

D Emperor 4561

Chapter 4561: Ice Martian Silver

Lu Ming performed a big hidden technique and hid in the dark to observe.

Sure enough, a few hours later, Lu Ming found an opportunity.

There is a big human race leaving from the mine, it seems that he is going to do something, and soon left the scope of the spiritual knowledge of the heaven and human race.

Uh!

Lu Ming rushed out, his palms were like electricity, and he hacked on the back of the big man. Lu Ming's strength and control were very good, but he just stunned the big man and did not kill him.

Lu Ming is also principled in doing things. The other party has no grievances with him, so he will not easily kill him.

Then, with a wave of his hand, he sent the great man into the famine, and he used great imitation to transform into the appearance of that big man, even the breath of life.

Lu Ming did not rush to return to the mine. Dahan returned as soon as he left the mine. I am afraid it would arouse suspicion from the Terran.

Lu Ming waited for a few hours nearby, then swaggered toward the mine.

When approaching the mine, the spiritual consciousness of the Celestial Clan swept over, turned around on him, and recovered it. Naturally, no flaws were found.

Lu Ming proceeded as if nothing had happened and came to the mine.

This area is full of potholes, and every mine gleams dimly.

Many people are in and out and are busy.

Lu Ming randomly chose a mine and walked in. In the depths of the mine, he found a large number of human races mining and refining the metal in the ore.

"It is Ice, Mars and Silver, but it is Ice, Mars and Silver!"

After Lu Ming carefully recognized this metal ore, Lu Ming was shocked in his heart, somewhat incredible.

The metallic material contained in the ore here is actually ice, fire, and silver.

The ball mentioned ice, silver and sparks in detail before.

When refining source level magic soldiers, if ice, fire, and silver are added to it, the success rate can be greatly improved, and the success rate of refining source level magic soldiers can be increased to 20%.

Because Ice, Mars and Silver can perfectly reconcile various materials and make them blend perfectly, greatly reducing the difficulty of refining source-level magic soldiers.

Because the ball has swallowed too many broken source-level and main-level **** soldiers, it has produced a lot of impurities, and the cultivation base is stuck at the peak of Divine Emperor Jiuzhong. It is difficult to break through. Time of year.

But if there is enough ice, fire, and silver, he will soon be able to refine impurities and evolve again.

It's really hard to break through the iron shoes.

"Eat, I want to eat!"

The ball couldn't be more excited, constantly sending Lu Ming a voice.

"No hurry, no hurry, let's take a look first, and then start late."

Lu Ming said.

The ball calmed down.

"No, this is..."

At this moment, Lu Ming suddenly felt tingling pain in his skin, as if cut by countless blades.

"Oh, it hurts, Lu Ming, there is a problem with the light here..."

The ball also shouted.

Of course, the sound is transmitted by the soul, not the sound.

That's right, the light here.

Lu Ming also found out.

Under the mine, there was a dim light, which shone on him and had a terrible attack, and he was to be wiped out.

"Ball, you first enter Honghuangjie!"

With a move in Lu Ming's heart, the ball carried on his wrist disappeared, and he entered Honghuangjie, and no one found it.

Lu Ming's ability to run taboos, covering the whole body, is better.

But Lu Ming found that this light was still attacking the taboo power, which was not completely blocked, but was constantly being consumed.

In this way, the power of taboo will be penetrated sooner or later.

"What power is this, so horrible, no, these people have nothing at all..."

Lu Ming discovered that the people who mine here have nothing.

They seem to be exactly the same as elsewhere.

"What's going on? This light won't attack them?"

Lu Ming's thoughts changed sharply, but his face was quiet, and he turned to another mine and found that the situation was the same.

All mines have this kind of light.

The light is not dazzling, but the power is very scary.

For a while, Lu Ming's taboo power consumed a third.

This speed is simply amazing.

It gives the impression that this kind of light is more terrifying than the black mist that penetrated Lu Ming's body before. The speed at which the black mist consumes the taboo power is not so fast.

"What are you doing? Don't go to work quickly, grind the chirp here, this is a disrespect to the gods, if you anger the gods, drop the punishment, no one can save you."

At this moment, a loud voice came, and a burly man came over, glaring at Lu Ming, holding a leather whip in his hand.

This big man is also a human race and looks like a manager here.

"Yes Yes!"

Lu Ming nodded again and again, pretending to work aside.

After the manager left, Lu Ming flickered and left here.

Lu Ming left the mine and took a long breath.

Outside the mine, there was no such light.

"There are terrible lights in the mine, but the Yan people are fine, but I was attacked with the ball. Is it related to the blood of the Yan people?"

Lu Ming thoughts flashed through his head, and he began to speculate based on some existing clues.

The Yan people, although they are also human races, are indeed bred from this continent, and their blood is definitely different from Lu Ming.

Perhaps, it is because of the blood of the Yan tribe that they are not attacked by that kind of light.

When other creatures enter, they will be attacked by that kind of light.

Therefore, those human races did not go in, but stayed outside.

Perhaps the Celestials pretend to be gods and control the people in this continent just to let them dig ore for them.

"No, it's just that mining the ore doesn't need to be so troublesome. It is enough to deter with powerful force, not to mention, they are still absorbing the power of faith..."

Lu Ming frowned slightly.

Lu Ming still couldn't figure out why he absorbed the power of faith.

"Leave here first, then observe in secret and talk."

Lu Ming thought, and then ran a large imitation technique, which turned into another person of the Yan tribe who had just seen in the mine, and swaggered out.

It does not seem to be forbidden to go out here, but when going out, someone will check to see if they have secretly taken out the ice, silver, and sparks.

Lu Ming naturally passed the inspection easily and left the mine area.

After leaving the mine area, Lu Ming performed another big concealment technique, hiding in the dark, mainly to observe the five Celestial Clan.

In the first two days, nothing was found.

On the third day, I finally found something.

Another human race came.

This celestial being has the double cultivation of the Divine Lord.

After he landed on the highest mountain, the previous five Celestial Clan nodded their heads, respectfully.

In the end, the Divine Lord's One-Heaven Celestial Clan took out a storage ring and gave it to the Divine Lord the Two-Heaven Celestial Clan.

Chapter 4562: Light as a feather

"In there, is it the excavation of the refined silver of ice, fire and stars?"

Lu Ming's eyes flashed, revealing a fiery light.

This is very likely.

Because through these few days of observation, he knows that the ice, fire, and silver extracted from the mine every day will be handed over to the five Celestial Clan.

And now, this master of the double master of the Divine Lord may also come to collect ice, Mars and silver.

There may be more than one mine on this continent, and the masters of the Celestial Race are obviously more than that.

Therefore, it is reasonable for someone to collect ice, silver and silver from mines everywhere.

The Divine Lord Clan of Heaven took the storage ring, checked it, then nodded and walked away.

Lu Ming quietly followed.

Ice, Mars and Silver can not be missed.

Lu Ming originally planned to observe for a few more days, so he had to do his hands to kill the five Celestial Clan and seize the ice, fire, and silver in their hands.

Now that Ice, Mars, and Silver are likely to be taken away by the dual existence of the Divine Lord, Lu Ming will naturally stare at this person.

After a long distance to follow, Lu Ming went directly to a secluded area.

Without any nonsense, Lu Ming directly exhibited the sky-breaking style, and the whole person turned into a gorgeous ray of light, piercing the heavenly human race.

With Lu Ming's strength, he suddenly launched an attack, and the opponent had no room to fight back.

When the Celestial Clan discovered, it was too late.

puff!

The Celestial Clan was directly penetrated by the gunman, his body burst and fell to the spot.

Lu Ming waved his hand and grabbed the man's storage ring in his hand, and then a fire. The corpse of the Celestial Clan was completely turned into powder, leaving no trace of it, and then flickered and left here.

Hundreds of thousands of miles away, Lu Ming took out the storage ring and began to look it up.

Among the storage rings, there are other storage rings, and Lu Ming looked patiently one by one.

Other things, Lu Ming skipped by, and did not find anything.

"Ice Mars Silver!"

Finally, in one of the storage rings, Lu Ming discovered Ice, Mars and Silver.

As soon as Lu Ming thought, a piece of longan-sized metal appeared in his palm.

The color of the metal is very peculiar, there are two kinds of light on it, which are constantly flowing.

A kind of crimson, a kind of dark blue, the two lights seem to blend together, without any sense of disobedience.

And above, there is a little bit of shining, like starlight.

Therefore, it will be called ice, silver and sparks.

"This piece is only about ten grams. This ice, Martian silver is really light."

Lu Ming sighed.

A piece of ice, silver and ice, the size of a longan, is only about ten grams, which is not much heavier than cotton. In metal, such a light is rare.

If it is replaced by Hei Tian Yuan gold, a piece of longan size is heavier than a meteorite.

Lu Ming checked. In this storage ring, there are a total of 30 pieces of ice, sparks and silver, each of which is about ten grams.

Thirty yuan, add up to three hundred grams.

Three hundred grams is not enough for refining a source-level magical soldier. Refining a source-level magical soldier is about one pound.

The ball needs ten pounds to completely reconcile the impurities in the body, which is not enough.

"Eat, eat, I want to eat!"

The ball cried out, it was already impatient.

"give!"

Lu Ming gave all the 30 pieces of ice, fire and silver to the ball and was swallowed into it.

Then the ball showed a satisfied expression and said: "It's delicious, it's really delicious, but unfortunately it is too little, and I can't let me reconcile the impurities..."

"I estimate, I estimate that there is more than one mine. We will look elsewhere to see if there are other mines."

Lu Ming said.

Then he performed a great imitation technique, which turned into the divine God-man clan just now, and flew away in one direction.

Of course, before leaving, he released the Yan Han who was put into the Honghuangjie.

This continent is too vast. He has been flying for more than a day before finally discovering a mine.

"There are really mines. I don't know if the mine contains silver, ice, sparks, go and see!"

Lu Mingsi thought, fluttering toward the highest mountain.

He has discovered that there are also five Tianren races on this mountain peak.

One divine master has one weight, and four divine emperors have nine heavenly human elders.

Lu Ming landed, and the five heavenly races quickly saluted.

"Give me your harvest this time!"

Lu Ming said lightly, with a commanded tone.

"This month, how did you come to collect the ice, Mars, and silver? Haven't you all been careless adults before?"

The Divine Lord's heavy-hearted Celestial Race was somewhat surprised.

"Sure enough, it is ice, fire, and silver!"

Lu Ming was very happy in his heart, but his face was quiet, saying: "I have nothing to do during this period of time, and I need to retreat, so I will do it for me."

"However, there are three days before January. Lord Ye Lingtianshou stipulates that each mine is only 30 days away before collecting ice, silver and silver. , Let me ask Lord Ye Lingtianshou first."

The Divine Lord weighs the heaven and human race.

Then take out a piece of sound-transmitting jade, and it will be transmitted.

He did not doubt that the 'Yuren' in front of him was pretending to be someone else. He just felt that he was out of compliance and was afraid of being punished, so he asked the real administrator of this continent, Ye Ling Tian Shou.

"Really dead!"

Lu Ming sighed.

Originally, these people would just give him the ice, silver, and silver, and he would retreat, and he wouldn't do it, so as not to beat the grass and startle the snake.

But now, these people have to send a message to the Celestial People above, then Lu Ming has to start.

call out!

Lu Ming shot, his fingers were like guns, one finger pointed out, and he focused on the god's eyebrows.

This person didn't even think that Lu Ming would suddenly shoot him, so he couldn't avoid it.

In fact, even if he knew that Lu Ming was going to shoot him, he couldn't avoid it. The two had too much difference in combat power.

puff!

The blood was splattering, the person's eyebrows were penetrated, and his soul was instantly annihilated.

His eyes glared round, revealing unbelievable colors. It seemed he could not believe that Lu Ming would suddenly shoot him.

Normally, the person's body fell to the ground.

The other four divine emperors, Nine Heavy Heavenly Clan elders, were all stunned. They stared at the landing stunned, and forgot to escape for a while.

咻咻咻咻咻!

Lu Ming's head was hit with four bullets, and four gunshots shot out, knocking down the four Divine Emperor's ninth-level Celestial Clan elders, causing the four Celestial Clan elders to be hit hard and unable to fight anymore.

Then, with a wave of his hand, the five Tianren races were all taken into the Honghuang Precept.

The reason why Lu Ming left four Celestial Clan elders did not kill, that is because Lu Ming had questions to ask these Celestial Clan.

In addition, Lu Ming wants to find out the specific location of other mines, so as not to fly like a headless fly.

Chapter 4563: Cross-examination

After tidying up, Lu Ming did not leave, but stayed directly at the top of this mountain, and the spiritual consciousness came out in the Honghuangjie.

Appeared in front of four old people who were hit hard.

"Master, why do you want to shoot us, why?"

A celestial elder asked with a roar.

"Nonsense, how can I turn in precious treasures such as Ice, Fire, and Silver?"

Lu Ming sneered, now he still pretends to be that "you".

Great imitation is very mysterious, even if the spiritual consciousness is condensed, it can be imitated.

"You... you want to gobble up ice, Mars, and silver, if Lord Yelingtianshou knows, your end will be miserable."

It was still the roar of the Celestial Clan old man, a look filled with righteous indignation.

bump!

Lu Ming stepped directly out, and the head of the old man of the Celestial Clan burst like a watermelon, and the soul was also at this foot.

The remaining three old men were pale.

"I'm not here to listen to your threats, and I'm too lazy to talk nonsense with you. Now, what do I ask you, what do you give me?"

"Why is there strange light in that mine? Is that light harmful to other creatures? But harmless to the Yan tribe?"

Lu Ming asked.

Although he can speculate on many problems, it is only his speculation, which needs to be confirmed.

"You don't even know this? You... you are not a great man, who are you?"

An old man shouted.

How can a real "big man" ask such a question? They are all old guys who have lived an endless period of time, and a little thought will know that Lu Ming is definitely not a real 'big man', but a fake.

"Now I am asking you, not you are asking me, do you want to die?"

Lu Ming glanced at the old man with cold eyes, and the old man shivered involuntarily, revealing a look of horror.

Lu Ming's fierce tactics just now are vividly visible.

"Give you three breathing time to answer my questions, otherwise, I will choose one of the three of you to kill!"

Lu Ming said coldly.

The cold killing made the three Celestial elders know that Lu Ming was not kidding.

One breath, two breaths...

The colors of fear in the eyes of the three Celestial Clan elders were more intense.

"I said, I said everything."

An old man could not bear it at last and yelled.

Although the old people of these human races are all those who will die of Shou Yuan, they have the intention to fall into the ruins of the universe.

However, as death approached, they still could not control the fear in their hearts.

"The light in the mine is really only ineffective against the Yan Clan. People of other races will be attacked when they enter, and they are terrible. Even if the God Lord enters, they can't persevere for too long."

"We speculate that this should be related to the blood of the Yan nationality. After all, the Yan nationality was born on this continent and integrated with the continent, so that kind of light will not attack the Yan nationality!"

"As for how that light is formed, we don't know yet. It's just speculation that it should be related to the last era, so we will control the Yan people and mine for us."

The old man answered very detailedly, more than Lu Ming asked.

"Oh, how many mines do you find now, all those precious metal materials? Where are they located?"

Lu Ming asked several questions in a row.

"Our mine has thirty-six of them, all of which are ice, sparks and silver. There are no other metals on this continent, only ice, sparks and silver."

"As for the specific distribution, I have a map here with detailed labels."

An old man first answered, then took out a jade charm and gave it to Lu Ming.

Lu Ming waved his hand, took the jade symbol, entered the power of taboo, the jade symbol glowed, and projected a map in the air.

There is a line on it, and there are some special marks that mark the mines clearly.

"Actually, there are 36 mines of ice, fire and silver. There are as many as 36 mines. This continent is a priceless treasure."

Lu Ming's heart beat fiercely.

How much ice, Mars and silver does this continent contain?

With so much ice, Mars, and silver, the value is simply incalculable.

Refining source-level magic soldiers and adding ice, fire, silver, but can greatly improve the success rate, this value is simply more precious than many materials for refining source-level magic soldiers.

What makes Lu Ming happy is that the ten pounds of ice, sparks and silver needed by the ball are no longer extravagant.

"You Celestial Clan, how many masters are there on this continent, and what is the strongest?"

Lu Ming continued to ask.

"This continent, called the Star Continent, is the core of the Star Zone, so most of our masters in the Star Zone are converged on this continent. There are hundreds of them. The strongest is Lord Yeling Tianshou, the God Lord. Cultivate as."

An old man said.

"Seven Lord God!"

Lu Ming was shocked in his heart.

This is a high-level Divine Lord, the strength is much stronger than him, if encountered, I am afraid that the other party can kill him in one move.

In this way, he is right to act in a low-key manner. He resists head-on. He is not an opponent of the Celestial Clan at all.

"Also, what are you doing here to absorb the power of faith?"

Lu Ming asked the biggest doubt in his heart.

"This, our specifics are not too clear, just know that it seems to be related to Zu Mountain."

An old man of heaven and earth said.

"Zushan?"

Lu Ming frowned.

Haizong once said that the ancestors of the Yan people came out of the ancestral mountain, and that the ancestor gave birth to the Yan people.

Now that the Celestial Clan absorbs the power of faith, it is actually related to Zu Mountain. What on earth are they going to do?

It is a pity that these elders of the Terran family know little.

Then, Lu Ming asked another question and left Honghuangjie.

As for the three Celestial Clan elders, Lu Ming didn't kill for the time being. If he thinks of any problems, he can also ask.

Lu Ming took out the storage rings of the Celestial Clan and looked over them one by one.

Finally, in a storage ring, Lu Ming found 27 pieces of ice, sparks and silver.

Each of these 27 pieces of ice, fire, and silver is larger than Lu Ming's before.

The weight of each piece reached 15 grams.

"It seems that this mine is bigger and contains more ice, fire, and silver, and it can produce 15 grams per day. Very good!"

Lu Ming smiled, and then ate 27 pieces of ice, fire and silver to the ball, and the ball showed a satisfied expression.

Although Ice, Mars, and Silver are extremely precious, Lu Ming also felt heartache when he ate the ball.

But compared to the breakthrough of the ball, it is still worth it.

Once the ball breaks through and reaches the main state of God, the ability to sense and excavate metal materials will be greatly improved. In the future, he will find more precious metal materials.

Moreover, the ball's combat power will skyrocket, which can become a big help for him.

Therefore, it is totally worth paying some ice, fire and silver.

Chapter 4564: Actually exposed

Lu Ming did not leave here, but performed a great imitation technique, which turned into the original existence of the God Lord, sitting cross-legged.

Because, there are still three days left, and the 'unintentioned adults' who really come to collect the ice, Mars and silver will come.

If the other party comes and finds that all the five human races are missing here, they will definitely report it, and the major mines will definitely be investigated by then. In that case, he would find it more difficult to get more ice, fire, and silver by touching the fish in muddy water.

Therefore, Lu Ming has to wait here for three days to get rid of the "Unintentional Master". So, although the news will be leaked sooner or later, there will be something wrong with the Celestial Clan, but at least Lu Ming will have more time.

The next day, Lu Ming saw a person coming from the mine toward the mountain. He was an old man and should be the manager of the mine.

After approaching the top of the mountain, the man kneeled respectfully on the ground and placed a jade box on the ground, saying: "Sir God, the ice, silver and silver excavated yesterday were all here."

"Okay, I know, let's go!"

Lu Ming imitates the voice of the Celestial Clan and is full of majesty.

"Yes!"

The other person respectfully retreated.

Lu Ming grabbed the palm of his hand, grabbed the jade box in his hand, and opened the jade box. It was a piece of ice, fire and silver, about 15 grams.

Lu Ming threw the ball to the ball.

The next day and the third day, the old man will send a piece of ice, sparks and silver, all about 15 grams, Lu Ming gave the ball.

In this way, the ball ate a total of about 750 grams of ice, fire, and silver, only a half a catty, ten kilograms away, and a long distance away.

And on the third day, the old man had just sent ice, sparks, silver, and a figure came from the sky in the distance.

This is a middle-aged man of heaven and humanity.

Needless to say, Lu Ming also knows that this person is an "innocent adult".

"Innocent Lord" landed on the mountain peak, sweeping Lu Ming's eyes, frowning and saying, "Ye Chu Dashan, why are you alone, the others?"

"Unintentional Master, the other four people leave for a while, and will return soon."

Lu Ming said.

"Oh, so it turns out, give me the ice, fire, and silver on you."

"Innocent Lord" said.

"Yes!"

Lu Ming pretends to get Ice, Mars and Silver, but he actually intends to shoot.

But at this time, "Innocent Master" took the lead, and a sword appeared in his hand, slashing to the landing Ming's head.

He has the double cultivation of the Divine Lord, the speed is like lightning, and the power is terrifying.

The power of taboo runs autonomously, converging on the palm of the hand and hacking upward.

With a bang, Lu Ming's palm collided with the opponent's sword, and a violent roar erupted. Lu Ming's palm numb and he could not help but take a few steps back.

Just now he hurriedly shot and did not use much power, and the other party used the main-level magic soldier, and Lu Ming was shocked by the other party.

"You can take me without being hurt. It's good. No wonder you are so brave and dare to pretend to be my deity."

"Unintentioned Lord" said coldly.

"How do you know that I'm fake?"

Lu Ming asked.

His great imitation technique should be seamless, unless Tianzun is in person, otherwise he would like to see through.

"Because, I am not at all 'unintentional'. I have something to do in these few days, so I will collect the ice, Mars and silver, but you regard me as 'intentional'. Do you say you are counterfeit?"

The other party sneered.

Lu Ming was speechless.

He had casually said that 'unintentional' had closed down, but he didn't expect it to come true.

It's really unpredictable.

"Say, who are you? What method was used to fake my Celestial Clan?"

The other party spoke indifferently, his breath became stronger and stronger, and his killing intentions became stronger and stronger.

"What if I don't say it?"

Lu Ming said lightly.

Just now he just didn't expect that the other party would suddenly shoot, otherwise, with the strength of the other party, he hasn't paid attention to it.

"Do not say, die!"

The other party drank coldly and his breath exploded, and the saber slammed into Landing Ming's head.

Lu Ming's eyes were indifferent, and his palms glowed, as if it had turned into a spear, and he waved it out.

This time, Lu Ming was prepared and the power of terror was in his palm.

when!

A vibrating sound of gold and iron clashes erupted, and then the other party's body shook wildly, backing away continuously, and a mouthful of blood spewed out.

This person was shocked by the force of the anti-seismic force.

"You... your strength..."

The man's eyes were round, and the horrified staring landed, all eyes were incredible.

Originally, he thought that Lu Ming was only the first cultivation practice of the Divine Lord. With his second cultivation practice, he could easily kill Lu Ming.

Unexpectedly, Lu Ming suddenly burst into earth-shattering strength, completely surpassing him.

"I still want to kill me with your strength and send you on the road!"

Lu Ming spoke indifferently, and the God of War gun appeared in the palm of his hand.

It's too fast, so fast that the other party can't avoid it, and can only make a hard connection.

But the consequence of the hard connection is that the man's sword shattered, his body was penetrated, and then torn apart, completely fell.

Head to head, not to mention that the Divine Lord of the Celestial Clan is double. Even the Triple Lord of the Divine Lord must be killed by Lu Ming.

After killing this person, send this person's broken body to Honghuangjie.

The two confronted each other for a few moves, which caused a great shock, and the mine not far away was also disturbed.

Several people approached here.

Lu Ming stepped out of the air and stood in midair, exuding a strong breath and dazzling light.

The vast coercion enveloped the entire mine.

"God, it's a god!"

"The deity appeared, meet the deity!"

The people in the mine, as well as several managers, bowed down respectfully and prostrate to the ground.

They did not dare to look directly at Lu Ming. They had the courage to sneak a peek at Lu Ming, only to see that Lu Ming was enveloped in it by endless divine light.

"Wait, no need to panic, I was shocked by my cultivation just now, wait until I go back to work!"

Lu Ming's majestic voice spread throughout the audience.

It turns out so!

Everyone 'understand' it, it turned out to be the shock caused by the deity's cultivation just now.

"The gods are invincible, please bless the gods!"

These Yan tribes respectfully kowtowed and retreated one after another and returned to the mine to continue mining.

"The Celestials are really the same as the gods in the hearts of the Yans, and they cannot be offended!"

Lu Ming shook his head.

But in this way, temporarily concealed.

After sending the people of the Yan tribe in the mine, Lu Ming took out the map and looked at it, then it turned into a rainbow of light and flew towards the nearest mine.

As he approached the mine, he waited for a day, and then turned directly into the appearance of "Yu Youren", and went to collect the ice, Mars, and silver.

He knows from the mouths of the three Celestial Clan elders that the days of collecting ice, Mars and silver in each mine are different, the same is that they are collected once a month.

In this way, Lu Ming had an opportunity.

For example, this mine is more than a day later than the previous one, so Lu Ming waited for a day, turned into a "big man", and went to collect ice, Mars and silver.

Chapter 4565: Twenty catties of ice, Mars and silver

And Lu Ming learned that there were three people who collected ice, Mars and silver.

Each is responsible for twelve mines.

Lord Yu is one of them, and the unintentional adult is also one of them. The other is the middle-aged man who was previously killed by Lu Ming.

And the mine in front of you is also responsible for the "Unintentional Master".

However, Lu Ming has never seen this "unintentioned adult", unable to perform great imitation, and simply turned into a "big man".

When Lu Ming came, the guardian Celestial Nature would naturally ask about 'Unintentional Master', and Lu Ming randomly found a reason to stumble past.

It was very smooth to get Ice, Mars and Silver. This time, it added up to more than 300 grams. After throwing it to the ball, Lu Ming continued to fly toward the nearest mine according to the map.

The delivery time of these mines is different, because even 'You' can't walk through all the mines in a day, so the time is in order, which is convenient for Lu Ming to act.

Of course, it is impossible for Lu Ming to arrive on time at all mines. Some mines will arrive later, but these are not major events, and it is easy to find reasons to fool over.

In the end, Lu Ming spent more than ten days walking through the 36 mines, collecting about 20 kg of ice, fire, and silver.

This is a huge gain.

Because refining a source-level magic soldier, only need to add a pound of ice, fire, and silver.

Twenty catties, but can refine 20 source-level magic soldiers.

This is only a month's worth of harvest. It is conceivable how much ice, fire, and silver have been harvested here by the Celestial Clan.

You know, ice, fire, silver and silver are in the wilderness universe, but it has a price but no market.

Of course, refining source-level magic soldiers is not limited to ice, fire, and silver. Ice and flame silver is only used as a blending agent to reconcile various materials. Refining source-level magic soldiers also requires other major materials.

The other main materials are also extremely precious. It is also difficult to make up the materials for refining 20 source-level magic soldiers.

However, as long as you have enough ice, fire, and silver, you don't have to worry about ice, fire, and silver.

Especially for the huge forces such as the Tiangong or the Heavenly Destruction Corps, many of them have ventured out to find treasures in the ruins of the universe.

Accumulated, after a period of time, we can still make up a material for a source-level magic soldier.

As long as there is enough ice, fire, and silver in your hand, as long as the materials for refining the source-level magic soldiers are put together, you can start refining, and the success rate is as high as 20%.

This is of great significance to huge forces. After years of accumulation, the number of source-level magic soldiers will increase, and the strength of a certain force will also be greatly improved.

At present, no matter whether it is the Tiangong Palace or the Heavenly Destruction Corps, it is impossible to achieve the level of a source-level Divine Soldier in the original source.

Yes, there is not every source strongman in the Tiangong Temple.

This is especially true of the non-human race's native powerhouses, many of which are only used as main level soldiers.

And if the sky-human race controls a large amount of ice, fire, and silver, and after a long period of accumulation, it is really possible to achieve one or even a few pieces.

Then, the combat power of the original source side of the Tiangong will completely crush the heavenly army.

Lu Ming naturally thought of this.

"No, this continent is very important, we must find a way to get it."

Lu Ming's eyes flickered.

However, he has a doubt that this continent contains so much ice, Mars and silver, the importance is beyond doubt, it is definitely a weapon that can affect war, but it takes a long time.

In such an important place, the strongest man in which the Celestial Clan sits here is actually the Seventh Lord of the Divine Lord?

Not afraid of being taken away by the annihilation?

It's not an exaggeration to send a few strongmen from the origin to guard.

There is only one possibility.

Lu Ming thoughtfully.

It is likely that the Ye Ling Tian Shou wanted to monopolize the ice, Mars and silver here, so he chose not to report it, and the upper level of the Tiangong Palace did not know that there was so much ice, Mars and silver.

After all, this area was newly developed by the Celestial Clan.

"If this is the case, I might be able to find a way to control this continent in my hands."

Lu Ming's eyes showed fiery light.

However, the Jade Spirit Shou is the strongest of God's sevenfold, which is not something he can deal with.

Must be long-term.

If this is not possible, Lu Ming will return and pass the news to Feihuang to let Feihuang take control of the continent.

Better than cheap Tiangong.

While thinking, he flew towards the village where Haizong was located.

Yes, Lu Ming intends to hide in the village where Haizong is located, and wait for the ball to evolve before taking the next step.

He has searched the ice, fire, silver and silver of the 36 mines. He believes that the Celestial Clan, or the Yeling Tianshou, will soon find anomalies.

By then, this continent will not be peaceful, and hiding in a remote mountain village is the best.

Lu Ming raised the speed to the extreme, flying straight, very fast. After a few days, Lu Ming returned to the village where Haizong was located and appeared in the other courtyard where he lived.

"Brother Tianyun, you... you are back, I thought you were gone!"

When he saw Lu Ming, Haizong was very happy.

Lu Ming went for more than 20 days, he thought Lu Ming said goodbye.

"I need several materials for healing. I went out to find it before."

Lu Ming smiled.

"Brother Tianyun, your injury is getting better!"

Haizong Road.

"Well, it's almost ready!" Lu Ming nodded.

"That's great!" Hai Zong smiled, happy for Lu Ming.

What a boy with a simple mind.

After a few chats with Haizong, Lu Ming returned to the room and placed the ball on the ground.

Lu Ming has swallowed ten pounds of ice, sparks and silver before and after the ball.

According to the ball's own estimate, ten pounds of ice, Mars and silver are enough.

The next step is to wait for harmonization of impurities and realize evolution.

And according to the ball, this time will not be too long. Lu Ming intends to wait for the ball to evolve before taking the next step.

On his own, he sat cross-legged and continued to use the Honghuang Precept as a reference to understand the Honghuang style.

He sighed a little in his heart, and there was no Hong Huangjing in his hand, otherwise he could take the opportunity to hit the God Lord.

He also cross-examined several elders of the Celestial Clan, and learned that there are hungry crystals in the ice and fire starry sky mine, but the number is very small.

A mine often takes a few years to dig out.

Only a few years later, this number is too small.

But Lu Ming is a little strange. This continent is so prosperous, and it has bred such a huge ethnic group of Yan people. It should be right to contain Hong Huangjing.

Isn't Hong Huangjing not in the silver ores of ice, fire and silver, but in other places, the Celestial Clan has not been found?

After waiting for the thunder, let's inquire about it.

Lu Ming always feels that this continent is not that simple and contains unknown secrets.

Chapter 4566: Yaya castle tower

At this time, in the central area of the Star Continent, there is a luxurious palace. Above the palace, a figure sits on it, full of majesty, but his face is very gloomy.

This person is Ye Ling Tian Shou.

The hall was extremely repressed, and the other Celestials did not dare to show up.

"Who can tell me, what's going on, and why hasn't the ice, sparks, and silver this month been collected yet?"

Ye Lingtian's indifferent voice sounded in the hall. In the hall, the others bowed their heads, and no one dared to speak.

On the Star Continent, Ye Ling Tian Shou is the Emperor of the Earth, whoever dares to offend him will end miserably.

"Ye Lingyou and Yeling Wuxin, and Ye Lingchu, the three of them, I asked them to collect the ice, Mars, and silver, why are they all gone now? Give me a reply!"

Ye Ling Tian Shou aggravated his voice, obviously obviously very uncomfortable.

"Adult, Ye Ling Wuxin is retreating. This month, the two responsible for collecting ice, Mars, and silver are Ye Lingyou and Ye Lingchu."

At this time, an old man bowed.

This person, with the five-fold cultivation practice of the Divine Lord, is one of the strongest under the Ye Ling Tian Shou.

"So, how about the two of them, why don't they come to see me?"

Ye Lingtian keeps the way.

"Adult, during this time, I have not seen the return of both Ye Lingyou and Ye Lingchu, and there is no one to return the news."

The old man reported.

"Did not return? No one returned the message?"

Ye Ling Tian Shou frowned, and pondered a bit, said: "Go, call me the person in charge of the 36 mines, I have something to ask them!"

"Yes!"

The old man respectfully received his orders, then stepped back and began to speak.

Others got up in the main hall.

This is just a few days, and the heads of other mines have rushed over.

Thirty-six mines, not all the person in charge has a divine master's cultivation practice. In fact, only a few mines have the presence of God's dominion.

God Lord, even in the Heaven Palace, there will not be too many. In the hundreds of people and human races led by the Yeling Heavenly Guard, there are only more than 20 God Lords.

When these people saw Ye Ling's heavenly guard, they all saluted respectfully.

"Why is there one less person?"

Ye Ling Tian Shou looked away and found 36 people, only 35 people came.

"Master Tianshou, the person in charge of the Qishan mine, has never heard back."

The five-fold old man of the Divine Lord answered.

"No reply?"

A gloomy color flashed in the eyes of Ye Ling Tian Shou, saying: "Go, send someone to check!"

"Yes!"

The old man of the Five Lords of the Divine Lord took orders and sent someone to the Qishan Mine.

The Qishan Mine is where Lu Ming killed or won all the five Celestial Clan of the five guards. Naturally, no one will return.

"Did you have turned in the silver of ice and fire this month?"

Ye Lingtian Shou's eyes looked at the thirty-five persons in charge under the main hall.

"Master Tianshou, the ice, fire, and silver on my side have all been handed over to Master You!"

A divine lord is responsible for humanity.

"My handed over, I gave it to Lord Yelingchu!"

"Mine too, I also gave it to Master Chu."

Other responsible persons also responded one after another, either to Lord Yau or Lord Chu.

"Are you sure? If anyone dared to lie to me, you know what happened."

Ye Lingtian keeps a ruthless way, a pair of long narrow eyes, full of murderous opportunities.

The person in charge was pale, but they knew how ruthless Ye Lingtian Shou was.

"Master Tianshou, I can swear on the source of life, I said, every sentence is true!"

"Me too, I also swear with the source of life, if I have half a lie, let Master Tianshou handle it!"

Others also cried out one after another to prove their innocence.

"Okay, I believe you guys, go ahead!"

Ye Ling Tian Shou waved his hands, and the thirty-five persons in charge retreated.

"Master Tianshou, is it that Ye Lingyou and Ye Lingchu want to have their own pockets, swallowed the ice, silver and silver, and then left here?"

The five-fold old man said.

Ice, Mars, and Silver are too precious, and anyone will get greedy.

"It's impossible, forgive them both, and don't dare to betray me. Their life and death can be in my hands."

Ye Lingtian keeps the way.

"thats right!"

The old man of the Five Lords of God nodded.

Ye Ling Tian Shou masters a terrible poison. His men are controlled by Ye Ling Tian Shou with poison Gong. Who dares to resist, as long as he urges the poison Gong, the poisoned person will be better off.

Lu Ming guessed right, Ye Ling Tian Shou did not report the large amount of ice, fire, and silver contained here to the upper level of Tiangong, still wanting to occupy it alone.

There are two reasons why he dared to do this.

One is that he used poison to control all his men. These people did not dare to betray him, nor did they dare to spread the news.

The other, the father of Ye Ling Tian Shou, is a powerful Tianzun in the Tiangong. With such a strong backer, even if something goes wrong, some people support it.

"It seems that there are other people in the Star Continent. The most likely thing is that after Ye Lingyou and Ye Lingchu collected the ice and silver, they were killed by the other party on the way back and took the ice and silver. !"

Ye Lingtian keeps the way.

He did not expect that Lu Ming pretended to be Ye Lingyou and Ye Lingchu.

"Other people? Could it be the people who destroy the heavenly army, the various races of the universe, I am afraid they don't have this guts."

The old man's face changed slightly.

"Well, no matter who it is, dare to fight against me, there is only one way to die. Behind, you gods, who are more than three times, patrol the mines everywhere and find suspicious characters, don't kill them!"

"Also, mobilize the people of the Yan tribe to find suspicious characters, as long as they are non-Yang tribe creatures, all come to report."

Ye Lingtian keeps the way.

"Yes!"

The God Lord's five elders and others took their orders.

Soon after, Ye Chu Tianshou received the news that the five Celestial Clan guarded by the Qishan Mine had disappeared, which made him more certain that others had entered.

"Don't dare to be fair and honest, I will only hide in the dark. It seems that my strength is limited. Well, as long as you are still in the Star Continent, I will find you out."

Ye Lingtian kept his mouth cold.

The whole continent vibrated.

The deity passed down the oracles, and as long as they found people who were not from the Yan clan, they reported them all.

The village where Haizong was located naturally received the oracle.

It is a pity that Ye Ling Tian Shou did not expect one thing, that is Lu Ming is also a human race.

The Yan nationality is also a human race, and in terms of breath, it cannot be distinguished at all.

Therefore, people in the village of Haizong thought that Lu Ming was also a Yan nationality, and did not include him as a suspect.

It's no wonder that Ye Lingtian Shou didn't expect that, in fact, in the vast universe, the human race is not very strong, and there are few masters.

Although there is a taboo sword ancestor Tang Feng and the unparalleled peerless, it is only a very rare example.

Therefore, Ye Lingtian did not expect to enter the Star Continent, but also the human race.

Chapter 4567: Red Rock and Zu Mountain

The sky outside was full of heat, but Lu Ming's life was very stable.

In a blink of an eye, no one had bothered Lu Ming in the past half a month.

The ball is constantly evolving.

After half a month, Lu Ming clearly felt that the ball was different. In the round body, there was a continuous mysterious light flowing out, and the breath was becoming more and more pure and powerful.

Lu Ming estimated that the ball was not far away from the ball.

Suddenly, noisy noises came from outside, and Lu Ming knew at first hearing that Haizong was arguing with others.

Lu Mingling exuded, and saw the situation outside clearly.

It was a young man in his twenties who was arguing with Haizong.

Lu Ming knew that this young man was the son of the village chief named Haifeng.

Haifeng brought two middle-aged men around Haizong.

"Haizong, today, give me that red stone. Such treasures, left in your hands, are just violent celestial beings, and they can't play any role at all."

Haifeng said, his eyes swept up and down on Haizong, revealing the greed.

"Come on, Redstone is the only relic that my grandfather left to me, and I will give it to you."

Haizong shouted and glared at Haifeng.

"Haizong, you don't toast and don't eat and drink fines, offend me, you don't end well."

Haifeng drank coldly, his eyes cold.

"Haifeng, I advise you to die that heart, don't ask me for redstone twice, and want redstone, unless you kill me, but I tell you, redstone was hidden by me in a secret Somewhere, even if you killed me, you wouldn't want to."

Haizong shouted.

"you..."

Hai Feng was furious and his cold eyes swept around Hai Zong. He really wanted to cut Hai Zong with a knife, but when he thought that once he killed Hai Zong, he wouldn't get the redstone anymore. Under the killing intent.

However, his anger cannot be vented everywhere.

boom!

Haifeng shot, punched towards Haizong with a punch, and made a punching explosion, the power was quite amazing.

Haifeng's cultivation practice is much stronger than that of Haizong, and has reached the peak of Heavenly Emperor. Haizong is definitely not an opponent.

In the room, Lu Ming's eyes flickered, and he didn't shoot after all.

He could see that Haifeng did not want to kill Haizong.

As long as he does not kill Haizong, Lu Ming does not have to shoot.

Everyone has their own way to go. They have to go through some things and experience some hardships. If there is a small problem, he has to intervene, which will not be of any benefit to the development of Haizong.

As long as he is not life-threatening, he does not have to shoot.

Haizong roared and threw his fists to resist, but they were not Haifeng's opponents at all. The two fists intersected, and with a click, Haizong's hand bones were broken, and his body stumbled backwards.

Haifeng kept up and punched on Haizong's stomach. Haizong groaned, his body flew, hit the ground heavily, and even spit a few mouthfuls of blood.

"Haizong, obediently hand me the redstone, stifle me, it's good for you, work against me, your end will be miserable, I won't kill you today, give you a period of time, you should consider carefully!"

"let's go!"

Haifeng snorted and left with two big men.

Haizong wiped the blood from the corner of his mouth and staggered to get up.

With a creak, Lu Ming opened the door and came out.

"Brother Tianyun, I'm sorry, I made you heal!"

Haizong said something interesting.

"Why, how is your injury?"

Lu Ming said.

"It's okay, minor injury, just a few days!"

Haizong smiled, and seemed to have pulled the wound, and immediately took a breath, his teeth grinning.

"If you take this panacea, you can heal you."

Lu Ming took out a healing pill and handed it to Haizong.

"Ok!"

Haizong nodded, took the medicine and opened his mouth to swallow, and suddenly a heat flow filled his body and gathered towards the wound on his body.

He could clearly feel that the place where his hand bone was broken was recovering at an alarming rate.

This effect shocked Hai Zong.

"Brother Tianyun, this... this medicine is very precious, you gave it to me, is it a waste..."

Haizong originally thought that Lu Ming had given him only a common panacea. He did not expect the effect to be so amazing. He knew that it must be a great panacea.

"It's okay, I still have a lot of such panacea."

Lu Ming smiled.

What he gave to Haizong was just the ordinary king-level healing magic pill, which was of great use to the **** king. Such a magic pill, Lu Ming had as much as he wanted.

Haizong is just the cultivation of Heavenly Emperor Realm, and Wang Ji Shen Dan has a natural effect against him.

After a while, Haizong's injury was almost 70% better.

This caused Haizong to be in a state of embarrassment for the first time, and he saw it for the first time.

"Haizong, what happened just now?"

Lu Ming asked curiously.

"This one..."

Haizong was hesitant.

"It's okay, if it's inconvenient, don't say it."

Lu Ming said.

"No, in fact, there is nothing inconvenient, because of Redstone."

"The man just now, the son of the village chief, has been thinking about my redstone all the time and wanted to get my redstone, but he has never succeeded."

Haizong Road.

"Redstone?"

Lu Ming whispered.

"Well, Redstone is the only thing my grandfather left me. Grandpa likes to travel the world when he is young. It is said that Redstone was obtained by Grandpa near Zu Mountain. It is said that it contains a big secret, so Haifeng always wanted to get it, but how can I Will it be given to him? This is my grandpa's leave."

Haizong said that when he mentioned Haifeng, he gritted his teeth.

"Zu Mountain!"

Lu Ming whispered, and he was shocked.

Since coming to the Star Continent, he has heard the word Zushan many times.

Legend has it that the earliest ancestors of the Yan nationality came out of the ancestral mountain. It is even said that the Yan nationality was bred from the ancestral mountain.

The power of the Celestials to gather faith seems to be for Zu Mountain.

What secrets does Zushan contain?

"It seems that when will I go to Zu Mountain!"

Lu Ming thought.

"Now, this is it."

With that said, Haizong took out a red stone in his arms.

The red stone, as bright as blood, is about the size of a broad bean, and looks ordinary.

"Have you hidden redstone in your arms?" Lu Ming gaped.

He really thought, what hidden place did Haizong hide the red stone in?

"The most dangerous place is the safest place. Haifeng couldn't even dream of it. Redstone was on me, so he never searched my body."

Haizong Road.

Lu Ming showed a hint of admiration, Haizong, really a little bit wise.

"Can you show me?"

Lu Ming said.

To be honest, Redstone is from Zushan, and he is really curious.

"of course can!"

Haizong generously handed the redstone to Lu Ming.

Lu Ming took it in his hand and looked carefully, but it looked very ordinary, and he couldn't see why.

Later, Lu Ming entered the power of taboo, and Redstone jumped slightly and returned to normal.

Chapter 4568: Ball break

Lu Ming studied it and found nothing.

"Brother Tianyun, did you find anything?"

Haizong asked, his eyes showing hope.

"No!"

Lu Ming shook his head.

He also secretly asked about bone demon, hoping to see the bone demon with knowledge and discover something.

However, the bone demon did not find anything. He speculated that this redstone was probably the thing of the last era, which was beyond his cognitive scope.

Lu Ming returned the redstone to Haizong.

"Grandpa has studied all his life and hasn't researched anything. He gave it to me, hoping that I can also gain something, but I have been carrying it with me for many years, and I haven't got any harvest. It seems that this is just an ordinary stone."

Haizong was disappointed and put Redstone in his arms.

Even if it is just ordinary stone, it is also a relic left by his grandfather, he must keep it well, and will never give it to Haifeng.

It's time to chat, Haizong's injury is almost okay.

The two chatted a few more words, and Lu Ming returned to the room.

Hurry is another ten days.

On this day, the ball suddenly filled with a strong breath.

Lu Ming quickly put the ball into the famine, so as not to disturb the others.

Lu Mingling condensed his consciousness and appeared in Honghuangjie.

boom!

On the ball, a strong breath erupted.

His body, suspended in the air, is filled with gorgeous glow, which is dazzling.

In the ray of glow, the ball's body constantly wriggled and constantly changed.

It will turn into a spear, a sword, a war halberd, and then a mirror...

In the end, it turned into a ball again, and the breath reached its peak.

"Divine Lord!"

Lu Ming's eyes lit up.

The ball finally broke through successfully.

He really was stuck in Divine Emperor Jiuzhong because of impurities.

Now with ten pounds of ice, sparks and silver, the impurities are reconciled, and it takes less than a month to break through successfully and enter the divine realm.

After breaking through the main realm of God, the evolution of the ball has not stopped.

He still has a strong breath, as if his body contains infinite energy.

"This guy is still improving, still breaking..."

Lu Ming's eyes brightened.

He understood that before the ball, he devoured a lot of broken source-level magic soldiers and broken main-level magic soldiers.

You know, that is the source-level magic soldier, even if it is broken, the energy essence contained in it is also a trivial matter.

Source-level magic soldier, but corresponding to the original source realm.

Moreover, there are still several pieces of broken soldiers. Once refined, the harvest is huge.

Now, the ball is just breaking into the main realm of God. Naturally, it is not so easy to stop.

The breath of the ball is still improving.

The first stage of the Divine Lord, the middle stage of the Divine Lord, the late stage of the Divine Lord, the peak of the Divine Lord...

boom!

Half a day later, the breath of the ball skyrocketed again, reaching a new level.

Divine Lord is double.

"What is this guy's physique? It's so perverted, it surpasses me again."

Lu Ming really envied and jealous of the ball.

Others work hard to practice, and as long as the ball is swallowed by high-level magic soldiers or high-level metal materials, cultivation can be promoted like a rocket.

This is simply a metamorphosis.

Lu Ming used to think that the ball was a member of the metal family, and now it seems that this is a question mark.

Because in the metal family, there has never been a metamorphosis like a ball.

The metal family, although also one of the top ten races, has a strong talent and can absorb all kinds of metals to improve their own cultivation, but there is absolutely no such a metamorphosis of the ball, so fast.

The breath of the ball quickly stabilized in the double of the Divine Lord, and then rose again.

Lu Ming dumbfounded, can the ball rush to the **** triple in one fell swoop?

This is the main realm of God. Every ascension is extremely difficult. It is difficult to ascend in the Honghuang Universe. Only when you enter the ruins of the universe to find Honghuangjing can you ascend.

The ball is so easy?

Soon after, the breath of the ball reached the peak of the double god.

At this time, the ball still did not continue to break through, but the breath converged, ending this evolution.

"Ball, great, it surpassed me all at once!"

Lu Mingfei flew over and smiled.

"Unfortunately, it almost broke through the triple God!"

The ball sighed, but the pride in the dizzying eyes clearly showed it.

"This guy, still pretend to be b with me."

Lu Ming despised.

Of course, my heart is happy for the ball.

The ball reached the second level of the Divine Lord, and the combat power surged. I don't know how strong the real combat power is.

However, Lu Ming estimates that it is definitely not weak, because the ball has a special physique and has devoured several kinds of broken magic soldiers, which can inherit some of the mysteries and powers of the broken magic soldiers.

Once it breaks out, it can become a big battle force for Lu Ming.

The key is that the mining ability of the ball has definitely improved a lot.

"Have you destroyed all the divine soldiers you swallowed before?"

Lu Ming asked.

"Not yet. The energy essence contained in the Broken Divine Soldier is very rich. Besides, there are still a few pieces. I can still refine it for a while. After I have completely refined it, it will be impossible to break through to the Triple Lord of the Divine Lord, and even the Fourfold of the Divine Lord."

"But in the future, if you want to break through, it will not be so easy. There will be a lot of broken soldiers and metal materials."

Ball fairway.

Lu Ming nodded.

For the time being, it has not been completely refined, and then, look for it later.

"Ball, you broke through, we should go out and walk!"

Lu Ming said.

It's been almost a month, and it should be quiet outside. He wants to go to those mines to see if they can get some ice, fire, and silver.

As soon as his thoughts moved, the ball came out of Honghuang, turned into a bracelet, and was carried on Lu Ming's wrist. He said to Haizong, and Lu Ming left here without anyone discovering.

Soon, Lu Ming came to the nearest ice, Mars, and silver mine.

This mine was also the mine where Lu Ming first found it.

"There are no human races!"

Lu Ming stood at high altitude, but did not see a Celestial Clan.

There is no trace of the Celestial Clan on that highest mountain.

Lu Ming performed a great concealment technique to hide his breath and continue to observe.

"coming!"

About half a day later, Lu Ming saw an old man of heaven and humanity, Jiuzhong, a divine emperor, descending on that mountain peak. Soon, a manager of the mine sent a jade box.

Divine Emperor Jiuzhong's Celestial Clan elders put away the jade box and walked away.

Lu Ming frowned.

Celestial race, is this intended to be collected once a day?

Once a day, there are only more than ten grams of ice, Mars and silver at a time. Even if Lu Ming tries to intercept, he can only get more than ten grams, which may be exposed.

This should be the strategy that the Celestial Clan came up with to guard against him.

Chapter 4569: Tongzu Mountain

In this way, Lu Ming is really not easy to shoot, because it is really not cost-effective. In case of exposure, it is troublesome to be besieged by a master of the Celestial Clan.

Lu Ming observed for a while, left here, and went to another mine.

He found that the other mine was similar, and it was harvested once a day, and then left without any delay.

Lu Ming walked several mines in a row, all the same.

Even around a relatively large mine, Lu Ming felt several powerful breaths hidden in the dark.

There was a breath in it that gave Lu Ming a sense of crisis.

Unless Lu Ming was extremely keenly aware, it would be difficult to detect.

Obviously, there are celestial beings ambushing in the dark, and if Lu Ming appears, it will break out.

However, it can be seen that the number of the Celestial Clan is not enough, otherwise it will not only ambush in the larger mines, and the smaller mines in the past have no ambush.

Lu Ming observed for a while, and did not shoot, but left here.

"Lu Ming, you should let me try. I might be able to dig into the mine and devour ice, silver, and ice."

At this time, the ball fairway.

"Drill into the mine? Ball, you know, there is terrible light in the mine, people who are not from the Yan Clan will get a terrible attack, and my forbidden power can't bear it, you can afford it Alright?"

Lu Ming said.

"I feel like I can try it. After I broke into the main realm of God, my strength increased greatly. Also, you see..."

The ball said, on the surface of the body, a layer of liquid metal suddenly flowed, flashing red and blue stars, wrapping the ball inside.

"This is... Ice, Fire, and Silver!"

Lu Ming was a little surprised.

"Yes, I ate ten catties of ice and martian silver, which can transform the surface of the body into the characteristics of ice and martian silver, and the ice and martian silver here are always exposed to that kind of light. I cover my body with ice and martian silver, maybe I can block it. "

Ball fairway.

"Okay, let's go to the first mine, you try it!"

Lu Ming said, after finishing, Lu Ming took the ball and returned to the mine near the village of Haizong.

Here, there is no guardian of the Terran, and Lu Ming enters the mine silently.

In an unmanned corner, the ball started to move. He flew out, biting it wide open, and quickly dug out a cave into which his body entered.

After a while, the ball flew out again.

"Ball, how are you?"

Lu Ming asked.

"No problem, my body turned into ice, fire, and silver, which has a great blocking effect on that light. Most of the destructive power of that light is blocked. Although there is still a little destructive power on me, but I Enough to resist, staying in the mine for ten days and a half at a time is not a problem."

The ball said proudly.

Lu Ming was overjoyed.

In this way, is it possible for the ball to continuously refine a large amount of ice, fire, and silver, even if it does not collide with the sky-human race, Lu Ming can get a large amount of ice, fire, and silver.

Great!

"Ball, you are digging here. I am waiting for you in that village. If there is a situation, please send me a voice."

Lu Ming said.

"Okay, no problem, wait for me to evacuate the ice, sparks and silver of this continent, haha!"

The ball was proud and continued to drill into the mine and disappeared.

Lu Ming returned to the village where Haizong was located.

Lu Ming was not worried about the safety of the ball.

The ball can block that kind of light, and it can come and go freely in the ore, even if it meets the master of the seven-fold **** of the gods, you can retreat safely.

However, it is enough to drill into the ore, and the Celestials dare not enter the ore.

Returning to Haizong's other courtyard, Lu Ming continued to learn about Honghuang style and war character tactics, and planned to wait for the ball to dig out enough ice, fire, and silver before taking the next step.

In addition, this continent definitely contains Hong Huangjing, but it is just not found. Maybe the ball can be found, then it is issued.

In the past half month, the ball came back and spit out five pounds of ice, fire, and silver from his mouth. This speed has been many times faster than the mining speed of the entire mine.

However, the ball's face was a bit unsightly. Lu Ming said: "Lu Ming, I found that there are not many ice, fire, and silver mines left in the mine site. It has been mined by the Terran for so many years. It's exhausted, next time I'm going to see other mines!"

"Okay, ball, be careful yourself."

Lu Ming nodded.

"Relax, I will go too!"

After talking, the ball flew away and left.

At the level of this village, no one will find the ball coming and going.

In this way, Lu Ming stayed in this village for another three months.

In the past three months, the ball went back and forth to various mines, bringing a total of more than 20 pounds of ice, fire and silver to Lu Ming.

Colleague Ball told the other mines that they are almost exhausted and there is not much ice, Mars and silver to dig.

"It seems that the ice, fire, and silver are almost dug out by the Celestial Clan. I don't know how much Ice, Mars, and Silver in the Celestial Clan. I originally planned to find a way to occupy this continent later. It seems unnecessary, as long as you get the Celestial Clan. Ice, Mars, Silver..."

Fiery light flashed in Lu Ming's eyes.

However, with his current cultivation practice, it is not enough, and he still needs to wait.

"Lu Ming, I also discovered a big secret..."

At this moment, the ball approached Lu Ming, whispered, a mysterious look.

"What secret?"

Lu Ming was very cooperative and asked pretending to be curious.

But to be honest, Lu Ming is really a bit curious.

Seeing Lu Ming's appearance, the ball's vanity was greatly satisfied, and said with a smile: "It's about Zushan."

"Zushan?"

This time, Lu Ming was really taken aback. Originally it was just a little curious, but now it has become a deep curiosity.

The ball was even cooler and said: "Yes, it is Zu Mountain. I found that there are various metal ores in the deep underground of this continent. The amount is amazing, like a vein, crisscross, along these veins, can pass To Zushan!"

"Below this continent, are all metal ores?"

Lu Ming was taken aback, and then his eyes were fiery.

"Yes, this continent was definitely not simple in the last era. Unfortunately, most of the ores are not advanced, and they can only refine royal-level magic soldiers or emperor-level magic soldiers, even those capable of refining main-level magic soldiers. There is very little ore, and it is of little use."

The ball sighed.

Lu Ming is also a pity.

Indeed, only the metal of the imperial-level or the imperial-level magical soldiers can be refined, and Lu Ming is really disrespectful now.

The cultivation of the ball has already reached the double of the Divine Lord. These relatively low-level metals have almost no effect on the ball.

Even if you eat more balls, you can't improve your cultivation.

With Lu Mingxiu's improvement, his vision naturally became higher and higher.

"By the ball, did you find Hong Huangjing underground?"

Lu Ming asked again.

Chapter 4570: Zushan Lifeline

Compared with various precious metal materials, Lu Ming still cares more about Hong Huangjing.

Hong Huangjing, however, can directly transform into strength and improve cultivation.

No treasure is real from Honghuangjing.

"No!"

The ball shook his head, he did not have much enthusiasm for Hong Huangjing.

Lu Ming was disappointed.

"Oh, what do you say about Zushan's secret?"

Lu Ming finally thought of Zu Mountain.

"I walked along the metal ore veins to the outer periphery of Zu Mountain, and found the Celestial Clan, Celestial Clan, it seemed to destroy something and entered the Zu Mountain.

Ball fairway.

"Destroy what? Do you mean that the Celestial Clan has not yet entered the Zu Mountain?"

Lu Ming asked.

"No, there is a strong force around Zu Mountain, which is difficult to enter. Even if there are metal veins underground, I can't enter along the metal veins."

Ball fairway.

This is somewhat beyond Lu Ming's expectations.

Lu Ming thought that the Celestials had already entered the Zu Mountain.

It turned out that the Celestials still rubbed outside Zu Mountain.

"Go, ball, let's go and see!"

Lu Ming said.

Later, Lu Ming took the ball, flew through the air, and left in the direction of Zu Mountain.

Zushan, in the center of this continent, Lu Ming turned into a clan of humans and flew with all his strength, but he arrived soon.

"The front is Zu Mountain!"

The ball is pointing straight ahead.

Looking at Lu Ming, the clouds in front were faint and vaguely visible, a huge mountain rising up from the ground, very magnificent, with high energy.

To be honest, the vast peak is not prominent in this continent.

The peaks above the mainland are everywhere.

This is somewhat beyond Lu Ming's expectations.

He originally thought that Zu Mountain is also the most magnificent and highest mountain in this continent.

As a result, among the mountains of this continent, it is not prominent, and it seems a bit ordinary.

However, that kind of cloud and mist is very peculiar, which can hinder Lu Ming's vision and lead to a complete picture of Zu Mountain, which can't be seen clearly, only one outline can be seen.

"The people of the Celestial Clan are all around. When we get closer, we will be discovered. Lu Ming, I will take you away from the mine."

Ball fairway.

"it is good!"

Lu Ming nodded.

The ball's body is like a liquid metal, which creeps on Lu Ming's body and turns into an armor that covers Lu Ming's body.

Then, Lu Ming chose a place and dug a hole into the ground. Below is an ordinary metal vein. The ball landed with Ming and merged into the metal vein.

The metal veins here also contain that kind of terrifying light, but most of them are blocked by the ball, few of them can penetrate, and they are easily blocked by Lu Ming with taboo force.

According to the ball, there are terrible rays in the underground veins of this continent, and I don't know how it happened.

The ball landed and drove along the mine veins. After a certain distance, they headed upward.

Where there is no ore, the ball opened its mouth wide, gnawed away those rocks and the like, dug a hole quietly, and they came to the ground.

The ball selection position is very good, very concealed.

"over there..."

As soon as Lu Ming came out, he sensed somewhere, there were many breaths, and a few breaths were so powerful that Lu Ming was shocked.

Lu Ming performed a great concealment technique, condensed his breath to the extreme, and concealed himself in a large rock, looking in that direction.

Sure enough, in that direction, there are many human races.

At a glance, there were at least dozens of people.

Behind dozens of people, there are dozens of huge statues.

"That statue..."

Lu Ming's eyes moved and his heart shook.

He felt the power of faith on the statue.

"The power of faith must be full again. This time, we must work hard to break this lifeline!"

One of the Celestials opened his mouth, full of majesty.

Lu Ming felt the strongest sense of crisis in this person.

"Master Tianshou rests assured that the strength of the Yan people's faith can restrain the lifeblood of their ancestral mountain. After so many years, this first lifeblood has already been broken, and this time it will certainly be able to break through this gap."

An old man of heaven and earth said.

"Master Tianshou? It seems that this person is the ruler of the Celestial Clan in this continent, Yeling Heavens Guard!"

Lu Ming moved.

Then, Lu Ming's gaze is expected to move forward.

Here is already the foot of Zu Mountain, through the clouds and fog, you can clearly see Zu Mountain.

The appearance of Zu Mountain made Lu Ming a little stunned, still very strange.

The outermost part of Zu Mountain is a mountain range.

This mountain, like a big dragon, intersects its head and tail into a circle, surrounding the rest of Zu Mountain.

And they are now outside the mountain range.

In this mountain range, there is a second mountain range, also like a big dragon, which intersects head and tail, forming a circle, surrounding the inner part of Zu Mountain.

Unlike the first mountain range, the second one is higher, so it can be clearly seen outside.

But this is not over yet.

In the second one, there is the third mountain range, which is almost the same as the previous two. It is also surrounded by a circle.

The only difference is the third mountain, which is higher than the second mountain.

Behind Article 3, there is Article 4 Article 5 and Article 6...

There are nine in total.

The nine mountain ranges are all round and connected one by one. The more inside the mountain range is, the smaller the area is, but taller.

There should be some distance between each other.

In the center of the ninth mountain range, there is a mountain peak, like a sword, which breaks through the sky and is the highest in height.

The Jiudao Cirrus and the central peak form the complete ancestral mountain.

Lu Ming was the first time he saw this kind of landform and couldn't help but feel a little surprised.

"This is the lifeblood!"

At this moment, the voice of bone demon sounded in my mind.

"Lifeline?"

Lu Ming heard this for the first time.

"Yes, the nine craters you see are lifelines. If I guess right, these nine lifelines may be connected to the people of the Yan tribe, because the ancestors of the Yan tribe came out from here."

"And, the lifeblood also has a powerful seal and defense function. The lifeblood enveloped the ground, not only can't fly, but also can prevent other creatures from entering."

Bone Magic explained.

Lu Ming suddenly realized that it is no wonder that people of the Celestial Clan did not fly in directly. They dared not to fly here.

If you want to go deep into the Holy Mountain, you can only walk in step by step.

"These Celestials want to enter the Holy Mountain, only to cut off the lifeline, but the lifeline is connected to the Yan Clan fortune, cutting off the lifeline, will have great harm to the Yan Clan."

Bone Magic Road.

"There will be great harm to the Yan Clan? Will it directly cause the Yan Clan to fall?"

Lu Ming asked in shock.
