

D Emperor 4651

Chapter 4651: Another complete fragment of the wild continent?

"Sure enough, it is a human body, I don't know which part it is."

Lu Ming's heart moved, the bronze box was exactly the same as the one he got.

Prior to this, Lu Ming had learned from the bronze box that it was the torso of the human king's body that was born, and he could only sense it when his limbs and head were born together.

Therefore, he already knew that the limbs and head, except for the right arm, were all born.

He had guessed before that it might be in the hands of the Heaven Extinguishing Army and the Heavenly Palace.

"There is only one piece of the Heaven Extinguishing Army, is there three pieces in the hands of the Heavenly Palace?"

Lu Ming's heart moved.

...

In a blink of an eye, more than ten days passed.

In the past ten days, the Heaven Extinguishing Army and the Heavenly Palace have not acted, mainly because the two sides are staring at each other, one side will act, and the other will act immediately.

Therefore, neither of the two anti-democracies first sent people into the halo, mainly the divine masters of both sides, who had not fully arrived yet, and it was not time to act.

If one party starts to act, the other party will definitely act immediately.

At this time, the Heaven Extinguishing Army was ready to act.

Because their God Lord has almost arrived.

For the first time, Lu Ming really saw the power of annihilating the heavenly army.

Five thousand, a full five thousand gods, this is a terrifying number.

Lu Ming didn't expect that the Heaven Extinguishing Army had five thousand **** masters.

But it's normal to think about it, not to mention, just say that there were thousands of **** masters on the Qianqiu battlefield and the Heaven Extinguishing Army.

And the ruins of the universe are as important as the Qianqiu Battlefield, and there are several more. In each place, the Heaven Extinguishing Army is guarded by a large number of strong men.

In addition, there are several resident sites, and there are also a large number of strong guards. In total, it is normal to have five thousand gods.

This is not the entire figure, there should be some gods who have not come, but it should have reached the majority.

However, the number of Tiangong is even more astonishing.

There are totally eight thousand gods.

This shocked Lu Ming.

You know, there is still a dark universe to guard the Tiangong, and the dark universe has almost dispersed the power of the Tiangong.

In other words, the Heavenly Palace was stationed at least eight thousand **** masters in the dark universe.

The power of the Heavenly Palace is really amazing. If it weren't for the dark universe to hold half of the power of the Heavenly Palace, the Heaven Extinguishing Army would not be an opponent of the Heavenly Palace.

Eight thousand gods, six thousand of them are from the Celestial race, and the other two thousand are from other races.

The Celestial Race, known as the number one strong race in the universe, is not to say, the strength is truly unmatched.

There is no such thing as the Yaxian tribe. The Yaxian tribe also has about three hundred gods. Although this number cannot be compared with the Celestial Clan, it is much stronger than the other nine races of the top ten races.

In terms of quantity, they completely crushed the Heavenly Army.

"lets go!"

Feihuang ordered.

The Five Thousand Divine Lords of the Extinguishing Heaven Army flew towards the halo immediately.

When the Heaven Extinguishing Army moved, it was immediately discovered by the Heaven Palace.

"The Celestial Extinguish Army has set off, so we won't wait anymore. A few people didn't come and didn't come. Let's set off immediately!"

A **** of heaven.

"Remember, after you enter the world in the halo, everything must listen to the immortal son."

Another Heavenly Palace Lord also ordered.

Those gods nodded.

Among them, only a few people know the true identity of Ye Immortal. These people stand enthusiastically behind Ye Immortal, and most of them are Heavenly Monarch level figures.

Although other people don't know the true identity of Ye Immortal, they are obedient and obedient after seeing so many Heavenly Monarch-level characters. Knowing Ye Immortal's identity is definitely not simple, and naturally they will not resist orders.

What's more, God himself ordered it.

"lets go!"

Ye Immortal spoke lightly, with a confident smile on his face, stepping out first.

Ye Qiuxian, and some other masters of Tianjun, followed closely behind.

More than 8,000 gods, mighty, headed towards the halo.

The halo, huge and boundless, is more than a billion times larger than the planets of the primordial universe.

The Heavenly Palace and the Heaven Extinguishing Army entered the halo from two different directions, flying into the sea like a dust, which was too small.

The closer he got to the halo, the more he felt that the eight halos were huge. Lu Ming had to sigh that the man who laid this formation was really powerful and could not be predicted.

Soon, they entered the scope of the halo, and they didn't feel any strangeness.

No attack, no restrictions.

However, in the prey, the king's right arm reacted more intensely.

The central area of the halo is pitch black, like a pitch-black vortex, spinning continuously.

Anyway, with Lu Ming's eyesight, he couldn't see what was behind the darkness, but the strong of the Origin Realm could barely see that in the darkness, there seemed to be a continent.

As for the specific features of the mainland, it is not clear.

After Lu Ming and the others passed through the halo and entered the central area, a powerful attraction suddenly appeared in the pitch-black vortex, attracting Lu Ming and the others.

This attraction is very strong, but Lu Ming felt that if he struggled hard, he could still break free.

However, Lu Ming and the others did not struggle. They were going to enter the dark whirlpool, and there was no need to do so.

In response to this attraction, they quickly rushed into the dark whirlpool and disappeared.

As soon as he entered the dark whirlpool, Lu Ming felt that he was being dragged by a force, and he kept moving forward, crossing a long distance. I don't know how long it took, and suddenly the darkness disappeared. Below Lu Ming, a vast expanse appeared. Earth.

Lu Ming was falling in a straight line, he quickly used the power of Taboo, stabilized his figure, and stopped in the air.

Then his gaze swept away, and he found that the surrounding sky was densely packed with people, and the five thousand **** masters who destroyed the heavenly army were all here without being separated.

Not far below them, there is a dense forest, the forest is huge and endless, you can't see the end at a glance.

"What a huge tree!"

Many people marveled.

The trees in this forest are huge. Any tree with a diameter of more than 100 meters, with a diameter of up to one thousand meters, is everywhere.

The height is even more terrifying, it is a huge monster, making Lu Ming kind of enter the fairy palace back then.

What surprised Lu Ming most was that this continent gave Lu Ming a familiar breath.

Primitive, ancient, vast, heavy, great...

This kind of aura is actually the same as that given to Lu Ming by the mainland in the Precious Ring, almost exactly the same.

"The continent in the Red Ring is made from the complete fragments of the primordial continent of the previous era. Is this continent also fragments of the primordial continent, so it remains intact?"

Lu Ming's thoughts changed sharply.

This is very possible.

The human king's body was divided and sealed. This incident happened before the prehistoric continent was broken. Someone intercepted a small piece of the entire prehistoric continent and sealed it in the continent of Qianqiu Battlefield, so it remained intact. It was full of vitality. The fragments of the continents like the ruins of the universe have long lost the features of the prehistoric continent.

Chapter 4652: To destroy the heavenly army

"This continent is very intact and full of vitality. I don't know if there is any danger. We gather together, act together, don't disperse!"

A strong voice sounded.

It was a burly primitive **** who spoke.

Lu Ming recognized this person. This person was named 'Lion'. He was a strong man standing on the top of the gods, not weaker than the top heavenly monarch in the palace.

Divine Lord Nine Layers, not the peak of Divine Lord.

From the first divine master to the ninth divine master, they are all condensing the cosmic bridge, making the cosmic bridge longer and longer, extending toward the universe.

When the Divine Master Nine Layers arrive, the Cosmos Bridge will reach the Cosmos Sea and connect with the Cosmos Sea.

At this time, you can understand the origin of the universe.

Once the origin of the universe is accomplished, the origin seed will be condensed.

Yes, it is the original seed.

Only when the original seed is condensed can it be considered the peak of the gods.

The heavenly monarchs of the heavenly palace are the peaks of the gods who condense the original seeds.

Of course, the original seed of the **** master peak is not as weak as Lu Ming, and the stored original power is so scarce, it can only burst with one move.

The existence of the pinnacle of God Lord, the original power contained in the original seed seed is much more than that of Lu Ming.

The more the original power contained, the stronger the strength.

Of course, strength is also related to the quality of the original power.

Therefore, it is also the peak of the gods, and the strength gap is also very large.

When the power of the original source condensed by the original seed reaches a limit, the original seed will germinate and grow the original root, that is, the original root. At this time, it has entered the original state.

Of course, it is extremely difficult to let the original seeds germinate and grow the roots.

In any case, the Divine Lord pinnacle that condensed the Origin Seed is very powerful, much stronger than the Divine Lord Nine Layers. Once the source of the power is released, the Divine Lord Nine Layers are irresistible and will be easily killed.

And even the 'lion' is considered a top powerhouse even in the peak of the gods, and it is only one step away from the original state.

He is one of the leaders of the God Realm on the Exterminating Army.

As the "lion" spoke, everyone gathered together in groups, and then flew in one direction.

Leaping a distance of tens of thousands of miles did not encounter any abnormalities, and there was no danger.

"That's..."

Suddenly, someone looked to the right.

In that direction, there are small black dots, which are flying towards here quickly.

After a few breaths, the black dot became clear.

It is a creature.

"It's from Tiangong!"

Many people's faces changed drastically.

"The people in Tiangong obviously entered this continent in a different direction from us, why are they so close to us?"

Some people exclaimed, somewhat unbelievable.

They originally thought that they hadn't met the people of Tiangong so quickly.

Unexpectedly, when I just came in, I met the people of Tiangong.

The people in the heavenly palace, apparently also spotted the people from the Heaven Extinguishing Army, stopped not far away.

Then, two celestial youths, surrounded by a group of strong men, came to the forefront.

These two young people are naturally Ye Immortal and Ye Qiuxian.

"That is Lu Ming, the taboo body who defeated you?"

Ye Immortal's gaze suddenly fell on Lu Ming, and he seemed to be very sensitive to the power of taboo.

"Yes, it is him, but last time he just won by fluke, next time, I will be able to suppress him!"

Yeqiu Xiandao, his eyes show cold light.

"If you lose, you are defeated, but it's not easy for him to beat you. Sure enough, all the taboos are evil, and you can't keep any of them."

Ye Immortal spoke indifferently.

"Immortal son, what shall we do now?"

A Tianjun bowed and asked.

"Naturally, it is hands-on. There are more than 8,000 gods on our side, and there are only about 5,000 gods on the rebel side. We have an absolute advantage, defeat the rebels in one fell swoop, and take the human king flesh in their hands. "

"Moreover, these five thousand gods are almost the gods of most of the rebels. If they can be destroyed in one fell swoop, the rebels will have no gods, and only a few of their origins will remain, and they will not become a big climate."

Ye Immortal spoke indifferently, and his voice spread to the ears of everyone in the palace.

"Prepare, take action, and annihilate the rebels!"

A heavenly monarch exploded, shouted, and rushed out first.

"kill!"

"Kill, kill all the traitors!"

On the Tiangong side, there were more than 6,000 **** masters of the heaven and human race, and more than 2,000 **** masters of various races, rushing towards Lu Ming and others.

Only the people of the Yaxian tribe did not make a move.

More than 8,000 gods and masters shot together, the prestige is majestic, the sky and the earth vibrate violently, and the terrible force forms a pressure. On the ground below, the huge trees are pressed by this pressure, and they continue to burst and melt. For powder.

The killing sound shook the sky, and more than eight thousand rays of glow, blasted towards the Extinguishing Army.

The void was smashed in an instant, forming huge black holes with terrifying scenes.

"Defensive, full defense!"

The faces of those who destroyed the heavenly army changed wildly.

Some top gods roared.

They only have about 5,000 **** masters, and the number is more than 3,000 less than the opponent. The gap is really too big. If they fight together, they will definitely lose and be slaughtered.

Only by gathering everyone's strength and defensively, can we block the opponent's attack.

On the side of the Heaven Extinguishing Army, there were groups of three or five, all of them gathered together, making a full shot, using defensive secret techniques.

In the heavenly palace, countless brilliant rays of light diffused out, forming a heavy defense.

There are huge shields, light and shadow like tortoise shells, huge walls of gods, and huge metal monuments...

Lu Ming also exploded with all his strength, and used the three thousand ancient secret techniques used for defense in a single brain.

Big defense, big shield...

All kinds of defensive mysteries and treasures are full of the void.

boom! boom! boom! ...

The next moment, the attack from the Tiangong side, bombarding the defense of the Exterminating Army, broke out with a earth-shaking roar.

Various defensive secrets and treasures violently shake.

After all, the opponent's number is more than 3,000, and the attack power is too strong.

If there is a head-on confrontation, this wave alone will cause many people to fall from the Heaven Extinguishing Army.

However, they did not seek merits but no demerits. They only defended with all their strength, and gathered all the strengths of them together to prevent the heavenly palace from attacking.

Despite the violent shaking of various secret arts and treasures, in the end, they were still defended.

"Keep on attacking, don't give them a chance to breathe!"

A strong heavenly man yelled.

"kill!"

More than 8,000 **** masters in Tiangong roared and launched a second wave of offensive.

"Back, back, defend while back!"

Some strong men of the Exterminating Army roared.

The crowd continued to gather their full strength to defend together, and then slowly backed away.

Boom boom boom!

There was another violent roar and terrible energy that swept across all directions, and the land with a radius of hundreds of thousands of miles was completely destroyed and no grass grew.

Chapter 4653: Power of Ascension

However, this continent is hard to imagine. The aftermath of so many attacks by the gods and masters only destroyed a layer of the surface and destroyed the vegetation on the surface, but did not penetrate or split the ground.

If this is placed in the primordial universe, so many powerful fights, I am afraid it will burst one after another galaxy.

It can be seen how strong this continent is.

The second wave of attacks was also blocked, and the Heaven Extinguishing Army retreated quickly with this wave of attacks.

"Keep on attacking, don't let them go."

The people in Tiangong roared and tried their best to launch an attack.

But on the side of the Heaven Extinguishing Army, with all-out defense, the people of Heavenly Palace couldn't break it for a while.

After seven or eight waves of continuous attacks, none of them defeated the defense of the heavenly army.

"hateful..."

Many masters in the Tiangong roared, feeling that the tortoise of the Heaven Extinguishing Army was shrinking, like a tortoise, and it was not easy to start.

As long as they tear apart the defense of the Heavenly Army and force the Heavenly Army to fight head-on, they can easily defeat the Heavenly Army.

In frontal fights and frontal battles, Tiangong has an absolute advantage.

The most troublesome thing now is how to tear apart the defense of the Heavenly Army.

Not far away, Ye Immortal and Ye Qiuxian stood quietly in the void, and did not make a move.

"Asian clan, why don't you take action yet, take action together to break through the defense of the heavenly army."

Ye Qiuxian's gaze turned towards the people of the Yaxian tribe, and he spoke coldly, saying in a commanding tone.

"My Yaxian clan has always stayed out of things. We won't get involved with your Heavenly Palace and Heaven Extinguishing Army."

A young man from the Yaxian clan smiled.

This young man, who looks like he is in his twenties, is handsome and has an unparalleled temperament. He is dressed in white fluttering and belongs to the kind that can fascinate thousands of young girls.

"Whatever is not mixed, the primordial universe is under the control of my heavenly palace. Regardless of the race, you must obey the orders of the heavenly palace, including your Asian immortals. Now I order you to take action."

Ye Qiuxian yelled, looking at the Yaxian youth with cold eyes.

"Ha ha!"

The Yaxian youth smiled slightly, with a slight scorn on his face.

"what are you laughing at?"

Ye Qiuxian's eyes were cold.

"What you said is too ridiculous, that's why I laughed. Your Heavenly Palace ordered other races to be similar. It is a bit naive to want to point fingers at me, the Yaxian."

The Yaxian youth sneered.

"Bold, you Yaxian, is this going to rebel? I want to see how many catties you have."

Ye Qiuxian coldly drank, and stepped out, like a lightning bolt, rushing towards the youth of the Yaxian clan.

Behind the Yaxian youth, a middle-aged strong man stepped forward and wanted to make a move, but was stopped by the youth waved.

"Give it to me, it is said that Ye Qiuxian controls the power of the perfect sky. I want to see how powerful the power of the perfect sky is."

Qingyou smiled, with fiery and anticipation in his eyes.

In the next instant, Ye Qiuxian attacked, the power of Perfect Heaven erupted, and a palm slammed at the Yaxian youth.

The youth of the Yaxian tribe did not evade, but also blasted out with a palm to meet Yeqiuxian's palm.

"I can't help myself!"

Ye Qiuxian snorted coldly.

He had already seen that the youth of the Yaxian tribe was also the Sixth Divine Lord, just like him.

It's not that he is too arrogant, but that he is really too strong. In the universe, no one except Lu Ming can fight him at the same level.

Of course, in addition to the immortality, except this special.

It was too naive for the Yaxian youth to want to face his attack head-on.

boom!

The palms of the two people collided with each other and a violent roar erupted.

Ye Qiuxian's face changed.

After a fight, he actually felt that the power of Perfect Heaven had encountered a powerful enemy, and he did not instantly defeat the opponent's power. Instead, he felt that in the palm of the Yaxian youth, there was a terrifying force rushing towards him, making Ye Qiuxian unable to help. He took more than ten steps back in a row.

On the other side, the youth of the Yaxian tribe also retreated backwards, and they would also take a dozen steps back.

With this move, the two are equally divided.

"Hahaha, the power of the perfect heaven is really amazing, I really learned it today."

The Yaxian youth laughed, and his eyes shone brightly, showing a strong fighting spirit.

But Ye Qiuxian, but his heart was overwhelmed, it was difficult to calm down.

He was actually blocked. Although he only used 80% of his power just now, who can be sure that the Yaxian youth used all his strength?

Maybe, the other party did not use all their strength.

In the prehistoric universe, in addition to the forbidden body Lu Ming, there are people who can compete with him, which makes Ye Qiuxian very shocked.

"I don't believe it. He must have used his full strength just now. The power of Perfect Heaven is invincible. No one can compete with me at the same level except Lu Ming."

Ye Qiuxian yelled in his heart and was about to make another move.

"Ye Qiuxian, enough!"

At this moment, Ye Immortal screamed, and Ye Qiuxian stopped abruptly.

"Prince Immortal, let me teach these Asian immortals, these people are becoming increasingly rebellious."

Ye Qiu Xiandao.

"No, I have my own opinion, let's step back!"

Ye Immortal said, his face became slightly cold.

Ye Qiuxian didn't dare to disobey the immortal order, so he could only retreat obediently, but he was very unwilling.

"Unexpectedly, the Yaxian clan has produced another genius who controls the power of Yaxian, which is really gratifying."

Ye Immortal smiled.

"Prince Immortal is polite, I just took control of the power of the immortal by luck."

The Yaxian youth responded with a smile, and he didn't dare to neglect Ye Immortal.

Although he didn't know the true identity of Ye Immortal, but looking at Ye Qiuxian, as well as the heavenly monarchs of the Celestial Race, who were respectful and respectful to Ye Immortal, it was absolutely amazing to know this person's identity.

"Today, there is no need for the Yaxian clan to take action, we are enough to break the defense of the heavenly army."

Ye Immortal said, his eyes turned to the battlefield again.

Ye Qiuxian was in a daze.

He didn't know if it was an illusion, he felt that Ye Immortal actually had some fear of the Yaxian tribe.

Yes, it is fear.

Yeah, it's immortal, but the strongest existence in the history of the Celestial Race, it's incredible to be afraid of the Yaxian Race.

Although the Yaxian tribe has always been ranked first among the top ten races, no matter how strong it is, it is only the top ten race. In the eyes of their Celestial race, that is the ant, which can be killed at any time.

The strongest person in the history of the Celestial Race would actually be jealous of the Yaxian race. If it weren't for the blue eyes, it would be hard to believe it.

At the same time, he also understood one thing in his heart, that is, the Yaxian clan, not simple, very not simple.

He used to underestimate the Yaxian clan.

"It seems that we are going to make a move, Ye Qiuxian, and be ready to urge the king's left arm at any time. We must use the power of the king's flesh to tear apart the defense of the heavenly army."

Ye Immortal opened his mouth. After he said that, he had already rushed out, and in the process of rushing out, he had already taken out Renwang's left leg and blended it into his left leg.

When he appeared above the battlefield, the power of Renwang's left leg had already been inspired by him.

boom!

Ye Immortal stepped out, and a huge foot shaking the sky emerged, stepping on the Heaven Extinguishing Army, and the power was extremely terrifying.

Chapter 4654: The collision between the human body

"No, that's the power of the human king's flesh. I'll stop him."

The primitive **** 'Xi' roared, and he also controlled the right leg of the King of Humans, so as soon as Ye Immortal made a move, he felt it.

Without the slightest hesitation, 'Xi' also merged with the power of the human king's right leg, head down, leg up, thrusting upwards, stimulating the power of the human king's right leg, and a giant foot appeared, blasting upwards. , Collide with the immortal attack of Yeah.

boom!

A earth-shattering roar sounded, as if two strong men of the Origin Realm were clashing, and then two giant feet collapsed at the same time, and 'Xi' and Ye Immortal floated upwards, and fell downwards.

This trick is equally divided.

In the next moment, Ye Immortal urged the power of King Ren's left leg to launch an attack, and 'Xi' also attacked.

With Ye's immortal strength, to inspire the king's left leg, he can only hold on for a long time to breathe, so he has to fight quickly.

The speed of the two is extremely astonishing, one breathing more, enough for the two to fight more moves.

boom! boom! boom!

In a multi-breathing time, the two sides confronted each other for seven or eight moves, all of which were evenly divided.

"The two aroused the human king's physical body, it seems that the combat power is similar, and they can reach the original level. It seems that it has nothing to do with the stimulating cultivation base."

In the crowd, Lu Ming observed carefully.

'Xi's cultivation base is the eighth level of the divine master, obviously higher than the opponent, but the two battled to a tie.

In addition, the combat power displayed was also capable of reaching the original level, which was similar to the power that Lu Ming urged the King of Human Body to display.

It seems that it has little to do with his own cultivation.

This may be that the power contained in the human king's body is too terrifying, and their strength is too low, and can only be used as a trigger point to stimulate part of the power of the human king's body itself.

So no matter how strong or weak they are, as long as they arouse the human body, the power that erupts is worthy of reaching the source.

The two clashed seven or eight moves, no one can do anything about it, and their own strength, almost exhausted, had to stop.

Ye Immortal retreats quickly.

And 'Xi' also fell into the Exterminating Army.

"Yeqiuxian, you shot."

Ye Immortal ordered, and then took out a few divine pills and swallowed them in one bite, and began to restore his strength.

"give it to me!"

Ye Qiuxian stepped out, and Ren Wang's left arm merged into his left arm.

"Break it for me!"

Ye Qiuxian yelled and blasted out with a punch, the power of the king's left arm exploded, and a huge fist blasted towards the Exterminating Army.

"No, it's the power of the human king's flesh..."

'Xi' felt a roar.

"Do I want to shoot, do I want to shoot..."

Lu Ming's thoughts turned sharply, and he was also a little anxious, undecided whether to make a move.

He controls the secret of Renwang's right arm, no one knows, and he doesn't want to expose it.

Once such a precious thing is exposed, he will definitely not be able to keep it with his cultivation.

Even if he could keep it, he would be followed by the people of the Heavenly Palace, and there must be endless pursuits behind him. The Heavenly Palace would definitely take away the right arm of the King of Man from him at all costs.

His original plan was to obtain the torso of the human king's body silently, and even obtain the other parts of the human king's body to combine the complete human king's body.

Just when Lu Ming was hesitant, Ye Qiuxian's attack had already fallen.

boom! boom! boom! ...

The earth-shattering roar sounded, Ye Qiuxian inspired the king's left arm to burst out of the original source realm. It was too strong, and the heavy defenses laid by the Heaven Extinguishing Army were bombarded one after another.

In an instant, more than two hundred defenses were defeated.

Many of the gods defending that position shook their bodies, their faces were pale, and the corners of their mouths overflowed with blood.

Fortunately, they blocked it.

But many people feel extremely heavy.

The original level's offensive power is too strong, it will break the balance and continue to attack, most likely to tear their defenses through a hole.

However, the strong from Tiangong swarmed in, their defenses would be completely torn apart, and then it would become a melee.

In the event of a melee, there will be more ills than good luck on the side of the Extinguishing Army.

"Break it for me!"

Ye Qixian roared and wanted to shoot again.

He can only support one more breath, without the slightest delay, and has to smash away the defenses of the Celestial Army.

"It's coming, block it with all your strength, you must block it!"

On the side of the Exterminating Army, someone roared.

boom!

Ye Qixian struck down with another punch, with amazing power.

Huh!

At this moment, Lu Ming rose up into the sky, and into the right arm, he merged into the right arm of the king.

He decided to shoot after all.

At this time, there is no other way. Just expose it. It's better than the defense of the Exterminating Army, which is torn apart.

Once the defense is torn apart, the Heaven Extinguishing Army is really fierce. Similarly, Lu Ming himself is also dangerous. The people of the Heavenly Palace will definitely look at him first. Even if he is strong, he will only die.

The power of the king's right arm was stimulated, Lu Ming blasted out with a punch, and the same huge fist was formed, bombarding with Ye Qiuxian's fist, there was an earth-shattering roar, and the two retreated at the same time.

"blocked!"

The people on the side of the Heaven Extinguishing Army were ecstatic, and at the same time, they were a little confused.

They didn't expect that there was actually someone who could block Yeqiuxian and destroy the Heavenly Army. There was only one human king's body.

"Lu Ming, you also have the flesh of a king."

At this moment, Ye Qiuxian roared and then continued to attack.

The two got the right move again, and they still won't be divided.

For others, there was a big shock.

It seemed that Lu Ming really mastered a human body.

Especially Tang Jun Mochang and others, who are more familiar with Lu Ming, looked at each other even more.

They were already quite familiar with Lu Ming, and along the way, they had already understood all of Lu Ming's secrets, but now they discovered that they were very wrong.

Lu Ming concealed so many secrets and unknowingly many hole cards.

"It's the right arm of the King of Humans, and all the limbs of the King of Humans have appeared, but where is the head of the King of Humans?"

Ye immortal whispers.

He judged that the head of the King of Humans should not be on the Exterminating Army.

If it's not on the Exterminator, where is it?

Ye Immortal glanced at the Yaxian clan, and the young man from the Yaxian clan smiled.

Boom boom boom!

Lu Ming and Ye Qiuxian were very fast. At this time, they had already fought five or six moves, and the time had passed for one more breath.

"No, the power is exhausted, retreat!"

Ye Qiuxian was startled, running the remaining power, and quickly retreated.

"I still have one blow, kill!"

Lu Ming yelled, then blasted out his punch, blasting at Ye Qiu.

Just now, Ye Qiuxian shot first, punched first, and Lu Ming shot later, so Lu Ming still has the power to strike.

A terrible boxing force rushed towards Ye Qiuxian, causing Ye Qiuxian's pupils to shrink sharply.

However, all around Ye Qiuxian were experts in the Heavenly Palace, and immediately five experts at the level of Heavenly Sovereign made a move to resist Lu Ming's punch.

Chapter 4655: The human king flew away

Five powerful men of the Heavenly Sovereign level appeared in front of Ye Qiuxian, and jointly played a defensive secret technique to block Lu Ming's attack.

boom!

The earth-shaking tremor sounded, the violent energy swept all directions, and the defensive secret technique played by the five heavenly monarchs was directly defeated, and the violent energy bombarded the five heavenly monarchs.

The five heavenly monarchs shook their bodies violently, vomiting blood and vomiting.

There were three of them, their arms bursting, blood dripping.

The other two were slightly weaker and even worse. They flew directly into the distant forest, broke a dozen big trees, smashed into the ground, and smashed the ground out of a big hole.

They were lying in the big pit, their faces pale and hard to move.

Although the five Heavenly Sovereign level powerhouses were not dead, they were all hit hard. The difference between the battle power of the Divine Lord and the Origin Realm was not a little bit different.

"unfortunately!"

Lu Ming sighed. After this move, the strength in his body was also exhausted and he could not continue to attack.

If it is another move, it will definitely kill a few heavenly monarchs.

With the help of the punch just now, Lu Ming flew into the crowd of Exterminating Army and was protected.

"The limbs of the human king appear, where is the head of the human king?"

Ye immortal whispers.

At this moment, Ye Immortal's face suddenly changed.

Because the left leg of the human king on him suddenly trembled violently, broke away from his control, and flew high.

"Leave me!"

Ye Immortal yelled and grabbed the palm of his hand. A powerful attraction was generated. He wanted to grab Renwang's left leg, but it was useless. Renwang's left leg shook slightly, breaking through Ye's immortal power and flying into the sky. Among.

At the same time, Lu Ming, Ye Qiuxian, and the human body of the three 'Xi' all happened to the same thing, and they all flew out of them.

Lu Ming used taboo power to stop it, but it was of no use.

The same goes for Xi and Ye Qiuxian, even if the strong around them wanted to help stop them, it was useless. Those strong at the peak of the gods were shocked by the human body and coughed up blood and retreated.

The limbs of the human king's flesh all flew high into the sky, emitting a brilliant glow.

"Send me!"

Suddenly, a loud roar spread throughout the audience.

The eyes of everyone could not help looking in the direction of the Yaxian clan.

I saw that at this moment, more than three hundred **** masters of the Yaxian tribe formed a formation, blasting a ray of light, and suppressing a stone head with all their strength.

This stone head flew out from the young man of the Yaxian clan.

"The head of the human king!"

Everyone was shocked.

"It turns out that the head of the human king's body is on the Yaxian clan."

Lu Ming, Ye Immortal and others couldn't help but say something like this in their hearts.

At the same time, what shocked everyone even more was the strength of the Yaxian clan.

Only three hundred **** masters came from the Yaxian clan. The three hundred **** masters had not revealed their breath before, but used a method of hiding the breath, which was well hidden, even the existence of the peak of the gods could not be seen through.

At this time, in order to block the head of the king, the Yaxian tribe exploded with all their strength and showed their cultivation.

God master six or more.

The three hundred divine masters of the Yaxian tribe are all with the sixth level of the divine master, and the lowest cultivation level is the sixth level of the divine master.

This shocked most people at the scene.

It's not surprising that there are three hundred **** masters, but the three hundred **** masters are all six-fold or higher, which is terrifying.

This shows that the **** master realm of the Yaxian tribe is beyond imagination, and they are only part of the higher cultivation base.

The Yaxian tribe actually has such a terrifying strength?

Especially those who killed the Heavenly Army, their faces were even more ugly.

Fortunately, the Yaxian clan has not made any moves. If the Yaxian clan had helped Tiangong to attack them before, they would not be able to stop it and would have been breached long ago.

Everyone at the scene, only Ye Immortal's face was calm, which didn't seem surprising.

However, the three-hundred **** masters of the Yaxian tribe and the six-fold masters teamed up to suppress the head of the king of humans. It also did not help. The head of the king shook slightly. His face turned pale, and his body couldn't help but back again.

And the head of the king has already flown high in the sky.

The limbs and head of the King of Humans were all high in the sky, seeming to have a certain resonance, emitting a brilliant glow. The next moment, the limbs and head of the King of Humans flew towards the north together at an amazing speed, and disappeared in a blink of an eye. Without a trace.

Everyone was stunned, even if it was Immortal, it was obviously not expected.

"What's going on? Box, what's going on, why does the human body suddenly fly away?"

Lu Ming's spiritual sense was condensed in the Honghuang Ring, and he asked about the bronze box.

However, the bronze box did not respond.

No matter what Ren Luming asked, the bronze box didn't respond, and it looked like "playing dead".

Ye Immortal, Ye Qiuxian, 'Xi', and the young man from the Yaxian clan, were also asking about the bronze box, but the bronze box did not respond.

"We chase!"

The young man of the Yaxian clan yelled, and took the master of the Yaxian clan and flew down toward the north.

"Immortal son, what shall we do?"

One day, the strong human race asked the immortal son.

"It's strange at this time. Even if you catch up now, you may not be able to catch up. Let the Yaxian clan take the lead. You continue to take action and kill the rebels!" Ye Immortal ordered.

"kill!"

The masters of the Heavenly Palace continued to attack, and the attacks of more than 8,000 gods rushed towards the Exterminating Army.

There are too many. Although Lu Ming had hit five Heavenly Monarch-level powerhouses with a single move, it had little effect on the entire battle.

On the side of the Heaven Extinguishing Army, they can only defend with all their strength, without the strength to fight back.

"Help, help..."

Suddenly, there was a panic cry for help not far away.

Many people looked over there.

There were two Tianjun-level powerhouses over there, the two who had been severely injured by Lu Ming before. The two had been lying on the ground, unable to move, and were trying their best to heal their injuries.

I don't know when, not far from the two, a huge tiger appeared.

This fierce tiger, with two long fangs, greedily stared at the two heavenly monarchs.

Roar!

With a long roar, the tiger rushed towards the two heavenly monarchs, opened its blood basin and swallowed the two heavenly monarchs.

The two heavenly monarchs were extremely frightened, exploding all the remaining power, barely blocking a fierce tiger's attack, and screamed in horror.

"Naughty animal, look for death!"

The people of the Celestial Race yelled, and dozens of the Celestial Race's strong men attacked the Tiger.

Dozens of rays of light flew towards the tiger, bombarded the tiger, and rolled the tiger out.

However, the tiger was not dead, only a few more wounds on his body, and blood was constantly flowing out.

Chapter 4656: Prehistoric species

Roar!

The fierce tiger was wounded and seemed extremely angry, staring at the Celestial Race roaring with murderous intent in his eyes.

"A beast dare not accept it and kill it!"

Those dozens of celestial and human masters shot again, dozens of attacks, and once again flew to the tiger.

This time, the tiger had learned well, turned around and walked through the forest at an amazing speed, and disappeared into the depths of the forest in a blink of an eye.

"Count this beast's escape quickly."

Those celestial races snorted coldly, and continued to attack the exterminating army.

However, before he had made two moves, there was a roar in the depths of the forest.

This roar, earth-shaking, through the golden cracked stone, straight through the clouds, as if to tear the sky apart.

Those huge ancient trees were constantly shaking, and some of them exploded directly.

Rumble!

In the next moment, the ground vibrated violently, coming from the depths of the forest, as if another behemoth was coming towards this side.

Soon everyone could see clearly that it was indeed a huge monster.

A fierce tiger, more than a kilometer in height, with two fangs on its mouth, sharper than a sword.

Wherever he went, those huge ancient trees kept shattering.

Behind him were two much smaller tigers, one of which had wounds on his body, and it was the one that was beaten away by the Celestial Race.

Roar!

The big tiger in front roared, and the terrifying sound waves made many people's complexions change drastically and their bodies kept retreating.

The tiger's eyes were blood-red, showing strong murderous intent, and his eyes swept across the people from both sides of the heaven. Then he jumped and rushed directly to the side of the heaven. With a wave of his claws, several sharp claws , Tore apart the void, and grabbed to Tiangong.

"Block!"

The people in Tiangong were shocked, this tiger's aura was too terrifying, far beyond the realm of the gods, and it gave people the feeling that they were facing a source.

The people in Tiangong didn't care about continuing to attack the Heavenly Annihilation Army, they turned all their attacks, and blasted the tiger.

More than eight thousand **** masters attacked together, and the power was terrifying. No matter how strong the tiger was, it would not be able to compete with more than eight thousand **** masters. The claws it grabbed were instantly defeated.

Many of the remaining attacks fell on the tiger.

Boom boom boom...

A series of roars sounded, and the huge body of the tiger was blasted out and rolled hundreds of thousands of meters on the ground, knocking down how many big trees.

However, this tiger is fine.

There was no wound on his body. After rolling for a certain distance, he struggled to get up, shook his head, and then let out an angry roar. The murderous intent was stronger than before.

Roar!

The tiger roared fiercely, and rushed to the palace again, swinging its claws, and at the same time spraying a huge beam of light from its mouth, with terrifying power.

"Shoot together!"

A celestial monarch yelled, and more than 8,000 masters of the celestial palace attacked together, blocking the attack of the tiger, and knocked the tiger out again.

But the Tiger was still fine, shook his head and stood up, with no wounds on his body.

Even those powerhouses at the Heavenly Sovereign level cannot leave wounds on their bodies.

"Essence Realm, this fierce tiger, definitely exists in Essence Realm."

Someone yelled.

"Even in the Origin Realm, it is impossible that there will be nothing to do under the attack of so many gods."

Another yelled.

Many people look ugly.

Yes, there are more than 8,000 divine masters, among which there are seven or more divine masters, not a few, and even divine masters in the peak realm are not a few. So many powerful people can definitely beat a divine master to death.

However, this fierce tiger withstood abruptly. What's the matter?

"The wild relics, this is the relics left over from the wild continents of the last epoch. The flesh is extremely powerful, and its defenses are extremely amazing. You can't break it."

Ye immortal voice sounded.

Prehistoric species!

Everyone was shocked.

Could it be that this tiger still lived from the last era to the present?

The existence of the Origin Realm has the same lifespan as the universe. If the universe does not die, it will not die. It is normal even to live from the last epoch to the present.

"We retire!"

How could such an opportunity be missed by the Heaven Extinguishing Army? Now the people of the Heavenly Palace have no time to take care of them. It is a good opportunity to get away.

More than 5,000 people from the Heaven Extinguishing Army gathered together and retreated towards the rear.

Even if the people in Tiangong wanted to chase, they couldn't do it, but the tiger killed them again.

The people in Tiangong can only deal with that fierce tiger intently.

The attack power of the Tiger is about the same as the general origin, but the defense is too strong, the skin is thick and thick, and the bones do not know how hard, so many attacks fall on it, and the defense cannot be broken.

Finally, helpless, Ye Immortal also ordered to retreat.

The more than 8,000 gods in Tiangong attacked and retreated, and disappeared in this area in a blink of an eye.

After the Heaven Extinguishing Army's people left the sight of the Heavenly Palace, they accelerated their speed and flew to the west first, and after they had leapt a sufficient distance, they then headed north.

After all, the human body is flying north.

They speculated that the torso of the human king's body is likely to be in the north, and the human king's limbs and head are the torso of the human king's body that fly to the north.

Only by going north can you find the human body.

However, instead of flying at high altitude, they landed in the forest and moved forward quickly in the forest.

The appearance of the tiger just now reminded them that this continent is probably a species left over from the last epoch.

The prehistoric continent of the last epoch was mysterious to everyone. The creatures at that time didn't know how powerful it was, but from the tiger, it could be seen that it must have existed in the Origin Realm. How dare they be careless.

Flying at a high altitude, it is easy to be targeted, if a few of the primitive relics come, they may be wiped out.

However, even after walking through the forest, they still encountered an attack not long after.

Several giant pythons, all in blue, each a few hundred meters long and ten meters in diameter, wrapped around a few big trees earlier, and culled to Lu Ming and others.

Fortunately, these pythons are not too strong, only the appearance of the eight or nine layers of the gods, their attack power is not high.

However, the defensive power is astonishing. Even the masters of the Divine Master Nine Layers can't break the defenses of a few pythons. In the end, the masters of the Divine Master pinnacle urge the power of the origin to kill the pythons.

After killing a few pythons, the masters at the peak of the gods did not waste, and put away the bodies of a few pythons.

This python is a relic of the wild, and its defense power is really abnormal. The leather armor is made from snake skin, and its defense power is also very amazing.

This makes many people's eyes light up.

This continent, let alone other things, these prehistoric species are all treasures, and they are all treasures.

If the previous fierce tiger can kill it and use its skin to make leather armor, it might not be easy for even the strong in the Origin Realm to break through the defense.

Unfortunately, it is too difficult to kill.

Chapter 4657: Wolves

The crowd continued to move towards the north. For a few hours, they were attacked by several waves. The strongest one reached the peak of the **** master. His body was strong and the defense was terrifying. He rushed and killed several **** masters. By.

In the end, several powerhouses from the peak of the gods joined forces, and there was even the existence of a peak of the gods, and the source-level gods were sacrificed before the creatures of the peak of the gods were finally killed.

This makes everyone feel a little heavy.

This kind of prehistoric relic is too difficult to kill, it is still relatively small, if it is large, it is really difficult to deal with.

Everyone repaired and moved on.

Some strong people at the peak of the gods arranged some people to scatter around to explore the traces of the prehistoric species. If they found a particularly strong one, or a large group of prehistoric species, they would immediately detour.

After half a day...

suddenly...

"Enemy attack, enemy attack..."

In the forest ahead, there was a loud roar, followed by a violent roar, swords and swords burst, and a great battle broke out.

All of them suddenly tightened their muscles, glanced around, and were ready for a battle.

Huh huh! ...

The divine masters scattered around quickly retreated, from all directions on the ground, to the side of the large army.

"what happened?"

The primitive ***** "Lion" roared and asked.

"The prehistoric species, there are prehistoric species, many prehistoric species..."

Someone yelled.

"Why only found out now?"

The lion roars.

"The other party is too cunning, too fast, and can hide in trees, it is difficult to find, you have to be careful, maybe the other party is close..."

Someone answered.

The next moment, Lu Ming felt his whole body standing upside down, as if something terrifying was staring at him in secret.

Ouch! Ouch! ...

Immediately, from all directions, there were shouts, which were almost the same as howling a wolf.

Then, Lu Ming and the others discovered that a group of blue giant wolves appeared on the surrounding giant trees.

Each of these giant wolves is ten meters tall, the Tege is huge, and the whole body is blue, which is similar to the color of giant trees, and can easily blend into those giant trees.

At a glance, there are no fewer than hundreds of heads.

They stood on the branches of those giant trees, staring at Lu Ming and the others.

The hairs of many people were exploded, and they were discovered by so many prehistoric species so close.

"Defense, do defense..."

The lion roars.

Ouch...

There was a long howl, and then hundreds of cyan giant wolves rushed towards the people who destroyed the heavenly army.

"Shoot!"

The lion roared and shot first.

The rest of the Heaven Extinguishing Army also shot together, surpassing five thousand attacks, and blasted away in all directions, bombarding the cyan giant wolves.

Many cyan giant wolves were knocked out, but stood up shaking their heads, nothing happened.

Only a few cyan giant wolves were killed, and they were killed by the existence of the peak of the gods.

The defense is amazingly strong.

Ooooooooo...

The giant wolf howled for a long time, and continued to rush towards the people of Heaven Exterminator.

These cyan giant wolves have different strengths and weaknesses, the weak ones are the threefold of the gods, and the strong ones are the peaks of the gods.

Especially the giant wolves at the pinnacle of the gods are too strong, relying on their strong defensive power and crazy impact, they can only force the Exterminating Army to defend with all their strength, just like against the heavenly palace.

However, these giant wolves are obviously not like Tiangong.

These giant wolves relied on defensive, crazy impact.

And after the impact for a while, hundreds of giant wolves suddenly rushed out from under the ground, rushing out from under Lu Ming's feet.

At this moment, caught off guard, dozens of divine masters were torn apart by the blue giant wolves and became a blue belly Chinese meal.

Moreover, the defense of the Heaven Extinguishing Army should not be completely torn apart and turned into a melee.

Roar!

A five-tiered blue giant wolf roared towards Lu Ming, over ten meters tall, like a hill, pressed towards Lu Ming.

"kill!"

Lu Ming drank softly, and the God of War spear came out like a bolt of lightning.

puff!

The God of War spear pierced directly under the giant wolf's neck, piercing the giant wolf's troubles.

Kill with one shot!

Lu Ming drew out the God of War Spear and slammed at another giant wolf.

The God of War Spear is a top-level source-level magic weapon, and the tip of the gun is extremely sharp. At the beginning, the source-level magic weapon of Yechu Tianji was pierced forcibly by the God of War Spear, which shows how sharp the God of War Spear is.

These cyan giant wolves, although their defensive power was amazing, could not stop the sharpness of the God of War Spear.

puff!

The cyan giant wolf, who had been the sixth layer of the god, was assassinated by Lu Ming with a single shot.

Lu Ming held the God of War spear in his hand and ran rampantly. With each shot, he could assassinate a blue giant wolf.

In less than a minute, six giant cyan wolves were killed by Lu Ming.

However, other people did not have the result of Lu Ming's victory. They did not easily break through the defense of the blue giant wolf. More than five hundred blue giant wolves have been slaughtered frantically, and the casualties on the side of annihilating the heavenly army have exceeded one hundred.

In particular, the giant wolves at the peak of the gods are even more powerful. On the side of the Heaven Extinguishing Army, a single peak of the gods cannot stop a blue giant wolf. At least two strong people at the peak of the gods can block the blue giant wolf.

There are even fewer who can kill the giant wolf, only a few.

The existence of the peaks of these gods all possessed source-level gods, and only source-level gods could kill the giant wolves at the peak of the gods.

However, there are too few people who control the source-level magic weapon.

You know, even among the strong in the Origin Realm, most of them don't have the Origin Level Divine Weapon.

Those in the Divine Master Realm can have source-level divine weapons, and they are all found in the ruins of the universe.

"Do I want to borrow a few."

Lu Ming's thoughts changed sharply.

There are many gods in the palace on his body. If they can lend the existence of the peak of the gods, they will definitely increase their combat power.

Just as Lu Ming was about to take action, a violent wind rushed in. A huge blue wolf hit and flew a master of the Celestial Extinguisher, killing Lu Ming with a murderous face. The speed was unusually fast, and his claws were better than the magic sword. Also sharp, grabbed Lu Ming's head.

Before he could dodge, Lu Ming swung the God of War spear and swept out.

With a sudden sound, the God of War Spear collided with the claws of the blue giant wolf, and a violent roar erupted. Lu Ming's body shook wildly, and he couldn't help but retreat.

"The Great Wolf of the Divine Lord Nine Layers!"

Lu Ming's heart sank.

Obviously, the powerful giant wolf that killed six cyan giant wolves just now had already been spotted.

The one who attacked Lu Ming just now was a giant wolf of the Divine Master Nine Layers.

Ouch!

The giant wolf roared, and then slaughtered it towards Lu Ming. The huge claws grabbed towards Lu Ming, making a piercing sound.

Facing the giant wolf of the divine master nine-fold, Lu Ming could only fight with all his strength, and he had no spare energy to send the source-level divine weapons.

call out!

The God of War spear turned into a flash of lightning and pierced the giant wolf's eyebrows, but was blocked by the giant wolf with sharp claws. Lu Ming's arm was numb, and he retreated several steps.

Chapter 4658: Group action

"What a powerful force!"

Lu Ming felt his arms numb, and blood surged in his body.

This blue giant wolf is amazingly strong, not weaker than the Celestial Clan of the same level.

In fact, these prehistoric relics are very powerful, and in a battle at the same level, they will not be weaker than the Celestial Race.

I used to feel that the power of these prehistoric species was not particularly outstanding, mainly compared with their defensive power. Their defensive power was too amazing, but they ignored their power.

At the same level, the power of the Celestial Race was not weaker than that of the Celestial Race. In the prehistoric universe, it was already at the peak.

The cyan giant wolf of Divine Master Nine Layers had vaguely overwhelmed Lu Ming in the head-on confrontation.

Roar!

The cyan giant wolf roared, spouting a wave of heat in its mouth, jumped forward, and continued to kill Lu Ming.

Shoo...

Lu Ming brandished the God of War spear and pierced out spear lights to fight the giant wolf fiercely.

Now Lu Ming's hole cards are a little less, and without the biggest hole card of the King of Man's right arm, only the power of the origin is left.

However, the power of the original source has only one trick. Although it is powerful, it cannot be easily used.

Lu Ming will show it when he finds the right opportunity, in order to kill with one blow.

Ooooooooo...

Not far away, there was a howl of wolves. Those blue giant wolves attacked more fiercely, relying on their strong defensive power to continue to kill.

Although there are ten times more people on the Celestial Extinguishing Army than the blue giant wolf, there are not many masters who can kill the blue giant wolf.

At least two levels of cultivation base higher than the cyan giant wolf can break through the defense of the cyan giant wolf.

As a result, those cyan giant wolves above the eighth level of the Divine Master are difficult to kill.

"The one in the distance is the wolf king, and the wolf pack is generally controlled by the wolf king. As long as the wolf king is killed, the wolf pack can be repelled."

The primitive **** "Lion" shouted.

Many people also saw that on the branch of a giant tree not far away, stood a huge blue wolf.

This cyan wolf is cyan all over, and the cyan hair is beating like a cyan flame.

This giant wolf is obviously the wolf king.

Every time it roars, the giant wolves will attack wildly.

"I'll kill him!"

"Plus me!"

Immediately, there were three figures who stood out from the siege and slew the wolf king.

These three figures are the existence of the peak of the gods.

Roar!

The Wolf King had no fear, and faced the three masters with sharp claws. The sharp claws blocked the three masters abruptly.

The three masters faced the Wolf King with more than a dozen moves in a row, and none of them had a victory or defeat.

The strength of this wolf king is amazing. Although he hasn't stepped into his origin, his combat power is much stronger than that of the giant wolves at the peak of other gods.

"To kill the wolf king, you must have a source-level magic weapon, Tianxuan, you and me!"

The lion roared, his body quickly swelled, turned into a hundred feet high, and rushed towards the wolf king.

Another five-tiered master of the Divine Lord, together with the "Lion", killed the Wolf King.

Both of them control the source-level gods, and their combat power is stronger than the peaks of other gods.

With the addition of two Divine Master Pinnacles who controlled the source-level divine weapons, they immediately gained the absolute upper hand.

After a few moves, the 'lion' hit the giant wolf with a source-level magic weapon, leaving a huge wound on the giant wolf's body.

The source-level magic weapon, with the blessing of the **** master's peak power, is enough to break through the defense of the giant wolf.

The existence of the pinnacle of the gods also condenses the origin seeds, and the power of the origin is much more than that of Lu Ming, urging the origin level gods with amazing power.

Oooooo...

The Wolf King was injured and suddenly roared, trying to summon other giant wolves to help him.

"Hold them..."

The people of the Exterminator roared.

The number of them is ten times more than that of giant wolves. Although many people can't break the defense of giant wolves, it is still possible to stop the giant wolves, and it is still possible to roll those giant wolves out.

Thousands of attacks burst out, constantly bombarding the giant wolves. Although the lethality is not enough, the giant wolves can never rush out.

The five masters at the peak of the gods attacked with all their strength.

Three existences without source-level magic soldiers contain the wolf king, and the existence of two active-level magic soldiers launches the main attack.

After a dozen moves, the 'Lion' finally seized the opportunity and cut off the head of the wolf king with one move.

Ooooooooo...

As soon as the wolf king died, the other blue giant wolves were all messed up, howling and attacking indiscriminately. After being repelled by the Exterminating Army for a few waves, the blue giant wolves retreated and disappeared without a trace.

Huhu...

Many people heaved a sigh of relief. The relics of the wild, it was really difficult to deal with, if they hadn't killed the Wolf King, they would have to pay a greater loss.

Even so, in the previous wave, more than fifty gods were killed.

This is the Divine Lord, the total amount of the Divine Lords of the Heaven Destroying Army, plus those who are not free or in retreat, will not exceed six thousand.

To die so many at once is definitely a huge loss.

"Everyone, I think we are going to act separately!"

A master at the pinnacle of God Lord said loudly.

Everyone nodded, they all understood a truth.

There will be as many as five thousand people acting together. The goal is too big, and it is easy to attract the wild relics.

Only by acting separately, the goal will not be that big, and when you act, you can be more flexible, and you can easily avoid those prehistoric species.

"I suggest that we divide into a small team, each team, no more than ten people, spread out and move, avoid the ruined species, go north, and wait until when and where to meet."

The lion spoke.

Dispersed, even if it encounters an incomparably powerful and invincible legacy, at most ten people will be lost.

But if you act together, if you suddenly encounter a large group of prehistoric species, such as the previous wolf pack, if you add a few primitive prehistoric species, they are in danger of annihilation.

"Okay, I agree!"

"I agree!"

...

Everyone nodded.

"However, the main purpose of our trip is for the human body. This is very important about the outcome of the battle between us and the Tiangong. There must be no loss. Lu Ming and 'Xi' can control the human body, saying Uncertainty will play a key role in the end. When I propose to disperse, some top powerhouses will follow them and protect them. What do you think?"

Lion continued to speak.

"I have no opinion!"

"I have no objection!"

Everyone nodded.

Although it is much safer to stay with the strong, everyone also knows that the human body is the key. If the entire human body is obtained by the heavenly palace, the heavenly destroying army will be destroyed.

Lu Ming and 'Xi' are indeed key figures, and they should be protected.

Lu Ming naturally didn't have any opinions.

Immediately, everyone began to group.

Most are groups of eight or nine.

After dividing, he flew to the north and disappeared in the vast forest.

Generally, in each group, there will be at least one master of the divine master with seven layers or more.

Chapter 4659: Extraordinary continent

Lu Ming's group, plus Lu Ming, made a total of nine people.

The other eight people are all masters at the pinnacle of the gods, two of them also have source-level gods, and the lion is one of them.

Next to 'Xi', there were eight masters at the pinnacle of the gods, and two of them controlled the source-level gods.

In addition, there are many masters in Tang Jun's group. Tang Jun's identity is Tang Feng's daughter, and everyone will naturally focus on protection.

"Lu Ming, take care, we will make up in the north!"

Tang Junlai said goodbye to Lu Ming.

"You too!"

Lu Ming smiled.

Later, Tang Jun followed her group and disappeared into the forest.

"Lu Ming, let's go too!"

Lion Road.

Lu Ming nodded, and a group of them started to set off.

They headed west first, walked forward for a while, and then headed north.

This forest is vast and boundless. About 5,000 of them are scattered into more than 500 teams, scattered in the vast forest, like a small stone entering the sea, disappearing without a trace in a flash.

As they proceeded, the lion had seven other masters faintly guarding Lu Ming in the middle. Among them, the two fastest masters were exploring the way ahead. Once they found a powerful prehistoric species ahead, they would Take a detour.

Lu Ming was also happy and relaxed.

There are fewer people, and they are more flexible than before. I don't know how many times they can move. The speed has also increased many times. They are constantly flashing in the forest, and large areas of territory are left behind by them.

On the way, they will encounter the prehistoric relics every once in a while.

These wild relics are strong and weak.

The weak ones are equivalent to the Divine Sovereign Realm, and the stronger ones are the Divine Lord Realm. In just three days, Lu Ming and the others have at least encountered hundreds of Divine Lord Realm's primordial relics.

They even encountered two of the Primordial Relics of the Origin Realm, but they avoided them in advance and took a detour.

The primordial relics of the original state all have their own territory, as long as they don't step into the other's territory and detour far away, they will not chase.

Along the way, Lu Ming and others were secretly surprised.

There are too many powerful wild relics on this continent.

The nine of them just walked in one direction, and in three days they encountered hundreds of desolate relics of the Divine Realm, and two of the Origin Realm, plus the group of blue giant wolves that they had encountered before, the Divine Realm's There are as many as six hundred leftover species.

This is definitely only part of this continent.

There are so many astonishing species in the Divine Master Realm of this continent, and all together, there may be more Divine Masters in the entire Primordial Universe.

This is amazing. If anyone can control the prehistoric species here, he can dominate the prehistoric universe.

Just a continent, there are so many powerful wild relics, how many masters will there be on the wild continent of the last era?

Gods are everywhere, the origins are as many as dogs?

"This is not right. According to the ancient records excavated from the ruins of the universe, even in the wild continent of the last era, there are not so many masters, and it is impossible to be full of gods..."

The lion shook his head.

There are many gods in the Primordial Continent, that's for sure, I'm afraid it's hard to measure.

However, they only walked for three days. Because they had to be wary of the powerful prehistoric species, the speed was not very fast and the distance was not very far.

At this distance, there are hundreds of divine master realm's wild relics, and this density is too high.

You know, the prehistoric continent of the last epoch has an astonishingly large area. The sum of all continent fragments in the ruins of the entire universe, plus all the planets in the prehistoric universe, is the area of the prehistoric continent.

Although this continent is huge, it is not as big as the Qianqiu Battlefield. Compared with the complete prehistoric continent, it is only a drop in the bucket.

If you follow this density, how many masters in the Primordial Continent are there?

This is obviously inconsistent with those ancient records.

"Obviously, this continent is extraordinary, and so many powerful prehistoric species will be born on a small area."

Another master of the pinnacle of God.

This made everyone feel heavier. The more extraordinary this continent, the more powerful the prehistoric species, the greater their pressure.

There was a little more uncertainty in the fight for the body of the king.

Later, they will not only have to face the powerhouse of the Heavenly Palace, but also the powerhouse of the Yaxian tribe, and possibly the mighty prehistoric species.

This trip, I am afraid it will be full of difficulties and crises.

"Be careful!"

Suddenly, the voice of a master in front of the pathfinder rang in Lu Ming and others' ears, full of solemnity in the form of sound transmission.

Lu Ming and the others shook their hearts, and immediately held their breath and condensed their breath.

"Look ahead..."

A high and deep point to the front.

Across the front, there are about a dozen peaks, all of which are huge and very high, extending into the sky.

The highest mountain is at least one million feet tall.

But this is not the most amazing. What is amazing is that a giant snake is entwined on this peak of one million feet.

This giant snake hovered from the bottom of the mountain and went all the way up, entwining the highest mountain in it.

Horror, a terrifying giant snake.

Even if they are far apart, the breath of this giant snake is still heart palpitating.

Origin Realm, this giant snake, is definitely the existence of Origin Realm, extremely powerful.

Karma!

At this moment, there was a sharp cry in the sky, the cloud was torn apart, and another giant appeared.

It was a white giant bird, snow-white all over, covered with snow-white feathers, huge, spreading its wings, covering the sky.

The giant bird swooped down, and its two huge claws grabbed the giant snake.

Unwilling to show weakness, the giant snake gave a sharp cry, and its huge body bounced out like a spring, fighting with the giant bird.

Boom boom boom...

Shocking roar erupted, devastating energy swept all directions, the earth shook, and ancient trees exploded, just like the end of the day.

Lu Ming and the others couldn't help but swallowed their saliva.

The two original source realm's wild relics have dried up, and this continent is really dangerous.

"let's go!"

Lion Transmission said.

They didn't dare to stay for a long time, so they hurriedly walked away and walked in another direction until they couldn't hear the movement behind, and they were relieved.

The Giant Bird and the Giant Snake just now were definitely not ordinary origins, and their combat power was stronger than ordinary origins. If they were involved, they would be finished.

Fortunately, they were broken up into parts and scattered. If they were to act together with 5,000 people before, they would definitely be discovered. That would be serious.

They continued to go north, and in the next two days, although they encountered some prehistoric species, they were all shocked.

"Look, what is that?"

Suddenly, someone whispered, with a hint of excitement in his voice.

Not far ahead, there was a huge cliff. On a protruding rock from the cliff, they saw a strange little tree.

Chapter 4660: Source-level magic drug

The small tree was red all over, very short, only half a meter high, but it looked strange.

The little tree glowed, and above the little tree, there was actually a tiny little tree that was condensed of energy, as if it were alive, running around the little tree non-stop.

"This is... a source-level magical medicine!"

The lion spoke, his voice was very excited, and his eyes glowed with hot light.

"Source-level magic drug!"

Lu Ming's heart moved, as the name suggests, it must be a magical medicine for the original state.

"Lu Ming, if you want to improve your cultivation level, you must absorb and refine the treasures that contain the mark of the source, and the source-level magical medicine contains the mark of the source, and the content is high, and the essence is rich, even if it is containing the mark of the source. Among the treasures, they are all considered the top treasures."

Knowing that Lu Ming didn't understand the source-level magical medicine, in the knowledge of the sea, the bone demon gave a timely explanation.

"Today's primordial universe, there is no source-level magical medicine. Even in the ruins of the universe, it is almost rare to see it. I did not expect to encounter one here."

Another master at the pinnacle of God Lord opened his mouth with the same fiery eyes.

The source-level magical medicine is too scarce, and today's primordial universe cannot be conceived.

And the ruins of the universe, because of the war in the last era, were severely damaged, the rules were chaotic, and it was difficult to breed source-level magic soldiers.

Even if the cosmic ruins rules have become more orderly in the last dozens of sidereal years, no such treasure can be born for a while.

There are huge ruins in the universe, but they are very rare.

Very few people can get it.

In fact, even if someone gets it, it won't take it out because it's too precious.

The existence of the Origin Realm has a great effect on improving one's own cultivation level after taking it.

And after taking the existence of Divine Lord Peak, the chance of breaking through the Origin Realm will also be greatly increased.

It's no wonder that the "Lion" and others are so hot, and this is too temptation for them. Even if each person divides a leaf, it will greatly help them break through the original state.

However, they did not dare to act rashly, because there was a wild relic on the raised rock.

It was a large golden eagle. The whole body was golden. It was cast like gold and looked like a golden-winged roc.

The golden eagle lay lazily around the small tree, breathing the glow from the small tree.

"This golden eagle, I don't know what cultivation is it?"

Someone whispered.

"I don't know, it's too far to be sensed!"

The lion shook his head.

In the end, they decided to hide in the dark and observe carefully to see what cultivation level the golden eagle had made, or they would act again after the golden eagle left.

The golden eagles always go out to find food. At that time, it was their opportunity.

One day, two days, three days...

They waited for five days.

Five days later, the golden eagle was finally about to act. He stood up, his body was filled with golden glow, and a few rays of light spurted from his mouth, falling around the small tree.

In the next moment, the little tree disappeared, actually being hidden.

Then, with a wave of the golden eagle's wings, his body rose into the sky and rushed into the distance.

"It turned out to be the realm of the pinnacle of God Lord."

Shi and others moved their eyes.

When the golden eagle took off, they finally sensed, what is the root of the golden eagle, the peak of the god.

However, the golden eagle gives a strong sense of oppression, which is probably not the peak of ordinary gods.

In a blink of an eye, the golden eagle disappeared in the distance without a trace.

"Let's act!"

The lion showed a hint of joy.

A group of nine people, converging their breath, quickly rushed towards the cliff, without any exception, they came to the raised rock.

From a distance, the raised rocks are not very large, but they are actually very large and very wide above them.

Near the cliff, there is a huge cave with a few golden feathers scattered in the cave, which is obviously the residence of the golden eagle.

But everyone just glanced randomly, and their eyes fell on the location of the little tree just now.

They condensed power into their eyes and observed carefully.

"how about it?"

Lion asked.

"It's just a simple formation, it can be broken easily."

A withered old man said.

This old man, from the world of the turtles, is proficient in one rune formation.

"Then do it quickly, if you delay, I'm afraid that the golden eagle will spot you."

The other person urged.

The old man of the World Turtles nodded, waved his hands, and a large number of runes diffused out, covering the transparent void in front.

When shrouded by these runes, a golden mask suddenly appeared in the transparent void, and inside the golden mask, it was the source-level magical medicine that was shining.

At this moment, there were nine figures in a forest in the distance. They came from a distance and stayed between the branches of a big tree.

Their eyes also saw Lu Ming and others all at once.

"It's a rebel!"

"And... Lu Ming!"

Several indifferent voices sounded.

These nine figures are all of the Celestial Race.

One of the young men was surprisingly Lu Ming's old opponent, Ye Qiuxian.

The other eight Celestial Races are all Heavenly Monarch-level figures.

Obviously, the Tiangong also took the same plan as the Exterminating Army, breaking it into pieces and decentralizing its actions.

In addition, the status of Yeqiu Immortal is not trivial. It is a genius of the Celestial Race and can inspire the power of the human body. Therefore, the Tiangong has also sent eight top experts to protect Yeqiu Immortal.

As soon as they came from a distance, they saw Lu Ming and others.

As soon as he saw Lu Ming, Ye Qiuxian showed indifference and murderous intent in his eyes.

"That's... a source-level magic weapon!"

Immediately afterwards, a heavenly monarch discovered that source-level magical medicine, with a greedy light in his eyes.

"It's really a source-level magic weapon, please fairy son, do we want to make a move?"

A heavenly monarch asked.

"Don't worry, the opponent's strength is not below us. If we rush to make a move, we will only hurt both sides. We lie in ambush and attack suddenly. We will kill one or two masters of each other before we can kill each other."

Ye Qiu Xiandao.

"I beg the Fairy to say something right."

The others nodded, closing their breath.

"That is..."

Suddenly, Ye Qiuxian and the others saw a golden light spot in the distance, which flew quickly toward this side.

No, to be precise, it flew towards the cliff face Lu Ming and the others.

"Haha, God helped me, let's just wait to pick up the bargain!"

Ye Qiuxian was ecstatic.

At this time, Lu Ming and others' expressions changed drastically, and they also found the golden light spot.

It was clearly the golden eagle that flew away before.

Unexpectedly, the other party came back so soon.

Or, as long as the formation of the opponent is moved, the golden eagle will sense it?

This is probably the case.

The hidden formation under the golden eagle cloth, although simple, but as long as it moves, it will immediately sense it, and quickly come back.
