Chapter 4661: Powerful golden eagle

"Hurry up!"

The lion roared, his muscles bulged, and his body swelled, becoming a hundred feet high, preparing for a battle.

"Break it for me!"

The old man of the World Turtle gave a soft drink, and more runes filled his hands.

These runes are like small snakes, desperately drilling into the mask.

"Hurry up, didn't you say it is easy to break?"

The lion roars.

"It takes time to break easily, it only takes less than a minute."

The old man of the World Turtles responded.

The lion was speechless.

Yes, it usually takes at least a few hours or even a few days to break a formation. Some formations take many years to break.

It only took less than a minute, and it looked like it was about to break. It was really easy.

However, the golden eagle will soon be killed.

With a touch.

The mask finally broke, and the source-level magic weapon was completely revealed.

Karma!

The golden eagle made a sharp howl, and the eyes were full of angry flames. With a flap of wings, dozens of golden sword lights flew out of a pair of wings and killed Lu Ming and others.

"Hurry up and dig out the source-level magical medicine, this golden eagle, we will deal with it."

The lion shouted, stepped on his feet, and rushed out. The sword in his hand waved, cutting out dozens of blades and colliding with dozens of golden lights.

A series of collisions sounded, and the sword light and sword light dissipated, but the golden eagle kept smashing at the 'lion' quickly, with a sharp claw grabbing at the lion's head.

The lion slashed hard.

Keng!

The sword slashed on the claws of the golden eagle, and there was a sound of gold and iron clashing, sparks shot everywhere.

The next moment, the 'lion's face changed drastically, his huge body shook wildly, and he flung it backwards and smashed it against the cliff wall, causing the entire cliff to shake.

The golden eagle wanted to continue to attack and killed the 'lion' in one go, but other masters had already taken action.

The six masters at the pinnacle of the gods together slew the golden eagle together, with six sharp attacks, attacking six parts of the golden eagle.

Karma!

The golden eagle did not care about continuing to chase and kill the 'lion', and its wings swept out like golden sabers, defeating all the three previous attacks.

As for the other three attacks, let them fall on its back.

The golden eagle shook his body and flew out, but there was nothing at all, it was blocked by the thick feathers.

"So strong!"

Lu Ming was shocked.

The strength of this golden eagle is really amazing, even the 'lion' was knocked into the air by one move.

You know, 'Lion' just used a source-level magic weapon, but it didn't cut off the claws of the golden eagle.

Although this golden eagle is only the cultivation base of the **** master peak, its strength is far surpassing the general **** master peak powerhouse.

No wonder it can monopolize a source-level magical medicine, and other prehistoric relics dare not come to compete.

But after such a delay, the old man of the World Turtle has completely dug out the source-level magic medicine and put it into the storage ring.

Seeing the source-level magical medicine being dug away, the golden eagle issued a sharp and long howl, frantically culling the old man who was going to the world's turtle.

However, the "Lion" and others have already taken action, and the seven masters have besieged the golden eagle together.

The old man of the World Turtles stood beside Lu Ming and didn't make a move, obviously to protect Lu Ming.

"Senior, you can do it too, don't worry about me."

Lu Ming said.

Although he can't get involved in this battle, he can still protect himself.

"It's okay, the seven of them are enough to deal with this golden eagle."

The old man of the world's turtles said.

The seven masters joined forces, and two other masters controlled the source-level magic weapon. They were indeed very powerful, suppressing the golden eagle.

But the defensive power of the golden eagle is too amazing. For a while, they can't kill the golden eagle at all.

The thick feathers are too defensive, even the source-level magic weapon can't penetrate the thick feathers.

"You entangle him, and the two of us attack its vitals!"

The lion roars.

The golden eagle is not completely without weakness.

Like the eyes of the golden eagle, and the neck of the golden eagle.

Although the neck of the golden eagle is also covered with feathers, the feathers are just downy, which is relatively soft and relatively weak in defense.

However, the big golden eagles used claws and wings to cover the eyes and neck tightly, and their attacks were difficult to achieve.

Immediately, the five masters without the source-level magic weapon, fully contained the golden eagle, attacked his wings and claws, and exposed its defenses.

The lion and another master with a source-level magic weapon attacked the eyes and neck of the golden eagle with all their strength.

After a dozen moves, the lion finally seized the opportunity and slashed it on the golden eagle's neck.

The power of the source-level magic weapon played a role, cutting through a thick layer of fluff, leaving a deep wound on the golden eagle's neck, straight through the bone.

The feathers flew, and the blood flowed.

"effective!"

Lion and others' eyes shone brightly.

Sure enough, the source-level magic weapon can pass through the fluff on the golden eagle's neck, causing serious damage to the golden eagle. Such attacks can definitely cut off the golden eagle's head.

"Karma!"

The golden eagle was injured and was completely mad. His whole body exuded a dazzling golden light. The many feathers on his wings flew out directly, turning into a sharp sword, and stabbing towards the seven masters.

At least there were hundreds of sword lights, and the seven masters were repelled at once.

After repelling the seven masters, the golden eagle screamed, its wings screamed, and rushed towards the lion.

A pair of sharp claws grabbed the lion at an astonishing speed.

The lion had just been repulsed by the sword light, unable to dodge, and could only fight back, but at the critical moment, the power could not burst out 100% and was caught by a sharp claw of the golden eagle.

puff!

The blood was splashing, and the small half of the lion's left body was torn off, which was terrible.

Roar!

The lion let out an angry roar and retreated violently.

"Block it!"

The other masters also reacted, rushed over, and continuously launched attacks, which blocked the golden eagle's attack and saved the life of the lion.

"not good!"

The old man of the World Turtles finally couldn't stay. He waved his hand and twelve flags appeared in the void. The flags glowed and filled with countless runes. These runes were intertwined to form a huge chain, facing the golden The big eagle entangled away.

At the same time, the old man of the World Turtle squeezed his hands quickly, and more rune formations emerged around them, all of them trapped enemy formations, all shrouded in golden eagles.

Quack...

The golden eagle kept screaming and struggling frantically. Those rune formations trembled violently and exploded constantly.

"Shoot together!"

The old man of the world's turtles roared.

In fact, there is no need for him to yell, other people also shot, various attacks, constantly attacking the golden eagle.

So many masters, coupled with the formation of the old man of the world's turtle, finally trapped the golden eagle, and his actions became slow.

Chapter 4662: Celestial Race

The golden eagle was shrouded in heavy formations, coupled with the attacks of the other six masters, the golden eagle was covered with runes, and the action began to become slow.

"kill!"

The lion roared, ignoring his injury, holding a saber in one hand, and hitting him with a sword.

puff!

This knife was cut on the neck of the golden eagle, and it was cut on the wound left before.

The neck of the golden eagle was chopped off for more than half, the bones of the neck were broken more than half, and the entire head was almost chopped off.

The golden eagle was violent, struggling crazily, those runes, constantly bursting, wanted to struggle out.

"kill!"

The lion roared again and slashed again.

This knife completely chopped off the head of the golden eagle.

The head was chopped off, the soul was also destroyed, the golden eagle stopped struggling, the breath quickly dissipated and completely fell.

Huhuhu...

The eight masters, including the lion, kept panting.

The strength of this golden eagle is too strong, far surpassing the peak of ordinary gods.

Although not comparable to the Origin Realm, at the peak of the Divine Lord, it is absolutely invincible.

Their eight **** master peaks, two of them were active-level **** soldiers, and they all paid a lot of price to kill them.

Even the lion was seriously injured.

The lion took out a few divine pills and swallowed them, refining the pills to heal his injuries.

"Unfortunately, the golden eagle did not kill one or two people."

Not far away, a Tianjun sighed.

"Although they have not killed one or two people, they consumed a lot of money to deal with the golden eagles. The primitive **** was seriously injured and his strength was greatly reduced. Our strength is far above them. It is time to do it. "

Ye Qiuxian said coldly.

Immediately, Ye Qiuxian and the eight Heavenly Sovereign level powerhouses converged their aura and quietly approached Lu Ming and the others.

On the other side, the lion and others collected the body of the golden eagle and prepared to leave.

This golden eagle can be said to be a treasure, so naturally it cannot be wasted.

At this moment, Lu Ming suddenly felt his hair explode, feeling an inexplicable crisis.

"Everyone, be careful, it's dangerous!"

Lu Ming roared.

Shi and others were also very alert, and immediately reacted, scanning all directions.

"Damn it, shoot!"

Ye Qiuxian shouted.

Huh huh!

Eight powerhouses at the Heavenly Sovereign level rushed directly.

Before the people arrived, eight terrible attacks had already killed Lu Ming and others.

"It's the Celestial Race, defense!"

The old man of the World Turtles roared and waved his hand, and a huge shell appeared in the sky, blocking an attack.

Others also resisted.

However, the lion is not in the peak state. The previous golden eagle's move caused him a lot of injuries.

Although he finally exploded with all his strength, beheading the golden eagle with two consecutive swords, but also overdrawn the final strength. At this time, although he blocked the opponent's move, he backed back again and again.

"Gather together to form a defense!"

The old man of the world's turtles roared.

With a wave of his hand, this time more than 30 flags flew out, turning into a huge defensive formation.

Others also used defensive secret techniques.

They surrounded Lu Ming and Lion in the middle.

As soon as the opponent made a move, they felt that the Celestial Clan who came here was very powerful, and all eight of them were Heavenly Monarchs.

Lu Ming can't deal with it.

The Lion was seriously injured and couldn't deal with it.

"kill!"

Eight powerful men of the Heavenly Sovereign rank surrounded Lu Ming and the others, and the power of the strongest heavens burst out, turning them into terrifying power of destruction, and they killed Lu Ming and others.

However, the strong on the side of the Heaven Extinguishing Army only defended, not attacked, and blocked the opponent's attack for a while.

"Attack, continue to attack, they will fight the golden eagles, they will lose a lot, and sooner or later they will be unable to stand it."

Ye Qiuxian stepped into the air, stood high in the sky, and said loudly.

Shoo...

The eight masters of the Heavenly Sovereign level, with all their strength, attacked continuously.

Among the eight masters of the Heavenly Sovereign level, there are also two with source-level divine weapons. The attacks of these two are the most terrifying, making the defense of the Heaven Extinguishing Army precarious.

"Lu Ming, this place will be your burial place!"

Ye Qiuxian spoke indifferently.

"Yeqiuxian, you will only hide in the dark and wait until we are injured. This is the style of the first genius of the Celestial Race?"

Lu Ming sneered.

"Lu Ming, I can give you a chance, come out, you and I fight alone, this time, I will not lose, I will definitely kill you."

Yeqiu Immortal Dao, full of strong confidence.

Of course, Lu Ming would naturally not go out and fight alone with Ye Qiuxian easily. He went out, and who knew if the opposing Tianjun would attack him directly.

The Destroyed Heavenly Army defended with all its strength, and the Heavenly Palace was struggling to attack, trying to break the Destroyed Heavenly Army's defense.

In a blink of an eye, dozens of moves passed.

The defense of the Heaven Extinguishing Army has become a bit unstable, and it has been breached several times.

After all, they had tried their best in the previous battle with the Golden Eagle, and the wastage was really great.

In addition, the lion was severely injured and lost a strong combat power, and there were two heavenly monarchs in the Heavenly Palace who had source-level magic weapons. The gap was not small. The longer the time, the more the gap will be revealed.

"We break out!"

The lion roars.

Although he tried his best to heal his injuries, after all, the time was too short and his recovery was very limited.

"Flush!"

They rushed in one direction, trying to break through.

However, when the defense is turned into an impact, the defense naturally loosens.

"Break it for me!"

A Heavenly Sovereign who possessed a source-level magic weapon seized the opportunity and stabbed a sword with all his strength, breaking through three defenses in an instant. The sword light was extremely sharp and penetrated the shoulder of a master of the Heaven Extinguishing Army.

The master couldn't help backing continuously.

The defensive formation was torn apart.

"kill!"

The other heavenly monarchs of the Tiangong seized the opportunity to make terrible attacks and attacked the torn gap.

"Block!"

The Heaven Extinguishing Army wanted to resist, but it was too late. The defense was completely torn apart. They couldn't help but retreat again and again, and the distance between them was opened.

"kill!"

A heavenly monarch stared at a master of the Mietian Army and killed him.

The two confronted each other a few times, and they had already left the battlefield and smashed into the distance.

Other heavenly monarchs also attacked one after another, turning into a melee in an instant.

"Lu Ming, die!"

There were a few Tianjun staring at Lu Ming, trying to kill Lu Ming.

"Lu Ming, the defense is broken, and you can only fight separately. You seize the opportunity to escape. We are dragging these people."

The strong man of the world's turtles roared, and he continuously pinched Yinjue, turning into a chain to entangle Lu Ming.

"Yes, let's hold them, Lu Ming, you run away and meet in the north!"

The lion also spoke. He swallowed several divine pills in succession and burst out the remaining power. With a loud roar, his body swelled up rapidly and turned into a huge lion-like behemoth. This is its body.

.

Chapter 4663: Fight again

The lion turned into the main body, he held the saber with one paw, and broke open continuously, swinging open several attacks.

The old man of the World's Turtle took the opportunity to flick Lu Ming away and flew away.

"My strength is too weak..."

Lu Ming's fists were clenched tightly together, and his bones crackled.

In his heart, there was a wave of anger, extremely suffocated.

Whether it was the previous battle with the golden eagle or the current battle with the Tiangong powerhouse, he couldn't get involved.

In a word, he is too weak, and if he rashly intervenes, it will only get in the way. Not only does it have no effect, but it will harm the "Lion" and others.

After the elders of the World Turtles got out of Lu Ming, several heavenly monarchs wanted to chase Lu Ming, but they were entangled by the "lion" and the elders of the World Turtles.

Lu Ming is a taboo body with unlimited future, and it is also vital to seizing the human body this time.

Even if they were dead, they couldn't let Lu Ming have an accident.

"Lu Ming, don't want to leave!"

Ye Qiuxian kept staring at Lu Ming, and when he saw Lu Ming being thrown out, Ye Qiuxian exploded with all his strength and chased Lu Ming.

There is no way to stop Ye Qiuxian from the old man of the world's turtles.

They can desperately entangle those heavenly monarchs, it is already very good.

Lu Ming was thrown away tens of thousands of miles to stabilize his figure, but Ye Qiuxian immediately caught up.

"Lu Ming, don't go if there is a kind, fight with me!"

Ye Qiuxian yelled, the speed reached the extreme, and it was thousands of miles in a flash.

"Do you think I am afraid of you? If you want to fight, then fight!"

Lu Ming's murderous voice sounded, stopped his figure, held the God of War gun in his hand, and faced Ye Qiuxian.

He had suffocated his anger long ago and had nowhere to vent.

He is not the opponent of those heavenly monarchs, but, Ye Qiuxian, would he be afraid?

Hum!

The God of War spear shook, turned into a bright spear light, and pierced Ye Qiuxian.

"Good job!"

Seeing that Lu Ming was not running away, Ye Qiuxian was immediately overjoyed. With a soft drink, the four powers of the strongest sky emerged and turned into four sword lights, slashing towards Lu Ming.

Lu Ming's palm shook, the God of War spear shook again, and the light of the spear also changed, becoming four lines, colliding with the four sword lights of Ye Qiuxian.

boom! boom! boom! boom!

Four consecutive roars, the spear light and sword light disappeared at the same time, but Lu Ming's body was a huge shock, and he couldn't help but retreat wildly.

"The power of the Sixth Layer of the Divine Lord is really strong."

Lu Ming whispered.

Ye Qiuxian's cultivation base was a lot higher than him, and he faced a head-on confrontation, and he fell into a disadvantage.

"Lu Ming, kill you today!"

Ye Qiuxian stepped in the air, fluttering in white clothes, like a banished immortal.

The power of the perfect sky emerged, and four long swords of different colors hovered around his body, and the sword intent rushed into the sky.

"is it?"

Lu Ming sneered, and suddenly threw the God of War Spear out of his hand. The God of War Spear stabbed at Ye Qiu like a flash of light. At the same time, Lu Ming squeezed Yin Jue with both hands quickly. On top of Xian's head, he suppressed Ye Qiuxian.

Rumble!

Today, Lu Ming's prehistoric style is getting stronger and stronger, and the crushing void keeps bursting before it falls.

"Lu Ming, your trick is useless to me, Jian Zhen, Kai!"

Ye Qiuxian roared, and the four war swords around his body continued to rotate, transforming into a powerful sword formation, the sword light soared into the sky, and burst out towards the front and above.

The first one to bear the brunt was the God of War Spear, which was continuously hit by the sword light, violently shaking, and flying backwards.

At the same time, more sword lights bombarded the prehistoric continent, tearing it apart.

Lu Ming grabbed the God of War spear that was flying backwards and used the Heaven-Breaking Style, the man and the spear were unified, and stabbed at Ye Qiuxian.

He held a gun in one hand, and with the other hand, he continued to condense the prehistoric continent and blasted towards Ye Qiu.

However, the sword formation controlled by Ye Qiuxian was really powerful, and the dense sword light burst out continuously. Lu Ming broke through more than a dozen sword auras, but he also shook wildly, retreating violently, above his arm. , There were several wounds, which were cut open by Jian Qi.

I have to say that Ye Qiuxian's combat power is really strong.

In the first battle of Tai Shang Xiancheng, the two were at the same level. Although Lu Ming defeated Ye Qiuxian, the victory was not easy. The two fought a lot of moves before the victory was determined.

At the same level, Ye Qiuxian was not much weaker than Lu Ming.

Now that his cultivation base is a bit higher than Lu Ming, Lu Ming is naturally hard to match.

"Die to me!"

After hitting Lu Ming with the sword formation, Ye Qiuxian rushed towards Lu Ming with infinite sword light.

Sword Qi whistling, assassinated towards Lu Ming.

Because this is the sword aura transformed by the power of the perfect sky, each of its powers is amazing.

Lu Ming waved the God of War spear and shot with all his strength. He stabbed hundreds of spear lights in an instant, but he still couldn't stop the opponent's sword energy.

"Lu Ming, I'll help you!"

At this moment, the ball opened its mouth, rushed out, turned into a huge halberd, burst out, slashed on the sky full of sword energy.

With the addition of Qiuqiu, Lu Ming's pressure was greatly reduced and finally blocked Ye Qiuxian's attack.

But the result is that he and the ball were blown away at the same time.

"This guy, the power is really amazing, if I don't break through, I really can't resist..."

The ball muttered.

That's right, the ball is now the five-fold cultivation base of the gods.

At the time of Divine Master Quadruple, the ball swallowed two semi-finished source-level magic soldiers one after another, and then Lu Ming gave three broken source-level magic soldiers to devour the ball.

With so many semi-finished products and broken source-level magic soldiers, plus the refining of this period of time, the ball finally made a breakthrough, from the fourth level of the gods to the fifth level of the gods.

Moreover, it is the pinnacle of God's fivefold.

The power of the ball at the top five of the gods is already amazing, after all, he can evolve the attack of the source-level gods.

"The ball, let's attack first to confuse him, and then you seize the opportunity to influence him with a phantom array. I will launch the strongest blow..."

Lu Ming passed the sound of the ball.

Lu Ming also has another trick, which is the power of origin.

But the power of the source is only one blow, so use it at the most critical moment.

The mirror turned into the ball can shoot out a beam of light, which has the effect of a phantom array. As long as it affects Ye Qiuxian, it is when he launches the strongest blow.

"it is good!"

The ball responded, and the two did not retreat, instead, they joined forces to attack Ye Qiuxian.

The ball turned into a halberd. It was huge, like a mountain range, constantly slashing, while Lu Ming attacked with a break-in-the-sky style and a prehistoric style. For a time, he actually faced Ye Qiuxian with a dozen moves.

"Ball, it's now..."

Lu Ming passed the sound of the ball.

The ball immediately changed, turned into a mirror, and shot a beam of light.

This beam of light directly enveloped Ye Qiuxian in.

Ye Qiuxian's gaze suddenly became dull.

Huh!

How could Lu Ming miss this opportunity to use the sky-breaking style, turning into a spear light, and piercing Ye Qiuxian's eyebrows.

Chapter 4664: Waiting for opportunity

Lu Ming used the sky-breaking style, the man and the spear united, and pierced Ye Qiuxian's brow.

Seeing, it is approaching.

"Break it for me!"

Ye Qiuxian roared fiercely, and the perfect heavenly power on his body gushed out like a tide, and the beam of light shot out of the ball was dashed.

"kill!"

Ye Qiuxian roared, his sword spirit rushed into the sky, and the four-color war sword actually turned into a single one and burst out towards Lu Ming.

Lu Ming's pupils shrank, and abruptly stopped the attack, and the big movement technique came out and moved to one side, avoiding the sword.

The ball quickly retreated and flew to Lu Ming's side.

"Lu Ming, I didn't expect the opponent's power to be so powerful that he could break through the illusion I played so quickly."

The ball is a pity.

"The power of the perfect sky is really powerful, and you can't underestimate it!"

Lu Ming said.

He could see that Ye Qiuxian could break through the illusion of kick-off so quickly, relying on the power of perfect heaven.

In addition, Ye Qiuxian's cultivation base is a heavier than the ball, and his own willpower is extremely strong, so he will instantly break the illusion of the ball.

"Lu Ming, your success angered me."

Ye Qiuxian spoke indifferently, and the killing intent in his eyes was extremely strong.

In fact, he was also afraid for a while.

Just now, if he slowed down a little bit, he would be hit by Lu Ming.

It is extremely dangerous to be hit in that situation.

He almost lost again.

Unforgivable.

He grabbed it in the air, and a purple-gold war sword emerged and appeared in Ye Qiuxian's hand.

Source-level magic weapon!

There is no doubt that this is a source-level magic weapon.

Before, Ye Qiuxian had never used a source-level magic weapon.

Mainly, Ye Qiuxian's sword formation is not suitable for the source-level magic weapon.

Unless Ye Qiuxian can gather four source-level magic weapon war swords and cooperate with his sword formation, that kind of power will be terrifying.

But how can it be so easy to get together the four source-level magic weapon war swords?

"Lu Ming, let you see the true power of Perfect Heaven!"

Ye Qiuxian spoke indifferently, and the four four-color war swords actually gathered towards the source-level divine weapon war sword, tending to merge into one.

This is what Ye Qiuxian learned from Ye Immortal during this period of time. He is unparalleled in talent and very intelligent. Ye Immortal just gave a little guidance, and his use of the power of perfect heaven has taken it to the next level.

Huh!

Yequi's immortal body was like lightning, rushing towards Lu Ming, slashing out with a sword, a sword light that shocked the sky, bursting out towards Lu Ming, almost reaching the limit.

Lu Ming shot it out with a palm, turning in a prehistoric manner, and a continent emerged, blocking the front, but after the sword light was cut down, the continent was directly split in half, and the sword light kept slashing towards Lu Ming.

"Breaking the sky!"

Lu Ming roared, showing the ground breaking style.

At the same time, the ball was also fully shot and scored a move.

However, even if the two were to join forces, Lu Ming and the ball were simultaneously split and flew thousands of miles away.

puff!

Lu Ming spouted blood, and there were dense wounds on his arm, blood flowing.

With a sword just now, he was seriously injured.

"Ball, are you all right."

Lu Ming asked.

"It's okay, Lu Ming, head-on confrontation won't work, we still have to focus on defense."

The ball responded and charged towards Lu Ming.

At this time, Ye Qiuxian's second sword was also killed.

After smashing Lu Ming with a single sword, he directly attacked the second sword. The human sword merged into one and stab Lu Ming.

But at this time the ball also rushed to Lu Ming's body, turning into a piece of armor, covering Lu Ming's body.

Lu Ming swept out with the God of War spear.

With a bang, Lu Ming and Ye Qiuxian confronted him. His arms shook wildly, his bones were broken, and the God of War spear almost flew out.

"Die!"

Ye Qiuxian sneered coldly, and the sword slashed again, slashing on Lu Ming.

With a keng, Lu Ming retreated violently, but Ye Qiuxian did not break through Lu Ming's defense.

The armor that the ball turned into was the source-level magic weapon armor he had eaten. The war sword in Ye Qiuxian's hand was not as high as the God of War Spear, so naturally it could not be broken.

"Yeqiuxian, do you only have this ability?"

Lu Ming sneered and sneered.

"Huh, do you think it's useful to hide in a turtle shell? Watch me break your turtle shell."

Ye Qiuxian snorted coldly, urging the power of the perfect sky to the extreme, merging it into the source-level magic weapon war sword, and slashing towards Lu Ming with another sword.

This time, Lu Ming simply didn't dodge or block, letting Yeqiuxian's war sword slash on him.

With a bang, sparks shot in all directions, and Lu Ming was knocked out by the powerful impact, but the armor formed by the ball was not breached, and Ye Qiuxian's war sword was bounced out.

The armor that the ball turned into was Yechu Tianji's source-level divine weapon armor, and its level was similar to the war sword in Ye Qiuxian's hand, and Ye Qiuxian couldn't break it at all.

Of course, it would be different if a strong person in the Origin Realm urged the source-level magic weapon, breaking the armor made by the **** master's five-fold ball would be easy.

Unfortunately, Ye Qiuxian does not have this strength.

"Lu Ming, you can only rely on a metal life, what kind of ability? There is a kind of confrontation with me."

Ye Qiuxian shouted.

"You fought me with a cultivation base one heavier than me. You are ashamed to say that you have the ability to fight with me at the same level."

Lu Ming sneered in response.

Ye Qiuxian was speechless, his face gloomy.

Through the fight just now, he got a cruel reality, that is, he was still not Lu Ming's opponent in a battle at the same level.

This made him very upset.

"Among the younger generation, I can only be invincible. Lu Ming, let me die."

Ye Qiuxian roared in his heart, and another sword blasted towards Lu Ming.

But this sword cut through the void and issued a terrifying whistle, which was even more terrifying and powerful than before.

"No, it's the power of origin!"

Lu Ming sensed it immediately.

Ye Qiuxian also condensed the original seed at the beginning, although it is not as good as Lu Ming, but it can also make a blow.

With the source-level magic weapon, the power is amazing.

"It's just a trick, I can stop it."

The ball responded, letting Lu Ming rest assured.

Keng!

The next moment, Ye Qiuxian's war sword continued to slash at Lu Ming's body. Lu Ming's body flew out like a cannonball, and hit the cliff in the distance. There was a fierce roar, and the general was abrupt. A big hole was knocked out of the cliff.

But, after all, it was blocked.

There was only one mark on the armor of the ball, which was not broken.

"hateful!"

Ye Qiuxian roared, he had exhausted all means and still couldn't break Lu Ming's defense.

With a touch, Lu Ming rushed out of the pit in the cliff and rushed towards Ye Qiuxian at a very fast speed.

"Ball, illusion!"

Lu Ming yelled.

"Look at my best move."

The ball screamed and flew out of Lu Ming's body, turning into a mirror.

Lu Ming is about to fight back.

Ye Qiuxian attacked Lu Ming just now, using his full strength in every move, especially just now, he used his full strength to mobilize the power of the source and the power of the perfect sky to mobilize the source-level divine weapons.

This is very exhausting.

Right now, it was Ye Qiuxian's period of weakness, and Lu Ming was waiting for this opportunity.

Chapter 4665: Not worthy of being my opponent

The ball turned into a mirror, shooting out a beam of light, covering Ye Qiuxian in it.

Ye Qiuxian's eyes suddenly fell into a dullness.

Huh!

Lu Ming attacked with all his strength, using the sky-breaking style, the combination of man and spear, turned into a bright spear light, which pierced Ye Qiuxian's eyebrows.

This time, Ye Qiuxian failed to break the illusion of breaking the ball.

The previous time, Ye Qiuxian was at his peak, the power of perfection broke out, and he broke free from the illusion in an instant, but this time, until Lu Ming's spear light approached, he still did not respond.

The sharp spear light pierced Ye Qiuxian's eyebrows.

However, just as the spear pierced the skin of Ye Qiu's eyebrows, dense runes suddenly appeared on Ye Qiu's eyebrows.

These runes, like a net, were intertwined to form a powerful defensive effect, which actually blocked Lu Ming's attack.

The powerful impact also completely awakened Ye Qiuxian.

"Lu Ming..."

Ye Qiuxian roared and wanted to fight back with all his strength.

"burst!"

Lu Ming roared, and the power of the source burst.

The previous time, Lu Ming was about to explode the original power attack, but because Ye Qiuxian quickly broke free of the ball, Lu Ming stopped in time, and did not explode the original power.

Don't break out now, but when.

The power of the original source poured into the God of War Spear and burst out, igniting a trace of the power of the God of War Spear, causing Lu Ming's attack to reach its peak.

Terrifying power erupted from the tip of the God of War Spear, causing the intertwined runes between Ye Qiuxian's brows to tremble violently, and some small cracks appeared on it.

However, after all, it was not penetrated. The powerful force impacted Ye Qiuxian's body to retreat violently. He kept backing thousands of miles before he could barely stand firm, but he was dizzy and his eyes rose. Blackened.

Although the blow just now was blocked, the powerful impact on his head still had a great impact on him.

Huh!

Just as Ye Qiuxian stood firm, Lu Ming's attack had already arrived.

Taking advantage of his illness and killing him, Lu Ming would not miss this opportunity.

call out!

The God of War spear pierced Ye Qiuxian's forehead again.

However, this move didn't have the power of the original source anymore, it was still blocked by the runes on Ye Qiuxian's brows, and Ye Qiuxian's body was once again rushed out by the powerful impact.

"These guys really have life-saving treasures."

Lu Ming snorted inwardly.

Before that, Ye Xuan also had a life-saving treasure planted by the Lord of the Ziwei Heavenly Palace, which blocked a blow from the source realm powerhouse and was fine.

This Ye Qiuxian also has a life-saving treasure.

Although the intensity is not as strong as Ye Xuan's, it is also very shocking, and it cannot be broken by Lu Ming.

But Lu Ming wouldn't give up easily, cast the Great Aurora Spell, and quickly followed Ye Qiuxian with a single shot.

This time, instead of attacking Ye Qiuxian's head, he attacked Ye Qiuxian's body.

The center of the eyebrows is protected, but the body is also protected?

Sure enough, there really are.

When Lu Ming's spear was about to sweep Ye Qiuxian's body, the runes intertwined between Ye Qiuxian's eyebrows quickly spread and enveloped his body.

boom!

The God of War spear swept across Ye Qiuxian's body, blocked by those runes.

However, Lu Ming immediately discovered that the runes covering Ye Qiuxian's body were much weaker than the runes on his forehead.

The defense is also much weaker.

When the God of War spear swept on it, those runes vibrated violently, as if they were broken at any time. The powerful force penetrated directly into the runes and bombarded Ye Qiuxian's body.

With a touch, Ye Qiuxian's body was blown out thousands of miles away again.

This time, he was no longer intact. His body exploded in many places, and dozens of bones were broken, especially the place where he was hit by the God of War gun.

If it were not for the defense of those runes, Ye Qiuxian's body would be beaten to pieces.

The intense pain also made Ye Qiuxian wake up from the confusion.

"Ah, Lu Ming, I want you to die..."

Ye Qiuxian roared.

"Ye Qiuxian, you went out on an adventure, and you carried a life-saving treasure on your body. As expected, it is still a flower in the greenhouse. You are not worthy of being compared with me. You will always be stepped on by me..."

Lu Ming's indifferent and disdainful voice sounded.

He originally regarded Ye Qiuxian as an opponent of the same level, but now he changed his mind.

Ye Qiuxian went out to travel, with life-saving treasures on his body. In this invisible, there was dependence, and he could not really experience life and death.

Although safety is guaranteed.

But a genius who can't really experience life and death can't really set foot on the peak, and sooner or later there will be loopholes.

Although Lu Ming had some hole cards, those hole cards were derived from Lu Ming's own life and death, and life-saving treasures given by others were of two natures.

Therefore, Lu Ming no longer regarded Ye Qiuxian as a real opponent, and Ye Qiuxian was not worthy.

In terms of talent, Ye Qiuxian's talent did not say, I am afraid that no one among the younger generation of the prehistoric universe can match him.

Including Lu Ming himself, he was not as talented as Yequ.

But why Lu Ming was able to defeat Ye Qiuxian was because Lu Ming went through life and death trials again and again, thus constantly changing.

Whether it's body, mind, or potential talents, they are all constantly evolving in order to step on Ye Qiuxian.

And Ye Qiuxian, although talented, can't really experience life and death, with dependence, there will be a lack of transformation in the future.

Lu Ming was confident that with the passage of time, Ye Qiuxian would not be worthy of his opponent.

As Lu Ming's voice sounded, the God of War spear kept on, continuing to kill Yequ.

Although Lu Ming is confident, he will always be able to step on Ye Qiuxian in the future.

But after all, this person has a strong talent, and growing up is also a huge threat. It is best to get rid of nature as soon as possible.

The God of War Spear was huge, and continued to blast Ye Qiuxian's body, trying to explode Ye Qiuxian's body in one go.

However, before the attack came close to Ye Qiuxian, Lu Ming's hairs all over his body suddenly stood upside down, feeling a fatal crisis and quickly approaching.

"Come!"

Lu Ming roared, and abruptly stopped the attack, cast a great aurora technique, his body turned into an aurora, and retreated violently to the rear.

call out!

In the high altitude, a spear descended from the sky, stabbed from where Lu Ming was just now, and pierced into the ground below, exploding the ground into a huge hole.

"What a terrible attack, the peak of God Lord!"

Lu Ming was secretly horrified, his figure kept moving, and he continued to retreat wildly.

In the high altitude, a figure stepped down.

He is a strong man at the Heavenly Monarch level.

It was one of the previous attacks against 'Lion' and others.

"Qixian, are you all right."

The heavenly monarch looked at **** for immortality.

Chapter 4666: Defeating the strong by the weak, chased by the king

The Heavenly Monarch of the Celestial Race, seeing Ye Qiuxian chasing Lu Ming alone, was a little worried. After fighting with the "Lion" and others, he left the battlefield and chased in the direction where Ye Qiuxian and Lu Ming were.

Anyway, the "Lion" was seriously injured, and the other people consumed a lot one by one. It was enough to leave the other seven masters.

Instead, it was Yeqiuxian, which was even more important. He was afraid that Yeqiuxian might have an accident.

Ye Qiuxian, after all, are the only three people in the history of the Celestial Race who control the power of the perfect Celestial Race. They are too important for the Celestial Race to have an accident.

Although on the face of it, Ye Qiuxian's combat power must be stronger than Lu Ming.

However, that was Lu Ming, the taboo body Lu Ming, he was always worried.

Sure enough, as soon as he arrived, he saw Ye Qiuxian completely downwind, being bombarded by Lu Ming continuously, and could only rely on life-saving treasures to protect his life.

Although he was unbelievable, he didn't know how Ye Qiuxian would fail miserably, but he did not hesitate to take action, and only then did the scene just now happen.

"Kill, kill him for me..."

Ye Qiuxian roared, his eyes were red, like crazy.

He was originally personable and had an extraordinary mind, so he shouldn't be so gloomy. The main reason was that Lu Ming was shocked too much.

He was defeated by Lu Ming twice, this time with a higher cultivation base, but he was still defeated by Lu Ming.

What angered him most was Lu Ming's last remarks.

The flowers in the greenhouse can never be Lu Ming's opponent.

In fact, he also understood in his heart that what Lu Ming said was right. He went out to experience and carried life-saving treasures on him. No matter what, he was dependent in his heart and could not truly experience life and death...

He understands all these.

However, he can't do it.

He finally got his status today. He is unparalleled in talent and can be called the number one in the contemporary universe. Even in the history of the Celestial Race, there are only two legends that can compare with him.

His future is bright, and the future is destined to set foot on the peak of the universe and become the invincible overlord.

If he does not carry a life-saving treasure, what if he falls?

Since he took control of the power of the perfect sky, he no longer had the spirit of adventurous forge ahead. If this continues, he will really not be Lu Ming's opponent in the future.

Therefore, he became angry, he became even more angry, and he wanted to kill Lu Ming.

As long as Lu Ming dies, who can be his opponent among the younger generation?

The immortal ancestor of the Celestial Race is naturally not counted among them.

"Yeqiuxian, fortune your fate."

Lu Ming's voice sounded, but his body kept moving, retreating quickly and flying towards the distance.

When a **** of heaven came, Lu Ming already knew that he could not kill Yeqiuxian.

Tianjun is the existence of the pinnacle of the gods, Lu Ming is definitely not the opponent of the opponent, the difference is too far, and it can only be the best policy.

"Want to go, have you asked me?"

The Tianjun spoke indifferently, rushed out violently, and chased Lu Ming.

Tianjun's speed is extremely fast, but Lu Ming's Great Aurora and Great Shifting techniques are all very fast. Even if Tianjun wants to catch up, it will not be so easy.

The two chased and fled, and disappeared to the horizon in a blink of an eye.

However, the distance between the two is still getting closer.

Because Lu Ming flees in front, there is one more thing to pay attention to, that is, the prehistoric species of this continent.

He needs to pay attention to those powerful prehistoric relics, and fear that such powerful prehistoric seeds will suddenly attack him.

Seeing the mighty prehistoric species requires a detour.

Otherwise, he would be attacked by the relics of the wild, and there would be a heavenly monarch behind him, that would be really dangerous.

As for the Tianjun behind, he didn't have to worry about so much. Since Lu Ming flew past, there was no danger. He followed Lu Ming's route, and naturally there was not much danger.

Therefore, the distance between the two is still getting closer quickly.

In just over ten minutes, the distance between the two was already very close.

"kill!"

The heavenly monarch behind, wearing a purple robe and holding a purple-gold war spear, pierced out with the spear, and a huge spear shadow assassinated Lu Ming at an astonishing speed. He immediately caught up with Lu Ming.

Lu Ming waved the God of War spear to resist, but the moment the two clashed, the light of the God of War spear was defeated.

Lu Ming could only dodge with all his strength, and finally avoided the blow dangerously and dangerously.

However, the attack of Ziyi Tianjun came again.

This time, he shook his spear, and suddenly there were hundreds of spear shadows, piercing through the void, and stab Lu Ming.

The spear shadow almost spread across the entire void, blocking all of Lu Ming's retreat.

This time, Lu Ming was inevitable and could only hard-wire.

"I hope it can be blocked!"

Lu Ming roared in his heart and waved a palm out, turning into a continent, standing in front of him.

At the same time, his body glowed, and various defensive ancient mysteries were also displayed, densely behind the mainland, and there were hundreds of them.

In a blink of an eye, Spear Shadow attacked.

Boom boom boom...

The prehistoric condensed continent was pierced instantly.

The same is true for those great ancient mysteries of defensive type, only blocking a few moments before being penetrated.

Tianjun, after all, is Tianjun, and the cosmic bridge has penetrated the universe, condensing the original seed.

And the power of the origin far exceeds that of Lu Ming.

The other party used the power of the source just now. The power was amazing, far surpassing Divine Master Nine Layers, and it was normal that Lu Ming couldn't resist it.

when! when! when! ...

At least twelve spear shadows pierced Lu Ming and pierced the armor of the ball.

After all, he didn't pierce the armor, but the power contained in the spear shadow was too strong, and he blasted Lu Ming out, flying out tens of thousands of miles in an instant.

puff!

In the armor, Lu Ming vomited blood, his face pale.

Although the spear shadows did not penetrate the armor, the powerful impact that burst out still penetrated into the armor and impacted on Lu Ming.

Although a large part of the power was blocked by the armor, the remaining power still injured Lu Ming.

You know, although Lu Ming's combat power is strong, that refers to his ability to fight head-on.

After all, he only has the five-fold divine master, and his own body's defensive ability is not as strong as his ability to confront directly.

The existence of a divine lord's sevenfold, if it hit Lu Ming, it was enough to pose a fatal threat to Lu Ming.

It's just that under normal circumstances, the existence of the Divine Lord's Seventh Layer could not hit Lu Ming at all.

"Ball, are you okay?"

Lu Ming was a little worried about the ball.

The ball is only the fivefold of the gods, and it is facing the attack of a heavenly monarch. I don't know if there is a problem.

"It hurts me to death, my tears are gonna flow out, **** Celestial Clan..."

The ball yelled.

Lu Ming was relieved.

It seems that the ball is fine.

Lu Ming ignored the injury on his body and rushed forward quickly with the help of this strength.

"The armor made of metal life is actually like a homogenous level soldier. What kind of metal life is this?"

Ziyi Tianjun was also startled.

Afterwards, there was endless greed.

Chapter 4667: A bunch of giant snakes

A thick fire of greed flashed in Ziyi Tianjun's eyes.

A metal being can actually turn into a source-level magic weapon armor to block his attack. This is simply unheard of, and he has never heard of it in his long life.

The metal clan among the top ten races is simply **** compared to the ball.

It is definitely not simple, it is extremely not simple.

He wants to seize it.

"Lu Ming, you can't run away."

Ziyi Tianjun gave a cold cry and continued to chase Lu Ming.

The two chased and fled, and it didn't take long before they were closer together.

Ziyi Tianjun, the Zijin war spear speared out again, this time the Ziyi Tianjun still exploded with the power of origin, and hundreds of spear shadows whizzed towards Lu Ming.

Lu Ming still tried his best to resist.

Primitive, various defensive great ancient secrets, etc.

These methods, although unable to stop the attack of Ziyi Tianjun, can at least weaken a part of the power, make the ball less able to bear a part of the attack, and also allow him to bear a part of the impact.

As before, the great ancient mysteries of the primitive and defensive types were penetrated, and more than a dozen spear shadows pierced Lu Ming's body and sent Lu Ming out again.

The powerful impact caused Lu Ming's injury to increase, vomiting blood, and fractured many bones.

"It's so strong, too strong. If this goes on, even if the ball can block the attack, I will be rushed to death by the impact."

Lu Ming's thoughts turned sharply, thinking about countermeasures, but his body didn't stop, and he continued to rush forward with this force.

"Hmph, even if you hide in the armor, it's useless, you can kill you by impact alone."

Ziyi Tianjun snorted coldly and continued to chase.

Not long after, Lu Ming suffered another move and his injuries worsened.

Mainly, he doesn't have time to heal his injuries. No matter how strong his vitality is, no matter how fast he recovers, he can't recover.

"Escape, I will definitely be able to escape. The terrain of this continent is complex, with powerful prehistoric species. Perhaps I can use those powerful prehistoric species to repel the opponent..."

Lu Ming kept thinking.

At present, he can think of a way, and that is to use the Prehistoric Ring and the powerful Prehistoric Seed.

For example, when he discovers a Primordial Relic of the Primordial Realm, Lu Ming rushes directly towards the Prehistoric Ring. After alarming the Primordial Relic, Lu Ming immediately enters the Prehistoric Ring. In this way, the Heavenly Monarch of the Celestial Race must not dare to approach. .

But in doing so, there are several risks.

First, when he rushes towards the powerful prehistoric species, he must alarm the opponent.

If he didn't alarm the prehistoric relics, he would enter the prehistoric ring, and the purple-clothed heavenly monarch could also approach and take the prehistoric ring directly, wouldn't he become a turtle in the urn.

Second, it was alarming the Prehistoric Relic. The Precious Relic came to Lu Ming to culminate, and Lu Ming would be killed by the Prehistoric Seed before he could enter the Precious Ring.

Third, it alarmed the Prehistoric Relic. Lu Ming also succeeded in entering the Prestige Ring and successfully repelled the Ziyi Tianjun. But if the Prestige Relic found the Prestige Ring and put it away, then he too Trouble, can't get out, can only stay in the prey.

Lu Ming can only escape the danger if he has alarmed the Prehistoric Relic, Lu Ming successfully enters the Prehistoric Ring, and successfully retreats the Ziyi Tianjun, and the Prehistoric Relic does not find Lu Ming.

With three dangerous points, Lu Ming hesitated whether to do so.

At the critical moment, you still have to fight, it is better than being killed by the opponent.

After a while, Lu Ming was hit again, and his injuries worsened.

"Fight, I can't go on like this, I can't get rid of the other party." Lu Ming finally made up his mind, planning to find a powerful ancient relic to fight.

"That is..."

Suddenly, Lu Ming saw a huge crack on the ground in front of him.

The cracks were dark, and inside the cracks, there were faint roars and screams.

It seems that there are many prehistoric species living in it.

"Fight!"

A fierce color flashed in Lu Ming's eyes, and he rushed directly into the crack.

The cracks are straight down, and the more they go down, the wider and larger they become.

On both sides of the cracks, there are many raised rocks and some caves.

call out!

Suddenly, a figure rushed out of one of the caves and rushed towards Lu Ming.

This is a huge lizard, green all over, with a scarlet flesh sticking out of its mouth, rolling towards Lu Ming.

"It's only fivefold!"

Lu Ming moved in his heart and stabbed the lizard with a single shot. His body kept rushing downward.

quack!

Squeak!

On the cliffs on both sides of the crack, screams continued to be heard, and pairs of scarlet rays appeared in the dark caves.

Those are all eyes.

Then, one by one, the wild relics crawled out of those caves.

There are lizards, toads, spiders...

They are all poisonous insects.

"So much, Great Aurora..."

Lu Ming was startled, his body turned into light, and he rushed downward.

Huh!

Above, Ziyi Tianjun also chased down.

Those lizards, spiders, and toads rushed out of the cave and rushed towards Lu Ming and Ziyi Tianjun.

The poisonous gas permeated all kinds of faces, and the entire void was covered by this poisonous gas.

Lu Ming didn't care about these poisonous gases and attacks. Anyway, there was a ball, which could block these attacks. He just had to rush down with all his strength.

"Go away!"

Ziyi Tianjun shouted, and a powerful force burst out of his body, which was the power of heaven's punishment.

The power of Heaven's Punishment turned into thousands of thunder, covering the entire void, purifying the poisonous gas. Those lizards, spiders, toads, etc. were also hit by thunder, some were directly killed, some were seriously injured and fell...

Although there are many poisonous insects, their strength is not very strong.

However, the speed of Ziyi Tianjun was still slightly affected, and Lu Ming took the opportunity to pull a little away.

"kill!"

The Ziyi Tianjun burst into tears, and his whole body was enveloped by the power of the punishment, as if wearing a thunder armor.

The others united with the Zijin War Spear, swooped down, and rushed towards Lu Ming with arrogance. The poisonous insects were rushed by him and burst into pieces.

The crack kept going down and deep, Lu Ming felt at least rushing down thousands of miles, and finally came to an end.

"That is..."

When Lu Ming saw the scene below, he felt his scalp numb and his hairs were standing up.

Below, there is a pond with a bunch of giant snakes in it.

Yes, it is a giant snake.

The diameter of each one is more than ten meters, not one or two, but a pile, at least a dozen.

A dozen giant snakes entangled with each other and turned into a pile of snakes, looking terrifying.

The key is that every giant snake, the aura exudes, is terrifying.

God's pinnacle!

Lu Ming judged that the cultivation base of each giant snake had reached the pinnacle of the gods.

Chapter 4668: Swallowed by a snake

Lu Ming's scalp was numb, and he fell into a snake's nest.

Look at this, these giant snakes should be in the breeding season, so they gather together.

Si Si Si...

Those giant snakes had already discovered Lu Ming, and several of them rose into the air, their bodies over a hundred meters long, completely exposed in the air.

They opened their mouths wide and swallowed towards Lu Ming. Lu Ming looked down from above as if he had seen a few dark abysses.

"Fight!"

Lu Ming gritted his teeth.

Below is the snake's den, behind is the purple-clothed heavenly monarch, he has no retreat, he continues to hesitate, only to fall.

With a thought, Lu Ming directly entered the Precious Ring, and then the Precious Ring continued to fall downward, into the mouth of a giant snake, and was directly swallowed by the giant snake.

"How did this kid disappear? Did he enter the ring? Does this ring contain space?"

Ziyi Tianjun's mind changed sharply.

The only treasures that can take oneself in are the treasures that contain empty space, and the living creatures can survive inside.

Such treasures are extremely rare in a world like the Great Universe.

Lu Ming even has this kind of treasure. There are too many good things on him. Thinking of this, the eyes of Ziyi Tianjun are even more fierce, and he rushes down at a constant speed. He wants to kill the giant snake and take control of Honghuangjie in hand.

Huh!

One of the giant snakes, with its tail like a bolt of lightning, swept toward the purple-clothed Tianjun.

The snake's tail is more powerful than the magic weapon, directly penetrated the void, issued a terrifying whistle, brought a terrifying vigor, and constantly pressed against the Ziyi Tianjun.

The Ziyi Tianjun swung the Zijin war spear and swept out, banging against the tail of the snake.

boom!

With a loud noise, Ziyi Tianjun's body was shaken, and he could not help but retreat violently, his face turned pale for a while, and he almost vomited blood.

"A strong power, stronger than mine."

Ziyi Tianjun was a little horrified.

boom! boom! boom!

At this moment, several giant snakes shot out, all of them slammed out with their tails, and they drew towards the Ziyi Tianjun.

In each of them, the explosive power is extremely amazing.

Ziyi Tianjun's face was solemn, stretched and dodged, but after all, he was swept away by a snake's tail, causing Ziyi Tianjun to hit the wall on one side and vomit blood.

With just one blow, it interrupted the nine bones of Tianjun Ziyi.

wire...

Then, a giant snake flew out like lightning, opened its big mouth, and bit towards the Ziyi Tianjun.

Purple-clothed Tianjun waved his hand, and several round **** flew into the giant snake's mouth, and then suddenly exploded, blasting the giant snake's mouth.

However, the giant snake didn't die, it just kept screaming and went completely mad. The two fangs in its mouth flew out like two daggers, as fast as lightning.

Although Ziyi Tianjun tried his best to evade, he was hit by one of the fangs, leaving a deep wound on his body and almost tore off half of his body.

"Escape, escape, escape..."

The Ziyi Tianjun was terrified, and ran wildly upwards.

Fortunately, those giant snakes, watching Ziyi Tianjun run far, did not pursue, fell down, and continued to entangle with other giant snakes.

The Ziyi Tianjun still didn't dare to be careless, didn't dare to stay the least, he dashed down, until he rushed out of the crack, and then let out a long breath, then his body trembled, and he suddenly spit out a few mouthfuls of blood.

"Damn, those teeth are poisonous..."

Ziyi Tianjun growled low.

Before, he was hit by one of the teeth of a giant snake, and that tooth contained highly poisonous, which had been dispersed throughout his body at this moment, and he must be healed as soon as possible.

He placed some vigilant formations around the crack, then sat cross-legged, took out a few pills, swallowed them, and started to remove poison.

In a blink of an eye, it was three days.

It took three days for Ziyi Tianjun to get rid of the poisonous body from his body, and his injuries were pretty good.

"Lu Ming, that kid, has not come out, is he dead?"

"Not necessarily. He entered the treasure containing the space. It should not be so easy to die. There is danger under this crack. I can't do it alone. I should find someone else to act together."

Ziyi Tianjun thought.

He wanted to take Lu Ming down by himself, so that he could only obtain the treasure from Lu Ming.

But obviously, he was alone and weak, and it was too dangerous to enter the crack alone.

He planned to find Ye Qiuxian and others to act together.

Immediately, Ziyi Tianjun laid out some formations around the crack. These formations were surveillance-type formations, and he could see them even if they were far apart.

This kind of formation is a very simple and basic formation in the Primordial Universe, and it is very practical, so many people with a higher level of cultivation will learn it and it is easy to use.

Ziyi Tianjun placed a monitoring formation around the crack, mainly because he was afraid that Lu Ming would sneak away after he left.

Afterwards, Ziyi Tianjun's figure flashed and left here.

...

"How to get out?"

Lu Ming frowned.

He stayed in the prehistoric ring, sitting cross-legged, his spiritual consciousness spread out, covering the surface of the prehistoric ring, and he could observe the situation outside the prehistoric ring.

Obviously, Hong Huangjie was in the belly of that giant snake.

At this moment, in all directions, a green, very disgusting liquid is constantly pouring towards the Precious Ring, wrapping the Precious Ring in it.

This liquid is terribly corrosive and highly poisonous. It is the digestive juice of giant snakes and is very scary.

No matter how powerful a creature is, once it is wrapped in this digestive juice, it will be extremely poisonous and will slowly be corroded away.

However, Honghuangjie is no trivial matter. It is one of the four treasures of the Heavenly Court of Life and Soul. The material is solid and immortal, and this digestive juice cannot corrode.

Therefore, Hong Huangjie has nothing to do, and Lu Ming is not worried about this.

What he worries about is how to get out?

He went out in person, broke the body of the giant snake and killed it?

Obviously unrealistic. After he goes out, he will probably be completely corroded by the digestive juice.

Release the God of War Spear, and control the God of War Spear to suddenly become bigger, bursting the snake's belly?

It's impossible.

This giant snake, but the existence of the pinnacle of the gods, reached this state, the body size was easy.

The **** of war spear becomes bigger, and the body of the giant snake can also become bigger. The stupid method of blasting the opponent's body by getting bigger can work at a low level, but it is completely unfeasible at a high level.

Lu Ming's head was big.

The only solution now is to wait.

Perhaps the prehistoric ring can be excreted with the excrement of the giant snake?

Although this method is ashamed and disgusting, there is no alternative.

After about half a day, Lu Ming clearly felt that the giant snake was moving quickly. It should be finished and left the pile of snake dens.

After a few hours, the giant snake stopped, and after a while, the giant snake moved again.

In this way, a few days passed in a blink of an eye.

Hong Huangjie has been in the belly of the giant snake and did not go out.

Chapter 4669: Go chasing Lu Ming

On this day, Lu Ming clearly felt that the giant snake was shaking violently.

Outside, there was a violent roar and the sharp cry of a giant snake.

"The giant snake is at a big battle, what battle is it with? Could it be that the people in the palace have been killed?"

Lu Ming's heart sank.

A few days have passed, and it is not surprising that the people from the Heavenly Palace killed him.

The war did not last long.

It lasted only a few minutes. Lu Ming felt that the giant snake had not moved at all. Lu Ming's spiritual sense was covering the surface of the prehistoric ring, and he could feel that the surrounding digestive juice had receded, and the vitality of the giant snake was also rapidly losing. .

The giant snake is dead.

Obviously, the giant snake was killed.

Lu Mingxin also mentioned it, and in his heart he hoped to kill the giant snake, not from the heavenly palace.

Puff...

The body of the giant snake is being cut. Looking out through the prey ring, you can see that the belly of the giant snake is also being cut, and the light from outside shines in.

"That's... the legacy of the wild."

After seeing the situation outside, Lu Ming couldn't help but be overjoyed.

It was not the master of the Heavenly Palace who killed the giant snake, but a few fiery red giant birds.

These flaming red giant birds have long mouths and extremely sharp claws. At this moment, these giant birds are tearing the body of the giant snake with their sharp claws.

"Little, little, little..."

Lu Ming manipulated the Precious Ring, making the Precious Ring quickly become smaller, becoming as small as a dust, attached to a broken bone of the giant snake.

He dared not move rashly.

These giant birds can kill the giant snake in just a few minutes, which is enough to show their terrifying strength. Lu Ming can't even beat the giant snake. If he dares to move, he is looking for death.

A few giant birds, enjoying a delicious meal, didn't even notice this tiny dust ring.

Soon, a giant snake was almost eaten up, leaving only a few residues.

After enjoying the delicious meal, the giant birds seemed contented, and after a few calls, they spread their wings and flew away.

Lu Ming sighed for a long time, but he did not immediately come out of the prehistoric ring, but controlled the predominant ring to fly, and his spiritual consciousness looked around.

This is a plain, with a few hills in the distance, and no other wild relics around it.

Lu Ming was really relieved now. With a thought, he flew out of the Precious Ring, and then condensed a ray of flame, covering the Precious Ring, removing the remaining digestive juice on the surface of the Precious Ring, and then collecting the Precious Ring. In the sea of knowledge.

"Unexpectedly, there is still an underground world under this crack."

Lu Ming looked around. The surroundings were wide and boundless, with lush vegetation and vitality. Except for the dim light, there was no difference from the cracks.

"I don't know where I am now, how far I am from that crack, I don't know if the people from the temple are chasing me?"

Lu Ming thought to himself.

If the purple-clothed Heavenly Monarch is fine, Lu Ming estimated that the Celestial Clan would probably chase him and would not let him go easily.

A few days passed, maybe, the people of Tiangong have entered this crack.

"That crack, I can't go anymore, maybe the people in Tiangong are lying there, maybe there are other exits..."

Lu Ming thought, planning to leave here first, looking everywhere for other exits.

However, before leaving, Lu Ming waved his hands, the runes were filled, and there were no fewer than a few formations around him.

Similarly, this is the monitoring array.

If the people of Tiangong pass here, they will be discovered by Lu Ming.

After setting up the surveillance formation, Lu Ming flew away along the ground and disappeared here.

Lu Ming chose a direction at will and moved forward quickly. Every certain distance, Lu Ming would set up several surveillance formations in some hidden corners of the ground.

Soon, a day passed.

This underground world is really vast, and it has also bred many powerful prehistoric species.

On this day, Lu Ming saw a lot of prehistoric species.

Of course, these prehistoric species are strong and weak.

It is impossible to all be as powerful as those giant snakes, or as powerful as those few fiery red giant birds, in all realms.

Generally, the rudimentary species are not dangerous to Lu Ming, as long as they avoid the powerful rudimentary species.

Fortunately, this day, Lu Ming did not encounter the original prehistoric species.

At this time, outside the crack, the purple-clothed heavenly monarch finally found Ye Qiuxian and others.

"Please Fairy Lord, how are the people who destroy the Heavenly Army?"

Ziyi Tianjun asked.

"Kill one of them, the others, they ran away, hum!"

Ye Qiuxian snorted coldly, very upset.

Originally, their strength is the absolute upper hand, even if they can't completely wipe out the "Lion" and others, they will definitely suffer heavy losses.

But because of his defeat in the first battle with Lu Ming, Heavenly Monarch Ziyi left the battlefield to rescue him, which caused the Heaven Extinguishing Army to take a sigh of relief. After all, only one person was killed, and the others fled.

This is tantamount to indirectly helping the Heaven Extinguish Army. It is strange that he can be upset.

"Where is Lu Ming, did you kill him?"

Ye Qiuxian's voice changed and asked Ziyi Tianjun.

"Escaped by the other party, that kid, with many treasures and many tricks, was fled to a dangerous place by him..."

Ziyi Tianjun explained in detail how Lu Ming escaped into the crack.

Of course, in some places, he made some slight changes.

For example, Lu Ming has treasures that contain space. He didn't say that. He just said that Lu Ming rushed into the crack, and he rushed in, and was attacked by a giant snake.

As for the metal life being turned into a source-level magic weapon armor, he didn't want to say it, but thinking about it, Ye Qiuxian knew it, so he said it.

He was selfish and wanted to swallow Lu Ming's treasures.

"Then Lu Ming, he has deep luck. Even if there are powerful wild relics in the crack, it is not so easy to die. Most of them are still alive. Let's go and kill him in the crack."

Ye Qiuxian said indifferently.

His intention to kill Lu Ming is getting more and more serious, and he must try his best to get rid of Lu Ming.

"I placed a monitoring array around the crack, and I didn't see Lu Ming coming out of the crack, he should be still inside."

Ziyi Tianjun Road.

"Well, you lead the way, we set off."

Ye Qiu Xiandao.

Immediately, Ye Qiuxian led the way and headed towards the crack.

Soon after, they came to the crack.

"The last time I went down, I ran into a bunch of giant snakes. There were more than a dozen snakes. Each of them has the cultivation base of the peak of the gods. They are very powerful. I don't know if they are still there. You must be careful when you go down."

Ziyi Tianjun Road.

"Gather together, if you find that the danger is invincible when you go down, then quickly retreat."

Ye Qiu Xiandao.

Immediately, the eight masters at the peak of the gods surrounded Ye Qiuxian and rushed towards the bottom of the crack together. Soon they were attacked by the lizards and spiders on both sides of the crack.

Chapter 4670: Liulitao

However, the poisonous insects on both sides of the crack naturally did not cause any harm to Ye Qiuxian and the others. They easily killed a large group, and soon came under the crack.

"Be careful, there is a giant snake below!"

"There are only three left, it's okay, kill!"

Ye Qiuxian and the others discovered that there were still giant snakes under the crack, but only three were left, and the others had left.

Si Si Si...

The three giant snakes attacked Ye Qiuxian and them.

Every giant snake has the cultivation base of the peak of the god.

But after all, there are only three, and there are a total of eight heavenly monarchs on the Tiangong side, two of them, and source-level gods, whose combat power far exceeds three giant snakes.

The two sides fought for a while, but the three giant snakes were defeated and all beheaded.

"Peel off the giant snake body to see if Lu Ming will be eaten by the giant snake."

Ye Qiu Xiandao.

Immediately, a heavenly monarch stepped forward, took out a sharp sword, broke open the giant snake's belly, and did not find Lu Ming's body.

"It seems that Lu Ming is not here, it is likely that he survived."

Ye Qiuxian said coldly.

"This underground world looks huge. It's not easy to find Lu Ming. Next, how about we chase separately, as a group of two, chase in four directions."

Ziyi Tianjun's proposal was approved by others.

This underground world is indeed huge, and you can't see the end in sight.

If they search together, the efficiency is too low, and if they search separately, the efficiency will be greatly increased.

They were a group of two, and the two heavenly monarchs joined forces. Even if Lu Ming had many treasures, he couldn't escape death.

Immediately, they were divided into four batches.

A batch of two heavenly monarchs.

Ye Qiuxian followed two of them.

Four groups of people, divided into four directions, shot out and disappeared here in a blink of an eye.

...

At this moment, Lu Ming was hiding on a boulder, looking forward.

"Is that... Liulitao?"

Lu Ming stared at a mountain in front of him, letting go.

In the front, there is a mountain peak which is not high. On the top of the mountain peak, there is a huge peach tree.

This peach tree is a hundred meters in diameter and thousands of meters high. It is huge.

On this peach tree, at least hundreds of peaches grow, and each peach is the size of a bucket.

The peaches are crystal clear, like colored glaze.

Lu Ming has read this kind of peach in ancient books.

This kind of peach, named Liuli Tao, is a master-class magic medicine.

The main level magic medicine, as the name suggests, is a magic medicine that has a great effect on the existence of the main realm of the gods.

In particular, Liuli Peach contains a strong and incomparable essence, which can be directly refined to replace the prehistoric crystal, and improve the cultivation of the power of the gods.

The existence of the God Realm, in addition to the Honghuangjing, actually has a lot of master-level magic medicines that can also improve cultivation.

However, the main level magical medicine is too scarce, much rarer than the prehistoric crystal.

Like the source-level magical medicine, the primordial universe cannot give birth to the main-level magical medicine. If you want to obtain the main-level magical medicine, you can only get it in the ruins of the universe.

However, the ruins of the universe used to be chaotic in terms of rules, and very few master-level magical medicines were born.

Only in the last dozens of sidereal years, the rules of the ruins of the universe have become more orderly. In some places, some major magical medicines have been born, but the number is very rare.

Therefore, the mainstay of the God Realm's existence and cultivation base is mainly based on Honghuangjing.

And this continent is the continent that has been sealed in the battlefield of Qianqiu. Like the prehistoric continent, it seems that it has not been affected.

The prehistoric relics multiply here, and they have encountered source-level magical medicine before.

So, it's normal to give birth to some master-level magical medicines.

"I want to break through to the Sixth Layer of the Divine Lord. At least five or six million prehistoric crystals are needed. Where can I find so many prehistoric crystals? With hundreds of glazed peaches, I might be able to take a step further and save a lot of prehistoric crystals. .."

Lu Ming thought, eyes shining.

He must now improve his strength as soon as possible, because he does not know when the Celestial Race will be killed.

If his cultivation level can be promoted to the sixth level of the Divine Master, his confidence in self-protection will be much greater.

However, it is not so easy to get these colored glaze peaches.

Because there are many apes living on the peach trees and on the peaks.

This ape, burly and extremely strong, is obviously a relic.

There are hundreds of them.

If you want to get these glazed peaches, you must have a fight with these apes.

"There is one monkey king at the peak of the **** master, three of the **** master's nine-fold, and the others are below the **** master's nine-fold. Even so, I can't deal with it. Now, I only have to wait for the time..."

Lu Ming thought, cast a big hiding technique, hiding in the rock, waiting for the opportunity.

After half a day...

Ooooooooo...

The apes yelled, especially the monkey king, who roared even more, and then took a group of apes and ran towards the distance, disappearing into Lu Ming's sight.

Lu Ming's eyes lit up.

The opportunity is here.

The monkey king took away more than half of the apes, including two divine master nine-fold apes.

Now, on that mountain, there was only one divine master nine-fold ape.

There is a divine master with nine layers, Lu Ming has a chance.

However, Lu Ming didn't do it right away. Now the Monkey King was not far away. If he did it right away, he was afraid it would alarm the Monkey King.

Lu Ming waited more than ten minutes before planning to do it.

Huh!

Lu Ming used the Great Aurora, like a bolt of lightning, rushing towards the mountain.

Ooooooooo...

The apes immediately spotted Lu Ming and roared. There were more than a dozen apes and jumped to kill Lu Ming.

"kill!"

Lu Ming yelled, and the God of War spear shot out, turning into a dozen spear lights.

Puff puff...

The God of War gun is extremely sharp. Although these apes have a hard body and amazing defensive power, they can't stop the attack of the God of War gun. Those below the eighth level of the gods can't stop a spear light and are directly killed.

The two divine masters eightfold apes, with their powerful strength and defensive power, although they saved their lives, they were also hit hard and their heads almost burst.

Lu Ming was extremely fast, and as soon as he rushed past, he came to the top of the mountain.

boom!

That divine lord nine-fold ape, with a tower of footsteps, a burst of ground, and a burly body, like a hill, rushed towards Lu, and blasted out with a punch, bursting into the void, and the scene was astonishing.

"Ball ball..."

Lu Ming whispered softly, and the ball flew out directly, turning into a mirror, shooting out a beam of light, enveloping the nine-fold ape of the ***** master.

The apes of the God Lord Nine Layers were also affected instantly and fell into a illusion.

However, the Primordial Relics seemed to have a strong resistance to the illusion, and just for an instant, the apes roared and struggled.

But this moment was enough for Lu Ming.

call out!

Lu Ming stabbed a shot with all his strength, stabbing at the ape of Divine Master Jiuzhong.

This shot exploded the power of the origin.
