

D Emperor 4741

Chapter 4741: King of People

Lu Ming and others were overjoyed.

If there are two demon royal families dispatching troops at the same time, he will have greater confidence in dealing with the heavenly palace.

It seems that this trip, Demon Ancestor Blood Crystal, must be obtained.

"In fact, at the beginning, the four great royal clans had some Demon Ancestor blood crystal powder in their hands, but the other two clans had long been used for other reasons, while the Silver Wing and Purple Eye clans have been retained. , Can only be said to be the blessing of the demon ancestor."

Zixuan sneered, her voice somewhat mocking, as if she was mocking the other two royal families.

The dark universe is very vast and its territory is endless. Although the area is far less than the starry sky of the universe, it is also extremely amazing.

It took them a few days to arrive at the location of the Demon Ancestor Blood Crystal.

This is a vast plain.

Demon Ancestor Blood Crystal is in the center of the plain.

Even if they are far apart, you can see the radiance in the center of the plain.

"The barrier on the blood crystal of the Demon Ancestor covers a radius of one hundred thousand miles, and we can't get close."

Zi Xuan said.

At this time, a group of demons flew over.

"Zixuan, are they the human masters you call?"

A burly demon asked.

This demon, their eyes are not purple like Zixuan, but black. However, his devil wings are silver, like silver casting, full of metallic texture.

His appearance is also very human, not so hideous.

Silver Wings!

Lu Ming and the others moved in their hearts, knowing that this is probably one of the four great royal clans, the strong of the Silver Wings.

"Yes, Yin Kong, they are the masters of the human race, from the Heaven Destruction Army. For the detailed process, I have sent someone to pass the news to you, I believe you have already understood."

Zi Xuan said.

"Understand, let's go!"

Yin Kong nodded, and a group of people walked towards the center of the plain.

Soon, when approaching the center of the plain, Zixuan, Yinkong and others stopped, and then they were approaching the enchantment area.

"In that treasure box is the blood crystal of the Demon Ancestor."

They stood high in the sky, Zixuan pointed to the front.

With Lu Ming's eyesight, it was easy to see things a hundred thousand miles away.

Sure enough, 100,000 miles away, there was a treasure box floating in the air.

From the treasure box, a layer of light was diffused, covering a radius of 100,000 li.

This layer of light mask is the enchantment under the cloth of the human king.

"Xiaoqing, you stay here and I can go alone."

Lu Ming said to Xie Nianqing, Dan Dan, Wanshen and others.

"No, I want to go with you."

Xie Nianqing shook her head immediately.

"Yes, we are going to go together, there are more people, and the opportunity should be bigger."

Pantheon continued.

"No, you can't go. You are not a human race. Going is dangerous and unpredictable."

Lu Ming immediately refused.

Neither the celestial race nor the demons can enter the barrier. Dandan, the gods, and the bone demons are not human races. The consequences of entering the barrier are unpredictable.

"I am a human race!"

Xie Nianqing looked at Lu Ming stubbornly.

In the end, Lu Ming sighed. Knowing that he couldn't hold back Xie Nianqing, he pulled Xie Nianqing's little hand and said with a smile: "Then let's be together!"

After that, Lu Ming took Xie Nianqing and flew forward. As he flew out, he took off the ball and gave it to the bone demon for safekeeping.

Although they are humans, they don't dare to be careless.

The two of them were covered with layers of defense, which raised their defenses to the extreme, and at the same time they were highly concentrated. If there was something wrong, they would immediately retreat.

The next moment, the two rushed into the range of the barrier.

It's okay!

After the two rushed into the enchantment, they were not attacked or turned to ashes.

The demons at the scene ecstatic.

"It's really okay, great!"

"Haha, my clan is saved!"

Zixuan, Yin Kong and others were all ecstatic.

Their demons, as soon as they stepped into the range of the barrier, they would immediately be attacked by the barrier and instantly turn to ashes, no matter how strong people come here.

However, Lu Ming and Xie Nianqing did nothing.

Sure enough, they were right, the enchantment that the King of Humans placed would not attack the Human Race.

However, in fact, it is not that nothing they imagined did not happen.

As soon as Lu Ming and Xie Nianqing stepped into the area where the barrier is located, they felt a strong pressure on them.

Fortunately, it is not difficult to resist this pressure with the cultivation base of the two.

"go!"

Lu Ming yelled softly, his strength exploded, and he rushed forward, stepping out a hundred miles away.

Xie Nianqing's speed is also extremely fast, not much slower than Lu Ming.

In less than a minute, the two rushed a distance of fifty thousand miles.

But after arriving here, the speed of the two is getting slower and slower.

Because, the closer they are to the treasure box, the greater the pressure on them.

At this point, they can no longer maintain the previous speed, they can only slow down and move forward slowly.

Outside the barrier, Zi Xuan and others also saw the problem.

"It seems that although they have not been attacked by the barrier, they seem to be under a lot of pressure."

Zi Xuan said.

"It should be, depending on the situation, the closer you get to the treasure box, the greater the pressure. I hope they can get to the bottom."

Yin Kong sighed.

All the demons had serious expressions, fearing that Lu Ming and the two would not be able to get the blood crystal of the Demon Ancestor.

Lu Ming and Xie Nianqing slowed down and kept moving forward at a constant speed. The distance between them and the treasure box kept getting closer.

Fifty thousand miles, four thousand miles, thirty thousand miles...

Soon, they were less than ten thousand miles away from the treasure box.

However, when they stepped into thousands of miles, Zou Ran strengthened on them.

Lu Ming and Xie Nianqing's bodies shook involuntarily.

The hearts of Zixuan, Yin Kong and others trembled as Lu Ming and their bodies shook.

"Xiaoqing, can you persist?"

Lu Ming asked.

"This little pressure, mean it!"

Xie Nianqing smiled and continued to move forward. On her body, a demon stele appeared vaguely, breaking the pressure.

That is the Immeasurable Demon Monument!

"I must go to the end and get the Demon Ancestor Blood Crystal. This is the only way to contend the Heavenly Palace."

Lu Ming roared in his heart, the battle power of Zhanzi Jue broke out nine times, the power of taboo ran wildly, and he kept stepping forward.

Ten thousand miles, nine thousand miles, eight thousand miles...

The distance continued to shorten, and eventually, they entered within a thousand miles.

Within a thousand miles, the pressure skyrocketed again.

bump!

Lu Ming and Xie Nianqing both shook their bodies wildly, and couldn't help but back off again and again.

Zixuan, Yin Kong and others were also shocked, their faces pale.

"Can't you rush over?"

Zi Xuan whispered, despair in her eyes.

If they can't get the blood crystal of the Demon Ancestor, then their demons will go to the end.

Their remaining Demon Race Blood Crystal Powder couldn't last too long. After a long time, the power of the Demon Ancestor Blood Crystal Powder was exhausted, and they could no longer suppress the Demon Ancestor Insect.

At that time, they will also be eroded by the Demon Ancestor Insect and become puppets of the Celestial Race, which is more uncomfortable than killing them.

Chapter 4742: Get the blood crystal

"I don't believe it, just break it!"

Xie Nianqing yelled, and the immeasurable demon monument emerged, suspended above her head, as if a powerful force poured into Xie Nianqing's body.

bump! bump! bump!

Xie Nianqing continued to step forward, stepping into the range of thousands of miles.

When Xie Nianqing stepped into the range of thousands of miles, if he was hit hard, his body shook wildly, and even the Immeasurable Demon Monument violently shook.

Xie Nianqing's body retreated violently again, a mouthful of blood spurted out, her face pale.

"Xiaoqing, don't force it. Next, leave it to me."

Lu Ming said to Xie Nianqing.

Then stepped out.

When he stepped, he turned his power to the extreme, and even the original power in the original seed burst out.

bump!

He also stepped into the range of a thousand miles, and suddenly, an overwhelming force pressed towards Lu Ming.

Lu Ming trembled and roared in his mouth, doing his best to resist this force.

"It would be great if the human king was physically on his body."

At this moment, Lu Ming had a thought in his mind.

The barrier here was laid by the King of Humans. If the King of Humans was physically on his body, he would probably be able to break through the barriers here and successfully obtain the Demon Ancestor Blood Crystal.

But now the human king's body is on Feihuang, and he has proclaimed himself along with Feihuang.

At the beginning, who could have expected such a thing to happen? Knowing this long ago, Lu Ming would definitely take the human body with him.

But now it is too late to regret.

Now, I can only rely on myself.

"broken!"

Lu Ming roared, his power running to the extreme, light spots appeared on his body, and these light spots were connected to each other to form a door.

In the door, a yellow mud road emerged, leading to the dark depths.

There is a pool of blood stains on the Huangni Road, fresh as ever.

At this time, the pool of blood stains suddenly emitted a bright brilliance, as if there was a force, rushing forward.

In a flash, the pressure on Lu Ming disappeared without a trace.

Lu Ming was stunned.

How is this going? How did the external pressure disappear?

Is it because of this pool of blood?

Just now, this pool of blood stains, exuding bright brilliance, was successfully captured by Lu Ming.

Yes, it must be because of this pool of blood.

What is the origin of this pool of blood stains, so mysterious.

This is the second time.

For the first time, in the burial sea of immortal blood on the Qianqiu Battlefield, Lu Ming faced a desperate situation and entered a strange state. At that time, this pool of blood stains changed, and a force of force poured into Lu Ming's body. Let Lu Ming's combat power skyrocket, killing a powerful enemy in one fell swoop.

And now, the blood stains changed again.

But this time is different from last time.

This time, Lu Ming didn't enter that state, blood stains and no power poured into Lu Ming, and Lu Ming's power did not increase.

The blood stains seemed to only eliminate external pressure.

why?

Why is the blood stain suddenly so? Was it being drawn by the enchantment laid by the king?

Lu Ming was puzzled.

However, this is not the time to think about this, it is important to get the Demon Ancestor Blood Crystal.

Without the pressure, Lu Ming's speed suddenly soared, like a bolt of lightning, rushing towards the treasure box.

In a flash, Lu Ming came to the treasure box.

"This..."

Zixuan, Yin Kong, and others were all dumbfounded.

I didn't understand why Lu Ming was about to be unable to bear it, but the speed suddenly soared and rushed to the treasure box.

The treasure box is half open, and in the treasure box lies a fist-sized gem.

Gemstones are blood-red, like condensed blood, exuding the breath of ancient times.

This is the Demon Ancestor Blood Crystal!

Lu Ming stretched out his hand to open the treasure box without any hindrance, and then took out the blood crystal of the Demon Ancestor in the treasure box.

Unobstructed.

Huh!

After getting the Demon Ancestor Blood Crystal, Lu Ming didn't stop at all, and quickly backed away, for almost 100,000 miles, but he was still within the range of the barrier and did not leave the barrier.

"got it!"

"The blood crystal of the Demon Ancestor is really the blood crystal of the Demon Ancestor. I can feel that the blood in my body is about to boil."

"How many years have passed, the Demon Ancestor Blood Crystal has finally been born again, hahaha!"

Around, all the demons were ecstatic and excited.

The Demon Ancestor Blood Crystal was finally obtained, and they were saved.

All the eyes of the devil stared at Lu Ming fiercely.

Only a few people quickly calmed down, such as Zixuan and Yinkong.

They saw that Lu Ming didn't immediately leave the enchantment area, and a strange color flashed in their eyes.

"Brother Lu Ming, what else do you have? Just say it."

Zi Xuan said.

She was extremely clever, and as soon as she saw that Lu Ming hadn't walked out of the barrier immediately, she knew that Lu Ming was mostly still qualified.

"Yes, I do have one condition."

"Later, when your two clans walk out of the dark universe and head to the starry sky of the universe, I hope you will restrain your subordinates and not kill innocent people indiscriminately."

Lu Ming said.

Devil, after all, is evil, bloodthirsty, and greedy in nature.

Especially those ordinary demons.

Once the devil is allowed to enter the prehistoric universe, it will be like a wild beast out of its cage, and I am afraid it will hunt and kill the creatures of the prehistoric universe unscrupulously.

All living creatures will become the rations of demons, and they will be charred.

Although Lu Ming wasn't so kind, he didn't want to see that the entire universe was smashed because of him.

"At this point, I can promise you to restrain my subordinates. After all, our enemy is only the Celestial Race."

Zi Xuan said.

"I can promise you too."

Yin Kong nodded.

"But Brother Lu, after all, there are many demons, there are many ordinary demons. It is impossible and difficult to completely restrain. We can only try our best, it will still cause some killing."

Zi Xuan said again.

"As long as you restrain as much as possible."

Lu Ming nodded.

It is impossible for the devil to enter the universe to be so peaceful, and it will definitely cause some disaster.

If he could choose, Lu Ming didn't want to let the devil into the starry sky of the universe.

However, now he has no choice but to do so.

Huh!

Lu Ming moved away from the enchantment and came to Zixuan and the others.

"Devil ancestor blood crystal, who will give it to you for safekeeping?"

Lu Ming said.

"We have discussed it before. The two clans take turns to keep it. But the most urgent thing is to get rid of the Demon Ancestor Insect, Silver Sky. I will bring the Demon Ancestor Blood Crystal back to the Purple Eyed Demon Capital. Du, get rid of the Devil Ancestor Insect."

Zi Xuan said.

"Yes, then do it."

Silver Sky Road.

Immediately, Yinkong returned to the Silverwing Clan with all the members of the Silverwing Clan, and went to summon the clansmen.

But Zi Xuan led Lu Ming and others back to the Purple Eyed Demon City.

To the north of the Purple Eyed Demon City, there is a small lake. This lake is not big, with a radius of only about ten miles.

The lake water turned pale red, and there were many purple-eyed demons soaking in the lake water.

In this lake, the powder of the Demon Ancestor's Blood Crystal melted into it. The demon immersed in the lake water was using the power of the Demon Ancestor's Blood Crystal to suppress the Devil's Ancestor insect in the body.

Chapter 4743: Yin Ruins Demon Fort

At this time, this small lake was already surrounded by demons of the purple-eyed demons.

These demons stared at Zixuan with their eyes burning.

Because they had already heard that several human races helped Zixuan bring back the blood crystal of the Demon Ancestor.

They are saved.

In the eyes of countless demons, Zixuan took out the blood crystal of the Demon Ancestor.

"Is this the Demon Ancestor Blood Crystal?"

"Definitely, I feel the ancient and high aura above it, as if I am in front of it, like dust, it must be the blood crystal of the demon ancestor."

Many demons were talking excitedly.

Holding the blood crystal of the Demon Ancestor, Zixuan stepped out into the middle of the lake, and then slowly landed.

She herself, as well as the blood crystal of the Demon Ancestor, sank into the lake.

As soon as the blood crystal of the demon ancestor entered the lake water, wisps of red energy diffused out, merged into the lake water, and the color of the lake water quickly deepened.

It was originally light red, but quickly changed to crimson.

Soon, all the lake water turned deep red, like blood.

At this time, the devil in the lake suddenly trembled.

There was a complex expression of pain but joy on his face.

On the shore, all the demons watched nervously, praying that it was useful and could wipe out the Demon Ancestor Insect.

This process lasted about an hour.

An hour later, the bodies of all the demons in the lake trembled suddenly, with an extremely comfortable expression on their faces, and then bursts of black smoke came out of them.

When the black smoke dissipated, all the demons opened their eyes.

"Hahaha, all the devil ancestors in my body have disappeared!"

"Me too, there is no Demon Ancestor Insect left, all have been destroyed, I have recovered."

"The Demon Ancestor Blood Crystal is really useful."

The devil in the lake laughed wildly, extremely excited.

Wow!

The demon on the shore was also boiling, ecstatic.

Saved, they are saved.

The energy of the Demon Ancestor's Blood Crystal can really wipe out the Demon Ancestor Insect.

Hh hh hh...

The demons in the lake rushed out of the lake and stood high in the sky.

Zixuan also rushed out of the lake with the blood crystal of the Demon Ancestor.

She carefully looked at the Demon Ancestor Blood Crystal and found that the Demon Ancestor Blood Crystal had hardly changed, and the energy was still abundant.

Lu Ming, Xie Nianqing and others were also overjoyed.

The Demon Ancestor Blood Crystal is effective, then there is the power to deal with the heavenly palace and destroy the heavenly army, finally there is a little hope.

"Next batch, enter the lake!"

Zi Xuan's voice sounded.

Plop, plop...

A group of figures rushed into the lake.

It is very easy to enter a hundred thousand demons at a time with a ten-mile radius of the lake.

About a hundred thousand demons entered the lake.

This time, Zixuan did not continue to put the Demon Ancestor Blood Crystal into the lake water, because the color of the lake water was still very deep and the energy was still sufficient.

About an hour later, the second batch of 100,000 demons who entered the lake also succeeded, and the Devil Ancestor insects in their bodies were all wiped out.

Moreover, after the Demon Ancestor Insect was wiped out through the Demon Ancestor Blood Crystal, some of the energy of the Demon Ancestor Blood Crystal still remained on his body, and even if there were still Demon Ancestor Insects in the air, they could not be helped.

Then, the third group of demons entered the lake, and then the fourth group...

In each batch, about one hundred thousand demons.

After about five batches, the water of the lake finally faded, and Zixuan put the blood crystal of the Demon Ancestor into the lake again. After a while, the water turned deep red again.

The purple-eyed demon, as one of the four great royal clans, has a very large number of clansmen. Not to mention the side branches, but the main line alone, the number has reached billions.

A speed of 100,000 in an hour is too slow, and it will take several years for a purple-eyed demon with billions of main veins.

Not to mention that there are branches, and there are also people of the Silver Wing Devil.

It takes too long to get rid of all the Devil Ancestor Insects.

However, it won't work if you don't get rid of them all. Over time, those demons will be completely eroded and controlled by the Heavenly Palace, which is even more troublesome.

Finally, they decided to change a place to get rid of the Devil Ancestor Insect.

They found a large lake.

This lake has a radius of 100,000 miles.

It's not difficult to enter billions of demons at once.

Zixuan put the Demon Ancestor Blood Crystal into the large lake.

The blood crystal of the demon ancestor immediately filled with red energy, and the water in the lake was rapidly turning red.

In less than a day, all the lake water in a radius of one hundred thousand miles turned deep red.

Zixuan took out the Demon Ancestor Blood Crystal and found that the energy of the Demon Ancestor Blood Crystal was just a little bit less, and compared to the vast energy of the Demon Ancestor Blood Crystal, it was only a fraction of a fraction.

"Start!"

Zi Xuan yelled sweetly.

Hh hh hh...

Between heaven and earth, countless demons rushed into the lake.

There are so many demons, there are at least billions.

Billions of demons are simply overwhelming.

An hour later, the Demon Ancestor Worm in the body of the billions of demons was eliminated by the energy of the Demon Ancestor's blood crystal, and there were cheers on the scene.

Next is the Silver Wing Demon Race.

Yin Kong had already brought all the silver-winged demons and came here.

The silver-winged demon also entered the lake and spent an hour getting rid of the Devil Ancestor Worm in his body.

In this way, in just a few days, all the demons under the command of the two great royal clans were eliminated from the Demon Ancestor Insect, and there was a trace of Demon Ancestor Blood Crystal energy remaining on his body, without fear of the Demon Ancestor Insect in the air.

At least in the short term, they will no longer be eroded by the Devil Ancestor.

The two demon kings naturally cheered and were ecstatic. They were also a little more grateful to Lu Ming and others who were able to bring out the blood crystals of the Demon Ancestor.

Three days later.

The Silver Wing Demon Demon City has gathered a large number of powerful men.

Zixuan came here with a large number of strong purple-eyed demons, and Lu Ming and others were naturally among them.

Because they want to start from here and go to the prehistoric universe.

Why did you come to the Demon Capital of the Silver Wing Demon, because the Silver Wing Demon has a treasure named Yin Ruins Demon Fort.

This treasure requires a large number of strong people to urge it. It is extremely powerful, and the most powerful is its defensive power. Once activated, its defensive power is amazing.

They plan to take the Yin Ruins Demon Fort to reach the prehistoric universe.

After all, today's Tiangong controls a large number of powerhouses, and the number of powerhouses in the Divine Master Realm exceeds 22,000.

But the divine realm demons that the purple-eyed demon and the silver-winged demon can now mobilize are only about 5,000 in total, far inferior to the heavenly palace, so rashly killing them is very dangerous, and a treasure like the Yin Xu Demon Fort is needed.

According to Yin Kong's statement, to mobilize the Yin Ruins Demon Fort, 120,000 demon emperor realm and 3,600 demon master realm are needed.

Together, the two kings can still mobilize these demons.

Devil Emperor Realm is equivalent to Divine Emperor Realm.

This realm is much more than the demon master realm.

Whether it is a **** emperor or a demon emperor, it is much better than a **** master or a demon master, and the number is much larger.

The Divine Master Realm is a big hurdle.

In the Primordial Universe, only one hundred **** emperors can break through to the **** master realm.

Chapter 4744: Goal, jail

Above the Silver Wing Demon Capital, a huge metal fortress was suspended. This metal fortress was the Yin Ruins Demon Fort.

"set off!"

"set off!"

Yin Kong and Zixuan gave orders respectively.

Suddenly, the masters of the two demon kings flew towards the Yin Ruins Demon Fort.

There are a total of 120,000 demon emperors and 5,000 demon masters.

Lu Ming, Xie Nianqing and others naturally followed into the Yin Ruins Demon Fort.

Soon after, 120,000 Demon Emperors and 3,600 Demon Lords were all in place, and then they began to urge the Yin Ruins Demon Fort.

Rumble!

The Yin Ruins Demon Fort roared, then flew out through the air, and disappeared over the Silver Wing Demon Capital in a blink of an eye.

In the process of flying out, the Yin Ruins Demon Fort shrank quickly, and finally became the size of an ordinary room.

The speed of the Yin Ruins Demon Fort was extremely astonishing, and it didn't take long before they flew over the boundless territory and arrived outside the Southern Heaven City where the Dream Palace was practicing in the dark universe.

Of course, there is still a distance between them, and the people in Tiangong didn't find them.

Lu Ming, Yinyi, Zixuan and others gathered together to discuss.

"This is the city built by Tiangong. We rushed over and destroyed them."

"Yes, anyway, the Tiangong is not guarded by the gods. It is easy to destroy them."

Several demon powerhouses said, their eyes exuded hideous murderous intent and hatred.

Those who can speak here are all top masters, the cultivation base of the Demon Lord's pinnacle, and their combat power is extremely strong.

"I feel wrong!"

Lu Ming shook his head.

"Why not?"

A big demon man stared at Lu Ming, if it weren't for Lu Ming's great kindness to them this time, he would have spoken out.

"Take a shot here, the top of Tiangong will get news soon and will soon send masters to encircle us."

Lu Ming said.

"We have the Yinxu Demon Fort. Are you afraid of them? This time we are going to kill the prehistoric universe and fight the Heavenly Palace to the death."

A big demon roared, looking like he couldn't wait to fight with the people in the palace.

Lu Ming shook his head. It seems that most demons are not good at using their brains. No wonder they will be played around by the Celestial Race and be stuck in the dark universe for a lifetime.

"We demon, who have always stayed in the dark universe, are not familiar with the current situation in the prehistoric universe, and Lu Ming and the others have to be familiar with it a lot and listen to their opinions."

Zixuan waved his hand to tell the other demons not to speak, and listen to Lu Ming.

"Fighting head-on, we have too few masters, which is extremely disadvantageous. We need to maximize our value."

"And there is no master at all in this city in front. Even if it is completely destroyed, it will not be a big loss for the Celestial Race, and it has almost no impact on the Celestial Race's overall combat power."

Lu Ming said.

"You are right, what shall we do next?"

Zi Xuan nodded first, then asked.

"Our biggest advantage right now is that the Celestial Race doesn't even know that you have eliminated the Demon Ancestor Insect, so we don't defend you at all."

"So, we need to do more before we find out, and it's still a big thing, more valuable than attacking this city."

Lu Ming said.

"Brother Lu continue!"

Zi Xuan said.

The other demons also reacted, nodding their heads, saying that it was indeed the case.

"I know that there is a Tiangong prison in which many prisoners are held. Of course, these refer to the prisoners in the Tiangong. All of these people have a deep hatred with the Tiangong and the Celestial Race. There are many masters in it. Letting these people out will definitely cause Tiangong a headache, and it will definitely distract part of the Celestial Race's combat power."

Lu Ming said.

"Tian prison? That's the case. Okay, let's listen to Brother Lu. After we go out, the first one will attack Tian prison."

Zixuan, Yinkong and others all nodded in agreement.

"I have a spatial treasure, but I can temporarily hide the Yin Ruins Demon Fort in it, and take it out quietly, without attracting the attention of the Heavenly Palace."

Lu Ming said.

After that, Lu Ming, Dan Dan, and Xie Nianqing left the Yin Ruin Demon Fort, and Lu Ming took the Yin Ruin Demon Fort into the Prey Ring.

A few of them quietly entered the Southern Heaven City, and then passed through the Southern Heaven City, left the dark universe and returned to the prehistoric universe.

After arriving in Honghuang Universe, Lu Ming released the Yin Ruins Demon Fort from Honghuangjie.

"Is this the prehistoric universe?"

"Hahaha, I didn't expect to be able to come to the prehistoric universe in my lifetime."

"Is this cosmic sky? It's so beautiful."

All the demons passed through the Yin Ruins Demon Fort and looked at the stars of the universe, including Zixuan. They were a little silly for a while.

It took a while before they reacted, and then Lu Ming entered the Yin Ruins Demon Fort and discussed the next steps with Zixuan and others. At the same time, Lu Ming pointed out the direction of the entrance to the sky prison.

The Yin Ruins Demon Fort was filled with strong fluctuations, directly breaking through the space, and hurriedly toward the entrance of the sky prison.

Each of the four heavenly palaces has an entrance to the sky prison.

Lu Ming is not clear about the entrance to the other three heavenly palaces, but Lu Ming still knows the entrance to the heavenly prison of the Dreaming Temple.

The entrance of the Sky Prison was not too far away from the entrance of the Dark Universe, and it didn't take long before they arrived.

When he got here, Lu Ming took the Yin Ruins Demon Fort into the Precious Ring again.

Only a few of them stayed outside.

Lu Ming, Xie Nianqing, Dan Dan, Bone Demon and All Gods, as well as Zixuan, Yin Kong and dozens of masters at the peak of the Demon Lord.

"Around the entrance, there are some Celestial Race guards, but there is only one in the Divine Master Realm, and dozens of others are in the Divine Emperor Realm."

A strong spiritual sense at the pinnacle of a demon master swept past, and the Celestial Race around the entrance of the Sky Prison could not hide.

Obviously, there are definitely more than these masters who have defended here. It's just that recently, the **** master realm has been transferred away to attack and destroy the heavenly army, leaving only one **** master to guard.

Moreover, the strength is not strong.

"Take action, kill them as quickly as possible, don't disturb others."

Zixuan gave the order.

Huh! Huh!

Lu Ming and the others turned into streams of light and rushed to a hall.

Especially the existence of the peak of a dozen demon masters, the speed was too fast, and they rushed into the hall in a few seconds.

In the main hall, there was only one divine lord and dozens of emperors. Facing a dozen strong men at the peak of the devil, the gap was too big, and there was no resistance, and he was killed before he even made a resistance.

When Lu Ming and others entered the hall, the entire hall was already under control.

Then they gathered around the entrance.

"Dandan, I'll leave it to you next."

Lu Ming said.

Because around the entrance, there are rune formations sealed.

They will open the seal silently.

"Don't worry, leave it to me. This formation is very simple. It won't take long to get rid of it quietly."

Dandan grinned, and then began to break the formation.

Chapter 4745: Goodbye Tianxin Clan

This time Dandan didn't brag, just over an hour, Dandan broke the seal formation at the entrance of the sky prison and opened the entrance of the sky prison.

Next, Zixuan left a few masters from the peak of the Demon Lord to guard here, check the situation, and send them news if there is something wrong.

The others all followed Lu Ming and them into the sky prison.

"Heaven and Human Race, you didn't expect that I would return to the Sky Prison with this attitude."

Lu Ming stood in the air, looking at the vast ground of the sky prison, his eyes burst into light.

The prison is still the same as before, the heart flames are filled with demon fire, which will continue to invade the human body, causing people's negative emotions to explode, and finally the heart demon will explode, completely crazy.

This point is very similar to the Boundless Demon Soul function of Boundless Demon Abyss.

The immeasurable demon soul can also stimulate the negative emotions of the spirit, causing its demon to burst out, and finally to be controlled by the demon and fall into madness.

However, the power of the heart flame demon fire is far inferior to the immeasurable demon soul.

The immeasurable demon soul, even the existence of the **** master peak, is easily affected, and the heart flame demon fire has almost no effect on the existence of the **** master realm.

Lu Ming and others easily blocked the attack of the heart flame demon fire.

"go!"

Lu Ming recognized the direction, and then flew in one direction.

Xie Nianqing, Dan Dan, Zixuan and others followed.

The number of them is not large, there are only a dozen, and the other demons are all staying in the Yin Ruins Demon Fort, and Lu Ming is placed in the prey.

With fewer people, it is more convenient to move.

However, after Lu Ming and the others flew a certain distance, they were stopped.

Eight figures stopped them.

"Hey, faces you haven't seen before, are you new here, then turn into our playthings."

One of the cold old men sneered.

These eight people looked at Lu Ming and their gazes were full of tyrannical murderous intent, as well as cold, anticipatory, and vicious emotions.

Their eyes are blood red.

Lu Ming knew at a glance that these people were attacked by the flames of the heart, their negative emotions erupted, and their malicious side was completely revealed, and they would do some abnormal things.

"What are you doing so much nonsense with them, this chick is mine, I will 'torture' her well, hahaha."

A brawny man laughed unscrupulously, with blood-red eyes, staring at Xie Nianqing, full of greed.

While laughing, he rushed to Xie Nianqing, grabbed Xie Nianqing with a big hand.

God Emperor Yae!

The big man has the eightfold cultivation base of the **** emperor, and in this jail, he is already a top expert.

"It's really looking for death!"

Once he sighed, he knew that the man was dead.

Sure enough, when the big man was about to approach Xie Nianqing, a breath of Xie Nianqing came out silently.

The figure of the big man suddenly stiffened in the air, with a look of horror in his eyes.

Afterwards, his body, like dust, scattered with the wind, completely turning to ashes.

The other seven people had their eyes widened.

"You guys, what despicable means did you use?"

The cold old man yelled, wondering.

"roll!"

Lu Ming screamed, too lazy to talk nonsense with the other party, the aura of the Divine Master Realm burst out and pressed towards the other party.

Thump Thump...

The seven opponents were crushed by Lu Ming's breath, and they fell to the ground like raindrops.

"Ahhh, it's God... God Lord..."

The seven screamed in horror.

At this moment, it seems that the effects of the heart flame and demon fire have disappeared. They are all cold, and there is no ferocious and murderous in their eyes, only fear.

Among the opponents, there is actually the existence of Divine Master Realm.

Isn't it because he was imprisoned, but he belonged to the master of Tiangong?

"roll!"

Lu Ming drank coldly, his breath receded.

"Flee!"

The seven people, as if they were amnesty, dared to stay wherever they were, and fled in a flash.

The reason why Lu Ming didn't kill the opponent was because he was too lazy to kill.

The other party was only affected by the heart flame demon fire, besides, letting these people out later can also have a little impact on the heavenly palace.

This was just an episode, and then they continued to set off.

Next, they occasionally encounter the kind of crazy people attacking them, but they are all easily dismissed.

The kind that was completely crazy, was killed by them casually, but as long as Lu Ming and the others had a little bit of aura, the other party fled in horror.

Lu Ming and the others did not spend much time before they came to the place where the Tianxin Clan lived.

"Ok?"

As soon as Lu Ming arrived here, he realized that something was wrong.

The Tianxin Clan's residence was much more dilapidated than before.

Lu Ming's spiritual consciousness spread out, and he found that the number of Tianxin Clan was much smaller than before, and many of them were in a bad state.

Invaded by the heart flame demon fire.

Lu Ming immediately judged that these Tianxin clan who were in the wrong state had been invaded by the heart flame and demon fire, and the whole person was full of tyrannical emotions.

How could this happen?

The Tianxin clan, however, can refine the 'heart jade', which can resist the invasion of the heart flame demon fire. Lu Ming relied on the heart jade to resist the erosion of the heart flame demon fire.

How could the Tianxin Clan who can refine the 'heart jade' be eroded by the heart flame?

Suddenly, Lu Ming's eyes moved, and he found several old acquaintances.

The patriarch of Tianxin Clan, Xinfan.

There is also an elder of the Tianxin clan, Xinwu.

Both of them were familiar to Lu Ming.

These people seemed to gather together to discuss matters.

"go!"

Lu Ming gave a low shout, and their figures flashed and disappeared from where they were. The next moment, they appeared directly in front of "Xinfan" and others.

"who?"

Xinfan and the others were shocked, and they were discovered that they were so close. They were standing upside down and instinctively backing away.

"Xinfan patriarch, Xinwu elder, it's me."

Lu Ming said.

"It's you, Mu Yun!"

Xinfan and others quickly saw Lu Ming clearly and exclaimed.

When Lu Ming entered here, he used the name 'Muyun'.

When he saw Lu Ming, Xin Fan and others calmed down.

"Mu Yun, why are you here again? Didn't the Celestial Race people say that you escaped and you were arrested again?"

Xinfan is very surprised.

"Several people, actually Muyun is just my pseudonym, my real name is Lu Ming."

Lu Ming explained.

"Lu Ming!"

Xinfan and the others nodded, not too surprised.

It's normal to go around outside and use a pseudonym, and there is nothing to be surprised.

"I wasn't caught in, I broke in by myself."

Lu Ming said.

"what?"

Xinfan and others were dumbfounded.

Some people break into the jail by themselves, don't they throw themselves into the trap?

They were puzzled.

"Everyone, what's the matter with the Tianxin Clan? Also, I think you also seem to be invaded by the Heart Flame Demon Fire."

Lu Ming said.

He had already discovered that Xinfan, Xinwu and others seemed to have been invaded by the heart flame demon fire, their state was not right, but their cultivation base was advanced and they were barely suppressed.

Chapter 4746: In a few minutes

"Hey, I have to talk about it since little friend Lu Ming left last time."

Team Leader Xinfan sighed and continued to explain.

It turned out that when Lu Ming and the Third Demon Sword escaped, not long after, the Celestial Clan descended here and added all the guilt for the escape of Lu Ming and the Third Demon Sword to the Tianxin Clan, killing many members of the Tianxin Clan on the spot. .

Finally, I discovered the secret of the 'heart jade', took away all the heart jade, and said that the Tianxin tribe is not allowed to refine the heart jade. The Celestial tribe will send people to check it every once in a while. Refining heart jade will kill some Tianxin races as punishment.

The Tianxin tribe has no choice but to do so. Therefore, many members of the Tianxin tribe have suffered from the flames of the heart over the years.

Lu Ming sighed in his heart. It seemed that the Tianxin Clan was affected.

However, this time, he would save the Tianxin Clan, and it would be regarded as repaying their kindness.

"Team Leader Xinfan, I promised you that I would save you out if I had the opportunity. This time I am here to take you out."

Lu Ming said.

"Take us out?"

Xinfan, Xinwu and others are a little confused.

Can Lu Ming take them out?

You should know that there are a large number of strong men guarding the vicinity of the sky prison, even if they are in the Divine Master Realm, there are not a few. Can Lu Ming take them out?

"Today's prehistoric universe has undergone major changes. There are no strong men in the heavens near the sky prison. Don't worry, we can easily come in and get out."

Lu Ming said.

Xinfan and others are still a little doubtful.

They set their sights on Zixuan and others.

Zixuan and others, although they are demons, they look no different from Humans, and the devil's wings are closed, and the cultivation base is strong, far above Xinfan and others, so Xinfan and others did not recognize Zixuan they are the identity of the devil.

"Don't you want to go out?"

Zi Xuan spoke, a powerful breath filled his body.

"God Lord!"

Xinfan and others were shocked.

Unexpectedly, Zi Xuan was young and gentle, and he actually existed in the Divine Realm.

This time, Lu Ming actually brought in the powerhouse of the Divine Master Realm, could it really take them out?

In their eyes, there was hope and a faint excitement.

"Patriarch Xinfan, can you please quickly gather the members of the Tianxin tribe together, and also, send people to spread the news in the sky prison, saying that they can leave the sky prison and let everyone wait at the exit..."

Lu Ming said.

"Good, good!"

Xinfan nodded repeatedly, and then ordered an elder to do it.

This is their only chance to get out, and they will definitely have to fight.

"Patriarch Xinfan, next, I'm going to another jail, where more powerful men are being held, and I want to rescue them all."

Lu Ming said.

"Okay, go!"

Elder Xinfan and others led the way and led Lu Ming to the entrance to another sky cell.

At the beginning, this place was sealed by chains formed by the 'power of vanishing'. It took Lu Ming many years to break the seal.

But now, this place has been re-sealed again, and it is still a huge chain, still the power of vanishing.

The difference is that at first there were forty-nine chains, but now it has increased to eighty-one chains.

"After you left, the strong man from the Celestial Race came and sealed this place again. It might take a long time to break it open."

Patriarch Xinfan sighed.

Lu Ming spent 490 years on the 49 chains.

How long does it take for Article 81 now?

They are a little worried, afraid that if the time is too long, it will cause changes and they will not be able to leave.

"Don't worry, it won't take too long."

Lu Ming stepped out and walked towards the chain. As he stepped, Lu Ming's breath bloomed.

boom!

This piece of void was enveloped by Lu Ming's breath.

Xin Fan, Xin Wu waiting for someone, almost knelt down.

Their eyes were round, their faces full of horror, and they exclaimed: "God Lord, God Lord!"

"Oh my God, it's definitely not an ordinary divine lord, I have felt this kind of aura before, it is a high-level divine lord.

Xinfan and the others were shocked and unable to calm down.

How many years have passed since?

Lu Ming actually reached his current level of cultivation, how did he cultivate?

Is that human being?

As Lu Ming stepped, his body quickly grew larger, and soon turned into a huge figure. With a palm shot, the taboo force surged out and rushed towards the chains.

Lu Ming's current cultivation base, compared to the previous year, really did not know how many times stronger.

The chain condensed by the power of vanishing encounters the power of taboo, as if ice and snow met a flame, quickly melting.

Just a few breaths, a chain, was refined.

Back then, it took Lu Ming ten years, but now, it only takes a few breaths.

The main reason was that Lu Ming's cultivation base was much stronger than before.

boom! boom! ...

Lu Ming kept shooting with both palms, and the immense power of taboo kept pouring out, constantly refining the "Void Destruction Chain".

It only takes a few minutes to add up, and all eighty-one chains have been refined.

The entrance to another sky cell was exposed.

"go!"

Lu Ming, Xie Nianqing, Dan Dan and the others, as well as Zi Xuan and others, rushed directly into the entrance and disappeared.

"Let's go and see too."

Xinfan and the others gritted their teeth and followed in.

There is almost no change in the other jail.

In the vast cosmic starry sky, there are huge corpses floating.

These corpses are almost all the corpses of the powerful people in the Divine Realm.

There are all kinds of races.

There are dragons, phoenixes, Tianxin, Tiandi, and primitive gods...

Many races, many races, once brilliant in history, have now disappeared.

"My God Lord..."

Patriarch Xinfan and the others showed a sad look.

"Clan Chief Xinfan, how many powerhouses in the Divine Master Realm were there in your Tianxin Clan back then?"

Lu Ming asked.

"At the peak of my race, the powerhouse of the Divine Master Realm was close to two hundred, but when they were attacked by the Celestial Clan, many died in the battle, but more than one hundred were left."

Xinfan patriarch said.

"However, there are only a dozen corpses of the God Lord of the Tianxin Clan here..."

Lu Ming said.

"Little friend Lu Ming, are you saying that there might still be a divine lord in my clan?"

Xinfan and others' eyes lit up.

"It's just speculation, but it can't be guaranteed."

Lu Ming said.

He had some doubts about this before.

Although there are many corpses floating in this sky prison, there are only a dozen corpses of the **** master of the Tianxin clan.

The Tianxin clan was once a powerful top ten race, naturally there are more than a dozen divine masters, so where did the other divine masters go?

Is it all gone?

Chapter 4747: The jail of the god

Afterwards, Lu Ming and others looked carefully.

As for the corpses of the gods, Lu Ming did not intend to take them away.

The main reason is that the corpses of many gods are too big. For example, the corpses of some primitive gods are as big as a planet. Although Lu Ming's primordial ring is not small, it can't take so much.

Just stay here, but there are some broken magic soldiers, Lu Ming put it away.

Of course, most of these broken **** soldiers are main level **** soldiers, and it is almost impossible to have broken source level **** soldiers, because the broken source level **** soldiers will not be allowed to stay here.

After turning around, they came to those black hole regions.

Here, some cosmic black holes are distributed.

At the beginning, the third magic sword was imprisoned in a cosmic black hole.

Those who can be imprisoned in the black hole of the universe are definitely strong.

"With the power of a seal, self-styled?"

Lu Ming and the others passed a black hole. From a distance, they could see a sarcophagus in the center of the black hole with some rune formations distributed on the sarcophagus.

They speculated that in this sarcophagus, it was possible that there was an origin realm, but because of the great calamity of the origin, they proclaimed themselves.

Then they turned around again.

There are a lot of black holes here, but in fact, only a few black holes seem to contain creatures.

In most black holes, there may be something, such as a sarcophagus, but it may be empty.

Because the power of the cosmic black hole is so amazing, the Divine Master Realm is difficult to cross and will be torn apart.

Even Lu Ming and their current strength felt difficult to enter, and even if they barely entered, it might be difficult to get out.

At the beginning, Lu Ming was able to enter and exit completely because of the Third Demon Sword.

"In these black holes, it is very likely that the imprisoned are the existence of the Origin Realm."

Zi Xuan sighed.

Lu Ming also sighed in his heart.

He estimated that in these black holes, there were as many as a dozen original realms.

It's a pity that it is the Great Tribulation of the Origin, even if the Origin Realm is not dead, they will use their remaining power to establish themselves.

If you change to the previous one, you can find a way to rescue these people.

"This sky cell does not seem to exist in the Divine Realm, except for the corpse."

Xie Nianqing frowned.

"Maybe, there are other prisons."

Lu Ming said.

Because of something wrong, did the Celestial Race kill all the existence of the Divine Master Realm?

According to the practice of the Celestial Clan, there should be no, perhaps, a special prison for the gods.

Perhaps these prisons are all connected.

"Let's look around again, look carefully."

Lu Ming said.

Everyone continued to search, not letting go of every inch.

In this way, they searched for several days and finally found out.

Dan Dan found an abnormality in one place, and there seemed to be fluctuations in the formation.

Dan Dan used his methods, and sure enough, a huge vortex appeared in the void.

The vortex was sealed by chains.

It is still the chain condensed by the power of vanishing.

The eyes of Lu Ming and others lit up.

This is likely to be the passage leading to another sky cell, which was previously covered by a hidden formation. If it weren't for Dandan's proficient formation, it might not be easy to find.

After that, Lu Ming shot and broke the chain of Netherworld with a taboo force, and then they entered the whirlpool.

Through the whirlpool, they really entered a strange world.

This place has no heart flames and magic fires, but the heavens and the earth are airy, a little dry, and looking up, it is desolate.

"Look, there is a tower there!"

Dan Dan called.

Others also saw it. In the distance, there was a tower with a height of one hundred meters.

"Go and see!"

Lu Ming said, everyone flew towards the tower.

"this is..."

It was approaching, and everyone was shocked.

This is a metal tower. The tower is hollow. You can see that there is a figure floating in the air. The body is wrapped by a metal chain, and the other end of the metal chain is connected to the metal tower.

The bottom of the metal tower is empty, it is a bottomless cave, there is a kind of flame, which constantly rushes out from the bottom, covering the figure in the metal tower.

Heart flame magic fire!

Lu Ming could tell at a glance that the flames rushing out of the bottom of the metal tower were heart flames.

It's just that the density is many times stronger than that of the Heaven Prison where the Tianxin Clan is located.

With so many times the intensity of the heart flame demon fire, the power must be much stronger, even the existence of the Divine Master Realm is difficult to resist.

It seemed that Lu Ming and the others were sensed. In the metal tower, the figure opened his eyes, his eyes were blood red, full of tyrannical emotions, and they struggled madly.

Bang bang bang bang...

Those chains vibrated endlessly and clashed.

"The choppy of the Heavenly Palace, kill me if you have the ability, kill me if you have the ability, despicable and shameless guy..."

The figure in the metal tower roared, with long hair flying, furious.

This was a middle-aged man. What shocked Lu Ming was that this man came from one of the ten strongest races.

Isn't the fighting saints now relying on the Celestial Race? The Heavenly Palace actually imprisoned the powerful fighting saints here.

Obviously, the Celestial Race imprisoned this person in a metal tower, causing him to suffer from the flames of the heart and the fire all the time.

This method is ruthless.

"We are not from Tiangong."

Lu Ming said.

"Fart, don't think you can lie to me, Tian Yudie has already been taken away by you. Whenever you want to detain me, kill me and kill me if you have the ability."

The big man of the fighting saints roared more and more, obviously suffering endless torture here, and wanted to demand death.

"I said, we are not from the Celestial Palace, but from the Exterminating Army..."

With that, Lu Ming took out the God of War gun, swept it out, and swept toward the metal tower.

boom!

The God of War spear swept across the metal tower, causing the metal tower to burst directly.

Many of the chains wrapped around that big man's body also burst open.

boom!

The chain shattered, the big man of the fighting saints, like a tiger out of the cage, burst out a powerful aura, his body swelled, violent power rushed out of his body, and the remaining chains entangled with him were broken.

Huh!

The other party rose into the sky, and then rushed towards Lu Ming and the others.

"Is it a member of Tiangong? I'll know if I take the Soul Search myself."

The other party spoke indifferently, obviously affected by the heart flame and demon fire, full of tyrannical emotions, as soon as he got out of trouble, he wanted to fight wildly and vent.

"Divine Lord Realm, and a master at the pinnacle of God Lord."

Lu Ming was not surprised but rejoiced.

The breath that the other party showed was actually a powerhouse at the pinnacle of the gods.

So, this place is indeed a heaven prison for the existence of the God Realm.

"give it to me!"

The Bone Demon said, his figure rushed out like a bolt of lightning, and he slapped it out, colliding with the opponent.

bump!

Where was the opponent of the Bone Demon's opponent, it was just a move, and his body shook wildly, retreated violently, and vomited blood in his mouth.

The combat power of the bone demon is equivalent to the strongest heavenly monarch, and the opponent is trapped here, the combat power is not at the peak state at all, and it is too far from the bone demon.

Chapter 4748: Save the Lord

After the Bone Demon wounded the opponent with a single move, he did not stop, and continued to attack the opponent. With a grasp of the bone claws, the sharply enlarged, enveloped the void, and caught the strong of the fighting saints.

Roar!

The opponent roared furiously and tried his best to resist, but it was useless at all, the gap was too big, and the bone demon's bones were extremely hard, no matter how hard the opponent attacked.

The next moment, the opponent was grabbed by the bone devil's bone claws, and the bones of his body made a crackling sound, and he didn't know how many bones were broken.

Then the Bone Demon smashed the opponent to the ground, making it difficult for the opponent to shoot again.

And being beaten up by the bone demon this time, the opponent's mind seemed to have recovered some clarity.

"Wait a minute, you really are not from Tiangong?"

The strong man of the fighting formation saint cried.

"Nonsense, if we were from the Celestial Palace, how would we let you out? You are so arrogant and dead."

"Also, don't take those **** in the heavenly palace... Bah, those scumbags are on par with us."

She drank coldly, with a look of disdain.

The eyes of the strong man in the battle formation saint clan flickered. In fact, he had believed a little bit. The people of the heavenly palace would not smash the metal tower to release him.

It's just that these people are not from the temple, how did they get in?

Therefore, he also directly asked: "Since you are not from the Celestial Palace, how can you enter here?"

"Now the universe has changed drastically. The Celestial Race, the demons, and the Celestial Extinguishing Army have broken out. The sky prison has become empty, so we came in. By the way, we are members of the Celestial Extinguishing Army."

Lu Ming said.

"You are from the Celestial Slayer? Wait, you come in from the outside. Does that mean you can also break out from the inside?"

The strong eyes of the fighting saint race brightened.

He has been imprisoned here for several stellar years. Now that he has the opportunity, he naturally wants to go out.

"Of course we can. We have already passed through two sky prisons before, and we have gotten through each other. By the way, is this the place where the God Realm is imprisoned?"

Lu Ming asked.

"Yes, this is indeed the prison of the gods. The heavenly palace will imprison all the gods who are not dead. Every **** will be locked in a metal tower. With the help of the power of the flames of the heart, these gods will be tortured. As long as you can't bear it and fall into madness, you will completely become a puppet of the Celestial Race and be controlled by the Celestial Race."

Fight against the strong of the saints.

"what?"

Lu Ming's pupils condensed slightly.

It seemed that the effect of the heart flame demon fire exceeded his imagination.

He previously thought that some people could not bear the torture of the fireworks of the heart and would take the initiative to surrender to the Celestial Race, and those who were completely insane would eventually die in madness.

It seems that he still underestimated the Celestial Race.

The Celestial Race actually has a way to control those who are completely insane and become their puppets.

"Since you are a member of the Fighting Saint Clan, and the Fighting Saint Clan is not a running dog of the Celestial Race, oh, your man, why were you arrested?"

Dan Dan asked.

"This is the shamelessness of the Celestial Race!"

The strong men of the fighting saints showed deep hatred in their eyes, and said: "Once, a few of my tribesmen and I got a treasure named Tianyu Disc in a ruin where the universe became empty. The Human Race knew it, and was intercepted by them halfway through. My other two people died, but I was captured by the Celestial Race and took the Heavenly Jade Plate. I have been imprisoned here and have been tortured... "

"Now my people don't even know that I am being held here. They may think that I fell through the ruins of the universe. I must repay this grudge..."

The strong man of the fighting saints roared, and at the same time briefly explained his origin.

This person is called Fighting God Wuji. He is a top powerhouse in the Fighting Saint Clan and also a top enchanting figure. Over time, he will surely be able to attack the original realm.

Lu Ming, Xie Nianqing and the others looked at each other, with a hint of joy in their eyes.

If this person is released and this person returns to the Fighting Saint Clan, it may have a great impact on the Fighting Saint Clan. If the Fighting Saint Clan therefore has strong dissatisfaction with the Celestial Race, it would be best.

"It should not be too late. We will act immediately and get all the other gods out."

Lu Ming said.

"I'm with you."

Doushen Wu Ji said.

Lu Ming nodded, they were not holding up, and flew forward.

Soon after, they found another metal tower. Inside the metal tower, a **** master was also imprisoned.

This divine lord is actually a divine lord of the heaven and earth tribe.

The Heaven and Earth Race was the top ten race in the past and was destroyed by the Celestial Race, and the remaining people are now in the Celestial Destruction Army.

Unexpectedly, there are still people who are still detained here by the Celestial Race.

This is also normal. Although the existence of the Divine Master Realm is not like the Origin Realm, which can live the same life as the universe, the universe is immortal and immortal, but the Divine Master Realm's longevity is also extremely long, living for hundreds of star years, completely absent. In other words, it can even live longer.

For example, primitive gods, there are gods who have lived from the era of the beginning gods to the present.

Therefore, although the Heaven and Earth Clan has been annihilated for a long time, it is normal for its divine master to live to this day.

boom!

Lu Ming directly smashed the metal tower with one blow, saving the strong of the heaven and earth clan.

"If you want to leave here, go to the exit..."

Lu Ming stopped talking nonsense, pointed out the direction of the exit, and they stepped away and left.

Although the powerhouses of the Heaven and Earth Race were tortured by the Heart Flame Demon Fire, their eyes were frenzied, but they were not completely mad, they still retained a trace of their mind.

With the cultivation base of the Divine Master Realm, once you get out of the envelope of the flames of the heart, suppress the negative emotions in your heart, and then slowly recover, you can still do it.

Sure enough, after Lu Ming and the others left, the strong man of the Tiandi clan managed to recover, and rushed in the direction of the exit.

Soon after, Lu Ming and the others saw the third metal tower.

"It's the **** of my clan."

Patriarch Xinwu suddenly screamed, excited.

The person imprisoned in this metal tower was a divine lord of the Tianxin clan.

The gods of the Tianxin clan, indeed, not all of them have fallen. Some people are alive, but are just being held here.

boom!

This time, Xie Nianqing made a move, sacrificed the original magic weapon, smashed the metal tower, and let the strong of Tianxin tribe out of trouble.

The soul of the Tianxin clan is already particularly strong, and it is also extremely strong against the heart flame demon fire. After being separated from the heart flame demon fire, he quickly regained his clarity. It was naturally great to see people of the same clan as Xin Wu.

At the same time, the other party informed that there were at least dozens of **** masters still alive in the Tianxin clan, which made the Xinwu clan chief and others ecstatic.

Keep going...

Next, metal towers were discovered.

In most metal towers, a **** master is imprisoned.

They were very direct and directly bombed the metal tower, told the other party that they could go out, and left the direction indicated by the exit.

Chapter 4749: The origin of the nine heavenly palaces

Because there is no need to say more, Lu Ming knows that the divine lord detained here will never miss any opportunity.

Even if they don't believe in Lu Ming and others, as long as there is a chance, they will not give up, because they have been tortured here, even if there is only a chance, they will try it.

They will definitely head towards the exit.

So Lu Ming and the others acted very quickly, and they moved this jail all over in just over a day.

The main reason is that the area of this jail is not very large.

There are not many **** master realms, so the place where **** masters are imprisoned does not need to be that big.

After turning around, Lu Ming counted silently in his heart, and surprisingly found that they had released a total of 918 **** masters.

This is an astonishing number. This is all God Lord, not God Emperor God Emperor.

There are not many races on the list of prehistoric races with gods, and there are often no gods in the races after one or two hundred.

Here, there are actually 918 **** masters.

Of course, these gods come from all races.

Such as the Tiandi tribe, the Tianxin tribe, and the dragon tribe, the top ten races that have been destroyed, there are also the strongest of the top ten races today, such as the fighting saint race, the Buddhist race, etc.

There are primitive gods, strong humans, etc.

There are so many **** masters together with many races.

Of course, Lu Ming did not intend to take away these gods and bring them by his side to work with the demons against the Celestial Race.

Because it is not necessary.

These divine masters came from all races, and were greatly affected by the heart flames and devil fires. They were difficult to control and would not be obedient at all.

It would be better to let go of these gods and let these gods act alone.

These gods have been tortured by the Celestial Race for many years, and their hatred for the Celestial Race is simply monstrous.

After they leave, they will definitely not give up, and they will definitely wreak havoc on the Celestial Race. In this way, the Celestial Race will definitely send a part of the gods to deal with these people. In this way, they can contain a part of the Celestial Race and share some of the pressure for the Celestial Army.

"Let's go!"

Lu Ming said.

They also headed towards the exit, and soon returned to the first dungeon.

At this time, most of the Tianxin tribes had already gathered together, and Lu Ming collected these Tianxin tribes into the prey, and then headed towards the exit.

Huh...

On the road, from time to time, people can be seen flying in the direction of the exit.

There is a divine lord of the third sky prison, and there is the existence under the divine lord of the first sky prison.

Obviously, the Tianxin clan had already spread the news.

Next, there is no need for Lu Ming and the others to intervene, just wait for these people to go out and wreak havoc on the Celestial Race.

They flew quickly, came to the exit, left from the exit, and saw the demon master guarded outside.

After asking, I learned that many creatures have escaped from the prison.

"Lu Ming, where are we going next?"

Zi Xuan asked.

After Tianlao and his party, they admired Lu Ming very much.

This time, 918 divine lords were released, and there were a large number of divine lords. These people, scattered in various places, were enough for the heaven and human race to have a headache.

It is more effective than directly fighting against the Celestial Race.

"Go to Heaven, Dream Heaven."

Lu Ming spoke, his eyes filled with light.

Yes, he is going to attack Tiangong.

Now that the powerhouses of the Heavenly Palace have gathered to destroy the garrison of the Heavenly Army, the defense of the Heavenly Palace itself must be extremely empty, and there is no better opportunity than now.

There must be a lot of treasures in the heavenly palace, and if one could conquer a heavenly palace, it would surely make the heavenly people go crazy.

Another one, Lu Ming has another idea, that is Hong Huangjing.

He is cultivating now, so he needs the Honghuangjing too much.

Not only him, Dandan, all gods practice, but also need the prehistoric crystal.

A heavenly palace, there will be some stock of prehistoric crystals.

"Attack Tiangong, okay!"

The demons like Zixuan and Yinkong had brighter eyes.

Breaking into the palace, this is what every demon dreams of.

"Go, I probably know the location of Dream Palace."

Lu Ming said.

Then, Lu Ming released the Yin Ruin Demon Fort, and everyone entered the Yin Ruin Demon Fort, and then the Yin Xu Demon Fort broke through the air and flew in the direction Lu Ming pointed.

Lu Ming has never been to the real dream palace.

When he was a heavenly soldier, he stayed in the city of dreams.

The City of Dreams is not a dream palace, but an outer city.

However, after all, he had been a heavenly soldier for so long, and he had heard of the approximate location of the Dream Palace, and it was not too far away from the city of dreams.

It didn't take long for Lu Ming and the others to discover.

In a starry sky, a spectacular scene appeared.

In the starry sky, there are three hundred and sixty stars and three thousand and six hundred planets, arranged in a large array.

This large formation surrounds a huge palace.

This temple is a stone temple, extremely huge, not smaller than a planet, and from a distance, one can feel a breath of ancient times.

"Is this the dream palace? It's really a big handwriting. It has three hundred and sixty stars and three thousand and six hundred planets."

Lu Ming whispered, and had to sigh for the great skill of Tiangong.

"The most extraordinary thing is the stone palace, which is the Dream Palace, which is a treasure from the last era."

Zi Xuan said.

"A treasure from the last era?"

Lu Ming, Xie Nianqing, Dan Dan and others were shocked and exclaimed.

"Not bad, and it's a treasure of the human race."

"The prehistoric continent of the last epoch was truly immense, with an astonishing size. The human race ruled the boundless territory, and naturally it was divided into countless large and small forces, such as sects and kingdoms."

"Among them is the lord of the kingdom. In order to guard the frontier, he built nine stone temples to guard the frontier and suppress the national movement."

"Later, the primordial universe collapsed. I don't know what happened. The Celestial Race actually got these nine stone temples, and based on the nine stone temples, they founded the heavenly palace."

Zixuan explained.

It seems that the devil knows a lot about the Celestial Race, and it is worthy of being a race left over from the last era.

"It is said that there were a total of nine temples in the past. It seems that they are based on nine stone temples, but it seems that four have been blown up."

Lu Ming whispered.

"Although this stone palace has gone through the epoch change, it is no longer as good as before, but the existence of the Origin Realm can't be broken, unless it is possible for people beyond the origin."

Zi Xuan said.

"Haha, we don't need to explode it, we just need to search the treasures inside. Dandan, is there a way to break this formation?"

Lu Ming laughed, then asked Dandan.

"This formation is indeed very strong. I borrowed the power of the stars. If some gods urged me, I couldn't do anything about it. But now, the formation is just running on its own. That's much easier. I can find the weak points. , And then gathered the attacks of many gods to break this formation."

Dan Dan said.

Chapter 4750: Attack on Tiangong

Dan Dan was very confident, and after speaking, he flew forward.

The others did not go out and stayed in the Yin Ruins Demon Fort. The Yin Ruin Demon Fort shrank and hid behind a meteorite.

Now, before they show up, it is enough for them to show up.

Dandan flew to the edge of the big formation and began to observe.

"Who? This is the place of heaven, and it's impossible to find death."

In the palace, there was a loud roar, and then a celestial soldier flew out. The one who roared just now was a celestial general, the cultivation base of the **** emperor realm.

Dandan was too lazy to pay attention to them and continued to observe the formation.

"Bold, really looking for death, go out and kill him."

A heavenly general shouted, and they rushed outside.

Obviously, the formation method did not hinder the heavenly soldiers and generals in the slightest. They soon rushed out of the formation range and rushed towards Dandan.

"It is you who are looking for death!"

Dan Dan drank coldly and waved his hand, a large formation appeared in the void, and the sword light burst out towards these heavenly soldiers and gods.

"No, God Lord, God Lord, retreat!"

A **** will yell in horror.

But it was too late, how could their speed keep up with Dandan.

The sword light swept across, these heavenly soldiers and gods were all beheaded, not one left.

"Damn it!"

In the heavenly palace, there was a roar.

This scene was naturally seen by the people in the Tiangong.

"The opponent is a strong person in the Divine Realm, what should I do?"

"Hurry up and inform Master Yechu Xiaochuan that he is now the strongest person in the Heavenly Palace."

Some gods will discuss, and then go out immediately.

In the Dream Palace, there are still gods in charge, although there are only a few people.

Soon, a burly figure stepped out.

This vitality is strong, and there is a master of ninefold cultivation base.

He rushed directly to Dan Dan, shouting angrily: "Those who dare to enter the palace, die!"

"Help!"

Dan Dan yelled and backed away quickly.

The other party quickly rushed out of the range of the formation and rushed towards Dandan.

"This person, leave it to me!"

Bone Demon Dao left the Yin Ruins Demon Fort and stepped out of it in one step. The void automatically split. He entered into the void crack and disappeared.

At the next moment, on the head of the strong celestial clan, a black bone claw suddenly stretched out, like a magic knife, and smashed the head of the strong celestial clan.

The other party also found out in time, shouted angrily, resisted with all his strength, and slashed at the bone devil's bone claws.

With a bang, the battle sword of the Celestial Race powerhouse was directly shattered, and the palm of the bones kept cutting on the head of the Celestial Race powerhouse.

With a pop, the heavenly human race, the nine-fold powerhouse of the divine master, fell!

"This this..."

In the heavenly palace, those heavenly soldiers and **** generals pale in fright.

"The other party also hid the master secretly, come prepared, hurry up, spread the news, spread the news, let people spread the news to the adults in the ruins of the universe."

A strong man in the realm of God roared.

Someone immediately began to spread the news.

Of course, the Heaven Extinguishing Army's station was too far away from this person, and it was in the depths of the ruins of the universe. They could not directly transmit the news to the ruins of the universe.

They can only spread the news to other places first, and people from other places can spread the news to those strong in the ruins of the universe.

Lu Ming and the others, their faces were calm, this scene was to their expectations.

Exposure is a matter of time.

Since he came to attack the Dream Palace, he must be exposed.

However, the resident of the Heaven Extinguishing Army was extremely far away, and when the powerhouse of the Heavenly Palace received the news and sent someone to rush over, most of them had already succeeded.

Dan Dan continued to study the formation method with no distractions.

In the past three days, Dan Dan finally found the weak point of the formation.

Huh!

Lu Ming and the others were dispatched, and the Yin Ruins Demon Fort flew out and grew rapidly.

At the same time, Lu Ming and others, as well as a large number of demon **** masters, also flew out, the terrifying aura shook the starry sky.

The gods and soldiers in the heavenly palace were almost scared to death.

"Ah, it's the devil, the strong of the devil."

"There are so many powerful demons, aren't the demons controlled by us? Why are there so many powerful demons here?"

"what happened?"

"Quickly, spread the news quickly, quickly, urge the formation."

In the heavenly palace, many people roared wildly and were shocked.

But Dan Dan has already begun to take action. He has transformed into the body of the world's turtle, and the turtle shell behind it is engraved with dense rune formations.

At this moment, Dandan's turtle shell glowed, and the endless rune formation radiated brilliance, and then the endless rune flew out and flew towards the star formation of the heavenly palace.

Soon, an area was covered with runes.

"Here is the weak point, attack here with all your strength, you can break it open."

Drinking every day.

"Shoot!"

Zixuan, Yin Kong waited for a big drink.

This time, not all the demon masters were dispatched, but 3,000 were dispatched.

According to Dandan, three thousand gods are enough.

It's better not to expose all the strength.

boom! boom! boom!

Three thousand demon **** masters shot together, and the devilish energy blasted towards the star formation.

The entire formation was violently shaken.

If it is usual, the existence of the Divine Master Realm will spur the big formation, even if a weak point is found, most of the three thousand demon masters will not be able to break it.

But now it's different, it's just the **** emperor that urges the formation.

The violent vibration caused some of the **** emperors who urged the formation to scream, their bodies exploded and fell on the spot.

In this way, how dare other **** emperors continue to control the formation.

In about an hour, the formation was abruptly torn into a crack, and the crack continued to expand.

In the end, a huge gap was blasted out.

"One thousand of you, work together to prevent the formation gap from closing, and the other two thousand will enter the palace with us..."

Zi Xuan and Yin Kong commanded.

Five thousand demon masters, one thousand demon masters used to maintain the gap of the big formation, two thousand demon masters, followed them into the palace.

The other two thousand control the Yin Ruins Demon Fort and guard the outside of the formation. Once they find something wrong, they will be informed in time.

"Get in!"

Zixuan, Yin Kong gave an order, and led two thousand demon masters into the palace.

Of course, Lu Ming, Xie Nianqing, Dan Dan, Bone Demon and All Gods also followed in.

"Back, fast back, fast back."

"Go!"

In the heavenly palace, those heavenly soldiers and gods generals were so frightened that they retreated in a panic and fled.

It is not that these people are greedy for life and fear of death, and dare not fight.

Mainly, the gap is too big.

There are two thousand demon masters, what do they use to fight, no matter how many of them they have, hundreds of thousands of masters are useless, facing two thousand demon masters, they will be destroyed in an instant.

Going up for a battle, it was clear to die, naturally no one would be so stupid.

"kill!"

The two thousand demon masters of the devil slammed into the heavenly palace, and some of the slow-running heavenly soldiers and gods were directly killed.
