

D Emperor 4351

Chapter 4351: Sevenfold

"Lu Ming, I am also the destroyer of the heavenly army. Do you want to kill me? You are killing each other..."

Feiye roared, changed direction, and continued to fly towards the mountains.

He was completely shameless, Lu Ming refused to let in, he just wanted to get in.

Alone outside, there is only one way to death, and will definitely be killed by the people of the Celestial Clan.

Compared to life, face, face, what count.

He was shameless, and he was about to enter the mountains. He was also a destroyer of the heavenly army. He did not believe Lu Ming dared to kill him.

"roll!"

Lu Ming blasted out again, flying Fei Ye out.

"Lu Ming, even if you are a taboo body, you can't do whatever you want. If you dare to kill me, you will be punished after going out!"

Feiye roared and continued to rush towards the mountains.

At this time, Ye Ling, Tian Xuanyue and others in the mountain range were already alarmed.

At the moment, he looked at Fei Ye with a look of contempt. Fei Ye, too, was too shameless.

Don't let it in, all the dead skinners must enter.

"Do you really think I dare not kill you?"

Lu Ming spoke indifferently, and his thoughts moved. Suddenly, the ground roared, and a root came out. It was the root of that big tree.

The root whiskers were as fast as electricity, swept towards Fei Ye, and with Fei Ye's strength, they could not avoid it and were directly rolled up by the root whiskers.

"Lu Ming, what are you doing? You dare to kill me, you have to pay your life..."

Fei Ye shouted, her eyes were frightened.

"What am I going to kill you? I didn't do it. Where did the roots of this plant come from? How could it attack you? I don't know!"

Lu Ming sneered and spread his hands, pushing everything above the plant roots.

"You, this is clearly controlled by you..."

Fei Ye shouted.

"Who has the evidence?"

Lu Ming sneered, with cold murder in his eyes.

Feeling the killing in Lu Ming's eyes, Fei Ye Ji Lingling shivered, and his heart was filled with fear.

He could feel it, Lu Ming really wanted to kill him.

"No, Lu Ming, don't kill me, please, I beg you, don't kill me..."

Feiye shouted, and finally dare not come across, began to beg for mercy.

"kill!"

Lu Ming was unmoved, his thoughts moved, the roots tightened suddenly, and the violent force directly burst the body of Feiye, and the flesh was completely swallowed by the roots.

Fei Ye, fell.

Lu Ming waved his hand, put away Fei Ye's storage ring, and stepped back to the tree.

In this scene, other people who destroy the heavenly army are watching.

However, they all felt that Fei Ye was dead, and they were extremely disdainful of Fei Ye's character. They exchanged secretly and decided not to pass on the matter after they went out.

In fact, Lu Ming doesn't matter even if it is spread.

Just killing a flying leaf, he did not mind.

Returning under the big tree, Lu Ming took out Fei Ye's storage ring and looked at it. Instead, he discovered the five sacred furnaces, and Lu Ming politely accepted it for his own use.

Over the next period of time, several batches of destroyers came to take refuge, and Lu Ming accepted them one by one.

After that, everything calmed down.

The Celestial Clan did not come to attack, and Lu Ming's days seemed to return to peace.

But Lu Ming knew that this was just the calm before the storm.

Lu Ming condenses Hong Huangdan while enlightening the secret technique, and seize every moment of time.

His combat strength has almost reached the peak of twelve stars, but it is extremely difficult to reach ten stars.

The higher the star power, the more difficult it is to increase the star power.

When it reaches twelve stars, it is extremely difficult to reach ten stars.

During this time, Lu Ming continued to enlighten the secret techniques, and continuously converted these secret techniques into mysterious runes, which were melted into the cells. However, the combat power was still at twelve stars, and did not reach ten stars.

However, Lu Ming was not discouraged, he understood the truth, the power of taboo, as more and more mysterious runes were integrated, it would become stronger and stronger. As long as there are enough integrations, there will definitely be a qualitative change that will make his combat power Reach ten Samsung.

Time has passed day by day.

Every day, Lu Ming has more than 300,000 Hong Huangdan in his account.

In a blink of an eye, a year and two months have passed.

In one year and two months, Lu Ming has accumulated more than 120 million Honghuangdan.

It is enough for Lu Ming to break through the accumulation of Divine Emperor Qizhong.

Lu Ming ended his enlightenment secrets and began to absorb Hong Huangdan.

Swallowed in one swallow is millions of Honghuang Dan.

These Honghuang Pills are constantly being transformed into taboo forces, and Lu Ming's cultivation behavior is once again madly promoted.

This time, it took three days to complete the refining of more than 100 million Honghuangdan.

Lu Ming's breath continued to soar, and finally broke through a bottleneck and reached another state.

Sevenfold Divine Emperor!

Lu Ming's cultivation practice made another breakthrough, reaching the seventh level of Divine Emperor, and his combat power soared a lot.

call!

Lu Ming took a long breath, his eyes were bright, and he gained a lot of confidence.

With his current combat power, even in the face of some strong people of the Nine Heavy Divine Emperor, he is fearless.

Unless the opponent has more than seven stars.

Of course, this practice is far from enough. It is enough for the ordinary Divine Emperor Jiuzhong, but it is not enough for the Peerless Jiuzhong.

Continue to improve.

After Xiuwei was stabilized, Lu Ming continued to urge Dan Furnace to condense Hong Huang Dan.

After about half a year, Ye Ling also accumulated enough Honghuang Dan, broke through, and cultivated to reach the eighth level of Divine Emperor.

Ye Ling's breakthrough from Divine Emperor's Seventh Level to Divine Emperor's Eighth Level required about 200 million Honghuang Dan, but he had more red furnaces than Lu Ming. It took him a year and eight months to accumulate around 200 million. Hong Huangdan, a smooth breakthrough.

During this time, many people broke through.

Here, the accumulation of Honghuangdan is too fast, and many people have accumulated enough Honghuangdan to break through the realm, and the strength of everyone is slowly strengthened.

In a blink of an eye, three years have passed since Lu Ming broke through the seventh emperor.

In three years, Lu Ming has accumulated about 300 million Honghuangdan.

However, 300 million Hong Huangdan is simply not enough for Lu Ming to break through.

Lu Ming wants to make a breakthrough from Divine Emperor Seventh Level to Divine Emperor Eighth Level, which requires 1.2 billion Honghuang Pills.

This is a scary number.

According to the speed of condensing Honghuangdan, Lu Ming can accumulate enough Honghuangdan in another nine years.

At this speed, Lu Ming is also satisfied.

However, there is now an important issue, that is, the flood of the high-end geography is getting weaker and weaker.

Recently, Lu Ming can clearly feel that the number of Danlu condensing Honghuang Dan has begun to decrease.

It will take less than a year for this to continue.

A high-level geography, containing the flood gas, is enough to condense more than one billion Hong Huangdan.

Chapter 4352: Choose Angels

A high-level geography, containing the flood gas, can definitely condense more than one billion, or even more Hong Huang Dan, but before Lu Ming, the Tianren race has been here for several years, and has consumed a lot of flood gas, Lu Ming They have been here for a few years, and finally the famine of this high-end geography is finally coming to an end.

At this time, Lu Ming and Ye Ling met and began to discuss the matter.

Finally, the two decided to transfer their positions.

The scarcity here is no longer enough for them to break through.

Lu Ming wants to break through the Divine Emperor's Eightfold, 1.2 billion Honghuang Pills are needed.

For Ye Ling, if he wants to make a breakthrough from Divine Emperor Eightfold to Divine Emperor Ninefold, it will take more than 2 billion Honghuangdan.

Not enough at all.

They intend to shift positions and occupy a high-level ground.

Don't forget, there is a black seed in Ye Ling's hand.

In addition, they are now more powerful than they were a few years ago.

"Which land are you going to occupy? Heavenly human race?"

Ye Ling asked Lu Ming's opinion. After getting along this time, he knew that Lu Ming was resourceful and far-sighted.

"No, now occupying the advanced territories of the Celestial Clan, wasting a seed is not cost-effective!"

Lu Ming shook his head, before Ye Ling asked, he continued to explain: "There are a lot of celestial furnaces controlled by the Celestial Clan. They have occupied high-level geographies. After so many years of alchemy, it is estimated that there is not much left in Honghuangqi! "

"Yes, do you mean, the top ten races?"

Ye Lingdao, he is also very clever, knowing Lu Ming's plan a little bit.

"Yes, my choice is the top ten race, angel race!"

Lu Ming said.

"Just what I want!"

Ye Ling smiled.

The strength of the top ten races is definitely far from that of the Celestial Clan. The quantity of the Dan Furnace they get is certainly far less than the quantity of the Celestial Clan controlled by the Celestial Clan. The speed of absorbing Honghuang Pill is naturally far inferior.

Therefore, there should still be many high-level geographies occupied by the top ten races, and the remaining Honghuang Dan.

After the agreement was reached, the two decided to set off and did not intend to notify others.

Letting the destroyers of the Heavenly Army enter this land to absorb the flood and waste gas, it is already a benevolence, and the land that they occupy again, the two do not plan to take it out to share with others.

Before leaving, Lu Ming gave the big trees an order to stop them from attacking the destroyers of the heavenly army. Others who come to the prison can attack freely.

Subsequently, the two left the high-level geography quietly and headed toward the high-level geography where the angelic clan was located.

However, what they did not know was that they were discovered by the Celestial Soon shortly after they left.

Although the Celestial Clan did not continue to attack Lu Ming these years, it does not mean that the Celestial Clan did not make preparations.

They have already set up a monitoring array around this high-level ground vein. As long as Lu Ming comes out of the ground vein, they will be discovered.

On the earth's veins, there are big trees to suppress.

But outside the ground, there are no big trees.

The news that Lu Ming and Ye Ling had left the veins quickly reached the ears of the masters of the Celestial Clan.

"Muyun's kid finally left!"

"I guess it's because their high-level veins are short of flood gas, so they left the veins and wanted to find new ones!"

"Hahaha, left the ground, without the protection of the big tree, how did the boy die?"

"Go, kill Muyun!"

Almost everyone's celestial human masters were alarmed, filled with cold killing opportunities, one by one left the location and killed Lu Ming.

However, the geographical location is different, and they are far away from Lu Ming.

Those close to them will naturally catch up with Lu Ming some time earlier.

Those who are close to each other, have no plans to wait for those who are far away to rush together, and then shoot.

In their view, the fighting power of Lu Ming and Ye Ling is not worth mentioning, they mainly care about that big tree.

Without the suppression of the big tree, they are confident that they can easily kill Lu Ming and Ye Ling.

Lu Ming and Ye Ling didn't know that all the Celestials were shocked by them. They flew quickly, but they didn't fly out for two hours. They suddenly stopped.

Because of their spiritual consciousness, they are sensitive to the dangerous breath.

"Retreat!"

The two did not hesitate to use their body skills to the extreme and retreated backwards.

The speed of the two, how fast, with a trembling figure, they withdrew thousands of miles away.

咻咻咻!

Hundreds of terrible attacks suddenly filled the ground and beneath the ground, attacking Lu Ming and Ye Ling's location.

However, they all fell through and were successfully avoided by Lu Ming and Ye Ling.

However, Lu Ming and Ye Ling had just stopped, and there were some attacks behind them, attacking Lu Ming.

However, there were only a dozen of attacks in the back, not much. The two figures flickered and avoided all these dozens of attacks.

Uh, uh, uh!

In the surrounding void, the figure flickered, and all the figures appeared in an arc, pressing them against Lu Ming.

"Heavens, it seems that we have been monitored!"

Lu Ming whispered.

Upon seeing the appearance of the Celestial Clan, Lu Ming naturally thought that they were being monitored.

However, the faces of Lu Ming and Ye Ling were calm.

The number of the Celestial Clan is not much, and together, it is about 120.

Although there are many masters, Lu Ming and Ye Ling are no longer Wuxia Ameng. Their fighting power is not as many times stronger than it was a few years ago.

"Muyun, this time, see where you are going!"

A young man spoke indifferently and stepped out, killing himself coldly like a knife.

It was Lu Ming's old acquaintance, Ye Chu.

"Oh, is it so!"

Lu Ming said lightly.

"This time, you will definitely die!"

Ye Chu vast cold voice.

"I'm afraid you don't have this skill!"

Lu Ming said.

"Don't talk nonsense with him, just kill!"

Here, there is another young man of the Tianren race, with long blond hair flying, wanton madness, and cold eyes.

He stepped out, turned into a rainbow, and shot directly.

He was holding a long rifle, which was covered with a layer of gray power, and stabbed Lu Ming, giving a strong sense of crisis.

"The Power of Heaven's Destruction!"

Lu Ming moved.

This young man of the Celestial Clan is obviously a top-notch arrogant. He is already at the Eighth Level of Divine Emperor, and he is in control of the power of Heaven's Destruction. The combat power is absolutely terrifying.

The gun pierced the air and took Lu Ming's brow straight.

"I'll be your opponent!"

Ye Ling drank coldly, a sword light burst out, and then came first, colliding with each other's spear.

when!

A tremendous roar sounded, and Jianqi and Gunman swept across the world.

Then, Ye Ling and Tianjiao's Tianjiao figure backed away at the same time.

However, Ye Ling only stepped back a few steps, while the Tianjiao's Tianjiao stepped back a dozen steps.

Obviously, Ye Ling has the upper hand.

"Nine-star combat strength, but not as good as Ye Ling!"

Lu Ming made a judgment in his heart.

Chapter 4353: Give you a big trick

Tianjiao's Tianjiao and Ye Ling played a trick, and Lu Ming saw the opponent's combat power.

Because Tianjiao's Tianjiao just tried his best to kill Lu Ming in one fell swoop.

Nine-star combat power!

The celestial force of the Celestial Clan is the nine-star force.

This kind of combat power is absolutely terrifying. Among the Tianjiao Tianjiao Lu Ming has seen, it is temporarily the strongest.

However, he is just the ordinary nine-star combat power, and Ye Ling is the peak nine-star combat power, so the two men confront each other and retreat more is the arrogance of the Celestial Clan.

However, the same nine-star combat power, even if there is a gap, it is similar. It does not mean that if the two meet, Ye Ling will win steadily.

The confrontation between the two, there are many factors that determine victory or defeat, combat experience, psychological qualities, on-site adaptability, etc., can affect the victory or defeat of a battle.

Of course, if the combat power is too far apart, it is another matter.

"kill!"

The Celestial Clan shouted and continued to kill Ye Ling.

At the same time, Ye Chuhaohao was seizing the opportunity to kill the landing.

"Vast Divine Skill, Tianzhu Battle Sword!"

Ye Chu swaggered, and the moment he shot, he also raised the fighting power to the extreme, using the strongest killing trick.

Naturally, he also controlled the power of Xiantian, which was the power of heaven.

He held the sword in his hand, and the power of Tianzhu exploded out. The blade of the sword shook the sky, striking down, and wanted to cut Lu Ming in half.

"Broken sky!"

Faced with Ye Chu's vast attack, Lu Ming did not hide his clumsiness, and also pushed the fighting power to the peak.

Seven times the fighting strength of the word of war, breaking the sky...

Uh!

Lu Ming turned into a spear, and broke out of the air, and had a match with Ye Chuhaohao.

This move also made the two of them back, but the scene was almost exactly the same as Ye Ling and Tianjiao Tianjiao.

Lu Ming backed off even less, and Ye Chuhao, backed up more.

Lu Ming found that Ye Chu's vast combat power was similar to that of the Tianren Clan Tianjiao just now.

It is also the cultivation practice of Divine Emperor Yazhong, Nine Stars.

Lu Ming, although Xiu Wei is one heavier than the opponent, has the fighting power of the twelve star peak.

Head-to-head confrontation, Lu Ming's combat power, should be above the vastness of Ye Chu.

"Damn, how is it possible?"

Ye Chu's vast roar in his heart, full of shock.

How could Lu Ming's combat power be so powerful?

He has a nine-star combat strength, and his cultivation base is one heavier than Lu Ming, but he is not as good as Lu Ming when he confronts him head-on.

Doesn't it mean that Lu Ming has the fighting power of 12 stars?

What is the concept of twelve-star combat power?

This is absolutely earth-shattering, because as far as he knows, in the entire clan of humans, the combat power can reach twelve stars, which is rare.

"Together, kill this person!"

Ye Chu roared vastly.

"kill!"

Around others, other people also shot, and various attacks, like the tide, slammed towards the landing.

Among them, there is no shortage of Divine Emperor Jiu Zhong.

Over the past few years, the masters of Divine Emperor Jiuzhong have increased a lot.

However, just before the Tianren race started, Lu Ming and Ye Ling had joined forces and rushed in one direction.

Because they have secretly exchanged information with each other, and intend to break through together.

Although their current combat power has increased many times compared to a few years ago, there are too many masters of the Celestial Clan, and there are many of them stronger than them. Based on their own combat power, they are still not opponents.

Go for the best!

The two joined forces and rushed towards the weak direction of the Celestial Clan.

A sword light and a spearman, gathered together, exuded a wave of terror.

The Celestial Clan in that direction quickly hurried to resist, but Lu Ming and Ye Ling were very accurate. The Celestial Clan in this direction was indeed weaker.

After the attacks between the two sides collided, several Tianren races on this side could not help but retreat, and as a result, they surrounded Lu Ming and appeared flaws.

Lu Ming and Ye Ling immediately displayed the strongest body style.

Lu Ming performed the Great Aurora technique, embodied the Aurora, and flashed out of the encirclement.

And Ye Ling is not bad, he turned into a sword light, several flashes, also rushed out of the encirclement.

After rushing out of the enclosure, the two flew away in one direction.

"chase!"

"Damn, don't let them run away!"

"Notify other people, stop on their way back, don't let them return to that high-level vein!"

Ye Chuhaohan and others shouted, and at the same time passed the news to other Celestial Masters who were approaching, letting the Celestial Masters close by, block Lu Ming on the high-level ground road they occupied, preventing Lu Ming from returning to that senior. Go to the ground.

Because, that high-end geography, there is that kind of terrifying big tree, once Lu Ming returns, they cannot kill Lu Ming.

At the same time, they chased at landing Ming and Ye Ling at the fastest speed.

However, they guessed wrong, Lu Ming did not intend to return to the high-level ground, but rushed in another direction.

After chasing and escaping, a few hours passed quickly.

At this time, there were more than a dozen Tianren tribes following Lu Ming, and there were other Tianren tribes in other directions.

"Coming!"

Lu Ming and Ye Ling's eyes revealed a murderous opportunity.

In front, a mountain appeared, and it was almost their destination.

Wow, wow!

Like two streamers, the two flew over a large mountain range, then stopped abruptly, stood in mid-air, and looked back at the celestial beings who were flying rapidly.

The Celestial Clan in the back are all stunned, and some do not understand why Lu Ming and Ye Ling stopped suddenly.

"No matter what the reason is, so many of us join forces, even if they have any intrigues, they can't escape death!"

"Don't be distracted, go together!"

Ye Chuhao and others drank low, did not slow down, and continued to rush towards Lu Ming at an alarming speed.

However, when they approached Lu Ming and Ye Ling, their pupils shrank suddenly.

Because, they found an amazing scene.

In the lower mountain, there is a towering tree.

This kind of towering big tree, they were too impressed, especially Ye Chuhan, who had been taught by blood, many of his masters, once became the ration of this big tree.

That's right, this kind of big tree is very similar to that of Lu Ming's high-level earth veins, almost the same.

"kill!"

At this moment, Lu Ming snorted.

Bump Bump!

The ground burst, and hundreds of roots protruded from the ground, like a dreadful long whip, and like a poisonous snake, swept toward the human race.

At the same time, more than a dozen ghosts who crossed the river, screamed, and rushed down from the underground to the human race.

"alert!"

"Defense, defense!"

The roar of the Celestial Clan.

However, this scene is really beyond their expectations.

They never expected that such a big tree would appear here.

When they saw this big tree, the attack of the big tree had already started. They fell into chaos and wanted to defend. It was too late.

Chapter 4354: Kill a batch

In such a short period of time, the Celestials have no time to defend. Hundreds of root beards and dozens of ghosts have been killed.

Many celestial beings were directly entangled in their roots, and under a stun, the bodies of these celestial beings continually exploded, and their flesh and blood were absorbed by the roots of the big tree.

In addition, there are more than ten masters of the Celestial Clan who were rushed into the body by dozens of ghosts, and their bodies shrivelled, and the essence and essence of blood and flesh were also swallowed.

In an instant, nearly fifty masters of the Celestial Clan died.

The rest of the Celestial Clan, almost all of the Divine Emperor's Seventh Level and above, had a quick response and powerful combat power, and only saved their lives.

"Kill! Kill!"

Lu Ming kept drinking, giving orders to the big tree.

Big tree roots, constant mad attacks, dozens of ghosts, and screams, crazy fighting.

The remaining 80 or so human races are extremely embarrassed. For a time, it was difficult to form effective resistance, and people were constantly strangled by big trees.

"Retreat, retreat first!"

Ye Chu roared vastly, rushing out frantically.

Faced with such a big tree, even the combat power of Ye Chuhan is very dangerous. If you are not careful, you may fall.

They must rush out and form a battle front before they can fight this big tree.

Now, they are constantly being attacked by the root beard and the ghost of crossing the river, and everyone is in chaos, and they can't be successfully deployed.

"Let's do it too!"

Lu Ming said to Ye Lingdao.

"Just what I want!"

Ye Lingdao smiled, killing like a sword.

The eyes of the two men glanced on the battlefield, looking for a shot.

Suddenly, the two's eyes lit up and shot at the same time.

The two flashed in shape, rushing out like an electric light.

Lu Ming rushed to the strong man of the Celestial Clan.

This strong man has the cultivation of the Divine Emperor Jiu Zhong, six-star combat strength, strong strength, not much weaker than Lu Ming.

In the head-on confrontation, Lu Ming wants to kill this person, it is difficult.

However, this person was just hit by a root of a big tree, he vomited blood, and his body receded, which gave Lu Ming a chance.

Lu Ming performed a ground-breaking style, turned into a spear, and rushed past, penetrating this person's eyebrow through a transparent hole.

A master of Divine Emperor Jiuzhong, Lu Ming, storage ring, was caught by Lu Ming in his hand.

Another one, Ye Ling also succeeded, and also killed a strong man of the Celestial Clan.

It is a pity that, such as Ye Chuhan's natural arrogance, high talent, high status, others will desperately protect them, it is difficult to find such a good opportunity.

After Lu Ming killed a master of the Celestial Clan, his figure flickered, and he quit very far. He continued to observe. Once he saw that the Celestial Clan was passive, he immediately returned his shot and launched a fatal blow.

Ye Ling is the same.

The two of them are free from the influence of the big tree roots and the ghosts of Dou E, and come and go freely. In addition, the combat power is very powerful. For the human race, it is undoubtedly worse.

The people of the Celestial Clan were killed one by one.

Soon, the Celestials were reduced to only about 50 people.

At this time, the people of the Celestial Clan finally broke out of the siege and fled wildly towards the distance, until they had escaped to the place where the ghost of Dou could not be pursued, and then stopped.

"Unfortunately, this big tree has more than enough defense and not enough offense..."

Lu Ming sighed, but this time he was able to kill people of so many human races. Lu Ming was still very satisfied. After all, this big tree was accidentally planted a few years ago.

At that time, Lu Ming and Ye Ling had just stepped into the core area and wanted to see if the black seeds were useful in the core area. They threw one here.

It was still regretful, I thought a seed was wasted, but I didn't expect it, but now it comes in handy.

Before, Lu Ming and Ye Ling ran here deliberately, bringing people from the Celestial Clan here, killing a large number of Celestial Masters in one fell swoop.

"Damn, **** it!"

"Where are these so many horrible trees?"

The Celestials roared with endless anger. Unfortunately, they were frightened, and they dared not continue to attack Lu Ming.

"Sorry, how many such trees, how many!"

Ye Ling laughed, and a black seed appeared in his hand. He carried the black seed and stepped towards the people of the Celestial Clan.

"Ah, damn, that big tree, is grown from this seed, and it can grow in a very short period of time, rewind..."

After seeing the black seed in Ye Ling's hand, Ye Chuhan shouted in horror.

He once saw the black seeds take root and germinate, and then grew into towering trees.

"What? They still, **** it!"

"Rewind!"

The Celestials did not dare to bring Ye Ling close, and quickly backed away.

When the Celestials retreat, Ye Ling will follow up. The speed is getting faster and faster, constantly chasing toward the Celestials, so that the Celestials dare not stay.

"Damn, let's leave here first!"

In the end, the people of the Celestial Race plan to leave here for the longest time.

They gathered together and flew with all their strength. Ye Ling did not pursue. Soon, the people of the Celestial Clan completely disappeared in this area.

Ye Ling returned and joined Lu Ming.

The two did not stay, and continued to walk towards the high-level geography where the angelic tribe is located.

Next, without encountering any danger, they soon came to the high-level land occupied by the angel clan.

This high-grade ground is no smaller than the one Lu Ming had occupied before. From a distance, the mist is like a fairyland.

"There is still a lot of waste gas left here, which is great!"

Ye Ling showed a happy look.

Lu Ming also smiled.

Sure enough, there shouldn't be many red furnaces controlled by the angels. This high-level geography, the remaining Honghuang gas, is still quite rich, and it can definitely condense a large number of Honghuang Dan.

The two rushed directly into the advanced veins.

"who?"

"Are you dead?"

In the mountain range, there were a few rants and dozens of figures rising into the sky and blocking Lu Ming from them.

Sure enough, it was the angel family. The younger generation had angel family wings stretched out and were covered with white holy light.

"You...Muyun, it is Muyun!"

One of the angelic heroes recognized Lu Ming and could not help shouting.

"What? Is Muyun!"

"How dare he come here?"

"For whatever reason, kill before talking!"

The masters of these dozen angel families, filled with cold killing opportunities, the Holy Light burst out, and they all slammed towards the landing.

"A Divine Emperor Nine Heavy..."

Lu Ming muttered.

Of the dozen angel families, only one Divine Emperor Jiu Zhong exists, and the others are all below Divine Emperor Jiu Zhong.

This kind of strength, Lu Ming has not paid attention to.

His palms were held empty, and a spear sprang out. The spear shocked, and the sharp spear burst out.

Chapter 4355: Sixteen years later

Lu Ming condensed his spears with his taboo power, and at the same time he performed a groundbreaking style. He suddenly had more than a dozen guns and killed a dozen angel masters.

The masters of these angelic tribes changed color in amazement, shouted in the sky, and defended with all their strength. Unfortunately, it was useless.

The gun-mans passed over and penetrated all their defenses. Their eyebrows were penetrated by the gun-mans. The soul was annihilated and fell on the spot.

More than a dozen angel masters, all destroyed, including the existence of the Divine Emperor Jiu Zhong.

The existence of the Divine Emperor Jiuzhong, although cultivated at a high level, is not very strong, only four-star combat power, which is a two-star combat power difference from Lu Ming, and was directly killed by a spike.

But at this time, the angel family in the whole mountain range was shocked.

"Muyun, you are dead!"

"Dare to come here, and dare to kill my angels, be bold!"

A roar rang out, and a brilliant holy light rose into the sky, and a figure rushed from all over the mountain. Among them, there were some angels who had a terrible breath.

Angels, after all, are the top ten races, and their strength is very strong. Many people in their midlife have reached the ninth level of Divine Emperor.

In addition to entering this period of time in Taishang Xiancheng, many people have made rapid progress, and there are naturally many masters.

Among the rushing people, Lu Ming and Ye Ling found that the existence of Divine Emperor Jiuzhong was no less than twenty.

The angel family is not the same as the heaven human family.

The people of the Celestial Race are distributed in more than a dozen high-level geographies, and the angelic masters in this star palace are all gathered in this high-level geography.

With the combat power of Lu Ming and Ye Ling, facing so many angel clan masters, they are naturally not opponents.

However, they are prepared.

In Ye Ling's hand, the black seed reappeared.

Uh!

Ye Ling threw the black seeds directly on the ground. The black seeds took root at an alarming rate and sprung up madly.

"That is..."

The angels' eyes widened, and then they appeared horrified, because they recognized the tree.

Because, when the Terran clan besieged Lu Ming, there were also many angel clan people who participated in the war.

"It's the kind of tree that kills the Celestial Clan!"

"Damn, they still have, they actually have..."

"Rewind, retreat!"

The angels shouted, terrified.

They have extremely deep shadows on this big tree.

Even the Celestial Clan can't help but have such a big tree. They are all under this big tree and suffer heavy losses. Can they have no shadow?

"kill!"

Ye Ling drinks lightly, controls the big tree, and starts the attack.

One by one, the roots rushed out of the ground, and a dozen or so ghosts screamed and killed the angels together.

Many angel clan people were directly recruited and killed here.

The angel family in the whole mountain range did not dare to resist, such as the startled bird, fled away.

Due to the timely response, these angelic people fled in panic as soon as they saw the growth of the tree, but not many people were killed by the tree.

Because when the big tree grows and Ye Ling orders an attack, many angels have already escaped a long distance.

In the end, a dozen angels were killed, and all other angels ran away.

"Unfortunately, I didn't see Gabbert..."

Lu Ming murmured.

Originally, he thought about whether he could see Gabbert here. If he had seen Gabbert, he would get rid of it, but unfortunately, he did not see the trace of Gabbert.

After the angels fled, the two set foot in the sky and entered the mountains.

Since then, this high-level vein is theirs.

They took out the Dan furnace and continued to condense Hong Huang Dan.

It is a pity that Lu Ming did not increase the number of red furnaces in their hands. Although they had killed 70 or 80 masters of the Celestial Clan before, they did not have any red furnaces in their storage rings.

Lu Ming guessed that these people of the Celestial Clan put the Danlu in the ground.

After all, there are many people in the Celestial Clan. Put the Dan furnace in the earth's veins. As long as someone takes care of it, you can continue to condense Hong Huang Dan. With your body, no one can condense.

However, although Dan Furnace did not get it, Hong Huang Dan actually got a lot.

Seven hundred and eighty masters of the Celestial Clan, the Honghuang Dan on their body combined, nearly 100 million, were divided between Lu Ming and Ye Ling.

Lu Ming resumed his past life, while refining Hong Huang Dan, while enlightening the secret technique.

The fact that Lu Ming and Ye Ling occupied the high-level geography of the Angel clan has also spread to the ears of the Celestial Clan, making the Celestial Clan extremely angry.

It's a pity that Lu Ming has a big tree to protect them, and they can't help Lu Ming, they can only continue to accumulate strength, and wait for more people to break through to the Divine Emperor Nine Heavy and form a nine-day battle array to kill Lu Ming.

In a blink of an eye, another three years passed.

Hong Huangdan, who went after Lu Ming, increased by another 300 million.

Adding to the 350 million Hong Huangdan before, Lu Ming has almost 650 million Hong Huangdan.

There is still a big gap between the 1.2 billion Honghuangdan that broke through the eighth level of Divine Emperor.

Ye Ling has more red furnaces than Lu Ming, and condensed Hong Huang Dan is also more than Lu Ming. However, he is now a cultivation base of Divine Emperor Bazhong Realm. It is far from two billion yuan.

And at this time, the famine of this high-level geography has become thinner and thinner.

After all, this high-level geography, which had been occupied by angels before for about five years, has been used for more than half. The three years, Lu Ming and Ye Ling have added together and practiced. With nearly 700 million Honghuangdan made, the highland Lingmai's Honghuangqi is almost exhausted.

At this time, Lu Ming had entered the Taishang Fairy City for almost eight years.

The two did not leave, and continued to condense Hong Huangdan here, but as Hong Qi became weaker and weaker, the speed of condensing Hong Huangdan became slower and slower.

In an instant, another eight years have passed.

It has been 16 years since they entered Taishang Xiancheng.

In the past eight years, Lu Ming has made a total of more than 150 million Hong Huangdan.

The total amount of Honghuangdan reached 800 million, which is still not enough to break through.

And the terrible gas of this high-grade land is almost completely exhausted.

At this time, the territories occupied by the Celestial Clan were almost exhausted.

However, over the years, the power accumulated by the Celestial Clan has become stronger and stronger, and the masters of Divine Emperor Jiuzhong have become more and more.

Moreover, there is already a young generation of Tianjiao, who has stepped into Divine Emperor Jiuzhong.

However, they still did not launch an attack on Lu Ming, because, not enough, they have to accumulate a period of time to accumulate more masters.

When they started to fight Lu Ming again, they had to kill in one blow.

Chapter 4356: Ye Ling by Dan

However, the terrestrial gas of the high-level geography was almost consumed. The people of the Celestial Clan began to shift positions and began to invade the geography occupied by other races, such as the high-level geography occupied by the top ten races.

Those races, daring not to speak out, can only swallow their voices.

At this time, Lu Ming and Ye Ling also left this high-level ground and headed for other places.

They also searched for the earth veins and refined the panacea. However, they did not have the seeds in their hands, so they naturally dared not go to the higher earth veins, but just headed towards those ordinary earth veins.

The race that occupies the ordinary ground is not so powerful, the two can cope with it.

However, the two were very low-key, changed their appearance, secretly entered the ordinary veins, and refined Hong Huangdan. After they were discovered, they shot strong and defeated those races.

Few people of these races have ever seen Lu Ming, and naturally cannot recognize Lu Ming's life origin.

Just thought that two powerful masters came.

In addition, Lu Ming and Ye Ling only occupied the corner of the earth's veins, and did not kill the killers. They just defeated these people. These people had no choice but to let Lu Ming and Ye Ling make alchemy in their veins.

After the terrestrial gas became thinner, Lu Ming and Ye Ling left and continued to search for the next one.

However, even after going to other geographies, the flood and gas of the geographies are getting thinner and thinner.

Their speed of condensing Hong Huangdan is getting slower and slower.

Soon, more than ten years have passed. The number of Honghuang Dan in Lu Ming's hands is only 900 million, which is still less than 1.2 billion.

By this time, they had entered the fairy city of Taishang for almost 30 years, not far from the 50-year period.

"According to the records, in the last two decades, every star palace will have some strange places, or important fairy ques, or a holy place containing nature, etc., and we will soon enter the next two decades, we I don't know what kind of wonderful place this star palace will appear!"

On a mountain peak, Lu Ming and Ye Ling were discussing things, Ye Ling said.

"There are still three months left, and we are about to enter the last two decades. By then, there will definitely be news. Let's go back and talk!"

Lu Ming said.

What he said back refers to the first high-level geography, and the geography where the rest of the Celestial Army will be treated.

According to records, before that strange land appears, there will be some visions.

And in that high-level vein, there are people who destroy the heavenly army, and when they go back, they may get some information.

The two returned in secret without any exception.

"The scarcity here is almost exhausted!"

After returning to the high-level vein, Lu Ming whispered.

When they left that year, this high-level geography, although it was already much thinner, could still condense a lot of Honghuang Pills.

But now, it is almost exhausted.

Of course, this is the core area after all, and it is the high-end geography after all. Even if the Honghuang gas is almost exhausted, the speed of condensing Honghuangdan is still much faster than that of the peripheral areas.

Those who destroy the heavenly army are still here.

Here, after all, there is the guardian of the big tree, other seeds, or the Celestial Clan, will not kill.

If you leave here without the guardian of the big tree, you will be chased by the Tiangong.

After Lu Ming and Ye Ling returned, they found Tian Xuanyue and asked if there was any abnormal news.

"There is indeed abnormal news. In the northernmost part, I am afraid there will be a hidden area that will appear in the world!"

Tianxuan Yue said.

"Hidden area? What do you mean?"

Lu Ming and Ye Ling are very curious.

Isn't Xianfu Xianque Xianshan or something like that? But hidden area?

"Yes, it's a hidden area. Previously, that area was isolated by a mysterious force and could not be sensed or entered. But recently, that mysterious power has become weaker and weaker. The hidden area is about to appear!"

Tianxuan Yue said.

"What is that hidden area?"

Ye Ling asked.

"According to what can be observed now, that area should not be too special. It should be similar to this core area. It should contain some earth veins. Probably, the flood gas of the earth veins is richer than the advanced earth veins here... "

Tianxuan Yue said.

Lu Ming and Ye Ling glanced at each other, and both saw surprise from the other's eyes.

What do they lack most now?

The most missing is Hong Huangdan.

And now, there is still a hidden area in this star palace, which contains the earth veins, even more abundant than the advanced earth veins.

If they occupy such a place and continually condense Hong Huangdan, their cultivation will definitely be improved to a higher level. Ye Ling reaches Divine Emperor Jiuzhong, not to mention, even Lu Ming, can look forward to Divine Emperor Jiuzhong.

If Lu Ming wants to make a breakthrough from Divine Emperor Eightfold to Divine Emperor Ninefold, it is estimated from the previous experience that at least 12 billion Honghuang Dan is needed.

Twelve billion Hong Huangdan, Lu Ming had no feeling at all, but now, there is hope again.

"According to the information given by Senior Feihuang, as long as the period of thirty years arrives, these strange places will really appear in the world..."

Lu Ming thought.

"It is said that now the Celestials, as well as people of other races, have begun to prepare and have already drained the area and the surrounding water. As soon as the area is formally alive, they will enter and occupy the area to occupy us. It's hard to compete with them!"

Tian Xuanyue sighed.

Lu Ming and Ye Ling also frowned slightly.

This is indeed the case, now that the core of this core area is almost exhausted, and almost everyone's eyes have surrendered to that hidden area.

It is conceivable that there will be a fierce competition by then.

And this star palace, the power to destroy the heavenly army, is not strong. It is far from the opponent of the heavenly palace. It can't compete with the people of the heavenly palace.

"Do you still have that kind of tree?"

Tian Xuanyue asked, looking at Landing Ming and Ye Ling quite hopefully.

If there is such a big tree, they may not be able to take a slice of the soup in the hidden area.

"No more!"

Lu Ming and Ye Ling shook their heads.

Tian Xuanyue showed disappointment.

Afterwards, the three discussed for a while, and Lu Ming and Ye Ling left.

"Lu Ming, how much more Hong Huang Dan are you in order to break through?"

Ye Lingdao.

"At least 300 million!"

Lu Ming said.

"Yes, I have 500 million here. I'll lend you first. Anyway, I don't have enough breakthroughs. When I enter the hidden area later, I won't be late before you return!"

Ye Lingdao took out a storage ring and handed it to Lu Ming.

"Thank you!"

Lu Ming clenched his fists, and he took it directly without any politeness.

Now is not a polite time, neither Hong Huangdan in their hands is enough for them to break through, but if Ye Ling gives part of Hong Huangdan to Lu Ming, Hong Ming Dan who broke through Lu Ming is enough.

After all, Lu Ming is not much worse, while Ye Ling is much worse.

Chapter 4357: Reenter the sea

As long as Lu Ming's cultivation is a breakthrough, his combat power will skyrocket, completely surpassing Ye Ling, which has a great advantage for the hidden area of competition behind them.

In this way, both of them have great help, and both of them understand this truth.

Hong Huangdan was enough, Lu Ming began to retreat and rushed into the realm.

A large number of Honghuangdans continue to enter Lu Ming's mouth, turning into taboo power, enhancing Lu Ming's strength, and Lu Ming's strength is constantly increasing.

This time, it took ten days for Lu Ming to successfully break through the realm and enter the Divine Emperor Eightfold.

The Honghuang Dan consumed has reached 1.2 billion.

However, everything is worth it. Lu Ming, who has reached the eighth level of the Divine Emperor, has exploded in combat power and is extremely terrified.

Ye Ling, who is also the Emperor of the Eightfold, is no longer Lu Ming's opponent. When he fights with Lu Ming, he is likely to be killed in seconds.

Lu Ming, Divine Emperor's Eightfold, has no rivals in Divine Emperor Realm.

Only Divine Emperor Jiuzhong, and possessing a fighting power of more than nine stars, can be Lu Ming's opponent.

However, how many can there be a nine-star combat power, a vast vast universe, and endless creatures?

Ye Ling, the peak of the Nine Stars, has already claimed to be the top Tianjiao on the side of the Tianjun.

Although the Celestial Clan has strong talents and abundant resources, it is estimated that not many people can achieve the nine-star combat power.

So now Lu Ming's combat power has almost stood at the pinnacle of Divine Emperor Realm.

However, it is not enough!

In the Celestial Clan, there are some who can reach the nine-star combat power, although there are not many.

Not to mention anything else, in this star palace, Lu Ming encountered no less than three, Ye Chuhao, one of them.

If you add the masters of other Divine Emperor Realms of the Celestial Race, after forming a battle array, Lu Ming is definitely not an opponent.

To compete with the Celestial Clan for the terrain of the hidden area, his strength alone is not enough, and he needs to use external force.

Black seeds!

Yes, the first thing Lu Ming thought of was the black seed.

If there are a few black seeds in your hand, after entering the hidden area, occupying a ground vein, you can directly use the black seeds into a big tree to resist, it is much simpler.

"There are still eighty days left, enough for me to go across the sea of Ecuador!"

Lu Mingsi thought, in the end, he decided to take another trip across the sea.

After talking about this idea with Ye Ling, and then saying goodbye to Ye Ling, Lu Ming set foot on the crossing sea alone.

Today, his strength is stronger than that of Ye Ling, and it is only he who controls the copper and copper coffin, and bringing Ye Ling, does not help him.

Now, most of the people are concentrated on the periphery of the hidden area. In other places, people of the Celestial Clan can hardly be seen. There is no need to worry at all. Lu Ming exerts the speed to the extreme, exerts the big move technique, and continues to move towards Eue To the direction of the sea.

After a while, that vast sea of crossing Erie reappeared in front of Lu Ming.

Lu Ming did not stay, rushed directly into the sea of crossing the river, resisting the power of the taboo, and then looking everywhere.

Taking Lu Ming's current practice as a virtue, with the strength of the taboo power, Lu Ming has been able to stay in the crossing sea for a long time. Although he could not make him cross the crossing sea, Lu Ming did not He intends to cross the sea of Ecuador, only to find within the range he can bear.

If you can't bear it, return immediately.

In this way, as time passed, Lu Ming searched for more than a month, but had no gains.

After searching for more than a month, I didn't see the big tree.

It seems that the number of such big trees in the sea crossing the river should be very scarce.

Lu Ming did not give up and continued to look.

Another half month passed.

"That is..."

On this day, Lu Ming was flying, and suddenly his eyes lit up.

In front, a towering tree appeared in front of Lu Ming's eyes.

This towering tree is almost the same as the one Lu Ming got the black seeds from last time.

On the branch, there were dozens of ghosts crossing the river, seemingly found Lu Ming, opened his eyes and looked at Lu Ming, emitting a terrifying light.

The strength of this ghost is extremely terrifying. It is not comparable to that of Lu Ming who condensed out after growing big trees with black seeds in the core area. The difference is too far.

In the sea of crossing the river, the ghost of crossing the river is the real ghost of crossing the river. Even with Lu Ming's strength now, there is only one way to go.

"There are seeds..."

What makes Lu Ming's eyes even brighter is that there are also seeds on this big tree, a total of four.

"Four seeds must be obtained!"

Without any hesitation, Lu Ming rushed towards the towering tree with the copper and copper coffin.

The towering big tree immediately launched a counterattack, and dozens of ghosts screamed harshly, spreading their teeth and claws, and rushed to Lu Ming.

At the same time, on the ground, there were also hundreds of roots sticking out, sweeping towards the landing, sending out a horrible roar.

Such attacks are the real terror.

If Lu Ming planted the big tree in the core area, if he had such attack power, as long as the human races were close, no one could escape.

This kind of attack is definitely not what Lu Ming can resist. Fortunately, Lu Ming has a copper copper coffin.

Lu Ming opened the coffin cover, and the copper and copper coffin exuded the supreme, mysterious atmosphere, the roots of the big tree, or the ghost of Dou E. When he encountered this kind of atmosphere, it was like a mouse meeting a cat. Retreat.

Lu Ming was unimpeded and rushed to a seed nearby, and successfully picked the seed.

Then, he rushed to another seed, so he reapplied and continued to pick it.

Soon, all four seeds were picked by Lu Ming, and Lu Ming backed away, away from here, and then took out a seed and watched carefully.

In the end, Lu Ming determined that this seed was almost the same as the one he got last time.

Lu Ming squeezed a drop of blood and dropped it on the seed, and the seed was completely mastered by him.

Later, Lu Ming grasped all the remaining three seeds, and then left here. After a while, Lu Ming wanted to continue to find out if he could find more black seeds.

Unfortunately, for the next period of time, he found nothing and found no other big trees, let alone seeds.

Seeing that the period of thirty years is coming, Lu Ming can only leave and rush back.

Fortunately, this time I didn't walk away and got four seeds. At the critical moment, it can be of great use. Lu Ming has a lot of confidence for this time in the battle for the hidden area.

After returning, they merged with Ye Ling, and the two went directly to the hidden area.

This hidden area, on the far north side, was visited by somebody before. At that time, it was isolated by a strong layer of power and could not move forward. Everyone thought that it was at the edge of a star palace. There is still an area hidden here.

Chapter 4358: Enter hidden area

This hidden area is actually connected to the core area, but it was isolated by a force before.

It can even be said that this hidden area is actually part of the core area.

For a while, the mysterious power has become weaker and weaker, and the hidden area has also caught everyone's eyes.

Although I can't get in yet, but far away, I can already see a part of the hidden area.

Indistinctly, several huge mountain ranges can be seen, creeping on the ground, the mist is rafted, the wild gas is diffused, and it is very rich.

Among them is one of the most massive mountain ranges, and the fog is denser than it is from higher-grade veins.

Outside the hidden area, a large number of people gathered.

Of course, there are mainly Tianren races, and there are also the top ten races, even smaller races, and the number is relatively small.

These smaller races do not dare to compete with the Celestial Clan, they just want to have a sip of soup.

Celestials, and most of the top ten races, looked at the hidden area with intense eyes.

Taishang Xiancheng is divided into 36 star palaces. They are located in one of the star palaces.

Every star palace, when the thirty-year period comes, there will be some wonderful places that slowly emerge.

Some are Xianfu, some are Xianque, some are Xianshan and so on.

Without exception, these wonderful places contain great opportunities.

And the wonderful place where the star palace where they are located should be this hidden area, which contains a lot of wild gas, which is also a rare opportunity.

Even though many of them have reached the presence of Divine Emperor Jiuzhong, their eyes are hot.

This is not to say that after Xiuwei reached Divine Emperor Jiuzhong, Honghuangdan was useless.

In fact, as long as it is the Divine Emperor Realm, Honghuang Dan is of great use.

After reaching the Divine Emperor's Ninth Level, you can still absorb the energy of Hong Huang Dan.

Ordinary people practice, when in the Divine Emperor Realm, they can breed a black hole in the Dantian area.

When breaking through to the main realm of God, a **** bridge will be constructed in the black hole.

This bridge, starting from the mouth of the black hole, has been extending towards the depths of the black hole, leading to the eternal unknown.

The longer the Shenqiao, the higher the cultivation base.

When successfully connected and connected to the universe sea, you can successfully reach the source, which is the source environment.

When Divine Emperor Jiuzhong, absorbing Honghuangdan can improve the quality of the black hole and improve the control of the Dantian black hole, which will lay the foundation for the future construction of the Shenqiao.

The stronger the control of the Dantian black hole, the easier it will be to construct the Shenqiao in the future.

In addition, the energy of Honghuangdan can be constantly used to strengthen the divine body.

The stronger the body, the more natural benefits.

Therefore, even the existence of Divine Emperor Jiuzhong is very eager for Hong Huang Dan.

Hong Huangdan, that's more and more good.

"There are three days left. After three days, the mysterious power that isolates the hidden area will disappear completely!"

"At that time, I must occupy a high-level land, so that I will have enough Honghuang Pill to break through to Divine Emperor Jiuzhong!"

"I need more Honghuangdan accumulation, solid foundation, to lay a solid foundation for God's Lord Realm!"

Some celestial celestials of the celestial race, including celestial celestials on the list of several celestial arrogances, have a thought flashing in their hearts.

They did not find that, not far away, there were two figures, coming quietly, then hiding in the dark and observing quietly.

These two people are naturally Lu Ming and Ye Lin.

This time, Lu Ming and Ye Lin didn't plan to bring the Sky Destroyer together.

They are already benevolent to the people who destroy the heavenly army.

Moreover, they need a great deal of Honghuang Dan, and this time, they have to fight for enough Honghuang Dan.

In a blink of an eye, three days passed.

On this day, the mysterious isolation power disappeared completely, and the scene ahead became clearer at once.

Uh, uh, uh!

The Celestials, the people of the top ten races, all rushed towards the hidden area, all wanting to occupy a wild and rich geographical vein.

Soon, everyone disappeared into the hidden area.

Lu Ming and Ye Ling appeared, and rushed towards the hidden area.

As soon as they rushed into the hidden area, the two felt that the flood and gas here would be stronger.

Soon, the two appeared near a huge mountain range, this mountain range is a vein, it should be a common vein.

At this time, there are several smaller races that are competing for this terrain.

Lu Ming and Ye Ling didn't stay. Their goal was not the ordinary earth veins, but the highest-grade earth veins, the most dense earth veins.

The two continued to fly deep into the hidden area.

After flying for a while, they approached a larger mountain range.

The concentration of flood gas in this mountain range is very alarming. It is definitely a high-grade vein, and even the total amount of flood gas is higher than that of the high-level vein in the core area.

Someone is already fighting over this high-level geography.

These are the two races in the top ten races.

The area of the hidden area is much smaller than the core area, and the number of ground veins is certainly not as good as the core area. Fighting is inevitable.

The two still did not stay.

Although the concentration of the flood land gas contained in this high-level ground is very high, Lu Ming estimates that there can be more than 2 billion Hong Huang Dan that can be refined.

But the two still look down on them.

Lu Ming is breaking through now, but needs 12 billion.

The two flew past and continued to search.

They didn't look at the ordinary earth veins. Next, they discovered a few high-level earth veins. The flood gas contained in them is extremely rich.

Among them, there is a high-level geography, and the total amount of Honghuang Dan is estimated to be more than 3 billion. It has been occupied by a group of Tianren clan masters, and the two still have not shot.

More than three billion yuan, they still look down, they decided to look at it again, if there is no more advanced geography, they will come to occupy this one.

After a round, a behemoth appeared in front of them.

It was a huge mountain, and its veins were larger than any other veins they had encountered before.

Seen from a distance, it was completely enveloped by a strong flood.

"How rich Honghuang Pill can be refined with such rich Hongqi?"

Ye Ling took a breath.

Even a fool can see that the terrestrial gas contained in this vein is far above other high-level veins, and it is not a little higher, but a lot higher.

"This area, the refined Honghuang Dan, is estimated to be 10 billion?"

Ye Lingdao.

"There should be, this vein, it should be a hidden area, the most advanced vein..."

Lu Ming said, his eyes flashed fiery.

He broke through the Divine Emperor Jiuzhong and was hopeful.

Twelve billion yuan. Before, Lu Ming felt that he had no hope. It was impossible to gather so many Honghuangdans. Now he sees hope.

Chapter 4359: Competition between human races

At this moment, there are several groups of people competing for this ground.

These groups of people are all Celestial beings, divided into batches, facing each other.

Each batch, there are hundreds of people, headed by a top-notch arrogance.

The Celestials are not monolithic. On the contrary, internal competition is fiercer than any race.

The Celestial Clan, controlling the vast universe, and the endless resources, can only control the right to speak in the Celestial Clan, which is equivalent to controlling the entire Universe universe, who doesn't mind?

Competing with each other, suppressing each other, and even fighting against each other, have happened from time to time.

They will only work together in the face of the annihilation of the heavenly army and the common enemy.

When it comes to their mutual interests, competition will be fierce.

At this time, several groups of Celestials faced each other, the atmosphere was tense, and the war was on the verge.

"I saw this ground first, and it should be occupied by me. Don't go too far!"

One of the celestial beings roared with arrogance and glanced at several others, filled with anger.

"It's ridiculous, what you discovered first is yours? This is the immortal city of the Taishang, but it is a land of no owners, and everyone is entitled to occupy it."

Another Tianjiao sneered.

"Yes, if you want to occupy this place, let's talk with strength!"

The third Tianjiao spoke indifferently, filled with a strong fighting will.

There are a total of four groups of people, headed by a devilish arrogance. The fourth arrogance has not spoken, but the indifferent eyes have explained everything.

However, despite the tense atmosphere, the war did not erupt.

If there is a war, it will inevitably lead to a dogfight. The consequences will be unpredictable, and how many people will die is also unpredictable.

These are all their team members. Once the loss is too great, it will be very unfavorable for their future development.

The point is that no one party has the ability to suppress the other parties. Once the melee erupts, things will be out of control.

They hesitated and confronted each other, but no war broke out.

"Damn, let's go!"

In the end, a group of people retreated.

Rather than consume it here, it is better to occupy another high-level ground.

The high-end veins here are generally richer than the high-end veins in the core area, and it is not bad to occupy a first refined potion.

In this way, there are three groups left.

They are still confrontational and have not fought.

"Well, such a confrontation is not a way. How can we, the three parties, share this ground?"

Finally, an arrogant person said.

"Equally?"

The other two headed Tianjiao thinking.

"Okay, I agree!"

"I agree!"

Subsequently, the other two Tianjiao nodded in agreement.

The flood gas in this land is too rich and the content is too large. It is estimated that there can be more than 10 billion Hong Huang Dan, which is worth the other four or five.

Even if the three parties split equally, it is completely cost-effective.

The more Danlu, the more Honghuang can be seized.

The three parties discussed well and were ready to fly into the mountains and begin alchemy.

In the distance, Lu Ming and Ye Ling both showed disappointment.

Originally, they wanted to wait for the Civilians to come to a civil war.

Unexpectedly, four batches of Celestial Clan, one batch withdrew, and the remaining three batches divided the ground equally.

The expectations of the two fell short and they could only do it.

Uh! Uh!

The two turned into two rainbow lights and rushed directly to the ground.

"You don't need to discuss, this place, I want it!"

Lu Ming spoke, and his voice spread far away.

The tone, full of arrogance and arrogance, fell in the ears of the Celestial Clan, and seemed particularly harsh.

Because of arrogance and arrogance, half of them are played by the Celestial Clan. When did someone dare to do this in front of them?

The three groups of Celestials at the scene all looked in the direction of the sound, and then saw two young men coming out of the air, and the clothes were hunting in the wind.

"Muyun, it's you!"

The Celestial Clan at the scene was a little dazed.

They naturally recognized Lu Ming at a glance.

However, they are really a little dazed, Lu Ming dare to appear in front of them?

Didn't Lu Ming hide them when he saw them?

How is this going?

However, they were soon filled with excitement and greed.

Whatever happened to him? Since Lu Ming took the initiative to appear in front of them, just kill it.

Killing Lu Ming, great credit.

"kill!"

The quick responder has already shot.

The first shot was a young Tianjiao, like a streamer, flying towards Lu Ming. In his hand, there was a spear, which was stabbed, and the power was very amazing.

Undoubtedly, this is a top-notch Tianjiao, which controls the power of Tianzhu, has Divine Emperor Eightfold Cultivation, and has nine-star combat power, not weaker than the vastness of Ye Chu.

If Lu Ming didn't break through the Divine Emperor's Eightfold, facing such an existence, even if he tried his best, he could only barely prevail.

But now?

Uh!

In Lu Ming's hand, a spear appeared, and one shot stabbed.

The two lances, like meteors, met in mid-air and burst into a dazzling light.

However, this process only lasted for a moment.

Then, the Tianren Clan Tianjiao was defeated.

Lu Ming's guns kept on, and he continued to kill Tianjiao Tianjiao.

Quick, too fast, it's hard to dodge the approaching Tianren Clan.

"Oh no..."

Tianren Clan Tianjiao made a roar of unwillingness, and then his eyebrows were pierced by the gun, and even with his soul, they were also annihilated.

A top demon of the Celestial Clan, fell!

The other Celestials were shocked, and their hearts were shocked.

Shocked by Lu Ming's combat power.

And the demon's arrogant man is extremely furious.

"You killed the far-invited son, you are looking for death!"

"Kill, kill him!"

A roar of roar sounded, and these powerful people of the Celestial Clan all killed Lu Ming and Ye Ling one after another.

At the same time, the other two groups of people also shot. This time, they did not dare to shoot alone, but shot together.

Hundreds of attacks attacked the landing.

Among them, the existence of Divine Emperor Jiuzhong is about 100.

Compared with twenty years ago, the God Emperor Nine Heavy Masters in the Celestial Clan is obviously much more.

Obviously, in these years, many people from the Celestial Clan broke through to the Divine Emperor Jiuzhong.

Generally speaking, the lower the star power, the lower the resources required to break through the realm.

In other words, the less Honghuang Dan is needed, and the less is not a little, but a lot.

Therefore, they will break through faster.

The top evils of the Celestial Clan, the Honghuang Dan needed, are generally very amazing.

Like the Tianjiao that was killed by Lu Ming just now, such as Ye Chuhan's middle-level existence, the star power is almost not weaker than Ye Ling, and they are in control of the powerful Xeontian power. Dan, it's almost no less than Ye Ling.

From the breakthrough of Divine Emperor Bazhong to Divine Emperor Nine Heavy, it also takes nearly 2 billion Honghuangdan, so their cultivation practice is still in Divine Emperor Eightfold.

Chapter 4360: Receiving and alchemy restrictions

Hundreds of Divine Emperors have a nine-fold presence, and there is no shortage of five-star combat power and six-star combat power. Although they faced it alone, Lu Ming did not take it seriously.

But when so many people shot together, it would be terrifying. With Lu Ming's current combat strength, he would not dare to resist.

"Retreat!"

Lu Ming waved his hand, a force rolled up Ye Ling, backed back suddenly, evaded these attacks, and then pulsed towards the mountain.

"Don't let them run away, kill!"

"kill!"

More than three hundred celestial tribes, together killed Lu Ming and Ye Ling.

At this moment, they seem to have forgotten what was just confrontation, and gathered together to condense the power of terror.

But at this time, Lu Ming and Ye Ling were close to the mountain.

Lu Ming waved his hand, and a black seed flew out like lightning, and landed on the mountain.

As soon as the seed touches the soil, it immediately takes root and germinates, and then grows at an amazing speed. This growth rate is simply incredible.

The Celestial Clan, who was chasing behind, all contracted sharply, revealing a terrified look.

"It's that big tree!"

"Damn, why does he still have that kind of tree?"

"Rewind!"

The people of the Celestial Clan have been frightened by this big tree. When they see this big tree, their first reaction is to retreat.

If you don't step back, you feel like you will be killed.

Uh, uh, uh!

Hundreds of masters, tens of thousands of miles back between the electric flints.

In this way, it gives more time for the tree to grow.

Originally, even if the big tree grows fast, it will take a little time. It just grows, and its power is not particularly strong.

Among the more than three hundred human races here, there are more than a hundred Divine Emperor Nine Heavy, which is much stronger than twenty years ago. If they join hands together, they will shoot when the big tree has not yet fully grown, destroying this A big tree is not impossible.

Unfortunately, they missed this opportunity.

The big tree grows wildly, the branches stretch out, and on the branches, there are dozens of huge ghosts crossing over.

After the people of the Celestial Clan reacted, the big tree had grown into a towering big tree.

"Damn, this kid wants to occupy this place!"

"Never let him succeed!"

The people of these human races are standing in the distance, looking at Lu Ming, all with murder in their eyes.

However, they did not dare to kill the past.

"From now on, this land is mine. If the Celestials dare to come close, don't talk about killing!"

Lu Ming spoke, and the voice clearly passed into the ears of the Celestial Clan.

This makes the celestial beings more angry and itchy teeth.

It's too arrogant to be forgiven.

"We inform others, gather other masters of the Divine Emperor Jiuzhong, and set up the nine-day battle array, and we must destroy Lu Ming!"

"Yes, he relies on the big tree in his hand and he does whatever he wants, absolutely not allowed!"

"Gather masters and destroy this big tree!"

Roars roared.

These days, the human race is about to burst out of their chests.

Originally, they still wanted to wait for a while, to accumulate more masters, and then to deal with Lu Ming. Now, they can't wait.

These Celestial Clan immediately began to act, to inform other Celestial Clan, intending to gather all the masters of this Star Palace, together set up a nine-day battle array, and killed Lu Ming.

"It seems that they will not give up on this and will call other people to attack together!"

Ye Lingdao.

"Anyway!"

Lu Ming smiled calmly.

He now has more than one black seed in his hand.

In addition to the one used, there are three.

If a big tree can't resist, the other three will be used together.

There is enough flood gas in this vein, even if all the black seeds are used, it is worth it.

"Let's make alchemy first!"

Lu Ming said, his figure moved, and landed on a flat place. With a wave of his hands, all the red furnaces flew out and landed on the ground.

Then Lu Ming waved his hands together, a forbidden force flew out, entered the Dan furnace, started the Dan furnace, and began to absorb Honghuangqi alchemy.

The incomparable richness of the atmosphere between heaven and earth, madly gathered towards the Dan furnace.

Half a day later, the Dan furnace came out, and the dense Honghuang Dan flew out of the furnace and was taken away by Lu Ming.

"It's a little more than the high-end geography in the core area, but not much..."

Lu Ming moved.

He found that here, the number of one red furnace for refining a furnace of Honghuang Dan was more than that in the high-level geography in the core area, but there was not much, only 30% more.

It stands to reason that the concentration of flood gas in this vein is several times higher than that of the high-level veins in the core area.

At least it will double.

But in fact, it is only 30% more.

Lu Ming estimates that this is the limitation of Danlu.

There is a limit to the number of outbursts in each furnace, and it does not increase with the increase of the richness of the flood gas.

At this limit, no matter how rich the famine is, the number of outbreaks will not increase.

Lu Ming was slightly disappointed.

They have only been in the second world of Taishang Xiancheng for twenty years.

Twenty years later, we will leave here to compete for the original seeds.

However, at this rate, in 20 years, it is impossible to condense 12 billion Honghuangdan.

"Refined first, it's really impossible, you can only think of his method!"

"Oh, and that guy's storage ring..."

Lu Ming thought, and then there was a storage ring in his hand.

This storage ring is exactly the arrogant evil of the previous human race. This person carries a group of people alone. His talent is extremely high and not weaker than the vastness of Ye Chu.

Such a top demon, there must be no shortage of red furnaces.

Sure enough, Lu Ming did not disappoint. In this person's storage ring, there are hundreds of sacred furnaces, one meter in diameter and three meters in diameter.

Even Honghuangdan has more than 200 million.

The big harvest, the real big harvest.

More than 200 million Honghuang Dan is nothing, the key is that the more than 100 Buddhist stoves are the big gains.

What Lu Ming is missing most is the Danlu.

Because the flood gas in this land is rich enough and the content is enough, there is not enough red furnace to refine.

As long as there are enough dan furnaces, it is possible to continuously transform the flood gas into the hong huang dan.

"Sure enough, it's still this kind of devilish arrogance!"

Lu Ming sighed.

This kind of demon arrogance, commanding a group of people, has the most abundant resources, and killing one is a big gain.

It is a pity that this kind of evil spirits is generally difficult to kill, and is protected by a group of masters.

The previous one was totally careless. After underestimating Lu Ming, he killed Lu Ming alone, and wanted to kill Lu Ming alone, but Lu Ming counterattacked.

Under normal circumstances, this kind of Tianjiao has a lot of master protection, and it is not so easy to kill.

Lu Ming put down these more than one hundred furnaces, started the furnaces, and continued to practice alchemy.
