

D Emperor 4341

Chapter 4341: Seed manipulation

After picking a seed, Lu Ming directly collected it into the storage ring, and then proceeded to pick the second one.

Soon, the three seeds were received by Lu Ming into the storage ring.

The big tree, constantly struggling, the roots of the root, waving wildly, struggling frantically, seemed to be furious.

On the branches, those ghosts who were crossing the earth are also very irritable, screaming constantly, cold eyes, staring at the land, if they were not afraid of the breath of the copper copper coffin, they would have rushed to Lu Ming, will Lu Ming was torn into pieces.

However, there are red copper coffins to suppress, they dare not.

After Lu Ming picked the three seeds, his figure retreated and returned to Ye Ling.

"Bone Demon, how to use it?"

Lu Ming secretly asked the bone demon.

This kind of child also contains a thick black mist. Even if they get it, it is not easy to take it out because the mist above it will hurt them.

"Try it on a drop of blood!"

Bone Magic Road.

Lu Ming nodded, a thought moved, a seed flew out of the storage ring, Lu Ming wrapped with taboo power, suspended in the air.

The black mist around it constantly gathers and is absorbed by the seeds. There will also be black mist on the seeds, which constantly corrodes the taboo power and makes Lu Ming's taboo power consume quickly.

Lu Ming's face changed. If he could not control this kind of thing, holding it would increase his energy consumption.

Immediately, Lu Ming squeezed a drop of blood according to the bone demon's proposal and flew towards the seed.

When a drop of blood approaches the seed, the seed produces an attractive force. The drop of blood is sucked over and submerged into the seed, blending with the seed.

Suddenly, Lu Ming had a wonderful feeling.

It seems that this seed has been controlled by him.

When the thoughts moved, the black mist on the surface of the seeds disappeared, and the taboo force against Lu Ming was no longer corrosive.

In addition, the seeds continue to absorb the black mist outside. In this way, the black mist around Lu Ming's body is absorbed, forming a vacuum zone without black mist around Lu Ming's body.

Lu Ming suddenly felt relieved of pressure, black mist, and no longer threatened him.

"Really useful!"

There was a smile on Lu Ming's mouth.

Aside, Ye Ling was also overjoyed.

As long as the crisis of black mist is resolved, then, crossing the sea of Ecuador will let them cross, and there will be no danger.

"Ye Ling, here!"

Lu Ming waved his hand, and a seed flew towards Ye Ling.

According to Lu Ming's method, Ye Ling first wrapped the seed with strength, then squeezed a drop of blood, and flew towards the seed. When the blood and the seed merged, Ye Ling mastered the seed.

The black mist no longer threatened them.

Then, Lu Ming took control of the second seed in this way.

After this was done, the two used their methods and continued to rush towards the core area.

However, it is completely different from the previous state of mind.

Before, there was always a lot of pressure and a strong sense of crisis in their hearts. They were always oppressing them. They must continue to move forward and rush to the core area as soon as possible, otherwise they will die.

But now, although they are still very fast, they are very relaxed and have a feeling of being unhurried.

Next, they did not encounter any danger, even if they encountered the ghost of Du'e, they were surprised by the copper and copper coffin.

A few days later, they finally crossed the crossing sea and came to a new land.

There is no difference between the breath here and the previous peripheral area. The only difference is that there is a great deal of stagnation.

"Here is a wasteland, and it's much thicker than the surrounding area!"

Lu Ming sighed.

"This is an ordinary area, the core area, but there are veins. If you find a vein, the speed of condensing Honghuangdan will be greatly increased."

Ye Lingdao.

"However, there is no black mist like that kind of crossing the sea of Ecuador, that kind of seed, I don't know if it's useful."

Lu Ming said.

In the crossing sea, they saw that the seeds that grow quickly will absorb the black mist, but in the core area, there is no black mist for them to harvest, can the seeds grow quickly?

If the seeds can't grow fast, then they can't become their big killers. When they meet the invincible strong men in Tiangong, Lu Ming is not an opponent at all.

"Find a place to give it a try!"

Ye Lingdao.

"Only this!"

Lu Ming nodded.

Fortunately, they have three seeds in hand, and even if one is wasted, it doesn't matter much.

The two flew towards the depths of the core area at a very fast speed. Soon after, the two came to a mountain depression.

"Just try it here!"

Lu Ming said.

After talking, Lu Ming took out a seed, waved his hand, the seed flew towards the mountain col and landed on the ground.

When the seeds fall to the ground, they take root and germinate at an alarming rate, and then grow up quickly.

"This is... absorbing the black mist..."

Lu Ming and Ye Ling were shocked.

They can clearly feel that there is a ray of black mist in the void, flying over, being absorbed by the seeds and growing rapidly.

This place is very far away from the crossing sea, and the seeds can still absorb the black mist. Those black mists are as if coming from the broken void, which is really wonderful.

The seeds took root and germinated and turned into small trees. The small trees continued to grow rapidly, and the speed was still amazing.

In less than a minute, the small tree became a towering tree.

It can be clearly seen that on the branches of the big tree, there are more than a dozen ghosts crossing the river, lying on the branches, seeming to be sleeping.

"Lu Ming, you give it a try and see if you can control this big tree!"

Ye Lingdao.

Lu Ming nodded and concentrated.

At the next moment, he felt that the spirit had a connection with the big tree, and everything in the big tree seemed to be under his control.

"attack!"

With a move in his heart, Lu Ming issued an order.

Suddenly, the ground turned over, and the roots of the big trees protruded from the ground, waving like long snakes. The slamming air made a violent explosion and was terrifying.

One of the roots was struck to find a mountain on the side, which exploded directly.

"It's really amazing, even Divine Emperor Jiuzhong can't stop such an attack!"

Lu Ming thought, very satisfied.

"The ghost of crossing the river!"

The thought moved again, and the dozen or so ghosts who had been lying on the branch suddenly opened their eyes. In their eyes, a fierce murderous opportunity was revealed. They flew out of the branch and flew continuously in the air.

However, did not fly to Lu Ming and Ye Ling.

Because everything is under Lu Ming's control.

"it is good!"

On the edge, Ye Ling cheered loudly.

Lu Ming also smiled.

This seed is really a big killer.

Chapter 4342: Let's start with a common ground

This kind of seed, as long as one kind of seed, will quickly grow into towering trees, and has extremely amazing attack power.

In addition, the ghosts of Dou will be born on the branches, which is the most terrifying.

As long as this kind of big tree is planted, the area around Fangyuan will be completely controlled by Lu Ming. The people in Tiangong are coming and there is only one dead path.

"Unfortunately, a seed was wasted. We should find the earth vein occupied by the Tiangong and then seed the earth vein. Then, that earth vein will be controlled by us!"

Lu Ming sighed.

"It's...mistakes!"

Ye Ling also shook his head and sighed.

With the power of this seed, a seed can completely occupy a vein.

Three seeds can occupy three earth veins.

Now, a waste of a seed is equivalent to a waste of a vein, they only feel the blood dripping from their hearts.

"It doesn't matter, there are two earth veins, enough. When our cultivation base is promoted, why should we use this seed?"

Lu Ming smiled, and soon recovered, confident.

Now, he loses in cultivation as low as it is. If cultivation ascends to ascend, there is no fear of anyone. With his own strength, he can occupy other places, so why not seed?

What they need most is how to gain a foothold in the beginning.

And with the seeds, there is no problem at the beginning.

"Let's find the ground!"

Lu Ming said, then the two left here to find the ground.

In the core area, the ground is not everywhere.

In fact, there are not many earth veins.

The core veins in the core area are mainly divided into two levels, common veins and advanced veins.

Obviously, the concentration of highland gas in the high-grade veins is far above that of ordinary veins.

Of course, the concentration of flood gas in ordinary earth veins is far from comparable in peripheral areas.

Lu Ming, when they entered the core area, was relatively late. It is estimated that most of the land now is occupied by people.

Some people have been in the core area for several years, and Xiu Wei does not know where they are.

No matter what other people's cultivation practices are, to what point Lu Ming has to do now is to occupy the ground, condense Hong Huangdan, and cultivate cultivation practices, and catch up.

The territory of the core area is very broad and larger than the peripheral area.

They searched for a long time before finally finding a place.

Along the way, a mountain range traverses the earth, looking from a distance, like a big dragon.

Above the mountains, the mist is filled, and it is clearly a rich and inseparable flood gas.

"It's so rich and wild, let's go!"

Ye Ling's eyes glowed, and the two flew towards the mountains.

Soon, the two were near the mountains.

"who?"

"This place is the place of my Sun Clan. Let the two leave!"

A few voices came from the mountain range, and then one figure rose into the sky, blocking Lu Ming and Ye Ling.

A total of more than twenty people, all wearing golden robes, a golden flame beating on their bodies, exuding a hot breath.

"It turned out to be the Sun people!"

The two moved.

The Sun race, ranked 31st in the Honghuang Wanzu list, is considered a strong race. However, compared with the top ten races, there is naturally a big gap.

Lu Ming and Ye Ling did not have much pressure.

"It's your Sun Clan's land? It's a little ridiculous, Taishang Xiancheng, but no land, anyone can come, now, we want to condense Hong Huangdan in this mountain range, let me let it go!"

Lu Ming said.

"Our Sun Clan has occupied it first, that is our land, two of them, let's leave, otherwise, don't blame us for being welcome!"

A strong man from the Sun clan said coldly.

Lu Ming glanced.

There are more than 20 Sun tribes. There are five people of the younger generation.

Among them, many people's cultivation practices have reached the sixth level of Divine Emperor, and even two of them have already reached Seventh Level of Divine Emperor.

The Sun people of all ages, who are in their prime, actually have such a high level of cultivation. It can be seen that these people have gained a lot here.

"We are in this mountain!"

Ye Lingdao.

"court death!"

A strong man from the Sun tribe drinks coldly.

"So much nonsense with them? These two boys didn't know what to do and just bombed!"

"Good, kill them!"

The people of the Sun tribe were furious, and each one showed a cold killing opportunity, like the suns, filled with a very hot breath.

boom! boom! boom!

These people moved, like the sun, and they rushed towards the landing.

Keng!

Ye Ling moved, the long sword came out of the sheath, the sword light skyrocketed.

A few sword lights, split towards several suns.

Several 'suns' were directly split into two halves by Jianguang, and the people inside were also directly killed.

Among them, there is also the existence of a sevenfold god.

This Divine Emperor Qizhong is a strong man of the Sun Clan. Although his cultivation level is one higher than that of Ye Ling, his fighting power has not reached six stars, but only Samsung.

And Ye Ling's combat strength is close to ten stars, the gap is too big.

The Sun Clan is not a Celestial Clan.

The strong men of the Celestial Clan they met before, Lu Ming, could reach five stars and six stars, or even seven stars.

Tianjiao of the younger generation is even more terrifying, and even eight-star combat power appears.

But that's the Celestial Clan.

The Sun tribe is far inferior to even the top ten races, let alone compared with the Celestial Clan.

Among the Sun family, there are very few who can reach the four-star combat power.

How can these people be opponents of Lu Ming and Ye Ling if the cultivation base is not much higher?

When Ye Ling shot, Lu Ming also shot.

The guns burst out, and the 'suns' went out.

Only a few breaths, only two people of the more than 20 Sun clan, and the rest were all killed.

"No, leave now!"

"go!"

In the mountains, there are some people from the Sun tribe. These people did not do it before, but they were guarding the red furnace and condensing Honghuang Dan.

"Leave the Dan Furnace and go!"

Ye Ling spoke indifferently, turned into a sword light, and rushed past.

Those who guard the Danlu are not as powerful as the previous batch, where is Ye Ling's opponent.

After being slain for a few times, the others were terrified and threw the Dan furnace out and fled their lives.

Soon, Ye Lingfei came over and smiled.

"It's a good harvest. There are thirty monasteries with a diameter of one meter. Unfortunately, there is no large monastery with a diameter of three meters!"

Ye Lingdao.

"Not bad!"

Lu Ming also smiled.

The big head of the Danlu is definitely in the hands of the Celestial Clan or the top ten races. The people of the Sun Clan can get 30 Dan furnaces, which is already a very good harvest.

The two are divided equally, and each has fifteen.

"You two, talk about the current situation in the core area, and tell what you know, honestly!"

Lu Ming asked coldly, looking at the two young Sun people.

Chapter 4343: To the top

Where did the two young people of the Sun Clan dare to hide anything? They told them what they had learned in one hundred and fifty.

Moreover, this is not a big secret, there is nothing to say.

According to the two young Sun people, Lu Ming and Ye Ling have a general understanding of the core area.

In the vast land of the core area, there are 96 geographies.

Among them, there are seventy-three ordinary veins, 23 advanced veins.

The top ten races, each race, respectively occupies a high-level geography, while the Celestial Clan, fully occupies thirteen high-level geology.

As for other smaller races, they occupy those common grounds.

Of course, there are smaller races, and some people enter, but those people are not strong enough to even occupy the ground.

"Almost all the high-level earth veins have been occupied, but there is no high-level earth vein on the side of the Heavenly Extermination Army?"

Lu Ming thought.

Perhaps, the people who destroy the heavenly army secretly occupy some small geographies, maybe.

Or maybe, in this star palace, the people who destroy the heavenly army are not strong enough.

The second floor of Taishang Xiancheng is divided into 36 star palaces in total, which also means that it is divided into 36 different areas.

When everyone enters Taishang Xiancheng, they will be automatically divided into thirty-six star palaces. Naturally, some star palaces will be stronger and some star palaces will be weaker.

Perhaps, the strength of this star palace destroyer is relatively weak.

"We have a simple map here, I will give you now, just ask you to let us go!"

A youth from the Sun tribe said, and then took out a jade charm and handed it to Lu Ming.

Lu Ming took the Yufu and entered a power. The Yufu immediately glowed, and a map appeared in the air.

On this map, there are lines, and at the same time, there are light spots.

There are ninety-six light spots in total, of which twenty-three are brightest.

Obviously, these light spots represent the earth's veins.

Twenty-three light spots represent twenty-three high-level veins.

And, on each light spot, there are handwritings, marking which race is occupied.

Clear and clear, at a glance.

This is very helpful to Lu Ming's next action.

"Can we go now?"

The people of the two Suns looked at Landing Ming with hope.

Lu Ming waved his hand at will, and the two young Sun people were overjoyed and flew towards the distance.

However, several sword lights flashed out, the vital characteristics of the two young Sun people disappeared, and the body fell into the mountains.

Lu Ming was expressionless, as if expected long ago.

"Let's take a look at how fast this ordinary earth vein can condense Hong Huangdan."

Lu Ming said.

Subsequently, the two landed in the mountains, chose a better location, took out a few meters of Dan furnace, and began to urge Dan furnace alchemy.

One day later, they already knew.

Two hundred and forty!

In one day, a low-level red furnace can condense two furnaces of Honghuang Pill, one furnace 120, a total of 240.

This speed is ten times that of the peripheral area.

Lu Ming and Ye Ling's eyes were extremely bright, even breathing, they were a little heavy.

Ten times faster, this is amazing.

This is just ordinary geography. How fast should those high-level geography condense Hong Huangdan?

"Let's occupy a high-level ground first!"

The two looked at each other, and both had this idea.

They did not intend to stay in this ordinary land for a long time, but intended to occupy a high-level land.

With that black seed, everything is possible.

If there is no seed, they can only boil slowly in this ordinary vein, maybe they will be chased and killed by the strong palace.

Now, they are ambitious and fearless.

"The closest high-level geography to this place is occupied by the Celestial Clan. Let's choose this geography!"

Lu Ming said.

Ye Ling naturally would not have an opinion, and immediately the two set off and flew towards the nearest ground.

This place is not too far away from that high-level ground, and the two arrived in less than a day.

A huge mountain is ten times larger than the previous one.

氤氲 mist, filled the air, like a fairyland.

From a distance, you can feel an ancient atmosphere of flood and fleeing.

"Senior geography, it really is not trivial!"

Lu Ming and Ye Ling's eyes were bright, without any hesitation, they walked in the air and flew towards the middle of the mountain.

The mountains are rolling, slightly shorter on both sides, and the topography is the highest in the middle. Obviously, it is also the place with the most intense floods.

"The land of the Celestial Clan, give you three breathing time to roll, otherwise, there is no forgiveness!"

Before the two approached, there was a cold voice in the mountains.

"Aborigines? Very good, I will give you all the time of a joss stick, all get out, otherwise kill it!"

Lu Ming responded, his voice spread throughout the mountains.

In the mountains, all the Celestials have heard.

"Where's the idiot, it's almost dead!"

"Courage, don't talk about killing!"

"The Nine Clan!"

In the mountains, there was a murderous voice.

"Go, go and see where is the thing that does not have long eyes, bring the head to see me!"

In the mountains, there were orders from the Celestial Clan.

"Yes!"

Someone takes orders.

Uh, uh, uh!

The sound of breaking the sky sounded, at least there were ten figures, rising from the sky, and they flew to the landing.

In front of Lu Ming, more than ten figures appeared, all of them from the Celestial Clan.

These days, when the human race saw Lu Ming and Ye Ling, some people couldn't help but widen their eyes.

"Muyun, it is Muyun!"

Someone shouted.

This is among many people. Several people once chased and killed Lu Ming in a ferry boat crossing the sea. He recognized Lu Ming at once.

"What? Muyun!"

"Did he dare to take the initiative?"

In the mountains, the rest of the Celestial Clan was shocked, and they were all alarmed.

Many Celestials who were too lazy to put their hands to the ground all put down the things at hand and skyrocketed.

Everyone wants to kill Lu Ming, as long as he kills him, he will go on in the future.

Even at some critical moment of breaking through the realm, they stopped practicing and rushed towards the landing Ming.

"go!"

At this moment, Lu Ming and Ye Ling rushed to one side and rushed to the corner of the mountain.

"Don't let him run away!"

"chase!"

At the beginning, more than ten Celestial Clan came after Landing Ming.

Behind it, there is also a bunch of people, all of whom are human races.

There are hundreds of people.

Lu Ming and Ye Ling, too lazy to ignore, speed up and rushed towards the mountains.

They were not far from the mountains, a few flashes, and they arrived.

Upon reaching the mountain, Lu Ming waved his hand, and a black seed flew out and landed in the mountain.

As soon as the black seeds fell into the mountains, they took root and sprouted, growing wildly.

Chapter 4344: Seed Xianwei

The black seeds grew wildly, and soon they grew into a towering tree.

Lu Ming and Ye Ling rushed directly to the bottom of the big tree, turned back and watched the Celestial Master who rushed quickly.

"That is..."

The first dozen or so celestial masters who rushed in were shocked when they saw the big tree.

Especially when I saw a dozen ghosts on the branch, I was even more shocked.

"kill!"

Lu Ming spoke indifferently. Suddenly, on the branch, the dozen or so ghosts, all opened their eyes, and then rushed towards the master of the Celestial Clan.

"I don't believe that this is really the ghost of crossing the river!"

"How can the ghost of Doe appear here? It's just an illusion, destroy me!"

The strong men of the Celestial Clan drank coldly, erupted a powerful breath, and displayed killing tricks, various attacks, and drove towards the ghosts of Dou.

However, these attacks landed on the ghosts of Du'e, and only caused the body of the ghosts of Du'e to tremble and distort, as if it was okay, and continued to slay more than a dozen human races.

"not good!"

More than a dozen Terran Masters were shocked and wanted to retreat, it was too late.

I saw a ghost crossing the river, and rushed directly into the body of a master of the Celestial Clan. The Celestial Master immediately screamed screamingly, and his face was completely twisted.

Even more frightening is that his body shrivelled quickly, and soon turned into a corpse, without the slightest breath of life, and fell to the ground.

Not only this Celestial Clan, but also other Celestial Clan. The attack on the ghosts of Du'e was useless. The ghosts of Dou rushed into their bodies and turned them into corpses.

Then the ghosts of Dou Ee rushed out of their bodies again, as if the volume had become larger.

More than ten masters of the Celestial Clan, the strongest reached the Seventh Level of Divine Emperor. In an instant, the whole army was destroyed, and none of them remained.

This caused the pupils of the Celestial Race who rushed back to shrink their pupils sharply.

"It's the ghost of Du'e, really the ghost of Du'e!"

"Why are there ghosts of crossing over here, this is the core area!"

"It's that tree, that tree is weird!"

The celestial beings chasing behind shouted, could not help but slow down, and finally stopped in the distance, watching cautiously a dozen crossing ghosts.

"How to do?"

Asked the Celestial Clan.

"Muyun, don't let it go. Although these dozen or so ghosts are powerful, they are not the sea of crossing the river after all. I don't believe it. There can be such horror in the sea of crossing the river!"

"Yes, there is no such kind of black mist here. The strength of the ghosts of crossing the river should be limited. So many of us should be enough to defeat these ghosts of crossing the river!"

A few of the most terrible Celestial men have spoken one after another.

The strong men of these human races are very powerful, and they have reached the Ninefold Realm of Divine Emperor.

Derby is one of the two strong men of the Celestial Clan, who is extremely shocked.

Because these two strong men of the Celestial Clan once took part in the pursuit of Lu Ming and Ye Ling while crossing the sea.

They clearly remember that Lu Ming and Ye Ling's ferry boat was taken away by them, and Lu Ming threw out the remaining ferry boat parts in order to fight against the ghost of the ferry boat.

In the crossing sea, there is no crossing boat, isn't it just a dead end?

Why is Lu Ming and Ye Ling still alive, and still get a terrifying tree?

They really can't figure it out.

"These two guys are so weird, we must get rid of them. Let's get out together and destroy this kid!"

One of the strong men who participated in the pursuit of Lu Ming's Tianren clan shouted.

"Shoot together!"

"kill!"

Here, there are at least hundreds of human races, young and strong.

Of course, there are many strong men and the strength is very amazing.

Boom!

The power of heaven pervaded, these human races, like a volcanic eruption, erupted in a terrible atmosphere, and then rushed to Lu Ming and Ye Ling.

"kill!"

Lu Ming gave orders to dozens of ghosts.

More than a dozen ghosts crossing the river, screaming harshly, rushed towards the Celestial Clan.

"kill!"

Hundreds of human races shouted, hundreds of attacks, flew out of the sky, and killed more than a dozen ghosts.

This time, the attacks of the Celestial Clan were even more terrifying.

Mainly, the strength is too strong.

There are more than half of them, all of which have more than seven times of Divine Emperor. In addition, there are also a lot of Divine Emperors.

Even the existence of Divine Emperor Jiuzhong has as many as five.

Together, this force is too strong.

Hundreds of attacks, bombarded on a dozen crossing ghosts, a dozen crossing ghosts, violent tremors, constant twisting of the body, but, in the end, the attack of the Celestial Clan did not destroy these crossing ghosts .

These ghosts of crossing the throne, surpassed the attack of the Celestial Clan, and continued to kill the Celestial Clan.

This made the faces of the Celestial Clan change wildly.

Some are timid and retreat involuntarily.

"Using the power of Xeontiantian!"

There was a roar of the brave man in the sky.

"Tianzhu!"

"Curse!"

Among the hundreds of Celestial Clan, those who really control the power of the Xeon Celestial Force, but more than a dozen people, and the fire is not very deep, but the power of the Xeon Celestial Force, after all, is not trivial.

The power of heaven punishment, the power of heaven's punishment, and the power of heaven, formed a variety of attacks, and once again blasted a dozen ghosts.

This time, the ghost form of Douer shuddered even more. His figure was blocked and he didn't rush over.

"it works!"

The eyes of the Celestial Clan.

The power of the strongest sky can stop the ghost of crossing the river, which makes them ecstatic.

Lu Ming and Ye Ling moved slightly.

"It seems that here is not the sea of crossing the river after all, and these ghosts of crossing the river have just grown up. There is still a big gap in strength compared to the ghost of crossing the river of crossing the river!"

Lu Ming sent a voice to Ye Ling.

Ye Ling nodded: "The strength is indeed a lot worse, but it seems to be able to grow. It should be enough to deal with these Tianren races!"

Lu Ming continued to control the ghosts of Du'e and killed Xiangren.

"The people who control the power of the strongest sky block these ghosts from crossing the river, and others, go to kill Muyun, and cut off the tree. I guess that as long as the tree dies, these ghosts of crossing the river Will dissipate!"

The youth of a human race.

This person is peerless, not very young, and belongs to the younger generation.

This is definitely a peerless arrogance among the Celestial Clan, with great prestige. Many Celestial men seem to obey his orders.

Immediately, the people of the Celestial Clan, under the command of this young man, under the leadership of this young man, exerted the power of the strongest sky, attacked the ghost of Du'e, and stopped the ghost of Du'e.

As for the other Celestial Clan, from the other side, circling the transitional ghost, rushed to Lu Ming and Ye Ling.

"Muyun, die for me!"

"kill!"

These days, the eyes of the human race are filled with greed, attacked one by one, and the brain slammed towards the landing.

Chapter 4345: Big harvest

Faced with a large number of attacks from the Celestial Clan, Lu Ming and Ye Ling did not change their faces and had no plans to fight back.

When these attacks approached Lu Ming and Ye Ling, the big tree moved.

Wow!

At the root of the big tree, there were roots, thicker than the waist, like a long snake, sweeping towards the people of the Celestial Clan.

The power of these roots is extremely amazing. Some of the Celestial Cultivators who were weakened were drawn by the roots and screamed, and their bodies broke open directly.

Then, all the flesh and blood were absorbed and swallowed by the root hair.

Even some strong ones, such as the Divine Emperor Eightfold Divine Emperor Nine Heavy, were also drawn out with roots and vomited blood.

Uh, uh, uh!

There are at least a dozen roots, each of which is more than a thousand miles away. Dancing in the sky, furiously slamming, all of a sudden, at least more than thirty masters of the Celestial Clan were killed by the roots of the trees, and the flesh was rooted. Engulfed and absorbed.

After absorbing the flesh and blood of the Celestial Clan, the big tree seems to have become more lush, taller, rooted, thicker, and more terrifying.

Dozens of roots grow longer and longer, sweeping towards the remaining Celestial Clan.

"Damn!"

"Rewind!"

These days, the human race was frightened, and they quickly retreated. At the same time, they attacked these roots and wanted to cut them off.

However, when these attacks landed on the root hairs, they made the sound of 铿铿铿's gold and iron clashes, but only left a mark on the root hairs, but did not cut the root hairs.

Dozens of root beards continue to kill the Celestial Clan, and more than a dozen Celestial Clan are careless. They feel caught or swept away. They are instantly killed, and their flesh is swallowed by the roots.

There were more than fifty Celestials who were trembling and never dared to stay and retreated toward the back.

"Want to retreat? Cross the Evil ghost, kill back!"

Lu Ming thought.

Originally fighting with the dozen or so Celestial Clan who controlled the power of the heaven, he suddenly turned around and rushed towards the retreating Celestial Clan.

The ghosts and roots of Dou E, struck on both sides, these human races have no escape, they inevitably encounter.

Suddenly, there were more than a dozen masters of the Celestial Clan, and they were rushed into the body by a dozen ghosts.

These celestial human masters screamed screamingly. In the terrified eyes of other celestial humans, they quickly shrivelled and finally turned into a corpse. All the spirits were swallowed.

This time, several of them are the existence of Divine Emperor Eightfold, and others are the existence of Divine Emperor Sevenfold.

After devouring these masters, a dozen or so ghosts have become more solid, and they have become a lot bigger, and their breath is more eerie, twice as powerful as before.

Creak...

The ghosts of these crossings screamed, and their eyes were even more fierce, staring at other human races.

The remaining Celestial Clan felt cold and sweating.

They didn't want to fight anymore and fled everywhere. In this way, they couldn't resist the roots of the tree roots and the ghosts of Du'e. These heavenly human masters fell one by one.

Even if the ten masters who control the power of the strongest sky are completely useless to resist, the Celestial Clan is still killed one by one, all turned into nutrients for the big tree, so that the strength of the big tree is getting stronger and stronger.

"Retreat, retreat!"

Finally, the young Tianren clan roared with arrogance and chose to retreat.

Lu Ming will naturally not allow these Celestial Clan to retreat successfully, control the big tree, dozens of roots, and extend to the length of thousands of miles. At the same time, more than a dozen ghosts crossing the harbour are also crazy to pursue the Celestial Clan.

In the end, the Celestial Clan paid a heavy price and eventually escaped from the mountains.

However, it is really miserable.

Originally, in this mountain range, the number of the Celestial Clan was a hundred or dozens.

But only seven people survived.

Even a brave man of the Celestial Clan of the Nine Heavy Divine Emperor, accidentally, was surrounded by several ghosts who were crossing the river, and was killed violently.

The Celestial Clan, Tianjiao, took the other six Celestial Clan and escaped very far, and stopped until the ghost of Dou was not chased.

"Damn, **** miscellaneous, Muyun.."

Tianren clan screamed loudly in the mouth, a face distorted by resentment, extremely terrible.

The loss is too great, this time, the loss is too great.

There are many branches in the Celestial Clan, and there is a lot of competition between each other.

To compete for power, to compete for resources, etc.

And this high-level geography, headed by him, is equivalent to being occupied by his branch, and other heavenly human races can be regarded as his men.

But now, they are all dead. For him, the loss is too great.

"Yeh Chu Master, what shall we do now?"

A strong man asked.

The name of the youth is called Ye Chu Hao.

"What should I do? Of course it's revenge, this revenge must be revenge, Muyun, I will personally peel him and cramp, and now leave here to find other people, gather other masters, and come to kill this kid..."

Ye Chu's vast roar, the murderous opportunity is extremely rich.

After he finished speaking, he turned and left, took the other six people, and left here.

In the mountains, Lu Ming and Ye Ling watched Ye Chuhao and others leave.

"Unfortunately, after all, this is not a sea of crossing the river, the ghost of crossing the river is greatly restricted..."

Lu Ming sighed.

Of course, he will not let go of Ye Chuhao and others easily, but unfortunately, he just found out that the ghost of crossing the river can't be too far away from the big tree. If he is too far away from the big tree, his strength will drop greatly.

Obviously, if you are not crossing the sea, you will still be greatly affected.

"The Celestial Clan is expected to counterattack soon, let's hurry up and condense Hong Huangdan cultivation!"

Ye Lingdao.

"Okay, count the harvest first!"

Lu Ming said.

This time, they killed more than a hundred Celestial Clan and obtained storage rings for these people. The two were looking forward to it.

Will there be no Danlu and Honghuangdan in the storage rings of these human races?

The two came under the big tree, took out all the storage rings, and began to count.

After the count, both of them smiled.

The big harvest is really a big harvest.

Not to mention, among these storage rings, Hong Huangdan alone was collected about 12 million, and the two were evenly divided, each with 6 million.

In addition, there is a surplus before the two of them. There is already a lot of Honghuang Dan in hand.

In addition, the Danlu is full of two hundred statues.

Most of them are red furnaces with a diameter of one meter, but there are also ten statues with a diameter of three meters.

The two are divided equally, each one hundred.

Lu Ming's heartbeat accelerated.

You know, he is desperately working hard, and now there are only seventy-five in total, of which only five meters are three meters in diameter.

With the addition of this hundred statues, the total amount of dan furnaces reached 175, and among them, three meters in diameter reached ten statues.

It is estimated that there are more Danlu in Ye Ling's hands.

"Unfortunately, he was run away by that vast expanse!"

Lu Ming sighed in his heart.

Chapter 4346: Bring someone to kill

The vastness of Yechu, for the arrogance led by this heavenly human race, most of the red furnaces must be in the hands of Yechu.

Others are estimated to have only a small part.

Only a small part of the red furnace has two hundred statues, and there will only be more red furnaces in Ye Chu's vast hands.

If it could be killed, it really happened.

It's a pity that the other party escaped. As long as the other party left the ghosts of Du'e, they could chase the range, and Lu Ming couldn't help them. His and Ye Ling's real combat power still has a big gap compared to these Heavenly Human Races. Fighting power, they will definitely be spiked.

The two came under the big tree and started to condense Hong Huangdan non-stop.

Lu Ming chose a flat place to sit down, waved his hand, and 175 sacred furnaces flew out, all landed on the ground.

Uh, uh, uh!

Lu Ming waved his hands and flew into the furnace with a forbidden force.

Buzz!

The dan furnace trembled, and a rune appeared on it. The wild gas between heaven and earth quickly gathered towards the dan furnace.

The wild gas here was too strong, and when it gathered towards the Dan furnace, it was like a tornado.

After the 175 sacred furnaces were all activated, Lu Ming stopped taking care of it and began to enlighten ordinary secret techniques.

Half a day later, 175 sacred furnaces began to tremble, and then Honghuang Dan, who had left Dankou, flew out like a raindrop.

Too much, densely packed, constantly flying out of Chu Dankou, covered with a whole sky.

"so much..."

Even Lu Ming took a deep breath, and then grabbed his palm in the sky, a strong attraction was generated, and all Hong Huang Dan gathered together to the palm of Landing Ming.

Lu Ming's spiritual knowledge was swept through, and the specific number of Hong Huangdan was completely calculated.

Fifteen thousand and ninety thousand.

It took only half a day to refine a panacea, and the number reached 159,000.

This speed is extremely alarming and terrifying.

At the same time, Lu Ming also calculated the output of the dan furnace with a diameter of one meter and the dan furnace with a diameter of three meters.

One meter of Dandan furnace can make 600 Honghuang Dan in one furnace.

You should know that in the peripheral area, a Dan furnace with a diameter of one meter can only refine twelve furnaces.

Before Lu Ming tried them on the ordinary earth veins, they could refine 120 in one furnace.

And here, there are six hundred in one furnace, which yields five times more than ordinary earth veins.

The Dan furnace with a diameter of three meters can fully produce six thousand Hong Huang Dan.

No wonder the Celestial Race and the top ten races have to occupy high-level geography. This alchemy speed is really terrifying.

"I want to make a breakthrough from Divine Emperor's Fifth Level to Divine Emperor's Sixth Level. I need 12 million Honghuangdan. At this refining speed, it only takes 40 days to condense!"

Lu Ming thought.

Then, put hundreds of thousands of Hong Huangdan into the storage ring, continue to urge the Dan furnace, and continue to condense Hong Huangdan.

In this way, Lu Ming learned alchemy while practicing alchemy.

In a flash, ten days passed.

In ten days, Lu Ming made a total of more than 3 million Hong Huang Dan. In addition, there were nearly 8 million Hong Huang Dan in his hand. The Hong Huang Dan in his hand has exceeded 10 million.

Hong Huang Dan, which is 12 million away, is not far away.

boom!

At this time, about a thousand miles away from Lu Ming, there was a strong breath.

"Ye Ling is about to break through!"

Lu Ming's eyes lit up.

This breath is clearly Ye Ling's breath.

It seems that Ye Ling finally made up the Honghuang Dan who wanted to break through.

Ye Ling has accumulated a lot of Honghuang Dan in the peripheral area.

After adding the cooperation with Lu Ming, Hong Huangdan, who evenly divided the two, exceeded 8 million.

Coupled with the refining during this period, the Hong Huang Dan in Ye Ling's hands definitely exceeded 20 million.

Ye Ling's cultivation practice is higher than that of Lu Ming, and he is the sixth prince of Divine Emperor. If he wants to break through to the seventh prince of Divine Emperor, there must be many Honghuang Dan.

More than Lu Ming Divine Emperor's five-level breakthrough to Divine Emperor's six-level.

After all, Ye Ling is also a peerless genius, and the power to control is also quite trivial. Although it is far less than the power of taboos, it requires a lot more energy to break through than ordinary people.

Ye Ling's breath kept rising, and when it reached a peak, it slowly fell.

Lu Ming knew that Ye Ling had completely reached the seventh level of Divine Emperor and had stabilized.

Lu Ming smiled.

He and Ye Ling are, after all, a cooperative relationship, and they have experienced life and death along the way. He still believes in Ye Ling's character.

The stronger Ye Ling is, the better it will be for him.

Ye Ling's breakthrough to the Seventh Level of Divine Emperor, coupled with his close to ten-star combat power, is absolutely terrifying.

Can be a big help.

"My Hong Huang Dan, too soon, continue..."

Lu Ming withdrew his mind, manipulated the Dan Furnace, and continued to refine Hong Huang Dan.

At this moment, Lu Ming's eyes flashed and looked into the distance.

In the distance, there was a rainbow of light, rushing towards this side at an alarming speed.

A glance away, at least hundreds of rainbow lights.

"The people of the Celestial Clan really came!"

Lu Ming's eyes narrowed slightly.

Uh!

Thousands of miles away, Ye Ling rose into the sky, standing in the sky, staring at the distance.

Soon, the rainbow lights stopped, and hundreds of figures appeared in the air, most of them were masters of the Celestial Clan.

However, there are some other races, such as angel race, demon race, Buddha race, blood race, soul race, etc.

They are the former of the top ten races.

The total number exceeds five hundred.

"Muyun is in this vein, have you seen the big tree?"

Among the Celestial Clan, a young man stepped out and pointed to Lu Ming's big tree planted with seeds.

This young man is the vastness of Ye Chu.

"This big tree is so terrifying that it killed hundreds of you?"

Another celestial race is proud, with a doubtful look.

This celestial arrogance is also a terrible existence. Among the celestial beings, its status is not weaker than that of Ye Chu.

He took a group of people and occupied another high-level ground. This time it was called by Ye Chuhan. Of course, it was also the credit for the greedy killing of Muyun.

"Don't underestimate a big tree. This big tree should be related to the crossing of the sea. The attack power of the roots is extremely terrifying. The most terrifying thing is that there are more than a dozen crossing ghosts living on it..."

Ye Chu vast explained.

"What? The ghost of crossing the river, or a dozen?"

Everyone's face changed wildly, showing fear.

They are well aware that the horror of the ghost of Du'e is not something that the existence of Divine Emperor Realm can resist. In the face of the ghost of Du'e, they have only one way to go.

"Everyone don't have to be too scared. After all, this is not the sea of crossing the river. The ghost of crossing the river is here and is greatly restricted. The strength is not too strong. In the past, we have been so strong that we can stop the ghost of crossing the river. Attack, and, it seems that the ghost of Dou E can't leave that big tree too far, as long as we can cut that tree, the ghost of Dou E will probably dissipate automatically!"

Ye Chu said vastly.

Chapter 4347: Nine days battle

The vastness of Ye Chu is also extremely clever. After that battle, after more than ten days, he has touched the weaknesses of the big tree and the ghosts of Du'e.

Hearing Ye Chuhao's explanation, the talents were relieved a little, but they were still afraid of it.

"I suggest that the Celestial Clan set up a nine-day battle array and overwhelm it with the strongest power. The other races are waiting for the opportunity to assist from the side!"

Ye Chu said vastly.

"I agree!"

"I agree, this is the safest way!"

The other Celestials nodded one after another.

After all, in the face of such weird things as the ghosts of crossing the river, they did not dare to carelessly, laying down the nine-day battle array and gathering the power of everyone is the most stable method.

Immediately, there were about 400 human races on the scene, their bodies flashed, and a battle was started.

boom!

A strong breath rises into the sky, shaking the world and making the void roar.

They urged the battle array, pulsed towards the ground, and rushed to the direction of the landing Ming.

The angels and other races walk around to assist the Celestial Clan and take time out.

The battle array under the celestial beings, when approaching the ground, condensed a huge war sword, and suddenly slashed to the landing.

"The ghost of crossing the river!"

Lu Ming thought about it, and on the big tree, dozens of ghosts screamed and rushed towards the Celestial Clan.

After the last World War I devoured many masters of the Celestial Clan, a dozen or so ghosts became more horrible, a large circle, and screamed towards the Celestial Clan, converging with the Celestial Clan battle group Battle swords collide together.

boom! boom! boom! ...

The roar sounded continuously, and dozens of violent shocks were blocked, and the shock retreated.

Among so many human races, there are naturally many people who control the existence of the four powers of the strongest sky. Therefore, the power of the strongest sky is also integrated into the battle formation, which has a repressive effect on the ghosts of crossing the Erie.

However, it only shocked the ghost of Doe, and did not hurt the ghost of Doe.

The war sword condensed from the nine-day battle array, the power has also weakened, the sword light is dimmed, but it continues to slash towards the landing.

Lu Ming's face remained unchanged, standing there, motionless.

At this moment, the ground moved, making a rumbling sound, and all the roots protruded from the ground, sweeping towards the war sword.

Dozens of root beards entrap the war sword.

Eventually, with a bang, the war sword collapsed.

"Hum, keep going!"

Ye Chu screamed vastly, and the nine-day battle array urged it all. In the void, a huge figure emerged.

This figure is a human race, wearing a crown and holding a golden war sword. It is extremely majestic.

This is the phantom of a king of heaven and man.

"kill!"

The king of the Celestial Clan shouted, holding the war sword, stepping on the void, slamming towards the landing, the war sword slashing out, the void trembling, and the sword was shocking.

The terrifying power made Lu Ming's pupils shrink and felt a terrible crisis.

After all, this is a battle line that integrates more than 400 days of human clan strongmen. Among them, there is no shortage of Divine Emperor Seventh Level, Divine Emperor Eighth Level, and Nine Heavy Powers. It is really terrifying.

"Block it!"

Lu Ming growled and gave the order to the big tree.

Wow!

This time, on the ground, hundreds of large tree roots protruded.

These roots are not intertwined, but intertwined with each other, forming a huge and incomprehensible shield in front of the King of Heaven and Man.

when!

The sky-shattering sword light was chopped on the shield with intertwined roots, and uttered a violent roar, endless sword energy, pervading all directions.

However, Jianguang was eventually blocked.

This makes the face of the Celestials ugly.

The defensive power of this big tree is too terrifying. How powerful is the battle array laid by so many of them, and it can be blocked?

"carry on..."

The celestial beings roared and continued to control the battle array, launching a stormy offensive.

But dozens of consecutive moves, all blocked by the shield formed by the roots.

And the shield formed by this beard is extremely flexible and free to move. It can be extended beyond tens of thousands of miles, no matter how the Celestial Clan attacks, it can be blocked.

"You, escape from the side and go to kill Muyun!"

Ye Chu roared vastly and gave orders to the people of angelic and blood races.

"kill!"

Angels and other people escaped from the side and killed Lu Ming.

"court death!"

In Lu Ming's eyes, a flash of killing, dozens of ghosts crossing the river, returned to Lu Ming at an alarming speed, and then rushed to those races.

"Not good, join hands!"

Angels, blood race masters of these races shouted, all kinds of attacks, rushed to the eleven crossing ghosts.

However, their power is far less than the power of the Celestial Clan, and they can't suppress the ghost of crossing the river.

The ghost of Du'e rushed past, and then rushed to dozens of masters such as the angels and blood, and rushed into their bodies.

The dozen people screamed screamingly, their bodies shrivelled quickly, and the spirits were all swallowed.

Others saw this scene, scared and chilled back backwards.

More than a dozen ghosts crossing the river, chasing behind, and killing a dozen other masters, swallowing the flesh and blood of these people.

The rest of them fled awkwardly far away, and their fear was undecided, and they dared not approach the mountains anymore.

"go with!"

Lu Ming manipulated dozens of ghosts who crossed the river, and then went to the battle of the Celestial Clan.

However, the battle array of the Celestial Clan is indeed strong. There is a defensive barrier around them.

In this way, the two sides formed a stalemate.

The Celestials wanted to kill Lu Ming, but they were blocked by big trees. Lu Ming couldn't do it if they wanted to kill Celestials.

In an instant, more than an hour passed.

At this time, the people of the Celestial Clan came into retreat.

The constant urging of battles is very expensive for them. After an hour, many people can't bear it.

If this continues, the battle front may be unstable.

In the end, the Celestials retreated and quit outside the mountains before stopping.

"Damn!"

"Despicable miscellaneous!"

Many people in the Celestial Crow roared, and their anger was skyrocketing.

Lu Ming is clearly in front of him, but he can't kill him. This is really unacceptable to them who have always been used to it.

In their view, all living creatures in the Hungry Universe are humble, they are all their slaves, life and death are all their gifts, whoever they want to kill, whoever wants them to kill, can not resist.

Lu Ming, not only did not let them kill, but also the people who repeatedly killed them. In their view, it was simply a big injustice, no evil, no evil, and a wicked sin, **** a thousand times and ten thousand times.

"Let's recover first, and then continue to fight in the past. I don't believe that the power of that big tree can be merciless!"

Ye Chu's vast roar, among the crowd, his anger, his murderous opportunity, is the strongest.

Chapter 4348: Go to Lu Ming

"Yes, recover first, then go to the past to kill!"

"I don't believe it. The power of that big tree is endless!"

The other Celestials also roared.

Immediately, these human races came up with Honghuang Pill Refining to restore their strength.

Refining Honghuangdan, it recovered quickly, and in a short time, they completely recovered.

After the recovery, they continued to form and killed Lu Ming, but were still blocked by the roots of the tree.

Lu Ming sneered. How could he not know the minds of these people?

However, they are destined to make a wrong calculation.

Will the energy of the big tree be exhausted?

It is impossible at all. Although it is far away from the crossing sea, the big tree can still unconsciously absorb the mist of the crossing sea. As long as the mist is absorbed, the power of the big tree will not be exhausted. .

Therefore, no matter how the Nin Tianren attack, it is useless.

After a while, the Celestials retreated, and then continued to recover and continue to attack.

In this way, the two sides stalemate for seven days.

There is still no one who can do nothing.

The celestial beings are so angry that they are helpless.

In the end, they decided to retreat.

No retreat, no waste of time, but they all occupy the high-level geography, return to the high-level geography to condense Hong Huangdan, how many Honghuang Dan can be condensed in one day?

Every day here is a huge loss.

"Nine days of battle, it is best to have all the masters of Divine Emperor Nine Heavy. The power is the strongest, and the strongest power can be exerted. Otherwise, the power will be mixed and impure!"

"Among all of us, there are various realms, and it is difficult to exert the strongest power of the battle. Therefore, we will not be able to break through the defense of that big tree. In order to reach the ninth level of Divine Emperor, it is easy for them to set up battle fronts and break through the defense of this tree!"

There is a celestial arrogance of Tianren, which has been approved by others.

Although Ye Chuhan was not reconciled, he was helpless and could only retreat with other Celestials.

For a time, this area left Lu Ming and Ye Ling.

"After the Celestials leave, it seems that they will not come again in a short time!"

Ye Ling stepped forward and said.

"Yes, just give us the opportunity to hurry up and practice!"

Lu Ming said.

The two continued to refine Hong Huangdan.

Seven days later, Hong Huangdan in Lu Ming's hands had exceeded 12 million. At this time, he began to absorb Hong Huangdan and promote his cultivation.

With the improvement of his cultivation, the speed of refining Hong Huangdan has become faster and faster.

When the mouth is sucked, hundreds of thousands of Honghuang Pills are sucked into the mouth, turned into energy, dispersed into sixty trillion cells throughout the body, and then transformed into taboo power.

After refining, continue to come up with Honghuang Dan refining.

In this way, Lu Ming's cultivation practice quickly improved.

From the early stage of Divine Emperor Wuzhong, break through to the middle stage of Divine Emperor Wuzhong, then the later stage of Divine Emperor Wuzhong, the peak of Divine Emperor Wuzhong...

In just a little more than a day, Lu Ming burst into a strong breath and broke a peak.

Divine Emperor Sixfold!

Lu Ming's cultivation base was a successful breakthrough to the sixfold of Divine Emperor.

In this immortal city of Taishang, cultivation is promoted, which is too fast. As long as there are enough Honghuangdans, cultivation can be continuously improved. Unlimited promotion will hardly have any bottlenecks.

You should know that before entering Taishang Xiancheng, Lu Ming's cultivation practice was only the peak of God Emperor Jiuzhong.

It took only a few years, only a few years, and Lu Ming's cultivation practice was madly promoted at an alarming rate, and now he has reached the sixth level of Divine Emperor.

If this is left outside, it is unthinkable.

Even the most powerful Tianjiao of the Celestial Clan, with endless resources, the speed of improvement is definitely many times slower than this.

Hong Huangdan can be said to be a treasure adorned by heaven and earth.

It's a pity that you can't take it out, otherwise, the value will be amazing.

Slowly, Lu Ming's breath calmed down, and he had completely reached the sixth level of Divine Emperor.

Breaking through a new cultivation, Lu Ming's combat power has skyrocketed again.

With his twelve-star peak power, even if it is placed in the Divine Emperor's Ninth Heavyweight, it is still a master.

At least there must be Samsung Emperor Jiuzhong to compete with Lu Ming.

There are not many people of ordinary races who can achieve the three-star power.

That is to say, now returning to the vast universe, under the Lord of God, Lu Ming is also the number one character.

But it's not enough, it's still far away.

As he ascends, others will ascend.

I believe that after a period of time, the **** emperor on the second floor of Xiancheng Xiancheng, who has more than seven layers of weight, will leave the ground.

Even the existence of Divine Emperor Jiuzhong, I am afraid it will take a lot.

Moreover, there are many many proud people.

For example, with the existence of the universe's arrogance list, how powerful would these people be if they reached Divine Emperor Nineth Level?

There are also the core disciples of the big figures in Tiangong, especially the Celestial Clan, which is the most terrifying.

And, those strong men also have terrible arrogance.

Therefore, Lu Ming is still far away.

Divine Emperor Sixfold is far from enough, and it needs to continue to improve.

However, if the Divine Emperor Liu Zhong wants to break through to the Divine Emperor Sevenfold, the Honghuang Dan needed will be even more terrifying. Lu Ming speculates that it may require 120 million Honghuang Dan.

This is an amazing number.

Even condensing Hong Huangdan in this high-level geography requires more than a year.

Therefore, no time can be wasted. Lu Ming continued to condense Hong Huangdan after Xiu Wei stabilized.

As time passed, the Celestials no longer came to Lu Ming for trouble.

Soon, more than ten days passed.

During this time, about Lu Ming and Ye Ling occupying a high-level geography, the Celestial Clan suffered a big loss, but Lu Ming and their news did not spread, and quickly spread throughout the core area.

Lu Ming They have an ordinary ground to the north.

This land, on the bright side, was occupied by a race in the Honghuang Universe. In fact, it was occupied by the people who destroyed the heavenly army. It was Tian Xuanyue.

After Tian Xuanyue got the news, he was also shocked and dumbfounded, and it took a long time to react.

"Unexpectedly, Lu Ming and Ye Ling could actually occupy a high-level ground, which was really beyond my expectations!"

Tian Xuanyue sighed.

"Tianxuanyue, what should we do now? What are your plans?"

The other asked.

"In this star palace, our power to destroy the heavenly army is too weak. We are definitely not a rival in the frontal battle, so we can only hide in secret and slowly accumulate strength, but we can't hide how long the human race will be. Find!"

"Especially the Celestials now have a big loss in the hands of Lu Ming and Ye Ling, and they will surely transfer their resentment to our Destruction Corps. I estimate that during this time, the Celestial Race must have secretly searched our Destruction Corps. , So we must leave as soon as possible and go to Lu Ming and Ye Ling!"

Tianxuan Yue said.

Chapter 4349: Celestial Counterattack

In this star palace, the power to destroy the Heavenly Army is weak, and there has been such a thing that Lu Ming killed many Heavenly Human Races. Tianxuan Yue believes that the Heavenly Human Race will not let them go.

The people who destroy the heavenly army will be searched in secret, so if they go on like this, their situation is very dangerous.

Therefore, Tian Xuanyue wanted to lead people to Lu Ming.

There is another reason, Lu Ming they occupy the high-level geography. If they can join Lu Ming and enter the high-level geography, the speed at which they condense Hong Huangdan will explode.

Divine Emperor Realm, the further back, the more Honghuang Pills needed to break through.

Even if the talent is not enough, the power of control is not strong, but when the Divine Emperor's seventh, eighth, and even ninth, the number of Honghuang Pills needed is also amazing.

"It's good to go to Lu Ming and Ye Ling, but I don't know if they will agree!"

Some people are worried.

"There should be no problem. After all, we are all the destroyers of the Heavenly Army, and we share the same spirit. Moreover, we have no complaints with them. I believe that Lu Ming and Ye Ling will not be so desperate. Just clean up and leave now!"

Tianxuan Yue said.

Soon, Tian Xuanyue took a group of people and drove towards Landing Ming where they were.

In fact, Tian Xuan Yue is not the only one hiding in the dark.

There are other people who are hidden everywhere, some, or even not hidden in the earth's veins, just staying in the mountains where the ordinary floods are rich.

When they heard the news of Lu Ming and Ye Ling, some people were also excited, and went to the land where they were, ready to surrender to Lu Ming.

However, not everyone wants to go to Lu Ming and Ye Ling, for example, Fei Ye.

Feiye et al., although they had crossed the sea of transition with Tian Xuanyue, but after coming to the sea, Feiye and others left Tian Xuanyue.

Feiye's ambition is not small, and he doesn't want to be sent under the fence, so he takes a group of people alone and hides in the edge of a common vein, secretly condensing Hong Huangdan and improving his cultivation.

He is very confident and believes that his talent is high enough, as long as he cultivates for promotion, he will not be weaker than others.

When he heard that Lu Ming had killed many Celestial Clan and occupied a high-level land by himself, he was full of jealousy.

"Huh, Mu Xiu will be destroyed by Lin Feng, Lu Ming, this person has a high talent, but his brain is not easy to use. If he offends the Celestial Clan, he will definitely be retaliated by the Celestial Clan. Although he has gained some advantages, he will die sooner or later. , I see when he can be arrogant."

"We don't have to walk too close to this person, too close to him. Sooner or later, he will be killed. Believe me, he can't be arrogant for a few days!"

Fei Ye said coldly.

Hearing Feiye say this, there were a few people who wanted to propose to Lu Ming, but they could only swallow the words back.

...

In a blink of an eye, a few more days passed. In these days, Lu Ming and Ye Ling have been concentrating on Hong Huangdan.

Lu Ming has more than 300,000 Hong Huang Dan in his account every day. In this way, for a little more than a year, Lu Ming should be able to break through the Hong Huang Dan needed by Divine Emperor Qizhong.

However, at this time, a group of people came nearby.

"Are they really here, people who destroy the heavenly army!"

Lu Ming whispered and stood up in the air.

Ye Ling also found this group of people, also came out of the air and fell beside Lu Ming.

"It's Tian Xuan Yue them!"

Ye Lingdao.

Lu Ming nodded, he had already seen Tian Xuanyue among the crowd.

He glanced, and did not see Fei Ye and others.

"Brother Lu, Brother Ye, I didn't expect to see you for a while. You have made such a big move, which really shocked the younger brother!"

Tian Xuanyue smiled and clenched her fist, and was a lot more polite than the last time she met.

"Fortunately, I don't know why Brother Tian Xuan is here. Why?"

Lu Ming asked.

He knew very clearly that most of Tian Xuanyue and others had come to him, but the other party hadn't spoken yet, so he naturally wouldn't take the initiative to let him in.

"I don't want to hide it. I'm waiting to join Brother Lu and Brother Ye. Brother Lu and Brother Ye must be kept!"

Tian Xuanyue clenched his fist and put his posture very low.

Hearing that Tian Xuanyue and others had come to them, Lu Ming couldn't help but ponder.

The torrential gas of the earth's veins is not endless. With the continuous condensing of the Elixir, it will be exhausted.

The reason why the torrential gas of this land is so rich is that it has accumulated for too long.

Someone had been here sixty star years ago. These sixty star years have been accumulating, and only now has such a concentration of wild gas.

If only Lu Ming and Ye Ling condensed Hong Huangdan, of course, they can support for a longer time, but if they join other people, the time of perseverance must be much shorter.

This is where Lu Ming pondered.

"Lu Ming, Tian Xuanyue's talent is very high. If he died in the hands of the Celestial Clan, it would be a pity. It was a great loss to the Heavenly Army!"

Ye Ling whispered beside Lu Ming.

Lu Ming also nodded and said, "Well, all of you are here!"

Lu Ming finally nodded and agreed.

Tian Xuanyue and others are very talented, and when they grow up, they will become the backbone against Tiangong.

Against Tiangong, he alone is definitely not enough. It is necessary to gather all the strengths to compete with Tiangong.

Therefore, on the side of the destroyer, you can help.

As for the terrestrial veins are not enough, let's go find other terrestrial veins later.

"Thank you Lu Ming, Brother Ye!"

"Thank you!"

Tian Xuanyue and others thanked, thanked again and again, and flew into the ground.

They scattered all over the ground, and then took out the Dan furnace and began to condense Hong Huang Dan.

Lu Ming and Ye Ling also returned to their original places and continued to practice alchemy.

Over the next period of time, from time to time, people from the side of the Destruction Corps came to take refuge. Lu Ming did not refuse, but let the other party in.

In this process, the counterattack of the Celestial Clan finally began.

The Celestials sent masters everywhere to hunt and kill the Celestial Army. Many of the Celestial Celestial People who were hidden in the dark were killed. This made more people come to Lu Ming.

Some people who did not want to surrender to Lu Ming also came to Lu Ming.

In a small mountain range, there are a group of people, more than twenty people, led by Fei Ye.

At this time, they were extremely embarrassed.

They were hunted down by the Celestial Clan before they were almost destroyed by the whole army. Fortunately, they escaped one step in advance before they escaped.

At the moment, many people have fear on their faces.

"What should I do? What should I do now? The people of the Celestial Clan are dispatched to chase and destroy the Celestial Army everywhere. If we continue this way, we will soon be caught up!"

Someone spoke with a panic look.

"It's all Lu Ming, it's him. If he didn't kill so many human races, it would anger the human races completely. How could the human races go mad, or would they kill us to destroy the army on a large scale, then Lu Ming, want to Take full responsibility!"

Feiye roared.

Chapter 4350: I'm just revenge, what's wrong

Feiye roared, pushing all responsibilities on Lu Ming.

On the edge, some people disagreed.

What is wrong with killing the Celestial Clan?

They destroy the sky army, claiming to destroy the sky, don't they just want to destroy the sky human race, since they have the opportunity to kill the sky human race, naturally they will not let go, and they are the same as they are.

Fei Ye blamed all this on Lu Ming, and they totally disagreed.

However, no one said it. After all, among them, Fei Ye Xiu was the highest. Next, they expected Fei Ye.

But, for Feiye's character, many people disdain.

"I heard that many people have now turned to Lu Ming, and Lu Ming has accepted it. Now those people are in the high-level geography, quickly consolidating Hong Huangdan, and improving their cultivation ability. Let's also turn to Lu Ming!"

"Yes, I think so, go to Lu Ming!"

"Yes, where the Celestials dare not go, and they can quickly improve their cultivation, and they can do two things with one stone!"

Others also talked about it, and they all proposed to surrender to Lu Ming.

Finally, everyone's eyes turned to Fei Ye.

Fei Ye's face was a bit ugly.

Before, he despised Lu Ming in public and said that he would not turn to Lu Ming.

Now, let him go to Lu Ming instead of beating his face.

However, he also wanted to turn to Lu Ming in his heart.

Now there are many crises outside and they may be found and killed by the Celestial Clan at any time.

However, let him promise so easily to surrender to Lu Ming, where did he live?

So, he continued to ponder.

"Feiye, I know you have grievances with Lu Ming, but now is not the time to get angry, you should let go of grievances and go to him!"

"Yes, our common enemy is the Celestial Clan, and there is a bit of grudge between the inside, that is all a trivial matter!"

"This matter is related to the lives of all of us, Feiye, you think about it!"

Others persuaded.

"Then... well, my own safety doesn't matter. It's a big deal to die with the Celestial Clan, but you are innocent. For the safety of everyone, I decided to go to Lu Ming, everyone, let's go!"

In the end, Fei Ye found the steps, and then said something hypocritical and agreed.

Immediately, they set off.

Fortunately, they are not far from Lu Ming's high-level geography. With a bit of luck, they did not encounter the masters of the Tianren race on the road, and they successfully reached Lu Ming's high-level geography.

As soon as Feiye and others approached here, Lu Ming felt it.

"Is anyone coming again!"

Lu Ming whispered, ending the secret technique of enlightenment, and looked away.

"Huh? Fei Ye!"

Lu Ming's eyes moved, and an inexplicable smile appeared in the corner of his mouth.

In the distance, Feiye glanced and saw Lu Ming. However, he pretended not to see Lu Ming and said to the people around him: "We go directly into the mountains and find a place to live!"

"Shall we say hello to Lu Ming, it is not good to go in directly like this!"

Someone hesitated.

"There is nothing bad. Anyone who destroys the heavenly army can enter. We are also destroying the heavenly army. He has no reason to refuse us. Let's go in!"

Fei Yedao, he didn't want to face Lu Ming, he wanted to go directly into the mountains.

Others can only bite the bullet and follow Fei Ye.

"Oh, don't you agree with me!"

Lu Ming sneered, got up and stepped out, a flash, appeared in front of Fei Ye and others.

"You guys, stay here!"

Lu Ming said lightly.

"Lu Ming, it's you, what a coincidence!"

Feiye pretends to have just seen Lu Ming and squeezes a stiff smile.

"Oh, yeah, everyone, this is my place, please come back!"

Lu Ming waved his hand.

This changed many people's faces.

Lu Ming does not accept their refuge?

"Lu Ming, we are here to surrender to you. Now the people of the Celestial Clan are arbitrarily catching our exterminators..."

A strong man quickly explained, humble attitude.

"Come and surrender to me, why didn't you say hello just now, without my consent, you want to go in yourself?"

Lu Ming smiled faintly.

"Lu Ming, we are all destroyers, we should take care of each other, there should be no need to say hello?"

Fei Yedao.

"Should care for each other? Ha ha!"

Lu Ming sneered and said: "You didn't say that in the outer area before. At that time, I was chased by the Celestial Clan. Why didn't you say you took care of each other? Instead, you were afraid of being involved in me, leaving me alone and leaving the team. Now tell me to take care of each other?"

Lu Ming's words were full of sarcasm.

Near Feiye, many people showed shame.

Indeed, in the outlying area, because Lu Ming was being hunted down by the Terran, Fei Ye was afraid of being affected by Lu Ming, and did not want to act with Lu Ming. Let Lu Ming leave alone.

They did not stop, but now they come to Lu Ming, Fei Ye also said that they have to take care of each other and make them look hot.

"This **** Lu Ming..."

Feiye roared in his heart, and Lu Ming put it forward in public. It was Chiguoguo who hit him in the face. In his view, he was humiliating and embarrassing him.

If it were not for Lu Ming's strength, and now that Lu Ming is seeking him, he would directly suppress Lu Ming and let Lu Ming kneel in front of him and confess.

"Lu Ming, that little thing, why do you bother about it? After all, we are the people who destroy the heavenly army. If we are killed by the clan of the human, it will be a big loss for the army!"

Fei Ye pressed down her anger and said.

"Ha ha!"

Lu Ming sneered.

This Feiye, the more contact, the more shameless this person.

Now in his mouth, it has become Lu Ming's pretentious?

"You're right, I just care about it, what's wrong? Everyone can enter this place and get my refuge. Only you, Fei Ye, leave me!"

Lu Ming drank coldly, too lazy to talk to this person, and directly issued an expulsion order.

"Lu Ming, you... you are too narrow-minded, you are revenge, Chi Guoguo's revenge..."

Fei Ye's complexion changed and shouted.

"Yes, I am narrow-minded, I am revenge, what's wrong?"

Lu Ming said lightly.

"you you..."

Feiye pointed to the landing song, unable to say a word for a long time.

"You guys, you want to enter, hurry, if you want to leave with Fei Ye, I won't stop!"

Lu Ming was kind to the other humans beside Fei Ye.

"I enter!"

"Of course I enter!"

Those people quickly answered and stepped forward.

They had a little contempt for Fei Ye in their hearts, how could they leave with Fei Ye at this time?

joke!

These people flew into the mountains in succession, Lu Ming did not stop.

Feiye's complexion changed, and he had to fly towards the mountains at the last bite.

"Let you go, didn't you hear?"

Lu Ming said coldly, his fist blasted towards Fei Ye, his violent punching force was terrifying. Although Fei Ye resisted with all his strength, it was of no avail.
