

D Emperor 4641

Chapter 4641: Clash with the origin

Lu Ming rushed out directly.

He was afraid that staying in the crowd would hurt Tang Jun and others.

The opponent is a strong person in the Origin Realm. Once it launches an attack, it will be extremely terrifying. Below the Origin, it is absolutely unstoppable. At that time, not only he is dangerous, but Tang Jun and others are also dangerous.

He didn't want to harass other people.

After Lu Ming rushed out, he rushed directly to the basin in front.

"Lu Ming, dare to kill Tianshou, I want you to pay for your life!"

Ye Linggan yelled angrily, and his body rushed out, arms like a long sword, slashing down, a sword light slashed towards Lu Ming.

This is a murderous shot by a strong man of the Origin Realm under his anger, and it is beyond imagination.

Lu Ming felt that the space in all directions was frozen. His body was difficult to move, even if he raised his arm.

There is only one fate for him, which is beheaded by this sword.

That's it! Lu Ming is over!

At this moment, whether it was the person who destroyed the heavenly army or the person of the heavenly palace, there was only this thought in his mind.

Facing Yeling Ganliu's sword, Lu Ming could not stop him, there was only a dead end.

"Lu Ming..."

Tang Jun yelled, trying to rush to save people, but it was too late and obviously impossible to catch up.

At this moment, Tang Jun's face was pale. If Lu Ming was killed in front of her, how would she explain to Xie Nianqing?

At this moment, Lu Ming's own pupils also shrank sharply, and he felt a great horror. He had a feeling that no matter how mysterious the forbidden body and how tenacious the vitality, he would die.

This sword can annihilate all his cells together.

The original source realm's attack is really terrifying, far from the **** master realm can compare.

Fortunately, Lu Ming was prepared long ago and was not shocked.

As early as when he rushed out, his spiritual sense was already active in the prey, opening the bronze box.

At this moment, with a thought in his heart, the arm of the king in the prehistoric ring merged into his right arm silently and no one noticed it.

Even Yeling Ganliu didn't find it.

boom!

Melting into the arm of the King of Humanity, Lu Ming burst into a terrifying breath. This breath directly exploded the lock of Yeling Ganliu, allowing Lu Ming to immediately regain his freedom.

Without any hesitation, Lu Ming punched with all his strength and bombarded out.

boom!

The next moment, Lu Ming's fist collided with Yeling Ganliu's sword light, and burst out with a earth-shaking roar, terrifying vigor, sweeping in all directions, the sea violently surging, and the ground below continued to burst and shatter. Stone splash.

"Not good, retire!"

In the surrounding area, the people of the Heaven Extinguishing Army and the Heavenly Palace, their faces changed wildly, and their back legs were crazy, because they felt that the engulfing energy was too terrifying.

Hundreds of figures retreated violently, but some of them had poorer cultivation bases and slower reactions. They were swept by the energy, vomiting blood, and suffered heavy injuries.

This is the result of their distance and retreat in time. If they are closer, they will definitely die and be torn apart by terrible energy.

"So strong!"

Lu Ming now had only one thought in his mind.

He felt that the sword light slashed by Ye Linggan contained terrifying power, and this power was pouring toward him one after another, making him seem to be facing a universe.

Lu Ming shook violently, his body like a meteorite, and he smashed downward.

boom!

Lu Ming fell in the basin and violent vibrations broke out. Crushed rocks splashed. With Lu Ming as the center, small cracks broke open on the ground.

Lu Ming felt a sweet throat, and a mouthful of blood spurted out.

But that was all, most of the power was blocked by the king's arm.

This scene stunned everyone on the scene.

Everyone gazed at Lu Ming for a long time before reacting, and bursts of noise erupted.

"What? Lu Ming blocked him, how could he block Master Tianzun's attack?"

"How is this possible, how is this possible?"

The people in Tiangong roared in disbelief.

The people who destroyed the heavens were not much better, and they were shocked.

Especially Tang Jun, Mo Chang, Feng Yaoli and others felt more intense.

Tang Ju, Mo Chang, and Ronggong knew that Lu Ming was very strong, and he broke out with all his strength, and could kill the nine-fold divine lord. The twin brothers' previous twin brothers' powerful combined attack technique was broken by Lu Ming.

However, the strength that Lu Mingzhan revealed just now far exceeded their expectations.

Being able to kill Divine Master Nine Layers and blocking an Origin Realm's attack are completely different things.

Being able to block the attack of a strong source realm, and only vomiting a mouthful of blood, means that he also has the attack power of the root realm.

Lu Ming, actually has the combat power of the Origin Realm?

how can that be?

Lu Ming is a five-fold divine master.

It seems that they had far underestimated Lu Ming before.

There are almost countless hole cards on Lu Ming, and people will never know the depth of Lu Ming.

Especially those of Feng Yaoli and his team, their faces flushed. When they first met Lu Ming before, they still looked down on Lu Ming, and now they look hot when they think about it.

Yeling Ganliu was also a little dazed.

He didn't expect that Lu Ming could actually block him.

This makes him feel incredible.

At the same time, he was also very shocked, because the aura that Lu Ming exuded just now gave him a sense of fear, as if the lower-ranked people faced the upper-ranked ones.

"This kid, there must be some treasure against the heavens in his hand, which can make a person of the five-fold divine master barely reach the original level of combat power. If these treasures fall in my hands, how can my combat power be increased? How far?"

Thinking of this, Ye Linggan's eyes heated up.

Lu Ming, he must be killed, whether for revenge for Ye Ling Tianshou or for himself.

boom!

Yeling Ganliu stepped out in one step, with a powerful aura, generally rushing towards the landing, the aura was stronger and more terrifying than before.

Before, he hadn't used all his strength.

Let me ask, who would use its full strength to kill a five-fold existence of a divine master from an original source?

Now, Yeling Ganliu burst out in full force.

"Ruined!"

Lu Ming's face was bitter.

He knew the details of his own family. Although he blocked Yeling Gan Liu's move just now, his body's strength was almost drawn by King Ren's arm by more than half, and the remaining strength could only be used in full force at most.

However, one trick doesn't work at all.

Yeling Ganliu didn't use all his strength before, but now he uses all his strength, even if he uses Renwang's arm, he might not be able to stop it.

Even if he could block it, after one move, he no longer had a hole to resist.

Sure enough, facing the existence of the Origin Realm, Lu Ming was still far behind.

Even if the cards are exhausted, it will not help.

Lu Ming felt a little desperate.

This is the first time that he has really faced a strong man in the Origin Realm. Only after personally fighting can he truly understand the horror of the Origin Realm.

That is far beyond the power of the gods.

Chapter 4642: Bug evolution

Lu Ming originally had another trump card, which was the copper coffin, but the copper coffin could not be opened at all.

If the copper coffin can be opened, at least one primitive **** of the main **** level will come out, able to contend against the opponent.

But now, it's not available.

"I can only do my best. I won't give up until the last moment."

Lu Ming's eyes showed firmness.

However, at this moment, not far from Lu Ming, a huge bug suddenly stood up.

This insect was the last one that was killed before, the insect like a mantis.

Previously, the worm had been brutally killed, and his body was scarred and severely injured. After swallowing his opponent's head, it fell to the ground.

Everyone thought that the bug had also been seriously injured and died. Unexpectedly, it stood up again now, and its injuries were completely healed.

Moreover, the breath that this insect exudes is even more terrifying than before.

Evolved!

Lu Ming's first feeling was that this bug had evolved and was even more terrifying than before.

Before Lu Ming smashed into the basin, not far from the bug, at this moment, the bug's two huge eyes stared at Lu Ming, gleaming blood, that was Chi Guoguo's killing intent.

"What a bad luck!"

Lu Ming wailed in his heart.

Just a Yeling Ganliu could kill him. Unexpectedly, another terrible bug came and he was desperate.

However, the bug did not immediately launch an attack. After looking at Lu Ming for a few times, he turned his gaze to Yeling Ganliu.

After seeing Yelingan Liu, the insect's eyes burst with even more intense murderous intent.

Being stared at by this worm, Yeling Ganliu's figure couldn't help but stop, showing a trace of alertness.

Because of this bug, he felt a little pressure.

The gaze of the mantis insects turned around Lu Ming and Yeling Ganliu.

Lu Ming stood upside down, his muscles tense, ready to fight or escape at any time.

But in the end, good luck landed on Lu Ming's head.

The mantis insects finally fixed their eyes on Yelingan Liu and let out a scream. The huge body shot, like a blood-red lightning, broke through the blood-colored sea, and slammed into Yeling Ganliu with two front claws. And out, even sharper than the magic knife.

"Beast, look for death!"

Yelingan Liu roared, arms like a sword, cut out continuously, fighting against the mantis insects, the speed of both sides was very fast, and there were dozens of moves in an instant confrontation.

It was Yeling Ganliu who had the upper hand and beat the mantis insects back continuously.

However, the mantis insect's body was covered with a thick carapace, which was extremely hard. A few swords of light slashed on the mantis insect's carapace, only a few marks were cut out, and it did not break open.

"go!"

Lu Ming's figure flashed, and quickly backed away.

This is a once-in-a-lifetime opportunity. Don't leave at this time, but when will you stay?

He could see that although the praying mantis insects had killed other insects and had evolved, their combat power was only comparable to the original level, and they were not yet Yelinganliu's opponent.

After Yeling Ganliu solved the praying mantis insect, even if he wanted to leave, he couldn't leave.

"Lu Ming, want to go, dream, kill!"

Seeing Lu Ming want to leave, Ye Ling Gan Liu yelled, his brows glowed, and a war sword flew out.

"No, it's a source-level magic weapon!"

Lu Ming's face changed drastically.

Ye Ling Ganliu grabbed the palm of his hand and grabbed the source-level magic weapon war sword in his hand.

boom!

The power of the source is input, and the source-level gods are revived, allowing Yelingan Liu's combat power to rise to the top.

Shoo!

In an instant, hundreds of sword lights burst out, defeating the mantis insect's defense in one fell swoop, and bombarded the mantis insect.

The thick carapace, although extremely hard, could not stop the source-level magical soldiers, was torn apart and shed scarlet blood.

The huge body of the mantis insect smashed directly into the basin.

And the direction he was smashing was exactly Lu Ming.

Obviously, this was intentional by Yeling Ganliu and smashed the mantis insects at Lu Ming.

All this happened too fast and was completed in a flash.

Even if Lu Ming started to retreat, he didn't withdraw far, and he was still in the area of the basin.

Facing the smashed mantis insects, Lu Ming increased his speed to the extreme, cast a great aurora technique, and moved laterally to one side.

Huh!

Lu Ming moved tens of thousands of meters away, and then with a loud boom, the mantis insect hit the ground heavily, several times stronger than the power Lu Ming had hit before.

The earth roared, with the praying mantis insects as the core, the ground was constantly bursting, thick cracks spreading.

This is not over yet.

Yeling Ganliu's power broke out, the source-level magic weapon long sword in his hand turned into a flash of light, and it flew towards the mantis insect. With a snorting, the source-level magic soldier war sword pierced the head of the mantis insect and nailed the mantis insect. On the ground.

The long sword pierced the ground, and the terrifying power of destruction erupted, and the ground exploded more violently.

Rumble!

A series of huge cracks formed, from the cracks, a thick **** mist rushed out.

"this is..."

Lu Ming's pupils contracted.

The underground of this basin seems to be empty.

They were bombarded by their powerful forces one after another, and the ground was pierced.

boom! boom! boom!

The ground continued to explode, and the rocks shattered into small pieces and fell downward.

Below, there is a dense forehead light that diffuses out.

Lu Ming looked down, and the bottom was really empty.

The whole basin is empty.

At this time, in the prey, the human king's arm vibrated more violently.

"Could it be that the other parts of the human body are just below this?"

Lu Ming's heart moved, this is very possible.

Ye Linggan's brows were also frowned, and he looked down and grabbed his palm in the air. The source-level magic weapon war sword returned to his hand.

The mantis insect had been completely killed, and the corpse followed the rock and fell downward.

"kill!"

Yeling Ganliu coldly drank, holding the war sword in his hand, and slashed towards Lu Ming.

The horror of the sword light made Lu Ming's heart chill.

Lu Ming didn't hesitate, and rushed directly down, using the scattered rocks to resist the sword light of Yelingan Liu.

Yeling Ganliu's sword light slashed on the scattered rocks. The rocks were blasted to pieces. The sword light kept on cutting down, and quickly approached Lu Ming, as if locked in Lu Ming. Lu Ming There is no way to avoid it.

"Block!"

Seeing that he couldn't dodge, Lu Ming could only resist. He put all the remaining power into the king's arm, stimulating the strength of the king's arm, and punched it out.

boom!

The second time the two confronted, there was another earth-shaking roar, and Lu Ming vomited blood, his body falling down like a bolt of lightning.

Fortunately, when Yeling Ganliu's sword light slashed in front of Lu Ming, it was blocked by multiple rocks, which had already offset part of his power.

Otherwise, Lu Ming may not be able to stop him.

Chapter 4643: Blood coffin

Yeling Ganliu's sword was urged to cut out by the source-level gods, and it was much more powerful than the sword that slashed towards Lu Ming with his arm at the beginning.

Lu Ming couldn't stop it even if he used the King's arm. However, after being blocked by multiple rocks, Lu Ming blocked the sword, but the injuries he suffered were heavier than before.

Lu Ming's figure quickly fell downward.

He can only hope that there will be a turning point below.

"Hmph, see how you can block me."

Yeling Ganliu snorted coldly, and rushed down, quickly chasing Lu Ming.

In a blink of an eye, the two of them dropped thousands of miles in depth.

"That is..."

Suddenly, Lu Ming's pupils shrank.

He saw below, there was actually a blood coffin.

The blood coffin seems to be made of a peculiar rock, and it is blood red.

But now there are cracks on the blood coffin, covering the whole blood coffin.

A powerful force filled the blood coffin.

In Lu Ming's right arm, King Ren's arm became hot, and he kept beating, as if he was about to fly away from Lu Ming's arm.

"It's here. The other parts of the human king's body are in this blood coffin, but how do you get it? Do you want to open this blood coffin?"

Lu Ming's thoughts changed sharply, but there was not much power left in his body right now, and I was afraid that he couldn't open it up.

Click!

In the blood coffin, there seemed to be something to rush out, constantly impacting the blood coffin, causing more and more cracks in the blood coffin.

At this time, Yeling Ganliu was also approaching, and his gaze couldn't help looking at the blood coffin.

However, he just glanced at Lu Ming again, full of murderous intent.

Although he was very curious about the blood coffin, he now decided to kill Lu Ming first, and then observe the blood coffin carefully.

Characters like Lu Ming have deep luck and are too difficult to deal with. As long as they are not killed for a moment, there may be accidents.

Just like before, he only delayed for a while, and suddenly a powerful insect appeared, allowing Lu Ming to survive.

He did not intend to give Lu Ming any chance.

"Not good, spell it!"

Lu Ming was also very decisive.

He knew that facing Yeling Ganliu, it would be impossible to escape, and he would definitely not be able to escape. Only desperately could make a difference.

This blood coffin looks very strange and may be dangerous.

But the danger also represents a turning point. Lu Ming plans to open this blood coffin desperately

"Lu Ming, you are looking for death!"

Yeling Ganliu also saw through Lu Ming's thoughts, roared, and slashed towards Lu Ming.

The terrifying sword light quickly slashed towards Lu Ming. Lu Ming's whole body was locked by the powerful force, and his body was stiff in the air, unable to move.

"Ruined!"

Lu Ming's mouth was bitter.

He has tried his best, but it still doesn't work.

At this moment, he no longer has the power to urge King Ren's arm. By himself, he can't stop the opponent's attack.

He is unwilling to die here.

If he is killed, all the treasures on his body will fall into the hands of Yeling Ganliu, thus enhancing the power of the Celestial Race.

Also, the ball will fall into the opponent's hands.

However, he has no choice.

However, the sky is infinite.

At this moment, the human king's arm on Lu Ming's arm vibrated more violently, and it seemed to resonate with the things inside the blood coffin, making the force of the blood coffin shocking outwards even more terrifying.

Click!

bump!

The cracks on the blood coffin increased sharply, and in some places, they continued to explode, exploding holes.

An incomparably powerful force rushed out of the blood coffin and rushed in all directions.

Strong, too strong.

The force rushing out of the blood coffin was astonishingly strong, and it gave Lu Ming a feeling that it was stronger than the sword light that Ye Linggan Liu slashed at him.

However, the human king arm on the right arm radiated a burst of energy spontaneously, spreading all over the body from the right arm, and when the energy rushed out of the blood coffin rushed to Lu Ming, it was like a face of a Qingfeng Buddha. Inflicting a bit of damage, it passed over Lu Ming's body and collided with the sword light that Yelingan Liu slashed.

The two energies collided terribly. In the end, the sword light slashed by Yeling Ganliu, violently shook, collapsed and became invisible.

The terrible energy continued to sweep towards Yelingan.

"Damn it!"

Ye Ling Gan Liu roared, extremely unwilling.

He was decisive enough, and directly attacked Lu Ming. He wanted to kill Lu Ming first, but something changed.

The power in the blood coffin was so terrifying that it directly smashed his full strength.

This kind of power, even he was frightened, to avoid it.

However, Lu Ming did nothing at all, making him angry, extremely unwilling.

He quickly backed away, but that power continued to rush towards him, and he slashed several swords in a row without blocking this power.

"Damn it, Lu Ming, you wait for me!"

Ye Ling Gan Liu shouted unwillingly, and then rushed to the top. Before the energy of the blood coffin rushed, he rushed out of the basin.

Rumble!

The energy in the blood coffin also continued to rush in all directions, causing the earth to vibrate violently. There was also energy, rushing out of the basin, breaking through the clouds, and then spreading around.

"what is that?"

"It's scary, even Yelingan Liu escaped just now."

"Retreat, we retreat, even the strong in the Origin Realm can't resist, we retreat!"

Many people yelled and backed away frantically.

"Lu Ming..."

Mo Chang and others looked very ugly.

The others shook their heads and sighed.

They all thought that Lu Ming was dead.

Yeling Ganliu chased him down, Lu Ming may have been killed by Yeling Ganliu.

Even if he was not killed by Ye Ling Gan Liu, the energy rushing from below was so terrifying, even Ye Ling Gan Liu wanted him to escape, but he did not see Lu Ming's figure. Lu Ming's end can be imagined.

"No, Lu Ming is very lucky and will never die so easily. I have seen him face many desperations and survived by him. This time it is the same. We retreat one after another..."

Tang Jundao, his eyes firm.

She knew Lu Ming very well, and she found that Lu Ming had the characteristics of her father, who had strong luck, and could always survive from desperation.

Faced with numerous difficulties before, they all survived.

This time, she also believed that Lu Ming would not die.

Tang Jun and the others also retreated quickly and moved far away.

Below the basin, Lu Ming stood near the blood coffin and observed carefully.

There were more and more cracks in the blood coffin, and more and more energy rushed out, becoming more and more terrifying.

If it hadn't been for the energy of the king's arm to protect him, under such terrifying energy, Lu Ming would be certain that he had been destroyed and no cell would remain.

"In this, are there really other parts of the king's flesh?"

Lu Ming whispered, his eyes fiery.

Click!

Click!

The blood coffin did not break open, and the blood-colored stones continued to burst.

After a while, with a touch, the blood coffin burst open completely.

Chapter 4644: A rapidly expanding halo

When the blood coffin burst open completely, a more terrifying energy swept out.

This energy swept in all directions, causing the entire seabed of the Immortal Blood Sea to vibrate violently, and the sea water rolled and stirred up waves.

The terrible power made the people of the Heavenly Palace and the Heaven Extinguishing Army retreat again and again.

Even Yeling Ganliu quickly backed away, daring not to stop too close.

However, this stock still did not affect Lu Ming.

Lu Ming's eyes widened, staring at the place where the blood coffin burst, with hope in his eyes, hoping that the other parts of the human body were inside.

However, he was disappointed.

Among the blood coffins, there are no other parts of the king's body, some are just a ball of light.

At first, this ball of light was only the size of a fist, but in the next moment, it suddenly swelled up and quickly became bigger.

From the size of a fist to the size of a basketball quickly, then the size of the water tank...

Keep getting bigger.

Lu Ming sent, this light ball is strangely long,

It is composed of eight halos.

These eight halos have different angles, and each of the eight halos is the same at two angles, dividing the entire void into eight.

In the middle of the eight auras, there seems to be a world, protected by the eight auras.

So from a distance, the eight halos looked like a ball of light.

The speed at which the halo grew larger continued, and soon he approached Lu Ming, as if a world was rapidly colliding and becoming bigger, driving the force that squeezed outward.

Lu Ming was squeezed out by this outward squeezing force, backing again and again.

Fortunately, although this force of squeezing outwards was strong, it was only squeezing outwards at a speed, and did not burst out all at once. The destructive force was not particularly violent, and Lu Ming still supported it.

"No, there really seems to be a world among these eight auras. This world will emerge from the trap, and it will quickly become bigger and change to the original state. I must leave quickly. If the power of this world expands me Squeezed onto the continent of Qianqiu Battlefield, I am afraid I will be squeezed to death..."

Thinking of this, Lu Ming no longer hesitated, soaring into the sky, rushing out of the basin.

After Lu Ming rushed out of the basin, his gaze swept away, but no other figure was seen.

Yeling Ganliu, and others, seemed to have retreated far.

Lu Ming moved in his heart and came to another direction in the basin.

Rumble!

In the next moment, the ground vibrated violently, and cracks opened in the basin, and the cracks quickly increased in length and extended to the distance.

"It's still colliding quickly. This world should have been sealed in the blood coffin before, and the compressed is very small. Now it is going to be restored to its original state. But this is in the middle of the Qianqiu battlefield. It is directly expanded like this. Want to forcibly tear apart the continent of Qianqiu Battlefield?"

Lu Ming was a little shocked.

boom! boom! ...

The ground roared and the rocks burst. Lu Ming saw that the basin was completely opened. Two huge cracks, centered on the basin, spread out to the distance.

A huge halo edge emerged from the bottom of the basin.

The entire seabed of the Immortal Burying Blood Sea was shaking violently, and the sea was rolling.

Not only that, the Qianqiu battlefield shook.

At this moment, the people on the entire Qianqiu battlefield were shocked, not knowing what happened.

The halo expands extremely fast, the further it goes, the faster it gets, the bigger it expands, the faster it gets...

It was just a delay of a few breaths, and several auras had already been exposed, and the ground was completely stretched and separated towards the two sides.

A piece of land was opened from the middle, and with this as the center, the cracks grew bigger and bigger.

go!

Lu Ming flew rapidly towards the distance. After flying for a certain distance, Lu Ming stopped and found that the halo was still rapidly expanding.

At this moment, the diameter of the halo is at least 100,000 li, but it doesn't mean to stop at all, and the speed of expansion is faster than before.

"What is that?"

"It seems to have emerged from that basin. This is to tear the Qianqiu battlefield apart!"

"It's getting close to us, let's go."

The people buried in the blood sea bottom, the heavenly palace, and the exterminating army originally watched from a distance, but now they dare not stay and continue to retreat into the distance.

Ye Ling Gan Liu was unwilling, staring at the direction where the halo was squeezed from, but did not see Lu Ming's figure.

"what is this?"

Yeling Ganliu's eyes glowed, and his eyes were like stars, seeming to penetrate the halo and see the things in the halo.

However, at this time, the center of the halo became pitch black, like a black hole, even with the vision of his original realm, it could not be penetrated completely, and he could only vaguely see that there was a world inside.

"A piece of the world, among the continents that actually sealed the Qianqiu Battlefield, the Qianqiu Battlefield was an important place in the last epoch. This continent is absolutely extraordinary."

Yeling Ganliu's thoughts turned sharply, and then showed a greedy color, and did not go backwards like others. He wanted to explore, it is best to rush into the halo and enter the world in the halo.

Soon, the halo approached Yelingan Stream.

Huh!

Yeling Ganliu rushed directly towards the halo, opening the way with the source-level magic weapon, the human sword is one, and he wants to rush into the world in the halo.

However, when he was in contact with the halo, an immense force rushed towards him, and Yeling Ganliu's body couldn't help but flew backwards, flying hundreds of thousands of miles before stopping. His face was a little pale, almost a mouthful of blood.

"What a strong power, this seal is too strong, I can't break it at all."

Yeling Ganliu thought with a gloomy face.

Rumble!

The halo expanded faster and faster, and the entire sea of blood buried in immortals was completely torn apart. The huge halo was already half the sea of blood buried in immortals.

And, it is still expanding rapidly.

At this time, the entire continent was shaking violently, and countless insects roared manically.

The masters of the Heaven Extinguishing Army and the Heavenly Palace were all shocked, whether they were the masters stationed in the fortresses of the two sides or the masters who entered the central area of the core battlefield.

As long as they were on this main continent, they were all shocked.

"What's the matter? Why is the mainland shaking so violently, as if it is about to collapse!"

"Could it be that there are peerless powerhouses fighting?"

"Is there any strong person with such a powerful strength? It can cause such a shock. This is not the prehistoric universe, this is the battlefield of Qianqiu."

Many people yelled.

The Qianqiu Battlefield is an important place left over from the last era, filled with endless killing intent and evil spirits. There have been countless strong men who have died in battle here, but it is not so easy to destroy.

Even if the strong of the Origin Realm fight here, the damage caused is very limited.

Who can cause such a shock.

"That direction seems to be the direction of the Sea of Blood Burying the Immortals. Could something happen over there? Go and see!"

The masters of the Heavenly Palace and the Exterminating Army rushed to the Sea of Blood Burying.

Chapter 4645: The Qianqiu battlefield is torn apart

When the two masters arrived, they had not seen the sea of blood buried in immortals, only a huge ball of light emerged from the middle of the continent. With this as the center, the main continent of Qianqiu Battlefield was torn out. A huge crack.

Moreover, this crack is still spreading rapidly.

The ball of light is still growing rapidly.

"What is this?"

Many people are dumbfounded, including those who are strong in the original realm.

"It's Lord Tianzun!"

"It's Senior Xinghuo Yuanzun!"

The people of the Heavenly Palace and the Heaven Destroying Army discovered the strong source of their power, and flew towards them one after another.

On the side of the Heaven Extinguishing Army, there were also several strong people in the Origin Realm.

Tang Xiao, Xinghuo Yuanzun, Liu Minyuanzun, etc.

"Second sister, what is going on?"

Tang Xiao saw Tang Jun and asked quickly.

"Specifically, we don't know what's going on, it's like this..."

Immediately, Tang Jun explained in detail what they knew.

"Lu Ming..."

Tang Xiao's expression changed, revealing a worried expression.

"I don't know if all this has anything to do with Lu Ming, but I believe that he will be fine. That guy has a lot of luck and he won't die that easily."

Tang Jundao, his eyes firm.

"Lu Ming may have entered that halo, let me check it out!"

Tang Xiao said, rushing towards the halo, but like Yeling Ganliu, Tang Xiao was also rushed out and suffered some minor injuries.

On the other side, the strong who came to the palace also knew what was going on. They also wanted to attack, but they were also bounced off.

Near the halo, Lu Ming was still flying towards the outside.

"This halo is getting bigger and bigger. This is to spread the entire continent. It is not suitable to stay here for a long time. I should leave now!"

Lu Ming exploded at full speed and flew towards the distance, pulling away from the halo.

At the same time, Lu Ming used the big imitation technique to change his appearance and breath. At the same time, he used the big concealment technique to hide his body in a huge rock and manipulate the rock to fly far away.

He was mainly afraid that Yelingan Liu would look for him.

In fact, Yeling Ganliu was indeed looking for Lu Ming everywhere.

He flew around around the light circle, as long as he found Lu Ming, he would kill Lu Ming.

"No, that Celestial Clan Tianzun has always wanted to kill Lu Ming. He was the one who chased Lu Ming before."

When Yeling Ganliu flew past Tang Jun and the others, Tang Jun cried.

"It turned out to be this guy, I went to kill him!"

Tang Xiao spoke indifferently, and flew out like a bolt of lightning, slashing towards Ye Ling Gan Liu with a sword.

Yeling Ganliu was shocked and took out a source-level magic weapon to resist.

With a bang, the two made a right move, and Ye Ling Gan Liu's body shook violently, and his body fluttered back, coughing up blood.

He held the sword's arm, trembling non-stop, dozens of small sword wounds appeared on his body, and blood kept flowing.

Obviously, Yeling Ganliu's combat power was far worse than Tang Xiao, and he was hit hard with one move.

"kill!"

Tang Xiao shouted and wanted to continue to kill Yeling Ganliu.

Yelingan showed horror, turned around and ran, ran towards the heavenly man, escaping and calling for help.

"Tang Xiao, your opponent is me!"

"I will meet you!"

On the Tiangong side, several Yuanyuan shouted and rushed towards Tang Xiao.

"Does more bullying less?"

Xinghuo Yuanzun, Liu Min Yuanzun also yelled, and rushed to the heaven.

boom! boom! boom!

Then, a few strong men from the Origin Realm made a few moves, and broke out with a earth-shattering roar.

In this way, Yeling Ganliu was also saved, and he successfully escaped and mixed with the strong of the heavenly palace.

The origins of the two sides were right, and they both retreated and did not continue to fight.

Now, when it is not time for a duel, neither side is sure.

Their attention is in that halo.

With their original vision, they could still vaguely see a continent in the dark area in the middle of the halo.

They are very curious about what will happen in this continent.

However, there were a few tricks from the Origin Realm powerhouse here, and the roar that broke out was heard by Lu Ming in the distance.

"Such a fierce battle with the existence of the Origin Realm. It seems that the masters from other places have been attracted, and the origin of the Heaven Extinguishing Army must have arrived, in the past..."

Lu Ming continued to use the big hiding technique, hiding in a rock, and flew in the direction of the explosion.

After a while, Lu Ming saw Tang Xiao, Tang Jun and the others.

Lu Ming directly disarmed the Great Concealment Technique and the Great Imitation Technique, and flew towards Tang Xiao and others.

"It's Lu Ming!"

"It's really him, he is fine!"

Mo Chang, Rong Gong and others immediately discovered Lu Ming, and they were all overjoyed.

Tang Xiao's face also rarely showed a hint of joy.

"Lu Ming, I knew that your kid will have a big life and nothing will happen."

Tang Jun smiled.

"lucky!"

Lu Ming smiled slightly and came to Tang Xiao and the others. He finally relaxed, but he recovered with peace of mind.

In the distance, Yeling Ganliu and others also saw Lu Ming.

"Damn little crap..."

Ye Ling Ganliu roared in his heart, wishing to kill Lu Ming, but now there are Tang Xiao and others beside Lu Ming, he knew that he would definitely not be able to kill.

Can only endure aggrieved.

Rumble!

The mainland continued to vibrate, and was constantly torn apart by an ever-increasing halo, and the people who destroyed the heavenly army and the heavenly palace kept retreating.

Over time, more and more people come here.

Finally, even the masters of the two sides stationed in the fortress came.

Mainly, the vibration is too big.

This process lasted three days and three nights.

Yes, for three days and three nights, that halo is constantly getting bigger.

In the end, the whole continent was torn apart abruptly, and it was divided into two halves from the middle. The everlasting battlefield of Qianqiu has undergone earth-shaking changes.

And between the two main continents, that huge halo was suspended in the void.

Looking from a distance, you can see the eight halos encircling at different angles, which is extremely gorgeous and eye-catching.

In the middle of the eight halos, there was pitch black, like a black hole, with Lu Ming's eyesight, it was impossible to see through.

In fact, by this time, even the existence of the Origin Realm can't be seen through.

But they can be sure that in the darkness, there is a continent.

Eight halos, like a certain formation or a certain sealing power, sealed the mainland in the middle.

At this time, the expansion of the halo finally stopped.

"The human king's arm shook so badly. The other parts of the human king's body are in this halo... But how can I get it?"

Lu Ming had thoughts in his heart.

Before, he had put human arms into the bronze box in the ring.

At this time, the reaction of King Ren's arm was unprecedentedly strong.

The bronze box directly told that the other parts of the human body were in this halo.

Chapter 4646: Four gods gather

Lu Ming is a little big head, in this halo, now so many masters are here, how can he get it?

The point is that you can't enter the world in that halo at all.

wrong!

Lu Ming's eyes flashed.

I couldn't get in before because the halo was colliding sharply, which produced a strong outward impact.

Now that the halo expansion has stopped, can I get in?

Lu Ming is not the only one who has such an idea.

Many people have such thoughts on both sides of the Heaven Extinguishing Army and the Heavenly Palace.

"I'll try it!"

Xinghuo Yuanzun spoke and flew towards the halo.

On the other side, Tiangong also sent a master of Origin Realm, flying from another direction towards the halo.

Xinghuo Yuanzun quickly approached the halo, and then entered the halo cautiously.

In the beginning, there was no anomaly, and there was no power to attack the Starfire Source Master.

"Can enter!"

On the side of the Extinguishing Army, many people's eyes lit up.

Xinghuo Yuanzun continued to test and flew deep, trying to enter the continent in the middle of the halo.

But the next moment, Xinghuo Yuanzun seemed to have encountered something terrifying, his figure retreated violently, and he retreated to the vicinity of Lu Ming and the others, his face pale, and he looked terrified.

"Xinghuo, what did you find? No, how did your root cause become weak?"

Tang Xiao asked with a change of expression.

"You found it!"

Xinghuo Yuanzun smiled bitterly, and said: "The eight auras are not ordinary auras, but a powerful formation that has the effect of sealing, and at the same time, it can deprive the entrant of the source of origin!"

Tang Xiao and other strong people in the Origin Realm, and many **** masters, their expressions became ugly.

The source root is the foundation of the strong source realm.

It is the root of the strong in the original state, and that halo can actually deprive the strong in the original state of the root, which is terrifying.

"That aura seems to be able to deprive the source of the original state of existence to strengthen my own strength. I was lucky to retreat just now, otherwise, my source of origin will be abolished. Even so, I will lose a lot this time. , There are not ten sidereal years, never want to return to the previous level."

Xinghuo Yuanzun smiled bitterly.

At this time, the same scene happened on the Tiangong side.

The origin of Tiangong also retreated in fear, and part of his origin was also absorbed by the halo.

As a result, the Heavenly Palace and the Heaven Extinguishing Army both dared not take any more actions, and just watched around the halo.

They also did not send people from the Divine Realm to test.

People in the Origin Realm are in danger when they enter. Although the God Lord does not have the origin and will not be deprived of the origin, who knows if there will be other dangers?

Therefore, both parties chose to send the news back.

The people of Tiangong sent the news back to the headquarters of the four heavenly palaces.

The people of the Exterminating Army also sent the news back to the station of the Exterminating Army.

Then, the two people surrounded the halo and waited quietly.

In the prey, the king's arm was still shaking.

Lu Ming didn't act rashly. With so many eyes watching, he wanted to act alone, which was obviously unrealistic.

Moreover, he didn't know what dangers existed in the halo. Even the strong in the Origin Realm would be dangerous. If he rushed in, he probably wouldn't even be left behind.

Let's just watch the changes.

...

Ziwei Tiangong, in a secret chamber.

There are two stone platforms in this secret room. On each stone platform, a bronze box is placed.

If Lu Ming were here, he would be surprised, because these two bronze boxes were almost exactly the same as the one he got.

At this time, the two bronze boxes suddenly vibrated, emitting a brilliant glow.

On one side of the secret room, there are two Celestial elders with white hair. Before, the two elders had closed their eyes for a thorough repair. At this time, they suddenly opened their eyes, revealing a look of surprise.

"What's the matter? The human body, why is there something abnormal?"

"Unexpectedly, open it and have a look!"

Two celestial elders got up and opened the two bronze boxes.

A stone arm and a leg are contained in two bronze boxes.

One is the left arm and the other is the left leg.

These are actually two parts of the human body.

They are the left arm and left leg of the human body.

At this time, Renwang's left arm and Renwang's left leg vibrated endlessly, faintly pointing in one direction.

"Box, what's going on? The human body, why is there such an abnormality?"

One of the Celestial elders asked about two bronze boxes.

"That's because the other parts of the human king's body were born!"

A sentence emerged from one of the boxes.

"Some other parts of the human king's body appeared? No, there were other parts before. The human king's body did not have such abnormalities?"

An old man said.

"This time is different. This time, it is very likely that the torso of the human body was born. Therefore, the left arm and left leg of the human body will be so abnormal."

A sentence appeared on the second box.

Then, a sentence appeared in the first box immediately: "Only when the limbs and head of the King are born together, and resonate together, will the torso of the King appear on its own."

"what?"

The two celestial elders were taken aback.

In this way, the limbs and head of the human body were all born, but their heavenly palace only got the left arm and left leg.

Who has to go to the other three?

The first thing they thought of was destroying the heavenly army.

In the primordial universe, besides destroying the heavenly army, what other forces can compete with the heavenly palace?

"This matter must be reported to Lord God immediately!"

An old man said.

"Well, you are watching here, I will report it immediately!"

After the other old man finished speaking, he went out.

Soon after, the old man saw the lord of the crape myrtle palace and reported the matter truthfully.

The lord of the Ziwei Heavenly Palace, middle-aged, with sharp edges and corners, and his brows as swords. He just sat quietly on it, but there was an overwhelming aura permeating the world.

Let people stand unsteadily in front of them.

This is the lord of the Ziwei Palace, the true overlord of the prehistoric universe.

Only the lord of the other three heavenly palaces can sit on an equal footing with him in the entire primordial universe.

"I see, go down!"

The Lord of Ziwei Heavenly Palace's face was calm, so he waved his hand to make the old man retreat.

"It's finally this day!"

The lord of the Ziwei Tiangong whispered, and then took out the dream jade, three news came out.

These three pieces of news were passed to the lord of Dream Palace, the lord of Hongmeng Palace, and the lord of Shenji Palace.

"Old ancestor, it's time to leave the customs, I don't know if ancestor has succeeded?"

After the news came out, the lord of the Ziwei Tiangong muttered to himself, then got up, stepped out, and the person disappeared without a trace.

Dream Temple, Dream Mountain, this is the most important forbidden place in Dream Temple, there is no one.

Around here, is shrouded by heavy arrays, and there are many strong men in the heavens guarding it.

In normal times, except for the Lord of the Dream Palace and a few top-level Heavenly Lords who can enter, no one else can enter.

On this day, the four great gods come together.

Chapter 4647: No. 1 Master of Celestial Race

The four gods joined together to enter the dream fairy mountain, waiting at the entrance of a cave on the dream fairy mountain.

The four gods stood in a row, looking at the direction of the cave with respect.

If it were seen by other people in the universe, it would be eye-popping.

Who are they? Lord of the four heavenly palaces, the true master of the primordial universe, an invincible figure forever, the true overlord of the universe.

The four of them are actually waiting for someone respectfully, even if they say it, no one will believe it.

Click!

At this time, the stone door of the cave opened, and a young man from the Celestial Race walked out of it.

The young man looks very young, only in his twenties, and his cultivation level is not particularly high, only in the realm of the gods, but the four gods saw this young man with extremely respectful faces, and bowed down: "Junior, see Patriarch!"

"One hundred thousand years ago, I said before retreating that I would wake me up when the human body became abnormal. Now you wake me up, is it the human body that is abnormal?"

The young man spoke lightly. Even when facing the four gods, he was still aloof, as if the elders were looking down on the younger ones.

And the four gods do not have any angry or unhappy expressions, as if all this is taken for granted.

"The ancestor, the left arm of the king of humans and the left leg of the king of humans are abnormal, shaking constantly, pointing out a direction, and the bronze box said, this is the torso of the king of humans, and only the limbs of the king of humans and the head appear together. , The human king's torso will emerge."

The lord of the crape myrtle palace replied respectfully.

They are well aware of the origin of this 'young'.

This young man is an ancestor of the Celestial Race, and is the first ancestor in the history of the Celestial Race to control the power of the perfect Celestial Race. He is known as the first strongest in the history of the Celestial Race.

In the history of the Celestial Race, there have been three peerless geniuses who control the power of perfect heaven.

The one in front of you is the first one.

This person is already very, very old, and his cultivation has reached an incredible level.

But later, this old ancestor encountered a bottleneck in his cultivation and was restricted by the universe, so he used heaven-defying methods to reincarnate himself.

However, reincarnation is too bad after all. One carelessness will completely perish in reincarnation. Although the ancestors of the Celestial race succeeded, they also left a lot of hidden dangers. Therefore, they chose to retreat one hundred thousand years ago. Repair hidden dangers.

Before the retreat, he once said that if there is no abnormality in the human body, there is no need to wake him up.

"Oh, the limbs and head of the human king's body are all present. It seems that the so-called Celestial Destroying Army has gained a lot of money. Fortunately, this time I will move around and take the opportunity to control all the human king's body in my hands."

The ancestor of the heaven and human race.

"Ancestor, have you completely repaired the hidden dangers left by your reincarnation?"

Ziwei God Road.

"It's still a bit short, but it's okay, and it won't hinder my performance."

The old man of the Celestial Race chuckled and grabbed the empty palm of his hand. The four most powerful heavenly powers diffused out, jumping in the palm of his hand without a trace of obstacles. The four powers seemed to be one.

The masters of the four heavenly palaces all showed admiration and admiration.

The power of the perfect heaven is their unattainable power.

The four great gods only control the three powers of the strongest heavens.

This requires talent and cannot be forced.

"Take me to take the left arm of the King of Humans and the left leg of the King of Humans, and, do you know where the torso of the King of Humans was born?"

Asked the ancestor of the Celestial Race.

"Not long ago, I got news that the Qianqiu battlefield has undergone earth-shattering changes. A sealed continent emerged from the continent of the Qianqiu battlefield. According to the direction that the king's left arm and the king's left leg point, it should be the Qianqiu battlefield."

The Lord of Ziwei Temple answered.

"Qianqiu Battlefield? Very good, and my name is called in the back, yeah immortal!"

The Celestial Ancestor stepped out, and a faint voice sounded.

...

Ye Immortal, the lord of the four heavenly palaces, came to the secret room of the Ziwei Tiangong, and saw the left arm of the King of People and the left leg of the King of People.

"The human king's flesh body is not a peerless Tianjiao. The power that controls the top level cannot be moved. My current cultivation base is only the sixth level of the gods. I can only move one left leg or one left arm. The other one needs to find another peerless genius. Push, what outstanding genius has been born in our clan over the years?"

Celestial ancestor Ye Immortal Tao.

"Yes, our clan gave birth to a masterpiece of heaven, named Ye Qiuxian, who, like the old...immortal son, controls the perfect heavenly power."

The lord of the Ziwei Tiangong replied respectfully.

"what?"

Hearing this, the eyes of Ye Immortal burst into bright light.

"The power of perfect heaven, I didn't expect that in this generation, there will be another power of perfect heaven. OK, very good, take me to see him!"

Ye Immortal said, with a wave of his hand, he put away the two bronze boxes.

"Prince Immortal, Ye Qiuxian is in the Ziwei Temple, I will take you there."

The main way of Ziwei Temple.

"Several of you, go back and make arrangements, draw the strong ones, and prepare to go to the Qianqiu battlefield. Remember, the human body is the most important thing. You can ignore other places. Try to draw as many masters as you can to the Qianqiu battlefield, understand?"

Ye Immortal ordered.

"Yes!"

The other three gods took their orders and left soon.

The Lord of the Ziwei Heavenly Palace gave an order to start summoning masters, and took Ye Immortal to find Ye Qiuxian.

Since the battle of the Supreme Immortal City, Ye Qiuxian has shown amazing talent and his status has risen. He has undoubtedly become the first person in the young generation of Tiangong.

Controlling the power of the perfect heaven, there are only three in the history of the heavenly human race. Naturally, Yaqiuxian has been fully cultivated by the heavenly palace. What resources are needed and what resources.

With the accumulation of massive resources, coupled with the talent of Ye Qiuxian himself against the sky, the speed of his progress was amazing. Now, his cultivation base has reached the sixth stage of the Divine Lord.

This speed is faster than Lu Ming.

Of course, Lu Ming's resources are all obtained by himself, and the heavenly palace has countless resources of Yeqiuxian.

In addition, his talent is really amazing, and he has also condensed the original seed, the direction is clear, and the accumulation of resources, the cultivation base can continue to improve.

"Yeqiuxian, see Lord God!"

Seeing the Lord of the Crape Myrtle Palace came, Ye Qiuxian respectfully saluted.

Although his talent was rare for the Celestial Clan in ancient times, he did not have a great success after all, and he did not dare to neglect to see the Lord of the Heavenly Palace.

"Very good, very good. Your cultivation level has reached the sixth level of the divine lord. It will not take long to break through the seventh level of the divine lord. Breaking through the original state is just around the corner."

The lord of the Ziwei Temple nodded, very satisfied with Ye Qiuxian, and then introduced: "Ye Qiuxian, this is the immortal son, see you soon."

Chapter 4648: Perfect to perfect

Ye Qiuxian frowned slightly and glanced at Ye Immortal.

The same is the younger generation of Celestial Race, let him visit Ye Immortal?

Among the younger generation of the Celestial Race, is there anyone who deserves his respect?

However, looking at the face of the Lord of the Ziwei Heavenly Palace, Ye Qiuxian held a fist casually and said, "I have seen Brother Immortal!"

Ye Qiuxian's attitude suddenly changed the face of the Lord of the Ziwei Heavenly Palace, and he scolded: "For immortality, you are presumptuous, what is your attitude? Hurry up and apologize to the immortal son."

"I..."

Ye Qiuxian was also a little confused.

The lord of Ziwei Palace, what's going on? Ever since the battle in Immortal City, Ye Qiuxian has shown his unparalleled talent. The top level of the palace, including the great gods of heaven, have been very polite to him and cared for him. They have never scolded him like this. Today, it is because of another A young man, scolding him like this? Is the role of the other party bigger than him?

Moreover, the master of the dignified heavenly palace, in front of Ye Immortal, looks a little humbling, which makes him incredible. What is the origin of this Yeqiuxian?

"Yeqiuxian, I tell you, in the future, you will follow the immortal son honestly and listen to his instructions. If he can point you, it will be a blessing for your life."

The Lord of Ziwei Tiangong continued.

At this moment, Ye Qiuxian was completely blown up.

It doesn't matter if you have a lower attitude towards Ye Immortal. In the future, you will let him follow behind Ye Immortal and listen to the other party's instructions. How is this possible?

Who is he?

There are only three peerless heavenly arrogances in the history of the Celestial Race who control the power of the perfect heaven. Once a big city, they can run rampant in the universe, almost no one is invincible. When the time comes, even the Lord of Heaven will have to lower his head.

But now, let him listen to the instructions of another young man, his pride and self-esteem are absolutely not allowed.

"God, if you want me to listen to his instructions, it depends on his qualifications."

Ye Qiuxian said coldly.

In his eyes, the younger generation of the universe had only the taboo body Lu Ming, who could sit on an equal footing with him. Other so-called tianjiaos were not in his eyes, including the immortality.

If it weren't for the fact that the Lord Ziwei is very respectful to Ye Immortal, and Ye Qiuxian is a little bit incomprehensible, he might directly suppress Ye Immortal.

"Yeqiuxian, you are bold..."

The Lord Ziwei yelled, cold sweat oozing out of his forehead, Ye Qiuxian actually dared to question whether Ye Immortal had this qualification, and based on his understanding of Ye Immortal, he was really afraid that the other party would directly abolish Ye Qiuxian.

Ye Immortal raised his hand and interrupted God of Ziwei, with a smile, seemingly not at all angry.

"It seems that you are very unconvinced with me?"

Ye Immortal looked at Ye Qiuxian with a smile.

"This world, after all, has to speak with strength."

Ye Qiu Xiandao.

Although he couldn't guess the identity of Ye Immortal, and made the Lord of Ziwei so respectful, he had twelve points of confidence in his own strength.

In the prehistoric universe, he was not afraid of anyone except Lu Ming.

Moreover, he is now the sixth layer of the Divine Master's cultivation base, even if he meets Lu Ming again, he will have the confidence to easily suppress the opponent.

"Yes, you are right. In this world, you have to speak with strength after all. Let me see how strong you are?"

Ye immortal road.

"You want to fight me?"

Ye Qiu Xiandao.

"Yes, you and I are both the Sixth Divine Master, and we are just going to have a discussion. So, if you can block my three moves without defeat, you don't need to follow me in the future."

Ye immortal road.

He knows very well that all peerless arrogance has its own arrogance, and he just wants to frustrate the arrogance of Ye Qiuxian.

Ye Qiuxian is really going to be angry.

Angrily smiled.

In this universe, some people say that they can defeat him with three strokes. This is not ridiculous.

Lu Ming only narrowly defeated him in the battle against Xiancheng.

Ye immortal, where's the confidence, defeating him with three moves at the same level, it's completely impossible.

Ye Qiuxian didn't believe ten thousand people.

"Okay, okay, I want to see how you beat me in three ways."

Ye Qiuxian laughed, and a powerful aura filled his body. The four strongest heavenly powers diffused out, spinning around his body and turning into four war swords of different colors.

"Yes, it is indeed the power of perfect heaven, but how much power can you exert."

Ye Immortal nodded his head with a smile, and suddenly stepped on his footsteps, his body was like a bolt of lightning, rushing towards Ye Qiuxian, and at the same time his fingers were like swords, pointing out.

Suddenly, a dozen sword shadows appeared in the void.

These dozen sword shadows are constantly changing their positions, making people unpredictable.

Ye Qiuxian gave a soft drink, the power of the perfect heaven erupted, and the four war swords spun rapidly, cutting out dozens of sword lights, slashing towards Ye Immortal.

However, Ye's immortal sword light was extremely flexible, like a small snake, drilling constantly, and in the end a dozen sword shadows suddenly merged into one, and suddenly pierced towards Ye Qiu.

This seemingly ordinary sword made Ye Qiuxian's face changed drastically.

The dozens of sword lights he slashed out instantly disappeared without a trace.

bump!

The immortal sword light of Ye pierced the power of the perfect heaven around Ye Qiuxian's body, causing the power of the perfect heaven to violently shake, and it was stabbed out of a hole, and the sword qi went straight to Ye Qiuxian.

"not good!"

Ye Qiuxian's heart was shaken, and he burst out with all his strength. The four war swords formed by the power of the perfect sky turned into a sword formation, and quickly rotated, which blocked the light of Ye's immortal sword.

But Ye Qiuxian himself quit a kilometer away.

"Although the power of the perfect sky is powerful, you are far from home, and there are flaws everywhere, so vulnerable!"

Ye Immortal spoke slightly.

"Impossible, perfect heavenly power, no flaws, everything just now was a coincidence, it must be a coincidence!"

Ye Qiuxian roared, his eyes were red, and he was hit hard.

He was actually forced back by Ye Immortal's trick.

Ye Immortal attacked the move just now, and the power was obviously not great, but it made Ye Qiuxian extremely uncomfortable, as if he had been hit by a weak point, and his strength was beyond use.

However, there is no weakness in the power of the perfect sky, he thinks it was just a coincidence.

bump!

Ye Qiuxian stepped in the air. This time, he took the initiative to launch an offensive. The four war swords turned into a sword formation, and the sword aura rushed into the sky.

With this move, he directly used all his strength to kill Ye Qiu.

The vast sword energy almost drowned Ye Immortal.

However, Ye Immortal is still very calm, smiling, standing there.

Until the sword qi was approaching, Ye Immortal's palm volleyed, and the four strongest heavenly powers emerged and turned into a war sword.

Seeing Ye's immortal power, Ye Qiuxian's pupils suddenly enlarged, revealing an incredible color.

Huh!

Ye Immortal shot, cut out with a sword, stunning and unparalleled.

At the moment this sword was exhibited, Ye Immortal changed at least several thousand positions and collided with Ye Qiuxian's sword formation several thousand times.

Chapter 4649: Wind and clouds gather on the battlefield

In an instant, the attacks of the two sides collided thousands of times, and then the sword formation of Ye Qiuxian, with a touch, exploded, his figure retreated violently, withdrew tens of thousands of meters away, standing stupidly in the void in.

There was a sword wound on his chest, which was one foot long, and blood kept flowing out.

This sword wound was naturally cut out by Ye Immortal.

Lost!

With just two moves, Ye Qiuxian was defeated.

"The power of the perfect sky, you will also use the power of the perfect sky, how is this possible?"

Ye Qiuxian muttered to himself, looking at Ye Immortal dumbly, his eyes were full of disbelief.

Today, among the younger generation of Human Race, there are still people who control the power of perfect heaven?

This is the power of the perfect heaven. In the long history of the heaven and human race, only three people were born.

This is not something that can be controlled casually. In the history of the Celestial Race, how many unparalleled and stunning talents have been born?

There are too few people who can control the power of the perfect sky.

It is a miracle that he appears in this era.

But now, another one appeared?

And even though it was just two moves, Ye Qiuxian discovered that Ye Immortal's grasp of the power of perfect heaven was much better than him.

Just like what Ye Immortal said, his perfect heavenly power really has flaws, and it can be easily seen through by Ye Immortal.

This was a huge blow to Ye Qiuxian.

The expression in his eyes suddenly became a little dull.

This was more than ten times bigger than the blow that was defeated by Lu Ming.

Because just now, he lost with two moves, and he didn't insist on three moves at all.

Hey!

The Lord of Ziwei Temple sighed in his heart.

From his perspective, it is naturally clear.

Comparing the power of the perfect heaven to the immortality of Yeah, that is simply a trick.

Ye Immortal's mastery of the power of the perfect heaven is perfect, and Ye Qiuxian is just a rookie who has just taken control.

The flaws and weaknesses of the power of perfect heaven are invisible in the eyes of Ye Immortal.

Therefore, Ye Qiuxian was defeated by Ye Immortal's two moves.

That's because Ye Qiuxian was perfectly restrained by Ye Immortal.

In fact, the combat power of the two did not differ so much.

For a Tianjiao with the same combat power as Yaqiuxian, Ya Immortal will never win that easy.

However, the most urgent task is to restore the self-confidence of Yeqiuxian, and don't let Yeqiuxian become depressed.

"Qianxian, now you know what is meant by Tianwaiyoutian."

God Ziwei spoke.

Yequi nodded stupidly, but still did not recover.

"Actually, you don't need to be hit too much. If you know the true identity of the Immortal Son, you will know that it is normal for you to be defeated."

Ziwei God Road.

"True identity?"

Ye Qiuxian was taken aback.

In fact, he also wanted to know the true identity of Ye Immortal. He just controlled the power of the perfect heaven, and he couldn't make the Lord Ziwei so respectful.

"The Immortal Son is our ancestor, the first strongest ancestor in history to control the power of the perfect heaven."

The crape myrtle **** said, with fanatical worship in his eyes.

"what?"

Yeqiuxian's heart was shocked, his eyes widened suddenly, and he looked at Ye immortal incredibly.

How could the first ancestor in the history of the Celestial Race to control the power of the sky so young?

According to the original breath of life, it can be clearly felt that the age of immortality should be only a few hundred thousand years old, and no more than one million years old at most. This is definitely the younger generation.

"The ancestors used the technique of reincarnation to regain a new life!"

Ziwei God Road.

Ye Immortal's identity, there is no need to hide it, because soon Ye Immortal will command the palace.

"The ancestor, I turned out to be the ancestor. No wonder I can control the power of the perfect sky, and I can be blamed for defeating me in two ways. That's why..."

Ye Qiuxian's eyes renewed their light.

The ancestor of the Celestial Race is a legend. He claims to be the strongest in the history of Celestial Race. His control of the perfect Celestial Power is truly perfect. Isn't it normal to defeat him with two moves?

Can others block two moves?

At this moment, Ye Qiuxian regained his confidence.

"Junior Yeqiuxian, pay homage to the ancestors!"

Ye Qiuxian knelt down and saluted respectfully.

"Very well, get up, your control of the power of the perfect heaven is already very good, and if you can achieve great success in time, you will not be weaker than Yechu Zhanmad."

Ye Immortal smiled.

Yeqiu Xian's heart throbbed faster.

Ye Chu Zhan Kuang is the second existence in the history of the Celestial Race to control the power of the perfect Celestial.

Born more than sixty stellar years ago, they are enemies with the taboo sword ancestor Tang Feng, and the two sides have been fighting since they were young.

Today's combat power has reached an unfathomable stage, and he is also a legend of the Celestial Race.

Is his future combat power really comparable to such a legend?

"You will be by my side in the future. If you have any questions you don't understand, feel free to ask me."

Ye immortal road.

"Yes, ancestor!"

Ye Qiuxian respectfully.

"Call me immortal son from now on!"

Ye Immortal Dao, then waved his hand and handed a bronze box with Renwang's left arm to Ye Qiuxian.

"Inside is the left arm of the King of Humans, you can get familiar with it. Now the torso of the human body of the King of Humans has appeared. Soon you and I will set off for the Qianqiu Battlefield."

Ye Qiuxian ordered.

...

At the same time, the same scene happened in the station of the Exterminating Army.

Feihuang, Third Demon Sword, Second Divine Sword and other strong people from the original realm gathered together.

In front of them, a bronze box was placed.

In the bronze box, there is a stone right leg.

This is the right leg of the human body.

At this time, the right leg of the king was constantly shaking and glowing.

A sentence also emerged from the bronze box, telling that it was the torso of the human king's body that had appeared.

"The human body is no trivial matter. Once gathered and there is the power to subvert the universe, the Celestial Race will definitely mobilize all forces to fight for it. We must never let them succeed. We must get the torso of the human king."

Feihuangdao.

"Not long ago, I received news that the Qianqiu battlefield has changed a lot, and a majestic continent has appeared, which should be where the human body is located."

The second magic sword.

"Immediately summon the masters and rush to the Qianqiu battlefield."

Feihuangdao.

Soon after, a large number of powerful men on both sides of the heavenly army and the heavenly palace moved towards the Qianqiu battlefield and gathered around that huge halo.

"Senior Feihuang!"

Seeing Feihuang, Lu Ming was overjoyed and went to meet him.

"Lu Ming, you are actually here, why are you not in the sky star area?"

Feihuang was a little surprised when he saw Lu Ming.

"I am in the sky star area and there is nothing to explore. So I came here."

Lu Ming smiled, his voice changed, and said, "Senior Feihuang, how are Xiaoqing and the others now?"

"They are still cultivating, yes, your cultivation level has reached the fifth level of the Divine Master, and the speed of progress is beyond my imagination."

Feihuang looked at Lu Ming and nodded in satisfaction.

Chapter 4650: Yaxian appeared

Then, Tang Xiao and others also came to visit Feihuang.

Feihuang's position in the Heaven Extinguishing Army is very high, and its combat power is also the peak of the Heaven Extinguishing Army. It is a taboo body, not just talking.

What appeared in front of everyone now was the incarnation of Feihuang's soul, and the true body of Feihuang's body was still in the depths of the ruins of the universe.

"Tang Xiao, what's the situation now?"

Feihuang asked.

Tang Xiao explained the detailed situation again.

"It's hard to deal with the fact that it can deprive the root of the source."

Feihuang frowned, and then discussed with other masters who destroyed the heavenly army.

For example, the Space-Time Spirit Rats who are good at the way of time and space, the World Turtles who are good at one rune formation, and the master craftsman.

See if you can find a way to go through the eight surrounding halos and enter the continent in the center of the halo.

There is also a large number of powerful people on the Tiangong side, and they are also discussing.

Soon after, Tiangong sent several masters who were proficient in rune formations to study, to see if the eight auras could be broken, but unfortunately, after more than ten days of research, there was no clue.

The Heaven Extinguishing Army also sent a master to study, and there was no clue.

These eight auras are very clever, they are the means of the last era. The strength of the people who set up the formation is also unimaginable, and they can't break it.

In the end, the two sides sent out the existence of Origin Realm to test, but they both returned in horror. Those who went to test the origin were deprived of the origin, and the impact was not small.

If you stay in it for a longer time, I am afraid that the source will be completely deprived of it, completely fall into the source realm, and become the god.

Obviously, the original state can't enter, and if you want to enter, you must be prepared to be deprived of the source. This is obviously not worth the loss.

Afterwards, the two parties sent the existence of the Divine Master Realm to test it. Surprisingly, the existence of the Divine Master Realm entered without any influence.

Eight halos, nothing unusual.

In the end, the tempting people completely disappeared in the center of the halo, and seemed to have entered it, and everyone waited quietly.

Soon after, those people came out and brought amazing news.

Inside, there is really a continent.

And it's very old and full of life, completely different from the continental fragments in the ruins of the universe.

There, there is not the slightest killing intent or evil spirit, the energy is sufficient, the ancient trees towering into the sky, as if the legendary prehistoric continent reappeared.

Both the Exterminating Army and the Heavenly Palace were shocked. Needless to say, the torso of the human king must be on that continent.

The two parties immediately began to adjust the existence of the Divine Master Realm, intending to allow the existence of the Divine Master Realm to enter the mainland and compete for the human body.

Both parties have continuously transferred the existence of the Divine Master Realm from other places, and many important places have been given up.

In this area, the powerhouses of the God Realm gather more and more.

"That's... the Yaxian!"

Suddenly, someone exclaimed.

In the distance, dozens of exhibition vehicles came crushing into the void, and there were silhouettes standing on the exhibition vehicles.

These figures look almost the same as the human races, the only difference is that there is a red mark on their foreheads.

Each of them is wearing a snow-white ice silk long robe, looking like a fairy-style robe.

Not only the people who killed the Celestial Army, even the Celestial Race, as well as other races in the universe, were very surprised.

The Yaxian tribe, an extremely special race, seems to be detached from the world, and generally does not care about disputes in the prehistoric universe.

No matter what the war, they do not participate, and rarely show up.

Even if it is the Celestial Clan, it also ordered the Asian Immortal Clan not to be moved.

This time, so many people were dispatched at once.

Could it be that the Asian immortals, who have always been detached from the world, are also interested in the human body?

"Is this the Yaxian? It's strange, the breath is like a human, but there are differences."

Lu Ming looked at the Yaxian curiously.

It was the first time he saw a member of the Yaxian tribe.

After the Yaxian clan came, they stood in a void, silently, and didn't talk to anyone.

"Huh, the top ten races are so arrogant."

"When you see our Celestial Clan, you don't come to see you. When the rebels are destroyed, the Yaxian Clan will not stay."

Some young people from the Celestial Race said unhappy.

Of course, those old celestial races did not say much.

"It seems that this time the competition will be fierce. This trip is full of crises. After you enter, you must be careful, and you must unite and fight the enemy together."

Feihuang earnestly the Divine Lord of the High-Order Heaven Destroying Army.

All the gods nodded, without Feihuang saying, they also knew what to do.

There are obviously more **** masters in Tiangong than them, and they feel tremendous pressure.

"Also, you must also bring in the other parts of the human king's body, so that you can better find the human king's torso. At the critical moment, you can also use the power of the human king's body to fight the enemy, but if you want to move the human king's body, borrow The power of the human king's body is impossible for ordinary people. Only by controlling extremely strong power can it be mobilized, Lu Ming..."

At this time, Feihuang's gaze turned to Lu Ming.

The eyes of other people also looked at Lu Ming.

Obviously, only Lu Ming is the most suitable.

The power of taboo can definitely move the human king's body.

However, Lu Ming shook his head repeatedly and refused.

There was already a human king's body on him, and he was mobilized, and he could only hold on for an extra breath.

Take another one, he can't use it at all.

Although he wanted to get it, he was afraid of holding it in his hand and ruining the great event of the Heaven Extinguishing Army, and failing to show it at the critical moment, causing the Heaven Extinguishing Army to suffer catastrophe, the sin would be serious.

Not only would he not get the human body in the end, but he would also make the Heaven Palace cheaper. This was not what Lu Ming wanted to see.

Seeing Lu Ming shaking his head, Feihuang frowned.

Although she didn't know why Lu Ming refused, there must be a reason.

"This kid, under normal circumstances, will not refuse, and he is bold and not afraid. Does this kid already have..."

Thinking of this, Feihuang's heart jumped, and he glanced at Lu Ming thoughtfully.

"Then, leave it to Xi, Xi, your original divine power has mutated and become more advanced, and it should be able to move the human body."

Afterwards, Feihuang looked at a man who was about 30 years old.

This person is a primitive god, with the eightfold cultivation base of the **** master, and his combat power is extremely powerful. His primitive **** power has mutated and is stronger than other primitive gods.

The original divine power of the primitive gods is already extremely powerful. The creatures of other races cultivate divine power, constantly awakening the original divine power factor, and reach the level of the original divine power at the end of cultivation.

And Xi's original divine power, after being mutated, is naturally extremely powerful, and is one of the top powers in the primordial universe.

After speaking, Feihuang handed a bronze box to Xi.
