

D Emperor 4591

Chapter 4591: Devour yourself

Ye Ling Tianshou shouted in his heart, he was not reconciled.

His father is a powerful celestial **** in the celestial palace. His position in the celestial palace is obedient.

In addition, he himself has great opportunities.

Among other things, in this continent, he has obtained a large amount of ice and spark silver, so much ice and spark silver can be exchanged for immeasurable wealth, his future is bright, he does not want to die.

Now, he only hoped that Lu Ming would be caught and get the antidote from Lu Ming.

Yes, he thought it was a kind of poisonous, Lu Ming should have an antidote.

"Lord Tianshou, what should I do, Lord Tianshou feels like it's going to work!"

Around, those celestial races with only nine divine emperors were extremely anxious.

"You, come here, I have something for you to do!"

Ye Ling Tianshou spoke, his voice hoarse.

"Lord Tianshou, but please order!"

The heavenly human races of the nine-fold **** emperor approached the Yeling Tianshu.

Just when these celestial races approached Yeling Tianshu, Yeling Tianshou suddenly violent trouble, two big hands volleyed and pressed, two powerful forces, like grinding discs, pressed on these celestial races.

Although Ye Ling Tianshou was tortured to death and dying by the black mist, his power was still not comparable to the nine-fold Celestial Race of these **** emperors.

Compressed by this force, the bodies of these celestial races continued to explode, turning into flesh and blood.

"Swallow me!"

Ye Ling Tianshou roared, his body suddenly swelled and turned into a giant, opening his mouth and swallowing all the flesh and blood.

At this moment, Ye Ling Tianshou seemed to transform into a demon.

He will use these flesh and blood to resist the erosion of the black mist.

Sure enough, after absorbing these flesh and blood, his body was slightly plump, because the black mist seemed to have found a new target to devour these flesh and blood.

"Crazy, crazy, he's crazy!"

"Yeling Tianshou is crazy, run away!"

The remaining celestial races roared in horror and fled outside.

There were more than two hundred elders of the nine-layered **** emperor. Just now, the Ye Ling Tianshou only killed hundreds of them, and there were hundreds left.

"You can't escape. It's your honor to sacrifice for me, die for me!"

Ye Ling Tianshou roared and slew the old men of the nine-layered **** emperor.

The screams undulated each other, resounding through this area.

From the canyon, the Ye Ling Tianshou slew beyond the first mountain range of the Ancestral Mountain, and finally killed all the remaining nine elders of the **** emperor, and swallowed all their flesh and blood.

"Not enough, not enough, not enough..."

Ye Ling Tianshou roared in his heart.

At this time, his eyes looked forward.

There were two figures ahead, looking at him in horror.

These two people were just the slippery fish who escaped from Lu Ming and Qiuqiu, the two powerhouses of the three gods.

The two of them fled back to Zu Mountain. They wanted to ask Ye Ling Tian Shou to kill Lu Ming, but they never expected that when they came back, they saw Ye Ling Tian Shou go crazy and kill other celestial races.

The two of them stopped in shock and dared not approach.

"You two, come here..."

Ye Ling Tianshou red eyes.

The expressions of the two powerful three-fold masters changed, and one of them said humanely: "Tian Shou Lord, your body is different, we should keep our distance!"

After speaking, the two masters of the three-tiered master, backed up a while, kept a distance from the Ye Ling Tianshou.

There was a fierce light in Ye Ling Tianshou's eyes, but he didn't kill the two masters of the two gods.

Divine Lord Triple Level is not comparable to Divine Emperor Nine Levels. With his current state, killing the past may not be able to catch up with the opponent.

"Why are you back, Lu Ming, have you taken it? Bring him quickly."

Ye Ling Tianshou asked, this is what he cares most about.

As long as you win Lu Ming, you can get the antidote for Lu Ming.

"Lord Tianshou, Lu Ming and Metal Life are too strong, and they are tricky. We failed, everyone else died, and only the two of us were left."

A tribe of heaven and human beings.

what?

Ye Ling Tianshou's body trembled like a bolt from the blue.

More than a dozen masters of the Divine Master Realm were all dead, and only two were left.

The point is, it doesn't matter if these people die. They didn't catch Lu Ming. Where did he get the antidote?

"Damn, damn, trash, a bunch of trash..."

Ye Ling Tianshou issued an angry roar, almost mad.

Crazy!

Although he had just swallowed more than two hundred divine emperor nine-fold celestial and human flesh and blood, those were only nine divine emperors, and dozens of them couldn't compare to one divine master realm.

It couldn't last long at all. It was only after such a while, his breath began to weaken again, and his body, which had been plump, began to become dry again.

This scene is very permeating, and the two masters of the three gods and masters couldn't help but step back.

"Where is Lu Ming, take me to him, take me to him..."

Ye Ling Tianshou made a hysterical roar.

"In that direction..."

The two masters of the gods and masters still did not dare to leave Ye Ling Tian Shou and escape. The identity of Ye Ling Tian Shou was no small matter. The end of the game will be extremely miserable.

"go!"

Ye Ling Tianshou roared and rushed in that direction.

The two masters of the divine master and triple levels followed far behind.

They didn't fly far, they ran into Lu Ming head on.

"Yeling Tianshou is not dead yet!"

Lu Ming was also slightly surprised after seeing Ye Ling Tianshou.

He originally wanted to come back to Zushan Mountain to see if Ye Ling Tian Shou was dead, but he didn't expect to meet Ye Ling Tian Shou halfway through.

"Lu Ming, hand over the antidote, hurry..."

Ye Ling Tianshou roared.

"The antidote? I hid it, not far away..."

Lu Ming began to lie, with the purpose of delaying time.

The longer the delay, the better for him.

"Hidden, I'll get it soon!"

Ye Ling Tianshou roared.

"Okay, you come with me, but keep your distance from me, otherwise you never want to get the cure."

Lu Ming retreated as he said.

As long as you take the Ye Ling Tian Shou around twice, the Ye Ling Tian Shou is dead.

"Boy, do you want to frame me, do you want to delay time? The antidote must be on you, hand it over, or you will die!"

Ye Ling Tianshou roared, he was so smart that he would not be easily deceived.

While shouting, he wanted to Lu Ming and forced him away.

"I said, follow me, and I will give you the antidote."

Lu Ming speeded up and backed quickly.

He naturally wouldn't tell Ye Ling Tianshou, there was no cure at all.

Once said this, the hope of Ye Ling Tian Shou was broken, and there was no hope, he was afraid that Ye Ling Tian Shou desperately.

Powerful people like Ye Ling Tianshou have extraordinary backgrounds. Once they go crazy and desperately, they don't know what will happen, and Lu Ming has no idea.

But as long as there is hope of an antidote to the other party, Ye Ling Tianshou will not be desperate.

Chapter 4592: Kill Ye Ling Tianshou

"Just take you, and see if you pay it or not."

Ye Ling Tianshou yelled, he was very decisive, and rushed directly towards Lu Ming, at an astonishing speed.

As long as Lu Ming is taken down, he can take the initiative. Even if Lu Ming really hides the antidote somewhere, he can force Lu Ming to lead the way.

It would be even better if Lu Ming hid the antidote on his body.

At this moment, it was about his own life. When Ye Ling Tian Shou made a move, it was full force. The violent power of Heaven's Punishment and Heaven's Destruction, like a tide, surged towards Lu.

"Breaking the sky!"

Lu Ming waved the God of War spear, transforming dozens of spear shadows and piercing forward.

At the same time, the ball turned into a halberd and cut forward.

Rumble!

The forces of the two sides collided in the void, bursting out roars.

Then, Lu Ming and Qiuqiu drifted back, but that was all, and he was not injured.

"Yeling Tianshou, it seems that you have little power left!"

Lu Ming sneered.

"Damn it!"

Ye Ling Tianshou roared in his heart, his face extremely ugly.

He was corroded by the black mist too much, and his strength was much weaker than at his peak.

Moreover, when he starts his hands, he still needs to allocate a part of his power to fight against the black mist, otherwise it will corrode faster, so that he can exert even less power.

The move just now can only repel Lu Minghe Qiuqi, but cannot damage Lu Mingheqiu.

"I don't believe it, kill!"

Ye Ling Tianshou yelled and wanted to explode more power, but his body immediately trembled and his face paled.

As soon as he used more power, the power against the black mist was not enough, and the black mist corroded more severely, causing him a heavy loss at once.

"Ball ball, do it!"

Lu Ming passed the sound of the ball, and then waved his hand, the God of War spear flew out like a bolt of lightning, and at the same time Lu Ming displayed the prehistoric style, and a continent fell towards the Ye Ling Tianshou suppression.

The mainland was compressed by Lu Ming very small and its power was at its strongest. At the same time, the halberd that the ball turned into once again slashed towards the Ye Ling Tianshou.

The two shot with all their strength and hit the strongest blow. Ye Ling Tian Shou dare to be careless and can only resist.

He roared, using the power of Heaven's Destruction and the power of Heaven's Punishment, and patted hundreds of palms continuously, blocking Lu Ming and the ball from attacking.

However, every shot will consume a lot of power, the power to suppress the black mist will naturally weaken, and the black mist will take the opportunity to corrode.

After a round of confrontation, Ye Ling Tianshou became weaker.

Lu Ming naturally saw this and then attacked the ball.

As long as the shot, Ye Ling Tianshou will die faster.

"Come again!"

Lu Ming shouted and attacked again.

Ye Ling Tianshou was furious, but there was no other way but to resist.

If he didn't resist, let the black mist corrode, he was directly killed by Lu Ming and the ball.

After several consecutive rounds of shots, Yaling Tianshou was very weak. The surface of his body was constantly overflowing with black mist. In his mouth, nose and eyes, there was also black mist overflowing. The whole person looked like a zombie.

"Lu Ming, Lu Ming, give me the antidote, quickly give me the antidote, my father is the **** of heaven, I am dead, he will not let you go!"

Ye Ling Tianshou roared and threatened Lu Ming.

But Lu Ming was obviously unmoved and continued to attack.

"Lu Ming, don't kill me. As long as you let me go, I can give you whatever you want. I can give you treasures, gods, and beauties, and even I can give you ice, sparks, silver, 100 catties , No, five hundred catties, I can give you everything."

Seeing that the threat failed, Ye Ling Tianshou wanted to buy Lu Ming again.

"As long as you kill you, all the treasures on you are mine."

Lu Ming sneered.

"Beast, despicable ants, you want to kill me, you dream, I tell you, if I die, the continent will be destroyed, countless Yan Clan will die, they will be buried for me..."

Seeing that Lu Ming didn't eat hard or soft, Ye Ling Tianshou went crazy, shouting hysterically.

"Opportunity here, Ball Ball, Fantasyland!"

Lu Ming passed the sound of the ball.

How could the ball not know Lu Ming's intentions, and immediately turned into a mirror, shooting out a beam of light, enveloping Ye Ling Tianshou.

Ye Ling Tianshou's eyes immediately appeared in a trance and became apathetic.

call out!

Lu Mingren's spear united into one, and turned into a spear light that pierced the eyebrows of Ye Ling Tianshou.

Just when Lu Ming was about to stab Ye Ling Tianshou, the eyes of Ye Ling Tianshou suddenly burst into light, and there were also terrifying waves in his body.

"Not good, retire!"

Lu Ming didn't even think about it, he stopped his figure abruptly, and then violently retreated behind.

"Lu Ming, die for me, let's die together!"

Ye Ling Tianshou roared, violent power swept towards Lu Ming.

Lu Ming's body was shaken, and a mouthful of blood spurted out.

However, Lu Ming also relied on this force to retreat more quickly, retreated to the ball, grabbed the ball, performed a large shift technique, and appeared in the distance instantly.

"Lu Ming, die together, die together..."

In the distance, Ye Ling Tianshou roared and rushed to Lu Ming frantically.

Ye Ling Tianshou is really crazy, really desperate, the whole person is in a tendency to explode, bursting out of power, and reaching his peak.

However, he had not made up his mind to truly explode just now. He was just on the verge of exploding. Although Lu Ming was injured, he did not leave Lu Ming behind.

"You can play slowly by yourself, never accompany..."

Lu Ming had already seen that the Ye Ling Tian Shou was about to fall, and now he didn't bother to do it, and he opened the distance from the Ye Ling Tian Shou, waiting for him to be completely corroded by the black mist.

"Don't go, die together, die together..."

Ye Ling Tianshou shouted and chased Lu Ming frantically.

He already knew that he couldn't live anymore, and he was on the verge of self-detonation, and his power almost exploded to the extreme, but the black mist also took the opportunity to corrode, his flesh and blood essence was almost consumed, and his soul was also in a state of collapse, possibly falling at any time.

Now, even if there is an antidote, it may not be useful anymore.

He wanted to find Lu Mingtong die now.

Unfortunately, Lu Ming would not give him this opportunity now.

Lu Ming kept backing away, keeping a distance from Ye Ling Tian Shou, no matter how Ye Ling Tian Shou roared, he didn't bother to pay attention to him.

"What should I do? Lord Tianshou is going to die soon!"

In the distance, two masters of the Divine Master and Triple Level were watching, and they didn't dare to approach at all.

Now they are close, either in the hands of Lu Ming or in the hands of Ye Ling Tianshou, they are not that stupid.

"What else can I do, Ye Ling Tianshou is dead, let's leave now!"

Another humane.

"Leaving now, should I return to the Heavenly Palace or?"

A humane in front.

"Going back to the Tiangong, that is looking for death, everyone else is dead, including the Yeling Tianshou, do you think the father of Yeling Tianshou will let us go? Let's leave here and find a place to hide!"

Another humane.

Then, the two of them flashed around and left here.

Lu Ming naturally also noticed the two people's departure, but the two people were very far away from them before. At this time, he retreated. He wanted to chase but couldn't catch up, so he could only let the other person leave.

Chapter 4593: 1,500 catties

A few minutes later, the breath of Ye Ling Tianshou's body suddenly weakened, and the violent power of his body was also like a balloon, and it disappeared in an accelerated manner.

bump!

Finally, Ye Ling Tianshou's body fell to the ground and fell apart.

But he hasn't died yet, and his soul hasn't been completely annihilated. He uttered a final roar: "Lu Ming, my father knows that I am here. I am dead. He will find him. Even if you can leave, all Yan Clan will do the same. I am buried, hahaha!"

Ye Ling Tianshou laughed, and then his soul and his broken body, with a sound, completely exploded and disappeared.

call!

Lu Ming took a long breath.

To be honest, this Ye Ling Tianshou is really very difficult to deal with.

One reason is that the cultivation base is high and the strength is strong, and he is also very clever. Some tactics, in front of them, will not work at all and will be seen through.

However, the opponent was still a bad move and was finally defeated by Lu Ming.

The main reason was that the other party did not expect something like black mist on Lu Ming's hand.

In common sense, after reaching the realm of Ye Ling Tian Shou, coupled with the presence of two strong heavenly powers, there is no poison in the primordial universe to make him afraid.

Therefore, he did not guard against this trick.

The other one is also that kind of black fog, which is terrifying.

When fighting against Lu Ming, Ye Ling Tianshou's fist was filled with the power of the strongest heaven. Even if Lu Ming wanted to use any powerful poison, it would be blocked by the power of the fist and even refined, and he could not enter at all. The body of the Ling Tian Shou.

However, that kind of black mist can directly ignore the power of Ye Ling's guardian and penetrate into his body.

Therefore, Ye Ling Tian Shou was defeated.

Lu Ming's victory was somewhat lucky, but in the end, he won, didn't he?

Lu Ming flew over, saw the storage ring left by Ye Ling Tianshou, grabbed the storage ring with his palm.

The black mist seems to only corrode flesh and blood, and has no corrosive effect on the storage ring.

"It's a pity, the black mist has also dissipated!"

Lu Ming sighed.

This kind of black mist is very powerful, if it can be kept, it will be of great use at critical moments.

For example, to deal with Yeling Tianshou, if there is no such black fog, Lu Ming can't help him.

This kind of black fog is not only effective for the Ye Ling Tianshou, even for people with stronger cultivation bases, it is effective.

However, just now following the ashes of Ye Ling Tianshou, the black mist also dissipated.

However, Lu Ming's mood soon improved, and his eyes fell on the storage ring left by Ye Ling Tianshou, his eyes gleaming.

This is the storage ring of Ye Ling Tianshou. How many treasures will there be in it?

Most importantly, how much ice, Mars, silver is in it?

Lu Ming couldn't wait.

Using the taboo power to wipe out the taboo power Ye Ling Tianshou had left on the storage ring, Lu Ming began to check.

After a while, the smile on Lu Ming's face appeared uncontrollably.

Sent, really sent.

Lu Ming found a large amount of ice, sparks and silver in the storage ring.

The total amount is more than 1,500 catties.

Fifteen hundred catties, this is the amount that can refine fifteen hundred source-level magic weapons.

As long as these icy martian silvers are available, there is no need to worry about icy martian silvers in the future.

Because, for so many years, the Heaven Extinguishing Army has not found so many source-level magic weapon materials.

Fifteen hundred catties of ice, sparks and silver, if it were known to the top of the heavenly palace, it would be crazy.

Now they are all in Lu Ming's hands.

This number is a bit more than Lu Ming estimated.

Although the Celestial Race has occupied this continent for tens of thousands of years, it is clear that it has not started to excavate the ice and Martian silver mines from the beginning.

The age of mining ice and Martian silver mines is not very long.

Otherwise, thirty-six mines, after tens of thousands of years, will definitely have more than 1,500 catties.

In fact, the total content of ice and Martian silver ore in 36 mines is only about 2,000 catties, which is already an astronomical figure.

Lu Ming learned before that the thirty-six mines were not mined at the same time. One was discovered at first, then mined, and then the second, third...

Until now, thirty-six ice, Mars and silver mines are about to be completed.

Among the storage rings, the Bing Martian silver mine was the most valuable. Although there were other treasures, Lu Ming didn't take it seriously.

Unless it was a prehistoric crystal, or a source-level magic weapon and a broken source-level magic weapon, Lu Ming would be moved.

However, in the storage ring, there are no source-level magic weapons and broken source-level magic weapons, not even the princely crystal.

Obviously, after the Ye Ling Tianshou got the Primordial Crystal, it must have been refined immediately.

"What a waste!"

Lu Ming murmured, then his figure flickered, and he put away the storage rings of the other Celestial Races.

Then Lu Ming re-entered the Zu Mountain.

Lu Ming stood under the second mountain range.

The second lifeline of the Ancestral Mountain had also been cut off by Ye Ling Tianshou and others, and a cave was punched in the mountain. Lu Ming rushed to it as soon as it was opened.

People from the Celestial Race have not had time to get in.

Without hesitation, Lu Ming stepped forward and entered the second mountain range.

The second mountain range and the third mountain range also form a canyon.

Lu Ming glanced away, revealing a hint of joy.

Because like the first mountain range, the second mountain range is also inlaid with prehistoric crystals on the internal wall.

At a glance, there are no fewer than a thousand, more than the first mountain range.

"The ball, it's moving!"

Lu Ming screamed, took out his weapon, rushed up, and began to dig the prehistoric crystal.

Now that there is no Celestial Clan, Lu Ming doesn't need to be so anxious. Heqiuqiu dug up without any haste. Soon after, Lu Ming dug out all the prehistoric crystals on the second mountain range, and there is no one left.

Lu Ming counted it. There were a total of 1998 yuan, which was nearly two thousand yuan, which was a bit more than the prehistoric crystal of the first mountain range.

"Sure enough, this continent can thrive so prosperously, there must be a lot of prehistoric crystals. It is estimated that every lifeline contains the prehistoric crystals. I just dig out the prehistoric crystals of the two mountains in front. It should not affect it. The reproduction of the Star Continent."

Lu Ming thought.

For the Star Continent to reproduce, it definitely needs energy.

And Honghuangjing will continuously emit energy, affecting this continent.

If the prehistoric crystal is dug out, it will definitely affect the development of this continent, and even turn into a deadly continent.

However, Lu Ming only dug away the prehistoric crystals on the two lifelines, and it would definitely not affect him.

After all, there are still seven lifelines.

And it seems that there are more than one crystals in the lifeline inside.

What's more, there must be some prehistoric crystals distributed underground in this continent, but they are very scattered and difficult to find.

"Unfortunately, even adding these prehistoric crystals is not enough for me to break through. I need more prehistoric crystals..."

Lu Ming sighed.

Chapter 4594: Travel through the lifeline

There are nearly two thousand prehistoric crystals, plus the previous six hundred have been refined. If you change to another person, you can easily break through to the Divine Master Triple Layer.

But Lu Ming couldn't do it, he needed more energy.

"Unfortunately, I can't go deep into the Zushan Mountain anymore, otherwise, just get some prehistoric crystals!"

Lu Ming looked at the third lifeline and whispered.

However, if he wanted to learn from the human race, borrow the power of the Yan race's faith, or even use the flesh and blood of the Yan race to kill his lifeline, he definitely couldn't do it.

This violated his principles of life.

I would rather not do it by chance.

"By the way, let Haizong come out and have a look..."

Lu Ming's heart moved, thinking of Haizong.

Haizong merged that piece of redstone, maybe he could find something.

With a wave of his hand, Hai Zong was brought out.

After Haizong came out, looking at Lu Ming's eyes, he worshiped and admired more than looking at gods.

Lu Ming actually carried a world with him.

Moreover, this world was vast and boundless, and Haizong kept flying, but he couldn't see the edge at all.

And the cultivation environment in this world is much better than that of the Star Continent.

Carrying such a world with him, Lu Ming's image in Haizong's mind is infinitely elevated.

"Brother Lu Ming, this is Zushan?"

Haizong came out, adjusted himself vigorously, looked around, his muscles tightened, obviously very nervous.

Because of the Ancestral Mountain, it was occupied by the Celestial Race.

"Relax, the Celestial Race has been eliminated by me!"

Lu Ming said.

"Get rid of it?"

Haizong was a little confused, and then he was shocked.

The Celestial Race was actually eliminated by Lu Ming? The image of Lu Ming in his heart continued to rise.

Seeing Haizong's worshiping gaze, Lu Ming couldn't help but rubbed his nose speechlessly.

You a big man, what do you look at me with such eyes? awkward.

If it's a big beauty, Lu Ming doesn't mind.

"By the way, Haizong, what did you find when you entered Zushan?"

Lu Ming changed the subject.

Sure enough, when he mentioned Zushan, Haizong immediately came to his mind and continued to look around.

At the same time, Haizong's body became a little fiery red, his blood flow accelerated, and wisps of blood flowed out. In the end, on top of his head, there was a figure wearing a royal robe, wearing a crown, and holding a king sword. He was extremely majestic. Figure.

"Is this the lifeblood?"

Haizong looked at the third lifeline, walked step by step, walked to the lifeline, stretched out his palm, and attached it to the third lifeline.

A magical scene appeared, and the third lifeline appeared like waves of water.

Then Haizong's palm directly sank in.

It's as if the third lifeline is empty and really turned into water.

"this is..."

Even Lu Ming was taken aback.

The lifeline of the Ancestral Mountain is integrated with the mountain ranges, but now, the rocks of the third mountain range seem to have turned into water.

Haizong took another step, his whole arm, as if submerged in.

Haizong's eyeballs turned a few times, and then backed a few steps, and then backed out, with his arm pulled out of his lifeline.

"Haizong, what is going on?"

Lu Ming asked quickly.

"Brother Lu Ming, I have a feeling that I can cross the lifeline and enter the depths of the Ancestral Mountain without destroying the lifeline."

Hai Zongdao.

"How could this be?"

Lu Ming was surprised at first, then overjoyed.

Can you enter the depths of the Ancestral Mountain without destroying your lifeline, wouldn't it be possible to get the opportunity in the Ancestral Mountain?

Unfortunately, he could not enter.

"Brother Lu Ming, I can take you with you, maybe I can go in together!"

Haizong said again.

Lu Ming was a little surprised.

"Can you take me in with me?"

"You can try, but I feel so."

Haizong nodded, the blood on his body became stronger, and he slowly extended to envelop Lu Ming.

"Brother Lu Ming, you follow me and we act simultaneously."

Hai Zongdao.

Lu Ming nodded and stepped with Haizong, walking towards the third lifeline.

When Haizong's body touched the third lifeline, the third lifeline waved like waves, and Haizong's body also sank in as if it had entered the water.

After a few steps, Haizong's body was completely submerged in the third lifeline.

Then Lu Ming followed along and came into contact with the third lifeline.

As in Haizong's situation, when Lu Ming touched the third lifeline, his body also seemed to have entered the water and submerged in the third lifeline.

"Really feasible!"

Lu Ming was happy, and soon, Lu Ming's body completely disappeared in the third lifeline.

They walked through the third mountain peak as if they were walking in water, and those hard rocks seemed to have turned into water.

Lu Ming knew that this must have something to do with Haizong's blood, and that piece of redstone.

Soon, the two passed through the third lifeline and came to the valley formed by the third and fourth lifelines.

"There are really great crystals!"

Lu Ming looked at the internal test of the third lifeline, and he saw a large number of prehistoric crystals inlaid on it.

Sweeping away at a glance, no less than a few thousand yuan, like a star, dazzling.

"Sure enough, there are more prehistoric crystals than one. There should be four thousand prehistoric crystals. There must be more in there. I will take some and it should be fine!"

Lu Ming thought, then took out his weapon and started digging.

But when Lu Ming's weapon slashed on the wall, the wall glowed. With a sound, Lu Ming was shocked by the force and backed up again and again, almost vomiting blood.

"No, the lifeline force guards it, and it can't be dug down."

Lu Ming shook his head.

"Brother Lu Ming, do you need this kind of spar?"

Haizong asked.

"Yes, this spar is very important to me."

Lu Ming nodded.

"Then I can take some down for you."

Hai Zongdao.

He reached out his palm and gently grasped the spar, as if he had taken a piece of floating wood in the water, the Hong Huangjing had been taken down by Haizong.

Lu Ming was envious, it was too easy.

"Hai Zong, you don't need to take all of these spars, just take half!"

Lu Ming said.

He was still thinking about the Star Continent, fearing that it would be taken away, affecting the reproduction of the Star Continent.

Haizong nodded and shot continuously, very fast.

Soon, half of them, about two thousand prehistoric crystals, were removed and handed over to Lu Ming.

"It's about 4,000 yuan, it should be enough for me to hit the Divine Master Triple!"

A smile appeared on Lu Ming's face.

The two continued to look at it, and found nothing else, so they continued to move forward, walking towards the fourth lifeline.

As before, the fourth lifeline, like a water wave, passed through them and came to the valley formed by the fourth and fifth lifelines.

Sure enough, the internal test of the fourth lifeline is also inlaid with a large number of prehistoric crystals.

It is twice as much as the third lifeline.

Chapter 4595: Zushan Core

Lu Ming was very excited and planned to take another part.

It would be a waste not to take so many prehistoric crystals.

Lu Ming asked Haizong to help and continued to take half of it.

Half of it, a full four thousand prehistoric crystals fell into Lu Ming's hands.

As a result, Lu Ming's prestigious crystals reached 8,000 yuan.

"Yes, if there are twice as many prehistoric crystals inside than outside, even if I only take half of them, the quantity will be very large."

Lu Ming thought.

Soon, they continued to set off to the fifth lifeline.

Without the slightest obstruction, I passed by.

Sure enough, in the internal test of the fifth lifeline, the number of Honghuang Crystals increased, reaching 16,000 yuan. Lu Ming asked Haizong to take down 8,000 yuan and then continue to set off.

In the internal test of the sixth lifeline, Lu Ming asked Haizong to take down 16,000 yuan.

The seventh lifeline was tested and 32,000 yuan was taken.

In the internal test of the eighth lifeline, sixty-four thousand Honghuangjing was removed.

In this way, the prehistoric crystal on Lu Ming's body reached an astonishing 128,000 yuan.

This number is absolutely amazing, even Lu Ming can break a few levels in a row.

"Great opportunity, it's really a great opportunity, I must retreat well when looking for opportunities, my cultivation level will definitely advance by leaps and bounds."

Lu Ming thought about it.

However, it is a pity that the ninth lifeline is internally tested, and there is no prehistoric crystal, not one piece.

However, under the wall of the Ninth Lifeline, they found a pool with bright red liquid in it.

"That breath..."

Both Lu Ming and Haizong were shocked.

Because they found that the liquid in this pool is very similar to the breath of redstone, almost the same.

Could it be that redstone comes from this pool?

In the pool, a hazy radiance was emitted. Looking at this pool, Hai Zong seemed to be half dazed by the devil, and could not help stepping forward step by step.

"Haizong, be careful!"

Lu Ming reminded Haizong to calm down.

"Brother Lu Ming, I have a feeling that this mouth pool is of great help to the other party, and I instinctively desire to enter this mouth pool to practice..."

Haizong explained, staring at the mouth pond firmly, revealing deep desire.

Lu Ming frowned.

This may be Haizong's great opportunity, but he did not guarantee with 100% assurance that there is no danger.

After Hai Zong finished speaking, he continued to move forward. Lu Ming could only follow Hai Zong's side. If there was something wrong, he could help at any time.

However, when approaching a certain distance, a powerful force blocked Lu Ming.

This force was indestructible, and it was not something Lu Ming could break through.

For Hai Zong, nothing happened. Hai Zong continued to move forward, stepping into the blood pool for the last step.

As soon as he entered the blood pool, the **** liquid burrowed into Hai Zong's body. Hai Zong closed his eyes and seemed to be absorbing refining.

boom!

In the next moment, Haizong's breath soared, breaking through from the virtual **** realm to the true **** realm.

"Sure enough, it's a chance, there is no danger!"

Lu Ming breathed a sigh of relief and was also happy for Haizong.

After a while, Haizong's breath was completely stabilized at the first level of the true gods, and then continued to absorb the **** liquid that refining, Lu Ming felt that the power of Haizong's blood was stronger, and he slowly suppressed Lu Ming. Is improving.

"Does the human blood really have levels? Could it be that there were also humans in the last era?"

Lu Ming had thoughts in his mind.

However, he has too little information, no matter how he thinks about it, he can't think of any reason.

With the passage of time, Haizong's breath suddenly soared, from the first level of true god, breakthrough to the second level of true god, this speed of improvement is really fast and appalling.

At the same time, Haizong's bloodline power seemed to be stronger.

"It seems that in a short time, Haizong will not end his cultivation!"

Lu Ming whispered.

Since Haizong was okay, Lu Ming looked around.

Here, he has passed through the nine lifelines and entered the core of the Ancestral Mountain. Inside, there is only one mountain that is like a sharp sword.

This mountain is the highest, straight through the sky, higher than the other nine lifelines, but it occupies a small area, really like a sharp sword stuck in the ground.

"There is a door!"

Lu Ming's eyes moved.

He found that there was a stone gate under this mountain, but the stone gate was closed.

Lu Ming couldn't help but feel a little moved.

This is the true core of the ancestral mountain.

The previous nine lifelines, surrounding this mountain, are more like a guardian.

What's in it?

Is it a mountain of source-level magic soldiers? Or an astonishing number of prehistoric crystals?

"Go in and see!"

Lu Ming decided to go in and take a look.

Now that they are all here, don't go in and see, how can you say the past?

However, Lu Ming would not take it lightly, the surface of his body was filled with taboo power, and he planned to do it at any time.

At the same time the ball squirmed and turned into a piece of armor covering Lu Ming's body.

It has been proved from multiple angles that Zu Shan was probably handed down from the last era.

After endless years, still revealing extraordinary everywhere, this is definitely not simple.

Lu Ming is not careless.

Slowly approaching Shimen, there was no reaction at all.

When Lu Ming walked to the bottom of Shimen, there was still nothing unusual.

Lu Ming condensed a big hand with taboo force, pressed it on the stone gate, pushed hard, and the stone gate opened with a click.

Lu Ming was a little surprised.

All this is beyond his imagination.

He originally thought that at least it would take some effort.

When the stone door opened, there was light coming from inside. Looking inside, you could vaguely see that the inside of the mountain was empty, forming a large space.

Finally, Lu Ming stepped out and walked into Shimen.

It's the same sentence, it's all here, so I have to check it out.

There was no abnormality and no danger. Lu Ming walked through Shimen, walked a short passage, and arrived in a mountain space.

The middle of the mountain is hollow, and the surrounding walls are very smooth, with a striped road carved on it.

Not only on the walls, but also on the ground, there is also a striped road.

Countless lines are intertwined and entangled with each other, covering the entire mountain space.

In the center, there is a raised stone pillar, on the stone pillar, placed in a box.

The box is about one meter in length, width and height. It seems to be made of bronze. It looks very primitive and full of the breath of time.

There are eight altars in eight directions around the stone pillars. Above the eight altars, there is a flame, like the flame of a candle, which is not big, burning slowly.

In addition, there is nothing else in this mountain space.

"These lines are intertwined, and it seems to form a kind of big formation, but this kind of big formation seems to have failed. I stepped on it without any response."

Lu Ming thought.

The place where he stepped was also engraved with runes, but there was no reaction at all, and the formation did not start.

Perhaps too many years have passed before the Great Array has failed.

Finally, Lu Ming's gaze fell on the bronze box.

Chapter 4596: King of Human Race

The bronze box looks simple and unpretentious, I don't know what it contains.

However, in this mountain space, there is only such a box, and it is placed in the middle so solemnly, the contents inside must be extraordinary.

Lu Ming thought about it, and finally decided to open it.

However, Lu Ming didn't come close, but condensed two big hands with taboo force, grabbed the box, and opened it forcefully, but the box didn't move.

Lu Ming continued to exert force again, but the box remained motionless.

At this moment, the bronze box suddenly emitted a soft light, Lu Ming was startled, and quickly put away the taboo power.

I saw that a line of words appeared on the side of the box.

"Boy, don't bother, you can't open it."

There was no sound, there was only one line of words. After a few breaths, they disappeared, but Lu Ming could see it clearly, and there was absolutely nothing wrong with it.

"Senior, who are you? Can you come out and see you."

Lu Ming called.

"I'm right in front of you, can't you see?"

Another sentence appeared on the box.

amount?

Lu Ming was a little confused, staring at the bronze box for a while, and said, "Senior, are you in the box?"

"No, I am this box."

Another sentence appeared on the box.

"This is the box?"

Lu Ming was even trapped. It turned out that this box was alive, and he was actually talking to him.

Could it be that this box is a supreme treasure that has given birth to spiritual wisdom?

Thoughts flashed in Lu Ming's mind, and then he asked, "It turns out to be... Senior Boxer, Senior, where is this place? Is it from the last era?"

"Don't call me senior, I'm just a box."

Another sentence appeared on the box.

Lu Ming: "..."

The previous sentence on the box disappeared, and a new sentence emerged: "I don't know anything else, I only know that this is the place where the remains of the Sealed Man King are sealed."

"Remains of the King?"

I don't know why, when Lu Ming heard this, Lu Ming's heart was shocked, and he continued to ask, "Senior, what is the human king's remains?"

"The human king's remains are the human king's remains. In this box, the arm of the human king is sealed."

A sentence appeared on the box.

"Human King? What does it have to do with Human Race?"

Lu Ming asked, he had no idea what 'king of man' meant, and some emperors of mortal kingdoms also called themselves kings of man.

But this obviously cannot be a mortal emperor.

"The King of Human Race is the king of the Human Race, one of the strongest of the Human Race, commanding the endless human race and oppressing the prehistoric continent."

This sentence appeared on the box again.

"The Primordial Continent, as expected, was left over from the last era."

Lu Ming's heart moved, but he immediately thought of another question.

Was the prehistoric continent of the last era really human?

"Could it be that there are also human races in the prehistoric continent?"

Lu Ming asked the doubt in his heart.

"Nonsense, although the Primordial Continent has thousands of races, the Human Race is the undoubtedly number one big clan. The strong are like clouds, and the Human King is the powerhouse who overpowers the entire Primordial Continent and stands at the pinnacle of the Primordial Continent."

"However, the King of People was killed later, the soul dissipated, the body was disassembled, and the town was sealed in a different place. This is one of them."

The words on the box appeared and disappeared, and a few words appeared in succession.

Lu Ming was dumbfounded, and it took a long time to recover his calm.

This passage gave him too much information.

The prehistoric continent of the last era also had human races.

What surprised Lu Ming was that the Human Race was actually the number one race in the Primordial Continent, and it overpowered other races.

And the King of Humans is the King of Human Race, the pinnacle powerhouse of the prehistoric continent.

Lu Ming really didn't expect the Human Race to be so powerful in the last era.

Could it be that the human races in the prehistoric universe are the blood of the human races of the last era?

It is the blood of the strong from the last era, which came into being over the years.

For example, Yan Clan.

Could it be that the Yan Clan was born because of the arm of the King of Humanity?

Because apart from this reason, there is no other explanation.

Of course, if you ask, you still have to ask.

"Senior, is it possible that the Yan Clan of this continent was born because of the king of humans with one arm?"

Lu Ming asked.

"Did you say that the kid outside? Yes, he was born because the residual blood stains on the arm of the king stayed outside."

"Also, don't call me senior, I'm just a box."

A few words continued to appear on the box, and the last sentence left Lu Ming speechless.

"It turns out that the Yan Clan was conceived from the blood stains left on the arm of the King of Humans. Then, were the other human races in the Primordial Universe born of the flesh and blood left behind by the strong human race of the last era?"

Lu Mingfu thought about it together, and then thought that this is how the human race was born, what about the other races in the universe.

Most of the various races in the universe evolved from the descendants of various primitive gods.

So, what about the original gods? Where did it come from?

According to legend in the universe, primitive gods were conceived when the universe first opened.

Lu Ming thought so before.

But now, Lu Ming has more ideas.

Because the current primordial universe was also part of the primordial continent of the last epoch, then, those primitive gods were really born naturally from the opening of the universe, or were they related to those strong men of the last epoch?

He thought of the Bone Demon again.

The Bone Demon said that he was the first demon bone to be opened in the universe. The last life of this demon bone may have been a strong man from the last era.

So, what about those primitive gods?

The more Lu Ming thought about it, the more open his mind felt.

Could it be that he discovered the secret of the birth of life in the prehistoric universe?

However, he thought again that the Celestial Race did not seem to have evolved from the primitive gods, nor was it a primitive god. So, how did the Celestial Race emerge?

Also, the devil, too.

After a long time, Lu Ming's heart gradually calmed down.

"Before...that, may I ask, the Primordial Continent was so prosperous at the beginning, what was it broken after, and since the King of People is so powerful, why would he be killed by people, and the corpses would be divided and sealed? "

Lu Ming asked.

He was very longing for the prehistoric continent of the last era, and wanted to understand what happened back then.

Judging from all the information he had learned, the Primordial Continent of the last era was a flourishing age of cultivation. It was stronger than the Primordial Continent of today and the Celestial Clan of today.

So strong, so powerful, why would even the Primordial Continent be destroyed?

Also, the King of People is so powerful, who killed him, divided and sealed his body?

Lu Ming wanted to understand these things thoroughly.

"do not know!"

Unexpectedly, these three words appeared on the box.

"Don't know? How could you not know? Aren't you the box left by the last era?"

Lu Ming became uncomfortable, and kept asking questions.

"Please, I'm just a box!"

Chapter 4597: The king's body fits and pushes forever

"Please, I'm just a box!"

The box's answer is very concise.

"Nest!"

Lu Ming wanted to swear.

What can he say? What else can he say?

The other party is really just a box, can he still scold the box?

"Then can you teach me some Qi training techniques from the last era?"

Lu Ming asked again.

"No, I'm just a box!"

The box answered.

Lu Ming: "..."

What a waste box.

"Then what did you let me in for? You don't know anything."

Lu Ming complained.

"First of all, you have to figure out that I did not let you in, but you came in by yourself."

The box answered.

Lu Ming; "..."

"In addition, when you come in, you can get an arm from the King of Humans. That is your supreme chance. Are you still complaining?"

The box replied again.

Lu Ming's eyes lit up immediately.

"You mean, I can get an arm of the King of Humans, but I can't open your box at all, and looking around, it is covered with rune formations. Since this formation can seal the arm of the King of Humans, Surely I can break it, right?"

Lu Ming said.

The King of Humans, as the pinnacle powerhouse who overwhelmed the prehistoric continent in the last era, his strength must be unpredictable.

It's definitely not as simple as the original state, maybe it's the state of detachment in the legend.

Beyond the universe, beyond reincarnation, the true immortality is immortal.

Of course, that realm is just a legend, anyway, since the birth of the great universe, no one has reached it.

However, it is not surprising that some people have reached the prosperous and prosperous continent of the last era.

But the man who arranged the formation was able to kill the King of Humans and seal his corpse. How could Lu Ming expect it?

"Don't worry, the time has passed for too long, the power of the seal has decreased too much, and you happen to be a human race again, just to break this seal formation!"

"Seeing that the eight altars are not there. As long as you drop your blood on the flames, the flames on the altars can be extinguished, and the flames can be extinguished. This formation is equal to broken, and you can open me. Get the arm of the king."

On the box, handwriting constantly appeared.

"Why can't you talk?"

Lu Ming asked.

Generally speaking, this kind of agile, whether it is a weapon or something, can at least speak with spiritual knowledge.

"Please, I'm just a box!"

The box answered.

What else can Lu Ming say?

"Human blood can extinguish the flames on the eight altars and break the seal. Is that simple?"

Lu Ming asked.

"It's that simple!"

The box answered.

"Your original goal shouldn't be me, it's the Haizong outside. He is also a human race, and it seems that his bloodline is more pure and advanced."

Lu Ming asked again.

"Not bad, but later found out that you are actually more suitable than him."

The box answered.

"That said, everything was arranged by you. Grandpa Haizong's redstone was also given by you. I am really curious. As the box that seals the arm of the king, why did you put the arm of the king out?"

Lu Ming asked.

Obviously, Lu Ming did not believe in this box because there were too many doubts.

He finally understood now, why Haizong's grandfather could get that piece of redstone, mostly because this box was deliberately put out.

This box was obviously used to seal King King's arm, and now he wants to let King King's arm out again, doesn't it seem suspicious?

"Boy, are you suspicious of me? I'm telling you, my spiritual wisdom was born the day after tomorrow. Once it was born, it has already appeared here. If you don't seal the King's arm, what does it matter to me?"

"Also, it is not me who arranged all this, but the arm of the king of humans."

Box Road.

"It is so."

Lu Ming's heart moved.

"It was arranged by the arm of the King of Humans. Is the consciousness of the King of Humans still alive?"

Lu Ming asked in surprise.

"The King of Humanity must be completely dead, and the soul has long been destroyed. The arm of the King of Humanity does this only out of instinct."

"It comes from the instinct of the king's arm, and instinctively wants to get out of trouble, so after the seal is weakened, a trace of blood on the arm is penetrated to give birth to the Yan Clan, and when the Yan Clan gives birth to a truly powerful Tianjiao, you can release the character's arm. Up."

Box Road.

"Then why did you choose me? Haizong can also let King Ren's arm go out as well."

Lu Ming said.

"It's very simple. Although that Haizong inherited a trace of the human king's blood, and the future potential talent is very strong, it is still not as good as you. Although your human blood is not strong, it is powerful and has unlimited potential, so you are more suitable."

"Because, after releasing the arm of the King of Humans, you have an even more difficult task, which is to find the other parts of the corpse of the King of Humans, and release the other parts, so that the body of the King can be returned."

Box Road.

"Let the king return his body? Why should I do this? This process is probably dangerous."

Lu Ming said.

Although the King of Humans is said to be the ancestor of the Human Race, it should be his body to return to his position.

However, this process was absolutely dangerous, and it was about his own life. Lu Ming was not so stupid, and stupidly agreed.

"Boy, it seems that you don't know the importance of the body of the King of Humans. The King of Humans is too strong. Although he is dead and his soul is annihilated, the body that remains is immortal

and immortal. If you can let his body return, you can control it. Its physical body is enough to cross the world and push the eternal invincibility horizontally."

Box Road.

"Across the world, pushing the eternal invincibility horizontally? Can it kill the Origin Realm?"

Lu Ming asked.

"Original realm, just a finger can kill!"

The box answered.

This time, Lu Ming was really moved.

If you can get the human body, wouldn't it be invincible in the world, wouldn't it be possible to step on the heavens? Reshape the pattern of the universe.

So, the corner of the future that Tang Feng, the forbidden sword ancestor, saw, said that there was a tragic battle, could it be resolved?

This is completely feasible.

And he analyzed it carefully, and there was no flaw in what the box said.

The human king arm, instinctively wanted to break through the seal and merge with the other parts of the human king's body to form a complete human king's body.

That's why the Yan Clan was born. The redstone contained a trace of the human king's blood. Anyone in the Yan Clan who can merge can freely enter and exit the Ancestral Mountain, release the human king's arm, and then take the human king's arm to find people. Other parts of the king's body.

All this makes sense and makes sense.

"Boy, this is a great opportunity. You can choose or not to choose. If you don't choose, there will naturally be other candidates. After all, there are countless Yan Clan people, and there will always be someone who will come here."

Another sentence appeared on the box, and then he was immersed and said nothing.

"Okay, let me try!"

Lu Ming pondered for a long time, and finally nodded.

He still decided to try. If he really gathers the human body, he can solve the crisis of the celestial race in one fell swoop, so that his relatives and friends can practice safely.

Otherwise, once the earth-shattering battle erupts, no one knows the consequences.

No one can guarantee to survive the tragic battle.

Chapter 4598: A stone arm

Lu Ming walked to an altar, squeezed a ray of blood from his fingers, and fell on the flames.

With a snort, the flame went out directly.

Lu Ming moved his gaze, then walked to the second altar. He repeated his technique and squeezed a stream of blood onto the flame. Then, the flame went out again.

"It's really weird, this formation clearly seals the human king's arm, but it can break the mark with human blood..."

In Lu Ming's heart, a new doubt arose involuntarily.

He really couldn't figure out the principle of this.

Finally, Lu Ming shook his head.

Let's break the seal first, if there is any danger, it will leave immediately.

Puff, puff...

Soon, the flames on the eight altars were extinguished by Lu Ming.

However, the surrounding runes did not react at all.

Can not see the slightest abnormality of the array being broken.

"The formation is broken?"

Lu Ming asked about the bronze box.

"Yes, you can open me now."

The bronze box answered.

Lu Ming's eyes flashed, and he didn't hesitate anymore, condensed two big hands with taboo power, grabbed the box in space, and opened it.

This time, very easily, the bronze box was opened easily.

As soon as the bronze box was opened, there was a breath of breath coming out of it.

This breath is majestic, vast, ancient...

In front of this breath, Lu Ming felt very small, as if an ant was about to kneel down facing a dragon.

Lu Ming tried his best to use Taboo's power to prevent himself from kneeling.

"This breath is too similar to the breath of Haizong's bloodline, but it is more vast than Haizong's, and countless times more advanced. Is this the human king's bloodline?"

Lu Ming felt his breathing heavier.

After Hai Zong merged into that piece of redstone, it exuded that kind of powerful pressure, and a figure appeared.

The figure wears a crown on its head, wears a royal robe, and holds a king sword. It is very likely that he is the king of men.

However, it is far inferior to the breath radiating from the box in front of him.

Lu Ming looked carefully and saw that there was really an arm in the bronze box.

This is a right arm, but it is not flesh and blood, but stone, a stone arm.

"Box, why is it a stone arm?"

Lu Ming asked.

"It's normal. This is the self-protection of the king's arm. Petrochemical can seal the essence and slow the loss of essence."

The box answered.

Lu Ming nodded. Now, he basically believed what the box said.

Because the box said, comparing before and after, there is really no problem.

After a while, the breath on the king's arm disappeared, from extraordinary to ordinary, as if it really became an ordinary stone arm, lying quietly in the box.

Lu Ming walked over, then folded his fists and bowed deeply into his arm.

After all, this is the arm of the King of Humanity, which can be said to be the ancestor of the Human Race, and deserves Lu Ming's respect.

After a bow, Lu Ming stretched out his hand and grabbed Renwang's arm in his hand.

Contrary to Lu Ming's expectation, it was very light, weighing only a hundred jin.

Lu Ming originally thought that the character's arm would be very heavy.

"Does it have to gather all the king's flesh to use it? Can't it be used now?"

Lu Ming muttered.

"On your terms, it can actually be used barely."

A sentence appeared on the box.

"Can I use it too?"

Lu Ming was overjoyed.

"Yes, your strength is very strong, and the power you control is not trivial. You can barely borrow a trace of the strength of the king's arm. As long as you operate the power, let the king's right arm merge with your arm, and you can briefly display the strength of the king's arm. ."

"However, from my observation, you can only take one breath at most, and you will be drained of all your strength."

The box answered.

"One breath!"

Lu Ming whispered: "I just don't know how powerful it can be. If it is very strong, one breath can be used as a hole card."

Lu Ming planned to give it a try after he left here.

"The box, the human body, how many parts are divided into?"

Lu Ming asked.

"It is divided into seven parts, limbs, head, trunk and heart!"

Box Road.

"So many, where are they scattered, do you know?"

Lu Ming asked.

"I don't know, you need to find this yourself, don't ask me everything, you have to be clear, I'm just a box."

Box Road.

Lu Ming: "..."

I'm really speechless, where can he find it?

How big the primordial universe plus the ruins of the universe must be, it is 10,000 times more difficult to find the flesh of the other six human kings in the vast expanse of the cosmos and the ruins of the universe.

In the end, Lu Ming could only put the bronze box into the prey.

Then he looked around, found nothing else, and retired.

Haizong was still in that blood pool.

Lu Ming speculated that this blood pool contained a trace of blood from the human king's arm, and this was definitely a great opportunity for Haizong.

Lu Ming sat cross-legged here, took out the Honghuangjing and began to absorb and refine, while refining Honghuangjing, while waiting.

One day later, the liquid in the blood pool had been completely absorbed by Haizong, and Haizong's breath was constantly improving, and now it had reached the realm of heavenly gods.

This speed is really amazing.

You know, when Lu Ming first saw Haizong, Haizong's cultivation was only in the Heavenly Emperor Realm, not even the Void God Realm.

But now, he has actually reached the Heavenly God Realm.

At the same time, above Haizong's head, the figure wearing a crown, wearing a royal robe, and holding a king sword reappeared, exuding powerful pressure.

The power of Haizong's bloodline has become stronger and stronger, and its potential and talent have also been greatly improved.

"Is this the human king bloodline? I don't know where Haizong's future cultivation base will go. Should I accept him as a disciple?"

Lu Ming's heart moved.

To be honest, Lu Ming was very excited.

Haizong's present talent and potential are absolutely powerful, and his future achievements are limitless.

Accepting him as a disciple will become Lu Ming's great helper in the future.

However, Lu Ming really didn't have time to teach.

"Take it back first, and hand it over to Senior Feihuang for training."

Lu Ming thought.

"Big Brother Lu Ming!"

Haizong condensed his breath and came to Lu Ming's side.

"Congratulations, Haizong, your cultivation has improved a bit, now, let's go!"

Lu Ming said.

"it is good!"

Haizong nodded, although he was a little confused, why didn't he enter the mountain to take a look, but he admired Lu Ming very much, and he would do whatever Lu Ming said.

Going out smoothly, Haizong still took it, and easily passed through the lifeline of Zushan and came to the outside of Zushan.

"Brother Lu Ming, where are you going next?"

Haizong asked.

"I want to leave the Star Continent and go on an adventure."

Lu Ming said.

Haizong's expression changed and he said, "Then... if the Celestial Race comes again, what shall we do?"

Chapter 4599: Move the whole continent

Lu Ming also frowned slightly, which was also his worry.

Ye Ling Tianshou's father, but a Tianzun.

That Tianzun must know that Ye Ling Tianshou was in the Heavenly Star Continent. Now that Ye Ling Tianshou was killed, maybe the Tianzun already knew about it.

After all, if a person's soul is tied to a certain object, when the person falls, the corresponding object can be sensed immediately.

This kind of thing exists in the small world.

Like the life card, the life card is broken.

However, this kind of thing is relatively rare in the Primordial Universe, mainly for making life cards and the like, requiring a trace of soul power.

Although only a small amount is enough, it also affects the soul and makes the soul no longer complete, which is not good for cultivation.

Therefore, the primordial universe, especially some powerful Tianjiao, rarely do this in pursuit of perfection.

But the other party involved Tianzun after all, who knows if there is any other way to perceive the safety of Ye Ling Tianshou.

If the other party knows, they will come soon.

Even if there is no way to perceive it now, it will be discovered sooner or later.

It's just a matter of morning and evening. After being discovered, the Heavenly Star Continent is difficult to preserve under the anger of the Heavenly Lord, and it is also difficult for the Yan Clan to survive.

What to do, this is where Lu Ming's headaches are.

"You might as well simply use the prehistoric ring to move the entire Star Continent away."

In the sea of knowledge, the voice of the bone demon came out.

"How can it be possible to take the Heavenly Star Continent into the Precious Ring? How can I have this cultivation base?"

Lu Ming said, it's not that he has thought about this method.

Hong Huang Jie is indeed large enough, and the area inside is absolutely above the Star Continent.

Install a Star Continent, and rub it with you.

If the Heavenly Star Continent was collected into the Precious Ring, and the Heavenly Star Continent was suspended above the Precious Ring, it was completely possible.

Because in the prehistoric ring, it was completely controlled by Lu Ming.

However, he can't do it.

To take this big Heavenly Star Continent into the Precious Ring, a powerful force is needed to control the Precious Ring. With his current cultivation base, it is not enough.

Even if it breaks through to the triple level of God and Lord, it is far from enough.

"Didn't you just get the arm of the king of humans and want to try the power of the arm of the king of humans? Now it is not just right to try. Use the power of the arm of the king of humans to control the prehistoric ring, and try to take in the Heavenly Star Continent. "

Bone Demon Road.

Lu Ming pondered.

Yes, the king arm, he almost ignored it.

It might be feasible.

Lu Ming planned to give it a try.

However, there are still some preparations to be done before the test.

Immediately, Lu Ming and Haizong returned to the deep lake Mingyuan. Lu Ming told Nishentian what he thought.

The main reason for telling Nishentian is to let him help stabilize the hearts of the people.

Otherwise, the Heavenly Star Continent was suddenly taken into the prey.

When Nishentian and others heard Lu Ming's thoughts, they were shocked and dumbfounded.

This idea is really crazy.

The Star Continent, how vast and vast, can such a big world be included in a ring?

is it possible?

Fortunately, this was what Lu Ming said. If someone else said it, they would directly despise it.

"This...is it really possible?"

Nishentian is still doubtful.

"No matter what, you have to give it a try. Otherwise, when the stronger Celestial Clan arrives, the Yan Clan must be destroyed. The entire Celestial Star Continent may not be able to be preserved..."

Lu Ming said.

"Okay, let's give it a try, Senior Lu Ming, just do it and leave it to us to settle the mind!"

Against the gods.

Lu Ming did not delay any longer, soaring into the sky, rushing into the sky above the Star Continent, and looking down from afar, the Star Continent seemed to have become the size of a desktop.

Lu Ming took out the Precious Ring and input the power of Taboo. The Precious Ring was suspended in the air, and a huge whirlpool appeared above the Heavenly Star Continent.

In the whirlpool, a powerful attraction is exuded, but this attraction is far from enough to collect the Heavenly Star Continent.

"Try Renwang's right arm!"

Lu Ming thought, the bronze box appeared in his hand, opened the bronze box, and took out the right arm of King Ren.

"Follow me!"

Lu Ming drank softly, inputting the power of taboo into the right arm of the king.

Hum!

Renwang's right arm shook, and a hazy radiance filled it, and then it turned into a light that blended into Lu Ming's right arm.

It can be seen that Lu Ming's right arm overlaps with Renwang's right arm.

At this moment, Lu Ming felt an incomparably powerful force spreading all over his body from his right arm.

Especially the right arm, that power is even stronger, Lu Ming has a feeling, as if he can smash the Heavenly Star Continent with a punch.

However, in the next moment, his face changed.

Because he felt the power of the taboo in his whole body, he rushed towards his right arm frantically, at this speed, at most one breath, the power of his whole body would be drained.

"Honghuangjie, accept it for me!"

Lu Ming roared, manipulating the power of his right arm with all his might to drive this power into the prey.

This is also a prehistoric precept, the level is extremely high, and when replaced with ordinary weapons, the influx of such a powerful force directly bursts.

When this force poured into the Precious Ring, the Precious Ring shook violently, emitting a dazzling brilliance. The whirlpool suddenly became larger, covering the sky and the sun, and the void, and enveloping the entire Heavenly Star Continent like a shroud.

The powerful attraction enveloped the Star Continent.

The Heavenly Star Continent shook suddenly, flew toward the Honghuang Ring, and quickly shrank, and finally flew into the Honghuang Ring and disappeared.

Succeeded!

Lu Ming was overjoyed, and immediately put away Renwang's right arm and put it into the bronze box.

Huhu...

Lu Ming gasped, and for a while, 90% of his body's strength was taken away by Renwang's right arm.

The bronze box said that with his cultivation base, he manipulated the right arm of the king, and insisted on a long breath. It seemed true.

He is in a very poor state now, and any existence of the Divine Master Realm can kill him.

Of course, he still has the ball to protect him.

It was too late to restore the cultivation base, Lu Ming's spiritual sense condensed from the prey ring.

The Heavenly Star Continent, suspended high in the sky, was far away from the original prehistoric continent, and they would not have much influence on each other.

From Lu Ming's perspective, it seemed to see two heavens.

"Yes, yes, it won't affect the original prehistoric continent. If it affects, then we can only find a place to release the Heavenly Star Continent."

Lu Ming smiled.

At this moment, everywhere in the Star Continent, there has been a mess of porridge.

In the eyes of the Yan Clan people on the Star Continent, they felt that the stars had shifted and the sky had changed greatly, which naturally caused their panic.

However, Nishentian is already prepared and is sending people to comfort people.

For the rest of the matter, don't care about Lu Ming. Lu Ming withdrew from the prehistoric ring, then took out a prehistoric crystal, absorbed the energy inside, and at the same time turned his body into a light, flew out through the air, and left here.

Chapter 4600: Tianzun is here

This area could no longer stay for long, Lu Ming left here and flew into the distance.

While flying, Lu Ming didn't stop at the same time as he absorbed the prehistoric crystal to replenish his strength, passing several barren continents along the way.

It is still too far away from the original location of the Star Continent. If Ye Ling Tianshou's father arrives, and a Heavenly Lord goes mad, the nearby continents will also be affected.

Lu Ming planned to fly farther.

After flying for a whole day and night, Lu Ming stopped on a barren continent and found a hidden place. Lu Ming sat cross-legged, took out the Honghuangjing, and quickly absorbed it.

Soon after, Lu Ming's cultivation level finally returned to its peak state.

"Now, where should I go? The human body has no direction."

Lu Ming thought.

It was obviously not what Lu Ming wanted to return to the garrison of the Heaven Extinguishing Army. It didn't take long for him to come out, and Xie Nianqing and others were definitely still in retreat.

In the end, Lu Ming decided to continue to explore the ruins of the universe, traveling and practicing.

Lu Ming and his party on the Star Continent further determined that only by constantly adventuring and traveling could his cultivation level be continuously improved.

If it hadn't been for a tour of the Tianxing area, how could Lu Ming's cultivation level rise to the second level of God and Lord so quickly?

In addition, there are about 120,000 Honghuang Crystals in his hand, enough for him to rebuild a few times.

In addition, the ball has reached the triple level of God and Lord.

This is not achieved in the stable retreat of the Extinguishing Army.

According to the corner of the future seen by the taboo sword ancestor Tang Feng, in the near future, there will be an earth-shattering battle, and there is not much time left for him. He must hurry up and improve as soon as possible.

At least before the war, have the original source realm cultivation base.

Although the Divine Master Realm can be called the top master of the Primordial Universe, once a war that spreads to the universe erupts, the Divine Master Realm will not be enough to see and may fall at any time.

Only the original state can barely protect itself.

He must reach the origin as soon as possible.

"In the Sky Star region, the Sky Star Continent should be the core. Even if there is a chance, there should not be many fragments of the other continents. Now the Sky Star Continent has been included in the prey ring. The Sky Star region is not worth my stay. I should go to other regions. Up."

"Where are you going?"

Lu Ming thought about it.

Finally, Lu Ming decided to go deep into the ruins of the universe.

The deeper the ruins of the universe, the more dangerous, but the greater the opportunities.

However, before heading to the depths of the ruins of the universe, Lu Ming still needed to retreat.

First raise the cultivation base, he has more than 120,000 Magnificent Crystals in his hand, which can't be wasted.

call out!

Lu Ming used his big shifting technique, left here, and flew farther.

Three days after Lu Ming left the original location of the Star Continent, an old man suddenly arrived.

This is a celestial race, with all white hair and beard, but the aura is like a deep sea, terrifying.

"Tian Shou, Tian Shou, damn, who killed you?"

The old man roared, a frightening aura permeated out, and the void was torn apart into cracks, spreading towards the distance, the scene was extremely shocking.

This old man is the father of Ye Ling Tianshou, a very powerful Tianzun powerhouse.

"Here, there was originally a continent, but now it's gone. Except for the existence of Origin Realm, no one has this strength."

"However, no matter whether you are in the original realm or what realm you are, you can't escape if you kill my son. You are going to die. I will find out who killed my son!"

The old man roared, his voice filled with indifference and murder.

Afterwards, he sat cross-legged, his body glowing, as if blending with the entire void, his body seemed to be this void, and any trace of this void could not escape his induction.

This induction took seven days. Seven days later, the old man suddenly opened his eyes, and his eyes burst out like two sharp swords, piercing the void, piercing two holes in a very remote barren continent.

"Forbidden power. Not long ago, a forbidden power appeared in the Star Continent."

"Who is it, Tang Feng, or Feihuang?"

"No, the remaining taboo power is very weak, only the strength of the Divine Master Realm, not the two of them, but Lu Ming, yes, it must be the little beast."

An extremely cold voice came from the old man's mouth.

I have to say that this person's methods are really unpredictable, even Lu Ming did not expect that the Tianxing Continent was taken away, this person can still feel the trace of residual aura remaining in the void, and judge him. Over here.

The old man was sure that it was Lu Ming who killed his son Ye Ling Tianshou.

Although it is not known what method Lu Ming used to take away the Star Continent, based on the strength of the taboo, only Lu Ming met the conditions.

"Little beast, dare to kill my son, you will make you worse than death."

The old man flickered a terrible fierce light, then closed his eyes and continued to sense.

After a while, the old man suddenly opened his eyes and looked towards the depths of the ruins of the universe.

"According to the remaining breath, that kid should have gone deep into the ruins of the universe."

The old man whispered, and then turned into a rainbow light, heading toward the depths of the ruins of the universe. This direction was exactly the direction Lu Ming was heading.

Soon after, the old man came to the continent where Lu Ming had stopped to recover.

"Is it hiding here? Little beast, get out of me!"

The old man shouted, standing above the mainland, condescending, and blasted out with a palm.

Suddenly, the power of Heaven's Punishment erupted, and infinite lightning fell from the old man's palm, covering the entire continent.

boom! boom! boom! ...

Destructive explosions occurred everywhere in the entire continent, and in the end, the continent exploded and turned into smaller continents.

"No one? Have you already left?"

The old man frowned and continued to sit cross-legged, probing.

After a while, the old man opened his eyes and said coldly: "Sure enough, he has left, huh, kid, no matter where you escape, I will chase you."

After saying this, the old man turned into a rainbow light and chased into the depths of the ruins of the universe. After a while, he left the sky star area and entered the boundless void space.

However, after chasing a distance in the void, he suddenly stopped.

Because Lu Ming's breath is here, it's broken.

"Damn it, what's the matter? Here, how did the breath disappear without a trace, without a trace of it, what happened?"

"Did that kid encountered a cosmic storm?"

The old man growled.

In fact, he was right, Lu Ming really encountered a cosmic storm.

He had left the sky star area before, planning to go to another area, and then find a place to retreat and practice for a while.

Ye Ling Tianshou's father is a Tianzun-level figure, and Tianzun-level figures are unfathomable to Lu Ming, and it is difficult to predict. For safety's sake, it is best to stay as far away as possible from the Tianxing area.
