

D Emperor 4761

Chapter 4761: Seal five thousand demons

Zixuan handed the Demon Ancestor Blood Crystal to Lu Ming. Lu Ming waved his hand to receive the Demon Ancestor Blood Crystal and put it into the Prey Ring. Then, the Demon Ancestor Blood Crystal fell into a huge lake in the Heavenly Star Continent.

This lake is very huge, with a radius of a million miles, and contains a huge amount of lake water.

The blood crystal of the demon ancestor fell in the lake, and strands of blood-red energy diffused out, dissolved in the lake water, and the lake water quickly turned red, like blood water, and spread to the surrounding at a very fast speed.

And Zixuan, Yinkong and others also started to act, instead of escaping, they took the initiative to meet the demons controlled by the celestial race. After a little fight with them, they controlled the Yin Xu Demon Fort to escape.

"Chasing, don't let them escape."

"The ancestors have orders to consume demons with demons. Don't be afraid of loss. We must wipe out these demons."

Commanding this part of the demons was Heavenly Monarch Dameng, one of the four strongest Heavenly Monarchs, who gave the order coldly at this time.

Her face was extremely gloomy, and she hated Lu Ming, Zixuan, Yin Kong and others.

She was born in the Dream Palace, and she is the strongest heavenly monarch in the Dream Palace, with a respectable status.

However, the Dream Palace was breached by Lu Ming, Zixuan, Yinkong and others, sweeping away all the treasures in it.

This is a great shame for all the Celestial Races in the dream palace.

Tianjun Dameng, naturally one thousand and ten thousand wanted to destroy Lu Ming, Zixuan Yinkong and others.

She led seven thousand demons, madly chasing the Yin Ruins Demon Fort.

The direction in which Yin Ruins Demon Fort flies is naturally the location of Wanhua Ruins.

In this way, after chasing and fleeing, he flew all the way into the ruins of the universe.

"No, the front is where the Ziwei Temple is located. Don't let them go. Give me a close pursuit. Don't let them have the opportunity to attack the Ziwei Temple."

Dameng Tianjun shouted.

During this period of time, the four major heavenly palaces and some important places in the heavenly palace were all transferred to the ruins of the universe.

Coincidentally, the Ziwei Temple was in the direction that Lu Ming and the others were heading.

Therefore, Dameng Tianjun saw the Yinxu Demon Fort flying in this direction, thinking that Lu Ming and others' target was the Ziwei Temple, and naturally led the devil to pursue it with all his strength.

However, Lu Ming's destination was naturally not the Crape Myrtle Palace. They didn't even know that the Crape Myrtle Palace was in this direction. The Crape Myrtle Palace hadn't seen it yet. The Wanhua Ruins had already arrived.

The Yin Ruins Demon Fort flew directly into the ruins of Wanhua.

During this period, Dan Dan had already entered the Wanhua Ruins one step ahead of time, and greeted the array spirits here.

"It's a bit weird here, stop!"

Da Meng Tianjun shouted and ordered the demons to stop.

She stared in front of her, her face a little uncertain.

This place is obviously a ruin, a piece of continental debris, left over from the last era.

Yin Ruins Demon Fort, why did you fly here?

"My lord, if you are worried, you might as well send five thousand demons to investigate, and leave two thousand to guard outside. If you encounter any situation, you can respond."

Next to the Great Meng Tianjun, a great man of the Celestial Race proposed.

This big man is also a top-level heavenly monarch, although he is not as strong as the strongest heavenly monarch such as the Great Meng Tianjun, but it is similar.

Naturally, the celestial race is not the only one who came from Dameng Tianjun, there are about a hundred people, all gathered around Dameng Tianjun.

"Well, it makes sense. Just do it. You, led five thousand people to follow up to check the situation. I personally guarded the outside. If there is any situation, I will report it immediately."

Da Meng Tianjun ordered.

"Yes!"

Immediately, there were fifty-day human races, leading five thousand demons, and chasing them toward the ruins of Wanhua.

They kept walking towards the depths of the Wanhua Ruins, unknowingly, came to the middle of the Wanhua Ruins, saw the Yin Ruins Demon Fort from a distance, and stopped in front.

"what the hell?"

A top heavenly monarch frowned, feeling something abnormal.

Did Lu Ming and others want to stop fighting with them?

That's exactly what they wanted.

However, out of caution, he still did not order to rush up immediately, but first sent hundreds of demons to fly forward to investigate the situation.

"It's cautious. There are only five thousand demons, but that's enough. Dandan, you can do it."

Inside the Yin Ruins Demon Fort, Lu Ming could see clearly the actions of the Celestial Race.

Things are not perfect. He originally planned to kill the seven thousand demons in one go, but unfortunately, only five thousand demons came, and there were two thousand demons, apparently outside to respond.

However, five thousand demons are enough. If they can get rid of all the Demon Ancestor Insects in their bodies, the balance of strength between the two parties will be broken.

"Okay, my friends, I'm already waiting impatiently."

Dan Dan grinned, and then spread the news by special means.

next moment...

The land of Wanhua Ruins, including the surrounding void, was filled with a brilliant glow.

The endless rays of light pervade and turn into endless runes, which are intertwined to form a large array.

All of them are trapped enemies, forming a heavy prison, trapping five thousand demons, including fifty celestial races.

"Successful, shoot, shoot, penetrate these formations and rush out."

"I want a formation to trap us, dream, and fight!"

Several heavenly monarchs roared and ordered five thousand demons to shoot.

Ho Ho Ho...

Five thousand demons roared and shot with all their strength, demonic energy soared, five thousand attacks, bombarding in one direction.

Boom boom boom...

A shocking roar broke out, but what made those Celestial Races stunned was that the five thousand demons shot together, and those formations were safe and sound.

At most it can only stir up a wave.

How can this be?

In the universe, what formation can withstand the joint attack of five thousand demon masters?

Unless it is an array that has been used for tens of stellar years and a huge amount of resources to create such an effect in the garrison of the Ruotian Army.

And here, how could such a formation suddenly appear?

The broken array of the last era!

Those celestial races trembled and thought of this.

"Shoot, get rid of it, you humble demons, give me your full shot."

A heavenly monarch screamed and ordered fifty million demons to shoot wildly.

However, it is still useless.

The defense force here is too strong, and the level is amazing. Even though endless years have passed, the power has weakened a lot, but it is not broken by the five thousand demon masters in a short time.

No matter how they attack, it is useless.

Five thousand demons were trapped within a certain range.

"Dan Dan, let your friends take action to solve those fifty Celestial Races."

Lu Ming said to Dan Dan.

With those fifty celestial races in it, it's hard to move behind.

If it is poured into the lake containing the blood crystals of the Demon Ancestor, it will take at least an hour to help the demons get rid of the Demon Ancestor Insect.

At that time, if those celestial races saw that the demon ancestor insect of the devil had to be eliminated and went mad to kill the demon inside, wouldn't it be a big loss?

Therefore, we must first solve these celestial races.

Chapter 4762: Get rid of the devil

"It's only fifty people, simple!"

Dandan smiled, his eyes flickering coldly and murderously, and he sent news to his friends.

The next moment, a new formation emerged.

This time, it was an attacking formation.

Hundreds of sword lights condensed out, and then killed the fifty Celestial Races.

Jian Guang avoided those demons directly, and specifically killed those celestial races.

The power of these sword lights is very amazing, each of them is very terrifying.

puff! puff! puff!

Immediately, more than a dozen Celestial Races were pierced by the sword light and fell on the spot.

Other celestial races, although they desperately resisted, they were all injured.

Even the top heavenly monarch had a wound on his body, blood flowing.

However, Jian Guang didn't mean to stop at all, and continued to kill.

Ahhh...

The screams continued to sound, and the heavens and human races continued to be killed.

"Block me, block me these sword lights..."

The remaining celestial races roared, manipulated the demons, surrounded themselves in groups, and wanted to block the sword light with their bodies.

However, these are useless efforts.

Jian Guang directly shattered the void, bypassed the demons, and continued to kill the celestial races.

In the end, all fifty celestial races were killed, including the top celestial monarch, with the same end.

"Awesome, if you can bring those celestial races, including Ye Immortal, here, and then kill them all with a formation, wouldn't it be done once and for all."

Lu Ming muttered in his heart, but he also knew that this was impossible.

If most of the people chasing them were the Celestial Race, it would not be so easy to lead them here.

Because the Wanhua ruins look abnormal, and a discerning person can see the traces of the formation at a glance.

If there is an abnormality, it will not be easily entered.

But the devil is different.

Those celestial races didn't take the life of the devil seriously. Even if they knew something was abnormal, the dead were the devil. Even if they lost a lot of demon, they didn't care.

Moreover, those celestial races think that there are five thousand demons, even if there is something abnormal, it should not be difficult to break out of the siege.

Therefore, even if he knew something was abnormal, he rushed in.

They can bring the devil here, but it is almost impossible to bring the Celestial Race here.

So it was the Celestial Clan who chased them before, and Lu Ming didn't take this approach.

This method can only be used once. If it is exposed, it will be impossible to attract the devil.

Now that's it, only the last step is left.

Huh!

Lu Ming rushed out of the Yin Ruins Demon Fort and came into the high sky. Then with a thought, the prehistoric ring glowed, and in the high sky, a huge vortex appeared.

In the whirlpool, massive blood-red lake water poured out and rushed into the formation.

There were more and more blood-red lakes, and five thousand demons were soon submerged by the massive blood-red lake.

The demons roared, struggling and howling in pain at first.

That's because the energy of the Demon Ancestor's blood crystal has penetrated into their bodies through the lake water, and began to suppress the Demon Ancestor Insect.

After a while, when the Demon Ancestor Insect was suppressed to a certain level, the demons became calm and quietly sank into the lake, motionless.

The energy of the Demon Ancestor Blood Crystal began to completely eliminate the Demon Ancestor Insect.

Outside the Wanhua Ruins, Da Meng Tianjun and others led two thousand demon masters, quietly waiting.

However, ten minutes later, there was no movement at all, and they did not receive any news, which made Da Meng Tianjun's face a little gloomy.

In fact, the fifty-day human race that was killed wanted to send a message to the Great Meng Tianjun before he died, telling them that they were fooled, but unfortunately, the place was cut off by the formation, and there was no news at all.

The fantasy **** jade is useless in the ruins of the universe.

Although the rules of the ruins of the universe are now in order, it is a huge project that will take a long time to make the fantasy **** jade spread the news in the ruins of the universe.

In addition, a very strong master shot is needed.

Because the boundaries of the ruins of the universe are too big.

In such a short time, it is impossible to do it.

"Give them news and ask what's going on."

Dameng Tianjun ordered a celestial race.

The celestial race immediately took out the sound transmission jade to spread the news, but found that the news could not be spread at all.

Da Meng Tianjun's face became more gloomy and ugly, and she had a bad premonition in her heart.

"What happened in this ruin?"

Dameng Tianjun whispered.

But she didn't dare to let her go in and investigate.

If even the five thousand demon masters have encountered an accident, wouldn't it be even more dangerous for the two thousand demon masters to enter here?

Immediately, she ordered ten demon masters to fly into the ruins of Wanhua to investigate the situation, and naturally they never returned.

As soon as these ten demons entered the depths of the Wanhua Ruins, they were taken by Lu Ming and others. They were not killed, but they were all thrown into the formation and were soaked in the lake containing the energy of the blood crystal of the Demon Ancestor.

"Damn, what's going on?"

Da Meng Tianjun roared, and his heart became more and more anxious.

But she couldn't think of a way, she didn't dare to go in, so she could only stay outside the ruins of Wanhua, waiting anxiously.

Soon, more than an hour passed.

"Look, it is the Yin Ruins Demon Fort."

A celestial **** master suddenly shouted.

In the depths of the Wanhua ruins, the Yin Ruins Demon Fort flew out quickly.

But they did not see the five thousand demon masters they controlled.

"Back, fast back!"

Dameng Tianjun shouted.

In the Yin Ruins Demon Fort, there are five thousand demon masters, but they only have two thousand. The difference in strength is too large to resist, and they can only retreat one after another, waiting for the disappearing five thousand demon masters to appear.

"kill!"

In the Yin Ruins Demon Fort, there was an indifferent voice, and the Yin Ruin Demon Fort swiftly urged and flew through the air, hurriedly chasing Dameng Tianjun and the others.

This is a golden opportunity of a lifetime, and Lu Ming and others will naturally not miss it.

If the two thousand demon masters were to flee to the extinction army station, it would be difficult to solve them.

Now is a good opportunity to catch it all.

Dameng Tianjun led the two thousand demon masters to escape quickly, and the Yinxu Demon Fort rushed after him.

However, it did not fly far.

The space in front of Da Meng Tianjun and the others suddenly filled with a strong devilish energy.

Devilish energy soared, and a large number of demons appeared.

Five Thousand Demon Lords!

It was the five thousand demons who disappeared.

Dameng Tianjun and others are overjoyed.

Although I don't know the five thousand demon masters who clearly chased into the ruins, why are they appearing behind them now.

However, as long as it's okay.

Da Meng Tianjun led two thousand demon masters and rushed towards the five thousand demon masters.

But when the two parties approached, Da Meng Tianjun's heart suddenly shrank, with shock and doubt in his eyes.

Because she found that there was something wrong with the five thousand demon masters.

Chapter 4763: Kill the King of Dreams

Da Meng Tianjun soon discovered that there was something wrong with the five thousand demon masters.

Originally, the Five Thousand Demon Lords were eroded by the Demon Ancestor Insect, and their intelligence was lost, and they were reduced to puppets. His eyes were hazy.

But it is different now.

In the eyes of these demons, in addition to tyrannical murderous intent, there is also deep-seated hatred, and the target of this hatred is them.

To be precise, it is their Celestial Race.

There is only one possibility, and that is that these demons have regained their sobriety, and the Devil Ancestor Worm in their bodies has at least been suppressed.

How can this be?

After disappearing for more than an hour, these demons recovered?

However, the facts are in front of him, and he cannot tolerate his disbelief.

Her heart has been sinking.

There are five thousand demon masters before and after each, and they are in a fatal crisis.

But she is not an ordinary person, she will not easily admit her fate.

"Rush, rush out to the side."

Dameng Tianjun roared, controlled two thousand demon masters, and rushed to the side.

"Stop them!"

"Don't let them go!"

The five thousand demon masters roared, the team dispersed, fan-shaped towards the Da Meng Tianjun and the others.

At the same time, in the Yin Ruins Demon Fort, Lu Ming and others also started to act.

Zixuan and Yinkong led the five thousand demon masters of the two royal families, rushed out of the Yin Ruins Demon Fort, and also fan-shaped, surrounded by Da Meng Tianjun and the others.

After double-teaming, the five thousand demon masters led by Dameng Tianjun can't escape.

Soon, he was caught up.

The two sides collided.

Ten thousand to two thousand is too easy.

However, Lu Ming and others, as well as the five thousand demon masters who had been dispelled from the Demon Ancestor Insect, did not kill them. They tried their best to capture the two thousand demon masters alive in order to get rid of the Demon Ancestor Insect for them.

This is a powerful force, it will be wasted if all is killed.

To get rid of the Demon Ancestor Insect for them, it is a powerful force against the Celestial Race.

The situation of the war was completely one-sided and suppressed.

The two thousand demon masters were constantly suppressed and controlled.

However, these two thousand demon masters were under the control of Da Meng Tianjun and others, and they fought wildly, regardless of their own defenses. In this way, some of them were naturally killed.

But most of them are controlled.

And more demons killed the fifty Celestial Races including Da Meng Tianjun.

Da Meng Tianjun's strength is indeed extremely powerful, rushing from left to right, and she has killed more than a dozen demons in a row.

But in the next moment, two terrifying demons slew towards the Great Meng Tianjun.

Among the demons, there are also extremely powerful masters, not weaker than the strongest heavenly monarch.

These two demon masters are at the same level as the strongest heavenly monarch.

Together, even if the power of the big dream of Tianjun is mysterious and unpredictable, it is difficult for a time to stand out.

"I'll kill her!"

The Bone Demon said, his figure was like a bolt of lightning, and he slammed into the Great Meng Tianjun.

The bone demon is holding a purple gold war yue, this is one of the gods of the palace of the soul heaven, and the power is extremely powerful.

Zijin Zhanyue slashed towards the Great Meng Tianjun, shocked the Great Meng Tianjun, his figure was dreamlike, divided into hundreds of figures, and finally successfully avoided the attack of Zijin Zhanyue.

However, the other two powerful demon masters were also killed.

In the face of three existences of the same level, Da Meng Tianjun has almost no resistance and can only dodge with all his strength.

"Big Dream Realm!"

The Great Dream Tianjun drank low, and the realm of the Great Dream spread out, covering the bone demon and the two strongest demon masters.

Once, Da Meng Tianjun used this trick to make a whole galaxy of creatures fall into a dream state and be slaughtered by others.

This trick, for the existence of the same level, the effect is very amazing.

Heavenly Monarch of the Big Dream, known as the most terrifying and dangerous existence of the four strongest Heavenly Monarchs, is because of her great dream domain, which is impossible to guard against.

At the beginning, the 'lion' needed to cooperate with another top divine lord in order to fight the Great Meng Tianjun.

As soon as the Big Dream domain came out, the other two strongest demon masters were in a trance, and the offensive stopped for a moment.

For Da Meng Tianjun, the moment the opponent's offensive stopped was enough for her to get away.

Unfortunately, this time, she miscalculated.

The Bone Demon didn't react at all to her big dream domain.

The Bone Demon's offensive continued without stopping, and Zijin Zhanyue continued to hack towards the Great Meng Tianjun.

Da Meng Tianjun obviously did not expect that the bone demon was not affected at all, and it was too late to dodge.

puff!

Zijin Zhanyue hit her.

Although at the critical moment, Da Meng Tianjun used all means to evade, and she had an automatic defense treasure activated at the critical moment.

But still can't stop Zijin Zhanyue.

The defensive treasure shattered, and Da Meng Tianjun's body flew out. A terrible wound appeared on her body, which was almost split in half.

Although the body was not completely split, the terrifying power of destruction contained in the Zijin Zhanyue still caused severe damage to her.

She spurted blood continuously, her face pale, without the slightest blood.

"Why? Why does my big dream domain have no effect on you?"

Dameng Tianjun roared.

There was a look of despair in her eyes.

She knew that with her current state, it was impossible to escape from the hands of three powerful people of the same level. Before she died, she wanted to understand why the bone demon could prevent his big dream domain.

"The fire of the soul of this seat, depending on your unique god, also wants to shake it? Ridiculous!"

The bone demon spoke indifferently.

He originally existed in the original realm. Although the cultivation realm has fallen below the original origin and the roots have dissipated, the fire of the soul is still not comparable to the existence of the **** master realm.

"you..."

Da Meng Tianjun's eyes showed a sudden look.

At this time, the offensive of the two strongest demon masters has arrived.

Dameng Tianjun was naturally unwilling to fall and fought back desperately.

However, the move that the Bone Demon had just hurt her too much, and her combat power was difficult to maintain at its peak.

In addition, the bone demon had also been killed, even if she could not do it desperately, after reluctantly resisting a few moves, she was cut off by the bone demon, and the body was torn to pieces by the two strongest demon masters.

The strongest heavenly monarch of a generation fell.

And the remaining dozens of celestial races were all killed.

Of those two thousand demon masters, about eight hundred were killed, and the remaining one thousand and two hundred were controlled by the seal.

"Yin Kong, Zixuan, I didn't expect that your two clans would save us. This time, it is my clan that owes you a favor."

A strong demon flew Zixuan, Yinkong and others.

This person's head has a golden single horn, like gold.

This is another royal family of the four demon royal families, the current leader of the Golden Horn family, named Jiaodu.

"This time, our demons were all pitted by the Celestial Race and almost destroyed the entire army. Our common enemy is the Celestial Race. Saving you is just to deal with the Celestial Race."

Zi Xuan said lightly.

"Haha, although both of us are enemies, we have a clear grudge. This time I owe you a favor, and I will pay it back in the future."

The corners all smiled.

Chapter 4764: Counterattack

"If you want to talk about favors, thank Lu Ming. He helped us get the Demon Ancestor Blood Crystal. Before, he designed it. With the help of his friends, he will trap you with formations to get the Demon Ancestor out of you. insect."

Zi Xuan pointed to Lu Ming.

The eyes of Jiao Du and others looked at Lu Ming.

"Are you from the human race? Hey, this favor will be written down by my corner."

The corners all grinned.

"What are your plans now?"

Zi Xuan asked Jiao Du.

"Of course it is to kill the Celestial Race, the despicable Celestial Race, and manipulate us as puppets. It is simply unforgivable. If you don't kill the Celestial Race, it will hardly dispel my hatred."

The horns said coldly, with ferocious eyes, full of tyrannical murderous intent, like a fierce beast choosing people and devouring them.

The demons who were with the horns were similar, full of tyrannical murderous intent, wishing to kill the Celestial Race immediately.

As long as they think that they were eroded by the Demon Ancestor Insect and completely reduced to the puppets of the Celestial Race, for the Celestial Race to arbitrarily drive, their hearts are filled with skyrocketing anger and tyrannical murder.

If they weren't saved by Lu Ming Zixuan and others, they would be reduced to walking dead and puppets of the Celestial Race for the rest of their lives. This would be more uncomfortable than killing them.

"Just to my liking, the Celestial Clan is now in the Extinguishing Army's garrison, besieging the Extinguishing Army. Lu Ming and the others are the members of the Extinguishing Army.

"We went to the extermination army station, and it happened to be attacked on both sides of the extermination army, and defeated the Celestial Race in one fell swoop."

Zixuan immediately followed.

Lu Ming smiled.

Sure enough, he expected it.

Once these demons are removed from the Demon Ancestor Insect, they will definitely not let go of the Celestial Race, and without him any opening, these demons will kill the Celestial Race.

Now, the total number of demons here is about 11 thousand.

In addition, the number of the five thousand **** masters of the Heaven Extinguishing Army is no less than that of the heavenly palace, and even more than the **** masters of the heavenly palace.

There are only two thousand demon masters left in the Tiangong, while the divine masters of the Tiangong are only about 16,000 left.

Among them, the fighting saints, the Buddhas, the demon ancestors, and the spirits have already left, and some have been lost during this period of time. Now the Tiangong and the powers of the gods are not enough.

Plus two thousand demons, seventeen thousand are not enough.

However, among them, there are some gods who are chasing and killing those who escaped from the prison, about two thousand.

As a result, there are less than 15,000 left over the Divine Lords around the Extinguishing Army's station.

Killing it now is a rare opportunity.

After discussing for a while, everyone started to act.

Of course, the first thing to do is to get rid of the 1,200 demon masters who were suppressed by them just now.

It was very simple. They returned to the ruins of Wanhua and threw these 1,200 demon masters into the lake containing the energy of the blood crystal of the demon ancestor.

After more than an hour, all of the 1,000 or 200 demon masters returned to normal.

As soon as these demon masters returned to normal and learned of their fate, they were naturally angry and yelled to avenge the killing of the human race.

All the demons entered the Yin Ruin Demon Fort, and then the Yin Ruin Demon Fort shattered the void and marched towards the resident of the Heaven Exterminator.

The Wanhua Ruins were originally in the ruins of the universe, not very far from the station of the Heaven Extinguishing Army, but after more than two days, they rushed to the vicinity of the station of the Extinguishing Army.

From far away, you can hear the violent roar of the void in the distance.

Near the station of the Exterminating Army, plus two thousand demon masters, there are approximately 15,000 strong masters in the Divine Master realm, divided into two groups, taking turns to battle, and constantly bombarding the formation of the station of Extinguishing Heaven.

After not seeing it for a while, the formation of the Heaven Extinguishing Army garrison dimmed a lot.

According to this trend, at most two hundred years, the formation of the Heaven Extinguishing Army's garrison will be broken.

"Kill, kill all the Celestial Race!"

"Kill it!"

The demons were furious, flashing tyrannical killing intent, and rushed out of the Yin Ruins Demon Fort.

Nearly 11,000 demon masters, filled with demon energy and mighty demon, shouted to kill the sky, and slew the strong man in the palace.

The strong man in the heavenly palace found the demon army from a distance.

"what happened?"

"So many demons, what happened?"

"Could it be that the devil ancestor insects in their bodies have all been eliminated."

Countless masters of the Celestial Race, shocked beyond words, roared inconceivably.

Those who attacked the station of the Destroyer Army couldn't help but stop.

Even if it is immortal, my heart is violent at this time.

But after all, he has experienced countless characters, and soon calmed down.

"Stop attacking the Heaven Extinguishing Army garrison first, gather together, and deal with the devil first."

Ye Immortal roared, and the voice spread throughout the audience.

Hh hh hh...

The figures flickered, and the powerhouses of the Divine Master Realm of Heavenly Palace gathered together.

"Shoot!"

When the demon army approached, Ye Immortal shouted.

Nearly 15,000 of the existence of the Divine Master Realm, they shot together, one after another terrible attacks, cut through the void, and killed the demon army.

kill!

kill! kill! kill!

The demon army roared wildly, its devilish energy burst out, and it attacked with all its strength, blocking the attack of the strong in the palace.

The next moment, the two sides collided together and started a close fight.

In an instant, many people on both sides fell.

However, the number of demons here is much less, and naturally suffers a lot, and the number of fallen is more.

"kill!"

Lu Ming shouted, and the God of War spear shot out, assassinating a Celestial Clan.

"Lu Ming, die for me!"

The strong man of the celestial race naturally focused on Lu Ming, a powerful heavenly monarch, killed Lu Ming.

But beside Lu Ming, the Bone Demon shot, Zijin Zhanyue split out, and split a Heavenly Monarch in half, annihilating his soul with the terrifying power.

Lu Ming, Xie Nianqing, Dan Dan, Ten Thousand Gods and Bone Demon were not separated. With the great master guard of Bone Demon, plus their own combat power, nothing happened temporarily.

"Everyone who destroys the Heavenly Army, if you don't have such a good opportunity to defeat the Heavenly Palace in one fell swoop, when will you wait?"

Lu Ming roared.

The voice spread into the resident of the Exterminating Army.

At the same time, his body swelled up, emitting a brilliant glow, in order to be seen by those who killed the Heavenly Army.

"It's Lu Ming!"

"Those demons were brought by Lu Ming, there is no problem."

The master of the Heaven Extinguishing Army, seeing Lu Ming, was immediately overjoyed.

They didn't get out the first time just now, mainly because they were afraid of getting caught.

Because the demons were clearly controlled by the Celestial Race before, they were afraid that this was a scene performed by the Celestial Race and the demons. The purpose was to trick them out and then kill them all at once.

However, after seeing Lu Ming, they knew that the devil was really fighting the Celestial Race, and it was not a conspiracy.

"Kill, so God Lord, kill with me!"

The lion roared first.

"kill!"

Other strong men also shouted.

"Open the formation and kill it!"

Shouting to kill the sky, the formation of the garrison of the Sky Extinguishing Army opened, and the five thousand **** masters killed them.

Chapter 4765: Tiangong Retreat

The five thousand **** masters of the Heaven Extinguishing Army rushed out, one by one with murderous intent to the sky, showing fierce light, urging the combat power to the extreme, and rushing to the strong in the heavens without life.

The people who destroyed the heavenly army are really suffocated.

Over the past five hundred years, they could only shrink within the garrison of the Exterminating Army, letting the Heavenly Palace continue to attack and could not fight back. It was really aggrieved.

Now that they have the opportunity, they naturally want to vent.

The God Lord of Five Thousand Annihilation Heavenly Army slammed out from the back of the Heavenly Palace, making the face of the master of Heavenly Palace changed greatly.

Naturally, they can't concentrate their efforts on dealing with the devil, and can only separate out five thousand **** masters, against those who resist and destroy the heavenly army.

The two sides added up to more than 30,000 **** masters, and an unprecedented melee broke out in this area.

At least, in this era, it is really unprecedented to have so many characters from the Divine Realm all at once.

Even if it was the decisive battle between the Celestial Race and the primitive gods, there were far fewer divine masters dispatched.

More than 30,000 gods are fighting in a melee, desperately fighting, it is really terrifying, and the damage caused is very amazing.

Fortunately, this place is in the ruins of the universe, and besides the station of the Extinguishing Army, there are no other continent fragments around, so it has not caused any devastating disaster.

If it is in the starry sky of the universe, one star field after star field will be destroyed.

Inside the garrison of the Heaven Extinguishing Army, countless creatures looked into the void, with deep horror in their eyes.

These scenes, like epic and mythological battles, had a strong impact on them.

The divine lord who usually stands aloft is just a small soldier in such a battle.

All the time, there are gods falling, or the body is torn apart, or the body and spirit are destroyed.

It only took more than ten minutes, and the two sides added up, and thousands of gods fell.

On the other side of Tiangong, gradually falling into the wind, being forced to retreat continuously.

It stands to reason that although the number on the Tiangong side is less than that of the demons and the Heaven Extinguishing Army combined, it is not much less, at most it is only about a thousand less.

Will not lose so fast.

However, the morale and fighting spirit on the Tiangong side were far inferior to the demons and the Heaven Exterminating Army.

The demons are already warlike and fierce. In addition, they have been eroded by the demon ancestor insects by the Celestial Race and become puppets. Their hatred of the Celestial Race is simply overwhelming. The new hatred and the old hatred are counted together. They are not afraid of death and can't wait. Kill all the human race.

And the morale and fighting spirit of the Heaven Extinguishing Army were not bad, they had been suffocated for so many years, and they broke out together.

At the same time, they also understand that this battle is of vital importance to them.

If it can win, the situation of destroying the heavenly army will be thoroughly revitalized.

If it fails, it is really dangerous.

Therefore, those who destroy the heavenly army are also desperately fighting their backs.

On the other side of Tiangong, the opposite is true.

There are more than a thousand **** masters belonging to other races in the masters of the heavenly palace. These **** masters don't have much fighting spirit at all.

They are dissatisfied with the Celestial Race.

Usually oppressed by the Celestial Race, plus the influence of those who escaped from the prison.

Among them, there are also masters of their race.

It's just that they don't have the courage of the fighting saints, the Buddhas, the demon ancestors and the spirits, and they just leave the palace directly.

But it is of course unwilling to let them sacrifice their lives for the Celestial Race.

Therefore, when these people were in the war, they naturally dealt with things and would not really fight hard.

As for the Celestial Race itself, the fighting spirit is not high.

The main reason is that the gap is too large.

Originally, the Celestial Race, or the Heavenly Palace, occupied an absolute advantage, controlled the demons, besieged and annihilated the Celestial Army, and had a great posture of dominating the universe.

But how long did it take before the situation has completely changed.

This made the people of the Celestial Race a little unacceptable, the blow was too big, a little confused, and the fighting spirit was naturally not much higher.

In this way, although the number of people on both sides is similar, but the Tiangong side, it is steadily retreating.

If they retreat, the situation will get worse. Many people will be less intent to fight, and they will not be able to display their combat power. They will be beaten down and lose more and more.

Ye Immortal, Ye Qiuxian and others, their expressions became increasingly gloomy.

"Ancestor, what should we do? If we continue, we will suffer heavy losses."

A heavenly monarch asked Ye immortal.

Ye immortal face is getting more and more ugly.

"Retreat, retreat!"

Ye Immortal was very decisive and directly ordered the retreat.

"Get together and retire!"

A heavenly monarch roared and spread throughout the battlefield.

Those masters in Tiangong were so energetic that they gathered together, not asking for offense but only for defense.

At the same time, the Celestial Race controls the demons that are less than two thousand and ranks first, as the main force to resist attacks from all parties.

The strength of the two sides is not much different from the beginning, the Tiangong side is dedicated to defense, and the situation is immediately stabilized, and no one is falling.

The demons and the Heaven Extinguishing Army continue to attack, but it is always difficult to tear the defense of the Heavenly Palace.

The powerhouse of the Heavenly Palace retreated while fighting, quickly staying away from the Extinguishing Army's station.

After the demon and the Exterminating Army pursued for a certain distance, they stopped one after another and did not continue their pursuit.

Because it doesn't make sense to continue pursuing, the opponent is dedicated to defense and it is difficult for them to break through.

"Win!"

The people who destroyed the heavenly army were all ecstatic.

However, they were still very wary of the demons, and they retreated to the station of the Exterminating Army.

"Everyone, what are your plans next?"

Lu Ming asked Zixuan, Yin Kong, Jiao Du and others.

"Is this the legendary cosmic ruins? The relics left by the prehistoric continents. The cultivation environment is really better than the dark universe. Next, my race will naturally thrive in the cosmic ruins." Jiao Du said.

"Yes, since it has come out, it will naturally take a place in the ruins of the universe."

Zi Xuan also said.

Yinkong also has another demon royal family, which all mean the same thing.

Also, their grievances with the Celestial Race are not over, and they will not easily let go of the Celestial Race.

This was exactly what Lu Ming meant. With the devil's restraint, the Celestial Race should have no more power to attack and destroy the Celestial Army.

The Celestial Exterminator can take the Exterminator's garrison as the core, expand outward, occupy a part of the territory, and recuperate.

The ruins of the universe today are treasures, not to be missed.

However, the four major demon royal families still have one major issue that has not been resolved.

That is the Demon Ancestor Blood Crystal.

This is the treasure of the devil, the four kings, no one wants to let it go.

Back then, the four great royal clans fought against each other because of the Demon Ancestor Blood Crystal.

This time, everyone is still not giving way, everyone wants to be in control.

"Everyone, listen to me, it was because of the blood crystal of the Demon Ancestor that you could be taken advantage of by the Celestial Race and blocked the endless years of the dark universe. Now, do you want to repeat the same mistakes?"

Lu Ming said, Zi Xuan, Yin Kong, and Jiao all fell silent.

They all understand the truth, but they are not willing to give up.

"You might as well be in charge of the blood crystal of the Demon Ancestor together. You have to understand that your common enemy is the Celestial Race."

Lu Ming suggested.

Chapter 4766: The road of development, God master eightfold

After the four demon royal clans discussed, they finally decided to jointly control the blood crystal of the demon ancestor. The four royal clans sent masters to guard together, benefit from them, and share equally.

After the discussion, the four demon kings and Lu Ming bid farewell, and then whizzed away.

"Next, the situation will be violent!"

Lu Ming sighed slightly.

It is conceivable that in the future, several major forces will begin to compete for the ruins of the universe.

Today, the cultivation environment in the ruins of the universe is getting better and better, far surpassing the stars of the universe.

Some previously dead fragments of the continent have all appeared to be full of vitality, filled with rich energy, and even unearthed prehistoric crystals.

It is conceivable that the cultivation environment in the ruins of the universe will get better and better in the future.

This is the foundation of all major forces.

Occupying the ruins of the universe is equivalent to occupying resources. There will be more and more masters in the future. This is the capital of the universe.

It is conceivable that in the future, the heavenly palace, the Yaxian clan, the demons, the Heaven Extinguishing Army, and some other powerful clans will frantically compete for the continent fragments in the ruins of the universe.

The entire universe has entered a new era.

"This is a good thing. At least the Tiangong family is dominated, and the situation of dominating the universe is no longer. This way, it will be more conducive to the development of the Celestial Destruction Army."

Xie Nianqing said.

Lu Ming, Dan Dan and others nodded.

Such a situation is naturally more beneficial to the Heaven Extinguishing Army, and there is a chance to breathe.

As long as they get the King's heart and gather the King's flesh, they can set the world in one fell swoop and sweep the strong.

"Go, let's go back to the station!"

Lu Ming said.

Afterwards, they returned to the extermination army station.

At this moment, there was cheers in the garrison of the Exterminating Army. After hundreds of years, a crisis was finally resolved.

Everyone felt a lot easier in their hearts.

"Lu Ming..."

When Lu Ming and the others came back, "Lion" and "Xi", Tang Jun and others surrounded them.

"Lu Ming, what is going on? How come those demons suddenly counterattack and fight with the Celestial Clan, is it related to you?"

Tang Jun crackled and asked a bunch of questions.

Her first feeling was that this matter was related to Lu Ming.

Shi and others also looked at Lu Ming and others curiously, because Lu Ming and others had clearly been mixed up with demons before, and they seemed to have a good relationship.

"For me, let me tell you that I have the greatest contribution to this matter. Lu Ming is only assisting me. I will tell you..."

Sure enough, Lu Ming hadn't spoken yet, Dan Dan preempted to speak, saliva flew wildly, and vividly recounted their experience during this period of time.

Of course, from what Dan Dan said, the meaning of course changed, and everything became his great credit.

Especially in the battle of Wanhua Ruins, to get rid of the Demon Ancestor Insects for the demons, it was even more so-called by him.

"That's it. This time, if I didn't take the initiative to destroy the heavenly army, I am afraid it would be dangerous."

In the end, Dan Dan summed it up with a high spirit and a proud face.

Fortunately, Tang Jun, Shi and others know very well what Dandan is. When listening, they automatically filter out the ingredients that Dandan is boasting.

But after hearing it, I was still a little dumbfounded.

Unexpectedly, Lu Ming and the others had experienced so much during this period of time, rescued the demons, successfully reversed the situation of the battle, and brought the structure of the universe to a new stage.

Dan Dan was right in saying that this time it would be really dangerous if it weren't for Lu Ming and others to destroy the Celestial Army.

"Now that the universe has changed drastically, the ruins of the universe will become a holy place for cultivation, and all kinds of heavenly materials and earth treasures are constantly being bred. If you want to compete with the heavenly palace in the future, you must not miss this opportunity."

Lu Ming said.

"Lu Ming, what you said is right. Next, we will also start to take action. We will send out the strong and expand outward with the garrison of the Exterminating Army as the core..."

Lion Road.

Next, a high-level group of the Exterminating Army gathered together to discuss the way forward.

After the agreement was reached, they began to act and sent masters to occupy the mainland fragments with the resident as the core.

In the days that followed, the entire universe entered an era of great competition.

After the Tiangong retreated, he returned to the four heavenly temples, with the four heavenly temples as the core, and began to occupy a large number of cosmic ruins.

The same is true for the demons, with the four kings as the core, they are also madly occupying the ruins of the universe.

In addition, big clans such as the fighting saints and the Buddhists also occupy a part.

However, these races knew that their strength was limited, and only occupied a small part of them, and did not expand outward.

In just a few months, one-third of the universe ruins that have been explored were divided up by major forces.

Among them, the Yaxian tribe occupies the most area and the largest area, because they occupy the first opportunity, occupying 50% of the territory of the explored area.

The remaining 50% was divided by the strength of the Heavenly Palace, the Devil, and the Heaven Exterminating Army.

Obviously, Tiangong seems to be quite jealous of the Yaxian tribe, and there is no friction with the Yaxian tribe for the time being.

Part of the reason is that the power is not enough. During this period, the demons have continuously attacked the area occupied by the Tiangong. In just a few months, the two sides have fought dozens of battles.

At the same time, after the demons occupied a part of the territory, they began to send people back to the dark universe, and began to use the power of the blood crystal of the demon ancestor to remove the demon ancestor insects for the demons below the **** master.

As time passed, a large number of demons walked out of the dark universe, distributed throughout the ruins of the universe, and thrived.

Time flies, and years have passed in a blink of an eye.

The entire universe is entering a new stage.

Apart from the devil and the Heavenly Palace, there will be fights from time to time, there is no other large-scale battle.

All the major forces seem to be brewing, and they are all trying their best to accumulate strength and enhance their own strength.

Of course, several major forces have not given up on tracing the king's heart.

Whether it is the Yaxian tribe, the heavenly palace, or the annihilation of the heavenly army, during this period of time, they secretly sent people to search around the ruins of the universe, looking for clues to the human king's heart.

Because several major forces understand that the human king's heart is the key, because once born, it is likely to immediately change the existing structure.

During this time, Lu Ming did not pay attention to other things.

Those development matters can be handed over to others. Lu Ming devoted himself to cultivation, frantically refining the prehistoric crystals, and enhancing his strength.

After several years, Lu Ming succeeded in refining all the 500 million primordial crystals in his hand, and his cultivation level finally took one step further, reaching the eighth layer of the Divine Master.

Breaking through to the Eighth Layer of the Divine Lord, Lu Ming's combat power soared.

"With my current combat power, it should be second only to the level of the strongest Tianjun."

Lu Ming whispered.

He is confident that he will not be defeated when encountering a top heavenly monarch like the silver armored heavenly monarch of Boundless Demon Abyss, and he can defeat the opponent.

His current combat power, compared to the strongest Heavenly Monarch, should be a little bit worse, but it should be the same.

It can be said that Lu Ming doesn't have many opponents in the Divine Master Realm.

Chapter 4767: Devour the Town Hall Warrior

In recent years, Xie Nianqing, Dan Dan, Wan Shen, Tang Jun and others have also been practicing wholeheartedly.

They are in the stage of rapid ascent, so naturally they will not participate in other trivial matters. Their only goal is to improve their strength through cultivation.

Moreover, they have obtained a lot of resources in the Dream Palace, just to turn these resources into strength.

The cultivation base of Dandan and Wanshen is also advancing by leaps and bounds.

However, Xie Nianqing's cultivation level encountered a bottleneck.

Divine Master Nine Layers, if you want to break through to the peak of Divine Master, it is not so easy. It does not depend on piles of resources. It needs to be accumulated slowly and there is a process.

In particular, Xie Nianqing used to condense the original seeds, the original seeds condensed in advance, the original power contained in it does not have its own characteristics, and belongs to the original power of the public type.

Lu Ming, Xie Nianqing, Ye Qiuxian, Dan Dan and others condense the original seeds with similar attributes.

However, the peak of the god, or the existence of the origin realm, the power of the origin has its own unique characteristics, and each person's origin power will be somewhat different, which is the most suitable for oneself.

Xie Nianqing wanted to break through to the peak of the gods, first of all, he had to transform the original power in the original seed into the original power with his own characteristics.

Then connect the universe through the cosmic bridge, feel the origin, and slowly accumulate the power of the origin.

Only when the strength of the source is accumulated enough, it will break through to the peak of the gods.

This step depends on the level of personal comprehension. For people with high comprehension, the time required for this step is relatively short, and for people with poor comprehension, it takes longer.

This step must be accumulated, it is difficult to rely on the accumulation of resources, of course, exceptions are the treasures that help improve understanding.

Even with Xie Nianqing's previous life experience, it will take a long time to break through.

"The cultivation base has reached the Eighth Layer of the Divine Master. If you want to break through next, the resources needed are too terrifying. At least five or six billion prehistoric crystals are needed. Where do you get so many prehistoric crystals?"

Lu Ming frowned and thought.

Five or six billion Yuanhuangjing, even if the treasury of the four heavenly palaces were emptied, they would not be together.

Fortunately, the universe has undergone tremendous changes nowadays, and many previously dead fragments of continents have appeared prehistoric crystals. The speed and path of obtaining the prehistoric crystals is much faster than before, and it will accumulate slowly in the future.

"The ball lacks resources and progress is slow..."

Lu Ming thought of the ball again.

The ball has almost stagnated since it broke through the eighth layer of the gods.

The main reason is the lack of broken source-level magic weapons, or top metal materials.

In the Treasure House of Dream Palace, there is no broken source-level magic weapon or source-level metal materials.

Without resources, it is difficult to improve the ball.

The ball is now getting stronger and stronger. After devouring a variety of broken source-level magic weapons, the methods are even more changeable. It is of great help to Lu Ming, and it can counter the battle at the critical moment.

"The Town Hall God Soldier!"

Suddenly, a trace of determination appeared in Lu Ming's eyes.

He planned to take out a **** of life in the Palace of Soul Heaven to devour the ball.

Those **** soldiers in the palace were all attack types. Lu Ming had the **** of war spear, and the others could hardly be used.

It was originally intended to be used by his relatives.

However, waiting for his relatives and disciples to improve their cultivation, I don't know how long it will take.

Staying in your hands now is tantamount to waste and not useful.

It would be better to take out one and swallow the ball. The improvement of the ball's repair will help him even more.

The town hall magic weapon belongs to the top source-level magic weapon, and it must be a great improvement to the ball.

"Ball, this one for you!"

Now that he had made up his mind, Lu Ming showed up in his hand and handed it the ball.

"this is..."

The ball immediately shined in his eyes.

However, he didn't swallow it at once. He knew that this was a treasure that Lu Ming liked.

"I'll give it to you, and break through quickly."

Lu Ming smiled.

"Give me food, then I'm not welcome."

The ball's saliva almost flowed out, opened his mouth wide, and swallowed the town hall **** soldier in one bite, with a satisfied expression on his face.

Then, Lu Ming took out another 30 catties of ice, sparks and silver for the ball to eat.

The **** soldier of the town hall is no trivial matter. He is a top soldier. He is afraid that if the ball is eaten, it will produce a lot of impurities, which will affect the foundation and make it difficult to break through.

With ice, Mars and silver neutralization, nothing is lost.

After the ball ate 30 catties of ice, sparks and silver, it turned into a bracelet and carried it on Lu Ming's hand.

"Next, continue to comprehend the secret technique and the war word tactics."

Lu Ming got up, came to the place containing the original divine sound, and continued to comprehend the secret technique and the Zhan Zi Jue.

You can't break through your cultivation base, you can only comprehend Zhan Zi Jue and secret techniques, which can also improve your combat power.

...

The sky continent, the ruins of the universe, a huge fragment of the continent.

This was also an important place on the Primordial Continent in the last era, similar to the Qianqiu Battlefield, and contained a lot of resources.

Just like the Qianqiu Battlefield, the Celestial Extinguishing Army used to send many masters to compete with the Heavenly Palace for the Sky Continent, fighting against each other and competing for resources.

But now, those who destroyed the Heavenly Army have long since been withdrawn.

The sky continent has become a thing of heaven.

Above the sky continent, there are four huge ancient temples suspended.

Four heavenly palaces!

That's right, the four heavenly palaces of the heavenly palace, the dream palace, the crape myrtle palace, the Hongmeng palace, and the divine machine palace are all concentrated here.

Here, it became the headquarters of Tiangong in the ruins of the universe.

Under the Heavenly Palace Continent, there is a huge palace.

At this time, a large number of strong Celestial races gathered in the hall to discuss matters.

Yes, there are only Celestial Races, other races, and none, such as Angel Race, Blood Race, etc.

Ye immortal, sit high on it, looking down at everyone.

"Faced with today's situation, let's talk about any suggestions you have."

Ye immortal speaks.

Suddenly, the strong man of the Celestial Race, you will speak your own thoughts.

Some suggest to stay still, develop slowly, accumulate strength, and find the King's heart by the way, and slowly figure it out.

Some suggested sending troops directly, first destroying the demons, destroying the rebels, and then flattening the Yaxian clan.

The two parties have disagreements.

Finally, Ye Immortal spoke, and the crowd calmed down.

"Ancestor, do you already have an idea?"

An old Tianjun bowed and asked Ye Immortal.

He is more shrewd, he has not expressed his opinion before, and at the same time he looks at Ye Immortal with a calm face, knowing that Ye Immortal probably already has an idea.

"Yes, if you compromise your ideas, it is my idea."

Ye immortal road.

"Compromise? Old ancestors, younger generations are dull, don't know how to compromise?"

Youtian asked.

"The devil, the rebel, will be destroyed!"

Ye Immortal's eyes burst with a cold luster, and then he said: "They think that the origin of the calamity, our heavenly palace is weak, why can't we help them? I want them to know that it is a big mistake. For the pinnacle, this is our heavenly palace, the world of our celestial race."

"It's time to call out those who exist."

Chapter 4768: Refining the sword and refining the **** of thunder

Ye Immortal's words shocked the hearts of the masters of the Celestial Race at the scene.

"Ancestor, do you mean... Yuanshi Tiangong?"

An old Tianjundao's voice was trembling and awe.

Yuanshi Tiangong, the most mysterious heavenly palace in the heavenly palace, is also the fifth heavenly palace in the outside world.

This heavenly palace is completely different from the four heavenly palaces known to the outside world.

Mysterious and unpredictable, even in the eyes of many celestial race Tianjun, it is mysterious and unpredictable.

Many heavenly monarchs only know that in the Yuanshi Tiangong, the number of people is extremely small, inhabited by the terrifying existence of the Celestial race, some terrible experiments are also being carried out, and some monsters are sealed.

"Yes, in the Yuanshi Tiangong, there are some results of experiments over the years, although they are all failed products, they are of no use in the age when the origin is still there."

"However, in the age when the origin is not available, these failed products will be everyone's nightmare. It will not be difficult for me to summon these creatures to defeat the devil or destroy the heavenly army."

Ye immortal road.

He is the strongest ancestor in the history of the Celestial Race, and all the secrets in the Celestial Race are not secrets to him.

There are even many experiments that he ordered.

"Old Ancestor, but the formation of the Heaven Extinguishing Army garrison is still difficult to handle."

The old Tianjundao before.

They really have some headaches in the formation of the Celestial Extinguish Army's garrison. After more than five hundred years of attack, they have not broken it. There is no attack now. time.

Even if they were able to defeat the demon and the Heaven Extinguishing Army at that time, they would hide in the Heaven Extinguishing Army's garrison at that time, they would still have no choice.

"So, next, you need to find a way to refine treasures that can destroy the treasures that destroy the formation of the heavenly army in a short time."

Ye immortal road.

"Ancestor, don't know what kind of treasure to refine?"

Youtian asked.

"Refining Tribulation God Thunder!"

Ye Immortal said word by word, his eyes were cold.

"Divine Thunder of Tribulation? Patriarch, this requires the Sword of Tribulation, but the Sword of Tribulation is the most precious treasure you will use to overcome Tribulation in the future."

The old Tianjun exclaimed.

The rest of the Celestial Race also showed shock.

Refining the Tribulation Sword, but the thing that Ye Immortal used to overcome the Tribulation, is extremely precious, a hundred times more precious than the top source-level divine weapon. This kind of treasure is used to refine the Refining Tribulation Thunder, which is too wasteful.

You know, after refining and refining the God of Tribulation Thunder, refining the sword of Tribulation is equivalent to waste.

This is a huge loss.

Yeah, immortal, so willing?

"Treasures are scrapped and can be obtained again. Moreover, with my cultivation base, the distance needs to be overcome, and there is still a long distance."

"In addition, no matter how precious treasure can be compared with the human body, this time, we must completely defeat the heavenly army and take the human body."

Ye immortal, firm attitude, no doubt.

The human king's flesh body was in the hands of the Exterminating Army, and he couldn't calm down in his heart.

Because once the annihilated heavenly army gets the human king's heart one step ahead, they all have to finish playing.

"How long can you refine the divine thunder of the refining robbery master?"

Ye's immortal gaze turned to the strong man in the Celestial Race who was specifically responsible for refining tools.

"With all the materials, it will take about three thousand years."

An old man in charge of the refining device replied.

"I can't wait that long. I will give you a thousand years. After a thousand years, I will see the God Thunder of Refining Tribulation. This is all set. Let it go. During this period of time, I will urge my subordinates, Try to improve your strength."

Ye Immortal ordered in an unquestionable tone.

"Yes!"

Many strong men of the Celestial Race led their orders to retreat.

"Yeqiuxian, tell me what resources do you need. Within a thousand years, you must reach the ninth level of the divine master. After a thousand years, Lu Ming's life will be handed over to you."

After everyone retreated, Ye Immortal pleaded for immortality.

"Yes, ancestor, in a thousand years, I will kill Lu Ming with my own hands."

Yeqiu Immortal Dao, with deep hatred in his eyes.

...

All forces in the universe are maintained in an inexplicable balance in this way.

Except for the frequent battles between the devil and the Tiangong, the other forces did not have much friction.

All forces are doing their utmost to develop and enhance their own strength in this era of tremendous changes in the universe.

During this period of time, the arrogances of all parties have also sprung up like bamboo shoots after a rain.

Of course, the Celestial Clan, the Asian Immortal Clan, the Celestial Destruction Army, etc., secretly sent a large number of masters to enter the ruins of the universe to explore the whereabouts of the king's heart.

There are even some masters who have entered the two-thirds of the unexplored cosmic ruins and invaded more territory by the way.

Time, in such a balanced state, is passing fast.

In a blink of an eye, it is a thousand years.

Thousand years of time, for the creatures of the **** realm, is just a flick, let alone the existence of the **** master realm.

However, the millennium is enough for some peerless evildoers to achieve a huge improvement.

Such as Lu Ming.

Over the past thousand years, Lu Ming has wholeheartedly studied the secret technique.

With the help of the Great Ancient God Stone and the Primitive Divine Voice, he has made great progress in the insight of the secret technique, and he has realized various secret techniques that are not weaker than the ancient secret technique.

Over a thousand years, more than 700 kinds have been realized.

The great ancient mysteries he controlled, plus the secret techniques that he comprehend was no weaker than the great ancient mysteries, reached a staggering 2,999 kinds.

There is only one species, and there are three thousand species, which is comparable to the master of the ancient gods.

The more Lu Ming comprehend, the faster his speed. Originally, within a thousand years, he could comprehend more than 700 kinds of secret techniques.

However, when the great ancient mysteries he mastered (because it was also enlightened from the great ancient divine stone, here is also called the great ancient mystery) approached three thousand kinds, the difficulty became more and more difficult.

When the Great Ancient Secret Art he controlled reached 2,999, he encountered a bottleneck. The 3000th Great Ancient Secret Art had been stuck for a hundred years, and he had not realized it.

But Lu Ming has a feeling that as long as he comprehends the 3000th great ancient mystery and turns it into a mystery rune and melts it into the cell, his forbidden power will produce a qualitative change and increase his combat power. .

However, this 3000th great ancient secret technique is astonishingly difficult. It has been painstakingly comprehended for a hundred years, but it has not achieved the slightest gain and still has no clue.

It is even more difficult than his comprehension of the breaking the sky and the prehistoric style.

However, even if he did not comprehend the 3000th Great Ancient Secret Art, Lu Ming's combat power was greatly improved.

After all, more than 700 kinds of ancient secret techniques have been added, and the amount of ancient secret techniques integrated into his body has reached 2,999. His taboo power is already very powerful, and it has been greatly improved compared to a thousand years ago. The combat power is natural. Also improved a bit.

"My current combat power, with all my means, can I fight the strongest heavenly monarch?"

Lu Ming whispered, hopeful in his eyes.

When is he going to find the bone demon to verify it.

Chapter 4769: Demon fiasco

Thousands of years ago, when Lu Ming had just broken through the Eighth Layer of the Divine Lord, he felt that his combat power was already under the strongest Heavenly Sovereign, and now that his combat power has advanced greatly, he should not be weaker than the strongest Heavenly Sovereign.

It's a pity that there is no prehistoric crystal, lack of master-level magical medicine, and his cultivation is still in the eighth layer of the master.

Of course, he hasn't blindly practiced in retreat for thousands of years, and occasionally goes out to learn about the current situation of the universe.

The ruins of the universe today are really the same day by day, and they have undergone earth-shaking changes compared to before.

Countless fragments of the continent have burst into life, the vitality of life is exuberant, and even creatures have been born.

In addition, magical medicines of various levels, such as master-level magical medicines, are also constantly emerging.

Even the source-level magical medicine containing the source mark will be discovered from time to time.

Many continent fragments have unearthed the prehistoric crystals, and the resources controlled by the major forces are more than before.

As a result, the masters of the major forces have improved their cultivation base much faster than before.

In just a thousand years, there have been many existences of major forces breaking through from the Divine Emperor Realm to the Divine Lord Realm.

The existence of the Divine Master Realm has also improved many times faster than before.

Especially among the younger generation, Tianjiao keeps emerging.

Tianjiao contends, dazzling.

The major forces are thriving.

If this continues, as long as there is enough time, the universe can really restore the charm of the prehistoric continent of the last era.

Of course, all major forces dare not slacken their efforts and are always on guard.

The more abundant the resources of the universe, the greater the ambitions of the major forces.

The war will break out sooner or later.

"Let's first comprehend the 3000th great ancient mystery. I have a feeling that once the comprehension is successful, the power of taboo will change suddenly, and the combat power will definitely skyrocket, far surpassing the present, then, a battle of the same level. There is absolutely no fear of immortality."

Lu Ming whispered.

Although his current strength in World War I at the same level has improved a lot than before, he is still not sure about Shangye's immortality.

The main reason was that Ye Immortal's Origin Art was too powerful, and he was not sure to resist it.

Ok?

Lu Ming's heart moved, and he found that someone was coming.

"Xiaoqing, and Tang Jun..."

Lu Ming was a little surprised. He didn't expect Xie Nianqing and Tang Jun to come together.

"Lu Ming, something went wrong."

Unexpectedly, Xie Nianqing's first sentence was such a sentence.

Lu Ming's expression changed slightly, and he said, "Could it be that Tiangong started to act?"

"You guessed it right, we received the news. Some time ago, Tiangong suddenly started attacking the Sacred Bone Race, one of the four great demon royal families, and defeated the Sacred Bone Race, the remaining strongman of the Sacred Bone Race, and fled to the other three. The great demon royal family, I heard that the three major demon royal families have joined forces and are preparing to fight the heavenly palace."

Tang Jundao.

"Have Tiangong finally started, let's leave here."

Lu Ming said.

Immediately, they left here and came to the deliberation hall of Heaven Exterminating Army.

At this time, the meeting hall had gathered many people.

The lion, Tang Jian, and other high-level members of the Heaven Extinguishing Army were almost there.

Seeing the three of Lu Ming, Shi and others got up to say hello.

"Lu Ming, you have ended your retreat, and I happen to have something to discuss with you."

Lion said with a smile, but Lu Ming saw that Lion's smile was far-fetched, and his eyes were solemn.

"Senior Lion, how is the battle between Tiangong and the devil?"

Lu Ming asked.

"I just received news that the devil was defeated and lost a lot of masters. The remaining demons escaped. Coming to our side, Zixuan Yinkong and others have already sent news, seeking us to join hands."

Lion Road, his face was very solemn.

"What? The devil's defeat, how is this possible? The total of the four demon kings is more than 10,000 gods. Is it possible that this time the heavenly palace came out and sent all the gods?"

"But this is impossible. Now all the forces are staring at each other. If the **** of the heavenly palace makes a big move, it is impossible for us to find out."

Lu Ming asked several questions repeatedly, and his heart was shocked.

In today's universe, the heavenly palaces, the Asian immortals, the demons, and the Celestial Destruction Army are the most powerful, and all parties occupy large areas. Many territories are guarded by the gods, and the powers of the gods are scattered everywhere.

All forces are staring at the masters of the Divine Master Realm of other forces.

If a certain force wants to mobilize the **** master on a large scale, other forces will find out the first time and will definitely be prepared.

For example, if the Heavenly Palace mobilizes the God Lord on a large scale, then the Heaven Extinguishing Army and the Devil will also act. If the Heavenly Palace attacks a certain party, the Demon and the Heaven Extinguishing Army will join forces.

Only in this way can balance be formed.

Because whether it is an exterminating army or a demon, the single party is not an opponent of the heavenly palace.

As for the Yaxian clan, its strength so far is still a mystery.

"No, the Heavenly Palace has not mobilized the powerhouses of the Divine Master Realm on a large scale. If they are mobilized, we cannot be unaware. There is only one possibility. There should not be many Divine Masters dispatched by the Heavenly Palace this time. It is likely to be within three thousand."

Lion explained.

The faces of Lu Ming, Xie Nianqing, Tang Jun and others also became extremely solemn.

Divine lord within three thousand can defeat the four demon kings? How can this be?

Is there any hidden power in Tiangong?

Others also talked about it and it was difficult to draw conclusions.

"The devil's people will soon arrive. When the time comes, we can just ask them. The temple has defeated the devil, and the next one will definitely attack us. What we have to do now is to fully defend against the attack of the temple."

The lion yelled and the scene fell silent.

Afterwards, everyone began to discuss how to defend against Tiangong's attack.

Before, they had heard the news that they had recalled the strong masters of the Divine Master Realm who guarded each place. Now, the strong masters of the Divine Master realm in various parts of the Heaven Extinguishing Army, as well as the God Emperor and Emperor, are all rushing back to the station of the Heaven Extinguishing Army.

After discussing for a while, everyone dispersed and began to control the formations of the Heaven Exterminating Army.

The formations in various places of the Extinguishing Army's garrison, after a thousand years, once again filled with bright rays of light, covering the Extinguisher's garrison.

Soon, a few days passed in a flash.

In the past few days, the masters of the Heaven Extinguishing Army have rushed back and gathered in the station of the Heaven Extinguishing Army.

Over the past thousand years, the powerhouses of Space-Time Spirit Rats have arranged wormholes in the fragments of the continents occupied by the Celestial Exterminator, so the powerhouses from all over the world have rushed back to their bases very quickly.

In just a few days, all the masters of the Heaven Extinguishing Army gathered in the garrison.

After a few more days, beyond the resident of the Heaven Extinguishing Army, infinite demonic energy permeated.

An infinite army of demons appeared.

Densely dense, I don't know how many demons there are.

Except for the demons in the Divine Lord Realm, the number of Divine Emperor Realm and Divine Emperor Realm is unknown.

It was Zixuan, Yin Kong, and Jiao Du who were headed by them.

But now these demons are very embarrassed, their faces are ugly, and many demons are still wounded all over.

Chapter 4770: There are also taboos in Tiangong?

"Open the formation and let them in."

The lion roared and spread throughout the audience.

Suddenly, everyone controlled the formation, and there was a huge gap in the formation around the resident of the Sky Extinguishing Army.

Countless demons flew in from the gap in the formation, and flew into the garrison of the Heaven Extinguishing Army.

It didn't take long before almost all the demons entered the station of Heaven Extinguishing Army.

The people of the Celestial Destroyer Army knew very well that they could never stop the Heavenly Palace by relying on them alone, and that they could only fight the Heavenly Palace together with the devil.

After the demons had entered the garrison of the Heaven Extinguishing Army, the great formations merged together again.

Lu Ming's spiritual consciousness spread out, sweeping across the army of demons, his heart sinking slightly.

Seven thousand demon masters.

The four demon royal families united, and there were only seven thousand demon masters left.

Thousands of years ago, the four great ten thousand demon king clans united, and the number of demon masters was more than 11 thousand.

Over the years, I heard that with the resources of the ruins of the universe and the power of the blood crystals of the demon master, the number of demon masters of the demon has increased a lot.

But now, there are actually only seven thousand demon masters left. Could it be that more than four thousand demons fell in the battle against the heavenly palace?

This is an unimaginable amount.

"Lu Ming!"

Zixuan, Yin Kong, and Jiao all waited for the demon leader, and flew to Lu Ming, Shi and others to greet them.

"What's the matter? It doesn't seem that Tiangong's mobilization of the gods on a large scale, how can you fail miserably?"

Lu Ming straightforwardly asked the core question.

The other gazes of the Sky Extinguishing Army also stared at Zi Xuan and others intently.

Knowing themselves and knowing each other can win all battles. They must know the strength of the heaven and how the devil defeated.

"You are not wrong. The Heavenly Palace did not mobilize the Divine Master on a large scale. This time, the Divine Master dispatched by the Heavenly Palace is only about 3,000."

Zi Xuan smiled bitterly.

Yin Kong, Jiao Du and others also showed miserable expressions.

This time, it was too miserable, they lost too much.

Especially the Sacred Bone Clan, one of the four great royal clans, was the first to be attacked, and the losses were even more serious, almost maimed.

"What? Heavenly Palace only dispatched three thousand **** masters."

Lu Ming, Xie Nianqing, Shi and others were shocked with incredible faces.

Heavenly Palace only dispatched three thousand **** masters, but defeated the demons' army of more than 10,000 masters, causing the demons to suffer heavy losses. How could this be possible?

"If the facts were not in front of us, we would not believe it, but the facts are like this. Suddenly, there are many more terrifying powerhouses among the gods of the heavenly palace. The ordinary gods are like ants in front of them, and the number is useless. "

Yin Kong sighed, as if thinking of something, there was still a trace of horror in his eyes.

"There are many more terrifying powerhouses? How strong is the combat power?"

The lion asked.

"Like the strongest heavenly monarch in Tiangong."

Zi Xuan nodded.

"What? How could it be possible that each of the strongest heavenly monarchs in the heavenly palace is unique and very rare. The heavenly masters are like clouds, but there are only four strongest heavenly monarchs. How can there be a lot more out of thin air."

Lion exclaimed, somewhat unbelievable.

The strongest Tianjun, this is not Chinese cabbage, it is produced by energy.

It is extremely difficult and extremely difficult to give birth to the strongest heavenly monarch.

Each of the strongest heavenly monarchs is a peerless Tianjiao, such as the four great heavenly monarchs of the heavenly palace, each of them controls the three strongest heavenly powers, and the **** of the heavenly palace is only at this level.

In other words, if these strongest heavenly monarchs continue to grow, they will have the hope of becoming the lord of heaven in the future.

The lion's own strength is equivalent to the strongest heavenly monarch, and such strength is beyond expectation.

How can there be so much more suddenly in the heavenly palace?

"But the fact is like this. We are defeated by these terrifying existences. The ordinary Demon Lord realm characters are useless no matter how large the number is. In the face of these terrifying existences, we can only be slaughtered."

Zi Xuan sighed.

"Have you recorded it with the shadow stone or formation, let us see."

Lion Road.

"Have!"

Yin Kong nodded, and then took out a shadow-relief stone, urging the shadow-relief stone, and immediately a picture appeared in the void.

In the picture, it is the picture of the demon fighting the Tiangong.

A large number of double-shot masters, fighting together.

The number of demons is far greater than the number of heavenly palaces.

As Zixuan and others said, the Divine Master Realm of Tiangong is only about three thousand.

However, the three thousand gods of the heavenly palace, like a sharp sword, easily tore the demon army, and wherever they passed, the demon powerhouse was constantly being killed.

The most terrifying thing is the creatures in front of Tiangong, about a dozen people, but the fighting power is extremely terrible, and almost no demons can stop them.

It is the devil at the pinnacle of the Demon Lord, and when they encounter these people, they are often killed by a single move.

Among these people, Lu Ming saw Ye Immortal and Ye Qiuxian.

The cultivation base of these two people has actually reached the nine levels of the **** master.

Yeah's immortal combat power is inherently terrifying. After reaching the ninth level of the Divine Lord, the combat power is even more unfathomable, stronger than the strongest Heavenly Monarch.

Lu Ming saw that an extremely powerful Demon Lord was killed by Ye Immortal's few moves.

"That is one of the strongest demon lord of our clan, but it hasn't blocked the ten tricks of Ye Immortal."

Yin Kong sighed.

There is also that Ye Qiuxian, the nine-fold cultivation base of the **** master, and the combat power is already comparable to the strongest heavenly monarch.

Beside Ye Immortal and Ye Qiuxian, there are three strongest heavenly princes, Extinction Heavenly Lord, Hundred Battle Heavenly Lord, and Pantian Heavenly Lord.

But these people were not what shocked Lu Ming the most.

What shocked Lu Ming was a dozen other people.

Among them, two burly men who seemed to be around 30 years old shocked Lu Ming the most.

"This...this is the power of taboo, they are the body of taboo."

Lu Ming stared at the two strong men and exclaimed.

He was too shocked, otherwise it wouldn't be so.

Not only him, Xie Nianqing, Tang Jun, Lion, Wan Shen, Dan Dan and others were all shocked beyond words.

Yes, these two brawny men actually displayed the power of taboo, which is clearly a form of taboo.

The cultivation bases of these two taboo bodies are both at the peak of the gods, and their combat power is extremely powerful.

However, how can there be two taboo bodies in the heavenly palace?

"You are not mistaken. The power controlled by these two people is almost the same as you. It is what you call a taboo, which is very scary."

Zi Xuan watched Lu Ming.

"Are there any closer, more detailed videos?"

Lu Ming asked.

"Of course there is!"

Zixuan nodded and took out a shadow stone.

This time, the picture on the Shadow Relief Stone focuses on the two taboos.

I saw the two fighting in a vertical and horizontal fight, and no demon was their enemy. With one punch and a palm, several demon masters were killed.

There is nothing wrong, Lu Ming concluded that these two brawny men are displaying the power of taboo, and they are pure taboo bodies, not the kind of fake that deprives others of the taboo power into their own bodies. .

It's just that the eyes of these two people are muddy, they don't seem to have the slightest sorrow, like walking dead.
