

D Emperor 4531

Chapter 4531: Return to the ruins of the universe

Lu Ming just returned to Lanshang and others, the God of War gun also flew back, and also brought back a storage ring.

Obviously, the God of War gun has killed the blood god.

As soon as his thoughts moved, the God of War weapon turned into a ray of light, flew into Lu Ming's eyebrows, and disappeared.

At this moment, Jing Mo, Kong Xixue, Lan Shang, Undead Demon King, Thousand Saints Heavenly King, Crocodile Sky and others have been completely demented, like petrochemicals, Leng there, eyeballs staring deadly.

They thought they were dreaming.

But is this dream too real?

The kind of terrible breath, the kind of breath that made the galaxies tremble, and the breath that made them fear, are too real. How could all this be false? How could it be dreaming?

Even if it is a dream, I can't dream of such a scene, because that kind of strength has exceeded their imagination limit.

However, Lu Ming is too abnormal?

How could Lu Ming's strength be so strong?

Neither evil nor pervert is enough to describe Lu Ming.

"Lan Merchant, Senior Qiansheng, are you ready? Let's go now!"

Lu Ming reminded.

"Ah, good, good."

Lan Shang and others wake up like a dream.

"Lu...No, Qianlong King, don't know, can we send more people to follow you?"

Kongxi Snow Road, watching the landing song nervously, seemed very cautious.

Before, when he didn't know Lu Ming's actual combat power, she could still get along with Lu Ming as an equal.

After all, she is the mother of the new Emperor Taixu, and Lu Ming is just a king.

But now, when facing Lu Ming, he can no longer remain calm, and some are sincere and fearful.

She was very clear that in her status, Lu Ming was nothing in front of her.

Honghuang Universe, everything speaks the truth, with strength, there is status.

With Lu Ming's cultivation practice and strength, it is easy to create a force that is ten thousand times stronger and stronger than the Taixu Holy Cult.

So, now in front of Lu Ming, she was a little trembling, fearing to say the wrong thing, causing Lu Ming to be unhappy.

After she finished, she looked at Landing with some anxiety.

"Yes, as soon as possible!"

Lu Ming said.

He wanted to quickly return to the station of the Destruction of the Universe Ruins.

After all, when he came out, he sealed Xie Nianqing and Qiuyue before he came out.

Now, Xie Nianqing and Qiu Yue are estimated to have been unsealed long ago.

What will they do after they are unsealed?

Will it rush directly to the elven clan area without water? It was very dangerous there, and Lu Ming had to worry.

And here, it is too far away from the station where the ruins of the universe are located, and it is not so far away that the Chuanyin Yufu can't be transmitted. Lu Ming couldn't do anything if he wanted to inquire about the news.

"Okay, we will soon!"

Kong Xixue nodded again and again, and immediately left with Jing Mo.

In fact, after seeing Lu Ming showing his strength, even they wanted to leave with Landing Ming, but thinking about it, they still couldn't bear the foundation here, and finally planned to send more people and Lu Ming to practice.

"That... Lu Ming... No, senior, I was wrong before. I have no eyes, and there are many offenses. Please forgive me, your adults don't remember the villains, haha..."

The Undead King also came over, and actually recognized himself as a junior, and put his posture very low in front of Lu Ming.

In the universe, everything is dominated by strength. In terms of strength, it is not an exaggeration to call him Lu Ming.

Of course, this also requires a skinned person, who is not thick-skinned.

"It's okay, but you'd better think less and tell you, follow me, I will not treat you badly!"

Lu Ming said lightly.

"Reassure, Ming Shao, in the future I will look forward to your horse, before the saddle, after death."

The immortal devil swears.

Lu Ming whispered in his heart, how could he not find this old guy so thick-skinned before.

"This one..."

Lan Shang, Qian Sheng Lao Tian hesitated on the side.

After seeing Lu Ming's true strength, they were also somewhat restrained in front of Lu Ming.

They are all smart people. Seeing Lu Ming's strength, they can speculate that Lu Ming's estimation is already the existence of the top of the universe, which is too far away from them, one heaven and one earth.

"Uncle Lan, Senior Qiansheng, you are so kind to me, you don't have to be so restrained, I am still the same as before."

Lu Ming said.

Hearing Lu Ming say this, Lan Shang, Qian Sheng Lao Tian Wang breathed a sigh of relief, and the big rock in his heart was put down.

Otherwise, they face Lu Ming in the future, and they don't know how to face it.

The undead that the undead devil looked at did not know that Lu Ming was so evil, so incredible, when he saw Lu Ming, he dared to hug Lu Ming's thigh.

"It's not too late, this thigh, I am determined, I want to impact to a higher level, the Divine Emperor is the first, the Divine Emperor is the second, and even the Divine Emperor..."

The undead king shouted in his heart, so he admonished himself.

Originally, with his mindset that lived dozens of star years, it wouldn't be so calm, but Lu Ming's strength is really too strong, the strong is already incredible, the strong with his mindset, it is difficult to stay calm .

They did not wait too long, and the people who were shocked and cherished the snow were ready.

"go in!"

Lu Ming waved his hand and opened the Honghuangjie, a huge vortex appeared in the Tiangong.

Lan Shang, Qian Sheng Lao Tian Wang and others flew into the whirlpool.

Needless to say, these people must have been shocked when they entered the famine, but Lu Ming was too lazy to care.

Soon, everyone entered the famine.

"You guys, there will be a future."

Lu Ming Xiangxue Xixue, fisted with a fist in shock, then turned around and stepped out, the starry sky split automatically, he entered the space crack and disappeared.

Only two of Jing Mo and Kong Xixue were left, stunned.

Lu Ming hurried all the way, and at the same time he ran a great imitation technique to change his appearance and life's original breath into an angelic youth.

If you rush on the road in its true colors, most people on the road will disturb the people in Tiangong.

After all, he still has to use wormholes to get on the road, even though his speed is now amazing, but still not as fast as the wormhole has come.

In this way, it took Lu Ming about half a month to return to the annihilation army station in the ruins of the universe.

After returning to the annihilation army station, he immediately rushed towards their place of residence.

In the place where he lived, Lu Ming didn't see Xie Nianqing and Qiuyue, only the pantheon, Dandan and Bubble.

Lu Ming giggled.

Did Xie Nianqing and Qiuyue really ran to him?

"Goddess, Dandan, Bubble, Xiaoqing and Qiuyue, where have you been?"

Lu Ming quickly asked.

"They are all right, Lu Ming, you are all right. There are rumors in Tiangong that you are dead."

Pantheon.

"Yes, it turns out that the people in Tiangong are farting, so I said, how could Lu Ming die, is it that simple to mix with me?"

Shouted.

The bubble hung directly on Lu Ming's body.

Chapter 4532: Lu Ming's killer

"Ooooo, Brother Lu Ming, you're okay!"

Bubbles hung on Lu Ming's body, with a snot and tears, all rubbed on Lu Ming's body.

Lu Ming stunned.

Dare to love, Tiangong propaganda, he has fallen?

It is also possible.

After all, when the elven ancestral land collapsed and destroyed, he rushed into the big crack in the space, there is a great possibility that under the destruction power of the big crack, it will disappear.

However, perhaps it was not deliberately transmitted by Tiangong. After all, Tiangong saw that he had rushed into the big crack. There were not many people. Some people speculated that it might come out.

"I'm not going to have a problem, of course. Where are Xiaoqing and Qiuyue?"

Lu Ming asked again.

"You sealed the girl Xie and Qiuyue, and left alone. Later, after the seal was lifted, they were very angry. We were going to go to the elven clan to find you. We couldn't stop them. Fortunately, at that time, Senior Phoenix returned and stopped. There were two people. During this time, Xie and Qiuyue have been living in the place where Senior Feihuang lives."

Pantheon.

"Then I will meet them."

Lu Ming said.

"Lu Ming, you have to be mentally prepared. I heard that they are still very angry."

Once and for all.

"Oh, do they know about the news of my fall?"

Lu Ming asked.

"I don't know, we didn't dare to tell them."

Once and for all.

"That's fine, I have a way to deal with them, let's go!"

Lu Ming smiled slightly.

Soon, they came to the place where Feihuang lived, and they also saw Xie Nianqing and Qiuyue.

"Lu Ming!"

"Master!"

When I first saw Lu Ming, Xie Nianqing and Qiu Yue, they all showed surprise.

But he soon thought of something, and the two men's faces fell a little, and their eyes were a little bad.

"Haha, Xiaoqing, Qiuyue, I'm back. I haven't seen you for a while. I really want to die!"

Lu Ming cheeked.

"Want to die us? Lu Ming, in order to save your little elf lover, he doesn't even need his own life, and he also seals us, okay, okay!"

Xie Nianqing sneered, his face very cold.

And Qiuyue also pouted and sullenly, looking at Landing Ming bitterly.

"The girl Qiuyue was taken by Xiaoqing."

Lu Ming murmured.

Even the gentle and pleasant Qiuyue treated him this way, Lu Ming said very sad.

Of course, it also proves that Qiuyue is really angry.

"Haha, Xiaoqing, wherever you say, the elven race is implicated by me after all, I can't ignore it."

Lu Ming made a haha and tried to fool around.

"Huh, don't want to pass the trick, today, you must tell us one by one."

"Yes, the young master wants to give us an explanation. I didn't expect that you would shoot us, young master, Qiuyue is really sad..."

The two females are inconsistent, pressing step by step.

All three gods, Dandan, Bubble, watched their eyes and watched their noses, stood on the sidelines and pretended to see nothing.

Especially once and for all, there are smiles from time to time.

A look to see how you deal with it.

"Lu Ming, let's talk, how would you explain?"

Xie Nianqing came step by step.

"Xiaoqing, Qiuyue, look, who brought me here!"

Lu Ming finally used the killer skill.

That is, Dafa.

As soon as he waved his hand, there were more people in front of Lu Ming.

Lu Yuntian, Li Ping, Lu Shenhua, Lu Chi and others.

"Master, ma'am..."

Seeing Lu Yuntian and Li Ping, Qiyue immediately showed surprise.

"Qiyue, boy, I finally saw you."

When Li Ping saw Qiyue, she burst into tears.

"lady!"

Qiyue rushed into the tears in Li Ping's arms, and had long forgotten about Lu Ming.

Xie Nianqing's eyes were also completely attracted by Lu Shenhua.

"Shenhua!"

Xie Nianqing looked at the landfall, and his eyes were full of miss and love.

"mother!"

Lu Shenhua hurried over.

"mother!"

Lu Shenhua's daughter-in-law also walked over and shouted cordially.

"Grandma, long time no see, I want to die!"

Lu Chi flew past, holding Xie Nianqing's arm.

"Chi'er, I haven't seen you for a while. Your cultivation behavior is almost catching up with your father."

Xie Nianqing's face was cold, and it had melted into a smile, and he touched Lu Chi's head with doting.

As for Lu Ming's case, it has long been put aside.

Pantheon, Dandan, Bubble three, stunned.

Is this okay?

"Lu Ming, your bull pen!"

Pantheon thumbs up.

"Lu Ming, you are mean and shameless... Bah, your wise heroes already have my style."

Lu Ming said quietly.

When the loved ones met, they were happy, as if there were endless topics. Xie Nianqing and Qiuyue temporarily forgot about Lu Ming's things. Those unhappy in my heart also flew away.

For a while, Xie Nianqing and Qiuyue thought of Lu Ming and glared at him separately, even if it had passed.

Half a day later, Lu Ming, Xie Nianqing, Qiuyue, Dandan, Bubble and others took the landing to Yuntian and Li Ping and they came to an empty place.

There are no living inhabitants in this place.

The cultivation conditions are also excellent.

The annihilation station is made up of continents. The foundation of these continents is actually a wasteland.

After the transformation of the strongest people in the original environment, the cultivation environment here is already excellent, and there are various cultivation places for tempering. Even if it is not comparable to Honghuangjie, it is not bad.

Compared to the Taixu pilgrimage, it is really more than a hundred times better.

Lu Ming intends to put people from the Taixu dynasty, as well as the Lu family, Huachi and others.

He did not intend to let everyone stay in the Honghuang Precept, although the cultivation environment in the Honghuang Presidency is absolutely top-level for God's Lord Realm and better than here.

However, Lu Ming will always carry the Honghuang ring, and he, will go out for adventure, will go out to travel, and the Celestials have been staring at him, he might be in danger when he might.

What if they were caught by the Celestial Clan as they did last time?

His loved ones and friends follow him, and they are also very dangerous.

Unless his future training is high enough, he will not put his relatives and friends into the Honghuangjie without fear of any danger.

When Hong Huang quits this kind of treasure, he will naturally not give it to others, and he must always take it with him.

Of course, this is also the absence of his 'past body' and 'future body'. If it is, one of them can take the famine of the wilderness and stay in the garrison's station, which is not bad.

But now, it can only be so.

With a wave of his hand, a huge vortex appeared in the air, and Lu Ming's spiritual consciousness was revealed in Honghuangjie, communicating with everyone.

After a while, a large number of people flew out.

It is the undead demon king, the blue merchant, the thousand celestial god, and the Lu family.

After they came out, they all had a reluctant expression, and it was too cool to practice in Honghuangjie. Someone even broke through in such a short period of time.

But Lu Ming also explained before, they can only come out.

Moreover, the cultivation conditions here are not bad.

Immediately, everyone began to arrange in an orderly manner.

Chapter 4533: A new residence for elves

After seeing the Taixu dynasty, Lu family, Huachi and others in an orderly arrangement, Lu Ming left here alone, went to Feihuang to ask for a treasure, and then came to another unmanned land.

The annihilation station is composed of dozens of continents.

Moreover, the area of every continent is very huge.

Some large continents are far from comparable to those of living planets and can accommodate endless creatures.

Moreover, there is more than one place to destroy the heavenly army. It is said that there are several places to destroy the heavenly army deeper in the ruins of the universe, but Lu Ming has not been there.

Therefore, the annihilation of the garrison's garrison can be regarded as a sparsely populated place, and it is simply too simple to accommodate these creatures brought by Lu Ming.

Moreover, Lu Ming chose this place for a reason, because several strong men such as Feihuang also went to meet the elven tribes and rescued some elven tribes. Those elven tribes lived in this area.

Standing at high altitude, Lu Ming looked from afar, and there was a dense forest in front of him. There were some wooden houses built in the forest, and some people flashed by from time to time.

With Lu Ming's eyesight, it is natural to see clearly, those are elves.

Of course, this forest is indistinguishable from the elven palace, and it is too far away.

The elven palace has countless huge ancient trees of elves. Those ancient trees, up to thousands of miles, even tens of thousands of miles, envelope the sky, producing endless wood essences, and also producing a large number of elf wooden hearts. Cultivation is very helpful.

But the forest in front is just ordinary trees, which is far from the ancient wood of elves.

After Lu Ming communicated with Ling Yuwei with his spiritual knowledge, he then opened the door of Honghuangjie, and a huge vortex appeared in the air.

Ling Yuwei flew out first, and then other elves also flew out.

The number is not very large, partly the people rescued by the island at the beginning, and partly the elven clan arrogance in the elven clan.

After these elf clan came out to see Lu Ming, they all glared.

Lu Ming has no expression on his face, just as if he did not see it.

"Yu Wei, the forest in front of you lives in your clan. In the future, you will live in this area."

Lu Ming said.

"Ok!"

Ling Yuwei nodded. At this moment, other elves also found the forest, and suddenly showed great joy.

Now, the elven tribe is almost wiped out. They originally thought that they might have survived these people. Now seeing other elven tribes is naturally ecstatic.

They immediately flew towards the forest.

They were about to get close to the forest, and they were immediately spotted by the elves in the forest, and the elves in the forest suddenly flew out.

Over the forest, a dense figure appeared immediately.

"There are more than 50 million people."

Lu Ming thought.

He swept the spiritual consciousness and enveloped the entire forest, and approximated the number of elves living in the forest.

More than 50 million people seem to be many, but very few.

You should know that the elven clan used to occupy a large number of star fields, and the elven clan thrived for endless years.

It's hard to overstate it with billions of trillions.

Fifty million people, compared with the past, is really a drop in the ocean.

Moreover, these 50 million elf clan, there are many elf clan with ordinary knowledge, the cultivation level is very low, they can't even take off.

Only about one million can fly into the forest.

Relative to the previous cardinal number of elves, it is too little.

Moreover, Lu Ming did not find the existence of a god's main realm, the strongest, only Divine Emperor Jiuzhong.

I thought, the **** master of the elven clan was targeted by the Tiangong for the first time and sent the strong men to hunt, so none of them escaped.

It was too late when they were rushed to fly phoenix when they got the news, the elven clan master was killed, the captive was captured.

Not only the masters, but also the ordinary elves, they were also killed, and most of the others were captured by the Tiangong and became slaves. .

"Princess, it's a princess!"

"The princess is fine, so good, so good!"

"God bless you!"

Over the forest, those elven people saw Ling Yuwei, all ecstatic, quickly flew over and saluted Ling Yuwei.

"Everyone, don't need more gifts, don't need more gifts!"

Ling Yuwei said quickly.

"Princess, I heard that the elf ancestral lands were surrounded, and a war broke out in the back, and all elf ancestral lands collapsed. How did you get out?"

Someone asked.

"You have heard about the elven ancestral lands, how about the battle of the elven ancestral lands?"

Ling Yuwei did not rush to answer, but asked rhetorically.

"I heard that the lord of the evil spirits of the ancestral land were born, and they fought with the people of the Tiangong, fighting to destroy the heaven and destroying the earth, and exploding the ancestral lands. All suppressed."

An elf elder replied that this man was an elder of the elven clan before, and he had the cultivation of Divine Emperor Jiuzhong. When Ling Yuwei didn't come, the elf clan held his highest position.

"The reason why we can get away is thanks to Lu Ming's life saving!"

At this time, Ling Yuwei pointed to landing Ming Ming.

"What? Lu Ming?"

"It's him, it's Lu Ming!"

"It's all him, it's all because of him. The Tiangong attacked our elven clan, it was all because of him."

Many elves roared and stared at Naruto.

"Everyone, Lu Ming's pseudonym of Mu Yun was also an unintentional move. He was also very guilty. If he didn't desperately save us, we would have died in the hands of the elves."

Ling Yuwei quickly explained.

Her heart knot to Lu Ming has been unraveled, and her heart is naturally striking towards Landing, wanting to resolve this grudge between Lu Ming and the elven race.

"Princess, don't be fooled by him."

"That is, if it weren't for him, would my family be like this, and would your majesty die in battle?"

The elven people naturally will not easily forgive Lu Ming, but still glared at Lu Ming.

"Hey!"

Ling Yuwei sighed slightly in her heart, and then moved her heart. A jade bottle appeared in her hand. When she opened the jade bottle, an exuberant vitality of life filled out, attracting the attention of every elf.

The eyes of all the elves looked at the Jade Bottle, revealing doubts and shock.

"This breath...how is it so holy tree seed?"

"Really, I feel a lot."

"However, the seed of the holy tree was successfully cultivated by us and turned into a holy tree of elves. Later, it was cut off by the Celestial Clan. How can the seed of the holy tree appear again here?"

Several elven races in the Divine Emperor Realm were in discussion.

They are the cultivation practices of the Divine Emperor Realm, and they are regarded as high-level elves. Naturally, they know many things.

The seed of the holy tree brought out by Lu Ming had been successfully cultivated and transformed into a holy tree of elves through the efforts of the elves. Although it has not grown into a big tree, it is a matter of time.

However, when Tiangong attacked, he was cut off.

Chapter 4534: Holy Tree Seed Recovery

The elven people are puzzled, because the jade bottle in Ling Yuwei's hand exudes a breath that is too much like a holy tree seed.

At this time, Ling Yuwei picked up the jade bottle, the cap was down, and a seed flew out, it was the seed of the holy tree.

The seeds of the holy tree exude a hazy radiance, and the incomparable life essence radiates, covering all the elves.

Bathed in rich life essence, all the elves feel that their pores are all open, which is extremely comfortable.

"Holy tree seeds, really holy tree seeds!"

"There is a seed of the holy tree in the princess's hands, so blessed!"

"My elven tribe will never die, even if the heavenly palace is going to destroy us."

"Yes, with the new sacred tree seeds, plus the princess talent, others, my elven tribe will definitely rise again, stronger than ever."

All elven races are ecstatic, and many people can't even hold back and shout.

The holy tree seeds can cultivate elven holy trees.

The holy tree of elves is really important to the elves.

Within the scope of the holy tree of elves, ordinary trees can be transformed into ancient trees of elves, and the heart of elves can be born.

Moreover, the elven people practice on the holy tree of elves, not only the speed of practice is amazing, but they can also continuously improve their talents, purify the bloodline, and make the talents of the elf family stronger and stronger.

You know, when the elf race is at its peak, it is close to the top ten races, which is because of the holy tree of elves.

Later, there was a great chaos in the elven clan, the elven holy tree was cut, and the elven clan's strength only fell sharply, and it continued to decline until it fell to the 33rd place in the Honghuang Wanzu list.

This shows that the importance of the Elven Holy Tree.

In addition, they also have the fairy princess Ling Yuwei.

In the battle of Taishang Xiancheng, Ling Yuwei showed a terrifying talent that was shocking and brilliant. She was able to compete with the Celestial Goddess of the Celestial Clan and reach a terrifying eleven-star combat power.

This kind of talent is the best in the elven clan. In the history of the elven clan, there has never been such an amazing arrogance.

In time, the elven princess Ling Yuwei will definitely become the pinnacle of the universe, and cultivate or even surpass the elder ancestors of all generations.

With these two blessings, it is not impossible for the elven tribe to reach its peak in the future, even one step closer.

A lot of hope appeared in the hopeless eyes of many elves.

In a short time, let them see Ling Yuwei and elven tree species, which is a great surprise for them.

"You, this is indeed the sacred tree seed, and this sacred tree seed is also given to us by Lu Ming."

Ling Yuwei shouted.

Everyone on the field was quiet, and their eyes turned to Lu Ming, a little unbelievable.

"Princess, this sacred tree seed was also given to us by Lu Ming? Really fake, don't you help him talk."

The old elder said.

They are all old rivers and lakes, can't you see that Ling Yuwei sings to the landing everywhere.

"It's true, you think about it. Where do I come from the seed of the sacred tree, if I had the seed of the sacred tree, I would have handed it over."

"Actually, in the assessment of the holy species that year, Lu Ming received a total of two seeds of the holy tree, one of which was given to my elven clan and the other one, which he kept."

"Now, because the elven holy tree we cultivated before has been cut off by the Celestial Clan, he gave us the second holy tree seed he collected to help us develop the elven clan."

Ling Yuwei said.

"It turns out so!"

The spirits of the elven clan felt very likely.

As Ling Yuwei said, if she had the sacred tree seeds, she had already cultivated them, why should she wait until now?

After all, sacred tree seeds can only have a great effect if they are cultivated as elven sacred trees. Individual sacred tree seeds are useless.

And Lu Ming was able to get one sacred tree seed, and it was not impossible to get two.

The elves were silent.

The seeds of the holy tree are what they desperately desire, but it is still impossible for them to let go of forgiveness and forgive Lu Ming.

"Yu Wei, now, let's cultivate the seeds of the holy tree into a holy tree of elves!"

At this time, Lu Ming, who had never spoken, suddenly spoke.

"Ah? What? Now?"

Ling Yuwei was stunned for a moment, gaping, watching Landing Ming.

What did Lu Ming say just now, will the seeds of the holy tree be cultivated into a holy tree of elves?

how can that be?

The holy tree seeds want to be cultivated into elven holy tree, but it is not so easy, the difficulty is very large, and the process is very complicated.

It is necessary to collect a large number of suitable natural materials and treasures and consume a lot of resources and energy to be able to cultivate success.

Now, only these people are left in the elven race. There are no treasures for cultivating the seeds of the sacred tree. No preparations have been done. How to cultivate the sacred tree?

Dare to love Lu Ming, I don't know the difficulty of cultivating the elven sacred tree. Is the cultivation of an elven sacred tree the same as ordinary trees?

Other elves are also a little dazed, and some even show ridicule.

"Of course it is now, go!"

After talking, Lu Ming took Ling Yuwei's little hand and flew towards the forest, and soon came to the center of the forest, landing on an open space below.

Many elven people also flew over to watch.

They wanted to see how Lu Ming nurtured the elven holy tree.

In their view, this is impossible.

I didn't do any preparation work, and I didn't have any materials for cultivating the elven sacred tree.
How to cultivate the elven sacred tree?

"Yu Wei, give me the seed of the Holy Tree."

Lu Ming said.

"Ok!"

Ling Yuwei nodded in a daze, and handed the seed of the Holy Tree to Lu Ming.

Lu Ming took the holy tree seeds, and then placed the holy tree seeds on the ground.

Then, a jade bottle appeared in Lu Ming's hand. When the jade bottle was opened, a green liquid flowed out and poured onto the seeds of the holy tree.

Buzz!

Suddenly, the sacred tree seeds seemed to tremble, as if to create a strong attraction to absorb those green liquids into the seeds.

Lu Ming keeps pouring out, and the seeds of the Holy Tree are constantly absorbed.

Soon, the jade bottle was empty, and all the green liquid was absorbed by the holy tree seeds.

At this moment, the seed of the holy tree shuddered again, and then exuded a dazzling radiance, an unimaginable life-like essence, which continued to diffuse.

Enveloped by this life spirit, the other trees in this forest began to grow crazy.

The ancient wood, which was only a few hundred meters high, grew madly and became thousands of meters high, several thousand meters high, and ten thousand meters high...

The diameter of trees is also increasing wildly.

"Revived, the sacred tree seeds have recovered."

The elves cried.

At the scene, all the elves were stunned.

Sacred tree seeds have actually recovered, how is this possible?

In particular, the elven races of several Divine Emperor Realms were even more shocked.

They clearly remember how much energy and cost the elves spent last time in order to restore the seeds of the Holy Tree.

And now, is it like this?

Chapter 4535: Make God Magic Water Make Miracles

The elves are a little dazed.

Lu Ming poured a bottle of green liquid and the seeds of the Holy Tree recovered?

It's too easy, it's easy to make people feel unreal.

"Look, the seed of the holy tree has taken root!"

Suddenly, there was another roar, spreading throughout the audience.

At this moment, the sky above this area was black and full of elves, all staring at the seeds of the holy tree.

The seeds of the holy tree have really germinated, and at the speed visible to the naked eye, stretched out from the seed wall of white and tender roots, plunged into the soil.

"Rooted, is it really rooted, you are sure that you read it right, please tell me!"

Some elves crowded out of sight and could not see it, eagerly wanting to know the seed of the holy tree.

"It really took root, ah, not only took root, but also sprouted, sprouted!"

"God, it really sprouted!"

Many elves cried out.

At this moment, several elven elders of the Divine Emperor Realm, as well as Ling Yuwei, all glared, staring at the Seed of the Holy Tree in a daze.

Because, the holy tree seeds are really taking root.

At the beginning, a spore grew, and then a few leaves protruded from the spore. The leaves grew up and grew rhizomes.

A small sapling appeared in front of everyone.

The growth rate is too fast, it's only a few minutes, the seeds of the holy tree have actually grown into small saplings.

The seed of the holy tree that has grown into a small sapling can no longer be called the seed of the holy tree. It can already be called the holy tree of elves.

Of course, this is just the beginning.

The saplings of Elven Holy Tree are still growing at an alarming rate.

Soon, it grew to one meter high, and the thumb was thick, but it was still growing, and the speed was amazing.

One meter high, two meters high, three meters high...

Ten meters high, twenty meters high, fifty meters high...

One hundred meters high, three hundred meters, eight hundred meters...

The crazy growth quickly reached a kilometer height, but it has not stopped.

Between heaven and earth, endless energy continuously flows towards the elven holy tree, and then, it turns into a strong and vital essence of life, exuding.

In the process of absorption and dissemination, the elven tree grows madly.

At this moment, there was no more noise at the scene, and all the elven clan raised their heads, staring at the elven sacred tree in a daze.

They were too shocked, and the shock was numb.

The thousand-meter-high elven sacred tree has surpassed the elven sacred tree cultivated by the elven tribes.

But that tree, the elf clan, with the power of the clan, spent endless effort, and it took almost a thousand years to cultivate to that level.

But now, only for a while, this elven holy tree surpassed the previous one.

Is this a dream?

But many elves have tried it, and sure this is definitely not a dream, but a real one.

The holy tree of elves is still growing.

Kilometers, three kilometers, ten thousand meters, fifty thousand meters...

In just three days, the holy tree of elves has grown to millions of meters in one fell swoop.

The diameter is even more amazing. The huge elven holy tree, from the bottom, can't see the top, covering the sky and covering the vast territory.

At this time, the growth rate of the Elven Holy Tree slowed down. Although it was still growing, it was much slower than before.

"It's amazing to create the magic water. No wonder Senior Feihuang said it will definitely make the seeds of the Holy Tree successful."

Lu Ming was also amazed.

That's right, Lu Ming used to find the treasure that Feihuang asked for is the creation of Shenshui.

Lu Ming had expected the attitude of the elven tribe long ago, so he planned to start with the seeds of the holy tree. If the seeds of the holy tree can be successfully cultivated, the impression of the elven tribe will surely change.

In doing so, he didn't really care what the elves thought of him, but he did care about Ling Yuwei.

Ling Yuwei was caught between him and the elves, and it was very difficult.

He was to make Ling Yuwei less embarrassed.

As soon as he talked about his thoughts, Feihuang gave Lu Ming a bottle of chemical water, saying that this was what she got from the ruins of the universe, enough to nurture the holy tree of elves.

Lu Ming had never imagined that the effect of creating Shenshui was so unfavorable.

Not only the cultivation is successful, but also the elven tree grows to millions of meters in one fell swoop.

The creation of Shenshui is simply a supreme treasure. Feihuang actually gave him so easily, and he was grateful for Feihuang.

"Ah, I broke through, my cultivation base broke through!"

"My cultivation base has also broken through!"

At this time, several exclamations broke the silence.

The holy tree of elves exudes a vast amount of life essence all the time. This life essence has been extremely helpful to the elven race. Only for such a period of time, some elven races have actually broken through.

Other elves have also observed their cultivation practices.

Those elf races with relatively low cultivation levels found that their cultivation levels were somewhat improved.

Of course, there are only a handful of people who break through, and those people are about to break through before. With the help of the Holy Tree of the Elves, they stimulate the blood and break through in one fell swoop.

However, such effects are already against the sky.

"Holy tree, the elf holy tree that is millions of meters high, my family, finally there is the holy tree!"

"My family's rise, just around the corner!"

Many elven people shivered with excitement, and some even left tears with excitement.

Ling Yuwei also shivered with excitement.

The elven sacred tree of millions of meters in height, although not yet fully mature, is also close, and the effect is already amazing.

This can be seen from the surrounding environment.

At this time, this forest has undergone earth-shaking changes.

There are huge ancient trees everywhere, life is full of vitality, all kinds of flowers are blooming, and even there are many magic medicines in the mountains and forests.

Not only that, the areas outside the forest also populated dense trees, growing at a rate visible to the naked eye.

The area of this forest is several times larger than before.

In this way, it is not impossible for this area to be transformed into the elven palace of the year.

"Lu Ming, thank you!"

Ling Yuwei looked at Lu Ming seriously.

"Thanks to me, this is what I should do."

Lu Ming smiled slightly.

"Oh, where did you get that kind of treasure?"

Ling Yuwei asked curiously.

"Of course I got it from the ruins of the universe. Since I left Taishang Xiancheng, I always feel sorry for you and went into the exploration of the ruins of the universe. , I have a great chance, and I really got a bottle of God-made water."

Lu Ming smiled and lied, his face was not red and his heart was not beating, just like it was.

"Shenhua Shenshui? Lu Ming, you must have suffered a lot in order to get it!"

Ling Yuwei's eyes were filled with emotion.

"Generally, it's worth it for you."

Lu Ming said affectionately.

Chapter 4536: Flying Phoenix

After listening to Ling Yuwei, she was moved to cry, and looked at Landing Ming affectionately, saying:
"Lu Ming, you treated me so well. I used to misunderstand you. I believe that the other elves will also be with you. Misunderstanding."

"It's okay, it doesn't matter if you misunderstand me all over the world, as long as you don't misunderstand me."

Lu Ming continued, he found that his skin was really thicker and thicker.

"Don't blame Dandan, who has been with him for a long time and was infected by him. I was originally a gentleman..."

Lu Ming enlightened himself.

In another area, inexplicably sneeze several times.

"Ma egg, that bastard... I'm yeah, which guy is saying bad things about me."

Dandan rubbed his nose and muttered uncomfortably.

In the area of the elven race, Ling Yuwei's heart completely melted, and he grasped the hand of Lu Ming affectionately.

At this moment, the elven tribe finally finally calmed down.

When they looked at Lu Ming again, their eyes had changed greatly from before.

Although it's still a bit ugly, it's a lot lighter.

Some people who already had a good impression of Lu Ming had even a hint of gratitude in their eyes.

The seeds of the holy tree are already extremely precious, but Lu Ming can send them out for free.

It's okay to say that the most important thing is that bottle of green liquid.

Even a fool now knows that the bottle of green liquid is absolutely supreme.

Otherwise, how can the sacred tree roots germinate and grow to millions of meters in a short period of time?

It should be known that the elven tribes used their best efforts and spent thousands of years to cultivate the elven sacred tree to a kilometer.

That has consumed countless resources.

The price of the bottle of green liquid can hardly be measured.

Lu Ming used it.

The most important thing is that with millions of meters of elven holy tree, the talents of elves will become higher and higher, and the speed of spiritual practice will also become stronger.

As long as you give them a period of time, the elves will flourish, and the population will grow more and more. One day, they will be able to return to their peak and embark on a prosperous road.

Because of Lu Ming, the elves have gone to destruction, and now they are brought to life.

The mood of the elves is complicated, but no matter what, they have changed a lot about Lu Ming.

"Yu Wei, you will stay here for the time being and help the tribe rebuild. Tell me anything at any time."

Lu Ming said.

"okay!"

Ling Yuwei nodded.

The elven tribe has just arrived and needs to be rebuilt. It does require her to take over the overall situation.

Lu Ming then returned to Lujia, Taixu Holy Land and others.

"Lu Ming, there are ten years left. During these ten years, you will accompany your family well. Ten years later, I will send you to practice."

Lu Ming flew halfway, and suddenly there was a voice in his ear, it was Feihuang's voice.

"Ten years to send you to practice? Senior, why?"

Lu Ming's spiritual consciousness issued a rhetorical question, he knew that Feihuang heard it.

"There is not much time, the war will start, you have to improve your strength as soon as possible, and now your strength is too weak."

Feihuang's voice continued to sound.

Lu Ming understands that the 'you' that Feihuang said should include Xie Nianqing, Qiuyue, Pantheon, etc., these top-level arrogances.

But what he didn't understand was, what did the war mean?

Is there a decisive battle against Tiangong?

So fast?

Therefore, he immediately asked: "Senior, do you want to fight Tiangong?"

"Specific things, I will tell you in ten years, I will prepare for these ten years, and you will accompany your family well, but it will not be so easy in the back..."

Feihuang's voice rang, and then fell deeper.

"Senior, senior..."

Lu Ming called continuously, and Feihuang was not responding.

Lu Ming frowned.

Even Feihuang is a little urgent, saying that the war is about to start, then the matter must be very serious.

The development of the matter was somewhat beyond Lu Ming's expectations.

Lu Ming originally thought that the decisive battle with Tiangong was not coming soon.

But listening to the meaning of Feihuang may not be able to wait too long.

Although Feihuang didn't say it, Lu Ming subconsciously thought that it was a decisive battle with Tiangong.

Honghuang Universe, in addition to the great enemy Tiangong, are there any other enemies?

With his heart in mind, Lu Mingfei came over and saw Xie Nianqing, Qiuyue, Pantheon, Dandan and Bubble.

Xie Nianqing, Qiuyue, Wanshen and others all had a heavy face. After seeing Lu Ming, Xie Nianqing asked, "Lu Ming, have you heard Master's voice?"

Xie Nianqing's previous life, Tang Qing, was a disciple of Feihuang, so Xie Nianqing also called Feihuang a master.

"I heard, but there is still ten years. In these ten years, we don't need to think about it, take a good rest!"

Lu Ming walked over, took the small hands of Xie Nianqing and Qiu Yue, and laughed.

He has to be relaxed, otherwise everyone will have a heavy heart, and it's not good.

...

The construction of a new place of residence is extremely fast. In just a few days, a huge city and huge buildings have appeared in this land.

The people of the Lu family, Huachi and his clan, Pang Shi and his clan, the Undead Demon King took his people, and the Thousand Saint Laotian King took his people...

These large and small branches will build a city, settle down here, and then start practicing, everything is on the right track.

"I don't know how long it can be too peaceful, but don't wait long, you will be forced to move again!"

Lu Ming pondered silently.

If a war breaks out, the station of the annihilation army will probably not be stable, and may fall into the flames of war.

But now I don't think much of it, I can only improve my strength as soon as possible.

Returning to Lu Ming, where he lived, Lu Ming began to practice. Every cell in his body, like a bottomless hole, constantly swallowed the energy between the world and absorbed the refining...

But after a while, Lu Ming stopped, revealing doubts.

"There is no slight improvement, it is the same as before..."

Lu Ming whispered.

He found that no matter how he absorbed the energy between refining and refining the heavens and the earth, the body of the taboo remained immobile, without any slight improvement.

He tried it before in the Honghuang Universe, and it was the same when he came to the Deva Force Station.

"Sure enough, as legend has it, the wilderness universe can only support the cultivation of souls to the first realm of the Divine Lord. This is the highest level that the wilderness universe can accommodate. It reaches the first realm of the Divine Lord. in order to."

"No wonder, all the powerful people of God's main realm will enter the ruins of the universe. Perhaps, there are environments or treasures in the ruins of the universe that can improve the main state of the gods."

"Senior Feihuang said to send us to practice in ten years, is it in the ruins of the universe?"

Lu Ming whispered.

The vast universe he mentioned refers to the starry universe controlled by the Tiangong, and does not include the ruins of the universe.

Chapter 4537: A future

In today's vast universe, the conditions are very limited. No matter whether it is divine energy or various kinds of magic medicines born, it is difficult to support the cultivation of God's main realm.

Those who want to continue to ascend and continue to climb the Divine Lord Realm will choose to enter the ruins of the universe.

This is the same whether it is the Tiangong, the various races of the universe, or the extermination of the heavenly army.

"Forget it, in the past ten years, I will accompany my father and mother, accompany Xiaoqing and Qiuyue."

Lu Ming smiled and stood up.

...

Afterwards, Lu Ming did not focus on cultivation. At most, he occasionally took Honghuangjie as a reference to learn about Honghuangshi. At other times, he was with his relatives and friends.

He will accompany Lu Yuntian and Li Pingyao's family, and will also accompany Xie Nianqing.

In addition, I will take time to instruct Lu Shenhuang, Lu Chi, and several other disciples to practice.

Speaking of a few disciples, Lu Ming felt ashamed. Since accepting them as disciples, he has not been too attentive to take the time to teach them.

All are traveling alone, taking risks, and practicing.

Most of the practice of several disciples is groping alone or instructing others.

So for this rare free time, Lu Ming often took time to concentrate on instructing Lu Xiangxiang, Ouyang Moli and others.

In the annihilation army station, the environment is much stronger than the Taixu dynasty. In addition, Lu Ming also has a lot of resources, and there are also Lu Ming personally instructed, several disciples, including Lu Shenhuang, Lu Chi's cultivation, They are all improving very fast and can be described in thousands of miles a day.

It didn't take long for Lu Chi and Ouyang Moli's cultivation practices to step into the realm of God King.

And Lu Xiangxiang, even broke twice, reaching the eighth of Shenwang.

Of course, their promotion has not stopped, and it is still improving rapidly.

In this way, ten years passed by quickly.

Ten years later, Lu Ming once again received a voice from Feihuang, letting him go to Feihuang's place of residence.

At the same time, Xie Nianqing, Qiuyue and others also received the message.

Lu Ming, Xie Nianqing and others went towards the place where Feihuang lived.

In the place where Feihuang lived, Lu Ming found that in addition to Xie Nianqing and Qiuyue, Ling Yuwei also came, and there were also pantheon, dandan, and bubble.

In addition to these people, there are others who are some of the top arrogance in the extermination army, such as Ye Ling.

Uh!

Shortly after their arrival, Lu Ming's figure appeared in front of them.

"This time let you come to send you to practice."

"However, each of you's practice site is different. According to your physique, your practice, the strength of control, etc., choose the most suitable practice site for you to maximize your potential. And will allow you to improve as soon as possible."

Flying Phoenix Road.

"Sure enough, will you go to a different venue."

Lu Ming whispered.

He had already guessed this.

Otherwise, Feihuang won't let him spend more time with his family, Xie Nianqing and Qiuyue.

"You guys, you have to improve your strength as soon as possible, and stay here forever. I'm afraid it won't take too long for the war to start."

Feihuang said.

"Senior, what do you mean the war is about to start? Do you want to fight Tiangong?"

It wasn't Lu Ming who asked the question, but an arrogant of the extinct army.

Almost everyone feels curious. This is what everyone cares about.

Feihuang was silent for a while and shook his head: "It's hard to say, it's unclear!"

Everyone said hello, what did Phoenix mean by this answer?

"To tell you the truth, more than ten years ago, I received a message from the taboo Jianzu. He said that he spied on a corner of the future. In the near future, there will be an unprecedented war."

Flying Phoenix Road.

"what?"

Everyone was shocked.

Taboo sword ancestors, they all know who it is, that is Tang Feng, an invincible figure, and also the leader of the extinct army.

He actually spied on a corner of the future, and there will be a war in the future.

Moreover, they also noticed that Feihuang used the word 'unprecedented'.

An unprecedented battle, it can be seen that this battle will be extremely tragic.

Everyone's face was dignified.

"Senior Feihuang, Senior Zuzu can say, who is our opponent? Should it be Tiangong?"

Someone asked again.

"Unclear, you have to be clear. Looking into the future is extremely difficult and dangerous."

"The past is irreversible, the future is full of infinite variables, and it is difficult to spy. Once spied, it will be terrified. Even the space-time spirit rat, which is claimed to be able to control time and space, is difficult to spy on the future."

"Moreover, the higher the peeping object is, the more difficult it is to pry. The more the number of creatures involved, the more difficult it is to spy. On the contrary, it is the future of an ordinary person, the better it is to spy."

Feihuang said seriously.

Everyone understands this.

An ordinary person with no practice has only a hundred years of life, and is good at spying on his future.

Let the time-space spirit rat mastering time and space go, and its future insight will be clear.

But if the target is to become a strong practitioner, it will be much harder. The higher the cultivation level, the harder it is.

The more involved, the harder it will be.

For example, if you want to gain insight into the future of an ethnic group, it is extremely difficult.

"Before, a splendid realm of space-time spirit rats used the technique of time and space to gain insight into the future of space-time spirit rats. He only got a glimpse of a blurry future. He was bitten and seriously injured. He has not recovered so far."

Flying Phoenix Road.

Everyone was shocked, the source of the space-time spirit rats, that is everyone in time, has mastered the origin of time, just want to spy on the future of the space-time spirit rats, have been hit hard, can imagine, spy on the future , How dangerous it is.

"Of course, the origin of the space-time spirit rat, through that obscure future, also knows that Tiangong may start against them, so they will want to cooperate with us in advance."

Flying Phoenix Road.

Lu Ming suddenly realized that he finally knew the family of space-time spirit rats, why he had long wanted to cooperate with the annihilation of the heavenly army, it turned out to be a glimpse of the future.

"I tell you this, to make you understand that it is harder to climb into the sky if you want to spy on the future, not to mention, Tang Feng spied on is related to the future of the entire universe, it is even more difficult."

"He is also under a special opportunity to get a glimpse of the future, but it is very vague. I only know that there are terrifying battles, extremely tragic, and countless people will die, but who the opponent is, it is difficult to see clearly."

Flying Phoenix Road.

"In addition to Tiangong, there are other opponents, it is estimated that they are going to fight Tiangong!"

"It is estimated that Tiangong is afraid, waiting to be surpassed by us, so I want to start stronger."

Several people were talking.

"Senior, demon, will it be our opponent?"

At this time, Lu Ming asked.

Chapter 4538: Have a place

demon?

Hearing Lu Ming's words, everyone stood quietly, revealing the color of thought.

"Demon? Shouldn't it be? The devil and the Celestial Clan are dead enemies. If they have common enemies with us, will they become our opponents?"

Someone asked.

"Lu Ming is right, demon, must guard."

Flying Phoenix said: "The devil is a demon after all, born brutal, violent, bloodthirsty, bloodthirsty, evil, and we cooperate with it only to contain the heavenly palace. In the face of demons, no one can say in the future, so it must be regarded as a potential enemy and must be guarded against."

Everyone nodded seriously.

If they really destroyed the Tiangong, I am afraid that there will be a battle with the devil.

Lu Ming frowned, feeling a little heavy in his heart.

Somehow, he always felt that things were not that simple.

Taboo sword ancestors, flying phoenixes, and they have not fought against Tiangong.

According to Xie Nianqing, there was a terrifying battle with the Tiangong before the sixty star years.

That battle was extremely tragic, countless people died, and countless masters fell.

The Tiangong Temple was even destroyed two.

Sixty star years ago, there were seven in Tiangong, but now there are only five left.

However, after taboo sword ancestor Tang Feng peeked into a corner of the future, he used 'previous actions' to describe the future war. It can be seen that the future war will definitely be more than sixty star years ago.

And now the strength of Tiangong is obviously not as strong as it was sixty star years ago. Is it really unprecedented to fight?

Could it be that the demons and the Huitian Temple joined forces to deal with them together?

Or is there an unimaginable master among the Celestial Clan?

Can't figure it out!

"Senior, did Senior Jianzu say, how long will the war break out?"

Asked every day.

"I'm not sure, it won't be more than one stellar year at the latest, the earliest, maybe after ten thousand years."

Flying Phoenix Road.

"At the earliest after ten thousand years!"

Everyone was shocked.

Ten thousand years, it is too short, they simply cannot reach the peak, and the time left for them is too short.

Everyone is praying in their hearts, I hope that the war will come later, preferably after a star year.

With their talents, if there is a stellar year, it is estimated that Dacheng can be achieved, and some people are breaking into the original realm, there is also a great possibility.

However, if there are only ten thousand years, it is too short.

"So, I want to send you to practice, time is pressing, you must increase your strength as soon as possible."

Flying Phoenix Road.

At this point, without flying phoenix, everyone has a strong sense of urgency in their hearts, and can't wait to quickly improve their strength in order to cope with the shocking battle that will erupt in the near future.

"Xie Nianqing, then I will send you to Wuquan Demon Abyss, which is the place where I practiced at that time. It is the most suitable place for you to go to practice, where you can ascend the fastest."

"However, it is only for you to go alone."

Flying Phoenix Road.

"Yes!"

Xie Nianqing nodded.

Then Feihuang's eyes turned to the gods: "Goddess, I will send you to the land where the gods fall. It is said that it is the place where the primitive gods bury their bones, and it is also the battlefield between the primitive gods and the Celestial Clan. There are a lot of primitive gods buried there, of course, there are also some dangers, and people of all ethnic groups in the universe will also go there to explore, you must be mentally prepared."

"Dangerous, best, I'm afraid it's just boring practice, how boring."

All gods smiled, full of war.

"Autumn Moon, you are the Sacred Heart of Nine Tricks, and I will send you the sea of Yuanxin, where your potential can be exploited to the fullest extent. Sacred Heart of Nine Tricks is not a trivial matter, and the potential contained cannot even be estimated by me. Since its appearance, including you, there have been only two cases."

Feihuang looked at Qiuyue.

Many people's eyes also looked at Qiuyue, showing envy.

Even Feihuang said it was inestimable, which is absolutely amazing.

"Senior Feihuang, I now have all nine tips, haven't the potential been developed to the strongest?"

Qiuyue asked curiously.

"The Nine Tricks of the Nine Trick Sacred Heart are fully opened, and they are just an entry."

Feihuangdao said, after a moment of thought, he said after a while, "Someone once found a manuscript in the ruins of the universe. There is only a few words in it, mentioning the Jiuqiao Sacred Heart. Physique and endless potential."

Everyone was shocked, and even Lu Ming looked at Qiuyue curiously.

Sacred Heart of Jiuqiao is actually a kind of anti-celestial physique of the last era.

This is beyond Lu Ming's expectations.

Since the birth of Honghuang Universe, including Qiuyue, there have been only two cases. This ratio is even more pitiful.

Qiuyue also flashed a hint of surprise, and she did not expect that Jiuqiao Sacred Heart and its potential had not yet been developed.

"Time and space spirit mouse bubble, next, I will take you to the space and time ocean, where it is best for you to practice."

"The world is full of turtles. Next, I will send you to the Wanhua Ruins. There should be the ruins left by the power of the last epoch formation method. The residual formations are extremely exquisite, enough for you to understand!"

"Fairy Princess Ling Yuwei, I will send you to the Palace of All Souls, which is most suitable for the cultivation of the blood of the elves!"

...

Next, Feihuang arranged one by one.

Each Tianjiao has a specific arrangement and has the most suitable venue for your cultivation.

It can be seen that Feihuang spent a lot of time in this period.

"These places are relatively safe, but these places are within the ruins of the universe. No one can guarantee 100% safety. There may be a crisis at any time, so when you practice yourself, must be careful."

"You hold this piece of jade. If you encounter a danger that is difficult to resist, or if you feel that you have enough cultivation, and you want to leave, you will crush this piece of jade. I will know."

Feihuang said, saying that in her body, there was a figure coming out constantly, all of which were the soul avatars of Feihuang.

A soul avatar walked to Xie Nianqing, waved his hand, took Xie Nianqing to the sky, and disappeared here.

A soul incarnate came to Qiuyue and left Qiuyue with him.

Every soul incarnation will take away one person.

Soon, there was only one person left on the scene, that was Lu Ming, standing there alone.

Of course, there is Flying Phoenix.

Lu Ming dumbfounded, and asked after a while: "That one, Senior Feihuang, where do I go to practice?"

Everyone has a place to go, and he is the only one who has not been arranged.

"You, I don't know where to send you to practice."

Feihuang said helplessly.

"No place for me?"

Lu Ming asked a little speechlessly.

"Indeed, there is no place that is particularly suitable for your cultivation. The taboo body is relatively special. Simple closed-door cultivation is difficult to break through. It must be in actual combat and face a crisis in order to continue to break through and improve."

Flying Phoenix Road.

Chapter 4539: Six opportunities in the ruins of the universe

"So, I can only go out and travel by myself?"

Lu Ming said.

"Not bad!"

"And, with your current cultivation practice, it is possible to enter the ruins of the universe and take risks. I can recommend you a few places."

Flying Phoenix Road.

"Senior, please say."

Lu Ming said.

"Before that, you should have a general understanding of the ruins of the universe, and also, what are the chances of the ruins of the universe, you should also be clear in your heart."

Flying Phoenix Road.

"Seniors ask for advice!"

Lu Ming looked humbly for advice.

"The chances of the ruins of the universe mainly include six categories."

"First, there are weapons. The ruins of the universe were left over from the last epoch war. There are too many years in the past. There are not many things that can experience such long years without decay. Those weapons of insufficient rank, such as and The equivalent weapon of the main-level magic soldier will decay after such a long time!"

"The only thing that can be preserved all the time is the active soldier."

"To practice together, no matter what kind of power you cultivate, whether it is the power of taboo, or the power of heaven, or divine power, or the practice of Qi in the last era, the cultivation is the same in the end, and you have to return to the original source."

"So, the last epoch was also a source-level magician. It may not be called this way in the previous epoch, but it is similar to the current source-level magical soldier, and it contains the original source."

"Actually, most of the source-level magic soldiers used by many powerful people in the original universe in the universe are obtained from the ruins of the universe. They are refined by the day after tomorrow, and the number is relatively small."

Feihuang explained in detail.

Hearing Feihuang's explanation of the source-level magic soldier, Lu Ming understood the truth.

That is, no matter what power you cultivate, in the end, you must reach the state of origin.

"However, in the ruins of the universe, there are more broken source-level magic soldiers, which are easier to obtain, and complete source-level magic soldiers are extremely rare."

"Of course, the broken source-level magic soldiers are also very precious. The materials contained in them are all capable of creating source-level magic soldiers. Once encountered, they should not be missed."

Flying Phoenix Road.

Lu Ming nodded naturally.

He certainly won't miss the broken source-level magic soldier, but he has the big stomach king of balls, even if he does not extract the materials inside, he can also be used to feed the balls.

"Next, there is the second type of opportunity, and the most widely distributed and easily obtained ruins of the universe, that is, all kinds of precious ore, metal and other refinery materials."

"In the last era, the wild continent was shattered and divided into countless pieces, forming countless small continents among the ruins of the universe, and those precious refining materials are hidden in these continents."

"These refinery materials will not decay, and any continent in the ruins of the universe may have it."

"You also know that today's wilderness universe has too low a level, and it will be difficult to enter once the cultivation reaches the weight of the Divine Lord."

"For the same reason, the refining materials contained in the vast universe are not advanced, and the refining materials capable of refining the main level of magical soldiers are extremely rare, even rare."

"And the materials that can refine the source-level magic soldiers are even scarcer, and almost no more."

"In the ruins of the universe, there are a lot of high-grade refining materials. Nowadays, most of the main-level magic soldiers in the refining of the universe are from the ruins of the universe. The source-level magic soldiers in the refining are even more so."

"Of course, there are higher grade refining materials in the ruins of the universe. Once you encounter such refining materials, you must not miss them."

Speaking of flying phoenix here, without stopping, he continued: "The third type of opportunity is all kinds of classics."

"The ruins of the universe were left over from the last era. It is naturally impossible for ordinary books to be preserved for such a long period of time. However, some books made by special methods, or some books made by special materials, or in some special places, there is the protection of immortal power, but it can be preserved."

"According to these classics, we can discover the style of the last era and understand some things of the previous era. In fact, some of our understanding of the previous era comes from these classics."

"Of course, it is also possible to get the cultivation method left over from the last era, that is, practice Qi.

"Some Qi practice techniques are extremely mysterious and terrifying, for example, the technique of cutting off three corpses that I passed on to you is the Qi practice technique I got in the ruins of the universe."

"The technique of chopping three corpses is actually the Qi practice of the last era!"

Hearing Feihuang's explanation, Lu Ming shook hard in his heart.

"Next, there is the fourth kind of opportunity, which is some natural treasures, such as the magical waters I gave you before, but this kind of treasures are very few, mainly because the ruins of the universe have experienced fierce battles, and various rules and meanings, It's incredibly chaotic. It's hard to breed such a treasure of heaven and earth that contains the essence of life, purely by chance."

"The fifth type of opportunity is the most important goal for all the powerful gods to enter the ruins of the universe, that is Hong Huangjing."

"Hong Huangjing?"

Lu Ming wondered.

"There is a great waste gas in the fairy city of Taishang, which is completely different from the spirit of the vast wasteland universe. It is more advanced than the spirit, that is, the gas of heaven and earth contained in the vast wasteland of the last era, which can quickly improve the cultivation."

"And nowadays, there are few places in the ruins of the universe where there is flood gas, but when the flood gas is thick to a certain degree, Hong Huang crystal will be formed, which is buried underground like the spirit stone and the **** crystal."

"These Honghuangjing crystals were condensed when they were in the Honghuang Continent and buried in pieces of continental debris. The energy contained in the Honghuang Jing is not comparable to that of the Honghuang Dan in the Fairy City. It is much richer than that. Crystal cultivation can quickly improve cultivation."

"The God of Honghuang Universe enters the ruins of the universe to take risks. The main goal is Honghuangjing. With Honghuangjing, you can continuously improve your cultivation behavior."

"And the role of Hong Huangjing will be greater for you. You already have the original seed and the direction is clear. You don't need to spend your time to find the direction. As long as you continue to refine Hong Huangjing, you can improve the cultivation. So, enter the ruins of the universe, Your primary goal is Hong Huangjing."

Flying Phoenix Road.

"It turns out that the promotion of God's main realm relies on Hong Huangjing."

Lu Ming finally understood that it is no wonder that all the existence of God's main land must enter the ruins of the universe to travel adventures, just to find Hong Huangjing.

Of course, if someone keeps providing you with Honghuangjing, then you can also improve your cultivation performance while staying in the Honghuang universe.

"This is the fifth type of opportunity, and finally the sixth type of opportunity, and the most important opportunity. The most crazy opportunity is the treasure containing the imprint of the origin."

Flying Phoenix Road.

"Treasure containing the imprint of the origin? What is that? Related to the origin?"

Lu Ming asked curiously.

Chapter 4540: Selected adventure area

"You guessed it. The treasure containing the imprint of the origin is indeed related to the origin. The existence of the origin wants to improve cultivation. One is to rely on your own talents to understand the origin, but that is too slow. If there is an origin. The imprinted treasure can directly absorb the original imprint in the treasure, which can directly promote the existence of the original environment."

Flying Phoenix Road.

Lu Ming was shocked that it could help the existence of treasures in the source environment to be improved and cultivated. This is absolutely precious. The strong people in the source environment will break their heads and compete.

No wonder Feihuang said that this is the most important opportunity in the six categories.

The essence of practitioners is to cultivate behavior.

Cultivation for improvement is the biggest gain.

However, all the treasures that can improve the cultivation are extremely precious, not to mention the treasures that promote the strongest in the realm.

If you get a piece and sell it to the strongman in the original source, you will sell a sky-high price.

"So, if you get it, you can keep it, and it will be of great use when you reach the original state in the future, but the treasure containing the imprint of the original is extremely rare and rare. Otherwise, the existence of the original state in the universe is cultivated as It will not be so difficult to improve."

Flying Phoenix Road.

Lu Ming nodded, and he knew that the more precious the treasure, the harder it was to get, and the rarer it was.

"Okay, these are the six kinds of opportunities in the ruins of the universe. That's all. Let me talk to you about the dangers that the ruins of the universe will encounter."

"The ruins of the universe were formed by the explosion of the Honghuang Continent in the last era. It can be said that it is an ancient battlefield. In the ruins of the universe, the rules are extremely chaotic. Therefore, it is difficult to breed a large number of creatures, and there is no strong ethnic group. "

"However, there are exceptions. The most existing in the ruins of the universe are all kinds of insects. The insects have tenacious vitality. Some even inherited the blood of the previous era. They can continue to multiply under the chaotic rules. Therefore, in the universe Be careful of all kinds of insects in the ruins. Some extremely desolate continents may live with some terrible insects."

"Some insects are extremely scary. There was once a strong man in the original place who was stung to death by a mosquito."

Flying Phoenix Road.

Lu Ming was dumbfounded.

The strong man with the original origin was stung to death by a mosquito in the ruins of the universe?

What kind of mosquito is that so scary?

"The first thing is to be careful of all kinds of bugs. The other is that the ruins of the universe were the battlefield of the last era. There have been countless strong men who died in battle, so they will also evolve a lot of strange things, so some places you feel strange and weird. It's better not to go, that kind of place is often very dangerous, and there are also a few of the origins that have fallen for this reason in history."

"Of course, the most important thing is to be careful of the strong in Tiangong. This is the biggest crisis."

Feihuang said while Lu Ming nodded.

"However, the ruins of the universe have changed a lot in the last few decades, and the original chaotic rules have gradually become orderly, so some continent fragments have also spawned some creatures, some ethnic groups, can I know how to practice, but the time is too short. These ethnic groups have not yet developed. There are not many strong people, but I am not afraid."

"Of course, there are still a lot of introductions about the ruins of the universe. I have a jade jade here. There are more introductions to the ruins of the universe. You can take a look."

After Feihuang finished speaking, a jade slip appeared in his hand and handed it to Lu Ming.

Lu Ming took it, sinking his spiritual knowledge into it, and soon remembered the contents of the jade jade.

Many of the introductions about the ruins of the universe surprised Lu Ming. I felt that I had been sitting in the sky before, and this time I greatly increased my knowledge.

"Okay, basic, I told you, next, I want you to choose the place to go to the adventure. I have a few areas here. You can choose it yourself."

A jade symbol appeared in Feihuang's hand. The jade symbol glowed, and a huge pattern appeared in the air.

"This is a map of the ruins of the universe. Of course it is incomplete. Only a part of it. The ruins of the universe are extremely large. Since the endless years, the Tiangong, or all the tribes of the universe, or our total annihilation of the universe, we have also explored the ruins of the universe. One of the territories and two thirds of the territories belong to unknown territories."

"The area where the light above shines belongs to the explored area..."

Feihuang introduced.

Lu Ming was shocked.

How many years have passed so far? It took so many years for the combined powerhouses of the Tiangong, the various races of the universe, and the annihilation of the universe to explore the one-third area of the ruins of the universe, and two-thirds of them are unknown. This is really amazing.

This shows that the ruins of the universe are really immense, and there is one more, the ruins of the universe are very dangerous.

Otherwise, with the Shou Yuan coexisting with the universe in the original source, the ruins of the universe can be explored no matter how big it is.

It is mainly too dangerous. You must be careful and cautious when exploring. Naturally, the speed is very slow.

"We also divided the ruins of the universe into small areas. These areas are very far apart from each other, and there is a long void space between them. This is similar to the star fields of the Honghuang Universe. Between different star fields, there will be The long dark void..."

"Of course, the area of each small area is much larger than the star field of the Honghuang Universe!"

Feihuang explained.

Lu Ming took a closer look, and really saw that on the map, it was divided into a small area and a small area. Between each area, there was a very long void space.

"Each area has different sizes, different characteristics, and different species. Of course, the dangers are also different. The closer to the depths of the universe, the more dangerous."

"The areas I recommend to you are relatively close to the outer periphery of the ruins of the universe. It is suitable for your current cultivation adventure. You see, this area has some poisonous insects, but it is also rich in some refinery materials. , I destroy the heavenly army, there are a lot of people exploring and traveling there, and it can also help you a bit, how?"

Feihuang pointed to an area nearer to the periphery.

Lu Ming looked at it and finally shook his head.

Flying Phoenix introduced again: "This area, called the Six Snakes Zone, has little exploration..."

Next, Feihuang introduced three or five regions in a row, all of which are more suitable for Lu Ming to go to now.

"This area, called the Tianxing District, is an area that has just been developed. It is basically occupied by the people in the Tiangong. I destroy the heavenly army, and only a few people are active..."

Feihuang continued to introduce.

When introducing Daotianxing District, Lu Ming's eyes lit up.

"Okay, I chose to go to Tianxing District!"

Lu Ming said.

"Are you going to the Tianxing District? Most of the activities here are of the Celestial Clan. Once you are in danger, you can't find a helper."

Flying Phoenix Road.

"Without a helper, I can inspire my greatest potential. Also, they are all human races, so I can kill and be happy..."

A cold light flashed in Lu Ming's eyes.
