

D Emperor 4711

Chapter 4711: Cosmic change

With the help of the original divine sound, Lu Ming's mind fell into an ethereal state. This state was the state with the highest understanding.

At the same time, his eyebrows glowed, and in his sea of knowledge, the ancient sacred stone radiated radiance, and on it, there were continuous patterns emerging, each pattern was different and varied.

All the time, Lu Ming can get inspiration on the ancient **** stone.

Before that, Lu Ming had mastered more than 1,800 great ancient secret techniques, and tens of thousands of ordinary secret techniques, and he had also comprehended two of his own secret techniques.

Therefore, Lu Ming continued to comprehend the secret technique and became familiar with the road.

He doesn't need to comprehend the Secret Art that is completely his own, such as the Breaking Heaven and Primordial Art. He only needs to extend from the great ancient Secret Art he has mastered in the past, so as to comprehend some secret art similar to the Great Ancient Secret Art. Similar to the Great Ancient Secret Art, the difficulty is much lower than that of the Primordial and Breaching Methods.

As time passed, more and more inspirations gathered in Lu Ming's mind.

In a blink of an eye, ten years passed.

Ten years later, Lu Ming finally succeeded in comprehending a secret technique similar to the ancient secret technique. This secret technique is somewhat similar to one of the ancient secret techniques that Lu Ming has mastered, but it is different. The place is a secret technique for trapping enemies.

Lu Ming didn't know whether there was such a secret technique among the Three Thousand Great Ancient Secret Techniques, or whether it was a secret technique different from the Three Thousand Great Ancient Secret Techniques.

No matter what, Lu Ming succeeded. He turned this secret technique into a secret technique rune and melted it into one cell.

Then, Lu Ming continued to comprehend the next one.

The first type of comprehension is the most difficult and takes the longest time. When the second type is comprehended, the difficulty is significantly reduced and the time required is also reduced a lot.

In just nine years, Lu Ming had realized the second kind of secret technique similar to the ancient secret technique, and also turned it into a secret technique rune, fused into a cell.

So, almost twenty years have passed since the fight for the human body.

What surprised the Exterminating Army was that the Heavenly Palace did not launch an attack.

Over the years, Tiangong has been exceptionally quiet, with no movement at all.

But no one dared to be careless.

Everyone understands that this may be the tranquility before the storm. It is impossible for Tiangong to give up the human body. This is to accumulate strength. Once it is done, it will be a thunderous blow.

On the side of the Heaven Extinguishing Army, a lot of people were dispatched, mixed in the prehistoric universe, to inquire about every move of the Heavenly Palace.

The primordial universe has thousands of races, and the Heaven Extinguishing Army sent some people to mix in the primordial universe. It is more than enough for the Heavenly Palace to find out that it is difficult to find out some news.

In addition, the three major garrisons of the Celestial Extinguishing Army have already joined together.

The three major sites, more than a hundred fragments of mainland, are arranged in mysterious positions, forming a faint formation.

In addition, the World Turtle, and some other masters who are proficient in formations, are constantly repairing and perfecting the formations around the station. Other masters are familiar with these formations. If the heavenly palace strikes, they can urge the formation at any time. enemy.

As for the creatures under the divine lord, they gather together to practice joint attack formations. During a battle, they can form joint attack formations to increase their power.

As for those above the Divine Master Realm, they cannot practice the combined attacking formation technique.

Because at all there is no such powerful combined attack formation method for the existence of the Divine Master Realm to cultivate.

The power of the **** master realm is too strong, and if you want to arrange a combined attack formation, you also need a very high-level formation.

The low-level formation is useless at all, because once the power of the Divine Master Realm erupts, the low-level formation will not be stable at all and will directly collapse.

That would be a hindrance, and it would be difficult to exert strength.

There is no such high-level formation in the current prehistoric universe. Many people speculate that the prehistoric continent of the last era must have such a high-level formation, which can be used for the existence of the Divine Master Realm and even the Origin Realm. Array.

Unfortunately, there is no record of similar formations in the ancient books excavated from the ruins of the universe.

Therefore, in the halo world before, the people of the Sky Extinguishing Army faced the siege of more divine masters in the Heavenly Palace, and could only gather together to fight the enemy, and did not arrange a total formation to meet the enemy.

Similarly, Tiangong does not have a total formation for the existence of the God Realm.

The nine-day battle formation in Tiangong can only be used for the existence of the Divine Emperor Realm.

The existence of the God Realm wants to set up an array, but it will collapse the array.

At the same time, the Heaven Extinguishing Army summoned all the masters from other places.

For example, in the ruins of the universe, there are places like the Qianqiu Battlefield, where the Celestial Extinguishing Army and the masters of the Celestial Palace are facing each other, and now they are all summoned back.

Destroying the Heavenly Army, must concentrate all its forces to fight against the next retaliatory action of the Heavenly Palace.

However, over time...

Twenty years, thirty years, forty years...

Sixty years, seventy years... a hundred years...

A hundred years have passed since the battle for the human king's flesh, and there is still no movement on the side of the heavenly palace. This makes many people in the Heaven Extinguishing Army wonder why the heavenly palace is so heavy and still not doing anything?

"It's more terrifying not to do it than to do it. They must be brewing some conspiracy. We cannot take it lightly and strengthen our defense."

Feihuang spoke.

The Heaven Extinguishing Army did not loosen and strengthened its defenses. At the same time, those people who were mixed in the cosmos always inquired about the movement of the Heavenly Palace, and did not relax.

Over the years, the atmosphere of the various races in the universe has obviously been wrong, and they have become tense. It seems that there will be a big battle in the future.

All ethnic groups are making preparations, hoping to fight for their best interests during the war.

In addition, there are still some people from the Heaven Extinguishing Army, scattered in the ruins of the universe, looking for news about the human king's heart, but there has been no news.

The ruins of the universe are too big. Finding the King's heart is more difficult than finding a needle in a haystack. Naturally, it is not so easy to find.

In such a tense atmosphere, time continued to pass.

One hundred years, two hundred years, three hundred years...

Soon, three hundred years have passed since the battle of the human king's body.

It is worth mentioning that in the past three hundred years, tremendous changes have occurred in the universe, which have attracted the attention of all races in the entire universe.

In the ruins of the universe, the original rules are in chaos, and there is dead silence everywhere, and most of the continents have no creatures or plants.

There are very few continent fragments that contain plants, and they almost contain prehistoric crystals before they can give birth to plants.

Until the last dozens of star years, the rules of the ruins of the universe have gradually become more orderly, and the ruins of the universe have returned to life. Some continents have not only plants, but also birth spirits and ethnic groups.

Such as the Yan clan of the Star Continent.

However, such examples are rare after all, and the overall color of the ruins of the entire universe is still dead.

But all of this has undergone tremendous changes in these hundreds of years.

The rules of the ruins of the universe are becoming orderly at an astonishing speed, and they are no longer so chaotic.

Many continent fragments obviously did not contain prehistoric crystals, but plants grew, and animals gradually appeared on some continents.

And the treasures of heaven, material and earth, all kinds of magic medicine, gradually increased.

Chapter 4712: Enlightenment and promotion

What's more amazing is that the current prehistoric universe has also undergone amazing changes.

The vibes in all parts of the primordial universe became more and more intense, and even another kind of energy appeared, just like diluted prehistoric qi.

Soon after, a certain clan of the top ten races reported that a god-level medicine in their medicine garden was actually undergoing transformation, and after a while, it turned into a god-level medicine.

This news shocked countless races in the entire primordial universe.

You must know that in the past, the Primordial Universe couldn't breed the main-level magical medicine, and the emperor-level magical medicine was the peak.

If you want to get the main magic medicine, you can only find it in the ruins of the universe.

And now, there is a master-level magical medicine in the Primordial Universe, what does this mean?

The world has changed dramatically!

The entire universe, whether it is the ruins of the universe or the boundless starry sky of the prehistoric universe, is undergoing tremendous changes.

In a word, the cultivation environment has become better.

The beginning of all these changes seems to have happened after the battle for the human body.

In the universe, countless people are shocked, wondering, and cheering.

Could it be that the entire universe wants to reproduce the glory of the wild continent of the last era?

...

In the dream palace, at the entrance of the dark universe, Ye Immortal stands on the city wall, looking into the land occupied by demons in the distance.

The lord of the four heavenly palaces stands on both sides of the immortality.

"Three hundred years, how effective is the erosion of the Devil's Ancestor?"

Ye immortal speaks.

"The Devil's Ancestor Worm is cultivated from the flesh and blood of the demon ancestors. It is extremely small, billions of times smaller than a strand of hair. It cannot be seen with the naked eye, but it spreads with the air. It's been three hundred years since I didn't realize it. Most of the demon master-level figures have been controlled. Even the demons of the Origin Realm are probably affected greatly..."

The Lord of Dream Palace answered.

"Can't wait any longer. It's been three hundred years. If the Heavenly Destroyed Army finds the human body's heart, we will be defeated. I send my order to send an army to attack the demon territory, test the devil, and see how it works? "

Ye Immortal ordered.

Soon, a large army of the Tiangong set out, slaying towards the depths of the dark universe, towards the demon kingdom.

Wherever he went, he didn't receive the slightest resistance, because those demons were almost controlled by the Heavenly Palace and directly surrendered.

The Heavenly Palace army broke through all the way and successively broke through multiple demon kingdoms, and this was resisted.

A demon from the Origin Realm was killed.

The demon of the Origin Realm is extremely huge, billions of feet tall, standing upright, with huge demon wings spread out, covering the sky and the sun.

A source from the Heavenly Palace greeted him and confronted the demon source. This demon source was knocked out, and a demon's wing was almost torn off.

Just a right move, the devil's origin is completely defeated.

"Despicable Celestial Race, what have you done? What have I been eroded by?"

The demon origin yelled.

Obviously, his state is very wrong, he is resisting something with all his strength, and his strength is not half of his usual.

"kill!"

The source of the Heavenly Palace yelled and killed it, and the offensive was mad. The source of the devil barely resisted more than a dozen moves, and was killed by the source of the Heavenly Palace, without even leaving a trace of the source.

"The Demon Ancestor Insect has an effect, even the origin of the devil has been greatly affected, and the combat power is low."

Hongmeng God rejoiced.

"Prince Immortal, do we have to go all out and send an army to destroy the devil?"

Asked the crape myrtle god.

"No, since the Demon Ancestor Insect is effective, then the devil must stay, and in the future, it can become a sharp blade for us."

The Immortal Prince smiled.

"The son is wise!"

Several celestial masters flattered.

Indeed, since the demons can be controlled by them, it is naturally better to keep them than to kill them, and they can become their thugs and fight for them.

"At present, the human body is the most important thing. Three hundred years have passed. We can't wait any longer. Now the devil can no longer attack us. The order will continue. As long as a few people are left to guard the dark universe, others, All set out to quell the rebels in one fell swoop."

Ye Immortal ordered that there is no doubt.

"Yes!"

The four gods are in charge.

The heavenly army retreated, leaving only a few people guarding the dark universe.

The Demon Ancestor Worm is extremely small, but it spreads with the air, and after three hundred years, most of the demons in the dark universe have been eroded by the Demon Ancestor Worm. The devil is no longer a threat to the heavenly palace.

This is the result of countless years of research on Tiangong.

After confronting the devil, they began to research, and after endless years, they finally succeeded.

The people of the Celestial Race were extremely excited. The devil, the great enemy, was finally solved. They no longer need to invest a lot of masters on the dark universe.

From then on, what other forces in the universe are their opponents to the Celestial Race?

What life soul heaven, the ancient gods, could not withstand a single blow.

What destroys the heavenly army is also destined to follow the footsteps of the Fate Soul Heavenly Court and the Great Ancient God Court.

The Heavenly Palace mobilized most of the Origin Realm and passed through the wormhole to kill the Celestial Exterminator's station.

...

On the side of the Heaven Extinguishing Army, naturally they didn't know that the devil had been solved by the Heavenly Palace, but they still didn't dare to relax, they were always on guard, and were ready.

After 300 years of cultivation, Lu Ming has also made considerable progress.

Over the course of three hundred years, Lu Ming has realized a total of three hundred kinds of secret techniques similar to the Great Ancient Secret Technique, all turned into rune marks and melted into the cell.

Added about a hundred powerful secret techniques, so that the forbidden body has a lot of improvement, and its power is stronger than before.

Of course, over the past three hundred years, Lu Ming has not only studied the secret technique, but also spent time studying it.

With eight times the combat power, Lu Ming was able to explode as he pleased, and with nine times the combat power, he also had a success rate of several tenths.

"It's not enough, it's far from enough. The ninefold combat power of Zhanzi Jue has a success rate of only a few tenths. It's too low, and others won't give me this time to trigger.

"In addition, even if it triggers nine times the combat power and encounters Ye Immortal, it may not be his opponent."

Lu Ming whispered.

After Ye Immortal displayed Yuan, the power was too strong.

And Lu Ming's triggering of nine times the combat power did not exaggerate the increase in his strength.

In the Divine Master Realm, if the combat power is doubled, there will be no obvious improvement. There is often a difference of one level of cultivation, and the gap is far more than double.

Therefore, even if Lu Ming triggers nine times the combat power, he is probably not Ye's immortal opponent.

It is necessary to continue to comprehend the secret technique and enhance the power of taboo.

The power of taboo is the foundation.

Moreover, the function of Zhan Zi Jue is closely related to his own strength.

The stronger his own strength, the more Zhan Zi Jue increased.

For example, if his own strength is one, it triggers nine times the combat power, which is nine.

If his own strength is two, triggering nine times the combat power, the result is eighteen.

Chapter 4713: One hundred and fifty origins

Over the past three hundred years, Lu Ming's cultivation level has not broken through, and he is still in the Sixth Layer of Divine Master.

In the Divine Realm, if you don't absorb the refining prehistoric crystals or the main-level magical medicine, you can hardly improve your cultivation level by practicing on your own.

The main reason is that the energy in space is too thin, unlike the prehistoric continent of the last era.

However, Lu Ming's cultivation base did not improve, but the improvement of the ball was very large.

Over the years, Lu Ming gave the ball the broken source-level magic soldiers on his body, and also gave the ball a lot of precious metals, such as ice, spark, silver.

The practice of the ball has broken twice in a row, reaching the seventh layer of the gods.

This was also the reason that Lu Ming lacked the broken source-level magic weapon, otherwise the ball's cultivation base would only be stronger.

The divine lord's seven-fold ball swallowed many broken source-level magic weapons, containing some of the mystery of these source-level magic weapons, and their combat power was already very powerful.

Fighting alone, Lu Ming may not be its opponent.

At least, when the ball turned into armor, Lu Ming couldn't break the ball's defense.

Boom! Boom! Boom! ...

At this moment, fierce drums of war came from heaven and earth.

The sky and the earth buzzed, shaking the entire station of the Exterminating Army.

At this moment, everyone was awakened.

"The drums of war continue to sound, the war is coming, has the palace finally shot?"

Lu Ming whispered, finished his cultivation, left this valley, and then rose into the sky.

"Dazhen, get up!"

There is a strong voice, resounding through the world.

It is the powerhouse of the Origin Realm that is giving the order.

Hum! Hum! Hum! ...

In the resident of the Exterminating Army, hundreds of mainland fragments all emit a brilliant glow, and the endless runes are filled with void, gathering into a large array, covering the resident of the Extinguished Army.

Countless masters are presiding over these big battles.

At the same time, in the continents, countless figures rose into the sky, standing high in the sky, looking out of the continent.

A huge space crack appeared in the void outside the resident of the Exterminating Army.

There are a group of figures, stepping out of the cracks in the space.

The first ones that came out were obviously the four great gods of the Heavenly Palace. They lined up in the void, looking at the station of the Annihilation Heavenly Army, their eyes shone with cold luster, and there was expectation.

The Celestial Destruction Army, this opponent who has fought with them for dozens of stellar years, is finally going to be annihilated today.

In the cracks in the space, a group of figures continued to walk out, behind the four gods, all of them existed in the original state.

"Your arrangement is good, but today's result is doomed. You will not escape the end of destruction..."

God Ziwei took the lead to speak, and the cold voice spread throughout the entire void, and also into the resident of the Exterminating Army.

"If your heavenly palace can do it, why wait now..."

Feihuang responded indifferently.

Around Feihuang, there are also a few strong people of Origin Realm.

As for the other origins of the Celestial Extinguishing Army, they are scattered everywhere and preside over the formation.

"Really? Feihuang, your confidence will soon be shattered."

Ziwei God sneered.

Soon, Feihuang's face sank, and an expression of uncertainty appeared on his face.

In fact, most of the powerhouses of the Heaven Extinguishing Army were like this, and their faces became increasingly ugly.

Because, behind the four gods, the stronger the heavens, the older the more.

Fifty, sixty, seventy, and soon, more than one hundred.

These, but all are the existence of the original state.

The Heavenly Palace actually dispatched more than a hundred Origin Realm, and obviously more than that, because the number is still increasing.

In less than a minute, the origins that appeared behind the four great gods reached one hundred and fifty.

With the addition of the four gods, there are a total of one hundred and fifty.

All of them are in the Origin Realm, most of them are the Celestial Race, and there are other races of the strong, such as the Angel Race, the Buddha Race, the Demon Race, the Blood Race, and the Fighting Saint Race.

The top ten races, except the Yaxian race, the origin realm of other races existed, almost all of them were dispatched.

"How is it possible? This is almost all of the original realm of the Heavenly Palace. How could they all be dispatched? They don't have to guard the dark universe and are not afraid of attacks by the devil?"

I don't know when, Tang Jun appeared next to Lu Ming, opening his mouth in astonishment, and his eyes were thick and incredible.

"One hundred and fifty origins!"

Lu Ming also took a deep breath.

The strength of the Heavenly Palace is truly unfathomable. It is not easy to see a source in normal times. Now there are one hundred and fifty people in one breath.

It's terrible.

"Tang Jun, how many origins did I destroy the Heavenly Army?"

Lu Ming asked.

"I also only know the general situation. It should be forty-nine people in the original state."

Tang Jundao.

Lu Ming's face was extremely ugly.

Forty-nine people are too far apart from the Heavenly Palace, and the number of the opponent's Origin Realm is three times that of them.

"Once you break through the origin realm, other races, or primitive gods, or human races, etc., will have a stronger combat power at the same level than the Celestial Race."

"In the past, the Heavenly Palace had to allocate most of its power to guard the dark universe and block the demons. The remaining masters, we destroy the heavenly army, can barely resist, but now why..."

Tang Jun's face was very ugly.

Lu Ming knew what Tang Jun wanted to say and why he had pulled out the original realm that guarded the dark universe.

Not only were they puzzled, Feihuang and other masters of Origin Realm were also extremely puzzled.

Is there any change in the dark universe?

Demon, destroyed?

This is impossible. They know the horror of the devil, the strength of the devil, very powerful and unfathomable.

If it weren't for the internal disunity of the devil, a divided state, and often killing each other, most of the power of the heavenly palace might not be able to stop the devil's attack.

How could such a powerful demon be easily destroyed?

Could it be that Tiangong cooperated with the devil?

This is also impossible.

Feihuang and the others know a lot, that the demons and the Celestial Race are feuds that can hardly be resolved.

They know that there must be some kind of change in the dark universe that they don't understand.

But now I can't manage that much, and blocking the attack of Tiangong is the first thing.

"Feihuang, let's see what you use to block, shoot!"

An order from God.

boom! boom! boom! ...

One hundred and fifty of the Heavenly Palace's origin realm burst out with a powerful aura.

They spread out into a circle, enclosing the station of the Exterminating Army.

Then, one hundred and fifty attacks, bombarded towards the extinction army station.

"Dazhen, get up!"

"Inspire a big array!"

A loud roar came from the Extinguishing Army.

The brilliant rays of the sun illuminate the infinite distance, and the large arrays are intertwined to form a huge defensive array.

These large formations, controlled by dozens of origins and thousands of gods, are also very powerful.

Boom boom boom...

A shocking roar erupted, and the defensive mask formed by the large array was hit by one hundred and fifty terrible attacks, and it shook violently.

However, it was blocked after all.

Chapter 4714: Tang Feng and Feihuang

"Continue to attack, they only have more than 40 original sources, and their energy is limited. As long as they continue to attack, their array energy will be exhausted sooner or later, and then it will be their death date..."

A **** yelled.

The one hundred and fifty Heavenly Palace Origins continued to attack, and one after another terrible attacks flew towards the station of the Exterminating Army.

It's amazing that so many Origin Realms can be shot together. When placed in the starry sky of the Primordial Universe, it can destroy one after another galaxy, and the entire star field will be destroyed.

The countless distances of hundreds of millions of miles around the Extinguishing Army's garrison were completely wiped out, nothing was left, everything turned into chaos.

This battle can be said to be the fiercest battle in countless years, and it is also the battle with the most masters.

Sixty sidereal years ago, there was an epic battle.

That great battle was extremely tragic, but the origin of the Tiangong dispatch was not so much.

Because at that time, Tiangong needed to guard against demons and couldn't dispatch so many origins.

It can be said that the fact that so many Primal Realm beings participated in the war all at once may have to be traced back to the battle between Tiangong and the primitive gods.

Boom boom boom...

The sky-shaking roar continued to erupt, and the defensive formation of the Sky Extinguishing Army was constantly shaking. At this time, Feihuang and others were all involved in controlling the formation.

Lu Ming and Tang Jun also came to the base of the formation and worked together to strengthen the formation.

However, many people's hearts have been sinking.

There are too many origins of the Heavenly Palace, and if this continues, the formation of the Heaven-destroying Army will definitely be unstoppable.

It will be broken sooner or later.

Once the formation was forced, confronted head-on, facing one hundred and fifty origins, and on the side of the Heaven Extinguishing Army, there was no chance of winning at all, and most people would die.

The difference is too big.

However, they have no choice. The only thing they can do now is to resist with all their strength.

"Attack in batches, exhausting their power."

A God speaks.

Afterwards, half of the origin of Tiangong retreated and began to regain strength, while the other half continued to attack.

In this way, although the intensity of the attack is much smaller, the people who destroy the heavens still can't be careless and still have to urge the formation to resist.

After a period of time, Tiangong replaced another group, and the other group retreated to recover.

The purpose of attacking in turns in this way is to consume the power of the Celestial Army.

Time passed by.

Soon, one day passed.

For one day, the masters of the Origin Realm of Tiangong did not stop and kept attacking.

At this time, the light of the Heaven Extinguishing Army's garrison formation has dimmed a lot, and the intensity of the formation has not been as great as before.

At this time, there were some more figures outside of the Heaven Extinguishing Army station.

It is Ye Immortal, Ye Qiuxian, and some Heavenly Monarch-level figures of the Heavenly Palace.

These people stood watching from a distance.

"Haha, it looks like it won't be long before the Celestial Extinguish Army will be annihilated. Once the Celestial Extinguishing Army is destroyed, the demons will be controlled by us. Our Celestial Race will have no rivals and will dominate the universe forever and live forever. "

Ye Qiuxian looked very excited.

"Don't be happy too early. Solving the demons and rebels will only allow us to take the lead. The crisis is far from over..."

Ye Immortal said coldly.

"what?"

Ye Qiuxian and the other heavenly monarchs looked at each other.

What does it mean?

"Ancestor, what does this mean? After solving the demons and rebels, what crisis do we still have? Who can be the opponent of our Celestial Race? Is it the Yaxian race? The Yaxian race has that ability?"

Ye Qiuxian couldn't help asking.

"The situation of the universe is beyond your imagination. For example, today's great changes, the recovery of the universe, the great world is coming, and the great world also means a catastrophe. No one can stay aside..."

Ye immortal said, stopped here.

"The Great Tribulation, what is the Great Tribulation?"

Ye Qiuxian and others asked in shock.

"Cultivate hard, you will know when you are at your cultivation level. In short, remember that our race can survive this catastrophe only by taking the lead, gaining more opportunities in the ruins of the universe, and increasing strength."

"Once you get over it, my clan can truly soar into the sky and become the true master of this universe."

Ye Immortal sighed lightly, seemingly reluctant to say more.

Ye Qiuxian and the others looked at each other with great doubts.

"There are at most two days before the big formation will be broken." Ye Immortal said softly.

"Ancestor, do we want to retreat a little bit, so as not to get the roots of the rebels at that time and jump the wall in a hurry."

A heavenly ruler.

During this time, the true identity of the immortality of Ye has spread throughout the Celestial Race and even other races.

Therefore, everyone reverted to their previous names, calling Ya Immortal an ancestor, and Ya Immortal did not object.

"It's okay, those origins can't touch us."

Ye Immortal and confident, his gaze looked into the distant void, as if he could see through the void of the universe, and see a few old celestial races standing in the void.

No one can see except him.

"Tang Feng, Feihuang, when are you going to shoot?"

Ye Immortal murmured, only he heard it.

...

In the depths of the ruins of the universe, it was not known how far it was from the station of the Heaven Extinguishing Army.

This is a strange land with an infinite distance without any continental debris.

This area is very far away, completely in the depths of the ruins of the universe.

One of the spaces is constantly distorted. Through the distorted space, it seems that there is a strange color inside.

This strange place, as if not in this world, not in this universe, is shrouded and superimposed by numerous spaces, sometimes appearing and disappearing, like a dream, like nothingness, and like reality.

Between the real and the false.

This place, as if there is no time, everything is still, but it is full of terrible energy.

All kinds of energy, chaos, yin and yang, five elements, black and white light and dark...

In such a place, there are two figures.

These two figures stood just like this in the vacant and uncertain void. In front of them, there was a picture. The content of this picture was a picture of the heavenly powerhouse attacking and destroying the resident of the heavenly army.

Two figures, one man and one woman.

The man is handsome and brave.

The women are beautiful and beautiful.

If they were here, they would definitely be able to recognize them at a glance.

Woman, it's a flying phoenix.

The man is the legend of the prehistoric universe, the taboo sword ancestor Tang Feng.

"Tang Feng, if this continues, the station will be breached within two days."

Fei Huang spoke, frowning.

"I really didn't expect that Heavenly Palace would be able to extract all the masters guarding the dark universe, what happened to the dark universe?"

Tang Feng whispered, but couldn't figure it out.

"Didn't you see a corner of the future? Didn't you see this scene?"

Feihuangdao.

"The future is too vague to see clearly. I only know that the devil will eventually become my enemy."

Tang Feng said.

Chapter 4715: Motivate the Origins

Feihuang frowned, and then sighed: "Unfortunately, the two of us are trapped here and it is difficult to get out, otherwise they are not afraid of their Celestial Race, Tang Feng, what can you do? You can't just watch."

"It's difficult for you to get out in your true form. The current plan can only be the first to provoke the origin disaster."

Tang Feng said.

"What? Can you take the lead in triggering the Great Tribulation of Origin?"

Feihuang's expression changed.

"I've already arranged it outside. There are still about a hundred star years away. The origin of the catastrophe will also explode on its own. It is not difficult to activate it in advance."

Tang Feng said.

"Along with the Great Tribulation of the Origin, all the existence of the Origin Realm in the entire universe, or the existence above the Origin Realm, must be self-styled to avoid the Great Tribulation, otherwise the root cause will dissipate, and even death will disappear."

"In this way, the origin of the heavenly palace must be self-proclaimed and cannot be shot, but in the same way, our origin must also be self-proclaimed. At that time, all the origins of the entire universe cannot be shot, and the **** is the pinnacle, but the heavenly palace The Divine Master Realm exists, and the number is far more than ours."

"Are you the one who wants to block the Heavenly Palace by formation?"

Feihuang asked several questions continuously.

"You are right, the formation method. The formation method of the Heaven Extinguishing Army's garrison today is difficult to resist the attack of the Origin State, but if there is only the Divine Master State, even if it does not need to be urged by humans and operates autonomously, it can resist for a long time. "

Tang Feng said.

The garrison of the Heaven Extinguishing Army was laid out with numerous formations, but these formations were not very advanced after all. Facing the attack of the Origin Realm, the existence of the Origin Realm must be urged to resist.

If there is no master urging, relying on the formation to operate autonomously, it will not be able to stop the attack of the original state.

The fundamental reason is that the formation is not advanced enough, most of the formations are incomplete, incomplete formations excavated from the ruins of the universe.

However, if only facing the Divine Master Realm, even if the formation of the Heaven Extinguishing Army garrison operates autonomously, it can resist for a long time.

Tang Feng's meaning is very simple. If you don't trigger the Great Tribulation of the Origin, the formation of the Heaven Extinguishing Army will be broken two days later.

If the Primordial Tribulation is triggered, so that neither the existences above the Primordial Origin of the two parties can take action, the formation of the Heaven Extinguishing Army can still resist for a long time.

These, with Feihuang's cleverness and experience, immediately understood.

However, she still has some concerns.

"Initiate the Origin Great Tribulation in advance, how long will it last?"

Feihuang asked.

"Ten thousand years can only last for ten thousand years. After ten thousand years, the great calamity of the origin will pass, and the existence of the origin realm will be born."

Tang Feng said.

"Ten thousand years, then, how long can the Sky Extinguishing Army's formation be able to resist?"

Feihuangdao.

"millennium!"

Tang Feng answered.

"After a thousand years, what should I do?"

"After a thousand years, only Lu Ming is the only one who can rely on them. The young people of this generation are extraordinary. After a thousand years, I believe they should have grown up. By then, they may not be able to fight Tiangong."

"And we, with ten thousand years, should be able to leave."

"Although this place is full of dangers, it also represents a great opportunity. If we can leave here smoothly, there will be a major breakthrough in our cultivation base."

Tang Feng said.

"This place is a Jedi in the last era. Are you really sure that you can leave within ten thousand years?"

Feihuangdao.

"No one can trap me Tang Feng anywhere in the world."

Tang Feng spoke, his eyes brighter than the stars, full of undefeated belief and infinite confidence.

"You guy, really narcissistic..."

Feihuang curled his lips.

"Okay, I'm going to start!"

Tang Feng said, with a wave of his hand, the image in the air disappeared, and then, a terrifying aura rose from his body, and his whole person seemed to be transformed into an invincible divine sword, piercing the infinite void.

He quickly squeezed Yin Jue with both hands, and amidst a piece of mainland debris that was very far away from him, he suddenly burst out with a shocking sword energy.

bump!

The earth exploded, and from the depths of the earth, a war sword flew out, and the sword energy rushed out to infinity, cutting the void of billions of miles into two.

Keng!

The sound of sword ming resounded throughout the world, and then, the sword flew quickly toward the void above, the sword aura grew stronger and longer, and its power became stronger and stronger.

Finally, when the long sword flew out of infinity, the void was cut open, and a huge crack appeared, leading to infinity.

Then, in the depths of the crack, a strange and mysterious place appeared.

"The Universe..."

Feihuang whispered, shocked in his eyes.

"Originally, there are still about a hundred star years, and the Great Tribulation of the Origin will erupt, so the universe is very close to our universe, otherwise, even if my cultivation base is ten times stronger than a hundred times, it is impossible to trigger the Great Tribulation of the Origin. ."

Tang Feng spoke and continued to control the war sword, letting the war sword fly into the universe.

boom!

As soon as the war sword flew into the cosmic sea, it exploded directly, forming a terrible energy storm, stirring the cosmic sea.

At this time, the universe seemed to boil, and infinite energy, mysterious energy, poured into the entire universe.

At the same time, the universe sea is rapidly approaching the universe, and the mysterious energy is pouring more and more, and the speed is astonishing, covering the ruins of the universe and the starry sky at an astonishing speed.

At this moment, the stars were shaking, and the fragments of the endless continent were shaking slightly.

Ordinary people, or ordinary practitioners, are okay, but they just feel a slight jitter and pass.

However, the existence of the Origin Realm changed all expressions wildly.

For example, those origins who are besieging and destroying the garrison of the heavenly army suddenly feel the 'Root Roots' jumping wildly, seeming to have an extremely powerful force to attract their Roots.

Although they suppressed and suppressed them with all their strength, the roots still turned into a burst of energy and flew away. If this goes on, their roots will completely fly away and disappear completely.

"What's the matter? What's the matter?"

"My source of vibration will turn into energy and fly away!"

All the origins of Tiangong stopped attacking and suppressed their origins with all their strength.

In fact, it is not only the origin of the Heavenly Palace, but also the origin of the Celestial Extinguish Army, each one's complexion changes wildly, and they don't care about controlling the formation and suppress their own 'root root' with all their strength.

In addition to the origins of Extinguishing the Heavenly Army and the Heavenly Palace, the origins of other parts of the universe are also the same.

For example, the origin realm powerhouse of the Yaxian tribe is almost the same as the origin of the heavenly palace or the exterminating army, and the origin is about to fly out, and quickly suppressed.

"It's the Great Tribulation of the Origin, **** it, according to my inference, the Great Tribulation of the Origin should not erupt in a hundred stellar years. How did it advance?"

At this moment, Ye Immortal roared.

"Essential disaster!"

Some masters who have heard of the Great Tribulation of Origin, their faces become ugly.

However, more of the strong in the Origin Realm had never heard of it, and hurriedly asked questions.

Chapter 4716: The Passive Age

"When the Universe Sea is the closest to the universe, it will have a huge impact on the origin realm in the universe, from the source root being sucked away, the cultivation base is lost, and the worst is falling..."

Ye Immortal gave a quick explanation.

This makes those original faces very ugly.

"Ancestor, is there a solution?"

Someone asked.

"Yes, the only way is to self-style and hide deep underground to resist the influence of the universe."

"However, after self-appointment, you can never be born. Once you are born, the root will be swallowed immediately. Therefore, the era of great calamity of origin is called the era of no'source'."

"According to normal, there are still a hundred sidereal years from the origin of the catastrophe, why is it early? Has it been interfered?"

Ye Immortal said, his face was gloomy.

The era without'source' naturally refers to the era without origin.

"No, I can't stand it anymore, ancestor, what should I do, this way I can't attack the Heaven Exterminating Army at all."

A Tiangong origin roared.

The energy of his roots is constantly passing, faster and faster.

If this continues, it will not take long before his roots will all dissipate.

"First retreat, and then establish itself as the source and destroy the heavenly army, I will find a way."

Ye immortal road.

He was very clear about the Great Tribulation of the Origin, because he had experienced the Great Tribulation of the Origin and was also very aware of the terrible nature of the Great Tribulation.

He once saw with his own eyes that there was an existence beyond the original realm who wanted to resist the original catastrophe, and finally died.

The origin of the Great Tribulation comes from the universe, it cannot be resisted, nor can it be resisted. Only by proclaiming yourself and falling into long sleep can you escape this disaster.

"go!"

Immediately, the origin of Tiangong didn't stay at all, his figure flickered, and he left here, disappearing without a trace in an instant.

"Hmph, let you survive for a few more days, even if there is no origin, I will definitely destroy you."

Ye Immortal looked at the resident of Heaven Extinguishing Army, said indifferently, and left here.

"The Great Tribulation of Essence, no one above the Essence Realm can resist. All of you, quickly set yourself up, look for a place to retreat and sleep forever, and wait for the Great Tribulation of Essence to pass. This time the Great Tribulation of Essence will last for ten thousand years. come out."

Feihuang's voice spread all over the place where the Heaven Exterminating Army was stationed.

All the strong people of the Origin Realm moved quickly, strayed away from the place, and went to find a place to proclaim themselves.

"This..."

Those below the original realm are all confused.

Unexpectedly, a big battle would end like this.

Also, what is the origin disaster?

"The Great Tribulation of Essence is a catastrophe that exists above the Essence Realm. It has no effect on those below the Essence Realm. Those above the Essence Realm must proclaim themselves ten thousand years. After these ten thousand years, the Celestial Extinguisher will be handed over to you. Remember, the crisis is far from over. The attack from the Heavenly Palace will come soon, and it will depend on you in the future."

Feihuang's voice sounded again, speaking to those powerful Divine Master Realm beings.

"Essential tribulation, there is such a tribulation..."

Lu Ming's expression was uncertain.

Because at this time, he knew that there was a big movement in the copper coffin that had not been moving in the sea.

The copper coffin exudes a bright brilliance, and dense runes appear on it. Finally, these symbolic cultures form a formation that envelopes the copper coffin.

The original unremarkable red copper coffin now looks even more unremarkable.

"I am self-appointed, even the copper coffin is self-appointed!"

Lu Ming was dumbfounded.

Huh!

At this moment, Feihuang appeared beside Lu Ming.

"senior..."

Lu Ming opened his mouth to speak.

"Lu Ming, the Great Tribulation of the Origin is coming, and all existences above the Origin Realm will proclaim themselves and disappear from the world. During this period of time, they will be the world of the Divine Lord Realm. Whether the Heaven Extinguishing Army can survive this crisis depends on you. I hope you can rise quickly."

After Feihuang said, he took out a storage ring and handed it to Lu Ming, saying: "There are 200 million primordial crystals in it. It was collected by me, Tang Xiao and others. During this time, it can only be collected temporarily. So much, I hope it can help you."

"Although I am not the main body, I am only the incarnation of ten thousand demons, I have to proclaim myself, otherwise it will affect the main body. I hope you can surprise me when I come out."

"Also, Xiaoqing, Qiuyue and others are still cultivating outside. Here is the detailed address of their cultivation. I am afraid that the temple will be disadvantageous to them in the future. You have to pay attention."

With that said, Feihuang gave another jade charm to Lu Ming.

"senior..."

Lu Ming took it and wanted to say something, but found that Feihuang's figure had disappeared.

The Heavenly Palace, the original realm powerhouses of both sides of the Heaven Extinguishing Army, all disappeared, and went to sleep forever.

At this moment, whether it is the ruins of the universe, the starry sky of the universe, or the dark universe, no matter where the existence above the Origin Realm hides, they can't escape the origin disaster.

There is only one way to escape the great catastrophe of the origin, and that is to proclaim yourself and find a place to stay in seclusion, otherwise, the back will be very serious.

One day, just one day, the entire universe has no original realm.

Tang Feng and Feihuang looked into the distant void.

At this moment, the crack cut by Tang Feng had disappeared.

However, the great catastrophe of the origin has already been triggered, the universe is approaching the universe, and the result has been unchangeable.

"It was successful, but this time it was forced to spur, and it can only last for ten thousand years. Ten thousand years should be enough for them to grow."

Feihuang whispered.

"Let's hurry up and cultivate. This place is not without benefits. At least, this place will not be affected by the Great Tribulation of Origin. We will not waste time in these ten thousand years."

Tang Feng said, after speaking, he turned around, stepped forward, and disappeared without a trace.

"Lu Ming, Xiaoqing, see you in ten thousand years!"

Feihuang also turned around and followed Tang Feng.

...

After a short period of stagnation, the extinction army station began to operate normally.

At this moment, Jun Tang had already explained the origin of the Great Tribulation in detail, and most people understood the meaning of the origin of the Great Tribulation.

Afterwards, under the arrangement of the existence of some **** masters, the Extinguishing Heaven Army garrison resumed operation, and those formations, filled with brilliant rays of light, continued to cover the Extinguishing Heaven Army garrison.

Of course, without the blessings of the strong from the Origin Realm, the light of the Great Array would be much dim.

However, in general, the Great Tribulation of Origin is still more beneficial to the Heaven Exterminating Army.

Originally, the Heavenly Palace dispatched one hundred and fifty Primal Realm existences, and the Heaven Extinguishing Army's garrison would definitely not be able to resist it. There were at most two days left before it was breached.

But the Great Tribulation of Origin, but let them avoid it.

But it is certain that the crisis has not passed.

The original state cannot be shot, the existence below the original state can be shot.

There are also a lot more masters of the Divine Master Realm in the Heavenly Palace. I believe that soon, the Divine Master Army of the Heavenly Palace will come.

The war is not over.

Chapter 4717: A crisis that has been delayed for hundreds of years

The people of the Heaven Extinguishing Army understood that this battle was far from over.

The Heavenly Palace was able to dispatch one hundred and fifty origins. Obviously, this had already pulled out the origins that guarded the dark universe.

Although they don't know what happened in the dark universe, this is definitely not good news for the Heaven Extinguishing Army.

Since the Heavenly Palace can pull out all the origins guarding the dark universe, can you pull out all the gods guarding the dark universe?

The last time he entered the halo world, the **** master realm that could be dispatched by the Heavenly Palace was much more than that of the Heaven Destruction Army, and the number reached an astonishing 8,000.

If all the gods guarding the dark universe were pulled out, the number would exceed three times that of the **** masters of the Heaven Extinguishing Army.

Moreover, in the battle of the Divine Master Realm, even if fighting alone, the Heaven Extinguishing Army will not have any advantage, or even worse.

Under the origin, the talent of the Celestial Race is indeed amazing.

But in general, this time of change is still beneficial to the Heaven Exterminating Army.

It could not have been supported for two days, but the crisis has been lifted at least temporarily.

There is another, the surrounding area of the Extinguishing Army's garrison is full of formations. Although these formations cannot resist the original realm, they are very effective in resisting the **** master realm.

The Divine Master Realm of the Heavenly Palace, even if you want to break it open, will not be able to do it in a short while, even if the Divine Master of the Heavenly Palace is exhausted, it is estimated that it can withstand thousands of years.

For thousands of years, there may not be time for a comeback.

Three months passed in the crowd's nervous waiting.

Three months later, there were roars in the void in the distance, and the sound of chariots crushing the void.

In the distance, chariots appeared in front of everyone.

On each of the chariots, there were hundreds of strong men in the heavens standing, all of them were the existence of the God Realm.

A total of dozens of tanks, lined up in a row, are very powerful.

"So many gods..."

After taking a look at the Exterminating Army, his face was a bit pale.

On the dozens of chariots, the gods of the heavenly palace add up to more than 16 thousand.

There are more than 16,000 divine masters, this number is really amazing, and there is no doubt that the heavenly palace will definitely bring all the divine masters who guard the dark universe.

What happened in the dark universe? Why doesn't the palace need to be guarded?

No one can figure it out.

In the middle of the chariot stood Ye Immortal, Ye Qiuxian, the four strongest Heavenly Monarchs and others.

"Even if a sudden change causes the Great Tribulation of the Origin to arrive ahead of schedule, you rebels will not escape the end of destruction."

Ye immortal indifferent voice sounded.

He didn't know that the Great Tribulation of Origin was triggered by Tang Feng in advance, he just thought that something happened.

"The Great Tribulation of Origin is coming early. This is enough to prove that we are recognized by the universe and that's why we are helped. Your heavenly palace is destined to be destroyed in the future."

A divine master of the Mietian Army responded with a sneer.

"Really, do you think that this formation alone can resist us? Without the original control, the power of this formation has been reduced by more than ten times."

Ye Immortal spoke lightly, his face calm, and then he waved his hand.

Huh! Huh! ...

The more than 16,000 divine masters in Tiangong all moved, flew out, gathered together, and then suddenly shot.

More than 16,000 divine masters took action together. Although the might not be as powerful as the 150 original sources, they were still like a rainbow, and more than 16,000 attacks blasted towards the extinction army station.

Boom boom boom...

A series of roars sounded, more than 16,000 attacks, bombarding the large array, causing waves of ripples.

However, it was steadily blocked by the big formation.

The people who killed the Heavenly Army showed a hint of joy.

The Heaven Extinguishing Army's large formation is still very stable. Although without the control of the Origin Realm, its power has indeed weakened a lot, but that is only for the Origin Realm, and for the Divine Master Realm, it is still very stable.

Even if you don't control it, the Divine Lord of Tiangong can't be broken in a short time.

"carry on..."

Ye Immortal ordered.

The origin of the heavenly palace continues to attack.

A dozen waves of attacks in a row did not have much impact on the Celestial Extinguishing Army.

"Retreat!"

At this time, Ye Immortal suddenly ordered.

More than 16,000 gods stopped their hands, stepped back a few steps, and stopped attacking.

"Don't they know that they can't break through, so they don't take the shot?"

Some people who destroyed the heavenly army were overjoyed.

"It's not that simple. Most of the time I was testing. The energy of the big formation is limited. Although they can't break through in a short time, but after a long time, when the energy consumption of the big formation is clean, it will definitely be able to break through."

"I estimate that the Great Array can only last for a thousand years. Even if we control the Great Array, we can last for hundreds of years at most."

A master at the pinnacle of a god.

"Can it only last for more than a thousand years?"

The faces of other people are very ugly.

For more than a thousand years, it was just a blink of an eye to everyone.

In a blink of an eye.

In just over a thousand years, what turnaround can happen?

At that time, when the great formation was broken, facing three times as many enemies, the Heaven Extinguishing Army might only be destroyed.

Although the Great Tribulation broke out and bought them more than a thousand years, what can they do for more than a thousand years?

"Encourage you, no matter what, it will take more than a thousand years. For more than a thousand years, maybe there will be a turnaround. What we have to do now is to hold the station, and delay for a while. ,Understand?"

A loud roar spread all over the station, shocking the soul.

It is the 'lion' who is speaking.

Many people were shocked and woke up.

Yes, no matter what the future is, the key is to hold the station first.

"We are going to control the formation and add energy to the formation."

"action!"

One after another, the figure flickered, appeared in the base of the formation, and began to replenish energy for the formation.

There are a total of about five thousand **** masters in the Destroying Army.

At the beginning, the number of **** masters who entered the halo world was 5,000, but after that, thousands fell, leaving only 4,000.

However, the divine masters who entered the halo world at that time were not the entire number of the divine masters of the Destroying Heaven Army. At that time, there were still some divine masters who were delayed.

This time it was about life and death, and naturally all the gods were summoned, so there were about five thousand.

The master of Tiangong didn't stop for too long, and soon continued to attack.

This time, only about eight thousand gods attacked, and the other half were left to rest.

Obviously, the Heavenly Palace is to use the same tactics as the original source realm before, taking turns to attack to consume the energy of the Tianmu Army resident formation.

Take turns to attack, which can be continuous, without giving the Celestial Exterminating Army a chance to replenish energy.

"kill!"

A loud roar that shook the void sounded, and more than 8,000 people launched an offensive.

After about half a day, the first 8,000 people were tired, so they stepped back and replaced the other 8,000 to continue the attack...

Chapter 4718: Divine Lord Seventh, the devil killed

In this way, more than 16,000 gods in Tiangong took turns to attack, and several months passed in a blink of an eye.

The Heaven Extinguishing Army's large formation showed no signs of being breached, and it was still very stable.

Lu Ming finally relaxed. It seemed that the Heaven Extinguishing Army's formation had been maintained for thousands of years, and there was indeed no problem.

Lu Ming found a place and began to practice in retreat.

Before Feihuang was proclaimed himself, he was given 200 million great crystals. His top priority was to improve his cultivation.

For him, the self-proclaimed origin is an opportunity.

If his cultivation base can continue to break through and reach the peak of the divine lord, no, as long as the divine lord is ninefold and below the source, he will be almost invincible.

Of course, except for the perverted evildoers such as Ye Immortal and Ye Qiuxian.

In the age when the origin cannot be developed, the stronger his cultivation base, the more he can grasp the initiative.

With a wave of his hand, a large number of Huanghuangjing appeared, and he began to retreat to absorb the energy of the Huanghuangjing.

Tang Jun also went to retreat.

Tang Xiao, Feihuang gave Tang Jun a lot of resources before she proclaimed herself to help her make a breakthrough.

Lu Ming refined the prehistoric crystals very fast, piles of prehistoric crystals were refined by Lu Ming, turned into pure energy, entered his body, and finally turned into taboo power.

Lu Ming's cultivation base quickly improved.

However, it is not so easy to break through.

Lu Ming's current cultivation base is the sixth level of the Divine Master. To break through to the seventh level of the Divine Master, the amount of primordial crystals needed reaches an astonishing fifty to six million.

With so many prehistoric crystals, even for refining, it takes a lot of time.

Although Lu Ming is now refining the Primordial Crystals at an amazing speed, it took him a full few months to refine almost 60 million Primordial Crystals.

At this time, Lu Ming's cultivation base had reached the peak limit of the Sixth Layer of the Divine Master, and the forbidden power in his body was extremely rich.

boom!

It was a matter of course, Lu Ming's cultivation base broke through, broke through the barrier, and reached a new level.

God Lord Sevenfold!

After reaching the seventh level of the Divine Lord, the taboo body in Lu Ming's body skyrocketed.

Lu Ming used the power of taboo, and the tens of thousands of cells in his body were filled with brilliant brilliance, and then a door appeared, and there was a yellow mud road in the door.

At this moment, Huangni Road has been extended a lot, leading to the depths of pitch black.

"The Divine Lord has the seventh layer. As long as it reaches the Divine Lord's ninth layer, the Huangni Road should be able to connect to the Universe Sea."

Lu Ming showed a slight smile.

Reaching the Seventh Level of the Divine Lord made him more confident.

Now, he has enough confidence to face the pinnacle of an ordinary god, and he has the confidence to defeat the opponent. If he does his best, it is normal to kill.

Except for the very abnormal peak of the god, Lu Ming is already full of confidence.

"There are nearly 140 million Honghuangjing, let's refining together."

Lu Ming continued to refine the prehistoric crystals, time passed quickly, and a year passed.

In one year, Lu Ming refined all the prehistoric crystals in his hands.

The cultivation base has made considerable progress, of course, it is still far from being able to break through the Eightfold Divine Master.

According to previous experience, he wants to break through from the Seventh Layer of the Divine Lord to the Eighth Layer of the Divine Lord.

Over the past year or so, the people in the Heavenly Palace have been constantly attacking the station of the Exterminating Army, taking turns, all the time.

Obviously, Tiangong has made up his mind and will not give up unless he destroys the garrison of the heavenly army.

When Lu Ming left the gate, he planned to go around, relax, and then practice in retreat.

He does not need to participate in maintaining the formation.

Those who destroy the Heavenly Army have high hopes for him, and his purpose is to cultivate and improve his cultivation.

Because other people have limited potential, there will be no improvement in just over a thousand years.

But Lu Ming and other peerless arrogances are different. They have unlimited potential. If they can improve, they will be the greatest wealth for the Heaven Extinguishing Army.

"Look, what is that?"

Suddenly someone shouted in shock.

Lu Ming couldn't help looking out of the station.

Rumble!

Roar! Roar! ...

Outside the resident, behind the strong man in Tiangong, there was a violent roar, accompanied by the roar of the beast, and then, the devilish energy rolled over the sky.

"Devil, it's a devil!"

Many people yelled.

That's right, in the devil qi, there are demons, and they are all very powerful demons, all of them are demons in the Demon Lord Realm (Divine Lord).

Each demon is filled with a strong devilish energy, huge in size, and the devil's wings spread out to cover the sky.

Looking at the number, it looks like six or seven thousand.

Six or seven thousand are equivalent to the demons of the God Realm.

What surprised the Celestial Army people most was that these demons stopped not far from the Heavenly Palace masters, and did not attack the Heavenly Palace people.

"Take a shot and break open the rebel's residence."

Ye Immortal waved at the demons and gave orders.

"kill!"

All the demons roared, madly rushing towards the extermination army station, attacking one after another, blasting towards the extinction army station.

At this moment, all the people who destroyed the Heavenly Army were shocked and dumbfounded.

"How could this be? How could the devil obey the orders of the Celestial Race?"

"What's going on here? Don't the devil have a big feud with the Celestial Race? It's a natural deadly enemy. Why does it help the Celestial Race?"

"What happened in the dark universe?"

Countless people from the Heaven Extinguishing Army shouted, full of doubts.

The demons and the celestial race are mortal enemies, fighting each other for endless years. Since the endless years, the two sides have suffered countless deaths and injuries, and there is no room for relaxation.

But now the devil actually obeyed the orders of the Celestial Race to attack them.

Moreover, the Heavenly Palace can pull out all the masters guarding the dark universe, and the facts are in front of them, and they can't help but believe them.

Many people's hearts sink, and their faces become more ugly.

It was originally the Heavenly Palace alone, they couldn't handle it, even if they tried their best to control the formation, they could only last for a thousand or hundreds of years at most.

Now that there are so many demon powerhouses, the time they insist on will be greatly reduced. If they can persist for seven or eight hundred years, it is not bad.

The situation is becoming more and more unfavorable for destroying the heavenly army.

Facing the devil and the masters of the heavenly palace, once the battle is broken, they will have only one dead end, and it may be difficult for them to escape.

But there is no other way, you can only continue to control the formation to resist, and expect a miracle to happen.

After six or seven thousand demon masters joined, the master of the heavenly palace withdrew thousands of people.

With the addition of demons, the number of Tiangong has exceeded 22,000, close to 23,000.

Divided into two batches, each with more than 11,000 people, the attack intensity was much greater, and the energy consumption of the Heaven Extinguishing Army's garrison formation also increased a lot.

"My strength is far from enough. I must continue to improve my strength. If it is really broken, only a lot of people can enter the prehistoric ring, and I will kill again..."

Lu Ming thought.

His family, his friends, he must guard.

He has a prehistoric precept, which allows many people to enter.

However, he also needs to have the ability to guard the prehistoric precepts and the ability to break out of the siege.

He will continue to improve his strength.

Chapter 4719: Xie Nianqing is in danger

Lu Ming continued to retreat.

However, without the Precious Precepts, there are only a few hundred master-level magical medicines left in his hands, which can't help him break through his cultivation base. Therefore, in the rest of the time, Lu Ming will focus on comprehending the secret technique and the word war.

The Zhanzi Jue has nine times the combat power, and the chance of him triggering is not great. As the understanding deepens, it will be more and more free to use.

And the more you understand the secret technique, the stronger the taboo will be.

Lu Ming entered the canyon where he had learned the secret technique before, and with the help of the original divine sound, he fell into a deep retreat.

Time, day by day, month by month, year by year passed.

In a blink of an eye, it was five hundred spring and autumn.

Over the years, Lu Ming used the ancient divine stone to comprehend the secret technique faster and faster.

The last time Lu Ming retreats for 300 years, he only comprehended more than a hundred kinds of secret techniques similar to ancient secret techniques.

In the past five hundred years, Lu Ming had fully realized more than 400 kinds of secret techniques similar to the ancient secret techniques.

Adding more than one hundred kinds before, there are more than five hundred kinds.

These five hundred kinds of levels are similar to the Great Ancient Secret Art, and each one is comparable to a Great Ancient Secret Art.

With more than 500 kinds of secret techniques similar to the ancient secret technique, Lu Ming's taboo power became stronger and stronger, and its power became more and more amazing.

In the first battle at the same level, Lu Ming's combat power was rapidly increasing.

Now, in a battle at the same level, facing opponents like Ye Qiuxian, Lu Ming can easily win with confidence.

Of course, facing opponents like Ye Immortal, Lu Ming still had no idea.

"The ball has been upgraded by another level, reaching the eighth level of the gods. Unfortunately, the lack of materials, otherwise the ball will improve faster."

Lu Ming whispered.

Over the years, the ball lacked the broken source-level magic weapon, only swallowed some metal materials, and refined the energy remaining in the body before, and its cultivation reached the eighth level of the **** master.

To reach the eighth level of the Divine Master, if you want to upgrade, you must eat new incomplete source-level magical weapons or simply source-level magical weapons, or materials of the same level, otherwise it will be difficult to upgrade.

All the **** eaten before are refined and cleaned.

"It's been five hundred years, I don't know how the formation is going outside?"

Lu Ming was a little worried.

According to previous speculations, the Celestial Extinguishing Army can defend at most two to three hundred years.

Lu Ming left the canyon, rushed into the sky, and looked outside.

Celestial race and demons are still attacking.

However, after five hundred years, the formation of the Heaven Extinguishing Army's garrison has dimmed a lot. Every time it is attacked, it will vibrate violently, causing waves of ripples.

Seeing this, it really won't last for 300 years.

Anxiety and tension hung on the faces of all the members of the Heaven Extinguishing Army, and the crises weighed on them, making them a little breathless.

"Not good!"

Lu Ming sighed lightly.

It's really bad if this continues.

Is it true that the extermination of the heavenly army is really going to perish like the forces that resisted the heavenly palace before?

"Lu Ming, you finally appeared."

Suddenly, outside the station, there was a loud roar.

The roar came through the formation.

Lu Ming glanced over and found that the person who yelled was Ye Qiuxian.

"Why? I want to single it out again? Yes, let the people in the temple retreat. I'll go out and fight you."

Lu Ming said loudly.

"Hehe, who is going to challenge you? Don't use such an inferior procrastination plan."

Ye Qiuxian sneered and said: "Lu Ming, I just want to tell you a piece of news. You rebels, and some people are scattered outside, or are practicing in some places. There is a woman named Xie Nianqing, I heard that it is you. His wife, by coincidence, was discovered by our door not long ago."

"what?"

Hearing this, Lu Ming's heart was shaken.

Xie Nianqing, was discovered by the people of Tiangong? How is it now?

Lu Ming's heart became a little anxious.

However, his face did not show up, pretending to be calm, and said: "Hehe, nonsense, Xiaoqing is in the resident of the Exterminating Army. How can you find out that you want to trick me out and mess up my mood?"

"Nonsense? Haha, that location is Boundless Demon Abyss, our people, will soon take her down. Then, you can see if I am talking nonsense."

Ye Qiuxian laughed.

Lu Ming's heart sank.

At the beginning, Feihuang indeed sent Xie Nianqing to the Boundless Demon Abyss to practice. The other party knew the specific location, so he was right.

Xie Nianqing is facing a crisis.

Click!

Lu Ming's fists were clenched tightly together, and a rich murderous intent filled his heart.

Then he turned and flew in one direction.

"Lu Ming!"

With a soft cry, a figure appeared in front of Lu Ming.

It's Tang Jun.

"Lu Ming, are you going out to rescue Xiaoqing? This must be a conspiracy of the Heavenly Palace. They will definitely ambush a large number of masters in Boundless Demon Abyss. If you go, it is tantamount to throwing yourself into the trap."

Tang Jundao.

"I know, but I must go!"

Lu Ming spoke, his tone unwavering.

Does he know that this trip will be very dangerous, but he must go.

He absolutely can't just sit back and watch Xie Nianqing fall into a crisis.

"I will go with you!"

Tang Jundao, she knew she could not stop Lu Ming.

"No, you don't need to go, I'm all alone."

Lu Ming said.

"I must go, how to say, Xie Nianqing was also my sister in the previous life."

Tang Jundao.

"I said, I'm all alone, you will only get in the way if you go."

Lu Ming said coldly, he didn't want Tang Jun to go on an adventure with him, this trip would be very dangerous.

And he was telling the truth. Although Jun Tang's cultivation level broke through the first level and reached the seventh level of the Divine Lord, which was the same as Lu Ming, his combat power was definitely not Lu Ming's opponent.

Besides, Lu Ming still has the ball and the bone demon. He acts alone and is more confident. Bringing a Tang Jun will really get in the way.

"you..."

Tang Jun glared at Lu Ming, she had never been so despised before.

But what made her vomit blood was that she found it impossible to refute that Lu Ming's combat power was indeed above her.

Huh!

Lu Ming stepped, shaped like a phantom, disappeared here, leaving Tang Jun alone, standing in a daze.

Soon, Lu Ming came to a large hall.

There is a wormhole in this hall, which can go directly outside.

The Exterminating Army naturally left a way for itself, with several wormholes leading to several different locations in the ruins of the universe.

If the big formation is really broken, the Exterminating Army will arrange for some people to move and escape through several wormholes, leaving a fire for the Exterminating Army.

Right now, Lu Ming was going to pass through this wormhole to temporarily leave the Exterminator's garrison and head to Boundless Demon Abyss.

"Lu Ming, you really want to leave, this trip will be very dangerous."

The 'lion' appeared silently and not far away.

"I must leave."

Lu Ming said.

"That's good. If you can rescue your wife, don't come back. Find a place to hide, practice with peace of mind, and wait for the cultivation to reach the highest level, before you go to the Heavenly Palace."

Lion Road.

Chapter 4720: Go to Boundless Demon Abyss

Shi did not persuade Lu Ming to stay. He knew Lu Ming and knew that Lu Ming had made a decision and would not change it easily.

"If I don't die, I will definitely come back."

Lu Ming said silently in his heart.

How could he not come back, his family and friends are still here, how could he not come back?

The reason why he didn't plan to take his family and friends out of Honghuangjie together was because his trip was really dangerous.

Following him, he might die, and the prehistoric jealousy fell into the hands of Heavenly Palace.

Staying here, there are at least two to three hundred years of safety, and there may be a turning point.

"Take care!"

Finally, the 'lion' said this way.

"Don't worry, I will be fine!"

Lu Ming smiled, then stepped into the wormhole in the hall and disappeared.

I don't know how long it took, maybe a few hours, maybe a day or two later, Lu Ming appeared on a small continental debris.

"Here, there should be a smoke area, and it should not be far from the Boundless Demon Abyss."

Lu Ming took out a map of the ruins of the universe and watched it.

There are several wormholes in the Exterminating Army's garrison. The one that Lu Ming chose was the closest to Boundless Demon Abyss.

After knowing his position, Lu Ming's figure flashed, and he flew quickly in the direction of Boundless Demon Abyss.

Boundless Demon Abyss, even in the ruins of the universe, is relatively remote. Few people come here.

Boundless Demon Abyss, on a piece of continental fragment, around this piece of continental fragment, there are almost no other continental fragments, it is empty.

After a while, Lu Ming came to the vicinity of this continental fragment.

Looking from a distance, the entire continent fragment was enveloped by a strong devilish energy, and I couldn't see through the situation inside.

Lu Ming converged his breath to the extreme and rushed directly to the mainland debris.

He was up to 120,000 points of energy. In this fragment of the continent, it is very possible that there is a strong man from the heavens in ambush, he dare not care.

Soon, Lu Ming rushed through the thick devilish energy and landed on the mainland.

This continent is deadly silent, full of strong magical energy, without any plants, what greets you are bare rocks and mountain peaks.

"Where is Boundless Demon Abyss?"

Lu Ming whispered.

The fragments of this continent are big or small, and it takes a lot of effort to find the Boundless Demon Abyss.

"Lu Ming, heading to the north, I can sense that the devilish energy in the north is the strongest. The Boundless Devil Abyss may be there."

The bone demon's voice remembered in the sea of consciousness.

Lu Ming's eyes lit up.

By the way, Bone Demon, but the first Demon Bone in the Primordial Universe, is the ancestor of Demon Dao, so naturally, he can't be more sensitive to Demon Qi.

Maybe this trip, bone demon can play a big role.

Lu Ming no longer hesitated, and flew quickly to the north.

Along the way, I didn't meet a master of Tiangong, nor did he encounter any danger.

After a while, a large palace appeared in front of Lu Ming.

This palace looks dilapidated. It has gone through years of wind and frost, and I don't know how many years it has existed.

Most likely, it was left over from the last era.

"Lu Ming, the place with the strongest devilish energy is behind this palace."

Bone Demon Road.

Lu Ming nodded, not planning to go through this palace, but going around from one side, planning to go around this palace.

Huh!

Suddenly, in the hall, a few rays of light flew out at an alarming speed.

There are three rays of light, one sword light, and two spear lights, which are extremely sharp.

"The strongest heavenly power is a master of the heavenly human race."

Lu Ming's heart moved without any hesitation. The God of War Spear appeared in his hand. The God of War Spear shook and stabbed out. Three spear lights burst out and pierced the light of the three killers.

boom! boom! boom!

Three collisions broke out, and three attacks were blocked. Lu Ming was shaken back by a powerful force. After moving back ten thousand meters, he stabilized his figure.

In front, three figures appeared.

"Tianjun!"

Lu Ming narrowed his eyes slightly.

Sure enough, there were three celestial races, and they were all Heavenly Monarch-level figures at the peak of God Lord.

At this moment, the three Heavenly Monarchs stared at Lu Ming with wide eyes, with deep shock in their eyes.

Just now, the three of them joined forces and were actually blocked by Lu Ming.

They could clearly sense that no one else took action, and it was Lu Ming himself who blocked him.

Lu Ming's combat power was actually so strong that he fought against the three heavenly monarchs with one person's power?

"Join together and kill him!"

One of the heavenly monarchs roared.

Huh huh!

The three heavenly monarchs flashed out and joined forces to kill Lu Ming.

This time, they urged their combat power to the extreme, with all kinds of killer moves pouring out, and they must kill Lu Ming.

"Bone Demon, leave it to you!"

Lu Ming's heart moved.

The next moment, the Bone Demon flew out from Lu Ming's eyebrows and turned into a huge black skeleton with his palm like a magic knife, cutting out continuously.

when! when! when!

After three consecutive bangs, the attack of the three heavenly monarchs was blocked by the bone demon.

"kill!"

The bone demon roared and launched a counterattack.

However, the combat power of the three heavenly monarchs is also very strong. Although the strength of the bone demon is strong, it is extremely difficult to defeat the three heavenly monarchs.

For a time, it was difficult for the two sides to distinguish the outcome.

However, there are obviously more than these Heavenly Palace masters ambushing here.

In the hall, human figures flickered, and several more figures rushed out at an astonishing speed. Before the people arrived, the attack was already on Lu Ming.

Tianjun again!

There were also three of them, but one of the attacks made Lu Ming's muscles tighten.

Terrible, terrifying, Lu Ming felt a fatal crisis.

Among them is a heavenly monarch, whose strength is amazing.

"Ball ball!"

Lu Ming didn't hesitate to pass the sound to the ball, the ball turned into an armor, covering Lu Ming's body.

Huh!

Lu Ming urged the God of War Spear, swept out, and collided with the three attacks that had come.

Two of the attacks were blocked by Lu Ming, but the other one was really terrifying, directly through the God of War Spear and bombarded Lu Ming.

Lu Ming shook his body and retreated violently.

Fortunately, the armor of the ball resisted, and the opponent's attack was blocked.

"This person has such a strong combat power, much stronger than ordinary heavenly monarchs."

Lu Ming stared at one of the heavenly monarchs.

This person is the tallest, wearing a silver armor and holding a silver spear.

Obviously, this is a terrifying heavenly monarch, a peerless evildoer.

This person, Lu Ming had never seen before, should have been guarded in the dark universe before, and had not participated in the fight for the human body.

He felt that in a battle of the same level, this person's combat power was stronger than that of the Bone Demon.

Lu Ming had triggered nine times the combat power of Zhan Zi Jue just now, and he could not stop this person's attack.

Lu Ming estimated that he needed to inspire the power of the origin to compete with this person.

In order to deal with him, Tiangong really laid down the blood, and actually ambushed six heavenly monarchs here.
