

D Emperor 4801

Chapter 4801: Strange land

In the past few decades, the forbidden creatures in the three forbidden areas have been exploiting resources without other actions.

But on this day, the Exterminating Army discovered that the creatures in the three forbidden areas began to mobilize and begin to gather.

This caused forces such as the Yaxian, the Celestial Race, the Heaven Exterminating Army, and the demons to suddenly become highly nervous.

The creatures of the three forbidden areas suddenly mobilized all of them to gather the powerful people scattered everywhere. What do they want to do?

Is it going to aggressively attack all forces?

This made them nervous, and all the forces from all sides immediately gathered all their forces to prepare for a war. It was really impossible, and they had to abandon part of the territory.

But it immediately proved that all parties thought too much.

The creatures in the three forbidden areas didn't want to attack all forces. Together, they headed towards one place.

That place is the halo world of Qianqiu Battlefield.

That's right, the forbidden creatures in the three forbidden lands target the halo world.

The various forces sent a large number of spies to keep an eye on the every move of the creatures in the forbidden area, and send news back at any time.

The forbidden creatures of the three forbidden areas met in the halo world, and the three parties also launched a war, seemingly to compete for the halo world.

This has given the masters of all forces a lot of speculation in their hearts.

The creatures in the three forbidden areas are all competing for the halo world. Is there any secret in the halo world?

I originally thought that the Halo World was just the place where the human king's torso was sealed. Is there any other secret?

The creatures in the forbidden area of the three forbidden areas had their own losses after a fight, and no one could do anything. In the end, it seemed that some agreement had been reached and they planned to explore the halo world at the same time.

However, when they sent people to enter the halo world, they were rejected by a powerful force.

No matter what method the forbidden creatures of the three forbidden places use, it will not help.

Will be bombarded by the halo world, they cannot enter the halo world.

When Lu Ming and others heard the news, they were also shocked.

Last time, they were able to enter the halo world smoothly, except for the strong from the source.

Because the halo around the halo world can absorb the roots of the strong in origin.

But it has no effect on the source.

But the creatures of the three forbidden areas, there are no creatures of the origin realm now, and the creatures sent out are all under the origin, but they are also bombed out.

How is this going?

Could it be that there have been other changes in the halo world recently, and a special defense force has been produced, and the creatures outside can no longer enter.

Or is it just for the creatures in the three forbidden areas?

Lu Ming and the others couldn't help but guess like this.

But soon, the second guess was overturned.

Because the creatures in the three forbidden areas obviously had such speculations, they took action and captured some non-forbidden creatures, allowing them to try to enter the halo world, but it was useless and would be blasted out by a powerful force.

"In this way, during this period of time in the halo world, there has been a certain change, and it is difficult for any creature to enter."

"It seems that we still underestimated the Halo World. Apart from sealing the Human King's torso, the Halo World has other secrets."

Lu Ming and others sighed.

Moreover, this secret is definitely not small, otherwise it will not attract the creatures of the three forbidden places to gather.

After a period of time, the creatures in the three forbidden areas exhausted various methods and could not enter the halo world, nor could they take away the halo world.

The creatures of the three forbidden areas can only send a part of the strong to guard around the halo world, while others continue to mine resources.

In an instant, decades have passed.

The creatures in the three forbidden areas still have not found a way to enter the halo world, but they have no plan to give up at all, and still send people to guard there and continue to study.

Obviously, they value the halo world very much.

This makes the people who destroy the Celestial Army, the demons, the Asian Immortals, and the Celestial Races are very curious, wanting to know what secrets the Halo World contains.

It's a pity that the creatures in the forbidden land would naturally not tell them, so they have been unable to guess.

Over the past few decades, Lu Ming still fully comprehended the third thousand great ancient mysteries.

I have to say that this third thousand ancient secret technique is really too difficult. It seems that there is a mysterious power covering it and blocking Lu Ming's enlightenment. If you want to enlighten it, you must break through the fog.

Although Lu Ming had already had some eyebrows before, there was still a long way to go before he could fully understand them.

On this day, Lu Ming was cultivating, and suddenly received news from Lion that he had important matters to discuss.

Lu Ming finished his cultivation and came to the meeting hall, and found that many people had arrived.

Xie Nianqing, Rong Ban, Tang Jian, Tang Jun, etc.

Before now, the top level of Heaven Extinguishing Army was almost there.

After Lu Ming arrived, Gu Changfeng also arrived.

"Lion, you called us together, but what's the big deal? Could it be that the creatures of Yuanji Shenshan are about to attack?"

Gu Changfeng asked straightforwardly.

"No, this time it was for another matter. Not long ago, when we were looking for the human king's heart, our people from the Heaven Exterminating Army found a strange place..."

Lion Road.

"Is it about the human king's heart?"

Lu Ming's eyes lit up and he couldn't help asking.

Other people's eyes also lit up.

If you find the King of Human Heart, that's a big deal.

"No!"

Unfortunately, the lion shook his head and said: "Our people have discovered a strange void, that void is very chaotic, full of cracks, among the cracks, there are treasures flying out..."

"Amidst the void cracks, there are treasures flying out?"

Lu Ming and others were taken aback, and they all showed curiosity.

"Yes, the treasures that fly out of the void are different. Our people have begun to get a lot of prehistoric crystals, as well as some precious metal materials, and even metal materials that can refine source-level magic weapons. I also got a few jade charms. Unfortunately, the jade charms have a seal of forbidden power. I can't see the content on them, but it can be speculated that they must be from the last era."

Lion continued.

At this time, Lu Ming and others became more curious.

Void Cracks can actually fly out a variety of different treasures, isn't it a treasure house inside?

Or was it an important place in the last era, sealed in the void?

"Unfortunately, it was discovered by the people of Yuanji Shenshan not long after that, the creatures of Yuanji Shenshan wanted to monopolize that area, and a war broke out with our people. We lost dozens of masters."

"But later, I don't know what happened. The news spread and it was known by people from other forces. Now, the creatures of the Celestial Race and the Yinkeng Demon Mountain have also rushed to that place, and the Yaxian Race and the Azure Sea Most of the creatures know about it, and rush there too."

"The matter is a bit serious, so I asked you to discuss it together."

Lion Road.

Chapter 4802: Treasures fly out and fight for

"That place must be extraordinary!"

This is the conclusion reached after discussion by Lu Ming and others.

Otherwise, the creatures of the Yaxian tribe, the Celestial tribe, and other forbidden land will not gather together towards that place after hearing the news.

They may know something.

Finally, the Exterminating Army planned to send a master to check it out there.

The forces from all sides converge, and that place may be great, perhaps it contains great opportunities.

If they miss it, and the other parties get a big chance, then their strength gap will grow bigger and bigger.

In today's situation, only by constantly increasing strength can one have the ability to protect itself, otherwise, it will be destroyed sooner or later.

Later, they notified the demon of the news. After the demon knew it, they sent a large number of masters to the area with Lu Ming and others.

That area is relatively close to the borders of Heaven Extinguishing Army and Yuanji Shenshan, so they were discovered first.

"That is..."

Although they had been mentally prepared before, when Lu Ming and the others arrived, they were still shocked by the scene before them.

This is an empty space, and there is no continental debris in the surrounding area.

But this piece of emptiness is in chaos.

The void is full of cracks, criss-crossed and densely packed, I don't know how many there are.

In every crack, there is terrifying energy surging.

In addition, every crack is filled with a peculiar glow.

This kind of sunlight, purple-gold, brilliant, but exuding a terrible pressure.

The scope of this area is very wide.

Lu Ming and others stopped far away.

And around this area, there have been many creatures.

Lu Ming saw the creatures from Yuanji Shenshan at a glance.

Thousands of people came to Yuanji Shenshan.

All of them are full of beams and hair, and their breath is pressing.

This is not simple. You must know that the forbidden land creatures of Yuanji Shenshan have only walked out of about 3,000 in total. Now there are thousands of people suddenly coming. It can be seen that this area is not simple.

Among the creatures in the forbidden area of Yuanji Shenshan, many people looked at Lu Ming and the others, full of cold murderous intent.

Among them, Lu Ming saw the purple-robed youth.

The gaze of the purple-robed youth fell on Lu Ming, his murderous intent was not concealed.

However, Lu Ming only glanced at the creatures of Yuanji Shenshan, before turning his eyes to other directions.

He saw the master of the Celestial Race, headed by Ye Immortal, thousands of people came.

In addition, he also saw the forbidden creatures in the Demon Mountain of Yin Pit.

The creatures of Yin Keng Demon Mountain, claiming to be the Yin Sha clan, their bodies are enveloped by the strong Yin Sha Qi, their bodies look constantly changing, as if they are illusory, extremely weird.

Thousands of Yin Sha clan from Yin Pit Demon Mountain also came.

The forces of the Quartet, distributed in four different directions, waited quietly, without moving their hands, their attention was quickly attracted by the void.

Rumble!

From those cracks in the void, there was a loud rumbling noise.

Then, the purple-golden glow that overflowed from the crack became more intense.

"Attention, there are treasures flying out of those cracks."

Lion reminded.

He has been here before, so he has some experience with good things in this place.

Hh hh hh...

Just as the lion voice fell, among those cracks, a cloud of glowing light suddenly flew out, densely packed, and I don't know how many channels there were, making a dazzling sound.

Every glow is the same 'treasure'.

In Lu Ming's eyes with the power of taboo running, it was clear that there was some glowing light, which was a prevalent crystal.

Every ray of sunshine is a piece of wild crystal.

There are also some metal materials.

Of course, not every glow is a treasure, some are just ordinary stones...

These glowing lights flew out from the cracks and flew in all directions.

"Shoot!"

The creatures of the Quartet forces flashed in their bodies and used various methods to catch the glow.

Lu Ming's speed was extremely fast. With a flash of his body, the power of the taboo turned into thousands, such as holding thousands of hands, grabbing thousands of pieces of glow.

Soon, thousands of prehistoric crystals were grabbed by him, put directly into the storage ring, and then grabbed to the others.

The Bone Demon and the ball also flew out, making a full shot.

The ball focuses exclusively on those metal materials.

With a mouth open, the metal materials will automatically fly into his mouth, the efficiency is amazing.

In just a few minutes, Lu Ming got tens of thousands of prehistoric crystals.

"That's... a source-level magic weapon!"

Lu Ming's eyes lit up unexpectedly.

At this time, in a crack, six rays of glow suddenly flew, and the six rays of glow emitted an astonishing atmosphere, which were six weapons of different shapes.

This is definitely a source-level magic weapon, and everyone senses it instantly based on the breath.

This made everyone's hearts beat wildly.

This is amazing. In a crack, six source-level magic weapons flew out of the crack. These were source-level magic weapons, and there were six at once.

You know, even for the Celestial Race, there are about half of the Origin Realm, without the source-level magic weapon, which shows how scarce and precious the source-level magic weapon is.

What is in these cracks, is it really a treasure house?

Although some magical soldiers flew out before, they did not fly out of the source-level magical soldiers.

The direction in which these six source-level gods flew out was exactly to the side of the Heaven Extinguishing Army, but they were not very far from the Celestial Race.

"The source-level magic weapon must be taken down!"

Ye Immortal shouted, and rushed over first.

The other members of the Celestial Race also rushed over, very fast.

Although the six source-level divine weapons were flying close to the Heaven Extinguishing Army, they were not very far away from the Celestial Race. The Celestial Race's people flew quickly and approached quickly.

"Shoot!"

On the side of the Exterminating Army, how could the Celestial Race succeed? Lu Ming, Bone Demon, Ball Ball, Lion, Xie Nianqing and others would also take action together, rushing to the six source-level gods at an astonishing speed.

"Go away!"

Ye Immortal shouted, cut out a terrible sword light, and enveloped Lu Ming and others.

Ye Immortal's combat power is too strong. Although it is only the nine-fold divine lord, the combat power is far above the strongest Heavenly Sovereign, not weaker than Gu Changfeng and the 'King of Light'

Lu Ming and the others jumped in their hearts, just about to dodge, but Gu Changfeng had already rushed out, launched a powerful attack, blocked Ye's immortal attack, and launched a counterattack. They launched a terrible attack in the air, blasting at Yeah. immortal.

Facing strong men like Gu Changfeng, Ye Immortal didn't dare to be careless, so he could only deal with it intently, and his figure was blocked.

And Lu Ming, Xie Nianqing, Bone Demon and others, after all, were closer to the six source-level magic soldiers, and the moment was approaching.

Huh!

Lu Ming exploded with taboo power, condensing a claw, and grabbing a handful of source-level magic weapons.

This source-level divine soldier seemed to have spirituality, rushing from left to right, trying to escape, but was firmly controlled by Lu Ming.

Chapter 4803: Six-party standoff

The source-level **** soldier rushed from the left to the right, trying to rush out, but Lu Ming's taboo power broke out, and his palm suddenly grasped, directly controlling the source-level **** soldier, and then retracted into the prey.

At the same time, Xie Nianqing, bone demon, ball ball, lion, and one of the strongest demon masters among the demon also controlled a source-level magic weapon and put them away separately.

Seeing this scene, the eyes of the people of the Celestial Race were red, envious, jealous, and hateful. Those were six source-level magic soldiers, and they were in the pockets of the Heaven Extinguishing Army in a blink of an eye.

Therefore, they fought hard to kill.

"Hand over the source-level gods.

Exterminating Tianjun, Baizhan Tianjun and the others shouted, bringing two taboo puppets and four primitive puppets, killing Lu Ming and others, and launching a terrible killing.

"roll!"

Lu Ming screamed, and instantly mobilized the battle power of Zhanzi Jue to nine times, and raised the battle power to the extreme. Back.

But Exterminating Tianjun was a little guilty. When he thought of Lu Ming killing three of the strongest Tianjun level powerhouses last time, his heart was a little bit cold. How dare you continue to fight Lu Ming, he shouted: "You two , All deal with him."

The two taboo puppets joined forces to kill Lu Ming.

One person uses a war spear and the other uses a long sword to kill Lu Ming from two directions. The offensive is like madness, the void is constantly shattering, and the power of taboo roars.

Lu Ming didn't dare to be careless, and dealt with it intently. The God of War spear vibrated, stabbing two consecutive shots, blocking the attack of the two taboo puppets.

But Lu Ming himself was also a huge shock, and he was blasted back by a powerful force.

"A strong power, it is truly a pure taboo power."

Lu Ming thought to himself.

These two taboo puppets are genuine taboo bodies, mastering pure taboo power, their power is amazing.

Lu Ming felt that the two forbidden puppets, who were purely about power, were above the strongest heavenly monarch in general.

It's just that they seem a bit dull and not flexible enough to use, and when they attack at the same time, they don't have a strong sense of combat.

After all, they no longer have their own spiritual sense and have been refined into puppets.

If they are all normal, I am afraid that their combat power will not be weaker than Gu Changfeng.

Lu Ming sighed in his heart, these are definitely two amazing talents, in their respective eras, they are definitely a person who astounded the same era, but unfortunately, they ended up like this.

At the same time, he secretly warned himself that he must not let himself end up like this.

With two low growls, the two taboo puppets slammed towards Lu Ming again.

But this time, Lu Ming didn't intend to head-to-head with the two taboo puppets, but instead resorted to a game of fighting against the two taboo puppets.

In terms of power, the two taboo puppets are indeed above the strongest heavenly monarch in general, but their fighting consciousness is poor. Relatively speaking, their actions are a little dull, so their comprehensive combat power is similar to that of the strongest heavenly monarch.

Lu Ming flickered and turned into afterimages, rotating around the two forbidden puppets, stabbing spear lights, and fighting with the two forbidden puppets.

Two taboo puppets couldn't help Lu Ming for a while.

"If it is the same level, their taboo power should not be as strong as mine."

While fighting, Lu Ming thought about his own taboo power against the opponent's taboo power.

Lu Ming is confident. If his cultivation reaches the pinnacle of the **** master, his taboo power is definitely above the two taboo puppets.

If he cultivated the third thousand great ancient secret techniques, his taboo power would be even stronger.

Obviously, whether it was these two taboo puppets or Gu Changfeng, the secret techniques they incorporated into their cells were far less than Lu Ming's.

This is normal. After all, Lu Ming controls the ancient sacred stone, and can constantly comprehend the secret technique. Other people don't have this method.

On the other side, the Lion, Xie Nianqing, Bone Demon and others also confronted the strong of the Celestial Race.

"Fighting for a few source-level gods, it really is a ruined people."

Among the forbidden creatures of Yuanji Mountain, the purple-robed youth sneered, his eyes full of disdain.

They paid more attention to the Honghuangjing and other heavenly materials and earth treasures. They didn't seem to have much interest in the source-level magical soldiers.

The battle between the Heaven Extinguishing Army and the demons and the Celestial Race did not last long, and they separated soon.

The two sides retreated together, then confronted each other, and did not continue to fight.

They are all jealous.

After all, the forbidden creatures of Yuanji Shenshan and Yinkeng Moshan are not far away. If the conflict between them escalates, they will only make the forbidden creatures cheaper. If the forbidden creatures suddenly attack when they fight, they all have to play. Finish.

Ye Qiuxian, Exterminating Heavenly Monarch, Bai Zhan Tianjun and other strong celestial races, looked at Lu Ming and others with cold eyes, and looked like they wished to take them off.

Only Ye Immortal's face was calm, his eyes were as deep as an abyss, and he said coldly: "Retreat!"

Immediately, the Celestial Race retreated to the distance, and a brief confrontation ended.

At this time, no treasures flew out of those cracks.

Treasures flew out of those cracks in bursts. Every once in a while, there would be a wave, and there was no regularity, the time interval was uncertain, and the number of treasures flying out was also random.

Sometimes, only a few precious crystals flew out, and sometimes even only some useless stones flew out. It is still relatively rare that so many treasures flew out like just now.

The Quartet forces continue to wait again.

In a blink of an eye, half a month passed.

In those cracks, there were often fierce roars, but no treasures flew out.

At this time, there was a roar from the distant void, and a large group of creatures descended.

This group of creatures are strange-looking, their faces are covered with scales, like the legendary mermaid.

They were riding on a huge flying fish, flying quickly, filled with terrible aura.

This kind of breath, from yin to cold, is somewhat similar to the Yin Sha clan of Yin Keng Demon Mountain.

Forbidden creatures in the Cangming Sea.

Needless to say, everyone has guessed the origin of this group of creatures.

From another terrible forbidden land, Cangming Sea, claiming to be Cangming Clan.

In fact, the creatures of Yuanji Shenshan are also a special race called Yuanguang Clan.

The Cangming people stayed in the other direction of this void, separated from everyone by a certain distance.

Then, in the other direction, the roar of the beast came.

There are giant beasts, pulling dozens of chariots, and coming quickly.

The people of the Yaxian clan are here.

At this point, the six most powerful forces on the temporary surface of the universe have all come here.

The creatures of the three forbidden areas, Yuanguang clan, Yinsha clan, and Cangming clan.

The Heavenly Palace led by the Celestial Clan, the Yaxian Clan, and the Heaven Extinguishing Army and the Demon Alliance.

The six major forces each occupy a position and confront each other.

Chapter 4804: Dongtianfudi

In a blink of an eye, another few months passed.

During this period, only one treasure flew out, but the number was small and did not cause much dispute.

However, there seemed to be more and more cracks in the void, and the purple-golden light diffused in it became more dazzling.

Even again, many people vaguely saw the scene inside through the biggest crack.

It seems to be a world.

It's just that the purple-golden light is too strong, and the specific scene is a little fuzzy.

"Is this similar to that halo world?"

Lu Ming muttered in his heart, unable to help but guess like this.

At the beginning, the halo world was also sealed in the fragments of the continent on the Qianqiu Battlefield. At first, it shrank into a point in a blood coffin.

Then, it is not impossible to seal a world in a void.

The six forces are always studying.

Especially some of the older characters among the demons, who have been reading the classics handed down by the demons during this period, finally made important discoveries.

"Everyone, this is likely to be a blessed place in the wild continent of the last era."

Zixuan spoke, and when she spoke, there was a hot flame in her eyes.

"The heaven and blessed land of the prehistoric continent?"

At the scene, most of the people looked confused.

"It is recorded in ancient books handed down from my clan that the Primordial Continent is a holy land for cultivation. Any place, the cultivation environment may be better than the current universe. There

are magical medicines everywhere, and treasures are like mountains. But in the Primordial Continent, there are real The holy place for cultivation, that is the heaven and the blessed land."

"Ancient books record that there are 36 caves and blessed lands in the Primordial Continent. The caves and blessed lands are very peculiar, forming a world of its own, separated from the desolate continent, but closely connected and closely related."

"Every cave and blessed land is the most sacred place for cultivation. It contains countless treasures and is uniquely endowed by nature. According to records, every cave and blessed land is occupied by powerful forces, and these forces have 'immortals' sitting in their hands."

Zixuan explained.

After listening, everyone took a breath.

In every cave, heaven and blessed land, there are 'fairies' sitting in town.

Obviously, only the top powers of the last era can occupy the world.

"However, Dongtianfudi is not eternal and immortal. In the history of the Primordial Continent, there have been many terrifying battles. Some Dongtianfudi collapsed during the war. As time passed, there were fewer and fewer Dongtianfudi."

"And in the last battle, the prehistoric continent was broken. I thought that all the heaven and the blessed land were destroyed, but now it seems that there is still the blessed land left."

Zi Xuan continued.

Lu Ming and others understood that Zixuan said that the surviving Dongtianfudi was referring to the world in the void.

"How do you know that in the void, there is the heaven and blessed land of the Primordial Continent?"

Lu Ming asked.

"It's very simple, some features are very similar."

"Ancient books record that Dongtian Blessed Land is separated from the prehistoric continent and forms a realm of its own, but it is also closely connected. The cosmic principles are the same."

"But Dongtianfudi is unique and has bred countless treasures. On the prehistoric continent, there are few sacred places for cultivation that can be compared with Dongtianfudi. When Dongtianfudi is about to collapse, the treasures hidden in Dongtianfudi will fly in all directions."

Zixuan explained.

Lu Ming and the others moved in their hearts, this point is very similar to the void in front of them.

"Furthermore, when Dongtian Fudi is about to collapse, it will be filled with Dongtian Divine Light. After our observation, the purple-golden light in those cracks is Dongtian Divine Light, so we speculate that in that void is a Dongtian Fudi. ."

"However, this cave heaven and blessed land is about to collapse, so the powerful force tore the void, forming a series of spatial cracks, with treasures flying out of it, this cave heaven and blessed land is in the process of collapsing."

Zixuan explained.

In this way, everyone knew in their hearts that it was very possible, and it was really a blessed place.

"If you can get inside, how many treasures can you get?"

Every time he speaks, his eyes glow.

Other people's eyes flickered.

Indeed, according to the records of the ancient books of the demon clan, there are immortals sitting in the blessed land. It is definitely an unimaginable treasure. The treasures contained are probably very amazing. I am afraid that only a few fly out through the cracks in the space, and the big head is inside.

If you can enter it, you can definitely get massive resources.

Lu Ming, in particular, was even more excited. He wanted to break through the Nine Divine Masters, and at least needed more than 5 billion Precious Crystals.

Where can I find so many prehistoric crystals?

But this heaven and earth gave him hope.

There are definitely more than five billion crystals in this kind of heaven and earth.

"Difficult. In the process of the collapse of the cave, space and time are extremely chaotic, and it will form a terrifying force of destruction. Not to mention the Divine Master Realm, even if it is the Origin Realm, it is not easy to enter."

"And even if you can enter the Origin Realm, you dare not enter, because the power of the Origin Realm is too strong, and entering it will aggravate the collapse of the heaven and the blessed land."

The devil answered by an old man.

"Then, can the Time and Space Spirit Rats go in?"

Lu Ming asked.

"Difficult, the power of destruction is too strong, if it is the time and space spirit rat of the Origin Realm, there is still hope, it is only the Divine Master Realm..."

The old demon shook his head.

"Ancient books record that in the Primordial Continent period, some big forces were able to refine a special kind of flying boat. People in the Divine Realm can enter it by riding on that kind of flying boat. Unfortunately, our demons don't have that kind of refining method. "

Zi Xuan sighed.

That being the case, everyone was helpless, and could only wait outside to get some treasures.

In this way, another few months passed.

But on this day, a huge change occurred.

Among the Yuanguang clan of Yuanji Shenshan, more than a dozen people suddenly flew toward those cracks. In the process of flying out, they sacrificed a flying boat.

The flying boat is not big and can carry about a dozen people.

The dozens of Yuanguang clan from the source-level sacred mountain entered the flying boat together, and then the flying boat turned into a light and rushed directly into a crack.

The flying boat flickered in the cracks, unexpectedly broke through the power of destruction, and kept going inside. After a while, it completely disappeared before everyone's eyes.

Destroying the heavenly army and demons, as well as the people of the Celestial Race, were all dumbfounded.

However, the Yin Sha clan, Cangming clan, and Yaxian clan didn't seem too shocked.

"That's... the kind of flying boat..."

Zi Xuan exclaimed.

Lu Ming and others naturally knew what kind of flying boat Zixuan was referring to.

Zixuan himself mentioned before that there are some great forces in the Primordial Continent that can refine a special flying boat that can enter the blessed land that is about to collapse.

Chapter 4805: Yaxian seeks cooperation

There are some great forces in the Primordial Continent that can refine a kind of flying boat that can enter the blessed land that is about to collapse. Obviously, the flying boat before the Yuanguang clan is probably that kind of flying boat.

"Success!"

"We succeeded in refining."

Seeing that flying boat successfully flew into the crack, the creatures of the Yuanguang clan were ecstatic.

"Continue to refining and refining more flying boats. We must seize the opportunity."

The purple-robed young man gave an order to let the Yuanguang Clan make every effort to refine that kind of flying boat.

Two days later, the Yin Sha and Cangming tribes actually flew out a similar flying boat, each carrying more than a dozen people, and successfully passed through the space cracks and entered the heaven and the blessed land.

This made the faces of the Exterminating Heavenly Army, the demons, and many of the Celestial Race very ugly.

The creatures in the three forbidden areas obviously all mastered the refining method of this kind of flying boat.

Obviously, the creatures of the three forbidden areas have existed since ancient times, from the time of the Primordial Continent, and they have existed for too long. The method of refining that can control this flying boat is also normal.

The creatures of the three forbidden areas can enter the cave heaven and blessed land, which is very bad news for the original forces of the universe.

They had long guessed that the creatures of the three forbidden areas needed a lot of resources to unblock other creatures of their race.

The more resources they obtain, the more creatures in the forbidden area will wake up. At that time, whether it is the Celestial Clan, the Asian Immortal Clan, the Celestial Army or the Devil, the end will be miserable.

And how many resources does a dongtian blessed land have, and how many powerhouses can be awakened by the three forbidden areas?

At that time, did they still have a foothold?

"Do you want to fight and stop them first?"

Many people had this idea in their hearts, but it was quickly suppressed because it was unrealistic.

Want to go to war with the creatures of the three forbidden areas, unless all the forces in the whole universe join hands and one mind.

If any force alone takes action, there is only one way to perish.

However, how could the Yaxian tribe, the heavenly human tribe, the exterminating heavenly army and the demons be one mind, how could it be possible to truly join forces and fight to the death with the creatures of the three forbidden areas.

And even if they join forces, they may not be able to stop the creatures in the three forbidden areas.

"Lu Ming, the sky of the Yaxian clan begs to see him, saying there is something to discuss."

Suddenly, Lu Ming received a voice from the lion.

"Asian?"

Lu Ming's eyes moved, and then he brought Xie Nianqing, Bone Demon, Dan Dan and others to the conference hall, and he saw the sky at a glance.

Cang Qiong brought only a dozen masters from the Asian Immortal Clan.

"Brother Lu, you haven't seen you for a while, your style is better than before."

When Cang Qiong saw Lu Ming, he held his fists and smiled.

"Brother Cangqiong is not bad, I am afraid that your current combat power is not weaker than mine."

Lu Ming also smiled.

He discovered that Cangqiang's cultivation base had actually reached the ninth layer of Divine Lord.

With the talent that the sky is no weaker than Ye Qiuxian, his combat power is estimated to have reached the level of the strongest heavenly monarch.

The two sides were polite and took their seats separately.

Soon after, Zixuan, Yinkong, and Jiao all came here.

The top ranks of the Heaven Extinguishing Army and the demons are almost all here.

"Prince Cangqiong, you said you were looking for us before to discuss something important, don't know what it is?"

At this moment, the lion asked.

"It's very simple, I'm here to look for your cooperation."

Sky Road.

"Cooperation?"

Lu Ming, Shi and others moved in their hearts.

They did not expect that the Yaxian clan, who has always been mysterious and unpredictable, would find them to cooperate.

"Yes, now that the creatures in the forbidden land are born, they have great ambitions. The original creatures of our universe are under great threat."

"As far as I know, the creatures in the forbidden areas have secretly communicated, intending to join forces to wipe out the original major forces in the universe."

Sky Road.

what?

Hearing the words of the sky, the people at the scene were violent.

The creatures in the forbidden areas plan to join forces to destroy them. This is shocking news.

The strength of a single forbidden area is very terrifying. If the creatures of the three forbidden areas really join hands, then they are really dangerous.

They finally understood why Cang Qiong came to them to cooperate, and neither of them could compete with the three forbidden areas.

In fact, facing a forbidden area, they have no idea, let alone the three forbidden areas.

"Are you looking for us to work together to deal with the three forbidden places?"

Lu Ming asked.

"It can be regarded as, not all."

Sky Road.

"What do you mean?"

Lu Ming asked.

The others also looked at the sky, waiting for his answer.

"I'm looking for you to cooperate. Actually, it's only a short-term cooperation, long-term cooperation. Some people disagree."

Sky Road.

"Short-term cooperation? Someone disagrees? What do you mean?"

Lu Ming was even more puzzled.

"It's very simple. The Celestial Race does not agree to long-term cooperation."

Sky Road.

"You also asked the Celestial Race to cooperate?"

Lu Ming's eyes flashed.

"Of course, we must unite all our forces to compete with the three forbidden areas, what do you think?"

Sky Road.

Lu Ming and the others didn't speak, Cang Qiong said it was right. If you want to compete with the three forbidden areas, you must unite all the forces.

"What do you mean by short-term cooperation?"

Lu Ming asked again immediately.

"Short-term cooperation refers to this trip to heaven and earth. After this time, our cooperation can end."

Sky Road.

"It's just the short-term cooperation in Dongtianfudi this time. It's not necessary. I think the people in the three forbidden places don't mean to attack us."

Lu Ming asked tentatively.

"If you enter the cave world, it is necessary."

Cang Qiong spoke, causing Lu Ming and the others to feel shocked, their eyes flickered, and there was a certain guess in their hearts.

Sure enough, Cang Qiong continued: "You have also seen that the three forbidden lands can refine that kind of flying boat and enter the cave and blessed land. It just so happens that my Asian clan has also mastered the refining method of this kind of flying boat, which can be provided to you free of charge. , The condition is that we must cooperate with each other when we enter the heaven and the blessed land. I speculate that once we enter the blessed land, the creatures in the forbidden land may attack us."

Hearing this, Lu Ming and others' eyes lit up.

The Yaxian tribe actually has that kind of refining method for flying boats. This Yaxian tribe is really not simple and unfathomable.

At the same time, an idea emerged in their hearts that the Yaxian clan was so kind and would unconditionally provide the refining method for flying boats.

But they reacted immediately, that was because the Yaxian clan had to do this.

If the Yaxian tribe does not provide this method of refining the flying boat, then the exterminating heavenly army, demons, and the celestial human race will not be able to enter the cave and the blessed land. Only the Yaxian tribe can enter alone. Once they are attacked by the forbidden creatures, they will have no possibility of victory, the whole army will be destroyed.

On the face of it, he was at a disadvantage. He unconditionally provided the extermination army, the demons, and the Celestial Race with the refining method of flying boats. In fact, he wanted to pull all the forces to fight against the forbidden creatures.

Chapter 4806: One after another, the old people gather

If the Yaxian clan enters the Dongtian blessed land alone, let alone fighting for the treasures inside, it may be exterminated by the forbidden land.

That's why they wanted to take the Celestial Exterminator, the Devil, and the Celestial Race to enter together.

"The Celestial Race promised to cooperate with us?"

Lu Ming continued to inquire.

"Yes, but only promised to cooperate in Dongtianfudi, and after leaving Dongtianfudi, the cooperation will be terminated."

"As long as you agree, we should meet and discuss with the three parties, how about?"

Sky Road.

Lu Ming, Shi, Zi Xuan and others discussed it a little, and agreed.

There is no reason to disagree. Only by being able to enter the heaven and the blessed land can the gap between the major forces be narrowed.

Otherwise, if the creatures in the forbidden area enter, the Celestial Race, and the Subxian Race, they did not enter, lacking resources, and their strength might be farther and farther away from other forces.

Afterwards, Cang Qiong sent news to the Celestial Race and arranged for the three parties to meet together.

The Celestial Race is naturally headed by Ye Immortal, and Ye Qiuxian, Extinct Heavenly Monarch and others also appear together.

Ye Qiuxian, Exterminate Tianjun and the others naturally didn't have a good face towards Exterminating the Heavenly Army and the demons, their eyes flashed with murderous intent.

Ye Immortal's face was calm. He was very simple. He just said that the cooperation is only short-lived, confined to the heaven and the blessed land. After leaving the heaven and the blessed land, the cooperation ends.

The three parties reached an agreement, and then Cang Qiong handed over the refining method of the flying boat to the Heaven Exterminating Army, the demons and the Celestial Race.

The name of that kind of flying boat? Named Duyue Flying Boat.

"Lu Ming, you shouldn't believe the words of the Celestial Race? You have to be careful when working with them."

After returning? Xie Nianqing reminded.

"I understand that cooperating with the Celestial Race, and looking for the skin of a tiger? Who knows what will be the stumbling behind them? I guess, as long as there is a chance, they will still attack us."

Lu Ming said.

Others nodded in agreement? Although they cooperated with the Celestial Race? But they still increased their vigilance. After entering the cave heaven and blessed land, they still have to guard against the Celestial Race.

Subsequently, the lion and others began to convene the refiner to collect materials and refine the flying boat.

This kind of flying boat is very small, and one boat can only carry about ten people at most, so many boats need to be refined.

After all? Most people want to enter Dongtianfudi? This is a rare opportunity? Dongtianfudi is a place like Qianqiu Battlefield? The chance is countless times greater.

Go in, once you get the chance, you can fly into the sky.

And the more people go in? Get chance, the higher the chance of getting treasure.

During this period of time, whether it was the creatures of the three forbidden areas, the Celestial Race, and the Yaxian Race, the number of people coming here was increasing.

More and more people came here from the Heaven Extinguishing Army and demons.

The major forces, almost masters who can be mobilized, have been mobilized.

In a blink of an eye, a year passed.

Over the past year, more than 500 Leaping Flying Boats were finally refined after the cooperation of both the Heaven Exterminating Army and the Devil and their full refining.

More than 500 flying boats can allow more than 5,000 people to enter the heaven and the blessed land.

At this time, destroying the heavenly army and the demons could no longer hold back.

Because the creatures in the three major forbidden areas, the Yaxian tribe, and the Celestial tribe, have already refined a large number of flying boats, and they are ready to set off.

In the Yuanguang clan area, the Yinsha clan area, and the Cangming clan area, a large number of flying boats flew out at the same time, flew toward those space cracks, and disappeared in the space cracks.

Subsequently, the Yaxian and the Celestial Races did the same, flying out a large number of flying boats and disappearing into the space cracks.

Both the Celestial Exterminator and the Devil do not want to delay any longer. Although the flying boat in their hands is not enough to allow everyone to enter the heaven and blessed land, there is no way to do it. You can only go one part in advance, others, etc. After refining more leaping flying boats, we went in again.

"set off!"

The lion shouted loudly, and the people who destroyed the heavenly army, in groups of twelve, entered into the flying boat, and then the flying boat turned into rainbow rays and rushed into the cracks in the space.

"Qiuyue is out."

At this moment, Lu Ming received a transmission from Qiuyue.

Qiuyue has left the customs and is rushing here at full speed.

It's a coincidence that Qiuyue actually left the customs at this time.

Lu Ming didn't rush in at all, and it wouldn't be too late to wait for Qiuyue to arrive.

However, before Qiuyue arrived, Lu Ming received two more messages.

It was Ling Yuwei and Bao Bao.

This is really a coincidence. Ling Yuwei and Paobao have also left the customs one after another. They first went to the station of the Exterminating Army, and after hearing the news of Dongtianfudi, they also rushed here one after another.

"Hahaha, this is a coincidence, we just assembled a team."

Dan Dan smiled.

A flying boat can carry up to twelve people.

There are Lu Ming, Qiuqiu, Bone Demon, Xie Nianqing, Tang Jun, Wanshen, Dandan, plus Qiuyue, Ling Yuwei, and Baobao. There are ten people, almost enough to ride a flying boat.

They plan to form a team and enter the cave world together to explore.

More than ten days later, Qiuyue, Ling Yuwei and Paobao arrived here one after another.

"Qiuyue's cultivation base has reached the ninth level of the divine master."

Lu Ming was slightly shocked when he saw Qiuyue's cultivation base.

Qiuyue actually reached the Ninth Level of the Divine Lord, this speed is really amazing.

But after another thought, it was normal.

We must know that Qiuyue was inherited by Zhongyu, the first nine-aperture sacred heart in the new era.

During Zhong Yu's heyday, the cultivation base was unfathomable, and it was certain that it was an existence beyond the original realm.

Having obtained the inheritance of such a strong man, and practicing piously for more than 1,500 years, this progress is normal.

Ling Yuwei and Paobao's cultivation bases are not low, and all have reached the seventh level of the Divine Lord.

Obviously, each of them has some adventures, coupled with their own talents, they have made such rapid progress.

And although they are progressing fast, they have a solid foundation. As long as they continue to obtain resources, they can still improve quickly.

Everyone hasn't seen each other for many years. Now that they meet each other, it's natural to have a good time together. Dan Dan is even more cheating and telling what happened in these years. Let Qiuyue, Ling Yuwei and Paobao have two opinions about the current situation of the universe. General understanding.

Of course, once the surface chattered endlessly, my heart was very depressed.

Because he discovered that among them, he really had the lowest cultivation base.

During this period of time, although Dandan had also raised one level of cultivation and reached the sixth level of the Divine Master, it was still the lowest. Almost everyone else was above the seventh level of the Divine Master.

"This trip to the world, I will definitely get a great opportunity, I must reverse it, I must overtake them..."

Dan Dan roared in his heart.

"Let's go."

Lu Ming said.

Others have been in for more than ten days, and can't delay any longer. They are late to enter for fear of missing opportunities.

Although the cave heaven and blessed land collapsed, there was a process, and it would not burst all at once. This process may last for more than a hundred years.

Chapter 4807: The cold breath in the space

Lu Ming waved his hand and sacrificed the Flying Flying Boat. Then they entered the Flying Flying Boat. The Flying Flying Boat turned into a rainbow light and flew into a crack in space before disappearing.

In the space cracks, there is very chaos, there are no rules at all, and it is full of chaotic destructive power. Time and space are chaotic. When you are in it, you may even have an illusion. Time stops and speeds up.

Moreover, the chaotic time and space will form vortexes and turbulences.

If there is no flying boat and rushing in, it will really be torn apart by the destructive power here and the turbulence here.

The leaping flying boat, following the current, rushes forward along a turbulent current.

The further forward, the purple-golden light became richer, like a tide, roaring, making the flying boat tremble.

About an hour later, the flying boat seemed to hit something, and it made a loud bang, although it was quiet.

"It should be here!"

Lu Ming said, the spiritual sense radiated, and sure enough, they had already rushed through those chaotic places and came to a relatively stable world.

Afterwards, they left the flying boat and raised their eyes a lot.

The prehistoric and ancient aura came out, and there was a strong and incomparable prehistoric aura around him.

Taking a deep breath, there was a lot of wild energy around, and it penetrated through Lu Ming's nostrils and pores, turning into Lu Ming's own power, as if refining a piece of wild crystal.

"No, this wild air? It's not right..."

Lu Ming was a little shocked.

He found that the quality of the prehistoric qi here was too high? It was higher than any prehistoric qi he had encountered before? It was higher than the quality of the prehistoric qi in the Supreme Immortal City? It was extremely pure and rich.

"Is this Dongtianfudi, let alone other things, just cultivating here? The speed is countless times faster than outside."

Dandan sigh? Eyes shine.

Today's cosmic ruins have changed drastically, and the cultivation environment is getting better every day? There is a tendency to develop towards the wild continent of the last era.

But even so? Among the ruins of the universe today? The place where the cultivation environment is the best? Compared with this place? It's a little insignificant? It's not comparable at all, it's too far away.

This is Dongtianfudi, the top sacred place for cultivation in the Primordial Continent, where there is a place where the 'immortal' sits.

boom!

Suddenly, a huge earthquake in the sky? The void in the distance? Suddenly there appeared a hideous crack? A mouth like a giant beast? It swallowed everything, swept by the destructive force, and the ground kept bursting? A large forest, a large plant. , Turned to ashes.

They could even see that on the ground, there were also several huge cracks popping out, and deep underground, magma spurted out.

This is a peerless sacred place for cultivation. It's a pity that it has reached the end and is about to collapse.

According to the speculation of the Yaxian tribe and the demons, this cave heaven and blessed land suffered irreparable trauma during the shocking war at the end of the last epoch. It is already rare to collapse after such a long time, but the trend of collapse is impossible. Redeem.

"Let's leave here first and look for that kind of 'qi veins' or ancient buildings before we can get a big harvest."

Lu Ming said.

Before entering Dongtianfudi, they had a lot of exchanges with the devil and learned some information about Dongtianfudi.

The heaven and the blessed land collapsed, and only by finding that kind of 'qi veins' can there be big gains.

Qi mai actually has the same meaning as spirit mai and earth mai.

Qi veins, the place where the primordial qi condenses, the source of the primordial qi, and the qi veins contain the most primordial crystals or other treasures.

Usually buried deep underground, now the heaven and the blessed land collapsed, the veins were torn apart, and the treasures buried deep underground would fly out.

Most of the treasures that flew out of the cracks and flew outside from these ground veins.

Lu Ming waved his hand and put away the flying boat.

The Flying Flying Boat can't be lost, they will have to rely on the Flying Flying Boat to leave here.

After putting away the flying boat, they chose a direction that looked a little more stable and didn't collapse much.

Soon after, they saw a forest.

They rushed into the forest, intending to see if there were any magical medicines. Amidst the heavens and blessings, the wild aura was extremely rich. In such an environment, there would be many magical medicines.

There should be a lot of master-level magical medicine, source-level magical medicine.

But they were soon disappointed.

Because they made a big circle in this forest, they didn't find any magic medicine.

Not to mention the main-level magical medicine and the source-level magical medicine, even if it was an emperor-level magical medicine, no one was found.

"This is not right. With such a strong and wild aura, how could it not give birth to a magical medicine, even a low-level magical medicine, is it the first to be listed?"

Tang Jun frowned.

"No, there is no trace of being excavated and picked around here."

Dan Dan shook his head and said.

"Do you feel that the space here is filled with a cold breath."

At this moment, the Bone Demon said, the two groups of soul fire in his eye sockets were beating, it seemed a little surprised.

"You are right, not only here, but also in other places..."

Lu Ming said.

Xie Nianqing, Qiuyue and others also nodded.

They actually felt it a long time ago, not only in this forest, but also in other places. There is always a cold atmosphere in the space.

This cold breath is not strong, and has little effect on their existence at this level.

However, it is a little strange that there is always a cold breath in this kind of blessed world.

"Could it be that there is no magic drug conceived here, and it is related to this cold breath?"

Xie Nianqing said.

"It's not impossible. Although we can block this cold breath, it may hinder the birth of the magical medicine."

Bone Demon Road.

The conditions for the birth of a magical medicine are very harsh, and the higher the magical medicine, the more so.

It takes a very good environment and a very strong energy to be conceived. Once there is a bad external force interference, it may not be conceived.

"Let's look elsewhere."

Lu Ming proposed.

Everyone left here. After a while, they passed the forest and mountains in succession, but they did not find any trace of the magical medicine.

And no matter where they go, they can feel that the cold atmosphere is always permeating the space.

This disappointed them.

I originally thought that when you entered the heaven and the blessed land, you could find a lot of treasures, and magical medicine could be seen everywhere.

It seems to have been thinking too much.

Now, I can only look for the 'Qi Channel', and hope that there will be gains in the Qi Channel.

"Look, there are buildings on that mountain!"

Dandan pointed to the front and said.

Chapter 4808: Zombies

Not far in front of them, there is a mountain peak, and some buildings can be seen on the mountain peak.

Everyone's eyes lit up.

There is no doubt that this hole of heaven and blessed land absolutely belonged to the same force in the last era.

But the heaven and the blessed land are too big, even if it is the same force, everyone will not be concentrated in one place. Where the cultivation environment is better, it will definitely be distributed.

For example, there are many qi veins distributed in Dongtianfudi, so the people in Dongtianfudi will also be distributed on these qi veins for cultivation.

There are buildings on the mountain in front. Could it be built on the 'Qi Vessel'?

Lu Ming and the others did not hesitate, and flew straight ahead.

Here is a mountain range, with many peaks, all of which are extremely majestic, but there are many peaks, all of which are broken, and seem to be cut off by some weapon.

Some of the buildings on the peaks were all dilapidated and turned into ruins.

Obviously, there has been a great battle here, and these peaks were cut off by a single sword.

Only one mountain is intact, and the building on it remains intact. It was this mountain that Lu Ming and others saw before.

Their spiritual consciousness extended to explore, and found no danger.

Afterwards, they flew up, landed in front of the mountain, and walked towards an intact temple.

Go through the gate and enter a huge courtyard.

In the yard, there was nothing, only a piece of dark ground.

In the yard, where plants should have been planted, but on this pitch-dark ground, there was no weed and it was bare.

Everyone glanced at random, then crossed the yard and continued deepening.

However, shortly after Lu Ming and the others left, the dark soil in the yard suddenly bulged in some places, and a dark and dry claw suddenly stretched out in a bulging place. The claws were covered with pitch black. His nails are like daggers.

Then, a figure resembling a zombie emerged from the soil.

This zombie-like figure was thin and thin, and was still wearing broken iron armor. There was a cold aura permeating all over his body, his eyes were dark like a deep well, and he looked in the direction where Lu Ming and others were leaving.

Then, bang bang bang, in the mud, similar zombies crawled out...

Lu Ming and others went all the way to the depths of the building, but unfortunately, they found nothing along the way.

The buildings here are engraved with formations, so they can maintain a long time without decay, but other things can't go through such a long time.

Most of the things are decayed, leaving only the empty building shell.

Of course, there is no need to think about the magical medicine. There is always that cold atmosphere in the space, and it is difficult to breed the magical medicine.

After turning around, everyone was very disappointed.

Isn't it said that there are countless treasures in the heaven and the blessed earth, why didn't you get anything after you came in?

Is it possible to go for nothing again?

Suddenly, Lu Ming and others stopped in a square.

Because there are people ahead.

Celestial race!

Lu Ming and others moved in their hearts.

The twelve celestial races wandered in front.

This should have come in together in a flying boat. When Lu Ming and the others arrived, the people of the Celestial Race also noticed Lu Ming and the others, and they looked over.

"this is..."

Lu Ming and others immediately discovered that something was wrong. The eyes of the twelve celestial races were pitch black, like an abyss.

Their skin was also on the dark side, and on it, there was a peculiar breath permeating, extremely cold.

Ho Ho Ho...

After seeing Lu Ming and others, the twelve celestial races immediately roared and rushed towards Lu Ming.

Instead of using weapons, they grabbed Lu Ming and the others with their claws.

On their claws, the nails are very long, like daggers, cutting the void, making a terrifying whistling sound.

"Something is wrong, there is something wrong with the human race these days, be careful..."

Lu Ming gave a soft yell, and flicked his fingers, twelve spear lights burst out, stabbing the twelve Celestial Races.

The reason why he didn't take out the God of War Spear the first time was because he felt it was unnecessary, because the cultivation bases of these twelve Celestial Races were not high. Only one person had achieved the ninth level of the **** master, and the other eleven were all of the **** master seventh level below.

Bang bang bang...

In an instant, the twelve spear lights stabbed the twelve celestial races and blasted them out.

However, the pupils of Lu Ming, Xie Nianqing and others shrank suddenly.

Because the twelve celestial races are not dead.

In the past, the strongest was only the nine-fold divine master, and the others were below the seventh-fold divine master, which was too far apart from Lu Ming, and Lu Ming could kill with his fingers.

But this time, he failed to kill the opponent, and failed to kill either.

I saw the eleven divine masters below the seventh level, their chests were pierced by gunfire, exploding a huge hole.

But they weren't dead. Black gas filled the holes that they penetrated, and their wounds were actually recovering quickly.

As for the divine lord's nine-fold Celestial Race, none of the chest was pierced, only a finger-deep wound was pierced, and the black air was also permeated, and it quickly recovered.

"So strong defense, so hard body, these celestial races are no longer the original celestial races, they seem to have become some kind of zombie..."

Lu Ming whispered to inform Xie Nianqing and others.

The defense of the human race these days is beyond his imagination.

When Lu Ming stabbed the opponent's body just now, it was as if he had stabbed an extremely hard magic weapon before he could barely penetrate it.

Although Lu Ming didn't use his full strength just now, that attack was enough to kill the existence of Divine Master Jiuzhong, which shows how terrifying the opponent's defense is.

"Have you seen that there are wounds on their necks, which seem to be tooth marks, which were bitten out by their teeth."

Bone Demon Road.

After being reminded by the bone demon, everyone noticed it.

There are indeed tooth marks on the necks of these twelve celestial races, which were bitten out.

"The blood on their bodies seems to be sucked dry, they have become this look, it must be related to the tooth marks..."

Xie Nianqing continued.

Everyone's bodies tightened involuntarily.

The twelve celestial races were bitten by certain creatures, so they turned into this zombie appearance, indicating that there are some terrifying monsters hidden in the surrounding area, the number of which is unknown.

Ho Ho Ho...

The twelve celestial races roared and slaughtered everyone.

"Go all out and destroy them."

Lu Ming drank softly, the God of War Spear appeared, and it swept out with a single shot, hitting the nine-fold Celestial Race of God Lord.

The violent power erupted from the God of War Spear, as if it could destroy everything. The body of the nine-fold Celestial Race of the God Lord burst open like a balloon and was broken into pieces.

The moment Lu Ming shot, the bone demon also shot.

The bone demons all have the strongest Heavenly Sovereign's combat power, as if turning into a black lightning, blasting out eleven moves in a row, and eleven celestial races were also blasted into pieces.

Chapter 4809: Old corpse

The twelve celestial races were blasted to pieces, and it was finally difficult to recover.

But just as Lu Ming and the Bone Demon blasted the twelve Celestial Races into pieces, there was a violent breaking through the air and roars from behind.

After Lu Ming's spiritual sense was swept away, he saw a group of terrifying monsters, heading towards Xie Nianqing and others to kill.

This group of monsters, completely dark, with eyes like abyss, and claws like sharp swords, are very similar to the twelve celestial races before.

But the cold and cold aura pervading the bodies of these monsters is more intense, and the aura that exudes is even more terrifying.

At the same time, there is a faint breath of years in their bodies, which seems to have passed through the long years.

This group of monsters had a total of twenty or so, and the claws tore the space apart and killed Xie Nianqing and others.

Xie Nianqing and the others immediately felt a terrible pressure and couldn't help but use their combat power.

On Xie Nianqing, a phantom of the Immeasurable Demon Tablet emerged, and the Zhanzi Jue was triggered. She took a dozen palms in a row and beat a dozen monsters backwards.

At the same time, Wanshen and others also shot.

With a wave of Bubble, the power of time and space burst out and enveloped the audience. Those zombie-like monsters were greatly affected, and their speed suddenly slowed down. Then Qiuyue, Tang Jun, Wanshen, Dandan, Ling Yuwei and others launched attacks.

A series of attacks landed on these zombies, but they made the sound of golden and iron fighting. These zombies regressed, and there were large and small wounds on their bodies, but nothing happened, and those wounds were amazing Speed is recovering.

"How could this be?"

"What a hard body and amazing defense."

Qiuyue, Ling Yuwei and others all exclaimed.

Those zombies just now, according to their breath, are the strongest of the nine-fold divine master, and they, each of them are peerless geniuses, can fight across levels, even if only the seven-fold divine master, they are not afraid of the nine-fold divine master, but they failed to defeat these zombies. Boom killing, but only left a few shallow wounds.

Among them, Qiuyue had the highest attack power, piercing the bodies of the two most powerful zombies, but the two zombies still recovered quickly.

Then, these zombies roared, staring at Lu Ming and the others with pitch-black eyes, as if showing a deep desire, and continued to slaughter Lu Ming and the others.

bump! bump!

Lu Ming and the Bone Demon stepped forward one after another, like electricity, rushed to Xie Nianqing and the others, and launched an attack.

Hum!

The God of War's gun vibrated, and a shot swept out, slamming on the zombie of the **** master nine-fold, and this zombie was immediately blown out like a cannonball.

However, this zombie was not blasted and shattered like the previous Celestial race. This zombie just had a big hole blasted out of its body, but immediately stood up. The big hole that was blasted out was filled with black air and was quickly recovering.

The Bone Demon also launched an attack, but also did not smash these zombies to pieces.

The bodies of these zombies are too hard, even harder than the main level **** soldiers.

Now, with the combat power of Lu Ming and the Bone Demon, even if they were the main-level divine soldiers, they could be crushed.

But failed to smash the bodies of these zombies.

"These are definitely a kind of zombies, and they are old corpses. It is very likely that they evolved from the creatures of the last era..."

The bone demon's voice sounded, somewhat solemn.

"You mean, the creatures of the last epoch turned into zombies after they fell, and they have been wandering on this land."

Lu Ming said.

"Not bad!"

The bone demon nodded.

Others have a heavy heart, which is likely to be the case.

At the same time, they thought of the previous twelve Celestial Races.

Perhaps the twelve celestial races were attacked by these zombies, bitten to their necks, sucked their blood, and at the same time assimilated themselves into zombies.

Ho Ho Ho...

Those zombies killed Lu Ming and others again.

Moreover, an even more shocking scene appeared. In the underground of this square, some places squirmed, and then from the underground, zombies crawled out.

Bang bang bang...

The soil burst, and dozens of zombies crawled out in succession.

And in other directions, there were roars, and you could see that terrible zombies rushed from all directions. At a glance, there were no fewer than hundreds of them.

Hundreds of terrifying zombies, Lu Ming and others only felt that their hair was standing upside down.

It's no wonder that these zombies were hidden deep underground.

Roar!

With a terrifying roar, a zombie more than two meters tall came to Lu Ming to kill.

This zombie, as you can see, was originally a middle-aged man, and it was a human race. It crawled out of the underground of this square, the fastest, and was the first to rush.

Lu Ming's pores stood up involuntarily.

Because of this zombie, Lu Ming felt very dangerous.

Without hesitation, Lu Ming triggered the battle strength of the Zhan Zi Jue nine times, raising the combat strength to a fixed point.

Breakthrough!

The God of War's spear trembled, and Lu Ming displayed the sky-breaking style, pierced with a shot, and collided with the claws of the zombie.

With a bang, Lu Ming felt a mountain of power rushing from the God of War Spear, and Lu Ming couldn't help but back up several steps.

The zombie was also blocked by Lu Ming, and also retreated backwards.

"The strongest Heavenly Monarch level combat power, be careful..."

Lu Ming roared, shocked.

The power of the zombie just now is not under him at all. It is very terrifying, and it definitely has the strongest power of the heavenly monarch.

Roar!

After the zombie was knocked back, he roared at Lu Ming again.

Prehistoric!

Lu Ming shot it out with a palm, and a continent emerged, pressing down towards the opponent.

At the same time, the ball flew out, turned into a sharp sword, and slashed towards the opponent.

The ball also has the strongest fighting power of Tianjun, and cooperates with the predecessor to block the opponent.

However, Lu Ming continued to perform the Heaven-Breaking Style, combining the man and the spear, turning into a bright spear light, and stabbing the opponent.

bump!

The God of War spear stabbed the zombie's head accurately, but it was greatly hindered.

Not pierced!

Yes, the God of War Spear didn't pierce the opponent's head. It only pierced an inch deep and was given to the owner by the opponent's bones.

The powerful force gushed out, blasted the opponent out, and hit the wall of the hall. Runes appeared on the wall of the hall, removing most of the power.

However, this palace has gone through endless years, and there is not much remaining power of the formation on it. After being hit like this, many cracks have also been knocked out.

However, the other party did nothing, roared, and then culled at Lu Ming.

At this time, other zombies also arrived, roaring at Xie Nianqing and others, among them, there are many terrifying zombies.

For example, a seemingly very old man, with white hair, dark and thin body, but with a particularly terrifying aura, actually fought a fierce battle with the Bone Demon, and it was difficult to distinguish the outcome.

Chapter 4810: Respective tricks

The Bone Demon is extremely hard, ignoring its own defenses, and its combat power is full, but the opponent also ignores its defenses and attacks wildly.

Both were hit consecutively by each other, but they were all fine.

The zombie naturally couldn't break the defense of the Bone Demon, but the Bone Demon couldn't destroy the opponent's body either. It could only leave a small injury on the opponent's body, and the opponent's body was filled with black energy, and he quickly recovered.

"Nine orifices unite, cut!"

Qiuyue yelled, the Nine Orifice Sacred Heart was filled with radiant brilliance, nine powers, almost merged into one, combined with Qiuyue's divine weapon, slashed out a terrible sword light.

Qiuyue inherited Zhong Yu's inheritance, not only has her cultivation base greatly increased, but her combat power has also been greatly improved.

The Qiuyue of God Lord Nine Layers, the combat power is not worse than the strongest Heavenly Monarch.

This was amazing, and it showed that Qiuyue was no weaker than Ye Qiuxian in the first battle at the same level.

Sure enough, as Zhong Yu said, the Sacred Heart of the Nine Orifices has a great background. In the prehistoric continent of the last epoch, they were all top talents. Now Qiuyue has the inheritance of Zhong Yu, the potential is constantly being developed, and the combat power is becoming more and more terrifying. Up.

Qiuyue's knife light slashed several zombies in succession.

Although these zombies do not have the combat power of the strongest Heavenly Monarch, they are also very scary and rush to the forefront.

These zombies were flew out by Qiuyue, and there were an inch-deep stab wound on their bodies, but there were none at all. Under the influence of the black energy, they quickly recovered.

Then he pounced on Qiuyue.

Xie Nianqing also tried his best to block the strongest zombies.

Bubbles drink softly, shrouding all the defenses for thousands of miles in the power of time and space? The void is being divided, and time seems to have stopped flowing.

After these years of practice, Bubble's control over the power of time and space has become deeper and deeper? The two ancient characters of origin, "time" and "empty" have almost been understood to the extreme? Not only does it possess powerful attack power, it also has the effect of trapping the enemy. , Has reached the peak.

Hundreds of zombies have slowed down their actions? Like a bog.

call out!

Ling Yuwei's body was completely shrouded in green energy, a towering tree emerged from behind, a big bow appeared in her hand? An arrow shot out.

Arrow's attack power? Absolutely the most amazing? Stronger than Kendo.

A touch? The eyebrows of a zombie? Was pierced? A clear hole appeared before and after.

But, it's okay, it's okay at all, even if the eyebrows are pierced, the zombie is still alive? It just staggered for a while? The black gas filled the eyebrows? The hole in the eyebrows recovered?

No soul!

The eyebrows are pierced and there is still nothing wrong, which is enough to show that this zombie has no soul at all.

In other words, this kind of zombie has no critical point at all. If you want to kill it, you can only destroy the whole body and smash it to pieces.

However, the opponent's body is too hard, any one, the body is like a magic weapon, it is difficult to destroy.

The gods, Tang Jun, and Dan Dan also tried their best to shoot, but there were too many zombies, and despite the seamless cooperation of everyone, they were still being kept close.

They were surrounded.

"Ball, you go help them..."

Lu Ming waved his hand and the ball rushed out to help Qiu Yue, Ling Yuwei and others.

Although Qiuyue and Xie Nianqing almost have the strongest combat power of Tianjun, and almost blocked some of the strongest zombies, Ling Yuwei, Wanshen, Paobao, and Dandan do not have that strong combat power. There are too many zombies. After a long time, they will definitely not be able to stop it.

Especially bubbles.

If you want to use the power of time and space to affect so many zombies, the consumption must be very large. After a long time, the bubble will definitely not hold on.

The ball flew out, turned into a halberd, and hit a zombie.

The strength of this zombie is not too strong, it is about the seventh level of the gods. Under the full blow of the ball, the body is finally crushed, turned into fragments, and completely bombarded.

It seems that this kind of zombie is not an immortal body. It needs a lot stronger power than them to kill it.

Unfortunately, among the zombies, there are also terrible existences. Lu Ming and the others are entangled and cannot tell the weak zombies.

"Let's rush out of the siege before talking. If this continues, it will be very unfavorable for us."

Lu Ming yelled.

"Leave it to me, you guys hold on for a while, I will arrange several formations..."

Dan Dan called, and then turned into a prototype. On the huge turtle shell, densely packed runes appeared.

It can be seen that there are many small formations on his tortoise shell, and some formations glow at this time, turning into runes and flying out, penetrating the ground and the void.

The others gathered together to help Dandan resist the surrounding zombies.

"Well, the world is entwined, give it to me!"

Dan Dan yelled, and infinite runes filled the void, turning into a huge formation, condensing thousands of chains, entwining towards those zombies.

Although Dandan is only the six-layered cultivation base of the Divine Lord, the power of the array that has been arranged for a period of time is still very amazing. Although it can't really entangle these zombies, it can also play a role in interference.

Many zombies were disturbed, and with the influence of the power of time and space, many zombies couldn't rush through at once.

"Flush!"

Lu Ming and Bone Demon gathered together to block the two zombies with the strongest combat power. Xie Nianqing, Qiuyue, the ball in front, the gods, Tang Jun, Ling Yuwei, and Dan Dan, the bubble in the middle, facing one direction Rush away.

In the end, they rushed out of the siege and flew to the distance.

Roar! Roar! ...

Those zombies, who kept roaring, reluctantly left the mountain peaks and chased Lu Ming and others.

Especially the two zombies of the strongest Tianjun level are the fastest and take the lead.

The faces of Lu Ming and others were very ugly.

This kind of zombie is too difficult to deal with.

In particular, the two zombies of the strongest Heavenly Monarch level are simply pirated bone demons. Put outside, they are much more difficult to deal with than the other strongest Heavenly Monarchs, and they can't be killed at all.

To destroy this kind of zombie, it is estimated that the power of the Origin Realm is needed. It is estimated that it will be difficult to destroy a master of Gu Changfeng's level.

They flew forward quickly, passing hundreds of thousands of miles.

The heaven and the blessed land is almost a world of its own, with an extremely broad scope and a vast territory.

After flying hundreds of thousands of miles, the zombies still followed behind and couldn't get rid of them.

However, what makes Lu Ming and others look ugly is still to come.

Just as Lu Ming and the others continued to fly, there was a roar in front of him. Then, when he went, a group of zombies also appeared and rushed over.

"what happened?"

"There are so many zombies here. Could it be that the people of the last era turned into zombies?"

Dan Dan and others exclaimed.

These zombies are all adult-shaped, but they are eccentrically dressed and full of the breath of time. They are probably creatures of the last era.

And they are all adult types, and they seem to be human.
