D Emperor 4431

Chapter 4431: The power of taboo to the power of perfect sky

Ye Chutianji and Yeling Hongye almost locked the last two of the seven twelve-star forces this time.

It depends on who is sixth and who is seventh.

Neither of them wanted to be the seventh, so the two started a fierce confrontation.

However, the two of them are old opponents. In the past, they fought many times in order to compete for the first name of the Celestial Clan.

Every time, there is no winner.

This time, too.

The two had a fierce battle, and they had a full confrontation for thousands of rounds. They still did not score a victory and defeat. Knowing that both sides had exhausted, they ended in a draw.

After this confrontation, after a few more games, we finally ushered in a competition that everyone wanted to see.

That's all gods fighting night rose.

This battle is also a long-awaited, because from this battle can be seen, who can enter the top four.

There is no superfluous words, pantheon and night rose, launched a fierce confrontation.

The pantheon is absolutely powerful. He was born from the flesh and blood of many primitive gods. He has unparalleled talent. He is naturally in control of the most powerful and primitive divine power. In

addition to the powerful primitive **** body, he has dozens of original secret techniques, such as an invincible The war machine is average.

However, the origin of the sky rose flower is more urgent and amazing, the sky is bitter and poisonous, and the terror is extremely high. The entire universe has no power that she cannot devour.

Even if the divine power of the gods is condensed, it is still restrained by the poison of the sky-deep drama. For a long time after the war, the divine power in his body is constantly swallowed, and the power is constantly weakened, and finally defeated by the night rose.

In this battle, the night rose wins.

After this battle, although the war is not over, everyone already has a clear ranking.

That is: the first place, Ye Qiuxian. Second place, Lu Ming. Third place, Xie Nianqing. Fourth place, Night Rose. Fifth place, pantheon.

The last two, Ye Chu Tian Ji and Ye Ling Hong Ye.

Therefore, for the following games, the interest of everyone is not so high, because the final result is all in their expectations.

For example, in the thirteenth round, Lu Ming played against Ye Ling Hong Ye with almost no suspense. Lu Ming could easily defeat Ye Chu Tianji, and naturally he could easily defeat Ye Ling Hong Ye.

There is another scene, Ye Qiuxian, against the gods.

This time, although the results were all expected by everyone, the initial battle was still very exciting.

At the beginning, Ye Qiuxian did not explode the ten-star power, but only used the twelve-star power and the Pantheon.

The gods are very powerful, and hundreds of moves have been fought against Ye Qiuxian.

In the end, Ye Qiuxian had to use the power of the perfect sky, which defeated the gods.

By the fourteenth round, the gods had no suspense for the Yeling autumn leaves, and the gods defeated the Yeling autumn leaves.

There is another scene, Ye Qiuxian against Xie Nianqing.

In this battle, Ye Qiuxian directly used his full strength with one shot, and the four types of Xeontian force exploded.

Xie Nianqing was even more blunt, and directly conceded defeat, but did not fight.

Xie Nianqing is very clear that although she has many means, she is definitely not Ye Qiuxian's opponent.

Soon, it entered the fifteenth round.

In the fifteenth round, there was only one match between the twelve-star forces.

That is the night rose against Ye Chutian Ji.

Of course there is no suspense, the night rose wins.

The other games are all duels between eleven stars, or eleven stars against twelve stars.

Lu Ming and other 12-star forces are naturally easy to win, and even did not shoot, the other party directly admit defeat.

Then, enter the sixteen round.

In this round, there was only one match between the twelve-star forces.

That was Xie Nianqing playing against Ye Chutian.

Xie Nianqing also won no surprises.

After this game, only Lu Ming and Ye Qiuxian did not confront each other between the twelve star powers.

I don't know if it was a coincidence or it was arranged on purpose.

In the next few rounds, neither of them met.

Seventeen rounds, eighteen rounds, nineteen rounds, none came across.

There are twenty-one of them in total, and each of them has to confront each other. There will be twenty rounds in total.

When the final round, the twentieth round came, Lu Ming and Ye Qiuxian finally got up.

And it was the first game of the twentieth round.

Everyone was a little excited.

"You said, will Lu Ming fight against Ye Qiuxian, or will he admit defeat directly?"

Someone asked.

"I think there will definitely be a war. Legend has it that the taboo body was born to be the enemy of the Tiangong Palace. If you dare not dare to fight even one battle, you will directly admit defeat. It will be a great blow to the morale of the extinct army and will also weaken the taboo. Invincible belief."

"I also think that even if it is not defeated, it will definitely be a battle. Anyway, it will not really die here, but it can also hone your sharpness."

Many people think that Lu Ming is probably not the opponent of Ye Qiuxian, but will choose a battle, will not escape, and will not flinch.

"It's half right, I won't back down, and I will still win."

Lu Ming smiled slightly, stepped out, and fell from the lotus to the battle platform.

At the same time, Ye Qiuxian was too on the battlefield.

"Lu Ming, don't you admit defeat?"

The first sentence of Ye Qiuxian was to tell Lu Ming to admit defeat.

"No one can let me admit defeat, including you!"

Lu Ming responded calmly.

"Oh, really, this is the best way, but let me personally kill a taboo body, although you will not really fall here..."

With that said, Ye Qiuxian's eyes showed a hot light.

Since ancient times, the taboos have been the enemy of Tiangong.

Such as the Lord of Life Soul Heavenly Court, the Lord of Ancient Ancient Court, and the back of Phoenix, Tang Feng...

These people are all dead enemies of Tiangong, causing Tiangong to suffer heavy losses.

All the Celestials want a body with taboos.

Now that he has a chance, how can he not be excited.

"Want to kill me, Ye Qiuxian, I'm afraid you don't have this skill yet!"

Lu Ming responded indifferently, with a high spirit and confidence.

"No such skill? Hahaha, Lu Ming, you have any skills, use them all. I know you haven't used your full strength before. Use your full strength. See if you can block me."

Ye Qiuxian laughed and stepped out suddenly, the violent breath erupted like a volcano.

Four kinds of supernatural powers emerged, converging into a huge war sword, slashing towards the landing.

The war sword was cut as if to split the entire space in half, with great power.

This is here. If it is outside, in the vast universe, this sword can absolutely split the starry sky in half, destroying countless planets.

Lu Ming's eyes narrowed, a long spear in his palm condensed, and then the spear spun sharply, rising like a drill into the sky, and rushed towards the sword that Ye Qiuxian had split.

when!

boom!

The two's attacks collided together, and in an instant the sky violently shook, destroying strength, sweeping all directions.

Chapter 4432: The four strongest taboos in ancient times

Fortunately, there are invisible barriers around the battle platform, which can block the energy sweeping all directions.

Buzz!

Lu Ming's condensed lance, which kept shaking, then collapsed.

Then, Lu Ming's body retreated backwards, until he retreated to the edge of the battle platform, before stabilizing his figure, his face was pale, his body was full of blood, and he almost spit out a blood.

"Lu Ming, this is your full combat strength? If you only have this combat strength, it would be too disappointing for me, you can't stop my three moves."

Ye Qiuxian coldly said.

"There is a huge gap between the twelve star power and the ten three stars!"

Lu Ming muttered.

Just now, he still didn't explode his full strength. He only showed the twelve-star extreme combat power. He and Ye Qiuxian had a trick. Sure enough, he was completely crushed by the wind and completely lost.

"What anxiety, just a temptation just now, now, it's my turn to shoot, breaking the sky, kill!"

Lu Ming shouted, the words of war, and the power of taboos broke out.

At the same time, he used a sky-breaking style, with a gun in every pore in his body.

Uh!

He was transformed into a dazzling lance, and he thrust at Ye Qiuxian.

This shot is stunning, extremely stunning, as if it could penetrate the universe, and nothing is broken.

The power is a lot stronger than Lu Ming's previous shot.

As soon as this shot came out, the people watching around were shocked and their eyes widened suddenly.

"God, this power..."

"Is this the ten Samsung power..."

Several exclamations came out, with a deep incredible voice.

At this moment, Ye Qiu Xian's eyes showed excitement.

"Interesting, interesting, come on!"

Ye Qiuxian screamed, and the power of the perfect sky broke out. This time, four war swords condensed around his body.

Each kind of the strongest power of the sky condenses a war sword.

The four war swords took turns to land and flies away.

call out! call out! call out! call out!

The first of the four war swords was already near Lu Ming, and with a bang, he collided with Lu Ming.

This explosion exploded, and the sword and air guns swept through all directions.

Buzz!

The first war sword of Ye Qiuxian kept shaking, and finally collapsed, but the second one immediately rushed up.

Four consecutive battle swords collided with Lu Ming continuously. Finally, all four of Ye Qiuxian's battle swords were defeated by Lu Ming, and his body stumbled backwards, but Lu Ming's spear burst and his body shook. , Also retreating backwards.

This move is equally divided.

"It turns out that you really concealed your strength before, and you actually reached the ten-three-star power!"

Ye Qiuxian stared at Landing Ming, his eyes showed incomparably fiery heat, and the fighting intent was extremely strong.

The heights are cold, and invincibility is lonely.

Before, Ye Qiuxian had always felt this way.

In the World War I, he had no rivals in the entire universe, as if he were the only one standing on a high place, looking down on other tens of thousands of arrogances.

This made him feel lonely.

Now, after seeing Lu Ming explode with a ten-star power, he actually felt excited.

To reach his level, there are opponents, but only to stimulate his motivation and let him continue to improve.

In fact, Lu Ming also has this feeling, so he has long shown a strong fighting intention.

At this moment, the people around were caught in shock.

"Oh my god, it's really ten Samsung power, Lu Ming has ten Samsung power."

"He has been hiding strength before, horrible, so horrible!"

"It's really crazy. In an era, two people with ten-thousand-star powers have appeared. Throughout the history of the entire wilderness universe, there haven't been a few times!"

"Throughout the history of the entire wilderness universe, this grand event will only be at the beginning of the universe, or before sixty star years!"

"Is the taboo body really so scary?"

Many people find it difficult to calmly and excitedly discuss, discuss, and express their opinions.

"This kid..."

The existence of the Divine Main Realm of the Celestial Clan, as well as the existence of the Heavenly Venerable Class, are all extremely ugly, and glance at the land with a gloomy glance, revealing a strong fighting intention.

Lu Ming's combat power was beyond their expectations.

Not every taboo body can be so powerful.

In history, the taboos have not appeared many times, but there are also many.

Some of the taboo bodies fell before they were finished.

Failed to become a famous earthquake universe, spreading the existence of eternity.

In the history of Honghuang universe, there are four most famous taboo bodies.

One is the Lord of the Soul Heaven Court, and the other is the Lord of the Ancient Ancient Court.

There are two others, namely Phoenix and Tang Feng.

But these four most well-known taboo bodies were not all capable of reaching ten-three-star power when they were in Divine Emperor Realm.

In fact, there is only one person who can surpass the twelve stars in the Divine Emperor Realm and reach the ten-star power, that is Tang Feng.

The other three did not surpass the twelve-star power, and were all at the limit of the twelve-star power.

Therefore, no one would think that Lu Ming could reach the ten-three-star power.

Even knowing that the taboo body is very powerful, Lu Ming is at most considered to be the limit of the twelve-star combat power.

The twelve-star extreme combat power is also acceptable.

But the ten-thousand-star power is terrifying and must be removed.

Once such a person becomes a big success, for Tiangong, it is a disaster.

Like Tang Feng, I didn't know how many strong human races died in each other's hands.

So far, many Tianren clan will be afraid when they mention the taboo sword ancestor Tang Feng.

They don't want another taboo sword ancestor.

"Damn, why?"

"Why is this happening?"

Ye Chu Tian Ji, Ye Ling Hong Ye, Ye Chu Qian Yue, the Tianren tribes who had a feast with Lu Ming, were all trembling, and their eyes were all incredible.

Unwillingness, doubts, and even fears emerged from their hearts.

"Lu Ming!"

Emperor Jian whispered, the war sword behind him kept buzzing and beating, and he also had a strong sword in his body, but he could still hide in the end.

There was a trace of unwillingness in his eyes.

He has always used Lu Ming as his opponent and always wanted to defeat Lu Ming.

But now he found that the gap between him and Lu Ming was too big.

There is a huge gap between the eleven-star combat power and the ten-star combat power, which is difficult to overcome.

Regardless of future achievements, at least in the World War I, the gap between him and Lu Ming is really too big.

The night rose, the same delicate body trembles, the light in the eyes blinks constantly, there is shock, fear, doubt...

The previous life, she was Tang Qing's pet, and naturally knew Tang Feng. She had seen Tang Feng shot many times and knew how terrible Tang Feng was.

Is Lu Ming now another existence like that?

In her heart, she kept turning her thoughts, not knowing what to do.

"Hahaha, great, my brother is different!"

All gods laughed.

Dandan and Bubble also want to laugh, but because of their ethnicity, they have some concerns, and they will hold back what they want to say.

Chapter 4433: Sijuejian Sword Array

"Master is always the first!"

Qiuyue whispered, a pair of beautiful eyes, always fell on Lu Ming.

There was nothing unexpected in her eyes.

Because in her heart, whenever and wherever, Lu Ming is the strongest and most shining one.

All she had to do was to keep up with Lu Ming's footsteps and share some things for Lu Ming.

Xie Nianqing's face was calm, all this, as she expected.

Ling Yuwei, with a complex complexion, looked at Lu Ming, turning around.

At this moment, Lu Ming became the focus of the audience.

It was the same as the time when Ye Qiuxian showed the power of ten Samsung.

The fighting intention in Ye Qiuxian's eyes is getting stronger and stronger, and the breath on his body is getting stronger and stronger. Around his body, the four war swords are re-condensed out and surround him.

"It makes sense for you to defeat ten Samsung's combat power. In the end I will prove that I am the first, the real first!"

Ye Qiu Xian Changxiao, long golden hair flying, invincible faith, unwavering.

Uh!

He took another shot, stepped out, his body like a streamer, slamming toward the landing.

He grabbed a war sword in each of his left and right hands and slashed towards the landing.

The other two war swords were in the air and attacked.

The sky is full of sword qi, and there are four different sword qi, heaven punishment, heaven extinction, heaven blame, heaven evil!

boom!

Lu Ming also exploded with all his strength, tens of thousands of lights lit up all over his body, as if his body was embedded with tens of thousands of stars.

Tens of thousands of secret techniques combined with the power of taboo broke out suddenly, and then gathered into a long gun, held by Lu Ming in his hand.

Uh!

Lu Ming asked Ye to kill immortals.

The two figures, with an unmatched momentum, met in the middle of the battle platform, and the attacks of the two sides collided again, and a brilliant glow broke out.

This time, the two figures just flicked slightly, and they fought together again.

"Kill kill!"

"War battle war!"

The two screamed, and the battle was mad. The powerful force broke out crazy, and they madly killed each other.

The speed of the two reached the extreme, and immediately hit a hundred tricks.

Around, many people glared wide and stared deadly, trying to see who was stronger in the end.

Before, almost everyone thought that Ye Qiuxian must get the first place.

But now, everyone dismissed this idea.

Lu Ming is also a ten-three-star fighting force, and it is difficult to tell who wins and who loses.

Only the end of the war will be the winner.

This battle is about who is the first.

Whoever wins will be the first, who will get the best position and be better connected to the universe.

The fierce battle on the battle platform continued, and in a blink of an eye, the two had already confronted more than three hundred moves, and neither of them had a victory or defeat.

boom!

Another collision, the two retreated one after another, facing each other.

At this time, the fighting intentions of the two people were almost condensed into substance, and their eyes were like a sharp divine light, colliding in the void.

"Haha, very good, one battle at the same level. It has been a long time since no one forced me to this step. I have felt this for the first time since I cultivated into the perfect power of the sky. Now, I will use my strongest kill. Come and defeat you, Lu Ming, be proud of it!"

"Four Ultimate Sword Formations!"

Ye Qiuxian Changxiao, four war swords flew into the sky, arranged in a strange trajectory, fast and slow.

Lu Ming's pupil contracted suddenly.

Ye Qiuxian's trick has been used before, but before, it was just three war swords condensed by the power of the strongest heavens, forming a sword array, the power is very amazing.

And now, it is four kinds of supernatural power, the sword array under the perfect power of heaven, how terrible the power will be.

Obviously, just now he had a fight with him, Ye Qiuxian had not used his full strength.

Buzz! Buzz! Buzz! Buzz!

The four war swords vibrated, the sword gas rushed into the night, and combined, there was a huge sword light condensed out from the sword array, and suddenly slammed towards the landing.

Jianguang had not yet arrived, and Lu Ming had felt the tremendous pressure.

"Broken sky!"

Lu Ming directly used the strongest secret technique, incarnate a spear, and bombarded with Ye Qiuxian's sword light.

boom!

A beam of light rose into the sky, and the guns and sword qi were constantly fighting.

But after fighting a few breaths, the sword gas surged sharply, suppressing the lance, and the lance was defeated, and finally the wave of sword qi completely bombarded the lance.

bump!

The guns collapsed, Lu Ming's figure appeared, and he retreated backward, his face pale, and a trace of blood spilled from the corner of his mouth.

"not good!"

Panchen, Qiuyue, Xie Nianqing, Dandan, Bubble and others, their faces changed greatly.

Lu Ming actually fell.

The people on the other side of the Tiangong Palace, especially those from the Tianren race, are ecstatic.

"Lu Ming is not an opponent, he will lose!"

"After all, my human race is stronger, Ye Qixian is invincible!"

"What a taboo body is also vulnerable in front of my Celestial Clan!"

Many celestial beings shouted and expressed their depression.

"Lu Ming, give me defeat, sword array, get up!"

Ye Qiuxian shouted, his figure appeared in the four battle swords, appeared in the core of the sword array, and his hands pinched the printing tactics. This time, four huge sword lights formed, with an unmatched momentum, Take turns slamming towards the landing.

Lu Ming's eyes narrowed, his face extremely dignified, the power in his body was pushed to the extreme, and all the power was squeezed out, and he continued to push the sky-breaking style, and the whole person was completely transformed into a spear and skyward.

boom!

The spear was bombarded with a sword light, and a roar of shock broke out. Then the spear shook and was shot out, and the second sword light had been cut off.

The spear collided with the second sword light, and the spear shook even more violently, and was also shot and flew out.

Then, the third and fourth sword light, cut off in turn.

The entire battle platform was under the hood of the sword array.

"Block it!"

Lu Ming roared and dared to resist.

Boom!

After two roars, the spear was cut into two pieces by the waist, and then broke apart, revealing Lu Ming's true body.

Lu Ming's body, like a cannonball, hit the battle platform, causing the battle platform to shake violently.

Lu Ming himself, even spit a few mouthfuls of blood, his face pale.

There were several sword wounds on his body, the wound was very deep, and even the bones were cut off, and he almost divided his body into several pieces.

In the sixty trillion cells in his body, there is a constant flow of energy, which repairs his injury.

However, his breath is still a bit languid. In the previous move, he suffered a lot, and at least several trillion cells were destroyed in an instant.

"What a terrifying power, this Ye Qiuxian fully urged the power of the sword array, almost to the peak of ten Samsung!"

Lu Ming thought, and his face was very dignified.

His fighting power is about to enter the tenth Samsung.

And the power of Ye Qiuxian to urge the "Four Ultimate Sword Arrays" is almost approaching the peak of the ten Samsungs.

This kind of combat power is completely above Lu Ming.

"How to do?"

Lu Ming's mind changed sharply, thinking about countermeasures.

Chapter 4434: Lu Ming lost

Lu Ming quickly pondered the countermeasures.

Ye Qiuxianshi exhibited the "Four Peerless Sword Array", the power is too strong, and has exceeded Lu Ming's current combat power.

With Lu Ming's current combat power, even if he broke out with all his strength, he was not Ye Qiuxian's opponent.

In this way, there is only one way to fail.

"Lu Ming!"

"Master!"

Xie Nianqing, Qiuyue, Dandan Bubble and others are all worried.

And those human races, especially those who have hatred against Lu Ming, are ecstatic and laughing.

"Yes, that's it, kill him, no, abolish him, abolish his cultivation behavior, abolish him..."

Gabbert snarled even more, his eyes were blood red, and his face was grim.

The face is full of excitement and anticipation.

He was torn angel wings by Lu Ming, his talent and potential were greatly reduced, and Lu Ming was a hate to him. At this moment, Lu Ming was completely downwind, and he was very excited. He looked forward to Ye Qiuxian being able to abolish Lu Ming. Sent for him.

"Lu Ming, it seems that you don't want to admit defeat, then, come again!"

Ye Qiuxian shouted, the sword array urged, and there were four huge sword lights, slashing towards the landing.

The sword light is huge, from the four directions of the battlefield to Lu Ming, the speed is extremely fast, completely covering all directions.

Lu Ming cast his way, trying to avoid the four sword lights, and found it to be futile, because this area was flooded with terrible sword lights, no matter from which direction or from where, it would be violent sword gas Shock.

Avoid it!

"Broken sky!"

Lu Ming sipped, and once again performed a groundbreaking style.

As Lu Ming continued to use the sky-breaking style, his understanding of the sky-breaking style became deeper and deeper, and his power gradually became stronger.

However, Ye Qiuxian's attack was still unstoppable.

boom! boom! boom! boom!

The continuous roar sounded, Lu Ming was defeated again, his body smashed on the battle platform, he vomited blood, and added several terrible wounds to his body.

This is also him, the vitality is extremely strong, if you change to other people, there is no longer the power to fight.

Outside the battle platform, Xie Nianqing and others watched the landing song with great anxiety.

"Young Master will win, and he will!"

Qiuyue kept whispering, clenching his hands into fists, and pinched his joints a little bit white.

Although she believes Lu Ming very much, at this moment, her eyes are no less worried than others.

"Is there any way to increase the combat power?"

Up to now, Lu Ming has not given up, his eyes are staring at Ye Qiuxian, thinking about the countermeasures in his mind.

To be honest, Ye Qiuxian is really strong. Since Lu Ming practiced, among the opponents at the same level, Ye Qiuxian is the strongest.

He has never played so hard against his opponents at the same level.

Ye Qiuxian, who controls the power of the perfect sky, is truly the first in the universe.

The power of the perfect sky, known as the power that can even suppress taboos, can only be countered by a very small number of taboos.

This is not just talking, but it is too strong.

Of course, there is another reason, that is, the other party entered the ten Samsung combat power, the estimated time is not short.

Siju Tianjian array has been cultivated to a great completion, the power is extremely amazing, so that the power of Ye Qiuxian almost reached the peak of ten Samsung.

Lu Ming, the time to enter the ten Samsung is still very short, not much time to enhance.

Join and give Lu Ming some more time to practice some more secret techniques, then his combat power will also increase, reaching the ten-three-star limit, it is not impossible.

The place where Lu Ming suffers is the time of cultivation, which is shorter.

After all, when he entered Taishang Xiancheng, he was in the realm of God Emperor, but not in the realm of God Emperor.

And Yeqiu Xian, when entering Taishang Xiancheng, has already reached the sixth level of Divine Emperor.

Even, his accumulation is already very thick, and he can break through to God's realm at any time.

In fact, there are many people who are fighting for the original seed this time. The cultivation base has reached the peak limit of the Divine Emperor's ninth level and has been able to impact the Divine Realm.

This is true for Yeqiu Xian, Ye Chutian Ji, and Ye Linghongye.

In addition, Xie Nianqing, Night Rose, too.

After all, when they first entered Taishang Xiancheng, the cultivation base had already reached the sixth level of Divine Emperor, and even the Seventh Level of Divine Emperor.

After entering Taishang Xiancheng, with the help of Hong Huangdan, their cultivation practice reached the Divine Emperor Jiuzhong early and accumulated.

The reason why they do not break through is because they deliberately suppressed.

Once it breaks into the Divine Lord Realm, it is also just a low-level Divine Lord. How can it compete with and compete with the existence of those Heavenly Kings?

Therefore, they deliberately cultivated to suppress the pinnacle of Divine Emperor Jiuzhong for the purpose of competing for the original seeds.

As long as the original seed is condensed, once it breaks into the realm of God, cultivation will be promoted and it will be very fast.

In a short period of time, Lu Ming broke from the peak of Divine Emperor to Divine Emperor Jiuzhong, which has improved a big realm, but after all, the time is still shorter.

"Lu Ming, give you a chance, admit defeat!"

Ye Qiuxian suspended in mid-air, condescending, looking down at Lu Ming, and did not rush to shoot.

He wanted Lu Ming to admit defeat.

This is to combat Lu Ming's invincible belief.

People like them have been invincible all the way and have accumulated invincible beliefs.

This kind of conviction will allow them to show their strengths and defuse themselves all the way, continue to break through, continue to move forward, and cut off all difficulties.

However, once the initiative to admit defeat in front of others, this invincible belief will be severely hit.

Future cultivation and breakthroughs in the future will not be so smooth.

This trick is not cruel.

We must crack down on Lu Ming from the foundation.

Once Lu Ming truly admits defeat, then Lu Ming will no longer be able to pose a threat to Ye Qiuxian.

Ye Qiuxian was able to press down and sing for a lifetime.

Taking the initiative to admit defeat, and defeated, are two different things.

It is normal to be defeated, and the combat power is not as good as that of a person.

But taking the initiative to admit defeat is a denial of yourself and frustrated.

"Want me to admit defeat, Ye Qiuxian, you don't have this qualification yet!"

Lu Ming shouted, and his body stood up again, standing tall and tall.

"Without self-control, then I will kill you on the battle platform to let the world know that the taboo body is nothing more than that, cut!"

Ye Qiuxian drank coldly, urged by the array of swords, and four huge sword lights were formed again.

"How to do?"

Lu Ming frowned, thinking constantly in his mind.

In a flash, there were dozens of methods, but they were all rejected by Lu Ming.

Because of these methods, none of them can stop Ye Qiuxian, and it is difficult to match Ye Qiuxian.

Seeing that Jianguang is about to be cut off.

"Oh, practice Qi..."

Suddenly, Lu Ming's eyes lit up.

He thought of Qi Qi.

Although, he is a ‘now body’ and he has not practiced Qi.

But at the beginning, he was in Wuxingxianshan, in order to pass the golden light wall, he had realized the pictograph on the golden light wall.

Chapter 4435: Qiqifenshu

The hieroglyphics on the golden light wall of the Five Elements Fairy Mountain is a technique of attacking Qi, which is equivalent to the mysterious technique of the current vast universe.

That kind of attacking technique is unpredictable and powerful.

However, Lu Ming's inherent thinking has always used the power of taboo and the ancient secret techniques he controlled during the battle. For a time, he did not remember the technique of practicing Qi and attacking.

Thinking of it at the moment, Lu Ming intends to give it a try.

No time to hesitate, Lu Ming quickly pinched the printing tactics with both hands.

Uh, uh, uh!

I saw his fingers bloom like a lotus flower, and a strange wave came out of him.

Then, a burst of flame suddenly emerged, and it quickly grew larger.

Finally, the flame was like a round of the sun, shining brightly, exuding a terrible high temperature, and blasted with Ye Qiuxian's sword light.

boom!

The roaring sky roared, and the hot flames covered the battle platform.

Then the flame burst, but the sword light of Ye Qiuxian also collapsed.

"Effective, blocked!"

Lu Ming's eyes lit up.

But Ye Qiuxian, his face was sinking, he snorted, and the other three sword lights had already been cut.

However, Lu Ming's fingers kept on pinching, constantly pinching the seals of Qi Qi attack. At this moment, the sound of Jian Ming sounded, and three sword lights condensed between Lu Ming's fingers, soaring toward the sky, he begged The fairy's three sword lights are cut off.

Three consecutive roars and six sword lights collided together, inspiring hundreds of millions of sword spirits.

In the end, Ye Qiuxian's three sword lights were also blocked, and six sword lights disappeared at the same time.

"what?"

The people around were all wide-eyed and somewhat unbelievable.

Lu Ming, actually blocked Ye Qiuxian's attack?

Just now, Lu Mingming fell in the downwind and completely lost to Ye Qiuxian. After Ye Qiuxian exhibited the "Four Peer Sword Array", every attack caused Lu Ming to be hit hard.

But now, Lu Ming suddenly broke out, able to block Ye Qiuxian's sword formation.

Has Lu Ming been hiding strength before?

how is this possible? Have been hit hard in a row, but still hide strength?

"What is Lu Ming's method? It looks very mysterious, but it's very strange. Doesn't it look like any of the existing secret techniques?"

Some people are puzzled.

Although the attack is similar to many secret techniques now.

But it just looks like it.

Lu Ming's fluctuations when he moved the seal were extremely mysterious and extremely strange, and many people could not recognize it.

"That seems to be the Qi practice of the last era. Is Lu Ming practicing Qi practice?"

Some people exclaimed, something unbelievable.

At the scene, there are many masters.

The major races, there are gods of the Celestial Clan, and there are even God-level figures.

These people wandered through the ruins of the universe and entered the remnants of the last era. They were well-informed and suddenly recognized Lu Ming's technique of attack from the last era.

"You mean, how is it possible to practice Qi attack?"

Everyone else was unbelievable.

Cultivating to Divine Emperor, Divine Emperor Realm, and the existing cultivation methods have been solidified. It is almost impossible to go to practice Qi Qi at the same time, which is too difficult.

Countless people have tried it, but those who can get a trace of fur are rare.

And Lu Ming, who actually controlled a kind of Qi Qi attack, is really surprising.

"What a powerful force, this practice of Qi Qi Feng Shu, the power is so amazing, stronger than my current sky-breaking style..."

Lu Ming himself was shocked at first, and then he was overjoyed.

This is equal to that he has another powerful hole card.

But Ye Qiuxian, his face gloomy.

"What about Qiqifenfa? My perfect sky power, my four unique sky sword array, can cut everything and kill me!"

Ye Qiuxian shouted, the four Xeontian forces did not burst out of the money, and rushed into the Sijuetian sword formation.

Buzz...

The four war swords kept shaking, and four huge sword lights slashed towards the landing.

"bring it on!"

Lu Ming showed his excitement, his figure rose into the sky, and his hands quickly pinched the pictographic seal.

This time, instead of flames and war swords, there were a few goshawks condensing out, screaming in the sky, claws breaking through the air, and grabbing the four sword lights of Ye Qiuxian.

There was another roar, and several goshawks were defeated, but the four sword lights of Ye Qiuxian were also defeated.

Ye Qiuxian's attack was blocked again, but Lu Ming couldn't help it.

"Damn, I don't believe it, go ahead and cut again!"

Ye Qiuxian shouted, and continued to urge the sword array, and four sword lights were cut out.

Lu Ming continued to pinch the Indian tactics. This time, a high mountain emerged, crowded the sky, and successfully blocked the four sword lights.

"Hahaha, the practice of Qi and Qi in this pictograph is really mysterious, unpredictable, and contains infinite mysteries. I am still far from being successful."

Lu Ming laughed in his heart, very happy.

On the golden light wall of the Five Elements Fairy Mountain, the hieroglyphs contained are not one or two, but many.

Every pictograph is a change.

Therefore, this practice of Qi Qifen contains many changes.

Lu Ming counted it down, and it contained seventy-two changes.

Moreover, the more he uses, the more skilled he feels.

"Yeh beg immortals, continue!"

Lu Ming Changxiao, this time, he took the initiative to attack, squeeze the Indian tactics, pull the power of the world, and turned it into a sword of war, and cut it down against Ye Qiuxian.

Lu Ming intends to use the hand of Ye Qiuxian to exercise his control over this Qiqi attack.

After all, he just had some insights under the golden light wall before, and then used it to break through the golden light wall and enter the golden light wall.

After that, it has never been used again, and now it is suddenly used, it is inevitable that it is a bit rusty.

And Ye Qiuxian is undoubtedly a good opponent, which can maximize his potential.

"hateful!"

Ye Qiu Xian screamed, urged the sword array, Jianguang violently cut, killed Lu Ming.

boom!

The two made a match and moved back together, but at the next moment, Lu Ming killed him again.

The two engaged in a confrontation and continued to fight, and soon fought dozens of rounds.

With the constant confrontation, Lu Ming has become more and more proficient in the refining attack technique contained in the pictographs, and has become more and more sophisticated.

With the deepening of control, the power is naturally getting stronger and stronger.

Gradually, Lu Ming began to suppress Ye Qiu Xian, and the pressed Ye Qiu Xian kept retreating.

Seeing this scene, Xie Nianqing, Qiuyue and others were naturally ecstatic.

The Celestial Clan, or those who have hatred against Lu Ming, is furious and difficult to accept.

"It's impossible, I won't lose, Sijutianjian array, burst me!"

Ye Qiu Xian roared, looking a little crazy.

Instead of urging Jianguang, he personally wiped out the four swords condensed by the power of Xeontian and slashed to the landing.

boom!

When the first battle sword cut towards Lu Ming, it exploded.

Ye Qiuxian, began to desperately, control the war sword to explode, produced a terrifying power.

Chapter 4436: Kill yeqiuxian

The first War Sword was formed by the power of Heaven's Punishment. It exploded and the area was completely submerged by white lightning.

Lu Ming's body was wrapped in layers of lightning.

Zizizi...

There are countless lightnings, which are constantly flashing, and the power is very amazing. Each one is placed in the wilderness universe and can destroy a planet.

With so many lightnings bursting together, the power can be imagined.

However, Ye Qiuxian was still uneasy. He continued to wipe out the second war sword, the war sword condensed by the power of the heavens, rushed towards the landing Ming, and then burst out again.

The power of heaven's punishment has not completely dissipated, and the terrifying power of heaven's extinction rushed towards the landing Ming, drowning Lu Ming.

Around, Xie Nianqing, Qiuyue and others couldn't help but show concern.

And more people are staring curiously, staring deadly, trying to see if Lu Ming will be killed.

Now, Lu Ming is completely shrouded in the light of the supreme power of the sky. Outsiders cannot see the situation inside. Whether Lu Ming can block it or not, whether there is anything wrong, everyone can only guess.

However, everyone immediately discovered a problem.

That is Lu Ming, not dead!

Once Lu Ming was killed, he would be resurrected on the lotus.

However, Lu Ming's lotus flower never appeared on him, which means that Lu Ming was not killed.

"Damn it, continue to explode, give me a full explosion!"

Ye Qiuxian shouted, and rushed the last two war swords to Lu Ming, and exploded.

The power of Tianzhu and Tiansha drowned Lu Ming.

Huh...

Ye Qiuxian gasped, her face pale, but her eyes were staring there.

The self-explosive four-stroke sky sword array has caused great losses to Ye Qiuxian. Although he did not hurt him, the consumption of the power of heaven is amazing.

In a short time, he can no longer continue to condense the sword array to explode.

He hopes that this trick can kill Lu Ming, and if it fails, Lu Ming will also be hit hard.

Not only he, the scene, all eyes, including those in the original realm, fell on Lu Ming shrouded by the power of the sky.

Soon, the power of heaven faded and slowly dissipated.

In the power of heaven, a figure could be seen faintly.

This is naturally Lu Ming's figure.

At this moment, it can be seen that Lu Ming is enveloped in a large translucent clock.

It can be seen that there are cracks on the big clock, but apparently, Lu Ming is successfully blocked by Ye Qiuxian's attack.

"how is this possible?"

Ye Qiuxian's body shuddered, his face paler, and he watched the landing song in disbelief.

And those of the Celestials, including Gabbert and others, have very ugly expressions.

Of course, Xie Nianqing, Qiuyue, and Dandan's expressions are completely opposite to those of the Celestial Clan.

"Hahaha, what did I say, I said Lu Ming will not be okay, this guy is after all confusing with me, how could it be so easy?"

Dan Dan grinned and was swept away by the cold eyes of a Tianren clan, Tianjun, and could not help closing his mouth.

"Master is really powerful, Master is invincible!"

"Great Lu Ming, give me a cruel abuse of these human races, ha ha ha!"

Qiuyue, Panshen and others, without this scruples, laughed heartily and also hit the Celestials by the way, making the Celestials look ugly.

bump!

The big clock around Lu Ming's body burst into tears.

Lu Ming stepped out, his gown fluttering, calm, and nothing happened.

The big clock just now was naturally condensed by Lu Ming using pictographic Qiqifen technique, but it was used to protect the body.

Unexpectedly, the defense was amazing, and successfully blocked Ye Qiuxian's strongest attack.

"Yeh Qiu Xian, what other skills do you use?"

Lu Ming stepped out and forced to go to Ye Qiuxian.

Quickly pinch the Yin Ju with both hands, a sharp war sword, condensed out.

Uh!

The sword of war suddenly became large, and it could be tens of thousands of feet long.

Ye Qiuxian's face changed wildly and screamed. The power of the sky broke out again. Around his body, four war swords condensed out again.

But this time, the luster of the four war swords was much dimmer than before, and the size was much smaller than before.

Four war swords condensed, Ye Qiuxian gasped, his face paler, his face even exuded cold sweat.

The power of heaven he was wasting was too serious. At this time, the forced operation of the Four Heavenly Sky Battle Array was very reluctant and the power was much smaller than before.

But at this time, he can only fight.

"Four Ultimate Sword Arrays, kill me!"

Ye Qiuxian roared, controlled four war swords, flew to Lu Ming, and collided with Lu Ming's condensed war sword.

Keng! Keng! Keng! Keng!

The sound of Jianqi's confrontation resounded through the sky.

Then, the four war swords of Ye Qiuxian broke apart and disappeared into the invisible.

However, Lu Ming's attack did not stop.

After a battle sword passed, a battle sword came out again and slashed towards Ye Qiuxian.

The sword was amazingly fast, and he came to the top of Ye Qiuxian.

"Are you defeated? No, I will fight to the last minute..."

Ye Qiu Xian roared in his heart, his eyes showed unyielding and unwillingness, the power of heaven on his body bloomed like flames, the whole person burned up, rushed to Lu Ming, and collided with the sword.

boom!

The roaring shock broke out, and the knife flashed past, then disappeared.

And everyone saw that Ye Qiuxian's body was divided into two.

Ye Qiuxian's body was cut open, split in half by the war knife, and then touched twice, completely exploded and turned into fly ash.

Ye Qiuxian was beheaded.

Beheaded by Lu Ming on the battle platform.

The scene fell into a deadly silence, and then, there was a shocking noise.

"Damn, how is it possible?"

"Yeqiu Xianxian is defeated. How can the ten-three-star combat power and the perfect sky power be defeated?"

"Fake, fake, all these are false, I don't believe it!"

Many Celestials shouted, it was difficult to believe all this, and it was difficult to accept.

Ye Qiuxian, control the power of the perfect sky, surpass twelve stars, and reach ten stars.

Throughout the vast history of the Celestial Clan, there are only two such characters, and only three are added to Ye Qiuxian.

Once this kind of character appears, it represents invincibility. It can't be defeated, nor can it be defeated.

But now, Ye Qiuxian was defeated and was killed on the spot by Lu Ming on the spot.

This collapsed the beliefs of many Celestial Clan and cast doubt on themselves and their race.

The Celestial Clan is really high, is it really invincible?

Then why did Ye Qiuxian, who controls the power of the perfect sky, fail? Will be beheaded?

"Calmness, victory or defeat is a common matter of military strategists. Anyone will lose. As long as they lose, they will become truly invincible. You will wake me up."

Suddenly, a loud shout, like a thunder and a thunder, shakes the minds of those human races.

Many celestial bodies tremble and wake up.

Chapter 4437: First, connect the universe sea

A Tianzun-level existence shouted and awakened many Tianren people, especially some young people and middle-aged people.

These people shivered tremblingly, waking up, and then sweating in cold sweat.

Just now, they almost collapsed in faith, leaving their demons in their hearts.

Such consequences are very serious, and they will seriously affect cultivation in the future, and even cultivation becomes difficult to advance.

Those arrogances of Divine Emperor Jiuzhong may be trapped in Divine Emperor Jiuzhong forever, but fortunately they were awakened by a Tianzun in time.

Similarly, the people on the side of the annihilation are all ecstatic.

Lu Ming can now be regarded as the destroyer of the Heavenly Army. At this time, he strongly killed Ye Qiuxian, which greatly increased the authority of the Heavenly Army and the morale of the Heavenly Human Race.

In the void, Feihuang smiled and said to himself: "I really did not misread him. The future achievements of this son are difficult to limit. I can't see through."

"Seriously, the people whom the younger sisters and sisters love are really extraordinary. This boy, will he be comparable to the respected master in the future?"

The third magic sword also muttered.

However, he always had a smile on his face, happy for Lu Ming and happy for Xie Nianqing.

There was a smile on the face of the existence of other origins on the side of the destroyer.

After this battle, Lu Ming won the first place, and there was no suspense.

At this time, on the lotus of Yeqiu Xian, Yeqiu Xian's body reunited.

At the beginning, when he looked at Lu Ming, the tyrannical murderous opportunity appeared in his eyes, but soon, he lurked and became ancient.

"Lu Ming, this is only our first battle. We have many opportunities in the future. I will definitely lose you in the next battle!"

Ye Qiuxian calmly restored his strong self-confidence again.

"This guy, it's scary..."

Lu Ming moved.

As the peerless domineer who controlled the power of the perfect sky, before being high above the earth, he was considered the first person in the universe, and was suddenly beheaded by Lu Ming on the battle platform in public. This was a huge blow.

I have suffered such a huge blow, but Ye Qiuxian can adjust it in such a short time. I have to say that this person's heart is terrible.

No wonder it can be cultivated into the perfect power of heaven.

"I am waiting for your next battle!"

Lu Ming responded calmly.

Although Ye Qiuxian is strong, he also has strong self-confidence.

No one has ever surpassed him after being defeated by him once.

Not before, not in the future.

This is his belief in invincibility.

Ye Qiuxian didn't say more, his face was calm, he was very clear, like people like them, their beliefs are extremely firm, and they all have their own way to go. No matter how many others say, it is useless.

After the battle between Lu Ming and Ye Qiuxian, there were still nine competitions in the back, but there were not many people paying attention.

Because there is no comparison that is too worthy of attention in the future, the battle for the original seeds of the Divine Emperor Realm will soon come to an end.

This battle is really ups and downs, so many people are hooked.

Because of this battle, no one has guessed the result. The battle situation is unpredictable. Every round, there will be huge changes. Until the last round, the real result will surface, letting many people's hearts keep mentioning it.

When all the games of Divine Emperor Realm were over, the old voice sounded again: "The Divine Emperor Realm game has all ended. Okay, now I announce the specific ranking..."

"First place, Lu Ming!"

"Second place, Ye Qiu Xian!"

"Third place, Xie Nianqing!"

"Fourth place, Night Rose!"

"The first place can be placed in the highest rank, and the second to fourth place can be placed in the second rank!"

"The fifth pantheon, Ye Chu Tian Ji and Ye Ling Hong Ye, belong to the sixth place..."

The old voice continued to announce, from the fifth place to the thirteenth place.

Because these nine people can enter the third grade position.

Bubble, Qiuyue, no doubt, entered the top thirteen. He got the position of the third grade, which is the same position as Ye Chutian Ji and others.

This made Ye Chutian Ji extremely uncomfortable.

Thinking that he was previously known as the strongest son of the sky, with twelve star power, but now, he is on the same level as some eleven star power, in his view, it is a shame.

"It's all these guys..."

Ye Chu Tianji glanced coldly at Lu Ming, Xie Nianqing, Pan Shen and others.

In his view, it was all these people's fault.

If there were no such people blocking his way, how would his ranking be so behind, at least able to enter the top four.

"Now, I send you to connect the universe sea, how much you can gain, it depends on you!"

The old voice sounded, and Lu Ming and others showed their expectation.

The universe sea, what is it, can actually help to understand the source seeds, they are very curious and looking forward to it.

When the old voice fell, the lotus roots at the foot of Lu Ming and others began to grow wildly.

A total of 130 people, the lotus roots under their feet, continue to become taller, sending them to Qingming.

About a few minutes later, the lotus roots stopped growing and stopped.

The height of their 130 people has also changed significantly.

Lu Ming was alone, sitting high, sitting at the highest place, overlooking the others.

Below him, Ye Qiuxian, Xie Nianqing, and Dark Night Rose, but they are a lot shorter than Lu Ming.

This is the second grade.

Further down, is the third grade, is the pantheon, Ye Chu Tianji, Ye Ling colored leaves, bubbles, Qiuyue, Emperor Sword first class.

The height of these people is lower than that of the second grade.

Then there is the fourth grade, the fifth grade.

The height of the latter grade is extremely shorter than that of the previous grade.

The five grades, like ladders, are distinct.

At this moment, the petals of the lotus under their feet suddenly radiated a dazzling light, a layer of glowing light, covering them.

At this moment, Lu Mingfu spirited, sitting cross-legged, closing his eyes, and fell into a ethereal state of mind.

At the next moment, Lu Ming's soul seemed to leave the body, fly into the vast universe, and swim in the infinite universe.

Suddenly, a vortex appeared and sucked Lu Ming in. He seemed to have entered a passage and flew towards the front at a very fast speed.

I don't know how long it took to fly, maybe it was a moment, maybe hundreds of millions of years have passed, anyway, Lu Ming has been difficult to explain.

Suddenly, the passage came to an end, Lu Ming flew out of the passage and came to a strange place.

"this is..."

Lu Ming was stunned, he found that he seemed to have come into the sea.

No, this is not the sea, but like the sea, it is endless.

He looked around and found that in all directions, they were all bright rays of light.

Endless, full of various rays of light.

Chapter 4438: Within reach

"This feeling, so familiar, is the feeling of the vast universe..."

Lu Ming moved.

He felt the area he was in, giving him a very familiar feeling.

This feeling is exactly the same as the feeling given to him by Honghuang Universe.

"These, are they stars, and nebula, galaxy, star field..."

Lu Ming looked carefully, and found that in this area where he was, there were endless stars spinning, and there were also stars and stars.

And he became huge, as if he could cover a star field with one palm.

And between these galactic and star fields, it is filled with some glowing light, which seems to be a special energy, vast and unpredictable, high above.

Lu Ming is familiar with this energy.

Because he felt it in the characters in the source.

In addition, he also felt a similar breath on the original ancient characters "war" and "quantity".

origin!

Lu Ming's eyes lit up. Is this the origin?

This source is very clear. Lu Ming reached out and grabbed these sources, and he could clearly feel the touch.

Here, the source can be directly touched, which is really incredible.

In the wilderness universe, the origin is something that is mysterious and mysterious, something that is illusory, and can only be enlightened, but not touched or captured.

But here, it is actually accessible.

How easy will it be to realize this way, and the speed will be too much?

It is indeed a cosmic sea. It is indeed wonderful and mysterious. It is no wonder that many people think of breaking their heads. They would rather suppress the cultivation and repair to break through and compete.

"What is farther away?"

After looking around for a while, Lu Ming was curious again.

He found that this area is marginal.

There are margins in all directions, and farther away, it is enveloped by the radiance, and it is impossible to see clearly what is behind the radiance.

And farther away, it gives Lu Ming and strange feelings, the kind of breath is very different from the breath of the vast universe.

Lu Ming showed his doubts.

"Eh, Xiaoqing, Qiuyue..."

Suddenly, Lu Ming's eyes lit up.

Not far away, he saw the figures of Xie Nianqing, Qiuyue, Pantheon, Bubble and others.

"Lu Ming!"

Xie Nianqing, Qiuyue and others, also saw Lu Ming, suddenly overjoyed, and flew over.

But Lu Ming immediately discovered the problem.

He found that the bodies of Xie Nianqing, Qiuyue and others were much dimmer and unreal.

His body is very solid, as if turned into substance.

Xie Nianqing and others are obviously unreal.

Xie Nianqing is better, especially the pantheon, Qiuyue and others, who are a little hazy and know at a glance that they are not entities.

"Is it because of the location of different grades, the result?"

Lu Ming moved.

This is very likely.

Lu Ming's body is obviously the most solid in the first grade.

Xie Nianqing is in the second grade, followed by the solidity of the body, while Pantheon, Qiuyue and others, in the third grade, the body is naturally more illusory.

You should know that the source here can be touched by the body, and can be directly felt. The more solid the body is, the better the touch is, and the source of understanding will be better.

In this way, the differences in the positions of different grades are reflected.

Soon, Lu Ming's ideas were verified.

Because they found other people.

For example, the fourth grade position, the fifth grade position.

These people's bodies are more illusory, and some seem to break apart at any time.

Obviously, in this state, the effect of understanding the source seed is definitely worse.

But there is a strange place, that is, did not see a Celestial Clan.

This is not right.

Among the top 130, who are qualified to connect to the universe sea, the Celestial Clan occupies the majority.

But now here, a Celestial Clan has not seen it.

Lu Ming, Xie Nianqing and others were lost in thought.

But after thinking for a long time, I didn't find the answer.

"Forget it, let's start to understand the origin, it's time to hurry!"

Lu Ming said.

Others nodded, and then looked for suitable places one after another, and began to understand the source.

Although they have more than 900 years, for their realm, more than 900 years are really short.

Especially for things like understanding the source.

You should know that the existence of those primitive realms may be a few stellar years after the practice is practiced while retreating from the source.

Compared with the stellar year, more than nine hundred years is much different.

Lu Ming chose a place. In this place, the ray of rays formed by the source continuously flowed through, and Lu Ming rushed into it, leaving the whole body wrapped in the source.

Suddenly, he had strange enlightenment in his heart and seemed to catch something.

"There will be an effect so soon!"

Lu Ming was overjoyed.

The cosmic sea is indeed a cosmic sea. It is indeed mysterious and the effect is amazing.

Originally, in their realm, they were simply not qualified to understand the origin.

In the Honghuang Universe, with their cultivation as the realm, they are still far from being qualified to enlighten the source. No matter how they enlighten them, it is impossible to touch a trace of the source.

Because the realm is too far apart.

Only when Xiuwei reaches the pinnacle of the Divine Lord, can he be qualified to come into contact with the source and to understand it.

Cultivation as a failure to reach the peak of the God Lord is not qualified.

But the universe sea has wiped out the gap between them, and the effect is very amazing.

Of course, this is also related to Lu Ming's position of the first grade. The body is the most solid and the feeling of the origin is the most clear.

Others have no such effect.

Lu Ming calmed his mind and began to comprehend.

Outside Taixian Xiancheng, everyone only saw that Lu Ming and others sat on the lotus, shrouded in the glow of the lotus, and closed their eyes to practice.

Others, see no abnormalities, the same as those of God's main realm.

At this moment, the game under the Divine Emperor also began.

After nearly a year of competition, the people under the Divine Emperor also decided the result, and some people also successfully connected to the universe sea.

However, it is unclear whether the way they entered the cosmic sea is the same as Lu Ming's and whether the effect is the same.

Because Lu Ming, from beginning to end, they only saw the existence of the Divine Emperor Realm, but did not see the existence of other realms.

Time rushed, year after year passed.

In a flash, more than 900 years have passed.

Thousands of years away from Taishang Xiancheng, getting closer and closer.

In a blink of an eye, there was less than ten years left before Taishang Xiancheng was leaving.

suddenly...

boom!

A terrifying breath erupted, and it was shocking.

This breath comes from the existence of the God Realm that connects to the universe sea.

Everyone's eyes looked in that direction.

"What a terrible breath, such breath, it's just shocking, like a universe!"

"Honghuang is ancient, powerful, and amazing!"

Some low-cultivation people shouted in horror.

Chapter 4439: Someone hit the origin

Those who cultivated low were horrified, and those who cultivated high, such as God Lord, the existence of the original realm, also showed surprise.

"This is... someone wants to break through the origin."

"Someone has to really control the source."

There are several openings for the existence of the origin.

Others were thrilled.

Breaking through the original realm, some people want to break through the original realm. This is a rare event in the world.

How many years will it take for the entire wilderness universe to come out of its origin?

Peerlessness is a major event for someone who can see through their origins.

"who is it?"

A question arose in the hearts of the people, running their eyes and eyes, observing carefully through the void.

In the end, everyone's eyes fell on a burly figure.

"It's him, the destroyer of heaven!"

Everyone shuddered in their hearts, and they were a little unbelievable.

This breakthrough man actually came from the Destruction Army.

You know, in the battle of God's main realm, the Celestial Clan occupied the top three.

And this burly man is only the fourth.

Obviously, the top three Celestial Clan, combat power, cultivation base, foundation, and potential are all above this annihilation army.

But now, it is this God of Destruction that takes the lead to attack the original realm.

The top three gods of the human race have not yet begun to strike, and have not yet begun to break through.

How could this be?

Many people are puzzled.

Could it be that the Extermination of the Celestial Army, talent and potential are stronger, but it was only in the previous lack of combat power that it ranked third.

"Damn, the vastness of the universe, it really has a strong barrier to my family, otherwise, will this person be allowed to break through first?"

A Tianzun from the Celestial Crow growled and was very angry.

But the voice was suppressed, and others could not hear it, only the minority of the Celestials could hear it.

"There is no way. If our family wants to break through, we must pay a greater price. Therefore, we must not allow the prohibited body to grow up, otherwise it will have a greater impact on our family."

Another Tianzun also spoke.

"Yes, the taboo body, it is best to get rid of it!"

The third Tianzun opened his mouth. The man was very young, wearing a golden yellow armor and a golden spear, like an invincible **** of war.

He is the Yelu sharp gun, and the third magic sword, is a rival.

The conversations of several Tianzun revealed the secrets of Tianda, but unfortunately others could not hear them.

"it is good!"

On the other side of the Heavenly Destruction Army, the gray-haired Genius, with his beard in one hand, laughed.

The third magic sword and others also smiled and couldn't be more pleased.

As long as this person succeeds in the breakthrough, there will be an extra figure of the ancestor level on the side of the destroying army.

The character of Yuanzun level is too important. It is the real peak combat power in the universe. Every extra one is very important.

There are tens of thousands of powerful races on the Honghuang Universe Ten Thousand Peoples List, which means that the top ten races only have the existence of the origin.

Of course, maybe other races also have the existence of the original environment, but it is absolutely very rare, such as rare.

It is a great thing for the Destroyer to destroy the Heavenly Army if it can have more than one origin.

The people on the side of the destroyer are very happy, and secretly expect this person to break through successfully.

On the other hand, the Celestial People prayed for this person's failure.

Roar!

This burly figure made a roar, his body, the detached lotus, suspended in the void, and his body was rapidly growing.

In the end, it turned into a figure of heaven and earth.

This is a primitive god, pure primitive god.

He has a dragon's head, but has a human body, a huge, vast atmosphere, and it continues to diffuse in all directions.

He screams in the sky and is hitting his origins with all his might.

"Master Long Fan, we must break through our original source and become the main god!"

Around there are also a few primitive gods, who are in the main realm of God, excited at the moment.

The main **** is the existence of the highest level of primitive gods, which is equivalent to the source venerable, and is also equivalent to the heavenly venerable of the human race.

Long Fan, is the name that is striking the existence of the origin. He is a kind of existence that has lived from the time of the beginning of God to the present. It has been extremely powerful and accumulated a lot.

This time connected to the universe sea, with the help of the universe sea, it broke through the bottleneck in one fell swoop and launched an impact towards the original environment.

Of course, launching a shock towards the original situation does not mean that it will succeed.

Failure often means falling, and many people are nervous.

Roar!

Long Fan continued to roar, and his already upright body, like an inflatable ball, swelled up as if it would explode at any time, and his breath became more and more terrifying.

Everyone waited and watched, knowing that this was the critical moment for the breakthrough.

Either succeed or fail.

However, Long Fan was still under the protection of Taishang Xiancheng, and no one else could influence his breakthrough.

Otherwise, the people in the Tiangong Palace might have already started to interrupt Long Fan’s breakthrough.

Now, I can only watch.

In an instant, half an hour passed.

At this moment, Long Fan's breath has reached its apex, and the void is trembling under his breath.

However, those who connected to the universe sea on their respective lotus were not affected in the slightest.

They are shrouded in the glow of the lotus, which cuts off all induction to the outside world.

People outside cannot attack them, nor can they sense what is happening outside.

Therefore, other people, including Lu Ming, are still practicing quietly.

"Break me!"

Suddenly, Long Fan screamed, his hair flying high, and the original strong breath suddenly pulled up a bit.

Buzz!

At this moment, everyone seemed to feel that the whole universe was shaking.

Then an amazing scene appeared.

All the stars in the universe shine at this moment.

All the stars, the light is several times brighter than before, and then from all over the universe, there is a ray of ray of light, rushing towards this side.

The speed is too fast, almost just a few breaths, then passed through the endless universe starry sky, rushed into Long Fan's body.

"This is... the universe resonates, he... the breakthrough succeeded!"

Someone exclaimed.

Others are also beating in their hearts.

According to legend, if the breakthrough of the origin is successful, the universe will resonate and the stars will shine, and it seems to be cheering for it.

Just now, such a vision appeared, which is enough to show that Long Fan, the breakthrough was successful.

Failure will not resonate with the universe.

The origin is the most fundamental thing in the universe.

Once a breakthrough is made and the source is controlled, Shouyuan coexists with the universe, and every move will be closely related to the universe, so it can cause abnormal sounds in the universe.

It is said that when people in the original state fall, the universe will also have abnormal noises.

Long Fan was shrouded in endless glow from all over the universe. These rays of light finally merged into Long Fan's body and emerged from Long Fan's eyebrows, converging into a golden mark.

The golden marks flashed away and disappeared.

"Controlling a source, Long Fan has officially become the main god!"

Feihuang smiled a little.

Chapter 4440: Original seed, success

Long Fan formally stepped into the original realm, and the Heavenly Destruction Army added another member of the top power, which made the Heavenly Destruction Army people happy.

Some people rejoice and others worry!

The people of the Celestial Clan look somber.

Especially the existence of those gods' realm, looking at Long Fan, his eyes are complicated.

They were originally in the same realm as Long Fan, although Long Fan was powerful, but their level was the same.

But now Longfan Yu Yuelongmen, the source of achievement in one fell swoop, is no longer comparable to them, one by one.

The original realm, as long as it is not killed, can live with the universe, and the universe will not be destroyed. The original source will not be destroyed. Unless the era changes and the universe is destroyed, the original source will be destroyed.

This is almost the ultimate goal of the practice of countless souls in the universe.

No matter how strong the Divine Lord Realm is, it is also unbearable in the face of its origin.

Slowly, the vision of the universe disappeared, the breath of Long Fan stabilized, and his body returned to its normal size.

He opened his eyes, his eyes like a sword, and penetrated the void.

Then he stepped out, rushed out of the area covered by the light directly, and appeared beside Feihuang and others.

He has broken through to reach the source, and he has lost the qualification to continue to understand the source.

"Long Fan, congratulations!"

Feihuang, Third Magic Sword and others came to congratulate with a smile on their faces.

"Thank you for your usual help and support."

Long Fan clenched his fists and was very polite, but in his attitude, he was more relaxed, without the previous constraints.

He used to be only the main realm of God. Although he lived forever, he was much older than Feihuang and others.

But the practitioner knows that the master is the first, and the flying phoenix and others are the origin, and the status should be far above him.

Previously, in front of Feihuang and others, he had to be respectful and to be a junior.

Now, no longer, he is also in this state, and he can discuss with his peers.

In the congratulations on the side of the Heavenly Destruction Army, time slowly passed.

Soon, the scene returned to calm and continued to wait.

In ten years' time, it was a flash.

Buzz!

At this time, Taishang Xiancheng gave a slight vibration, on which there were mysterious lines flashing.

Then, the mask that originally enveloped Lu Ming and others disappeared.

The lotus at the foot of Lu Ming and others also disappeared.

Originally, Lu Ming was comprehending the origin in the universe sea, and suddenly felt a powerful force pulling him, flying away in one direction, the speed was faster than imagination.

Before Lu Ming responded, he felt a shock and opened his eyes.

came back!

Lu Ming found that he had left the cosmic sea, returned to the wilderness universe, and returned to the sky above the fairy city of Taishang.

"Nine hundred and fifty years from now, is it here? So fast!"

Lu Ming moved.

Cultivating in the cosmic sea, he can't feel the passage of time at all. He felt that it was only a short while before cultivation.

"How is the source understanding?"

Lu Ming's thoughts moved quickly, and he quickly checked the situation.

The next moment, he discovered that in his consciousness, there was a light cluster, extremely bright.

This is a round bead, about the size of a longan, not gold or stone, with a wonderful breath.

origin!

As soon as Lu Ming sensed it, he knew that the flowing breath on the longan-sized ball is the original breath, and it is very rich and very condensed.

Original seed, this is the original seed.

Lu Ming was overjoyed, and indeed the original seeds were condensed.

On the seeds of the source, the power of the source is transformed into countless thin silk threads, which circulates Lu Ming's whole body, nourishes the landing song, and improves Lu Ming.

There is nourishment of the source, and Lu Ming can always touch the source, which is very helpful for him to practice in the future.

When God's main realm breaks through the original realm, that helps even more.

It is equivalent to having a foundation in advance, and breaking through is naturally easier than others.

Lu Ming's heart moved, and began to control the original seed.

Immediately, there was a source of power on the seed of the source, which poured into Lu Ming's hands.

Lu Ming has a feeling, now his hands are full of terrifying destructive power.

"The power of the original seed can still be used to attack, which is great!"

Lu Ming was ecstatic.

But soon, Lu Ming calmed down.

After all, this is just a native seed, and the inherent strength contained in it is very small.

Even if it can be used to attack, Lu Ming estimates that there is only one blow.

After a blow, the original power of the original seeds will be exhausted and need to be slowly restored.

Therefore, this can not be used as a common means to fight the enemy, only as a hole card, the key moment.

However, even with only one blow, Lu Ming was still secretly pleased.

This is the power of the origin. How powerful is the power that can be controlled by a character of this level.

Under the blow, Lu Ming was very curious and looking forward to how powerful it was.

It's a pity that I can't try it now, but Lu Ming dares to be sure that it is definitely more terrifying than his current strongest blow.

Otherwise, how can it be worthy of the word "origin"?

Converging, Lu Ming looked around.

Ye Qiuxian, Xie Nianqing, Qiuyue and others have all been awake, and like Lu Ming, they have checked their knowledge.

After most people checked, a smile appeared on their faces.

But there are also a few people whose faces are bleak and even howling.

"I... I didn't get anything, my native seed, what about the native seed?"

"Ah, did my enlightenment fail, impossible, impossible!"

"No, no, this is not the result I want, no..."

Some people wailed and wept.

Obviously, these people failed to comprehend the source seeds and did not condense the source seeds.

The source of the hard work is to hope to condense the seeds of the source, and the potential is greatly increased. In the future, not only must we reach the main state of God, but we must also understand the source state in the future.

But failed, without condensing the original seeds, then like everyone else, it will not be so easy to impact the original environment in the future.

Originally holding thousands of hopes, but in the end it was despair. This gap makes these people unbearable.

"Go, let's go to senior Feihuang near them..."

Lu Ming spoke to Xie Nianqing, Qiuyue and others, and then they all flew towards Feihuang and others and came to Feihuang and others.

Now, they are still within the envelope of Taishang Xiancheng, and everyone has been suppressed, and the people of the Celestial Clan naturally dare not start.

However, the millennium has come, and Taishang Xiancheng may leave at any time. At that time, the people of the Celestial Clan may directly shoot.

Therefore, safety can only be guaranteed when you come to Feihuang and others.

"Lu Ming, we will see you later!"

"Brother Lu Ming, I will find a chance to see you later!"

Dandan and Bubble did not follow Ming Ming to land, but instead sent a voice to Lu Ming, and then each returned to the master of their race.

The world's tortoise family and the space-time spirit rat family naturally come with masters.
