

D Emperor 4401

Chapter 4401: Lie to me like a dog

Lu Ming slapped Yelu Shikai's face with a slap and asked him to hold back the word "confess".

Then with a big hand pressure, a powerful force broke out, covering Yelu Shikai's whole body. With a touch, Yelu Shikai knelt down and knelt in front of Lu Ming.

Tooth for teeth!

Previously, the people of the Celestial Clan treated the Celestial Destroyer in this way. Now, Lu Ming returns with the same method to let the Celestial Clan feel the humiliation of being in public.

Blasted, people from the Celestial Clan, fry the pan.

They are different from those who destroy the heavenly army.

Heaven and human races are high above, and they have ruled the endless years of the vast universe. Over the years, they have been above the sky, looking down at the universe, and seeing other creatures in the universe as ants.

As long as they go out, any Celestials are held up high, and they are rarely humiliated.

At this time, the top Tianjiao of a Celestial Clan knelt in front of Lu Ming.

It has always been that other creatures bow down to worship them. When will they bow down to other creatures?

Therefore, when such things happen, their affordability is very low, and their mentality is completely burst.

"Damn shit, what are you doing?"

"You are committing a crime, and you will not be able to save you!"

"You are finished, you are completely finished!"

Many celestial beings shouted, their eyes rolled round, and they jumped like thunder.

Seeing the appearance of the Celestial Clan, people of other races, somehow, suddenly had an inexplicable feeling in their hearts, and there was gloating.

However, Lu Ming responded to them with more violent actions.

bump!

When the power of taboo was pressed, Yelu Shikai's entire body was lying directly on the ground, and there was a crackling sound from his bones, and he vomited blood.

This look looks like lying on the ground in front of Lu Ming.

Then Lu Ming stepped on it and stepped on Yelu Shikai's face.

what!

The celestial beings at the scene roared and burst into anger, as if they were about to be burned by anger.

This time, even those outside the Divine Lord, or even Heavenly Venerable figures, could not bear it.

"Lu Ming, do you know the consequences of humiliating my Celestial Clan?"

An elderly Tianzun spoke, the threat could not be more obvious.

But will Lu Ming be afraid?

Lu Ming squinted at each other, disdainful: "Old guy, you thought I was scared, and threatened me, if I said that I wouldn't do this, would you just let it go?"

Ironically by Lu Ming Chi Guoguo, even if the Tianzun lived the endless years, his pupils shrank, flashing through the cold murderous opportunity.

If they weren't here, they couldn't do it at all, and he couldn't help but kill Lu Ming at this time.

A humble ant, dare to ridicule him divinely? audacious in the extreme.

However, he did not speak in the end.

The first is that he can't fight with a junior.

The second is that he really doesn't know how to say it, because Lu Ming is right, if Lu Ming doesn't do this, the Celestial Clan will let him go, obviously impossible.

So, why is Lu Ming afraid?

"You celestial beings think they are high, but I tell you that in front of me, you are a dog. Understand, you must lie down on my stomach."

"Listen to the people behind you. If you meet me in the later competition, you will lie down like a dog. Otherwise, it will all end."

Lu Ming's voice spread everywhere.

Boom...

Anger, anger plus anger.

Almost all of the Celestial Clan broke out a strong breath, even the characters of the Heavenly Venerable class were not controlled, and a terrible breath broke out.

"Ah, I'm so mad!"

"Broken dogs, find death, find death, find death!"

"I want to tear him!"

Those young Celestial Clan, or the Celestial Clan in the middle ages, roared wildly and thundered violently, hoping to pounce on Lu Ming and cramp.

The terrifying killing intentions gathered and roared in the air, but Lu Ming didn't care.

He and the Celestial Clan have been in an endless situation for a long time. Therefore, he feels very comfortable to be able to breathe into these Celestial Clan who thinks he is superior.

Seeing the celestial beings thundering and thundering, he felt refreshed.

Not only him, but the people on the other side of the Heaven Destroyer felt more refreshed. The humiliation he had received before was swept away, as if all his pores were open, so comfortable.

Their eyes changed to Lu Ming, and Lu Ming became very cute in their eyes.

bump!

At this time, Lu Ming took another shot, kicked it, and kicked it on the head of Yelu Shikai. With a touch, the head of Yelu Shikai exploded directly and fell to the spot.

Of course, it will not really fall here. Yelu Shikai's body turned into a ray of light and flew back to the lotus, and then reunited.

Yelu Shikai was resurrected.

However, his breath was weak, and Lu Ming's eyes were filled with fear.

He had already feared Lu Ming, and had a demon.

"This guy actually has twelve star power!"

Among the Celestial Clan, some people have slowly calmed down, such as Ye Chutian Ji.

At this moment, when Ye Chutian Ji looked at Lu Ming, the killing was extremely cold.

In the universe, there are too many people who can reach the twelve-star combat power and can match him.

Before entering Taishang Xiancheng, he thought that only Ye Linghongye could be his opponent in the universe, he felt too much.

What he wants is invincibility, the universe is invincible, and suppress an era.

Behind, another Xie Nianqing ran out, and actually had twelve-star combat power, not weaker than him, which made him extremely furious.

But now, Lu Ming's combat power actually has twelve stars.

Although Lu Ming now only has Divine Emperor Bazhong's cultivation practice, but cultivation is a good breakthrough, as long as you give a little time, breakthrough is not difficult.

At that time, Lu Ming was not weaker than him.

Too much, he can't stand it, he has to get rid of some.

He thought about it in his heart, already planning, how to get rid of Lu Ming after leaving Taishang Xiancheng, it is better to remove Xie Nianqing together.

In the cold and murderous eyes, Lu Ming returned to the lotus.

The rhizome of the lotus under his feet quickly rose to a height of four feet.

After Lu Ming, the game continued.

There are a total of 36,000 people, which means that there are 18,000 games to be played.

In a flash, it was another half a month.

During the period, Lu Ming saw Night Night Rose, Emperor Sword One, Yin Jiuling and others, all of whom easily solved their opponents without any pressure.

This time, the game took a full month before and after it finally ended.

As a result, the height of the lotus roots has changed significantly.

Among them, the lotus roots of 18,000 people became four feet, and the lotus roots of 18,000 people became two feet tall.

Lu Ming and others stood on the four-foot-high lotus, overlooking the two-foot-high lotus.

And those who are two feet tall on the lotus, need to look up to them, which inspired many people's fighting intentions.

Chapter 4402: Underestimate the bubble?

"I still have a chance, I will kill it!"

"The momentary failure is nothing. I will stand above and look down on others sooner or later!"

On the two-foot-high lotus, many people shouted and secretly swear.

Everyone wants to stand high and look down on others.

This lotus seems to distinguish the high and low of everyone.

And those who stand on the four-foot-high lotus do not dare to carelessly secretly admonish themselves to continue to win, because once they fail, others will appear on their heads and look down on them, they will go to look up to others.

Just a simple lotus lift will completely inspire the fighting in the hearts of everyone.

Soon, the second round of the game began.

Two lotus roots with four feet in length flew towards the battle platform.

The first thing to start is the four feet high area.

Generally speaking, it is the four-footed lotus against the four-footed lotus.

Unless it is a special situation, there will be a battle of lotus at different heights.

"Hey, it's a bubble!"

Lu Ming moved.

Unexpectedly, in the first game of the second round, it was the bubble's turn.

And the opponent of the bubble is also a young Tianjiao of a human race.

"It's actually a space-time spirit rat, it looks good..."

This celestial being is very proud, standing proud, standing on his shoulders, looking at the bubbles lightly, after commenting two sentences, he said: "You admit defeat, I don't want to bully women, especially beautiful women..."

He has confident capital, because he is also the pinnacle of arrogance among the Celestial Clan, with ten-star combat power.

It's just under the nine concubines.

Space-time spirit rats, although they can control time and space and have great talents, are still not in his eyes.

"Do you want me to admit defeat?"

The bubble was surprised.

"Good, hurry to admit defeat, so as not to insult yourself!"

Celestial beings are proud.

If the other party is not a woman, and belongs to the time-space spirit rat family, it is also considered to be on the side of the Tiangong, and he gave the other party a chance.

If he is the destroyer of the Heavenly Army, he has already shot, and will not give the other party the slightest chance.

At the scene, most of the Celestials also had a relaxed face, thinking that this game was a win.

However, there are a few human races, but their faces are a bit ugly.

Such as Ye Chu Tian Ji, Ye Chu Qian Yue and others.

They have played against Bubbles, or have seen Bubbles, and know the strength of Bubbles.

That is the eleven-star combat strength.

And it is still the power of time and space, extremely difficult.

The arrogance of the Celestial Clan on the battle platform actually called Bubble to admit defeat. Isn't this a joke or a shame?

"Ye Hanlin, you admit defeat!"

Ye Chu Qian Yue spoke.

"What?"

The Tianjiao Tianjiao on the battle platform, named Ye Hanlin, heard Ye Chu Qian Yue's words at this time, and was a little dazed.

Not only him, but also other people from the Celestial Clan, feel a little dazed.

Ye Chu Qian Yue, actually asked Ye Hanlin to admit defeat?

How is this going?

Ye Chu Qian Yue's head is abnormal?

Seeing Ye Han Lin Leng there, Ye Chu Qian Yue secretly anxious.

But he knew that the bubble was from Lu Ming's side, and once he did it, Ye Hanlin might be humiliated again.

Rather than being humiliated, it is better to admit defeat.

"What are you doing stunned? I told you to admit defeat, hurry to admit defeat!"

Ye Chu Qian Yue said.

"Confess, it's impossible!"

Ye Hanlin shook his head and refused, saying, "Master Tianzi, although you are expensive, you can't let me casually admit defeat. Rest assured that dealing with a time-space spirit rat is just a matter of hand."

"You are not her opponent!"

Ye Chu Qianyue's face sank.

"what?"

This time, everyone on the scene was even more shocked.

What does Ye Chu Qian Yue say?

Ye Hanlin, isn't Bubble's opponent?

Ye Hanlin, but has ten-star combat power, does Bubble also have ten-star combat power? Even stronger?

impossible!

As far as they know, none of the Divine Emperor of the Space-Time Spirit Mouse has ten-star combat power, and the strongest one is only nine-star combat power.

Ye Hanlin, will he not be Bubble's opponent?

The first reaction of many people is to disbelieve.

Ye Hanlin himself did not believe it.

"Master Tianzi, please believe my strength. I have enough confidence in my strength. I will win this game!"

When the words fell, Ye Hanlin rushed directly to the bubble and launched an attack, without giving Ye Chu Qianyue a chance to speak.

"This idiot..."

Ye Chu Qian Yue snorted.

At this time, the bubble also started, and a pair of small hands pressed gently, the void filled with ripples, like a piece of mirror, pressed towards Ye Hanlin.

Ye Hanlin's speed slowed down sharply, and his body seemed to be caught in a quagmire, under great resistance.

"The power of heaven's destruction, break me!"

Ye Hanlin shouted, and the power of the heavens exploded out, condensed into a war sword, and he chopped towards the four sides, trying to break the power of time and space.

Sustainability, today's bubble, the combat power has completely reached twelve stars.

Her eyebrows glowed, urging the two ancient characters to urge the power of time and space to the extreme.

Ye Hanlin's power to destroy the sky, although powerful, can't break the power of time and space at all. The space where he can move is constantly being compressed.

In all directions, the powerful force of time and space constantly squeezed towards Ye Hanlin.

"Ah, damn, how is it possible?"

Ye Hanlin attacked wildly, yelling at the same time, and was shocked.

He didn't expect that the bubble was so terrifying, the power of time and space was so powerful, and even his power of extinction could not be broken.

The power of heaven is extremely terrible, and in the past, even time and space can be destroyed.

Now, it is invalid.

This also shows that if there is no invincible power, it still depends on the person who uses it.

The low-level power can still suppress the high-level power when the "quantity" reaches a certain level.

At the scene, other people were dumbfounded and dumbfounded.

As long as it is not a fool, it can be seen that Ye Hanlin is completely down, not a bubble opponent.

Now they finally know why Ye Chu Qian Yue asked Ye Hanlin to surrender, that is because Ye Hanlin is really not a bubble opponent.

Ye Chu Qian Yue is for the sake of Ye Hanlin.

It's a pity that Ye Hanlin didn't believe Ye Chuqian Yue at first, but now he regrets and is late.

"Press me!"

Bubble Jiao screamed, his hands suddenly pressed, and the force of time and space pressed crazy against the other side.

puff!

Ye Hanlin coughed up blood and couldn't resist it. Even the war blade condensed by the power of the heavens was dim and dull, and then collapsed.

Immediately afterwards, the force of time and space encased Ye Hanlin, leaving Ye Hanlin immobile.

"get out!"

With a wave of bubbles, Ye Hanlin's body flew directly out of the battle platform.

Bubble didn't kill each other, nor did she deliberately humiliate each other, although she wanted to.

But after all, the bubble has some scruples. It must be scrupulous about the space-time spirit rats. If it is done too much, it will be extremely harmful to the space-time spirit rats.

Chapter 4403: Ye Lingzhan Gabert

Flying out of the battle platform is a failure.

Ye Hanlin flew back to the lotus, and the lotus flew back to its original position, and the height began to decline, from four feet high to three feet again.

The bubble, from four feet high, rose to a thousand feet, temporarily overlooking everyone.

"Damn time and space spirit rat, I want you to destroy the door, destroy the door..."

Ye Hanlin kept roaring in his heart.

He is angry!

Although Bubble didn't humiliate him deliberately, but combined with his own performance before and after, it was still very shameful.

At the beginning, he was very confident. When he came up, he called Bubble to admit defeat, and he won the match.

Later, Ye Chuqian Yue let him admit defeat, he disagreed, still thought that the bubble was eaten, and took a decisive shot directly. As a result, he was easily defeated by the bubble.

A contrast between before and after is the face of Chiguo Guo.

Instead, he specially sent his face to hit the bubble, no one could pull it.

So, although Bubble didn't deliberately humiliate him, he was still full of hate for Bubble.

If the bubble is defeated by him, will there be such a result, will he be ashamed?

But at this time, there were two lotus flowers flying towards the battle platform.

The game continued to be a showdown between the height of four feet. The winner, the lotus root rose to five feet, the loser, the lotus root, fell to three feet again.

The game, one game at a time.

Xie Nianqing, Qiuyue, Dandan, have all tested one by one, their opponents are not very strong, and they all easily defeated their opponents.

At the same time, Lu Ming also saw Ling Yuwei.

She has taken a drop of five elements of fairy tears, and has also evolved perfectly. Her strength is unpredictable, and she easily defeated her opponent.

She would secretly glance at Lu Ming from time to time, but when Lu Ming's eyes turned to her, she quickly shifted her gaze, expressionless.

Lu Ming smiled bitterly.

He broke another woman's heart, but he didn't mean it.

Xie Nianqing, Qiuyue, Dandan, did not meet too strong opponent, the root of the lotus, successfully upgraded to five feet high.

However, Ye Ling's luck was not very good and met a strong opponent.

Gabbert!

Yes, coincidentally, Ye Ling met Gabbert in the second round.

"The people who destroy the heavenly army, good, I will make you die ugly!"

Gabbert sneered, twelve golden wings spread out, and the golden light seemed to boil.

"Nonsense, let's do it!"

Ye Ling was too lazy to talk nonsense with Gabbert, and shot directly, turned into a sword light, and killed toward Gabor.

"kill!"

Gabbert also shouted, the golden light, condensed a golden war sword, and slashed towards Ye Lin.

The two brilliant sword lights met in the air and burst into a roar.

The place where the sword lights intersect is like a sun burst, and the endless sword gas spreads in all directions, leaving a thin sword mark on the battle platform.

However, these sword marks soon disappeared.

This battle platform seems to have the function of self-healing. It has been marked with gaps or marks and can be repaired automatically.

Amidst the sky, a figure retreated backwards, continuously receding for hundreds of meters.

Ye Ling!

Gabor, his body was motionless.

In the confrontation just now, Ye Ling actually fell.

Even Lu Ming was surprised.

"This Gabbert, the combat power has improved so much, even Ye Ling is not an opponent!"

A thought flashed in Lu Ming's heart.

When he first entered the second floor of Taishang Xiancheng, Lu Ming met Gabbert. At that time, Gabbert's combat power was only six stars.

Now, it is so terrifying.

You must know that Ye Ling's combat power has reached the limit of nine stars. Gabbert's ability to suppress Ye Ling is enough to show that Galbert's combat power has reached ten stars.

This is close to the fighting power of the emperor and the emperor, which is absolutely amazing.

There are not many Divine Emperors in the entire universe.

"it is good!"

Those angelic people were very excited when they saw that they could not help but cheer loudly.

"The genius that destroys the heavenly army, let me die!"

Gabbert was extremely excited, shouted, and continued to kill Ye Ling.

Keng!

Ye Ling's voice sounded Jianming. He turned into a sword light and flew in the other direction.

A head-on collision is not Gabbert's opponent, so only the way of walking is used to slowly consume the opponent's power.

A one-star power is not a win.

People with a one-star lower combat strength are not lost.

Under certain circumstances, it is still possible to make a comeback.

Of course, a head-on collision with a one-star combat power will definitely occupy the overall advantage.

Therefore, Ye Ling did not collide with each other.

If he can exhaust the opponent's power, he is not without the possibility of victory.

"Huh, I want to use this method to deal with me, it is really naive, the Holy Light judges..."

Garbert screamed, the light burst, and a huge cross came out in the sky.

Lu Ming had seen it when he fought against Gabbert.

Gabbert practiced one kind of divine power, but realized two kinds of original secret techniques.

This holy light to judge the cross is one of his original secret techniques.

It was just white at that time, now it is golden, and it is more terrifying than that time.

The golden cross, suspended in the air, exudes a gorgeous light, covering every corner of the battle platform.

Then, from the cross of Holy Light, a beam of light flew out.

These beams are sharper than the sharpest swords, and they are killed towards Ye Ling.

Although Ye Ling's speed is very fast and flashes on the battle platform, the beam of the Holy Light Cross is too much, dense and dense, covering the entire battle platform, it is difficult to count.

Ye Ling, after all, is difficult to avoid all, and can only resist with a sword.

Keng! Keng! Keng! ...

The sound of the sharp sword clashing constantly rang, and in a blink of an eye, dozens of times.

After dozens of times, Ye Ling's sword light suddenly shook and collapsed, his body emerged and retreated backwards.

On his chest, a blood hole appeared, translucent before and after, apparently penetrated by the beam of the Holy Cross.

"Fuck me!"

Gabbert shouted and continued to control the Holy Light Cross, more beams blasted towards Ye Ling.

Ye Ling didn't think about it, turned around and left, rushing towards the outside of the battle platform.

He gave up the fight, and he had to admit defeat.

"You have to die once!"

Gabbert drank coldly, flashing cold killing opportunities.

He will not allow Ye Ling to easily escape from the battle platform. This time, he will play out his prestige completely. He will be seen by the big figures in Tiangong and will become the core of Tiangong from then on.

This is his purpose.

Each of his opponents must become his stepping stone, especially Ye Ling's arrogance to destroy the heavenly army.

In his eyebrows, a blood-red sword appeared.

This is Gabbert's second original secret technique, Sanctification of Holy Light.

call out!

The blood-red sword light pierced towards Ye Ling.

Chapter 4404: Magical Show

Sanctification of the Holy Light is Gabbert's second type of primal secret, which is more powerful than the first type of primal secret.

Sanctioned swords, blood red all over the body, mixed in the complete beam, struck Ye Ling's eyebrows at an alarming speed.

Ye Ling was already injured, and with all his efforts to guard against the attack of the Holy Cross, he could not avoid sanctioning the sword.

puff!

Long Jiandong pierced Ye Ling's eyebrows and killed Ye Ling.

Fortunately, this is the area shrouded by the fairy city of Taishang. There is a peculiar lotus guardian that can be resurrected.

Ye Ling was quickly resurrected on the lotus, but his face was a little ugly and his breath was weak.

Gabert's eyes did not look at Ye Ling, but he held a long sword of sanction, pointing at Lu Ming, and a cold voice sounded: "Lu Ming, soon, it will be your turn!"

"This sentence is exactly what I want to give you!"

Lu Ming responded coldly.

"Ha ha!"

Gabbert chuckled a few times, stepped out, and returned to the lotus.

His refined roots rose to five feet.

The game continues!

After a while, it was Lu Ming's turn finally.

However, this time Lu Ming's opponent was very weak. It was not a Celestial Clan, but another big clan. He was a strong man, with Divine Emperor Nine Heavy and Five Star Combat Power.

This kind of strength is placed in the Divine Emperor Realm of the entire universe, which is considered to be the top, but compared with people like Lu Ming, it is too far away.

Faced with Lu Ming, this person didn't dare to fight at all and directly conceded defeat.

Lu Ming easily won, and the lotus roots at Lu Ming's feet also reached five feet.

In the later competitions, only a few games aroused Lu Ming's interest.

These few games are all duels between top-tier Tianjiao.

One of them was Emperor Jianyi.

Emperor Jianyi, a top Tianjiao on the universe's Tianjiao list. This Tianjiao is ranked 15 in the universe's Tianjiao list. There is no doubt that it is a top-level Tianjiao with nine-star combat power.

But when facing Emperor Jianyi, he was killed by Emperor Sword one by one.

Yes, it was just a sword, and the top Tianjiao, ranked 15th in this universe, was killed.

At the same time, it was shocking to keep Emperor Jianyi in his mind.

Emperor Jianyi, no one had heard of this name before, and no one had seen him, but when he shot, it was amazing, and he absolutely qualified to compete for the last 130 places.

This also makes it clear that this time, in addition to the talented masters on the bright side, there are also many black horses.

After the four-foot high game, it is the turn of the two-foot high game.

The second round of the competition also required 18,000 games, and it also took more than a month to complete the match.

After this time, the scene has changed a lot.

There are more areas of different heights.

It is mainly divided into three areas.

The tallest, the lotus roots reach five feet, there are nine thousand people.

Four feet, no.

The lotus roots are three feet long, with the largest number reaching 18,000 people.

Two feet high, no.

There are nine thousand people at a height.

In the previous two rounds, no one really eliminated, but from the third round, someone will be eliminated.

In the area of 91,000 feet, half of the creatures are destined to be eliminated.

This made those people in a region a strong fighting spirit, showing their determination to fight hard.

In particular, some people who think they have great talents but only bad luck in the previous two rounds are even more prepared to kill them.

Soon, the third round began.

This round actually started from one foot.

In one foot, two lotus flowers flew to the battle platform and started the third round of competition.

However, Lu Ming did not have much interest in watching.

There is no master who is too strong in an area.

Even if there are bad luck, but two consecutive bad luck, have met very strong opponents, very few.

No one can cause Lu Ming's attention.

Lu Ming sits on the lotus, closes his eyes, and meditates on the secret technique, hoping to be able to realize the second secret technique of his own.

It is conceivable that if he wants to break from the Divine Emperor Realm to the Divine Main Realm, he must also understand his own secret technique, and it is a stronger secret technique in order to break the bottleneck and break through to the Divine Main State.

He does not want to waste any time.

After seven or eight days, the lotus root is one foot, and the game is over.

Among them, 4,500 people failed and the lotus roots completely disappeared. This represents a complete failure. Although the killed people were resurrected, they were also sent outside the mask to stay with those who watched the battle.

The other 4,500 people rose to two feet tall.

Then, it was the turn of the Sanzhang area.

Lu Ming still did not open his eyes to watch the battle and continued to understand.

In the Sanzhang area, there are 18,000 people. It took more than half a month to end.

Among them, 9,000 people were raised to the area of four feet, and the other nine thousand people were reduced to the area of two feet.

Finally, it was the turn of the Wuzhang area. At this time, Lu Ming opened his eyes and began to observe.

Although he now has enough self-confidence, he can't take it lightly. He wants to see if there are any hidden masters who can threaten him.

The game, one game at a time.

This round, Qiuyue and Dandan, met strong opponents.

Among them, Qiuyue's opponent is a celestial arrogant with ten-star combat power, and also a human race.

But this time, Ye Chuqian Yue directly called the Tianren clan Tianjiao to admit defeat.

With the previous bubble, although the Tianren Clan Tianjiao was extremely reluctant, he still conceded.

It is shocking, is Qiuyue as powerful as a bubble?

Many people keep Qiuyue in mind.

Dan Dan's opponent is a strong man with nine-star combat power, and Dan Dan was easily defeated.

Among the strong years, there are also some very powerful ones.

Among them, there is also an extraordinary arrogance.

Of course, some of the top-level arrogant evil spirits of the young generation have entered the realm of God.

But there are also some people who are arrogant, suppress cultivation, and who have never broken through, or who have failed to break through for various reasons. This kind of person has a terrifying combat power.

After all, they have been practicing for too long, and some people have practiced for almost a stellar year.

Therefore, in his prime, Lu Ming will not be underestimated.

After this battle, Qiuyue and Dandan successfully broke into the eyes of everyone, remembered by people, and regarded as almost able to enter the top 130.

In this round, Xie Nianqing and Ling Yuwei did not meet too strong opponents and successfully advanced. The lotus root rose to six feet.

Lu Ming's luck seems to be very good. The opponents he met in this round were not strong, and he easily defeated them and won.

In this round, Lu Ming's interest is the night rose, she met an opponent with ten-star combat power, this is a top demon, and is a person on the side of the destruction of the sky, the reputation is higher than Ye Ling.

However, it was easily defeated by the night rose.

Chapter 4405: Dark horse

The night rose easily defeated a ten-star arrogant with ten-star combat power, which aroused everyone's attention and discussion.

Even the daughter of heaven, the daughter of heaven, showed shock and dignity.

And those big figures who watched the battle in the Tiangong Palace also frequently cast their eyes on the night rose.

It is easy to defeat a demon with a ten-star combat power. Her own combat power can be imagined how terrifying. It is very likely to have an eleven-star combat power.

You know, most of the emperors are only eleven stars.

This combat power can already be comparable to that of the emperor.

A bubble appeared before, which is obviously also an eleven-star combat power.

An autumn moon appeared in the back, and Ye Chuqian Yue directly called a Tianren clan with ten-star power to admit defeat, suspected of eleven-star power.

With the present night rose, there are three of them.

How is this going?

Is it going to change?

In the past, the eldest son and daughter with eleven stars had no doubt that they were the masters of their peers, and the entire universe was difficult to find out.

But now, there have been three.

Who knows how many people have not tried their best, and they still hide their strength.

For example, Dandan and Emperor Jianyi easily defeated the existence of Jiuxing's combat strength. It is difficult to speculate how specific the combat strength is.

In addition, it is not known whether Galbert's combat power has reached its limit.

This was unthinkable in the past.

The faces of many Celestials are extremely gloomy.

This is not a good phenomenon for the Celestial Clan.

The arrogance of all ethnic groups and major forces is too strong, and it can already be comparable to the emperor and the emperor.

That is to say, when this group of people grows to the top, this group of Heavenly Humans cannot coerce all directions, they have opponents.

This will seriously threaten the rule of the Celestial Clan.

If this is the case for every generation, sooner or later there will be forces that can compete with Tiangong.

No, such a thing, Tiangong, or the Celestial Clan, is absolutely not allowed.

Unless it can be used by them.

Some gods' realm, and even the Tianren race of the Tianzun level, glanced at these top-level arrogances in their hearts and did not know what idea they were playing.

The third round, which took more than a month to complete, only ended.

After this round, the number of people has decreased by 4,500 people compared to the previous one, and the total number is only 31,500 people.

These 31,500 people are also divided into three areas.

There are 4,500 people in the area where the lotus root is six feet tall.

The lotus roots are four feet tall and the number is 13,500.

The lotus roots are two feet tall, and the number is also 13,500.

The gap between each other is growing.

Each of the three areas differs by two feet.

Then, the third round of the game began.

This round starts from the Erzhang area.

After the game was completed, there were 6,750 people, which dropped to a height of one foot.

Another 6,750 people rose to a height of three feet.

Then, the four-foot area started the game, and after the end, 6,750 people fell to three feet.

As a result, the total number of people in the Sanzhang area reached 13,500, and the other 6,750 people were upgraded to five feet.

After the end of the four-foot area, it was the turn of the six-foot area, which is the area where Lu Ming is located.

This time, Lu Ming's opponents were still not strong, without any slight pressure, and won.

This time, Xie Nianqing met a powerful Tianjiao, with ten stars, but the Tianjiao on the universe's Tianjiao list, ranking in the top ten.

This person was naturally not Xie Nianqing's opponent and was defeated by Xie Nianqing.

This shocked the audience again.

There is one more person who can be comparable to the emperor.

Ye Chutian Ji, a few people in Ye Chu Qianyue have less fluctuations in their hearts, because they know Xie Nianqing's strength, especially Ye Chu Tianji, and they played against Xie Nianqing, knowing Xie Nianqing's horror.

As for Lu Ming's acquaintances, Dark Night Rose, Emperor Sword One, Yin Jiuling, etc., they did not encounter too strong opponents, and they successfully raised the lotus roots by one foot to seven feet.

After the round is over, according to the height, it is divided into four areas.

There are 2250 people in Qizhang area.

There are 9,000 people in Wuzhang area.

The Sanzhang area has the largest number of people, with 13,500 people.

There are 6,750 people in one foot.

The four areas are divided into four grades.

Lu Ming's seven-foot area, naturally belongs to the first grade and also the strongest grade.

Ye Ling and others, in the Wuzhang area, belong to the second grade.

The Sanzhang area belongs to the third grade.

One foot area belongs to the fourth grade.

Subsequent subsequent comparisons will result in more and more grades and a wider gap.

Soon, the fifth round began.

In this round, another 3,375 people were eliminated from the area.

Then it is the turn of the Sanzhang area, followed by the Wuzhang area....

In this round, Lu Ming still did not encounter a strong opponent and still easily defeated the opponent.

In this round, there were people who were not very famous, such as Ling Yuwei and Yin Jiuling, who all defeated their powerful opponents.

After this round, it is still four grades.

However, great changes have taken place in the number of people.

Lu Ming, the first grade they were in, had only 1,125 people left.

The second grade, there are 5625 people.

Subsequently, the sixth round began.

With the following games, there are more and more rounds and more and more grades appear.

However, those of the lower ranks basically have no sense of competition.

It is impossible for a truly capable person to be so badly lucked and lose all the time.

It is almost impossible for those in the back ranks to compete for the first 130 places.

Only those in the first two ranks can compete in the first 130 places.

For example, Ye Ling, such as the Tianjiao of the ten-star combat power that encountered Bubble or Qiuyue, they are all in the second grade, and are very likely to compete for the 130 places.

After that, not many people pay attention to those grades. Of course, according to the rules, the game must continue.

Only some people have lost their fighting spirit, and some people still hope to climb up.

The game, round after round.

Of course, in the following games, you will encounter singular situations.

For example, starting from the sixth round, the first and second grades all appeared singular.

In this case, the singularity of the second grade will challenge the singularity of the first grade.

Challenge the victory, the person of the second grade can be successfully promoted to the first grade.

In this way, one round after another.

Lu Ming's luck suddenly burst out. After meeting the Nine-Star Celestial Clan from the first round, he hasn't encountered a too powerful opponent, Lotus Roots, which has been elevated all the way.

Chapter 4406: Five ranks, 130 places

Eight feet, nine feet, ten feet...

The number of people in the first two grades is also decreasing.

The number of people in the first grade changed from 1125 to 562, then to 281...

The number of people in the second grade is also decreasing.

When the number of the first grade became 70, the old voice rang again.

"Here, we need to change the rules of the competition. Now I announce that the first 70 people will all enter the 130 places and get the chance to connect the universe."

"There are still 60 people, selected from the second grade. In the second grade, the wheel warfare. The sixty people with the best record will also be selected successfully!"

"After selecting 130 places, we will conduct a specific ranking battle!"

"As for others, all are eliminated!"

The old voice announced a series of new rules, and then, starting from the third grade, everyone was sent out with a force.

Obviously, these people were eliminated.

However, these people did not have any opinions, just sighed.

Because they have long known that it is difficult for them to rush up, it is difficult to enter the top 130 places.

Then, the second level started the wheel battle. Everyone had to deal with others, and then watch everyone's record.

The person with the best record can enter the 130 places.

A fierce battle broke out. This round of wheel battle took more than a month. Sixty people finally stood out and were selected for 130 places.

These sixty people are all masters of the masters, and many of them have ten-star combat power.

In fact, most of the first seventy people in the previous rank have ten-star combat power.

In the entire universe, there are not a few who have ten-star combat power.

For example, almost all of the top ten in the universe's top list have ten-star combat power.

There are also a dozen of them who have reached the ten-star combat power.

Of course, the Celestial Clan has the largest number there, with a ten-star combat power, at least more than sixty or seventy.

In addition to the night rose and others, there are nearly a hundred people with ten star power.

Those with ten-star combat power can almost lock the 130 places.

In other words, there are only about 30 places that can compete under the ten-star combat power.

One can imagine how intense the competition is.

Ye Ling possessed a nine-star extreme combat power. Finally, after fierce fighting and heavy fighting, he finally managed to break into the 130 places.

In this way, one hundred and thirty people who are qualified to connect to the universe sea and enlighten the original seeds are all selected.

However, the game is not over yet.

Because, when connecting to the universe sea, location is also very important.

Different positions, the effect of connecting the universe sea, there are good and bad.

In some locations, the effect is definitely better, in some locations, the effect is definitely worse.

These positions need to compete.

"130 places, divided into five different levels of positions!"

"The higher the position level, the better the effect of connecting to the universe sea, the faster the speed of understanding the source seeds, the greater the chance to condense the source seeds, and the greater the condensed source seeds!"

"Among them, the first level has only one position, and finally it is obtained by the strongest person!"

"There are three positions in the second rank, and the second to fourth places are won!"

"There are nine positions in the third rank, fifth to thirteenth place!"

"There are 36 positions in the fourth level!"

"There are 81 positions in the fifth rank!"

The old voice was introduced in detail.

The five levels of positions add up to just one hundred and thirty.

Many people's eyes brightened, and greedy light appeared in their eyes.

Five levels, they all want to rush to a higher level.

The first place, or the second level, do not dare to expect, but the third and fourth levels can be expected.

With 130 people, no one wants the fifth level.

Because the fifth level has already been set, no matter what, it can be obtained, the established nature will not think about it, and want a higher level.

It is not to say that if one of the 130 places is available, you will be able to understand the source seed, no, it's not that easy.

That is the source, the source can only understand, how difficult is it?

Even if it is just the original seed, the difficulty is very great. It is not that getting a quota can steadily understand the original seed.

Some people are still unable to realize it.

But if you get a better level position, the effect is better, and the probability of enlightenment will be greater.

Even if the source seeds come out from insights, the quality also varies, and the source seeds also have different sizes, so the higher the position, the better.

Like Ye Chutian Ji, Ye Ling's red leaves burst out with gorgeous glow.

Their goal is the first!

And for emperors like Ye Chu Qian Yue, their goal is the second rank, those three places.

Everyone has their own goals.

However, there is only one goal for Lu Ming.

First place!

Buzz!

At this moment, the huge battle platform vibrated, and a stripe road appeared on the surface of the battle platform. No, this is a crack.

These cracks divided the battle platform into seven pieces.

Click, click...

The battlefield split along the rift, divided into seven pieces, flew to the four sides, suspended in the air, and began to grow larger.

Finally, seven battle platforms appeared in the air.

"Next, your 130 people will be randomly divided into seven batches, including four batches of 19 people and three batches of 18 people. They will take turns to fight, and each one will have to confront the others on the battle platform!"

"The seven players with the best record in each battle platform will be promoted to become the top 49!"

The old voice sounded again, explaining the rules of the next game.

Forty-nine in the front, just the first four levels.

In other words, if you can win this round, you can at least enter the first four levels and surpass the fifth level.

As soon as the old voice fell, the lotus under everyone's feet began to move.

Lu Ming flew towards the battle platform in the middle. There were nineteen people and nineteen lotus flowers around this battle platform.

The other six battle platforms are similar, either nineteen or eighteen, surrounded by their respective battle platforms, separated by a hundred miles.

The nineteen men in the middle battlefield immediately looked at each other.

Because next, they are all opponents and want to confront each other one by one.

"Yu Wei, and Gabbert, and Ye Chu Qian Yue, what a coincidence!"

Lu Ming's eyes flashed and saw several acquaintances.

Ling Yuwei, Gabbert, and Ye Chuqianyue are here on this battle platform.

Xie Nianqing, Qiuyue, Panshen and others are on other battle platforms.

Chapter 4407: Lu Ming exposed his strength

Fortunately, Xie Nianqing, Qiuyue, Pantheon, Dandan, and several people in the bubble are not on a battle platform.

"Ha ha ha, Lu Ming, your luck is not very good, we finally have to match up, this time, I will make you miserable!"

Gabbert laughed loudly, staring at the landing cry, his eyes cold, and the cold murderous chance filled.

Thinking of the pain of the last broken wings, his hatred of Lu Ming could not be suppressed.

Last time, he escaped with broken wings and was badly injured. His vitality was seriously injured. If it wasn't for the great fortune behind him, his talent would have to retreat.

All the time, he thought about revenge, and let Lu Ming live better than die.

Now, he and Lu Ming were finally on a battle platform, and his chance finally came.

All the people on the battlefield have to deal with each other. He and Lu Ming will meet sooner or later.

The opportunity for his revenge came.

"Last time you escaped by breaking your wings, this time, I will cut your wings by myself."

Lu Ming said, his voice was indifferent and full of contempt.

This made Galbert's eyes even colder.

The eyes are also cold, and Ye Chuqian Yue.

"Lu Ming, there are many people who want to kill you. It seems that you have to die several times in this round of battle!"

Ye Chuqian Yue spoke, the meaning was obvious, Gabbert would kill him once, and he would also kill Lu Ming once.

"Very confident, I expect you to keep this confidence until the end!"

Lu Ming smiled.

"Relax, you will see!"

Ye Chu Qian Yue said.

As for Ling Yuwei, she didn't speak from beginning to end, and occasionally looked at Lu Ming's eyes, full of complexity.

The other battle platforms are similar, looking at each other.

Especially those who destroy the Heavenly Army and the Celestial Clan, with their tongues and tongues and swords, satire each other, and the battle is full of gunpowder before the battle begins.

People watching outside are also discussing, guessing who can enter the first forty-nine, who can enter the top thirteen, and those who can enter the top four...

However, no one is optimistic about Lu Ming.

Because, Lu Ming's repair is too low.

Lu Ming's combat power, although extremely terrifying, reached the twelve-star combat power, but after all it was cultivated to be only Divine Emperor Eightfold.

Even if it is a twelve-star combat power, Lu Ming's overall strength is equivalent to the nine-star combat power of a divine emperor.

It is a fluke to enter this one hundred and thirty places with such combat power, and it has great luck.

You know, among these 130 people, there are nearly 100 people with ten-star combat power.

About thirty other people have nine-star combat power.

In fact, there are at least hundreds of people with nine-star combat capabilities.

Hundreds of people, only 30 people have entered the 130 places, in addition to strength, there is also a certain amount of luck.

Therefore, most people think that Lu Ming will stop here and it is impossible to enter the first forty-nine places.

"Start!"

The old voice rang again.

Then, at Lu Ming's battle platform, two lotus flowers flew towards the battle platform.

One of them is Lu Ming.

Coincidentally, the other person was actually Gabbert.

Even Lu Ming himself was a little stunned.

Although, he knew that sooner or later he would meet Gabbert, but he didn't expect it to happen in the first game.

"Hahaha, Lu Ming, God seems to be helping me!"

Gabbert laughed, his figure moved, and fell on the battle platform.

"Really? Are you sure God is helping you?"

Lu Ming smiled ridiculously and set foot on the battlefield.

"Lu Ming, you are very confident, I hope you do not take the initiative to admit defeat."

Gabbert said.

"Relax, in my eyes, there is no word to admit defeat!"

Lu Ming responded lightly.

"well!"

Gabbert showed a terrible color, and the word "good" just fell, and his figure rushed towards Lu Ming

Behind him, twelve angel wings radiate a dazzling golden yellow.

The golden sacred light boiled and turned into two golden sacred lights, slashing to Lu Ming's shoulders.

He will cut off Lu Ming's arms in retaliation for the revenge of his broken wings.

However, before his sword light was reached, Lu Ming's figure disappeared from the spot, and appeared at another place on the battle platform. The speed was too fast, and Gabbert attacked and avoided it perfectly.

"Galbert, use all your strength, lose, and let your defeat be convinced!"

Lu Ming said lightly, the color of contempt was very strong in his voice.

Gabbert's flames skyrocketed, the golden light, burning like a golden flame.

"Judgement of Holy Light, Sanction of Holy Light..."

Gabbert screamed, and a golden cross appeared over his body. In addition, there was a blood-red long sword.

At this moment, Gabbert will use his power to explode to the peak, and the two original secret techniques will be used at the same time.

Ten star combat power!

When Gabbert drove the combat power to the peak, he completely entered the ten-star combat power. Before that, he used this trick to ``kill" Ye Ling in one fell swoop.

"Lu Ming, I'm going to blow you into a fan, kill!"

Gabbert shrieked, the golden cross of holy light, pressed down towards the landing, and thousands of beams of light, like a sword, pierced Lu Ming.

At the same time, the blood-red sanctioned long sword shot, mixed in thousands of beams, and pierced Lu Ming's eyebrows.

The two original secret techniques, the seamless combination, is very dangerous.

However, Lu Ming looked as usual, and any two attacks approached.

When the two attacks were only ten meters away from him, Lu Ming shot.

boom!

His body, like a volcanic eruption, erupted in a terrifying atmosphere.

Then, Lu Ming banged out with a punch, and the violent force, like a row of mountains and seas, hurried forward.

What the light beams of the Holy Light passed, all broke apart.

In the end, the fist hit the sanctioned sword, and the severe shock of the sanctioned sword was directly dispelled.

Fisting constantly, he bombarded the golden cross of the Holy Light, and also exploded the explosion of the Holy Cross.

With a punch, all of Gabbert's attacks were penetrated.

puff!

Garbert's body violently shook back, and he coughed up blood in his mouth.

"Divine Emperor Nine Heavy"

Gabbert gave out incredible, and shouted in shock.

Yes, Lu Ming wasn't hiding just now, revealing Divine Emperor Jiu Zhong's cultivation behavior.

All of a sudden, his power has increased too much, and it is not something that Gabbert can resist.

"What? Divine Emperor Nine Heavy!"

"How is it possible, I have just carefully observed, Lu Ming's cultivation practice is only Divine Emperor Eightfold!"

"It must have used some special method to hide the breath. It was terrifying. Lu Ming's cultivation practice, there was Divine Emperor Jiu Zhong, then with his twelve-star combat power..."

At the thought of this, many people took a breath, showing deep shock.

Divine Emperor Nine Heavy, Twelve Stars, what a horror this is, who can be the enemy?

Chapter 4408: Gabor

Divine Emperor Nine Heavy, with twelve star power, this is terrifying.

Legend has it that there are such characters in the Celestial Clan, but they are extremely rare.

Lu Ming, has actually reached such a point?

"How can it be?"

Around the battle platform, Ye Chuqian Yue's body shook wildly, and his eyes showed deep shock and incredible.

Such fighting power is already above him.

He is difficult to accept.

Because he had just put Lu Ming up above him and took Lu Ming's appearance.

He also said to kill Lu Ming once.

But now Lu Ming's combat power is not what he can deal with. When he meets later, how should he face it?

For a time, Ye Chuqian Yue was confused.

Buzz!

Around the other battle platform, the long sword behind Emperor Sword 1 buzzed, and the sound of the sword sounded through the sky, showing a strong fighting intent.

Both he and Lu Ming walked out of the Xiaoqian world, and step by step from the small place of the Honghuang universe. He has always had a knot and wanted to defeat Lu Ming, proving that he is the first stepped out of the Xiaoqian world. people.

But seeing Lu Ming's current combat strength, he felt great pressure.

"Interesting, I deserve to be the person I value the most, unfortunately..."

The night rose's eyes shone strangely.

"Great, hahaha..."

As for the pantheon, they clapped and laughed.

He and Lu Ming have an unreliable relationship. The stronger Lu Ming is, the happier he is.

Lu Ming didn't care about what the people around him thought. At this moment, his figure had disappeared from his place, and he was rushing towards Gabbert.

Fast, too fast, so hard to evade Gabbert.

"Get away from me!"

Garbert roared, twelve wings, emitting a dazzling holy light, turned into twelve golden war swords and slashed towards Lu Ming.

This blow, the power is very terrifying, because Gabbert desperately, burning the magic power shot.

However, at this time, Lu Ming urged the combat strength to twelve stars, which was two stars higher than Gabbert.

The two-star combat power is too strong, and it can't be evened out by desperation.

Lu Ming grabbed his fingers and grabbed them.

His five fingers are as sharp as five spears.

The claws were caught on the twelve golden war swords. With a knock, the twelve golden war swords burst like cracked dead wood.

The twelve golden war swords exploded one by one, and in an instant, all twelve golden war swords exploded. Lu Ming's hands and claws were already caught on Gabbert's pair of golden wings.

"I said, I'll cut your wings by hand..."

Lu Ming's indifferent voice sounded.

"Do not..."

Gabbert yelled.

However, Lu Ming has already shot, struggling to tear.

puff!

Blood was splashing, golden feathers were flying, and two golden wings of Gabbert were torn apart by Lu Ming.

Ah...

Gabbert screamed, his hair fluttered, and his breath weakened rapidly.

Wings are the most important place for the Angels, and where the talent potential of the Angels embodies.

Angel clan, the more wings, the stronger the talent, the stronger the potential.

If the wings are broken, it means that the talent and the potential are broken.

Not only will cultivation practice weaken quickly, but its potential will also weaken.

The last time Gabbert fled with wings, it was forced to do nothing. If he did not escape, he would be killed by Lu Ming. He could only escape with wings broken.

At that time, he was badly hurt. If he hadn't encountered the defying nature, he couldn't recover.

This time, his wings were broken again, and not by himself, but by Lu Ming.

Last time, he encountered a character and recovered, can there be such a character later?

Difficult!

Against the sky, it is impossible to meet.

Although he was killed on the lotus and recovered, the potential of being cut off cannot be recovered.

He hated, he yelled, staring at the land screaming.

"Lu Ming, you damn, you damn, sooner or later I will return ten times and one hundred times..."

Gabbert kept yelling, like crazy.

"Damn..."

Among the people watching outside, there are also strong angels, who are also roaring at this time.

Gabbert, but awakened the existence of the blood of the angel king. This kind of blood is too rare. In the history of the angel family, few people can do it.

As long as Gabbert grows to the peak in the future, there will be an overlord-level character in the universe, coercive, and unparalleled combat power.

The strength of the Angels will certainly be stronger, even against the other eight clan of the top ten seeds.

But now, Gabbert's wings are broken, and his talent and potential are weakening.

This is a huge loss for the Angels. Their heartache and hatred for Lu Ming are naturally monstrous.

"What the **** is it? I'm not finished yet..."

Lu Ming said lightly, his hands immediately grabbed Gabbert's second pair of wings.

Gabbert's cry stopped immediately, and there was a deep panic in his eyes.

Lu Ming, but also to cut off his other wings.

A pair of wings was broken, which caused irreparable damage to him. If the second pair was broken, the damage to him would be even greater.

"No, no, don't..."

Gabbert yelled in horror.

However, Lu Ming did not have the slightest tenderness.

Conversely, if he falls into the hands of Gabbert, Gabbert will definitely deal with him ten times and one hundred times more fierce than this.

There is no need to be soft-handed or sympathetic to the enemy.

puff!

Lu Ming tears hard, and Gabbert's second pair of wings are also torn off.

Gabbert was like a leaking balloon, the breath weakened quickly, and the fine light in his eyes dimmed.

"No, no, I..."

Gabbert screamed and wanted to admit defeat.

But will Lu Ming let him easily admit defeat?

Powerful forces rushed over, completely controlling Gabor, and letting Gabor speak all the words.

Gabbert struggled hard, and there was only terror in his eyes.

Lu Ming's claws have already grabbed Gabbert's third pair of wings.

"Stop, stop me!"

"Are you going to fight against my angel clan, I swear, if you continue to shoot, my angel clan will never die with you!"

Several angel clan roared, their eyes red.

If Lu Ming continues to break Gabbert's wings, the blood of the angel king, Gabbert, will really be abandoned.

"Endless? I'm so scared?"

Lu Ming ridiculed, but his hand kept on, and tore down again, tearing Gabbert's third pair of wings off.

Gabert's breath was weaker, and he was completely paralyzed on the ground.

However, Lu Ming still did not stop, grabbed Gabbert's fourth pair of wings.

Although it is not possible to kill Galbert here, he can be abolished.

Lu Ming did not leave behind the enemy's habit.

puff! puff! puff!

Lu Ming shot continuously, tearing Gabbert's last three pairs of wings apart.

Gabert's breath weakened to the extreme and was completely abandoned.

Chapter 4409: Too many masters

After breaking all wings of Galbert, Lu Ming kicked out, bombarding Galbert's head and killing him.

The next moment, Gabbert was resurrected on the lotus, but his breath was extremely weak, his eyes were dull, and some were only frightened, and there was a deep hatred for Lu Ming.

Six pairs of his wings were torn, and the damage to him was too great.

Even if he was able to bring up his back and recover his previous talents, even if he was lucky, finally the blood of the angel king, I don't have to think about it.

"Lu Ming, Lu Ming, Lu Ming..."

Garbert continued to growl in his mouth, and his hatred for Lu Ming was monstrous.

However, Lu Ming didn't look at him, and retreated back to the lotus, his eyes swept away to watch the battle on other battle platforms.

"This guy..."

At this moment, Ye Chuqian Yue's heart shivered and looked at Lu Ming, a ray of terror appeared in his eyes.

Yes, he was a little scared.

I'm afraid that after naming Lu Shang, it would end up like Gabbert.

His heart was even more chaotic.

Game, continue!

After Lu Ming withdrew from the battle platform, two more lotus flowers flew towards the battle platform.

This time, it was a genius with ten-star power, against a young man with nine-star power.

This battle, there is not much suspense.

The difference of one-star combat power is also a huge gap.

Although there is a one-star difference in combat power, it is not that there is no chance to overturn, but there are very few who can overturn.

In the case of a one-star low combat power, you can still make a comeback, unless the attributes are mutually restrained, and the secret technique restrains the opponent, otherwise it is difficult to win.

If the two sides could not meet each other in ten moves, the one with the nine-star power was defeated.

In fact, Lu Ming's battle platform, nine star power, not many, only four.

After all, there are only about thirty nine-star combat powers in total, and they are divided into seven battle platforms, each of which is about four or five people. The others are all ten-star combat powers.

It can be said that every game is a pinnacle.

On each battle platform, the war is very exciting.

The game, one game at a time.

Disparities in strength, such as different star powers, will soon be the winner.

However, the same star power, often through fierce fighting, in order to win or lose.

The most is the ten-star combat power. After all, the eleven-star combat power is rare, and it is rarely encountered now.

Soon after, Ling Yuwei came on the court. Her opponent was a strong man with ten-star combat power, from the Celestial Clan.

This time, Ling Yuwei showed amazing fighting power.

A sacred tree of elves emerged, rooted in the void, as if integrated with Ling Yuwei, a large amount of essence flowed into Ling Yuwei's body.

Ling Yuwei bowed his arrow and shot an arrow.

With just one arrow, the strong man of the Celestial Clan was shot.

Arrow Road, there are not so many complicated tricks, and some are terrible attack power.

Once shot, instant birth and death.

This arrow shook everyone on the scene, even the Tianzun-level figures were shocked.

Because, the power of this arrow completely reached eleven stars.

Another peerless arrogance of eleven-star combat power appeared.

It is difficult for many people's hearts to calm down.

This time, it was really crazy. The terrible Tianjiao kept pouring out, which made the people of the Celestial Clan feel tremendous pressure.

The people of the Celestial Clan have a gloomy face.

At the scene, there were also some elven people who were ecstatic when they saw this scene.

This is a fairy princess, their princess.

The elven princess is so powerful that when the cultivation base reaches its peak in the future, it will definitely lead the elven clan and become stronger and stronger.

In the future, maybe it can squeeze into the top ten and become the top ten race?

Will they be unhappy and unexcited?

The spirits of the elves are full of expectations.

Then, it was Yechu Qianyue's turn.

Ye Chu Qianyue's opponent saw Ye Chu Qianyue, a god, directly confessed.

Soon, this round of games is all over.

The second round started, it was Lu Ming's turn to play again.

This time Lu Ming's opponent was a nine-star young man. After seeing Lu Ming, he conceded defeat very simply.

However, Lu Ming has twelve-star combat power and does not need to fight at all. Rather than being killed and losing his energy, it is better to retain strength to deal with others.

Lu Ming easily achieved two consecutive victories.

Lu Ming had no interest in the competition behind their battle platform.

Because, who is the strongest, Lu Ming already knows.

This battle day, the strongest should be him, Ling Yuwei, and Ye Chuqian Yue.

Others are only ten-star combat power.

Lu Ming did not mind.

It is worth mentioning that Gabbert, his wings were broken, and the combat power was greatly weakened. He became the worst person on this battle platform. He came to power once in the back and was easily defeated.

When the round ended, Ling Yuwei and Ye Chuqian Yue also won.

Then, the third round begins.

In this round, Lu Ming encountered a ten-star combat power, and the opponent also conceded defeat very simply.

Lu Ming easily won three straight.

But at this time, the battle on another battle platform attracted Lu Ming's attention.

In fact, it also attracted the attention of others.

Because, there was a peak showdown.

Emperor Jianyi met a god.

The emperor had eleven-star power, but Emperor Jianyi also exploded into an astonishing power, and he also reached eleven-star power.

The two fought madly, fought madly, and fought hundreds of moves in a fierce battle, but none of them won or lost, which shocked the people on the scene.

Because, there is another peerless evildoer, a comparable existence.

After Bubble, Qiuyue, Dandan, Ling Yuwei, Dark Night Rose, and Lu Ming, a peerless arrogance comparable to the emperor and the emperor appeared.

Tianjiao at this level was originally very rare, but now, one by one popping up like mushrooms, it is really shocking.

The point is, is this all?

I guess it is not. Maybe some people haven't met an opponent who can do their best and haven't shown their full strength.

Some people are already numb.

In the end, Emperor Jianyi and the emperor had more than 500 moves, and they did not win or lose.

Then the old voice sounded, judging the two as a tie.

This is the first match between the characters of Tianzi and Tianji.

And later, this level of fighting, slowly increased.

Like Bubble, I also met a goddess.

The two confronted more than two hundred moves, and finally the bubble was slightly better by virtue of the power of time and space.

In the battle of the same level, Tiannv was actually defeated, which made the faces of the Celestial Race extremely ugly.

Later, Dandan also met his opponent.

However, his opponent is extremely terrible, and the combat power has reached the limit of eleven stars. Even among the emperor and the emperor, they are extremely strong.

After some wars, Dandan was finally defeated with a weak disadvantage.

Chapter 4410: The Dark Horse of the Celestial Race, Ye Qiuxian

After a while, Xie Nianqing finally met a son of heaven.

There are a total of nine heavenly daughters in the four major palaces, and there are only seven battle platforms. That is to say, each battle platform will have at least one heavenly daughter.

After a round of war, sooner or later you will meet.

This battle aroused the turbulent waves, and everyone was shocked, including those who were from the origin.

Because, Xie Nianqing defeated the Son of Heaven with a destructive trend.

Too shocking, so incredible.

In the world, who can defeat a son of heaven with the power of destruction?

Previously, it was rumored that only the most pinnacle of the celestial beings could be, but now there is one more.

Twelve star power!

Needless to say, Xie Nianqing definitely has twelve star power.

There are countless arrogances in the world. After Lu Ming, a twelve-star combat power has appeared.

The god-primary and god-level characters of the Celestial race have a gloomy face.

Lu Ming, Xie Nianqing!

There are already two such characters who are against the sky.

Such characters, even in the history of the Celestial Clan, are not many.

The generation of the Celestial Clan can be described as having strong luck. Two characters of this level have suddenly appeared. It has been a rare sight for hundreds of millions of years.

But now, outside the Celestial Clan, there are two characters of this level, which means that the Celestial Clan in the younger generation can no longer suppress people of other races.

Such a thing makes them difficult to accept.

Because such a thing has happened only in a few times in history.

Such as the era of Feihuang and Tang Feng.

The final facts also prove that after the National People's Congress of that era, it had a tremendous impact on the Tiangong Temple. This effect has not disappeared until now, and it continues.

They did not allow such a thing to happen again.

A few Heavenly Venerables in Tiangong, their eyes flashing, all revealed cold killing opportunities.

"These people must not let go!"

"Yes, let's pass the news back. No matter what, we must deploy some people to come and wait for Taishang Xiancheng to disappear, leaving all these people behind!"

Several Tianzun secretly discussed.

"Where do you go to deploy the manpower? Now in the dark universe, demons frequently attack, and there are many demons with their origins. We need many strong guards."

"It can only be transferred from the ruins of the universe, and it is a big deal to give up some of the benefits, but these people must be removed. Once Dacheng is established, it will be too harmful to join forces with Feihuang, Tang Feng and others."

"Yes, I agree, let's hear the news!"

Several Tianzun-level figures negotiated well, and someone secretly spread the news.

After Xie Nianqing defeated a son of heaven, there was another battle that attracted everyone's attention.

It was a confrontation between two human races.

The two Celestial Clan, one of them, is a son of Heaven, with eleven-star combat power, unparalleled combat power.

The other Celestial Clan is not one of the nine concubines, and has not attracted the attention of others before.

But this time, it attracted everyone's attention.

In the face of this son of heaven, instead of confessing defeat, he was very calm and calm.

After the son of heaven made the opponent admit defeat, he immediately shot strong.

But the result of the battle made everyone stunned.

The Son of Heaven actually fell into the downwind, and instead of lagging behind a little bit, it fell completely downwind and was beaten down the whole way.

Only ten strokes failed, and the Son of Heaven was defeated, coughing up blood and withdrew from the battle platform.

Everyone was dumbfounded, and then there was an uproar.

Of course, there is ecstasy after the shock of the Celestial Clan.

Because, there is a dark horse appeared in the Celestial Clan, and there is a peerless demon who was not very famous before.

Even those who are of the heavenly rank are ecstatic.

"This son, what's his name, why haven't I heard of it before?"

A Tianzun asked.

A peerless demon who can easily defeat the Son of Heaven, has never heard of it before?

"Master Tianzun, I know this son. This son is named Ye Qiuxian. In the past, in the younger generation, his performance was not particularly outstanding, so everyone ignored it. Now, it seems that this son used to be too low-key. Forbear, and now, blockbuster, soaring!"

A Celestial Clan in the Divine Realm quickly answered.

"Yeh Qiu Xian, good, good, good."

Several Tianzun nodded again and again, and said a few "good" characters.

"This Ye Qiuxian, actually has such a combat power!"

Ye Chu Tianji, Ye Ling Hongye, frowned, feeling strong pressure.

It can defeat a Son of Heaven with eleven-star power in just ten moves. Needless to say, Ye Qiuxian also has twelve-star power and is at the same level as them.

Needless to say, the competition within the Terran race will become more intense in the future, and they will have another powerful opponent.

More people are sighing, this time, there are really too many masters, and they keep coming out, as if there is no end.

In the past, the eleven-star combat power was already at its peak, and the entire universe was very rare, but now, one by one.

Even the twelve-star combat power that can suppress the universe for an era is also constantly emerging.

First, Lu Ming and Xie Nianqing. Now, even the Celestial Clan has appeared.

Many people lamented that this is an era of bright stars and an extraordinary era.

It is likely to reproduce the glorious prosperity before the sixty star years.

Sixty years before the stellar year, the era was also full of stars.

Among the human races, the masters are like clouds, and the terrifying pride is like rain.

The same is true of other races, and there are two taboos of Tang Feng and Feihuang.

It was an era of endless splendor, and in the end, a battle of extinction broke out.

Is such a glorious era reappearing?

"This person..."

Lu Ming looked at Ye Qiuxian carefully, and somehow he felt a strong pressure in his heart.

Yes, this is an automatic feeling.

He felt that Ye Qiuxian was not easy. I am afraid that he had not yet revealed his true strength in the previous war.

"Perhaps, this will be a terrible opponent!"

An idea came to Lu Ming's heart.

The Celestial Clan is really not simple and cannot be underestimated.

By this time, Lu Ming had gone through nine rounds of competition.

In these nine rounds, he never shot, and those who met Lu Ming directly confessed.

After all, the gap is too obvious. The gap between others and him is at least two stars.

If the combat power differs by one star, it can still fight one battle, and there is a possibility of winning.

But the difference is two stars, the gap is too large, and the possibility of winning is extremely small, very small.

Lu Ming took it easy and scored nine straight victories.

On this battle platform, they also easily achieved nine consecutive victories, as well as Ling Yuwei and Ye Chuqian Yue.

However, at the beginning of the tenth round, Lu Ming finally encountered an interesting opponent.

Ye Chu Qian Yue.
