

D Emperor 4541

Chapter 4541: First entry into the ruins of the universe

Lu Ming chose the Star Zone, there is another reason, that is, the Star Zone is newly developed, has not yet been detected, which also means more opportunities.

If the area that has been discovered for a long time has already been explored thousands of times, what chance is there?

Especially Hong Huangjing.

The main goal of Lu Ming's trip is Hong Huangjing, which can quickly improve his cultivation.

Treasures containing the imprint of the origin, although precious, are not able to be absorbed by the cultivation base and cannot be absorbed, and can only be dazzled.

At present, Hong Huangjing is the most practical for Lu Ming.

"Okay, since you have chosen it, let's go. Your cultivation is different. You need to experience life and death in order to continue to improve. Therefore, my soul incarnation will not help you, encounter danger, You need to solve it yourself, understand?"

Feihuang said with a solemn expression.

"understand!"

Lu Ming nodded.

"Okay, you bring this map with you, and this array of exploration of metal materials, you can take it with you, you can go!"

Flying Phoenix Road.

"Thank you senior!"

Lu Ming took the map and the battlefield and left without any extra words.

Before coming here, he had said goodbye to his parents, disciples, and friends, so there was no need to say goodbye. After leaving Feihuang's place of residence, Lu Ming flew directly into the depths of the universe ruins.

"Cosmic ruins!"

Looking at the dark and silent ruins of the universe, Lu Ming's eyes showed expectant colors.

This is his real sense. For the first time to enter the cosmic ruin exploration adventure, I can't help but look forward to it. What will meet him?

The Star Zone, compared with the Destroyer's station, is naturally deeper in the ruins of the universe, separated by several other areas.

Want to go to the star area, the distance is very far away.

And Lu Ming's plan to cross other regions, he plans to move forward from the void space between the regions.

Relatively speaking, there is no space in the void, and there are no debris from the wilderness of the continent. It will not breed some evil existence, and there are no bugs, so it is safer.

Masters of the Honghuang Universe generally want to go to a certain area, and they are walking in the void space between the areas, because walking in the void space, without worrying about being attacked by other creatures, can increase the speed to the extreme.

There are no wormholes in the ruins of the universe.

Because the rules here are confusing, even though the rules of the ruins of the universe seem to have stabilized a lot since the last few decades, but it is also difficult to open a wormhole.

Even the strongest of the space-time spirit rats, it is difficult to open wormholes across the area in the ruins of the universe.

Therefore, in the ruins of the universe, you can only fly on your own.

Lu Ming has now reached the realm of God, which is too fast, and can cross a star field in one step. However, the ruins of the universe are too big and too large to be much larger than the Honghuang Universe. Any area is more than a star in the Honghuang Universe. The domain is many times larger.

At Lu Ming's speed, he flew with all his strength, and it took seven days to arrive at the Star Zone.

Lu Ming did not hesitate and rushed into the territory of the Star Zone.

As soon as you enter the star zone, you will be able to float a continent in the sky every time you fly.

These continents are all the debris of the wilderness continent of that year, ranging in size.

The small ones are only a few thousand kilometers, and the big ones are endless, and there are many more than the life planet.

"The view of the ruins of the universe is really different from the vast universe."

Lu Ming looked while flying.

There are no planets in the ruins of the universe, and only fragments of the mainland.

And the light source here is not stars, but rivers.

Yes, the river, the river full of flames, runs through the void.

Some rivers, which stretch for an infinite distance, are comparable to a star river in the vast universe.

From a distance, it really looks like a river flowing in the void, very spectacular.

But as it approaches, it is an astonishingly high temperature, which is a thousand times more terrible than a star.

The light source of the ruins of the universe relies on this flaming river. I don't know how this flaming river formed.

"The continent ahead is good, go check it out!"

Lu Ming's eyes moved and he saw a huge continent floating ahead.

The area of this continent is comparable to a life planet.

Lu Mingfei passed by, his breath converged, and stood above the mainland to observe to see if there was any danger.

"There is no death, no life, no plants, there should be no danger."

Lu Ming whispered, then landed on the mainland.

This continent, a piece of silence, looked in the dark, all a dark stone.

"This vast expanse of continent, if you want to explore whether there are precious metal mines, how easy it is!"

Lu Ming took out the position that Feihuang gave him and sighed.

The array that Feihuang gave him, called the gold search array, can detect whether there are precious metal mines within a certain range.

The gold hunt is almost necessary to find the treasures of the ruins of the universe. When you come to the strange land, you can use it to find precious metal veins.

However, the scope of the gold search is very limited.

Feihuang's gold-seeking array is considered top-level, but it can only explore areas within a thousand miles.

More than 10,000 miles, it is difficult to detect.

How long does it take to probe such a large continent?

Lu Ming shook his head. He didn't specialize in mining. Naturally, it would not take so long to detect the presence of metal mines.

If it takes a few months to probe, there is no precious metal mine at all, is it not a loss?

"Lu Ming, such things as the exploration of metal mines, let me give it to me, why not use what position?"

At this point, the ball opened its mouth.

"Ball, how long can you finish exploring such a big continent?"

Lu Ming asked.

"An hour is enough!"

The ball fairway is proud.

"An hour, good!"

Lu Ming couldn't help being overjoyed.

If you can find some metal materials that can refine the main-level magic soldiers, even the source-level magic soldiers, that is also a big gain.

After all, in the vast universe, whether it is the main level or the source level, it is a scarce item.

Moreover, Lu Ming knows that among the Sky Destroyer, there is a master of refinery capable of refining source-level magic soldiers, and there is a primitive realm.

Although the success rate is very low, as long as there are enough refining materials, it will always succeed.

And since the joining of the world turtle family, the grasp of refining source-level magic soldiers has greatly increased.

The world turtle is proficient in the rune formation, and the rune formation is the foundation of the refiner.

Therefore, there are many masters of refining equipment in the world of turtles.

According to Dandan, an ancestor of the world turtle family can also refine source-level magic soldiers.

In this way, there are two Master Masters who can refine the source-level Divine Soldiers, as long as there are enough materials, they can still be successfully refined.

As for the main level of soldiers, the success rate is even higher.

Chapter 4542: Conditions for ball breakthrough

Regardless of whether it is a master level or a source level, it is naturally more beneficial, even if Lu Ming can't use it himself, it can also be sold to other masters of the annihilation.

After all, a war will break out in the future, a source-level magic soldier can add a lot of combat power to a strong person in the original realm.

Moreover, Lu Ming desperately wants to get some source class warriors of War Class A.

After seeing the source-level Divine Warframe of Ye Chutianji, Lu Ming has never forgotten the source-level Divine Warframe, and his defense is too strong.

If you can wear this kind of armor, you will definitely have to improve your life-saving ability in future battles.

He wanted his friends and relatives to wear such armor.

Speaking of Ye Chu Tianji's source-level Divine Warframe, Lu Ming had also asked the refining master of the world's turtle family to ask if he could repair it.

The answer given by the other party is that it can be repaired, but it lacks two precious metal materials.

Materials that can repair the source-level Divine Soldier's armor are naturally very precious, and they can only be found in the ruins of the universe.

This time coming to the ruins of the universe, Lu Ming also wants to try his luck to see if he can find the metal materials to repair the source-level Divine Soldier's armor.

"Lu Ming, you are waiting for me."

After the ball was over, he flew out of Lu Ming's hands and flew away.

"Ball, once you meet other creatures, return immediately!"

Lu Ming informed.

"rest assured!"

The ball said, the figure has disappeared.

Lu Ming waited on the spot.

But within half an hour, the ball returned.

"Lu Ming, I found a place with a metal mine underground."

Ball fairway.

"really have!"

Lu Ming was overjoyed.

Immediately, Lu Ming followed the ball and came to a mountain.

The mountain is actually a raised rock without any plants on it.

"I sensed that there is a metal mine under this mountain peak, Lu Ming, you wait for me, I will go and see."

After the ball was finished, he plunged into the mountain, the rock was like tofu, and a big hole was dug by the ball.

After about ten minutes, the ball flew out of the big hole again.

His body became a big round ball, his mouth wide open, and a mass of metal flew out of his mouth.

With a bang, the mass of metal hit the ground. There was a person tall and extremely heavy, and the ground rumbling and blasting.

"This is purple smoke and gold!"

Lu Ming's eyes moved.

In the ten years since the Destruction of the Celestial Army, Lu Ming was not in vain. He also read many classics and learned about some high-grade metal materials.

Ziyan Liujin is a very high-grade metal material that can be used to refine the main level of magical soldiers.

It is already very precious to be able to refine the materials of the main level magic soldiers.

After so much effort, the ball actually made such a big ball.

"Lu Ming, there is indeed a small piece of this metal ore vein below. I just ate a lot of them. These were all purified by me."

Ball fairway.

Lu Ming nodded, and naturally understood that this was purified from the ball, otherwise, but how can metal mine be so pure? There must be a lot of impurities.

"Ball, why don't you eat it?"

Lu Ming asked curiously.

With the nature of the ball, with such advanced metal materials in front of him, will he not eat it, and will he spit it out honestly?

"There are too many impurities in my body, and it takes time to digest slowly. I can't eat other metal materials."

Ball asked, bitterly.

"Is there too much impurities, is it because of the broken source level soldiers I ate before?"

Lu Ming asked.

The ball has eaten so many broken source-level magic soldiers and broken main-level magic soldiers, and the cultivation is actually the Divine Emperor Nine Heavy, and they have not broken through the Divine Lord. This is not normal.

According to Lu Ming's inference, the ball should have broken through the main realm of God, and even the cultivation base should have surpassed Lu Ming.

"Yes, not only the broken source-level **** soldiers, but also the broken main-level **** soldiers. If you eat too much, you will leave impurities. There was nothing before. When my cultivation practice reached the Divine Emperor Jiuzhong, it was too late because of too many impurities. Can't evolve late."

The ball said bitterly.

"Then how can impurities be removed?"

Lu Ming asked.

"If you want to remove impurities, there are two ways. One way is to slowly remove it by myself, but this method takes a very long time. According to my estimation, it will take at least tens of thousands of years."

"The other is to find a precious metal material, ice, fire, and silver."

Ball fairway.

"Ice Martian Silver is the necessary material for refining source-level magic soldiers, Ice Martian Silver?"

Lu Ming asked.

"Yes, that's the kind of ice, fire, and silver."

The ball nodded.

Lu Ming frowned.

Ice, Mars and Silver are not so easy to obtain and extremely precious.

Because the masters of refining in today's vast universe want to refine source-level magic soldiers, they must use ice, fire and silver.

Ice, Mars and Silver have an extremely special effect, that is, they can reconcile a variety of different refining materials, so that these different refining materials can be melted together in a perfect way.

In this way, the success rate of refining source-level magic soldiers will be greatly improved.

For example, when the Master Master of Refining the Heavenly Army, when refining the source-level Divine Soldier, if ice, fire, and silver were added, the success rate of refining the source-level Divine Soldier would be about 20%.

If there is no ice, fire and silver, the success rate of refining source-level magic soldiers is less than half of Chengdu.

Yes, even the top refiner master in the universe, the success rate of refining source-level magic soldiers is so low.

Originally, it was already difficult to make up the materials for refining a source-level militia. Finally, it was difficult to get them together, and they could be used for refining, maybe they still failed.

Let precious refinery materials be turned into waste products.

But this is also something that cannot be done. It is too difficult to find intact source-level magic soldiers in the ruins of the universe.

Therefore, the source-level magic soldiers in the universe are so rare, and only those with great chances can obtain them. Even if there are some strong players in the source environment, there is no source-level magic soldiers in their hands.

In this way, it seems that the ice and fire star silver is precious. After all, in the process of refining the source-level **** soldiers, the ice and fire star silver is added, and the success can be improved by more than 15%.

The ball ball, if you want to quickly refine the impurities in the body, you need Ice, Mars and Silver.

"Probably how much?"

Lu Ming asked.

"It takes about ten pounds!"

Ball fairway.

wire...

Lu Ming took a breath.

Ten catties, too much.

For other precious metal materials, as long as the size of a fingernail, it may be hundreds of thousands of pounds, millions of pounds.

However, Ice, Mars and Silver are different.

A fist-sized piece of ice, fire, and silver is only about one gram in weight.

As far as Lu Ming knows, to refine a source-level magic soldier, just add a pound of ice, fire, and silver.

Ten kilograms of ice, fire, and silver, but it can refine the amount of ten source-level magic soldiers.

The ball also knows the rareness of ice, fire, silver, and can only cry with a sad face, saying: "It seems that I can only grind slowly and spend tens of thousands of years to refine it. After tens of thousands of years, I don't know how many Xiuwei was thrown out by you. There is a street."

Chapter 4543: A continent with plants

"It's okay, take your time!"

Lu Ming touched the chubby head of the ball to comfort him.

"Oh!"

The ball continued to grieve.

"Ball, go, continue mining, I will keep these metals, and wait for you to break through the main realm of God, then I will give you to eat."

Lu Ming inspired the ball.

Of course, he wouldn't keep the ball. After he went back, he took out the refiner.

Of course, the ball needs motivation.

"Ok!"

Sure enough, the ball came alive and burrowed into the ground again and dug desperately.

Lu Ming walked along the tunnel dug by the ball and went inside to watch it.

Underground, it turned out to be all purple ore with purple smoke and gold ore.

I saw the ball's body became huge, opened its mouth wide, and swallowed a large amount of the world to the stomach. After a while, he puffed out the impurities and left it in his mouth. It's all pure purple smoke and gold.

"It's really comfortable to bring the ball to the ruins of the universe. Even if the other gains are small, the metal materials will definitely have a big gain."

Lu Ming smiled slightly.

"Unfortunately, if the ball reaches the Divine Realm, the ability to mine the mineral veins and purify the metal, it will be greatly improved."

Lu Ming sighed again.

The ball continued to dig and purify the ore, and he worked very hard, because these Lu Ming would help him to save, and later all belong to him, he naturally worked hard.

Lu Ming returned to the ground, sat cross-legged, and began to practice.

Although I can't improve my cultivation at the moment, I can learn about the 'flood style'.

In addition, you can also learn the word of war.

In Lu Ming's cultivation process, half a month passed.

In half a month, the ball has completely hollowed out this small underground vein, purifying more than 100 million kilograms of purple smoke.

More than 100 million kilograms of purple smoke and gold are enough to refine ten master soldiers.

Of course, it is impossible to use only one kind of material for a main-level **** soldier, but also need to match other precious materials, but this is also a big gain.

After digging out this vein, the ball explored the continent again, and no other findings were found.

Then the two left the continent and continued to travel.

Lu Ming doesn't have a goal, as long as he sees a continent that feels okay, go up and see.

If you want to gain something, you still have to rely on chance and luck.

It is said that the practitioners of the last era like to open the practice caves in famous mountains and rivers everywhere.

The flooded continent of the last era had countless powerful cave houses, which were later shattered. Some cave houses may have been preserved and distributed among various continents.

If a cave house left by a strong man from the last era is found in a piece of continental debris, there may be amazing discoveries.

Historically, there have been many such examples.

Therefore, the ruins of the universe are an endless treasure trove, waiting for human excavation, and also attracting countless masters into it.

But Lu Ming's luck seemed to run out.

Over the next few months, he and the ball continuously explored dozens of continents, and found no major discoveries.

There are a few continents, but they contain metal ore veins, but that metal is relatively low-level and can only be refined into Divine Emperor-level Divine Soldiers, or Divine Emperor-level Divine Soldiers.

This kind of metal, Lu Ming is naturally disregarded, and too lazy to spend time for the ball to dig.

It wasn't until three months later that Lu Ming and them found another precious metal on the continent, a metal capable of refining the main-level magic soldier.

The ball took more than ten days to dig out the metal here.

In the past few months, Lu Ming has not encountered any danger, nor encountered any creatures, and naturally, has not touched the people in Tiangong.

"This ruin of the universe is really desolate!"

Lu Ming whispered in his heart, but thought of another problem that shocked him.

That was the war of the last era.

The battle of the last epoch actually shattered the vast expanse of continents, which is incredible.

With the deepening of understanding of the ruins of the universe, Lu Mingyue felt horrified.

The ruins of the universe are too large, and there are countless continental fragments. How big will these continental fragments condense together? How magnificent will it be?

What kind of existence and what kind of combat power can explode that magnificent continent?

Anyway, the existence of the origin is impossible.

Not to mention, the existence of the original source environment, even a planet such as the Dragon Mother Star, cannot be exploded, not to mention the wild land of the last era.

And after the explosion, since the endless years, the rules and regulations have been confusing, and it has only slowly recovered in the last dozens of star years.

The impact of a war on such a long period of time is also amazing.

The more I think about it, the more I feel that the last era is like a bottomless hole, unfathomable, and like a mist, it is difficult to get a glimpse of it.

Shake his head and throw these complicated thoughts out of his mind.

"That is..."

Suddenly, Lu Ming's eyes lit up.

Because he saw a continent in front of his right, so huge that it was bigger than any continent he had encountered before.

And there are plants on this continent.

A dark plant with dark leaves.

Lu Ming flew quickly and looked far away. Sure enough, many parts of this continent were covered with a dark plant.

"This continent is actually bred of plants, and its products must be very rich. I wonder if there will be Honghuangjing?"

Lu Ming's eyes lit up.

Hong Huangjing contains powerful energy, and it will also be emitted to nourish everything.

There are a lot of plants here, maybe it contains Honghuangjing.

However, there may be plants that might breed some terrible bugs. Lu Ming was careful and converged, and came over a forest. The spiritual consciousness emanated and enveloped the forest, and observed carefully.

"There are no creatures!"

After a while, Lu Ming whispered.

This forest has only plants and no creatures.

However, Lu Ming did not put down his alertness. After all, this is a ruin of the universe. Any place can be full of crises. Historically, I don't know how many masters fell into the universe.

Naturally, Lu Ming will not take it lightly, he continues to probe with spiritual consciousness while flying.

However, Lu Ming explored a large area and still found no creatures.

Lu Ming then let go of some caution.

Perhaps this continent has only bred plants and has not yet bred other creatures.

"Ball, you go down and check if there are metal mines. By the way, look for Honghuangjing. I will also look for Honghuangjing."

Lu Ming said.

"Okay, leave it to me."

After the ball was over, he flew out and probed along the ground.

Lu Ming flew in another direction.

Hong Huangjing can only rely on his induction.

Where there is Hong Huangjing, the energy of heaven and earth must be abnormal. It is not difficult to sense it.

Lu Ming flies while sensing, but unfortunately, he flew a small half of the continent and found nothing abnormal.

But at this time the news came from the ball, and it was rewarding.

Chapter 4544: Hei Tian Yuan Jin

Hearing the news from the ball, Lu Ming flew past.

"Lu Ming, I found a mine underground here. I feel that the metal in the mine here is very advanced. I am drooling."

The ball shouted, flying around the ground, very excited.

"Very advanced? More advanced than what I encountered before?"

Lu Ming moved quickly and asked quickly.

"Yes, all of them are advanced, and many are advanced. They look so delicious!"

The ball shouted excitedly.

"Go, go and see!"

Lu Ming couldn't wait.

It is higher than the metal found before, is it possible to refine the materials of source-level magic soldiers?

Lu Ming walked down the ball hole along the ball.

This time, the hole dug by the ball was very deep. Lu Ming felt that he had been flying down hundreds of thousands of miles and finally reached his destination.

"this is..."

He found that the earth was deep in the earth, and it was painted black. From a distance, it looked like a dark night.

"Is this the Heitianyuan gold ore?"

Lu Ming's heartbeat accelerated.

Hei Tian Yuan Gold is an important material capable of refining source-level magic soldiers, and one of the two most important materials for refining source-level magic soldiers.

Another material is called red blood source gold.

As long as there is enough black sky source gold and red blood source gold, plus some other materials that are not so high, you can refine the source-level magic soldier.

Of course, if ice, fire, and silver are added, the success rate will be higher.

This is the top **** gold for refining source-level magic soldiers. Unexpectedly, he really encountered such a big piece.

"Ball, purify some and show it to me!"

Lu Ming said.

Without purification, the ore alone cannot be accurately judged.

"Okay, but the metal content in this ore is extremely low. Purification is not as simple as it takes a little time."

After talking, the ball opened his mouth wide, biting the black ore,

Large pieces of ore were swallowed into the mouth.

However, it can be clearly seen that the ball bite the ore at a rate not as fast as before. Lu Ming tried it and found that the black ore was extremely hard. Lu Ming's palm was like a knife, cut on the ore, and he could only cut his palm. A small piece of size.

Lu Ming is now giving his full strength, sharper than some of the main level soldiers, and can only cut a small piece.

You know, this is just the ore, not the purified metal, it is so hard.

No wonder the ball bite is much slower.

After more than two hours, the ball swallowed about one hundred cubic meters of ore, then stopped and began to purify it.

It took a whole day for the ball to spit out a large amount of impurities, and then a piece of metal the size of a longan flew out of the ball's mouth.

Lu Ming grabbed it and shook his arm.

Good weight!

A piece of metal the size of a longan, Lu Ming felt like he had caught a planet.

"It is Hei Tian Yuan Gold, and indeed it is true, it is Hei Tian Yuan Gold, ha ha ha, really rich!"

Lu Ming was ecstatic.

"Lu Ming, what is this metal called, it feels really delicious, but I dare not eat it now, you keep it for me, wait for me to refine the impurities, and then give it to me."

Ball fairway.

"This is called Hei Tian Yuan Jin, rest assured, I will keep it for you!"

Lu Ming laughed, the old gangster who laughed.

It is a pity that the pure ball, where you can see it, is very exciting immediately.

"This metal grade is too high, and I am very slow to purify it. If I fix it higher, it will be faster. Lu Ming, you have to wait for me more."

Ball fairway.

"It's okay, it doesn't matter if you wait more."

Lu Ming said.

"Okay, I'm going to do a big fight."

The ball thumped out excitedly, biting the ore.

"Ball, do your best, I will find some broken source level soldiers to compensate you later."

Lu Ming murmured.

Such precious metal materials are naturally not allowed to be eaten by the ball.

The black sky source gold is extremely hard. If you collect the red blood source level, add ice, fire star silver, and other materials, you can find the master refiner and refine the source level warrior armor.

The broken source-level magic soldier, although it also contains precious materials, needs to be purified. The average person can't do it. It still needs the kind of top-level refiner master to do it. It's too troublesome.

It's better to forget the ball.

This time, the ball gnawed thousands of cubic meters of ore at a time before it began to be purified.

Lu Ming sat cross-legged in the same place and realized the Honghuang style.

Hong Huangjie hovered above Lu Ming's head, and spiritual knowledge entered the interior of Hong Huangjie, watching the mountains and continents inside Hong Huangjie.

The Honghuangjie may indeed be made from a piece of debris from the Honghuang Continent in the last era, and it is still intact, which is completely different from the debris in the ruins of the universe.

You can get a glimpse of the style of the flooded mainland in the last era.

Taking this as a contrast, Lu Ming often has a new understanding of the "flood style".

In a blink of an eye, in the past ten days or so, the ball eventually purified the ore it had eaten before, and obtained a bowl of black Tianyuan gold.

"Yes, yes, there are ten pieces of black sky source gold of this size, which is enough to refine a source-level magic soldier."

Lu Mingxi smiled and put this group of Hei Tianyuan gold into the Honghuang ring.

Such precious treasures are naturally more reassuring in the famine.

The ball rushed out again, nibbling up the Heitianyuan gold ore, and Lu Ming continued to practice.

However, after a few hours, the ball was heard.

"Lu Ming, Lu Ming, come and see what this is?"

Cried the ball.

Lu Ming finished his practice, his body flashed, appeared beside the ball, and looked towards the front.

"That is..."

Lu Ming was shocked.

On the ore wall covered with tooth marks, an egg-sized crystal was inlaid.

The crystal became milky white, and Lu Ming could feel that the crystal contained rich and incomparable energy, and the crystal also had a trace of energy constantly diffused out.

Lu Ming is too familiar with this kind of energy. In that year, in Taishang Xiancheng, he refined a lot.

Famine!

Yes, the energy diffused from this spar is the flood gas.

Well, this crystal is Hong Huangjing.

Lu Ming's eyes were extremely bright, and he never expected that Hong Hejing was contained in the black ore source gold ore.

He speculated that there should be Honghuangjing in this continent, otherwise it would not breed so many plants.

But he had never found it before. Unexpectedly, Hong Huangjie was actually caught in Heitianyuan gold ore.

Lu Ming's palm was like a knife, and he shot continuously, chopping on that piece of ore, and fell this piece of ore, along with Honghuangjing.

Then the edge of the ore was broken away, and a complete Honghuang crystal appeared in Lu Ming's hands.

Just holding it in hand, you can feel the surging and pure energy inside.

Chapter 4545: uninvited guest

"Ball, you continue to purify Hei Tian Yuan Gold. If you find this spar, tell me."

Lu Ming urged the ball and sat cross-legged.

He is ready to start absorbing this Honghuangjing cultivation, to see if Honghuangjing's effect is good or not.

Holding Hong Huangjing in both hands, the power of taboo operation generates a strong attraction.

Huh...

In Honghuangjing, there was actually a sound like a wind, and then strong and pure energy continuously poured into Lu Ming's body.

"Good pure energy, like Hong Huangdan..."

Lu Ming showed a beam of joy.

The energy in Honghuangjing is similar to Honghuangdan in Taishang Xiancheng. They are extremely pure and very easy to absorb refining.

However, the energy in Hong Huangjing is much stronger than that of Hong Huangdan, and I don't know how many times.

The incomparable energy, such as the water of the big river, is continuously injected into Lu Ming's body, and then refined by Lu Ming to be transformed into a taboo force.

It took Lu Ming about an hour to use up all the energy of a wild crystal.

"My cultivation practice really improved a bit, Hong Huangjing, really mysterious."

Lu Ming secretly looked at his cultivation behavior, revealing a fierce desire for Hong Huangjing.

It was just a Honghuangjing, which made Lu Ming's cultivation improved a little bit. Of course, there is still a long distance from the God Master.

God's main realm, the promotion of a new cultivation practice, the energy required is massive.

Not to mention, Lu Ming's taboo body, the energy required to promote a recultivation is even more terrifying.

However, Lu Ming estimates that it only takes about one hundred pieces of Honghuangjing, and his cultivation can be promoted to the peak of the **** master.

As for the number of Honghuangjing needed to break through the duality of Divine Lord, it is not easy to estimate.

"Hopefully, there will be more Honghuangjing in this area."

Lu Ming showed his expectation and waited while comprehending.

However, the ball chewed hundreds of cubic meters of ore again, and no second Honghuang crystal was found, which made Lu Ming a little disappointed.

"Is there only one piece of Honghuangjing here?"

Lu Ming frowned.

But it's useless to be anxious. You can only wait for the ball to be purified and continue to dig.

It is impossible to dig by himself. The ore is too hard and the efficiency is too low.

After spending a day, the ball spit out a bowl of Hei Tianyuan gold, and he continued to nibble Hei Tianyuan gold.

This time it didn't take long for the ball to scream again, because another piece of Honghuangjing was found.

Lu Ming was overjoyed.

It seems that in this area, there is more than one crystal, but how fast it is, but the distribution is more scattered.

Taking Hong Huangjing down, Lu Ming continued to absorb refining.

Treasures such as Hong Huangjing do not need to be stored. They must be refined when they are obtained. Only when they are transformed into their own strength can their value be realized.

Soon, Lu Ming absorbed and refined the second piece of Honghuangjing, and Xiuwei took another step forward.

In this way, the ball was digging ore, refining the ore, and Lu Ming was practicing while waiting.

Soon, Lu Ming and Qiuqiu spent two years here.

In two years, the amount of black sky source gold purified from the ball was enough to refine four source-level magic soldiers.

And Lu Ming, got a total of more than 50 pieces of Hong Huangjing, after all refining, his cultivation has been greatly improved, from the peak of the Divine Lord, closer and closer.

"The ball estimates that about half of this black sky source gold ore, if there are Honghuang crystals distributed, about 50 Honghuang crystals can be obtained, which is enough to upgrade my cultivation to the weight of Divine Lord. Peak."

Lu Ming smiled.

It is only a few years since it entered the ruins of the universe, and it is definitely a great chance to have such a harvest.

In a few years, I got so many Honghuangjing crystals, and so much black Tianyuan gold. If I let the existence of other gods' realm know, my envious eyes would turn purple.

You know, although the ruins of the universe are a treasure house, containing endless treasures and opportunities, it is really too big, let alone anything else, just a piece of continental debris, the area is amazing.

It is also very difficult to find treasures in the vast ruins of the universe.

Many people wander through the ruins of the universe for tens of thousands to hundreds of thousands of years, often without gain.

Lu Ming also owns the ball to have such a harvest.

The ball is extremely sensitive to metal materials, ores, etc. Even if it is hidden hundreds of thousands of miles deep underground, it can be sensed.

However, if the phoenix handed over to Lu Ming to induce the array of metal materials, it could not sense such a deep area at all.

If there is no ball, Lu Ming can't find the Hei Tian Yuan Jin and Hong Huang Jing here.

Unless Lu Ming spends a lot of time, digging holes here and continually digging holes along the ground, but then, the time will be calculated in thousands of years.

As before, Lu Ming waited for the ball while comprehending the Honghuang style and tactics.

At this time, a group of people appeared over the continent.

There are more than a dozen people, and they are actually human races.

As soon as dozens of human races came over the mainland, they looked around.

"Plants bred from this continent are very likely to contain Honghuangjing!"

One of the celestial beings said, this person has a high nose bridge, a wide chin, and a fierce flash of light flashed between the eyes.

"But this continent is so big, it is very difficult to find it."

Another middle-aged Dahan Dao of a human race.

"Whether it is difficult or not, once it is discovered, it is a big harvest. Let's scatter and find it. Maybe we can find precious metal materials."

The old Tianren clan with a tall nose bridge smiled, and then ordered the other Clan clan to scatter and explore.

There are more than ten Tianren tribes, each with an array in their hands. It was made by the master smelter of Tiangong and used exclusively for the exploration of metal materials.

More than a dozen human races scattered across the mainland and began to explore.

In a blink of an eye, a few days ago, more than a dozen human races found nothing.

"Is this continent without any precious metals and Honghuangjing? It shouldn't be. Is it hidden deep underground, just deep underground, if you want to find it, it will be difficult."

The old man of the Celestial Clan with a tall nose bridge frowned while flying.

Suddenly, he took out a piece of jade rune, which is a sound-transmitting jade rune. He received the news just now.

When the fantasy **** jade enters the ruins of the universe, it loses its function, and the Celestial Clan can only use the sound-transmitting jade to perform short-distance sound transmission.

"I found it!"

The eyes of the Tianren elders with high noses brightened, and then flew towards the north.

After a while, they came over a dense forest.

"What did you find?"

The elders of the Tianren tribe with high nose bridges could not wait to ask.

At this moment, dozens of other human races have gathered here.

"Adult, when I was exploring, I found a cave under the forest, which seemed to have been dug artificially."

One of the Tianren races reported.

Chapter 4546: Lurking in secret

"Cave, have you already been the first to get in? Take me to see!"

The bridge of the nose stood tall against the eyes.

"Yes!"

The Celestial Clan nodded before and took everyone off the forest to a grass.

Sure enough, there was a cave among the grass.

This cave is exactly the hole dug by the ball.

"It looks like this cave has just been dug out soon, and the time will definitely not exceed ten years."

The middle-aged Dahan Dao of the Celestial Clan.

Among the dozen or so human races, the middle-aged man of this race and the old man with a tall nose are obviously the head.

"I don't know who it is. We are one step ahead of us, is it our own people, the people who destroy the heavenly army, or people of other races?"

The old man with a tall nose bridge said.

"If there is really metal ore underneath, the other party did not leave so quickly, let's go down and see."

The eyes of the middle-aged man of the Celestial family flashed cold.

"Good, let's see!"

"Several of you, stay outside, others, come in with us!"

The old man with a tall nose bridge commanded.

They were a group of thirteen people, leaving three people waiting outside, and the remaining ten people flew into the mine.

The mine hole is straight down, ten astral clan convergent breath, fell carefully, and at the same time various weapons appeared in the hand, ready to shoot at any time.

The Star Zone, although it is a newly developed area by the Celestial Clan, cannot guarantee that no one else will come in.

Under the mine, if it is the Celestial Clan, or people of other races, it is okay to say, if they are the people who destroy the Heavenly Army, then they will start directly.

Under the mine, Lu Ming is still practicing with his eyes closed.

Suddenly, Lu Ming suddenly opened his eyes.

Someone, come down!

Lu Ming's spiritual consciousness is extremely keen. Although the people of the Celestial Clan converged, he was still felt by him.

"Ball, come here, someone comes!"

Lu Ming conveys sound with spiritual knowledge.

Uh!

The ball flew back to Lu Ming's side like a flash of lightning, and then wriggled quickly on Lu Ming's body, turning into an armor covering Lu Ming's whole body.

Then, Lu Ming's body flashed and came to the ore wall on the side. His body was directly integrated into the ore wall and completely integrated with the surrounding Heitianyuan gold ore.

This is of course the special ability of the ball, which can completely integrate the body into the metal or metal ore without any flaws.

The ball wrapped Lu Ming and had a similar effect.

At the same time, Lu Ming performed a great hidden technique to converge his breath.

Just after Lu Ming hid, ten Celestial Clan came here.

As soon as the ten human races arrived, they made a defensive posture and glanced.

"no one!"

"There is no one. Has the person left?"

"A huge mine hole actually digs out such a large space. This is definitely not something that can be done in ten years. Is there a lot of people on the other side?"

"It looks like a tooth mark, strange, what did the other person use to dig?"

After looking at these human races these days, there was a lot of discussion.

For more than two years, this piece of ore has been eaten by the ball for more than half, and a huge underground space has appeared.

"Don't let your guard down. Obviously the ore here hasn't been excavated. How can the other party leave easily, maybe it's hidden in the dark and can't be taken lightly."

The old man with a tall nose bridge sneered, glanced around, and glanced around.

Other celestial beings also carefully looked around, and the spiritual consciousness emanated, looking carefully.

However, nothing was found.

Lu Ming was not found.

"Nobody!"

"Perhaps, the other party really left because of something urgent!"

The guards in the hearts of more than ten Celestials finally loosened.

This is true even for the elders of the Celestial Clan with a tall nose.

"What metal ore is this?"

At this time, these human races finally focused their attention on the ore.

When they watched carefully, their eyes suddenly widened, and their heartbeats accelerated, revealing a very surprised look.

"These... seem to be the ore of Hei Tian Yuan gold."

"Yes, it is really the ore of Hei Tianyuan Gold, yes, I saw it that year!"

"So many black Tianyuan gold ores, made, we made!"

Those celestial beings are ecstatic.

Even the two Celestials headed, the old man with a tall nose and the big man, were all ecstatic, and their breathing was a bit heavy.

This is Heitianyuan gold ore, even if it is not purified, it is worthless if taken out.

"Unfortunately, unfortunately, Heitianyuan gold ore was actually dug so much."

Subsequently, these days, the human race is heartbroken.

Keng!

An old man took out a shovel and began to dig.

However, this person's shovel fell on the ore, digging out the sonorous sound, and Mars was shining, but only left a shallow trace on the ore.

This person's cultivation behavior is only Divine Emperor Jiuzhong, which cannot be dug at all.

"Hei Tianyuan gold ore is extremely hard. Only with the existence of God's main realm and special tools can you dig it. Don't think about it, keep it here obediently, we will give you some later."

The big man headed grinned.

The existence of those Divine Emperor Realms was sullen.

Secretly, Lu Ming has been observing ten Celestial Clan.

"Two Divine Lords are fourfold, one Divine Lord is threefold, one Divine Lord is twofold, six Divine Emperors are ninefold..."

Lu Ming meditated in his heart, his face dignified.

The opponent's strength is extremely powerful.

The six elder emperors of the heaven and human race, Nine Heavy, can be ignored.

But the existence of the four divine realms is not to be underestimated.

The opponent is a Celestial Clan, and its combat power is more powerful than that of ordinary races.

Especially the two master masters of the four gods gave Lu Ming a strong pressure.

"Hei Tian Yuan Jin, I definitely can't give up. These human races must be removed."

Lu Ming meditation.

Heitianyuan gold, but an exclusive material for refining source-level magic soldiers, is too rare and precious, and Lu Ming does not want to give up.

The remaining Heitianyuan gold ore was purified, enough to refine two source-level magic soldiers.

Moreover, the Heitianyuan gold ore also contains Honghuangjing.

However, the two Divine Lords are fourfold, which is very difficult to deal with.

"My advantage is that the other party didn't find me. If I get upset, and suddenly attack, kill, or seriously injure a master of the four gods, I may not have a chance."

Lu Ming analysts' combat power on both sides.

If two masters of the four gods and gods join forces, Lu Ming may not be the opponent.

But if one can get rid of one at the beginning, and only deal with one, Lu Ming is still quite certain.

As long as the opponent is not of that kind of perverted level.

His hole card is the power of the source. If it is used, with the God of War gun, to deal with one of them, he is still sure.

Determined, Lu Ming began to brew, and the taboo power in his body began to work, ready to take out the God of War gun at any time.

But at this time, the old man of the Celestial Clan with a tall nose bridge suddenly turned around, gazing like electricity, glancing around.

Chapter 4547: Was found

The old man of Tianren family with a tall nose bridge seemed to find something, his eyes were like electricity, and he glanced around.

Lu Ming was shocked and quickly stopped the operation of the taboo force, converging the breath to the extreme.

It is worthy of being the strong master of the fourfold of the Divine Lord, and his spiritual sense is extremely keen. Lu Ming has just run the power of taboo.

"Ye Chu Gong Zang, what did you find?"

The big man asked.

"I suddenly noticed something wrong and felt a crisis."

The old man of the Tianren race with a tall nose bridge said that his name was Yechu Gongzang.

"A sense of crisis? But here, there are no other creatures?"

The Dahan Dao headed, his spiritual consciousness, is obviously not as good as Ye Chugong.

"It's better to be careful. After all, the ore here only digs out part of the other side and left. You know, this is Heitianyuan gold ore..."

Ye Chugong said.

Such precious ore, no one would think too much, but only a part of the ore was dug away, it is obviously very wrong.

"You are right, this matter is really weird, but it cannot be ruled out that the other party is really in a hurry before leaving, but be careful to make the Wannian ship, the six of you, carefully search around one side, one inch by one, but see if there is No abnormalities, or any hidden formation..."

The big man headed, ordered the old men of the six Divine Emperor Realms.

"Yes!"

Six Celestial Clan elders of the Divine Emperor Realm took orders, and then came to this underground space, where they were inspected inch by inch.

They are afraid that someone will lay a hidden formation in a corner, and someone will be hidden in the dark.

One of the elders of the Celestial Clan quickly approached Lu Ming. He patted the wall with his hands constantly, injecting the power of heaven.

Once there is any formation, it will definitely react.

"Ball, we hide a little behind."

Lu Ming secretly communicates with the ball.

The ball hits with a landing sound, and moves silently in the ore, and has been deep into the ore for hundreds of meters.

The Divine Emperor Jiuzhong's Celestial Clan checked Lu Ming just there and found nothing.

After the person left, the ball with a landing sound, and then came out, floating on the surface of the ore, so that Lu Ming can better observe the opponent.

Not long afterwards, the six Tianren races turned this space, one inch by one inch, and found them all, and found nothing.

"Ye Chu Gong Zang, it seems that you are more attentive. Such a meticulous search, if someone is hidden in the dark, we will have been found out."

The big man headed smiled.

Ye Chu Gong Zang also nodded without saying much.

"Let's start mining, such a hard ore, but it takes a short time."

Dahan Dao, headed by a shovel appeared in his hand, started to dig.

The other two human races of the God Realm also began to dig.

Ye Chugong's eyes flickered a few times, shook his head and smiled, said: "It seems that I am more attentive!"

After that, a shovel appeared in his hand, ready to start mining.

But at this moment, Ye Chugong's footsteps suddenly stepped, his body was like a lightning, and he rushed towards a wall on the side. The direction he rushed to was a hidden place in Lu Ming.

In the process of rushing out, the shovel in his hand has disappeared and replaced by a spear.

The sharp spear, covered with the power of the strongest sky, pierced Lu Ming.

This scene greatly exceeded Lu Ming's expectations.

Lu Ming really thought that the other party did not find him, and he felt a little slack in his heart. Unexpectedly, the other party would suddenly be in trouble.

At this time, I want to let the ball take him deep into the ore. It is too late to make a hard connection.

"Ball, don't shoot!"

Lu Ming shouted, his arms shuddered, shocked the ball, and then punched out.

The ball is just a Divine Emperor Realm. He doesn't need the ball to help him resist the opponent's attack. The difference is too great. Although the ball is powerful, it is also very likely to be killed by the opponent.

boom!

Lu Ming bombarded the opponent's spear with a punch, and a violent roar erupted, and the entire mine shook violently, and this trick also flew out Lu Ming, gliding along the mine wall, A blood hole appeared in the fist, and even the bone was pierced, and blood was flowing.

Just now, the opponent was accumulating a blow, and he, just hurriedly, was naturally not an opponent.

"What? Someone really!"

At this time, other Celestials also reacted, and the masters of the three gods stopped to dig, and a strong breath covered Lu Ming.

"God Lord is so important that it can stop me, boy, your strength is good, wrong, you, you are Lu Ming!"

Ye Chugong said coldly at first, but immediately, he recognized Lu Ming and raised his voice.

Before, Lu Ming had been alone in this mine, and naturally he wouldn't always use big mimicry to hide his identity.

So, they were recognized by the other party at a glance.

"Really Lu Ming!"

"Hahaha, I didn't expect that I would meet him here. As long as he wins him, Master Tianzun will definitely be rewarded."

Several other masters of God's main realm were ecstatic.

Especially the four-layered lord of the Divine Lord, who was all smiles and fiery eyes.

Now, Lu Ming is a fragrant steamed bun in the eyes of the Celestial Clan. If anyone can win Lu Ming, he will be able to reach the sky in one step.

But Lu Ming has been hiding in the annihilation station, even though countless masters in Tiangong want to win Lu Ming, there is no alternative.

But they did not expect to meet Lu Ming here.

"How did you find me?"

Lu Ming stared at Ye Chu Gong Zang and said.

"I didn't find you. I just felt a killer leaked from this place before. I was a man with a serious suspicion, so I tried it out. I didn't expect that someone really was hiding here, and it was you Lu Ming. ..."

Ye Chu Gong Zang said, moving his body close to the opening of the mine above his head to prevent Lu Ming from escaping.

"This guy, really thoughtful..."

Lu Ming frowned.

He did have this plan. If he lost, he would retreat first.

But the opponent has blocked the retreat, and that can only be done.

"First try the combat power of these people, if it is not too evil, maybe you can still fight!"

Lu Mingsi, the forbidden power in his body is running wildly, and the God of War gun is also in his hands. Moreover, the war word tactic has triggered seven times the combat power and is trying to trigger the eighth combat power.

"What are you doing so much nonsense with him? Kill!"

The big man headed shouted, and his burly body pressed against Lu Ming like a mountain. In his hand, a golden hammer appeared, and he blasted down the head of Landing Ming.

Above the sledgehammer, covered with a layer of gray power, that is one of the powers of the heavenly heaven.

"Broken sky!!"

Lu Ming took a drink, and the God of War spear burst out, stabbing on the golden hammer.

Chapter 4548: God of War IV

The God of War spear pierced the opponent's golden warhammer, bursting into earth-shattering roar, violent energy, sweeping in all directions.

"not good!"

In this excavated underground space, there are six masters of Divine Emperor Jiuzhong, and his face is wildly changed at this time.

Four of them backed away frantically, trying to avoid the swept of strength, and two of them were smarter. Instead of backing up, they rushed to Yechu Gongzang.

"come here!"

Ye Chu Gong Zang shouted, the power broke out, and the masters of the two Divine Emperor Jiu Zhong were enveloped in, but the other four Divine Emperor Jiu Zhong masters wanted to rush over, it was too late.

The violent energy swept through all directions, and the masters of the four Divine Emperors and Nine Heavys were instantly shrouded in. They desperately resisted, but it was useless. The strength of the collision between Lu Ming and the man of the Celestial Race was too strong.

Ahhhh...

Four consecutive screams, the existence of the four Divine Emperors Nine Heavy, the body in a terrible energy, turned into ashes.

The two masters who were sheltered by Ye Chugong were pale, sweating and sweating, and they were terrified.

If it wasn't their timely response just now, so will their end.

This is the reason why immortals fight and mortals suffer.

"You go out and keep the hole!"

Ye Chu Gong Zang commanded the existence of two divine emperors Jiu Zhong.

Anyway, they would not be able to help the Emperor Realm in this kind of existing war. Staying here would hinder their hands.

"Yes!"

The existence of the two Divine Emperor Jiu Zhong was also unwilling, and flew to the upper hole quickly, and left here.

bump! bump! bump!

Lu Ming's collision with the Celestial Clan Han ended with Lu Ming falling downwind. Lu Ming's body shook and continued to retreat. He retreated for more than ten steps to stabilize his body.

"Boy, die for me!"

After seeing Lu Ming repulsed with a blow, the Celestial Clan had more confidence, roared loudly, brandished a warhammer, and continued to kill Ming Landing.

The warhammer, like a hill, pressed against Lu Ming.

"when!"

Lu Ming resisted a move and continued on his hind legs.

The Celestial Clan, the offensive is like a storm, pouring down towards the landing.

In a blink of an eye, the two sides confronted a dozen moves.

Every move is due to Lu Ming falling downwind. After more than a dozen moves, Lu Ming has stepped back under the wall.

"Hahaha, Lu Ming, die!"

The middle-aged man of the Celestial Clan laughed and raised his strength to the extreme. He hit the landing with a hammer and wanted to kill Lu Ming completely.

"Humph, if you want to kill me, you are not qualified!"

Lu Ming snorted coldly, the God of War gun buzzed, and the splendid spear burst out, stabbing at the Celestial Clan.

when!

The two made another confrontation, but this time, Lu Ming's figure only took two steps back, and the figure of the Celestial Clan also took a step back.

Although Lu Ming still fell in the downside with this trick, it only fell a bit downwind. The gap is not so big.

Because at this time, the warfare tactics eight times the combat power, has triggered success.

I have to say that the fighting power of the middle-aged man of the Celestial Clan is really amazing, and it is even stronger than that of Naye Wu.

Of course, in the same level of World War I, Yewu is naturally stronger, but at the beginning, Yewu was only the triple cultivation of the Divine Lord, and he was stripped of a half-stripe of taboo power. In that state, Yewu, the combat power is not as good as the Heavenly Human of.

Therefore, he only had the upper hand in the battle with Lu Ming.

"Boy, you still hide strength? Even if you hide strength, it's useless, you still have to die, kill!"

The Celestial Clan roared, and they madly killed Lu Ming.

Ye Chu Gong Zang, there are two other gods' realms that are still there. They blocked the exit, fearing Lu Ming would take the opportunity to escape.

The main thing is that they think that a big man of the Celestial Clan is enough to solve Lu Ming.

"Honghuang style!"

This time, Lu Ming suspended the God of War guns in the air, and his hands quickly printed, and a continent emerged.

For more than ten years, Lu Ming was free, he would use the Honghuangjie as a reference to understand the Honghuang style, and the effect was very good. Now he is exhibiting a wild style, the mountains and rivers above are much clearer than before.

Power has also been a lot stronger.

Lu Ming condensed the area of the flood-prone continent to about 100 meters. Such power is most concentrated.

The Honghuang Continent suppressed the Celestial Clan and brought a violent vigor and amazing power.

The Celestial Clan wields the golden warhammer and bombards the wilderness continent, bursting into a roar of thunder and violent vigor, even making the other Celestial Clan powerful person with a double god, unable to stabilize his body, resisting with all his strength and constantly retreating. .

Eventually, a crack appeared on the flood-prone continent. The crack continued to expand and eventually burst.

However, the middle-aged man of the Celestial Clan was also blocked. The golden warhammer was bounced back for the first time. The Celestial Clan looked pale and showed shock.

This time, Lu Ming actually completely blocked his attack.

This is unbelievable, Lu Ming is only the main point of Divine Lord.

"This Lu Ming..."

Ye Chugong concealed a few people, and was shocked. Then, it was a full-blown murderous opportunity.

They finally understood why Lu Ming was listed as a must-have by the high-level officials of Tiangong. This kid is really terrifying and evil.

"The two of you, shoot together, I will assist you from a distance!"

Ye Chugong conveyed the existence of the other two **** realms.

He also wanted to shoot, but he had to block the hole, fearing Lu Ming to escape.

But before Ye Chugong hid them, Lu Ming had already shot.

Lu Ming continued to play a flood of wild style, a continent suppressed toward the Celestial Dahan, and he held the Ares gun, the guns united, and stabbed towards the Celestial Dahan.

"Tianli condenses and gasifies the soldiers!"

The Celestial Crow shouted and was shrouded in the power of the Most Powerful Heaven. Around his body, nine golden warhammers condensed.

With his previous one, there are ten golden warhammers.

One of them is a master magician, and the other is a kind of attack of the power of the sky.

Brush brush!

A total of five golden warhammers flew into the air and blew towards the Honghuang Continent. Eventually, the five Warhammers and the Honghuang Continent all exploded and disappeared into energy.

The other five warhammers flew to the sharp thorns.

boom!

The first warhammer soon collided with the gun, but at the moment of the collision, the warhammer was pierced, and then pierced the second warhammer. The same was true for the second warhammer, which hardly resisted for a moment. Was also pierced.

The face of the Celestial Clan changed wildly, and there was a deep incredible in his eyes.

Because he found that Lu Ming's attack power is stronger than ever before, and it is much stronger.

"No, this is the power of the origin."

At the next moment, the Celestial Clan screamed.

Chapter 4549: Siege

That's right, Lu Ming's move has already used the original power.

The power of the original seeds all poured into the God of War guns, which allowed the God of War guns to recover some of their power. With Lu Ming's own power, the attack power was already amazing.

In the face of Lu Ming's attack, the war hammer condensed by the Celestial Clan was completely vulnerable.

In an instant, the four warhammers all collapsed under the attack of the gun.

what!

The Celestial Clan shouted, wielding the last warhammer, the warhammer of the main level soldier, and wanted to block Lu Ming's attack.

when!

The God of War gun, stabbed on the Warhammer, exploded in a roar of shock, terrifying strength, like waves, wave after wave, sweeping in all directions, so that this underground space shook violently.

Fortunately, here is surrounded by the ore of Hei Tian Yuan Gold, which is extremely hard. The aftermath of their war has only left a mark on Hei Tian Yuan Gold, but it has not destroyed it.

If it is ordinary stone ore or the like, it has been turned into ashes by the terrible aftermath.

Click!

After the violent roar, sounds like fragments of porcelain came out.

Nothing else, but from the golden warhammer in the hands of the Celestial Clan. At this moment, a crack appeared on the Warhammer of the Celestial Clan.

And the cracks were rapidly increasing. At the last touch, the entire Golden Warhammer exploded.

A top-level master soldier was just shattered.

Celestial man, almost scared to death, his eyes suddenly burst out.

The God of War guns continued to pierce the eyebrows of the Celestial Clan.

Just when the God of War gun was about to stab the eyebrows of the Celestial Clan, the other side's eyebrows suddenly shined brightly, and a jade rune emerged, and endless runes permeated.

The God of War spear was stabbed on these runes, and the offensive of the God of War spear was stopped.

The Celestial Clan, who took the opportunity to retreat madly, wanted to escape.

However, that piece of jade only blocked the God of War gun for a few moments, and was also pierced. A terrible ray of guns continued to pierce the Celestial Clan.

But after being so delayed, the Celestial Clan moved his body and avoided the vital point.

Poof!

This gunman, although stabbing the Celestial Clan, did not sting his eyebrows, but stabbed his chest.

The chest of the Celestial Clan suddenly burst, flesh and blood flew, and his bones turned into powder. His body flew out and hit the black ore wall of Hei Tianyuan's gold, vomiting blood.

However, the Celestial Clan did not die, but was hit hard.

"The gods and gods are really hard to kill!"

Lu Ming murmured.

He suddenly used the power of the source and broke the strongest move. The other party was caught off guard and could easily be killed by him.

But as a result, the other party left a life, mainly because the other party's life-saving means are too many, and finally the piece of jade emerged from the eyebrow is a kind of extremely defensive treasure.

If it weren't for the extremely high level of the God of War gun, coupled with the power of the God of War gun inspired by the source, it really couldn't break through the defense of the opponent.

However, although the Celestial Clan did not die, it was also hit hard, and it is difficult to fight again.

"This..."

Ye Chugong's three people were shocked.

Unexpectedly, Lu Ming would suddenly break out, hitting the Tianren tribe with a single stroke.

Wasn't it even before?

Why is it suddenly so strong? Has it been hidden strength before, now burst out suddenly, want to wipe them all?

Thinking of this, their bodies were cold and sweaty.

Moreover, Lu Ming suddenly erupted before, launching the strongest blow, even breaking the multiple defenses of the Celestial Clan Dahan. All this happened in an instant, and they were too late to rescue.

Now, they subconsciously want to escape.

"Don't be afraid, he just used the power of the source. He has the seed of the source. I guess that his power of the source is only one blow."

The Celestial Clan shouted.

He was almost scared to death.

If Ye Chugong and others retreated, he really had only one way to go.

With a word that awakened the dreamer, Ye Chugong and others suddenly realized.

They knew that when Lu Ming was in Taishang Xiancheng, he condensed the original seeds.

However, that is just the origin of the seed, it is impossible to have a continuous source of power.

Even the strongest in the source environment cannot have the power of the source.

According to their experience, Lu Ming should only use the power of the origin to issue a blow.

"His original power has been used, shot, and killed him!"

Ye Chu Gong Zang roared, and the power of the punishment exploded into a war sword, slashing towards Lu Ming.

The other two masters of the Divine Realm also shot.

A Divine Lord is triple, and a Divine Lord is double, launching the strongest blow and killing Lu Ming.

The three attacks attacked Lu Ming's three key points at an alarming rate.

"These guys, the response is really fast!"

Lu Ming sighed in his heart.

Originally, as long as the other party hesitated, he could take the opportunity to launch an attack, completely killing the Celestial Clan.

But now, he has lost his shot.

After all, the strength of Ye Chu Gong Zang is extremely terrifying, even stronger than that of the Celestial Clan.

Coupled with the existence of two more divine main realms, Lu Ming did not dare to have the slightest sloppiness, and he should concentrate on coping with it.

If you are not careful, you will be hit hard.

After all, he can no longer use the power of the origin.

Uh!

The God of War gun shook and instantly punctured several guns. Several guns burst out. Ye Chugong hid it, but he himself stepped back several steps in a row.

"Kill, Heaven Tribulation is coming!"

"Kill, Futu Tiansha!"

"Kill, Tianhu Xiaotian!"

Ye Chugong and Zang used three tricks to kill Lu Ming together.

Their attack speed is too fast, and the cooperation is seamless. Under such a fast attack speed, Lu Ming has no time to perform the wild style.

After all, the wild style needs to be finished, although it is extremely fast, it still takes some time.

Of course, this is just the reason why Lu Minggang didn't know how to be skilled enough soon.

In time, waiting for Lu Ming to cultivate it to the point where it is completed without a seal, the power is truly amazing.

Now, you can only use the God of War gun to resist.

Lu Ming displayed a groundbreaking style, and his whole body seemed to be completely transformed into a gun. With the God of War gun, the power was also amazing.

When the spear shocked, several bursts of guns erupted, blocking the attacks of Ye Chugong and others.

Among the three, the attack by Ye Chu Gongzang was the main pressure on Lu Ming. The other two, Lu Ming could easily block it.

However, although Lu Ming can easily block it, he dare not have the slightest care.

Lu Ming broke out, his attacking power was very strong, not much less than Ye Chugong's possession, but his defensive power was not as strong as his attacking power.

Chapter 4550: Weird meat

Lu Ming exploded with all his strength, and his attacking power was very amazing. Even the general Divine Lord could be defeated or even killed, but his defensive power was far from reaching such a point.

Lu Ming is in control of the power of taboos, and there are a variety of ancient secrets. The defensive power is naturally stronger than the practitioners of the same level. Naturally, few people in the same level can break his defense.

Even if it is the Divine Lord Double, Lu Ming did not pay attention to it, but the Divine Lord Triple is different. The Divine Lord Triple can definitely break Lu Ming's defense and also bring him heavy damage.

The existence of the Triple Divine Lord of the Celestial Clan is stronger than that of the Common Divine Lord, and it poses a great threat to Lu Ming.

If he is alone, the opponent has not yet attacked him, and he has defeated the opponent.

But now it is different. Now the other party has the main attack of Ye Chu Gong Zang. Ye Chu Gong Zang alone has already let Lu Ming fall in the wind. The trio of gods and gods can issue a great threat. Lu Ming must always guard against the other party's attack, Lu Ming's situation is more passive.

Ye Chu Gong Zang and others naturally saw this. Therefore, Ye Chu Gong Zang's offensive was even more violent, and the brilliant sword light, such as violent storms, continued to pour out to the landing song, and enveloped Lu Ming.

Lu Ming can only resist with all his strength.

This piece of void was covered by countless guns and swords, and the two constantly confronted each other. In a moment, they confronted dozens of moves.

"It's now..."

Suddenly, the other two Celestials shot and launched a violent attack.

The timing of their shots was too accurate. It happened that Lu Ming was fighting against Ye Chugong with all his strength and was unable to distract.

Although Lu Ming tried his best to evade, he was still hit by the triple existence of the Divine Lord, continuously breaking through his multiple defenses and bombarding Lu Ming.

Lu Ming shook his body and flew out to the side, hitting heavily on the black ore source gold ore wall, the ground struck violently, and a deep scar appeared on his body, he even spit a few mouthfuls of blood, His face pale.

The front was hit by a powerful **** master triple strong, with Lu Ming's physique, all injured, and the injury was not light.

"That's it, keep this attack, kill!"

Ye Chu Gong Zang shouted, and the other two, continued to kill Lu Ming frantically.

"Honghuang style!"

Lu Ming shouted, and finally found an opportunity to display a wild style, a continent was formed, and suppressed towards the three people of Ye Chu Gong Zang.

"Trick and worm, break me!"

Ye Chugong sang coldly, the sword light exploded, and soared into the sky, slashing towards the Honghuang Continent.

boom!

Ye Chugong's combat power is really very powerful. The sword light of the power of heaven punishment directly cuts through the continent when it is cut on the continent, tearing a huge mouth open, allowing the continent to explode continuously, approaching collapse.

However, this is enough for Lu Ming.

"Broken sky!"

Lu Ming's eyes exuded a cold killer, and the human guns were united. The whole seemed to be integrated with the God of War guns, and finally turned into a lance, stabbing toward the triple strong man of the **** of the human race.

Yes, Lu Ming controlled Ye Chu Gongzang in a wild way, the purpose is to kill the threefold existence of the God Master of the Celestial Clan.

As long as this person is removed, the situation is very beneficial to Lu Ming.

Because the Divine Lord's double-celestial race is not a big threat to Lu Ming.

Just a Ye Chugong, it is easy to deal with.

Even if he couldn't beat the opponent, Lu Ming easily retreated.

As long as the original power of the original seed is restored, he can kill it back.

"you dare?"

Ye Chugong's roar, shot with the palm of his left hand, dozens of lightnings, bombarded toward the landing.

However, it was too late, and the shot was hurried, and the attack was not strong. Two lightning bolts struck Lu Ming's gunman's lance, but only trembling the gunman, did not stop Lu Ming.

Lu Ming kept on the offensive, and immediately approached the Divine Lord's triple clan.

The man roared and ran to the power of the sky, chopping a knife and chopping it on the lance.

However, in frontal collision, is he Lu Ming's opponent?

With a bang, the man's sword, along with the main level warrior sword in his hand, burst apart.

Lu Ming's spearman was like a broken bamboo, and his body passed by.

what!

The trio of masters of the Celestial Divine Lord issued a scream of fright, and his voice was full of unwillingness and panic. Then the sound of his body exploded, and his form and spirit were destroyed.

Just now, his body and soul have been completely destroyed by Lu Ming.

"you wanna die!"

Ye Chu Gong Zang shouted earth and earth, shrouded in thunder, wanting to launch a thunder blow.

But immediately, he stopped.

Because at this time the earth suddenly shook.

Rumble!

The violent roar kept coming.

Let Lu Ming and Ye Chugong's faces change a little.

Because, this roar came from one direction, as if in that direction, there was a behemoth that broke through the Heitianyuan gold ore and rushed towards this side.

Judging by the sound, the speed is amazing.

"over there!"

Lu Ming's wooden tube swept toward the wall in one direction, and the vibration sound came from there.

next moment...

bump!

The wall formed by the black Tianyuan gold ore exploded directly, and then a scarlet strip of meat swept toward the landing.

On the scarlet strips, there were barbs, a disgusting stench that instantly filled the room.

Quick, too fast, Lu Ming was approaching in an instant, and the power was extremely terrifying.

Lu Ming had a feeling that if he was caught in this meat strip, he could not escape.

If others, it may be difficult to get out.

But Lu Ming responded very quickly. When the meat strip flew out, he started the big move.

There is a fatal shortcoming of the big move technique, that is, when there is an obstacle, it cannot be passed directly.

Therefore, it is impossible for Lu Ming to move directly out of the mine.

However, it can be moved in the mine.

When the meat strip passed through Lu Ming's body, it was only the afterimage of Lu Ming. Lu Ming's body had appeared on another wall thousands of kilometers away.

However, the scarlet flesh did not stop, and continued to wind forward.

In front, it was the Celestial Man who was injured by Lu Ming before.

Although he did his best to heal the wound just now, but the time was too short, his injury did not recover much at all, and he couldn't avoid the attack of scarlet strips.

Suddenly, the Celestial Clan was caught in scarlet strips, and the barbs on it were deeply plunged into his body.

"Ah, save me!"

The middle-aged man of the Celestial Clan struggled frantically, but it was of no use at all, and the scarlet flesh remained untouched.
