

D Emperor 4731

Chapter 4731: Mysterious figure

In the Sea of Yuanxin, there are no creatures, except for the nine-color sea water.

Lu Ming searched for seven days, but found nothing.

"Go out and see if Xiaoqing finds it."

Lu Ming rushed out of the sea.

In the sea water, because of the impact of a powerful force, the sound transmission jade talisman cannot be transmitted.

Not long after he came to the sea, Lu Ming really received news from Xie Nianqing. Upon finding out, Lu Ming immediately flew in the direction of Xie Nianqing.

Lu Ming flew at full strength and soon found Xie Nianqing.

"Xiaoqing, what did you find?"

Lu Ming asked.

"Go down and take a look!"

Xie Nianqing said.

When the two entered the sea, Lu Ming's eyes lit up immediately.

Because the sea here is different from what he had explored before.

There are many swimming fish in the sea here.

These swimming fish are also colorful and colorful.

Lu Ming took a closer look. There were nine colors of these swimming fishes, but they were similar to those of sea water.

The key point is that these swimming fish are not life forms, but a kind of energy composition, but they are very similar to real life, their eyes are very smart, and they are not afraid to see Lu Ming and Xie Nianqing, swimming beside them. Swim away, looking at the two curiously.

"Wonderful, clearly not a living body, but it contains spirituality."

Lu Ming sighed.

"Along this direction, there will be more and more fish of this kind."

Xie Nianqing said.

"Go, go and see!"

The two moved forward. Sure enough, the more they moved forward, the number of colorful swimming fishes increased.

This kind of swimming fish did not have any aggressiveness. The most curious one looked at Lu Ming and Xie Nianqing a few times before swimming away.

The two of them kept moving forward. A day later, Lu Ming estimated that they were almost at the center of the Sea of Origin.

At this time, the two made another discovery.

They discovered that many plants appeared in the sea, and these plants were also in nine colors.

And here, the impact of the sea water is getting stronger and stronger.

The two of them were just about to move on, when suddenly, the sea in front of them violently fluctuated and turned into huge water columns, rushing towards them.

The two were shocked and quickly dodged, but the water column became more and more dense in the end.

bump!

Lu Ming was finally hit by a jet of water, and the powerful force made Lu Ming retreat again and again.

"It's such a strong power, but there must be something weird here, maybe Qiuyue is in front of you, break it for me!"

Lu Ming took out the God of War Spear, used the Heaven Breaking Stone, and stabbed it at a water column.

With a touch, this water column was directly pierced and exploded.

Xie Nianqing also took action, sacrificing a source-level magic weapon, and smashed several water columns in succession.

The two no longer dodge, and unite, break the water column from the impact, and move on.

Wow!

Suddenly, all the water columns disappeared, but the water was still flowing fast, and finally, they gathered together into a figure.

This is a figure from the nine-colored sea water, which can be cleared out. It is a woman who is very beautiful. Depending on her grade, she looks like she is about thirty years old.

She stretched out her hand and pressed it, and immediately, endless sea water swept towards the two of Lu Ming.

Lu Ming and Xie Nianqing wanted to dodge, but they found that their bodies could not move and were frozen by the nine-colored sea water.

At this time, the two were shocked.

But no matter how much they resist, it is useless, the difference is too great.

The endless sea water around turned into two big hands, holding Lu Ming in their hands.

However, it was just caught in his hands and did not attack further.

"It's such a strong power, the Divine Master Realm. It is absolutely impossible to have such a strong power. This is definitely the power of the Origin Realm. However, under the Great Tribulation of the Origin Realm, the existence of the Origin Realm does not have to be self-styled and dare not come out. It is so possible here. Is there a strong man in Origin Realm?"

Lu Ming's thoughts turned sharply, somewhat unbelievable.

"The other party does not seem to exist in the original realm, not a living body..."

Xie Nianqing said, her previous life was after all the existence of the Origin Realm, and she saw something.

"Here, don't enter, you leave!"

The figure condensed from the sea water actually spoke.

Lu Ming was overjoyed.

If the other party can speak, there is room for discussion, and the other party seems to have no intention of killing them, otherwise, with their strength, the game would be over.

"Senior, we are here to find someone. You can see a young woman named Qiuyue who has been here."

Lu Ming yelled.

"What is the relationship between you and him?"

The silhouette of the sea water condensed.

"I..."

Lu Ming glanced at Xie Nianqing.

"He is Qiuyue's husband."

Xie Nianqing pointed to Lu Ming.

"Oh, it turned out to be you, Qiuyue mentioned it, you found it, but she."

After finishing talking about the condensed figure in the sea water, on the other side, the sea condensed another figure, who could not be Qiuyue.

"Yes, it's her."

Lu Ming was overjoyed.

"Let's go, I can't see her now, she is accepting my inheritance."

The silhouette of the sea water condensed.

"what?"

Lu Ming and Xie Nianqing were both taken aback.

"Senior, you don't know anything. The people in Tiangong will probably find here soon. It will be detrimental to Qiuyue. If Qiuyue stays here, it will be very dangerous."

Lu Ming called.

"Tiangong?"

The sea condensed figure whispered, and then asked: "What kind of power will be dispatched when the Heavenly Palace comes here? As long as it is not above the Origin Realm, I can keep Qiuyue comprehensive."

"Above the origin level? What a big tone."

This was Lu Ming's first reaction. Of course, it was just a thought in his heart that he didn't dare to say.

"Senior, this won't be true. Now that the Great Tribulation of the Origin has come, the existence of the Origin Realm is self-proclaimed, and the strongest is the pinnacle of the Divine Lord."

Lu Ming said.

"Have you actually come to the origin of the catastrophe now?"

The sound of sea water condensation seems very surprising.

This surprised Lu Ming and Xie Nianqing. The person in front of them was definitely an existence at or above the origin level, otherwise, they would not have such a strong strength.

But how can such a character know that the origin of the catastrophe has come?

Doesn't it mean that the Great Tribulation of the Origin is coming, and the entire universe, no matter where it is, as long as it is in the Origin Realm or above, it is unavoidable?

"Senior, won't you be affected by the Great Tribulation of Origin?"

Lu Ming asked.

This is definitely a major event. Now that the origin is from the confession, and the strongest is the god, if the existence of the origin is not affected, wouldn't it be able to sweep the universe?

"I have already fallen, so naturally I won't be affected by the Great Tribulation of Origin."

The silhouette of the sea water condensed.

what?

Lu Ming and Xie Nianqing were both shocked. The person in front of them is already a fallen person?

Is it a trace or brand left by the other party who talked to them?

"Well, let me tell you about me in detail, otherwise, you won't leave without worry..."

"Like Qiuyue, I used to have the Sacred Heart of Nine Orifices..."

The condensed figure of sea water began to elaborate.

Chapter 4732: First Nine Orifices Sacred Heart

Lu Ming and Xie Nianqing were shocked when they heard what the sea condensed figure said.

This person once also had the Sacred Heart of Nine Orifices?

As far as they know, in this era, since the opening of the wild universe, only two people have possessed the Sacred Heart of Nine Orifices.

Before Qiuyue, there was only one person.

That person is a legend in the prehistoric universe.

Unparalleled in talent, but alone, without joining any forces, practicing alone, there is very little record of that person.

All I know is that at least that person had the cultivation base of the Origin Realm in the end, but then suddenly disappeared and never appeared again.

Therefore, there are not many records about the Sacred Heart of the Nine Orifices in the universe.

Could it be that the figure condensed in the sea water in front of him is the person in the legend, or maybe this person is the existence of the last era.

However, as the person continued speaking, Lu Ming and Xie Nianqing finally understood.

It turned out that this person was really the only nine-aperture sacred heart in the universe before Qiuyue, named Zhong Yu.

I have to say that Zhong Yu is really a master of the world, with rare talent. He has the Sacred Heart of Nine Orifices, and he fumbles alone without anyone pointing him. Refer to the experience of similar practitioners of the Sacred Heart of Seven Orifices or the Sacred Heart of Five Orifices. , Groping out his own way, the cultivation base is advancing by leaps and bounds, and crushing the same generation.

She stayed away from disputes and practiced alone. When her cultivation reached the Divine Master Realm, she entered the ruins of the universe, hoping to find the follow-up cultivation method of the Sacred Heart of Nine Orifices in the ruins of the universe.

She believes that in the last era, there must be someone with the Sacred Heart of Nine Orifices.

She hopes to find the practice of the Sacred Heart of the Nine Orifices from the last era.

It is a pity that she spent countless years and did not find the complete Nine-Aperture Sacred Heart practice. However, she also found the incomplete Nine-Aperture Sacred Heart practice, letting her make sure that in the last era, someone was pregnant. The Sacred Heart of Apertures, and there are still a lot of them, some people have cultivated to the realm of detachment.

In the end, Zhong Yu forcibly relied on the incomplete Nine-Aperture Sacred Heart cultivation method, coupled with his own talent, to cross the mountains of the original realm and step into a new realm.

Although this state is not detached, it is far stronger than the original state.

However, that realm was too difficult, with many catastrophes, and every step of murder. Without any experience and no previous guidance, she finally had a big problem.

In the end, she still didn't break through, and fell under the catastrophe. The location was in the sea of primordial heart.

However, although she had fallen, the remaining imprint and the core of strength, the Nine Apertures Sacred Heart, inadvertently merged with the Sea of Origin Heart.

It is equivalent to that she is the sea of origin.

In this way, endless years passed, and she saw countless people come to the Sea of Origin Heart and then left.

Until eight or nine hundred years ago, Qiuyue came here.

Since the endless years, Zhong Yu was naturally ecstatic when the first Nine Orifices Sacred Heart came here.

She can't stop here.

Also, she didn't have a way to go, and she was not willing to stop here, she needed someone to walk for her.

So after some trials, she planned to pass on what she learned to Qiuyue.

"So, Qiuyue is now accepting the inheritance of seniors?"

Lu Ming asked.

"Yes, but this road is difficult. I don't have previous experience and I can only explore it on my own. Therefore, I need to be very cautious. I have to avoid the misunderstandings I have gone through before. There are a lot of things to learn and the time to pass on Longer."

Zhong Yudao.

"How long does that take?"

Lu Ming asked.

"It can be as short as a thousand years, or as many as it is, it's hard to say, depending on her understanding."

Zhong Yudao.

Lu Ming sighed, it seemed that he could not take Qiuyue away now.

But Qiuyue had such a chance, she was also happy for Qiuyue.

Otherwise, Qiuyuehui, like Zhong Yu, had no one to give pointers, it would be too difficult to comprehend it purely on his own.

"Senior, if Tiangong finds this place, is it really all right?"

Lu Ming said again, still a little worried.

"Don't worry, although I can't leave forever, but in this sea of origin, I can still exert some strength. Don't say that it is the great calamity of the origin now, and the origin can't come. Even if it is the origin, I can stop it and protect it. Autumn and full moon."

Zhong Yudao.

Hearing Zhong Yu's words, Lu Ming felt relieved.

In fact, Qiuyue staying here to accept the inheritance is the best choice.

It can not only enhance strength, but also has an unpredictable existence to protect, there will be no danger.

Follow him to leave, and most likely face a fierce battle next, which will be even more dangerous.

"Xiaoqing, let's go!"

Lu Ming turned his head and smiled at Xie Nianqing.

Ok!

Xie Nianqing nodded, and the two turned and left. After the two left, the condensed figure of the sea also dissipated, and calmness in the sea was restored.

Soon, Lu Ming and Xie Nianqing left the Sea of Yuanxin.

"Lu Ming, where do you go next?"

Xie Nianqing asked.

"The nearest place to this place should be the Wanhua Ruins. Dandan is there. Let's find Dandan first."

Lu Ming said.

Afterwards, the two headed towards the place where Dan Dan was.

After more than a month, the two came to the ruins of Wanhua.

In the void ahead, there was a piece of continental debris floating.

The two quickly approached and landed on the edge of the continent.

"Be careful, don't continue to enter, here, the crisis is revealed everywhere."

The Bone Demon flew out at some point, raised his eyes and looked into the distance, warning Lu Ming and Xie Nianqing in this way.

Lu Ming and Xie Nianqing both nodded, but they could actually see it.

Here, the terrain is extremely complex, with mountains stacked and dirty, and peaks stand tall.

Some of these mountains are like a dragon, some are like a phoenix...

Some are like swords, some are like spears...

However, these mountains seem to be connected to each other, and there is a terrible breath that gives people a strong sense of crisis.

Lu Ming had a feeling that as soon as he set foot on these peaks, he would be met with a terrible attack.

"Formation!"

Lu Ming understood that there were terrible formations everywhere.

"Senior Feihuang said, this is the relic left by the great forces of the formation of the last era. There are formations everywhere. I am afraid it will be difficult for us to enter."

Lu Ming said.

"More than that, many of the formations here are innate. Although many of them are broken, they are absolutely terrifying."

Bone Demon Road.

He has lived for a long time, and he is also very good at playing together.

"It's better to transmit the sound to Dandan. If we can't find him, we will leave. There is a huge array here. Even if the temple comes here, most of us will not be able to catch Dandan."

Lu Ming said to Xie Nianqing. After speaking, Lu Ming took out the sound transmission jade talisman to transmit sound to Dandan.

Originally, Lu Ming didn't have any expectations, but unexpectedly, Transsion succeeded.

Soon, Lu Ming received Dan Dan's reply, and asked them to wait for him here, and he would come soon.

Lu Ming and Xie Nianqing waited here. They waited for three days, but they still didn't see any traces.

Chapter 4733: Living formation

"This guy Dandan is still so unreliable."

Lu Ming curled his lips.

Once they reply to the news, let them wait for a while, his 'one meeting' is three days?

"Lu Ming, look..."

At this time, Xie Nianqing pointed forward.

Lu Ming looked up and found that there was a cloud of glow in front of him, and various glows flickered from time to time.

At the same time, it was accompanied by bursts of screams.

"No!"

"Enough, enough, I'm not playing here!"

"Oh, I'm so painful!"

"Are you friends?"

Amid the screams, Lu Ming and the two saw a tortoise, rushing towards here.

The tortoise stood upright, the shell on the back became larger, and the two retreated and ran wildly in the void, which looked really...wretched.

Needless to say, this tortoise is not Dandan, but who can it be?

Behind Dandan, a bunch of creatures followed.

No, to be precise, these are not creatures, because they are not living bodies, but are composed of energy.

It seems that they are all small, only the size of a palm, and come in various types, such as those with the appearance of a bird, a tiger, and a sword.

At a glance, there are a dozen of them.

"Formation spirits, these are formation spirits, the formation here is really amazing, so many formation spirits actually formed..."

The bone demon exclaimed.

Array spirit!

The hearts of Lu Ming and Xie Nianqing were also shocked.

Generally, only extremely advanced formations, after a long period of time, and by chance, can the formation spirit be born.

Lu Ming had encountered it before, but the odds were very small.

Here, I saw a dozen of them all at once.

More than a dozen array spirits, chasing Dandan, made a chirping sound, and burst out a glow from time to time, bombarding Dandan's body, turning Dandan in the air continuously.

Soon, Dan Dan was approaching Lu Ming and the others.

Lu Ming, Xie Nianqing, and the three bone demons were a little uncomfortable, and quickly backed away. Those were all formation spirits, and they could urge the formation here to attack them at any time. This was no joke.

"Don't be afraid, they are all my friends, oh, stop spanking, my ass, if you hit again, I will break with you..."

Dan Dan yelled.

Don't say, this is really effective. The dozen or so array spirits really stopped and looked at Lu Ming curiously from a distance.

"A few of them are also my friends. Go back, and my friends and I will reminisce about the past."

Dan Dan said to a dozen array spirits.

More than a dozen spirit chirps screamed for a while, and they all retreated.

Dan Dan flew in front of Lu Ming.

"Dandan, if you have you, you actually became friends with the Array Spirit."

Lu Ming smiled.

"You don't look at who this seat is. This seat is born for the formation of the Dao. As soon as those formation spirits see this seat, they will naturally worship this seat."

Dan Dan turned into a little Taoist appearance with a proud face.

Lu Ming smiled in his heart, this guy was bragging again.

Who was the crying father and mother who was beaten just now? This guy became friends with those spirits, and most of them suffered.

But Lu Ming didn't bother to expose him and save him some face.

"Dandan, how many levels of your cultivation have reached the Divine Master?"

Lu Ming looked at Dan Dan, but a mysterious power shrouded Dan Dan's body, covering his breath.

This should be the power of a certain formation.

"Divine Lord Fifth Layer, how about you, will not be suppressed by me."

Dan Dan proudly said, a pair of small eyes stared at Lu Ming, the eyes flickered clearly, don't be taller than me, don't be taller than me...

Then he was disappointed.

Lu Ming showed a trace of breath.

"Divine Lord Seventh Layer, you guy is really perverted. Over the years, my cultivation base has skyrocketed. I didn't expect it to be better than you."

Dan Dan's face immediately pulled his hips down.

But the next moment, he immediately jumped up.

Because Xie Nianqing also showed a trace of breath.

"God Lord Kunou, you...you...perverted!"

Dan Dan screamed and was hit hard.

"Well, Dan Dan, let's get down to business, something big happened."

Immediately, Lu Ming briefly recounted what had happened over the years.

Dan Dan's face became gloomy.

"Unexpectedly, this is less than a thousand years old. This is what happened in the Great Universe. Lu Ming, go, I will leave with you. These years, I have not cultivated in vain. I want to let the tribe of heaven and humans taste me. It's amazing."

Dan Dan called.

"Don't say goodbye to your friends?"

Lu Ming said.

"It's okay, I can notify them at any time."

Dan Dan said, stepping out to the outside.

"Dandan, what chance do you have for practicing in the ruins of Wanhua these years."

Lu Ming asked curiously.

"Of course there is. I am not what I used to be. Although my cultivation base is only fivefold, but you may not be able to easily defeat me. There is a chance to give you a surprise, hehe..."

Dan Dan returned to his usual appearance again, with a smug expression on his face, and then asked, "Lu Ming, where are we going next?"

"This place is relatively close to the Wanling Immortal Palace. Let's go to Yuwei."

Lu Ming said.

After a while, they came to the Ten Thousand Spirits Palace.

The Immortal Palace of All Souls is very peculiar. It is completely connected by countless ancient trees to form a huge palace.

However, it is already incomplete, and if you look from a distance, you can see that many places are damaged.

This Ten Thousand Spirits Immortal Palace was also left over from the last era.

Lu Ming first took out the sound transmission jade talisman to transmit sound to Ling Yuwei.

However, the news could not be spread at all.

"Let's go, let's go in and take a look."

Lu Ming said, first fly towards the Ten Thousand Spirits Palace.

The Immortal Palace of All Souls is very huge. Although it looks like a palace, its area is not smaller than a piece of mainland debris.

A group of people descended on a branch, and they were like dust compared to the branch.

Lu Ming and others walked along the branches to the depths of the Immortal Palace.

But after walking for a while, they found that they were always moving outside and it was difficult to enter the depths of the Immortal Palace.

They continued to move forward, but the result remained the same.

"What's the matter? Is there a formation here?"

Lu Ming frowned and looked at Dan Dan.

"There is indeed a formation, but this formation is extraordinary..."

Dan Dan said, frowning slightly.

"How to say?"

Lu Ming said.

"Because the formation here is alive."

Dan Dan said.

"Living formation?"

Lu Ming, Xie Nianqing, and Bone Demon were a little surprised.

"Yes, the formation here is entirely composed of the surrounding ancient woods. Each ancient wood is a part of the formation, and these ancient trees can move continuously. When we just walked, these ancient trees were silent. It's hard for us even to detect movement."

Dan Dan said.

"Dan, do you have a way to break it?"

Lu Ming asked.

"No!"

Dan Dan answered very simply.

Lu Ming was a little speechless, and said sarcastically, "Didn't you say that you were born for the formation. This time you have a great opportunity in the Wanhua Ruins. How come you can't crack a formation at random?"

Chapter 4734: The blood-stained continent

Hearing Lu Ming's words, Dan Dan was immediately upset, and his eyes widened and shouted: "What do you know, this formation is integrated with the entire palace. If you crack a part, it will be automatically repaired immediately, unless you He destroyed the entire temple, or took control of the entire temple, otherwise I wouldn't want to crack it."

Lu Ming stopped talking. He knew that Dan Dan was right. In terms of formation, Dan Dan was indeed an expert.

"Let's walk around and see if it really doesn't work, so forget it."

Lu Ming said.

Xie Nianqing, Dan Dan and Bone Demon have no objection.

They understood that Lu Ming wanted to walk again, mainly to confirm whether this formation was really so mysterious and whether it was safe or not.

If it is safe, let Ling Yuwei continue to practice here.

Later, Lu Ming and the others tried several more times, and the results were the same. They had been wandering around the outside of the palace, unable to reach the core part.

In the end, Lu Ming gave up.

"Let's go, let's go to the next place, time and space ocean."

Lu Ming said.

They tried so many times here, and there was also the formation of Dan Dan, and everyone couldn't walk in, so even if the people from the heavenly palace came, they would definitely not go in.

Ling Yuwei staying here to practice is safer than following them, so there is no need for Ling Yuwei to come out.

Their next goal is the place of bubble cultivation, the sea of time and space.

However, when they came to the ocean of time and space, they stopped far away.

The space-time ocean is a very remote place in the ruins of the universe. It is not a real ocean, without any sea water.

Here, there is only a vast void.

There is no matter in this emptiness, nor any creatures.

The void is constantly twisting, constantly changing, unpredictable.

After a while, it seems that there are dozens of layers of space appearing, but after a while, it seems that there are hundreds of layers of space emerging...

Such a scene made everyone stop.

After that, Lu Ming took out the sound transmission jade talisman, but he couldn't transmit it at all.

"The ocean of time and space is full of power of time and space. It must be impossible to transmit sound."

Dan Dan said, after finishing speaking, Dan Dan waved his hand, and a hand of magic soldiers flew out, flying to the sea of time and space.

This is a master-level magic weapon.

An astonishing scene happened. When the main level magic weapon flew into the ocean of time and space, the main level magic weapon quickly disintegrated and turned into dust and dissipated.

Before and after it was just a breath of time, a master-level magic weapon was silently turned into ashes.

Everyone took a deep breath, the main level **** soldiers ended up like this, and the practitioners entered, and most of them were not much better.

"Unless people who control the power of time and space, it is impossible to enter this place, even if the existence of the Origin Realm comes, it is difficult to enter it."

Bone Demon frowned.

"That's right. Bubbles are safe to stay in. Let's go. Let's go to the next place, the Land of God's Fall."

Lu Ming said.

The land of the fall of the gods was the place where the original gods and the celestial races battled at the end of the era of the first gods.

This battle determined the direction of the prehistoric universe.

In the end, the Celestial Race won, founded the Celestial Palace, and dominated the universe, while the primitive gods were almost beheaded to death, and only a few remained, fighting against the Celestial Palace.

This battlefield also took place in the ruins of the universe.

There were too many masters who participated in the war. If it happened in the starry sky of the universe, I don't know how much damage it would cause.

The Land of the Fall of God is composed of many continent fragments.

These continental fragments are large and small, and many small continental fragments surround the largest continental fragment.

These continental fragments were all blood red, stained red with blood.

"The legend says that this place was once a whole piece of continent fragments, which was larger than the Qianqiu Battlefield. Later, in a battle between the primitive gods and the Celestial Race, the continent was forcibly shattered. It's red."

Xie Nianqing said.

Several people said as they walked towards the land of God's Fall.

Sure enough, the continent fragments floating in the void were all red, filled with terrible energy.

Here, the fallen and powerful primitive gods and the Celestial Race, the blood contains the killing intent of these powerful men, which will last for hundreds of millions of years.

At this point, everyone was more cautious.

Because of this place, there used to be masters of the Celestial Race all year round here, and maybe you will meet the masters of the Celestial Race.

However, everyone went all the way, and did not meet the people of the Celestial Race.

Everyone estimated that the Celestial Race had already transferred their masters to attack and destroy the Celestial Army garrison, so the Celestial Race was not seen here.

Soon, everyone set foot on the largest continent.

This continent looked blood red everywhere, and the air was filled with terrible steam engines.

On the mainland, there are pits and bumps, which seem to tell the tragic war of the year.

Fortunately, other than that, there was nothing unusual, and no bones of any primitive gods were seen.

After Lu Ming thought about it, he realized that the original **** was defeated. This place must be occupied by the Tiangong, and the Tiangong mostly transported the body of the original god.

The corpse of the primitive **** is full of treasures, which is of great benefit to cultivation.

Everyone speeded up and moved towards the center of the continent.

As they deepened, they found that there was a layer of blood in the air, and the blood became thicker as they went to the core of the mainland.

These blood qi contained terrifying Qi and also terrible aggressiveness, like steel needles, which had to penetrate into the bodies of Lu Ming and others.

Lu Ming and the others blocked this kind of energy.

The three of them continued to move forward, but their blood became stronger and stronger, and in the end even their vision was greatly affected.

Roar!

Suddenly, a terrifying roar came from the front.

Lu Ming immediately heard that this was the roar of the primitive god.

"front..."

Dandan exclaimed.

The crowd hurried forward quickly, and then they saw several huge figures fighting.

Every figure is huge, standing upright, reaching more than one million feet.

"All Gods!"

Lu Ming recognized at a glance that one of the figures was a god. He made his body huge and huge, and displayed a variety of secret techniques to fight three figures alone.

The body of the other three figures is no smaller than the gods, but they are not real creatures. These three figures are formed by the condensed blood.

Although it looks real, it is natural to see how insight Lu Ming and others are.

It is the three primitive gods condensed by blood, fighting fiercely with all gods.

"Good fellow, the gods have reached the seventh level of the gods, this place is really suitable for him, and it is estimated that he has received great benefits."

Dan Dan cried, envy and jealousy.

After not seeing him for more than 800 years, he discovered that Lu Ming, Xie Nianqing, and the cultivation bases of all gods were far above him.

He became the one with the lowest cultivation base.

And Qiuyue, Paobao and Ling Yuwei's cultivation base do not know, if they are also above him, he will vomit blood.

Chapter 4735: To the dark universe

The battle between the gods and the three primitive gods condensed in blood was extremely fierce.

The gods are brave and invincible, and their bodies are full of inexhaustible power. With every punch, there are several terrifying secret arts bursting out to attack powerful enemies.

But the most terrifying thing is his fist, with unmatched power and destructive power, which is more terrifying than any secret technique.

All gods, like a **** of war invincible in battle.

However, the three primordial spirits of blood and energy are also very powerful, and the battle with the gods is inextricable.

"The three primitive gods with condensed blood and energy should be the primitive gods who have fallen here, and the remaining immortal will. They use blood as their body to accompany the gods to fight, to help them cultivate."

The Bone Demon spoke, and the soul fire in his eyes was beating.

"It's no wonder that Senior Feihuang will bring all the gods here. This place is really suitable for all gods."

Lu Ming nodded.

Lu Ming and others did not disturb the cultivation of the gods.

Soon, half an hour passed.

The more the gods fought, the more courageous they began to suppress the three primitive gods who had gathered blood.

In the end, one punch completely defeated a blood primordial god, and then launched a fierce attack, smashing the last two blood primordial gods.

Afterwards, the body of the gods shrank quickly, turned into a normal size, and flew towards Lu Ming and the others.

"Lu Ming, why are you here?"

Pantheon asked curiously.

"Of course I went out to fight with you, something big happened."

Before Lu Ming spoke, Dan Dan yelled first.

"What happened?"

Wanshen's face changed.

"Is such that..."

Dan Dan began to explain, and Lu Ming was also happy.

"What, this kind of thing happened. No wonder I haven't encountered a celestial race in the past few years. That's how it is, let's go and we will go back immediately."

The gods yelled.

"God, don't be impulsive!"

Lu Ming waved his hand and stopped the gods.

"Somehow the Celestial Clan actually controlled the devil. Now the powerhouse of the Divine Master Realm alone has exceeded 20,000. In the past, we used to hit the stone with an egg, and did not have any effect."

Lu Ming said.

"Then what shall we do?"

Pantheon.

"The gap between the two sides is too big, we must find a helper."

Lu Ming said.

"Helper, how can we have a helper, now even the devil is controlled by the heavenly palace, how can there be a helper?"

Pantheon.

"Lu Ming, you are not looking for the Yaxian clan, as far as I know, the wolf-zig ambition of the Yaxian clan is hidden deeply, I am afraid it will not help us."

Xie Nianqing said.

She has memories of previous lives and knows nothing less than Tang Jun.

"The Yaxian clan is indeed unreliable."

Lu Ming said.

When fighting for the human body in the halo world, he had dealt with the Yaxian clan.

The strength of the Yaxian clan is absolutely beyond imagination, he can see it, it seems that even Ye Immortal is a little jealous of the Yaxian clan.

However, the ambition of the Yaxian clan is definitely not small. For so many years, it has been very low-key, but when the human body appeared, it made a high-profile shot, which was absolutely extraordinary.

Looking for their help is extremely unlikely.

"Then what to do?"

Pantheon asked.

"Dark Universe!"

Lu Ming suddenly spoke.

"what?"

This time, even Xie Nianqing and Dan Dan were taken aback.

Dark universe? Is Lu Ming looking for help from the devil? are you crazy?

Besides, isn't the devil controlled by the Celestial Race?

"The devil has been a feud with the Celestial Race since ancient times. The strength of the two sides is not very different. How could it be suddenly controlled by the Celestial Race? Something must have happened here."

"I plan to go to the dark universe and investigate clearly what happened. If the devil can get rid of the control of the Celestial Race, the situation will be reversed immediately."

"In addition, this time, the Celestial Race only sent 7,000 to 8,000 demon masters. It stands to reason that the number of demon masters of the devil is definitely more than 7,000 or 8,000. If the celestial race truly controls the demons, the number of demons sent should be More than seven or eight thousand, maybe there is something hidden in it?"

Lu Ming analyzed.

That being said, Xie Nianqing, Dan Dan, Wanshen and others all felt reasonable.

If it is possible to find out what happened in the dark universe, or to find a way to get the demons out of the control of the Celestial Race, then the danger of the Celestial Extinguishing Army's station will naturally be eliminated.

If it had been before, they had no way to enter the dark universe, nor did they dare to enter the dark universe.

One is the entrance of the dark universe, guarded by the four heavenly palaces, there are a large number of powerful people, they simply can't get in.

There is another, even if you can enter the dark universe, you will be killed by the strong demon.

But now is different.

Now it is the Great Tribulation of the Origin, and all the strong in the Origin Realm are self-proclaimed.

And the Heavenly Palace has mobilized almost all of the Divine Master Realm to attack and destroy the garrison of the Heavenly Army, including some demon powerhouses.

Now entering the dark universe, they have the power to protect themselves.

Afterwards, everyone discussed the specific details and headed towards the dark universe.

There is more than one entrance to the dark universe. They chose the entrance to the dark universe guarded by the Dream Palace.

After a few months, they finally arrived at the entrance to the dark universe of the Dream Palace.

In the starry sky of the universe, a huge abyss is like a hole in the starry sky.

The abyss is huge, comparable to one, like dust.

Around the abyss, there are hundreds of stars surrounding. In the past, on these hundreds of stars, these countless heavenly powerhouses were stationed.

Among them, the existence of the God Realm is definitely not a minority, and there is even the existence of the Origin Realm.

However, when Lu Ming came before, his cultivation base was still too low, and he could not sense the location of the divine master or origin.

"At the beginning, the heavenly officials said that the five heavenly temples all guarded such an entrance to the abyss. However, the fifth heavenly palace is mysterious and unpredictable, and no one knows where it is. In the starry sky of the universe, no one has seen it, and really guarded it. An abyss entrance, or is it fake?"

Lu Ming thought to himself.

"On those stars, there are people from the Heavenly Palace guarding them, but the number is not large, the strength is not strong, and there is no **** master."

The Bone Demon's Spiritual Consciousness is so powerful that he swept through the stars one after another, and no one found him.

"It seems that the devil is really controlled by the Celestial Race. Otherwise, the Tiangong will definitely not be so relieved. Only such a few people are stationed here."

Lu Ming said.

However, there is no divine lord here, but it is convenient for Lu Ming and the others.

Dan Dan used an array to cover up his breath and body shape on everyone, and they quickly flew to the entrance of the abyss, and no one found them.

Entering the abyss, they continued to descend, their speed increased many times compared to the speed at which Lu Ming first came here.

When Lu Ming came for the first time, he took part in the examination of the heavenly soldiers and followed the heavenly officials.

Now, in just half an hour, it landed to the end.

On the ground below, there is a giant city built by the Heavenly Palace, named Nantian City.

It used to be used to resist demons, but now, not many people guard it.

Chapter 4736: The Four Kings of Demons

In Nantian City, Lu Ming and the others swept around in their spiritual sense, and none of the gods found it, and there were not many guards.

Moreover, the guardian formation of Nantian City was not activated, and it was not in a defensive state at all.

It seems that the dark universe has become the back garden of the heavenly palace.

There was no god, and naturally no one found Lu Ming and the others. They easily passed through Nantian City and entered the realm of demons.

Among the demons, there are countless large and small forces, and they are divided into different levels by the heavenly palace according to the strength of the power and the degree of danger.

Level 1, Level 2, Level 3, Level 4, Level 5...

When Lu Ming participated in the assessment of the heavenly soldiers, he entered the second-level area, which was full of countless demons.

Once non-demonic creatures are found entering, they will attack.

But this time, Lu Ming and the others entered the territory controlled by the devil, but they were not attacked by the devil, because all the demons were controlled.

Controlled by the Celestial Race.

Lu Ming and the others discovered that in every demonic power, there are one or two celestial races in charge, and all the demons are obedient and obedient to the celestial race.

Seeing this scene, Lu Ming and others' expressions were very gloomy.

They continued to move forward, passing through a large number of demonic forces, whether it was level two or level three, or four poles and level five demon forces, they all obeyed the demon clan.

"What happened in the dark universe? Why do all the demons obey the orders of the Celestial Race?"

The gods spoke, shocked.

"It's not a few powers, it looks like almost the entire dark universe is the same, what means can achieve such an amazing effect."

Xie Nianqing said, even if she has memories of her previous life and is well-informed, she can't guess what happened.

Anyway, this is definitely not a good thing for the Exterminating Army.

"Take a few celestial races and interrogate you."

Lu Ming said, and then began to act, and silently entered a fifth-level demon force, and took down a celestial race guarding here.

This Celestial Race only has the cultivation base of the Divine Emperor Realm, and naturally there is no resistance at all.

A remote place...

"You, you are Lu Ming, you are so bold, dare to come to the dark universe..."

The **** emperor of the Celestial Race recognized Lu Ming at a glance and roared in horror.

He didn't expect that Lu Ming was so courageous, at this moment, he would dare to enter the dark universe.

"I'm too lazy to talk nonsense with you, what happened in the dark universe? How do you control the devil?"

Lu Ming asked coldly.

"You don't want to know a word from my mouth."

The Celestial God Emperor roared.

"Really, you really have a backbone. Unfortunately, not everyone is so backbone. If you don't say it, some people will naturally say, go."

Lu Ming spoke indifferently. In the horrified eyes of the Celestial God Emperor, he stepped on his foot, and the Celestial God Emperor's body was torn apart and fell on the spot.

Then, Lu Ming and the others went to another demon force and took the Celestial Race that was sitting there for interrogation.

As Lu Ming said, not everyone is so spineless. When the third person was interrogated, that person said obediently.

"It's the Demon Ancestor Insect, the Lord Lord, spread the Demon Ancestor Insect into the air of the dark universe. The Demon Ancestor Insect is so small that it can pass through the air and enter the body of every demon. The Demon Ancestor Insect will erode the devil. Devil ancestor insects erode, so we can only obey our orders obediently, just like puppets."

The third Celestial God Emperor spoke out in a trembling voice.

"Magic Ancestor?"

Lu Ming, Xie Nianqing, Dan Dan, Bone Demon, and Ten Thousand Gods were all shocked because they had never heard of it.

"What is the Demon Ancestor? Where did it come from?"

Lu Ming asked.

"I don't know, this is the top secret of my clan, even if many Lord Lords don't know it, we only know to perform the task."

Heaven and Human Race God Emperor Road.

"Are the demons in the dark universe controlled by the Celestial Race, or are there some demon forces that have not been controlled?"

Lu Ming asked again.

"There are indeed demonic forces. They are not controlled by the Demon Ancestor Insect. We don't know what's going on?"

Heaven and Human Race God Emperor Road.

Lu Ming and others' eyes lit up.

"Where are those forces distributed?"

Lu Ming continued to ask.

"The devil has four royal families, two of which have been controlled by us, and two of them have not been controlled. I have a map of the dark universe here. You can take a look."

The Celestial God Emperor spoke and took out a map from the storage ring.

Lu Ming took it, power input, and a map appeared out of thin air.

Sure enough, it was a map of the dark universe, and the big and small forces of the dark universe were clearly marked on it.

Including two demon kings that are not under control.

"Everyone, I have told you everything I know, can you kill me?"

The Celestial God Emperor looked at Lu Ming and the others nervously.

He said all this to survive.

puff!

He hadn't reacted yet, and the gods took action, killing him with a single move.

"It's naive to know that we have come in and want to survive."

Wan Shen sneered, his eyes full of murderous intent.

"Go, let's find the two uncontrolled demon kings."

Lu Ming said.

Xie Nianqing, Dan Dan, the gods did not say much, and followed Lu Ming.

With a map, they don't need to look for it blindly, and in today's dark universe, almost no one can stop them, so they are very fast, and soon, they are close to the territory occupied by one of the demon kings.

The first demon king they came was called the Purple Eyed Demon Race.

There are four great royal families of demons. They are the strongest power of the dark universe demons. They have powerful bloodlines, far above other demons, and the strongest strength. The four great royal families occupy two-thirds of the dark universe.

Other demon forces at all levels are almost all affiliated forces of the four royal clans.

"kill!"

"Kill them!"

Lu Ming and the others were flying. Suddenly, there were bursts of killing calls, and cold murderous intentions flooded Lu Ming and others like a tide.

Then, among the surrounding mountains, huge burly figures burst out.

These figures have wings on their backs. They are all demons, and they are very powerful. They have all reached the realm of the gods. Among the demons, they are called the devil.

A total of dozens of demon masters killed Lu Ming and others.

Lu Ming's five people are so sharp, they reacted immediately, resisted, and blocked all these attacks.

"The comer is very strong, you step back and leave it to us!"

From high in the sky, a majestic voice came, and then violent pressure pressed them down at Lu Ming, and then a few terrible attacks attacked Lu Ming and them.

God's pinnacle!

No need to look, Lu Ming and the others also knew that the above attack was made by a strong man at the pinnacle of the gods, which was very terrifying.

Chapter 4737: Purple Eyed Demon

The high-altitude attack on Lu Ming and the others, the existence of Absolute Demon Lord Pinnacle, is very powerful, and the number is quite large.

"give it to me!"

The Bone Demon roared forward, and he didn't need a source-level magic weapon, his dark palms were continuously split.

bump! bump! bump!

With multiple roars, the figure of the bone devil landed back to the original place, nothing happened, and the demon lord peak at high altitude was violently retreated.

Only then did Lu Ming discover that there were a total of seven demon lord peak figures in the sky, but facing the bone demon, they were completely at a disadvantage.

At the same time, Lu Ming also discovered that these demons were very different from the demons Lu Ming had seen before.

These demons are only slightly taller than the human race, their stature is a bit slender, and at the same time, they look closer to the human race.

The demons that Lu Ming encountered before were all with wide-mouthed fangs and hideous faces.

And these demons won't, their appearance is almost the same as the human race, but there are still a pair of demonic wings behind them.

And their eyes are all purple.

Purple-eyed Demon Race!

Lu Ming understood that these people should be one of the four demon kings, the strong of the purple-eyed demon clan.

These people were not controlled by the Celestial Race.

At this moment, the seven demons looked at the bone demons in shock.

The strength of the Bone Demon is too strong, and the seven of them are not opponents when they join forces.

"Good strength, it seems that there is a top heavenly monarch from the heavenly palace. Very good. Killing you is not a small loss to the heavenly palace."

Not far away, there was an indifferent voice, and then a group of people stepped into the air.

There are hundreds of people in this group.

All of them are purple-eyed demon clan, and each demon exudes a terrible aura.

The demon master, hundreds of people, are actually the existence of the demon master realm.

"The lackey of Tiangong, kill!"

One of the demon masters stepped out, holding a dark magic knife, and exuding a terrifying aura.

The devil's wings behind him flapped, and his figure was like a black lightning, rushing towards the bone demon.

This person actually wants to fight the bone demon alone.

The magic knife slashed out, the terrible light of the sword, straight to take the bone devil's head.

The bone demon is fearless, confronts the enemy with the palm of the bone, and shoots out with one palm.

With a bang, the bone palm met the opponent's magic knife, and a violent roar broke out. The demon master shook his body wildly and retreated violently. The magic knife in his palm was unexpectedly popped out of a gap.

That is the main level magic weapon, not the source level magic weapon.

"It's naive to want to fight me alone, just by relying on you. In front of me, it's like a trick."

The Bone Demon coldly shouted, shaped like lightning, and slew towards the opponent. The palms of the bones were continuously split, and the opponent kept backing away.

Around, the other purple-eyed demons were very surprised.

The demon master who shot, but the top demon master in the demon clan, among the demon masters, there are few opponents, but when encountering the bone demon, he is not an opponent at all.

The strength of the opponent is also amazing.

In fact, this demon lord is not that he is not strong, on the contrary, his strength is amazing, and his combat power is almost close to the four strongest heavenly monarchs.

Even if it's worse, it's not too far off.

Unfortunately, he was restrained by the bone demon.

The bone demon is the ancestor of the demon way, and the demon is also a demon. The opponent's demon energy is restrained by the bone demon, and its combat power is completely unable to be displayed.

"Let's make a shot together, and tell the gangsters of Tiangong to be fair."

"Yes, let's go together."

The other demons roared, and suddenly, a dozen demons pounced on Lu Ming and others.

"Stop everyone, we are not from Tiangong."

Lu Ming roared.

"Don't want to quibble, do you think we will believe?"

"Kill them!"

More than a dozen powerful demons approached Lu Ming and the others in an instant, bursting out a terrible attack, pouring towards Lu Ming and the others.

boom!

Lu Ming had no choice but to make a move, took out the God of War Spear, and banged against the presence of the two Demon Lords in a row, blocking the opponent's attack.

At the same time, Dan Dan, Wanshen, and Xie Nianqing all shot.

The tortoise shell behind Dandan suddenly grew bigger, and the tortoise shell was covered with dense runes.

These runes are so tiny that they are almost indistinguishable by mortal eyes.

Countless tiny runes are intertwined to form a different formation.

These were not available before, and they were obviously obtained from the ruins of Wanhua.

One of the rune formations filled the sky with radiant brilliance. Suddenly, a few huge shields appeared in the sky. Several demon masters' peak attacks bombarded these shields, but they did not break through.

"Hahaha, let you taste the grand formation of the previous era in this seat."

Dandan laughed triumphantly.

On the other side, Xie Nianqing fought against the existence of the peaks of several demon masters alone, and did not lose the wind at all.

Roar!

The gods roared, their physique increased sharply, their bodies boiled with energy and blood, their muscles agitated, and a punch exploded the attack of a demon master's peak existence.

"The divine power of the gods has changed."

Lu Ming's heart moved.

The divine power of the gods was originally extremely powerful among the original divine powers, but now it has changed and become even more terrifying.

This, like 'Xi', Xi's divine power has also changed.

However, the divine power after the miraculous transformation seems to be stronger and more terrifying than 'Xi'.

The Bone Demon is only the Seventh Layer of the Divine Lord, and can fight the existence of the Demon Lord's pinnacle alone. In terms of combat power, although it is slightly inferior to Lu Ming, it is not far behind.

Around, those demons were dumbfounded.

Completely shocked, the combat power of Lu Ming and others was too strong.

All of them are perverted evildoers.

When did the Tiangong have so many perverted evildoers?

"These people can't let it go. Taking this opportunity to kill them all will definitely cause the Tiangong to suffer heavy losses."

"Yes, shoot!"

More demons shouted, and they wanted to attack together to kill Lu Ming and the others.

"Everyone, misunderstood, we are not from the Celestial Palace, we are from the Celestial Exterminator, and we are here to cooperate with you."

Lu Ming continued to roar.

"Fart, who would believe you."

A demon who fought with Lu Ming shouted and continued to attack.

"stop!"

At this time, a clear voice sounded.

This voice seemed to have a kind of magic power. After it sounded, the demons all stopped and backed away.

Lu Ming looked for fame, and what he said was a young demon.

And still a woman.

This woman is almost indistinguishable from the human race. She has a slender figure, explosive talent, wearing a purple dress, and a pair of purple eyes like gems. Even if she is placed in the human race, she is a peerless beauty.

But Lu Ming was sure that the other party must be a demon.

Although the devil's wings on the back were stowed away, the breath exuding was definitely the breath of the devil.

Its cultivation base is in the sixth layer of God Lord.

"Princess, these people must be the peerless evildoers carefully cultivated by Tiangong, won't you get rid of them?"

A demon said.

"They may not be from the Celestial Palace. They said just now that they were from the Celestial Army."

The young woman smiled.

Chapter 4738: The origin of heaven, man and demons

The young woman smiled, full of style.

Through the dialogue, it is not difficult to see that she is the princess of the purple-eyed demons.

"Princess, don't trust each other."

The devil advised.

"You are right!"

The devil princess nodded, looked at Lu Ming and the others, and said, "Do you have any way to prove that you are not from the Celestial Palace, but from the Celestial Army."

"This also proves that the primitive gods and the Celestial Race are immortal. I am a primitive god. How can I be a member of the Celestial Palace."

The gods drank.

"You are right, the primitive gods are indeed immortal with the Celestial Race, and you are indeed the primitive gods, but the primitive gods controlled by the Celestial Race in history are not one or two."

The Devil Princess smiled.

"you..."

The gods are speechless for a while.

"So, what about the taboo body?"

Lu Ming spoke.

"Forbidden body?"

The devil princess' eyes lit up and said: "I once heard that the forbidden body and the Celestial race are even more deadly enemies, and are naturally opposed. Could it be that some of you are the forbidden body?"

"I am a taboo body."

Lu Ming said.

"Are you a forbidden body?"

Almost all the demons looked at Lu Ming.

"Princess, we have never been in contact with a forbidden body. He said he is a forbidden body, and we can't tell it."

There is Devil Road.

Lu Ming was speechless, and these demons were also cautious.

However, it is understandable that now that the devil is in crisis, whoever he is, he must be more cautious.

"Do you still have evidence to prove that you are from the Heaven Destroying Army? If it can be proved, we can sit down and talk."

Devil Princess said.

"simple!"

Lu Ming smiled and calmly took out a shadow stone.

At the beginning, in the halo world, they competed for the body of the human king, and everyone was suppressed in the battle of the gods.

Quite a few people secretly recorded it with the Respiratory Stone, especially the scene of Lu Ming and Ye Immortal's battle.

Feihuang had also seen Lu Ming's battle with Ye Immortal before he judged Ye Immortal's true identity.

In order to study the origin technique used by Ye Immortal, Lu Ming also rubbed a copy of it and carried it on his body. Now it can come in handy.

The picture of Xiyingshi emerged, showing him fighting against the Celestial Race.

Seeing this picture, there is no doubt that Lu Ming was the one who destroyed the Heavenly Army.

Because this cannot be faked, there are thousands of gods on both sides on the screen.

"They are really the ones who destroy the Heavenly Army."

The demons around finally took away their breath.

The Devil Princess, accompanied by several masters, walked towards Lu Ming and others.

"Guys, sorry, there was a misunderstanding just now."

Devil Princess said.

"Understanding, we will be so cautious as we are."

Lu Ming said, putting away the shadow stone.

"Little sister Zixuan, what do you call you?"

Devil Princess said.

Lu Ming and others reported their names.

"Everyone, how did you get into this place, the people of Tiangong will not stop it? In history, there has never been anyone outside of Tiangong who entered here."

Zi Xuan asked curiously.

"As the earth has changed drastically today, the Heavenly Palace has dispatched all the masters to attack and destroy the constituency of the heavenly army, and there is no defense against the dark universe."

Then, Lu Ming briefly explained the current situation of the Great Universe.

"So, I didn't expect the situation to be so tense."

Zi Xuan's expression also became solemn.

"Princess Zixuan, since you are not under the control of the Demon Ancestor Insect, why don't you take the opportunity to make a move? Now Tiangong has no defense, it is a once-in-a-lifetime opportunity."

Lu Ming said.

If the devil can take action, it will be able to contain part of the power of the heavenly palace and destroy the heavenly army, and there will be more opportunities.

"It's not that we don't want to make a move, but we can't make a move."

Zi Xuan sighed.

"how do I say this?"

Lu Ming asked.

"Do you think we have not been affected by the Demon Ancestor Insect? All the demons in the dark universe, no demon can escape the influence of the Demon Ancestor Insect. We just suppressed it with a special method, but we can't suppress it for too long. To enter a specific location and re-suppress, otherwise, it will be completely eroded by the Demon Ancestor Insect."

Zi Xuan smiled bitterly.

The hearts of Lu Ming, Xie Nianqing and others sank completely.

It turned out that the purple-eyed demons had also been eroded by the Demon Ancestor Insect, but it was suppressed in some way, but they could not leave for a long time.

Then, isn't it that no one can control the palace?

"What is the Devil Ancestor? Is there a way to completely get rid of it?"

Lu Ming asked.

"Have!"

Zi Xuan said.

"What way, maybe we can help."

Lu Ming said.

"you guys..."

Zi Xuan seemed to have thought of something, a pair of purple eyes suddenly brightened.

"Speaking of Demon Ancestor Insects, we must start from the source. If you don't dislike it, how about going with me to Demon Capital?"

Zi Xuan said.

"can!"

Lu Ming nodded without hesitation.

They destroy the heavenly army and have no enmity with the ten thousand demons. On the contrary, they have a common enemy. He believes that the purple-eyed demon clan will not disadvantage them.

Immediately, Lu Ming, Xie Nianqing and others, followed Zixuan and others, headed towards the capital of Demon.

Demon City is the capital of the Purple Eyed Demon Clan, its full name is Purple Eye Demon City.

On the way, they learned that the origin realm of the purple-eyed demon clan had all been self-styled because of the arrival of the origin disaster.

Today, the purple-eyed demons are temporarily managed by Zixuan.

Zixuan naturally has brothers and sisters, but all of the brothers and sisters are the most talented Zixuan, and they are the first arrogant of the younger generation of the purple-eyed demons, and they have high prestige among the purple-eyed demons.

Soon, they came to the magic city, Zixuan set up a banquet, and everyone was eating and drinking while chatting.

"After many verifications, we finally found the origin of the Demon Ancestor Insect. If we infer it is good, the Demon Ancestor Insect should be the flesh and blood of the demon ancestor of the Celestial Race, plus some materials, refined by a unique method. It's done."

Zixuan explained.

"The flesh and blood of the ancestor of the devil? How could it fall into the hands of the Celestial Race?"

Lu Ming asked curiously.

"Lu Ming, don't you know the origins of the Celestial Race and our demons?"

Zi Xuan glanced at Lu Ming and asked.

"I don't know!"

Lu Ming shook his head. Not only him, Xie Nianqing, Bone Demon, Dan Dan, and All Gods also shook their heads, and then looked at Zixuan expectantly, wanting to hear some secrets from her.

"There is nothing to hide. The Celestial Race and the Demon Race are from the last era."

Zi Xuan said.

"what?"

Lu Ming, Xie Nianqing and others were all shocked in their hearts and their eyes widened.

Both the Celestial Race and the Devil Race were from the last era.

Are they the big clan of the last era? Are you a resident of the Primordial Continent? After the epoch change, has it been passed down to the present?

It's incredible.

Legend has it that at the end of the last epoch, the prehistoric continent broke out in a terrifying battle, the prehistoric continent was broken, everything was destroyed, nothing was left, and the entire universe was turned into ruins.

Celestial race and demons, can they survive?

Chapter 4739: Demon Ancestor Blood Crystal

"The Primordial Continent of the last era was mainly respected by the Human Race, the Monster Race, and the Witch Race. The three tribes almost ruled the entire Primordial Continent."

"And among them, the human race is the most powerful. The demon race and the witch race may not be as good as the human race, and the demon race and the demon race are actually servants of the human race."

Zi Xuan continued to explain, it was almost unbelievable, she continued to stun Lu Ming and others.

The Celestial race and the Devil race were actually servants of the Human race in the last era.

"Don't be surprised. This is how it is recorded in our ancient classics of demons, and the Celestial Race was not originally called the Celestial Race, but the Subhuman Race. It was renamed the Celestial Race in the New Era."

"It means the heavens of the human race, it is really ridiculous, thinking that the name can change the fact that they were once servants."

Zi Xuan mocked.

Lu Ming and the others were stunned. They didn't expect that there were so many secrets hidden behind this. What they knew before was probably just the tip of the iceberg.

"Later, the primordial universe broke out in a terrifying battle, and the primordial continent was shattered, generating devastating energy and obliterating all living creatures. Only when the celestial race and the demon race were lucky, some members of the tribe survived."

Zi Xuan continued.

"Legend has it that in the last epoch the wild continent was shattered, and even the 'extraordinary' died, and all living beings were going to perish. How did your demons and celestial race survive?"

Lu Ming asked curiously.

"We are just lucky."

Zi Xuan took an understatement, as if she didn't want to mention it.

Lu Ming's eyes flickered a few times, and he didn't ask much.

He knew that most of Zixuan had also concealed some things, but since the other party didn't want to say it, he didn't have a lot of questions.

After all, this is someone else's place.

"Back then, in the Great Continent, some of the ancestors of the Demon Clan participated in the battle, and died there. Most of them remained in the ruins of the universe, discovered by the Celestial Clan, and then used them to refine the Demon Clan insects."

"The level of the demon bloodline is very strict. The Demon Ancestor Insects they refined from the flesh and blood of the demon ancestors have a strong suppressive effect on us younger demons. Therefore, we will be easily eroded. Even the existence of the Origin Realm is difficult to resist. , Because that is from the suppression of blood."

Zixuan continued to explain.

Only then did Lu Ming and others understand the source of the Demon Ancestor Insect.

Demon ancestor insects were made by the demon ancestors who died in battle on the prehistoric continent by the Celestial Clan in the last era.

"Why do you demons and the Celestial Race are feuds? It stands to reason that you were once the subordinates of the Primordial Human Race..."

This time, Xie Nianqing asked.

In fact, this is also the question Lu Ming, Dan Dan and others want to ask.

"That's all because the Celestial Race is despicable and shameless, blocking our race in this dark universe..."

In Zixuan's eyes, there was a flame of hatred.

Lu Ming and the others were stunned. Could it be that the devil was not in the dark universe before, it was because of the Celestial Clan that they were in the dark universe.

"Speaking of this, it will involve a long story, and it is also related to why my purple-eyed demons can temporarily resist the Demon Ancestor Insect."

Zi Xuan continued.

Lu Ming and others pricked their ears to listen.

"The reason why the purple-eyed demon clan can temporarily resist the erosion of the Demon Ancestor Insect is because our clan has the powder of the Demon Ancestor Blood Crystal."

Zi Xuan said.

"Powder of Demon Ancestor Blood Crystal?"

Lu Ming, Xie Nianqing and others still looked confused.

They discovered that what they heard today was something they had never heard of before.

"Yes, the powder of the Demon Ancestor's Blood Crystal, as the name suggests, the powder of the Demon Ancestor's Blood Crystal is some powder that has been ground down from the Demon Ancestor's Blood Crystal."

"The blood crystal of the demon ancestor is the most precious treasure of the demons, so it is said that it is related to the birth of the demons. It is extremely ancient. It is the foundation and source of the demons. It is older than the ancestors of the demons."

"My clan melts the Demon Ancestor Blood Crystal Powder into the water, and then we soak in the water. With the help of the Demon Ancestor Blood Crystal Powder, we can suppress the Demon Ancestor Insect."

Zixuan explained.

Lu Ming and others understood.

The reason why the Demon Ancestor Insect can erode the devil is because the Demon Ancestor Insect is made from the flesh and blood of some ancestors of the devil, and suppresses the demons of the lower generations in the level.

The Demon Blood Crystal can also suppress the Demon Ancestor in level, so it can suppress the Demon Ancestor Insect.

"Unfortunately, the Demon Ancestor blood crystal powder on our hands is too small. After dilution with water, the power is reduced a lot. It can't destroy the Demon Ancestor insects in our body. It can only be suppressed in a short time. After a period of time, our body The Demon Ancestor Insect will become active again, and we have to re-enter the water and use the power of the Demon Ancestor Blood Crystal to suppress the Demon Ancestor Insect again.

Zi Xuan sighed.

"You mean, if the Demon Ancestor Blood Crystal powder is not diluted too much, you can completely wipe out the Demon Ancestor Insects in your body?"

Lu Ming asked.

"Yes, but the blood crystal powder of the Demon Ancestor in my clan's hands is really too small, and there are too many clan members, it is impossible to only save a few people, regardless of most other clan members."

Zi Xuan said.

"Then how can we get more Demon Ancestor Blood Crystal Powder, or, to obtain a complete Demon Ancestor Blood Crystal?"

Lu Ming asked.

"This is what I want to tell you about the origin of the grievances between the demons and the Celestial Race."

"Actually, the Demon Ancestor Blood Crystal is in the dark universe."

Zi Xuan said.

Lu Ming, Xie Nianqing and the others flashed their eyes, but they didn't speak, they knew that Zixuan would continue to speak.

"After the last era passed away, the era changed and evolved into today's prehistoric universe. The demons and celestial races luckily survived."

"Unexpectedly, the Celestial Race got the treasure of the Devil Race, the blood crystal of the Demon Ancestor from nowhere."

"They didn't return the Demon Ancestor Blood Crystal to the Demon Clan, but put the Demon Ancestor Blood Crystal into the Dark Universe, and then sent the news to the Four Demon Kings."

"The blood crystal of the demon ancestor is the devil's supreme treasure. The four kings want to control it in their own hands, so the four kings led all the demons under them and rushed into the dark universe and started the battle for the blood crystal of the demon ancestor. ."

"When the four great royal clans and their subordinates entered the dark universe, the Celestial Clan took the opportunity to block the entrance, preventing the demons from returning to the wild universe, and slaughtered all the demons remaining in the wild universe."

"In the beginning, the four great royal clans did not care because they were fighting for the blood crystal of the demon ancestor. When they reacted, it was too late and the exit was completely blocked. The blood crystals are fighting with each other, their vitality is severely wounded, and there is nothing they can do to rush out."

After Zixuan's explanation, Lu Ming, Xie Nianqing, Dan Dan and others finally had a general understanding of the grievances between the devil and the Celestial Race.

I also know why the devil stays in the dark universe.

Chapter 4740: Zixuan's request

According to Zixuan, at the beginning of this era, the strength of the demons was higher than that of the Celestial Race.

But because the four great royal clans killed each other, their strength was rapidly weakened. In the end, the overall strength became inferior to the Celestial Race, and the Celestial Race was blocked in the dark universe, making it difficult to get out.

"So, what about the Demon Ancestor Blood Crystal, your four royal clans competed and ended up in the hands of which clan?"

Lu Ming asked.

"Hey, no one got it."

Zi Xuan shook his head and sighed, and said: "The treasure box containing the blood crystals of the Demon Ancestor had long been placed under the barrier by the King of Human Race. When the four demon kings were fighting for battle, it accidentally triggered the barrier on the treasure box. , The barrier opens, covering all directions, and all the demons shrouded by the barrier are turned into ashes."

"At the beginning, there were many masters of the four royal families who died under the barrier."

"The barrier laid by the King of Human Race? It's the King of Human!"

Lu Ming was shocked.

"You already know that the demons used to be the servants of the prehistoric human races. The enchantment set by the king of humans has a strong restraint on demons. Therefore, even if the blood crystal of the demon ancestor is somewhere in the dark universe, every demon Everyone knows where the Demon Ancestor Blood Crystal is, but it just can't be obtained. As long as you step into the range of the enchantment, it will turn into ashes."

"This is the same for the Celestial Race. Once there were also Celestial Races who stepped in there and wanted to take away the blood crystal of the Demon Ancestor, but the result was also turned into ashes."

Zi Xuan said.

"Oh, there was a Celestial Race who wanted to take away the blood crystal of the Demon Ancestor?"

Lu Ming said curiously.

"Yes, the Celestial Clan wants to cut off the back of the Devil Clan, so that the Devil Clan cut off the path of cultivation, and has no resources to practice."

Zi Xuan said.

Lu Ming, Xie Nianqing, Dan Dan and others showed more curious expressions.

As if guessing the thoughts of Lu Ming and others, Zi Xuan continued: "Are you curious that the demons are trapped in the dark universe and cannot enter the ruins of the universe to find resources, how the Divine Master Realm and the Origin Realm are cultivated and how they are improved."

Lu Ming and others nodded immediately.

In fact, this question has been hidden in Lu Ming's heart for a long time.

In the Primordial Universe, once the cultivation base reaches the Divine Master Realm, one must enter the ruins of the universe to find resources for improvement.

For example, Honghuangjing, such as the main level magic medicine, can help the **** master realm to improve.

The treasures that contain the imprint of the origin can help the strong in the origin realm to improve their cultivation.

These, the stars in the universe are absent.

Logically speaking, there should be no dark universe. How did the demons improve?

If it can't be improved, without the supplement of the follow-up master, the devil would have been wiped out by the Heavenly Palace.

"It's still because of Demon Ancestor Blood Crystal."

"On the treasure box containing the blood crystals of the Demon Ancestor, although there are barriers and cannot be approached, the breath of the blood crystals of the Demon Ancestor continues to overflow, affecting a large area around it."

"In the area of hundreds of millions of miles around the Demon Ancestor Blood Crystal, all affected by the Demon Ancestor Blood Crystal will produce a kind of blood stone. This kind of blood stone, even if absorbed by the demon in the Demon Realm, can improve the cultivation level. "

"And among the bloodstones, it is very likely that a very high-level bloodstone will be born, even if it is a great help to the existence of the Origin Realm, it is like a treasure that contains the imprint of the origin."

"At this point, the Celestial Race never thought that they originally wanted to trap the demons in the dark universe. Without resources, the demons would become weaker and weaker and eventually be destroyed by them, but they never expected that the Demon Ancestor The blood crystals actually have

this effect, and they regretted it later, they wanted to take away the blood crystals of the Demon Ancestor, it was too late, and they couldn't get close to the blood crystals of the Demon Race."

Zi Xuan sneered.

Lu Ming and the others were stunned, it was so obvious, the cycle of cause and effect, the world is unpredictable.

"In the past few years, the Demon Clan has slowly recovered a trace of vitality with the blood stones produced by the blood crystals of the Demon Ancestor. If it weren't for the four great royal clans to have a deep grudge against each other and often fight each other, our strength would not be much worse than the Heavenly Palace."

Zixuan sighed, was silent for a while, and then said: "Well, the history of grievances between the Celestial Clan and the Devil Clan is almost done. This time, I would like to ask you to help us get back the Demon Ancestor Blood Crystal."

Lu Ming was shocked, and said, "The powerhouses of the Celestial Race and the Devil Race have not managed it. Do you think it can be done with us?"

"It's hard for others to say, but you two may be able to do it, because you two are humans."

Zi Xuan's gaze turned on Lu Ming and Xie Nianqing.

"The barrier was laid by the King of Humans. The Celestial Race and the Demon Race have terrible lethal power, but for the Human Race, it may not be lethal."

"Unfortunately, our demons are trapped in the dark universe, and there is no way to leave, so for a long time, we have not been able to find the help of human experts."

Zi Xuan sighed.

"The devil can't find the human race to help, can't the celestial race be found? Maybe the celestial race has already tried it with a human master."

Lu Ming said.

The Celestial Race has controlled the universe for countless years. During this period, it is very simple to find a few human masters.

"Impossible, I was naturally approached by the Demon Ancestor Blood Crystal once by the Celestial Clan. The four demon kings behind them sent a large number of masters to guard the Demon Ancestor Blood Crystal. The Celestial Clan never had the opportunity to approach the Demon Ancestor Blood Crystal."

"Lu Ming, you think about it. Only when we get the Demon Ancestor Blood Crystal, my clan can completely get rid of the erosion of the Demon Ancestor Insect, and then can we send troops to deal with the Celestial Race, and you can save the Celestial Army."

Zi Xuan said.

"Okay, I will help you get the Demon Ancestor Blood Crystal."

Lu Ming almost agreed without hesitation.

Because now there is no way out.

If you can't help the devil to relieve the erosion of the Demon Ancestor Insect, you can't let the devil send troops to deal with the heaven, and the crisis of destroying the heavens cannot be eliminated.

For the time being, there is only one way to go.

"Okay, happy, you guys rest for two days, two days later, we set off."

Zi Xuan said, holding up the wine glass and toasting Lu Ming and others.

Two days later, Zixuan led a group of masters to lead the way, and everyone headed towards the place where the Demon Ancestor's Blood Crystal was located.

"The location of the blood crystal of the Demon Ancestor was originally at the junction of the territories of the four royal clans. The four royal clans sent masters to guard them, and each occupied a territory to mine the bloodstone."

"But now because of the Demon Ancestor Insect, two of the four great royal clans have been controlled by the Celestial Clan. Only the Silver Wing and Purple Eyes have retained some of the Demon Ancestor's blood crystal powder and barely suppressed the Demon Ancestor. Insects can control themselves and move freely."

"Now around the Demon Ancestor Blood Crystal, there are only the Silver Wings, Purple Eyes and master guards."

Zi Xuan said.

"Silver Wing Clan, then if we go here, will the Silver Wing Clan stop us?"

Lu Ming asked.

"No, the four royal clans are actually divided into two factions, fighting each other. The Silver Wing and Purple Eyes are allies. When the blood crystal of the Demon Ancestor is taken out, the Demon Ancestor Insects of our two families can be eliminated. Both of our races will send troops to deal with the Celestial Race."

Zi Xuan said.
