

D Emperor 4701

Chapter 4701: The human king flew towards Lu Ming by himself

Lu Ming's pupils shrank sharply.

Ye Immortal's move made him feel very frightened, and he felt like a disaster is imminent.

The power of this move is a lot stronger than the previous one.

The same cannot be evaded, only hard-wired.

"Block!"

Lu Ming roared, all the power in his body burst out, and his power ran to the extreme.

In his body, there are tens of thousands of cells glowing like stars.

These cells are connected together to form a door.

In the door, a yellow mud road emerged. On the yellow mud road, the pool of blood stains shone with scarlet light.

In the void on the other side of the battle platform, the human body and the large bronze box have been suspended quietly there, motionless.

But at this moment, the gaze of the human king's body suddenly looked at Lu Ming.

To be precise, it was looking at the pool of blood on the Huangni Road.

Then, in the eyes of the human king's flesh, there were surprises, doubts, shocks and other emotions, but it only flashed away, and no one noticed it.

At this time, Lu Ming and Ye Immortal had already confronted each other.

Ye Immortal's move was really terrifying. When Lu Ming confronted him, his body shook wildly, and he retreated violently when he was hit by a powerful force.

At the same time, a lot of 'sunlight' shone on Lu Ming's body, and there was a dense 'ding, ding, ding' sound, which was finally blocked by the armor of the ball.

But the violent impact still hit Lu Ming through the armor, causing Lu Ming to spit out a mouthful of blood.

At the same time, he felt the astonishingly high temperature of the armor made by the ball, and his skin was scorching hot.

"Ball, are you okay?"

Lu Ming asked quickly.

"It's okay. It's too strong. This person's attack is too strong. If it is stronger, I will be defeated."

The ball responded.

Lu Ming was relieved now, and at the same time he was shocked.

"It's too strong, what secret technique is this? How can there be such a strong attack power?"

Lu Ming was shocked.

Ye Immortal's unique tricks were far more powerful than his original creations of the Primordial Style and the Breaking Style. It surpassed all the secret techniques Lu Ming had seen, and it was truly amazing.

Especially the move just now, if it weren't for him wearing the armor made of a ball, I'm afraid there is a risk of falling.

In other words, before the battle between Ye Immortal and Lu Ming, he hadn't used all his strength, and there were still tricks reserved.

In the sky, that big day disappeared, Ye Immortal breathed a few breaths, and his face became pale.

This made Lu Ming's heart move. Obviously, even if Ye Immortal, using such a trick, the consumption is very amazing.

No wonder it was not easily used before.

"The human body is already mine, no one can take it away."

Ye Immortal spoke indifferently, shaped like a bolt of lightning, rushing towards the human body.

He must first put away the human king's body to avoid accidents.

The trick just now consumes him a lot, and Lu Ming's addition of the ball makes him feel very difficult.

"Don't think about it!"

Lu Ming yelled, and was also about to rush towards the human body, but at this moment, something changed.

The human king's flesh body, who had not moved at all, suddenly stepped out and entered the bronze box. The bronze box was automatically covered, then turned into a light and rushed in one direction.

This direction is not where Ye Immortal is, but... where Lu Ming is.

The speed of the bronze box was too fast, beyond the reaction of everyone.

Before everyone could react, the bronze box rushed directly into Lu Ming's eyebrows, and then... disappeared.

Lu Ming was stunned.

Ye Immortal was stunned.

Everyone who saw this scene was stunned.

The human body actually entered Lu Ming's body and disappeared.

Isn't it a mistake? Shouldn't the human king's body enter the body of Ya Immortal? After all, Ya Immortal won the final game.

Wrong object?

"Lu Ming, hand over the human body."

Ye Immortal reacted quickly with a loud roar, and his body rushed towards Luming, the speed reaching the extreme, far beyond what Ye Immortal had before.

"This is... Divine Lord's sixth-layer aura, no, my cultivation base has also been restored."

Lu Ming's heart moved.

He discovered that the force that suppressed his cultivation base had disappeared, and his cultivation base had also returned to the sixth level of the Divine Lord.

boom!

The huge power in the body broke out, and at the same time, the God of War Spear also appeared in his hands, and all suppression disappeared.

It seemed that after the human body entered Lu Ming's body, the suppressing power disappeared.

Hum!

The God of War spear shook, swept out, and banged against Ye Immortal.

Both of them recovered to the sixth level of the Divine Lord, and they were still fighting at the same level. There was a violent roar, and the figures of the two of them retreated again.

At the same time, other people's cultivation bases were all restored, and an astonishing battle broke out.

The violent energy swept all directions from the peak of the **** master to the peak of the **** master, some of the weak in cultivation did not dare to approach at all, and one after another gave way to both sides.

"Go kill Lu Ming!"

"The King of Human Body is on him!"

Some Heavenly Monarchs in the Heavenly Palace yelled and wanted to kill Lu Ming, but they were blocked by the masters of the Exterminating Army.

"The sword of heaven and man-the death of the sun!"

Ye Immortal performed that trick again.

A big day emerged, scattered with endless brilliance.

Restored to the sixth level of the cultivation base of the God Lord, Ye Immortal displayed it, and its power was many times stronger than before. It was extremely terrifying, as if it could destroy everything.

Lu Ming didn't hesitate to explode the original power of the original seed, inspiring the power of the God of War Spear.

Then the God of War spear flicked and spun at extreme speed, and the void was stirred by the God of War spear and turned into a round of pitch-black vortex, blocking all the 'sunlight' that spilled.

"We retire!"

At the same time, Lu Ming used this force to retreat violently, trying to rush out of a gap in the metal mountain.

The power of the original source can only be used with one move, if Ye Immortal continues to explode his big tricks, he will be unable to stop it.

"Lu Ming, leave it to me!"

A violent roar came from above Lu Ming's head. A tall and burly celestial race was pressed down like a big mountain. Holding a purple-golden battle axe, he smashed Lu Ming's head.

Tianjun!

This is a Tianjun level powerhouse.

Lu Ming didn't dare to be careless, brandishing the God of War spear to resist.

With a sound, Lu Ming continued to retreat, feeling his arms numb and his bones almost breaking apart.

"kill!"

This Tianjun wanted to continue to kill Lu Ming, and at the same time, Ye Immortal also launched an attack, killing Lu Ming, and teaming up with that Tianjun.

One left and one right, the attack of the two was about to arrive in an instant.

"Bone Demon..."

Lu Ming drank softly.

"give it to me!"

The Bone Demon rushed out of Lu Ming's eyebrows, blasting two consecutive punches, colliding with Ye Immortal and the Heavenly Monarch.

boom! boom!

With two violent roars, Ye Immortal and the Heavenly Monarch were shaken by the bone demon.

Chapter 4702: Embarrassed

"Kill, make every effort to kill Lu Ming, the human body is ours."

"Go all out."

The roar of Tiangong rushed towards Lu Ming frantically.

At this moment, everyone had recovered their peak combat power, and the masters on the Heavenly Palace had already had a lot more masters than the Heaven Destroying Army, and there were more masters at the peak of God Lord than Heaven Destroying Army.

Especially the four strongest heavenly monarchs are really too strong, and only a few people can confront the strongest heavenly monarch on the side of the Heaven Extinguishing Army, and they cannot stop each other at all.

When the cultivation base was suppressed at the first level of the Divine Lord, on the side of the Heaven Extinguishing Army, both Tang Jun and 'Xi' could exert powerful combat power, and both could block the strongest Heavenly Monarch.

But at this moment, as soon as the cultivation base was restored, Tang Jun and Xi's cultivation base showed their shortcomings, and they were unable to confront one of the strongest heavenly monarchs at all.

Therefore, even if the Heaven Extinguishing Army masters blocked them with all their might, there were still Heaven-Sovereign-level masters rushing towards Lu Ming.

But at this time, even more amazing changes appeared.

There is also the upper side, and the originally smooth metal wall actually squirmed and protruded from it, forming a personal metal puppet.

These metal puppets are very similar to the metal puppets on the metal towers outside the metal mountain peak.

These metal puppets, armed with war knives, rushed from all directions to the Exterminating Army, the Heavenly Palace, and the people of the Yaxian tribe.

For a time, at least thousands of metal puppets were killed.

"Kill, kill all creatures!"

"Don't let go of any creatures."

These metal puppets will actually roar, and the sword will cut out like lightning, almost astonishing.

Some of the weaker ones were directly slashed and killed by the sword, while others quickly resisted.

The people who destroyed the heavenly army and the heavenly palace were fighting in a melee, but at this time they ignored the melee and quickly resisted the metal puppets.

Similarly, many metal puppets rushed towards Lu Ming, rushed towards Ye Immortal, and rushed towards the Tianjun-level powerhouse who killed Lu Ming.

The figure of Ye Immortal and others were abruptly blocked.

"Go away!"

Ye Immortal roared, and after a few consecutive attacks with a metal puppet, he knocked the metal puppet away.

On Lu Ming's side, the Bone Demon shot and knocked the metal puppet away.

"Go, we retreat!"

Lu Ming shouted and rushed towards a passage.

"Chong, protect Lu Ming from rushing out!"

"Retreat!"

The human king's flesh body has already been handed, and those who destroy the heavenly army will naturally not be in love with the battle, while resisting the attack of the metal puppet, while rushing towards the side channel.

Many metal puppets are chasing after them.

"Don't let them go, kill them, you must take Lu Ming down!"

Ye Immortal roared and rushed towards Lu Ming and the others.

Those Heavenly Monarch level powerhouses, as well as the nine-fold eight-fold divine master, also rushed in the direction of Lu Ming.

However, those with weaker cultivation bases are even troublesome to explode. Naturally, they can't chase Lu Ming. They can only rush in another direction, wanting to rush out of the metal mountain peak through other channels.

Although Ye Immortal and others fought hard, they faced too many metal puppets, even if they broke through the siege and chased Xiang Lu Ming and others.

But don't forget that behind Lu Ming and the others, there are also a group of metal puppets chasing after them. The people of Tiangong must step over these metal puppets if they want to attack Lu Ming and them.

When the people in Tiangong approached, some of the metal puppets who chased Lu Ming and them turned and killed the people in Tiangong. In this way, they wanted to catch up with Lu Ming and them.

Lu Ming quickly rushed into the passage, and the other people of the Heaven Exterminator also rushed into the passage and rushed outside.

"Chasing! Chasing!..."

Ye immortal roar.

He has lived for endless years, experienced countless major events, and has a very good mentality. He has always been calm because everything is under his control.

But now, he couldn't calm down, his face was very gloomy, and his heart kept roaring.

He really couldn't understand. It was obviously that he won the game. Why would the human body fly to Lu Ming?

Is it because Lu Ming is a human?

He can only think of this reason.

Because the body of the human king is also a human race, and Lu Ming is also a human race, it can also make sense for the human king's physical body to choose Lu Ming.

"Human race, I really can't stay. I knew it was so long ago. It should have been all human races in the universe."

Ye Immortal is full of murderous in his heart.

At this moment, Lu Ming, as well as the others who killed the Heavenly Army, quickly rushed out of the tunnel.

However, when they rushed out of the passage, the remnant metal puppets and cold eyes on the metal towers outside looked at them one after another, and then they were in the shape of electricity, brandishing their swords, and killing them.

"rush out!"

Lu Ming yelled, brandished the God of War spear, and hit a puppet with a violent roar. The puppet was knocked out by Lu Ming, but Lu Ming also felt his arms numb.

Although this metal puppet has no other weird abilities, it is surprisingly powerful.

At the same time, the Bone Demon also shot, knocking the two metal puppets into flight.

Behind, the lion and others also rushed to them, constantly knocking the metal puppets into the air, and they quickly rushed outside.

Roar! Roar! Roar! ...

But at this moment, there was an earth-shattering roar in the distance.

These roars came from all sides of the metal mountain.

From every direction, there was a roar, really violent roar of heaven and earth.

Then, a behemoth appeared in the sight of everyone.

Lu Ming saw a giant snake, extremely huge, bigger than a mountain range, and swam towards this side.

There is also a giant bird, full of flames, wings spread out, covering the sky and sun.

There is also a fierce tiger, more than 10,000 meters tall, roaring like thunder, and its eyes are like two suns.

Origin!

These three prehistoric species all existed in the original realm.

This is only Lu Ming's direction, other directions, and more.

Obviously, the movement on the metal mountain peak attracted the wild relics of the original source realm in the distance.

Lu Ming, Shi and others turned pale.

Their path is blocked, with so many Origin Realm beings, if they continue to rush forward, it will definitely be a dead end.

In the front, there are the primitive relics of the Origin Realm, there are a large number of metal puppets in the back, and the powerhouse of the heavenly palace, they are in desperation.

"Don't let go of any creatures, kill!"

The metal puppets roared, their eyes were cold, and they continued to slaughter Lu Ming and others.

At this time, almost all the Heaven Extinguishing Army rushed out of the metal peak. They gathered together, staying in the middle with a low cultivation base, and the periphery was guarded by the powerful gods to resist the attack of the metal puppets.

In this way, losses can be minimized.

However, the far-reaching origins of the wild relics are getting closer.

And among the metal peaks, not only metal puppets rushed out, and they continued to kill them.

"What do we do?"

Someone yelled and cast their eyes on the peaks of the strongest gods such as the lion.

However, the faces of "Lion" and others are also ugly to death, because they can't help it.

Chapter 4703: Escape the halo world

"Kill out!"

In less than a minute, the roar of the Heavenly Palace powerhouse came from the metal mountain peak, and a large number of Heavenly Palace experts also slew out of the passage.

Ye immortal, Ye Qiuxian and others are here.

As soon as the people in the Tiangong rushed out, they also saw the original source realm in the distance, and they all showed horror and pale.

"With so many primitive species in the original realm, we are surrounded!"

"What should we do now?"

Several Tianjun spoke, a little panicked.

"First take the human king's body into your hands, and then find a way to break through!"

Ye Immortal was still calm and gave the order.

They continued to attack, knocking the metal puppets into flight, rushing towards Lu Ming and them.

"It's over!"

Many people in the Exterminating Army looked pale.

Such a situation is really desperate, can it still go?

"Fight, we definitely can't let the people of the heavenly palace easily get the human king's body, we fight with them, as long as we resist them for a period of time, they will also die when the prehistoric species arrive."

The lion roared and his eyes were blood red.

"Fight!"

Others also yelled.

They can't walk away, can't get the human body, and can't let the people of the heavenly palace get it. When the ruined relics arrive, even if they will fight to death, the people of the heavenly palace will not be much better and will die.

At that time, the pattern of the prehistoric universe will return to balance.

They have no alternative.

"How to do?"

In Lu Ming's mind, all kinds of thoughts were also rapidly turning, trying to find a way to get out.

But he found that there is no way.

The main reason is that the power gap is too large, and any method is futile.

There are the Primordial Relics in all directions. Even if they rush to the Heavenly Palace and surrounded by those metal puppets at any cost, they will not be able to escape the Primordial Relics.

Ok?

At this moment, Lu Ming was suddenly startled.

Before, the big bronze box where the human king's body was located flew into the center of his eyebrows and remained suspended in the sea of knowledge.

At this moment, the bronze box glowed, and unexpectedly rushed out of his sea of knowledge.

"The human king's body is about to fly away, is it going to fly to the immortal place?"

Lu Ming thought unwillingly.

In fact, he himself couldn't figure it out. It was obviously that Ye Immortal had won the victory, and why the human body would fly to him.

There are two speculations in his mind.

One is, maybe he is a human race.

The second is that the human king made a mistake in his physical body. He was originally going to fly to Ya Immortal, but he flew to him.

Could it be that now, the human body has made a mistake and wants to fly to the immortality.

Although Lu Ming was unwilling, he was helpless.

However, it turns out that Lu Ming thought a lot.

The bronze box did not fly to the immortality, but flew high into the sky, suddenly became bigger and became as big as a mountain, and then slammed into the metal mountain.

boom!

The bronze box slammed into the metal mountain peak, erupting with a terrifying roar.

Then, at the place where the bronze box collided with the mountain peak, a beam of light burst out. This beam of light pierced the high altitude and rushed towards the depths of the high altitude. Wherever it passed, the void collapsed and was torn apart forcibly.

They could see that the high part of the sky was also torn apart, a circular passage appeared, and they might even see the outside.

The eyes of Lu Ming and others lit up.

"Rush up, get out from above!"

"up!"

Lu Ming and the others yelled, rushing towards the upper wind frantically.

Thousands of people gathered together, attacking with all their strength, and constantly knocking away the metal puppets that were chasing away.

And the bronze box, after hitting the metal mountain peak, turned into a ray of light and flew back to Lu Ming, unimaginably fast, flying into the center of Lu Ming's forehead, and appearing in the sea of his knowledge.

"Chasing, don't let them run away!"

The people in Tiangong also roared and chased Lu Ming and the others. The strongest heavenly monarchs even took the time to attack the Heaven Extinguishing Army.

However, there are not many people chasing the temple from here.

Many masters of the Heavenly Palace rushed out of the other passages of the metal mountain peak before, and there was still some distance away from them.

Therefore, there are more masters on the side of the Heaven Extinguishing Army, and they joined hands to block the attack of the Heavenly Palace.

While resisting, while rushing towards the sky.

All the people on the scene are the existence of the Divine Master Realm, so fast, it will soon be approaching the gap in the sky.

"We also go from above!"

In the other direction of the metal mountain, the people of the Yaxian would naturally not miss such an opportunity and rush towards the sky.

In addition, the other masters in Tiangong rushed towards the sky.

...

Outside the halo world, the origin realm of the Celestial Extinguishing Army and the origin realm of the heavenly palace are constantly confronting each other, and their attention is all in the halo world, ready to respond at any time.

Suddenly, the halo world vibrated, and a beam of light rushed out of it, tearing the darkness, tearing the space, and forcibly punching a channel.

You can clearly hear the cry of killing inside, getting closer.

"They are coming out of this gap!"

The Origin Realm masters of the Heavenly Palace and the Exterminating Army suddenly became nervous, staring at the gap firmly.

They are guessing, which party has got the human body.

Or maybe, the human body is still scattered, and one party gets a little bit?

After a while...

Hh hh hh...

A large group of figures rushed out from the gap.

"It's them, those who destroy the heavenly army."

Those masters in Tiangong were taken aback for a moment, and then burst into murder.

"kill!"

Some of the origins of Tiangong were immediately attacked and launched a terrible attack, intending to kill Lu Ming and others.

However, the origin of the Celestial Extinguisher had already been twelve minutes away. As soon as the origin of the heavenly palace made a move, they also shot instantly, blocking the attack of the origin of the heavenly palace.

"Lu Ming, Lion, come here."

Feihuang's voice sounded.

Lu Ming and others flew towards Feihuang and the others quickly.

The origin of Tiangong didn't pursue it, because they didn't know that the human body fell on Lu Ming.

Soon, thousands of people from the Heaven Extinguishing Army flew out of the gap.

"There are about four thousand people left."

The many origins on the Exterminating Army's heart trembled, and their eyes showed sadness.

The gods who entered a full five thousand or so, when they came out, only about four thousand remained, a full one thousand or so, staying in the halo world forever, this is a huge loss.

Hope you can gain something!

The many origins of the Heaven Extinguishing Army thought in my heart.

When all the people from the Heaven Extinguishing Army flew out, then, the people from the Heavenly Palace also flew out from the gap.

The ones flying in the forefront are the four strongest heavenly monarchs, Ye Immortal, Ye Qiuxian and others.

"The human body has all fallen on Lu Ming. You all shot to kill Lu Ming and **** the human body."

Ye Immortal roared as soon as he flew out.

Chapter 4704: Lord of Heaven shot

what?

Hearing Ye Immortal's roar, whether it was the Heavenly Palace, the Heaven Extinguishing Army, or the source realm powerhouse of the Yaxian tribe, they were all stunned.

Because this is really beyond everyone's expectations.

All the human kings were physically in one person, and this person was actually Lu Ming.

"Shoot!"

Almost instantaneously, the origin of the heavenly palace reacted, filled with astonishing murderous intent, terrifying bursts of power, and violent energy, stirring the void of the universe and killing Lu Mingluming.

However, the origin of the Heaven Extinguishing Army did not slow down at all.

They knew that after Lu Ming got all the human king flesh, his first reaction was to protect Lu Ming, and he would also protect Lu Ming when he died.

Keeping Lu Ming means saving the human king's body, which means saving hope, annihilating the hope of Heaven in the future.

Therefore, when the origin of the heavenly palace made a move, the strong of the origin realm on the extinction army also made an instant shot.

Dozens of attacks roared out, colliding with the attack of the Heavenly Palace Origin, erupting with a shaking roar.

Regardless of whether it is an exterminating army or a heavenly palace, each side has dozens of origins.

With so many sources shooting together, the scene is terrifying, the void is torn apart and turned into chaos and nothingness, terrible energy is constantly surging, and finally cancels each other out.

In the end, the attacks on the Origin Realm of the Heavenly Palace were all blocked.

And Lu Ming and the others, very fast, successfully rushed behind Feihuang and the others.

"You destroy the heavenly army, you are not qualified to get the human body!"

"Encounter the flesh of the king, no matter who it is, you must die, kill!"

The origin of Tiangong roared and madly killed it.

"I'm afraid you won't succeed and kill him."

The third magic sword shouted.

"Block them!"

Tang Jian roared.

Xinghuo Yuanzun, Liu Minyuanzun and so on, all the origins of the Heaven Extinguishing Army in the Qianqiu Battlefield have arrived. In addition, there have also been many origins from other places, adding up to more than 30 people.

They greeted the origin of the heavenly palace, caught each other, and launched a fierce battle.

In an instant, a terrifying battle broke out.

The existence of Lu Ming and other Divine Master Realms kept retreating, retreating towards the distance.

The battle of the Origin Realm is too terrible, it is not something that the **** master can intervene. Even if the distance is close, it is very dangerous, and the distance must be widened.

The same goes for the God Lord over there.

At this time, the **** master of the heavenly palace, as well as the **** master of the Yaxian tribe, all flew out from the gap.

The gap began to shrink slowly.

"My son, did the human body really fall into Lu Ming's hands?"

An old man from the Origin Realm of the Yaxian clan asked in a low voice beside Cang Qiong.

"Yes, it really fell in Lu Ming's hands."

Sky nodded.

"It actually fell in Lu Ming's hands, so shall we make a move?"

The Yaxian old man said.

"No, we just look at it. If we take action and defeat the Heavenly Destruction Army, then the Heavenly Palace will target us."

"If we don't take action, letting them hurt both sides will be better for us. Anyway, it is better for the human body to fall into the hands of the Heaven Exterminator than to fall into the hands of the Heavenly Palace."

Sky Road.

The Yaxian people did not intervene, but withdrew far away, watching from a distance.

The war of origin is getting more and more intense.

Huh!

Suddenly, a purple glow flashed, as if breaking through the entire void, and killing towards the place where Lu Ming was.

"This is... the Lord of Heavenly Palace!"

Lu Ming's heart trembled suddenly.

This person who shot is the master of the Ziwei Palace.

The Lord of Heaven's action is really terrifying. Whether it is Lu Ming or Lion and others, they feel that the void around them is frozen. Even time seems to be frozen. They can't move even if they breathe. stopped.

Unable to resist, the gap is too big.

At this moment, a figure appeared in front of Lu Ming and the others.

It's Feihuang!

Seeing Feihuang waved his hand, dozens of black round beads flew out, and then burst into pieces.

After each black ball burst into pieces, dozens of figures flew out, all of them Feihuang's figures.

Dozens of black round beads flew out of more than five hundred flying phoenix figures, all of which were soul incarnations.

With so many soul incarnations, slapped a palm at the same time. Hundreds of heavenly demon palm prints fused together to form a huge palm print, blasting towards the Lord of the Ziwei Heavenly Palace.

boom!

The palm print made by Feihuang collided with the attack of the Lord of the Ziwei Heavenly Palace. The brilliant glow flooded the surrounding void, and the space was torn apart and turned into chaos.

However, the stalemate only lasted for a few breaths, and the palm prints that Feihuang shook violently, and the final touch exploded, turning into energy dissipation.

The terrifying force continued to rush towards Feihuang. Feihuang's expression changed slightly. Hundreds of figures gathered together and turned into one figure. A jade hand stretched out and pressed, and once again collided with the attack of the Lord of Ziwei Heavenly Palace. As a result, That

is, Feihuang's body retreated back and forth again and again, the original solid body kept flickering, and the light dimmed a lot.

"Feihuang, if your true body is here, this seat is still a little bit afraid of you, but unfortunately, your true body is not there at all. There are only a few million demon incarnations. How can you stop me?"

The lord of the crape myrtle palace sneered, the power of the source was running, and the whole body was enveloped by purple glow.

"The Zijin Heaven Seal!"

The Lord of Ziwei gave a soft drink, and pressed his hands continuously. In the sky, a large purple-gold seal was formed, and it went toward the suppression of Feihuang. Wherever it passed, the void turned into chaos and nothingness, and the power was terrifying to the point of incredible.

Strong, too strong!

This kind of power surpasses any master Lu Ming has encountered, and is much stronger than Tang Jian.

Lu Ming felt that he only needed a trace of energy to beat him to ashes without the slightest accident.

"The Immeasurable Devil Sword!"

Feihuang drank low, a powerful breath pierced through the world, and a dark magic sword emerged, piercing the clouds and colliding with the purple and gold sky seal.

boom!

A shocking roar erupted, and violent energy swept all directions. Then, Feihuang's immeasurable Heavenly Demon Sword shook violently, and the purple energy swept down, causing Feihuang to continue to retreat, his face pale, and the light on his body became even more dim.

Just as God Ziwei said, Feihuang's true body is not here, but just a few hundred 'incarnations of ten thousand demons', which is not the opponent of God Ziwei.

The God of Ziwei had already stood at the pinnacle of the Origin Realm. In the Origin Realm, no one could compare with it.

"Feihuang, you will destroy these ten thousand demons today, and in the future, you will destroy your real body again, kill!"

The crape myrtle **** screamed, and the light of the purple gold sky seal was even brighter, and the dazzling purple light enveloped half of the sky.

If it were in the primordial universe, the purple light could envelop the entire galaxy.

Feihuang tried his best to fight, but was still not an opponent, retreating while fighting.

Mainly, she also had to protect Lu Ming and the others, sharing some thoughts, not to mention the opponent of the Ziwei God.

Chapter 4705: First day sword

"How can I help Senior Feihuang?"

Lu Ming's thoughts changed sharply.

If this continues, Feihuang will soon lose, he wants to do something.

However, with his cultivation base, he couldn't intervene at all, the gap was too big, and it was only a dead end if he was swept by a ray of energy.

"By the way, the human body..."

Suddenly, Lu Ming thought of the human body, his eyes lit up.

At the beginning, there was only one human king's right arm, able to display the combat power of the ordinary origin realm.

Now that the limbs, head, and torso of the King of Humanity are all gathered together, can it explode even more powerful?

But the bronze box said that the human king's body was gathered, and it could traverse the ages and be invincible in the universe.

His mind immediately entered the Sea of Consciousness. In the Sea of Consciousness, he opened the big bronze box. The human body was lying quietly in the box.

"Communicate, inspire..."

Lu Ming immediately began to act, trying to communicate with the human body, so as to stimulate the power of the human body.

However, nothing happened.

The human body was still lying motionless in the bronze box.

carry on...

Still nothing happened.

Lu Ming tried several times and the results were the same.

"You don't have to try, it's useless. With your cultivation base, it is impossible to stimulate the power of the human king's flesh."

At this moment, the bronze box glowed, and a sentence appeared on it.

"Can't arouse the power of the human king's body? Before that, I could stimulate the human king's arm?"

Lu Ming asked back.

"You also said that it is just an arm of the King of Humans. The power is scattered and weak, so you can stimulate a trace of strength, but now the human body is almost fit, and the strength is solidified. With your strength, it can't be stimulated at all. The difference is too big. Far."

The bronze box continued to answer.

"Nest, I didn't say it earlier. It would be more useless to say that I would get more flesh of the King of Humans. Then you said earlier that if you get the flesh of a complete King of Humans, you will be able to traverse the eternity and level the heaven. Can't be excited, how can I step down?"

Lu Ming said very upset.

"That's because you still have one core missing."

"The heart of the human body is the real core of the human body, and it is also the source of strength. Once the human body is obtained, the human body will be fully integrated. There is no need for you to stimulate it. You only need to control the human body to easily stimulate With all the power of the human king's flesh, it's easy to step down in the district heaven."

The bronze box said again.

"That's it!"

Lu Ming's heart moved, then his eyes flickered, and he stared at the bronze box and said, "Who are you? There are six on the front and back of the bronze box. Each bronze box should have a sage. Which box are you?"

"Six boxes merge, and intelligence naturally merges too!"

A word emerged from the bronze box, and then no more words.

At this moment, Feihuang has become precarious.

"Feihuang, you can't stop me, kill me."

The crape myrtle **** screamed.

"Then I will stop you!"

At this time, a cold voice came.

Hearing the voice, it was the voice of a woman. Before the voice fell, the void split spontaneously, and a sword light flashed out and slashed towards the crape myrtle god. The speed and the amazing power reached an incredible place.

The pupils of the Lord Ziwei suddenly contracted, not daring to be careless, his figure violently retreated, and then shot out with a palm print of purple gold, colliding with the sword light.

His Zijin Heaven Seal can be turned into a large seal or a palm seal, changing as you wish.

With a bang, the sword light was blocked, but the purple-gold palm print also shattered, and the figure of the Ziwei God retreated sharply.

In the cracked void, a figure stepped out.

This is a woman, wearing a white swordsman robe, perfectly outlines the graceful figure.

She carried a long sword behind her back, her long hair combed into a ponytail, full of vigor.

"It's Senior Sister Sword on the first day."

Seeing this woman, Tang Jun exclaimed in excitement.

"It turns out to be the great disciple of Jianzu, the first day sword!"

Lu Ming was also moved in his heart, very surprised. He didn't expect the first day sword to be a woman.

It's just that the appearance of the sword on the first day looked a little strange. Her long hair was golden yellow, and her hair looked very similar to that of the Celestial Race.

"It's you traitor!"

After seeing this woman, God Ziwei screamed.

"Hmph, I am no longer a member of the Celestial Race. Sooner or later, I will cut off half of the Celestial Race's blood."

On the first day, Jian spoke indifferently, and while speaking, he stepped out and walked towards God of Ziwei.

With each step, it is a distance of hundreds of millions of miles. At the same time, the aura on her body is getting stronger and stronger to the extreme.

The long sword behind her vibrated and buzzed endlessly, as if it was about to fly out at any time, exploding with a shocking blow.

"Aunt Feihuang, leave it to me here!"

On the first day of kendo, as soon as the voice fell, with a bang, the long sword behind her was unsheathed and turned into a sky-shattering sword light, which stretched for hundreds of millions of miles and slashed towards the Lord of Ziwei.

"The Zijin Heaven Seal!"

The God of Ziwei screamed, his eyebrows glowed, and there was a real big seal flying out.

This is a source-level magic weapon, and a top-level source-level magic weapon.

Huh!

The Zijin Great Seal flew high in the sky, spinning rapidly, bursting out countless divine lights, and slaying towards the first day sword.

However, the sword light of the sword on the first day was too sharp, and the purple divine light continued to shatter wherever it passed.

when!

In the end, Jianguang cut on the purple-golden big seal, bursting out with a deafening roar, and a terrifying vigor, swept all over. Some vigor fell on the continent of the Qianqiu Battlefield. I saw the continent of the Qianqiu Battlefield continue to explode and appear. There are huge pits.

Many of the powerful poisonous insects above have been killed directly.

Then, both of them drifted back.

"You traitor, your strength has reached such a level. If you knew this before, you should be wiped out and killed you completely."

God Ziwei spoke coldly, his eyes were extremely cold, and he was shocked.

He didn't expect that the strength of the first day sword would reach such a level, not weaker than him.

"It's too late to regret now. You have no chance. Sooner or later, I will calm down the Celestial Race..."

On the first day, the sword roared, the sword light burst out, and the sky was full of sword energy, killing the **** of Ziwei.

The **** of Ziwei was fearless, fighting with the sword of the first day. For a time, the two of them fought madly, and it was difficult to distinguish the outcome.

"The First Heaven Sword, really is the Celestial Race?"

Among the crowd, Lu Ming asked Tang Jun.

"Yes!"

Tang Jun nodded, and then said: "Not all, the first senior sister is a mixed race, her mother is a Celestial race, and her father is a Human race."

"However, the Celestial race takes blood very seriously, and it absolutely does not allow the Celestial race to marry other races, thinking that it desecrates the noble blood of the Celestial race, so after the incident, the first senior sister's mother, her father, and others The clansmen were all annihilated by the Celestial Clan."

Chapter 4706: Four gods

That's it!

Lu Ming understood. No wonder the first day sword looked so much like the Celestial Race. It turned out that he had half of the Celestial Race's blood.

At the same time, the experience of the sword on the first day also made people sigh.

"Later, my dad rescued the first senior sister and accepted her as a disciple. The first senior sister showed a rare talent in the world, coupled with her practice and hard work, her strength has always been the highest among my father's younger generations, but she has not Thinking of not seeing her for so many years, her strength is already comparable to the Lord of Heaven."

Tang Jun continued.

Lu Ming didn't speak, he thought of more.

The strength of the sword on the first day was comparable to that of the Lord of Heaven, while the strength of the Taboo Sword Ancestor Tang Feng was definitely higher than that of the first Heavenly Sword, but he still could not destroy the Heavenly Palace.

Doesn't it mean that the Lord of the Heavenly Palace is not the strongest combat power in the Celestial Race?

On the first day, the battle between Sword and Ziwei God was extremely fierce. In a blink of an eye, they fought hundreds of moves, and there was no victory or defeat.

boom!

Suddenly, an extremely distant void burst out with a terrifying roar, and the void turned into chaos, causing fluctuations that were not smaller than those caused by the first day sword and the crape myrtle god.

Then, there was a few more roars, and the void was torn into huge cracks.

Through the cracks, two figures can be seen fighting fiercely.

A figure was an old man wearing a gray robe.

And the other figure was a burly man of the Celestial Race, extremely majestic, and full of destructive power to destroy the universe.

That is the Lord of Hongmeng Heavenly Palace!

Before entering the halo world, the masters of the four heavenly palaces had all come together, and Feihuang had secretly introduced Lu Ming to him, so Lu Ming recognized each other when he saw it.

That old man was able to confront Hongmeng God, and he was on par, which really shocked Lu Ming.

"That predecessor used to be a Dharma King of the Great Ancient God's Court, his name is the King of Heaven!"

Tang Jun explained.

"It turned out to be from the Great Ancient God Court."

Lu Ming was even more shocked.

The Great Ancient Divine Court at the time deserved to be able to wrestle with the Heavenly Palace. It was just a Dharma King who could actually fight fiercely with a Heavenly Palace Lord.

How many Dharma kings are there in the Great Ancient God's Court?

"Lord Qiankun, the ancient **** court was destroyed back then. You were lucky enough to not die, and you didn't obediently hide your head as a tortoise. You actually dared to be the enemy of my celestial race twice, and you will be completely destroyed today."

The God of Hongmeng roared, he brought a pair of full sets with both fists, as the top source-level magic weapon, blasted out with both fists, and played with boundless force.

But the Emperor Qiankun had no fear, and laughed: "Only you, it's still a long way away. Your superior God can't kill me."

The King Qiankun also launched a powerful attack to block the Hongmeng God.

The two obviously exist at the same level, and it is difficult to tell the winner.

Wow!

Suddenly, above Lu Ming and their heads, the void exploded, and a big hand grabbed Lu Ming and them.

The big hand covered the sky and the sun, covering hundreds of millions of miles, covering Lu Ming and the others, and grabbing them.

This time, Feihuang didn't do anything.

Because beside Feihuang, a figure appeared silently.

This is a middle-aged man with a burly figure and wearing a black armor. Strangely, he sits on a round ball.

"This is... the mother star of the Dragon Race, senior Ao Qian..."

Lu Ming's heart moved.

He recognized at a glance that the big man in black armor in front of him was the world-destroying black dragon Ao Qian, the number one master of the dragon clan.

The orb he sits on is clearly the home star of the Dragon Race.

The huge dragon family home star actually turned into a tank the size of a water tank, sitting underneath by Ao shallow, really mysterious.

Roar!

Ao Qian let out a loud roar, his body glowing, and the majestic energy turned into a black dragon and rushed out. The dragon claws were continuously grabbed, tearing the giant hand in the sky apart.

In the sky, a figure appeared.

This figure, dressed in a white robe and fluttering robes, stands high in the sky, full of endless majesty.

It is the lord of Shenji Tiangong!

"Ao Qian, is your cultivation level restored?"

The lord of Shenji Tiangong saw Ao Qian, his eyes were shocked.

"Even if you haven't fully recovered, it's more than enough to deal with you."

Ao lightly smiled.

"Hmph, Ao Qian, don't play mystery here. You were injured so badly that you almost died. How can you fully recover? I don't believe it. Let me see. You have recovered a bit of strength."

The lord of Shenji Tiangong coldly snorted and started directly.

He grabbed the empty palm of his hand, and a huge stone disk emerged.

The stone plate looks very old, covered with traces of time.

However, with the manipulation of the divine machine god, the stone disk seemed to be revived, emitting endless light, and countless runes diffused out, intertwined, forming a huge figure of the human race.

These human figures are all condensed by runes, but the aura they exude is extremely terrifying.

"Is it a stone plate of heroic spirits? Legend has it that the heroic spirits of countless powerful people in the history of the inhabitants of the Celestial Race, I want to see how powerful they are!"

Ao Qian sneered and roared, leaving the dragon family star, soaring into the sky. In the process of rushing out, a spear appeared in his palm. The spear vibrated and pierced out. There was a deafening sound between the sky and the earth. The dragon chants.

Suddenly, there were tens of thousands of dragons roaring, shaking the sky.

From Ao Qian's long spear, tens of thousands of dragons flew out, fighting with those celestial and human figures.

Boom boom boom!

The world boiled completely, and tens of thousands of collisions erupted continuously.

The next moment, Ao Qian confronted the main body of the God of God, and made a right move, and both retreated, but they were equally divided.

"Your combat power..."

Shenji God looked at Ao Qian in shock.

In the First World War, Ao Qian's injuries were obviously not enough.

When the dragon family star had just recovered, Ao Qian's combat power was far inferior to what it is now. How many years have passed since now, how could Ao Qian's combat power have returned to such a strong level?

Could it be that the Celestial Extinguishing Army obtained an incredible treasure in the ruins of the universe, which accelerated the recovery of Ao Qian's injuries?

There is only this possibility.

"I said, even if my combat power is not fully recovered, it will be more than enough to deal with you. If I were in his heyday, like you, I would kill you with one move."

Ao Qian screamed, holding a dragon spear and slammed to the **** of miracle, and started a fierce battle with the **** of miracle.

But at this time, not far from Lu Ming and the others, another figure appeared.

"Dream God!"

Lu Ming's pupils shrank.

The four gods are all here.

However, the Dream God did not attack Lu Ming and the others, but looked at a void in the distance.

"Who is it? You've been locking me down before, come out, why hide your head and show your tail."

The lord of the dream palace said coldly.

"Hey hey, little guy, when it comes to grades, I'm your senior, can't I be better about your seniors?"

A cold and quiet voice sounded, as if the cold wind blowing from Jiuyou Purgatory, people shuddered involuntarily.

Chapter 4707: Accomplishment

After the cold and faint voice sounded, then there was waves in the void, and a figure appeared silently.

This is an old man who looks very old, skinny and skinny, wearing a **** robe, full of black air, and looks very gloomy.

"Tianyin leader, it's you, you didn't die."

When Dreaming Tianjun saw the leader of Tianyin, he was taken aback, and his voice went high.

"The old man has a big fate, and luckily he didn't die. After so many years, the old man's cultivation has returned to the top, and I have to settle this account with you."

The Lord of Tianyin opened his mouth gloomily, and suddenly it turned into a burst of black smoke and dissipated. Immediately, that area was completely enveloped by the black mist, and the black mist continued to grow larger, and diffused towards the dream god.

"Hmph, it was able to destroy your Tianyin Sect in the past, and it can also destroy you today."

Dreaming God snorted coldly, an invisible energy permeated her body, colliding with the black mist, sending out a grotesque figure.

The two confronted each other in the air, seemingly normal, but extremely dangerous.

"Tianyin Sect, is that great teacher in the long past?"

Lu Ming whispered.

He once saw the introduction from the classics. In the long past, a powerful sect called Tianyin Sect appeared in the prehistoric universe.

At its peak, Tianyin Sect was very powerful, occupying one side of the universe and becoming the overlord of one side. The strength was not weaker than the top ten races at that time.

However, it was eventually destroyed. Legend has it that the Tianyin Sect was destroyed by the Tiangong, and the Tianyin leader also died in the hands of a Tiangong master.

But I didn't expect that Tianyin leader was still alive and joined the Heaven Extinguishing Army.

At the same time, Lu Ming was also amazed.

The strength of the Heaven Extinguishing Army is truly unfathomable. It has gathered all the enemies of the Heavenly Palace in history, and the masters are like clouds. Even the masters of the Four Heavenly Palaces will all be blocked.

"Everyone is listening, they all enter the dragon home star and leave together in a moment."

Feihuang's voice rang in the ears of Lu Ming and others.

"go!"

Lu Ming, Tang Jun and the others didn't hesitate, and rushed to the dragon home star.

The dragon family star seemed to be only the size of a water tank. When Lu Ming and others approached the dragon family star, their bodies shrank rapidly, and finally, like a dust, flew into the dragon family star and disappeared.

Soon, the 4,000 or so divine masters of the Heaven Extinguishing Army all entered the Dragon Family's home star.

This, of course, includes everyone on the Qianqiu Battlefield.

On the Qianqiu battlefield, the Heaven Extinguishing Army had no plans to take it, but planned to evacuate all of them.

After everyone entered the Dragon Family Star, Ao Qian flew back and continued to sit on the Dragon Family Star.

"Don't want to go!"

Divine Machine God killed him.

"Who is leaving, fight again!"

Ao Qian stood on the dragon parent star, as one body with the dragon parent star. The power of the dragon parent star continuously poured into his body, pierced with a shot, and the sky-shaking spear burst out, blocking the divine machine god.

At this moment, the war has become fierce.

But in general, the two sides are stuck in a stalemate, and it is difficult to tell the winner for a while.

In terms of the number of origin realms, the Heaven Extinguishing Army side is a bit less, but it is obvious that the origin of the Heaven Extinguishing Army side is stronger, with less battles and more battles, without losing the slightest.

At this time, the origin of the Heaven Extinguishing Army began to retreat while fighting, slowly gathering together.

"They want to retreat and stop them!"

Yeah immortal yelling.

The origin of the heavenly palace, frantically rushed to kill, wanting to leave the origin of annihilating the heavenly army.

However, the strength of the Heavenly Palace does not occupy the upper hand, and it is difficult to truly stop the army from retreating.

Soon, the dozens of origins of the Heaven Extinguishing Army gathered together and quickly retreated in one direction.

Hum!

Suddenly, the void over there was sharply distorted, and then a huge wormhole appeared.

Around the wormhole, there are a few original powerhouses of the time and space spirit rat family.

The origin of the Time and Space Spirit Rats has not participated in the war before, but has been preparing secretly in order to open the wormhole.

"Feihuang, take the dragon home star and retreat first!"

Ao Qian spoke, and the dragon parent star flew towards Feihuang.

Feihuang's palm grabbed it, and the Dragon Race's mother star continued to shrink, shrinking to the size of a round bead, and Feihuang's hand was grasped.

Feihuang didn't hesitate, turned around and stepped out, and his figure rushed into the wormhole.

"Damn it!"

"Don't let Lu Ming go!"

The source of the Heavenly Palace roared, trying to rush to stop, but it was useless, it was too late, and could only watch Feihuang's figure disappear into the wormhole.

"You guys go back too, here, leave it to us!"

Ao Qian spoke, facing Tang Jian's origins.

Tang Jian, the Third Demon Sword and others, kept retreating, retreating to the vicinity of the wormhole.

And Ao Qian, the four masters of the First Heaven Sword, the King of Universe, and the Master of Tianyin, also narrowed the scope and slowly approached the wormhole.

As the four of them approached, a barrier was vaguely formed, and the other origins of Tiangong were blocked from the barrier, allowing Tang Jian and the others to find a gap.

"go!"

Tang Jian and other dozens of origins flashed, and they entered the wormhole one after another, along the wormhole, quickly heading towards the station of the Exterminating Army.

After these origins left, the origins of several time and ethereal rats also entered the wormhole. Then, the wormhole collapsed and disappeared quickly.

Only Ao Qian, the First Heaven Sword, the King of Heaven and the Lord of Heaven and the Lord of Tianyin were left in this void.

The four of them are responsible for the post-break.

Without them, it is difficult for others to leave.

The four of them were strong enough. Although several gods and other origins launched crazy attacks, they were all blocked one by one.

"Retreat!"

Seeing that the people of the Exterminating Army had retreated, Ao Qian gave a soft sigh.

The four masters flickered, and the void collapsed, they flee to the distance.

Although the masters of Tiangong tried their best to stop them, it was difficult to stop these four masters.

Ao Qian, the First Heavenly Sword, the King of Universe and the Lord of Tianyin, each of them is not weaker than a god. The other origins of the Tiangong face them, and their strength is much worse. They want to go, they are difficult to stop .

"No need to chase!"

The origin of Tiangong wanted to pursue it, but was blocked by a figure, it was Ye Immortal who spoke.

Ye Immortal's face was gloomy, looking into the distance, his eyes flickering, not knowing what he was thinking.

"Immortal son, sorry, but the other party ran away."

God Ziwei appeared beside Ye Immortal, bowed his head and said, feeling a little nervous, afraid that the strongest ancestor in the history of the Celestial Race would blame him.

"This time, I don't blame you. I made a mistake and underestimated Lu Ming."

Ye Immortal spoke with a cold voice.

This time, he underestimated Lu Ming. He didn't expect that the human body would fall into Lu Ming's hands.

At the same time, the Heaven Extinguishing Army side was fully prepared, so when Lu Ming got out of the human body, the origin of the Heaven Extinguishing Army side was blocked in an orderly manner.

And the masters of the Time and Space Spirit Mouse Clan had obviously been in action long ago, and had already been opening a wormhole, otherwise it would be impossible to open a wormhole so quickly.

He was too confident, so he made a mistake.

Chapter 4708: Can't excite

"Prince Immortal, do we now summon people to kill the rebels and defeat them in one fell swoop."

Hongmeng God Road.

"Are you sure?"

Ye Immortal asked coldly.

The God of Hongmeng has stopped speaking. If he is sure, he would have destroyed the Heavenly Army long ago. Should I wait for this time?

"The rebels retreated to their garrison and took advantage of the terrain. With our current strength, we can't help them in the past."

Ye immortal road.

"How about then?"

The **** of crape myrtle asked.

"Go and see how the Demon Ancestor Insect is being cultivated."

Ye Immortal Road, turned and walked away.

The eyes of the four gods lit up and they followed Ye Immortal.

The other masters of Tiangong also retreated one after another, leaving only a part of the people occupying the broken Qianqiu battlefield, continuing to dig out the treasures of the Qianqiu battlefield.

A secret place in the ruins of the universe, this place is always held by the masters of the four heavenly palaces, and this place is very secretive, the surrounding void, covered by heavy arrays, hides a continent in the void.

Ye Immortal and the four gods descend here, directly into the core.

"See the old man, see you Lords!"

An old man of the Celestial Race salutes the immortality of Yahweh and the Four Gods.

This old man of the Celestial Race is very advanced and profound, and he is also a source of origin.

"The Devil Ancestor Insect, how is your cultivation?"

Ye Immortal asked directly.

"The ancestors are here just right, and they have achieved results. I am ready to ask you."

After saying this, the old man of the Celestial Race patted his palms, and a few tall and burly figures stepped forward in a passage of the hall.

These figures are actually demons.

Moreover, they are all demons of the God Realm.

These demons, with dull expressions, stood blankly behind the old man of the Celestial Race.

"Success?"

Ye Immortal and the four gods, their eyes are bright.

"After many transformations and evolutions, the Demon Ancestor Insect was initially considered successful. These Demon Lords were eroded by the Demon Ancestor Insect and struggled for a hundred years. Finally, they were controlled by the Demon Ancestor Insect and completely obeyed our orders."

"However, it was only an initial success, the Demon Ancestor Worm has not yet reached its perfect form."

The old man said.

"How long does it take to achieve perfect form?"

Ye immortal asked.

"The shortest one is a million years, and the longest one stellar year is bound to succeed."

The old man of the Celestial Race looked confident.

"Can't wait that long, we must act now to throw the Devil Ancestor Worm into the dark universe to deal with the devil..."

Ye immortal road.

The short is a million years, and the long is a sidereal year. If it is normal, this time is not long, he can afford it.

But not now.

The limbs, head and torso of the human king fell into the hands of the Exterminating Army.

As long as the Heaven Extinguishing Army gets the Human King's heart again, their heavenly palace will be over.

For more than a million years, who knows if the Heaven Extinguishing Army will find the human king's heart, he can't wait for such a long time.

"Ancestor, act now, I'm afraid there will be changes!"

The old man said.

"The Demon Ancestor Insect, can it affect the origin of the devil?"

Ye Immortal asked.

"That's certainly possible. Over time, even if it is the origin of the devil, it will be controlled by the Demon Ancestor Insect. The Demon Ancestor Insect, but they are developed from the corpses of their demon ancestors, and the Demon Origin cannot be supported."

The old man said.

"That's fine, it doesn't matter if you can't completely control the origin of the devil, as long as you can affect them for a period of time and can't shoot. At that time, we can gather all the power, enough to destroy the traitor, let's start!"

Ye Immortal ordered that instead of cutting gold and iron, there is no doubt.

"Yes!"

The elders of the Celestial Race, and the four Lords of Heaven led the orders in unison.

...

On the other side, Lu Ming and others passed through the wormhole and directly returned to the station of the Exterminating Army.

Returning to the resident of the Heaven Extinguishing Army, Feihuang released all the people in the Dragon Family's home star.

Soon after, the existence of Tang Jian, the Third Demon Sword and other origin realms also returned here.

After a while, Ao Qian, the First Heaven Sword, the Lord Qiankun, and the leader of Tianyin also returned here one after another.

Everyone showed joy. This trip was a complete success. Although the existence of the Divine Master Realm had lost nearly one thousand, it was worthwhile to obtain the human body.

Immediately afterwards, everyone's eyes turned to Lu Ming, with expectations in their eyes.

Including those four peerless strong men who can fight against God.

"Lu Ming, the human body is really on you? Show it out."

Feihuangdao, eyes full of expectation.

Ok!

Lu Ming nodded, and with a thought, the big bronze box in the sea of knowledge flew out and fell to the ground.

Lu Ming waved his hand, and a force flew out and opened the bronze box.

Inside, a human king's body that looked intact was lying quietly in the box.

Everyone's eyes lit up, and their breathing became heavy.

Even the existence of Origin Realm is no exception.

This is the flesh body of the King of Humanity, and it is known as the flesh body of the King of Humanity that can cut through the ages and level everything after being controlled, possessing unimaginable power.

It's hard for them not to be excited.

"Lu Ming, the human body may be manipulated?"

Feihuang asked.

"No!"

Lu Ming shook his head and sighed.

"No?"

Many people were taken aback.

How could it be so?

"I tried it before. This bronze box reminded me that the human king's limbs, head, and torso are fused, and the strength is too strong to stimulate the power inside. The only way to find the human king's heart is to make the king's body complete. Only then can the original power of the human king's body be brought into play."

Lu Ming explained.

"It is so."

Many people showed disappointment.

In this way, before the human king's heart was obtained, the human king's body was useless.

"Senior Feihuang, maybe you can try, my cultivation base is too low."

Lu Ming said.

"Okay, I'll try it!"

Fei Huang nodded, and came to the vicinity of the human king's body, using the taboo power to penetrate into the human king's body, but after a while, the human king's body did not react at all.

Feihuang tried again, but there was still no response.

"Unfortunately, my true body is not here. What I have now is only my incarnation of ten thousand demons. I can't do my best, and it's difficult to inspire the power of the human body."

Feihuang shook his head and sighed.

"I'll try!"

A clear voice sounded, and the one who spoke was the First Heaven Sword.

On the first day, the sword was outstanding, and in terms of temperament and appearance, he was not inferior to Feihuang, because half of the blood of the celestial race had a unique temperament.

She came to the human body and infiltrated a force.

The power she controls is naturally no small thing if she can reach the strength of the first day sword, but unfortunately, she still can't stimulate the power of the human king's body.

Then, Ao Qian, King Qiankun, and Master Tianyin went up and tried one by one, but they were all useless. The human body didn't respond.

This made everyone sigh.

Chapter 4709: Lost

Everyone sighed, and they obviously got the limbs, head, and torso of the human body, but they couldn't use it. It was really uncomfortable.

"The king of the last epoch, the merits of good fortune are no longer what I can expect. The physical body he left behind contains too strong power. When I tried just now, I only felt that the power inside was as difficult as the ocean. Presumably, it seems that only by getting the King's heart and making the King's body completely perfect can the power of the King's body be stimulated."

Feihuangdao.

"Now that the human king's body is in our hands, Tiangong will definitely not give up. They will probably go crazy and concentrate their efforts to deal with us. They must be prevented."

Kendo on the first day.

"Heavenly Sword, what you said is right. If the four heavenly palaces come out from the nest, we may not be able to withstand the attack from the heavenly palace alone by relying on us. So in the future, we will combine the three major stations into one and gather all the strengths. Resist the offensive of Destruction Temple."

Feihuangdao.

Everyone nodded, and the only thing that happened now is that.

"Maybe Tiangong will start the offensive, so we have to prepare immediately, everyone of the world's turtles, and other people who are proficient in rune formations, now I have to trouble you, and arrange and perfect the formations around the station."

Feihuang's gaze looked at the world's turtles who were strong in the original realm.

There are many arrays around the resident, but just in case, it still needs to be improved.

"Don't worry, leave it to us."

Several origins of the world's turtle clan, as well as other masters who are proficient in formation, flashed and left here.

"The rest of you, during the next period of time, we must fully familiarize ourselves with various formations. I am afraid that we will face a big battle soon."

Feihuangdao.

"Yes!"

Everyone nodded.

"Aunt Feihuang, the heart of the king can't give up, you have to send someone to look for it."

Tang Jian suggested.

"You are right. The heart of the King of Humans is the key to everything. People must be scattered in the ruins of the universe to search for it in secret."

Feihuang nodded, and then arranged everything in order.

The Emperor Qiankun, the leader of Tianyin, are both giants and hegemony of the prehistoric universe, but they have no objection to Feihuang's instructions.

Soon, everything was arranged.

"Lu Ming, the human body, put it away first."

Feihuangdao.

"Senior Feihuang, how about putting the human body with you temporarily?"

Lu Ming said.

Feihuang was taken aback for a while, and then smiled: "You fellow, you are cunning, well, the human body, I will keep it for you first."

After Feihuang finished speaking, he waved his hand and put away the human body.

Lu Ming did this naturally for a purpose.

First, his cultivation base is too low. It is too unsafe to put treasures like the human body on him. Putting it on Feihuang is absolutely foolproof.

Second, now the human body is a hot potato, and when you bring it on him, the people of the heavenly palace will definitely stare at him. It can be said that carrying the human body is very dangerous, and his cultivation level cannot handle it.

Putting it on Feihuang Huang is the best choice for him or for the human body.

So many people watched and believed that the news that the King of Human Body was not on his body would soon spread.

Subsequently, everyone on the scene dispersed and began to arrange.

Soon after...

Rumble!

Tens of continents in this area of the Extinguishing Army shook rumblingly. This was because dozens of continents began to move.

The Origin Realm's existence took action, pushing dozens of continents and flying toward the depths of the ruins of the universe.

The Heaven Extinguishing Army is in the ruins of the universe, and there are a total of three locations, and the other two are located deeper in the ruins of the universe.

The location Lu Ming often stayed at was on the periphery of the cosmic ruins, and now he was about to fly to the depths of the cosmic ruins to join another resident.

Most people have tasks, but Lu Ming doesn't.

Lu Ming is in an extremely fast ascent period, and Feihuang's main task for Lu Ming is to cultivate and improve his cultivation.

In a blink of an eye, half a month passed.

Over the past half month, Lu Ming has been trying to cultivate, but the results have been trivial.

Because his heart is a little confused.

As long as he cultivates, he will think of Ye Immortal and of that defeat.

Since he embarked on the path of cultivation, he was defeated for the first time in a battle of his peers, and the difference in strength between the two sides is still very large.

This was a huge blow to him, and his belief in invincibility was severely impacted.

His heart is difficult to calm down.

"Why is Ye Immortal's combat power so powerful? It's much stronger than Ye Qiuxian, especially his trick, which is too powerful, far surpassing my earth-breaking and prehistoric style..."

Lu Ming kept thinking about it.

He created the Heaven Breaking and Primal Secret Art based on more than 1,800 great ancient mysteries and tens of thousands of common mysteries. The power is very amazing, most suitable for his own use, and far more powerful than other secret arts. .

But compared with Ye Immortal's trick, there is still a big gap.

Among the Celestial Race, such a terrifying Tianjiao appeared.

"Lu Ming, victory or defeat is a common matter in the military. You don't need to be worried about a failure and delay your own practice. The more frustration you get, the stronger you get to the top."

Lu Ming comforted himself like this.

Unfortunately, his heart is still difficult to calm down, and he feels a bit lost and can't find his way.

He couldn't find the direction to defeat Ye Immortal. Even if he kept practicing like this, his cultivation level would continue to improve, but Ye Immortal would also increase. In a battle at the same level, he was still not Ye Immortal's opponent.

Hey!

Lu Ming sighed, simply finished his cultivation, stepped out, walked in the sky, and finally landed on a mountain, sat on the edge of a cliff on the mountain, took out a pot of wine and drank.

Soon after, a ray of light flew towards Lu Ming, and Lu Ming grabbed it. It turned out to be a sound transmission jade talisman.

"Senior Feihuang looking for me?"

Lu Ming was taken aback for a moment, then got up and walked towards the place where Feihuang lived.

In the place where Feihuang lived, he saw Feihuang.

"Sit!"

Feihuang sat at a stone table and waved his hand to let Lu Ming sit down.

Lu Ming sat down after hearing the words.

"Drink tea!"

Feihuang smiled and poured a cup of tea for Lu Ming.

Lu Ming took a sip from his teacup, and suddenly felt a refreshing sensation permeating his whole body, even permeating his soul, and calmed his originally agitated heart.

"Good tea!"

Lu Ming couldn't help but praised.

"Lu Ming, have you been upset recently and have difficulty practicing quietly?"

Feihuang also took a sip from the teacup, then smiled.

"Senior found it."

Lu Ming smiled awkwardly.

"Because of being defeated by Ya Immortal?"

Feihuang asked.

"Yes, Ye Immortal is too strong. I can't find a way to defeat him in the same level battle..."

Lu Ming didn't hide it, and told the truth.

Chapter 4710: Ways to defeat the immortal

Feihuang smiled at Lu Ming, and said, "It's normal for you to be defeated by him."

"amount..."

Lu Ming was speechless, so Dare to Feihuang called him, specifically to hit him.

"At the time you fought with Ye Immortal, someone recorded it with a shadow stone. I have seen it. I have guessed that Ye Immortal's true identity."

Feihuangdao.

"Yeah's true identity? Does he have another identity?"

Lu Ming was taken aback.

"Of course, because Ye Immortal's trick is the Origin Art. You may not know the Origin Art very well. Let me tell you first."

"When a practitioner breaks through to the original source, he will condense the root of the source and control the power of the source. Of course, the source controlled by everyone has subtle differences, and the source technique is that the practitioner creates according to his own source of power. Create your own secret technique."

Feihuang explained.

"That's it!"

Lu Ming's heart moved.

Lu Ming had always been curious about what secret technique the practitioner would use when he reached the original state.

Because, the general secret technique, whether it is the great ancient secret technique, or the original secret technique learned from the original divine power factor, it is almost the end when it reaches the **** master realm, and it has been cultivated to the peak.

The original secret technique that was understood from the original divine power factor was originally entangled with shackles. At the peak of the **** master, these shackles were almost cut off, and the power of the secret technique reached its peak and could no longer be improved.

These secret techniques are a bit embarrassing for the existence of Origin Realm.

It turns out that the existence of the original source realm, according to the power of the original source controlled by oneself, will comprehend its own source art.

"Essence art cannot be inherited. It is created entirely based on the power of one's own origin. Even if you teach it to others, others cannot learn it. The origin art of each creature is unique."

"Therefore, Ye Immortal uses the Origin Technique, and I can judge his true identity at a glance."

Feihuang continued to explain.

Lu Ming didn't speak, waiting for Feihuang's following.

"Yeh Immortal's true identity is the first person in the history of the Celestial Race to control the power of the perfect sky, and the ancestor who is known as the number one powerhouse in the history of the Celestial Race."

Feihuang said seriously.

"what?"

Lu Ming's heart shook wildly.

This was really beyond his expectations. He never expected that Ye Immortal would have such an identity.

"No, the first ancestor in the history of the Celestial Race to control the power of the perfect sky. I don't know how old he is, but he is immortal and looks very young. According to the aura of his life source, it can be up to hundreds of thousands. Years old, is it... he is also a reincarnation..."

While talking, Lu Ming suddenly thought of something, and said in shock.

Since Tang Jun and Xie Nianqing can reincarnate, the others can and are normal.

"From the current point of view, this is indeed the case. I really didn't expect that in the Celestial Race, he actually gained a little reincarnation power, and he succeeded."

Feihuang whispered, her eyes full of surprise, showing that she was not very calm in her heart.

"No wonder, it's no wonder that guy controls his power so delicately, without a single bit of wasted. Even after a battle with me, he still didn't consume much and maintained a strong combat power."

Lu Ming had a thought in his heart.

"So I said, it is normal for you to be defeated by Ye Immortal. He can't be counted as your peer at all. He has lived for endless years, battle experience, control of power, and use of the power of perfect heaven. It's far from the pinnacle that Ye Qiuxian can compare."

"He just relied on his experience to be able to perform the Origin Spell in the First Heavy of the Divine Master. The Origin Spell is so powerful that you can't stop it, and it's normal."

Feihuangdao.

Lu Ming nodded, finally regaining some confidence.

It was not his peers who defeated him, but an old monster who had lived for so many years.

If he had lived for so many years, he would never lose to the opponent.

"So, you don't need to be discouraged. Ye Immortal just occupies the advantage of the Origin Art. After your cultivation base breaks through the Origin Realm, you will also understand your Origin Art. A battle at the same level may not necessarily defeat him."

Feihuangdao.

"Just won't lose to him?"

Lu Ming whispered.

This is not what he wants, what he wants is to defeat Ya Immortal.

"It is not impossible for you to defeat him in a battle at the same level. The power of taboo is endless, and your potential is far from being fully utilized."

Feihuangdao.

"Please also seniors for advice."

Lu Ming clasped his fists.

"It's really a fan of the authorities. It's actually very simple. The more the power of taboo, the more secrets you incorporate, the stronger the power. If you can incorporate more secrets, the stronger the power of taboo power will be. Isn't it normal to defeat Ye Immortal?"

Feihuangdao.

Lu Ming was overjoyed immediately, bowed and clasped his fists, "Thank you for your advice, senior."

"It seems you already understand, go!"

Feihuang waved.

Lu Ming picked up his teacup and drank it, then left in the air and returned to his place of residence.

The conversation with Feihuang completely unraveled his heart knot and was full of fighting spirit again.

"I want to improve my cultivation level. It is very difficult. I lack the Primordial Crystal. Even if the main magical medicine in my body is refined, it will be difficult to break through. It is better to increase the potential of Taboo Power first..."

"Also, my Zhanzi tactics have not been cultivated to the peak. When the Zhanzi tactics are cultivated to the peak, they should be able to explode nine times the combat power, but now it is only eight times. When I become successful, even if I have not reached the original stage, You can also fight Ye Immortal by comprehending the Origin Art."

Lu Ming's eyes became brighter and brighter.

It's not that he can't improve, he still has a lot of potential, but he was blinded by failure before and didn't see it.

"Forbidden power, the more secrets you incorporate, the stronger your power, and the effect of integrating the ancient secret arts is the best. I have incorporated more than 1,800 ancient secret arts, and I want to find other ancient secret arts. The technique is too difficult, and many of them are lost, but I have a big ancient **** stone..."

"The Lord of the Great Ancient Gods Court was able to comprehend three thousand great ancient secret arts from the Great Ancient God Stone. He could, and I could, so I learned about the secret techniques from the Great Ancient God Stone and blended into the power of taboo."

After figuring it out, Lu Ming got up and headed towards a place.

If you want to comprehend the powerful secret technique from the ancient **** stone faster, you also need to use external force.

There is a sacred place for cultivation in the garrison of the Exterminating Army, which reverberates with primitive divine sounds throughout the year, which can help people enlighten the way.

As Lu Ming, it is natural to enter the practice for free, but as long as he wants to practice.

Lu Ming came to a gorge, and this gorge was constantly reverberating with the original divine sound. Once he came here, Lu Ming's mind fell into an ethereal state.

"Similar to the original divine sound of Tiangong."

Lu Ming smiled, found a place to sit cross-legged, and then communicated with the ancient **** stone in the sea.
