

D Emperor 4371

Chapter 4371: Five Elements Fairy Tears

"Brother Lu Ming, long time no see, I want to die!"

The bubble hung directly on Lu Ming's neck, as before.

"Cough, bubble, reserved, reserved, you are now grown up, different from before!"

Lu Ming quickly coughed a few times, his old face reddened.

"Huh, Brother Lu Ming dislikes the bubble, then the bubble becomes smaller!"

Bubble jumped from Lu Ming's neck, pouting, cute little face, full of discomfort.

"Why? Where can I dislike the bubble?"

Lu Ming rubbed the head of the bubble with his hand and quickly changed the subject, asking: "Bubble, how did you recognize me? I'm totally a different person?"

He is a "present body", but the bubble can recognize him at a glance, and he directly helps him, offending the human race, which makes him very curious.

"That guy told me!"

Bubble said.

"Dandan..."

As soon as he mentioned Dandan, Lu Ming immediately sank into his heart and said, "Bubble, Dandan, how are they doing, take it out and see!"

"Ok!"

Bubble nodded and waved his hand, Dan Dan and Ling Yuwei's soul appeared in the air.

The souls of both people are closed, and the soul is covered with runes, and at the same time it is enveloped by a force of time and space.

It seems that the situation is quite bad.

"Dan Dan protects his soul with his array, and then, with the power of my time and space, temporarily suppresses the forbidden power in the soul, but it can't be suppressed for a long time. For up to three years, their souls will also be wiped out!"

Bubble said.

"What? Can it only be suppressed for three years?"

Lu Ming was furious, and his face was even more ugly.

"After three years, it will disappear, will there be no way to cure it?"

Lu Ming asked.

"Yes, before and after, tell me a way!"

Bubble said.

"Dandan tells you a way? Did you expect it before?"

Lu Ming asked.

"Yes, in fact, since your relationship with Tiangong, he has expected this day. Later, they are controlled into the Taishang fairy city, and Dandan began to arrange."

"Once, he happened to meet me and told me your situation, and told me that the Celestial Clan would definitely use them to deal with your brother Lu Ming, so he left behind!"

"He arranged a formation in advance in the soul of himself and Sister Yuwei, let me use the power of time and space to help them fight for time, and the rest will depend on you!"

Bubble said.

"What do you want me to do?"

Lu Ming asked.

"Dan Dan told me that before entering Taishang Xiancheng, he consulted a lot of information, plus the experience passed down from the world's predecessors of the turtle family, he knew that in the Tiankui Star Palace, there is a fairy mountain with a treasure in it. , Called Five Elements Fairy Tears, as long as you get Five Elements Fairy Tears, you can save them."

Bubble said.

"Tiankui Star Palace, the Five Elements Fairy Tears?"

Lu Ming's eyes flashed with an astonishing luster.

He must get it.

Dandan this guy, really guilty of cunning, left a way for himself.

Otherwise, how could he go to death so easily?

In the front, Dandan has already been arranged, and in the back, he will definitely finish.

"It's not too late. I plan to set off immediately and go to the Tiankui Star Palace to find the Five Elements Xian Tears!"

Lu Ming said.

"Master, I will go with you!"

Qiuyue immediately.

"Brother Lu Ming, don't want to leave me behind!"

Bubbles are immediately.

Their attitude is very firm, the meaning is very obvious, Lu Ming can not refuse.

"Brother Lu, so I will stay here and help you refine Hong Huangdan!"

Ye Ling smiled.

"Thank you!"

Lu Ming clenched his fists and was very grateful.

Ye Ling knows him well.

Lu Ming's current cultivation practice is still weaker. Only Divine Emperor Bazhong, and only breakthrough to Divine Emperor Ninefold, will be truly powerful and fear no one.

However, Lu Ming wanted to break through to Divine Emperor Jiuzhong, and needed too many Honghuang Dan.

A total of 12 billion.

After joining them, they all went to Tiankui Star Field, to find the Five Elements Fairy Tears, who helped Lu Ming alchemy.

What zone breakthrough did Lu Ming take?

Ye Ling understood this very well, so he did not say that he would go to find the Five Elements Fairy Tears, but said that he wanted to help Lu Ming alchemy, which helped Lu Ming a lot.

After all, there is not much time left before leaving the second floor of Taishang Xiancheng.

"Brother Lu Ming, I also have a lot of red furnaces here, for you!"

A wave of bubbles waved, and a large number of red furnaces flew out. Looking at the number, there were actually no fewer than three hundred statues.

Bubble alone, there are so many Dan furnaces, which is too shocking.

But it's relieved to think about it. The power of time and space is too mysterious. The offense may not be the strongest, but in other respects, it is endless.

Relying on the power of time and space, it is much easier than others to obtain a red furnace.

"Master, I have it here!"

Qiuyue also took out her red furnace.

There are not many red furnaces in Qiuyue, only a little over a hundred.

Lu Ming was also polite, all accepted, and handed over to Ye Ling.

There are so many Dan Furnace, ten years later, should be able to make up for Hong Huang Dan he needs.

Even if it's not enough, it won't be too much.

"Brother Ye, please come here for you!"

Lu Ming said.

"It's okay, there are four big trees, they can't help me!"

Ye Ling smiled.

"Then leave!"

Lu Ming clenched his fists, and then gave orders to the four big trees, and then, together with the bubble, Qiuyue, left here.

After Lu Ming and others left, they deliberately leaked their whereabouts and showed them to the Celestial Clan.

This is also to avoid the concentration of the human race in the future, to siege the ground, and relying on four big trees alone may not be able to block it.

But after he left, the Celestials would not work hard and risked the siege of that land, so that Ye Ling could refining Honghuangdan there with peace of mind.

It was about whether he could break through the Divine Emperor Jiuzhong behind him, or sloppy.

Soon after, Lu Ming and they came to an empty place.

Qiuyue and the bubble come from across the starry sky barrier, and naturally know where the space is relatively weak.

The space here is relatively weak, and it is easy to break the barrier.

"I'll come first!"

The bubble cried and waved a small hand. This space was torn apart.

"Brother Lu Ming, I'll pass first!"

Bubble said, stepped out, the body entered into it, disappeared.

Obviously has entered another star palace.

"Master, please come first!"

Qiuyue looked at Lu Ming.

"it is good!"

Lu Ming nodded, the power of taboo broke out, and his palm was like a knife, and he split it.

Crossing the barrier of the Star Palace, you can't bring other people together. Whoever breaks open, only who passes, can't bring other people.

When the bubble breaks open, she can only pass by, not Lu Ming and Qiuyue.

Lu Ming and Qiuyue want to go, they can only do it by themselves.

Sigh!

Lu Ming's palm was cut off, and the void was broken.

Chapter 4372: Flame Fairy Mountain

With Lu Ming's current strength, it is not difficult to break the barrier between the star palaces.

He found that as long as he had Divine Emperor Nine Heavy and five-star combat power, he could break the barrier of star space.

Lu Ming stepped out, stepped into a crack in space, and disappeared.

The next moment, Lu Ming found that he had appeared in a new place.

"This should be the Tianyong Star Palace!"

Lu Ming thought.

Naturally, this is not the Tiankuixing Palace. The Tiankuixing Palace is not adjacent to the Tianweixing Palace. It needs to pass through several other heavenly palaces to reach the Tiankuixing Palace.

Bubbles are already waiting here, at this time, the void on the side is filled, and the figure of Qiuyue also appears.

Then, they turned into a few rainbow lights, and left here to find the weak point of space in Tianyong Star Palace.

"The environment here is not much different from the Tianwei Star Palace!"

Lu Ming observed while flying.

The environment of Tianyong Star Palace is not much different from that of Tianwei Star Palace.

The breath is almost the same.

It is also flooded with a strong flood.

Sometimes you can see a vein.

Soon after, they came to a weak point in space, continued to break through the void, and entered the next star palace.

In this way, they transferred several times in a row, and finally came to the Tiankui Star Palace.

On the way, Lu Ming also asked Qiuyue and Bubble about their time.

The two really got a great chance.

Qiuyue was in a fairy palace in Taishang Immortal Palace, and got a great chance. He cultivated for a rapid advance, and developed the Jiuqiao Sacred Heart, and developed eight of them. The power was greatly increased.

Lu Ming suddenly realized that it is no wonder that Qiuyue didn't have many red furnaces, but his cultivation practice reached the Divine Emperor Jiuzhong, which had a lot to do with this fairy house's chance.

The opportunity of bubble in Taishang Xiangong is quite common.

However, the bubble has gained a great chance in the wilderness universe, obtained two ancient characters, and has made great progress in cultivation.

On this basis, relying on the mystery of the power of time and space, she obtained a large number of red furnaces, refined a large number of Honghuang Pills, and made rapid advances.

Each has its own adventures.

"Look, the Five Elements Fairy Mountain!"

The bubble cried suddenly.

Lu Ming looked forward. Sure enough, there was a big mountain in front. The big mountain was actually suspended in mid-air.

The mountain has five colors.

Gold, red, blue, cyan, yellow.

Corresponds to the color of the five lines.

This is the Five Elements Fairy Mountain, Lu Ming their destination.

"This five-elements fairy mountain was born five or six years ago. It is a wonderful place in the heaven and earth. It is said that it has a great opportunity to help people realize the Tao. A lot of people have entered, and even there are Tianjiao coming across the star palace. Enter it."

Bubble explained.

This is the same area as the hidden area, which all emerged later.

It's just that the Tianwei Star Palace is a hidden area, and the Tiankui Star Palace is a five-elements fairy mountain, and in time, it is a few years later than the hidden area, and it was born five or six years ago.

It's just that the opportunities are different.

Nothing to hesitate, the three of them flew towards the Five Elements Fairy Mountain.

The closer to Wuxian Mountain, the more the Wuxian Mountain is boundless, and their bodies are getting smaller and smaller.

In fact, it is not that they have become smaller, but that the Five Elements Fairy Mountain is too large.

In the end, the size of the three people is comparable to the Five Elements Fairy Mountain, just like dust and planets.

Wuxing Xianshan is actually composed of five parts.

For each color, there is a mountain, and five mountain peaks are side by side to form a complete five-element fairy mountain.

Moreover, the first to enter is the first mountain, Flame Fairy Mountain.

Only through the flame peaks can you enter the next peak, and only by passing all five peaks can you reach the final place and get five elements of fairy tears.

When the three people approached the Flame Mountain a certain distance, a strong attraction was generated, attracting the landing Ming, Qiuyue, the bubble three people, flew towards the Flame Mountain.

The three followed this power and came to the surface of Flame Mountain, where they stayed in an open space.

Hurry!

The heat wave was rolling towards them. The heat was extremely hot and the temperature was amazing. The three had to work hard to resist it in order to block the invasion of this heat wave.

At this time, a brilliant glow suddenly appeared above their heads, and a halo appeared at the same time.

At the next moment, these auras condensed a bracelet.

Three identical bracelets, one above each person's head.

This bracelet has five holes, corresponding to five different colors.

Light red, light blue, light yellow, light gold, light green.

Corresponds to the five elements.

"Sure enough, Dandan said that this is a five-element bracelet that can absorb the energy of the five elements soul!"

"Among the five-element fairy mountains, every fairy mountain has five-element soul beasts, kill these five-element soul beasts, the soul energy of these five-element soul beasts, this light red hole, absorb the flame five-element soul energy, only absorb the full energy Enter the next mountain!"

"Moreover, after the absorption is full, you can exchange for a five-element fairy energy. This five-element fairy energy is extremely mysterious. After absorption, it has a great fortune!"

Bubble said, and finally explained, these were all told to him.

It can be said that each mountain is equal to an opportunity, because after each hole is absorbed, it can be exchanged for a ray of five elements.

"Then, let's get started!"

Lu Ming said, not wanting to delay time, his figure rose into the sky, looked around and began to look for the Five Elements Soul Beast.

From afar, this flame mountain is a huge mountain. After entering the flame mountain, I found that it is no different from a world.

Looking around, there are mountains, peaks, and canyons everywhere.

Other than that, nothing was seen, no plants, no other creatures.

The three chose a direction at random, galloping away, the spiritual consciousness emanated, looking for the Five Elements Soul Beast.

However, they searched for a long time, and did not find a five-element soul beast.

I continued to look for it. After a few days, I still found a five-element soul beast, which made the three frown.

If the Wuxing Soul Beast cannot be found, the energy of the Wuxing Soul in the hole of the bracelet will accumulate dissatisfaction and cannot enter the next Wuxing Mountain Peak.

In this way, we can't get the Five Elements Xian Tears, and can't save Dandan and Ling Yuwei.

"What's going on? Bubble, do you remember what other clues Dandan said?"

Lu Ming asked the bubble.

"Yes, Dandan said, the Five Elements Fairy Mountain starts from the Flame Fairy Mountain, followed by the Huangtu Fairy Mountain, the Qingmu Fairy Mountain..."

"The Five Elements Soul Beasts in the Five Immortals Mountain are getting stronger and more dangerous, but they are not absolute. What is said is the average level. There are some Five Elements Soul Beasts in the Fire Fairy Mountain, which are also very powerful..."

Bubble said, telling Dandan about the Five Elements Fairy Mountain, and told her in detail.

Lu Ming listened and analyzed literally.

Chapter 4373: Powerful Five Elements Soul Beast

"In this way, this ordinary soul beast of the Fire Fairy Mountain has been hunted by other people..."

Lu Ming frowned.

Five Elements Fairy Mountain has been open for five or six years. It is estimated that many people have come in. The ordinary Five Elements Soul Beast is likely to have been hunted by these people who have come in advance.

"Is there any powerful Five Elements Soul Beast left?"

Qiuyue Road.

"It is possible that the ordinary Five Elements Soul Beast has been hunted out, but every mountain has very powerful Five Elements Soul Beast. It is extremely difficult to hunt. We may be able to find it."

Bubble said.

"Okay, then we are looking for hidden and sinister places. Those powerful five-element beasts should be in those hidden and sinister places!"

Lu Ming said.

Then they began to look for those sinister and hidden places.

Soon after, they found the Five Elements Soul Beast.

In a sinister mountain stream, there is some fiery red liquid.

These fiery red liquids exude hot heat.

A few strange beasts look like pythons, but their heads are lion heads, and their abdomen has eagle claws, swimming in fiery red liquid.

At a glance, I saw three.

This is the Five Elements Soul Beast of the Fire Fairy Mountain.

"Roar!"

Upon seeing Lu Ming and others, this five-element soul beast roared like a lion roaring, shaking the mountains and rivers.

Afterwards, they twisted their bodies, rose into the air, and rushed to the landing trio, and a scorching flame spewed out of their mouths.

The flames are burning and the temperature is amazing.

"I come!"

The bubble little hand pressed forward, the void twisted, and these flames seemed to be frozen and fixed in the air.

Roar!

Found that the flames he spewed were frozen, this five-element soul beast, abnormally angry, slender and huge body, rushed to the landing Ming three people.

The sharp claws of the abdomen eagle claws were continuously pulled out, caught in the power of time and space.

The void roared and exploded continuously, and the power of the time and space of the bubble actually felt like it was torn apart.

"Good strength!"

Lu Ming and others all said something in their hearts.

These three five-element soul beasts are astonishingly powerful, and the cultivation base should be Divine Emperor Nine Heavy, which has reached nine stars.

Yes, this is equivalent to the arrogance of a human race.

Any one can contend with Lu Ming now.

No wonder these three five-element soul beasts have not been hunted. How many people can hunt with such fighting power? Dare to hunt?

Even among the Celestial Clan, there are not many people who can hunt these three five-element soul beasts, and other races in the Honghuang universe are even fewer.

However, it is not difficult for the three Lu Ming to kill them.

"I'll suppress them, you kill!"

The bubble said, a stronger force of time and space exploded, the space was constantly twisted, and time seemed to go backwards.

This is because the space is too stable in Taishang Xiancheng, and it is very difficult to control.

If in the wilderness universe, the attainment of the power of time and space with bubbles will cause a terrible scene.

The powerful force of time and space overwhelmed the past, and the bodies of the three five-element soul beasts stiffened.

Uh! Uh!

Lu Ming and Qiu Yue turned into two lightning bolts and killed three Soul Beasts.

At the heart of Qiuyue, the shining radiance, eight gorgeous colors, turned into a machete, slashed out, and at the same time slashed towards two five-element soul beasts.

Qiuyue's combat power has reached ten stars, and Xiuwei has reached Divine Emperor Jiuzhong, and its combat power is far above any five-element soul beast.

The machete cut through, and the heads of two five-element soul beasts flew high.

At the same time, Lu Ming also exhibited a ground-breaking style, which turned into a lance, assassinating the eyebrows of one of the five soul beasts.

puff!

The gunman's head was like a drill, and it got into the head of this five-element beast and directly killed it.

Although this five-element soul beast is very powerful, under normal circumstances, it can definitely fight with Lu Ming.

Lu Ming's combat strength is the twelve-star limit, and the overall combat strength is still stronger than the other party. In addition, the five elements of the soul beast were suppressed by the bubble with the power of space and time. Lu Ming was killed by a stroke, nor strange.

After killing this soul beast, from the body of the soul beast, a red light rushed out into the light red hole of a bracelet in Lu Ming's hand.

The color of this hole immediately became darker.

On the other side, after Qiuyue killed the two soul beasts, two red rays of light rushed into the bracelet on her back. The hole in her bracelet was also darker in color, and darker than Lu Ming's.

Lu Ming understands that this is the soul energy of the Five Elements Soul Beast. After absorbing this soul energy, the color of the converging hole will become deeper and darker. When it fills up, the light will be very bright.

Now, they are not completely filled, just darker.

"Go, we continue to look for other Five Elements Soul Beast!"

Lu Ming said.

Since there is such a powerful five-element soul beast left, it is best to be afraid that even such a powerful five-element soul beast will be killed, then can they not enter the next mountain?

The three were just leaving here.

suddenly...

Roar!

In the mountain stream below, there was a roar suddenly, and the vibrating void burst, and then, the reddish liquid in the mountain stream rolled wildly, and then formed a series of 'water columns', rushing towards the landing Ming three people.

"Be careful!"

Lu Ming took a sip, and as a gun, hundreds of gun bursts burst out at once, bombarding with the 'water column' formed by these red liquids.

However, after the guns collided with these 'water columns', the guns shocked and then dispersed.

Lu Ming's body shook and could not help but retreat for several steps.

The power of these 'water columns' is surprisingly strong.

At this time, the bubble also shot, the pressure of both hands exploded, forming a heavy barrier, blocking in front.

Boom!

Those "water columns" are constantly bombarded on the power of time and space, making the power of time and space vibrate endlessly.

Roar!

A horrible roar sounded, and a behemoth appeared under the crimson liquid.

This behemoth is exactly the same as the previous three five-element soul beasts.

But, the body is bigger.

This is also a five-element soul beast, but it is more powerful and pressures more scary.

Roar!

The five-element Soul Beast roared into the sky and killed three people at Landing Ming.

In his abdomen, there are six eagle claw-like sharp claws, which are continuously pulled out and grasped on the power of time and space.

In the end, the bubble sacrificed the two ancient characters, both of which were a little unsteady and torn apart.

"What a terrible combat power!"

Lu Ming's heart couldn't help but jump.

This five-element soul beast is cultivated in the Divine Emperor Jiuzhong, but its combat power is terrifying. It should have ten-star combat power.

Chapter 4374: Five Elements Fairy

This five-element soul beast has amazing fighting power and absolutely has ten-star fighting power.

And it seems that it is not ten stars, I am afraid that there is already a ten-star ultimate combat power.

Roar!

This five-element soul beast constantly roared, the killer was extremely cold, the huge body, the constant twisting, the claws cracked, and the power of time and space of the bubbles could not resist, and was constantly torn.

At the same time, it was covered with a layer of flame, which seemed to burn everything, even the power of time and space, could be burned.

This is extremely scary.

The power of time and space is the general term for the power of time and space. It is mysterious and unpredictable, but this kind of flame, even if time and space can be burned, can be seen how terrible.

It is further confirmed that the fighting power of this five-element soul beast should have a ten-star limit.

"All in one, kill!"

Qiuyue screamed, and at the chest, the Sacred Heart of Nine Qiao emerged, beating violently like a drum.

Nine Dao Xianguang, turned into a machete, cut towards the head of the Five Elements Soul Beast.

Roar!

The Five Elements Soul Beast roared, clawed out, and collided with the scimitar, bursting into a roaring sky, and the energy swept through all directions, and the crimson liquid burst continuously.

"Big bondage, big winding..."

Lu Ming also took action, and various ancient secret techniques of trapped enemies were continuously displayed, shrouded to the Five Elements Soul Beast, and wanted to be bound.

Although Lu Ming's strength is not as good as that of the other party, with the cooperation of the time and space of the bubble, it can still cause some interference to the other party.

Under the dual suppression of Lu Ming and Bubble, this five-element soul beast is difficult to exert its full combat power. Qiuyue has been able to suppress the other party.

Qiuyue urged the Jiuqiao Sacred Heart with all his strength, and the colorful scimitars kept cutting at the neck of Wuxing Soul Beast.

In the end, under the cooperation of three people, this five-element soul beast was invincible and was cut off by Qiuyue with hundreds of knives in a row, his neck was almost cut off, and his breath was depressed.

With the addition of bubbles, their strength is qualitatively improved.

The power of time and space, the king of support, is not just a talk.

No one of them alone is an opponent of this Five Elements Soul Beast.

But the three teamed up, without paying any price, to suppress the five-element soul beast.

"Master, this soul beast, you come to kill!"

Qiyue said to Lu Ming.

Who killed the soul beast, who can absorb the soul energy of the soul beast.

Qiyue wants to give Lu Ming the soul energy of this soul beast.

"Okay!"

Lu Ming nodded and was not polite.

Dandan said that his life was in his hands, apparently thinking that Lu Ming was most likely to reach the end of Wuxing Xianshan.

In case they did not gather enough soul energy on this flame fairy mountain, wouldn't they enter the second five-elements fairy mountain?

Therefore, the best arrangement is to let Lu Ming, who may finally reach the end, absorb the soul energy first.

Lu Mingshi exhibited the sky-breaking style, turned into a lance, and stabbed at the head of the Five Elements Soul Beast.

This five-element soul beast, already breathless and extremely weak, couldn't stop Lu Ming's attack and was directly killed.

A ray of exuberant soul energy flew out and was absorbed by Lu Ming's bracelet.

Converging on that hole, the color is darker, and the red light is already extremely intense.

In this way, Lu Ming felt that it would fill up without much soul energy.

Mainly this five-element soul beast, the strength is too strong.

The stronger the Five Elements Soul Beast, the stronger the soul energy it contains.

It doesn't need to hunt too much to gather enough soul energy.

"Go, we continue to search for the soul beast!"

Lu Ming said.

This time, there were no soul beasts rushing out of the mountain stream. After they left, they continued to search, looking specifically for the evil forces.

Sure enough, half a day later, they found several soul beasts.

These Soul Beasts are even more peculiar than the ones they encountered before, and their strength is also amazing.

These soul beasts all have Divine Emperor Nine Heavy and Nine Stars combat power. Although such combat power is very strong, they are easily killed under the joint efforts of the three of them.

This time the soul energy is still absorbed by Lu Ming.

After absorbing these soul energies, the hole in Lu Ming's bracelet was finally filled, emitting a dazzling light, like a bright ruby.

Of course, they did not stop their hands, but continued to search for the hunting of the soul beast. Lu Ming wanted Qiuyue and the bubble bracelet to fill up.

On the one hand, after the bracelet is filled, you can get great opportunities. In addition, the more people walk behind, the greater the grasp.

The three continued to search.

Fortunately, there are still some powerful soul beasts in those remote and sinister places.

It took more than ten days for the three people to finally succeed. The convergence of the three people was all filled.

At this time, the three of them headed towards the next fairy mountain. The next fairy mountain was the Huangtu fairy mountain.

There is a suspension bridge between the two fairy mountains.

If you want to go to the next fairy mountain, you must pass this suspension bridge, and you can't fly through it.

When the three came to the bridgehead, the bracelet on their hands flew out automatically. In the hole like a ruby, a ray of red energy flew out, spinning in the air, and turned into a peculiar ray of strange energy. , Flew into Lu Ming, Qiuyue, the bubble of the three people, disappeared.

Lu Ming suddenly felt himself in a state of etherealness, as if every pore in the whole body was open, and his body and mind were extremely relaxed.

At the same time, his understanding of those mysteries is increasing at an alarming rate.

As long as Lu Ming concentrates on a certain secret technique, this secret technique will quickly rise.

After a while, a mystery that had just been introduced was promoted to great success.

"Is this the Five Elements Immortal? Sure enough..."

Lu Ming is not wasting, concentrates his energy, and begins to understand the secret technique.

About a day later, this ray of five-element fairy energy completely disappeared and was used up.

Lu Ming, at least five thousand ordinary secrets, was cultivated to a great success.

Five thousand kinds of occult techniques, although they are just ordinary occult techniques, but also made Lu Ming's forbidden power increase, Lu Ming has a feeling that his combat power has reached the critical point of the twelve-star combat power, The breakthrough is not far away.

"This is just a fairy mountain. Every fairy mountain can have such a harvest. My combat strength is not a problem to reach ten Samsung!"

Lu Ming smiled, then looked at Qiuyue and Bubble.

There was also a smile on the faces of the two, obviously gaining a lot.

"Then let's go to the Huangtu Xianshan Mountain!"

Lu Ming said.

The three set foot on the suspension bridge and soon came to the Huangtu Xianshan.

The Huangtu Xianshan Mountain is different from the Huohuang Xianshan Mountain, where Huangmeng's mud and desert are everywhere.

As soon as the three came here, they reapplied and started to look for the Five Elements Soul Beast.

Chapter 4375: Ten Samsung Combat Power

The three planned to continue to the remote and sinister place in search of the Five Elements Soul Beast, but this time, they were attacked without flying far.

The ground exploded, and several huge worms rushed out of the mud, killing Lu Ming and the others.

"Just the Divine Emperor's Sixfold!"

Lu Ming moved in his heart, and he hadn't waited for his shot. Bubble waved his hand and used space cutting to kill a few worms.

After several worms were killed, a ray of soul energy each flew out into the light yellow hole in the bubble bracelet, making the light yellow hole darker in color.

"It seems that there are a lot of ordinary soul beasts left in this loess fairy mountain!"

Lu Ming said.

Every fairy mountain has ordinary Wuxing soul beasts and powerful Wuxing soul beasts.

Before in the Fire Fairy Mountain, the ordinary Wuxing Soul Beast was almost killed, leaving only the powerful Wuxing Soul Beast.

In this loess fairy mountain, there are obviously many ordinary Wuxing soul beasts.

According to the information left by Dandan, the Five Elements Soul Beast of the Five Elements Fairy Mountain is stronger than one.

In the Loess Fairy Mountain, ordinary soul beasts should be stronger and more in number, so some are left behind and not hunted down.

This is good news for the three.

At least three people, it is easier to gather soul energy.

I am afraid that the Five Elements Soul Beast will be hunted and killed by the people who came in before.

Afterwards, the three of them flew while searching for spiritual knowledge.

After searching for more than half an hour, I found several ordinary five-element soul beasts.

Obviously, although there are still ordinary Wuxing soul beasts left in the Loess Fairy Mountain, the number is not much, which is a little better than the Fire Fairy Mountain.

If a weaker person comes in, he can also find the Five Elements Soul Beast to hunt.

The three discussed, and planned to continue to look for remote and sinister places, and find the powerful five-element soul beast to hunt, so that the efficiency is faster.

Half a day later, they came to a golden desert, where they encountered a siege of several extremely powerful soul beasts.

There are six huge crabs in total, which are very scary. All of them are the existence of Divine Emperor Nine Heavy. Among them, three of the nine-star combat power and the other three are actually ten-star combat power.

As soon as they fought, the three fell into the downwind, and finally leaned on the mysterious power of time and space. The three stared at one siege, concentrated their power on one of them, and then concentrated on the next.

In this way, divided and attacked, and finally hunted six five-element soul beasts.

This is also what they can do. If other people are besieged by six powerful soul beasts, they can't do anything.

It can only be achieved by virtue of the power of time and space.

After killing the six soul beasts, they continued to search for...

In this way, for more than ten days, all three gathered their soul energy and headed towards the next fairy mountain.

Between each fairy mountain, there is a suspension bridge connected. Similarly, when they were at the head of the bridge, they gathered their soul energy into five elements of fairy energy and rushed into their eyebrows.

The effect is exactly the same as before.

Lu Ming took the time to understand the secret technique. After this ray of five-element fairy could be completely exhausted, Lu Ming had five thousand kinds of common secret techniques.

The power of taboo has also been improved.

After this upgrade, Lu Ming felt that his fighting power had finally reached a qualitative change from quantitative change.

Ten Samsung power!

Yes, although he hasn't tried it yet, Lu Ming concluded that his current combat strength should have reached ten Samsung.

Divine Emperor Realm's ten-star power, how many people are there? Perhaps, how many people have lived since ancient times?

Lu Ming's eyes showed a confident look, as long as his cultivation base is a breakthrough to the Divine Emperor Jiu Zhong, Divine Emperor Realm, can there be opponents in this world?

"Divine Emperor Nine Heavy, I must achieve it, as long as it reaches Divine Emperor Nine Heavy, I can get the maximum benefit in the battle of the original seed!"

Lu Ming thought, and was thinking, was shocked by Qiuyue and Bubble.

I saw Qiuyue's chest, the nine hearts of Sacred Heart, beating constantly, full of exuberant vitality. Among them, eight of them were filled with horror, there were eight colors, dazzling, like inlaid eight Bright and dazzling stone.

In addition, the ninth trick, there is also a light shining, divine light, it seems that there is some terrifying energy, to burst out.

Lu Ming knows that Qiuyue's Nine Sacred Heart is about to be completed.

The nine points of the Sacred Heart of Nine Tricks contain endless potential, and the potential and strength will be greatly enhanced each time a point is developed.

Previously, Qiuyue developed eight tricks with a series of opportunities.

But the further back, the more difficult it is to develop. The ninth trick, Qiuyue has not been able to develop successfully.

But now, with the help of the Five Elements Xianneng, the ninth trick has finally been developed.

Boom Boom Boom!

Jiuqiao Sacred Heart throbbed a few times, and finally fell silent again.

Unfortunately, there was still no success, but Qiuyue still had a smile on her face.

She knew very well that she was almost close, as long as she received a ray of five elements of fairy power, she would succeed.

On the other side, the bubble also has a great harvest. Around her body, the power of time and space fluctuates, making the body of the bubble look very blurry, as if not in this piece of time and space, but at the other end of time and space, in time and space. The other shore.

She stepped out, her body was clear, as if reappearing in this time and space.

"Go on, the next fairy mountain..."

The three stepped out and soon came to the third fairy mountain, Aoki fairy mountain.

This fairy mountain, called Qingmu fairy mountain, really deserves this name.

There are lush trees everywhere, as well as various vines, flowers, etc., which looks like a paradise and full of vitality.

However, Lu Ming was attacked quickly. Several vines were thicker than people's waists, with barbs hanging on them, and they were drawn frantically towards them.

This is the Five Elements Soul Beast of Aoki Immortal Mountain, which exists in the form of plants.

However, these five-element soul beasts were not too strong, only Divine Emperor Qizhong, who was easily killed by the three Lu Ming and absorbed their soul energy.

After the killing, the three continued to search for the Five Elements Soul Beast.

After some investigation, they found that there were more soul beasts in the Aoki fairy mountain than in the Huangtu fairy mountain.

Not long after they came here, they were attacked by several waves of Soul Beast.

Most of them are the Seventh Divine Emperor and the Eighth Divine Emperor.

And there are many in number, disguised as ordinary plants, and suddenly attacked, which is very dangerous.

Those who are not strong, come here, more dangerous than the first two fairy mountains.

Of course, these divine emperors are sevenfold and eightfold heavy, even if the number is large, they will not cause harm to Lu Ming.

The three men hunted this ordinary soul beast while searching for that powerful soul beast.

Chapter 4376: Ye Ling arrives

In a blink of an eye, the three Lu Ming spent five days in Qingmu Xianshan.

Among them, the bubble hunt is the fastest. The soul energy of the five-element soul beast on her bracelet has been gathered.

These five days also let them see the danger of Qingmu Xianshan.

Once, in a sea of flowers, they were subjected to a terrible attack.

A group of beautiful flowers suddenly turned into a terrifying killer, and the power is extremely terrifying.

There are more than a dozen flowers, which are cultivated in Divine Emperor Jiuzhong, and the fighting power is more than nine stars.

Remember, above.

Among them, there are five ten-star combat powers, as well as a flower, which actually reached eleven-star combat power.

Even if the three Lu Ming teamed up, they were not the opponents of these flowers, and the danger seemed to be surrounded by life. After some hard work, with the help of the time and space of the bubble, they barely got out.

This increased the alertness in the hearts of the three.

Although these five-elements fairy mountains do not exist above the Divine Realm, even the Divine Emperor Realm can threaten them.

Here is just the third fairy mountain, there is the existence of eleven-star combat power.

There will be two fairy mountains in the future. Will the twelve-star combat power appear even higher?

The three of them secretly decided to look for the Five Elements Soul Beast in the sinister land behind. Be careful and be careful.

"There... there seem to be several Soul Beasts!"

Bubble pointed at a forest in front of her. She controlled the power of time and space, and her sensing ability was very powerful. Even if these soul beasts were disguised as ordinary plants, they could be sensed by them without moving.

The two killed immediately.

But at this moment, the figure below suddenly rushed out several figures, stopping three people.

"Heavens!"

Lu Ming looked cold.

These figures are the heavenly human race, and their eyes are staring at the land.

"It's Muyun!"

"Muyun actually appeared here? Very good!"

Obviously, a few Celestials recognized Lu Ming, staring at the landing, and blinking coldly.

"What a fart..."

Lu Ming was too lazy to talk nonsense with the other party, and killed him directly. As soon as he grabbed his palm, a long gun emerged, and suddenly his gun burst into flames, shrouding the masters of the Celestial Clan.

These heavenly human races are all strong men. They can walk here, and their strength is naturally not weak.

But this strength, in front of Lu Ming, is simply not enough.

With Lu Ming's shot, several Tianren clan roared back, but were instantly attacked and defended by the gunman, leaving several holes in them, which had wiped out their vitality.

Their eyes were so big that they didn't believe it until death. With their strength, how could Lu Ming be killed by a stroke.

Before entering the Taishang Xiancheng, wouldn't he say that he only has the cultivation base of the God Realm?

Enter Taishang Xiancheng and make such great progress?

However, their questions are doomed to be unanswered.

Lu Ming waved his hands and put away the storage rings of several Tianren races.

At this time...

Uh...

In the forest in the distance, several figures suddenly rushed and then ran towards the distance.

These people are not from the Celestial Clan, but from other races. There are Buddha Clan and Devil Clan.

Obviously, after seeing Lu Ming killing several Tianren races in the forest in the distance, these people were frightened and quickly escaped.

Lu Ming's eyes flickered a few times, and finally did not pursue.

It was not a Celestial Clan, nor did he take the initiative to provoke him, and there was no need to kill everyone who saw him.

And as he became stronger and stronger, he became more and more confident, and even if he was found with bubbles and Qiuyue, it didn't matter.

This is just a small episode, the three of them have not been affected, and continue to search for the hunting of the Five Elements Soul Beast.

Soon, three days passed.

The bracelets of Lu Ming and Qiu Yue are also full of the soul energy of the Five Elements Soul Beast.

"Someone over there!"

Suddenly, the bubble pointed in one direction.

Lu Ming and Qiuyue couldn't help but read the past.

Sure enough, the next moment they saw a figure and rushed quickly.

"That's... Ye Ling!"

Lu Ming's eyes glared and his heart shook.

Why did Ye Ling suddenly appear here?

At the same time, they found that Ye Ling was injured, and there were several terrible wounds on his body.

Could it be that the Celestials launched a siege and broke four big trees?

Lu Mingling exhaled and found out that this Ye Ling was true. This can be seen from the breath of life, not someone else's fake.

Soon, Ye Ling appeared in front of them.

"Brother, finally found you?"

Ye Ling said, breathing heavily.

Deep in Lu Ming's eyes, a flash of strange color flashed, but he quickly concealed, saying: "Brother Ye, how come you are here? What happened?"

"The Celestial Clan is the Celestial Clan. Our land was attacked by the Celestial Clan. The Celestial Clan laid a nine-day battle and broke the siege of the four large trees. Even the sacred furnaces fell into the Celestial Clan. , I was lucky to escape, and came here to inform you, Brother, I am ashamed of you!"

Ye Ling sighed, his face uncomfortable.

"What? All the furnaces have been taken away?"

"Damn Celestial Clan!"

Qiuyue and Bubble gritted their teeth, and looked resentful.

Lu Ming's face was also white.

"Brother, sorry!"

Ye Ling bowed his head, and his self-blame became stronger.

"Brother Ye, no need to blame yourself, this is not your fault!"

Lu Ming walked over and patted Ye Ling's shoulder.

At this moment, the mutation suddenly emerged.

Ye Ling mouth, from his mouth, burst out a sword light.

This sword light is extremely sharp, the sword gas cold light breaks through the sky, the incomparable horror, assassins Xiang Ming's eyebrows at an alarming speed.

This time, it was too sudden.

Qiuyue and Bubble were shocked, and it was too late to rescue.

Even Lu Ming, being so close to it, was too late to avoid it.

Ye Ling's grasp of the timing is too accurate.

But when Jianguang was still one centimeter away from Lu Ming's eyebrows, a hand suddenly appeared and grabbed Jianguang.

The hand is naturally Lu Ming's.

Lu Ming's palm is full of taboo power. After grasping Jianguang, it is difficult for him to enter and cannot move.

Ye Ling's eyes widened, revealing incredible colors.

It didn't seem to think that at such a short distance, he broke out and could be blocked by Lu Ming.

spray!

Lu Ming suddenly put a force, the violent power broke out, the sword light in his hand collapsed instantly, and at the same time, the power of terror rolled towards Ye Ling.

Ye Ling roared, bursting out more sword light on his body, trying to block Lu Ming's attack.

However, after all, it was not blocked. Under Lu Ming's power, the sword light on him continued to burst, hit by Lu Ming's power, his body violently threw back, and he spit back blood.

"It's just eight-star combat power. Sure enough, you are not Ye Ling at all. Who are you?"

Lu Ming stared at this 'Ye Ling' indifferently.

Chapter 4377: Grand imitation

This 'Ye Ling', although cultivated as the Divine Emperor's Ninefold, has only eight stars in combat power.

Ye Ling, who Lu Ming knew, had a nine-star extreme combat power, which was far stronger than this one.

"Why? How can you block it at such a short distance? Unless you have guarded me in advance?"

"Ye Ling" stared deadly at the landing.

"Yes, I have prepared for you in advance, because I have suspected that you are not Ye Ling!"

Lu Ming said coldly.

"He is not Ye Ling? Why is his life breath the same as Ye Ling?"

Qiuyue asked, puzzled.

"Yeah, yeah, it's really the same. It's completely a person. Is Ye Ling being manipulated?"

Bubble also said, equally puzzled.

"I am Ye Ling, I'm sorry, Brother, I just tried to test your strength, no other thoughts..."

'Ye Ling' said quickly.

"No need to quibble, although I don't know what method you used to pretend to be Ye Ling, even the origin of life is the same, but you are not Ye Ling, Ye Ling will not call me a shepherd..."

Lu Ming said coldly.

"Brother, no, Muyun, no matter what you call it, it is the same. Do you have to doubt this?"

'Ye Ling' continued to quibble.

This time, Qiuyue and Bubble also seemed to understand, staring coldly at 'Ye Ling'.

'Ye Ling' turned slightly pale, revealing a trace of confusion and confusion, still not knowing what was wrong with him.

"Tell you, my true identity is not Muyun, I... Lu Ming!"

Lu Ming stared at 'Ye Ling', saying one word at a time.

"What? You... you are Lu Ming, the Lu Ming mother star?"

"Ye Ling" exclaimed, his face was incredible.

"Do you know where you are wrong now? Real Ye Ling, knowing my true identity, he will only call me Brother Lu, and will not call me Brother She, understand?"

Lu Ming said coldly, step by step, stepping towards fake Ye Ling.

"I really want to know, what method did you use to change the essence of your life into that of Ye Ling?"

Lu Ming continued to ask.

"Want me to say yes, unless you promise to let me go and swear on the source of life!"

Fake Ye Ling shouted.

"Now, you are not qualified to tell me the conditions!"

Lu Ming drank coldly, the power of taboo broke out, and rushed towards the other party.

Fake Ye Ling's body flashed, and he wanted to escape, but the bubble also shot, and the power of time and space came out. The time and space around it seemed to be frozen, and Fake Ye Ling couldn't rush out.

boom!

Lu Ming fell. The big hand is like a mountain, and it grows sharply, pressing down towards the fake leaf.

No matter how Ye Yeling rebelled, it was useless. With his big hand pressed, Ye Yeling coughed up blood, his body trembles, his body knelt on the ground, and all his bones were broken.

"Say, who the **** are you? How did you change the source of life?"

Lu Ming spoke indifferently, the killing in his eyes was extremely rich, cold and like a blade, cutting on the other party's skin.

Fake Ye Ling was chilling, as if facing a Death, who was using a knife on his neck.

He has no doubt that if he doesn't say anything, Lu Ming will kill him in the next moment, and will not give him any chance.

"I said, I said, I am Yangkai!"

Saying that, fake Ye Ling's appearance changed rapidly and became a horse-faced youth.

At the same time, the breath of life that he exuded also changed rapidly. It was no longer Ye Ling's breath of life, but another kind of strange breath.

This kind of method is almost unpredictable, making Lu Ming, Qiuyue, and the bubble three people a little dazed.

The appearance is easy to change, but the origin of life is almost impossible to change.

Once someone remembers the origin of life, it is almost difficult to hide the past.

Lu Ming once used the technique of slashing three corpses, cutting out the past and present, and cutting out a brand-new body, so as to have a brand-new breath of life.

However, this person can arbitrarily change the breath of life and imitate the breath of life of others.

This is wonderful.

"Yangkai, the Yangkai that ranks 19th in the universe?"

Lu Ming said.

Lu Ming clearly remembers that there is also a Yang Kai on the universe's Tianjiao list, which is good at swordsmanship and ranked 19th.

"Yes, it's me!"

Yang Kai nodded.

"I'm curious, what secret technique are you practicing that can actually change the origin of life?"

Lu Ming asked.

He is really very curious about this. If he can control this secret technique, it will be much more convenient for him to act in the future.

And Tiangong, it is difficult to capture his trail.

"I don't hide it. I am practicing the great imitation technique, one of the three thousand ancient mysteries. It is ever-changing and can imitate all the things I see and the things I feel, including the breath of the life of others!"

Yang Kaidao.

"It's actually a great imitation."

Lu Ming was shocked.

He has also heard of great imitation. It is said that among the three thousand ancient secret techniques, great imitation can be ranked in the top three, which is extremely mysterious and infinitely changeable.

He always wanted to find this great ancient secret, but he couldn't find it.

Not in the ancient world, nor in the Tiangong.

Unexpectedly, the great imitation technique was actually mastered by Yang Kai.

He imitated Cheng Yeling's appearance just now, apparently came up with his surprise, assassinated Lu Ming, and received great credit.

"Give you a chance to hand over the imitation technique."

Lu Ming said.

Yang Kai was not surprised. He knew that after speaking of great imitation, Lu Ming definitely wanted it.

"It's okay to ask me to surrender the great imitation technique. You must promise to let me go and don't kill me. You must swear on the source of life!"

Yang Kaidao.

The reason he speaks of great imitation is that he wants to trade for life, otherwise, Lu Ming and they will certainly not let him go.

To Yang Kai's surprise, Lu Ming nodded very simply: "Yes, but if you dare to lie to me, or if the big imitation handed over is missing, I will still kill you, you have to be clear, I control a lot of The ancient secret technique, true and false, I know at a glance..."

After speaking, Lu Ming waved his hand, and a large number of secret techniques appeared in the sky, exuding various shapes and colors.

There are thousands of species.

Yang Kai looked stunned. He could never imagine that someone in the world could control so many ancient secrets.

He really had that kind of thought in his heart, and wanted to move a little when he handed out great imitation. Now, he completely dismissed this idea.

Lu Ming is in control of so many great ancient secrets, and he is a master among the great ancient secret masters.

If he dared to do anything in it, that would be to get axe, that would be death.

After warning Yang Kai, Lu Ming swears with the origin of life that as long as Yang Kai surrenders great imitation, he will not kill Yang Kai.

Lu Ming nodded, Qiuyue and Bubble will naturally not refuse, immediately swear on the source of life.

Chapter 4378: Practice Great Imitation

After seeing Lu Ming and swearing by them, Yang Kai finally let go of his heart, and then meditated on the practice of great imitation.

Lu Ming and the three people silently remembered the practice of imitation.

At the same time, Lu Ming also analyzed word by word, seeing that Yang's meeting would not be involved in the practice.

Finally, Lu Ming confirmed that this is a real imitation technique, and there is no abnormality.

Lu Ming has controlled nearly 1,800 kinds of great ancient secrets, and his understanding of great ancient secrets has reached an astonishing point.

In addition, he still has the ancient ancient stone in his hand, whether a kind of ancient ancient secret is true or false, and whether there are defects, you can see at a glance.

"Great imitation, now you have it!"

Lu Ming showed a happy look in his heart.

Qiuyue and the bubble are also full of joy.

Although great imitation has no attack power, its effect is extremely huge. It is more powerful than many mysteries with strong attack power.

For example, if Yang Kai hadn't revealed any flaws in his speech, Lu Ming absolutely couldn't expect Ye Ling to attack him, so he couldn't avoid the other party's sneak attack.

In that case, even if Lu Ming is not dead, he will be hit hard.

This is still Lu Ming, if you change to other people, you can imagine the end.

No assassination technique is comparable to great imitation technique.

"I have told you how to practice imitation. Can I go now?"

Yang Kai looked at Landing Ming three people.

"Oh?"

Lu Mingqing sighed, suddenly shot, and slapped a palm on Yangkai's Dantian. The violent force rushed directly into Yangkai's Dantian, and blasted his Dantian.

His practice was abandoned.

Yang Kai's pupils suddenly popped out, staring and screaming violently, all eyes were unwilling, resentful, and puzzled.

"Lu Ming, you already swear by the origin of life, you dare to kill me, are you not afraid of being repulsed by the origin of life?"

Yang Kai shouted.

"Afraid, of course I'm afraid, but I didn't say I want to kill you. I just abolished your cultivation behavior and controlled you. Who said I was going to kill you!"

Lu Ming said coldly, nodding to the bubble.

The bubble heart grasps the enlightenment, a pair of small hands dance with a strange frequency, the power of time and space erupts, and the layers of Yang Kai are enveloped in layers.

Yang Kai's body began to twist, and his body became strangely thin.

Bubble This is to use the power of time and space to seal Yang Kai.

"Ah, Lu Ming, you don't keep your promises, you will not die well..."

Yang Kai shouted frantically.

But Lu Ming was unmoved.

Yangkai must never let go.

Not because Yang Kai knew that he was Lu Ming's identity.

The seniors of the Celestial People already know that he is Lu Ming's identity, and sooner or later they will be made public, and it doesn't matter if they are transmitted.

The main thing is that Yang Kai is in control of the great imitation technique. This ancient mystery technique is too terrifying, and leaving it unattended will be very dangerous.

If he passed the great imitation technique to others, it would be even more dangerous, it was a time bomb.

Therefore, Lu Ming wants to control it in his hands.

If possible, Lu Ming really wanted to kill it, a hundred.

But before Lu Ming did swear by the origin of life, not to kill Yang Kai.

With Lu Ming's current cultivation practice, he still has no ability to fight back against the origin of life.

Unless it is the strong man of the origin who controls the origin, he can fear the backlash of the origin of life.

Therefore, Lu Ming did not kill Yang Kai, but only abolished his cultivation behavior, which is not against the oath.

Soon, under the influence of the power of time and space, Yang Kai became like a piece of thin paper, and was then received in a bubble by a bubble, sealing it in the bubble.

"Get it!"

Bubbles put away the array and smiled.

This is just a short episode that does not affect Lu Ming's plan, after which the three continue to hunt the Five Elements Soul Beast.

A few days later, the five-element soul energy on the bracelets of the three of them was finally gathered, and the three thought of the fourth fairy mountain. Before the suspension bridges of the two fairy mountains, the five-element soul energy turned into a strand of five-element fairy energy.

Lu Ming is still used to practice ordinary occult techniques, and there are another 5,000 occult techniques that have achieved great success.

Lu Ming's combat power has increased a bit. Of course, it is impossible to let his combat power reach 14 stars, which is too far away.

At present, Lu Ming still has more than five thousand kinds of common secret techniques, and he has not yet succeeded.

On the other side, Qiuyue finally broke through.

At her chest, Jiuqiao Sacred Heart throbbed violently, and the ninth Qiao point burst into a terrifying breath.

Finally, in the ninth Qiao hole of Jiuqiao Sacred Heart, a bright ray of light rushed out, making the entire Jiuqiao Sacred Heart full of radiance.

Finally, Qiuyue developed all the nine points of Jiuqiao Sacred Heart, and their strength soared a lot.

Lu Ming estimated that Qiuyue's current combat strength should have reached eleven stars.

All of the Nine Trick Sacred Hearts have been developed and all succeeded. The increased combat power will be very amazing. It is not difficult to upgrade from ten-star combat power to eleven-star combat power.

Similarly, the bubble also gained a lot, but how much the bubble's specific combat power has improved, Lu Ming can't estimate it for a time.

The power of time and space is inherently mysterious and difficult to estimate.

These five elements Xianshan really have a great chance.

Not to mention anything else, up to now, the fighting power promoted by the three men has been a great gain.

After the Five Elements Immortals could run out, the three of them continued on to the fourth Immortal Mountain.

There are more five-element soul beasts in the fourth fairy mountain than in the third, of course, the strength is also stronger and the danger is more.

From time to time there will be terrible five elements soul beast.

Even once, the three met a group of five-element soul beasts with eleven-star power.

Remember, not one, but a group.

Even if the strength of the three men has risen sharply, it is not a group of opponents with eleven-star combat power and cultivated to reach the five elements of the Divine Emperor's Nine Heavy Soul Beasts.

In this way, the three people spent a period of time and successfully gathered the soul energy of the soul beast to obtain a ray of five elements of fairy energy.

This time, Lu Ming finally cultivated all the remaining more than 5,000 common secret techniques to Dacheng.

Qiuyue is using this ray of five-elements immortal energy to continue to develop the potential of Jiuqiao Sacred Heart.

As for bubbles, it is natural to continue to enhance the power of time and space.

Subsequently, they entered the fifth fairy mountain.

The fifth fairy mountain, where soul beasts run around, is also more dangerous.

However, with the strength of the three of them and their own life-saving means, it is not difficult to hunt the soul beast.

This time, it didn't take ten days, and they gathered the soul energy of the Five Elements Soul Beast.

"Brother Lu Ming, this time, I plan to use the five elements fairy power to practice great imitation, how about you?"

Bubble asked Lu Ming.

"Good idea, I plan to do the same!"

Lu Ming nodded.

The role of great imitation is not trivial, and among all great ancient secrets, it is ranked in the top three, and the difficulty of practicing is absolutely amazing.

Chapter 4379: The Son of Heaven Appears

Based on Lu Ming's understanding of the ancient mysteries, the difficulty of the practice of great imitation is absolutely amazing.

If you are outside, follow the step-by-step practice and do not know how long it will take.

Using a ray of five-element fairy energy, if it can be cultivated to Dacheng, it is totally worth it.

The last three unanimously decided to use this ray of five-elements immortals to practice great imitation.

The effect of Wu Xian Xian Neng is indeed very amazing. The three of them used Wu Xian Xian Neng to quickly master the great imitation technique and practiced the great imitation technique to the beginning.

Then, Xiaocheng...

Then, it was Dacheng.

Yes, after using a ray of five elements of immortality, you can directly practice the great imitation technique to Dacheng.

However, after practicing great imitation to Dacheng, a ray of five-element fairy energy has been used up.

However, the three were already very satisfied.

The three of them just wanted to try the mystery of the great imitation technique. Suddenly, a force acted on the three people. Under this force, the body of the three people disappeared directly from the place.

The next moment, they appeared in a new place.

"Is this...a valley?"

Lu Ming looked around.

They were found in a valley with high cliffs on both sides.

The valley is very wide, at least tens of thousands of miles wide.

In front, there is a golden light wall blocking the way.

And behind it, there is chaos, no way.

There were many people standing under the golden light wall in front.

Lu Ming glanced over and saw at least two dozen people.

Among the more than 20 people, the relatively large number is the Celestial Clan. In addition, there are a few of the top ten races.

"It is the existence of the universe's arrogance list..."

There was a move among Lu Ming's hearts. Among them were several young people. Lu Ming had seen portraits in the fantasy **** jade, but they existed on the universe's Tianjiao list, and they were all ranked in the top 20.

It is by no means comparable to Galbert's.

There are absolutely no weak people who can get here.

The arrival of the three Lu Ming was also discovered by other people, and their eyes looked over, and then they showed a bright glow.

Obviously, they recognized Lu Ming.

"Muyun!"

"It's Muyun!"

The celestial beings exclaimed, the greedy light in their eyes was extremely intense.

Even the existence of those cosmic sky pride lists reveals greed.

"kill!"

A few people responded quickly, shot directly, and turned into a few rainbow lights, slamming towards the landing.

Qiuyue and Bubble were about to shoot, and Lu Ming stopped him.

"These clowns don't need you to shoot, I'll do it..."

Lu Ming spoke, but the voice had not fallen, he had already killed him.

Boom!

The power of taboo broke out, and the word warfare was seven times the power, trigger!

Brilliant punching power, with destructive power, bombarded and collided with the attacks of those masters.

After several roars in a row, the attack of the masters broke apart, his body violently shook back.

Some people even vomited blood and were pale and severely hit.

"you..."

"How could you have such strength?"

All these people exclaimed, all incredible.

Undoubtedly, the one who can get here is Xiu Jiuzhong, which is the foundation, and the fighting power is very strong.

Four people shot just now, two of them have eight-star combat power, and the other two have nine-star combat power.

Four such masters joined forces and were instantly repelled by Lu Ming, and even the existence of two eight-star combat powers was injured.

And Lu Ming's cultivation practice is that there is only Divine Emperor Bazhong, what fighting power is this?

This is simply incredible.

However, Lu Ming's display of such fighting power cannot prevent these people from trying to kill Lu Ming's heart.

They were just shocked, and then shot one after another.

More than twenty people at the scene almost shot.

Except for one person, no shot.

More than twenty figures, screaming at the landing together, brought horrible fluctuations.

These people have at least eight-star combat power, otherwise they can't get here.

In addition, there are not a few who have nine-star combat power, there are even three Tianren clan Tianjiao, with terrible ten-star combat power.

Faced with so many masters, Lu Ming is difficult to confront head-on.

However, Lu Ming will not fight head-on.

He cast his body, his body seemed to be transformed into a few guns, flashing continuously in the air, a few flashes, to avoid the attacks of these people.

Lu Ming now has ten Samsung combat powers, which is equivalent to the opponent's ten star combat powers.

Playing alone, he has no fear of anyone.

However, with so many people in the other party, he confronted each other head-on, but he was not an opponent.

After the opponent's first wave of attacks, he launched a second wave of attacks.

Lu Ming continued to practice his method, only to see the guns flashing in the air continuously, avoiding these people's attacks one by one.

"Damn, don't dodge if you have the ability, fight me!"

"Fight against me, I will kill you!"

Several arrogances of the Celestial Clan shouted.

"You so many people shot, and you said with face, you have the ability, you are one-on-one, and fight alone with me!"

Lu Ming responded with a sneer.

"Okay, fight alone, you all give up, let me deal with him!"

A celestial clan roared.

This celestial celestial arrogance, with ten-star combat power, is one of the celestial arrogances of the celestial ancestry. It is only weaker than the celestial son or the celestial daughter. He is confident enough to kill Lu Ming alone.

However, others are unwilling.

"I can deal with him too, you let it go!"

It started with another Tianren clan, Tianjiao, also possessing ten-star combat power.

Several top-level Tianjiao, confident Tianjiao are unwilling to give up, others are also unwilling to give up, want to touch the fish in muddy water, maybe be able to kill Lu Ming in the chaos, that is a big credit.

On the side of the Celestial Clan, there are several evils on the universe's arrogance list. They all think about each other and want to kill Lu Ming, so the attack is chaotic, and an effective siege cannot be formed, so Lu Ming is easier to dodge.

"You all step back, leave it to me!"

At this moment, a cold voice sounded, full of cold and proud colors.

Upon hearing this voice, those arrogant and arrogant characters of Tianjiao were shocked, and their movements stopped uncontrollably, looking towards the back.

There was a young man of heaven and humanity standing quietly. Before this, only this person had never shot.

Everyone looked at this person with awe in their eyes.

"Do you want me to say it again, you all give up, this person, I will come!"

The Celestial Youth spoke again, with a trace of displeasure in his voice.

Others jumped in their hearts, but they dared not go against them and backed away one after another.

"Is Lord Tianzi going to do it himself?"

One of the Tianren Clan Tianjiao question and answer, with a trace of respect in the tone.

That's right, Tianjiao, the Celestial Clan who has never shot, is one of the Four Heavenly Palaces and one of the daughters of the Heavenly Son, named Yechu Qian Yue.

Chapter 4380: Son of War

This time, there are four major celestial palaces. There are only nine celestial sons or celestial daughters.

The Son of Heaven, the daughter of heaven, represents the pinnacle of the young generation of the Celestial Clan. Not only is it a powerful talent, but also has a strong strength, but also a status.

The status of the Son of Heaven or the Daughter of Heaven is very high among the Celestial Clan, almost comparable to the Heavenly King.

Therefore, countless people are squeezing their heads and want to be the sons of heaven or the daughters of heaven. That kind of status and resources they control are really terrifying.

Step by step, Ye Chuqian Yue forced to land.

The breath of his body is getting stronger and stronger.

Lu Ming also stopped and looked at Ye Chuqian Yue, with strong fighting power in his eyes.

The Son of Heaven almost represents the strongest group of people in the younger generation of Hong Huang Universe.

Lu Ming would like to know how powerful a son of heaven is.

"Master, I feel that this person is very strong, I am afraid you are not an opponent!"

Qiuyue came to Lu Ming and quietly sent a message to Lu Ming.

"Is there eleven-star combat power?"

Lu Ming sent a message to Qiuyue.

"It should be similar, I feel a lot of pressure!"

Qiuyue nodded in response.

Lu Ming knew that Qiuyue should feel similar.

Qiuyue is now full of Nine Skills Sacred Heart, and its combat power has also entered the eleven star.

The one who can make Qiuyue feel the pressure is absolutely not bad.

"I try a trick, if the other party has only eleven-star combat power, a trick can't kill me, and you will shoot later."

Lu Ming voiced Qiuyue and Bubble.

"Ok!"

Qiuyue and Bubble nodded and agreed to come down.

"Come on, let me see, Tiangong Tianzi, how strong is it."

Lu Ming's eyes are bright, and his fighting intentions are getting stronger and stronger.

The power of taboo in his body runs to the extreme, and the tactics of warfare are also urged to the extreme.

He has tens of thousands of cells all over his body, filled with light, dazzling like stars.

These are the cells that incorporate the mystic runes.

The power of the mystery combined with the power of taboo, Lu Ming was enveloped in a layer of glow.

At the same time, every pore in his body is constantly filled with small guns, and finally, his whole person must be transformed into a gun.

"Banmen gets axe, punishment, kill!"

Ye Chuqian Yue drank coldly and stepped out. His body was like a phantom. He rushed towards Lu Ming, his palm pressed, and his palm blasted to the landing.

In his palm, white lightning flashed out.

This is the power of punishment.

However, Ye Chuqian Yue's control of the power of heaven's punishment obviously has reached an extremely deep state.

The power of Heavenly Punishment was intertwined in his hands, and turned into a spear completely condensed by the Power of Heavenly Punishment, which pierced Lu Ming.

"What about the punishment? See how I broke the sky!"

With a loud roar, Lu Ming burst out into the sky, and the whole was transformed into a shocking lance, which struck Ye Chuqian Yue.

The two splendid spears met in the air, and the spearpoints were stuck together.

In an instant, as if the stars exploded, where the points of the guns intersected, a brilliant light burst forth, and countless fine guns blasted out in all directions.

The masters on the other side of Tiangong's complexion changed their faces and stepped back, laying a lot of defense in front of them to block these fine guns.

When the bubble waved, the power of time and space exploded, and the space in front of her and Qiuyue continued to twist, cutting off these guns.

Buzz! The second breath of the confrontation between the two, Lu Ming's guns, shook violently, and then touched, crashing open.

The guns broke apart, revealing Lu Ming's body, and he retreated backwards until Qiuyue's side before they stopped. There were dozens of fine wounds on his body, and blood continued to flow out.

This was injured by the opponent's gun.

"Sure enough!"

Lu Ming whispered.

The opponent's combat power has definitely reached the eleven star, and it is not yet an ordinary eleven star. It is very powerful. With Lu Ming's current combat power, it is completely crushed.

One stroke, he was injured.

"I didn't die!"

Ye Chu Qian Yue frowned, and was very shocked.

With his strength, he did not achieve a spike in dealing with a person who was one level lower than him, and he encountered it only once.

That's facing the pervert...

And now, for the second time.

In the eyes of Ye Chu Qian Yue, an astonishing murderous opportunity burst forth.

"With your power, you are still delusional. It is simply whimsical. You are destined to become one of the stepping stones of my human race...Today, I will cut you!"

Ye Chuqian Yue drank coldly and was covered by the power of heaven. On his palms, the power of heavenly punishment was madly condensed, and the power of countless heaven punishment was compressed together, and continued to solidify and compress, and finally became one. Bring the dazzling war sword.

Uh!

The war sword broke through, and once again chopped down to the landing.

The speed is fast, the power is even more terrifying.

Even the incomparable space is full of waves, and the extremely sharp sword spirit directly breaks Lu Ming's eyebrows.

Before Jianguang arrived, Lu Ming felt that there was a ray of very small lightning on the surface of his skin, irritating his skin for a while.

"I come!"

At this moment, the voice of the bubble sounded, her small hand pressed forward, the power of time and space exploded, the void was like a wave of water, and it was like a mirror stacked together, pressing towards Ye Chuqian Yue.

These mirror-like spaces seem to seal Ye Chuqian Yue.

"The power of time and space, good your space-time spirit rat, your bold courage, dare to shoot me, then even you cut!"

Ye Chu Qian Yue shouted loudly, Jianguang violently, chopped on the power of time and space.

The power of time and space is like a stream of water, which is split openly.

"Stop me!"

Bubbles dazzled, eyebrows glowed, two ancient characters of the original origin flew out, the power of time and space skyrocketed, the surrounding voids were twisted, and they pressed toward Ye Chuqian Yue.

The force of time and space pressed from all directions to Ye Chuqian Yue, and Ye Chuqian Yue was to be crushed alive.

When the two ancient characters came out, the strength of the bubble was raised to the extreme, breaking a limit, and the strength crossed another class.

"Eleven Star Combat Power!"

Lu Ming's eyes lit up.

Sure enough, after passing through the five fairy mountains, he has successively obtained the fortune of five repetitive and five-element fairy powers.

From ten stars to eleven stars, the power of time and space is stronger.

Such a powerful force of time and space made Ye Chuqian Yue feel great pressure.

"The power of heaven's punishment, burst me!"

Ye Chu Qian Yue shouted, the sword in his hand shook violently, the sound of the sword struck the sky, then flew out and suddenly exploded.

This sword of war was completely condensed by the power of heaven's punishment. At this time, an explosion exploded, and thousands of lightning flashed out, rushing in all directions.

The sky is full of white lightning, too much, too much power, the force of time and space is violently twisted, and then it explodes constantly.

Then, Bubble's body retreated backwards.
