

D Emperor 4781

Chapter 4781: One person quit one clan

With Lu Ming's current combat power, he pulled out a shot with all his strength, the power was too strong.

The void shattered, all matter turned into nothingness, and even time was distorted.

boom!

In the end, the God of War spear hit Ye Qiuxian's stomach fiercely.

what!

Ye Qiuxian screamed, and the armor on his body sank at a speed visible to the naked eye. Of course, it was not penetrated, but it was deformed.

The terrible power passed through the battle armor. Although a large part of the force was removed by the battle armor, the remaining power was still very important.

Ye Qiuxian's body was directly exploded into two pieces, and his body was broken with destructive power.

Fortunately, his vitals were preserved, such as the soul, such as the cosmic bridge, he screamed, madly running power, and repairing the injured body.

At the same time, he manipulated his body and flew madly towards Ye Immortal, while yelling, "Ancestor, save me!"

"Yeqiuxian..."

Lu Ming's eyes flickered, and he wanted to catch up and solve Ye Qiuxian completely.

But Lu Ming still didn't do anything.

Ye Qiuxian's life-saving means are numerous, as well as the source-level divine weapon armor body. It is easy to get serious injuries. If you want to kill it completely, it is not so easy. It needs a lot of power than Ye Qiuxian. The flesh was beaten to ashes.

With Lu Ming's current strength, it is not so easy to beat Ye Qiuxian's body to ashes through the source-level magic weapon armor.

In addition, if Ye Qiuxian flew towards Ye Immortal, it was even more difficult to kill.

It would be better to continue to kill that old strongest Tianjun.

This is a rare opportunity. Next time Lu Ming wants to borrow the blood-stained power, he doesn't know when it will be.

Because the power of that blood stain is not under his control at all.

It's not that he can use it if he wants to.

Without the power of blood stains, he couldn't imagine killing one of the strongest heavenly monarchs so easily.

Therefore, now Lu Ming must seize the opportunity to kill the opponent's strongest heavenly monarch.

Although two of the strongest Heavenly Monarchs of the Celestial Race were killed, the number was still far above the sum of the Heaven Exterminating Army and the demons.

Eliminate one more person, and the Celestial Slayer will have an extra guarantee.

These thoughts just moved around in Lu Ming's mind, and almost no time was spent. Lu Ming made a judgment in a flash.

Hum!

The God of War spear shook, turned into a dazzling spear light, and flew towards an old strongest heavenly monarch.

At the same time, Lu Ming shot out with a palm, a huge continent was formed, heading towards the suppression of the other strongest heavenly monarch.

With Lu Ming's current strength, the power of breaking the sky and the prehistoric style is really amazing. How dare the two old strongest heavenly monarchs dare to be careless and naturally defend with all their strength.

At this time, the ball was shot out by a beam of illusion light, covering an old strongest heavenly monarch.

Huh!

Lu Ming seized the opportunity and shot out his body. He grabbed the God of War spear that had been shot back into the air. The guns were united and they pierced the opponent.

The other party was shrouded by the illusion light beam, stiffened a little, and wanted to resist, it was too late.

And the other strongest elder Heavenly Sovereign, who had just smashed the 'previous style', retreated, and wanted to rescue, it was too late.

puff!

With a burst of blood, another old strongest heavenly monarch was pierced by Lu Ming's eyebrows, destroyed his soul, and fell on the spot.

the third!

This is already the third strongest heavenly monarch, who died in Lu Ming's hands.

In a short period of time, there were three strongest heavenly monarchs who were killed by Lu Ming, and all the heavenly human races felt chills and chills in their hearts.

This kind of combat power, this kind of speed to kill the strongest Heavenly Monarch, isn't it faster than Jehovah's immortality, and stronger than Jehovah's immortality?

If this continues, it won't be long before the strongest Heavenly Monarch on the Celestial Race will all die in Lu Ming's hands?

The remaining strongest elder Heavenly Sovereign felt his whole body shuddering, no matter where he dared to continue fighting Lu Ming, backing wildly, wishing that the distance between him and Lu Ming the farther the better.

"retreat!"

At this moment, Ye Immortal roared.

He was very unwilling, and the anger in his heart was burning. When he looked at Lu Ming, he was full of terrible murderous intent.

However, he is a decisive person, knowing that if they continue, they will not only get no benefit, but will lose more and more.

Only retreat temporarily and think of a solution later.

Following Ye Immortal's order, the other strongest Heavenly Monarchs of the Celestial Race, including two taboo puppets and four puppets of primitive gods, all retreated quickly.

"Don't want to go, kill!"

"Don't let them go."

The lion, tiger and others roared, chasing and killing each other.

Especially the four life-burning demons, even more so.

Even if they stop now, there is only one dead end. The fall is irreversible, and they naturally want to kill more people.

Lu Ming also wouldn't let the other party get away easily, and it would be difficult to use the blood stain next time.

"Exterminate Tianjun, don't you want to kill me, fight with me!"

Lu Ming stared at Extinction Heavenly Monarch and chased him.

But now, where did Exterminate Tianjun dare to fight Lu Ming, seeing Lu Ming half-dead in fright, backing frantically.

"Lu Ming, I will fight you!"

Ye Immortal roared, confronted Gu Changfeng with a move, and quickly backed away, and then slashed a sky-shattering sword light at Lu Ming.

The sword light was very terrifying, spanning hundreds of millions of miles of void in a flash.

Lu Ming swung the God of War spear to greet him, and with a loud bang, his imperishable sword light was blocked, but Lu Ming's body was also blocked.

"So strong, not weaker than my current state..."

Lu Ming's heart moved.

Ye Immortal's strength is really shocking, and it will not be weaker than Lu Ming's current state.

The reason why Lu Ming killed the strongest Tianjun faster than Ye Immortal was because of the cooperation of the ball.

The illusion light beam of the ball can make the opponent's movements stiff, falling into the illusion for a short time, and being slaughtered by others.

Otherwise, it would not be easy for Lu Ming to kill the strongest heavenly monarch.

At least it takes a little more work.

"You go back first, I will stop them!"

Ye's immortal voice came out, and at the same time a brilliant glow filled his body.

"Sword of Heaven and Man-Death of the Sun!"

Ye Immortal slashed out with a sword, and a round of sun suddenly appeared in the void.

In an instant, the sun was blazing.

This is no ordinary sunlight, because every sunlight is a terrible sword energy.

In an instant, countless sword auras filled this void, too much, too much.

Lu Ming's expression changed, he shouted loudly, the God of War spear quickly became larger, and at the same time it spun quickly, covering an area, resisting these sword auras.

He not only has to resist himself, but also helps others resist.

This kind of large-scale attack, the power is dispersed, it is indeed weaker, and the existence of the strongest Heavenly Monarch level can block it.

However, on the side of the Heaven Extinguishing Army and the Devil, there were other people, such as Rong Ban, Tang Jian and hundreds of masters, who did not have the strongest Heavenly Monarch's combat power.

This kind of sword aura is a fatal threat to them.

Chapter 4782: Still can't control

"Go back!"

Gu Changfeng yelled, and shot out with all his strength to resist these sword auras.

At the same time, the lion, tiger, bone demon and others are also doing their best to resist these sword auras, lest they rush through.

And those hundreds of masters quickly retreated.

As a result, Lu Ming and others were blocked.

The master of the Celestial Race seized the opportunity and rushed into the chariot.

The chariot roared, ready to start and leave.

"Sword of Heaven and Man-Death of the Sun!"

Ye Immortal was slashed out with another sword, and another round of sun appeared, shining brightly.

"This guy is really abnormal, such a powerful source technique, it's just that God Lord Jiuzhong can continuously perform..."

The Bone Demon wanted to swear.

The Bone Demon also existed in the Origin Realm at the beginning, and naturally understood its own Origin Art.

However, with his current cultivation base at the peak of the Divine Lord, he couldn't use the Origin Technique.

It can be seen that the application of the source art is surprisingly demanding. Generally speaking, only the existence of the source state can the source art be used.

But Ye is immortal, in the Divine Lord Realm, it can be continuously displayed, which is indeed shocking.

However, it is normal. When Ye Immortal was fighting for the human body in the Halo World, his cultivation was suppressed in the first layer of the Divine Lord, and he was able to use the Origin Technique, not to mention now.

The power of the source technique that is being used now is more powerful than that of the divine master, and the power is not known how much stronger.

After performing this trick, Ye Immortal's body also quickly retreated.

"When I break the peak of the god, it will be the day when you are destroyed!"

Ye's immortal voice came out, and his people had already landed on a battleship, the battleship started, shattered and walked through the void, and left here in a blink of an eye.

After the battleship left, the big sun also dissipated.

"It's really fast to escape."

The lion's eyes widened, a little unhappy.

The faces of Gu Changfeng, Lu Ming and other masters at the scene were very solemn.

In their ears, the words that Ye Immortal was about to leave always echoed.

This sentence puts a lot of pressure on them.

Ye Immortal's current cultivation base is only the Ninth Level of the Divine Lord, it is so terrifying, if he breaks through to the peak of the Divine Lord, how strong will it be?

Killing the strongest heavenly monarch, isn't it like trying to get something from the bag?

At that time, who could be the enemy?

But immediately, everyone's eyes turned to Lu Ming.

In their eyes, Lu Ming was also a monster.

Lu Ming's cultivation base was lower than that of Ye Immortal. It was only a divine master eightfold. But just now, he killed the three strongest heavenly monarchs in succession, completely changing the situation, and was even more monster than Ye Immortal.

Maybe Lu Ming can stop the immortality?

Lu Ming naturally understood what everyone meant, and he couldn't help smiling bitterly.

He is not as beautiful as it seems on the surface.

The blood-stained power is not under his control at all. It is not something that can be borrowed if you want to borrow it. It's just like watching 'it'.

Also, although the nine-fold divine lord reaches the peak of the divine lord, it takes time to accumulate, and it is not so easy to cross.

Xie Nianqing has stayed in this realm for thousands of years, and still has no breakthrough, which shows the difficulty.

But the immortality of this person cannot be measured according to common sense.

The other party is known as the strongest existence in the history of the Celestial Race.

It is not impossible for such characters to be able to break through the peak of God Lord in a short time.

Lu Ming is only the eighth master of God now, can he catch up?

The key is that he is short of resources, no resources, and wants to slowly cultivate to the Ninth Level of the Divine Lord, not knowing how long it will take, let alone breaking through the peak of the Divine Lord.

Only in a battle at the same level could Lu Ming have the confidence to contend with the immortality.

Faced with a person like Ye Immortal, it is almost impossible to fight across levels. You must know that Lu Ming was defeated in the same level.

"Haha, don't be so discouraged. No matter what, in today's battle, you killed the three strongest heavenly monarchs of the other side. The heavenly human race estimated that the heart was bleeding, and it was really happy."

The lion laughed.

"Yes, in today's battle, the Celestial Clan did not dare to commit a crime in a short time. At least we can have a period of recuperation."

Everyone walked and chatted, and returned to the extinction army station.

"The power is beginning to dissipate."

At this time, Lu Ming felt the power of the blood stains and began to dissipate, turning into strands of blood like threads, returning to the pool of blood stains.

Lu Ming felt physically shocked and weak. This feeling made him a little uncomfortable.

It's like losing most of the power all at once.

"Everyone, the future is up to you."

At this time, an elderly demon said.

This person is the strong man who burned his life before and inspired the devil's treasure. At this time, his life is about to come to an end.

His body became a little illusory, not real, as if it would turn into a spot of light and dissipate at any time.

"Uncle Jiu, my clan will never forget your achievements."

Zixuan came over, tears in her eyes.

This old man is the ninth uncle of Zixuan, the direct line of the purple-eyed demon royal family.

"It's nothing. In the history of fighting with the Celestial Race, how many ancestors have died in the battle, it's not bad for me. At least, in my lifetime, I can see my race out of the dark universe. This is the greatest comfort."

Zixuan's Ninth Uncle smiled and waved his hand, the treasure of the purple-eyed demon clan, flew towards Zixuan and submerged in Zixuan's body.

When he handed over the treasure, he touched his body and dissipated into a shower of light.

At this time, the other three life-burning demons also turned into light rain and dissipated, and the treasures of all races flew back to the hands of the representatives of all races.

There is a sad atmosphere circulating among the demons.

"It seems that at the beginning, Senior Sword Ancestor, saw a corner of the future, it was not complete."

Lu Ming thought to himself.

Feihuang told them to Lu Ming that Tang Feng was in the depths of the ruins of the universe and saw a blurry future by chance.

The fuzzy corner of the future shows that the devil will become their enemy.

But now it seems that Tang Feng has only seen half of it.

In the beginning, the demons did become their enemies, because they were controlled by the Celestial Race and besieged and destroyed the garrison of the Celestial Army.

Later, the situation changed, and the demons became their allies, fighting against the Celestial Race together.

Perhaps Tang Feng only saw the front part but not the back part.

"Lu Ming, how many prehistoric crystals do you need if you want to break through the ninth layer of the divine master?"

At this moment, the lion looked at Lu Ming suddenly.

"At least more than 5 billion prehistoric crystals are needed!"

Lu Ming was taken aback for a moment, and then spoke without concealing it.

"More than five billion..."

Everyone at the scene took a breath.

This number is terrifying. Where can I find so many prehistoric crystals?

"Now, Lu Ming is the key to our fight against the Celestial Race, and this time, killing the three strongest Celestial Monarchs in a row is a great contribution. I propose that we will obtain the prehistoric crystals,

or the Lord God The medicines are all gathered together to help Lu Ming break through the nine layers of the divine master first, what do you think?"

Lion Road.

"This..."

Lu Ming was taken aback, but he did not expect the Lions Club to make such a suggestion.

"Of course I agree."

"I agree with ten thousand."

Wan Shen, Dan Dan, Bone Demon, etc. had a good relationship with Lu Ming, so they called out immediately.

Chapter 4783: No one in the universe knows you

Putting the resources together, for the time being, first give it to Lu Ming. Of course, Dan Dan, Wanshen, Xie Nianqing and others are in favor of it.

Some other members of the Heaven Extinguishing Army, Zixuan, Yinkong and others, all glanced at each other and hesitated, but in the end they nodded and agreed.

Even if some people are unwilling, there is no way.

Their greatest threat is the Celestial Race, that is, the immortality.

Once Ye Immortal reaches the peak of the gods, there will be no one to beat. The only hope to fight against Ye Immortal is Lu Ming.

Gu Changfeng's cultivation level has reached the peak of the **** master, that is to say, it is difficult for him to improve his combat power in the **** master realm.

Lu Ming is different. He is now the Eighth Divine Master, has a lot of room for improvement, and is the only existence that has the potential to fight against Ye Immortal.

This is about the life and death of the heavenly army and the demons, even if they are unwilling in their hearts, there is no way.

Only by pooling resources and helping Lu Ming make a breakthrough can he fight against Ye Immortal.

"Everyone, I have written down this kindness, Lu Ming, don't worry, I will not use these resources in vain, I will get more in the future, and I will definitely return it."

Lu Ming clasped his fists.

It's not the time to be polite. He does need a lot of resources to collect them on his own, not knowing how long it will take.

"Lu Ming, don't be too happy too early. The number of prehistoric crystals of more than five billion is too terrifying. Although the prehistoric crystals are easier to obtain than before, it is still extremely difficult to obtain such a terrifying number of prehistoric crystals. I don't know how long it will take."

Lion sighed.

Others also sighed, indeed, more than five billion Honghuangjing, this is an astronomical number, too much.

They can only do their best.

"I understand, I will find a way myself."

Lu Ming nodded.

Afterwards, everyone discussed the following arrangements again.

This time, although the Celestial Race was repelled, the situation afterwards was never restored to what it was before.

Before, the Celestial Extinguishing Army held one side alone, and the four Great Ten Thousand Demon King Clans also occupied one territory each, fighting with the Celestial Race.

But now it's different. Although the Celestial Race has been repelled, it still has the strength of the seventeen strongest Celestial Monarchs, and the total strength is still far superior to all parties.

But the devil suffered heavy losses before, and the four royal clans combined only left about 7,000 demon masters, whose strength was not as good as before.

Now if they were on each side as before, they would be easily defeated by the Celestial Races.

Therefore, in the following situation, the Heaven Extinguishing Army and the demons must continue to cooperate.

In the end, they are ready to use the garrison of the Exterminating Army as the core, spread out, occupy a territory, recuperate and obtain resources.

After the discussion, the action was taken.

Soon after, the news about this peak battle quickly spread throughout the universe and across all races, causing an uproar.

The creatures of all races were first shocked by the horror of the Celestial Race, and it was really terrifying to be able to dispatch the twenty strongest Heavenly Monarchs.

But it was Lu Ming that horrified all the creatures.

Lu Ming unexpectedly killed the three strongest Heavenly Monarchs of the Celestial Race by one person, turning the tide in one fell swoop, changing the situation of the battle, and repelling the Celestial Race.

This level of combat power is simply shocking to the world. When everyone first heard it, they were dumbfounded and thought they had heard it wrong.

After repeated confirmation, it was found that this matter was absolutely true.

For a time, Lu Ming's name spread throughout the universe.

All the larger races have heard of Lu Ming's name.

People call Lu Ming one of the strongest taboos in history.

Since the new era, the number of taboo bodies that have appeared in the universe is actually not too few, and the total number definitely exceeds ten.

But even the taboo body has strengths and weaknesses.

The strongest among them is undoubtedly the soul of the soul of the heavenly court, the lord of the ancient gods court, the master of the ancient gods. Needless to say, the strength and record of these two people are shocking talents. Fabulous, a character of the past and present.

The other is the taboo sword ancestor Tang Feng and the immeasurable sky demon flying phoenix. The strengths of these two are also extremely terrifying, and they are considered to be no worse than the master of the soul of heaven and the master of the ancient gods.

Especially Tang Feng, vaguely has the title of the strongest taboo.

And Lu Ming is considered not inferior to the existence of these four people.

You know, every taboo body in history is a person of amazing talents, deep luck, and unparalleled talent.

And Lu Ming is now in the Divine Realm, and he is considered not inferior to these four. It is definitely a great honor.

Everywhere in the universe, Lu Ming's name is being talked about.

But some of these races have different thoughts.

In the next month or so, the universe returned to calm.

The Celestial Race withdrew to the Temple of Heaven, and it seemed that there was no plan to make further moves.

Lu Ming also retreats wholeheartedly again.

His main task is to comprehend the 3000th ancient mystery, as well as the tactics of war characters.

It was too difficult to comprehend the 3,000th ancient secret technique, and Lu Ming shifted his mind to Zhan Zi Jue.

As long as the Zhanzi Jue is cultivated nine times its combat power to the point where it can be triggered at any time, the Zhanzi Jue can be regarded as complete.

Later, he didn't need to carry the Zhanzi Jue with him, he could trigger the multiple combat power of the Zhanzi Jue at any time.

In that case, he can give the Zhanzi Jue to others to use.

For example, Xie Nianqing, or Wan Shen and others, improve their combat power.

A month later, Lu Ming suddenly received news that it was the fighting saints, the Buddhas, the demons, and the spirit races coming together to meet the Exterminating Army and at the same time want to meet Lu Ming.

"People from the four major races suddenly come here, what's the so-called?"

Lu Ming's eyes flashed.

These four major races are the existence of the top ten races, and they are also the four races that previously announced their separation from the heavenly palace.

Over the years, they have been living in the remote areas of the ruins of the universe, thriving and avoiding wars, and they must have a purpose here at this time.

Lu Ming planned to meet.

When Lu Ming came to a discussion hall of the Mietian Army, he found that there were already a lot of people here.

Lions, Rong Ban, Tang Jian and other high-ranking forces of the Heaven Extinguishing Army were all present. In addition, on the seats on both sides of the hall, there were masters of the four races.

"Brother Lu, you haven't seen you for many years, your style is more prestigious, and you have left me far behind."

As soon as Lu Ming arrived, he heard a rather heroic voice.

"Brother Yuanwen, don't come here without problems!"

Lu Ming smiled.

What I spoke just now was the Peerless Tianjiao of the Fighting Saint Clan, the Yuanwen of Fighting God.

This time, more than a dozen people from the Fighting Saint Clan came, all of whom were masters of the God Realm, represented by the God of War Yuanwen.

"Brother Lu, compared to you, I'm far behind, I'm really ashamed."

Dou Shen Yuanwen smiled bitterly, remembering the days when he fought with Lu Ming.

At the beginning, he was the No. 1 Tianjiao on the quasi-imperial list, famous for the universe, and behind him in the pit and magic mountain, he also fought with Lu Ming.

At that time, the two were still close together, but now he is far behind Lu Ming.

Chapter 4784: Four clans come to vote

Nowadays, although the God of Fighting Yuanwen is also a famous tianjiao in the universe, except for the races of the Celestial Race, the Yaxian race, and the devil, he is definitely the top tianjiao among the ten thousand races in the universe.

But compared with Lu Ming, it was a thousand miles away.

Now Lu Ming can kill the three strongest heavenly monarchs alone, and he is only the duality of the divine master.

This cultivation speed is extremely fast among the younger generation, but it depends on who you compare.

"Brother Yuanwen is polite, please sit down."

Lu Ming smiled, waved his hand, and then sat down beside the lion and the others.

"Everyone, Lu Ming has already come, now can you talk about your purpose here?"

Lion grinned.

"Amitabha, our purpose here is to seek cooperation."

A representative of the Buddhist family chanted the Buddha's name.

This is an old monk, his whole body is golden and brass. On top of his head, there is a round of Buddha's light filled with soft light.

This old Buddhist monk is a strong man at the pinnacle of the gods and has a very high status among the Buddhists.

"Seek cooperation? Are you all here for this?"

The lion's eyes scanned the representatives of the fighting saints, demons and spirits.

"It's true. It's true. The Celestial Race is too despicable. It secretly acts on the masters of our races. Our four races are the first to leave the Celestial Palace. We originally planned to find a territory in the ruins of the universe to thrive and live away from fighting. Participating in the disputes of the universe."

"But now it seems that it is impossible to stay out of the matter."

A strong man of the spirit race spoke, this person was a fire spirit, his body was red, like a flame burning.

"How do you say? Is the Celestial Race going to do something with you?"

The lion asked.

"Although I haven't done it yet, it will be a matter of time for the Celestial Race to act in the style of the Celestial Race. What's more, the strength of the Celestial Race is really amazing. The vast universe is the only one who can fight the Celestial Race."

The strong man of the spirit race said.

"You saw Lu Ming's potential, right? You think he can fight against the powerhouse of the Celestial Race. Otherwise, why didn't you see you before?"

The lion smiled.

The old faces of the two masters of the Buddha and the Spirits blushed slightly.

The lion talked to them.

In the previous battle, they saw the horror of Lu Ming.

Lu Ming can kill the three strongest heavenly monarchs alone now, and he will definitely be stronger in the future. In the future, it is not impossible to completely oppose the Celestial Race or even suppress the Celestial Race.

The strength of the Celestial Race also shocked them. Now that they have the seventeen strongest Heavenly Monarch level powerhouses, apart from the unpredictable Asian Immortal Race, they are truly unmatched.

Will the Celestial Race with such power let them go?

I am afraid that if you free your hands, you will deal with them.

Therefore, the four clans secretly discussed and decided to take refuge in the Heaven Exterminating Army.

So there is the matter of them coming together.

"The predecessors are right. We do believe that with the talent of Brother Lu, we will definitely be able to deal with Ye Immortal Ye Qiuxian and others in the future, so we came to seek cooperation."

Dou Shen Yuanwen is very straightforward.

"Haha, this little brother is still refreshing, Lu Ming, what do you say?"

The lion looked at Lu Ming.

"You come to seek to fight against Tiangong together, I am naturally welcome."

Lu Ming smiled.

There is no reason to disagree.

The enemy of the enemy is the friend.

Moreover, the strength of the Heavenly Palace is too strong, and the Heaven Extinguishing Army urgently needs more allies and more help.

Fighting sages, Buddhists, demons and spirits are also among the top ten races.

Although the overall strength is far from the Celestial Clan, the Devil, the Asian Immortal Clan, and even the Celestial Destruction Army.

But it is not weak.

Each of the four clans has more than one hundred gods.

The sum of the gods of the four clans definitely exceeds five hundred, which is a force that cannot be ignored.

Lu Ming valued the strongest of the four races.

Among the top ten races, each race has several strong people in the original realm.

This is accumulated over a long period of time.

Not to mention anything else, just talk about the World Turtles and the Time and Space Spirit Rats, each tribe has several origins.

The talents of the World Turtles and Time and Space Rats are no worse than the top ten races, they are just a small number.

The four clans add up, I am afraid there are close to ten origins.

The Great Tribulation of the Origin has only lasted for ten thousand years. Now that a thousand years have passed, and there are about nine thousand years left, the Great Tribulation of the Origin has passed.

It is conceivable that once the great calamity of the origin is over, the universe will become the battlefield of the origin realm.

By then, the Heaven Extinguishing Army will increase by nearly ten origins, which is definitely a huge boost.

Therefore, how could Lu Ming refuse.

When Lu Ming said this, the representatives of the four clans all smiled.

The Celestial Destroyer Army needs their power, and they need to rely on the Celestial Destroyer Army's strength. Faced with such a behemoth as the Celestial Race, only cooperation can achieve a win-win situation.

"Your station is far away from the Exterminating Army. How do we complete the specific cooperation details?"

The lion asked.

If they are too far apart, it is difficult to support each other even if they cooperate.

"Before, we had gathered the people of our tribes, returned to our respective home stars, and then secretly pushed the home stars towards the station of the Heaven Extinguishing Army. I believe that it will not take long before we will be near the territory of the Extinguishing Army."

"I'm afraid of being discovered by the Celestial Clan, and secretly send the strong to besiege."

Fighting God Yuan Wendao.

"This is easy to handle. Next, I will take Senior Gu Changfeng out for a walk to attract the attention of the Celestial Race..."

Lu Ming said.

"Then thank you Lu Ming for your benefactor, kindness, kindness!"

The old Buddhist monk was overjoyed.

People of other races are also overjoyed.

With Lu Ming's strength, coupled with Gu Changfeng, if he went to the territory of the Celestial Race, the Celestial Race would definitely be nervous to death, and most of them would not have the mind to do more with the four races.

After the discussion was finalized, Lu Ming acted immediately, pulling Gu Changfeng away from the garrison of the Heaven Extinguishing Army and heading to the territory of the Celestial Race.

Sure enough, when the Celestial Race discovered that Lu Ming and Gu Changfeng were coming together, they were all nervous to death. The army was mobilized and gathered, and put out various defenses.

With the strength shown by Lu Ming and Gu Changfeng in the previous battle, it would be difficult for them not to be nervous.

Lu Ming and Gu Changfeng are definitely capable of causing heavy losses to the Celestial Race.

Only full defense can resist the attack of the two.

Of course, Lu Ming and Gu Changfeng didn't mean to attack at all.

The main reason is that Lu Ming's strength is not as powerful as the Celestial Clan imagined.

The blood-stained power on Huangni Road was not something he could use if he wanted to.

He couldn't use blood stained power, his combat power was just equivalent to the strongest Heavenly Monarch, and he was not an opponent of the Celestial Race at all.

Their purpose here is mainly to frighten the Celestial Race, so that the four races can successfully transfer.

Lu Ming and Gu Changfeng strolled in the territory of the Celestial Race for a few months, exploring a few prosperous mainland fragments by the way, and harvesting a lot of prehistoric crystals and master-level magical medicine.

Chapter 4785: Zhan Zi Jue is great, Yin Pit Demon Mountain changes

Nowadays, some relatively huge continental fragments are really prosperous.

Vigorous, all kinds of magical medicine are everywhere, and all kinds of creatures are bred.

In particular, all races in the universe have migrated to the ruins of the universe, bringing all kinds of wild beasts in the universe to the ruins of the universe. They multiply very quickly in the ruins of the universe. In just over a thousand years, they can be seen on many continent fragments. The shadow of the beast.

In these continent fragments, the main-level magical medicine is constantly being bred, and there are many prehistoric crystals appearing.

The two explored several continents, and each found more than 100,000 prehistoric crystals.

The main-level magical medicine and Honghuangjing had no effect on Gu Changfeng, and they were all given to Lu Ming, and Lu Ming accepted it politely.

In a few months, the home planets of the fighting saints, Buddhas, demons, and spirit races finally moved to the territory near the extermination army station, forming a horn-breaking trend with the extermination army station and demons. , Can support each other.

At this time, Lu Ming and Gu Changfeng returned to the extermination army station.

After returning to the extermination army station, Lu Ming continued to practice.

Time is hurried, and another two hundred years are in the blink of an eye.

After two hundred years of training, Lu Ming finally cultivated the Zhanzi Jue to the perfect stage, nine times the combat power, and can be triggered 100%.

This undoubtedly made Lu Ming's combat power more stable.

There will not be a sudden outbreak of a war, and there will be no time to trigger the Zhan Zi Jue, so that your combat power cannot be at its peak.

At this time, Lu Ming handed the Zhanzi Jue to Xie Nianqing.

With Xie Nianqing's current cultivation base and talent, he soon started to practice, and quickly cultivated to the point of four times the combat power, so that Xie Nianqing's combat power was further improved, and when facing the strongest heavenly monarch, he could be more calm.

It's a pity that Lu Ming's third thousand great ancient mystery has no eyebrows.

Although he spent a lot of time studying, he still has no clue.

Feeling that the road ahead is vast, he seems to have finished comprehending the great ancient secret technique, and the road ahead has been cut off.

He knew that this was an illusion, because the Lord of the Ancient God Court had successfully comprehended three thousand great ancient mysteries, which had a precedent.

Moreover, he felt from the great ancient divine stone that the combination of great ancient secret arts was more than that.

Because, the great ancient mystery that he comprehended later was quite different from the mystery that was comprehended by the great ancient divine court.

"I don't know if the Great Ancient Secret Art realized by the master of the Great Ancient God Court will allow me to complete the three thousand Great Ancient Secret Art."

Lu Ming's eyes lit up suddenly.

The great ancient secret techniques behind him were all realized by himself. Now that his own comprehension has encountered a bottleneck, it is better to directly practice the great ancient secret techniques left by the Lord of the Great Ancient God Court.

Thinking of this, Lu Ming immediately began to look for it.

First in the Exterminating Army, and then went to the four clans to find.

Finally, in the Fighting Saint Race and the Buddha Race, he found a great ancient secret technique that he had not practiced before.

Lu Ming immediately began to comprehend, and then cultivated a great ancient secret technique into a secret technique rune, wanting to blend into one of his own cells.

But this is, it has encountered a strong resistance.

The occult rune, unable to blend into the cell, was bounced back.

"Why is this? Get me involved!"

Lu Ming yelled, pushing the occult runes with taboo power, wanting to forcibly blend into the cells.

But the next moment, with a touch, this cell burst directly.

Of course, by bursting a cell, with Lu Ming's recovery energy, it can be recovered instantly.

But Lu Ming's face was a little gloomy.

No, not at all, the occult rune cannot be incorporated at all.

Lu Ming finally gave up.

"Do you have to comprehend it yourself?"

Lu Ming thought.

Perhaps, when the 3,000 types of ancient mysteries were still far away, they could comprehend and blend in, but now only one type can reach 3,000, which is not enough.

There is only this explanation.

It seems that I can only comprehend it by myself.

Lu Ming could only comprehend the third thousand great ancient mysteries by himself.

Over the past two centuries, most of the prehistoric crystals obtained by the Heaven Extinguishing Army and the demons have been handed over to Lu Ming, which is about 100 million.

In two hundred years, one hundred million primordial crystals can be obtained, which is definitely a large number, and it is many times faster than before.

I wanted to accumulate 100 million prehistoric crystals before, but I didn't know how many years it would take.

Before proclaiming himself, Feihuang gave Lu Ming 200 million Honghuangjing. It was Feihuang himself and other masters who had accumulated it after a long period of time. It was measured in stellar years.

Can two hundred years be compared with a sidereal year?

However, the 200 million predecessor crystals were nothing but a drop in the bucket for Lu Ming, and they did not play a big role at all.

If this goes on, it will take at least 10,000 years to gather more than 5 billion prehistoric crystals.

Ten thousand years later, the origin of the catastrophe is over, and the day lily is cold.

It is estimated that Ye Immortal has already broken through to the peak of God Lord.

However, Lu Ming had no choice but to fully comprehend the third thousand secret arts, hoping to cause a qualitative change and greatly increase his combat power.

But at this time, a major event occurred in the cosmic starry sky, which attracted the attention of all forces.

The place where the accident happened was the Devil Mountain in the Yin Pit.

The Yin Keng Demon Mountain, for Lu Ming, is a relatively memorable location.

At the beginning, in order to participate in the heavenly soldiers assessment of the Tiangong, he needed a ray of evil spirits. He pursued the nine Yin spirits and came to the Yin Pit Moshan. Finally, he fought against the **** of war, and triggered the domain of the king, and merged with the **** of war. Fight the Yin Nine Spirits.

The Devil Mountain in the Yin Keng is a famous forbidden place in the universe.

In the dark pit, no one can come out of anyone who enters it. Only Yin Jiuling can come out of it because of the evil spirit of Yin.

But this time, great changes broke out in the Demon Mountain of the Yin Pit, and an immeasurable evil spirit rushed out of the Yin Pit.

The evil spirit of Yin spreads all over the world, centering on the Demon Mountain of Yin Keng, spreading outward.

And the speed of diffusion is very fast, one by one galaxy, one by one star field, is enveloped by the evil spirit.

All the creatures that were enveloped by the evil spirits were all absorbed by the evil spirits and turned into ferocious monsters, fighting each other, and even rushing out of the evil spirits to attack others.

For a time, the vast universe and starry sky fell into catastrophe, and endless creatures turned into evil monsters.

In just a few short years, nearly one-third of the universe of the starry sky was covered by the evil spirit of Yin, and it became the area of evil spirit of Yin.

Moreover, the evil spirits of Yin continued to spread around.

If this continues, within a hundred years, the entire universe starry sky, countless planets, will be enveloped by the evil spirit.

Races large and small in the starry sky of the universe, capable, have all migrated toward the ruins of the universe, and those who are incapable can only wait for despair to come.

"The Devil Mountain of the Yin Pit, such an abnormality happened, what's in it?"

Lu Ming's face was uncertain, he thought of Taixu Sage Dynasty.

Although his relatives and friends almost all moved to the station of the Exterminating Army, the Taixu Saint Dynasty, after all, is the kingdom left by Jingyu, he can't let it go and let it be swallowed by the evil spirit.

Chapter 4786: The creatures in the forbidden land

Lu Ming planned to transfer all the people from the Taixu Saint Dynasty to the station of the Heaven Extinguishing Army.

Lu Ming didn't tell anyone else, he secretly left the Extinguisher's garrison and headed towards the stars of the universe.

Walking through the void, Lu Ming's speed was extremely fast, and it didn't take long before Lu Ming came to the universe starry sky.

"really..."

Lu Ming looked ahead.

In front, there is endless pitch black, and the sky is full of black mist, covering the vast starry sky.

In the black mist, you can see the evil spirits wandering.

Ho Ho Ho...

At the same time, one could hear roars, those creatures who had been swallowed by the evil spirits, completely lost their spiritual intelligence and turned into evil evil monsters.

Lu Ming transferred the power of taboo to his eyes, and through the black mist, he could see many evil evil monsters fighting each other.

These evil monsters have different cultivation bases.

Some have just broken through the realm of gods, there are true gods, gods, **** kings, gods, and so on.

From the virtual **** to the **** emperor realm.

As for the stronger ones, when the evil spirit of Yin did not arrive, they fled directly.

These evil evil monsters fight each other, and the strong kills the weak, and they can absorb the evil evil spirit of the weak for their own use and enhance their strength.

"It can be like this, then this way, even if there is no too strong existence to turn into a monster of Yin evil, but this way of killing and devouring, it can also give birth to a terrifying monster."

Lu Ming felt a little heavy.

After thinking about it, Lu Ming planned to enter the evil spirits and go to the Demon Mountain in the Yin Keng to take a look.

Look at what is in the Devil Mountain in the Yin Pit.

Covering his whole body with taboo power, Lu Ming turned into a stream of light and rushed into the evil Yin Qi.

"Look, that person actually dared to rush into the evil Yin Qi, so courageous, wouldn't he be swallowed up by the evil Yin Qi?"

Someone exclaimed.

Around here, there are also some other people watching, they are all powerful people of some big clans in the universe.

There is no lack of the existence of Divine Emperor Realm.

But even with the existence of the Divine Emperor Realm, he did not dare to enter the evil spirit.

"What an astonishing speed, that is definitely the power of the **** master, it should have come from the ruins of the universe."

"During this time, the top ten races, even the Celestial Race, the Celestial Slayer, and the demons, have sent masters to come."

"This is natural, this is a major event affecting the universe."

These people are talking.

As soon as Lu Ming rushed into the evil spirits of Yin, there were several evil spirits of Yin, rushing towards Lu Ming, trying to swallow Lu Ming and seize the house.

Lu Ming stretched out his hand and grabbed it. A big hand was gathered, covering one side, and directly grabbing a few evil spirits in his hand.

No matter how the evil spirits rushed from left to right, they couldn't escape from Lu Ming's palm.

"This evil evil spirit is very different from the evil evil energy that was born in the previous universe. The power of the ultimate Yin is extremely strong. Is this the evil evil energy that diffuses from the evil mountain of the pit?"

Lu Ming whispered, with a move of his finger, a heavy force sealed the yin and evil air, and then put it into a jade bottle.

Keep it for now, and take it back to the strong man who destroys the heavens or the devil to study.

Lu Ming continued on.

Ho Ho Ho...

There were roars all around, and many evil evil monsters rushed towards Lu Ming and launched a crazy attack on Lu Ming.

However, Lu Ming didn't pay attention to these evil monsters at all, and he didn't even bother to do it and rushed past.

Where Lu Ming rushed through, he brought a terrifying vigor, and directly tore these evil evil monsters to dissipate the power of the ultimate evil.

There is no evil monster that can stop Lu Ming.

In the end, Lu Ming directly used the great movement technique, constantly moving toward the Yin Keng Demon Mountain.

Lu Ming discovered that the closer to the Yin Pit Demon Mountain, the stronger the Yin Sha Qi, and the stronger the Yin Sha monsters.

Even the evil evil monsters of the Divine Emperor Realm have appeared.

"These evil evil monsters continue to fight and swallow each other. It will not be long before the evil evil monsters of the gods will appear. No, maybe they have already appeared."

Lu Ming thought.

After a while, Lu Ming finally approached the Devil Mountain of the Yin Keng.

The Devil Mountain in the Yin Pit has not changed much from before, except that a huge black whirlpool appeared on the top of the Devil Mountain.

This is the location of the sinkhole.

This black vortex leads to the pit.

From time to time, in the black whirlpool, a few evil spirits rushed out.

"Huh? The Celestial Clan, and the Yaxian Clan..."

Lu Ming's eyes moved.

In several other directions, Lu Ming saw a figure flashing, belonging to the Celestial Race and the Yaxian Race.

Obviously, such changes occurred in Yinkeng Demon Mountain, and the Celestial Race and the Yaxian Race were not at ease. They sent people to investigate, which was certain.

Roar! Roar!...

Suddenly, a few terrifying roars came from the magic mountain.

Several figures rushed out of the Demon Mountain and killed the people of the Yaxian tribe and the Celestial tribe.

There are two other figures, they are killing Lu Ming.

"The evil monster of the Divine Master Realm!"

Lu Ming's eyes flashed.

These evil evil monsters that rushed out of the demon mountain really reached the **** master realm.

Two Yin Sha monsters from the Divine Master Realm, one on the left and the other on the right, surrounded Lu Ming and killed them.

The eyes of these two evil evil monsters flashed with cunning light.

Smart!

These two evil evil monsters, unlike other evil evil monsters, have no wit at all, they actually already have wit.

Perhaps, the evil monsters evolving into the Divine Realm will give birth to spiritual wisdom, so they did not continue to kill each other.

However, the evil evil monster of the divine lord still didn't put Lu Ming in the eyes.

Shoo!

Lu Ming clicked **** continuously, and the **** burst out and shot at the two evil evil monsters.

Lu Ming's strength is so powerful. With a single blow at any time, his power is amazing and his speed is amazing.

Bump!

The two evil evil monsters exploded directly, and the power of the most evil dissipated.

On the other side, the Yaxian tribe and the Celestial tribe also resolved the battle and killed the evil monsters.

Those who dare to come here to investigate are all top masters, and there is no lack of the existence of the peak of the gods. Dealing with these ordinary monsters of the gods realm, it is natural to catch them.

"Dare to kill our evil evil warrior, looking for death!"

At this moment, there was a roar in the dark whirlpool.

Then, the whirlpool mist rolled, and along with the roar of the fierce beast, several figures appeared.

These figures are thin and thin, and their bodies are like illusory blue smoke, twisting incessantly.

They are sitting on top of a few strange murderers, their eyes like lightning, looking out.

"this is..."

Lu Ming, as well as the people of the Celestial Race and the Yaxian Race, were shocked.

These figures clearly came out of the pit.

Are there creatures in the pit?

How is this possible?

"The creatures of the forbidden land, ancient books record that there are terrible creatures lurking in the forbidden land. All of this is true. They are about to be born."

At this time, an old man from the Yaxian clan screamed and backed away.

"What do you mean?"

There is the existence of the human race yelling.

Chapter 4787: The situation is getting more and more complicated

"kill!"

At this moment, in the whirlpool, a figure shouted, and its breath exploded, bursts of yin to cold power burst out, causing the temperature of this starry sky to drop sharply.

He rode a fierce beast, stepped out, and rushed out of the whirlpool.

Only then did Lu Ming see what the other party looked like.

Their bodies really seem to be illusory, not flesh and blood, like souls, and as if they are completely condensed from the evil Yin Qi.

They were holding spears and riding a three-headed dog, filled with a terrible breath.

call out!

One of the creatures in the yin pit shot, and the spear pierced out, and the power of the yin whistled and pierced the Celestial Race.

God's pinnacle!

As soon as the opponent made a move, everyone sensed that the opponent's cultivation base was at the peak of the gods.

The Celestial Race did not dare to be careless, the existence of a **** at the pinnacle hurriedly shot, the power of the strongest sky broke out, and he attacked with all his strength.

boom!

The attacks of the two collided, and their strength was reckless, and then the **** master of the Celestial Race retreated violently.

His body was enveloped by a layer of dark evil spirits, and almost froze his body.

But the creature in the pit just swayed slightly.

"So strong combat power!"

Lu Ming was shocked.

The fighting power of the creatures in the pit is really amazing.

In the Divine Master Realm, the talents of the Celestial Race are extremely powerful, and few races in the universe can compare with it. If it were not for the enchanting, it would be difficult to compete with the Celestial Race.

However, the powerful Celestial Race, facing the creatures in the pit, was completely at a disadvantage.

Could it be that the creature in the pit is the goddess of the opponent's race?

Or does the opponent have such a strong combat power?

If it is the latter, it would be terrifying.

boom! boom! ...

Several other creatures in the pit also exploded with a powerful aura, ready to take action.

"Retreat!"

"Retreat first!"

The people of the Celestial Race and the Yaxian Race retreated violently.

After all, here is the Demon Mountain in the Yin Pit, who knows how many creatures there are in the Yin Pit, it is unwise to fight against the creatures in the Yin Pit here.

The people of the Celestial Race and the Yaxian race retreated, and Lu Ming moved back quickly.

He also just started to observe the situation, there is no need to fight against these unknown creatures.

"Hmph, unless the time has come, none of these people will want to leave."

A creature in the pit snorted coldly, did not pursue it, but turned around and returned to the dark whirlpool, disappearing.

Lu Ming flew all the way, and soon left the area covered by the evil spirits.

"In the pit, there are creatures. What is the origin? It stands to reason that this pit and magic mountain should be left over from the last era, but the universe and the starry sky have undergone epoch changes..."

Lu Ming thought, there were many questions.

The starry sky of the universe has undergone epoch changes, the universe has evolved, the world has reopened, and the laws of the universe have been re-evolved. Is this pit and magic mountain really a thing from the last era that has undergone the evolution of the universe and has been well preserved?

If it is true, aren't the creatures in the Demon Mountain in the Yin Pit, the creatures on the prehistoric continent of the last era?

The creatures on the prehistoric continent have been passed down to this day?

This is definitely big news.

Lu Ming also thought of the Celestial Race and the Devil. The Celestial Race and the Demon Race were also creatures of the last era, and they were just servants of the Human Race. They should be passed down wherever they are not advanced. Then other creatures can survive. Not impossible.

This can also explain why the opponent is so powerful, and can suppress the Celestial Race in a battle at the same level.

"I don't know how many people there are. It's really troublesome."

Lu Ming sighed. Originally, the situation in the current universe was complicated enough. Now that there is another creature in the pit and magic mountain, the situation will undoubtedly be more complicated.

This made Lu Ming even more eager, desperate to improve his strength.

He feels that the future situation will become more and more complicated, and only with strong strength can he protect himself.

He quickly walked towards Taixu Shengchao.

Taixu Dynasty, located in a remote area, has not been affected by the Yin Keng Demon Mountain.

And because the news is too closed, I don't know what's happening in the universe at all, and the steady development and cultivation are still the same as before.

Lu Ming's return to the Taixu Saint Dynasty naturally caused a sensation.

However, Lu Ming was too lazy to talk nonsense, opened the door and explained the situation in the universe once, and showed him to the high level of Taixu Shengchao to record the image of Yin and evil spirits that he recorded with the shadow stone.

After watching the high level of Taixu Shengchao, they were naturally shocked.

This kind of cosmic disaster is beyond their imagination. For a time, six gods and no masters, finally put their hopes on Lu Ming.

In their view, Lu Ming is the legend of the Taixu Dynasty.

Lu Ming also said his intention again, and then Taixu Shengchao immediately took action to bring the creatures from all over the place together.

Soon after, Lu Ming began to take action, and with the precepts of predestination, he collected a large number of creatures.

This is a huge project.

The Taixu Saint Dynasty has a vast territory and countless creatures. With Lu Ming's current cultivation base, it took more than half a year to collect part of the Taixu Saint Dynasty's creatures into the prey.

Yes, only part of it.

Don't think of Taixu Sacred Dynasty as just an influential force, there are not many strong people, but all the planets add up, there are still countless creatures.

Lu Ming couldn't take it all away.

Even if they were taken away, the Extinguishing Army's garrison would not be able to live.

Only a part of the more important ones can be taken away.

As for the other creatures, Lu Ming couldn't control so much. There were so many creatures that he couldn't save it.

With the creatures of the Taixu Saint Dynasty, Lu Ming returned to the station of the Exterminating Army, found a piece of mainland debris, and released all these creatures.

Not long after Lu Ming returned, he received a message from the lion.

Lu Ming headed towards the place where the lion lived.

After arriving, I found that Rong Ban, Tang Jian and several people were also there.

"Lu Ming, you are here, and there happens to be a major event to discuss with you."

Lion grinned.

"what's up?"

Lu Ming asked curiously.

"It's about the forbidden land."

Lion Road.

"Forbidden land, do you already know that there are creatures in the Devil Mountain in the Yin Pit?"

Lu Ming couldn't help but said.

"What? There are creatures in the Devil Mountain in the pit?"

The face of Shi and others changed suddenly.

"You don't know?"

Lu Ming said puzzled.

Shi, Rong Jin and others shook their heads.

"It's like this, I just went to the Devil Mountain in the Yin Pit during this period of time..."

Immediately, Lu Ming explained in detail what he had seen in the Demon Mountain in the Yin Pit.

After listening, the faces of Lion, Rong Ban, Tang Jian and others changed and were extremely solemn.

"There is such a thing. There are creatures in the pit. It is said that the devil mountain in the pit has existed for endless years, and the starry sky of the universe has existed as soon as it appeared. Could it be the creatures of the wild continent of the last era?"

Tang Jian guessed that he and Lu Ming thought of going together.

Chapter 4788: Yuanji Shenshan

"This is possible. Anyway, since the original gods appeared in the universe, the Devil Mountain of the Dark Pit has existed, but no one dared to enter the Dark Pit. Anyone who entered was dead."

Lion also followed, his face solemn.

Although the lion has lived for endless years, his grade is older than many of his origins, but he has never heard of living creatures in the pit.

"You don't know about the Yin Pit Demon Mountain, then what forbidden land you just mentioned, is it?"

Lu Ming asked curiously.

"It's Yuanji Shenshan!"

Lion Road.

"Yuanji Shenshan, that terrible forbidden place in the ruins of the universe?"

Lu Ming was shocked and couldn't help but blurt out.

The Yuanji sacred mountain, Lu Ming has naturally heard of it, but anyone who trespasses into the ruins of the universe will be warned to stay away from the Yuanji sacred mountain.

Because it is a terrible forbidden place, and those who enter it die without exception.

There are many places called forbidden areas in the ruins of the universe, or the stars in the universe, but there are still relatively few places that are truly extremely terrifying.

There is only one starry sky in the universe, and that is the magic mountain of the pit.

There are more cosmic ruins, and Yuanji Shenshan is one of them.

This forbidden land is extremely terrifying, not to mention the Divine Lord, even if the existence of the Origin Realm enters, it is more than good.

In the pit of Devil Mountain, there is a mysterious and unpredictable, no one knows what is there.

The greatest danger of Yuanji Shenshan is the Void Giant.

Because there are four terrifying void giants living in Yuanji Shenshan.

When Lu Ming first stepped into the ruins of the universe, he once encountered a giant void beast. He was chased and killed with no way to the sky and no way to enter the earth. Finally, he was lucky and encountered an ancient warship covered with weird black fog. Only escaped the catastrophe.

Lu Ming suspected that the giant void beast was not a mature body, because its size did not match the legend.

Legend has it that the Void Giant Beast is even bigger than the stars.

The mature void behemoth is terrifying, even if it is encountered by the existence of the original state, it is mostly fierce and difficult to contend.

Yuanji Shenshan, guarded by four giant void beasts, is undoubtedly a forbidden place in the forbidden land. In the past, no one dared to approach it.

"Yes, someone recently discovered that active-level magical medicines are haunting Yuanji Shenshan."

Lion explained.

"Source-level magic drug!"

Lu Ming's eyes flashed with light.

The source-level magical medicine is very mysterious, and Lu Ming has one in his body.

The source-level magical medicine can condense the spirit of the medicine, like a living thing.

And the top-level source-level magic medicine, magic medicine and medicine spirit can move around and run everywhere.

"Many people speculate that it should be a very top-level source-level magical medicine. The magical medicine and medicine spirit can run everywhere, so they were discovered around the mainland debris where Yuanji Shenshan is located, and there is more than one in Yuanji Shenshan. , There may be many source-level magical medicines, and even other treasures that contain the imprint of the source, it is also possible that they contain a huge amount of prehistoric crystals."

Tang Jian said.

Lu Ming's eyes were bright and brilliant.

This is very possible.

Yuanji Shenshan actually has four giant void beasts guarding the Quartet. This place was definitely a very important place in the last epoch. No one has ever gone deep into it. Even if it contains a lot of treasures, it is not surprising.

What Lu Ming needs most now is Hong Huangjing.

Or, the main magic medicine.

Only these two can make his cultivation base break through quickly.

For these two things, Yuanji Shenshan might have them, which made Lu Ming very excited.

"Does the Great Tribulation of Origins have any effect on the Void Giants now?"

Lu Ming asked.

"This is what I'm going to say next. Although the Void Giant Beast is strange, it can't withstand the great calamity of the origin. It's just a little better than the ordinary origin or the existence above the origin, but after so many years, it can't hold it. Up."

"After many investigations, it has been determined that the giant void beast of Yuanji Shenshan has fallen into a deep sleep, and will definitely not wake up in thousands of years."

"Now all parties are preparing to send masters to the Yuanji Shenshan to explore, and our Heaven Extinguishing Army is also preparing to send a team into the Yuanji Shenshan. I want you to lead the team, how about?"

Lion Road.

"Of course, no problem."

Lu Ming nodded without hesitation and agreed.

The Exterminating Army and him were in the same boat, and there was no reason not to help.

In addition, most of the prehistoric crystals obtained by the Heaven Extinguishing Army and the demons will be given to him first, and he has no reason to refuse.

"Okay, then it's settled, we will leave tomorrow!"

Lion Road.

Gu Changfeng is going to the Yuanji Sacred Mountain from the station of the Exterminating Heavenly Army. Lu Ming will take action, so he has a lot more confidence.

Lu Ming's combat power is obvious to all. In addition, Lu Ming also carries the ball and bone demon, the two strongest heavenly monarch-level combat power.

One day passed in a blink of an eye.

On the second day, Lu Ming led the team and set off.

This time, the Exterminating Army sent hundreds of people to set off with Lu Ming.

These hundreds of people are all masters, with the worst cultivation bases, all of whom have the seven-fold cultivation base of the Divine Lord, and there are as many as nine experts at the peak of the Divine Lord.

Coupled with Lu Ming, it can be said that the combat power is very strong.

They flew directly towards Yuanji Shenshan.

The location of Yuanji Shenshan is relatively close to the station of the Exterminating Army, and farther from the territory of the Yaxian tribe and the Celestial tribe.

After about ten days, they came to the periphery of Yuanji Shenshan.

Yuanji Shenshan is actually located in a piece of mainland debris.

The fragment of this continent is very large, no smaller than the area of Qianqiu Battlefield.

In the center of this continental fragment, there is a continuous mountain range, which is so huge that you can see it standing outside the continental fragment.

Mainly because this mountain range emits a dazzling light.

This light is extremely dazzling, even if it is the existence of the Divine Master Realm, vision will be greatly restricted, and it is impossible to see the specific appearance of Yuanji Divine Mountain.

I can barely see an outline.

As for what is on Yuanji Shenshan, I can't see clearly.

Perhaps the existence of the Origin Realm can be seen clearly, but the existence of the Origin Realm did not dare to approach at all. Once it approaches, it will be attacked by the Void Giant.

"go!"

Lu Ming gave a soft drink, and rushed towards the mainland debris first, and the others followed.

They were up to 120,000 spirits, their spiritual consciousness filled the surrounding area, and they were always paying attention to the surrounding conditions, and the speed was not very fast.

After all, this is Yuanji Shenshan, one of the most terrifying forbidden places in the universe. No one knows whether there are other dangers besides the Void Giant Beast.

But the situation was much better than they thought. They went along without encountering any danger.

Did not encounter any creatures.

"Look, that piece of medicine is magical..."

Someone exclaimed.

Others have seen it too, because the strong fragrance of the magic medicine is really tempting.

In the forest on the left front, a large flaming potion grows.

Everyone rushed over.

"They are all emperor-level magic medicines, there are thousands of them..."

Many people took a breath.

Chapter 4789: Sleeping Void Behemoth

The emperor-level magical medicine is not surprising.

In the previous era when the universe hadn't changed dramatically, the stars of the universe could be born.

However, in such a place, thousands of emperor-level magical medicines were grown at once, but it was very few and extremely surprising.

Sure enough, it is a forbidden place that has never been explored, absolutely extraordinary.

Many people's eyes became hot.

Can encounter so many emperor-level magical medicines at once, then this continent must contain main-level magical medicine, even source-level magical medicine.

Some people have seen a lot of source-level magical medicines running around before, it should be true.

"Collect it first, and then return to the station to discuss the distribution."

Lu Ming said.

Everyone nodded their heads, and then began to work, and within a few seconds they collected thousands of emperor-level magical medicines.

Then they moved on and found a lot of magical medicine.

Most of them are emperor-level magical medicines and emperor-level magical medicines, but their eyes are bright, and when they go deep into the mainland fragments, they will definitely have a main-level magical medicine.

A day later, they were getting closer and closer to Yuanji Shenshan.

The dazzling glow made them all unable to open their eyes, and they had to turn their divine power to their eyes at all times to resist the dazzling light.

At this time, they finally discovered the master-level magical medicine, and once they found it, there were three plants.

This excites them.

The energy of a main-level magical medicine is at least equivalent to the energy of 10,000 prehistoric crystals, and a higher-level main-level magical medicine has more energy.

After they walked for a few more hours, they had already obtained more than fifty master-level magical medicines.

This is simply a treasure, containing infinite treasures, which can be picked up at will.

"That is..."

At this time, they saw a huge behemoth creeping on the ground in front of them.

This behemoth, covered with scales, was huge, and from a distance, it looked like a planet on the ground.

Void behemoth!

Everyone glanced at each other, and a word came out in their hearts.

That's right, this is definitely a giant void beast.

Fortunately, the Void Giant Beast was already asleep, lying there, his eyes closed, motionless.

"The forest where the Void Giant Beast is located is extremely rich in energy. It is estimated that it contains magical medicine, absolutely very much..."

Someone speaks.

They could feel that the forest where the Void Giant Beast was located was too rich in energy, stronger than those places they had passed through before.

It is conceivable that a lot of magic medicine can definitely be bred.

"Let's take a look!"

Lu Ming spoke, very decisively, and headed in the direction of the Void Giant Beast.

The others glanced at each other and all followed.

Anyway, the Void Behemoth has fallen asleep.

But soon, they had to stop.

Because the Void Giant Beast exudes a terrifying aura, the closer you get to the Void Giant Beast, the more terrifying the aura, like countless mountains pressing on them, and like a sharp blade, cutting on them. There was a tingling sensation.

"No more, continue on, my body will be torn apart."

A divine master Qizhong's face was pale, trembling all over, blood was already overflowing from the corner of his mouth.

"Retreat!"

Lu Ming let out a low cry, leading the people back quickly.

The horror of the Void Giant Beast was beyond his imagination.

He has fallen into a deep sleep, and the aura emitted is so terrifying that it can tear the existence of the Divine Master Realm.

Lu Ming had a feeling that even he couldn't get close to the giant void beast, otherwise he would be torn apart by the terrifying aura and his body and spirit would be destroyed.

This is many times stronger than the Void Giant Beast he encountered back then.

It seemed that the giant void beast he encountered at the beginning was really not a mature body.

If he were really mature, Lu Ming would never escape.

"What is the origin of the Void Giant Beast? It has been wandering in the ruins of the universe. It seems that they have been there since ancient times. Is it also some kind of creature that has survived the last era?"

Lu Ming thought.

Can't figure it out, feel the pain in the head.

He used to think that as long as he reached the Divine Master Realm and stepped into the ranks of the top masters in the universe, he could understand the secrets of the universe.

Now he found that his cultivation level is getting higher and higher, his understanding of the universe is getting more and more, and his doubts are increasing.

He discovered that there were more secrets in the universe than he had imagined.

But many things seem to point to the wild continent of the last era.

But that era was a missing piece of history, and there was too little information available.

"Maybe, I will find an opportunity to ask Zixuan, Yinkong and others later."

Lu Ming muttered in his heart.

The demons are the creatures of the last era, and they may know many secrets.

They retreated, moved a distance from the Void Giant Beast, bypassed this area far, and continued towards Yuanji Shenshan.

When they got here, they found that the energy on this continent seemed to be diffused from Yuanji Shenshan.

The source comes from Yuanji Shenshan.

The closer you are to Yuanji Shenshan, the more energy you have.

Therefore, the closer the place is to the Yuanji Shenshan, the more advanced the magical medicine bred.

Then, as the source of energy, how many treasures will there be on Yuanji Shenshan?

I'm afraid it's hard to imagine.

Thinking of this, many people breathe heavily.

After another period of time, they finally approached Yuanji Shenshan, the distance was close, they finally saw the outline of Yuanji Shenshan.

This is a mountain range with endless peaks.

There are at least dozens of huge mountains, and they are extremely majestic.

The mountains are lush and vibrant, with countless flowers and trees growing.

Suddenly, a small sapling was drilled out of a piece of land in front of him.

The young sapling is less than one meter high, and there are six golden fruits growing on it. Each fruit is only the size of a fist. It flashes on the top and emits a strong fragrance.

Above this small sapling, there is a smaller sapling, which is composed of energy, running back and forth.

Source-level magic drug!

The eyes of everyone suddenly became extremely hot.

This is really a source-level magical medicine, and in the source-level magical medicine, it is absolutely high-level.

Because the opponent will run.

For example, the source-level magical medicine that Lu Ming had obtained before had its main body rooted in a certain place and would not run, and this one had clearly emerged from the soil just now.

The source-level magical medicine seemed to have spotted Lu Ming and others, turned around and ran towards the depths of Yuanji Shenshan.

"chase!"

"This source-level magical medicine is invaluable and can help people attack the original state."

Many people's eyes were fiery, and Anna couldn't help being greedy, chasing after the source-level magical medicine.

Even Lu Ming chased after the source-level magical medicine together.

However, the source-level magical medicine was very fast, like a flash of lightning. Lu Ming and others couldn't catch up for a while, but the distance between each other was widening. After a while, they directly lost the source-level god. The trail of medicine.

"hateful!"

Many people are unwilling.

"That's... the Celestial Race!"

Suddenly, they saw another direction, and a group of people hurriedly flew in, it was the master of the Celestial Race.

Chapter 4790: Tripartite

In the other direction, a group of celestial races rushed over, and the number was about one hundred.

Soon, the people of the Celestial Race were approaching, and the people of the Heaven Extinguishing Army were fully guarded and prepared for the battle.

Obviously, the Celestial Race also spotted Lu Ming and others, and stopped at a distance.

"Hundred wars, Jue Tian, they are all acquaintances!"

Lu Ming's eyes flashed.

The two people headed by the Celestial Clan are two of the four most powerful heavenly monarchs in the contemporary era, the heavenly monarch of hundred battles and the extinct one.

In addition, there were two burly figures around them, two puppets of transformed primitive gods.

There were four such primitive **** puppets when they besieged and destroyed the garrison of the heavenly army.

They are all the products of endless years of experiments by the Celestial Race, and they are full of terrifying forces, and their combat power has reached the level of the strongest Celestial Monarch.

The body used to be extremely huge, but now it has obviously shrunk, but it's just a little bit bigger than ordinary people.

"Lu Ming!"

Heavenly Lord of Hundred Battles, Heavenly Lord of Absolute Heaven, also spotted Lu Ming, his pupils shrank sharply, showing a look of horror.

Instinctively want to back off.

The battle of the Extinguishing Army's garrison had too much impact on them, and Lu Ming's terrifying combat power had been deeply imprinted in their hearts.

The two strongest heavenly monarchs are like this, and the other people of the Celestial Race are even more so, they are cold and pale.

Even if there are four strongest heavenly monarchs in front, they can't help being afraid.

In the battle for the Extinguisher's garrison, the five strongest Heavenly Sovereign presences besieged Lu Ming at the beginning, but what ended in the end.

"Don't be afraid, my ancestors previously speculated that Lu Ming was able to explode that level of combat power, mostly because of some treasures, or some extremely harmful secret techniques. There may be huge sequelae and it cannot be used all the time."

At this time, the Extinction Heavenly Monarch shouted to stabilize the army.

After the initial panic, his own heart also stabilized.

After the First World War at the Extinguishing Army garrison, Ye Immortal speculated that Lu Ming could not have maintained that strong state forever.

This can be seen from the fact that the Heaven Extinguishing Army did not counterattack the Celestial Race.

If Lu Ming really had that level of combat power, plus Gu Changfeng, he would be able to counterattack completely, but the Heaven Extinguishing Army would not move. This could explain a lot of problems.

Of course, all this is just speculation, even if it is immortal, it is not certain.

Therefore, they did not dare to continue to attack the Heaven Extinguishing Army, because they were not sure of Lu Ming's specific combat power.

Even so, the people of the Celestial Race still had a deep fear of Lu Ming, and they were still far away from Lu Ming.

However, Lu Ming and others did not launch an attack.

It's not that Lu Ming didn't want to, but that he really didn't have this strength.

Adding up the opponent, there are four strongest Heavenly Sovereign level combat power.

Lu Ming, with a bone demon and a ball on his body, only had the strength of the three strongest heavenly monarchs.

Especially the two primitive **** puppets, they don't have the slightest wisdom. This kind of puppet, the illusion beam of the ball, is ineffective against the other party, which is even more difficult to deal with.

The two sides formed a stalemate for a while.

"Without taking a shot, could Lu Ming really not be able to break out such combat power?"

Exterminating Tianjun, Baizhan Tianjun glanced at each other, and these words came out in each other's hearts.

Of course, they didn't dare to take their lives to try, they just muttered in their hearts, and they were still extremely alert to Lu Ming.

"It's really lively, source-level magical medicine, has it been obtained by you?"

A strong voice sounded, and another group of people descended.

It is from the Yaxian clan.

The number of Yaxian tribe is about one hundred, most of them are middle-aged men or old men, but each one is extremely strong.

The few people who are especially headed, although the cultivation base seems to be the peak of the gods, they give people a very strong pressure.

Even Lu Ming felt a strong pressure, similar to the pressure that Extinction Tianjun put on him.

"Could it be that these people are the strongest Heavenly Sovereign level combat power?"

Lu Ming's heart moved.

Lu Ming never dared to despise the Yaxian tribe.

For a long time, the Yaxian clan has been mysterious and unpredictable, even if the opponent has a few strongest Heavenly Monarch level combat power, it is not surprising.

"You are Lu Ming!"

The eyes of the Yaxian tribe swept across the Celestial Army and the Celestial Clan, and finally fell on Lu Ming, his face immediately becoming very solemn.

Lu Ming successively killed three of the Celestial Race's strongest Heavenly Monarch level experts, which had already spread to all races in the universe. How could the people of the Subxian race have not heard of it?

After they saw Lu Ming, they immediately became alert.

"Everyone, we just traced a source-level magical medicine, but did you get that source-level magical medicine?"

A big man of the Yaxian clan asked loudly.

"No, we also tracked down a magical medicine just now, and it hasn't been long since we arrived here."

Lu Ming said.

"So are we. Just now we were tracking a source-level magical medicine. Just when we came here, when we came here, the Celestial Slayers were already there."

Extinction Tianjun followed, his eyes gleaming cunningly.

His implication is that we will arrive later. When we arrive, the people from the Sky Extinguish Army have already arrived. We don't know if the source-level magical medicine tracked by your Yaxian race fell into the hands of the Sky Extinguish Army. .

"Hehe, you don't need to provoke discord here, I believe everyone of the Yaxian clan has your own judgment."

Lu Ming sneered in response.

The big man headed by the Yaxian tribe turned his gaze a few times and said, "So, both of you came from tracking the source-level magical medicine. I would like to ask, what does the source-level magical medicine you tracked look like? "

There is nothing to hide, Lu Ming and Extinction Tianjun said separately.

On the side of the Celestial Race, the Extinct Heavenly Monarch usually comes forward.

Because the Heavenly Lord of Hundred Battles is not good at words and tricks, and the Lord of Extinction is better at it.

"According to what you said, isn't there at least three extremely high-level source-level magical drugs in this area?"

The big man of the Yaxian clan has bright eyes.

Lu Ming's eyes flickered, and the others showed fiery light.

This kind of source-level magical medicine that can run is extremely high-level and has a surprisingly great effect.

In addition, it also has a miraculous effect on the existence of the peak of the gods. Using it to break through the original state can increase the success rate.

Such treasures are simply priceless.

In the ruins of the previous universe, this level of source-level magical medicine was rarely encountered.

But now, I saw three plants all at once, and it's only strange that everyone's hearts are not hot.

"The three source-level magical medicines have all disappeared in this area. There must be something strange in this area."

The big man of the Yaxian tribe said.

"Yes, I think so too, why don't we search separately for the three parties, and whoever finds one will own it, how?"

Extinct Heavenly Jundao.

"Okay, I just meant it!"

The big man of the Yaxian tribe said.

Then their eyes turned to Lu Ming one after another.

At the scene, they were most afraid of Lu Ming.
