

D Emperor 4551

Chapter 4551: A scary bug

"Broken me!"

Ye Chugong was killed, and the sharp sword, entrained by the thunder, was chopped on the scarlet strip.

However, an amazing scene appeared. The sword was cut on the strip of meat, as if the sledgehammer struck on the drum of war, and a loud noise of "Dong" was made. The scarlet strip of meat, nothing happened, only one appeared above. Shallow marks.

Then, the scarlet flick shocked, and a powerful force of rebound appeared and flew the Ye Chugong Tibetan bomb.

"So hard!"

Whether it was Lu Ming, or Ye Chu Gong Zang and others, my heart was shocked. The defensive power of this scarlet flesh is really amazing.

With the strength of Yechu Gongzang, it just left a shallow mark on it. This defense is harder than Heitianyuan Gold Ore.

The man who saw this scene was a desperate scream.

Uh!

The scarlet flesh pulled the Celestial Clan and shrank back, while the wall of the black Tianyuan gold ore blew more violently, the ore continued to burst, and then a giant appeared in the sight of everyone.

"this is..."

Lu Ming and others violently shook their hearts, and their pupils contracted sharply.

They saw a bug.

A whole body of black insects, which grows like a caterpillar, is cast like a black sky, and the scarlet meat strip just spit out from the mouth.

The diameter of this bug can be at least ten meters, and two scarlet and greedy eyes swept towards Lu Ming and others.

Ah!

The middle-aged man of the Celestial Clan was screaming scared and struggling frantically, and the power of the Xeontian all burned up, but he couldn't help but the dark insects.

The strip of meat pulled the middle-aged man of the Celestial Clan and retracted into the mouth of the black worm. The black worm chewed on it. The middle-aged man of the Celestial screamed a few times, and there was no more sound.

Several people became chilly, knowing that the middle-aged man of the Celestial Clan had been eaten by the black worm.

Creak...

After eating the middle-aged man of the Celestial Clan, the black worm screamed continuously. The scarlet flesh in his mouth flew out again and lingered toward the landing.

Lu Ming's spirit is highly concentrated and he is ready to evade at any time, so as soon as the black worm takes action, Lu Ming casts a big move technique and moves to the other side of the wall, leaving the scarlet strips empty.

However, the scarlet strips did not stop, but turned to Ye Chu Gong Zang, as fast as lightning.

Ye Chugong's hair was standing upside down, he didn't dare to make a hard connection, his body turned into a flash of lightning, flashing rapidly, avoiding the pursuit of scarlet flesh.

He was fast, a few flashes, and it was really avoided.

However, the direction of the scarlet flesh was another turn, rushing towards the master of the Divine Lord's double-celestial race.

The double speed of the Divine Lord was not as fast as Ye Chugong's. Although he evaded with all his strength, he was still a step slower and was caught in the scarlet strips.

"Ah, save me, Master Zangzang, save me!"

The two masters of the Divine Lord of Heaven and Man cried in horror.

However, Ye Chugong could save him. Now he couldn't even care about Lu Ming, and rushed directly to the upper hole, rushed into the hole, and disappeared.

The double master of the Celestial Divine Lord, showing the look of despair, was pulled into the mouth by the black worm.

After Ye Chu Gong Zang rushed into the hole, Lu Ming also performed a large shift technique, moved to the hole, then rushed in and rushed upward.

Creak...

After eating the double master of the Divine Lord of the Celestial Clan, the Black Worm chased to Lu Ming again.

The hypertrophic body was completely drilled out of the black Tianyuan gold ore, with a length of more than 100 meters.

However, the body of the black worm is too large, and the hole was eaten by the ball before. It is relatively small and can only accommodate several people at the same time. The body of the black worm is more than ten meters in diameter and cannot be reached. It is blocked Too.

However, the black worm's mouth was opened, exposing rows of sharp teeth, and he gnawed at the black Tianyuan gold ore. The black Tianyuan gold ore continued to explode and was instantly shot by the black worm. Huge potholes came out.

"So fast!"

Lu Ming was shocked.

Flying Phoenix is right. The bugs bred in the ruins of the universe are really dangerous.

He hadn't encountered any bugs before, but now when he hits the first one, it gives a terrifying feeling.

Lu Ming speeded up and rushed upwards. Below, the black worms madly excavated the Heitianyuan gold ore and chased to the landing Ming. However, there was still a certain gap in speed compared to Lu Ming.

Soon after, a bright light came from above, and Lu Ming knew that he was almost at the hole.

But at this time, there were a few lightning bolts at the upper hole, which struck the landing at an alarming speed.

"Ye Chu Gong Zang."

Lu Ming flashed cold light seriously.

Obviously, Ye Chu Gong Zang shot him. Ye Chu Gong Zang wanted to block Lu Ming and kill Lu Ming with the help of a black worm.

Wow, wow!

The God of War gun shook, bursting out of the gun, and struck a few flashes of lightning.

Several consecutive roars and several lightning bolts were defeated, but Lu Ming was also blocked.

These lightning bolts are not ordinary lightning bolts, but are the result of the power of heaven punishment. The power is very amazing.

When Lu Ming adjusted his figure and rushed upwards again, several lightning bolts and a few sword lights flew above, blocking the entire cave mouth and enveloping Lu Ming.

"Broken sky!"

Lu Ming shouted, his body turned into a gun, united with the God of War gun, and rushed forward.

Boom!

The God of War gun continued to rush upwards, destroying lightning and sword light, and slowly approaching the hole.

"Lu Ming, if you can't get up, feed the bugs!"

At the entrance of the cave, Ye Chugong's indifferent voice came, and he controlled a master-level Divine Soldier's War Sword.

He did not seek to kill Lu Ming, as long as he blocked Lu Ming.

boom!

Jianguang and Gunman collided together, and a terrifying roar erupted, and a terrible beam of energy hit the sky from the hole.

Lu Ming's spears were shaken endlessly, and finally stopped.

Ye Chugong's combat power was originally slightly stronger than Lu Ming. At this moment, he had a geographical advantage, but he wanted to block Lu Ming. Lu Ming couldn't rush forward for a while.

And below, the black worm rushed at an amazing speed.

After the black worm passed through the Heitianyuan gold ore layer and rushed into those ordinary rock layers, the speed was faster. Those ordinary rock layers were like tofu in front of the black worms.

Although these ordinary rocks also contain some metal ores, those metal ores are just ordinary metal ores, which are far harder than Heitianyuan gold ores.

"Haha, Lu Ming, go die!"

Above, Ye Chugong laughed wildly.

"To disappoint you!"

Lu Ming spoke indifferently, and at the same time, the ball turned into a fast creep and turned into an armor, which was put on Lu Ming. Lu Ming rushed directly towards the ordinary metal ore on the side, and the whole person directly fell into the metal ore. Disappear.

Chapter 4552: Have trouble

With the help of the ball, Lu Ming directly integrated into the ordinary metal ore and disappeared, which made Ye Chugong's eyes stare straight.

"Damn, **** miscellaneous!"

Ye Chu Gong Zang roared, but the black worm below rushed up, and it would take a while before it rushed out. Ye Chu Gong Zang dared not to stay, turned around and left, leaving the cave.

As soon as Ye Chugong left, Lu Ming's figure emerged.

In fact, Lu Ming didn't leave far away at all, but only concealed the surface of ordinary metal ores.

He knew very well that the black worm, which lives here, is extremely special. It shuttles among these ores like fish and water, and the speed is amazing.

Even if he uses the ball's ability, among these metal ores, I am afraid that the speed is not as good as the black worm, and he will be caught up by the opponent.

The reason why Lu Ming uses the ball's ability to hide in the metal ore is to blackmail Ye Chugong.

Sure enough, Ye Chugong thought that Lu Ming had escaped, and the black worm was about to rush out, scared to death, where he dare to stay and escaped.

As soon as Ye Chugong left, Lu Ming emerged from the metal ore, elevating the speed to the extreme and rushing out of the hole.

As soon as Lu Ming rushed out of the hole, he was sensed by Ye Chu Gong Zang, and he immediately thought that all of this was Lu Ming blackmailing him.

He roared: "Lu Ming, little miscellaneous, do you dare to lie to me?"

"What's wrong with you? Bit me?"

Lu Ming sneered, almost vomiting blood from Ye Chugong.

"Little miscellaneous, don't be caught by me, I want you to live better than die..."

Ye Chu Gong Zang roared, but did not dare to stay at all, fleeing wildly in one direction.

Behind him, there are five elders of the Nine Heavy Divine Emperor, who are also desperately fleeing.

Lu Ming's eyes flickered, and then flew in the other direction.

Rumble!

Soon after Lu Mingfei went out, the black worm rushed out of the ground. As soon as it rushed out, the scarlet eyes glanced around.

"Don't chase me, go chase those human races!"

Lu Ming muttered.

But at the next moment, Lu Ming's face went dark, because the black worm rushed towards the landing.

The 100-meter-long body looks very fat, but the speed is extremely amazing. The fat body wriggled a few times and flew forward like a lightning, quickly chasing Lu Ming.

The speed is actually faster than Lu Ming.

"Nest!"

Lu Ming really wanted to swear.

Is he so fragrant? Is it so popular?

Why did the Celestial Clan not chase him, but chase him?

Tomorrow there will be more people there.

Is it because he is a taboo body, or is he carrying the ball? Or is it because he took away a lot of Hei Tian Yuan Jin?

Lu Ming couldn't figure it out, it was a fact that the black worm chased him anyway, he could only escape.

However, the speed of the black worm is too fast, and the distance between them is gradually getting closer.

"Great move!"

With a move in his heart, Lu Ming directly performed the big move technique, turned a direction, and flew in the direction of the escape of the Celestial Clan.

The black worm immediately chased after landing.

This time, the faces of those Celestials changed.

"Lu Ming, what are you doing? Go away!"

Ye Chu Gong Zang roared.

"Blessed people share the same difficulties, why do you run so fast, let's deal with this black worm together!"

Lu Ming sneered.

"Put it!"

Ye Chu Gong Zang roared.

As for the five **** emperor Jiuzhong Tianren clan elders, they almost cried.

Ye Chu Gong Cang is okay, far ahead, and has gone very far.

But the masters of the five Divine Emperor Jiuzhong can't do it. The speed is much slower than that of Ye Chu Gong Zang, and much slower than Lu Ming. No, in a while, Lu Ming caught up with the five Divine Emperor Jiu Zhong Master.

Uh!

Lu Ming rushed over the heads of the Celestial Clan elders of the Five Divine Emperors and Nine Heavys, and continued to chase towards Ye Chu Gong Zang.

Soon after Lu Ming rushed, the black worm was also approaching.

Uh!

In the mouth of the black worm, a scarlet lightning burst out. This is the strip of meat, rolling towards the masters of the five Divine Emperors.

Divine Emperor Jiu Zhong couldn't avoid the attack of the black worm at all. At the moment, two people were caught in a scream of horror and pulled into the mouth of the black worm.

There were three remaining, almost scared to death.

"We are going away!"

One of the Divine Emperor Ninefold Elder shouted.

The three are divided into three directions, so there is at least a chance to live, as for who can live, it depends on luck.

But they obviously think too naively.

The scarlet tongue continued to roam, and the length was amazing. As soon as the three Divine Emperor Nine Heavy old men scattered, they were all caught in their tongues and pulled into their mouths without a voice.

After solving the five Divine Emperor Nine Heavy Celestial Clan elders, the Black Worm continued to chase Landing Ming.

In this way, Ye Chugong ran in the forefront, Lu Ming chased behind, and even more behind, the black worm.

The speed of the black worm is very fast, a little faster than Lu Ming, and it keeps getting closer to Lu Ming.

However, after each time the distance between the two sides is shortened, Lu Ming will perform a large shifting technique, rushing forward, and the distance between the black worms, and a little more, but the distance between Ye Chu Gong Zang and the closer. .

"Damn..."

Ye Chugong's roar, a distorted face, unusually unbearable.

Lu Ming lingered on him, and led the black worm to him. He was guilty of death.

He wished to stop and unload Lu Ming.

Of course, it was just his thoughts.

Really stopped, he could not dare.

The strength of the black worm is not something he can deal with. Once entangled, there is only one way to die.

In this way, the three parties flee while chasing, and will soon come to the edge of the mainland.

At this time, the black worm was closer to Lu Ming, and its scarlet eyes flashed fiercely, as if it would spit out the scarlet flesh to attack at any time.

call out!

Lu Ming shook the God of War gun, and a gun burst out, stabbing the black worm.

The black worm can't avoid flashing, letting the spear pierce the body.

Keng!

A sound of gold and iron clashes sounded, Mars was shining, and the surface of the black worm's skin had nothing at all, even no marks.

"Sure enough, the defense is just abnormal."

Lu Ming sighed.

He had long predicted that this black worm defense is absolutely terrifying.

The meat strips spit out in the mouth before, Ye Chu Gong Zang kept chopping, so its body defense is definitely above the scarlet meat strips.

Even if he used the God of War gun to stab, most of them would not be able to puncture.

After all, the power of the source is lost, and the true power of the God of War guns cannot be exerted at all.

"How can I get out? Maybe fly out of the mainland and fly to the void space, this **** black worm, won't chase it!"

Lu Ming thought.

It is about to fly away from the mainland, whether it is good or bad, it will be known soon.

At this moment, the sky and earth suddenly darkened, and far away from the mainland, there was originally a flaming river sprinkling light, but at this moment, the mainland was over the sky, blocked by something.

Then, a terrifying breath filled the world.

Chapter 4553: Void Behemoth

The whole heaven and earth seemed to be blocked, and the sky above cast a large shadow, a terrifying breath, permeating between heaven and earth.

Suppressed by this breath, Lu Ming and Ye Chugong's body could not help trembling, and a chill spread from his heart to the heavenly spirit.

Horror, horror.

Not only Lu Ming and Ye Chu Gongzang, the black worm completely stiffened down, instead of chasing Lu Ming, but trembling constantly, it seemed very frightened.

Lu Ming and Ye Chu Gong Zang couldn't help looking up, and then the pupils contracted sharply, revealing incredible colors.

Above, a giant beast suspended in the air.

At this time, a strange giant beast with a tiger head and lion body, but a pair of wings, wings spread out, covering the sky.

He also has a pair of sharp claws, like eagle claws.

This giant beast is huge, like a small meteorite.

"This is...Void Monster!"

An idea came to Lu Ming's mind, and he felt bitter in his mouth.

Unlucky, really bad.

Feihuang gave him a jade with detailed records of the ruins of the universe.

Among them, the life of a kind of Void Beast is recorded.

It stands to reason that the rules of the ruins of the universe are profound and chaotic. Apart from all kinds of bugs, other creatures cannot be bred.

It was only in the last few decades of stars that the rules of the ruins of the universe became more orderly, and some ethnic groups were bred.

However, the Void Behemoth has not emerged only in the last few dozen years of stars, but since ancient times.

No one knows how the Void Behemoth appeared, only that since the ruins of the universe, there have been Void Behemoths.

The Void Behemoth is extremely large, even larger than the planet, and small as the mountain.

They wander among the cosmic ruins and feed on the various ores of the cosmic ruins or various bugs.

Some terrifying void monsters can even swallow a large continent.

And now this one is definitely a Void Behemoth. Although the body is not as exaggerated as the planet, Lu Ming speculates that it is very likely that this is just a juvenile Void Behemoth and has not grown up.

However, according to the records of Flying Phoenix, the Void Behemoth is extremely rare, and it is rarely encountered in the vast ruins of the universe.

Most people, who have spent their entire lives in the ruins of the universe, have not encountered the Void Behemoth.

Flying Phoenix adventured through dozens of stellar years in the ruins of the universe, and only encountered twice.

Therefore, Flying Phoenix did not specifically mention the crisis of the ruins of the universe, but just let Lu Ming look at the information.

Obviously, Feihuang didn't think Lu Ming's luck would be so good, as soon as he entered the ruins of the universe, he would encounter a void monster.

Facts have proved that Lu Ming's luck is so good.

Hula!

In the high sky, the Void Beast dived down, bringing up a violent energy and rushing towards the black worm.

The black worm was unwilling to resist, opened his mouth, and the scarlet flesh flew out like a spear, piercing the eyes of the void monster.

The Void Behemoth does not shy away, let the scarlet strip stick on the eye mask, and with a bang, the Scarlet Flesh is bounced back, but the Void Monster's eye mask has nothing at all.

"Nest..."

Lu Ming gasped.

Eye mask is definitely the softest and weakest place for any creature.

However, the Black Worm couldn't even break through the weakest part of the Void Behemoth's defense, which was terrifying.

Run away!

Lu Ming did not hesitate to raise the speed to the extreme and rushed forward.

Ye Chu Gong Zang is the same, rushing in another direction.

A black worm is not something they can deal with, let alone a gigantic beast.

Without seizing the opportunity to escape, there is only one way to die.

At this time, the Void Behemoth continued to dive down, with a big mouth and a tongue in his mouth, and then took the black insect more than 100 meters long and swallowed it into the mouth.

In the same way, the black worms devoured multiple Celestial Clan, but in the end, it became the ration of the Void Beast.

Haw! Haw!

The Void Beast swallowed the black worm and chewed it up, showing an expression of enjoyment.

The Void Behemoth did not pursue Lu Ming and Ye Chu Gong Zang, but glanced at the mainland.

Suddenly, the wings of the Void Behemoth flew up into the sky, and the violent strength swept across the world. The gravel ancient wood on the mainland was directly rolled up and turned into ashes.

Then, the Void Behemoth swooped down, rushed to a ground on the mainland, and a claw directly grabbed the ground.

Rumble!

The ground erupted and roared, and continued to burst. The claw of the Void Behemoth caught directly into the depths of the earth. When the claw reached out, he had caught a black worm on his claw. The previous one is several times longer, and it is several times thicker.

But this black worm, in the hands of the Void Behemoth, had no resistance at all, was thrown into his mouth, and was eaten in a few clicks.

After eating this black worm, the Void Behemoth continued to look for it, and after a while, he found a few hundred meters long black worm to eat.

After this, the Nether Beast no longer found the black worm.

Roar!

No black worms were found, the Void Behemoth seemed very irritable, roaring continuously, and the whole continent shook.

Afterwards, its eyes turned to Lu Ming and Ye Chugongzang's escape.

Then there was a long roar, wings incited, and a huge body rose into the sky, chasing away in the direction of Ye Chugong's escape.

When the Nether Beast captured the black worm, Lu Ming and Ye Chu Gong Zang escaped with all their strength. They had long escaped from the mainland and entered the void.

Moreover, after a while, they have escaped far away.

Ye Chu Gong Zang was all relieved, and finally thought it was safe, but suddenly, a long whistle came from behind, which made Ye Chu Gong Zang almost scared to death.

"No, I'm here!"

Ye Chu Gong Zang's horrified roar, and the power of the most powerful sky burned lifelessly, raising the speed to the highest peak in history.

However, the speed of the Void Behemoth is too fast, and the distance between it and Ye Chu Gong Zang is quickly reduced.

"No no no..."

Ye Chu Gong Zang roared and escaped with all his strength.

He originally wanted to rush to Lu Ming. Before learning Lu Ming, he led the Void Behemoth to Lu Ming, but he sadly found that he and Lu Ming had escaped in a completely different direction. They have been flying for so long now. The distance between them, I do not know how far apart.

I can't do it if I want to lead it.

Roar!

The Void Behemoth growled, its wings incited, and its huge body broke through the Void. It was too fast, and the distance between it and Ye Chu Gong Zang kept getting closer.

It didn't take long for the distance between the two sides to be only a few thousand miles.

This equidistance, for the Void Behemoth, is just a blink of an eye.

"No, no, no, I'm not reconciled..."

Ye Chu Gong Zang screamed in despair, and was swallowed by the Void Beast.

After the Void Beast swallowed the Yechu Gongzang, his eyes turned to Lu Ming's direction of escape.

Chapter 4554: A broken ship in the void

In the distant void space, Lu Ming's body suddenly tightened and his hair stood upside down. It was an instinctive reaction to danger.

Although Lu Ming flew with all his strength due to the distance, he did not see Ye Chu Gong Zang killed, but he could also guess that the Void Behemoth was coming.

The roar of the Void Behemoth, he can hear it, shakes the whole Void.

The roar of the Void Beast, the speed of propagation is not the speed of ordinary sound, as long as it contains divine power or other power blessings, the speed of sound is not the speed of ordinary sound, which is hundreds of millions of times faster than the speed of ordinary sound. , Even faster than the speed of light.

In the world of practitioners, everything cannot be viewed with common sense.

Lu Ming also heard Ye Chu Gong Zang's last scream.

Therefore, Lu Ming concluded that the Void Monster caught up with and killed Ye Chu Gong Cang. Then, the next one was him. The crisis he sensed, needless to say, came from the Void Monster.

"Hurry up!"

Lu Ming raised the speed to the ultimate peak, and the whole portrait was like an aurora, which cut through the void.

However, the speed of the Void Beast is still far above Lu Ming. After a while, Lu Ming heard the terrible roar from the rear.

Void monster, catching up.

"Great move!"

Lu Ming exhibited the big move technique, tearing the void and walking, and in a flash, it appeared a long distance ahead.

However, useless.

Although the move technique was very fast after being exhibited, it moved itself directly into the distance, but it could not completely throw away the void monster.

The distance moved is always within the sight of the Void Behemoth.

The Void Behemoth continuously incited its wings, and chased it up, and Lu Ming was quickly drawn closer by the distance moved by the big move technique.

Lu Ming can only continue to perform the big move technique to tear the void.

Lu Ming continued to perform the big move technique, but still did not increase the distance between the two sides. On the contrary, the distance between him and the void monster was still getting closer.

After more than ten consecutive large-scale removal operations, Lu Ming turned pale.

It is very taboo to use the full-scale move technique.

Keep going like this, Lu Ming can't support it for too long.

At this time, a continent appeared in front of it. This continent did not seem to have any creatures, and its area was much smaller than the previous one.

"Great move!"

Lu Ming shouted. This time, he did not want to move himself out. The power of this move fell on that small continent.

Rumble!

The small continent shook violently, then suddenly disappeared from its place, and when it appeared again, it appeared directly in front of the Void Behemoth and smashed into the Void Behemoth.

This is another wonderful use of the big move technique, which can not only move itself out, but also move other things to attack.

In the cosmic sky, the stars can be moved to the enemy.

This is not a continent condensed by Lu Ming in a wilderness style. This is a real continent with infinite weight, comparable to dozens of planets.

If Lu Ming didn't break through the Divine Main Realm before, he couldn't do it at all. Only Lu Ming's current Divine Main Realm's cultivation can only be managed.

Roar!

The Void Beast roared, and his claws continuously pulled out and caught on the mainland.

Rumble!

The continent roared with tremors, and a series of cracks appeared on it, and then burst directly.

However, although the mainland failed to block the Void Behemoth, it also slightly delayed the speed of the Void Behemoth, making it slightly slower.

Taking this opportunity, Lu Ming flew forward again.

Roar!

The Void Behemoth seemed extremely angry and gave a terrifying roar. A circle of ripples filled his mouth, turning that piece of continent into powder.

Lu Ming was cold and sweating.

Too powerful, the Void Beast is too strong, absolutely comparable to the existence of the original realm.

He is far away from the other party, so he can live to the present. If he is closer to the other party, the other party can beat him to the bones with just one stroke.

Lu Ming continued to perform the big move technique and moved forward frantically.

Behind, the Void Beast roared and continued to chase down to Naruto.

The speed of the Nether Beast is too fast. Some distances that Lu Ming had just pulled away were quickly drawn closer.

As a last resort, when Lu Ming saw a small piece of continental debris, he performed another large-scale removal technique, and moved the small continent to the sky monster.

Lu Ming took the opportunity to fly, so that the two sides had opened a little distance.

But Lu Ming's face was pale for a long time, and it was too much power to move the debris of the mainland with the big move technique.

Coupled with the previous consumption, Lu Ming's power is almost exhausted.

"You can't go on like this. Sooner or later you will be caught up. Try the copper copper coffin."

Lu Ming took out the copper copper coffin and pushed hard, but the coffin lid of the copper copper coffin didn't move.

"Nest..."

Lu Ming really wanted to swear.

In the ancestral land of elves, the copper and copper coffins could not be opened. Now, more than ten years later, the copper and copper coffins cannot be opened.

How is this going?

What's wrong with the copper copper coffin?

If it can't be opened, isn't it a waste product?

Lu Ming pushed hard again several times, and still couldn't open the copper copper coffin, he could only give up, put away the copper copper coffin and continue to fly.

"That is..."

Lu Ming, who was flying, suddenly felt a big shock in his heart, his eyes glared, revealing surprise.

Because there was a behemoth in the void in front.

Of course, not the second Void Behemoth, but a ship.

A warship looks very old, with marks of swords, guns and swords on it, it looks tattered, and there is a black mist on the ship, which looks like a terrible ghost.

There was no one on board.

No, to be precise, there is a bone, sitting cross-legged on the deck of the bow.

In the void space of the ruins of the universe, a strange warship actually appeared.

The warships were huge, like a small planet, approaching the direction of landing on their side.

Instinctively, the hair on Lu Ming's body stood up, which was a reaction only when he sensed danger.

This warship gave him an extremely dangerous feeling.

Roar!

Behind, the Void Beast also roared, the speed actually slowed down a bit, and there seemed to be a trace of doubt in his eyes.

Rumble!

Void vibrated, the warship rushed directly to the landing.

"not good!"

Lu Ming's face changed drastically, and he quickly performed a large-scale removal technique. As soon as his figure flashed, he disappeared from his place and appeared in another direction of the void.

The old warship rushed past Lu Ming's place, and continued to move forward, rushing towards the Void Beast.

Roar!

The Void Beast roared, the tyranny flashed in his eyes, his wings incited, and he rushed towards the ship.

Chapter 4555: Strange power into the body

The Void Behemoth crosses the ruins of the universe, and there is no such thing as 'fear' in his mind.

Now, the old warship dared to rush towards him, and the tyrannical nature of the Void Beast immediately exploded. Lu Ming could no longer manage it. He rushed towards the old warship and tore the old warship into pieces.

The Void Beast roared, covered in mysterious energy, the claws glowed, and caught the old warship.

boom!

The two behemoths collided violently together, and the entire void was shaking, a black ripple spreading out in all directions.

"not good!"

Lu Ming's complexion changed greatly. The black ripples resembled the black mist on the old warship, giving a very dangerous feeling.

Lu Ming didn't dare to be shocked. He performed a large shift technique and moved away, but Lu Ming just moved out, and the black ripples arrived. The impact of the violent shock of the sky, Lu Ming moved halfway, and was directly washed out, his body like A meteor, flying towards the distance.

Puff...

Lu Ming coughed up blood, and the black ripples just interrupted Da Nian's removal surgery and caused him serious damage.

His body was ragged, there were holes in it, blood was flowing, and many bones were broken, which was terrible.

The thing that made Lu Ming angry most was the black mist.

Because that kind of black mist has penetrated into his body, and into every cell of him, it seems to be corroding his body constantly.

In the distance, the collision of two giant monsters turned out to be that the Void Behemoth fell downwind, and after the earth-shattering collision, the Void Behemoth's huge body retreated backward and slid billions of miles backward.

The old warships only retreated slightly.

Roar!

The Void Behemoth seemed to feel provoked by his majesty, and gave a terrifying roar, with a terrifying energy rushing out of his body, a mouth, a beam of light, and blasting towards the old warship.

And he himself rushed towards the old warship with claws.

The old battleship was still filled with black mist, rushing towards the void monster.

The bone in front of the battleship was motionless, as if it were really just an ordinary bone.

"Go, go, go!"

Seeing the Void Behemoth rushing towards the warship again, Lu Ming dared to delay, raising the speed to the extreme, and fled desperately.

Fairies fight, mortals suffer.

Even aftermath, Lu Ming couldn't stand it. The distance between them was already far enough. Lu Ming was hit hard. If it was in close range, it would really take the soul away, even the taboo body was useless.

Lu Ming's figure went away in an instant, and behind him, there was a roar of earth-shattering vigour, full of energy, and black ripples, sweeping all directions.

Fortunately, this time Lu Ming was far enough away that he was not hit.

However, Lu Ming did not dare to stay in the slightest. This is a golden opportunity.

The Void Behemoth, and the old warship recklessly, if the Void Behemoth gave up the old warship and chased him, he really had to finish.

How can we not escape such a good opportunity?

Lu Ming turned the remaining force with all his strength and turned into a rainbow of light, flying quickly.

puff! ...

During the flight, Lu Ming continued to spit out several bloods, and his face was pale.

"The mist is constantly corroding me."

Lu Ming whispered, his face dignified.

He had already tried to use the power of taboo to refine the mist, but it was useless.

That kind of black mist is hard to refine even the power of taboo.

Lu Ming tried it several times, and it had no effect. The black mist still corroded his body all the time, making his injuries not only not improving, but worsening.

"You must find a safe and quiet place to heal your wounds. This black mist is too weird. It is an unprecedented energy..."

Lu Ming's face was very dignified.

This black mist is actually an energy composition, but this kind of energy, Lu Ming has never seen before, is extremely strange and terrifying.

Now he flies to escape with all his strength. He can't refining with all his strength. He must find a quiet and safe place to refining with all his strength.

Otherwise, drag on, do not know what the consequences will be.

In this way, Lu Mingqiang resisted the pain caused by the injury and continued to fly.

Fortunately, the Void Beast has never flown, and just like that, a day has passed.

This day, the black mist continues to corrode Lu Ming's body, corroding every cell of Lu Ming, and Lu Ming's injury is getting worse.

He has been stunned for a whole circle, looks skinny, and his breath is very weak. Now, Lu Ming estimates that he can't even beat a **** emperor.

"A continent!"

At this moment, Lu Ming's eyes lit up.

In front, a huge continent appeared. The area of this continent is definitely larger than any continent Lu Ming encountered before.

Because from a distance, suspended in the void, I can't see the side at a glance.

I don't know how far above this continent, there is a flaming river flowing through it, which sheds light on this continent.

Lu Ming did not hesitate, hit the continent with one end, and landed on the edge of the continent.

"There are plants!"

Lu Ming's eyes flashed.

There are plants on this continent. Although it is only the edge of the continent, it is still covered with mountains, ancient trees and forests, and it is full of vitality.

Lu Ming landed in a huge canyon, and his spirits swept around. No abnormalities were found. Lu Ming sat cross-legged, and his luck was refining the black mist.

Lu Ming's body glowed, and every cell was trembling. The taboo power in each cell exploded in an all-round way, and he wanted to refine the mist that had invaded the cells.

But after a while, Lu Ming stopped, his face very gloomy.

Or not.

He mobilized the power of taboos in every cell, but it still didn't work.

At the beginning, he was invaded by the forbidden force on the armor of the Heavenly Soldier, and it also penetrated into every cell, and he was easily refined by his taboo power.

But now, this kind of black mist can't work, the taboo power can't be refined.

"What kind of weird power is this, even the power of taboo can't be refined, is it some kind of terrible power of the last era?"

Lu Ming looked somber.

Of course, he would not give up easily. After a short rest, he swallowed a lot of magical pill and continued to run the power of taboo.

But the result is the same.

If it can't be refined, it can't be refined.

Instead, Black Mist is still corroding his body, making his body more and more serious.

Now, his image is extremely horrible, with multiple wounds on his body, ragged, as if the essence of flesh and blood have been sucked away, skinny, like a corpse.

The breath was very weak, as if punching freely, he would be crushed.

"Lu Ming, Lu Ming, won't you just hang up like this? Don't, don't..."

The ball turned into a round ball, rolling around Lu Ming, very anxious.

Chapter 4556: The role of the door

"Ball, rest assured, I have walked all the way, I have experienced many crises, this dark fog, I want my life, not so easy."

"You protect me from the side, I continue to refine!"

Lu Ming smiled.

"Don't worry, you can concentrate on healing, on the edge, leave it to me!"

Ball fairway.

Lu Ming nodded and continued to run the taboo power.

This time, on Lu Ming, there were tens of thousands of cells gleaming like stars.

Of these tens of thousands of cells, all are cells that incorporate the mystic runes.

Between tens of thousands of cells, a wire is connected in series to form a door.

In the middle of the door, a yellow mud road emerged, leading to a dark place.

On Huangni Road, there was still a pool of blood.

It has been more than ten years since Lu Ming practiced this yellow mud road, but the pool of blood is still bright and dazzling, as if it has just been scattered.

This is Lu Ming's 'door' to the universe sea.

At this time, in front of Huangni Road, there was suddenly an attraction that covered Lu Ming's body. The black mist in his body actually had a tendency to be sucked in.

The black mist seemed unwilling to be sucked in, and struggled frantically. Suddenly, Lu Ming went up and down all over the body, guarding against being pricked by countless needles, which was uncomfortable.

Ordinary people, in the face of such pain, can't bear it.

However, Lu Ming walked all the way and suffered all kinds of pains. Lu Ming gritted his teeth and could resist it.

"carry on!"

Lu Ming shouted and urged with all his strength. Tens of thousands of cells exuded dazzling brilliance, and the 'door' formed was also extremely dazzling.

The attraction formed in the 'door' has also become stronger, and there is a powerful force to pull the black mist from his cells.

Finally, a trace of black mist was sucked in and suspended above the Huangni Road.

Lu Ming was ecstatic.

Although, just absorbed a trace, there is still a long distance to completely remove the black mist in his body.

However, this is a good sign.

As long as the black mist can be absorbed, there is hope, and it will take more time at most.

Lu Ming continued to operate the 'door', absorbing the black mist.

After a while, another trace of black mist was absorbed and merged with the previous ray above the yellow mud road.

Lu Ming seemed to relax a little.

This may be an illusion. After all, it just absorbed two traces, which was less than one ten thousandth of the total amount of black mist in his body.

Keep going...

Lu Ming fully operated the 'door' to absorb the black mist.

A day passed in an instant.

After a day of hard work, the black mist in his body was absorbed by about 1%.

After absorbing one percent, he really felt a little lighter, his breath was stronger, and his skin shone with a faint glow.

In this way, it only takes a hundred days for Lu Ming to get rid of all the black mist.

rustle...

Just then, around the canyon, a rustling voice sounded, making Lu Ming's face change.

The ball also immediately raised vigilance. A few pieces were highlighted on the round body, forming several war knives and glancing around.

rustle...

The rustling voice was getting closer and closer. Finally, Lu Ming saw what was approaching.

That is a kind of bug.

This kind of insect is dark all over, like a centipede, each of which is as thick as an eggplant.

Around the canyon, there were so many things, I looked at one glance, I don't know how many.

After seeing Lu Ming, these insects like centipedes ricocheted towards the landing, like a black lightning bolt.

"kill!"

The ball shouted, the round body rushed out, the sword fluttered, and hundreds of brilliant knives burst out at once, slashing at the bugs.

Keng! Keng! Keng!

The war knife was cut on the insect, as if it had been cut on the metal, making a clang.

Hundreds of insects were cut and flew out, and they were all cut in two.

But the scary thing is that these insects that were cut into two pieces did not die, and continued to twist their bodies and rushed to Lu Ming and the ball.

One worm was cut into two, but instead became two.

The number does not increase but decreases.

"hateful!"

The ball shouted, no longer attacked with a knife light, his body quickly changed into a mirror.

At first, the ball swallowed several pieces of broken source-level magic soldiers. One of them was a broken mirror, which is almost the same as the ball now.

The mirror glowed, and a huge beam of light was emitted from inside, covering dozens of insects.

This kind of light beam has terrible destructive power. Those insects are hit by the light beam, and they explode and dissipate.

However, there are too many bugs around.

Densely packed, I don't know how many of them are constantly rushing towards Lu Ming and the ball.

Although the ball tried hard to resist, it still couldn't stop all the bugs, and some of them broke through the ball's defense and rushed to Lu Ming.

"Lu Ming, be careful!"

Ball drinking.

In an instant, those bugs were near Lu Ming.

"roll!"

Lu Ming drank coldly, bursting out a powerful force in his body, rushing in all directions.

The bugs were directly rushed out and smashed some other bugs.

"The attack is not strong."

Lu Ming thought.

He found that the attack of this kind of bug was not strong, at most it was equivalent to the attack power of the virtual **** realm.

If Lu Ming was in his heyday, even if he stood there to let these insects attack, there was no reason why Lu Ming could do nothing.

However, Lu Ming's current state is too bad, and his strength is absolutely intact. There are still many wounds on the special body that have not healed. If they are attacked by so many bugs, it will also have a great impact.

Although the attack power of this kind of bug is not strong, the defense power is amazing.

Although Lu Ming's strength does not exist, but the shock wave just sent out is at least equivalent to the attack power of God King Realm. These insects were not destroyed, but were washed out.

The attack power is so weak, the defense power is so strong, and the insects in the ruins of the universe are really strange.

The bugs twisted their bodies and rushed to Lu Ming again.

Lu Ming sent another shock wave, flying these bugs out.

However, these bugs are still fine and continue to rush to Lu Ming.

Lu Ming frowned.

Although the attack power of these worms is not strong, they continue to rush towards him and still have a great impact on him.

He now needs to exercise power to get rid of the black mist, but with the interference of these bugs, he can't get rid of the black mist with all his heart.

Those black mists are corroding him all the time, and the longer the time delays, the more unfavorable to him.

With his remaining strength, it is not enough to destroy these bugs. The ball can be destroyed, but there are too many bugs, and the ball alone can not be killed.

boom!

After the insects approached, Lu Ming exploded a force, striking these insects out.

Chapter 4557: Terran? Yan

In this way, Lu Ming shot dozens of times in a row, and repelled dozens of waves of worm's attack, but in this way, Black Mist took the opportunity to counterattack, making his face pale and weak again.

At this time, the ball has at least killed tens of thousands of insects.

But the bugs in all directions are still endless. I don't know how many. The constant rush to Lu Ming and the ball is simply invincible.

"You can only leave here, ball, protect me."

Lu Ming on the ball fairway.

"Relax, give it to me, I will kill it!"

The ball roared, rushed to Lu Ming, flew to Lu Ming, wanted to turn into Lu Ming as armor, and then rushed out.

At this moment, Lu Ming looked, looking in one direction.

Because, in that direction, there was a thick smoke coming from here.

And in that direction, it was still at the upwind, and with the help of the wind, thick smoke billowed over the area.

Where the smoke passed, the insects seemed to be very afraid, and they backed away, and some turned around and ran.

Lu Ming's eyes lit up. Obviously, this thick smoke could restrain these insects.

The smoke was getting bigger and bigger, and the whole valley was shrouded in smoke.

This thick smoke has no effect on Lu Ming and the ball, but it has a great deterrent effect on that kind of bug. Numerous bugs flee where the smoke passes.

After a while, the densely packed bugs had no one left.

Lu Mingling exuded, and indeed no insects were found in the surrounding area.

Lu Ming did not leave immediately, he was waiting.

Thick smoke will not start for no reason, it must be intentional.

Who is it? Or, what kind of creature is it?

In this strange continent, the ruins of the universe, there will be some creatures to save him.

strange!

Lu Ming looked in that direction, and in the thick smoke, he saw a figure walking towards this side.

"people?"

Lu Ming felt a shock in his heart, and the figure that flew by was actually an adult.

Is it a human race?

But would the Celestial Clan save him? He just didn't use the great imitation technique to change his breath and appearance. The Celestial Clan could recognize him when he saw him.

Is it the destroyer of heaven?

It is also possible.

Although this area is newly developed and occupied by the masters of Tiangong, Feihuang said that there are also a few people who are destroying the heavenly army, and it is not surprising that they really meet the people destroying the heavenly army.

Soon, the figure approached, and the outline became clearer and clearer.

It was a teenager, who looked 16 or 17 years old, still childish, glanced around, and ran towards Lu Ming while looking around.

"It's really a human race, what's going on? Cultivation is so low that the gods can't reach it?"

Seeing this young man, Lu Ming was very puzzled.

He can sense that this young man is a human race.

But the cultivation base is too low, and even the Divine Realm is not reached, only the cultivation base of the Heavenly Emperor Realm.

This is incredible.

Here is the ruins of the universe, how can a human race who can't reach the gods appear here?

Is the other party actually a terrible old monster, deliberately hiding the cultivation base?

But concealing cultivation behavior should not be concealed in the Heavenly Emperor Realm. This is too low. It is not normal for people to look at it.

"This eldest brother, are you okay? You are seriously injured? Does it matter?"

The teenager came over and asked.

Lu Ming frowned slightly. Under such close perception, he still couldn't see the teenager's signs of concealing cultivation behavior. It was as if his cultivation practice was really just the Emperor's Realm.

This is really incredible.

"I'm fine, did you put that thick smoke just now?"

Lu Ming asked.

"Yeah, the Artichoke is afraid of the thick smoke of the Fuxian flower. Once you smell the smoke, it will run away. I just saw that you are besieged by a large number of Arthropods, and I have some Fuxian flowers around me. , Immediately lit, fortunately to drive away the Arthropod, thank God."

The teenager explained.

Lu Ming observes carefully. From the appearance, this person really doesn't seem to be an old monster who hides and repairs as a disguise.

"Little brother, thank you for your help just now."

Lu Ming thanked with clenched fists.

"Brother, don't be polite, I just passed by here. Since I encountered it, is there any reason to die? We hurried away. After the smoke of Fuxianhua is gone, those hundred insects will come back, then it will be troublesome. ."

Juvenile Road.

"Okay, let's leave first!"

Lu Ming nodded and planned to leave here. Obviously, this place is not suitable for healing. There are bugs around it, and there is no way to calm the wound.

The teenager led the way, and the two headed north.

"Little brother, what's your name? How did it appear here?"

As he hurried, Lu Ming asked tentatively.

He discovered that teenagers do not fly.

The cultivation of the Heavenly Emperor Realm, even on those living planets in the Honghuang Universe, cannot fly, let alone in the ruins of the universe.

"My name is Haizong, and I appear here because the village I live in is not far from here, and I often go to the neighborhood to gather medicine."

Juvenile Road.

Lu Ming's pupils shrank suddenly, and he was surprised.

The young man, Haizong, lived nearby and the village where he lived...

What does all this mean?

Explain that Haizong was born and raised here.

There are people born and raised in the ruins of the universe?

Was it a descendant of the strong man who had previously ruined the ruins of the universe, or a creature born from this continent.

According to the description of the Flying Phoenix, the rules of the ruins of the universe in recent decades have become a lot more orderly and stable. Some creatures have been bred to form ethnic groups, but the strength is not very strong.

However, Lu Ming still feels incredible that the ruins of the universe gave birth to human races.

Perhaps it was the prosperity of the descendants left by the strong human races who had previously travelled here.

Lu Ming decided to knock on the side.

The young man didn't think deeply, and after Lu Ming's side-kicks, Lu Ming knew many secrets.

Juveniles claim to be the Yan nationality, and the Yan nationality is spread across this continent, forming countless forces of all sizes.

The Yan people were bred from this continent. Their ancestors walked out of the ancestral mountain and prospered. Today, it is not known for many years.

Lu Ming's heart fluctuated and it was difficult to calm down.

Haizong and his other tribes were actually bred from this continent.

Why did this continent breed a human race?

He has carefully observed that Haizong is really a human race, which is absolutely not wrong unless the other party also practiced great imitation.

This continent actually gave birth to a human race, which made Lu Ming have to wonder, how did he come as a human race?

Is it true that the human race of the vast universe was born in this way?

Most of the other races in the Honghuang Universe are descendants of primitive gods that multiply each other. Only after generations of inheritance will the various races form.

Such as dragon, demon, blood, etc.

Of course, the Celestial Clan is not, and the Angel Clan is not. Legend has it that the Celestial Clan was created.

Chapter 4558: Gods

In fact, Lu Ming did not know how the Tianren race appeared.

The power they control is very different from other races, and they are self-contained.

In addition, Lu Ming did not know how the human race of the Honghuang universe first appeared. He used to think that the human race, like the dragon race and the demon race, all evolved from the blood of the original gods.

But now it seems that it is not at all. The evolution of the human race is by no means simple.

While chatting, the two were walking forward, and for about a few hours, a village appeared in front of them.

The village is small, surrounded by a peculiar wood, which is made of fences.

Around the fence, there are some peculiar flowers and plants.

These flowers and plants, as well as the wooden fence, exude a strange fragrance.

"Brother Tianyun, all kinds of insects are scattered around this area, and the wooden fence here also has the smell of flowers and grass on the side, which can make those insects retreat and dare not come close."

Haizong explained.

Tianyun is a pseudonym used by Lu Ming.

After all, this area was developed by the Celestial Clan. Maybe there are Celestial Clan in this continent. Lu Ming decided not to use his real name, but to use a pseudonym to avoid attracting the Celestial Clan.

After all, he is now in the dark mist, and his strength is weak. If it attracts the Celestial Clan, it will be troublesome.

He used this pseudonym in Xiaoqian World, so when Haizong asked about it, he used this pseudonym casually.

No one knows this pseudonym, Honghuang Universe.

"Brother Tianyun, are there no bugs in your place?"

Haizong asked curiously.

Before Lu Ming knocked on the side, it was very obscure. Haizong always thought that Lu Ming was the same as him and they were all people of this world.

It just came from a place far away.

In fact, with Haizong's cultivation practice, he couldn't even fly, and he didn't stay away from his village. There was no concept of other worlds in his mind.

He only knows that this world is everything.

Naturally, I wouldn't think that Lu Ming was not a person in their world.

The two entered the village. After seeing Haizong in the surrounding villages, they nodded and said hello.

After a while, the two came to a small courtyard.

The courtyard is not big, it is made of wood, it is very simple, but it is very clean.

"Brother Tianyun, you live in this room."

Haizong pointed to a room on the right.

"Haizong, do you live alone?"

Lu Ming asked.

Because his spiritual knowledge has been swept away, this other courtyard, apart from them, has no one else, and some basic daily necessities are also for one person.

"Yeah, I used to live with Grandpa, but Grandpa died a few years ago, leaving me alone!"

With that, Haizong's eyes were red.

"Sorry!"

Lu Ming said.

"It's okay, I'm a little sentimental. Brother Tianyun, you're still not in good condition, let's hurry and heal."

Haizong Road.

"Ok!"

Lu Ming nodded, he really needed to seize the time to refine that black mist, which always corroded his body and aggravated his injury.

Walk into the room, close the door, let the ball protect him, Lu Ming sits on his knees, running the taboo power, he glows with tens of thousands of cells, constructing a 'door', a strong attraction, covering the whole body.

Suddenly, the black mist in all the cells began to irritate and struggle frantically.

However, it didn't take long to struggle, there was a trace of black mist, which was absorbed by the "gate" and merged with the previously absorbed mist above the yellow mud road.

In this way, three days passed by.

In three days, the black mist was reduced by about 3%, plus the 1% previously absorbed, a total of 4% was absorbed by Lu Ming.

Lu Ming's situation is better than before, his complexion is stronger, his muscles are more bulging, the whole person looks fuller, not as terrifying as before.

"There are no bugs here. I will be cured in more than three months!"

Lu Ming thought.

This feeling of not being in a state of being weakened by cultivation is really uncomfortable, and Lu Ming desperately wants to recover quickly.

Dangdang...

Just then, a clear bell came in.

The next moment, I heard a knock on the door.

"Brother Tianyun, it's time to pray."

Haizong's voice came from outside.

"prayer?"

Lu Ming frowned, not knowing why.

Lu Ming put away the taboo, opened the door, and went out.

"Haizong, what is prayer?"

Lu Ming thought about it, but decided to ask.

Haizong did not know that there were other worlds, so he should not doubt him.

"Brother Tianyun, don't you have to pray to the gods in your hometown?"

Haizong looked very surprised.

"My hometown is very remote, so I don't need to pray, and I don't know what prayer is about. Can you tell me something?"

Lu Ming said.

"It seems that the world is too big, and there are places where the glory of the gods can't be covered. Praying is to pray to the gods for their blessing and lead us to prosperity and glory."

Haizong Road.

"Gods?"

Lu Ming was puzzled.

In the vast universe, the existence of the **** realm is relative to the Xiaoqian world, that is, the gods are powerful and omnipotent.

But he knew that God Realm was only a stronger practitioner.

What is the **** on this continent?

"There is no deity in my hometown, Haizong, have you ever seen a deity?"

Lu Ming asked.

"No, I haven't seen the deity, but the old people all said that believing in the deity, the deity can guide us against the attack of insects, guide us to practice, and let us go to glory..."

Haizong Road.

"You, no, are all our cultivation methods taught by gods?"

Lu Ming continued to ask.

"This is not all. Brother Tianyun, don't you know? Our Yan people's cultivation methods were all understood by the Yan people's ancestors from the ancestral mountain, but later the gods also passed a part."

Hai Zongdao, he was really puzzled about Lu Ming's problem.

If he had no concept of other worlds at all, he really had to suspect that Lu Ming was not a person in this world. It was not clear to some common sense.

"I really don't know. My cultivation methods were all passed down to me by my father. He taught them, and I practiced them. I never asked others, so I knew very little."

Lu Ming randomly found a reason.

"Oh I got it!"

Haizong nodded.

The two chatted while walking, and soon came to a relatively large courtyard.

At the moment, thousands of people have gathered in the courtyard.

They are all from this village, men, women and children.

In front of the courtyard, there is a stone statue sculpting a middle-aged man, ten meters high.

"This is... the Celestial Clan!"

Lu Ming looked cold.

He is too familiar with the Celestial Clan. The Celestial Clan, regardless of gender, has extremely delicate facial features and is easy to recognize.

Moreover, this statue also exudes a strange breath, which is clearly the breath of the power of heaven.

Chapter 4559: Power of faith

Lu Ming can be sure that the statue was carved by the Celestial Clan.

"Did Haizong, the **** he said, be the Celestial Clan?"

Lu Ming moved.

This is very possible.

The Yan people were bred from this continent.

In the ruins of the universe, the rules and confusions of the previous rules have become chaotic. In recent decades, the rules and regulations have become more orderly. In some places, some ethnic groups can be bred.

In other words, the history of the Yan people is at most dozens of stellar years.

In the dozens of star years, spiritual practice started from scratch, and it was slowly explored, and it was not so strong at all.

It is estimated that the strongest of the Yan tribe will not be too high for cultivation.

In this village, Lu Ming sensed it, and cultivated it to the highest level, and he was also in a false state of mind.

The Celestial Clan, if it comes to this continent, the lowest estimate for the cultivation is the Divine Emperor Jiuzhong, or it is the main realm of God. In the eyes of the Yan people, it is really no different from the gods.

It is normal for the masters of the Celestial Clan to show some skills and be enshrined by the Yan Clan.

"Okay, time is up, prayer begins!"

Under the statue, there was an old man who said respectfully to the statue, then knelt in front of the statue and bowed down deeply.

The same is true of everyone else in the courtyard, including Haizong, who worshipped deeply and began to pray.

Lu Ming didn't do this naturally. How could he bow down to the statue of the Celestial Clan?

He stood there, watching silently.

The villagers here are praying wholeheartedly, so no one finds Lu Ming still standing.

After a while, Lu Ming found a scene that surprised him.

He found that when these villagers began to pray, they seemed to have some resonance with the statue. Lu Ming turned the forbidden power into his eyes and could clearly see that there was a silk thread connected to the statue in these villagers. There seems to be something, along this silk thread, constantly converging on the statue, above the statue, a hazy light appeared.

"This... is it the legendary power of faith? The Celestials are collecting the power of faith?"

Lu Ming was shocked.

He once saw it in ancient books. In the early days of the Tiangong era, there was a method of spiritual practice that once prevailed.

That is the practice of the power of faith.

Many strong men will gather believers everywhere and gather the power of faith.

Many believers of the strong, spread all over the life planets, and even all over the small thousand world.

However, the practice of the power of faith has a lot of drawbacks. Fortunately, the more advanced it is, the more difficult it is to control and the easier it is to be repulsed.

After all, the power of these beliefs comes from countless different creatures and contains different ideas.

When it reaches a certain level, even the top powerhouse is difficult to control, and it will be affected by itself, and it will even be repulsed by the power of faith, ranging from serious injuries to severe falls.

So over time, no one has practiced this kind of practice, and it has almost been cut off.

Unexpectedly, here we will see the Celestial People gathering the power of faith.

"What are the human races doing? Is it for cultivation, or for other things?"

Lu Ming frowned.

There was silence all around, and everyone was praying wholeheartedly.

No, there is a person who did not pray with all his heart, that is Haizong.

Lu Ming found that the silk thread on Haizong's body and the statue was very light. If there were none, it seemed to dissipate at any time.

"Haizong, the **** who believes in his mouth, in fact, I'm afraid I don't think so..."

Lu Ming smiled slightly.

The silk thread is very light, indicating that Haizong was not doing it wholeheartedly, but was just playing here.

Lu Ming looked quietly, and it took three hours before the prayer ended.

Under the statue, the old man, who is the head of the village, was the first to end the prayer, opened his eyes, and raised his arms, he would declare the end of prayer.

Then, he saw Lu Ming standing there straight, closing his eyes and raising his mind.

In fact, Lu Ming absorbed the black mist in the dark, he didn't want to delay the time.

"You... you dare not pray, be bold!"

The village chief yelled at the landing.

This roar awakened everyone and looked at Lu Ming one after another.

"What, this person actually didn't pray, it's just bold!"

"This is blasphemous and must be punished!"

"It is recommended to go to the fire and burn to death!"

Many villagers roared.

Lu Ming actually dared not respect the gods and blasphemed the gods. They were afraid, they were afraid of the gods' anger, they did not bless them, and even lowered their punishment, so they vented their anger on Lu Ming.

"Come here, drag this person out and burn to death!"

The village head shouted.

Immediately, several big men stepped forward to win Lu Ming.

Lu Ming looked cold.

The strongest in this village is only the virtual realm, and he also wants to kill him.

Even if he didn't do it himself, Divine Emperor Jiuzhong's ball shot would destroy the village in one move.

"Wait, village head, wait!"

At this time, Haizong shouted and quickly blocked Lu Ming.

"Haizong, do you want to protect him?"

The village chief said coldly.

"Village head, Tianyun, he is not from our village!"

Haizong explained.

"I know he is not a person in our village, but even if it is not a person in our village, as long as he enters our village, he must pray. This is the rule set by the deity."

The village chief said coldly.

"The head of the village, Tianyun's hometown is very remote, there is not yet shrouded by the glory of the deity, and the deity also has regulations. Under special circumstances, there is no need to pray. Tianyun is seriously injured and needs to be healed at all times. If he prays, On the contrary, it will make the injury more serious. This is in accordance with the rules set by the deity. I believe that the deity will not blame."

Haizong defended loudly.

The village head and other villagers carefully looked at Lu Ming.

Lu Ming's condition indeed looks very bad. Although the wounds on his body have been better in the past few days, the whole person is still very thin and his breath is weak. It is indeed a look of serious injury.

The village head and others were relieved.

If you are seriously injured, you don't need to pray. The deity does have such a rule. I believe it will not blame.

"Okay, Haizong, you take him down. The next time the injury is not good, it will not be used, but the injury is good, as long as it is still in our village, you must come, otherwise, death penalty!"

The village chief sternly said.

"Yes Yes Yes!"

Haizong nodded again and again, then gave Lu Ming a face, and left Luming with him.

After walking away, Hai Zongchang exhaled and said, "It was so dangerous just now. Fortunately, your injury was not good, otherwise you would be in trouble."

Lu Ming smiled and did not care, saying: "How long have you been praying like this, do you pray like this in other places?"

"For a long time, many generations have passed it down, at least for tens of thousands of years."

"As far as I know, all places shrouded by the glory of the gods are to pray."

Haizong Road.

Lu Ming nodded silently in his heart, and the Celestial People unearthed the area of the Star, about tens of thousands of years ago.

Chapter 4560: Restore the pinnacle

Three days later, the bell rang again, and it was time for prayer.

This time, Lu Ming did not go with Haizong, but stayed here and continued to absorb the black mist.

In this way, more than three months, in a flash.

On this day, when the last trace of black mist was absorbed, Lu Ming's breath was strong and reached its peak.

His injuries were healed long ago, his muscles swelled up, his blood was boiling, and he was very strong.

Lu Ming found that after this disaster, his cultivation practice has been greatly improved, and has reached the peak of the Divine Lord.

It is not far from the Divine Lord.

Originally, he had absorbed and refined about fifty pieces of Honghuang Crystal before, but he still needed about fifty pieces of Honghuang Crystal to reach the peak of the God Lord.

But now, a piece of Honghuangjing has not been absorbed, and has reached the peak of Divine Lord.

Obviously, the black mist forced Lu Ming's potential.

During this time, his body still has taboo power, fighting against the black mist all the time, constantly inspiring the potential.

At this time, the black mist was removed, and his cultivation behavior was naturally improved.

Then, Lu Ming set his eyes on Huangni Road.

At this moment, above the yellow mud road, there was a black mist.

About the size of an egg, it was Lu Ming who absorbed it from his body.

"This black mist is very strange and terrifying. If the key is to fight it out, it can become a killer."

Lu Ming thought.

The reason why he can fight with the black fog for so long is completely because he is the power of taboo, and he will spread the power of the taboo to every cell in the body, which can also play a certain role in resisting the black fog.

But other people have no taboo power. Once they are exposed to this black mist, the body will be quickly corroded.

It can't be resisted unless it is cultivated to a certain level.

This black mist is absolutely terrible.

Lu Ming thought of the old warship wandering in the void space. The whole body was covered with this black mist, which was even more terrifying.

Before Lu Ming, after a long distance, he was almost touched by the aftermath, and he almost finished playing.

If it is close to the warship, there will be no **** that will definitely be corroded.

"What is the origin of that old warship? The treasure of a top strongman, or is it left from the last era?"

"I don't know what happened to that ship and the Void Monster. Will the old ship be broken by the Void Monster?"

Lu Mingfu wanted to join hands, and after a while, Lu Ming shook his head, throwing these unthinkable questions out of his mind.

"After several months of delay, it's time to start the action. Let's investigate it in secret and see where the Celestial Clan is."

Lu Ming thought about the next plan.

At this time, just when the bell rang, it was time for prayer.

After Haizong left, Lu Ming flickered and left the village, then he rose to the sky and flew away.

During the flight, Lu Ming's body shape and appearance changed rapidly, and finally became a middle-aged man of the Celestial Clan.

After turning into a Celestial Clan, Lu Ming raised his speed to the extreme without any scruples. He first flew into the sky and looked down.

This continent is really huge, and its total area is many times larger than that of the Dragon Mother Star.

Lush everywhere, full of vitality.

"This continent is full of vitality, and the area is huge. It must contain treasures, otherwise it will not be fancy by the human race."

"Perhaps, there are a lot of crystals in Honghuang!"

Lu Ming's eyes lit up.

Previously, on the continent with Heitianyuan gold ore, there were many Honghuang crystals.

And this continent is not many times larger than that continent, and it is absolutely not simple to breed a human race, and there may be big gains.

"There is a big city there, go and see!"

Lu Ming looked down and saw a big city, flying down, the spiritual consciousness enveloped the big city.

This large city has a very large population, and they are all human races, which is what the Haizong called the Yan people. Unfortunately, the people of this big city are praying at the moment.

In the city pool, there are many statues of the Terran Clan, at least millions of people are praying piously, and a trace of the power of faith is constantly being absorbed by the statue.

Lu Ming frowned. He knew that the Celestial Clan absorbed the power of faith. It was absolutely useful, but he didn't know what it was for.

However, Lu Ming will destroy everything that is beneficial to the Celestial Clan.

Therefore, Lu Ming intends to investigate this matter clearly.

"Lu Ming, I feel that direction, there are delicious, super delicious..."

The ball shouted, his eyes spinning round and round, emitting dazzling light.

"Go, go and see!"

Lu Ming flew in that direction according to the ball's instructions.

Soon after, I saw a large mountain range.

In one of the mountains, many figures can be seen, densely packed.

"This is a mine. The people here are not praying."

Lu Ming thought, hiding in secret.

Sure enough, there was a discovery.

On top of one of the peaks, Lu Ming saw several figures, all of which were heaven and human races.

There are five Celestial Clan.

One of them is the Divine Lord Realm, but only the Divine Lord is the first, and the other four are the Celestial Clan elders of the Divine Emperor.

Divine Emperor Jiuzhong reached the main realm of God, across the sky, it was too difficult to break through.

Therefore, among the Celestial Clan, there are a large number of senior figures stuck in the Divine Emperor Jiu Zhong which is difficult to break through.

Many of the elder figures of the Divine Emperor Jiuzhong will choose to venture into the ruins of the universe and want to seek a breakthrough.

Although the ruins of the universe are very dangerous for Divine Emperor Jiuzhong, they have to fight, because if they continue, their life will be exhausted.

"In addition to the five Celestial Clan, the others are the Terrans, and the Terrans are mining..."

Lu Ming continued to observe.

He discovered that this mountain range was dug out of various size mines, and a large number of human races were busy entering and leaving these mines.

However, there is no Celestial Clan in or out of the mine.

Obviously, the Celestials are just managing.

"Delicious, Lu Ming, those mines, there are delicious, top delicious..."

The sound of the ball kept ringing in Lu Ming's ears, his eyes glowed, and he was very eager.

"Ball, don't be restless, let's find a chance to take a look!"

Lu Ming said.

On the highest mountain, the five celestial tribes are surrounded by spiritual knowledge, and Lu Ming will pass by directly, and they will definitely be discovered.

Although he became a Celestial Clan, he might be exposed if he meets other Celestial Clan.

In addition, among the five Celestial Clan, the highest cultivation level is only the Divine Lord. Lu Ming can easily kill.

However, Lu Ming now does not want to fight the grass and startle the snake.

He still does not know how many human races there are on this continent, and how many of them are strong.

It is better to investigate in secret first.
