terrible combat power.

Lu Ming and Ye Ling clearly know that the two of them are definitely not opponents of any of them and will be killed by the other party.

Boom...

The attack of the six men bombarded the barrier of crossing the ferry boat, causing the crossing of the ferry boat to vibrate violently. The barrier of crossing the ferry boat was constantly twisted, as if it would collapse at any time.

"No good, can't stop!"

Lu Ming and Ye Ling sank in their hearts.

The most important function of flying a ferry boat is to resist the dark fog outside and to deter the ghost of ferry crossing.

Although it also has defensive power, it is not strong. It has limited defensive power against attacks from other creatures.

Ordinary masters can naturally be prevented, but these six Tianren clan masters are too strong, and the defense of crossing the flying boat cannot be prevented at all.

However, Lu Ming did not give up, he continued to control the crossing of the flying boat, and flew in one direction.

The reason why he flew in this direction, because Lu Ming remembered, there was a ghost in this direction.

Only meeting the ghost of Du'e, the six strong men of the Terran family, would certainly not dare to continue their offensive and would be shocked.

However, the attacks of the strong men of the six Celestial Races, like storms, continued to pour down, and the crossing of the flying boat was more violent, and the surrounding barriers even cracked.

Can't resist it soon.

Lu Ming and Ye Ling are tense and ready to fight, ready to fight.

Creak...

In front of him, a piercing sound appeared, which made Lu Ming and Ye Ling's eyes light up, and the six Tianren clan strongmen's faces changed greatly.

The ghost of crossing the river!

This kind of voice was made by the ghost of crossing over.

Previously, Lu Ming hated this kind of voice, but now, he is very happy.

Lu Ming looked back, and really saw a huge wandering ghost, and after seeing Lu Ming, they flew towards this side.

"Intensify the time and break their ferry boat!"

A brave man of the Celestial Clan roared, pushing the fighting power to the extreme.

The strong men of the six Tianren tribes broke out the strongest blows at the same time, and even burned part of the power of the sky.

Boom...

This six-strike attack was even more terrifying, and at the same time bombarded the barrier of the crossing boat.

The key is that these six attacks are still bombarded at the same point, and the pressure caused by it is too strong.

Click!

This time, the barrier of crossing the flying boat no longer resisted and collapsed directly.

"not good..."

Lu Ming and Ye Ling were shocked in their hearts. Lu Ming did his best to control the ferry boat without barriers, and continued to fly to the ghost of Doe.

"Fuck me!"

"kill!"

The masters of the six heavenly races naturally know that it is the critical moment. If Lu Ming and Ye Ling are allowed to take the ferry boat and get close to the ghost of the ferry, I am afraid that things will change.

So the six masters of the Celestial Clan all tried their best. Six terrible attacks killed Lu Ming and Ye Ling, trying to kill the two in one fell swoop.

Faced with this terrible attack, Lu Ming and Ye Ling were difficult to stop.

At a critical moment, Lu Ming steered the ferry boat and leaned over to protect the two.

Dangdang...

The six attacks were all bombarded on the crossing of the flying boat. The crossing of the flying boat was a tremor. There was a striped road on it, and on the crossing of the flying boat, cracks appeared.

The ferry boat was originally made up of nine parts. These gaps are the gaps between the nine parts.

At this moment, after being violently attacked, the parts where these parts are glued are split and are going to spread out.

Finally, with a bang, there were several parts that could not be glued together and flew out by a powerful force.

Lu Ming and Ye Ling shot quickly and wanted to grab these parts.

However, the six masters of the Celestials also shot.

Although Lu Ming and Ye Ling were closer to these parts, there was still a part that finally fell into the hands of the Celestial Clan.

At this time, they were very close to the ghost who had passed through.

Creak...

The ghost of Du'e screamed, made a piercing sound, exuded a terrifying breath, and made Lu Ming, Ye Ling, and six Tianren masters chill.

Special equipment is a master of the six Celestial Clan, and beside them, there are no treasures that can deter the ghost of crossing the Evil.

Lu Ming and them, as well as half a broken ferry boat, still glowed.

The ghost of crossing the embarrassed eyes, looked at the six masters of the Terran Clan, the huge body, directly pounced at them.

"No, go back to crossing the ferry boat!"

"Their ferry boat is incomplete, and there is a part that falls on us. Their ferry boat will soon disintegrate, and there will be only one dead road."

The six Celestial Masters quickly exchanged a sentence, and then retreated, rushing towards their ferry boat.

And their ferry boat, he quickly rushed to this side, before the ferry of the ferry rushed to the six masters of the human race, has returned to the ferry boat.

Anyway, Lu Ming's ferry boat has already had a part on their hands, and they will soon disintegrate.

The ghost of Du'e was close to the Du'e flying boat of the Celestial Clan, and the light from the Du'e flying boat was feared, circled a few times, screamed a few times, turned around and rushed towards the landing.

At this moment, Lu Ming's flying boat was indeed disintegrating.

Piece by piece, he flew out and was caught by Lu Ming and Ye Ling.

And the ghost of the crossing was quickly approaching the landing and they flew over.

Their faces were extremely ugly.

The ghost of Du'e is very horrible. If it is caught, there is really only one way to die.

Although the two of them tried their best to fly, the ghost of Doe was faster and approaching them quickly.

"Look at how they died?"

On the three ferry boats, people from the Celestial family sneered.

Now, they are not in a hurry, they are not in a hurry to control the crossing of the flying boat, and they are far behind, wanting to appreciate the fear of Lu Ming and Ye Ling.

Chapter 4337: Hunted by the ghost

The ghost of Du'e, quickly approaching Lu Ming and Ye Ling, the cold and horrible atmosphere, so that the goose bumps of the two have risen, and the muscles are involuntarily tightened. That is a natural response to a terrible crisis.

"Using the parts of the ferry boat, while still not completely silent..."

Lu Ming took a light drink, grabbed the parts of a ferry boat and flung towards the ghost of ferry.

Now, the ferry boat has just disintegrated, and the parts of the ferry boat still emit a mysterious light, which has not completely dissipated, and should have a restraining effect on the ghost of the ferry boat.

If the mysterious light above these parts is completely dissipated, and there is no restraint on the ghosts of Duer, then they are the real danger.

Uh!

A part of a crossing boat flew towards the ghost of crossing the river. Sure enough, the ghost of crossing the river showed fear. He dared not rush straight over, but flew out laterally, changed a direction, and rushed over again.

Lu Ming and Ye Ling grabbed the remaining parts and threw them all away, covering a large space around the square, completely blocking the road to the ghost of crossing the wing.

Then the two seized the opportunity and used their speed to the extreme, rushing towards the distance.

Lu Ming's great aurora technique is amazingly fast, but Ye Ling's speed is not slow, like a sword light, flying through the air.

The two flashed a few times and disappeared into the thick black mist.

"Damn, chase!"

"Live to see people, to die to see dead!"

On the first three flying ferry boats, the Celestial Crow screamed, and controlled the ferry ferry boat, and they rushed towards the landing in the direction of their escape.

The ghost of Du'e, feeling the light on Du'e's flying boat, revealing the color of fear, did not dare to block it, and quickly gave way.

The celestial beings crossed the flying boat, and by the way, Lu Ming collected all the parts of the flying boat.

They rushed in the direction of landing Ming and Ye Ling's escape at the fastest speed, but unfortunately, they chased out for a while, but no traces of Lu Ming and Ye Ling were seen.

"Damn, we chase apart, they can't run far!"

A strong man of heaven and earth roared.

The three ferry boats were scattered, chasing and searching along the way.

However, a few hours later, no trace of Lu Ming and the two were found.

The three ferry boats merged in one place, and the faces of the Celestial Clan were a little unsightly.

"They didn't cross the flying boat, they will definitely die, but unfortunately, they can't go back with the body of Landing Ming!"

A strong man of heaven and earth sighed.

Without the protection of crossing the ferry boat, in the sea of crossing the ferry, they will definitely die, and they will not doubt this.

However, the lack of Lu Ming's corpse in their hands could not be taken back to invite meritorious service, so the credit would be reduced a lot, so many celestial beings sighed.

"In any case, Lu Ming died because of being chased and killed by us, which also has merit. We share the merits and get many benefits."

Another human race said.

Everyone is in a better mood.

"Let's go back!"

Subsequently, three ferry boats left here and headed towards the core area.

When three ferry boats left for a period of time, a certain area, in a pile of rocks, flashed in shape, and two figures appeared.

It is Lu Ming and Ye Ling.

The power controlled by the two of them is not trivial. Although the surrounding black mist is very corrosive, there is no problem with the strength of the two people to resist for about a day.

However, their faces are very unsightly.

Even if the two can resist a day, that is not enough.

Here, it is still far away from the core area. Even if the two are flying at full strength, it will take at least two days or more to reach the core area.

Time is simply not enough.

As for retreating, it is impossible at all. The distance of retreating is farther.

This is still the case without encountering the ghost of crossing the river. If you encounter the ghost of crossing the river, it is even more dangerous.

However, the two have no retreat.

Now, we must fly hard and fly towards the core area. In the latter case, we can only take one step at a time.

"Go!"

Lu Ming said, the two nodded and flew in the direction of the core area together.

Of course, they can also avoid the direction of the Celestial Clan and go from another direction.

嗤嗤...

The dark mist between heaven and earth seemed to be spiritual, and they kept coming to the landing and surging them.

Lu Ming placed a lot of defense around his body with the power of taboo. After those black mist contacted the power of taboo, they made a sneering noise.

Although the power of taboo blocked the black fog, it was consumed all the time, and the consumption rate was very fast.

The power controlled by Ye Ling is not as good as the taboo power, but his cultivation base is one heavier than Lu Ming, and it is almost as difficult to resist as Lu Ming.

After a few hours, the two felt a lot of power in their bodies.

They had been hiding for a few hours before, and now they have flown for a few more hours. They feel that they can resist for another 20 hours at most.

After twenty hours, their power will be exhausted and corroded by the black mist.

Creak...

Suddenly, on the right side of Lu Ming, there was a harsh sound.

Upon hearing this voice, the two's faces changed wildly and became very ugly.

The ghost of crossing the river!

This is the voice of the ghost.

I really don't want to see anything.

Huh!

To their right, the black mist rolled, and a giant came out.

It is a ghost of crossing the river.

The ferocious eyes of Du'e's ghost looked at Lu Ming and they made a harsh scream, and they rushed to Lu Ming.

"go!"

The two flew directly to the left.

Because only in this direction, the distance between the two sides is the farthest, and in other directions, the distance is closer.

Behind them, the ghost of Tou Er chased them at the landing crazy, faster than Lu Ming, and the distance between the two sides was constantly getting closer.

"Trouble!"

The hearts of the two began to sink.

After a few minutes, the distance between the two sides became closer.

If you go on like this, you will be caught up in a few minutes.

"Damn, see if it works!"

At this time, Ye Ling took out a position and urged the position to see if he could deal with the ghost of Du'e.

"This breath... seems to be the treasure of the last era!"

Lu Ming moved.

In the Taishang fairy city, the magical treasures of the vast universe cannot be used.

But this array in Ye Ling's hand does not seem to be a treasure of the vast universe.

"This array was obtained from a ruin in the ruins of the universe. It should be an item from the last era, not subject to the restrictions here..."

Ye Ling explained.

The disk shone, and the radiance shone on the ghost of Dou.

The glance of Du Ge's ghost began to flash a few times, and then continued to rush over, hitting the array and flying out.

Useless!

Not useful at all.

Ye Ling's complexion is even more ugly. Originally I wanted to try the items from the last era. Can I restrain the ghosts of Duke, and it turned out to be useless at all.

Chapter 4338: Desperate

The distance between the ghost of Du'e and Lu Ming is getting closer and closer. The horrible cold air makes the two bodies tense and cold in their hearts, as if there is a very cold blade cutting on their skin.

The sense of crisis is getting stronger and stronger.

"Try it with a copper copper coffin!"

Lu Ming thought.

Although in the Taishang fairy city, the treasures of the vast universe cannot be used.

However, the copper copper coffin is different from other magic soldiers.

Lu Ming took out the copper and copper coffin, not to inspire the power of the copper and copper coffin itself, but to open the copper and copper coffin and let the primitive spirits inside to deal with the ghost of Du'e.

However, there is a key point in this, that is, the original gods in the copper copper coffin, cultivated to the realm, far above the Divine Emperor, it is likely that the original gods of the level of the "main god" will be affected by the Taishen City. Rule suppression?

After all, the existence above the Divine Emperor cannot enter the second floor of Taishang Xiancheng.

Therefore, Lu Ming has never taken out the copper copper coffin, because he is not sure whether it is useless. In case it is useless, he still delays the fighter.

However, at this time, Lu Ming had to take it out and give it a try.

"There is a forest in front, let's go in and see!"

At this time, Ye Lingdao.

Lu Ming also saw that there was a forest in front of them. The forest was vast, and he could not see the side at a glance.

In the forest, it's all dark trees.

These trees are huge, and each plant is over 10,000 meters.

Both branches and leaves are dark, and the branches are twisted into strange shapes and look extremely weird.

Moreover, the two vaguely felt a dangerous breath from the forest.

But no matter how dangerous it is, is there any danger of crossing the wing?

Maybe the danger in the forest can help them get out?

Lu Ming temporarily pressed down the idea of taking out the copper coffin, and Ye Ling flew towards the forest with all his strength, and plunged into the forest.

Creak...

The ghost of Doue screamed and stopped, revealing hesitation, but in the end he didn't rush into the forest.

The crisis of the ghost of crossing the river is lifted.

However, the hearts of Lu Ming and Ye Ling did not let go.

It can stop the ghosts of Du'e, and is afraid. This forest is absolutely nothing. Is there a more terrifying existence than the ghost of Du'e?

Sisisi...

Seemingly responding to Lu Ming and Ye Ling's concerns, there was a slight voice in the forest immediately.

The spirit of the two was highly concentrated, looking towards the place where the sound originated.

Immediately afterwards, a behemoth appeared in front of Lu Ming.

This is a giant snake.

The giant snake is dark and extremely huge, but the snake has grown a snake tail, which looks like tentacles, looks terrible and terrifying.

The most terrifying thing is the face of the giant snake.

It's also a human face, full of twisted horror. When people look at it, they stand upside down and chill.

The ghost of crossing the river is another ghost of crossing the river.

In this forest, there is actually a ghost of crossing the river, and it is different from the species Lu Ming encountered before.

The breath from this ghost who seems to be crossing the river seems to be more terrifying than the outside. No wonder the one outside dare not rush in.

"go!"

Without hesitation, the two rushed towards the other direction of the forest.

Sisisi...

This snake-like ghost, who made a snake-like cry, twisted his body, rushed towards Landing Ming and Ye Ling, very fast.

Lu Ming and Ye Ling, showing their ways, bypassed a huge tree and rushed towards the other side of the forest. They wanted to rush out from the other side of the forest, avoiding the two crossing ghosts outside and inside the forest .

However, before they ran far, their faces became even more ugly.

Because, on a dark tree next to them, there was also a sound, and then a snake-like ghost crossing the tree and swimming down, the forest's gaze, dead Staring at Ming Ming and Ye Ling.

Another one!

The two were shocked that there were two snake-like ghosts in this forest.

Without hesitation, the two changed direction and rushed forward.

However, before they ran out a few steps, the two stopped, their faces pale.

Because, in front of another ghost appeared.

Sisisi...

Not only the front, left side, and right side, there are constant sounds, and then, snakes, like ghosts, wander over.

Lu Ming was surrounded by them.

Lu Ming glanced over and saw at least eight ghosts crossing the river, all in all directions, and surrounded them in groups.

"Ruined!"

Ye Ling smiled bitterly.

Rao is that he is a peerless demon, has experienced various big scenes, and has also experienced various life and death crises, and at the moment can't help but reveal a trace of despair.

None of the ghosts of a fertility will be able to fight against them. They will be overtaken and will definitely die.

Now, there are eight ghosts crossing the border, and they have no chance.

Don't talk about them, even if the Lord of God comes, I'm afraid I will drink it.

"We're here in the old nest of a ghost of crossing the river!"

Lu Ming also smiled bitterly. At the same time, the copper copper coffin had appeared in his hands.

At this time, you can only fight with a copper coffin.

Ye Ling's eyes also fell on the copper copper coffin, revealing a trace of expectation.

The taboo body, with atmospheric transport, shouldn't it just fall away?

Now, Lu Ming can only rely on.

Click!

Without any hesitation, Lu Ming directly pushed the coffin lid of the copper copper coffin to reveal a crack in the copper copper coffin.

An infiltrating breath filled out.

Click!

Lu Ming continued to push forward, and the gap between the copper and copper coffins became larger and larger.

Sisisi...

At this time, the eight ghosts crossing the river also rushed to the landing.

Roar!

In the copper and copper coffin, there was a roar that shook the forest.

Lu Ming's eyes lit up, and he could hear it. This was the roar of the original god.

This roar seemed to startle the ghosts of the crossing, and the body stopped, looking at the copper and copper coffin.

Roar roar...

In the copper and copper coffins, roaring noises came out continuously, and then there were two arms covered with scales, which protruded from the gap, and then a head was also protruded.

It was the primitive deity that once appeared, a primitive deity of the 'master god' level.

The arms of the original gods supported both sides of the copper and copper coffin, pushing hard, trying to rush out of the copper and copper coffin.

But at this time, the mutation suddenly emerged.

In the void, suddenly a ray of light diffused, a circle of light emerged, and pressed toward the original god.

This ray of light gives a sense of supremacy, immortality, and suppression of everything.

It seems that all living things and all things must bow their heads in this light.

Chapter 4339: Another breath in the copper coffin

This ray of light pressed against the original god.

Roar!

The primitive gods roared and struggled, seeming to break through the repression of the light, and rushed out of the copper and copper coffin.

However, that ray of light was too strong, and no matter how the original gods impacted, they were still, and they continued to press down.

The primitive deities seemed to be unable to bear, and were slowly pressed back into the copper copper coffin.

At first the head, then the arms, slowly returned to the copper copper coffin, disappeared.

"This..."

Lu Ming and Ye Ling were stunned.

Lu Ming, in particular, was overwhelmed with shock in his heart.

He knew how powerful this primitive **** was.

That's the original spirit of the level of 'main god', which is equivalent to the existence of the original realm.

Such a powerful existence was actually pressed back into the copper and copper coffin by a ray of light, and it couldn't even come out.

This light is too scary.

Is this the rule of Taishang Xiancheng?

The second floor of Taishang Fairy City does not allow the existence of Divine Emperor or above to enter. Sure enough, this primitive **** cannot come out of the copper copper coffin.

Sisisi...

After seeing the disappearance of the primitive gods, the ghosts who wandered to the ground yelled again, with a cold light in their eyes, and rushed towards Landing Ming and Ye Ling.

"This time, trouble!"

A thought flashed in Lu Ming's mind.

Even the copper and copper coffins have lost their function. He has no other means to cope with the current situation.

Relying on your own strength, in the face of these ghosts, you will definitely die.

"Ye Ling, desperately!"

Lu Ming said.

"Okay, desperately!"

Ye Ling nodded.

None of them are easy to admit defeat, easy to admit their fate, even if they know they are not invincible, they must fight.

In the war, the fall in the fight is the home of the practitioners, not death.

But at this time, things changed again.

At this moment, in the copper and copper coffin, the breath of the original **** suddenly disappeared without a trace, but immediately another breath appeared.

A new breath, a breath Lu Ming never felt.

What surprised Lu Ming and Ye Ling was that this breath was somewhat similar to the light that suppressed the original **** before.

The same is supreme, the same eternal immortality, mysterious and unpredictable.

As soon as this breath rushed, it burst out in all directions.

Suddenly struck by this breath, the bodies of the eight crossing ghosts suddenly stiffened, and the body shivered, and there was a fear in his eyes.

With a few screams, the eight ghosts who passed by turned around and ran away, disappearing without a trace.

Lu Ming and Ye Ling were stunned.

Especially Ye Ling, the mouth is wide enough to insert a goose egg.

"Lu...Lu Ming, what is there in your copper coffin besides a primitive god?"

Ye Ling could not help asking.

In the copper and copper coffin, there is a horrible primitive god, which has shocked Ye Ling. However, there seems to be something in it, which is more mysterious and terrible, and it is difficult to speculate.

It was just a breath that made the eight ghosts disappear.

"I...I don't know!"

Lu Ming shook his head.

He really didn't know.

Although he has been getting the copper coffin for a long time, it has been difficult to understand its mystery.

The more I feel, the more mysterious I feel.

In the past, he always thought that the copper copper coffin was a burial place where a primitive **** fell behind, but the primitive **** behind appeared, clearly undead, and alive.

Moreover, the back of this primitive deity is connected with a silk thread.

Gives a feeling of being controlled.

Behind, the copper and copper coffin sucked Lu Ming's "past body". There is no news so far. Lu Ming can only feel that the "past body" is still alive.

Now, in the copper and copper coffin, there was a new breath, a breath similar to that of suppressing the light of the original god.

The secrets of the copper and copper coffins are more and more, and it is more and more difficult to speculate.

"That breath is very similar to that ray of light, and that ray of light is transformed by the rules and myths of Taishang Xiancheng, Taishang Xiancheng, but it was left in the last era, will your copper coffin also be Treasure of the last era?"

Ye Lingdao.

Lu Ming's eyes lit up.

A word to awaken the dreamer!

Ye Ling is right, is the copper copper coffin really a treasure left by the last era?

Inside, is buried a strong man from the last era?

But what happened to that primitive deity?

And why **** in the past?

Instead, Lu Ming felt more doubts.

"Don't talk, let's leave here first!"

Lu Ming said, suppressing the doubt in his heart.

This place should not stay for a long time.

"go!"

Ye Ling also nodded. This forest is clearly the old nest of the ghost of crossing the river. The two rushed directly out of the forest.

Soon, the two rushed out of the forest, but as soon as the two rushed out of the forest, they heard a harsh scream. The ghost who had killed them before appeared again, rushing towards them.

This ghost, who has never left, has been wandering around the forest. Lu Ming and Ye Ling rushed out of the forest and were sensed.

However, in Lu Ming's hand, he has been holding the copper copper coffin and the coffin cover, and did not cover it.

Lu Ming stared at the ghost of Dou, and did not escape.

This time, in the copper and copper coffin, will that mysterious and unpredictable breath appear again?

The result did not disappoint Lu Ming. When the ghost of Du'e approached Lu Ming, the breath in the copper copper coffin came out again.

Suddenly struck by this breath, the ghost of Dou E revealed a terrified look, then turned around and ran away, disappearing without a trace.

Lu Ming and Ye Ling glanced at each other, then laughed at the same time.

"It's cool, it's cool, this bronze coffin can actually retreat the ghost of crossing the river. In this sea of crossing the river, we don't have to be afraid of the ghost of crossing the river!"

Ye Ling laughed, very happy.

"Let's go quickly!"

Lu Ming said.

Although the copper and copper coffins were able to retreat from the ghosts of crossing the river, their crisis has not been lifted.

They are still crossing the sea of Ecuador, the black mist, which corrodes them all the time.

As long as they are still crossing the sea, they are very dangerous.

The two did not speak much, cast their skills, and flew towards the core area.

They must rush to the core area as soon as possible, they can't support it for too long.

Lu Ming re-inserted the coffin cover of the copper copper coffin, but did not put it away, but held it in his hands and kept alert.

Soon, five or six hours passed.

The two's faces are getting ugly.

Their power is consumed very badly, but they don't know how far away they are from the core area, so they can't persevere for so long.

Chapter 4340: Horror tree

Fortunately, there are still a lot of Honghuang Dans on them.

Before departure, those who boarded each paid 20,000 Honghuangdan, and received a total of 4 million Honghuangdan, two million per person.

After their power is lost, they can absorb Hong Huangdan to supplement their strength.

However, for Lu Ming to break from Divine Emperor's fifth to Divine Emperor's sixth, they all need at least 12 million Honghuangdan. It can be seen that two million Honghuangdan is not too much, and may not be able to support them through the transitional sea .

Therefore, they can only save as much as possible while speeding up.

Without going to the last step, they will not give up.

In an instant, hours passed.

"Huh, that's..."

At this moment, the two eyes narrowed and looked forward.

In front of it, there is a huge shadow that emerges. At first glance, I thought it was a big mountain.

But if you look closely, it is not a big mountain, but a big tree.

A huge huge tree.

The canopy soared into the clouds and covered the sky.

"That is..."

At the next moment, their faces showed a trace of horror.

Because they saw an amazing scene.

On the branch of this tree, there are some ghosts who lived.

Yes, it is the ghost of crossing over.

At a glance, at least I saw dozens of ghosts crossing the border, seeming to be resting.

But this time, a dozen or so ghosts seemed to sense something, and at the same time opened their eyes and looked at them at Lu Ming, exposing a cold light.

At the next moment, the ghosts of crossing the river rushed towards the landing together, very fast.

Click!

Lu Ming opened the copper coffin directly without hesitation.

Just like the ghost I met before, there was a mysterious breath in the copper and copper coffin. A dozen ghosts of Due screamed, turned around and ran, they ran to the branch of that tree and lay down. Shivering in the branches.

The two were relieved.

"Hey, there seem to be some seeds on the tree."

Ye Ling pointed to the tree.

Lu Ming looked around and saw some seeds hanging on the branches.

The seeds are black, the size of a fist, and emit a hazy light. There are about five or six seeds, black mist in all directions, which are constantly gathered and finally absorbed by the black seeds.

At this moment, one of the black seeds fell off and fell to the ground.

When the black seeds landed on the ground, they immediately took root and germinated, and grew into a small tree. Then the small tree quickly grew up, and the surrounding black mist began to gather frantically towards the small tree.

"That is..."

Lu Ming and Ye Ling's eyes widened.

Because, in the process of growing up this little tree, some ghosts appeared on some branches.

At the beginning, the ghost of Doe was relatively small, but as the small tree grew up quickly, the ghost of Doe also became larger.

The two looked at each other, and both saw shock from each other's eyes.

Dare to love, the ghost of crossing the river, is this kind of tree born?

Soon, the small tree grew to a height of 100 meters, but it was far from the big tree.

At this time, the bottom of the big tree suddenly stretched out roots.

A dozen or so tree roots, like a few long snakes, entangled toward that little tree, entangled the little trees, pulled up the roots, and pulled the little tree closer to the trunk of the big tree.

The small tree quickly withered, and finally fully integrated into the root of the big tree, disappeared.

Lu Ming and Ye Ling found that the luster of the tree seemed brighter.

The two dumbfounded.

This big tree actually improved itself by devouring the little tree.

Seeds were bred by myself, the seeds fell to the ground, quickly took root and germinated, and grew quickly. Before they were fully mature, they were swallowed by the tree.

What is the principle?

The two were a little confused.

At this time, another seed fell off and fell to the ground.

As before, the seeds take root and grow quickly.

When it grows to about 100 meters, it is swallowed up by the big tree again.

"This kind of child is not just a small child. Not only can he grow quickly, but he can also breed the ghost of crossing the river. If he can control it, it can become a big killer!"

Lu Ming said.

"You are right. If you enter the core area, this kind of seed can also grow quickly. It can indeed become a big killer, but this tree feels very different..."

Ye Lingdao, thought of going with Lu Ming.

"Lu Ming, since this seed can absorb the black mist here, if you can hold this seed, you may be able to isolate the black gas outside, so that you will not be corroded by the black mist!"

At this time, Lu Ming's mind sounded the voice of bone demon.

Since entering the Taishang fairy city, the bone demon seems to have been suppressed by the rules of the Taishang fairy city, and can only shrink in Lu Ming's sea of knowledge, and cannot come out.

"Has this effect?"

Lu Ming's eyes flickered, revealing the color of intentional movement.

"Try it!"

Lu Ming whispered and finally decided to give it a try.

He has a copper and copper coffin, and may not be able to fight it.

Not to mention whether they can enter the core area, even if they can enter the core area, in the core area, there are many masters, Celestials, and a group of Tianjiao, the strongest races, have already entered the core area.

There are also those strong men who have been practicing for many years, and some are extremely advanced, reaching the eighth level of Divine Emperor and even the ninth level of Divine Emperor.

With their strength, even if they enter the core area, they are likely to be targeted and have no place.

However, if there is such a seed, there will be a big killer.

"Brother Ye, you're raking for me!"

With a word, Lu Ming dragged the copper copper coffin and rushed towards the crown of the big tree.

There are now three seeds in the canopy.

Lu Ming rushed towards one of the seeds, but just as Lu Ming approached the seed, under the big tree, roots were sticking out, like tentacles, sweeping towards the landing Ming.

The roots waved, the wind screamed, and a thick black mist was brought up.

Lu Ming didn't hesitate and pushed away the copper copper coffin directly.

The mysterious breath appeared again, spreading out in all directions.

Suddenly struck by this breath, the roots of the big tree suddenly stopped, dancing wildly in place, actually exuding emotions of fear.

"This big tree, indeed, has the intelligence, it will fear..."

Lu Ming was very happy, stepping forward, holding the copper copper coffin, near the roots of the big tree.

The roots of the big tree danced wildly, and the fear was even stronger.

Then, withdrawn, withdrew.

Lu Ming continued to rush towards the canopy.

On the branch, those ghosts crossing the earth, staring at Ming Ming with their eyes open, wished to rush towards Lu Ming and slay Lu Ming.

However, when they saw the copper and copper coffin in Lu Ming's hands, they did not dare to watch it.

At the next moment, Lu Ming approached one of the seeds, waved his hand, and a force swept through and picked the seed.
