

D Emperor 4631

Chapter 4631: Twins

The Celestial Race, one of the twins, stared at Lu Ming viciously, like a beast, as if to tear Lu Ming apart.

Lu Ming's move just now made him very uncomfortable. He had more than a dozen bones broken, his internal organs were injured, and his injuries were serious.

He was actually injured in the hands of a five-fold divine master, which is a great shame.

"Boy, I will tear you apart!"

The other party roared, his face grim.

"I'll give you blessings!"

At this time, the young woman of the Celestial Race who had not made a move spoke up. Before the voice fell, her hands quickly formed seals, and then, on top of her head, a huge round of formations made up of countless runes was suspended. Out.

Hum!

This formation shook slightly, and in the next moment, a formation emerged above the head of the old man with a waxy face, the middle-aged woman, the blood family, and one of the twin brothers.

The formation exudes milky white light, and the light falls on everyone. At this moment, everyone's breath suddenly rises.

The four masters in Tiangong seemed to be beaten with blood, and their breath continued to surge, becoming stronger and stronger.

boom!

Mo Chang was actually not low, and he backed back again and again after being hit by the opponent.

But Tang Jun and Rong Gong, who had the upper hand, were actually taken over by the reversal, and suppressed by the other side.

"Boy, die to me!"

The twins' second brother howled, holding a battle axe, and screamed at Lu crazy.

The two powers of the strongest sky whizzed, gathered in the battle axe, and turned into the sky axe shadow.

"Honghuang!"

Lu Ming once again condensed the prehistoric style, a continent formed, and fell toward the other side's suppression.

"Drive me!"

The opponent roared, and the battle axe smashed into the mainland. The mainland was trembling, and cracks appeared immediately, and then burst open.

However, the opponent's body shape was only slightly hindered, and he continued to cry for Lu.

Hum!

The God of War spear vibrated and pierced continuously, intersecting with the battle axe.

when! when! when...

In an instant, the two sides fought dozens of moves, and the twin brother's offensive was blocked and retreated.

But Lu Ming also suffered a severe shock and drifted back.

"What a strong power, his power has at least doubled from before."

Lu Ming's eyes condensed, his face a bit solemn.

His gaze glanced at the young woman of the Celestial Race, and then at the rune formation above the second brother's head.

Obviously, because of this formation, the second brother, as well as other masters in Tiangong, have greatly increased their strength.

This can actually bless strength, this kind of ability is a bit scary.

When the realm is relatively low, there will indeed be some assistant talents. This kind of person is not good at fighting, but the assistant is invincible, can give people blessings and enhance others' combat power.

However, the higher the level, the harder it is to bless.

Not to mention reaching the Divine Master Realm.

Wanting to increase the combat power of a Divine Master Realm's existence is simply harder.

This woman of the Celestial Race is definitely a talented person who is rare in the Celestial Race.

"Forbidden power, boy, the power you have is the power of taboo, you...you are Lu Ming!"

The second brother of the twins suddenly yelled.

After he and Lu Ming played a lot of tricks, he finally discovered that the power that Lu Ming controlled was a taboo power.

"what?"

"Forbidden power!"

Others were also trembling in their hearts, and then burst out cold murderous intent.

Lu Ming, it was actually Lu Ming, no wonder the combat power was so terrifying.

However, since it was Lu Ming, he should be eliminated and killed.

"Lu Ming, die for me, kill you, I will fly into the sky."

The twin brother's eyes were hot, and he stared at Lu Ming fiercely. The strongest heavenly power in his body exploded frantically, and he once again killed Lu Ming.

"kill!"

Lu Ming yelled, swung his gun up, and fought with each other. The two fought frantically. They fought for hundreds of tricks in a row, and there was no winner.

"Do you want to use the power of the source."

Lu Ming kept turning his thoughts in his heart.

The twins' eldest brother had never taken any action and guarded the young woman, but he always put great pressure on Lu Ming, which made him feel very dangerous.

In addition, Mo Chang and others are already completely at a disadvantage, especially Mo Chang, whose situation is precarious and will be killed by the opponent at any time.

Lu Ming wanted to use the power of his origin to defeat his second brother.

But he didn't make me be able to kill the opponent with one move. If the twins' brother joined the battle group without one move, the situation of the battle remained unchanged.

When Mochang is killed, the middle-aged woman frees her hands, making them even more dangerous.

Do you want to take out the king's arm?

But Lu Ming immediately dismissed the idea.

With the arm of the King of Humanity, Lu Ming is sure to kill these people in Tiangong, but the arm of the King of Humanity will be exposed.

According to the bronze box, once the human king's body is gathered, it can be used to sweep the world, arbitrarily and invincibly, and stepping down the heavenly palace is easy.

Such a terrifying human king's body is so precious that it is unimaginable.

The Four Great Treasures of the Life Soul Heavenly Court, or the other top treasures of the universe, are far beyond comparison.

Therefore, as long as the news about the human king's body is leaked out, it may cause a shocking disaster.

Lu Ming would never use it as a last resort.

So, what should we do now?

Suddenly, Lu Ming's eyes lit up and glanced at the young woman of the Celestial Race.

The root cause was still in this young woman.

As long as this woman is killed, without this woman's blessing, the battle of Tang Jun, Mo Chang, Rong Gong and others will come back.

when!

Lu Ming swung the God of War spear with all his strength and collided with the second brother's battle axe, and both of them retreated.

"It's now..."

Lu Ming's eyes flashed, and the great aurora technique was cast out, turning into an aurora, and rushing towards the young woman of the Celestial Race.

He tightly held the God of War Spear in his right hand, intending to activate the original supernatural power.

He knew that the eldest brother of the twins would never let him succeed easily, and would definitely stop him, he would explode with the original power, defeat the twin eldest brother in one fell swoop, and then kill the young woman of the Celestial Race.

Sure enough, the twin eldest brother stepped forward, his eyes bursting with murderous intent.

"Quadrupole Tianyu!"

Two cold shouts, sounded from the front and back of Lu Ming, and suddenly a terrifying force enveloped Lu Ming. At the same time, four huge pillars rose around Lu Ming's body.

These four pillars, in different colors, are actually composed of the strongest heavenly power.

The four pillars propped up a terrible field energy and enveloped Lu Ming.

"No, this is a combined attack!"

Lu Ming roared in his heart.

He has already seen that this is a combined attack by the twin brothers.

These two people each control two different Xeon Heavenly Powers, and together, there are four Xeon Heavenly Powers, almost the same as the Perfect Heavenly Power.

The four heavenly powers turned into a prison-like field energy, trapping Lu Ming in it.

Chapter 4632: Destroy Combination

"Break it for me!"

Lu Ming yelled, holding the God of War Spear in his hand, and continued to rush forward. The God of War spear pierced the space and pierced forward.

However, when the God of War Spear approached, between the two pillars, a wall of light emerged.

This light wall has four colors, which are clearly formed by the fusion of four strong heavenly powers.

boom!

The God of War spear pierced the light wall, and the violent vibration of the light wall produced a powerful counter-shock force, causing the God of War spear to vibrate continuously, and Lu Ming's body couldn't help but back again.

"It's so powerful, it can't be broken!"

Lu Ming's expression became gloomy.

"Hahaha, boy, I really can't help myself. With your strength, I want to break through the four-pole universe of our two brothers, and dream!"

Behind, the twins' second brother laughed.

"Now, it's our turn to attack, Lu Ming, die for me!"

The twins' eldest brother drank coldly.

Suddenly, more than a dozen sword lights appeared around Lu Ming.

These sword lights, all composed of four strong heavenly powers, whizzed out, assassinated towards Lu Ming.

Hum!

The God of War spear shook, and Lu Ming stabbed dozens of spear lights in succession, trying to block the sword light.

However, the speed of these sword lights was too fast, and they were so powerful that they exceeded Lu Ming's imagination.

Lu Ming didn't completely block him with all his strength. A sword light swept across his body, and a deep wound appeared.

The shoulder was also stabbed by a sword light, and a transparent hole appeared before and after.

Lu Ming was injured here, and the fighting situation of the others was also very bad.

Mo Chang is most in crisis. He has been injured and blood is constantly leaking from the corner of his mouth. The situation is very endangered.

Tang Jun was also completely at a disadvantage, and could only barely parry.

On the other side, Rong Gong and Lin Ye, the strong blood clan fighting against each other.

Lin Ye's cultivation base is the lowest here. Lu Ming, Tang Jun, and Mochang can't intervene at all in the battle. Once he joins, it will not help, and he may be killed by the opponent in one fell swoop.

The only thing he can reluctantly intervene is the battle between the army workers and the blood power.

But even if Lin Ye joins, they are not the opponents of the blood clan powerhouses, but the situation is slightly better, and they can protect themselves temporarily.

If this continues, it won't be long before Lu Ming and the others will be wiped out.

"Lu Ming, I'll help you!"

The ball flew out of Lu Ming's wrist and turned into a mirror, shooting out a beam of light, trying to envelop the twins' eldest brother.

However, the beam of light did not fly out of the quadrupole universe, and was blocked by the surrounding light walls.

"Hahaha, no matter what you attack, you will be blocked by the four-pole universe. Once you enter the four-pole universe, you will only have a dead end."

The second brother laughed, his murderous intent was extremely strong, and his eyes were extremely hot.

This time, it really made a lot of money. Not only could she catch Tang Feng's daughter, but also kill the Taboo Body, and also get a wonderful metal life. It was a great opportunity.

"hateful!"

The ball roared, flew back to Lu Ming's wrist, then squirmed quickly, turned into an armor, and put it on Lu Ming.

"This is... the breath of a source-level **** soldier."

Lu Ming's eyes lit up.

"Lu Ming, for the broken source-level magical soldiers you fed me, I first refined the broken armor, and I can barely evolve it, hoping to block the opponent's attack."

The sound of the ball sounded.

At this time, the twin brothers launched another attack.

There were more than a dozen sword lights, killing Lu Ming from all directions on the ground.

Lu Ming continued to use the God of War spear to resist, but there was still the sword light that was not blocked and attacked Lu Ming.

when! when!

This time, a few sword lights attacked Lu Ming, making the sound of gold and iron fighting, which was bounced back by the armor on Lu Ming's body.

It did not penetrate the armor on Lu Ming's body, but left a few shallow marks on it.

"blocked!"

Lu Ming was overjoyed.

At the same time, pass the sound to the ball and ask if there is anything wrong with the ball.

"Don't worry, they didn't even penetrate the armor. How could they hurt me."

The proud sound of the ball sounded.

Lu Ming suddenly relaxed.

It is worthy of the source-level magic weapon armor. After the ball has been refined, it still has a part of the source-level magic weapon armor and its defensive power is amazing.

The combination of the twin brothers' combined attack is so powerful that even if the master of the Divine Master Ninth Layer comes in, there is only one dead end.

Unless it is the kind of top **** master ninefold.

This power was blocked by the armor of the ball.

The twin brothers were also a little startled, and then, a blazing flame burned in their eyes.

That is the fire of greed.

They could see that the armor on Lu Ming's body was actually transformed by that metal life.

This metal life can not only sense the treasures under the blood seabed, but it can also evolve defense power into human armor, which is simply invaluable.

They must get it.

"kill!"

The twin brothers roared, exerting their power to the extreme, and urging the power of the combined attack to the extreme. The sword light that appeared this time was even stronger, but it still didn't penetrate the armor on Lu Ming's body. , It's just that the impression on it has deepened a bit.

Lu Ming was more confident.

bump! bump!

Lu Ming stepped on the void, his body rushed forward, completely ignoring the attacks of the sword light around him, all his power poured into the God of War Spear, piercing the boundary of the Quadruple Heaven.

The same as before, the four-color light wall appeared, and the God of War spear pierced it, and the earth-shaking roar erupted, vigorously, the four-color light wall vibrated violently, but it still did not penetrate.

"Boy, you don't want to break through our four-pole universe. Even if you have a strong defensive armor, how can you wait for others to be killed and kill you together, you will only have a dead end!"

The second brother yelled, trying to disturb Lu Ming's mind.

"Really, this shot, broken!"

Lu Ming roared, and the God of War spear stabbed out again.

The difference is that this time, Lu Ming exploded with the power of his origin.

The power of the origin within the seed of the origin poured into the God of War Spear, and when the Spear of the God of War pierced the four-color light wall, the power of the origin burst out.

The power of the source drew a trace of the original power of the God of War Spear, causing its attack power to increase sharply.

boom!

The earth-shattering loud noise sounded again, the difference is that this time the four-color light wall vibrated extremely violently, the wall protruded outwards, and when it protruded to the limit, it exploded.

The quadrupole universe, the twin brothers' combined attack technique, was broken.

As soon as the combined attack broke, the twin brothers shook their bodies, and their bodies retreated violently, spouting blood.

In their eyes, they were full of horror and incredible.

They couldn't think that the combined attack of the two of them would actually be broken by a person of the five layers of the gods.

"The power of the source is the power of the source. By the way, this kid condenses the seeds of the source..."

The twin brother roared.

"not good..."

The twins' eldest brother seemed to think of something, his face changed wildly, and his eyes turned to the young woman of the Celestial Race.

Chapter 4633: Power of blood

"No, his goal is Yechuling!"

The twin eldest brother roared, worked hard and rushed towards the young woman.

At the same time, the complexion of the others in Tiangong changed drastically, and the twin brothers rushed towards the young woman Ye Chuling with all their strength.

But, it was a step too late.

Lu Ming's speed was so fast. With a flash of the Great Aurora, he rushed to Ye Chuling not far away, and the God of War spear shot out.

call out!

The God of War spear pierced Ye Chuling like a bolt of lightning.

There was also a hint of horror on Ye Chuling's face, obviously frightened by Lu Ming.

However, she was still calm, gave a soft sip in her mouth, and quickly pinched the seal with her hands. At the center of her eyebrows, a golden bead emerged.

The golden round beads filled her with a layer of radiance, and a mask appeared on her body, covering it.

boom!

The God of War spear pierced the light shield and made a violent roar, but it did not pierce the light shield. The powerful force blasted Ye Chuling out, but did not cause substantial damage to it.

However, it was not without a little benefit. Although it did not cause substantial damage to Ye Chu Ling, Ye Chu Ling interrupted the blessing, and the masters of Tiangong weakened, giving Mo Chang, Tang Jun and others a chance to breathe.

"Defensive treasure, damn, see me break you!"

Lu Ming shouted angrily, wanting to continue his attack and break Ye Chuling's defense.

The round beads sacrificed by Yechuling were not defensive source-level magic weapons, but some kind of treasure. Although this kind of treasure can stimulate a strong defense force, the energy contained is often limited and cannot last for too long. Unlike the source-level magic weapon, if you don't break through the source-level magic weapon's defense, it will be useless even if you attack more.

And this kind of treasure, as long as it continues to attack, when this kind of treasure runs out of energy, it will naturally destroy itself.

"Lu Ming, die for me!"

"Don't want to make another move!"

Two roars sounded, and the twin brothers were killed again, using the combined attack technique, the quadrupole universe, and then enveloped Lu Ming.

"not good!"

Lu Ming didn't care about continuing to attack Ye Chuling, his figure flickered rapidly, trying to avoid the envelope of the quadrupole universe.

However, Lu Ming still underestimated Siji Tianyu.

This kind of combined attack, silently, would suddenly emerge from all around Lu Ming. Although Lu Ming's speed was astonishing, he still didn't avoid the Quadrupole Cosmos and was enveloped in it again.

"No, trouble!"

Lu Ming's face was very ugly.

Before, he had the power of the original source, and suddenly broke out, so that the attack power of the God of War Spear increased sharply, and it broke through the four poles in one fell swoop.

However, the power of the source is only one blow.

Now that the power of the source is exhausted, what else does he use to break the four-pole universe?

"Boy, your original power is only one blow, now it's up to you how to break our four-pole universe!"

The twins yelled indifferently, and pressed their hands, a sword light appeared around Lu Ming, and they assassinated Lu Ming, blocked by the armor of the ball.

However, the real crisis is not Lu Ming, but someone else.

Because Ye Chuling displayed the blessed formation once again, the formation above the head of the people in Tiangong resurfaced.

"We get together, hurry up!"

Tang Jun shouted, taking advantage of the weakening of the opponent's combat power, gathered together with Mo Chang, Rong Gong, Lin Ye and others to resist the opponent's attack in a defensive position.

"Kill! Kill!"

Those masters in Tiangong were blessed again, their combat power skyrocketed, and they launched a fierce attack. Tang Jun and others had no power to fight back and could only passively defend.

"I must break through the four-pole universe and kill that Yechuling..."

Lu Ming shouted in his heart, bringing Cui Dong's combat power to the extreme.

He completely ignored the surrounding attacks, rushed to the edge of the four poles, and launched a storm-like offensive.

boom! boom! boom! ...

The God of War spear continuously bombarded the four-color light wall of the quadrupole universe, causing the four-color light wall to vibrate violently, but it did not break open.

"Damn it, it's a bit close. If my cultivation base is one heavier, I can definitely break through the quadrupole heaven."

Lu Ming roared in his heart.

Although the power of the Four Extremes is strong, it is not too strong, after all, the twin brothers are only eightfold of the gods.

Moreover, although the twin brothers each mastered two different Xeon Heavenly Powers, they joined forces to bring together four different Xeon Heavenly Powers.

However, after all, this is controlled by two people, unlike Ye Qiuxian, who controls the four strong heavenly powers by one person.

One person controls the four strongest heavenly powers, which is the perfect heavenly power.

What the two control can't be perfect, and their power is limited.

However, Lu Ming suffers only because his cultivation base is too low. There is only the fifth level of the divine master. If he has the sixth level of the divine master, he can easily break through the four-pole universe.

But now, it is difficult.

"Broken, broken, broken!"

Lu Ming yelled, his long hair flying, his combat power reached its peak.

He fought madly, and his blood seemed to boil, as if to burn.

In his body, tens of thousands of cells are shining brightly like stars.

Tens of thousands of cells are connected to form a door, a yellow mud road, unknowingly emerging.

"What is this? Universe bridge?"

The twin brothers were stunned. They had never seen such a cosmic bridge.

It was actually a yellow mud road, which looked really shabby.

At this moment, the pool of blood stains on the Huangni Road glowed, filled with a terrifying opportunity, as if touched by something, a layer of blood spread out, covering Lu Ming's body.

boom!

At this moment, Lu Ming seemed to feel the blood all over his body exploding like a volcano, and a terrifying force poured into his body from the blood. At this moment, he felt that his whole body had endless power.

boom!

The God of War spear pierced again and pierced the four-color light wall with a bang, and the four-color light wall burst directly, which was easier than the last time it spurred the origin.

The twin brothers retreated violently, coughing up blood, and their eyes were full of horror and incredible.

They couldn't figure out how, Lu Ming could actually defeat their four-pole universe, and unexpectedly could burst out such terrifying power.

Is this kid a monster?

"kill!"

Lu Ming whispered, he felt the endless power and mighty power still bursting out of his blood.

Don't attack now, but when.

Lu Ming rushed out directly. This time, he rushed not to Ye Chuling, but to the twins' eldest brother.

The twins must get rid of one first. That kind of combined attack is too troublesome.

He himself didn't know why his power suddenly soared now.

Therefore, if the power is still there, at least one of the twins must be killed.

As long as one of the twins is killed, and there is no combined attack, even if Lu Ming's sudden skyrocketing power disappears, Lu Ming will not be trapped and can take the initiative.

Chapter 4634: It's not easy to use

Lu Ming's speed was too fast, turning into a **** light, almost in an instant, he appeared in front of the twins' eldest brother, assassinated by the God of War spear.

The twin brother was terrified and resisted with all his might. His combat power was very strong, a bit stronger than the twin brother, but he was still vulnerable to the current Lu Ming.

bump!

The God of War spear directly pierced the twin brother's battle axe, without stopping, piercing the twin brother's eyebrows, killing it here.

"Big Brother!"

The twin brother yelled and was shocked at the same time, Lu Ming actually killed his elder brother with a single move, wouldn't he also be able to kill him in a second?

In his heart, there was endless fear, and for a time, he did not dare to step forward.

After Lu Ming killed the twin eldest brother, he kept on killing Ye Chuling.

Ye Chuling was horrified, and quickly backed away. The blessing formation also stopped, urging the golden orb with all his strength to strengthen the defense.

Her speed, where there is Lu Ming fast, Lu Ming chased her in a few moments, and the God of War spear shot out, stabbing on the golden mask.

boom!

Ye Chuling's body was like a leather ball, and was blown out, cracks appeared on the golden mask.

"not good!"

The expressions of the other masters in Tiangong changed drastically.

"We counterattack and hold them, Lu Ming is about to win!"

Tang Jun shouted.

Without the blessing of Yechuling's formation, the masters of Tiangong have weakened a lot, and they will no longer be so passive. There is not much difference between the strength of the two sides, and they can launch a counterattack.

Tang Jun, Mo Chang and the others, squeezed enough, regardless of the injury, attacked frantically, desperately trying to entangle the several masters of the palace.

They understand that the turning point has arrived.

As long as Lu Ming killed that Ye Chuling, they would be able to completely reverse the situation, defeat these heavenly masters, and even behead them, it was not impossible.

"kill!"

Lu Ming roared and continued to attack. The God of War spear continuously bombarded the golden mask around Ye Chuling's body.

boom! boom!

Within one breath, Lu Ming made ten moves.

Finally, the golden ball ran out of energy, and it exploded with a touch.

Ye Chuling, Huarong paled, her eyes were full of horror, and even a hint of pleading.

However, Lu Ming remained unmoved.

This is the Celestial Race, and it controls the powerful auxiliary force. It is a great enemy and must be eliminated.

As long as it is a major enemy, no matter whether it is male or female, Lu Ming will not have the slightest pity, nor the slightest softness.

The God of War spear swept out, and the extremely violent destructive power instantly scattered the soul of Ye Chuling, wiped out the ashes, and completely fell.

"Yechuling is dead!"

"Damn, let's go!"

The remaining masters in Tiangong roared, trying to escape.

Especially the second brother of the twins, who had stepped back before, and without looking back at the moment, fled to the distance at an astonishing speed, almost invisible.

Lu Ming frowned slightly and wanted to pursue, but he gave up.

The opponent's strength is already very strong, and it is difficult for him to catch up if he escapes early.

However, others must not let it go.

As soon as his body moved, Lu Ming killed him in the other direction.

In that direction, the middle-aged woman of the Celestial Race was about to flee. This person's opponent was Mochang, but Mochang had been severely injured before, and her combat strength had been weakened a lot. The woman got away from her hand, and the middle-aged woman was about to run away when Lu Ming was killed.

boom!

Under the pressure of the God of War Gun, it was huge, even bigger than a giant mountain range.

The power of horror made the middle-aged woman of the Celestial Race extremely frightened, with deep fear in her eyes.

"Do not..."

The middle-aged woman of the Celestial Race screamed in horror and resisted with all her might, but when the God of War spear was pressed down, the middle-aged woman of the Celestial Race still exploded, and her body and spirit were destroyed.

"Amazing..."

Mo Chang, Rong Gong and others all sucked in cold air.

Lu Ming's combat power is beyond imagination. Killing a master of the eightfold divine master, like cutting melons and vegetables, this level of combat power is almost equivalent to those peak divine masters.

And Lu Ming, only the five-fold divine master, had such a combat power, they had never heard of it.

Even Jun Tang was shocked and his heart fluctuated.

"This Lu Ming is really against the sky, when his father was in the Divine Master Realm, it was just so, right?"

Tang Jun whispered in his heart, but he didn't stop his hands. Various attacks continued to kill his opponent.

Now, the few remaining masters in Tiangong, where there are still wars of heart, and want to escape for their lives, are all scared to death by Lu Ming.

However, they want to escape now, obviously it is too late.

Lu Ming has been killed.

The God of War spear continuously stabbed, killing the waxy old man and the strong man of the blood clan.

A big battle finally ended with Lu Ming and the others.

Mo Chang, Rong Gong and others exhaled a long breath.

This battle is really thrilling.

They felt desperate for a while, thinking they were going to fall here this time.

Tiangong's combat power is indeed much stronger than them, but who would have thought that Lu Ming would suddenly explode.

"Lu Ming, you are really amazing. You actually have so many hole cards, the five-fold divine master, and this level of combat power is really unimaginable."

Lin Ye flew over and said, the shock in his eyes didn't go away.

Mochang, Rong Gong also flew over, with deep horror in his eyes.

"A fluke, a fluke, let's get out of here first!"

Lu Ming said.

To be honest, he didn't understand why his combat power would increase so much.

He only knew that it should be related to that pool of blood stains on Huangni Road.

I have time to study.

Everyone took away the storage ring of the master of the heavenly palace, and then walked away and left here.

After all, one of them has been escaped, and the other party will definitely report news. It is estimated that there will be strong people from the palace soon.

They flew all the way, far away from the sea before they stopped.

Then, Mo Chang and others swallowed the pill and began to heal the wounds.

Fortunately for the others, Mochang is seriously injured and needs some time to recover.

"The power is beginning to fade!"

Lu Ming felt that the blood in his body was no longer boiling, and the hot temperature on the surface of his body had also dropped, and the majestic and powerful force quickly faded. In the end, it disappeared completely.

Lu Ming regained his original strength.

"It should be the power of the blood stain on the Huangni Road. What is this blood stain, it is so amazing?"

Lu Ming's heart was ups and downs and it was difficult to calm down.

He decided to try again. If he could completely control this power, his combat power would skyrocket.

Before borrowing the power of blood stains, Lu Ming's combat power was stronger than that of the original seed burst, and it could be used for a long time, unlike the power of the original source, he could only use one move.

Lu Ming flew a certain distance alone, and then used the power of Taboo, tens of thousands of cells on his body glowed, the door resurfaced, and the yellow mud road reappeared.

That pool of blood stains, shining bright red luster.

Chapter 4635: I feel the human body again

The Huangni Road resurfaced, and that pool of blood stains was bright red, like fresh blood flowing on it.

However, no matter how Lu Ming worked or urged him, there was no response from that pool of blood.

"How? It was useful before, why is it useless now?"

Lu Ming frowned and didn't understand. He tried to let the spiritual consciousness urge the blood stains in the past, but the result was the same, without the slightest reaction.

Lu Ming tried various methods and the results were the same.

"Does it have something to do with the state? I was in a crisis before, urging my combat power to the top, and the unity of spirit, energy and spirit seemed to have broken through a certain spiritual point..."

Lu Ming thought.

He felt that it was very possible.

Before being trapped in the twin brothers' combined attack technique, Mo Chang, Tang Jun and others were in crisis. The situation was very endangered. Under such circumstances, Lu Ming's state broke through to a certain critical point and reached a certain level. At the peak, the blood was boiling, perhaps, that was the cause of the abnormal blood stains.

However, that state is not something you can enter if you want to enter, it is not under Lu Ming's control at all, and you cannot enter if you want to enter.

That state is a bit like epiphany. It is mysterious and mysterious, illusory and difficult to capture. It can be said to be met and unattainable. Even if Lu Ming encounters a crisis next time, he may not be able to reach that state.

"No matter, it's good and harmless anyway."

Finally, Lu Ming shook his head, gave up trying, took out a few prehistoric crystals, absorbed and refined them, and restored his cultivation.

On the other side, the twin brother, like a bereavement dog, flees desperately, flying out of the burying sea of blood before stopping.

"Damn, **** Lu Ming, I want you to die..."

The second brother kept roaring in his mouth, as if in this way, he could roar out the fear in his heart.

This time, he was really scared, and his guts were broken. In his eyes, Lu Ming was billions of times more terrifying than the devil.

"This kid can't stay, he must be removed, otherwise he will become a shadow in my heart. I want to spread the news. If I know that Lu Ming is here, I believe many people will be very interested."

After a while, the second brother calmed down, his eyes flashed with cold murderous intent again.

Lu Ming, the taboo body, is now the target of the Heavenly Palace's heavy click. If he can kill Lu Ming, the reward will be high and scary.

"Boy, the sea of blood burying the immortals is your burial place!"

The second brother gave a low growl, and Feishen left here.

...

About a day later, Lu Ming, Tang Jun, Rong Gong and others had fully recovered to their peak state.

Mo Chang was injured heavily before, and he did not fully recover at this time, but he also recovered 70% to 80%. The peak combat power broke out in a short time, which was not a problem.

Then they set off again, looking for treasures.

Of course, this time they were more cautious, and after staying in a sea area for a while, they would leave.

Another day passed.

"Ok!"

Suddenly, Lu Ming raised his brows, because at this time, he suddenly felt that the arm of the king in the ring was abnormal.

He couldn't help but stop, the spiritual sense condensed from the prey.

Seeing Lu Ming suddenly stop, Tang Jun, Mo Chang and others also stopped.

When he first entered the core battlefield, it was vaguely dominated by Mo Chang. After all, his cultivation base was the highest.

But after the last battle, their small team was vaguely dominated by Lu Ming.

In that battle, both Lu Ming and Tang Jun showed terrifying combat power.

Tang Jun's displayed combat power is probably no weaker than Mo Chang.

Lu Ming was even more terrifying, simply unbelievable.

Lu Ming stopped suddenly. Most of them knew something was going on, so they all stopped and protected Lu Ming in the middle.

In the prey, the bronze box was trembling constantly.

Lu Ming opened the bronze box and saw King Ren's arm, with a mysterious gleam, and his palm pointing in one direction.

"what happened?"

Lu Ming asked.

Of course he asked about the bronze box.

"I have sensed it again, the arm of the King of Humanity, and the other parts of the human body of the King of Humanity."

A line of words appeared on the bronze box.

"I felt it again? Where and how far is it from the Qianqiu Battlefield? Or is it on the Qianqiu Battlefield?"

Lu Ming asked quickly.

"It's not far away, right in this sea of blood buried in what you call."

A line of words appeared on the bronze box.

"what?"

Lu Ming's heart shook wildly.

This was really beyond his expectation.

The other parts of the human king's body were actually buried in the blood.

His heart beat faster involuntarily.

This is a good opportunity. Now the existence of the Origin Realm, such as entering the palace in the center of the core battlefield, in the blood sea of burying immortals, the strongest is only the Divine Master Realm. He may have the opportunity to learn other parts of the human body. Captured it.

This opportunity must not be missed.

With a thought, Lu Ming's spiritual consciousness retreated from Hong Huangjie.

"Lu Ming, what's wrong with you?"

Mo Chang asked.

"Everyone, next, let's go in that direction. The ball has a sense. In that direction, there may be treasures."

Lu Ming said, pulling a reason directly and pushing on the ball.

The ball secretly despised, when did I say such a thing?

Hearing that it was the ball, the eyes of Mo Chang and the others were bright, and naturally they would not object.

Immediately, everyone went in the direction Lu Ming said.

On the way, they found a few waves of people in Tiangong from a distance. They didn't rush to the other side. When they saw it, they avoided it far away.

Seeing Lu Ming and the others quickly retreat, several waves of people in the palace did not pursue them.

About two days later, Lu Ming and others came to another sea area.

"Huh, what's going on in this sea area?"

Coming to this sea area, Lin Ye said in surprise.

"Lin Ye, what did you find?"

Tang Jun asked.

"I found that there are very few insects in this sea area, and the remaining insects are also moving in one direction."

Lin Ye said.

"Move in one direction?"

Lu Ming and others all showed their doubts.

Of course, Lu Ming had more thoughts.

Because the bronze box shows that the other parts of the human body are likely to be in this sea area.

Then, if the insects move in one direction, will it be related to the human body?

Lu Ming hopes not.

Because he doesn't want to make too much movement, it's best to get the other parts of the human king's body silently, and make too much movement, it will be troublesome.

"Lin Ye, where are the bugs going, let's go and see!"

Lu Ming said.

"follow me!"

Lin Ye said, flying in one direction first.

They were very fast and quickly crossed a long distance. At this time, they couldn't help looking at the sea below, showing a look of surprise.

In the blood-colored water below, there are a large number of insects. These insects are very huge. Through the water, you can see huge black shadows.

Chapter 4636: Meet a helper

In the sea, insects all go in one direction.

"The bugs are all heading in one direction. That's great. Isn't there no bugs under this sea area? We can enter the bottom of the sea and search for treasures as much as we want."

Mo Chang showed joy.

They dare not enter the sea water, mainly because of fear of those bugs.

But now the worms in this sea area are all heading in one direction, isn't there no worms in most areas of this sea area?

Rong Gong, Lin Ye and others also showed joy.

"Go, let's go down and take a look!"

Mo Changdao was about to rush into the sea, but the next moment, his face suddenly changed and he looked into the distance.

In the distance, there are some black spots, flying towards here quickly.

The speed is too fast, a few strokes, they are not far from them.

"No, it's from Tiangong, let's retire!"

Mo Chang shouted and flew towards the distance.

Lu Ming, Tang Jun and the others followed, but behind, the masters of the Heavenly Palace were very fast, constantly approaching Lu Ming and the others.

In particular, one of the Celestial Clan powerhouses rushed to the front with the most astonishing speed, and soon they would catch up with Lu Ming and the others.

God Lord Ninefold!

This is a powerhouse of the ninefold divine master.

The faces of Lu Ming and others were a little ugly.

If it is the nine-fold divine lord of the ordinary race, Lu Ming still has a little confidence to deal with, but this is the nine-fold divine lord of the Celestial race, and it is difficult to deal with.

Among the Celestial Race, those who can cultivate to the Ninth Level of the Divine Lord show that their talent is definitely not weak, and their combat power is definitely not weak.

What's more, there are eight masters in the heavens behind, all of whom are the eightfold and sevenfold existence of the **** master.

If they joined forces together, Lu Ming and the others would be in danger.

"Hey, we are lucky, Tang Jun, Tang Feng's daughter, since we met, don't leave!"

The divine lord nine-fold celestial race sneered, staring at Tang Jun, showing a hot color.

Behind, the people in other heavenly palaces also sneered, flying with all their strength, and the distance between them and Lu Ming was getting closer and closer.

Seeing, it won't be long before he will be caught up.

Lu Ming and others are planning to fight with all their strength.

At this moment, the sea in front was surging, and suddenly seven or eight figures came out.

"It is to leave them!"

Mo Chang saw the seven or eight figures, and he was immediately ecstatic.

The seven or eight figures in front are the people who destroy the heavenly army.

The headed man was extremely burly and exuded the breath of a primitive god. This is a nine-fold primitive **** of the gods.

As soon as they appeared, they discovered that Lu Ming and the others still had people from Tiangong.

"The offspring of Tiangong, look for death!"

Feng Yaoli spoke indifferently, stepped in the air, and rushed towards Lu Ming and the others.

"Damn, let's retire!"

The divine lord Jiuzhong's Celestial Race had an ugly face, then turned and left.

The other celestial races also followed, flying wildly towards the distance, faster than they had just chased Lu Ming.

The strength of Feng Yaoli's team was not weaker than that of them. With Lu Ming and the others, once they met, they would definitely be the ones who would suffer, so when they saw that Lu Ming and others came to help, they immediately retreated.

Soon, the people in Tiangong disappeared, and Feng Yaoli and others did not pursue them.

"Feng Yaoli, this time, thanks to meeting you."

Mochang Road.

"Thank you, Brother Feng!"

Tang Jun also stepped forward, and seemed to be very familiar with the big man.

"Miss Tang Jun, Mo Chang, with the strength of your team, you dare to come to bury the sea of blood, don't you know it's dangerous here."

It's not that Lu Ming and the others are underestimated, but rather worried.

"Haha, we are just here to try our luck, and don't underestimate the strength of the five of us, you can underestimate me, but underestimate Tang Jun and Lu Ming, you are careful to suffer a big loss."

Morchang laughed.

"Tang Jun's strength, I naturally understand, the forbidden body is certainly not weak, but you still lack the power of the nine-fold divine master. Many of the teams in the funeral blood sea have the nine-fold power of the divine master. Don't be careless, so let's act together later, how about?"

Feng wants to leave the way.

Mo Chang opened his mouth. He really wanted to tell how Lu Ming had used his power before and killed the Heavenly Palace powerhouse.

But when the words came to my lips, I swallowed it back.

The main reason is that it is too unbelievable, and I am afraid to say that I will not believe it.

"Okay, let's act together!"

Tang Jun nodded.

In Burying the Immortal Blood Sea, their strength is indeed weaker, and if they have to leave and others to act together, the safety factor will be greatly increased.

"I want to leave, what's going on in this sea area? Why do the insects in the sea area go in one direction?"

Mo Chang asked curiously.

Lu Ming and others also pricked their ears and listened carefully.

Especially Lu Ming, he wanted to get some useful information from it to see if it was related to other parts of the human body.

"We don't know the specifics either. We only know that there is a **** atmosphere on the seabed somewhere in this sea area. These insects seem to be attracted by the **** atmosphere."

Feng wants to leave the way.

"Bleeding from the bottom of the sea?"

Mo Chang and others were very surprised.

It was originally in the blood-like sea water, it would be bleeding, attracting other insects, this is really strange.

But Lu Ming was thoughtful.

"Whether it's bad or not, the worms in this sea area are converging towards one place, and there are few worms in other places. We can search for treasures on the bottom of the sea as much as we can without worrying about being attacked by worms. It should not be too late. Right!"

Feng wants to leave the way.

Naturally, Mo Chang, Tang Jun and others would not object.

The crowd rushed into the sea of blood and sank all the way to the bottom of the sea. After entering the bottom of the sea, they began a carpet search, looking for treasures.

Sure enough, they searched a long distance without being attacked by any bugs.

After a while, they found a strange piece of metal.

Every time when the killing intent and evil spirit faded, a large number of masters entered the sea of immortals to find treasures. For so many years, there are not many treasures in the sea of immortals, so even if you don't have to worry about bugs and search through carpets, it's impossible. Get a lot of treasures.

However, it is much easier than before.

Feng Yaoli is very excited to wait for others.

In a blink of an eye, just a few hours later, they found several strange pieces of metal, as well as two broken source-level magic soldiers, which was already a big gain.

"Someone ahead!"

Suddenly, someone shouted.

Sure enough, there were nine figures on a large mountain in front of the sea.

The topography of the bottom of the sea is very complicated, as on land, there are also mountains, canyons, and plains.

"It's them!"

Lu Ming's eyes narrowed.

Those nine figures were masters of the Heavenly Palace, and it was the nine who chased Lu Ming and the others before.

"It's really a narrow road. I was run away by these gangsters last time. This time, let's see where they go. Brothers and sisters, go and kill them!"

Feng Yaoli yelled and stepped on, his burly body broke through the sea water and rushed towards the people in Tiangong.

Chapter 4637: Really so perverted?

"kill!"

Others followed the Feng Yaoli and killed those people in Tiangong.

However, the people in Tiangong were very calm, and they didn't even mean to run away. They stood there peacefully, with a sneer on their faces.

wrong!

Lu Ming's heart sank.

Something's wrong, the other party saw Feng Yaoli and the others appear last time and turned around and left, but this time, they didn't run away, which was abnormal.

Obviously, not only Lu Ming thought of this, but Tang Jun, Feng Yaoli and the others thought of this, and the figure rushing forward suddenly stopped.

"He's cold, it doesn't feel right, these guys don't run away, and they look recklessly, is there an ambush?"

Feng wanted to leave the way, his eyes scanned all directions, and the spiritual consciousness was also emitted.

The topography of the bottom of the sea is very complicated, with dense mountains and valleys, and because of the blood-colored water, the spiritual sense is obstructed by the eyes, and it is impossible to explore too much.

"I found out now, it's too late!"

On the other side of Tiangong, the heavenly human race of the divine master ninefold sneered.

next moment...

Huh huh!

In a canyon behind Lu Ming and them, seven figures rushed out.

He is also a master of Tiangong.

"There is also the existence of a divine master ninefold!"

Feng Yaoli's face sank and said in a low voice.

The faces of the others changed and became a little ugly.

No wonder the masters of Tiangong are so calm and daring to join hands with others. There is a team lying in ambush in the valley.

In this way, there are two divine masters on the side of the temple, and the total number of them is also above them.

Trouble!

"Kill, kill all the traitors!"

Ahead, the divine master nine-fold celestial clan shouted, shaped like a bolt of lightning, and rushed towards Lu Ming and the others. The other masters of the heavenly palace also rushed towards Lu Ming and them.

Behind, the seven masters of Tiangong also killed Lu Ming and the others.

The two teams in Tiangong were both very fast. They were approaching Lu Ming and the others in a blink of an eye, and they attacked Lu Ming one after another before they arrived.

Lu Ming and the others could only defend with all their strength, laying down a heavy defense, blocking all the attacks from the Heavenly Palace.

But it has been so defensive, too passive, and will be breached sooner or later.

"Damn, we have one less divine master ninefold, otherwise, why not fear them!"

Feng Yaoli roared, raging.

Although their number is a few less than the opponent, they are not much, and even if the overall combat power is not as good, it will not be much worse.

The most important thing is that the other party has two divine master ninefold, which is the most troublesome.

The master of the divine master ninefold, dealing with the divine master eightfold, is very easy, even easy to kill in seconds.

If they can't block the opponent's two divine master ninefold, they won't have to fight.

"Feng Yaoli, that celestial divine lord ninefold, you should be able to deal with it!"

At this time, Lu Ming gave Feng Yaoli and others a message.

"Naturally, I have full confidence in dealing with that guy!"

Feng wants to leave the way, he is a primitive **** with a strong combat power, and in a battle at the same level, he is definitely not weaker than the Celestial Race.

"Well, this heavenly-human tribe divine lord ninefold, that angel tribe divine lord ninefold, just leave it to me."

Lu Ming said.

The nine-fold master of the **** master in the back team was not from the Celestial Race, but from the Angel Race.

Just now, Lu Ming has discovered that this angel race is only a ten-winged angel, and its strength is much weaker than that of the human race **** master nine times that day.

Lu Ming was still somewhat certain about dealing with this angel race.

Even if he couldn't use the blood stains on the yellow mud road, his own strength, as well as the power of the source, were enough to contend with this angel race.

Coupled with the assistance of the ball, the sudden eruption under the care of the opponent may not be unable to injure the opponent in one fell swoop.

Lu Ming was confident in himself, and then proposed this way, but the people in Feng Yaoli and his team did not believe it.

"The other party is a nine-fold divine master, can you really deal with it?"

"Can't deal with it, don't try to be strong, once we lose, we are all in danger!"

Several others spoke.

They didn't doubt Lu Ming's combat power, the combat power of the Taboo Body, they would not doubt that the battle of the Supreme Immortal City overwhelmed the peerless genius of the Celestial Race, Yejiu, and defeated the power of the perfect heaven, which is enough to explain Lu Ming's combat power. .

However, Lu Ming's cultivation base is only a five-fold divine master.

The five-fold divine master, and the nine-fold divine master, are too far apart, far too far to imagine, far too far to cross.

"I believe Lu Ming, he has absolutely no problem dealing with that angel race!"

"Yes, I also believe him. His combat power will surprise you!"

"Everyone, instead of passive defense like this, it's better to fight!"

Mo Chang, Rong Gong, and Lin Ye said one after another.

"This..."

When Mo Chang and others said so, Feng Yaoli hesitated.

He knew that Mo Chang and others were not aimless people. There must be a reason to believe in Lu Ming so much.

Is Lu Ming's combat power really so abnormal?

At this time, the offensive of the Heavenly Palace powerhouse became more and more fierce.

They have no scruples, do not have to worry about their own defense, and use their full strength to use a big killer move, the power is very amazing.

If this continues, it will not take long before the defenses of Lu Ming and others can be defeated.

"Feng Yaoli, don't hesitate, Lu Ming has absolutely no problem with him."

Tang Jun also spoke.

"Okay, let's do it, the **** master Jiuzhong of the Celestial Race, give it to me, and the **** master Jiuzhong of the Angel Race, give it to Lu Ming, brothers, do it!"

Feng Yaoli shouted, withdrew his defenses, and launched a counterattack.

His body quickly grew bigger, turned into a giant of hundreds of meters, brandishing a battle sword, and slashed towards the divine lord of the Celestial Race Nine Layers.

Of course, Feng Yaoli could become even bigger. With his current cultivation base, he could turn his body into a planet as huge.

But it is not necessary.

In this sea of immortal burial blood, if it turns into such a big body, it will only summon those insects to attack.

As long as it becomes a more comfortable volume.

when!

Feng Yaoli confronted the divine master nine-fold master of the Celestial Race, violent energy erupted, and the figures of both sides took a few steps back.

"kill!"

At the same time, Mo Chang and others were not defending, but launched a counterattack and attacked a killer move.

"If you don't defend, you will fight back. It's really looking for death, but even if you are defending, there is only one dead end. If this is the case, I will send you on the road soon!"

The divine lord of the Heaven and Human Race Nine Layers sneered, and was enveloped by the power of the strongest heaven, killing Xiang Feng to leave.

"It's you who die!"

Feng Yaoli yelled and counterattacked with a knife.

At this time, Lu Ming held the God of War spear and killed the angel family of the nine-fold divine master.

Lu Ming changed his breath and appearance with a great imitation technique. The other party didn't know Lu Ming's true identity. When he saw a five-fold divine master in Lu Ming's district, he actually dared to kill him.

Jiu Zhong, the **** master of the angel race, didn't take Lu Ming to heart at all. The Holy Light condensed a war sword and slashed towards Lu Ming.

Chapter 4638: Defeated

The angel clan of Divine Master Nine Layers slashed towards Lu Ming.

With this sword, he used 50% of his power, not to mention that a divine master had fivefold, even if it was a divine master eightfold, he would not dare to take it hard and would be seriously injured.

"Look at me, good..."

Lu Ming was not angry but rather happy.

What he wants is the underestimation and carelessness of the other party.

In this way, he has a chance.

"Ball ball!"

Lu Ming passed the sound of the ball.

"give it to me!"

The ball screamed, flew out from Lu Ming's wrist, turned into a mirror, and shot out a beam of light, which directly enveloped the opponent.

"Breaking the sky!"

Lu Ming drank in a low voice and displayed the Heaven Breaking Pose. At the same time, all the power of the Origin Seed poured into the God of War Spear and turned into a bright spear light that pierced the center of the opponent's eyebrows.

Shrouded in the beam of light transformed by the ball, the angels of the nine-fold divine lord, there was a momentary loss of consciousness.

Lu Ming's attack approached quickly, and he was about to pierce the opponent's eyebrows.

"Damn, damn, **** illusion, break me!"

The angel clan of God Lord Nine Layers roared and howled, the holy light in the body burst out with full force, and suddenly rushed through the light beam of the ball.

However, Lu Ming's attack had already arrived.

Lu Ming exploded with an attack of the power of the source, which had surpassed this angel family.

Now, Lu Ming took the first step again, how could the other party resist it.

At the critical moment, the opponent's body suddenly shrank downward, trying to avoid the attack of the God of War.

To be honest, this trick works well, avoiding the stabbing of the God of War.

However, Lu Ming finally got the upper hand, how could he let the other party escape.

What's more, the power of the source is only one blow.

Lu Ming took the opportunity to press the God of War Spear downward, and the God of War Spear was drawn directly downward.

"not good..."

The angels of the God Lord Nine Layers were shocked, their bodies moved horizontally, and at the same time they laid heavy defenses on their bodies.

However, he did not completely avoid it after all.

boom!

The God of War spear hit the opponent heavily, the violent power directly pierced the opponent's defense, the violent power bombarded the opponent, and with a touch, the lower half of the **** master's nine-fold angel clan directly exploded. Turned into powder.

His upper half of the body hit the bottom of the sea heavily, smashing the bottom of the sea out of a big hole, lying in the big hole, vomiting blood.

This move, although he avoided the critical point, but also suffered heavy losses, no longer able to fight.

Originally, the opponent would not be beaten so easily, mainly because he was too careless, and then was affected by the ball, so he was defeated by Lu Ming and seriously injured.

At this moment, everyone's eyes widened.

The masters of the Tiangong, all of them stared round and looked like a ghost, it was hard to believe what they saw.

But Feng Yaoli and the others were shocked and shocked.

Lu Ming said before that there was a way to deal with that divine lord's nine-fold angel race. They were completely suspicious and had no confidence in their hearts.

Unexpectedly, Lu Ming's combat power was so powerful that a single move would severely damage the existence of a divine lord ninefold.

The other party is missing a divine master ninefold, they don't need to be afraid at all, and their morale is immediately boosted.

"Kill!"

"Kill them!"

Feng Yaoli and the others yelled, and the offensive was frantic.

"kill!"

Lu Ming yelled coldly, taking his illness to kill him. At this time, the master of the angel race was severely injured. How could Lu Ming let this opportunity go? He swooped down and killed the master of the angel race.

"Save me!"

The master of the angel race roared, with deep fear in his eyes.

"Boy, don't think about it!"

Nearby, a celestial master of the Eightfold Divine Master killed him and attacked Lu Ming.

However, the mirror turned into the ball shot out a beam of light, covering the celestial race.

This celestial race was even more unbearable than the existence of the nine-fold divine master, and suddenly became sluggish.

This was sluggish for a while, and it would kill him.

The God of War spear pierced and pierced the eyebrows of this Celestial Race.

When he reacted, it was too late, and the God of War spear pierced through his eyebrows. The destructive power directly destroyed his soul.

A master of the eighth heaven human race of God Lord, with the cooperation of the ball, was killed by Lu Ming with a single move.

The others looked cold all over.

Lu Ming's trend kept going, and he continued to kill the angel family of the ninefold divine master.

Ahhhh...

This divine lord nine-fold angel clan screamed frantically, struggling frantically, not wanting to be killed.

However, he was left with only half of his body, and was severely injured. Ten percent of his strength was gone. No matter how unwilling to resist, it would be useless.

The God of War spear shook, the sky full of spear light fell from a height, and the divine lord nine-fold angel clan was enveloped in it. Several unwilling screams sounded, and there was no sound.

Nine-fold angel of God Lord, die!

"it is good!"

"Kill the clutter of Tiangong!"

Feng Yaoli was high-spirited and constantly attacking and killing. On the other hand, the morale of the Tiangong side was low. Some people looked at Lu Ming with tremors.

Although the numbers of the two sides were about the same, the Tiangong side, on the contrary, was retreating steadily. One careless, one divine master seven-fold master was cut in half by Tang Jun with a sword and fell on the spot.

This makes the people in Tiangong weaker to fight.

"Retreat, retreat!"

The master of the Heavenly Human Race Divine Master Jiuzhong roared, and after a few moves with Feng Yao, he retreated violently.

He saw that the divine lord's nine-fold angel clan was severely injured by Lu Ming as soon as he met him, and then quickly killed. He was scared, he was really scared.

Lu Ming's combat power made him terrified. He was afraid. He was afraid that Lu Ming would kill him. He also ended up with the same result as the divine lord nine-fold angel family.

Therefore, he decisively issued a retreat order.

The other people in Tiangong were the same, not daring to fight, and backed up one after another, trying to escape.

"Kill, don't let them run away."

Feng Yaoli shouted at others, chasing him wildly, chasing him wildly.

Lu Ming used the great aurora technique and hurriedly pursued it.

The people in Tiangong are focused on fleeing, and have no intention of fighting anymore. Those with a higher cultivation base will escape faster. On the contrary, those with a low cultivation base will lag behind and be quickly sealed off. Lu Ming and others are the fastest. Quickly catch up.

"Ah, save us, we were caught up!"

"Save us!"

The seven-fold existence of the divine masters in Tiangong roared with exhaustion.

However, those people running in the front, how dare to turn their heads, and hope that those behind them will delay some world and give them a chance to escape.

"They won't save you, send you on the road!"

Feng Yaoli was full of hideous faces, cut across with the sword, and immediately killed the two masters of the Divine Master Sevenfold.

Lu Ming cooperated with the ball and shot it out, also killing a master of the Divine Master Seventh Layer.

Later, Tang Jun, Mo Chang and other people rushed to kill the remaining seven masters of the Divine Lord.

However, those heavenly masters above the eighth layer of the **** master seized the opportunity and quickly fled away.

Chapter 4639: Cannibalism

Soon, a big battle came to an end, and Lu Ming and the others won a big victory.

In this battle, none of them died, but Tiangong was hit hard.

"Hahaha, happy, thanks to Lu Ming for this battle, Lu Ming, your strength really amazes me."

Feng Yaoli laughed and looked at Lu Ming with awe and incredible.

The same goes for the other people who were with Feng Yao to look at Lu Ming.

This battle was all because of Lu Ming, which reversed the situation.

Otherwise, they would be surrounded by the people of the Heavenly Palace first, and the other party had two Divine Master Nine Layers. They were definitely not opponents, and it was definitely them who suffered heavy losses.

The worst result may even cause the entire army to be wiped out.

"Thank you, just a fluke!"

Lu Ming said modestly.

After that, everyone continued to search for treasures in this sea area.

However, it is obvious that because the insects converge in one direction in this sea area, many people have also noticed that they have entered the seabed to find treasures, so although they have gained some gains, they have not gained much.

Soon, a few days passed.

"Everyone, how about going to the direction where the bugs converge?"

At this time, Lu Ming suggested.

Originally, Lu Ming wanted to find a reason to go to the direction where the worms gathered alone, but in this sea of blood, a person is unavoidable but weak. If he encounters a master of the heavenly palace, it will be very dangerous.

Although he was able to kill the existence of Divine Master Jiu Zhong, it was because the opponent underestimated the enemy, and he broke out all the means, coupled with the ball and ball cooperation, and hit the opponent severely.

Moreover, the power of the source can only use one trick.

After one move, he would not be able to explode the power to severely injure Divine Master Jiuzhong. If there were two local Divine Master Jiuzhong masters, he would only have to run away.

Just like last time, if he hadn't sealed the other people who were waiting for others to block the heavenly palace, how could he have a chance to kill that divine lord ninefold angel?

There is another, it is hard for him to find a reason to leave alone.

In this sea of blood, if he finds a reason to leave alone, others will find it strange.

Therefore, Lu Ming simply suggested that everyone go together.

"I also have this intention. Those worms are converging in one direction. What is wrong with that direction, maybe it is the birth of a supreme treasure that attracted those worms."

Feng wants to leave the way.

"But... the gathering of countless bugs might be dangerous!"

Some people are more cautious.

"It's okay, let's approach slowly and observe from a distance. If something is wrong, we immediately evacuate, nothing will happen!"

Feng wants to leave the way.

The others nodded in agreement.

In fact, everyone was very curious and wanted to go and take a look.

Immediately, everyone was no longer hunting for treasure, and flew toward the direction where the insects gathered.

Without the obstacles of insects, the speed of the crowd was extremely fast, spanning a long distance in a few hours.

At this time, they met another group of people who were from the Heaven Exterminating Army, and the other party was also curious about going to the direction where the insects gathered.

The crowd gathered together and set off together.

In the subsequent sections, they encountered more and more people.

There are those who destroy the heavenly army and there are those who destroy the heavenly palace.

There was no battle with Tiangong, because both sides had a large number of people, and when they were fighting, they were not sure about either side, and both sides were restraining.

Soon, seven or eight huge submarine peaks appeared in front of Lu Ming and others.

On those mountain peaks, Lu Ming and others also found some people who killed the Heavenly Army, as well as people from the Heavenly Palace.

The two sides did not fight, and seemed to be cautious, standing on the mountain, looking inside.

Lu Ming and the others flew towards the Exterminating Army.

"Be quiet, don't alarm the bugs."

Someone whispered a reminder.

Lu Ming and the others stunned, and immediately converged their breath, landed on the mountain, and then looked into the mountain, shaking their hearts.

Inside the mountain is a huge basin, and all around the basin are mountains.

The geographical position of the basin is very low, and it is sunken. In the basin, there are countless insects.

What's amazing is that these insects are fighting wildly and killing each other.

All kinds of insects with different shapes are fighting wildly, and there are all kinds of insect corpses in the basin.

Some insects are gnawing on the corpses of other insects, and some insects are slaying frantically, extremely brutal.

Every moment, powerful insects are torn apart.

Some insects are amazingly powerful, and Lu Ming feels that if he goes up, he will be torn apart instantly, and he definitely has the strength of the pinnacle of the gods.

No wonder the people who killed the heavenly army and the heavenly palace did not dare to breathe.

Lu Ming and others did not dare to breathe.

There are too many insects in the basin, at least more than 100,000. Although a lot of them have died, there are still more than 50,000.

If these powerful bugs rush out, they will all be torn apart.

"Look, there is really a trace of **** mist in the basin, are those insects crazy because of this **** mist?"

Tang Jun was beside Lu Ming, transmitting to Lu Ming.

"should be!"

Lu Ming said.

The **** mist is clearly visible even in the **** sea water.

Lu Ming didn't have much expression on his face, but he was very restless in his heart, because the arm of the king of humanity was constantly trembling, and the bronze box told that the other parts of the body of the king were in this basin.

Knowing that the other parts of the human body were in this basin, Lu Ming couldn't calm down and wanted to get it, but what should I do with so many insects?

"These insects continue to kill each other, although I don't know the reason, but looking at this trend, I guess they will die out later!"

"When these bugs are gone, go check it out."

Lu Ming thought to himself.

Everyone concealed on the mountain, watching quietly.

Lu Ming discovered that some insects ate the bodies of other insects, and they would metamorphose and become stronger.

Fighting is getting more and more fierce.

...

At this time, on the land not far from the sea of blood buried in the immortals, the second brother of the twins was revealing Lu Ming's information to a group of heavenly powerhouses.

"Yes, it's Lu Ming, a taboo body. He is in this core battlefield, and in the blood of celestial burial."

The second brother of the twins said.

"Forbidden body Lu Ming, very good. If you can kill him, it will be a great feat. Let's go to bury the fairy blood sea!"

The masters of this group of heavenly palaces waved to the head of one person, and everyone headed towards the buried blood sea.

"Lu Ming, so many people rush to the Sea of Blood Burial, I see how you die!"

The second brother growled, his eyes flashing hideously and murderously.

During this period of time, he searched for the masters of the Heavenly Palace, revealed that Lu Ming was burying the Sea of Immortal Blood, and asked these people to go to the Sea of Immortal Blood to hunt down Lu Ming.

During this period of time, there have been many Heavenly Palace powerhouses rushing to the Sea of Blood to Bury the Immortals.

Chapter 4640: Was discovered by Tianzun

The twin brother stood there and sneered for a while, then turned and flew in the same direction.

He wanted to continue looking for more Heavenly Palace masters to rush to the Sea of Blood Burying Immortal, leaving Lu Ming desperate.

The second brother was thinking, suddenly, the void trembled, and a figure suddenly appeared in front of him.

The second brother almost jumped up in shock, and backed off instinctively, but when he saw the appearance of the person, he let out a long sigh of relief.

"Senior Gan Liu, it was you, why did you come to the Qianqiu battlefield?"

The twin brother hurriedly saluted.

That's right, this figure that suddenly appeared was the father of Ye Ling Tianshou, Ye Ling Gan Liu.

After entering the Qianqiu battlefield, he has been looking for Lu Ming, but he has found nothing.

"It turned out to be you kid, your eldest brother, why are you not together?"

Yeling Ganliu glanced at his second brother and said lightly.

"My older brother... was killed!"

The second brother said, revealing a deep sadness and hatred.

"Oh?"

Ye Linggan gave a soft voice and didn't care much.

In this Qianqiu battlefield, falling is a normal thing, there is nothing to be surprised.

"It's all that Lu Ming, that **** Lu Ming..."

The second brother growled.

"What are you talking about? Who?"

At this moment, Ye Ling Gan Liu stared, and a terrifying killing intent burst out. The cold killing intent seemed to freeze the area.

The killing intent of the Tianzun level shocked the world and shocked the second brother. He stuttered, "Lu...Lu Ming, that forbidden body Lu Ming!"

"Lu Ming, do you know where Lu Ming is? Tell me!"

Yelingan Liu urged.

As soon as Lu Ming was mentioned, he could no longer remain calm.

"Could it be that Yeling Ganliu also wanted to kill Lu Ming, with a look of deep hatred, great!"

The twin brother roared in his heart, showing ecstasy.

"In the sea of blood buried in immortals, Lu Ming's little bitch, in the sea of blood buried in immortals, he was burying in the sea of blood. Together with others, he killed my big brother."

The second brother said.

"Buried in a sea of blood, very good, Lu Ming, I want you to die!"

"Go, lead the way, take me to the place where your brother was killed."

Yelingan runner.

"Yes, senior!"

The second brother naturally promised happily, and he was ecstatic in his heart that a heavenly master was going to kill Lu Ming, and then Lu Ming was dead.

Immediately, the second brother pointed out the direction, and Ye Ling Ganliu waved his hand, leading the second brother to the **** sea of Burial.

Tianzun-level powerhouses were too fast, and soon they came to the sea of blood buried in the immortals, and came to the place where the twin brothers fought Lu Ming before.

After arriving here, Ye Ling Ganliu closed his eyes and began to sense Lu Ming's breath.

After a while, Ye Ling Gan Liu opened his eyes, and a ray of unpleasant color flashed in his eyes.

In this blood-colored sea water, the breath is difficult to stay, and it will soon be washed away by the blood-colored sea water.

Just now, he hadn't sensed Lu Ming's breath at all.

He was not reconciled and continued to feel, but still so.

"Hmph, the sea of blood is so big, I don't believe I can't find you!"

Yeling Ganliu snorted coldly, his figure flashed, and he disappeared in place, and at the same time, his spiritual sense radiated madly, looking for Lu Ming.

Although the worms in the Sea of Blood Burying are powerful, when there is no killing intent and evil spirit, none of the worms here can match the original realm. Therefore, Yeling Ganliu also flies unscrupulously at extremely fast speed.

Pieces of sea areas were searched by him.

About seven days later, he found the sea area where Lu Ming was.

Lu Ming and the others have been on the mountain and have been watching for seven days.

In the past seven days, those bugs are still fighting, and they are getting worse and worse.

However, after seven days of fighting, it was almost over.

Only two of the strongest insects are left, fighting each other.

These two insects were extremely powerful, fighting for more than an hour, and finally decided the winner.

One of the insects resembling a scarlet mantis, with its claws like a sickle, chopped off the head of the other insect and swallowed it in one bite.

However, although this mantis-like insect killed the opponent, it was also severely injured. After swallowing the opponent's head, he staggered a few steps and fell to the ground with a touch. The movement.

On the peak, the people who killed the heavenly army and the heavenly palace, their eyes lit up.

These insects killed each other and the whole army was wiped out.

Especially Lu Ming was overjoyed.

Originally he was worried about how to enter the basin, but now it is all right, all the bugs are dead.

However, the people who destroyed the Heavenly Army and the Heavenly Palace did not act rashly and wanted to observe again.

After about half an hour, there was still no movement in the basin.

At this time, some people couldn't help but want to explore.

At this moment, not far away, a figure suddenly appeared.

As soon as this figure appeared, an extremely powerful aura spread out and enveloped this area.

This figure is exactly Yeling Ganliu.

At the scene, everyone was shocked because they felt the pressure of terror.

Everyone's eyes couldn't help but look at Yeling Ganliu.

At first glance, the expressions of the people of Heaven Extinguishing Army changed wildly and became extremely ugly.

Through the breath, everyone knows that this is a strong man in the original realm.

However, this strong man of Origin Realm is actually a Celestial Race.

How could the origin of the Celestial Race come here? Didn't they all go to the area in the center of the core battlefield?

Why did you come here?

Unlike the people who killed the Heavenly Army, the people in the Heavenly Palace were all ecstatic when they saw Yelingan Liu.

"It's Senior Yeling Ganliu!"

"Isn't Senior Yeling Ganliu sitting in the Heavenly Palace? He actually came here. It's great. We can catch all these rebels all at once."

Many people in Tiangong were extremely excited.

"Yeling Ganliu? This person looks somewhat similar to that of the Yeling Tianshou. Is it the father of the Yeling Tianshou?"

Lu Ming thought of this all at once.

Before he died, Ye Ling Tianshou yelled, saying that his father was the Heavenly Lord of the Heavenly Palace, and he would definitely avenge him.

Could it be that the other party came all the way?

Lu Ming's heart sank involuntarily, and backed quietly, trying to hide in the crowd, avoiding Yeling Ganliu's gaze.

But how can it be so easy.

As soon as Yeling Ganliu appeared, Spiritual Consciousness completely enveloped everyone in the Sky Annihilation Army, and the cold eyes scanned the past one by one.

When his gaze swept over Lu Ming's body, two brilliant lights burst out.

"Lu Ming, do you think that if you change your appearance or breath, you can hide it from me? Get out of me and die!"

Ye Ling Gan Liu shouted, killing intent rushing into the sky, and the churning sea water kept tumbling.

"Found it!"

Lu Ming's face was bitter.

Tang Jun, Mo Chang and others also changed their faces.

"Tang Jun, Mo Chang, don't come out, I will deal with it alone."

Lu Ming sent a voice to Tang Jun and the others, and then rushed out of the crowd.
