Chapter 4671: Two heavenly kings approaching

The ape of the God Master Nine Layers is the strongest ape here. As long as this ape is solved, the others will be easy to handle.

Therefore, as soon as Lu Ming made a move, he used his full strength, and the original power also burst out and poured into the God of War Spear.

puff!

This shot pierced the ape's eyebrows directly, blasting a big hole into the ape's eyebrows.

The vitality of the prehistoric relic is not small, even if a big hole was blown out of the eyebrows, this divine lord nine-fold ape hadn't died for a while, madly swinging double fists and bombarding, hitting more than ten punches in a row, finally fell to the ground and died.

Shoo...

Lu Ming's offensive continued, killing other apes.

Faced with the apes below the divine lord's ninth level, with the cooperation of the ball, even without the power of the original source, they can still destroy them. Seven or eight divine lord 7th and 8th divine lord apes were killed by Lu Ming.

The other apes showed fear and did not dare to continue the battle between Lu Ming and Lu Ming, and ran away roaring.

These apes obviously ran in the direction of the monkey king, and they obviously wanted to inform the monkey king.

But Lu Ming doesn't matter.

He only needs a short period of time, enough for him to pick Liuli peaches. After picking the Liuli peaches, Lu Ming will leave. Even if the Monkey King returns, he will not be found.

The ape fled, Lu Ming flew away, and came to the canopy of the tree. The power of taboo turned into big hands and began to pick Liuli peaches.

One by one, the bucket-sized colored glaze peaches were put into the storage ring by Lu Ming.

Lu Ming's picking speed was very fast. In just a few minutes, Lu Ming had picked all of more than 300 glazed peaches. Then he turned into a rainbow light, flew to the distance, and disappeared here in a blink of an eye.

It wasn't until Lu Ming flew away for more than ten minutes that there was an earth-shattering roar in the distance. The Monkey King flew up quickly, saw the bare peach trees, roared, and smashed the surrounding ground into big pits. It was a pity. No supplement.

Lu Ming was the same as before. After flying for a certain distance, he set up a few monitoring formations. After traveling for a long time, Lu Ming found a relatively hidden place, sat cross-legged, took out a glazed peach, and started to gnaw.

Liuli peach looks like colored glaze. In fact, the flesh is juicy, melts in the mouth, full of rich vitality and energy.

The bucket was bigger, and Lu Ming gnawed away in a few seconds. A burst of energy crisscrossed Lu Ming's body.

Lu Ming started refining with all his strength.

About an hour later, the Liuli peach was completely refined by Lu Ming.

After carefully feeling the change of the forbidden power in his body, Lu Ming was surprised.

"The energy contained in one glazed peach is equivalent to 10,000 prehistoric crystals, and more than three hundred glazed peaches are equivalent to more than three million prehistoric crystals."

Lu Ming's face was filled with joy.

There were more than three hundred colored glaze peaches, although they could not allow Lu Ming's cultivation base to break through, but it could save Lu Ming more than three million prehistoric crystals.

If there is enough master-level magical medicine, it can indeed directly break through.

"This Liuli Peach is indeed invaluable. If it is below the Divine Lord's Triple Level, as long as you take one, you can directly break through the cultivation base."

Lu Ming sighed secretly.

Then he took out a Liuli Peach and continued to refine it.

In this way, after a few days, Lu Ming has refined dozens of Liuli Peaches, and the taboo power in his body has become stronger and stronger.

But at this time, Lu Ming stopped practicing.

"Let's see if the people from Tiangong have come."

Lu Ming thought and waved his hand, several light curtains emerged in the void.

These light curtains corresponded to the surveillance arrays he had laid, and they could project the nearby images.

In the few pictures, no one in Tiangong was seen. Lu Ming waved his hand again, and the scene of the picture changed...

After all, Lu Ming laid out a lot of monitoring arrays and wanted to look at them one by one.

Dozens of pictures were continuously changed, and finally, there was a picture that made Lu Ming's pupils shrink.

In this picture, there are two figures standing high in the sky.

These two figures are naturally the heavenly monarchs of the Celestial Race, and one of them is the purple-clothed heavenly monarch who chased Lu Ming before.

Moreover, Lu Ming instantly judged that these two heavenly monarchs were very close to where he was now.

A layer of cold sweat oozes from Lu Ming's forehead.

He had forgotten about practicing before, so it was good to check it in time. If he was delayed for some time, maybe the other party would find him.

The two heavenly monarchs shot together, even if he had the armor protection of the ball, he would be shaken to death.

Lu Ming finished his cultivation, restrained his aura, and quietly left from here.

Not long after Lu Ming left, in the place of retreat before Lu Ming, the two figures flashed, and the two Ziyi Tianjun appeared high in the sky, their eyes scanned all directions, and the spiritual sense spread out.

However, Lu Ming now has experience. Before leaving, he wiped away the aura he had left behind, so the other party did not notice anything.

"Could it be that Lu Ming is not in this area? Or has he been eaten by the relics of the land?"

Another burly Tianjun frowned.

"Probably not, I guess, he is near this area."

Ziyi Tianjun Road.

"Oh? Why do you see?"

The burly Tianjun was puzzled.

"Have you forgotten the apes you saw before? Those apes are thunderous, and the monkey king is full of murderous intent. I guess that there must be fruit on the peach tree, but it was picked away. , So those apes are so irritable."

Ziyi Tianjun analyzed.

"You mean, was it picked by Lu Ming?"

The burly Tianjun's eyes lit up.

"Other people are searching in other directions. In this direction, who else besides us?"

"So, I concluded that Lu Ming is in this area, maybe not far from us."

Ziyi Tianjun Road.

"What you said makes sense. Let's speed up the search."

The burly Tianjun laughed and flew forward, his spiritual sense whizzed out, covering a large area.

On the other side, Lu Ming flew swiftly, and at the same time thoughts turned in his heart.

"It seems that the people from Tiangong have really come in. The purpose is obviously for me. I can't go on like this. If this goes on, they will be found by the other party sooner or later."

"I will either find another way out or launch a counterattack."

There were thoughts in Lu Ming's mind.

Karma!

In the distance high in the sky, a sharp chirp interrupted Lu Ming's thoughts.

In the distance high in the sky, there is a golden eagle, full of golden body, wings spread, hundreds of meters long.

This golden eagle is almost exactly the same as the golden eagle that was besieged by the lion and others before.

Lu Ming can be sure that the two are definitely the same species.

Even if they were far apart, Lu Ming could feel the terrifying breath of the golden eagle in the distance.

This is definitely a prehistoric species at the pinnacle level of God Lord, and it is extremely terrifying.

Chapter 4672: There is a way

Lu Ming's muscles tensed subconsciously, his figure flashed, and he used a big hiding technique to hide in a rock.

The combat power of this golden eagle was so amazing, Lu Ming was impressed.

Before, the 'Lion' and their eight masters at the peak of the gods joined forces to fight the golden eagle, and it was extremely difficult. In the end, the 'lion' was seriously injured and finally killed the golden eagle.

Although the others were not injured, they also consumed a lot.

The combat power of the golden eagle can be seen, although it is also the peak of the god, it is definitely many times stronger than that of the giant snake.

It can be seen that the golden eagles are extremely powerful even in the prehistoric species.

In the void ahead, a golden eagle swooped down and landed on a rock protruding from a cliff.

"The strength of this golden eagle is strong enough. If you can use the power of this golden eagle, you can kill those two devas."

Lu Ming thought quickly in his mind.

Relying on his own strength to deal with two heavenly monarchs is obviously unrealistic.

Only with the help of external power, can we deal with the powerhouse of Tianjun level.

But what should be done to take advantage of the power of the golden eagle.

This is very dangerous. If not, you might set yourself on fire and put yourself in.

"Lu Ming, I feel that there are metal veins in the ground, extending all the way to the cliff, maybe I can approach silently."

The ball opens.

"There are mineral veins underground? Can you approach that cliff silently?"

Lu Ming's eyes lit up, and an idea immediately emerged in his mind.

If he can get close to the golden eagle and wait for the Celestial Race to come nearby, he can show up and attract the two Celestial Races...

"No way!"

Lu Ming immediately shook his head, dispelling the thought.

This method simply does not work.

First, if he took the initiative to show up, he would be attacked by the golden eagle immediately.

Second, even if the golden eagle did not attack him, how can the heavenly monarch of the Celestial race see the golden eagle be so stupid and attack him?

At that time, there will be great eagles before and after heavenly monarchs, but they will plunge themselves into desperation.

"what can we do about it?"

Lu Ming frowned deeply.

At this time, he felt deeply that his cultivation base was too weak.

If his cultivation is strong enough, it would take so much effort to kill directly and crush the opponent with strong combat power.

"I don't want to, let's go and see the situation first."

Paying attention, Lu Ming let the ball dig, first dug a small hole in the ground, and then the two of them walked along the small hole into the underground metal mine.

This metal mine is just an ordinary metal mine, not precious, but it is enough for them to pass.

The ball squirmed and enveloped Lu Ming, then merged into the metal mine, and walked along the metal mine towards the cliff.

The cliff looks golden on the surface, like a handful of brass. The whole is a huge metal mine.

This also facilitated Lu Ming and the others.

The ball brought the landing sound, silently appeared on a cliff above the golden eagle, watching secretly from above.

"That's... bird eggs!"

Lu Ming's heart moved.

He found that on the raised rock below, there was a bird's nest with three huge golden bird eggs in the nest.

The golden eagle is obviously hatching an egg.

"If I could steal a bird's egg, this golden eagle would go crazy, right, there is..."

Lu Ming's eyes brightened.

He thought of a way to use this golden eagle to deal with the two heavenly monarchs.

Lu Ming and Qiuqiu waited quietly in the metal vein.

In a blink of an eye, a day passed.

"coming!"

Lu Ming's eyes flashed, and he saw in the distance, two figures hurriedly flying over, it was the two Ziyi Tianjun.

The purple-clothed Tianjun and the burly Tianjun, seeing the golden eagle from a distance, didn't dare to approach at all. They just glanced at random and left far away, naturally it was impossible to spot Lu Ming and the others.

"unfortunately..."

Lu Ming sighed, his plan has not yet succeeded, so he can only continue to hide.

In a blink of an eye, another few days passed.

Wow!

The golden eagle soared up, rushed into the sky, and flew into the distance. This was looking for food.

Like the golden eagle that the 'lion' dealt with before, before this golden eagle left, it also laid a formation to hide the bird's egg. From the outside, it was invisible at all.

"good chance!"

After the golden eagle left, Lu Ming and Qiuqiu acted.

The hidden formation under the golden eagle cloth, with Lu Ming's skills in the formation, might be quite difficult to crack. It would take at least a few days.

For such a long time, the golden eagle has already been alarmed.

However, this formation has a loophole, that is, the metal mine below.

Therefore, the ball was directly started from below, and a bird's egg was obtained silently.

The golden bird eggs, several meters in diameter, were collected by Lu Ming into the prey.

Then the ball brought the landing sound, continued to merge into the metal vein, and left quietly.

Soon after, it seemed that there was something wrong with the bird's egg, and the golden eagle hurried back. When it saw a bird's egg was missing, it immediately screamed, flying around high in the sky, spouting a golden burst from time to time. The streamer blasted the ground out of large pits.

Karma!

The golden eagle screamed and rushed to kill other wild relics in the surrounding area.

The prehistoric species in this area suffered, and dozens of them were killed by golden eagles, and the others escaped.

The golden eagle had been roaring and screaming for a long time before it calmed down and landed on the bird's nest, never leaving.

"It's really terrifying. The strength of this golden eagle seems to be stronger than the one they besieged by the 'lion' before. Its combat power is far above the Celestial Race. It's a terrifying species."

Lu Ming sighed inwardly.

However, the stronger the golden eagle, the better.

"Try it to see if the golden eagle is sensitive to bird eggs."

Lu Ming thought, and then carefully came to the ground and took out the golden egg from the prey ring.

As soon as the golden egg was taken out, the golden giant bird on the cliff immediately raised its head, then let out a scream, flapped its wings, swung up, and then rushed towards Luming.

"Nest, the sense is really keen..."

Lu Ming put the golden egg into the prehistoric ring at the fastest speed, and then quickly rushed into the metal vein with the ball, along the metal vein, all the way down.

boom! boom! ...

Not long after Lu Ming entered the metal vein, an earth-shattering roar erupted from above.

The place where Lu Ming had just stood was brutally devastated and was frantically attacked by a golden eagle.

The hard ground was abruptly wiped out by the golden avenue, and a large hole with a depth of 10,000 meters was exploded.

Fortunately, the metal veins here are rich in content, extending for more than a hundred thousand meters. Lu Ming and Qiuqiu kept going down, before they were attacked by the golden eagle.

Chapter 4673: Terrified Tianjun

It was another long time before the golden eagle stopped and returned to the cliff.

After a while, Lu Ming quietly returned to the ground, and then swiftly moved towards the distance.

The direction Lu Ming moved forward was the direction where the Ziyi Tianjun and the burly Tianjun left.

This time, Lu Ming wanted to take the initiative to find two heavenly monarchs.

Along the way, Lu Ming left clues, then speeded up, and flew towards the discovery of the two of Ziyi Tianjun flying.

It didn't take long for Lu Ming to fly out before he was discovered by Ziyi Tianjun and the burly Tianjun.

Because when the Ziyi Tianjun and the burly Tianjun are moving forward, they will also leave a monitoring formation in secret corners.

When Lu Ming passed the surveillance formation left by the Ziyi Tianjun and the burly Tianjun, he was discovered.

"That kid appeared, and that kid really is in this area."

Ziyi Tianjun's eyes lit up.

"This kid is actually behind us. It seems that he was hiding somewhere before and was ignored by us. Haha, it depends on where you run."

The burly Tianjun laughed.

"Let's go, let's go over quickly, so as not to be slipped away by that kid again. I've said it in advance. After killing Lu Ming, I will pick the treasure on his body first."

Ziyi Tianjun Road.

"It seems that you have taken a fancy to some kind of treasure on him, haha, don't want to swallow the treasure alone."

The burly Tianjun sneered.

The two were extremely fast, and soon they approached Lu Ming.

Lu Ming's reaction was extremely keen, and he was always ready to pay attention to his surroundings.

He knows very well that he can set up a monitoring formation, the other party can also set up, and will kill him at any time, so he has always been highly concentrated.

Lu Ming turned around and ran away as soon as he spotted the Ziyi Tianjun and the burly Tianjun.

The direction he ran was naturally the direction where the golden eagle was.

"Don't go!"

"Lu Ming, you don't want to run this time."

The two heavenly monarchs yelled, and hurriedly chased Lu Ming.

Fortunately, this place is not very far from the location of the golden eagle. This area has been hunted wildly by the golden eagle before, and there are almost no other prehistoric species.

Therefore, Lu Ming does not have to be afraid of encountering other powerful prehistoric species, and can increase the speed to the extreme. In this way, the Ziyi Tianjun and the burly Tianjun will not be able to catch up with Lu Ming for a while. .

Soon, they came to the area where the golden eagle was located.

Lu Ming rushed directly towards a place containing metal veins. After arriving, the ball had already wrapped Lu Ming, and Lu Ming directly pulsed towards the metal mine.

Before rushing into the metal vein, Lu Ming took out the golden egg and threw the golden egg out.

The golden egg, like a golden metal block, smashed into the two Ziyi Tianjun.

The Ziyi Tianjun and the burly Tianjun really thought that the golden egg was the weapon Lu Ming used to attack them.

Keng!

The burly Tianjun held a war knife and cut it out with a single knife, directly splitting the golden egg in half and spilling the egg liquid on the ground.

"This is... an egg?"

Both the burly Tianjun and the purple-clothed Tianjun were slightly taken aback.

Karma!

At this time, a earth-shattering scream sounded, and on the cliff, a golden eagle rushed into the sky, with extremely sharp eyes, looking at both the purple-clothed Tianjun and the burly Tianjun.

When it saw the broken golden egg, its eyes were red, and it roared crazy, its golden body, like a bolt of lightning, rushed towards the burly Tianjun and the purple-clothed Tianjun.

"No, we got caught, **** it, go!"

Ziyi Tianjun reacted immediately, roared, turned and ran.

The burly Tianjun stunned for a moment, then turned and ran.

However, their speed is far behind the golden eagle.

The golden eagle at this moment was full of infinite murderous intent, and the golden wings rapidly instigated, reaching the extreme speed. In just a few minutes, it caught up with the burly heavenly monarch.

With a spray opened his mouth, a golden blade of light slew towards the burly Heavenly Monarch.

The burly Tianjun yelled and waved out a slice to block the light blade.

However, the golden eagle had already been killed, and the golden wings, sharper than the magic sword, slashed towards the burly heavenly monarch.

when!

The burly Tianjun swung his knife to resist, the two collided, and a violent roar erupted. Then, the burly Tianjun's body shook like a cannonball and flew backwards, flying out while vomiting blood.

The bones of one of his arms burst, and he almost couldn't hold the sword.

The internal organs were also severely damaged, almost shattered.

At the same time as the pinnacle of the gods, his combat power was too far behind the golden eagle, and he was hit hard with one move.

After several moves to fly the burly heavenly monarch, the golden eagle roared and continued to madly kill the burly man.

"Help me, come help me, let's fight this great eagle together."

The burly man yelled at Ziyi Tianjun.

He is definitely not the opponent of the golden eagle, he will be torn into pieces.

If there are two people, the hope of escape is slightly greater.

However, the Ziyi Tianjun didn't turn his head back, he just shouted: "You hold on first, I will find reinforcements, both are the pinnacle of the gods, I will find a few more people, enough to kill it!"

While shouting, Ziyi Tianjun escaped faster.

"Ping Nima, how can I do it alone?"

The burly Tianjun roared, furious.

Obviously, Ziyi Tianjun wanted to use him as a shield so that he could escape.

But in the face of this situation, what can he do? Can only desperately.

With a roar, the power of the strongest heaven was blazing, and the power of the original seed seed burst into full force, poured into the saber, and slashed towards the golden eagle.

However, the golden eagle's attack on the burly heavenly monarch did not evade and let him chop on his body.

With a bang, the burly Tianjun's battle knife slashed on the golden feathers, unable to break the defense of the golden eagle.

Instead, the claws of the golden eagle directly grabbed the burly Tianjun's chest and squeezed his heart.

"Ah...Lu Ming, I'm not reconciled..."

The burly Tianjun uttered a desperate roar. The next moment, the golden eagle's claws furiously tore, and the burly Tianjun's body was torn apart, and his head was also swallowed by the golden eagle.

A powerful heavenly monarch fell so frustrated.

After slaying the burly Tianjun, the golden eagle was obviously still not suffocating, and continued to fly towards the Ziyi Tianjun with its wings.

It determined that the purple-clothed Tianjun and the burly Tianjun belonged to a group.

Both are going to die.

"Damn..."

The Purple-Clothed Heavenly Monarch was shocked and ran away frantically, but it was obvious that the golden eagle was faster. Although there was some distance between the two, the distance between the two was quickly getting closer.

"Damn, damn, what to do, what to do?"

Ziyi Tianjun was extremely anxious and kept turning his various thoughts.

If this continues, he will also follow in the footsteps of the burly Heavenly Monarch, and be torn apart by the golden eagle.

He didn't want to die like this, especially he was killed by Lu Ming.

Chapter 4674: Lu Ming is going to pick up the bargain

"Yes, fight it!"

A cruel color flashed in Ziyi Tianjun's eyes.

He remembered a swamp that he had passed through before, and that swamp, inhabited by several terrifying poisonous insects, all belonged to the pinnacle of the gods.

Now his only chance to survive is to use those poisonous insects to fight against this golden eagle.

Although it would be very dangerous to do so, and it is very likely to be attacked by those poisonous insects, but there is no way.

He rushed directly to the swamp.

However, the golden eagle's speed was too fast, and the distance between him and him was quickly getting closer.

If this continues, he will be overtaken before he reaches the swamp.

"Fight, fight, Lu Ming, as long as I am not dead today, I will definitely make you regret coming to this world..."

The purple-clothed Tianjun roared, with a crazy color in his eyes.

He is really desperate, the power of the origin in the origin seeds, frantically urged, blessed on the body, so that his own speed skyrocketed again.

At the same time, it burned the power of the strong sky and continued to increase its speed.

In this case, he barely let the golden eagle catch up.

However, the sequelae of doing this are very serious. The power of the strong sky burns and damages the foundation. If it is serious, he may never want to enter the original state for a lifetime.

After chasing and fleeing, he went away in a blink of an eye.

In that vein, Lu Ming's figure appeared.

With a flash of his figure, he appeared in the place where the burly Tianjun was killed, waved his hand, grabbed the burly Tianjun's storage ring, and put it away.

"That guy in purple clothes is really hard to deal with, go and see..."

Lu Ming thought for a moment, then his figure flashed, and he chased after the golden eagle and the purple-clothed Tianjun flying away.

Ziyi Tianjun flew wildly all the way, and after half an hour, a huge swamp appeared before his eyes.

Finally arrived.

After half an hour of burning divine power, his foundation has really been damaged. If there is no chance to go against the sky in the future, he will never want to step into the original state for the rest of his life.

He blamed all this on Lu Ming.

However, to deal with Lu Ming's matter, let's put it aside first, and let's escape the disaster before us.

He rushed directly into the swamp.

As soon as he rushed into the swamp, he madly launched an attack below the swamp, dozens of attacks fell into the swamp.

Quack!

squeak!

In the swamp, strange screams immediately sounded.

Mud splashed, and several giants appeared.

A giant toad, a giant snake, and a monitor lizard.

The three poisonous insects are all the existence of the peak of the gods.

As soon as they appeared, they attacked the Ziyi Tianjun.

Ziyi Tianjun dodges with all his strength and does not attack.

However, he is not in the peak state at all now, the power of the Xeon Heaven is burning severely, and the original seed in the original seed is even consumed.

The combat power is far from the peak, even if it dodges with all its strength, it has not completely avoided the attack of the three poisonous insects.

He was sprayed head-on by the poison gas of the toad, causing him to scream.

At the same time, the tail of the monitor lizard drew the purple-clothed Tianjun, whose body, like a cannonball, plunged into the swamp.

Ziyi Tianjun was smashed into the depths of the swamp and plunged into the mud.

However, the three poisonous insects were too late to continue their attack.

Because the golden eagle has been killed.

As soon as the golden eagle entered the swamp, it swooped down and pounced towards the swamp.

The target of the golden eagle is the purple-clothed heavenly monarch, but the three poisonous insects think that the target of the golden eagle is them.

Because golden eagles usually feed on poisonous insects and snakes.

Therefore, the three poisonous insects strenuously launched an attack on the golden eagle, and the two sides immediately fought fiercely together, sweeping the swamp with terrible vigor.

Deep in the swamp, the purple-clothed Tianjun vomited blood, and the blood stained the mud.

The monitor lizard's tail slammed just now and he was seriously injured.

In addition, he was poisoned by the toad.

This kind of poison penetrated all parts of his body, continuously destroying his body, and even this kind of poison can destroy his soul and make his soul feel weak.

"Flee, I must run away..."

Zitian Tianjun roared in his heart, bursting out the remaining power, breaking through the mud, walking through the mud, and heading forward.

He was out of luck. He was hit by a few shots from above while walking through the mud, which made his injury worse.

However, he was still out of the battlefield after all. After he was away from the place where the three poisonous insects and the golden eagle fought, he crawled out of the mud and flew towards the distance.

...

Lu Ming kept flying towards the direction where the golden eagle and the purple-clothed Tianjun were chasing and fleeing. After chasing for a while, suddenly there was a sharp chirp in one direction.

"It's the golden eagle, I almost followed the wrong direction."

Lu Ming's eyes flashed.

The voice of the golden eagle pierced the void and spread far away, to the left of Lu Ming.

Lu Ming chased after him, already chasing in the wrong direction, fortunately he heard the sound of the golden eagle.

Huh!

Lu Ming flew directly in the direction where the golden eagle's voice came from. Not long after that, he heard roars. In addition to the golden eagle's chirping, there were other screams of ancient heritage.

Lu Ming narrowed his breath and approached carefully, hiding behind a large rock, and looking forward, he saw the fierce battle of three poisonous insects on the golden sculpture.

"That guy is also clever. He actually thought of using the three poisonous insects to fight the golden eagle, so he could take the opportunity to get out, but he should also be nearby, rushing into the field of the three poisonous insects, I am afraid he will be attacked, if he has already Injured..."

Thinking of this, Lu Ming went around to the other side where he had a better line of sight to observe.

"That is..."

After a while, Lu Ming's eyes flashed.

He saw movement in a marsh residue in the distance, a mass of mud creeping, and then a figure crawled out of the mud and rushed to the distance silently.

If Lu Ming hadn't been staring, it would be really easy to ignore the past.

"It's the celestial monarch of the celestial race, he seems to be injured, come and have a look.

Lu Ming walked along one side and followed silently, and soon the two of them moved away from the battlefield.

After leaving the battlefield, Ziyi Tianjun used the power of the sky to wash away the mud on the surface of his body.

However, his breath was sluggish, his face turned green, and the surface of his skin was enveloped by a layer of mist.

The poisonous gas is constantly corroding him, causing him to spit out another mouthful of blood.

"Lu Ming, Lu Ming, they are all Lu Ming, they have damaged my foundation, I must avenge this grudge, Lu Ming, I will make you better than death..."

Ziyi Tianjun kept roaring in his heart, his face looked ugly.

His loss was too great, in order to save his life, he cut off the hope of breaking through the original state in the future.

All this is because of Lu Ming, his hatred for Lu Ming is simply monstrous.

But no matter how you hate it, you still need to find a place to treat your wounds first.

Chapter 4675: Kill the Ziyi Tianjun

Ziyi Tianjun roared in his heart as he flew to the distance. After getting away from the battlefield of the golden eagle and the three poisonous insects, Ziyi Tianjun found a hidden canyon, entered the canyon and sat cross-legged, and took out several divine pills in a row. Swallow in the mouth.

There are healing types and detoxification types.

However, when he first started his exercises to refine the pill, he felt a palpitating heart, and inexplicably a kind of fear was born in his heart.

Without hesitation, he moved his body sideways and opened his eyes at the same time.

As soon as he opened his eyes, he saw a spear light in front of him, stabbing at him quickly.

Fortunately, his spiritual sense was extremely keen, and he avoided this trick dangerously and dangerously by avoiding it early.

With a puff, the spear light flew over from the side of Ziyi Tianjun's head, pierced the wall of the canyon behind, and directly pierced the canyon.

Cold sweat oozes from Ziyi Tianjun's forehead.

This shot was aimed at the center of his eyebrows just now. If it was pierced, his eyebrows would definitely be pierced and killed directly.

Immediately afterwards, Ziyi Tianjun saw a young and handsome figure stepping into the air.

His pupils shrank sharply, and he couldn't help but roared, "Lu Ming, it's you!"

Come here, besides Lu Ming, who else?

"As expected to be a heavenly monarch, my spiritual sense is really keen."

Lu Ming sighed.

The Ziyi Tianjun had already been seriously injured, and when he was refining alchemy, he was able to escape his sneak attack, which surprised Lu Ming.

"Lu Ming, you dare to appear in front of me, it's really bold, but it's okay, it just saves me a lot of effort to find you..."

Ziyi Tianjun yelled, revealing a strong murderous intent, as if he was about to do it immediately.

Lu Ming sneered and said, "Don't scare me anymore. You have been hit hard and you are poisoned. There is not much strength left. If you are really capable, you would have done it a long time ago. You shouted so much, just want to scare me. , This shows that you really can't do it."

The face of Ziyi Tianjun was ugly, and his heart sank.

He pretended to be a high-handed man just now, in fact, in order to scare Lu Ming and scare Lu Ming away, but he was completely seen through by Lu Ming.

"Ball, hands."

Lu Ming stopped talking nonsense, said a word to the ball, and shot directly.

boom!

The left palm was shot out, in a prehistoric style, a continent condensed and pressed down towards the Ziyi Tianjun.

The Primordial Continent is so huge that it completely enveloped the Ziyi Tianjun.

At the same time, Lu Ming ran into the sky-breaking style, uniting the man and spear, and pierced towards the Ziyi Tianjun.

On the other side, the ball also shot and turned into a mirror, shooting out a beam of light, covering the purple-clothed Tianjun.

what!

The Ziyi Tianjun yelled, struggling frantically, trying to break free from the illusion that the ball turned into, and at the same time moving his body, trying to avoid Lu Ming's attack.

But obviously, the purple-clothed Heavenly Monarch was too far apart from the peak period.

At his peak, the illusion of the ball could hardly help him.

But now, it is difficult for him to break free.

The continent in the sky was also suppressed, making it difficult for him to move his body.

He tried his best, but only moved a little distance.

puff!

The God of War spear pierced the heart of Ziyi Tianjun, and the terrifying power directly tore the body of Ziyi Tianjun, leaving only one head.

"what!"

Ziyi Tianjun let out a painful roar, frightened flashes in his eyes, and unwillingness.

His strength is really scarce, if he was at his peak, how could he be so vulnerable.

In order to escape from the golden eagle, he had exhausted the power of his origin, and even the power of the strongest sky was almost burned.

Later, he was hit hard by the monitor lizard, and hit the toad's poison.

There really isn't much left in his strength.

Don't talk about Lu Ming, face-to-face confrontation, I'm afraid that any divine lord with five or six layers can surely win him.

Therefore, facing Lu Ming's attack, he exhausted all his energy and could not withstand a single blow.

"Lu Ming, even if you kill me, you won't live long. The ancestor will kill you, and you will definitely die in the hands of the ancestor."

The Ziyi Tianjun roared.

"Ancestor?"

Lu Ming frowned and asked coldly, "Who is the ancestor?"

"You don't want to know, when you know, it will be your death date, do it!"

The Ziyi Tianjun roared.

bump!

Lu Ming was too lazy to talk nonsense, and the God of War spear shot upwards, bursting Ziyi Tianjun's head, and his soul was annihilated instantly.

Ziyi Tianjun, extremely aggrieved, was killed here.

call!

Lu Ming took a long breath.

His plan finally came to a complete success here.

With a wave of his hand, he took away Ziyi Tianjun's storage ring, his figure flashed, and he left here.

After leaving here, Lu Ming found another secret place and continued to refine Liuli Peach.

In a blink of an eye, another few days passed, and Lu Ming refined dozens of Liuli Peaches, his cultivation level increased a bit, and his taboo power became more vigorous.

However, Lu Ming still felt too slow.

He knew that Ye Qiuxian and others would definitely be looking for him in this underground world. After a long time, clues would definitely be found.

"It's still too slow to refining colored glaze peaches alone, and even if all the colored glaze peaches in your hand are refined, the cultivation level will not break through the sixth layer of the gods. There will be no obvious improvement in combat power, so you still need to think about it. Other ways."

"Or find other ways to deal with Ye Qiuxian and others, or find another exit to leave."

Lu Ming thought and made up his mind, so instead of continuing to refine Liulitao, he got up and went away to find a chance to get out.

On the other side, Ye Qiuxian and others have been looking for Lu Ming these days, but have found nothing.

However, they found a little master-level magical medicine, and it was not in vain.

However, Ye Qiuxian's face was still ugly. If he didn't kill Lu Ming for a day, he would feel uneasy for a day.

"Transfer to other people, and ask if there is any news about Lu Ming?"

Ye Qiu Xiandao.

"it is good!"

The two heavenly monarchs who were following Ye Qiuxian nodded and took out the sound transmission jade talisman to pass the news to the other three groups.

In the ruins of the universe, the fantasy **** jade is definitely not usable, but the sound transmission jade talisman can be used. As long as the distance is not too far, the sound transmission jade talisman can be used to transmit news.

It's just that the speed of the sound transmission jade is far inferior to the dream **** jade.

In the next moment, several rays of light flew from the hands of the two heavenly monarchs and disappeared into the sky.

They waited quietly.

About a moment later, two rays of light flew towards them in the distance, and they were caught in their hands.

It is two jade charms with sound transmission.

The two swept away their spiritual consciousness, and then handed the sound transmission jade to Ye Qiuxian.

"No news about Lu Ming!"

Ye Qiuxian frowned. News from two groups of people said that no trace of Lu Ming was found.

"Could it be that Lu Ming has died in the mouth of the prehistoric relic?"

Ye Qiuxian guessed.

Chapter 4676: Hope of Bone Demon Recovery

Waited for another few minutes.

"Why haven't Ye Chuzi and Ye Lingshan sent back news yet?"

Ye Qiuxian frowned.

Ye Chuzi and Ye Lingshan are the two heavenly monarchs killed by Lu Ming's pit.

"It is estimated that the distance is far, let's wait!"

A heavenly ruler.

Then ten minutes passed and there was still no news.

"Tell them another news!"

Yeqiu Immortal Dao had a bad premonition in his heart.

A heavenly monarch sent another message to Ye Chuzi and Ye Lingshan. However, after more than ten minutes passed, there was still no news, like a stone sinking into the sea.

The three Ye Qiuxian's expressions became serious.

"It seems that something has happened. Calling everyone up, we go to Yechuzi and Yeling Mountain where they searched."

Ye Qiu Xiandao.

Then the two heavenly monarchs sent news to the two batches of heavenly monarchs who had returned the news.

After a while, two heavenly monarchs stepped into the air in two different directions.

In this way, Ye Qiuxian and the six heavenly monarchs joined together, and then headed towards the direction where the purple-clothed heavenly monarch was.

After careful investigation, they found the place where the purple-clothed Tianjun and the burly Tianjun were killed.

The purple-clothed Heavenly Monarch and the burly Heavenly Monarch were killed, although they were almost torn apart and shattered, but the Heavenly Monarch-level characters were so powerful that they were accurately found.

"Yechuzi and Yelingshan are dead, both in form and spirit."

A Tianjun looked ugly.

"Who killed them, then Lu Ming, how can he have this combat power? Could it be that he was killed by some powerful prehistoric species?"

Another Tianjundao.

"The probability of being killed by the prehistoric species is extremely small. Yechuzi and Yeling Mountain are not stupid. They see the prehistoric species at the peak of the gods, and they will go away

from a distance. With their cultivation, they will go far away. , Those ancient relics cannot catch up with them."

"Unless you encounter the Primordial Relics, but this underground world does not seem to have the Primordial Relics, at least we haven't encountered them."

Ye Qiuxian analyzed.

"What does it mean to ask for a fairy?"

A heavenly monarch looked at Ye Qiuxian suspiciously.

"Lu Ming, it must be what Lu Ming said, that Lu Ming has many tricks and various hole cards. It is mostly he used some tricks to make Ye Chuzi and Ye Lingshan fall."

Ye Qiu Xiandao.

The hearts of other heavenly monarchs sank.

Was it really what Lu Ming did?

That Lu Ming was really terrifying, and Lu Ming's level of danger in their hearts had unknowingly increased.

"This Lu Ming is very dangerous, so he must be killed. He should be in the front direction. We will chase him. No matter what, we have seven people. No matter how scheming Lu Ming is, it is useless. As long as he meets him, Just shoot, don't give him any chance."

Ye Qiu Xiandao.

Hh hh hh...

The seven moved in the direction of Lu Ming.

...

Lu Ming went all the way, and after another two days, he still couldn't find an exit.

Roar!

Suddenly, there was an earth-shaking roar in front of him, and the sky and the earth shook rumblingly.

Then, there were other roars, and then the light shone, black light, fiery red light, white light...

Illuminated the entire sky.

"Over there...are there any relics of the ancient and wild plants fighting each other?"

Lu Ming's heart moved.

Then decided to go and see.

The reason why he wanted to go there was mainly to see if he could be a fisherman.

Two dogs fight, play off.

Lu Ming cautiously approached, hiding on a big tree, using the big hiding technique, his body almost merged with the big tree, and he looked forward.

There is a big mountain ahead.

There is a cave under the big mountain.

At this moment, a fierce fight took place outside the cave.

Five wild relics are besieging another wild relic.

"So strong!"

Lu Ming took a look and couldn't help taking a breath.

Those five wild relics have different shapes, some resemble eagles, some resemble giant wolves, and there is also a python...

Each of the prehistoric relics is the existence of the peak of the god, and it is not an ordinary peak of the god, and its combat power is very powerful, surpassing the heavenly monarch of the heavenly race.

But what was really terrifying was the besieged wild relic.

It was an alien beast that looked like a tiger. It was covered with black hair and had a row of fangs in its mouth. The whole body was pitch black. During the battle, there was a black flame burning.

This prehistoric relic is really very powerful, and it has not fallen behind in fighting against the five powerful prehistoric relics with its own power.

"That... seems to be devilish?"

Lu Ming was a little surprised.

The wild relic that was as dark as a tiger, the power surging all over, seemed to be a devilish energy, extremely rich, and extremely overbearing.

"Yes, it is indeed demon energy, extremely rich, pure and incomparable demon energy. It seems that the prehistoric continent of the last era also has demon energy. My predecessor is indeed the power of the last era..."

In the sea of knowledge, the bone demon cried excitedly.

"Lu Ming, if I have this bone of the ancient relic, my strength will definitely be restored to a large extent. When the time comes, even if those heavenly princes are killed, they can help you kill them without leaving them."

The Bone Demon continued to scream, getting more excited.

"This prehistoric relic is too strong, I can't deal with it at all."

Lu Ming sighed.

"Look first, these ancient relics seem to be competing for something. If they can both lose, we have a chance."

Bone Demon Road.

The war continued, and it became more and more fierce.

The five prehistoric species wanted to kill the prehistoric species like the pitch black tiger. Their goal seemed to be the cave.

But the tiger-like prehistoric relic, firmly guarding the cave, showing terrible combat power, fighting with five prehistoric relics.

A few minutes passed, both sides were injured, there were wounds on their bodies, blood flowing.

Karma!

The eagle-like prehistoric species swooped down, with its sharp claws like a hook, and suddenly grabbed a large piece of flesh and blood from the tiger-like prehistoric species.

However, the tiger-like predecessor species was also mad. With a flutter, the claws grabbed out, and the snake's head was abruptly scratched.

A powerful python was killed.

However, the python dying to fight back, its tail slammed on the tiger-like prehistoric species, and rolled it out.

However, the tiger-like prehistoric species rolled a few times, stood up again, and continued to fight as usual.

The two sides fought fiercely for a few more minutes. After paying a certain price, the tiger-like prehistoric species seized the opportunity to kill a prehistoric species.

The remaining three wild relics were a little frightened, but they did not retreat, but continued to fight.

The subsequent fight was even more tragic, with scars on both sides.

Chapter 4677: See also source-level magic medicine

The two sides fought for more than ten minutes, and the final result was that the three prehistoric species were killed by the tiger-like prehistoric species. The remaining two prehistoric species were finally afraid and fled.

However, that tiger-like predecessor was also seriously injured. There were at least a dozen wounds on his body, and several of them were very serious. Even its heart was torn by half.

Its head also exploded to the side and almost fell.

It dragged its tired body into the cave.

"Do it, do it, take advantage of his illness and kill him."

The bone demon screamed.

"Wait, don't get excited, take the long view."

Lu Ming said.

"What is a long-term plan? After passing this village, there will be no such shop. Only by killing this wild relic can I recover some of my strength and help you deal with those celestial races. Otherwise, once you are found by those celestial races, only There is a dead end. If you don't fight at this time, when will you wait?"

The Bone Demon cried.

"I know what you said, but the legacy of the ancient species is too strong. To be honest, even if I have the ball to protect my body, I can't resist the opponent's two moves and I will be shaken to death."

Lu Ming said.

Naturally, he also wanted to kill the ancient relic very much. Maybe this was a turning point, he could get out of trouble, and deal with the turning point of the Celestial Race.

However, that prehistoric relic is really too strong.

Even if he was seriously injured, his combat power was amazing.

He didn't know how much stronger than the purple-clothed Tianjun before.

Lu Ming felt that this fierce tiger-like predecessor, even if the combat power did not reach the original level, it was not far away.

"You are right, but we are not completely without opportunities."

Bone Demon Road.

"Do you have a way to deal with that wild relic?"

Lu Ming's eyes lit up.

"To be honest, with my current strength, it is difficult to intervene with the enemy you are facing now. In the past, I could intervene in the kind of small troubles in the Divine King and Divine Sovereign Realm, but your current opponents are almost all Divine Lords. And it's still the pinnacle of the gods, I can't get in at all."

"However, this prehistoric relic uses demonic energy, so I have something to do."

Bone Demon Road.

"What can you do?"

Lu Ming asked.

"We entered the cave quietly, and you made a full blow to attack the vitality of this prehistoric species. Once you take action, the prehistoric species will definitely counterattack. I have a way to break its devilish energy and make its counterattack invalid. "

Bone Demon Road.

"Well, if that's the case, you can give it a go, what do you need?"

Lu Ming said.

"You give me some jade charms and I will refine some things."

Bone Demon Road.

Without any delay, Lu Ming waved his hand and several hundred jade charms flew out.

"It doesn't have to be that much, thirty-six yuan is enough!"

The bone demon flew out from the center of Lu Ming's eyebrows, waved a pair of bone claws, and runes flew out, sinking into thirty-six jade charms.

He is refining a simple jade talisman.

The speed of the bone demon is very fast, and it will be refined in about a minute.

"Let's go in!"

The Bone Demon put away thirty-six jade charms and landed on Lu Ming's shoulders.

Lu Ming restrained his breath and walked carefully toward the cave.

Without encountering any danger, he easily passed through the cave, and what greeted his eyes was a rather huge cave.

In the center of the cave, there is a pond, on both sides of the pond, there are some plants growing, lush, filled with amazing smell of medicine.

"That's... the main magic medicine, and..."

After seeing the plants on both sides of the pond, Lu Ming's eyes suddenly widened. If he hadn't tried his best to hold it back, his heart would be beating violently.

Those plants, where are ordinary plants, are master-level magical medicine.

There are hundreds of them.

But this was not what attracted Lu Ming's eyes the most.

What attracted Lu Ming's eyes the most was in the middle of the pond.

In the middle of the pond, there is a lotus flower.

The lotus radiates dim brilliance. Above the lotus, there is a small lotus flower, composed of energy, flying around there.

Source-level magic drug!

Lu Ming recognized at a glance that this was a source-level magical medicine.

Contains a strong source mark, a source-level magical medicine that can improve the cultivation level after the source-level strong is refined.

Before the 'lion' they came across a source-level magical medicine, and it was because of that source-level magical medicine that they fought against the golden eagle.

The preciousness of the source-level magical medicine, needless to say, even if the source realm powerhouse sees it, they will be jealous and fight.

Lu Ming didn't expect that there was a plant here.

Lu Ming finally understood why the five wild relics had been besieging this tiger-like wild relics. It was estimated that the purpose was for this source-level magical medicine.

The tiger-like wild relic, lying on the edge of the pond, chewing on a few master-level magical medicines.

I really wanted to use the power of the main-level magical medicine to heal his injuries.

"What a waste."

Lu Ming muttered in his heart.

However, he had already seen that this tiger-like prehistoric species was seriously injured. Up to now, blood has been flowing out of the wounds, which stained the ground.

Its breath was very weak, lying on the ground motionless, it didn't notice Lu Ming at all.

"It's great. The injury of this ancient relic is more serious than I thought. Our chances are greatly increased..."

"Lu Ming, attacking the injured half of its head must be killed with a single blow."

Bone Demon Road.

"Okay, get ready, shoot!"

Lu Ming shouted with spiritual knowledge, and then burst out with all his power, displayed the sky-breaking style, the man and the gun were one, assassinated towards the head of the tiger-shaped prehistoric species.

The head of this ancient relic was already severely injured and torn in half, which was a fatal point.

With this blow, Lu Ming also exploded with the original power of the original seed, and he must be killed with a single blow.

At the same time, it was turned into a piece of armor, covering Lu Ming in it.

Just in case, you still have to defend yourself.

Roar!

There was a roar, and as soon as Lu Ming shot his hand, he was discovered by the wild relic in the shape of a tiger.

It suddenly jumped up, and a strong devilish energy burst out all over its body, which turned into flames and burned.

These magical fires turned into shock waves, slamming towards Lu Ming.

"Break it for me!"

The Bone Demon made a move in time, and with a wave of his hand, thirty-six runes flew out and turned into a formation that enveloped the prehistoric species in the shape of a tiger.

Suddenly, the opponent's devilish energy, like a flame encountered by ice and snow, quickly melted away.

Lu Ming rushed past, these devilish energy did not cause any impact on Lu Ming.

The tiger-shaped prehistoric species was taken aback for a moment. Obviously, he didn't expect such a situation to happen. In addition, his injuries were too serious, and it was too late to move and evade.

puff!

The God of War Spear pierced in directly from its wounded head, and the original power exploded, igniting the terrifying power of the God of War Spear, bursting out of the opponent's head.

Chapter 4678: Break through the sixfold

Roar!

After the God of War spear pierced into the head of the wild relic in the shape of a tiger, the opponent roared, and the whole cave shook violently.

Then, a wild relic in the shape of a tiger, a sharp claw, grabbed Lu Ming.

This was a dying effort to grab, and the power was amazing. Lu Ming was shot and flew out and hit the wall of the cave. The wall burst directly. Lu Ming's body smashed through the cave and flew out. On the ground, ravines of tens of thousands of meters and a depth of tens of meters have been drawn on the ground.

puff!

Lu Ming vomited blood, feeling dozens of bones broken, and his internal organs were completely shattered.

"It's so strong. Fortunately, I have the armor protection of the ball. Otherwise, this trick will directly kill me."

Lu Ming was shocked.

This is still a blow that this prehistoric relic has been severely injured, and its strength is definitely not in its peak state.

One can imagine how powerful this prehistoric relic is.

Roar!

An angry roar came from the cave, and the rock burst. This prehistoric species unexpectedly rushed out along the gap that Lu Ming had pierced and charged towards Lu Ming.

The God of War spear is still stuck in its head, looking very scary.

Lu Ming was shocked and couldn't help but regress with all his strength, not dare to stun the front.

Fortunately, after staggeringly rushing out for a certain distance, this prehistoric relic fell to the ground with a plop, completely losing its breath.

This wild relic is still dead after all.

Lu Ming's blow just now had completely destroyed its head.

Huh!

The Bone Demon also flew out of the cave, and looked around the Prehistoric Relics twice, confirming that the Prestigious Relics had indeed fallen completely.

"Bone Demon, what should I do now?"

Lu Ming walked over, pulled out the God of War gun and asked.

"Drag it back to the cave and leave it to me."

Bone Demon Road.

Lu Ming nodded, and dragged the ruined seed back to the cave.

The bone demon surrounded the tiger-shaped prehistoric species, and his hands kept illuminating, a black light, submerged into the body of the prehistoric species.

After a while...

"Strip!"

The Bone Demon gave a soft drink, grabbed with both hands in the air, and saw the body of the Tiger-shaped Wild Remains creeping, and then some bones came out of the flesh and blood.

And more and more bones.

The bone demon actually completely stripped the skeleton of the tiger-shaped legacy from the flesh and blood.

Soon after, a complete tiger-shaped skeleton appeared in front of Lu Ming.

The bones of the tiger-shaped wild relics are as black as ink and smooth as jade. They look free of impurities and exude a strong magical energy.

"Next, I need a little time to fuse this skeleton. When I fuse, my strength can definitely recover part of it."

Bone Demon said, the body turned into a light, flew into the tiger-shaped skeleton, and disappeared.

The bone demon began to fuse the skeleton, and Lu Ming's gaze turned to the pond.

Hundreds of master-level magical medicines and a source-level magical medicine, these treasures are not to be missed.

Lu Ming started to uproot hundreds of master-level magical medicines and planted them in the Precious Ring.

Although there is vitality and lush plants in the prehistoric ring, it lacks magical medicine.

These magical medicines are transplanted into them, and when you want to use them, pull them up and use them without losing their properties.

The last is the source-level magical medicine, which Lu Ming also intends to transplant into the prey.

He couldn't use the source level magical medicine at all now.

At the very least, he had to wait for him to reach the peak of the Divine Lord before he could use it.

"This pool is not easy!"

At this time, Lu Ming discovered that the water in this pond was very difficult, extremely viscous, and full of amazing energy.

The energy is pure and soft, very similar to the energy in the prehistoric crystal.

These pool waters seem to be liquid crystals.

"It's no wonder that so many magical medicines can be bred. It is related to this pool of water. If these pools of water can be absorbed by me, maybe it will make my cultivation level higher..."

Lu Ming's eyes lit up, and after carefully transplanting the source-level magical medicine to Hong Huangjie, Lu Ming jumped into the pool with a plop.

After leaping into the pool, Lu Ming used the power of taboo, and his pores opened up, creating an extremely powerful attraction.

In those pools, a stream of incomparably pure energy continued to converge towards Lu Ming, drilled through every pore of his body, penetrated Lu Ming's body, and then absorbed and refined by Lu Ming, turning it into taboo power. .

Lu Ming guessed right, this kind of pool water, like a liquid crystal, contains incomparably pure energy, which can be quickly absorbed and refined to improve the cultivation level of the powerhouse of the gods.

Those magical medicines before were born out of these pools of water.

Lu Ming quickly absorbed the energy in the pool water to improve his cultivation level, and the pool water was also quickly consumed, decreasing at a speed visible to the naked eye.

In just a few days, the pool's water dropped by more than half, and Lu Ming's cultivation level had reached a limit.

The five-fold limit of God Lord.

broken!

Lu Ming drank low, the incomparable forbidden power in his body started to circulate, and he began to attack the divine master's sixth realm.

In the case of sufficient energy, this is not the slightest difficulty, and the breakthrough is almost a matter of course.

boom!

The aura on Lu Ming's body skyrocketed, rising a lot, and successfully broke through to the sixth realm of God Lord.

Lu Ming didn't want to waste about half of the water in the pool, so he continued to absorb it.

However, for him to break through from the fifth level of the divine master to the sixth level of the divine master, the energy required is at least five million primordial crystals, maybe more.

Then, from the sixth-fold breakthrough of the divine master to the seventh-fold of the divine master, the required prehistoric crystals are even more terrifying, more than ten times that of the former.

Five or six million!

Therefore, although the energy of this pool is strong, it is almost impossible for Lu Ming to break through.

However, after reaching the sixth level of the Divine Master, Lu Ming's refining speed greatly increased, and the remaining pool water was completely refined by Lu Ming in less than a day.

His cultivation base is also completely fixed at the sixth level of the divine master, which is about the peak of the sixth level of the divine master.

"Finally reached the sixth level of God Lord."

Lu Ming felt the surging energy in his body, and his confidence increased greatly.

The six-fold divine master is much stronger than the five-fold divine master. Although it may not be able to beat a heavenly monarch, at least the chance of survival is greatly increased when faced with it.

"Now I don't know what will happen to Ye Qiuxian?"

A gleam of cold light flashed in Lu Ming's eyes.

Now, he is at the same level as Ye Qiuxian, and he has no fear of anyone.

"Below here, there seems to be a spring."

Lu Ming looked under the pond and found a spring.

But no water came out of the spring.

"The water in this pond probably came from this spring, but the speed is very slow. It may take a long time to gush out a few drops."

Lu Ming speculated.

Then, he looked at the bone demon.

There was a powerful wave of magic coming from the bone demon. At this time, the skeleton of the tiger-shaped prehistoric species had changed drastically.

Chapter 4679: Bait

Originally, the skeleton was in the shape of a tiger, but now it has changed drastically.

The tiger-shaped skeleton has actually been transformed into a human-shaped skeleton, almost the same as the previous bone demon, except that it is much larger in size, similar to that of ordinary people.

The whole body is pitch black, smooth as jade, and it seems to contain terrifying energy, and a powerful breath comes out.

"This is... the breath of the peak of the god, can the bone demon restore the cultivation of the peak of the god?"

Lu Ming thought, with a hint of surprise on his face.

Lu Ming didn't wait long. After a while, the breath of the Bone Demon converged, and two eyes flashed with fiery red light.

"Haha, I finally recovered a little bit of repair, the feeling of controlling power, it's great."

The Bone Demon laughed, twisted his body, and made a clicking sound.

"Bone Demon, how about it, can you deal with six heavenly monarchs at the same time?"

Lu Ming asked.

At the side of Yeqiuxian, there were a total of eight heavenly monarchs, two of whom had already been killed, and six others.

"No!"

The bone demon replied very simply, saying: "This skeleton, after all, is only the skeleton of the peak of the gods, not the skeleton of the origin realm, and the energy originally contained in the skeleton is not

much at first, plus some of my own methods to deal with the two. There is no problem with the three heavenly monarchs, but it is impossible to deal with six."

"Can't deal with six?"

Lu Ming frowned.

In this case, there is no chance of winning when meeting Ye Qiuxian and others.

Unless the opponent is still scattered, but after the purple-clothed Tianjun and the burly Tianjun are killed, will the opponent still separate?

It's probably not that stupid.

In this case, meeting Ye Qiuxian and others would have to run away.

"However, if it is carefully arranged, it is not impossible to deal with the six heavenly monarchs."

The bone demon's voice turned.

"Do you have a way?"

Lu Ming's eyes lit up.

"Have!"

After the bone demon said, he stepped out and walked out of the cave.

Lu Ming followed.

"There are three corpses from the prehistoric species here. I can strip their bones and make three demon bone puppets."

"These three prehistoric relics, although they don't have the slightest devilish energy, and the refined devil bone puppets are not authentic. It is estimated that they can only be used once, but each one is entangled with a heavenly monarch, there is no problem, and we are carefully planning. At once, it may not be impossible to win the six heavenly monarchs."

Bone Demon said, as soon as the voice fell, the Bone Demon volleyed and grabbed it. From his palm, three groups of demon energy were used to cover the three corpses of black, red and yellow relics.

Soon, the three skeletons were stripped out.

These three corpses were all three prehistoric relics killed by the tiger-shaped prehistoric relics. They all existed at the pinnacle of the gods, and they were very powerful.

"Lu Ming, I will enter your prehistoric ring first and refine the devil bone puppets. This kind of one-off devil bone puppets can be trained soon, and you can find a place to start decorating them."

Bone Demon Road.

"It is good!"

Lu Ming nodded and waved his hand to collect the Bone Demon into the Precious Ring, then his figure flashed and left here.

Soon after, Lu Ming found a relatively hidden canyon.

"It's here, but if you want Ye Qiuxian and others to find me, you need to arrange something..."

Lu Ming whispered, then his figure flashed, leaving here, and heading in the direction he came.

Of course, Lu Ming was very cautious, for fear of encountering Ye Qiuxian and others.

Right now, the bone demon hasn't become a demon bone puppet, and he is not the opponent of the other party.

Fortunately, Lu Ming traveled hundreds of thousands of miles without encountering Ye Qiuxian and others.

Roar!

At this time, a huge prehistoric relic, stared at Lu Ming.

This is a lion, full of fiery red, like a flame burning, its breath is powerful, with the ninefold cultivation base of the **** master.

"Okay, I was trying to find a piece of wild heritage, but I didn't expect it to come."

Lu Ming smiled.

Roar!

The fiery red lion pounced on Lu Ming, and his claws grabbed Lu Ming's chest.

Lu Ming didn't dodge, letting the lion's claws cling to his chest.

puff!

Blood was splashing, Lu Ming's chest was abruptly grabbed a piece of flesh and blood.

But at the same time, Lu Ming shot, the God of War Spear appeared in his hand, and a spear pierced the lion's head.

At such a close distance, and how powerful Lu Ming is now, the lion couldn't avoid it, and was directly pierced through the head by the God of War Spear, killing him instantly.

Lu Ming used taboo power, and the wound on his chest was quickly recovering.

The reason why Lu Ming didn't dodge and let him attack was completely deliberate.

He was going to pretend to fight against the prehistoric species, was seriously injured, and finally killed the prehistoric species and escaped.

Pulling out the God of War Spear, Lu Ming flew towards the gorge he had fancied before. Of course, along the way, Lu Ming would deliberately spill some of his own blood.

In this way, after seeing Ye Qiuxian and others, they would definitely think that Lu Ming was attacked by the Primordial Legacy Species and fought fiercely with the Primordial Legacy Species. Although he killed the Primordial Legacy Species, he was also severely injured and bleeding all the way. According to the blood stains, they will find Lu Ming.

Even if the body of that lion was eaten by other prehistoric relics, with the ingenuity of Ye Qiuxian and others, it would certainly be possible to calculate based on the clues that Lu Ming and the prestigious relics were injured in the fight.

They will find the canyon based on the blood stains.

"Right in that gorge, meet you."

Lu Ming whispered.

Layout all the way, at intervals, Lu Ming will leave a few drops of blood, all the way to the vicinity of the canyon.

Then Lu Ming entered the canyon, sat cross-legged, and waited quietly.

Now, just wait for the rabbit.

In a blink of an eye, two days passed, the bone demon had already made the devil bone puppets, and there was still no trace of Ye Qiuxian and others.

Lu Ming was not in a hurry. After all, this underground world was quite large, and it was not so easy to find the blood stains left by Lu Ming.

Three more days.

"coming!"

In the sea of consciousness, the voice of the bone demon rang.

Lu Ming suddenly opened his eyes, looked around, and deliberately shouted, "Who?"

"Lu Ming, how long hasn't seen you since then, has forgotten us!"

A grim voice sounded, and several figures stepped forward outside the canyon.

The person in the middle is exactly Ye Qiuxian.

On both sides of Ye Qiuxian, there were two strong heavenly monarchs.

Hh hh hh...

Around the canyon, the figure flickered, and four more figures appeared, enclosing Lu Ming in the middle, it was the other four heavenly monarchs.

"Yeqiuxian, how did you find this place? No, my blood stains..."

Lu Ming deliberately pretended to change his face wildly.

"Hehe, thinking about it now, it's too late."

Ye Qiuxian sneered, murderously cold, and then said: "Yechuzi and Yelingshan, you killed them?"

"Are you talking about those two heavenly monarchs? So what? Maybe, you will be the next one..."

Lu Ming said coldly.

Chapter 4680: You do not deserve

"Lu Ming, you must have used some conspiracy and tricks to kill Yechuzi and Yelingshan, or you have used the power of other prehistoric species."

"But here, before we came in, we had thoroughly explored it. There were no powerful wild relics in a radius of 100,000 miles, and there was no trace of formation in this canyon."

"And now you are surrounded by six heavenly monarchs, what do you use to survive?"

Ye Qiuxian sneered.

They were not fools either. Before they came, they were afraid that it would be Lu Ming's strategy, so before entering this canyon, they had explored the surroundings and found no powerful wild relics.

At the same time, they had also observed just now, there was no trace of formation in this canyon either.

Therefore, they are confident.

"I beg Fairy Lord, and talk nonsense with him what they are doing, I will kill him."

Beside Ye Qiuxian, an old man in gray robe sneered coldly, stepped out in one step, and rushed towards Lu Ming in the form of electricity. A war sword appeared in his hand and a sword slashed towards Lu Ming.

The power of this sword is extremely terrifying, as if it is about to split the world, the powerful combat power of the Heavenly Sovereign level is undoubtedly revealed.

Hum!

Lu Ming held the God of War Spear in his hand, all the forbidden power in his body exploded, and at the same time set off the battle power of the War Character Jue eight times, the God of War Spear swept out and collided with the opponent's war sword.

when!

There was a screaming roar, the energy rolled wildly, the earth roared, the rocks burst, and the earth was abruptly cut off.

The peaks around the gorge also burst continuously, and rubble splashed.

Then, Lu Ming's figure retreated, his face flushed, and he almost vomited a mouthful of blood.

"So strong, it deserves to be the existence of the pinnacle of God Lord."

Lu Ming whispered, feeling his entire arm numb.

Just now, he didn't let the Bone Demon come out, he deliberately wanted to try the power of the Heavenly Monarch level.

He has just broken through the Sixth Layer of the Divine Lord, and his combat power has greatly increased. He wants to test how big the gap between him and the peak of the Divine Lord is.

Facts have proved that he is not yet an opponent of God Lord Peak, and there is still a big gap.

When he was in the fifth division of the gods, he was able to contend with the general masters of the gods and masters. With the **** of war spear, the original power and the ball can kill the general gods and the masters.

Now that his cultivation level has been upgraded to one level, it stands to reason that he is able to contend with the existence of the general peak of the gods.

actually not.

The gap between the peak of the divine master and the nine-fold of the divine master is very large, far greater than the gap between the eighth divine and the nine-fold divine master.

Therefore, after he broke through the Sixth Layer of the Divine Lord, his combat power greatly increased, and he easily killed the existence of the 9th Layer of the Divine Lord, but he was still invincible in the face of the peak of the Divine Lord.

"Lu Ming, you... your cultivation level has actually reached the sixth level of the Divine Lord, what adventure did you get?"

Ye Qiuxian roared, his eyes widening.

When he and Lu Ming fought, Lu Ming's cultivation base was only a five-fold divine master.

How long has it passed? Lu Ming's cultivation level had actually skyrocketed to the sixth level of the Divine Lord.

He knew that Lu Ming possessed the original seed, only had enough resources, and he would rise quickly.

This showed that Lu Ming had an amazing opportunity in these short days.

This makes him extremely unhappy.

He relied on Tiangong's massive resources to achieve his current cultivation level, while Lu Ming relied entirely on himself and on his own opportunity.

Comparing the two, make a judgment.

"Yes, I have already broken through the sixth layer of God Lord, Ye Qiu Xian, now you and I are at the same level, and have the ability, come to a battle!"

Lu Ming shouted, the God of War spear pointed at Ye Qiuxian and challenged him.

"I..."

Ye Qiuxian's face was very ugly.

He had fought against Lu Ming before, and he knew very well that he was still not Lu Ming's opponent in a battle at the same level. If there was a battle, the scene of being too immortal would surely happen again.

"It seems that you dare not fight, Ye Qiuxian, in Taishang Xiancheng, I will treat you as the only person who can be my opponent in the prehistoric universe. If you dare to fight, you will only take advantage of your cultivation base. You are not worthy of being my opponent."

Lu Ming sneered, his voice filled with deep disdain.

"Lu Ming..."

Ye Qiuxian roared, a handsome face, a little savage.

Lu Ming's words happened to hit his sore spot.

He could not wait to go up to fight Lu Ming, personally suppress Lu Ming, let Lu Ming kneel before him.

But reason told him that he couldn't do it.

It is humiliation if you don't make a move. If you make a move, it is estimated that you will suffer more humiliation.

"Please fairy son, a person who is dying, you don't need to take his words to heart."

The gray robe old man said.

"Yes, why should I be like a dead person, take action, and kill him for me."

Ye Qiuxian shouted.

"Lu Ming, although you blocked me with one move, I didn't use my full strength just now. Now, I will kill you within three moves."

The gray-robed old man sipped coldly, stomped on the air, and rushed towards Lu Ming, faster than the previous one.

He was right. In the previous move, he didn't use his full strength at all. At this moment, the real full strength erupted, and the sword light was faster than lightning, slashing to Lu Ming's eyebrows.

This time, Lu Ming did not evade, nor did he attack.

After trying a trick, Lu Ming already knew his own combat power, so he didn't need to try again.

Later, leave it to the Bone Demon.

Just when the opponent's attack was about to reach, Lu Ming's eyebrows glowed, and the bone demon rushed out of Lu Ming's eyebrows, rapidly growing, his palms like a knife, slashing towards the opponent, and colliding with the opponent's war sword.

With a bang, the black palm bones of the bone demon collided with the opponent's war sword head-on, but the palm of the bone demon was nothing, but the opponent's main-level war sword was bounced out of a gap.

The bone of the Bone Demon was derived from the Tiger-shaped Wild Remains, the defensive power of the Tiger-shaped Wild Remains. It was amazingly strong, and the bones were extremely hard. With the blessing of the Bone Demon's demon energy, the opponent couldn't break it.

The other party's eyes widened suddenly, a little stunned.

"kill!"

The bone demon soul waved, and the palms of both hands were like magic knives, slashing out.

All this came too suddenly, and the other party never expected that Lu Ming's eyebrows would suddenly rush out of such a powerful skeleton.

In addition, the Bone Demon shot swiftly and as fast as lightning, without the slightest drag.

puff!

With a flash of light, the gray-robed old man's head was split in half, and his soul was completely annihilated.

This was Lu Ming and the Bone Demon's strategy, using a force of lightning speed, to kill one of the opponents first and weaken the opponent's strength.

Sure enough, everything went very smoothly.

Now, there are only five heavenly monarchs left.

All this happened so quickly, when Ye Qiuxian and others reflected, the gray-robed old man had been killed.

"Damn, he has a helper, let's kill them together!"

Ye Qiuxian roared.
