

## **D Emperor 4601**

### Chapter 4601: God Lord Triple, Qianqiu Battlefield

When Lu Ming flew out of the sky star region and entered the void space, he encountered a cosmic storm.

Cosmic storm is a kind of disaster that can only appear in the emptiness of the ruins of the universe.

The cosmic storm is extremely terrifying. Once encountered, even the strong in the original state must evade, and the encounter of the \*\*\*\* master state will lead to nine deaths.

Lu Ming could only sigh unlucky. The area covered by the cosmic storm was too big. In the end, there was no way. Lu Ming could only enter the prey.

When facing other masters, it is not wise to enter the Honghuangjie to escape. If you go in, and Honghuangjie stays outside, what's the use? Wouldn't it be slaughtered?

But in the face of this kind of natural disaster, it can be avoided with the precepts.

Hong Huang Jie is one of the four great treasures of the Heavenly Palace of Life and Soul. Its level is higher than that of the Eighteen Town Hall God Soldiers. The material is solid and immortal, and it really blocks the invasion of the cosmic storm.

However, the prehistoric ring is also drifting with the flow, being taken far away by the cosmic storm.

Moreover, where the cosmic storm passed, everything could be wiped out, including the breath left by Lu Ming, so Ye Ling Tianshou's father chased there and lost Lu Ming's breath.

Lu Ming hid in Honghuangjie, and didn't know how long it took before he calmed down outside.

Lu Ming speculated that the cosmic storm had passed, and Lu Ming had just come out of Honghuang.

"Where am I?"

Lu Ming was at a loss and realized that he seemed to have entered a new area, but he didn't know which area it was.

Lu Ming took out the map and looked at it for a while, but he couldn't figure it out.

After all, even if you have a map, you have to know where you are now, and you don't know where it is now. Even if you have a map, it's useless.

"Forget it, no matter where it is, it should be far away from the sky star area. Find a place to practice safely!"

Lu Ming thought, not long after, he found a barren continent, entered the continent, and began to take out the prehistoric crystals to absorb and refine.

On the other side, Ye Ling Tianshou's father lost Lu Ming's trace and was very unwilling, and finally continued to fly towards the depths of the ruins of the universe.

He couldn't be reconciled if he didn't kill Lu Ming and avenge the Ye Ling Tianshou.

However, the direction between him and Lu Ming had already deviated.

One by one, the prehistoric crystals were absorbed and refined by Lu Ming.

Lu Ming hurriedly refined more than 3,000 prehistoric crystals. His cultivation level finally made a breakthrough and reached the triple level of the gods.

"Finally reached the third level of the Divine Master, and it is really much stronger than the second level of the Divine Master, but the consumption of the Primordial Crystal is also terrifying, actually nearly four thousand..."

Lu Ming sighed.

Counting from breaking through the Divine Master Double Layer, to breaking through the Divine Master Triple Layer, Lu Ming consumed nearly four thousand prehistoric crystals.

Fortunately, Lu Ming obtained a large number of prehistoric crystals in the Ancestral Mountain. Without this opportunity, it would be very difficult to collect four thousand prehistoric crystals.

It takes nearly four thousand primordial crystals to reach the third level of the gods and masters. Then, to break through from the third stage of the gods to the fourth levels of the gods and masters, the required princely crystals may be even more exaggerated.

It may be above 40,000 yuan.

Calculating according to this law, the Hong Huang Jing in Lu Ming's hand can at most allow Lu Ming to break through to the fourth level of the gods.

"Don't worry about it, let's break through to the fourth layer of God Lord."

Lu Ming decided to upgrade his cultivation until he could not upgrade, and then go to the depths of the ruins of the universe.

Sharpening the knife does not accidentally chop the wood, only a higher level of cultivation can get more opportunities.

Lu Ming continued to refine the prehistoric crystals, but not too long this time, Lu Ming stopped because he felt that the king's arm was abnormal.

With a wave of his hand, the bronze box appeared, opened the box, and the human king's arm flew out directly. On it, there was a dazzling brilliance and constant tremors.

And, the palm points in one direction.

"That is..."

Lu Ming was surprised.

"Could it be that other parts of the human body are about to appear!"

At this time, a line of words appeared on the box.

"The rest of the human body?"

Lu Ming's heart was shaken.

"This is my speculation, but it is likely to be the case. The human king's arm senses other parts of the human body. Boy, hurry up in that direction. Your chance is here."

Box Road.

"Can I practice first before going!"

Lu Ming muttered, still wanting to improve his cultivation base before leaving.

"The time must not be missed. If it is too late, everything is hard to say. This is a golden opportunity. You have a good chance. You have discovered other parts of the human body so quickly. Don't miss it!"

Bronze Box Road.

"Well!"

Lu Ming nodded.

He didn't want to miss the human king's flesh body. Once he got it, he could cross the world and suppress the heavenly palace, which made him very excited.

Huh!

Lu Ming rose into the air and headed towards the direction of King Ren's arm.

The palm of King Ren's arm was always facing in one direction. With the guidance of King Ren's arm, Lu Ming would not go wrong.

However, that place seemed very far away from Lu Ming.

Lu Ming has been flying for a month, but he has not arrived at his destination.

"This is about to enter the Qianqiu battlefield!"

Lu Ming studied the map carefully.

After flying for a month, Lu Ming finally knew where he was based on the judgment of a series of reference objects.

He went deeper and deeper into the ruins of the universe.

And he looked at the map and found that soon, he was about to reach an important place in the ruins of the universe, the Qianqiu Battlefield.

The Qianqiu battlefield is already deep in the ruins of the universe.

Moreover, here is a battleground between the Heaven Exterminating Army and the Heavenly Palace.

Here, both sides have invested a large number of powerhouses, vying for control here.

Because here was an important battlefield in the last era.

The prehistoric continent was exploded in the last epoch, and this place was definitely a place of decisive battle, so it also contained countless opportunities.

Someone here has obtained a complete source-level magic weapon, also a top-level Qi training technique, and even a treasure containing the imprint of the source.

Even, have gotten more precious treasures than those above.

Therefore, in order to compete for this place, the Heaven Extinguishing Army and the Heavenly Palace have invested a large number of powerful men, fighting all year round and competing for resources.

The two sides have faced off here for more than ten sidereal years.

The Qianqiu battlefield is undoubtedly very dangerous.

Feihuang didn't let Lu Ming come here before.

"Could it be that the other parts of the human king's body are on the swing battlefield? I hope not, maybe just passing by here."

Lu Ming whispered, but whispered in his heart.

If it is really on the Qianqiu battlefield, it will be in trouble.

In the Qianqiu Battlefield, both sides have invested a lot of powerhouses, even the powerhouses of the Origin Realm, there are not a few, as for the masters of the Divine Master Realm, there are even more.

If it is really here, with his cultivation base, it would be really difficult to get the human body.

Lu Ming secretly prayed, hoping to just pass through here.

However, when Lu Ming approached the Qianqiu battlefield, the feeling of the king's arm suddenly disappeared, and he returned to peace, lying quietly in the bronze box.

Chapter 4602: Encountered a strong enemy

"What's going on? The king's arm, why doesn't it respond?"

Lu Ming was a little dazed, staring at the bronze box, waiting for answers.

"Perhaps, the arm of the King of Humanity is not far ahead, on the Qianqiu battlefield you mentioned. Maybe something happened that caused the arm of the King of Humanity to temporarily lose its sense."

Bronze Box Road.

"Can't you give a clear answer?"

Lu Ming was speechless.

"Please, I'm just a box!"

The box answered.

Lu Ming: "..."

"It seems that I can only stay on the Qianqiu battlefield for a while. The other parts of the human king's body will not really be on the swing battlefield, right?"

Lu Ming is a bit big, but he still hopes to be elsewhere.

But King Ren's arm lost its sense here, and he couldn't figure it out, so he could only stay here temporarily.

Putting away Renwang's arm, Lu Ming took out the map and looked at it carefully.

According to the information he got, Qianqiu's battlefield was very vast, and its territory was extremely huge. It was not known how many times larger than the previous Heavenly Star Continent.

The core place of Qianqiu Battlefield is a huge continent.

Around this continent, there are also some small continental fragments.

The Heaven Extinguishing Army and the Heavenly Palace each occupy a part of their territory, searching for resources, while fighting endlessly.

What made Lu Ming a headache was that he didn't know which side the area occupied by the Heaven Extinguishing Army was.

The map only shows that this is the Qianqiu Battlefield. As for the area occupied by the Heaven Exterminating Army and the Heavenly Palace, it is not marked at all.

If he rushed forward and plunged into the area occupied by Tiangong, wouldn't he have to finish playing.

Moreover, here is where the strong of the Origin Realm sits down, even if imitated with a large imitation technique, it will be seen through.

"Get closer first and watch from a distance!"

Lu Ming condensed his breath, ran the big imitation technique, concealed his breath and turned it into the breath of another Yan tribe, then slowly flew forward.

Soon after, some scattered continents appeared in front of Lu Ming.

These continents are very small and deserted, without any vitality.

Even Lu Ming felt the terrifying killing intent and suffocating aura on it.

The killing intent and evil spirits mixed, breaking through the void. Even if they were far apart, Lu Ming felt his scalp numb and his skin felt as uncomfortable as a needle stick.

"What a terrifying killing intent and evil spirit, is this the battlefield left by the war of the last era? After so many years, it is still so terrifying..."

Lu Ming was secretly surprised.

The last epoch is too far away from now. I don't know how many years have passed. In the past so many years, there was still such a terrifying killing intent and evil spirit. It is really hard to imagine that the last epoch participated in the war. What a strong man in the realm.

However, these small deserted continents did not destroy the heavenly army and the people of the heavenly palace.

Lu Ming continued on.

"That is..."

Suddenly, Lu Ming's eyes stared.

There was a continent ahead, but what shocked Lu Ming was that it was not this continent, but a weapon that passed through it.

It was a long spear, extremely huge, passing through the middle of this continent and stabbing out from the other side.

It can be seen that this spear has been decayed, with pits and dents on it, with many gaps, and no spirituality.

On top of the spear, there was a figure sitting cross-legged on it.

"No, it's the angel race!"

Lu Ming's pupils shrank suddenly.

Sitting cross-legged on the spear, his body was covered with a layer of holy light. This was clearly an angel clan, and Lu Ming would never admit his mistake.

At this time, the angel clan also saw Lu Ming.

"Human? It's not our side, take it!"

The angel clan master snorted coldly, and suddenly twelve wings appeared behind him. One flap of the wings turned into a white light and rushed towards Lu Ming at an astonishing speed.

This is a twelve-winged angel, placed among the angel family, that is the top talent.

The speed of the angel race was very, very fast. In an instant, Lu Ming was approaching, and the bright angel war sword slashed towards Lu Ming's eyebrows.

Hum!

Lu Ming retreated violently, and at the same time took out the God of War Spear, and swept it out, sweeping on the Angel War Sword.

when!

A violent roar sounded, and then Lu Ming's figure violently retreated backwards like a meteorite, spouting blood.

"God Lord Sevenfold!"

Lu Ming's face was very solemn.

The opponent is a divine lord with seven layers, and the key is a twelve-winged angel with very powerful combat power.

This person's combat power is not weaker than Ye Ling Tianshou.

Although Lu Ming broke through to the Divine Master Triple Level, he was not yet his opponent.

"The trivial gods and masters can actually block me."

The master of the angel race was also shocked.

Although he didn't use his full strength for the move he had just now, it wasn't something that the threefold existence of a divine master could stop.

This person is a terrifying evildoer.

"kill!"

The masters of the angel race shouted, the holy light burst into the sky, and burst out with all strength. Twelve angel war swords appeared in the sky, turning into thousands of sword lights, and slashed towards Lu Ming.

Lu Ming's face was solemn, and his figure kept retreating, avoiding the attacks of the sword light.

However, there is too much sword light, it is difficult to avoid them all.

Some sword lights can only resist head-on.

However, the opponent's strength was too strong for Lu Ming to fight against. After blocking some sword light, Lu Ming suffered a lot of wounds on his body and his injuries worsened.

"Don't fight, leave as soon as possible!"

In Lu Ming's mind, different thoughts flashed through.

This person's combat power is not weaker than the Yeling Tianshou, and even if he uses his original power, he cannot be the opponent's opponent.

Unless the king's arm is used.

But as soon as this thought appeared, it was cut off by Lu Ming.

where is this place? Obviously, it is the area of Celestial Power.

With the arm of the King of Man, Lu Ming beat me a thousand percent, and he could kill him with one punch.

But after using the arm of the King of Humans, his own strength will also be drained. If another master of the heavenly palace comes, he will be finished.

The best way now is to retreat, retreat as soon as possible, and get rid of this person.

However, the angels rely on angel wings and are very fast.

Lu Ming wanted to get rid of the opponent, but he couldn't do it for a while.

If this continues, not only will you not be able to get rid of the opponent, but if you are not careful, you will be killed by the opponent.

"Lu Ming, let me help!"

Cried the ball.

"hold on!"

Lu Ming said.

The goal of the ball is somewhat obvious. Many people know that Lu Ming has such a metal life as the ball. Once the ball is shot, the opponent will easily guess his identity.

Now the other party obviously hasn't guessed his identity.

"Die!"

The strong angel clan roared, and the thousands of sword lights converged on three terrible sword lights, slashing towards Lu Ming's three vital points.

At this moment, three lotus flowers suddenly appeared in the void.

The three white lotus flowers spun rapidly, blocking the three sword lights of the angel race.

"Who?"

The angel clan master shouted and looked in one direction.

In that direction, a stunning woman stepped into the air.

Xie Nianjun!

Chapter 4603: Goodbye Xie Nianjun

The one who came was actually Xie Nianjun.

Lu Ming showed a hint of surprise.

Speaking of it, he hasn't seen Xie Nianjun for many years.

Since Xie Nianjun and Xie Nianqing left together last time, he has never met Xie Nianjun again, even when Xie Nianjun was in the Supreme Immortal City, Xie Nianjun did not appear.

Later, he asked Xie Nianqing about Xie Nianjun's news. Xie Nianqing said that Xie Nianjun had been cultivating in the depths of the ruins of the universe, but he did not expect to meet him in this Qianqiu battlefield.

"It's you? Do you want to stop me? I'm afraid it's not enough."

The strong angel clan said.

"How can I know if I don't try?"

Xie Nianjun spoke indifferently, and his whole body was shrouded in a holy light, and he looked a bit like the holy light of an angel race.

However, Xie Nianqing's power is not the holy light of the angel race, but a higher-level power, holy and immortal.

She stepped on the void, and every step she took, a lotus flower condensed out, and finally turned into thousands of white lotus flowers, flying towards the master of the angel race.

"Break it for me!"

The masters of the angel race yelled, the angel war sword exploded, and thousands of sword anger burst out, colliding with the white lotus, and splitting each white lotus in half.

"Xie Nianjun is not an opponent!"

Lu Ming's heart moved.

Xie Nianjun's cultivation is very strong, and he has reached the fourth stage of the Divine Lord.

As expected, she has been cultivating in the depths of the ruins of the universe, coupled with the fusion of the memories of her two lives, and the speed of her practice is indeed amazing. Lu Ming has gotten an adventure, and now only has the threefold divine master, while Xie Nianjun has reached the fourfold divine master.

However, the Divine Lord's Quadruple and the Angel Race's powerhouses are also completely different from the triple cultivation base. Although Xie Nianjun is very enchanting, he is not the opponent of the other party.

The two got a few moves right, Xie Nianjun backed away again and again.

"Take the two of you together!"

The strong men of the angel race yelled, their swords crisscrossed, and they kept slashing towards Xie Nianjun.

"Feixian a sword!"

Xie Nianjun drank lightly. Thousands of lotus flowers formed a river of long swords, like flying immortals outside the sky, coming from the void, and with a touch, they actually knocked out the angel war sword of the strong angel clan.

"Good opportunity, ball, hands!"

Lu Ming let out a low shout, and displayed the sky-breaking style. The man and the spear were unified, turning into a bright spear light, and stabbing the angel clan master.

The ball turned into a mirror, and a beam of light was shot out, covering the strong angels in it.

The strong man of the angel race had a momentary trance in his eyes.

This is enough!

Lu Ming was like a flash of lightning, his spear pierced the eyebrows of the strong angel race.

Roar!

At the critical moment, the strong angel clan seemed to feel the danger, and with a roar, the violent power rushed out like a tide.

Hum!

The powerful force impacted on the God of War Spear, causing the God of War Spear to constantly vibrate, and the forward momentum was abruptly blocked.

"origin!"

Lu Ming's thoughts moved, and the power of the original source ran, rushing into the God of War Spear and burst out, triggering the power of the God of War Spear. Instantly, the power of the God of War Spear increased greatly, breaking the power of the strong angel race, and continuing to stab forward.

"how is this possible?"

The strong angel clan roared, shocked in his heart.

Although he was affected by that beam of light just now, his spirit was in a trance, and when he hurriedly shot, the power naturally could not fully burst out.

But it should be more than enough to block or even knock Lu Ming into flight, but he did not expect that Lu Ming's attack power would suddenly increase.

No way, at the critical moment, the strong angels can only use his angel wings to stand in front of them.

puff!

The God of War spear pierced two angel wings in succession, feathers flying and blood flowing.

However, the opponent also blocked Lu Ming's attack with this.

However, there was not only Lu Ming at the scene, but also Xie Nianjun.

How could Xie Nianjun miss this opportunity.

"Feixian a sword!"

A sweet drink rang, a sword light like a flying fairy from the sky, piercing towards the strong angels.

The next moment, the strong man of the angel race flew out.

One of his wings was cut off abruptly, feathers flying, blood splattered.

Not only that, but a deep wound appeared on this person's chest, almost splitting his body in half.

He vomited a few mouthfuls of blood, his face was pale, but his eyes were murderous with resentment.

"You guys, wait for me!"

The strong man of the angel clan roared and flew to the rear, disappearing without a trace in an instant.

Xie Nianjun and Lu Ming did not pursue them.

Xie Nianjun didn't pursue it, and Lu Ming naturally wouldn't pursue it. He wasn't familiar with this place, but he didn't want to pursue it to the den of Tiangong.

"Xie Nianjun, don't come here unharmed."

Lu Ming smiled, his appearance and breath began to change, turning into Lu Ming's original appearance and breath.

"Sure enough it is you!"

Seeing Lu Ming, Xie Nianjun was not surprised.

With her ingenuity, she can guess one or two from the beginning.

"Remember, my name is Tang Jun, not Xie Nianjun."

Xie Nianjun, no, it should be Tang Jun, and added another sentence.

Lu Ming touched his nose speechlessly.

Sure enough, Xie Nianqing and Xie Nianjun are in completely different states.

Although both of them have merged the memories of the two lives, their methods are completely different.

Xie Nianjun is the memory of the previous life that takes the initiative and swallows the memory of this life. Therefore, the essence of Xie Nianjun is the previous life, Tang Jun.

And Xie Nianqing, it is the memory of this life that takes the initiative and swallows the memory of the previous life, so Xie Nianqing is still Xie Nianqing of this life.

"Lu Ming, why did you run to the Qianqiu Battlefield alone?"

Tang Jun asked.

"I was venturing in the ruins of the universe and came here by accident."

Lu Ming said.

Tang Jun didn't delve into it, nodded and said: "Let's leave here first. This is at the junction between us and the Tiangong site. I'm afraid the opponent will have a master."

After speaking, Tang Jun turned around and left, Lu Ming followed.

"Lu Ming, if you are lucky, you just walked to the junction of the two sides. If you plunge into the territory occupied by the Tiangong, then you can only silently mourn for you."

Tang Jundao.

"I still have to thank you for your help, otherwise it will be difficult for me to get out."

Lu Ming chuckled and slapped flattery by the way.

He came to the Qianqiu Battlefield for the first time, and there are still many things to understand, so Tang Jun naturally depends.

Soon, the two came to a continent.

On the way, Lu Ming also asked some things and learned some things.

The Heaven Extinguishing Army and the Heavenly Palace each occupy a territory, and this area is the junction of the two territories, and both sides sent masters to sit and patrol.

Lu Ming had just walked to the area leaning towards Tiangong before and met the strong angel clan.

Fortunately, Tang Jun was also patrolling the surroundings and he heard the movement and killed him before he rescued Lu Ming.

"The Qianqiu battlefield is mainly based on the main continent, with a vast area, and around the main continent, there are many small continental fragments. On these small continental fragments, experts will be sent to patrol, mainly because they are afraid that the opponent's master will come from here. Side sneak attack, once you find that the opponent's master is sneaking, you can spread the news and let everyone prepare for defense." Tang Jun explained.

Chapter 4604: Power distribution

"Thanks...Tang Jun, can you tell me the specific situation of the swing battlefield now?"

Lu Ming asked.

"If you want to know the specific situation of the swing battlefield, look at the map first!"

After speaking, Tang Jun took out a jade talisman, the jade talisman glowed, and a map appeared in the air.

At the center of the map is a huge continent.

Lu Ming knew that this should be the main continent of Qianqiu Battlefield.

Around this continent, there are many small continental debris suspended.

"We Destroyed the Heavenly Army, occupying a small half of the territory in the south, and the Heavenly Palace, occupying the half of the territory in the north, do you see those white and red dots?"

Tang Jundao.

Lu Ming nodded.

On the swing battlefield, there are indeed some white and red dots.

The red dots on the south and the white dots on the north.

These red dots are connected by a red line, and the white dots are also connected by a white line.

"These points are the strongholds occupied by the two parties, the fortresses occupied."

"The main continent of the Qianqiu Battlefield has an extremely complicated terrain. Most of its territories are very dangerous. Those dark and fuzzy territories are dangerous territories."

Tang Jundao.

"So many dangerous territories."

Lu Ming was taken aback.

Because he found that most places on the main continent were pitch black, separated by red or white lines.

"Yes, Qianqiu Battlefield, as the name suggests, is an ancient battlefield. It is a terrible battlefield in the last epoch. I don't know how many strong people have died here. Those strong people don't know how strong they are. In short, even in the past. After endless years, this battlefield is still filled with terrible killing intent, condensing terrible evil spirits."

"Not only that, the Qianqiu Battlefield has also bred many insects. Many of these insects are terrifying. Especially these insects will become extremely violent and their combat power will skyrocket even if the Origin Realm enters these places. , All are in danger of falling, so these places are forbidden and cannot be easily entered."

"Of course, between these dangerous areas, there will be weak areas of evil spirit and killing intent. These places are relatively safer. The white or red lines you see are places where evil spirit and killing intent are weak. In this way, relatively safe passages have also been formed."

"The white or red dots are the safest places. They are often sandwiched between several dangerous areas. In this way, these safe areas have become important places and are the key points in the competition between the two parties. ."

Tang Jun explained in detail.

"That's it!"

Lu Ming nodded, he understood that those important lands were like the fortresses in the mortal kingdom.

For example, in the mortal kingdom, among the mountains and ridges, there is a passage, and a city is built on that passage, and that city is a fortress.

Because the mountains and ridges cannot pass, only pass through the fortress. Once the fortress is blocked, even if the opponent has thousands of troops, they cannot pass.

The white dots and red dots here are equivalent to fortresses.

The more fortresses occupied, the larger the occupied chassis.

And the white and red lines are the channels.

Lu Ming observed carefully and found that the chassis occupied by the Heavenly Palace was slightly more than that of the Exterminating Army, because there were more white spots.

"Those dangerous areas don't care about the dangers, but they contain endless opportunities. The main opportunities in the Qianqiu battlefield are in these dangerous areas."

Tang Jundao.

"Since these areas are so dangerous, there is a danger of falling from the strong source realm. How to find opportunities?"

Lu Ming asked.

"This is the key. Those areas are filled with terrible evil spirits and killing intent, but these evil intentions and evil auras do not always exist. Every once in a while, the evil spirit and killing intent of a certain area will subside. After a while, it will appear again."

"As long as the killing intent and evil spirits fade away, the bugs will not be so violent and not so terrible. At that time, they can enter these areas to explore. Over the years, from these areas, a lot of cultivation resources and treasures have been obtained."

"However, in each area, the time for the killing intent and the evil spirit to fade is different, and how long it fades is also different. This has to be determined specifically."

Tang Jun explained.

Lu Ming finally understood why the Celestial Army and Heavenly Palace had to occupy those fortresses. The more territory they occupied, the more resources they occupied.

As long as you occupy the territory in your hands, you can wait slowly. When the killing intent and evil spirit of a certain area fades, you can send people in to explore and obtain the resources inside.

Such as Honghuangjing, the materials for refining source-level magical weapons, even complete source-level magical weapons, and even treasures that contain the imprint of origin.

These resources, no matter to which party, are vital strategic resources.

The more resources you get, the more powerful people will be born.

As far as Lu Ming knew, the Qianqiu Battlefield was definitely a very important place in the last epoch. Otherwise, there would be no fierce battle here.

This area, in the prehistoric continent of the last epoch, was mostly a blessed land, and there were many powerful people who opened up caves in this area.

Therefore, any place in the entire Qianqiu battlefield may contain the cave mansion of a certain strong man in the last era, which contains great opportunities.

Over the years, the treasures that the two sides have obtained from the Qianqiu Battlefield have reached an astonishing level. Therefore, the two sides have invested more and more masters here.

"Those fortresses are areas where the two sides must compete. Occupy one more fortress, and you can occupy a vast chassis. Therefore, both sides have invested a lot of strong guards in these fortresses. In the fierce battle, of course, those who can guard and participate in the war here are almost all beings above the gods."

Tang Jun explained.

"It seems that whether it is the Heaven Extinguishing Army or the Heavenly Palace, the number of real masters is far beyond my imagination!"

Lu Ming sighed.

At the beginning, the Supreme Immortal City appeared, the Heaven Extinguishing Army and the Heavenly Palace, both dispatched a large number of divine masters, and those divine masters were mostly just a part of both sides.

Because there are a large number of strong men on both sides, fighting and confronting each other in the ruins of the universe.

For example, these masters on the Qianqiu Battlefield are inseparable. Once one party takes away a large number of masters, the other party will take the opportunity to counterattack and occupy a large area.

For the existence above the God Realm, the Qianqiu Battlefield is more important than the Supreme Immortal City, and the loss of Qianqiu Battlefield will cause greater losses.

And in the ruins of the universe, there is more than one place like Qianqiu Battlefield.

Therefore, Lu Ming couldn't figure out how strong the Heaven Extinguishing Army and the Heaven Palace were.

You know, Tiangong still has a dark universe to guard.

Chapter 4605: The top ten races

"There is also these continental fragments around the main continent. In order to fight for the territory, the two sides sometimes send people to attack from these peripheral continental fragments. Therefore, whether it is the fortresses or the surrounding continental fragments, there are strong guards! "

"I'm sitting on this piece of mainland fragments, taking turns. Everyone sits in town for a hundred years. You came here very coincidentally. After three days, I will sit in town for a hundred years. Then I will return to the main continent and take you there. The main continent."

Tang Jundao.

Lu Ming nodded, but his gaze fell on the center of the main continent.

In the center of the main continent, there is an area, dark and fuzzy, and it occupies a very large area, half of the main continent.

Moreover, in such a large area, there is no white or red line, nor any white or red dot.

But around this area, there are a little white or red dot around this area.

"This area is the core battlefield of the main continent. This area is very dangerous and terrifying. It is full of terrifying evil spirits and killing intent all year round, and it also breeds many terrible poisonous insects. When the evil energy and killing intent are flooded, even if it is There is only one dead end for the strong from the Origin Realm. There is a strong from the Origin Realm on the side of Zeng Today Palace, who was stung to death by a mosquito in the core battlefield."

Tang Jundao.

Lu Ming took a deep breath. The fact that Feihuang said that the strong man in the original realm was stung to death by mosquitoes, which happened on the battlefield of Qianqiu.

"Of course, danger is accompanied by opportunity. This core battlefield was the core place of the war in the last epoch. It also contains the most opportunities, source-level magic weapons, treasures with original imprints, top Qi training techniques, gods There are even more advanced treasures than the source-level \*\*\*\* soldiers, treasures that must fight desperately even in the source realm!"

"Every once in a while, the evil spirit and killing intent of the core battlefield will fade. At that time, a large number of powerful men from the two major forces will enter it to explore."

Tang Jun explained.

Lu Ming also showed a touch of emotion. In such places, if he gets some opportunities, he can benefit infinitely, and it is normal for his cultivation to advance by leaps and bounds.

Next, Lu Ming stayed here.

Three days passed in an instant.

Three days later, an old man came here.

This old man has a strong aura, and he is a divine master with seven layers of existence.

The most peculiar thing is that this old man looks similar to the human race, but has two heads, one has black skin and black hair, and the other has white skin and white hair.

"What race is this?"

Lu Ming muttered in his heart.

He had never seen such a race, nor had he heard of it.

"Senior Tianyue!"

Tang Jun gave the old man a fist.

"Don't call me senior, I should call you senior."

The old man named Tianyue shook his two heads.

He knew Tang Jun's identity, the daughter of Taboo Sword Ancestor, who was taller than him in terms of seniority and age.

"A hundred years have come, this continent will be handed over to the old man, Miss Tang Jun can return to the main continent!"

Tianyue Road.

After a hundred years, it is clear that Tianyue is here to take over.

Although Tian Yue looked at Lu Ming curiously, he didn't ask much.

"Then please!"

Tang Jun clasped his fists, and then left the continent with Lu Ming and flew towards the main continent.

"Are you curious about what race Tianyue comes from?"

On the way, Tang Jun asked suddenly.

I have to say that this woman is very intelligent, and she can see what Lu Ming is thinking at a glance.

"Yes, I'm very curious, I have never heard of such a look."

Lu Ming said.

"It's normal if you haven't heard, he is from the heaven and earth clan."

"In the long past, the heaven and earth clan was famous in the prehistoric universe, and it can be ranked in the top ten on the list of prehistoric races!"

Tang Jundao.

"Top Ten Races!"

Lu Ming was a little shocked.

"Yes, the top ten races. The Heaven and Earth Clan at its peak were extremely powerful, even stronger than the current Angel Clan, Blood Clan, etc., but in the end, the Heavenly Palace suspected that the

Heaven and Earth Clan had collusion with the Fate Soul Heavenly Court at that time, and dispatched masters to destroy them all Heaven and Earth Race."

"The prosperous Tiandi Clan was destroyed by this, and only a few Tiandi Clan survived, hiding in the dark, waiting for an opportunity to take revenge."

Tang Jun explained.

"It was destroyed by the Heavenly Palace again!"

Lu Ming's eyes contained cold light, and he thought of the Tianxin clan in the Tiangong Heaven Prison. At its peak, the top ten races of that era were also destroyed by the Tiangong.

"Throughout the long history of the primordial universe, there are not a few powerful races among the top ten races, but many of them were eventually destroyed in the hands of the heavenly palace. Those who survived by these races all hated the heavenly palace and wanted revenge, so in the end They all joined the Heaven Extinguishing Army, otherwise, how could the Heaven Extinguishing Army really fight against the Heavenly Palace? The birth of the Heavenly Extinguishing Army is also caused by the unrighteousness of the Heavenly Palace."

Tang Jundao.

Lu Ming nodded. He had always suspected that the Heaven Extinguishing Army was founded by the taboo sword ancestor Tang Feng and Feihuang. It has only been a few dozen stellar years, and how can its strength compete with the Heavenly Palace.

Now I finally understand.

Over the long years, Tiangong has set up too many enemies for itself, and there are not a few of the top ten races destroyed in history. These races have very strong talents. After years of dormancy and development, their strength cannot be underestimated.

These races have joined the Heaven Extinguishing Army, plus the descendants of the primitive gods and primitive gods left behind, as well as the top powerhouses such as Tang Feng and Fei Huang. Their strength is already very terrifying. Only in this way can they compete with the Heavenly Palace. Long time.

"On the Qianqiu Battlefield, you can still see other Zengjin's top ten races."

Tang Jun smiled.

Soon, they came to a fortress on the main continent.

In the main continent, you can't fly randomly. You must pass through those fortresses and walk along the areas with weak killing intent and evil spirits. If you accidentally enter those areas full of killing intent and evil spirits, it will be very dangerous.

Starting from this fortress, we passed several fortresses along the way, and finally came to a giant city.

This huge city is very old and is said to be left over from the last era.

The wall has been made of peculiar rocks and is extremely hard. Even the strong of the Origin Realm would have to work hard to break it.

Here, it has become the most important fortress of the Heaven Extinguishing Army in the Qianqiu Battlefield. Here, there are also a large number of masters. Once a fortress is attacked by the Heavenly Palace, it can immediately send strong support.

"Many strong people!"

As soon as he arrived in this ancient city, Lu Ming felt tremendous pressure.

Because, he felt that there was a terrible atmosphere everywhere in this ancient city.

These breaths came from masters, most of them were from the Divine Master Realm. Lu Ming carefully felt that there were hundreds of breaths from the Divine Master Realm.

Some auras are extremely terrifying, not weaker than the existence of Tiangong Tianjun level.

However, I didn't feel the aura of the Origin Realm, which was natural. The existence of the Origin Realm had to hide the aura, and naturally it was not something Lu Ming could sense.

Chapter 4606: The story of Jianzu

"Lu Ming, come with me, I will introduce someone for you."

Tang Jun led Lu Ming and walked in one direction.

Lu Ming was a little curious, Tang Jun wanted to introduce him specially, who was it?

Soon, they came to another courtyard.

The other yard is small, and there is a man in it, with his back facing them, fishing in a small pond.

"You came!"

This person obviously sensed Lu Ming and Tang Jun, got up and then turned around.

"You are... the forbidden sword ancestor!"

When he saw this person, Lu Ming's pupils suddenly shrank, and he couldn't help but exclaim.

Tang Feng, the forbidden sword ancestor, is a legend in the Exterminating Army.

Although most people have not seen his real person, they have seen his portraits and statues.

Lu Ming had naturally seen it.

This person's appearance was almost exactly the same as Tang Feng, the forbidden sword ancestor, so Lu Ming exclaimed.

Could it be that Tang Feng, the forbidden sword ancestor, is in this Qianqiu battlefield?

"No, no, not the same, there are some differences in facial features..."

Slowly, Lu Ming calmed down. He found that this young man in his twenties was very similar to Tang Feng, the forbidden sword ancestor, but there was still a slight difference.

If it were ordinary mortals, it might not be easy to find out, but for experts like Lu Ming, any subtle difference could not escape their eyes.

"He is not my father, his name is Tang Xiao, he is my brother!"

Aside, Tang Jun transmitted to Lu Ming.

Lu Ming suddenly realized that this person was the son of Taboo Jianzu, the brother of Tang Jun and Xie Nianqing.

"Are you Lu Ming?"

Tang Xiao looked at Lu Ming like two stars, as if he wanted to see Lu Ming through.

"Yes!"

Lu Ming clasped his fists and wanted to make a polite remark, but he didn't know where to start. The main thing was that Tang Xiao had been calm and unhappy, and he abruptly held back the following words.

"Forbidden Body, your talent is good, but it is worthy of Xiaoqing, but the cultivation base is too low, you must raise the cultivation base as soon as possible!"

Tang smiled and said, when he spoke, he still had a calm face without a smile.

"Yes!"

Lu Ming clasped his fist.

After all, this is a senior who has lived for dozens of stellar years and is Xie Nianqing's brother. Even if his attitude is unpleasant, Lu Ming can only pretend not to see it.

Moreover, the feeling that Tang Xiao gave to Lu Ming was unfathomable, as if it were a bottomless pit, unable to detect it.

Lu Ming knew that Tang Xiao was mostly an original state.

Lu Ming had no choice but to cast his sights on the five-body admired Tang Feng, the forbidden sword ancestor.

Naturally, Tang Feng's own cultivation base needless to say, and I don't know where it is.

And some of his juniors are too strong one by one.

Lu Ming knew now that Tang Feng had three disciples, the first Heavenly Sword, the second Divine Sword, and the Third Demon Sword, all of which existed in the Origin Realm.

Tang Xiao, Tang Feng's son, also exists in the Origin Realm.

As for the past lives of Xie Nianqing and Tang Jun, that was also the existence of Origin Realm.

The six younger generations are all in the original state. This level of teaching apprentices really made Lu Ming ashamed.

Thinking of his disciples, Lu Ming sighed in his heart.

"Second sister, take Lu Ming to familiarize yourself with the terrain and find a place for him to live. I have something else to do."

Tang Xiao said to Tang Jun, then returned to the pond and went fishing by himself.

"Lu Ming, let's go!"

Tang Jun blinked at Lu Ming, and the two of them left here.

"Lu Ming, do you think Tang Xiao is very uncomfortable?"

On the way, Tang Jun asked suddenly.

"This... this... kind of!"

Lu Ming squeaked.

After all, the other party is Xie Nianqing's elder brother, and he is indeed a little hard to speak, especially when he speaks badly behind his back.

"In fact, he has a cold face and a warm face. He is still very good. He was not like that before. He used to have the same name as his. He liked to laugh very much. Xiaoqing and I, and the Third Demon Sword, , I love to play with him, I found him to practice adventure together..."

Tang Jun said, sighed slightly.

"Then why now..."

Lu Ming was puzzled.

"It was because his mother, his mother, was killed by the Celestial Race, that caused his temperament to change drastically. From then on, without a smile, he just wanted to flatten the Heavenly Palace and get rid of the Celestial Race."

Tang Jundao.

"His mother, isn't it the mother of you and Xiaoqing?"

Lu Ming said in surprise.

"No, Xiaoqing and I have the same father and mother, but Tang Xiao is the same father and half mother. My father has two wives in his life, Gu Chenyue and Ye Xin. Tang Xiao's mother is Gu Chenyue. Xiaoqing and I's mother is Ye Xin."

"At the beginning, my father came out of the small world, and later my mother and them all came out of the small world and practiced all the way. Later, Dad embarked on the road to fight against the heavenly palace, but the process was extremely difficult. During the period, he was surrounded and killed by the heavenly palace many times."

"The price is also heavy. Auntie, Tang Xiao's mother, fell to the hands of the Celestial Race, and Xiaoqing's mother and I were also hit hard. For so many years, I have been put in a certain place by my father to heal. Exit."

Tang Jun explained, with deep sadness in his eyes.

Lu Ming's heart was also difficult to calm.

It's hard to imagine what Tang Feng, the forbidden sword ancestor, experienced after he walked out of the world, and that process was absolutely extremely difficult.

At the same time, Lu Ming was also fortunate that his family was fine during his adventure.

In fact, Lu Ming had good luck and was born in a good era.

At least, in this era, Tang Feng, Feihuang, etc., have become top masters and can give him shelter.

In the era when Tang Feng and Feihuang grew up, there was no top powerhouse to protect them.

In that era, the life soul heaven was long gone.

The Great Ancient God's Court has long been destroyed.

Primitive gods, as well as other powerful races that resisted the Heavenly Palace, couldn't shrink back, and the universe was the only one to dominate the Heavenly Palace.

It was really too difficult and too difficult to break through in that era.

Even Tang Feng, the taboo sword ancestor, could not protect his wife, one fell and the other was seriously injured.

"The fall of Auntie has dealt a big blow to Tang Xiao. From then on, there is no smile on his face, and Dad is determined to break through to the highest realm and bring Auntie back to life from the long river of reincarnation."

Tang Jundao.

"Can those who have fallen can be resurrected?"

Lu Ming was uncertain.

"Daddy once said that it can be done as long as the cultivation base reaches a very high level, but it is almost impossible to reach that level, and it is too difficult."

Tang Jun sighed.

Lu Ming also sighed in his heart.

Tang Feng, the ancestor of the taboo sword, was an outstanding man of a generation and a brilliant life, but behind this brilliance, I don't know how many sad past events were buried.

Soon after, the two came to another courtyard.

"I lived here before, during this time, you live here with me."

Tang Jundao.

"no problem."

Lu Ming nodded.

Chapter 4607: Divine Lord Fourfold, All Souls Zerg

"You live here first. If any area of evil spirit and killing intent fades, I'm asking you to go and meet the chance."

Tang Jundao.

The two said a few more words and went back to their rooms.

Back in the room, Lu Ming's heart was a little hard to calm down.

Astonishing talents like Tang Feng, the ancestor of the taboo sword, had suffered such a huge blow during the growth process, and even his wife could not be protected.

And he, with his current strength, is still far from being alone and fighting against the Heavenly Palace. In this process, will he also experience such an experience?

"No, I will never allow myself to repeat the mistakes of the forbidden sword ancestors. I will definitely master powerful forces as quickly as possible."

"Also, the human body is a shortcut. Once you have mastered it, you can step on the Tiangong to keep your loved ones safe. Don't miss it."

In Lu Ming's mind, thoughts poured in.

After a short while, Lu Ming gradually calmed down.

Then took out the prehistoric crystal and began to absorb refining.

The prehistoric crystal on his body is about 117,000 yuan, which is enough for him to break through the fourfold of the gods.

One by one, the prehistoric crystals were refined by Lu Ming, and Lu Ming's cultivation level rose rapidly, and the taboo in his body became stronger and stronger.

I have to say that it is good to condense the original seeds in advance, the direction is clear, you will not get lost, you don't need to spend time to understand the realm, find the direction, as long as there is energy, the cultivation base can be continuously improved.

In about ten days, Lu Ming had refined about 50,000 Yuan Huangjing, and his cultivation level finally broke through, reaching the fourth level of the Divine Master.

From the initial stage of the three-fold divine master to the initial stage of the four-fold divine master, a full 50,000 yuan was spent.

This amount is absolutely amazing.

At the same time, Lu Ming smiled bitterly in his heart.

Then from the four-fold breakthrough of the divine master to the five-fold divine master, wouldn't it require more than 500,000 crystals.

Lu Ming's head was big for a while.

Five hundred thousand, even if all the prehistoric crystals in the Ancestral Mountains of the Star Continent were emptied, they would not be able to make up that much.

"There are still more than 60,000 primordial crystals left, let's refining them together, they can improve their cultivation base and strength a little bit."

Lu Ming whispered, then took out the Honghuangjing and continued to refine it.

A few days later, Lu Ming refined another 10,000 yuan of prehistoric crystals, and his cultivation was completely consolidated in the fourth layer of the gods.

At this moment, he found that Tang Jun was looking for him.

Lu Ming finished his training, walked out of the room, and saw Tang Jun standing in the other courtyard, standing tall and graceful.

If it wasn't for the temperament that was different from Xie Nianqing, and the dress was completely different, he would think it was Xie Nianqing.

The two people looked exactly the same.

"If Tang Jun also became my wife and served me with Xiaoqing, wouldn't it be beautiful?"

"Bah, Lu Ming, what do you think, it's really shameless."

Lu Ming slapped his face, fanning the flash of thought in his mind.

"Why are you smoking your face?"

Tang Jun looked at Lu Ming's eyes like a fool.

"No, nothing, just hit the mosquitoes, bah, dead mosquitoes..."

Lu Ming made an awkward excuse.

Tang Jun looked at Lu Ming weirdly. With such an inferior excuse, she would naturally not believe that when they reached their level, what mosquitoes could get close without being spotted in advance?

"Your cultivation level has actually broken through again!"

Tang Jun looked at Lu Ming for a while like a fool, suddenly his eyes flashed and he was shocked.

"Haha, yes, on the way here, I met a great opportunity and obtained some prehistoric crystals. I was able to break through by refining a large number of prehistoric crystals before."

Lu Ming answered quickly, sighing inwardly. If Tang Jun knew what was in his mind, he might be cut off.

"You boy, you are really lucky, but the deeper your luck, the better. There is an area where the killing intent and evil spirits have faded. I plan to work with you to try your luck. I hope you can bring good luck."

Tang Jundao.

"Okay, just what I want!"

Lu Ming said.

Since the Qianqiu Battlefield is here, there is no reason to keep nesting, and if you keep nesting, you can't get resources, how can you improve your cultivation?

Moreover, other parts of the human king's body are likely to be on the battlefield of Qianqiu, so Lu Ming naturally wanted to walk around.

"The area we are going to is called the Ghost Forest. Although the evil spirit and killing intent have faded, there are still all kinds of terrible bugs. So we still need a helper. I will take you to meet someone. He is about this trip. , Very helpful, and also my previous partner for exploring the Qianqiu Battlefield."

Tang Jundao.

Lu Ming followed Tang Jun to the north, and saw an old man at the northern gate of the ancient city.

This old man looks very strange, with a human body and appearance, but on his forehead, there are two antennae, which are very similar to the antennae of an ant.

Moreover, on his back, there were six insect claws.

"What race is this?"

Lu Ming muttered in his heart, another race he had never seen or heard of.

"Lu Ming, his name is Lin Ye, he is a member of the Ten Thousand Spirits Zerg, you may not have heard of the Ten Thousand Spirits Zerg, but in the long past, he was known as the Great Universe, and he was one of the top ten races of that era."

Tang Jun introduced.

"Sure enough, they are the top ten races that have disappeared."

Lu Ming's heart moved.

Needless to say, it is also known that the Ten Thousand Spirits Zerg was also destroyed by the Heavenly Palace, and only a few people remained.

"You are the Taboo Body Lu Ming, haha, I didn't expect the old man to be able to cooperate with the Taboo Body. I hope to use your luck to let the old man make a fortune, haha!"

Lin Ye laughed, very bold.

"Senior is polite. Lu Ming just arrived, and he still needs guidance from senior."

Lu Ming said politely.

"Lu Ming, you are not wrong on this point. Lin Ye is very talented and knows the habits of all kinds of insects. Moreover, he can sense the insects when they are far away. It is very helpful in the ghost forest."

Tang Jundao.

"Haha, girl Tang, don't praise me. If you praise the old man, I'm going to float away."

Lin Ye laughed.

The two sides talked a few words, they were familiar with each other, and then they left thinking about the north.

With the ghost forest in the north, they need to cross the other two fortresses and start from the third fortress.

Soon, they crossed the two fortresses and then entered the area of the ghost forest.

In the ghost forest, there are dark ancient trees, old vines, and weeds everywhere, very dense.

In the dense forest, there are all kinds of weird bugs everywhere.

These insects are strong or weak, some are extremely violent, some are bloodthirsty, and some are highly poisonous, especially when they are killing intent and evil spirits, they can become very scary.

Even if the killing intent and evil spirit faded, Lu Ming and others dare not be careless.

The three of them condensed their breath and flew along low altitude in the dense forest.

Chapter 4608: Tens of billions of bugs

In the Qianqiu battlefield, next to the ground, flying at low altitude is the safest, while flying at high altitude is the most dangerous.

Flying high in the sky is like a live target, which will be targeted by countless bugs and will be attacked by countless bugs.

This is summed up by the ancestors with blood lessons.

If it is not a last resort, never fly high.

While flying, Lin Ye's two tentacles kept shaking. Lu Ming carefully sensed it, and could feel that in the two tentacles of Lin Ye, invisible ripples constantly filled out.

"There is a group of poisonous insects 30,000 miles in front of the left, which is highly poisonous!"

"There are a thousand blade insects directly in front of 60,000 miles. There are a lot of them. Let's avoid them."

.....

Lin Ye spoke from time to time, and then led Lu Ming and Tang Jun to the right and then straight, avoiding the bugs accurately every time.

This made Lu Ming sigh. It was so comfortable to take a person from the All-Spirit Zerg on the Qianqiu Battlefield, and to avoid many dangers.

What Lu Ming didn't know was that the number of Wanling Zergs was very rare, and even fewer of them reached the Divine Master Realm.

In the Qianqiu Battlefield, it is not easy to find an All Souls Zerg to cooperate. Every All Souls Zerg is sweet steamed bun.

Tang Jun, because he is the daughter of Taboo Sword Ancestor, and because he is extremely proud and powerful, can he find Lin Ye to cooperate.

Within a few hours, the three of Lu Ming traveled tens of millions of miles.

"Lu Ming, let's first go to a cave. The cave was explored last time by Lin Ye and I. Unfortunately, only halfway through the exploration, and there is no time. I hurriedly retreat. This time, we will explore the other half, that cave. There are definitely a lot of good things."

Tang Jundao.

Lu Ming nodded. In the Qianqiu battlefield, there is a rule that must be followed.

That is, once the evil spirit and murderous intent re-emerged, we must retreat in time.

Otherwise, I don't know how to die.

However, the time when the evil spirit and the killing intent disappear is not fixed, and no one knows how long it will disappear. Maybe one day, maybe one year, it's hard to tell.

Therefore, once you find that the killing intent and evil spirits are re-emerging, you must retreat in time, even if you encounter the cave house left by the strong in the last era, you must retreat in time.

Tang Jun and Lin Ye found a cave house left by a strong man in the last era. Halfway through their exploration, they found that killing intent and evil spirits tended to re-emerge. They could only leave the cave house half-explored and hurriedly retreated. .

Over the years, the two of them have been thinking about it. This time they came in, first of all to explore the cave.

With Lin Ye leading the way, they could avoid those bugs. They were fast, and within a few hours, they approached the cave.

"Here, the entrance to that cave mansion is very secretive, right in the thick grass in front."

Tang Jun's introduction in a low voice.

"It's really secretive!"

Lu Ming muttered in his heart.

The front is full of dense grass and dark old vines. The area in front is covered with airtight, where can I see any entrance.

"Let's go!"

Lin Ye said, after finishing speaking, Lin Ye's body shrank quickly, and finally turned into a burst of green smoke, drifting towards the dense grass.

Afterwards, Tang Jun and Lu Ming learned the same way, and turned into a plume of smoke, floating forward.

At their level, the body can change arbitrarily, turning into a plume of smoke, it is too simple.

Qingyan flew into the grass, and not long after, Lu Ming saw a small gap under the ground. It is not easy to find if you don't look closely.

"This is the entrance of that cave house, let's go in!"

Tang Jundao.

The three of them flew into the crack and kept going down, and finally came to a wide underground space.

The three of them turned into their original form and looked around.

"Not good, dangerous!"

Suddenly, Lin Ye roared, and a layer of divine light immediately appeared on the surface of his body, covering him.

Lu Ming and Tang Jun reacted very quickly, and their spiritual perceptions were extremely sharp. Before Lin Ye's voice could fall, Lu Ming and Tang Jun had already felt the danger, and they were subconsciously laying around their bodies. A layer of defense.

next moment...

Ding! Ding! Ding...

The body guard divine light around the three of them vibrated violently, making a sound of golden and iron strikes.

"This is... a bug!"

Lu Ming's eyes narrowed.

He found that it was a kind of bug that attacked them, but this kind of bug was too small, ten thousand times thinner than a hair, and ordinary people couldn't see it at all. Even Lu Ming and the others had to concentrate to see it.

This kind of insects, like roots and tiny needles, are constantly rushing towards them, stabbing them, densely packed, I don't know how many.

Lu Ming felt that Lu Ming had been attacked millions of times in an instant.

This kind of insect has insufficient power alone, but there are too many of them. All of a sudden, millions of them hit Lu Ming's body. Although they did not pierce Lu Ming's defenses, the huge force that struck together still drove Lu Ming into flight. Went out and hit the wall hard.

Tang Jun and Lin Ye, too, were also rushed out and hit the wall, their faces a little pale.

"No, it's the Tianxu worm. The Tianxu worm is too small and silent. I can't feel it. There was no such worm here last time. How come there are so many this time."

Lin Ye exclaimed.

At this time, countless sky beetles rushed towards the three.

"No matter what, since we have encountered it, we can only kill it. Use fire to attack, and the sky beetle is afraid of fire!"

Tang Jundao, around her body, was enveloped by layers of power, and at the same time, white lotus flowers appeared, and then these lotus flowers burned and turned into flame lotus.

bump! bump! bump! ...

The flame lotus exploded continuously, turning into a billowing flame, impacting in all directions.

And Lin Ye took out a fiery red lamp, opened his mouth and blew, the flame in the lamp, like a volcanic eruption, turned into a monstrous flame and rushed forward.

"Great Flame, Great Pyroblast..."

Lu Ming instantly displayed dozens of ancient mysteries related to flames. The monstrous flames erupted, and at least millions of beardworms were enveloped in an instant.

After these sky beard worms were enveloped in flames, their tiny bodies continued to twist, and finally burned and turned into ashes.

A large number of sky beetles were burned, and after a while, all the sky beetles in this area were burned out and wiped out.

The three of them breathed a sigh of relief.

"Fortunately, there are not many worms that appeared this time, only tens of millions. I heard that there were tens of billions of worms who were dispatched together.

Lin Ye was a little scared.

"Tens of billions..."

Lu Ming took a deep breath.

Chapter 4609: Only crumbs left

A single sky beetle may not be terrible, but if tens of billions of sky beetle attacked together, that huge power might be able to smash Lu Ming instantly.

"It seems that this cave has been invaded by insects, and we must proceed with caution in the future."

Tang Jundao.

Lin Ye and Lu Ming nodded.

The two tentacles of Lin Ye tremble constantly, emitting invisible fluctuations.

Lu Ming looked around.

The place where they are located is a wide stone chamber with passages in every direction.

At a glance, there are four channels in total.

"Last time, we finished exploring the two channels on the right, and the two channels on the left were not explored. Now, let's start exploring from the channel on the left."

Tang Jundao.

"Be careful, I feel that there is a bug behind the passage, but I can't sense what it is."

Lin Ye said.

"No matter what, I have to take a trip!"

Tang Jundao.

Immediately, the three of them walked towards one of the passages.

The three people move forward with the finished font, and if there is a problem, they can join hands instantly.

Soon, the passage came to an end. At the end of the passage, there was a huge cave.

Squeak...

When the three of Lu Ming first stepped into this cave, there was a huge bug that rushed towards the three of Lu Ming.

The wind was violent, the smell of fish was pungent, and a few sharp vigors slashed towards Lu Chong, the power was amazing.

Lu Ming took out the God of War Spear and swept it out.

Dangdang!

A few jets of black knife light, no, it was not a knife light, it was clearly the claws of insects, slashing on the God of War Spear, making the God of War Spear vibrate endlessly.

Lu Ming's arm was also slightly numb.

You know, Lu Ming has now reached the fourth level of the Divine Lord, and his strength has skyrocketed.

With Lu Ming's current strength, even facing a strong man like Ye Ling Tianshou alone, he could fight a battle, but his arms were numb when he was shaken. Such attacks were very shocking.

On the other side, Tang Jun and Lin Ye were also attacked. The two were even more embarrassed. Although they blocked the attack, their bodies retreated violently.

Jun Tang is also the fourfold cultivation base of the Divine Lord.

Although Tang Jun had memories of his previous life, and he was originally a man of heaven, he was even stronger than Xie Nianqing in the first battle at the same level.

However, compared to Lu Ming, it was still a bit worse.

And Lin Ye, the cultivation base of the six-fold peak of the Divine Lord, and the Ten Thousand Spirits Zerg race in the long past, are naturally also powerful.

It can be said that the former top ten races are more talented than the current top ten races.

Because the current top ten races, placed in the long past, may not be eligible to enter the top ten races at all. Only the previous top ten races have been wiped out, and those races that are ranked lower can have a chance to enter the top ten races.

For example, the angel race, the blood race, the demon race, the Buddha race, etc., are all in the back. At the earliest, these races could not enter the top ten.

Since ancient times, there has been only one among the top ten, and that is the Yaxian.

And it has always been ranked number one, so thunderous.

Therefore, Lin Ye's talent is absolutely not said to be stronger than the current top ten races. Although he only has the cultivation base of the Divine Master Sixth Layer, his combat power is very powerful, not weaker than Tang Jun.

You know, like Tang Jun, there are few talents in the entire universe, including the Celestial Race.

Squeak...

The shrill cry rang again.

The sharp sound of breaking through the sky pierced the void and slashed towards the three of Lu Ming.

At this time, Lu Ming finally saw what was attacking them.

It was a huge insect, which looked like a centipede, with dozens of sharp claws on its abdomen.

The claws were sharper than the blades, and Lu Ming was to be torn apart.

boom!

A powerful breath erupted from Lu Ming, and the Zhanzi Jue was eight times more powerful, triggering it.

"Break me!"

Lu Ming yelled, and the forbidden power continuously poured into the God of War Spear, then drew it out and collided with the insect's sharp claws.

boom! boom!

There were several roars in succession, and under Lu Ming's full attack, the insect's sharp claws couldn't bear it after all and burst into pieces.

The God of War spear kept on hitting the bug with its powerful force, and the huge bug flew out and hit the wall of the cave.

The wall was shook with a loud rumbling, and a large hole was exploded on the body of the insect, and green liquid was constantly flowing out.

"What a powerful force, is this a taboo body? The combat power is really amazing."

Lin Ye looked at Lu Ming in shock, and was startled by Lu Ming's strength.

He had fought against that insect just now. He knew the strength of that insect very well. It was a bit stronger than him, but it was crushed by Lu Ming.

Originally thought that Tang Jun was a rare evildoer in the world, and no one in the universe could compare to Tang Jun. He originally thought that even if it was a taboo body, it would not surpass Tang Jun.

But thinking about it now, he was wrong.

The taboo body is really terrifying.

"Shoot together!"

Tang Jun drank softly, turning into a sword light, like a flying fairy from the sky, stabbing the insect's wound that was smashed by Lu Ming.

Lin Ye also reacted. His six insect-like arms pierced the void, like six spears, and also pierced the insect's wound.

The attack of the two people blasted like a bug in the wound, and the terrible energy raged in the bug's body, continuously exploding, from the inside out, and finally killed the bug.

In this cave, there is nothing else but this bug.

"There are some metal scraps here, left by this bug."

Tang Jun observed it on the ground.

Lu Ming also noticed that some metal scattered on the ground was small, golden yellow, and very small.

Lin Ye picked up some crumbs and put them in his mouth to taste, and said, "This is... the crumbs left by the Sacred Heart Gold. It's a pity that most of the Sacred Heart Gold was eaten by this bug. Now, this is the crumbs left by it chewing the Sacred Heart Gold..."

Lu Ming and Tang Jun also sighed, secretly saying it's a pity.

Sacred Heart Gold, a top-level metal material, is also the main material for refining source-level magic weapons.

This kind of magical material is extremely rare and precious, but it is really a pity that it was eaten by a bug.

"Let's go and take a look at another passage."

Lin Ye said.

Immediately, the three of them retreated and headed for the last passage that had not been explored.

"Originally, these passages all had rune formations. It was not that simple to enter, but now they are all gone. Obviously it was destroyed by bugs. There must be bugs in this passage."

Tang Jundao.

"Yes, I feel it too, and the breath is different from the previous one. Be careful, I feel very dangerous."

Lin Ye said.

Hearing Lin Ye's words, Lu Ming and Tang Jun didn't dare to take care of them, and they turned their power to the extreme, ready to fight at any time.

Soon, the three people reached the end of the passage.

Click, click...

As soon as they came here, they heard the sound of clicking and saw a huge bug chewing on something.

Chapter 4610: Only weakness

This worm was very strange, covered with thick scales, and the elders around the body had eight long claws, like a giant spider.

Moreover, it has a big mouth full of fangs, and the click sound is heard from its mouth, because this insect is gnawing on a magic weapon.

It seemed to be a war sword, with a tip of the sword falling to the ground.

"Source-level magic weapon!"

The three of them felt that this worm-grabbing weapon was definitely a source-level magic weapon, but I didn't know whether it was a broken source-level magic weapon or intact. If it were intact, it would be a pity.

At this moment, the worm's big blood-red eyes looked at the three of Lu Ming.

"Damn it, dare to eat with me, I will kill you!"

It was the ball that yelled. He saw a bug eating the source-level magic weapon. He couldn't help it. He rushed out of Lu Ming's wrist, turned into a halberd, and slashed down at the bug.

call out!

A sharp claw of that bug shot out like a spear and pierced the ball.

With a sudden sound, the halberd formed by the ball collided with a sharp claw of the insect, and a violent roar erupted. Then the body of the ball flew backwards and hit the wall, but the insect did not move.

"What a powerful force!"

Lu Ming's pupils shrank slightly.

The source-level magic weapon transformed by the ball was chopped off with full force and its power was amazing, but the opponent seemed to knock the ball into the air easily.

Si Si Si...

Then, the spider-like bug screamed and rushed towards the ball. The eight long legs were a hundred times sharper than the eight spears, and they stabbed the ball. This was to kill the ball in one fell swoop.

"roll!"

Lu Ming yelled, stepped out, his figure had already rushed out, and at the same time he triggered the Eightfold Combat Strength of the Zhanzi Jue. The God of War Spear appeared in his hand, piercing the spear, and stabbed eight spears, eight spear lights, and spider. The eight claws burst into continuous collision.

The God of War spear kept shaking, and Lu Ming felt a powerful force surge, and his body couldn't help backing back again and again.

But in the end, this spider-like insect was blocked.

"So strong, stronger than the previous one..."

Lu Ming was secretly surprised.

Just encountering a few insects at random, it is actually so difficult to deal with, it is conceivable that if the killing intent and evil aura are filled, these insects will be powerful with the help of the killing intent and evil aura.

No wonder it is too dangerous to not be able to enter on the day when the killing intent and evil spirits are permeated.

Sisi...

Seeing that its attack was blocked by Lu Ming, the spider-like insect seemed to be furious, screamed, and its eight sharp claws danced wildly, killing Lu Ming.

"Be careful, this is a spirit-thirsty spider, indestructible, with amazing eight-legged attack power, invincible!"

Lin Ye called out and rushed out with Tang Jun, attacking from the side.

However, their attack fell on the spider, but was blocked by the thick scale armor.

Lu Ming and Qiuqiu flickered, and moved sideways, avoiding the attack of the eight-legged spirit spider. The eight-legged spider retreated into the wall and directly pierced the hard wall into eight holes.

"Give me the illusion!"

The ball yelled, and the body turned into a mirror, shooting out a beam of light, covering the spider, but the spider seemed to be unaffected, and the huge body bounced and continued to slaughter the ball.

Lu Ming's face sank, the God of War spear flew out, like a bolt of lightning, and it pierced one of the spider's eyes, but it was blocked by one of the spider's legs, and the God of War spear flew out.

"Honghuang!"

Lu Ming yelled, the prehistoric condensed, a huge continent formed, suppressed.

boom!

The Primordial Continent slammed into the ground, pressing the spirit-thirsty spider to the ground.

But then, the mainland burst into a roar, cracks appeared on it, and the spirit-thirsty spider rushed out.

However, when the Primordial Continent was suppressed, Lu Ming's figure had already rushed out, grabbed the God of War gun, and pierced the spirit-thirsty spider's abdomen.

At the same time, Tang Jun and Lin Ye also launched an attack, coupled with Lu Ming's attack, three sharp attacks, stabbed at three different positions of the spirit-thirsty spider.

when! when! when!

As if pierced on solid and immortal metal, neither Tang Jun Linye nor Lu Ming pierced the attack of the spirit-thirsty spider.

On the contrary, it caused the spirit-thirsty spider to glow. The long legs were like eight sickles, and they slashed towards the three of Lu Ming, who retreated sharply, avoiding the attack of the spirit-thirsty spider.

"The defense is too strong to be pierced at all!"

Lu Ming said solemnly.

Common spider-shaped wild beasts and other animals have weak points in their abdomen, which can be easily pierced.

But the spirit-thirsty spider is not the same. Its abdomen is no different from other places. It is also covered with thick scale armor, it can't penetrate at all, and its defense is amazing.

"Spiritual spiders have only one weakness in their whole body, and that is in the position of its jaw, but it is too difficult to hit the position of the jaw. His eight long legs always protect the position of the jaw. As soon as an attack approaches, it will be bounced away and won't hit at all."

Lin Ye said.

"Lin Ye, what can you do? You are a master of the All-Spirit Zerg, don't you know all kinds of bugs?"

Tang Jun asked.

When several people communicated, the spirit-thirsty spider quickly rushed towards the others, and everyone joined forces to confront the spirit-thirsty spider, blocking the attack of the spirit-thirsty spider.

Communicate with each other while fighting with spirit-thirsty spiders.

"If you cooperate with me, you are looking for the right person. Block it first, and I will deal with it!"

Lin Ye said, backing quickly.

Lu Ming and Tang Jun shot the ball with all their strength and entangled the spirit addiction spider.

Lu Ming continued to use the prehistoric style, and the suppression of continent after continent slowed down the speed of spiritual spiders.

And Lin Ye started to take action.

With a wave of his hand, there were many more bottles and cans in the air. From these bottles and cans, he took out many kinds of herbs.

Opening his mouth, a ray of flame appeared, covering many kinds of herbs and starting to burn.

In the next moment, a strange fragrance appeared, drifting throughout the cave.

"This kind of strange fragrance is fine for us, but it is equivalent to poison to the spirit-thirsty spider. Its power will soon weaken, and then seize the opportunity to attack his vitals!"

Lin Ye transmitted to Lu Ming and Tang Jun.

Lu Ming and Tang Jun's spirits were shocked, and they entangled the psychic spider even harder.

Sure enough, after a while, the power of the spiritual spider became weaker and weaker.

The eight long legs, which were originally astonishingly powerful, were full of threats to Lu Ming and others, but gradually became weak and weak, and they did not constitute a fatal threat to Lu Ming and others.

However, the effect of that strange fragrance seems to be limited. When the spiritual spider is weak to a certain point, it will no longer continue to be weak.

But this is enough.
