

D Emperor 4771

Chapter 4771: Unmatched power

At the scene, everyone in the Heaven Extinguishing Army was shocked to see.

In the heavenly palace, there are actually two taboo bodies.

The forbidden body has always been the mortal enemy of the Celestial Race. In the history of the universe, if it becomes a great enemy of the heavenly palace, all are forbidden.

From the lord of the fate soul heaven, the lord of the ancient gods, to the forbidden sword ancestor Tang Feng, the immeasurable sky demon flying phoenix, the things that pose a huge threat to the heaven are all taboos.

"In fact, there are many taboo bodies that have been born in history, but many of them have fallen or disappeared. There are only four people who have truly become the strongest. Perhaps these two people are those taboo bodies that have disappeared halfway. ."

On the edge, Tang Jun spoke.

"possible!"

"This is mostly the case. Those forbidden bodies disappeared halfway. They must have been captured by Tiangong. Tiangong doesn't know how to make them unconscious, like walking dead."

"It looks like a puppet."

The people of the Destroyer Heavenly Army talked a lot and gave out their speculations.

"Obviously, the Celestial Race wants to control the forbidden body, so that the forbidden body is used by them and become their sharp sword, but it has lost its own spiritual intelligence, the forbidden body, and will never be able to break through the original state."

Tang Jun continued to explain.

As the daughter of taboos, she naturally knows a lot about taboo bodies.

"Look at those other terrifying existences."

The lion spoke.

Compared with the two forbidden bodies, he cares more about the other huge figures, because they look very much like primitive gods.

Zixuan nodded and waved, another shadow stone flew out, and a picture emerged.

In this picture, there are four huge figures.

The four figures are different in shape. There are adult-shaped and animal-shaped. They have one thing in common, which is huge.

And the combat power is very terrifying, and it has reached the level of the strongest Heavenly Monarch. Every time it takes a shot, several Demon Lords are killed.

"This is really a primitive god."

"But their eyes are full of madness, as if they have lost themselves."

Some people exclaimed.

"No, the power in them seems impure, complicated and terrifying."

The lion spoke, his face solemn.

Lu Ming and the others also saw that these four huge figures should be primitive gods, but they were blood red, and the power flowing through them was extremely messy. They had the primitive power of primitive gods and other terrifying powers.

Such as the power of the heaven and earth clan, the power of the angel clan, the power of the Buddha clan, the power of the demons and so on.

There are at least a dozen powers in him, and every power is very terrifying.

The face of a few primitive gods such as the lion is very ugly.

Obviously, Tiangong didn't know what to do to the four primitive gods, causing them to lose themselves and become puppet-like war machines, extremely terrifying, even more terrifying than the true primitive gods.

These four primitive gods and the previous two forbidden bodies have the strongest combat power of Heavenly Sovereign.

It is not difficult for everyone to guess that these years, the Celestial Race has been experimenting with the powerful of all races to form such a monster.

Then, Zixuan took out the third shadow stone.

The picture emerging from this shadow stone is of nine old Celestial races.

These nine celestial races are extremely old, but extremely terrifying.

They all wore golden armor and armed with golden war spears. They gathered together, and they were really blocking and killing the gods, and the Buddha blocking and killing the Buddha.

The strongest king!

They discovered that these nine celestial races are all the strongest celestial monarchs, and they are pure and clear-minded.

The Celestial Race actually hides the nine strongest Celestial Monarchs secretly, which is simply terrifying.

"These people, some of whom I know, are strong people a long time ago. I thought they would have fallen a long time ago, but I didn't expect to be alive."

Lion's face is very ugly.

According to Lion, these celestial and human elders are top powerhouses in the long past, and each of them is the strongest celestial monarch of that era, possessing terrible combat power.

However, the gods are not the origin. Although they can live for a long time, the lifespan is still limited after all. These celestial elders are supposed to be exhausted.

The longevity of the primitive gods is extremely long, so the lion has seen these people.

He never expected that these people were still alive.

Lion speculates that the Celestial Race may have mastered some method, or obtained something from the ruins of the universe, but temporarily sealed these people to delay the passage of life, and release them at a critical moment.

The people who destroyed the Heavenly Army kept sinking in their hearts, and their faces became increasingly ugly.

Nine celestial elders wearing golden armor, four primitive gods, and two taboo bodies.

This is the fifteen strongest heavenly monarchs.

In addition, Ye Immortal, Ye Qiu Xian, and Heavenly Lords of Hundred Battles, Heavenly Lords of Extinction, Heavenly Lords of Pantian, there are 20 strongest Heavenly Lords in total.

This is a terrifying force that can completely break the balance. No matter how many ordinary gods go up, it is useless. They can't break their defenses and will be easily defeated by this force.

This kind of existence can no longer win by quantity.

More than 10,000 demons were defeated by this power.

In the age when the origin is not available, this force is the existence of invincibility, no one is invincible.

This force came to kill and destroy the heavenly army, and there was only one way to defeat it, and it was useless to join forces with the devil.

They can only hide in the garrison as before, relying on the formation to resist.

Many people secretly rejoiced. Fortunately, a thousand years ago, the Heavenly Palace did not send this force. Otherwise, even if Lu Ming rescued the devil, it would be impossible to repel the Heavenly Palace army.

"Unfortunately, there is no master-level combined attack formation, otherwise, you can rely on the advantage of numbers to defeat the opponent."

Someone sighed.

More people shook their heads, saying what's the use of this? Today, no major forces in the universe have this level of combined attack.

An array such as the Nine Heavens Battle Array can increase the strength of those who deploy the array geometrically.

It is a pity that there is no such formation that is suitable for the **** master level.

Anyway, the major forces have never heard of such formations being excavated from the ruins of the universe. Even if they exist, they are incomplete and useless.

"Everyone, what do you think?"

Zixuan asked Lu Ming and others.

"You demon, the strongest demon master, how many people are left?"

The lion asked.

"Two people, there were originally four people, and each of the four royal clans had one. The previous battle killed two people."

Yin Kong spoke with a look of resentment.

The two strongest demon masters who fell, one of them belonged to their Silverwing clan.

In today's era when the origin is not available, the strongest demon master can play too much role. The fall of one is a great loss.

"There are only two of you left, plus ours, the gap is too big, far from enough."

The lion sighed.

Among the Celestial Destruction Army, there are actually only two of the truly strongest divine masters.

The lion is one of them.

For example, Tang Jian, the peak **** of the heaven and earth tribe, Rong Jin, and the master of Qiuyue in the heavenly palace, are only the top heavenly monarch's combat power, and they are still a bit short of the strongest heavenly monarch.

Chapter 4772: The battle will be broken, there is only one battle

On the contrary, 'Xi' has the potential to become the strongest divine lord, but unfortunately his cultivation level is not enough.

If Yixi's strength can break through to the peak of the god, it will be stronger than the strongest heavenly monarch like Baizhan Tianjun, but unfortunately, a little worse.

Then, with the addition of the Bone Demon, there are only the five strongest Heavenly Monarch level powerhouses, which is far from enough.

Of course, Shi did not count Lu Ming in, because he didn't know that Lu Ming already had the strongest Heavenly Sovereign power.

But even if it was added, there was still too much difference, and there was only one way to defeat it.

Most importantly, the immortality is too strong.

Yeah's immortal cultivation base, although it is only the nine-fold divine master, its combat power is more than the strongest heavenly monarch.

In addition, his equipment is too good.

The combat power in Ye Immortal's hands is definitely a top-level source-level **** soldier, no worse than the town hall **** soldier in Lu Ming's hands.

And his armor is also a source-level magic weapon.

Defense and attack are complete.

In addition, Ye Qiuxian is similar, with complete defense and attack.

Such equipment, coupled with their combat power, is simply invincible.

"You guys, the only plan now is to rely on the formation to resist the attack of the Heavenly Palace. At that time, you will need your cooperation to strengthen the power of the formation."

Lion to Zixuan, Yinkong and others.

"There are any requirements, but it's okay to say."

"We should cooperate."

Zi Xuan, Yin Kong and others said one after another.

Afterwards, start to assign tasks.

They had just been allocated, and there was a violent roar outside the resident of the Heaven Extinguishing Army, the void cracked, and huge chariots emerged.

The powerhouse of Tiangong is here.

To be precise, it was the powerhouse of the Celestial Race, because there was no master of any other race, but the Celestial Race was strong.

Together with the masters of other races, they can be called heavenly palaces. Without the masters of other races, they can only be called the Celestial Race.

On the huge battlefield of dozens of vehicles, about three thousand Celestial and Human powers stood.

In the middle, there was one of the largest chariots on which stood Ye Immortal Ye Qiuxian and others.

Beside them, there are Heavenly Lords of Hundred Battles, Heavenly Lords of Extinction, and Heavenly Lords of Pantian.

The other are the nine celestial elders wearing golden armor, four primitive gods, and two taboo bodies.

The terrible lineup makes everyone feel tremendous pressure.

Hum! Hum! ...

When the human race appeared that day, there was a brilliant glow in various places of the Extinguishing Army's garrison, and a heavy array of formations shrouded the Extinguisher's resident.

"Shoot, break the formation!"

Ye immortal and indifferent voice spread everywhere.

Hh hh hh...

Immediately, a dozen or so Heavenly Monarch level experts stepped out and came to the sky over the garrison of Heaven Extinguishing Army.

Then, dozens of heavenly monarchs shouted, and at the same time offered a war sword.

This war sword, covered by thunder, seemed to have evolved from thunder, exuding a terrifying power.

"God of Tribulation Thunder, drive me!"

More than a dozen heavenly monarchs roared, and the majestic power was crazily input into the war sword.

The next moment, with a clang, the sword actually exploded and turned into thirty-six fragments.

Thirty-six pieces of fragments flew to different directions in the resident of the Exterminating Army, suspended in the sky.

Boom boom boom!

Then, thirty-six fragments exploded with an astonishing aura, and above them, the thunder skyrocketed frantically, as if it turned into thirty-six thunder suns.

Then, Infinite Thunder fell from thirty fragments, and blasted towards the great formation of the Exterminating Army.

Rumble!

The great formation of the Heaven Extinguishing Army trembled violently, causing waves of ripples.

In some large formations, the light quickly dimmed, and some strong men who controlled the formations trembled and almost vomited blood.

Almost everyone's complexion changed drastically in the garrison of the Heaven Extinguishing Army.

"How can it be so strong, this kind of thunder, how can it be so powerful?"

"What kind of thunder is this?"

Many people exclaimed, their faces ugly.

It was just a single blow, and the resulting fluctuations were too great. A thousand years ago, tens of thousands of gods broke the formation together, and the resulting fluctuations were far less than that.

Boom boom boom!

The next moment, Thunder fell again, and the formation of the Heaven Extinguishing Army's garrison trembled violently again, and the light dimmed.

How could this be?

Countless people in the Heaven Extinguishing Army showed horror.

Because under this kind of attack, the energy of the formation is consumed too quickly, and if this continues, within a month, the formation will be broken.

I thought that the devil would join, at least it would be able to withstand thousands of years.

But now, the situation is not like this at all. The Celestial Clan has used a terrifying killer, and I am afraid that it will not last for a month.

Once the battle is broken, you can only fight head-on with the Celestial Race.

However, there are twenty terrifying existences in the Celestial Race, how can they be enemies?

Even if the number of their Divine Master Realms added up was far more than the Celestial Race, it was useless and would be easily defeated.

However, such a situation seems inevitable.

"Today's plan is to fight to the death and prepare for a battle!"

The voice of the lion resounded all over the place where the Heavenly Army was destroyed.

"war!"

"Kill, fight with the miscellaneous things of the Celestial Race."

The slayer and the demon roared.

There is no retreat, there is only one battle.

"Lu Ming, when the war breaks out, you take the opportunity to get out."

The lion communicated to Lu Ming, Xie Nianqing, Tang Jun and others.

"Senior Lion let me escape, do you think I am such a person?"

Lu Ming said lightly.

"Lu Ming, now is not the time to be strong. You are the hope of the Heaven Destruction Army. If you do not die, you will always have a chance in the future."

Lion Road.

At the same time, Mengxu God Lord, Rong Jin and others also persuaded like this, hoping that Lu Ming and others would leave in the chaos.

After all, Lu Ming, Xie Nianqing, Tang Jun, Wanshen and others have unlimited potential. As long as they do not die, they will rise in the future.

"Seniors, don't worry, I now have the strongest combat power of Heavenly Sovereign, I believe I can protect myself."

Lu Ming said.

"What? You have the strongest fighting power of Heavenly Monarch?"

Shi and others were shocked.

Not only them, but Zixuan, Yin Kong and other demon powerhouses, also watched Lu Ming in horror.

Lu Ming is only the Eightfold Divine Master, and he actually has the strongest Heavenly Sovereign combat power? How can this be?

"At this time, I don't have to lie, and I still have the ball..."

Lu Ming waved his hand, and the ball flew out and turned into a round ball. The eyeballs rolled around, and a horrible aura spread out.

God's pinnacle!

The cultivation of the ball has reached the peak of the gods.

Qiqiu is completely different from other creatures. He doesn't need to be the same as other creatures. When the Divine Master Nine Layer, slowly accumulates the original power, he can directly break through.

Over the years, after swallowing one of the gods of the town hall, the strength of the ball has broken through from the **** master eightfold to the **** master peak in one fell swoop.

"The combat power of the ball is also comparable to the strongest heavenly monarch, and the bone demon. With them, I am safe."

Lu Ming said.

The ball absorbed all kinds of broken gods, as well as a town hall gods. The combat power is getting stronger and stronger. After reaching the peak of the gods, the combat power is absolutely comparable to the strongest heavenly monarch.

Chapter 4773: Sleeping taboo body

Lion, Rong Ban, Mengxu God Lord, and Zixuan Yinkong and others, the shock in their hearts grew stronger and stronger.

As a result, Lu Ming and the others would have three combat power equivalent to the strongest Heavenly Monarch level.

This is terrifying.

"Hey, I will try my best to hold the two strongest heavenly monarchs, it's not a problem."

The Bone Demon smiled.

Although the Bone Demon's attack power was comparable to that of a strongest heavenly monarch, his defensive power was extremely strong and indestructible, and the strongest heavenly monarch could not break his defense at all.

He shot with all his strength, regardless of defense, and indeed dragged the two strongest heavenly monarchs, it was not a problem.

In this way, adding the Devil to the Heaven Extinguishing Army, there are seven strongest Heavenly Monarchs who can block the other eight strongest Heavenly Monarchs.

However, it is far from enough.

"Everyone, it's not a problem for me to block one of the strongest heavenly monarchs."

At this time, Xie Nianqing spoke, her voice full of confidence.

"you..."

Everyone looked at Xie Nianqing, with doubts in shock.

Xie Nianqing of God Lord Nine Layers, really comparable to the strongest Heavenly Monarch?

They know that Xie Nianqing's talent is rare in the world, but is the talent of the strongest heavenly monarch bad?

It is almost impossible to be fought across levels.

Unless it is like Lu Ming, Ye Immortal, Ye Qiuxian, such a world-famous evildoer.

"I'm sure."

Xie Nianqing nodded solemnly.

"I believe Xiaoqing."

Lu Ming said.

Lu Ming knew that Xie Nianqing had obtained the Immeasurable Demon Monument. Although he hadn't broken through to the peak of the gods in these years, he definitely gained something from it. It was not impossible to increase his combat power.

In this way, their side is comparable to the combat power of the nine strongest heavenly monarchs.

But not enough.

"Senior Lion, isn't there any hidden trump card in the Extinguishing Heaven Army?"

Lu Ming asked.

"Yes, there are, but not many. There is a master in my clan named 'Tiger', who exists at the peak of the God Lord. At the peak, his combat power was not weaker than me, but he was hit hard at the beginning and has been self-proclaimed. If he is awakened, the strongest Heavenly Monarch's combat power can erupt in a short time."

Lion Road.

"Everyone of the devil, don't you have a hole card?"

Lu Ming's gaze turned to the devil's master.

Zi Xuan, Yin Kong and others, their eyes flickered.

After a while, Zixuan said: "I am dissatisfied with what you said, we demons, we are stuck in the dark universe for endless years and lack resources. It is indeed not like the Celestial race, which can

continuously obtain various resources and conduct various researches in the ruins of the universe. , So we really don't have the strongest demon lord hidden."

Speaking of this, Zixuan paused and continued: "However, our four demon royal clans are not without any desperate means. Our four royal clans have a secret technique, plus the various treasures of the royal family. Combined, it can make the user's combat power surge and reach the strongest demon master level in a short time, which is not a problem."

Lu Ming, Shi and others' eyes lit up.

"So, for your four demon royal families, can you still have four strongest demon masters?"

Lu Ming said.

"Yes, but it is also conditional. The caster must be the bloodline of the four great royal families, and the cultivation base must reach the ninth level of the divine master or the peak of the divine master. The most important thing is that once it is used, wait for the time to pass, the caster No doubt he will die."

Zi Xuan said.

Lu Ming understood. No wonder Zi Xuan, Yin Kong, Jiao Du and others looked a little ugly.

Because once this secret technique is used, it means that each of their races will definitely lose a strong person from the direct line, at least one of the divine master or above.

Let's not talk about the loss, but someone has to volunteer. This is almost a mortal result.

"You must understand that this time, it is the key to the survival of all of us..."

The lion spoke.

"We understand that this matter will be handed over to us, we demon, we will definitely produce the four strongest demon master level combat power."

Zi Xuan said, and then glanced at Yin Kong and Jiao Du, and they nodded.

"Okay, in this way, we can at least resist the 14 strongest Heavenly Monarch level powerhouses, and for the rest, we will fight with the advantage of numbers, and there may not be the slightest chance of winning."

Lion Road.

Although the difference between ordinary divine masters and the strongest heavenly monarchs is too great, there are top divine masters in each of them.

For example, the Mengxu God Lord, Tang Jian, and Rong Ban are not as good as the strongest heavenly monarch, but they are not far behind. If a few people work together, it may not be impossible to entangle a strongest heavenly monarch.

In this way, it is still a battle.

"The biggest problem now is the immortality..."

Zi Xuan said, frowning.

The faces of Lu Ming, Shi, Yinkong and others sank.

Indeed, the biggest trouble now is the immortality.

Ye Immortal's combat power was too strong, plus a piece of equipment, completely surpassed the strongest heavenly monarch, the previous demon's strongest demon lord, in front of him, was killed without ten moves.

If no one can stop Ye Immortal, then their plan is useless.

Their strongest combat power will be smashed and killed by Ye Immortal one by one, and then they will be defeated.

"It's not impossible, I heard from my father that there is still a forbidden body sleeping in the resident, if he can wake up, it may be against the immortality."

At this moment, Tang Jun said.

"In the resident, sleeping this forbidden body?"

Lu Ming blurted out, shaking in his heart.

"It is true. There is a forbidden body named Gu Changfeng. It is a forbidden body before Tang Feng Feihuang. It is amazing and talented. It amazes that era and the era of the oppressive Celestial Race. Tianjiao couldn't raise his head."

"And he broke through all the way and cultivated to the peak of the gods, but when he hit the origin realm later, there was a big problem, he was hit hard, and almost fell. He was saved by a origin of our primitive gods and destroyed the sky later. The establishment of the army has always been placed in the garrison of the Exterminating Army."

The lion nodded.

"Breaking through the origin has a big problem? What is the problem?"

Lu Ming asked.

"I don't know. Some people have speculated that maybe the Celestial Clan secretly moved his hands and feet, and his injuries were too serious. Although the Celestial Extinguishing Army has been looking for

treasures to help him recover these years, he still lacks the most important treasures of heaven and earth. "

Lion Road.

"What kind of natural treasure?"

Lu Ming asked.

"It's not fixed, but it must possess the majestic vitality and the soul that has a great effect on the soul. Gu Changfeng's soul suffered the most."

Lion Road.

Hearing this, Lu Ming's eyes suddenly brightened.

It is necessary to possess the majestic life essence and to have a huge recovery effect on the soul. Such treasures are indeed rare in the world and extremely precious.

But doesn't Lu Ming have one?

Five Elements Fairy Tears!

That's right, it is the Five Elements Fairy Tears!

At the beginning, in the Supreme Immortal City, Lu Ming received a total of three drops of the Five Elements Immortal Tears, two of which were used to save Dandan and Ling Yuwei.

At that time, Dandan and his soul were left with souls, and their souls were about to be broken. They were saved by the Five Elements Immortal Tears, and their talents greatly increased.

Chapter 4774: Ready for the war

The last drop of the five elements of fairy tears, Lu Ming has been useless in his hands, and now it just happens to come in handy.

Although the Five Elements Fairy Tears are extremely precious, it is completely worthwhile to save a powerful forbidden body.

This can greatly increase the combat power of the Heavenly Army.

The forbidden body of the peak of the gods, the worst can be equivalent to the strongest heavenly monarch.

"Everyone, I have a treasure in my hand..."

Immediately, Lu Ming said that there was a drop of five elements fairy tears in his hand.

Lion, Rong Ban, Tang Jian and others were ecstatic.

"Haha, okay, okay, if we can save Gu Changfeng and block the immortality, we may not be defeated in this battle."

The lion laughed, ecstatic.

"It's not too late. We have at most one month left. Let's act now."

Rong forbidden Road.

"Yes, we have to start to act and select candidates."

Zi Xuan said.

Immediately, everyone separated and prepared separately.

But Lu Ming, Xie Nianqing, Tang Jun and others followed the lion and went in one direction.

They are going to the place where Gu Changfeng is sleeping.

The place where Gu Changfeng slept was in an abyss cave deep underground in the station of the Exterminating Army.

In a cave, there is an altar, and there is an ice coffin on the altar. The ice coffin is surrounded by formations.

Gu Changfeng slept in the ice coffin.

"A handsome man, and also a human race."

Lu Ming's heart moved.

Obviously, Gu Changfeng is also a human race, dressed in a snow-white long coat, with his eyes closed, he is extremely handsome.

Among all the men Lu Ming had seen, Gu Changfeng was handsome, at least ranked in the top three.

However, his aura of life is extremely weak. This is the reason for the stability of the formation and the ice coffin. Of course, Gu Changfeng's own will is extremely strong, otherwise he would have fallen long ago.

"Let's wait a while, I have already heard the news, and somebody will send other treasures soon."

Lion Road.

Everyone waited. After about an hour, several primitive gods sent nine kinds of treasures.

These nine kinds of treasures are all treasures that contain vigorous vitality, which can live and die.

"Let's start, Lu Ming, let's stabilize his life with the life essence of these nine treasures, and then you can save him with the Five Elements Immortal Tears."

Lion Road.

"it is good!"

Lu Ming nodded.

Immediately, the lion and others took action. They first refined the nine treasures into pure life energy, and then injected them into Gu Changfeng's body.

Suddenly, Gu Changfeng's body was enveloped by a layer of white light, and he could clearly feel that his vitality quickly became vigorous.

In the body, the blood flow turned and became vigorous.

But that's it.

Although the vitality is exuberant, it has not reached its peak.

But his soul was still in a broken state and had not recovered.

"Lu Ming, it's time for you."

The lion gave a light drink.

Lu Ming had made preparations long ago. With a wave of his hand, the last drop of Five Elements Immortal Tears flew out and flew towards Gu Changfeng, which penetrated from the center of his eyebrows.

After the Five Elements Fairy Tears entered Gu Changfeng's body, there was a layer of colorful energy in Gu Changfeng's body immediately, covering it.

Gu Changfeng's vitality became more vigorous.

His soul is also being repaired quickly.

"Useful, absolutely useful."

Lion exclaimed.

With the Five Elements Fairy Tears, there is absolutely no problem in saving Gu Changfeng.

Lu Ming also smiled.

He could sense that Gu Changfeng was indeed a pure taboo, and there was nothing wrong with it.

He has some inexplicable intimacy, this is his kind, there are too few taboos in the entire universe.

Now I know that those who are alive are Tang Feng, Feihuang, and Soul, the Lord of the Soul of Heaven.

Now add this Gu Changfeng.

There are only so few people.

As for the two people controlled by the Celestial Race, they can no longer be counted, and they have completely become puppets.

Time passed quickly, and several days passed in a blink of an eye.

A few days later, Gu Changfeng, who had been keeping his eyes closed, suddenly opened his eyes, his eyes dazzling like stars.

Moreover, a powerful force permeated him.

There is absolutely nothing wrong with the forbidden body. The forbidden body in Lu Ming's body seemed to have a reaction and flowed quickly.

Gu Changfeng seemed to sense the power of Lu Ming's taboo, and suddenly looked at Lu Ming.

"Forbidden body, I didn't expect another forbidden body to appear."

Gu Changfeng whispered, an inexplicable color appeared in his eyes.

Speaking of which, this is the first time he has seen other taboos.

"Gu Changfeng, you finally woke up."

Lion laughed.

Gu Changfeng's gaze then moved away from Lu Ming and fell on the lion, with a smile on his face: "Lion, it was you, how long have I been in a coma?"

Gu Changfeng knew Heshi back then.

Gu Changfeng knew the lion when he was young. After being hit hard, he did not fall asleep for the first time. After being brought back by the origin of the primitive god, he saw the lion again.

"It's been nearly eighty sidereal years."

Lion Road.

"Eighty sidereal years, I didn't expect that I slept for so long in a single sleep. No wonder a new taboo appeared. This time, did you save me?"

Gu Changfeng said.

"It's mainly Lu Ming, he saved you with the Five Elements Immortal Tears."

Lion finger Luming said.

"Thank you for your life-saving grace, I have written it down, Gu Changfeng, and I will pay it back later."

Gu Changfeng gave Lu Ming a fist.

"Senior Gu is being polite, you and I are both taboos, I have no reason to not save, and now, I still need to rely on Senior Gu's efforts."

Lu Ming said.

"Oh, what's the situation now?"

Gu Changfeng said.

"Is such that..."

Immediately, Lion briefly introduced the current situation of the universe.

"Unexpectedly, in a hurried eighty sidereal year, the universe has undergone such drastic changes. Needless to say, even if I fight this fate, I will go to war. My account with the Celestial Race is still too much, hehe!

Gu Changfeng sneered, murderous in his eyes.

"Gu Changfeng, there are rumors that you were conspired by the Celestial Race back then, isn't it true?"

Lion asked curiously.

"That's not true. The Celestial Race wants to plot against me, but I have been prepared for it and have been avoiding them."

"At the beginning, I had a big problem in my own practice. I was too greedy to advance, and I was backlashed when I broke through the origin."

Gu Changfeng sighed.

After a moment of silence, Gu Changfeng said again: "I have almost recovered now, but the combat power has not reached the peak state. It will take a while, twenty days is enough."

"Okay, then we won't bother you."

Lion Road.

Lu Ming and others also withdrew with fists.

The entire resident of the Heaven Extinguishing Army is preparing for a peerless battle twenty days later.

Lu Ming returned to his place of residence, retreating to comprehend Zhan Zi Jue.

Obviously the third thousand kinds of ancient mysteries cannot be understood in a short period of time, so it is better to understand Zhan Zi Jue.

Chapter 4775: Gu Changfeng fights against Ye immortal

In the past few years, Lu Ming devoted himself to comprehending various secret techniques, and did not spend time comprehending Zhan Zi Jue.

Today, Lu Ming's chance of triggering the ninefold combat power of the Zhanzi Jue is still one tenth.

Now go to enlightenment, as long as it can increase the chance of triggering a little, it is good.

All parties are making preparations, the sky over the garrison of the Heaven Extinguishing Army, refining Tribulation Divine Thunder, still blasted wildly, the great array trembled, and the light became dim.

Soon, twenty days passed.

The formation of the Heaven Extinguishing Army garrison was already in danger, as if it would collapse at any time.

All the masters of the Heaven Extinguishing Army and the demons were ready.

Lu Ming, Xie Nianqing, Bone Demon, Lion, Rong Jin and others, as well as the powerhouse of demons, all stood high in the sky, facing the powerhouse of the Celestial Race.

The atmosphere is getting more and more tense.

Both sides are ready for the war.

Rumble!

With the constant bombardment of the Thunder God Refining Tribulation, the formation of the Heaven Extinguishing Army's garrison became increasingly dim, and bursts of explosions suddenly erupted.

The formation was torn apart, many bases were blown up, and huge cracks appeared in the formation.

"Ready to fight!"

The lion roared, its body grew sharply, and turned into a lion-like behemoth, roaring like thunder with a violent breath.

"Kill all the Celestial Race!"

The devil's strong man also roared, killing intent to the sky.

"Hmph, overwhelmingly, after the big battle is broken, it won't take long for them to be defeated and let them feel despair."

"Yes, we have twenty strongest Heavenly Monarch level powerhouses, but they can't make up for them with numbers."

Outside, some devas sneered.

The expressions of most of the Celestial Races are very relaxed.

Their Celestial Race has the combat power of the twenty strongest Celestial Monarchs, which is too strong. Before, they defeated the demon army, like a ruin.

In the age when the roots were not born, the twenty strongest heavenly monarchs were truly unmatched.

In their view, destroying the heavenly army and demons is nothing more than stubborn resistance. Once they fought, they would be defeated in a few seconds.

Wow!

The formation continued to bounce and disappear, and after a while, the formation of the Heaven Extinguishing Army's station completely disappeared.

The Thirty-Six Regiment Refining Tribulation God Thunder also merged and transformed into a war sword again.

However, this war sword, compared with the previous ones, was seriously inadequate in spirituality and had been half ruined.

"kill!"

Ye's immortal voice rang all over the sky, and stepped out first, rushing towards the station of the Heaven Extinguishing Army.

He is holding a divine sword and wearing a divine armor. They are all top-level source-level divine soldiers, making him even more extraordinary.

Behind, Ye Qiuxian, Heavenly Lord of Hundred Battles, etc., possessing the strongest power of Heavenly Lord, followed Ye Immortal to kill the Heaven Extinguishing Army.

The other three thousand gods of the human race did not fight out together.

Obviously, the combat power of the twenty strongest heavenly monarchs is enough, and it is enough to defeat the heavenly army and demons.

At that time, the Heaven Extinguishing Army and the demons were panicked and fled in all directions, a piece of sand.

The God Lord of the Three Thousand Heavens is responsible for hunting down.

This was also the way to deal with demons before. At that time, the demons were completely stunned and fleeing in horror. They couldn't form any combat power. They were killed by a large number of powerful men by the 3,000-day human **** master.

"kill!"

The lion also roared suddenly and rushed into the air.

At the same time, Lu Ming, Xie Nianqing, Bone Demon, and some masters of the devil also rose to the sky and killed Ye Immortal and others.

The Heaven Extinguishing Army and the demons did not all attack, and they only dispatched hundreds of masters.

But these hundreds of masters, all are the top powerhouses.

The other gods are standing by, looking for opportunities to shoot.

At the moment when Lu Ming and the others rushed out, a beam of light and a figure burst out from somewhere in the station of the Heaven Extinguishing Army, rushing out at an astonishing speed, the latter came first, caught up with Lu Ming and others, and rushed to the sky. The strong of the human race.

This person is Gu Changfeng.

"Gu Changfeng, it's you, why didn't you die?"

Someone from the Celestial Race recognized Gu Changfeng and exclaimed.

"What? He is Gu Changfeng, the forbidden body 80 star years ago? Didn't he mean that he was dead long ago? Why is he still alive?"

Other celestial races who have heard Gu Changfeng's name also exclaimed.

"Gu Changfeng? Since you are alive, let this seat take you on the road."

Ye Immortal spoke indifferently, his aura exploded, and the divine sword in his hand filled the sky with astonishing sword aura. There was still a distance between him, and he slashed out with one sword and slashed towards Gu Changfeng.

"You are the immortal? The strongest ancestor of the Celestial Race? I will meet you."

Gu Changfeng whistled, and a spear appeared in his hand.

There is no doubt that this is also a source-level magic weapon, and its level is very high.

Characters like Gu Changfeng, like Lu Ming, are also people with great opportunities. They are the protagonists of an era. How can they lack magic weapons?

The spear pierced out and turned into a bright glow, colliding with Ye's immortal sword light.

With a bang, the two attacks dissipated at the same time.

blocked!

Lion and others showed joy.

But Ye immortal, his eyes condensed, and he said indifferently: "See how you can block me, kill!"

Gu Changfeng and Ye Immortal took the lead and collided first.

After the two collided, they fought fiercely.

Dangdang...

Their speed was too fast, and in an instant, they fought dozens of moves.

Regardless of outcome.

At this moment, Lu Ming, Shi and others finally relieved.

Gu Changfeng's combat power was really terrifying, completely blocking Ye Immortal, not weaker than the opponent, it can be said that it is difficult to distinguish the outcome.

"Hahaha, forbidden body, really powerful, kill!"

The lion laughed wildly.

The morale of others was also boosted.

"It seems that the real taboo body with clear mind is far stronger than the strongest Tianjun, but this is the normal level."

Lu Ming's heart moved.

In a battle at the same level, the body of taboo far exceeds the strongest heavenly monarch, which is too normal.

After all, the strongest heavenly monarch's combat power only controls the three strongest heavenly powers.

The reason why the two taboo bodies controlled by the Celestial Race can only exert the power of the strongest Heavenly Monarch is because they have completely lost their spiritual wisdom.

It's just equivalent to a puppet, and it can't fully display its strength at all.

It would be terrifying if it were two sane and taboo bodies.

At this time, other people also collided together.

Roar!

The lion roared, confronted the extinct heavenly monarch, and fought with the extinction, the battle was inextricably difficult to separate.

The other strongest divine lord of the Heaven Extinguishing Army was against the Heavenly Lord of Hundred Battles.

"Leave these two taboos to me, I will fight two taboos with one battle, hahaha!"

The bone demon laughed and issued a terrible attack, enshrouding the two forbidden puppets.

The two sides made a few moves in succession, and the bone demon's body shook wildly and retreated violently.

But he completely ignored the defense, and killed two taboo puppets.

The attacks of the two taboo puppets landed on the bone demon, they just made a sonorous sound, sparks were everywhere, but they could not interrupt the bone demon's bones, or even leave a trace.

The bone demon merged with the bone under the immeasurable demon stele, and its body was too hard.

Chapter 4776: Ye Qiuxian with a broken mentality

In Boundless Demon Abyss, the bone that the Bone Demon fused has a very different origin. It was a strong man from the last era. He didn't know what level of existence he was. Even if he fell endless years, the bones left behind were terrifying.

If it weren't for the origin disaster, the bone demon could use that bone to restore to the origin state's cultivation.

Now even if the origin cannot be broken, the hardness of the bones is still preserved, it is not the existence of the Divine Master Realm that can break through, and there is not even a trace of it.

The only weakness of the Bone Demon now seems to be the soul.

However, the two forbidden bodies have no minds, exist like puppets, and will never attack the soul.

This is also the reason why the bone demon chose to fight between the two.

The bone demon entangled the two taboo puppets.

"Blast me!"

Not far from Lu Ming, the four powerful demons roared, their eyes were blood red, and they looked like death.

They were full of blood, and above their heads, there was a divine soldier suspended.

This magic weapon is undoubtedly high in rank, and is the treasure of the town of the four demon kings.

At this moment, these four powerful demons burned themselves through special secret techniques, and reached a certain resonance with the treasure of the town clan.

Hum!

The four terrifying treasures of the town clan shook, and was stimulated with a trace of power, poured into the bodies of the four demons, causing the fighting power of these four demons to skyrocket.

Their bodies swelled up quickly and turned into four huge demons. The wings of the demons spread out, covering the sky and covering the sky with demonic energy.

They fought together with the four primitive gods and puppets, and for a time the gods and demons overflowed, destroying the void.

With the help of the secret technique and the treasure of the town clan, these four demons have soared their combat power, and they have reached the level of the strongest heavenly monarch.

But the price is life.

Generally speaking, the existence of the **** master realm, even at the peak of the **** master, can't stimulate the source-level **** soldiers.

Not to mention the magical weapons such as the treasures of the four royal families, towns and clan, even more power can not be stimulated.

However, these four powerful demons burned their lives through their own bloodlines and secret techniques to resonate with the treasure of the town clan, and finally aroused the power of the treasure of the town clan, so that their combat power, Climbed to the strongest heavenly monarch.

These four demons entangled the puppets of the four primitive gods.

And Xie Nianqing was against Pantian Tianjun, one of the strongest Tianjun.

"Divine Lord Jiu Zhong, look for death, kill!"

Pantian Tianjun looked down on Xie Nianqing at all, not everyone was a god, and he could have the strongest Tianjun's combat power in the Ninth Level of the Divine Lord.

His three kinds of strong heavenly powers were intertwined, and he slapped Xie Nianqing with a move.

With a loud bang, Xie Nianqing shook her body and retreated violently.

"dead!"

Pantian Tianjun drank coldly and used a source-level magic weapon to kill Xie Nianqing.

"Infinite Demon Monument!"

Xie Nianqing drank lightly, and the phantom of the Immeasurable Demon Stele appeared above her body.

When the phantom of the immeasurable demon stele emerged, the aura exuding from Xie Nianqing's body exploded, and the rich demon aura almost turned into essence.

Xie Nianqing slapped it out, and then a demon qi burst out. As soon as this demon qi burst out, it turned into an immeasurable demon soul, colliding with Pantian Tianjun.

This time, there was no violent roar, because the immeasurable demonic soul immediately dissipated after being hit.

However, after the immeasurable demon soul dissipated, the terrible energy did not dissipate, but continued to rush towards Pantian Tianjun.

Almost unstoppable, this energy rushed directly into Pan Tian Tianjun's body.

Pantian Tianjun's face suddenly changed.

Because he felt that his mentality was unstable, a wave of anger rose in his heart, the murderous intent was more intense, and the demons tended to explode.

"Can provoke demons, **** it, die for me!"

Pantian Tianjun roared, not keeping it, urging his combat power to the extreme, and the source-level magical soldiers screamed and killed Xie Nianqing.

The phantom of the immeasurable demon monument above Xie Nianqing's head rushed out and confronted Pantian Tianjun, blocking his source-level magic weapon.

Then, Xie Nianqing took two palms in succession, this time, three palms in a row.

Three demon qi rushed out, turned into three immeasurable demon souls, and rushed towards Pantian Tianjun.

Pantian Tianjun's complexion changed again, and he didn't dare to face the three Immeasurable Demon Souls. He could only choose to escape, constantly dodge, avoid Immeasurable Demon Souls, and wanted to rush towards Xie Nianqing. When he approached Xie Nianqing, he launched a killer blow.

He found that Xie Nianqing's attack power was not that strong, and it was not as good as his, that is, the Immeasurable Demon Steel phantom and the Immeasurable Demon Soul were powerful.

Especially the immeasurable demons soul, can attract the demons.

If he comes several times, his inner demons will break out, and the consequences will be very serious.

However, Xie Nianqing slapped several palms in succession, and several demon energy turned into immeasurable demon souls, rushing towards Pantian Tianjun.

"Damn..."

Pantian Tianjun roared, killing intent rushing into the sky, but unfortunately Xie Nianqing couldn't help but the two fell into a stalemate.

Seeing that Xie Nianqing was fine, Lu Ming was finally relieved.

"Lu Ming, this time, I will kill you!"

Ye Qiuxian had stared at Lu Ming long ago, and told others not to move Lu Ming, and handed Lu Ming to him.

At this moment, he killed Lu Ming.

He was holding a source-level divine weapon and divine sword, wearing a source-level divine armor, majestic and majestic, the sword was cut out, the sword light was mighty, and he wanted to split Lu Ming in half.

Hum!

The God of War spear in Lu Ming's hand vibrated, making a terrible buzzing, and the void exploded, and then the God of War spear pierced Ye Qiuxian like a stream of light.

Before that, Lu Ming had triggered the Zhanzi Jue in advance, so at this moment, he had already triggered the Zhanzi Jue nine times the combat power.

when!

Spears and swords intersected, and violent energy swept all directions.

Both Lu Ming and Ye Qiuxian's bodies were shocked, and they both moved back.

"You...your strength, it's impossible..."

Ye Qiuxian widened his eyes and yelled in disbelief. A handsome face was distorted.

It is hard for him to believe and accept such a result.

He is now the 9th Divine Lord, and his combat power has skyrocketed. He originally thought he could stabilize Lu Ming.

Even when he saw that Lu Ming's cultivation had reached the eighth level of the Divine Master, he still thought so.

Because in the past, Lu Ming was better than him in the first battle at the same level, but he was not much better.

Now his cultivation base is one level higher, suppressing Lu Ming shouldn't be difficult.

But the right move just now was evenly divided.

With that move just now, he almost used all his strength.

In other words, not only did Lu Ming improve his cultivation base, he also increased his combat power in the first battle of the same level.

So now, if he was at the same level as Lu Ming, wouldn't he be suppressed every minute.

He couldn't accept it, and he was going crazy with jealousy.

Every time after his battle strength skyrocketed, he felt confident that he could suppress Lu Ming, but in the end he received a huge blow. He was about to collapse and his mentality was unstable.

"Kill, today, he must be killed."

Ye Qiuxian's eyes were blood red, and he frantically killed Lu Ming.

Chapter 4777: Defeat again

Ye Qiuxian relied on his source-level war armor, completely ignoring his own defenses, and madly slew Lu Ming.

boom! boom! boom!

The two got a few strokes in a row, and they didn't know the outcome.

At this time, the other two normal strongest demon masters of the Demon Clan, plus other masters of the two sides, such as Tang Jian, Mengxu Divine Master, Rong Jin, and others, plus the ball, faced the nine of the Celestial Race. Wearing a golden armor, he is the strongest old man.

The two strongest demon masters entangled one each.

The ball also showed a powerful and unmatched combat power, and it was inextricably separated from the strongest heavenly monarch.

There is also a strong man, the tiger of the same race of the lion. Although he was injured, he displayed the strongest power of the heavenly monarch in a short time and fought with an old heavenly monarch.

In addition to hundreds of masters, there are five old and strongest heavenly kings left in the battle.

These hundreds of masters, there are no lack of top heavenly monarchs, with these people as their main force, temporarily blocking the five strongest old heavenly monarchs.

"blocked!"

Countless creatures were overjoyed on the garrison of the Exterminating Army.

The opponent is aggressive, and when they are dispatched, they are the twenty strongest heavenly monarchs. The terrifying combat power makes people desperate.

But the Heaven Extinguishing Army and the devil joined forces and eventually blocked it.

On the battleship of the Celestial Race in the back, those Celestial Races were dumbfounded and dumbfounded. If they hadn't seen it with their own eyes, it would be really hard to believe.

In this era where the origin is not derived, the combat power of the twenty strongest heavenly monarchs is almost unmatched and cannot be defeated.

Now, it was blocked abruptly, like a fantasy.

"Should we take action to help you adults?"

A Tianjun spoke.

"No, the other party still has more than 10,000 gods who haven't made a move, and they look forward to it. Once we make a move, they will make a move. We have only three thousand people, and the number is much smaller than the other party. We are the one who suffers from the war."

Another heavenly monarch spoke, but he was a top heavenly monarch.

"Damn it, I didn't expect that among the Heaven Extinguishing Army and the demons, there would be so many powerful people."

"That is, that Lu Ming, that Xie Nianqing, and even a metal being on Lu Ming's body actually has the strongest power of Heavenly Sovereign. This is simply cheating."

"And Gu Changfeng, who didn't die, his combat power was at its peak, he could actually fight against the ancestors."

Many celestial races roared.

The Heaven Extinguishing Army or the Devil had some cards, which they expected.

But they originally felt that even if the Heaven Extinguishing Army and the Devil had some trump cards, they would not be able to compete with the combat power of the twenty strongest Heavenly Monarchs.

This is the advantage of Tiangong's position, which can only be achieved through endless years.

It is impossible to destroy the heavenly army and demons.

But they never expected that Lu Ming, Xie Nianqing, and Qiqiu would actually have the strength of the strongest Tianjun.

Even more unexpectedly, Gu Changfeng was still alive, retaining his peak combat power.

This completely disrupted their plans.

Originally without Gu Changfeng's words, Ye Immortal, with his unmatched combat power, could continuously kill other strongest heavenly monarchs, completely break the balance, and finally defeat the heavenly army and demons.

But now, Ye Immortal is blocked, and the Celestial Race has lost its greatest advantage.

Now that the two sides are in a stalemate in the war, it depends on which side's strong one can break the stalemate.

Soon, the two sides confronted hundreds of moves, and still no winners or losers.

Others have similar combat strengths, and it is unlikely that they want to tell the winner in a short time.

"Kill kill kill!"

At this time, Ye Qiuxian had already red eyes and launched an offensive frantically on Lu Ming. During the period, he was hit by Lu Ming twice, but with the defensive power of the source-level magic weapon, he abruptly resisted Up.

The battle armor on Ye Qiuxian's body was not trivial. It should not be a normal-level battle armor. Even the God of War Spear could not be broken. It could only leave shallow traces on it.

"Lu Ming, you can't help me, go on, you will die in my hands."

Ye Qiuxian roared.

He disregarded defense and attacked frantically, but he could increase his attack power to the extreme. His combat power was indeed strong, and he had gradually gained the upper hand.

"Do you think that only you have the defense of the **** armor?"

Lu Ming spoke indifferently, and then spoke to Tang Jian, Rong Jin and others, asking them if they could temporarily entangle the other six masters.

Because Lu Ming wanted to draw the ball out.

"Don't worry, we don't seek merits, but we seek no demerits. We focus on defense. There is no problem with entanglement of the six of them."

Tang Jian transmitted to Lu Ming.

"it is good!"

Lu Ming nodded, and then passed a sound to the ball.

boom!

The ball confronted the strongest old Tianjun, and then his body squirmed, turning into a sword light, piercing the void, and a few flashes, appeared next to Lu Ming, attached to Lu Ming, and turned into one. Pieces of armor.

Immediately, Lu Ming gave up his defense and let Ye Qiuxian's sword light slash on him. At the same time, he swept out a shot and drew it heavily on Ye Qiuxian's head.

Ye Qiuxian's whole body was covered by the battle armor, including his head.

However, violent power can still form an impact through the armor.

Lu Ming and Ye Qiuxian's body retreated at the same time, but Ye Qiuxian's was more serious. He was hit in the head. For a moment, his head was a little dizzy.

At this moment, a beam of light shot out from Lu Ming's chest.

It is a ball of light that can make people fall into the illusion.

The ball's repair base is now greatly increased, even if it maintains the form of the battle armor, it may shoot a beam of light.

The beam of light enveloped Ye Qiuxian.

This kind of light beam is not something that the battle armor can resist, and now the ball's repair base has reached the peak of the gods, the power of the light beam has also skyrocketed.

Ye Qiuxian was a little confused for a while and fell into the illusion.

Lu Ming certainly would not miss such an opportunity.

With a flash of his figure, he rushed to Ye Qiu's side, and the God of War spear blasted out frantically.

boom! boom! boom! ...

In an instant, Lu Ming blasted out dozens of moves, all bombarding Ye Qiuxian.

Ye Qiuxian, like a ball, was flying around in the vast void.

Even though his source-level magic weapon armor was amazingly defensive, Lu Ming couldn't break his armor, but he still had a powerful impact on Ye Qiuxian through the armor.

Dozens of continuous shocks hit Ye Qiuxian, even Ye Qiuxian couldn't bear it, blood spurted in his mouth, and he was seriously injured.

"kill!"

Lu Ming shouted and continued to kill Yeqiuxian, even if he couldn't break the armor of Yeqiuxian, Lu Ming would still shake Yeqiuxian to death.

"What are you entangled with those people? Come over together and kill Lu Ming first."

Ye Immortal shouted, and a cold voice sounded.

He was speaking to the six strongest heavenly monarchs who fought Tang Jian, Rong Jin and others.

"Go, kill Lu Ming!"

The six old strongest heavenly monarchs swept with the golden war spear in their hands, defeating the attack of Rong Jin and others, and then rushed towards Lu Ming.

Rong Jin and the others can join hands to fight each other, but the other party wants to leave, and it is difficult for them to stop them all.

Chapter 4778: Fight alone the strongest

Rong ban, Tang Jian and others tried their best to stop them, but it was also difficult to stop all the six strongest elders.

In the end, they only stopped two, and the other four, broke through the obstacles and slammed towards Lu Ming.

The strongest Heavenly Sovereign's combat power, the speed is too fast, shattered the void and walked through the void, tens of thousands of miles in the void, and in an instant, he came close to Lu Ming.

The four yelled, the golden war spear pierced out, and it grew rapidly, piercing the void, and slammed towards Lu Ming.

The four strongest heavenly monarchs joined forces. Even if Lu Ming had the armor protection of the ball, he did not dare to care about it. He did not care about continuing to chase and kill Ye Qiuxian. s attack.

However, the combination of the four strongest heavenly monarchs is not so easy to avoid. Lu Ming tried his best, and in the end he only avoided two attacks, and two more attacks, and hit Lu Ming.

Zi Zi Zi...

The golden war spear pierced the armor of the ball, making a harsh sound, sparks shot in all directions, Lu Ming's body shook wildly, and he retreated violently.

Although the opponent did not pierce the armor of the ball, part of the powerful force rushed into the armor and impacted Lu Ming.

Lu Ming's cultivation base, after all, only had the eighth layer of the Divine Master, and his defense power was limited. Even through the impact of his armor, Lu Ming's vitality and blood was still surging, and a mouthful of blood spurted out.

"Kill, kill him, his cultivation is only the eighth layer of the Divine Lord, and his defense is limited. Our strength is enough to kill him through the armor."

Ye Qiuxian yelled in spite of his injuries, and at the same time he screamed at Lu to kill.

His eyes were blood red, and his murderous spirit was extremely strong.

His hatred for Lu Ming is overwhelming.

How many times, every time his combat power has greatly increased, he thought he could suppress Lu Ming, but the result was often that he was suppressed, and he was too aggrieved, and his anger had already burned him.

If you don't kill Lu Ming, he feels that he will have a lot of demons, and it will be difficult to break through to the original state.

He turned the power of the perfect sky to the extreme, slashing out a sword light with all his strength, and slashed towards Lu Ming.

At the same time, the second wave of attacks on the four old strongest heavenly monarchs has also broken out.

Four golden war spears pierced Lu Ming from four directions.

Inevitable.

Facing the fighting power of the five strongest heavenly monarchs, the illusion light beam of the ball could not exert its power.

Because of the limited range of the illusion beam of light, the other party was obviously guarding against the trick of landing sound, so they didn't gather together, they were scattered.

Dispersed, the illusion beam can only envelop one person at the same time.

But even so, Lu Ming had to work hard.

The ball still shot out a beam of light and enveloped an old Tianjun. This person was immediately greatly affected, his body stiffened, and the offensive stopped.

But Lu Ming exploded with all his strength, full of brilliant rays of light, with his left hand in the wild style and the right hand in the sky-breaking style, making several consecutive moves.

A piece of land emerged, and there were three spear lights, blasting towards the three golden war spears together.

As for Ye Qiuxian's attack, Lu Ming couldn't take care of it anymore and could only let him bombard him.

After all, Ye Qiuxian had been severely injured by Lu Ming before, and his strength was no longer at its peak. His attacks would be easier to withstand.

Boom boom boom...

The continuous roar erupted, and Lu Ming collided with the attacks of the three strongest heavenly monarchs.

Lu Ming used the power of a single person to spread the power, and naturally he couldn't stop the attacks of the three strongest heavenly monarchs, the Primordial Style and the Breaking Heaven Style, and was defeated by the opponent at once.

However, although it can't resist it, it can also weaken the power of the opponent's attack.

The attack power of the three strongest old heavenly monarchs was indeed weakened a lot, and they continued to fly towards Lu Ming and bombard Lu Ming.

Moreover, Ye Qiuxian's attack also bombarded Lu Ming.

Boom boom boom boom!

Four attacks sent Lu Ming into the air, and the powerful impact still caused Lu Ming to vomit blood again and his injuries aggravated.

"Lu Ming..."

Not far away, Xie Nianqing was extremely worried.

She wanted to rush over to help Lu Ming, but her strength was limited after all. It was already the limit to be able to entangle the opponent's strongest heavenly monarch. It was impossible to help Lu Ming.

At the station below, Dan Dan, Ten Thousand Gods and others were also extremely worried.

"What are you waiting for? Let's fight together and fight with them."

The gods roared, his eyes widened, his fighting spirit rushed into the sky, his blood seemed to be burning.

"No, using our combat power to deal with the strongest Heavenly Sovereign is completely useless. Instead, moths fight the fire and die."

The existence of a **** at the pinnacle.

"What should I do? Does it depend on Lu Ming being killed?"

The gods roared.

The rest of the Exterminator was silent.

They also wanted to save Lu Ming, but they didn't have that strength at all, so they rushed forward, just cannon fodder.

Instead, they will be defeated by the Celestial Palace. When the time comes, the Celestial Palace will defeat them, and the three thousand Celestial Armies behind will take advantage of the situation to hunt down and kill the Celestial Army.

It is their task to watch the changes and deal with the following three thousand-day human races.

At this time, Ye Qiuxian and the four strongest old heavenly monarchs launched a stormy offensive against Lu Ming.

Lu Ming was completely plunged into a crisis in front of five strong people at the same level.

Had it not been for the armor of the ball, he would have been killed.

Even so, he was in a fatal crisis. The five powerful attackers continued to fall on him, impacting his body through the armor, and his injuries continued to increase.

"Die, die for me!"

Ye Qiuxian yelled in his heart, his eyes were ferocious, this time, he felt that Lu Ming was dead and he would never have another chance.

Not only that, but others also think so.

The Celestial Clan's strongest Heavenly Sovereign level combat power is still too much after all, and it is still too reluctant for non-strongest Heavenly Sovereign to truly block the strongest Heavenly Monarch level of combat power.

Puff! Puff! ...

Lu Ming spit out several mouthfuls of blood again. To be honest, his injuries were already very serious.

His whole body's musculoskeletal fracture was broken, and his internal organs were almost shattered. Not only that, but his soul was also bombarded, and the light was a little dim.

If this continues, he will really die.

"No, I will not die here, I am not reconciled, how can I die in the hands of Ye Qiuxian and a few old guys..."

Lu Ming screamed in his heart, and the remaining power burst out frantically.

His body was filled with sunlight, tens of thousands of cells were brighter than the stars, and he constructed a yellow mud road that stretched to the depths of darkness.

At this moment, the blood stains on the Huangni Road suddenly filled with bleeding red luster, and a ray of power penetrated into Lu Ming's body.

boom!

Lu Ming seemed to feel that a star exploded in his body, and an extremely powerful force filled his body.

His taboo power not only recovered instantly, but even his injuries healed instantly.

Not only that, his power at this time completely surpassed the peak and reached his highest value in history.

Chapter 4779: Lu Ming kills the strongest

"This power..."

Lu Ming's eyes lit up, very excited.

He was familiar with this force because he had accidentally triggered it.

At the beginning of the Qianqiu Battlefield, in the sea of blood buried in the immortal, they were besieged by the Celestial twin brothers and others. At that time, the twin brothers used the technique of fighting together, leaving them in desperation.

At that time, the blood stains on the Huangni Road accidentally entered Lu Ming's body, causing Lu Ming's combat power to skyrocket, successfully defeating the twin brothers' combined attack technique, and beheading multiple opponents.

Now, this strand of power is almost the same as the power back then.

The difference is that Lu Ming's current strength is many times stronger than at that time, and when this strand of strength enters his inner body, his combat strength is stronger than that at that time.

"Kill, kill, kill..."

"Die to me!"

At this time, the four strongest old heavenly monarchs and Ye Qiuxian once again slammed towards Lu Ming, besieged from different directions, launched a terrible killing, and wanted to kill Lu Ming in one fell swoop.

"It's you who die!"

Lu Ming roared, the vast and surging power rushed into the God of War Spear madly, and then, the sky-breaking display, five spear lights burst out.

One of the spear lights collided with Ye Qiuxian's sword light first.

Before that, Lu Ming divided his power into five, which was absolutely unstoppable from Ye Qiuxian's attack, even if Ye Qiuxian was seriously injured.

But at this time, the attacks of the two collided, and a violent roar broke out. Ye Qiuxian's sword light trembled violently, and then it burst with a crash.

The spear light kept piercing his chest in Ye Qiuxian's extremely horrified eyes.

The armor on Yeqiuxian's body was sunken. Although it was not pierced, part of the powerful force still penetrated through the armor of Yeqiuxian and impacted on Yeqiuxian's heart.

Ye Qiuxian screamed, his body retreated violently, his heart was shattered by this force, he vomited blood, his face pale.

Boom boom boom boom!

Immediately afterwards, Lu Ming's other four spear lights were bombarded with the four strongest elders.

The four spear lights, facing the four golden war spears, erupted with a fierce roar, and the extremely sharp energy swept all directions.

In the end, the spear light dissipated, but the golden war spear was also blocked.

The four old strongest heavenly monarchs were stunned, their eyes widened and unbelievable.

And Ye Qiuxian, it's almost the same.

The attack of the five strongest heavenly monarchs was actually blocked. How could this be possible?

Why is Lu Ming's combat power suddenly so strong?

Lu Ming's cultivation base was only eightfold as the Divine Lord, and his combat power reached the level of the strongest Heavenly Sovereign. It was already extremely terrifying and extremely incredible.

This is already a battle across many levels.

Lu Ming and the five of them are of the same level in terms of combat strength, and logically, he is at most equal to one of them.

Even with the addition of the ball, it is only the two strongest Tianjun-level combat power, facing the five of them, only those who are beaten, only those who are suppressed and killed.

How could Lu Ming's combat power suddenly soar?

At the moment they were confused, Lu Ming had already taken action.

His body, as if turned into a spear light, used the Heaven-Breaking Style to the strongest peak, turned into a bright spear light, and pierced one of the strongest old heavenly monarchs.

Fast, too fast, almost instantly, the gun light approached the opponent.

Roar!

The strongest old Tianjun, with tight muscles and dilated pupils, roared like a beast in his mouth. The golden war spear trembled and flew out, trying to block Lu Ming's blow.

However, he was just a little taken aback, so he missed the best defensive time.

The masters competed with each other, and the difference was a thousand miles away. The stunned moment of this moment made it difficult for him to explode to the peak in such a short period of time.

What's more, now Lu Ming's combat power has exceeded him by a lot.

With a bang, although the Golden War Spear hit the God of War Spear, it was shot out immediately, and the spear light continued to stab at the opponent without stopping.

puff!

The spear light accurately penetrated the eyebrows of the strongest elder Tianjun and pierced his head.

The terrifying power instantly tore the opponent's soul into ashes, and the opponent's body, which was originally filled with terror, shrivelled like a torn balloon, leaving only an old body.

The strongest heavenly monarch, die!

This was the first strongest Heavenly Monarch to die in the war, but he came from the Celestial Race, which exceeded everyone's expectations.

At first, everyone thought that even if the strongest Heavenly Monarch level was killed, it must have come from the Heaven Extinguishing Army or the demon.

How could he not think that it would come from the Celestial Race.

After slaying the strongest elder heavenly monarch, Lu Ming didn't stop at all, shaking his figure, and then killed the strongest elder heavenly monarch.

The main reason why Lu Ming didn't kill Yeqiuxian right now was because Lu Ming was not sure.

Ye Qiuxian's equipment is too good. The battle armor and sword on his body are all extremely high-level source-level divine soldiers. He immediately killed Yeqiuxian and might not be able to kill Yeqiuxian in one fell swoop.

In that case, Ye Qiuxian could not be killed, and a great time would be wasted.

And killing the strongest heavenly monarch who was old, really worked in one fell swoop, and successfully killed the opponent.

This is the strongest heavenly monarch, and this is an extremely huge loss in the age when the origin is not available.

Before, the four heavenly palaces had only four strongest heavenly monarchs, and the four demon royal families had only one strongest demon master.

Looking at the entire Celestial Destroying Army, not counting the cards, but only the two strongest divine masters.

This shows how precious the strongest heavenly monarch is.

At this time, Lu Ming had already gone to second place.

This one finally reacted, with a long roar, and the three strong heavenly powers erupted, urging them to the extreme, filled with gorgeous glow and terrifying power, poured into the golden war spear, and stab a spear with all his strength. .

when!

The golden war spear collided with Lu Ming's war spear.

The strongest Tianjun made a full blow, and the power was indeed amazing. This time, this person was not as good as the previous one, the golden war spear was shot out.

However, Lu Ming's power is too strong now.

Terrible power poured into this person's body through the golden war spear.

The person's body was shaken and his body retreated violently.

The arm holding the golden war spear made a crackling sound. Obviously, the bones of the arm had been shattered.

"Come and help me, we join hands, this person is too evil."

The old Tianjun roared, his voice revealed fear.

Since his combat power reached the strongest Heavenly Monarch, in the Divine Lord Realm, he had never felt such fear.

The strongest Heavenly Sovereign level combat power is almost the strongest combat power of the Divine Lord Realm, such as Ye Immortal, or Ye Qiuxian and other evildoers, are rare figures in countless ages, and they are almost difficult to encounter.

Chapter 4780: Killing the Celestial Race Fear

This old heavenly monarch had never encountered evildoers such as Ye Immortal and Ye Qiuxian. In his time, he was almost the strongest combat power in the Divine Master Realm.

However, when he faced Lu Ming, he felt extremely fragile, which gave him the illusion of facing his original state.

If it hadn't been for the Great Tribulation of the Origin Realm, he really thought he had encountered a strong person in the Origin Realm.

He can't deal with such evildoers alone.

The other two old Tianjun were rushing towards Lu Ming with all their strength.

But Ye Qiuxian also resisted the fear and killed Lu Ming.

"Ball ball!"

Lu Ming passed the sound of the ball, and at the same time continued to rush towards the strongest old Tianjun who had been injured by him just now.

The moment it rushed out, the ball displayed a beam of illusion, a beam of light, covering the opponent.

The opponent's body, which had originally wanted to violently retreat, suddenly stiffened, with a dull expression in his eyes.

"Kill, kill!" Seeing this scene, the other two old strongest heavenly monarchs attacked with all their strength, trying to force Lu Ming to stop.

If it had been before, in the face of such an attack, Lu Ming could only defend and evade with all his strength, and could not continue to attack at all.

But now...

Shoo!

The God of War spear vibrated, and three spear lights burst out.

Two of the spear lights flew to the two strongest old heavenly monarchs who came to rescue, and the third one flew to the old heavenly monarch who was shrouded in a beam of illusion.

As for Ye Qiuxian, Lu Ming didn't bother to pay attention to him, planning to resist him.

Now that blood stained power enveloped Lu Ming's body, not only his strength increased sharply, but his defense also increased several times.

Coupled with the armor made by the ball, the seriously injured Ye Qiuxian can't help him.

Sure enough, Ye Qiuxian's attack fell on Lu Ming. The powerful impact passed through the armor, but was blocked by the blood-stained force, causing only a slight shock to Lu Ming.

The two elderly Tianjun who came to the rescue were blocked by Lu Ming's two spear lights.

The third spear light slammed towards the heavenly monarch who was shrouded by a beam of illusion.

With a snort, the strongest elder heavenly monarch stepped into the footsteps of the one in front, his eyebrows were pierced, and his soul was annihilated.

Another strongest heavenly monarch has fallen!

Killing the two strongest heavenly monarchs in a row only happened in a very short time.

At this moment, everyone on the garrison of the Heaven Extinguishing Army and the battleship of the Celestial Race, everyone looked silly, and they were speechless.

Then, the Extinguishing Army's garrison broke out with shocking cheers.

It's so exciting.

Suddenly, Lu Ming's combat power skyrocketed, and he killed the two strongest heavenly monarchs in succession, allowing them to see the hope of victory.

However, the expressions of the Celestial Race on the Celestial Race battleship changed drastically and became extremely ugly.

Some people still have horror in their eyes.

It was terrifying, it was the strongest Heavenly Monarch level existence, it was just killed, one shot at a time, this kind of visual impact was too strong, making all the Celestial Races feel chilly, like a falling ice cellar.

"hateful!"

Ye Immortal roared, it was because he had lived for endless years and was used to countless big scenes, his mind was extremely tough, and it was difficult to calm down at this time.

"What's so evil? Such beautiful scenery is worthy of praise and memory!"

Gu Changfeng laughed.

"Yes, it's worth remembering, hahaha!"

Lion also laughed.

On the side of the Heaven Extinguishing Army and the demons, the fighting spirit skyrocketed, and the lost confidence returned.

If this goes on, you can win!

"Lu Ming, it's so scary..."

Below, Zixuan, Yin Kong and others were dumbfounded and stupid.

"Hahaha, I know it, I know this kid still has a hand, is it so simple to mess with this seat?"

Every time he laughed.

"Lu Ming..."

Xie Nianqing's eyes flickered, completely relieved and concentrated on dealing with her opponent.

"why why?"

Ye Qiuxian trembled all over, his eyes were blood red, revealing fear, his body kept backing away, and he did not dare to approach Lu Ming.

He was already scared by Lu Ming.

He felt that Lu Ming was innately restrained and his nemesis.

He felt that he would never surpass Lu Ming.

Yes, after many consecutive defeats, an inner demon has developed in his heart. Lu Ming is his inner demon, and his confidence in himself has been shaken.

In the future, when he sees Lu Ming, he may be afraid before fighting.

At this time, Lu Ming didn't care how much shock he caused, in his eyes, only the other two old Celestial races were left.

Huh!

He rushed towards the third old Celestial Race like a glow.

However, at this time, the remaining two strongest old heavenly monarchs have gathered together.

The two wielded their golden war spears like lightning, and pierced Lu Ming's two vital points.

The God of War spear vibrated, stabbing two shots in a row.

Dangdang twice, the two old strongest heavenly monarchs retreated wildly.

Facing each other head-on, the two strongest heavenly monarchs were not Lu Ming's opponents either.

Lu Ming walked through the air, with a violent aura, the **** of war spear was like a dragon, swept out, and the sky was full of spear lights, pressing the two old strongest heavenly monarchs back continuously.

The two old strongest heavenly monarchs were completely suppressed.

"Yeqiuxian, you still don't make a move!"

Ye Immortal shouted, and the voice shook the void.

Yeqiu shuddered, and finally reacted, but when he looked at Lu Ming, there was a hint of hesitation in his eyes.

Actually did not make the first shot.

"Shoot, Yeqiuxian, if you dare not do it, in your life, you will never want to step into the original state. Only if you do it, overcome fear, and kill Lu Ming, you can complete the transformation, become stronger, and hope to surpass in the future. I."

Ye Immortal yelled, this time, he used the method of sound transmission, and his voice exploded in Ye Qixian's ears, like thunder.

Ye Qiuxian shook violently, with a crazy look in his eyes, and slammed to Lu Ming with a roar.

At this moment, another beam of illusion light flew out of Lu Ming's chest.

The ball was shot.

If you do it yourself, you can only tie with one of the strongest heavenly monarchs, but the effect he and Lu Ming can play together with support is far beyond his own combat power.

Nothing else is needed, just defense and illusion light beams can greatly increase Lu Ming's strength.

The illusion light beam shrouded an old strongest heavenly monarch, and the opponent's movements stiffened.

Taking advantage of this opportunity, Lu Ming used his breakthrough style to kill this person.

"Stop it for me!"

Another old Tianjun roared and attacked frantically, trying to stop Lu Ming.

He even began to burn his divine power, pushing his combat power to a terrifying level.

However, it was still not Lu Ming's opponent.

With a bang, the person retreated violently, was shaken out, and vomited blood.

"Lu Ming!"

Ye Qiuxian roared, ignoring his injuries, and at the same time burned the power of the strongest sky and attacked Lu Ming.

He didn't care about the consequences, his goal was to defeat the demon in his heart.

Ye Qiuxian burned the strongest heavenly power, and his combat power finally climbed to the peak, surmounting the obstacle of his injury.

"court death!"

Lu Ming's backhand was a **** of war spear, sweeping to Yejiu.
