

D Emperor 4361

Chapter 4361: One after another

There were more than one hundred immortals, which greatly increased Lu Ming's alchemy speed.

Next, for more than ten consecutive days, Lu Ming was practicing alchemy all day and night.

After more than ten days of alchemy, Lu Ming can probably estimate that he can now produce a year.

In one year, about 200 million Honghuangdan can be refined.

Still not enough!

Two hundred million a year, twenty years, that is, four billion, which is still far from the 12 billion he wants.

Can only take one step at a time.

In a blink of an eye, another five days passed.

"come yet!"

Lu Ming whispered, looking away.

In the distance, the rainbow light flickered, and figures flew by.

They are all Celestials, and there are thousands of them.

Compared with other races, the number of the Celestial Clan is very small, but the talent of the Celestial Clan is too outstanding. Just take out one and put it in the universe, it can be regarded as a arrogant figure.

Therefore, thousands of human races are definitely a force of terror.

Ye Ling also found the Celestial Clan and came to Lu Ming, his face dignified.

Soon, thousands of human races came to the earth's veins, and the strong breath made the world and earth change color.

"The existence of Divine Emperor Jiuzhong, together set up a nine-day battle array, this time, definitely want to get rid of Muyun!"

"Began to form an array and get rid of Muyun, everyone is good!"

"Start!"

One after another influence.

Then, one figure after another stepped out, standing everywhere in the void.

All of these existences are the strongest of Divine Emperor Jiuzhong.

"Three hundred and sixty Divine Emperor Nine Heavy!"

Lu Ming whispered.

This time, the Celestials fully dispatched 360 Celestials masters, the lineup is luxurious.

Three hundred and sixty masters of the Nine Heavy Divine Emperor of Heaven and Human Race set up a nine-day battle array, where the breath intersects and the power blends together, condensing a huge figure.

This figure is also a Celestial Clan, wearing a crown, but a Celestial King.

Holding a war sword, he was majestic, as if he were the master of the universe.

He was too tall, standing in the void, more towering than the mountains.

boom!

He stepped into the sky, the sky and the ground shook, and the violent breath rushed in the direction of landing Ming. The war sword was 100,000 miles long, and he slammed down the landing Ming.

This kind of attack is really terrifying. If it is placed in the cosmic sky, it can destroy a large area of starry sky.

"Block it!"

With a move in Lu Ming's heart, on the ground, there were large roots and hundreds of large roots, forming a shield, blocking the front of the war sword.

boom!

The war sword was cut on the shield, causing the shield to vibrate violently, and the roots on it were broken one by one.

Although the attack of the War Sword was finally blocked, the shield composed of roots was also split in half.

"Break open, break the defense of this big tree!"

Seeing this scene, all the Celestials are ecstatic.

Because, that move just now was only a tentative attack. The nine-day battle array had not yet used its full strength.

"Muyun, this time, how do you die?"

"Without the big tree, you will die without a burial place!"

A cold drink sounded, especially the vastness of Ye Chu, even more grim, and hoped that Lu Ming would be depressed.

"Sure enough, a big tree still can't resist!"

At this moment, Lu Ming whispered.

He originally planned that if the big tree could block the attacks of the Celestial Clan, he would not plan to use other black seeds. After all, such black seeds are precious, rare, and rare.

But now, obviously, it doesn't work.

In Lu Ming's hand, a black seed appeared and threw it on the ground.

The black seeds touched the ground and immediately took root and germinated, growing quickly.

This scene almost made the eyes of the Celestials stare.

"Damn, he still has the seeds, shot, shot quickly, kill him in one fell swoop!"

"Quick, it takes time for the black seeds to grow and urge the battle to kill him!"

Many Celestials roared.

The three hundred and sixty masters of Divine Emperor Jiuzhong immediately reacted and urged the battle to kill Lu Ming.

The giant King of Heaven and Humans immediately waved the war sword and slashed towards the landing.

At this time, Lu Ming was not in a hurry, and a black seed appeared in his hand. He threw down another direction and immediately took root.

When the war sword was cut, the first big tree continued to shoot. Hundreds of roots rushed out of the ground and laid a defense.

The roots of the big tree are cut off, and it will grow immediately, mercilessly.

At the same time, some thinner roots appeared, entwined with the thicker roots of the first big tree.

These thinner roots are the roots of the two newly planted trees.

Although it has not fully grown up, it also has great power.

In addition, those ghosts who rushed to the ground also rushed to the battle sword.

This time, the power of the sword of the Celestial King is more powerful than the previous sword.

Those ghosts crossing the hurdle were the first to be struck by the war sword, and their bodies were shaken violently, one by one, and flew out.

But this way, it also offsets the power of some war swords.

The remaining power of the War Sword was chopped on the shield intertwined with roots, which caused the shield to vibrate violently. The roots above were broken one by one, but in the end, they were still blocked.

"Damn it, go all out, go all out, I let you explode all your power!"

"Try your best, desperately!"

Behind them, those Tianren races who did not participate in the formation were arrogant and roared again and again.

Especially Ye Chu vast, almost jumped up.

Lu Ming, actually took out the third black seed, how many black seeds are there in his hand?

He is anxious, this black seed, grows too fast, a little delay will miss the opportunity.

However, the people in the formation have not yet exerted their full strength, and have not been desperate?

In fact, those who are in formation also have misery.

Although they successfully deployed a nine-day battle, they came from different camps after all, and they followed different arrogances. They usually compete and fight.

Although they usually learned the method of nine-day battle formation, after all, they almost never practiced it. Now that they are temporarily deployed, it is inevitable that they are a bit rusty and they are not so free to operate.

It doesn't work smoothly, even if it's powerful, it won't work out.

The sword just now is already the strongest one.

Unless they will be more proficient in battle front exercises.

And after such a delay, the two large trees planted later have grown quickly and turned into towering large trees. Although the first large tree is not yet tall, the power is already amazing.

"Burn the power of the sky, fast!"

A celestial clan roared and gave a death order.

"Full shot!"

Other celestial beings also roared.

The celestial beings in desperation had no choice but to desperately. The power of heaven on them began to burn.

Chapter 4362: Tianren Clan

The celestial beings in the formation have the power to burn the sky. Under such desperation, the power of the nine-day battle array is indeed more amazing.

The breath of the King of the Celestial Clan was even more terrifying, and he wielded a huge sword of war, and once again cut it off, as if to split the entire ground into two halves.

But now, there are already three big trees here.

The other two large trees, almost mature, with hundreds of roots and hair, fluttering in the void, the scene is amazing.

So many hairs gather together, this time, instead of turning into shields, they are intertwined with each other and turned into a giant stick.

A giant stick formed entirely from roots.

The giant stick bombarded and slammed into the opponent's war sword.

However, in front of the giant stick, nearly fifty ghosts who had crossed the wing, had already flown out and rushed towards the war sword.

boom! boom!

The third confrontation broke out. This time, under the desperation of the Celestial Clan, the power of the Nine Heavens Battle Array was stronger, but under the resistance of the three trees, it still blocked the attack of the Nine Heavens Battle Array, even more than the front. Both times, it's easier.

After all, the three big trees are now mature and powerful.

"Damn!"

"hateful!"

Those Celestials roared and were unwilling.

Finally, order to retreat.

Just now the power of the sky has been burned, and the defense of the three big trees cannot be broken, so there is no need to continue the attack.

Continue to burn the power of the sky, the sequelae is great.

After the nine-day battle array moved backwards and withdrew from the range of the big tree attack, they dispersed the nine-day battle array, and the figure of the king of the human race dissipated in the air.

"What should we do now?"

Someone asked.

"I really didn't expect that the kid actually had so many black seeds. I really don't know how he got it!"

Ye Chu vast and extremely uncomfortable said.

"The three big trees are not unbreakable, mainly because of the nine-day battle array we have laid down, and they are not very comfortable. They cannot fully display the power of the nine-day battle array. I suggest that we take a little time to familiarize you with some of the nine-day battle. Array, practice a few more times, in this way, when the nine-day battle array can operate smoothly, the power will increase greatly, and the defense of the three trees will be broken!"

A Tianren clan Tianjiao proposed.

"I agree!"

"I agree too!"

Others nodded in agreement.

Then, it began to practice the battle.

They did not intend to evade Lu Ming, they drilled not far away, deliberately let Lu Ming see it.

In this way, it can cause a strong psychological pressure on Lu Ming, so that Lu Ming can not rest assured alchemy.

Uh, uh, uh!

Three hundred and sixty masters of Divine Emperor Nine Heavy, flashing in the air, feet in special positions, the atmosphere is boiling, invisible, there seems to be a special silk thread that connects three hundred and sixty Divine Emperors and nine masters Together.

A huge figure came out and waved his sword constantly.

After a few hours of the drill, the battle lined up again, and after a rest, the crowd continued to start the drill.

In a flash, a few days passed.

As the Celestial Clan continues to practice battle arrays, they have become more and more in harmony with each other, and the power of the battle array is also rapidly increasing.

In this way, when the battle array reaches its peak, it is really possible to break the defense of the three big trees.

In the distant sky, Ye Chuhan and several other top arrogances looked at Lu Ming's direction, his eyes cold.

They seem to be telling Lu Ming, wait, it won't take long before they can cut you.

"These people are really endless, then it can only make you desperate!"

Lu Ming's face was also gloomy, and then a black seed appeared in his hand.

He has a total of four black seeds, and now, the fourth is also taken out.

With a wave of his hand, the black seed flew out, landed on the ground, and then grew wildly.

In the distance, the Celestial Clan, who was practicing the nine-day battle array, stopped, stared wide, and stared at the direction of Ming Ming.

Other Celestials who did not participate in the nine-day battle array exercise, such as Ye Chuhao and others, were also stunned, their eyes squinted round, and they were staring at the direction of Ming Ming.

Feelings of anger, confusion, unwillingness, etc., appeared in their eyes.

"Ah, damn..."

At last, Ye Chuhan couldn't help it. He looked up at the sky and his long blond hair flew, looking crazy and helpless.

He was really going crazy, tortured by Lu Ming.

Every time I was about to see the hope of killing Lu Ming, Lu Ming would personally break this hope.

It's too uncomfortable, too suffocating.

"Muyun, don't you have to rely on that big tree, fight on your own strength, rely on foreign objects, what is the skill?"

Ye Chu roared vastly.

"It doesn't count on relying on foreign objects, then win more and less, and press me with a battle array, even if it's a skill? You have to fight based on your real strength, okay, come on, single out!"

Lu Ming said lightly, full of ridicule.

Ye Chu vast shut up, a flushed face, but dare not fight.

Previously, a Tianjiao, almost as strong as him, was killed by Lu Ming in a face-up. Where did he dare to go up?

Unless his cultivation base is broken through to Divine Emperor Jiuzhong, it is a pity that he is still a little worse, Hong Hongdan is not enough.

"One waste, shut me up if you dare not fight!"

Lu Ming scolded.

what!

Ye Chu's vast roar, almost vomiting blood.

The faces of other Celestials are also very unsightly. They stare at the land, and look like they want to swallow Lu Mingsheng alive.

Lu Ming looked calm.

After a while, the fourth tree has grown into a towering tree.

A total of four big trees stand on the ground, like four majestic guards.

The Celestial Clan has a big head.

The defense of the three trees is already terrifying, but there is another one. Even if they practice the nine-day battle array to perfection, they may not be able to break the defense of the four trees.

The point is, I don't know if there are any black seeds in Lu Ming's hands.

The black seeds in Lu Ming's hands seem to be endless, so they are very tired.

In the end, the Celestials discussed for a while and were ready to retreat.

Of course, they will not give up easily, but want other ideas.

Because, with the advent of the last two decades, the space barrier between different star palaces will become weaker and weaker, and some powerful existences can even cross the star palaces and shuttle through the different star palaces to obtain Chance.

After waiting, the barrier between the star palaces was weak, and they looked for the Celestial Clan in other star palaces to deal with Lu Ming.

After the retreat of the Celestial Clan, Lu Ming and Ye Ling returned to the ground and continued to refine Hong Huang Dan.

Lu Ming's rhythm has returned to normal, and while refining Hong Huang Dan, he has learned various secret techniques.

In a flash, another ten years passed.

In ten years, Lu Ming obtained 2 billion Hong Huang Dan, plus the remaining 200 million before, and the 200 million he received from the Tianjiao of Tianren Clan. He has 2.4 billion Hong Huang Dan.

Chapter 4363: People coming across the planet

However, Lu Ming owed Ye Ling 500 million Hong Huang Dan before, returning 500 million Hong Huang Dan to Ye Ling, and Lu Ming still had 1.9 billion Hong Huang Dan.

However, the Hong Huang Dan needed for Ye Ling's breakthrough has been enough.

He began to refine Hong Huangdan and began to break through.

As long as there are enough Honghuangdan, breakthrough is not a problem at all.

After more than ten days, Ye Ling consumed more than two billion Honghuang Dan, and Xiuwei successfully entered Divine Emperor Jiuzhong.

Ye Ling, who reached the Divine Emperor's ninth level, his combat power has skyrocketed and is no weaker than Lu Ming now. He can already be called the top Divine Emperor Realm.

"Lu Ming, Honghuang Dan, who I will condense next, will give you, I hope you will break through the Divine Emperor Jiuzhong as soon as possible, invincible Divine Emperor Realm!"

Ye Ling said to Lu Ming.

"Thank you!"

Lu Ming nodded and did not refuse.

Hong Huang Dan is too important to him, as long as he breaks through to Divine Emperor Jiu Zhong, in Divine Emperor Realm, it is almost the same as invincible.

It is very important to fight for the seed of the future, he really needs Hong Huangdan too.

He understands that even if Ye Ling has arrived at Divine Emperor Jiuzhong, Hong Huangdan still has a great role for him, which can solidify the Dantian black hole, strengthen the control of the black hole, and increase the strength of the **** body...

Therefore, this is a great kindness, he will remember it in his heart.

When he has the opportunity, he will give Ye Ling more rewards, but now, it is indeed not a time for politeness.

Ye Ling didn't say much. He returned to the place where he had stayed and began to practice alchemy.

"There are still ten years... Even if Ye Ling's is added, it's too late. You have to think of him again!"

Lu Ming whispered.

He now has 1.9 billion Hong Huangdan in hand, which is still 101.1 billion short of the 12 billion needed to break through.

In the next ten years, even if Ye Ling was injured, it was far from enough.

"After a while, go out and see if you can get more dan furnace..."

Lu Ming thought.

His goal, of course, is the Celestial Clan, to see if he can sneak up and **** some Dan furnaces, it is better to **** some Hong Huang Dan.

There are dozens of common secrets in Lu Ming's hands, and they have not completed the enlightenment. They intend to enlighten all the secrets in their hands before going out for a walk.

At this time, a void in the core area suddenly twisted, and after a few flashes, a group of figures appeared.

There are not many people, only 13 people.

All are the Celestial Clan, headed by a young Celestial Clan, and the remaining twelve are all middle-aged.

Their breath is extremely amazing, like a volcano that has not erupted, it contains terrifying energy.

"Is this the Tianwei Star Palace? I don't know what a wonderful place appears in the Tianwei Star Palace? You, go check and find out, come back and report it to me!"

The youth of the heavenly race.

"Yes!"

Twelve strong men led their lives, flashed in shape, and left here.

Tianren youth, waiting in place.

He did not wait too long, and all twelve returned.

"I found out. In the north of this place, there is a hidden area, which contains high-level veins, and the wild gas is extremely rich!"

A strong man said.

"There are hidden areas, interesting, go and see!"

Heaven and humanity youth.

Immediately, the youth of the Tianren tribe took twelve strong men towards the hidden area.

In the hidden area, above a high-level vein.

This high-level ground is also extremely rich in wild gas, and it is the second in the hidden area after Lu Ming.

It is estimated that all the flood gas will condense into Hong Huang Dan, not less than 5 billion.

Here, it is occupied by two batches of Celestial Clan, headed by a top-notch demon arrogant, not weaker than Ye Chu's vastness.

The youths of the Tianren tribe from other star palaces brought twelve strong men of the tribe to this neighborhood.

Looking at the terrible land, the eyes of the youth of the Tianren tribe are bright, shining with greed.

"Hahaha, there is still such a strong geographical location of the flood and the wild gas, this one, I want it!"

Celestial youth, Yelu Ge said.

They didn't stay, and pulsed directly towards this place.

"Who? Stop!"

"This is the land of the human race, did you eat the bear heart leopard gall?"

A cold drink sounded, and then, there were more than a dozen figures rising to the sky and came to Yeluge and others.

Is a master of more than a dozen human races.

However, when these masters of the human race saw Yelu Ge, his face changed wildly.

"Sir Yelu!"

"How did you... come to Tianwei Star Palace?"

These days the human race is very shocked, with a look of awe in their eyes, it seems that they are very afraid of Yeluge.

"Why can't I come? Now the barrier between the star palaces is getting weaker and weaker. I naturally came across the barrier. Who are you? Tell your master to come out and say, "This place, I want Now!"

Yelu Ge said quietly, his voice spread far away.

The dozen or so human races are embarrassed.

"Yellow brother, you are too domineering, want to occupy our territory as soon as you come?"

"Yes, it's too deceiving!"

Two young voices sounded, and then a group of people flew out of the ground at two different locations.

What I said just now is the two natural arrogances headed by the two. Their talented combat power is not weaker than the vast existence of Ye Chu.

The two groups of people add up to more than two hundred, and the momentum is huge.

However, Yelu Ge's face was calm, as if he didn't see it, and said lightly: "In Taishang Xiancheng, there is no so-called bullying, no so-called overbearing, some, only strength, everything speaks with strength, you want to talk to me One battle?"

The voice of Yeluge fell, and a strong breath broke out.

"Your cultivation practice has reached the Divine Emperor Jiuzhong!"

The two Tianjiao's faces changed greatly.

They knew that the strength of Yelu Ge, Yelu Ge, is the existence of ten-star combat power.

They have nine-star combat power, and can be regarded as the top arrogance among the Celestial Clan.

However, Yelu Ge is stronger than them, with ten-star combat power.

The ten-star combat power, even among all the celestial pride of the Celestial Clan, is very rare, and it is one of the handful of people at the top of the pyramid.

Moreover, it has reached the Nine Heavy Divine Emperor, and the fighting power is absolutely terrible.

The ordinary Divine Emperor Jiu Zhong, in front of him, was completely vulnerable.

The number advantage is completely useless in front of Yeluge.

Moreover, they can't use the nine-day battle array to deal with Yelu brother, because Yelu brother is extremely proficient in the nine-day battle array, and knows all the advantages, weaknesses, and methods of operation of the nine-day battle array.

Nine days of battle, Ye Luge could not help.

Facing Yeluge, they had no difference.

"You still take the initiative to leave, give up this ground, so as not to hurt the peace!"

Yelu Ge said lightly.

The other two wanted to swear.

Are they going to occupy their land, so that they don't hurt the peace?

Shameless!

"Yellow brother, don't you want the ground, in fact, there is a more advanced ground!"

One of Tianjiao's eyes turned.

Chapter 4364: Misfortune

The eyes of other people are also bright, understand what this Tianjiao means.

Borrowing a knife to kill someone is a disaster.

"There are more advanced geographies? Don't think you can lie to me!"

Yelu Ge said, his eyes flashing.

"Is it true, as long as you go to see it, you can deceive you, I tell you, the total amount of flood gas contained in that geological vein is at least double that of the geological vein."

"Also, you will be very interested in the person who occupies that land, he is Muyun!"

An arrogant way.

"What? Muyun!"

Upon hearing the name of Muyun, Ye Luge burst into an amazing luster, which was a flame of greed.

"What you said is true, is it really Muyun?"

Yelu Ge asked again, breathing a little fast.

Excited!

Actually it is Muyun, as long as Muyun is killed, he can be confiscated as the Son of Heaven.

Not to mention that he has ten-star combat power, but he still does not qualify to become the Son of Heaven.

Because, the son of heaven or the daughter of heaven, at least has eleven-star combat power, he is one step behind.

Don't look at it, it's just a step away, it's also far away, maybe he can never cross this step, and he can never be the son of the sky.

But as long as Lu Ming is killed, he can succeed immediately.

"It's true!"

The others nodded.

"Muyun!"

The light of greed in Yeluge's eyes was more intense, but he was quickly suppressed by him.

He thought of a problem.

Yelu Ge glanced coldly at the others and said, "Muyun is here, will you kill him?"

He did not believe that someone could resist the temptation of the Son of Heaven or the Daughter of Heaven.

"We went, but we couldn't kill him. Muyun took control of a weird tree, which was terrifying!"

A Tianjiao explained.

"A kind of big tree? Ha ha, in my opinion, you are too wasteful, go, lead the way, Muyun, it's mine!"

Yeluge said with command.

The two Tianjiao were extremely unhappy, but they didn't show it.

"Huh, let you deal with Muyun, it is best to lose both sides!"

"Let your dog bite the dog!"

The two Celestial People's Tianjiao thought uncomfortably that they would not refuse, and lead the way in front of the land where Ming Ming is located.

Soon, the land where Lu Ming was located appeared in front of them.

Looking at this vast land, Yelu Ge's eyes became even hotter.

His eyes were as sharp as electricity, and he landed accurately on Lu Ming through the space.

"Muyun!"

After seeing Lu Ming, Yeluge's eyes were extremely fiery, like two flames burning.

Above the earth's veins, Lu Ming naturally discovered Yelv Ge.

"Come again, I didn't go to you, you came by yourself!"

In Lu Ming's eyes, there was a flash of anger.

"Muyun, get out and die!"

Yelv Ge stepped out, approaching the ground.

"Want to kill me, come on, I'm waiting for you here!"

Lu Ming's voice came from afar.

"Huh, don't think that you can do whatever you want with the help of a few big trees. Other people can't kill you. That's their waste. In front of me, you can't be arrogant!"

Yeluge sipped coldly and accelerated, so he drove to the landing.

"Master Yelv, wait a minute, let us open the way for you!"

"Let's go first, son Yelu no risk!"

The twelve strong men brought by Yelv quickly screamed and chased them.

Yeluge nodded, not brave, let the twelve strong men come first, he followed behind.

"unfortunately!"

Lu Ming sighed.

Originally thinking of Yeluge rushing, he directly manipulated four large trees and resolved Yeluge in one fell swoop.

He has seen that Yeluge's identity is absolutely extraordinary. This kind of person has absolutely a large number of red furnaces. If he can solve Yeluge, his speed of refining Honghuangdan will be greatly increased.

Unfortunately, Yeluge was a little more cautious.

"Wait, there seems to be some disagreement between these human races. In this case, I can show weakness first..."

With a move in Lu Ming's heart, he already thought of an idea.

Uh, uh, uh!

Yeluge's twelve men gathered together and rushed towards the landing.

These twelve people, all of them are God Emperor Nine Heavy, and the combat power is very powerful, and they all have six-star combat power.

The combat strength has not reached a certain point, it is difficult to break through the barriers between the star palaces. These twelve people can break through the barriers between the star palaces and follow Yeluge to the Tianwei Star Palace. It can be seen that the combat power is not weak. of.

"kill!"

Lu Ming took a light drink, the ground shook, the dense roots of hair rushed out, and swept toward the twelve strong men.

All four trees were urged by Lu Ming.

Nearly four hundred roots swept together towards the twelve strong men of the Celestial Clan, and the scene was amazing.

"Arrange!"

The twelve strong men laid down a nine-day battle array, condensing a huge war sword.

The sword of war was cut out, split into hundreds of sword lights, and cut towards those roots.

These twelve Celestial Clan strong men, not to mention the small number of people, but all are elites, all have six-star combat power, and some of them also have seven-star combat power.

Twelve people form a nine-day battle array, and the power is also amazing.

boom! boom! boom! ...

A series of roars sounded, and all the roots were cut off by Jianguang.

"kill!"

Twelve celestial beings were angry and rushed towards Lu Ming, and the brilliant sword light cut towards Landing Ming. They wanted to kill Lu Ming in one fell swoop.

Lu Ming's face was 'crazy', he roared, and dozens of ghosts rushed out, and rushed towards the twelve strong men, colliding with their condensed sword lights, which blocked the sword of the Celestial Clan. Light.

"That's the power, but nothing more!"

Yelv brother sneered.

Other Celestials are puzzled.

"No, how did the power of these four big trees weaken!"

"When we attacked, the power of these big trees was far more than that!"

Tianjiao, headed by the other two, had a thought in his heart.

Then they thought, was Lu Ming deliberately showing weakness?

Do you want to remind Yelu?

Tian Jiao, headed by two Tianren races, glanced at each other and chose silence at the same time.

The competition between heaven and human races is also extremely fierce. Yeluge's talent is higher than them, pressing them everywhere, and getting more resources than them.

If they can get rid of Yeluge with the help of Lu Ming, wouldn't their competition lose one point?

As for whether Lu Ming will be completed, they did not think about it.

In the Celestial Race, the masters are like clouds, and in several heavenly palaces, there are nine sons and daughters of heaven. They can't kill Lu Ming. Sooner or later, someone can kill Lu Ming.

If they could get rid of Brother Yelu with the help of Lu Ming, why would they not do it?

Therefore, they chose silence.

The two Tianjiao, both headed, did not speak, and their men naturally did not speak.

Chapter 4365: Strangle Ten Stars

"You stop these big trees, I will kill Muyun!"

Yelv Ge ordered the twelve strong men.

"Master, rest assured, these four big trees, leave it to us!"

"We must stop these big trees!"

Twelve strong men answered, confident.

They felt that they had already figured out the strength of the four big trees through the fight.

Uh, uh, uh!

They shot with all their strength, inspiring the nine-day battle array, the brilliant sword light burst out, towards dozens of ghosts, and hundreds of roots to be cut off.

And Yelu Ge, already shot.

He stepped out in one step, like a teleport, slamming towards the landing with amazing speed.

"So strong!"

Lu Ming's eyes narrowed slightly, and as soon as Brother Yelu shot, he felt great pressure.

He has a feeling, confrontation, he is not Yelu Ge's opponent.

However, he did not intend to shoot himself at all.

He stood there calmly, waiting for Yeluge to approach.

In an instant, Yelu Ge was about to approach Lu Ming, and he was covered with a terrible energy.

This is the power of heaven.

"It's now, kill!"

Lu Ming shouted, and ordered the four trees to attack with all his strength.

Hurry!

The roots of those big trees suddenly danced violently, their power soared, and they swept out, and shattered the sword light that the twelve strong men condensed.

At the same time, under Lu Ming's feet, there were more than a dozen roots rushing out of the ground, like dozens of long snakes, sweeping towards Yeluge.

The power of terror made Yeluge's face change wildly and became very ugly, because these dozens of roots brought him a fatal crisis.

"Destroy me!"

Yelu Ge shouted, his palms were shot continuously, several gray palm prints bombarded, slammed into a dozen roots.

This gray handprint is completely formed by the power of the sky, and it is bombarded with a dozen roots.

All of a sudden, the world shook and the energy swept all directions.

But the next one, a few palm prints, was defeated by more than a dozen root hairs, which kept on bombarding Yeluge.

"hateful!"

Yelu Ge snorted, not thinking about killing Lu Ming, his body retreated backward.

He already understood that Lu Ming was showing weakness just now, drawing him closer. The power of the four big trees was more terrifying than he thought.

Since Lu Ming can no longer be killed, he can only retreat.

However, will Lu Ming make him retreat?

Some of the roots of the previous confrontation with the twelve strong men have already rushed over.

No matter how desperate the twelve strong men were, they could not stop these roots.

There are at least hundreds of root hairs, which curl up to Yeluge.

Yelu Ge was surrounded in all directions, dense roots of hair, shrouded towards him.

"what!"

Yelv Ge Changxiao, his palms completely turned gray, like gray metal.

His strongest attacking power is his palm.

Boom!

His palms were continuously blasted out, and in a few moments, dozens of palm prints were bombarded, each of which was as large as a hill, blocking his body in all directions.

The big tree roots slammed against these palm prints, and a violent roar erupted, and the palm prints continued to shake, breaking apart one by one.

call out!

Finally, there was a root, which broke through the blockade of palm prints and pulled towards Yeluge.

Yelu Ge was drawn, his body almost broke into two, his mouth vomited blood, and his face was pale.

"You guys, haven't done anything to save the son of Yelu? Do you dare to see you die? I will sue you after going out..."

Among the twelve strong men, someone roared and said to the other two groups.

"Shoot!"

The two Tianjiao ordered.

Indeed, in the face of common enemies, the Celestials have always fought with the enemy. If they watched Yeluge killed, they would not be able to pass it, and they would be punished.

Two other groups of people shot, hundreds of attacks, blasting towards those roots.

However, it is too late to shoot now.

The four big trees have a total of nearly four hundred roots, and nearly fifty ghosts.

As long as a part of them is blocked to block the attacks of these people, the attack on Yeluge is not stopped and has not weakened.

No matter how strong Yelu is, after all, there is only one person. In the face of the hundreds of fierce and fierce attacks, he can't resist it.

He tried his best and could only resist a few breaths.

After a few breaths, his offensive was broken, and dozens of roots were killed towards Yeluge.

Yelu Ge shouted unwillingly, resisted frantically, but it was useless. He was continuously drawn by dozens of roots, his body exploded, and his blood was completely swallowed by the roots.

Only a storage ring was caught by Lu Ming.

"Ah, **** it!"

"Mu Yun, you dare to kill the son of Yelu Ge, your destiny will be extremely miserable!"

"You are dead, your friends and relatives are dead!"

The twelve strong men roared, crazy.

"I think it's you who are dead!"

Lu Ming spoke indifferently. All of a sudden, hundreds of roots and dozens of ghosts crossed the river. He killed the twelve strong men together.

With a bang, the nine-day battle array under the twelve strong men collapsed, and then hundreds of roots were killed together. The twelve strong men were killed without even screaming. The flesh was devoured.

Lu Ming stepped out like a flash of lightning, and passed the twelve strong men's storage rings in his hand.

"Retreat!"

"retreat!"

The other two groups of people quickly retreated and disappeared without a trace.

After a war, calm down, Lu Ming has 13 more storage rings in his hand.

"Look at the harvest!"

Lu Ming hurriedly counted it up. In the end, Lu Ming found a total of nearly three hundred pill furnaces in the thirteen storage rings.

This is an extremely amazing harvest.

Lu Ming was ecstatic.

Three hundred ancestral furnaces, Honghuang Dan refined every year, at least 100 million tens of millions, which makes Lu Ming's annual output reached the point of 300 million tens of millions.

One step closer to his goal.

"It's still a matter of hunting and killing the Celestial Clan. If there are a few more of these, I will definitely be able to make up the Honghuang Dan needed to break through ten years later.

Lu Ming thought.

However, I can only think about it. If a master like Yelvge is not able to kill him without the help of four big trees.

After leaving here, Lu Ming wanted to kill the Tianjiao of other Tianren races, it was impossible.

Lu Ming urged these three hundred ancestors together and began to practice alchemy.

...

A few days later, some celestial beings of Tianwei Star Palace gathered together and began to discuss how to deal with Lu Ming.

"You can't leave Muyun alone, he will get more and more dan furnaces. If you continue, his cultivation will become higher and higher, and it will be more difficult to deal with!"

"Yes, now the barriers between the star palaces are getting weaker and weaker. Let's go to other star palaces to find helpers. It's best to find the sons or daughters of heaven to kill Muyun!"

"I have no opinion!"

"I agree!"

Chapter 4366: Dilemma

Now, between the Star Palace and the Star Palace, some barriers have become weak, and powerful people can already break through the space and enter other Star Palaces.

Some powerful arrogances have already begun to compete for opportunities across the star palace.

Tianwei Star Palace is the star palace where Lu Ming is located. A few Tianren Clan Tianjiao came to a space barrier and tore through the space to find other Tianren Clan masters.

Lu Ming and Ye Ling are still in the veins of the earth, concentrating on Hong Huangdan.

A few months later, Lu Ming's ordinary occult techniques were all completed, and all turned into occult runes, which were melted into the cells.

It is a pity that his fighting power still stays at the limit of twelve stars and has not broken through ten stars.

Of course, it is also because the secret techniques he enlightened later on are only just getting started, and they are far from achieving great success.

There are nearly 20,000 common secrets, all staying in the introductory stage. Lu Ming believes that as long as these common secrets are all successful, his combat power should be able to take a step closer and reach ten Samsung.

It's just that the nearly 20,000 kinds of common mysteries, the energy and time required to complete them all are very long. Now I don't have time to practice, I can only wait for the Taishang Xiancheng to come out and slowly realize it.

At this time, Lu Ming planned to go out for a walk.

However, before Lu Ming set off, someone already came first.

Needless to say, it is a human race again.

Lu Ming's eyes looked into the distance, a group of heaven and human races came from the vast.

Headed by, there are more than a dozen young Celestial beings, each one of them is magnificent and magnificent, there are extraordinary heroes, and there are men and women.

Behind them, followed by more than two hundred celestial tribes, the breath is also very powerful, are masters.

These human races stayed in the distance, their eyes turned to Lu Ming.

"Muyun, get out and die!"

A burly young man of the Tianren race stepped out, his eyes cold.

"Have the skill, you roll me in and die!"

Lu Ming responded loudly and would not go out naturally.

"You dare to kill my brother Yelv, you will make you unable to survive, not to die..."

The burly youth shouted.

This young man was Yeludi's brother, Yeludi.

"There is so much nonsense, your brother has as much nonsense as you, and he dies, and he has the ability to come in and kill me!"

Lu Ming choked back directly.

"Huh, you think hiding inside, why can't we help you?"

Yelv Di said indifferently, and then waved his hand: "Bring people out!"

In the rear, there were a few strong men of the Celestial Clan who came out with two people.

Seeing the two of them, Lu Ming's pupils shrank suddenly.

"Dan Dan, Ling Yuwei!"

Lu Ming whispered, frowning.

Yes, these two people are Dan Dan and Ling Yuwei.

They have been fighting in the Tiangong Temple, but now they are pushed by the people of the Celestial Clan. Lu Ming has a bad hunch in his heart.

With a crying face on his face, Lu Ming immediately cried out: "Okay, Muyun, you were here, you borrowed hundreds of magic medicines from me, and then disappeared, I found You haven't found you for hundreds of years. Now, quickly return the magic medicine to me, otherwise don't blame me!"

After that, he smiled and said to those Celestial Clan: "Masters of Celestial Clan, I tell you, this Muyun, ungrateful, I looked at him for the sake of his honest relationship and helped him a few. This person is ungrateful, I will have a close relationship with him today, yuck, I didn't know him before!"

Dandan tried his best to leave Lu Ming apart.

Ling Yuwei looked at Landing Ming responsibly and bit her lip without saying a word.

"Hum, don't slap your lips here, we know the relationship between you two and Muyun."

Yelu sneered, interrupting Dandan's words.

Later, Yeludi looked at Lu Ming and said: "Muyun, you have been in the Tiangong, you should be able to know that both of them are controlled by the forbidden force of the Tiangong battle armor. Now, the manipulating that forbidden force The method is in my hands..."

Speaking of which, Yelvdi appeared to see a position in his hand and continued: "As long as I move my mind, the forbidden power in their body will explode, and by then, they will be destroyed and nothing will remain. under!"

Lu Ming's face was very ugly.

What he worried about still happened.

When he first joined Tiangong, he and Dandan and Ling Yuwei were too close.

What's more, he and Ling Yuwei are nominally unmarried couples, which is easily caught by Tiangong.

Although he broke the power of Tiangong's armor ban and left Tiangong, he had always worried about Dan Dan and Ling Yuwei, afraid that Tiangong would deal with them.

Sure enough, people in Tiangong now began to threaten him with Dandan and Ling Yuwei.

"Muyun, even if you are hiding inside, there are four big trees guarding? Now, I let your friends and your fiancée go in to kill you, see if you have the courage to kill them all, hey Hey!"

Ye Ludisen laughed coldly, the laughter was very ruthless, and then looked at Dan Dan and Ling Yuwei, scolding: "Now, you two go in the past, bring the head of Muyun, I tell you, if you don't Kill Lu Ming, then you will die under the power of prohibition, and you will be destroyed!"

"Wo Chao, you are so mean, you have the ability to kill him yourself. In this way, you are not afraid of the ridicule of the people in the world. I know you are a human race. The word "mean" is tailored for you. ..."

Shouted.

"Bold!"

Yeludi shouted and appeared in front of Dandan. He slapped Dandan out for several meters and scolded: "You dare to insult the human race, do you know that this is the great crime of genocide, Be careful of the world's turtle family, because of you!"

"Nima..."

Dandan shouted in his heart, his eyes gleaming fiercely, staring fiercely at Yelvdi.

Who is he, and when someone dares to slap his face, he is extremely furious, if he is not in the hands of the other party, he will be desperate.

"Lu Ming, what should I do?"

At this time, Ye Ling appeared beside Lu Ming and asked Lu Ming in a low voice.

Lu Ming did not speak, and his face was somber.

To be honest, he did not know what to do, this is a dilemma.

The Celestials forced Lu Ming and Ling Yuwei to kill him. Can he control Dan Dan and Ling Yuwei?

Even if he manipulates the big tree and does not kill Dan Dan and Ling Yuwei, but only controls them, I am afraid that the Celestial Race will also urge the power of restraint to kill Dan Dan and Ling Yuwei.

However, if he does not resist, he will be killed.

How should he choose?

On one side is the life of Dan Dan and Ling Yuwei, on the other side is his own life.

He certainly didn't want to die, but he didn't want Dandan and Ling Yuwei to die.

But for a time, he simply couldn't think of a way to solve this problem.

Chapter 4367: The decision

He has no way to solve this problem.

Although he can use his forbidden power to refine the restraining power contained in the Tiangong Warframe, he cannot help others refine it.

Even if he controlled Dandan and Ling Yuwei, he could not help them refine.

"Give you three breathing time. Hurry up. If you don't, you will die!"

Yeludi said coldly, holding up the array in his hand, a force was input into it, the array glowed, and there was a rune filled.

Dan Dan and Ling Yuwei's bodies shivered slightly, and a stripe of runes appeared on the skin of their bodies.

"Wait a minute, I didn't say anything, why are you in a hurry?"

Shouted.

"Go ahead!"

Yelv Didao said.

"Let's do it, but I have a condition!"

Shouted.

"What conditions?"

Yelv Di asked with a sullen face, at this time, this guy actually dared to tell him the conditions, he was very unhappy.

"Give me three hundred red monasteries with a diameter of one meter and ten white monasteries with a diameter of three meters. We will strike Muyun!"

Once and for all.

"What? What did you say?"

Yeludi shouted, thinking he had heard it wrong.

At this time, is it crazy for Dan Dan to even open this condition with him?

Don't know your own life, do you have control over him?

"What did I say, you should listen very clearly!"

Once and for all.

"Do you think it is possible?"

Yelv Di sneered.

"Why is it impossible, this person of Muyun, you should understand that the heart is cruel, lawless, and extremely selfish. Although I have some friendship with him, but I go to kill him, he will definitely kill us without hesitation in order to protect himself, I To kill him, but risking his life, shouldn't he get some reward?"

Once and for all.

In the distance, Lu Ming: "..."

"fart!"

Yelvdi wanted to swear.

Dandan is completely nonsense.

They had investigated Lu Ming long ago and knew that Lu Ming was extremely affectionate and would never take action against himself.

Especially Ling Yuwei, or Lu Ming's fiancée, they expected that Lu Ming would not shoot, so that Dan Dan and Ling Yuwei would kill Lu Ming.

"Xiao Wang Ba, go quickly, you are not qualified to tell me the conditions!"

Yelv sneered.

"You don't give it, if you don't give it, then you should urge the restraining forces to kill us now. After killing us, see how you kill Muyun? You must know that the credit for killing him is far more than that. The value of these furnaces!"

Once and for all, embrace your hands, and look like you are going to kill.

Ling Yuwei also nodded her head, meaning what she meant.

"Damn ants..."

Yeludi roared in his heart, and the opportunity came out, and he wished that two slaps would kill Dan Dan and Ling Yuwei.

But he can't, he now has to rely on Dan Dan and Ling Yuwei to kill Lu Ming.

On the ground, Lu Ming also had some doubts, not knowing what the purpose was.

But he understands Dandan, and knows that the Dandan elves are very good. This is definitely a purpose.

"Promise him first!"

At this time, another Tianren clan said arrogantly, this person is a woman, blonde hair and waist, extremely beautiful.

At this time, a peerless arrogance that is not weaker than Yelvdi also has ten-star combat power.

Among the natural arrogance of the young generation of the Celestial Clan, it has ten-star combat power, and is the most talented under the Son of Heaven or Daughter of Heaven.

"give him?"

Yeludi asked back.

"Yes, we checked very clearly. This person is very talented, but he has a great weakness, that is, he has a great weakness. He will never shoot this world turtle and Ling Yuwei, so the final result is definitely Muyun was killed!"

"After killing Lu Ming, there is no need to keep these two people. Give him the Dan Furnace first. What can I do? Isn't it easy to get it back?"

Celestial women said, of course, she said this by way of voice, to avoid being heard.

"Not bad!"

Yeludi's eyes lit up, then looked at Dandan and said, "Your condition, I can promise you!"

After I finished, I took out a storage ring, beat it a few times, and threw it towards Dandan, saying:
"There are three hundred dan furnaces with a diameter of one meter and a monastery with a diameter of three meters, you see Come on!"

As soon as he took it, he swept his spirit and showed a smile.

Inside, there are indeed 310 sacred furnaces, which are not bad at all. Once they put it into their storage ring, they looked at Ling Yuwei and then looked at Lu Ming.

"Muyun, for the sake of our friendship for many years, you should sacrifice your life, so that you can also save the life of your fiancée!"

Dan Dan shouted and rushed towards the landing, Ling Yuwei followed Dan Dan closely, walking side by side.

However, they stopped after dashing a distance.

As soon as he stopped, his hands kept waving, and countless runes flooded out into the void.

These runes are intertwined to form a huge formation.

"What are you doing? What are you doing here, don't you kill Muyun?"

Yeludi scolded.

"What are you in a hurry, do you think Muyun is so good to kill, I set up to kill him."

Dandan said aloud, and continued to set up.

The Celestials can only wait.

Lu Ming looked at him from afar, frowning, and he could not understand the purpose of Dandandan, but in his heart, there was a vague sense of hunch.

More than ten minutes later, a huge array appeared in the sky, a huge array formed by condensation.

"Do it!"

Dan Dan and Ling Yuwei glanced at each other, shouted, and began to do it.

The array in the sky exudes gorgeous glow, condensing a spear.

With a snap, the spear flew out of the air and reached its extreme speed.

However, this spear did not assassinate to the landing, but to Yelvdi.

When he started, Ling Yuwei also shot.

Behind her, a towering tree emerged. At this time, the towering tree was burning, turned into endless energy, and poured into Ling Yuwei's body.

In Ling Yuwei's hand, there appeared a war bow, bow and arrow, one arrow condensed out, and with a sound, he flew out of the air and shot at Yelvdi.

This arrow, Ling Yuwei is desperately, burning the divine power with all his strength, amazing power.

The cultivation practice of the two has actually reached the eighth level of Divine Emperor, which is far beyond Lu Ming's expectations.

In fact, the cultivation of Dan Dan and Ling Yuwei, the reason for such a big progress, is entirely due to the cultivation of the Celestial Clan.

The Celestials wanted to control the two to kill Lu Ming, so they gave them a lot of Honghuang Pills, and gave them two cultivation skills.

Cultivation is too low, even if Lu Ming let them kill, they can't kill.

To Dan Dan and Ling Yuwei spent a lot of resources to improve their cultivation, the purpose is to kill Lu Ming, but they never thought that the two would kill them instead.

Chapter 4368: Lu Ming's rage

"You...find to death!"

Yelvdi roared, and a spear had condensed in his palm. The spear shocked and turned into two spear shadows. It collided with the attacks of Dan Dan and Ling Wei, and easily defeated their attacks.

Yeludi's cultivation practice is that the Divine Emperor is ninefold, and still has a ten-star combat power. Although the two have reached the Divine Emperor's Eighth Level and they have exploded with all their strength, they are still far away from the strength of Yeludi. hurt.

"Muyun, here you are!"

At this moment, with a wave of his hand, a storage ring flew towards the landing like a lightning bolt.

Afterwards, the two of them shouted and rushed directly to Yelvdi.

"not good!"

Lu Ming's face changed wildly.

He finally guessed what the purpose of the two was.

They didn't plan to fight Lu Ming at all. From the beginning, they held a mortal heart and would rather die than Lu Ming.

They know Lu Ming well. If they shoot Lu Ming, Lu Ming will not fight back.

They will never kill Lu Ming. Their only choice is to sacrifice themselves.

Instead, they shot against Yeludi, and their ending was already doomed.

"Stop, give you another chance, stop, otherwise, you will die!"

Yeludi shouted.

"There's so much nonsense, it's you who died!"

After screaming and manipulating the formation, he continued to attack.

Ling Yuwei didn't say a word, bent her bow and arrow, and another arrow flew out.

"Despicable miscellaneous, since you are looking for death, then let me die!"

Yelvdi shouted, the array in his hand exuded a gorgeous glow, he had urged the formation, and ignited the restraining power in Dan Dan and Ling Yuwei.

The forbidden power of the Tiangong Warframe spread into every cell in their body, and at this moment, it burst out from every cell in them.

Their body has a burst of energy, like flames, burning in flames.

The body of the two began to collapse under this force.

"Damn, stop!"

Lu Ming shouted, his eyes shattered, and rushed out directly, wanting to rescue.

However, it was too late.

The power of Tiangong's armor prohibition exploded too quickly. Dan Dan and Ling Yuwei's bodies were rapidly dissipating, like a ray of dust. When the wind blew, they broke apart.

When Lu Ming rushed out of the ground, their bodies had completely collapsed, with only two beams of light suspended in the air.

These two groups of light are the souls of the two.

However, the power of Tiangong's armor ban is too terrible, not only can destroy the body, but also destroy the soul.

At this moment, the souls of the two are also burning like flames, as if they will be destroyed at any time.

But at this time, the souls of the two suddenly filled with runes.

These runes, intertwined with mysterious patterns, envelope the souls of the two and wrap them up.

At the same time, the void began to fill its ripples, rippling like water waves.

This force enveloped the souls of the two.

Under the dual effect of runes and rune formations, the power of restraint was actually suppressed, and the souls of the two stopped disintegrating.

However, although the souls of the two people ceased to disintegrate, their eyes were closed and there was no movement or breath of life.

Lu Ming's heart has been sinking, and at the same time exerted its speed to the extreme, rushed to the souls of Dan Dan and Ling Yuwei, wanting to protect the souls of the two.

Yeludi and other human races were all stunned at first.

In their view, as long as the power of the prohibition is urged, the two have only one dead path, whether it is the body or the soul, they will not stay and will disappear.

But their souls seemed to be protected by two forces.

How is this going?

However, they quickly reacted.

"Whatever power you have will be destroyed today, and no mark will be left!"

Yeludi spoke indifferently, stepped out, and slayed towards the souls of Dan Dan and Ling Yuwei, and the violent force burst out, trying to crush their souls completely.

"Go away!"

Lu Ming shouted, his eyes were splitting, and he appeared in a sky-breaking manner.

His body turned into a lance, assassinating Yeludi.

"Muyun!"

A fiery flame burst out in Yeludi's eyes, directly discarding the souls of Dandan and Dan, and turned to the landing to kill.

His goal was originally Lu Ming. Now, Lu Ming has taken the initiative to leave the ground and left the protection. How could he miss this opportunity?

He was armed with a spear, like an invincible **** of war, stab Lu Ming.

The lance and the spear collided in the air, and a roaring shock broke out.

Lu Ming's pistols were constantly shaking, and they broke apart directly at the next moment. Lu Ming's body shook and retreated backward.

Head to head, Lu Ming lost.

The opponent has a ten-star combat power, and the overall combat power is one star higher than Lu Ming.

"kill!"

Yeludi shouted, and the spear kept turning into thousands of spear shadows, killing towards the landing.

Lu Ming resisted several moves in a row, but unfortunately he was not an opponent, he coughed up his blood and retreated. If there were so many ancient secrets under his control, he would have been pierced by the spear just now, and even so, it was extremely embarrassing.

"Yelüdi, do you want to eat solitary food? Muyun, let me give it!"

The Celestial Woman was also killed at this moment. She held a long sword and thousands of sword shadows and stabbed towards the landing.

This woman's fighting power is no weaker than that of Yelu.

She also wanted to kill Lu Ming, but this was a great contribution, how could Yeludi enjoy it alone.

In the face of the power of the two masters, even though Lu Ming is in control of various secret techniques and has many contingency methods, it is also very dangerous. He barely resisted a few tricks. His body was swept by a sword and almost split in half.

"Die to me!"

The Celestial Woman drank coldly and tried to blow Lu Ming to death.

But at this moment, on the other side, a sword light was suddenly killed, blocking the sword light of this Celestial woman.

Ye Ling.

As soon as Lu Ming moved, he also killed him, but after all, he was a step slower, and he just arrived at the moment.

"Yeling the rebel, are you looking for death?"

Celestial women obviously knew Ye Ling, snorted, sharp sword light, straight Ye Ye brow heart.

Ye Ling urged the fighting power to the extreme and counterattacked with full force. The two swords fought fast and quickly collided a dozen times.

However, Ye Ling's combat strength was also one star lower than the opponent. He was not an opponent. After dozens of confrontations, he also made a move. He was swept by a sword light, and a deep sword wound appeared in his chest, blood Dripping.

"kill!"

"kill!"

Yeludi, the Celestial women, and even other Celestial masters all shot, and they slammed towards the landing together, all wanting to kill Lu Ming and get the most credit.

With so many people shooting together, and several masters of the same level as Yeludi, there are several, Lu Ming can't avoid it.

Chapter 4369: Bubble appeared

Here, there are at least four masters of the same level as Yelvdi, and one Lu Ming can't deal with it, let alone four shots together, Lu Ming is not an opponent at all, even if Ye Ling is added, it is useless, and you can't avoid it if you want to avoid it.

It seems that Lu Ming and Ye Ling are about to fall into crisis.

Suddenly, the void filled like water waves.

First of all, the souls of Dandan and Ling Yuwei flickered and disappeared directly from the place.

Then, like Yeludi and others, they seemed to have fallen into a quagmire and were greatly hindered, and their bodies slowed down.

"The power of time and space, who is it, get out!"

Yelvdi roared, the power of the heavens exploded, the spear swept, and the sound of explosions in the void, the force was broken open.

Several other masters also used the power of the supreme sky to break through this power with the force of tyranny.

"Really power of time and space!"

Lu Ming's heart moved, and his eyes flashed.

He is very familiar with the power of time and space, which comes from the bubble.

Is it...

Too late to think, Lu Ming shouted, "Go!"

At this moment, Yeludi and others were disturbed by the power of time and space, which was a good opportunity to get out.

Lu Ming and Ye Ling took the opportunity to flash and left the place, appearing thousands of miles away, out of the encirclement.

"Want to go? Die for me!"

Yeludi roared, armed with a spear, and was shrouded in the power of the heavens, like a devastating **** of war, chasing and killing Landing Ming, the speed was extremely amazing. As soon as Lu Ming was out of the siege, Yeludi had already killed him.

The other three masters of the same level were also not slow. Three attacks attacked Lu Ming's vital point.

However, as soon as their attack came out, the space around them rippled again. The space was like a wave of water, filled with layers of ripples, and that area seemed to be frozen in time.

This is a very powerful force of time and space, which pressed against the people of the Celestial Clan and made their movements slow down again.

Lu Ming and Ye Ling seized the opportunity and flashed again, evading their attack.

"It's so bold to dare to intervene in our affairs and get me out!"

A gigantic Tianren clan Tianjiao, holding a generally heavy war sword, cut it out with a sword against a void.

A huge swordmand burst out, and there was a big explosion in the void.

A small figure suddenly appeared in the void in front of her. All around her body, she seemed to be enveloped by a lot of space, and she didn't seem to be in this space and time.

That sword light cut through the past, but always couldn't cut that figure, but was exploited by the forces of time and space, and finally became invisible.

"Bubble..."

Lu Ming cried in surprise.

That's right, this petite figure is just a bubble, and Lu Ming will never admit it.

I haven't seen it for many years. Although the bubble grew up a lot compared to when I left, now it looks like a 15-year-old girl, but Lu Ming still recognized it at a glance.

The original breath of life will not change.

The shape of the bubble flashed and disappeared from the original immediately. Next moment, it appeared beside Lu Ming.

"Brother Lu Ming..."

Bubble screamed in surprise, and Lu Ming was actually recognized, and it seemed to be afraid of others knowing by way of voice transmission.

"Bubble, why are you here? How can you recognize me?"

Lu Ming asked involuntarily.

"It turned out to be a space-time spirit rat. It's a real courage. Are you a space-time spirit rat?"

Yeludi drank coldly, the opportunity was cold, and the cold light shone in his eyes.

They recognized the body of the bubble at a glance.

"Wait to explain, let's retreat first!"

Bubble Road, the power of time and space is diffuse, with landing Ming and Ye Ling, want to retreat into the ground.

"If you want to retreat, you can't retreat!"

"kill!"

The four most top-level Tianren races, Tianjiao, shot at the same time, and sang to Landing, Bubble and others.

In addition, there are more than a dozen first-class Celestial Masters who have also shot.

These inferior masters are also terrifying. Everyone who takes them out can fight Lu Ming and Ye Ling. Anyone can threaten their lives.

With so many masters working together, Lu Ming and others felt a fatal sense of crisis.

"Time, space!"

At this moment, the bubble sips, and her delicate body exudes a strong breath.

Divine Emperor Ninefold!

Lu Ming found that the repair of the bubble has actually reached the Divine Emperor Jiuzhong.

This is amazing.

You should know that when Bubble and Dandan left together, her practice at that time was not high, it was not as good as Dandan, but now, the practice of Bubble is far more than Dandan.

Bubble must have got an amazing adventure.

At the beginning, when Lu Ming participated in the Tiangong selection of Tianbing, he met Dan Dan, but did not see bubbles. Lu Ming was curious. Once asked Dan Dan, where was the bubble.

Dandan once said that the bubble entered a ancestral place of the space-time spirit rat.

With so much information, Lu Ming knew that the bubble entered one of the ancestral homes of the space-time spirit rat, and the rest did not know.

It's been so many years since I met, and I haven't met each other until now, but the bubble has shown amazing cultivation behavior.

Not only did the bubble reveal Divine Emperor Nine Heavy's cultivation behavior, but at the same time, her eyebrows glowed with dazzling brilliance, and then the two fonts flew out.

One is 'hour' and the other is 'empty'.

The two fonts soared into the sky and grew dramatically. Each word was as huge as a planet, exuding a mysterious atmosphere.

This area, the time and space of this world, seems to be controlled by two fonts.

"This is... the original words "time" and "empty"."

Lu Ming was taken aback.

He recognized at a glance that these two fonts are the original ancient characters.

Bubble, actually controlled the two ancient ancient characters, the most amazing thing is that it is still 'time' and 'empty'.

This coincides with the talent of the bubble, and the power it can exert is difficult to speculate.

Lu Ming was even more certain that Bubble definitely got an amazing adventure.

Hula!

The space in this area is constantly twisted, and then squeezed towards Yelvdi and others.

To be honest, Yelvdi and others were surprised to see the two ancient characters used in the bubble.

However, they quickly reacted.

"Do you think we can stop us with the ancient characters? Break me!"

"The power of time and space must also yield under the power of sky!"

Several celestial ancestors screamed, and the power of the Xeontian exploded, sweeping all directions.

The power of the strongest sky is indeed powerful. Even if the bubbles are blessed by the two ancient characters, the power of space and time is so powerful that they are still terrified.

However, the people of the Celestial Clan have been greatly affected after all.

The strength of the bubble exceeded their expectations. Based on two ancient ancient characters, they matched their talents and were enough to compete with the ten-star fighting force Yeludi.

If it is only auxiliary, it can play a greater role.

"Shoot!"

Lu Ming's and Bubble's tacit agreement is still there. As soon as he saw that the Celestials were affected, he shot directly and used all his strength to turn it into a spear and stab at Yelvdi.

Chapter 4370: The power of Qiuyue

Lu Ming urged the sky-breaking style to the extreme, turned into a lance, and pierced Yelvdi.

"Break me!"

Yelvdi screamed, and his spear swept, breaking the power of time and space, and bombarded Lu Ming's spear.

This time, Yelvdi did not gain the upper hand, but evenly divided.

Both figures retreated.

Although Yelvdi broke through the power of time and space, he was still greatly affected. After all, his combat power was reduced, and he was no longer able to suppress Lu Ming.

At the same time, Ye Ling also shot, blocking the attack of Tianjiao female Tianjiao.

However, there are other masters of the Celestial Clan, and they sang to the landing together.

There are too many opponents. Even with the power of space and time, Lu Ming is still not an opponent.

But at this moment, there was a terrible sound of breaking the sky in the distance. It was a series of attacks. There were a total of eight attacks. Each attack had a different color, but the power was very amazing.

These eight attacks attacked the Celestial Clan.

"This is... the power of Sacred Heart of Nine Skills!"

Lu Ming's eyes moved.

He is very familiar with this kind of power, but the power of Qiuyue's Jiuqiao Sacred Heart.

Sure enough, Lu Ming swept his eyes and saw a figure appearing in the distance, covered in gorgeous color glow.

Who is it, not Qiuyue?

Obviously, before Qiuyue was not in this star palace, but in other star palaces, it should now come across the star palace.

The power of Qiuyue's attack was actually very terrifying, but anyone who was hit by a colorful light retreated.

As soon as Qiuyue flickered, he came to the battlefield and watched the landing song, showing joy.

"Another one to die!"

"It's her, the rebel of the Temple of Heaven, the apprentice of the Lord Mengxu God!"

"Very good, all together, then get rid of them together!"

Yelvdi and others sipped coldly, and some people were killed towards Qiuyue.

"Qiuyue, be careful!"

Lu Ming cried.

Qiuyue smiled, and his heart radiated a bright glow with nine colors, but eight of them were dazzling, as if there was a colorful sun on her chest.

Eight kinds of dazzling rays of light entangled together, and finally formed a colorful scimitar, slashing towards that celestial being.

boom!

The Eight-Color Scimitar collided with the Celestial Clan's Celestial Clan. The Celestial Clan's Celestial Body shook violently and retreated backwards. There was a knife wound on his arm and he was almost cut off.

This celestial being is proud of Qiuyue.

Even Lu Ming was shocked.

"Qiuyue, so strong..."

Lu Ming's heart beat hard a few times.

The Tianjiao Tianjiao just now, but one of the four strongest Tianjiao on the scene, has the Divine Emperor's ninth level of cultivation and ten-star combat power.

Such a master was actually crushed by Qiuyue.

"Qiuyue also has ten-star combat power, and Xiuwei has reached Divine Emperor Jiuzhong!"

Lu Ming was really shocked to judge Qiuyue's combat strength and cultivation behavior.

It seems that Qiuyue also got a great chance in other star palaces.

When Lu Ming had just left Tiangong to meet Qiuyue, Qiuyue's Nine Trick Sacred Heart, only one trick was completely inspired, and only one color was dazzling.

But now, Qiuyue has eight tricks to inspire powerful power, with eight colors, dazzling.

The power of the Sacred Heart of Jiuqiao is almost fully developed.

Qiuyue's combat power is not weaker than that of Yelu. It can be said that it exists at the same level. The reason Qiuyue can occupy the upper hand and injure the Celestial Clan's arrogance with one move is of course due to the power of time and space of the bubble.

"Sister Qiuyue, you are so good, we continue..."

Bubble screamed in excitement, and continued to urge the two ancient characters, the power of time and space, constantly pressing the people of the Celestial Clan.

At the same time, Qiuyue shot, the power of Jiuqiao Sacred Heart, turned into a machete, and chopped out constantly, the sky was full of colorful glow.

In addition, Lu Ming and Ye Ling also tried their best. For a time, the people of the Celestial Clan were forced to retreat.

"Damn..."

The Celestials roared with anger.

In the battle on the bright side, they clearly surpassed Lu Ming, but in fact, they fell.

This is mainly due to the power of time and space.

The power of time and space has hindered them too much.

The power of time and space can be said to be the strongest auxiliary power, especially under the blessing of the two ancient words of "time" and "air", the power burst out is even more amazing, even if the super power of the Celestial Clan, None are so easy to break.

Not to say that the power of time and space is stronger than the supreme power of the Celestial Clan.

Ordinary space-time spirit rats, the power of space-time is far less powerful, it is definitely not comparable to the four super powers of the Celestial Clan, but the bubbles are different.

Bubble's own talent is very high. With the help of two ancient characters, the power of space and time has produced a qualitative change, which is no longer weaker than the power of the strongest.

Influenced by the power of time and space, it is difficult to fully exert the fighting power.

However, Qiuyue's combat power can be fully exerted, and naturally can suppress the Celestial Clan.

The Celestials, even if they were angry, could not change the facts. They continued to retreat, and even a few of them with slightly weaker combat powers were wounded and almost fell here.

"Arrangement, nine-day battle..."

Yeludi shouted, calling the strong men of the Celestial Clan.

Around there were hundreds of strong men of the Celestial Clan, and they began to act at this moment, preparing to set up a nine-day battle to deal with Lu Ming.

"Bubble, take us to destroy them!"

Lu Ming said to the bubble.

"Okay!"

Bubbles responded, and the power of time and space enveloped Lu Ming, and under a flash, Lu Ming and them appeared among the Celestial People around Zizi.

Then, the power of time and space exploded, and the void was twisted, forming a strong oppression.

The strong days of the Celestial Clan suddenly fell into the quagmire and tried their best, but the movement was like a turtle.

Their strength, compared with the bubble, has a big gap, naturally it is not so easy to break the bubble's time and space.

"kill!"

Lu Ming shouted, and the gun-mans burst out. Suddenly, there were six divine emperor-nine heavy men of heaven and human race. They were pierced by the gun-man hole and fell directly.

At the same time, Ye Ling and Qiu Yue also hit the killer, and a wave of attacks took away more than a dozen masters of the Celestial Clan.

Under the influence of the power of time and space, they couldn't even deploy a nine-day battle because they were too late.

"Damn..."

Yeludi and others were irritated and their eyes were blood red, and they wished to unload Lu Ming and others.

It's a pity that they can't do it with their strength.

"Retreat, retreat..."

In the end, Yelvdi and others were helpless and could only order to retreat. They rushed over, broke through the power of time and space, and led a group of men, fled in embarrassment and turned away.

Xingshi mobilized, but the result was an embarrassed escape.

After the Celestials left, Lu Ming returned to the top of the earth. After all, there are four big trees guarding them, which is safer.
