

D Emperor 4811

Chapter 4811: Great escape

These zombies are all human races, not other races turned into human forms, but pure human races.

They wore all kinds of ancient costumes, many of which were in tatters, and only a few of them were wearing armor, and they could still see the appearance of the tattered armor.

It is conceivable that in the last epoch, this cave world was definitely a powerful force of human race.

There are hundreds of zombies behind and in front, rushing towards them.

Some of the zombies that appeared in front were also very scary. This can be seen from the speed of the opponent.

"Go to the other side."

Lu Ming yelled, making everyone rush to the right.

If there are so many zombies before and after, if they are surrounded, especially if there are more than a few existences with the strongest Tianjun level combat power, they will be dangerous, even if they want to rush out.

This kind of zombie is too difficult to deal with.

The zombies on the front and back saw Lu Ming and the others run away, and chased after him roaring.

"Damn it, what's the matter with such zombies, how can they keep chasing us."

Called out unhappy.

"This kind of zombies are bloodthirsty. The blood from the Celestial races before has been absorbed. These zombies are probably attracted by our blood."

Lu Ming analyzed.

"I'll try it!"

The Bone Demon said, and rushed out in the other direction to see if he could draw away the zombies.

However, the zombies turned a blind eye to the Bone Demon, still chasing Lu Ming and the others.

This undoubtedly confirmed Lu Ming's conjecture that these zombies were bloodthirsty and chasing them closely because of their blood.

There is no blood on the bone demon, so it is not attractive to those zombies.

After the confirmation, the Bone Demon flew back and ran away together.

Bang bang bang...

Suddenly, the ground beneath Lu Ming burst out? There were dozens of zombies rushed out of the ground. They roared to Lu Ming and the others. The claws were sharper than the magical soldiers.

"Be careful!"

Lu Ming yelled? A palm blasted downwards, a prehistoric eruption, a continent condensed out, suppressed downwards, and bombarded dozens of zombies.

Boom boom boom...

Dozens of zombies slammed into the continent and burst into roars.

Some weak zombies? Directly hit the ground and fell? But how many powerful zombies? The fighting strength is equivalent to the peak of the god? The body is as hard as a **** soldier? It has penetrated the mainland abruptly? Charged to Lu Ming and others.

"Get down to me!"

The Bone Demon took action, holding the purple gold war yue, and slashing several moves in succession, slashing several zombies, and several zombies fell to the ground like meteorites? It knocked out a few large craters on the ground.

But they weren't dead? Although the bone demon had chopped out a few wounds on their bodies? But the black gas was permeated? Their wounds were recovering quickly.

The hearts of Lu Ming and others became heavier and heavier.

How did these zombies come about? Why are they so scary?

They haven't seen zombies before, but there is no such kind of zombies, there are so terrible.

Is it true that the people in this cave have become zombies?

If this is the case, this trip is really Longtan Tiger Den.

Should I give up halfway and leave directly?

Really unwilling.

Bang bang bang...

As Lu Ming and the others flew, zombies broke out of the ground below and rushed up, but they were all bombarded by Lu Ming and others.

Hundreds of miles later, no zombies rushed out of the ground, but hundreds more zombies were chasing behind.

More and more zombies are chasing.

These zombies continued to roar and roar like thunder, spreading far away.

The terrible thing was that soon afterward, roars from all directions echoed from afar.

"It's over, we are surrounded, and there are zombies on all sides."

Dandan wailed.

Entering this hole of heaven and blessing, I didn't get anything, but was surrounded by countless zombies.

If it hadn't been for the forbidden land creatures, the Yaxian clan would have come in long ago, and they would all suspect that this is the Yaxian clan pitting them.

This scene, it is estimated that the Yaxian clan did not expect it.

There is no such record in the ancient books of the devil about the heaven and the blessed land.

"Charge in a direction where there is less roar."

The bone demon shouted.

The direction with less roar indicates that there are fewer zombies.

They rushed to the south, and the roars from all directions grew bigger and bigger, indicating that the zombies were getting closer and closer.

Judging by the roar, the number of zombies is probably not less than thousands.

With so many terrifying zombies, once surrounded, there is really only one dead end.

Even a strong person of Gu Changfeng's level would never want to rush out.

Even if the number of ordinary divine masters is large, it is difficult to trap Gu Changfeng's level of powers, because one move can kill a lot of them.

But this kind of zombie has too strong defensive power to kill it.

If you can't kill, no matter how powerful you are, you will be consumed.

Soon, in front of Lu Ming and the others, a bunch of zombies also appeared, and they rushed towards Lu Ming and them scattered.

Listening to the sound from a distance, I feel that the number of zombies here is the least, but in fact there are a lot of them, there are about 300.

But now there is no way out, there is only one battle.

"rush out!"

Lu Ming roared and took the lead, the God of War spear vibrated, bursting out a dozen spear lights, and blasting out a dozen zombies.

The Bone Demon, Xie Nianqing, Qiuyue, Qiuqiu and others also all shot, blasting the zombies ahead.

However, among the zombies, there are terrible existences, which are equivalent to the existence of the strongest heavenly monarch, causing great trouble to Lu Ming and others.

The speed of their impact was greatly hindered.

The zombies behind are getting closer and closer to them.

"I am dead, the glory of this seat hasn't appeared yet, is it about to fall halfway."

Dan Dan wailed, his face was miserable.

"Don't talk nonsense, go all out."

Lu Ming yelled.

"Didn't I try my best."

Once he yelled, he had already turned into a prototype, the shell of the tortoise was shiny, the formations lit up, and the powerful formations continued to be deployed.

Unfortunately, for those zombies, it can only play a disruptive role, and it is difficult to kill them.

"Look, those zombies, why did they bypass that hill..."

Suddenly, Xie Nianqing pointed to the right side.

Lu Ming and the others also looked at it, and their hearts moved.

On the other side, there is a hill that is not high, only tens of meters high, and the range is not large.

However, it can be clearly seen that the zombies in that direction will take the initiative to bypass when they approach the hills.

Some zombies were walking straight ahead, but as soon as they approached the hill, they circumvented on their own. It seemed...very afraid of that hill.

"There is a problem with that hill, we rushed over, maybe there is a turning point."

Tang Jun called.

"Flush!"

Others thought of this too, and immediately changed their direction and rushed towards the hill.

Chapter 4812: Zombie Buster

Now, I can't manage that much, I can only be a dead horse doctor.

Because in the back direction, a dense group of zombies appeared, like ants, rushing toward this side.

They will soon be surrounded. At that time, there is really only a dead end.

It's better to go to this hill to try your luck, maybe there will be a chance.

Roar! Roar!

Two burly zombies, wearing ragged armor, madly attacked Lu Ming and others. These two zombies have the strongest power of Heavenly Sovereign and have a great impact on Lu Ming and others.

"One of the nine orifices, Yuan Zhan!"

Qiuyue yelled, the power of the Nine Orifices Sacred Heart surged wildly, cutting out with a single knife, and the power of the nine colors changed rapidly when the knife light flew out. Finally, the nine colors disappeared and turned into a transparent knife light. On the head of a zombie with the strongest Tianjun combat power.

Zi Zi Zi...

The knife slashed on the head of the zombie, unexpectedly making a screaming sound, and forcibly chopped the head of the zombie into a depth of two inches.

Even Lu Ming was secretly surprised. He was too aware of how hard the body of a creature of this level was. Even with a full blow, he might not be able to penetrate two inches deep, but Qiuyue could cut two inches deep. How terrible a blow is.

Unfortunately, cutting out two inches deep is already the limit, and Qiuyue's battle knife was caught by the zombie's skull.

It roared, and its sharp claws grabbed Qiuyue.

Qiuyue's face changed. Faced with such a situation, she either abandoned her knife and retreated, or was caught by the zombie's claws.

Qiuyue didn't have the defense of zombies. Once caught by sharp claws, the consequences would be disastrous.

When Qiuyue was about to abandon the knife and retreat, Lu Ming shot in time.

The God of War spear drew out and hit the zombie's head.

The head of the zombie vibrated violently, and the powerful force slammed Qiuyue's sword out? And the body of the zombie, like a cannonball, flew out.

On the other side? Bone Demon and Ball Ball teamed up to fly another zombie with the strongest Heavenly King's combat power.

And Xie Nianqing? Inspired the phantom of the Boundless Demon Tablet to open the way, knocking more than a dozen powerful zombies into the air in a row, forcibly creating a channel.

Ten people including Lu Ming? Bone Demon rushed past, and finally rushed to the top of the hill.

Ho Ho Ho...

Those zombies roared towards Lu Ming and the others? But when they approached the hill, they stopped? It seemed that they did not dare to approach? They could only keep roaring around.

Even the two zombies with the strongest Celestial Power? It's the same, and they dare not get close.

This surprised Lu Ming and others.

"This hill is weird."

"Under the hill, there must be something that scares these zombies."

Lu Ming and others round.

"Dandan, is there any formation here?"

Lu Ming asked Dandan.

"No? There is no trace of the formation here? I can't feel wrong."

Dandan said seriously.

"Then there must be something under this hill? Let's dig to see? Maybe there is a way to get out of here."

Lu Ming said.

At this time, thousands of zombies in the rear have also rushed over? Surrounded by the hills, densely dense, it looks very infiltrating.

However, the zombies coming from behind didn't dare to approach this hill, just shouting in the distance.

Without hesitation, Lu Ming took out a war knife and began digging carefully.

He didn't dare to use too much force, for fear of breaking things in the hills, then he would really be over.

Under the hill, there was a layer of rock, and Lu Ming peeled off the rock layer by layer, and finally, wisps of blue light diffused out.

When the blue light diffused out, the zombies around seemed a little scared, and they couldn't help but stepped back. The zombies crowded the zombies, causing chaos.

"It's this kind of rock that the zombies fear, this kind of blue rock..."

Everyone was shocked.

It can be seen that under the hill is a blue rock, this blue rock is like blue crystal, and there is a hot breath that diffuses out, like a flame.

"What kind of rock is this? I haven't seen it before."

Lu Ming whispered.

The others also shook their heads, saying they hadn't seen them.

Everyone can only speculate that this may be a unique rock in this cave.

Obviously, those zombies are afraid of this blue rock.

"Try those zombies, why are you afraid of such rocks."

Lu Ming said, the power of taboo poured into the sword, carefully cut a small piece on the blue rock, and was caught by Lu Ming.

Suddenly, the real scorching heat came from the palm of the palm. This kind of temperature can be said to be amazing. I am afraid that the existence of the Divine Emperor Realm would not be able to bear it.

However, for an existence like Lu Ming, it has no effect.

call out!

The forbidden body burst out, and Lu Ming knocked out the small blue rock.

The blue color turned into a blue lightning, which hit a zombie accurately at an amazing speed.

With a touch, the blue rock hits the zombie's body, exploded and turned into powder.

However, the zombie was also knocked out of a big pit, and there were wisps of blue flame covering the zombie.

The zombie roared in agony, made faint noises on his body, and kept emitting white smoke.

It kept struggling for a while before the blue flame on his body disappeared, but it was obvious that the black aura on the zombie body had faded a lot, and the aura of the zombie had also wilted a lot. Looks badly hurt.

Especially that big pit on his body has always existed, but it hasn't recovered.

Previously, once these zombies were injured, they would soon recover.

But now, the wound made by the blue rock has not recovered.

The eyes of Lu Ming and others lit up.

They can see that this blue rock has a great restraint against this zombie.

You must know that the defense power of this zombie is amazing. Even if it is attacked with a magic weapon, it is not easy to make a wound, but the rock just now is not sharp. It was excited by Lu Ming, but it easily left a wound on the zombie. , And also greatly hurt the opponent's vitality.

This blue rock is simply the nemesis of zombies.

To be precise, it is to restrain the black air on zombies.

Through Lu Ming's analysis, why such zombies are so terrible has a lot to do with the black energy on them.

The twelve Celestial Races before, although they have also become zombies, the black energy on their bodies is relatively weak, and they are much easier to deal with.

The old zombies at the back are so dark that they are very difficult to deal with.

The blue rock is to restrain this black gas.

"Hahaha, we are saved. Next, let's see how I teach these zombies and let them sleep well."

Dan Dan began to be arrogant again, the previous mourning, miserable, swept away, energetic.

Chapter 4813: Polish weapons and breakout

"We peel away the useless rocks around this hill to see how big this blue rock is, and then see how to use it."

Tang Jun suggested that after all, she had lived two lives and was relatively stable.

Everyone agreed, and then began to do it.

Soon, the useless mud and rocks on the hill were cleaned up, and a large piece of blue rock appeared in front of everyone.

This blue rock is about eight meters high and three meters wide, and it is constantly filled with blue light, like a blue flame.

"I will cut a piece and try it."

Dan Dan shot, cut off a basin-sized rock, put it on his hand, and walked toward the zombies.

Sure enough, when the zombies saw Dan Dan approaching, they showed fear and couldn't help but back off.

"Hahaha, **** zombie, now be afraid, kneel down and kowtow to this seat..."

Every time he laughed.

Of course, he just had a mouthful, and zombies would naturally not kneel on him.

Roar! Roar! Roar! ...

Suddenly, a violent roar came out, and a few zombies were filled with black aura, and they slowly approached Dandan.

There are a dozen zombies in total, and these dozen zombies all possess the strongest Tianjun combat power.

I have to say that in this hole of heaven and blessing, it is really terrifying.

Outside, it is extremely difficult to be born at the level of the strongest heavenly monarch. The strongest heavenly monarch needs top talents. All are amazing talents. The future achievements are difficult to measure. In the era where the origin is impossible, is definitely the overlord of one party.

But in this hole of heaven and blessed land? Lu Ming and the others walked only how far, and they actually encountered a dozen zombies comparable to the strongest heavenly monarch. This was simply appalling.

Lu Ming and the others speculated? Maybe it was related to the predecessors of these zombies.

This is Dongtianfudi? In the prehistoric continent of the last epoch? It is also the pinnacle power. There is a "immortal" who is definitely a master like a cloud? Tianjiao is like rain.

These zombies comparable to the strongest heavenly monarch? The predecessor is definitely not simple, maybe they are all terrifying characters.

Otherwise, isn't the Chinese cabbage comparable to the strongest Tianjun?

But what made Lu Ming and others feel at ease? There were no zombies from the Origin Realm.

Obviously? Dongtianfudi? is also a part of this universe? It will be catastrophe by the origin? Even the zombies with origin are probably sleeping.

Seeing more than a dozen powerful zombies approaching, Dan Dan was shocked, his face changed wildly, his bloated body? More flexible than anything? A flash? He slid back to Lu Ming and the others.

"Nest? These zombies, are not afraid of this blue rock..."

Dan Dan had some lingering fears.

"It's not that they are not afraid, but this kind of zombies is extraordinary? The smaller the blue rock, the less they are afraid of."

Lu Ming said.

Sure enough, the dozens of the most powerful zombies were roaring around, but they didn't dare to get close. Obviously, they were terrified of the entire blue rock.

"We cut some of this blue rock, and cut it into sharp weapons, which should allow us to rush out."

Bone Demon recommends.

"Not bad!"

Everyone nodded and then began to cut the blue rock into a fusiform or needle shape. In the end, everyone carried a hidden weapon made of hundreds of blue rocks.

call out!

Lu Ming waved his hand, and a long needle made of blue rock flew out through the air, hitting the head of a zombie.

The body, which was originally extremely hard, was directly pierced with a small hole by the long blue needle. Of course, the blue rock itself is not hard. Even if it is wrapped in the power of Lu Ming's taboo, it should pierce a small zombie out of it. After the hole, the strong impact force also caused the blue long needle to break apart.

However, some of the energy on the blue rock has penetrated through the punctured pores of the zombie and spread in all directions, covering the entire head of the zombie.

The zombie roared in pain, and the entire head seemed to be enveloped in blue flames.

The zombie retreated violently, black aura permeated, against the blue flame, and finally, the flame was extinguished, and the zombie's breath also languished a lot.

The effect was better than Lu Ming and the others had imagined.

"Dandan, you are carrying this rock in the middle, and we rush out together."

Lu Ming said.

Let Dandan stand in the middle, carrying a large rock, the others surrounded Dandan, and then rushed in one direction.

Ho Ho Ho...

The dozen or so strongest zombies roared, eyes dark as an abyss, staring at Lu Ming and others, and closely following Lu Ming and others.

As for the weaker zombies, when Lu Ming and the others approached, they couldn't help but step back.

Ho Ho Ho...

After Lu Ming and the others walked away for a certain distance, the dozen or so strongest zombies finally couldn't hold back, and roared at Lu Ming and the others.

But this time, Lu Ming and others are not afraid of these zombies.

With a wave of their hands, blue rays of light flew out, all of which were long needles and shuttles made of blue rock.

More than a dozen zombies comparable to the strongest heavenly monarch were caught crazily by their sharp claws, and many blue long needles and shuttles were destroyed by the energy they stimulated.

But there are still a few bombardments on them.

These dozen or so zombies are indeed extraordinary. Even if they are long needles and shuttles made of blue rock, they are not easy to break through their defenses, but they have made shallow wounds on them.

However, it is enough.

The blue flame on the blue rock immediately diffused out, constantly corroding the black energy and body of the zombie.

A dozen zombies had to fight with all their strength.

However, Lu Ming and others took the opportunity to attack and knocked back a dozen powerful zombies in one fell swoop.

These zombies had to fight against the blue flames, their strength was reduced a lot, and they were knocked into the air by Lu Ming and others, who took the opportunity to rush out.

Soon after, Lu Ming and the others successfully rushed out of the zombies and rushed towards the distance.

Ho Ho Ho...

The dozen or so zombies comparable to the strongest Tianjun roared like thunder, and they rushed towards Lu Ming and others.

The other army of zombies followed closely behind.

"Nest, it's really endless. If this goes on, it will consume these zombies. There is no time to find treasures."

Called out unhappy.

"You must get rid of these zombies."

Xie Nianqing said.

"We might as well grind some blue rocks into powder, and scatter them behind, not to completely block these zombies, as long as we can slow them down, we have a chance to get out."

Lu Ming said.

"Haha, Lu Ming, your mind is really good, I just thought of this idea, I didn't expect you to think of it too, not bad..."

Dandan smiled, his face was as thick as a city wall, and he was not embarrassed.

Others nodded, thinking that this method could be tried.

Immediately, he cut some of the big rocks and grind the blue rocks into powder with powerful force.

Chapter 4814: Silver Eyed Zombie

Lu Ming and several people grind a total of about ten catties of blue rock powder, each holding a catty, wrapping it with divine power or forbidden power, and distributing it to different locations. Then the force exploded, and the blue rock powder burst and dust. Diffuse, covering a distance of thousands of miles in a radius.

The sky and the earth are all blue and blue scenes, very beautiful.

Many zombies rushed into the blue powder, and immediately made a sneer sound, and a white smoke filled their bodies.

These zombies screamed in pain and retreated sharply.

The zombies at the back didn't dare to move forward, stopped in place, and kept roaring.

The IQs of these zombies seem to be very low, they have almost no intelligence and do not know how to make detours.

In this way, most of the zombies were blocked by Lu Ming and others with blue powder.

However, the dozen or so zombies comparable to the strongest Heavenly Monarch stubbornly rushed through the area covered by the blue powder and continued to chase Lu Ming and others.

However, Lu Ming and others had long expected that after a dozen zombies comparable to the strongest heavenly monarch broke through the area covered by blue powder, they shot hundreds of long needles or shuttles cut from blue rocks to kill more than a dozen zombies. Only powerful zombies are completely covered.

Although dozens of powerful zombies defeated some long needles or shuttles, some still hit them, making wounds one by one on their bodies, and their figures were also blocked.

However, Lu Ming, Xie Nianqing and others seized this opportunity to burst their speed to the extreme, flying with full force, and disappearing in no time. When the dozen or so zombies were relieved, Lu Ming and others had disappeared before their eyes.

Ho Ho Ho...

More than a dozen zombies roared and roared violently, flying around in place, their claws kept grabbing them, and they made terrible scratches on the ground.

After a while...

Roar!

Suddenly, there was an earth-shattering roar from a distance, the earth roared, and the void trembled.

The dozen or so zombies comparable to the strongest heavenly monarch suddenly stopped roaring.

In addition, the thousands of zombies also stopped roaring and looked in the direction of the roar.

The next moment, a black lightning pierced the void and came quickly.

In the blink of an eye, a burly figure appeared in the void.

This figure is also a zombie, wearing a shabby black armor, exuding a frightening atmosphere.

The black aura that permeated him, rich and scary, was many times richer than the dozen or so zombies comparable to the strongest Heavenly Monarch level.

The most peculiar thing is his eyes, his eyes are not like other zombies, like two dark wells, his eyes, in the black, reveal silver, and the silver light flashes, revealing the light of wisdom. .

Roar!

This silver-eyed zombie roared and the world shook. Thousands of zombies on the scene were trembling all over, all squatting on the ground, looking very fearful.

Even the dozen of the strongest zombies lowered their heads even though they were not crawling on the ground.

Roar...

The silver-eyed zombie roared several times in succession, as if giving orders, then turned and flew in the direction where Lu Ming and others fled.

At this time, the blue rock powder had all fallen on the ground, and thousands of zombies flew up one after another, following the silver-eyed zombies, chasing in the direction where Lu Ming and others had left.

...

Lu Ming and the others flew all the way, and the next thing was fortunate. A few hours passed without encountering zombies. Of course, there was no other gain.

In the middle of the road, I met more than a dozen people from the Asian tribe. However, these more than a dozen people from the Asian tribe ended up with the twelve celestial races they first encountered. They all had bite marks on their necks. The blood was sucked dry and turned into a zombie.

Seeing Lu Ming and others, they culled Xiang Lu Ming and others.

However, Lu Ming and the others were too lazy to waste time with the other party, so they just threw away the other party.

Boom boom boom!

Shoo...

Not far away, there was a sudden violent roar, which was accompanied by roars.

Upon hearing this, Lu Ming and the others knew that someone was besieged by zombies.

"What to do? Shall we go around, or?"

The Bone Demon looked at Lu Ming.

"What do you say?"

Lu Ming looked at Tang Jun, Xie Nianqing and others.

"I think we still have to go and take a look, in case it is our people who destroy the heavenly army."

Tang Jundao.

"Yes, listen to the sound, there are not many zombies, we can save them."

Xie Nianqing also nodded.

Others suggested the same.

"Okay, let's go over and take a look."

Lu Ming nodded, and everyone gathered their breath and rushed towards the place where the war broke out.

Soon, they were approaching the site of the war.

"It's the Yaxian!"

Everyone moved in their hearts.

The people who were besieged by the zombies were not the people who destroyed the heavenly army, but the Asian immortals.

There are a total of 24 Yaxian tribes, surrounded by more than 30 zombies, constantly attacking.

These twenty-four Asian immortal races are not weak in strength, and there are no shortage of masters. Among them, there are several masters at the peak of the gods, and there is one with a combat power equivalent to the top heavenly monarch.

Those zombies do not exist very scary.

However, the bodies of these zombies are too hard, no matter how the Yaxian people attack, they can't help them.

Therefore, the people of the Yaxian tribe are still at a disadvantage, and they can only form a circle to resist. Over time, most of them will be dangerous.

"Shoot?"

Xie Nianqing asked Lu Ming.

"Shoot, the Yaxian clan has a long heritage, and most of them know some secrets. Maybe we can know something from them, such as the origin of these zombies."

Lu Ming said.

Another aspect is that after all, they and the Yaxian clan are already in an alliance, and they have received the benefits of the Yaxian clan, and within the scope of their ability, it will be possible to help.

Lu Ming and the others rushed out, and in the process of rushing out, a long blue needle and shuttle flew out, flying towards dozens of zombies.

Bang bang bang...

These zombies don't have much intelligence, and their usual attacks are crazy attacks. They don't care about defense at all, so they are easily hit.

Those zombies with weak strength were immediately stabbed with deep wounds, shrouded in flames on the blue rock, and roared in pain.

The more powerful zombies are not much better, and they have suffered a lot.

After that, Lu Ming and others rushed past, and various attacks fell, bombarding those zombies.

Suddenly, among the thirty-odd zombies, more than a dozen zombies were beaten to shredded bones and turned into a pile of debris.

"what?"

Lu Ming and others let out a surprise.

They found that after being attacked by the blue rock, these zombies became sluggish, and even their defense power was weakened a lot. Some weak zombies were easily broken into pieces.

Even those stronger zombies are seriously injured, their bodies are broken, and it is difficult to recover for a while.

Chapter 4815: Qi Vessel and Ancient City

"It's Lu Ming and the others."

After seeing Lu Ming and the others, the Yaxian tribe was overjoyed.

"Go!"

Lu Ming yelled loudly, and those of the Yaxian race suddenly reacted, seized the opportunity, and rushed out of the encirclement.

But Lu Ming and the others did not stop and continued to attack those zombies.

These zombies were hit by the color rocks and are in a period of weakness.

If the opponent reacts, you must chase them and roar constantly. If it attracts other zombies, it will be troublesome.

Hum!

The God of War spear vibrated and slammed on a zombie of the **** master ninefold.

Under normal circumstances, the zombies of the Divine Master Nine Layers were as hard as a divine weapon. Even Lu Ming would hurt the opponent at most, but could not destroy the opponent.

But now, the opponent is in a period of weakness, and the black energy on his body is not strong. On the God of War gun, that majestic power burst out, instantly tearing the opponent's body to pieces.

At the same time, the Bone Demon, Xie Nianqing, Qiuyue and others also tried their best to beat all the zombies to pieces.

After just a few breaths, the remaining zombies were all killed by Lu Ming and others.

The people of the Yaxian tribe were dumbfounded.

They knew how difficult these zombies were, but they didn't expect to be solved by Lu Ming and others.

"go!"

After Lu Ming and the others solved the zombies, they stopped staying, and left here with the Yaxian tribe. After flying a long distance, everyone stopped.

"Little girl Cang Ling, Lu Ming, everyone, thank you for helping me this time."

In the Yaxian tribe, a young woman smiles and clasps her fists, she is very beautiful, with a red mark on her eyebrows, sparkling.

This person is named Cang Ling, and he is also a top arrogant among the Asian immortals.

"You are polite, we are now an alliance with your Yaxian tribe. I see it, so naturally we have to help."

Lu Ming replied politely, and then changed his voice, saying: "Cangling girl, do you know what these zombies are? Haven't heard of such zombies in the heaven and fortune before."

Cang Ling frowned slightly, and said: "We don't know, this cave heaven must have some major change, maybe it is related to the war at the end of the last epoch. Cangqiong cousin reads books and wants to know the specifics. Maybe you can know some when you find Cangqiong cousin."

"Do you know where the sky is?"

Lu Ming asked.

"I know, not long ago, we received a voice from our cousin Cangqiong. They were gathering in an ancient city. We were about to rush to meet, but we didn't expect to be besieged by such zombies."

Cang Ling said.

"Are there no zombies in an ancient city?"

Lu Ming asked curiously.

"Yes, the news from cousin Cangqiang said that there are many zombies around that ancient city. Let us be careful when we pass. However, that ancient city seems to have a restraining effect on zombies. Those zombies dare not approach.. ."

Cang Ling explained.

"Has a countermeasure against zombies?"

Lu Ming, Xie Nianqing and the others couldn't help but think of blue rocks.

Isn't the blue rock also effective against zombies?

Could it be that the ancient city where the sky is located also has this kind of blue rock, or something similar that can restrain zombies.

"Lu Ming, do you want to go with us? According to cousin Cangqiong, there are zombies everywhere in this blessed land, which is very dangerous. Now many people have already gone to that ancient city."

Cang Ling said.

"Okay, let's go together."

Lu Ming nodded.

Let's find a place to stay first, and inquire about the news by the way.

The people of the Yaxian tribe led the way, and they set off to the ancient city where the sky is in front.

Along the way, they were cautious and avoided two waves of zombies.

Soon after, they saw a huge mountain range.

The mountains vibrated violently, and roared fiercely, like a big dragon about to wake up, from time to time a purple-golden glow appeared.

That is the divine light of Dongtian.

"That is a vitality."

Every time his eyes glowed.

That's right, that is indeed a vitality, the rich and wild aura is astonishing, and there is a tendency to collapse.

They are very excited.

There must be a lot of treasures in the depths of the qi veins, not to mention, there are definitely a lot of wild crystals, once it collapses, the singular crystals in the depths of the qi veins will definitely fly out.

However, what makes their complexion look bad is that around the Qi veins, there are a number of figures walking around, but zombies, from a distance, there are no fewer than hundreds.

Ho Ho Ho...

Rows of roars came from far away, and there were a few roars, which were very shocking. They were probably the zombies with the strongest fighting power of Heavenly King.

There are so many zombies here, and they want to wait for the collapse of the 'qi vein' here, which is obviously impossible.

Once you are not entangled, you may have to face more zombies.

They had no choice but to leave first and wait until the ancient city to make a decision.

They continued to set off, and soon, on the horizon, a huge ancient city appeared ahead.

You can feel the vastness of that ancient city even far away.

Moreover, the walls of this ancient city exude a blue light.

"Is that kind of blue rock. The walls of an ancient city are made of that kind of blue rock?"

Lu Ming and others were a little startled.

Although they are far apart, they can still see clearly with their eyesight.

The walls of the ancient city were indeed made of that kind of blue rock.

Ho Ho Ho...

There were roars and roars, and many zombies were scattered on the ground on all sides of the ancient city.

At a glance, it is difficult to count how many zombies there are. These zombies are wandering around the ancient city, staring at the ancient city, and roaring from time to time.

However, they dare not approach the ancient city.

Lu Ming and the others were even more sure that the city wall was mostly made of blue rock, so the zombies were afraid to approach it.

It can be seen that there are many figures on the wall, looking far away.

"It's cousin Cangqiong!"

Cang Ling opened his mouth in surprise and saw that she admired the sky very much.

"The number of zombies over there is relatively small. Let's break through there. Dandan, you can use your formation to cover up our blood."

Lu Ming said to Dan Dan.

"no problem!"

Dandan nodded, waved his hands, and it was a dense rune, and soon a formation was carved on Lu Ming and the others, which could greatly cover up the blood fluctuations on their bodies and prevent them from being sensed by the zombies.

Then, they detoured to another direction with fewer zombies and rushed towards the ancient city with all their strength.

Because they have an array to cover their vitality and blood, those zombies cannot easily sense them.

At least when the distance is quite far, it is not easy to sense, only when the distance is close, it can be sensed.

This greatly facilitated Lu Ming and the others. Soon, they rushed halfway, not far from the ancient city.

Chapter 4816: Zixiao Cave Sky and Dead Yin Corpse

After halfway through the distance, the zombies sensed Lu Ming and the others, roared and charged towards Lu Ming and them.

"accelerate!"

Lu Ming yelled, and everyone increased their speed to the extreme, rushing forward with all their strength, and at the same time they launched an attack, blasting the zombies rushing forward.

Ho Ho Ho...

The zombies roared and attracted more zombies, rushing towards Lu Ming and them.

However, Lu Ming and the others shot long needles and shuttles cut from blue rock, and they smashed a wave of zombies and kept approaching the ancient city.

"It's Cangling and them!"

"And Lu Ming and the others!"

On the wall, Cang Qiong and others also found Lu Ming and Cang Ling.

"Prepare to leave the city to help Cangling and the others enter the city."

The sky ordered.

"Yes!"

Suddenly, there were hundreds of masters of the Yaxian tribe, flying in the sky, rushing towards them.

When they approached the zombies, waves of blue light flew out between the waves.

These blue rays of light, all made of that kind of blue rock, pushed those zombies back again and again.

Hundreds of Asian immortals quickly approached Lu Ming and the others, and cleared away the zombies in front of Lu Ming and them. The two people merged. There was no accident. Lu Ming and the others soon came to the ancient city.

Close to the ancient city for a certain distance, those zombies dare not approach, they can only wander far away.

When they boarded the ancient city, Lu Ming and the others were absolutely sure that this city wall was indeed made of that kind of blue rock, and it was covered with some rune formations to consolidate the city wall. Even after endless years, the formation still has energy. fluctuation.

"Lu Ming, I didn't expect you to be here..."

The sky greeted with a smile.

Lu Ming glanced away, his heart sank slightly.

On the walls of the ancient city, as well as inside the ancient city, there are people flashing.

However, he hadn't seen a figure of an exterminating army or a demon.

In the ancient city, there are the Asian immortal tribe, and there are also the heavenly human tribe, that is, the heavenly army and demons have not been destroyed.

Lu Ming roughly estimated that in this ancient city, there were nearly two thousand Celestial Races, and there were also a lot of people from the Yaxian Clan, nearly two thousand.

"Brother Cangqiong, how do you see Heaven Exterminating Army or demons here?"

Lu Ming asked.

"Dongtian Fudi is very large, and the territory is very wide. When we came in, it was likely to be distributed in different areas. Heaven-destroying army or demons should be in other areas. We, the Asian immortal clan, have entered tens of thousands of people. In this area, Only more than two thousand."

The explanation of the sky smile.

Lu Ming nodded, knowing what Cang Qiong said made sense.

Heaven Exterminating Army or demons, maybe in other areas, but he is very worried, whether other areas are also such zombies, if there is no such blue rock, it is really very dangerous.

"Brother Cangqiong, do you know, what is going on with this zombie?"

Lu Ming asked the question in his heart.

"According to my speculation, this kind of zombie should be a deadly corpse!"

Sky Road.

"Absolute Yin Corpse?"

Lu Ming, Xie Nianqing, Tang Jun, Bone Demon and others all showed their doubts.

Because they have never heard of it.

"I don't know the specifics. I just saw records in my clan's ancient books. In the prehistoric continent of the last era, there was a 'corpse disaster'. There were a large number of dead corpses in a certain place, all black. Diffuse, the body is comparable to a divine weapon, invulnerable, indestructible, and powerful, and it can strengthen itself by consuming the blood of other creatures, and it can also transform other creatures into corpses."

"Later, it was the human race's powerful action that suppressed the 'corpse plague'."

Sky Road.

Lu Ming and the others moved in their hearts. What Cang Qiong said was really similar to the zombies they met.

Perhaps, it is absolutely Yin corpse.

"That Absolute Yin Corpse, how did it come about?"

Lu Ming asked again.

"I don't know, my clan's ancient books do not record much about it. I just gave a brief introduction. I only know that Jue Yin's corpse is very difficult to deal with. We are also lucky. In this purple sky cave, there is actually restraint. The blue flame stone of the corpse."

Sky Road.

"Zixiao Dongtian? Blue Flame Stone?"

Lu Ming and others showed their doubts again.

Could it be that this Dongtian blessed land, named Zixiao Dongtian, blue flame stone, does it mean that kind of blue rock?

"We found a record in this ancient city. This cave is called Zixiao Dongtian. As for the blue flame stone, it is the kind of blue rock that can restrain zombies. The name I chose casually."

Cang Qiong explained with a smile.

Following Cangqiang's explanation, Lu Ming also understood that this cave sky blessed land, named Zixiao Dongtian, Cangqiang and others, entered the Zixiao cave sky more than ten days earlier than Lu Ming and the others. When they came in, they were also met by Jue Yin corpse. s attack.

In the beginning, many people fell.

Moreover, in the sky of Zixiao Cave, there are not any ancient cities or ancient buildings. The walls are all made of blue flame stone. In fact, there are very few. They were lucky enough to discover that this ancient city can restrain the dead.

Otherwise, it would be dangerous.

After listening, Lu Ming and the others felt more serious. It was a complete coincidence that this blue flame stone could restrain the dead body.

Cang Qiong and others were lucky before they found this ancient city.

As for the others, if they didn't find the blue flame stone, wouldn't they be dangerous?

"Brother Cangqiong, what are your plans next? Don't you stick to this city forever?"

Lu Ming asked.

"Of course not, but there are too many Absolute Yin corpses outside. Once they rush out, they may attract more Absolute Yin corpses. When they are surrounded by an army of Absolute Yin corpses, even if we have the Blue Flame Stone, it would be difficult To deal with it, you must know that some of them are deadly corpses, which are very scary, and the blue flame stone has limited restraint."

Sky Road.

Lu Ming nodded, he also understood this.

Although they have long needles and shuttles cut from the blue flame stone, they have limited lethality against the deadly corpse, and hitting the deadly corpse can only reduce the opponent's strength and cannot kill them in one fell swoop.

It's better to say that the number of Jue Yin corpses is small. Once there are too many and surrounded, even if there are weapons polished by the blue flame stone, it is probably dangerous.

Moreover, once you leave this ancient city, you have to face the siege of the deadly corpse at all times, and no amount of blue flame stone will be exhausted.

"But we can't keep this city trapped forever. In this ancient city, there is a mine with this kind of blue flame stone. We are studying to melt the blue flame stone and then completely attach it to the gods in the form of formation. On, as long as we succeed, we can easily break through the corpse's defense and kill it..."

Cang Qiong explained.

The eyes of Lu Ming, Xie Nianqing and others suddenly lit up.

Not bad, this is definitely a good way.

The material of the blue flame stone itself is not hard, even if they attach to it with divine power, after hitting the corpse of the dead, it will easily collapse, and it is difficult to cause a fatal blow to the corpse of the dead.

However, if they attach the characteristics of the blue flame stone to their magic weapon, they can easily break the defense of Jueyin Corpse and throw Jueyin Corpse into ashes.

Chapter 4817: Tensions

"How is the research now?"

Lu Ming said.

"Now the master craftsmen of the Celestial Race and the Yaxian race are working together. However, the blue flame stone must be completely attached to the magic weapon without losing the magic weapon. It can be removed at any time, and it has good stability and difficulty. It's not small, it will take several months."

Sky Road.

"I can join and help study together."

Dan Dan cried.

"Dan Dan is a genius of the world's **** tortoises. He has a strong talent for rune formations and may be able to help."

Lu Ming introduced.

"The world's turtle clan, I heard the name early, and with your joining, maybe we can study it sooner."

Cang Qiong looked at Dan Dan, smiled and said, calmly lifted Dan Dan.

This made Dandan smiled and tilted his mouth, and his heart was extremely refreshing. The sky in his eyes became more and more pleasing to the eye.

Immediately, the sky led the way towards the center of the ancient city.

This ancient city is very huge, with mountains and vast lakes in the ancient city, just like a world in a city.

Soon, they came near a huge mountain peak.

The mountain peaks were excavated one after another huge mines, which were filled with blue yingying glow. Everyone walked in and found that there were a lot of blue flame stones in the mountain.

In a wide underground space, many people are studying.

"Exterminate Heavenly Lord, Heavenly Lord of Hundred Battles..."

Lu Ming's eyes were slightly cold.

Here, he met two old acquaintances.

The two strongest heavenly monarchs of the Celestial Race, the exterminating heavenly ruler and the hundred battle heavenly ruler.

"Lu Ming!"

The Exterminating Heavenly Monarch and Bai Zhan Tianjun also found Lu Ming, and a cold light burst into their eyes.

"It's a pity, these two guys didn't die in the hands of Jue Yin Corpse."

Dan Dan sighed, a look of helplessness.

"Hehe, if you die, we won't die either."

Extinction Tianjun sneered.

"Really, believe it or not, this will blow your head?"

Dan Dan clamored.

"Sixth, a trivial divine master, a dog-like thing, overwhelmingly, one finger can suppress you."

Bai Zhan Tianjun responded.

"what did you say?"

Dandan was furious.

Both sides were filled with a cold breath, and the strong breath exploded and collided, causing this underground space to buzz and tremble.

Murderous intent was in Lu Ming's eyes, he really didn't mind shooting here to solve the extinction and hundred battles, and weaken the strength of the Celestial Race.

He, Bone Demon, Qiuqiu, Xie Nianqing, plus Qiuyue, there are a total of five strongest heavenly monarchs, and there are only two opponents. It is not difficult to kill each other.

However, at this time, the figure flickered, and several figures appeared behind the Extinction Tianjun and Baizhan Tianjun, filled with an astonishing breath.

Lu Ming's pupils narrowed slightly.

The two burly figures are filled with the breath of various mixed forces, but they are extremely terrifying.

They are two puppets of primitive gods, possessing the strongest fighting power of Heavenly Monarch.

There are also two Celestial Elders wearing golden armors, breathtaking, and also the strongest Celestial Monarch.

The Celestial Race originally had nine such old and strongest Celestial Monarchs. In a battle outside of the Celestial Extinguishing Army's garrison, three were beheaded by Lu Ming, and six remained.

The opponent suddenly came with the four strongest Heavenly Monarch level powerhouses, plus the Extinction Heavenly Monarch and Hundred Battles Heavenly Monarch level, they were the six strongest Heavenly Monarch level powerhouses.

The atmosphere on both sides is tense, swords are drawn, and there is a tendency to trigger.

"Everyone, don't be restless, we agreed to work together before, besides, our common enemy now is the deadly corpses and the creatures in the forbidden land. If we kill each other, we will only weaken our strength. That's it."

The sky hurriedly came out to round the field.

"Hey, since Lord Cangqiang said so, forget it today, and it won't be too late to take their lives when the trip to the Zixiao Cave is over."

Extinction Tianjun sneered.

He didn't really want to let Lu Ming and the others go. If he was sure, even if there was a sky to complete the battle, he would take action and completely kill Lu Ming.

It's just that he is not sure.

They didn't know that there were five fighters around Lu Ming that were equivalent to the strongest Heavenly Monarch level.

He only knew that Lu Ming, Bone Demon, Qiuqiu and Xie Nianqing were the strongest Heavenly Sovereign level combat power, and he didn't know Qiuyue's combat power.

The main thing he was afraid of was Lu Ming.

In a battle outside the garrison of the Exterminating Army, Lu Ming forcefully killed the three strongest heavenly monarchs, leaving him with lingering fears.

Although it was later speculated by Ye Immortal that Lu Ming could not always maintain that kind of combat power, he even speculated that Lu Ming had used some kind of secret treasure, and he could no longer use it after using it once.

Because after that battle, Lu Ming was too low-key. If he really had that kind of combat power, he would probably counterattack the Celestial Race, but Lu Ming didn't.

But speculation is speculation, no one can figure it out.

What if Lu Ming could still break out such combat power?

Not afraid of accidents, just in case, so Exterminate Tianjun took the opportunity to give the sky a face.

"Huh, don't you know who killed who?"

Dandan responded.

Lu Ming didn't speak. To tell the truth, he and Extinction Tianjun had the same idea. If he was sure, he would also take action to exterminate Extinction Tianjun and others.

But he was not sure.

I know myself, that kind of blood stains, he can't control at all, with real combat power, he is only equivalent to the strongest heavenly monarch.

"Haha, thank you all for giving Cangmou this face."

Cang Qiong smiled, continued to round the field, and accepted the matter.

In this underground space, many master craftsmen are studying how the blue flame stone can be attached to the magic weapon stably. After watching for a while, they also joined it.

Dan Dan's current formation skills are indeed superb. After watching it for a while, he pointed out a few key points, which made those masters rejoice and made a major breakthrough.

While this surprised Cang Qiong and others, it was also overjoyed.

With the addition of Dandan, I am afraid it will not be long before the development is successful.

Lu Ming, Xie Nianqing, Wanshen and others watched here for a while, collected some blue flame stones and put them in the storage ring, then left here and returned to the city wall.

Outside the city wall, there are still a large number of Jue Yin corpses wandering.

And as time passed, the number of Jue Yin corpses outside increased.

Soon after, another group of Asian tribes arrived and rushed towards the ancient city from one direction. Some of the Asian tribes in the ancient city went out to meet them.

However, as the number of dead-yin corpses around the ancient city increased, it became more and more difficult to enter the ancient city.

Although this wave of Asian Immortals rushed into the ancient city in the end, it was also dangerous and dangerous, and several people were lost halfway.

"It seems that I want to come in again later. It is difficult. There is a message that tells other people not to continue coming here, find a place to hide, and wait for us to get out before meeting."

Cang Qiong ordered.

At the same time, the celestial race also spread the news, so that the celestial race coming here would also find a place to hide, don't come here.

Chapter 4818: Ready to break through

In a blink of an eye, a month passed.

With the addition of Dandan, the research on the stable attachment of the blue flame stone to the gods has been greatly accelerated. It was expected to take a few months, but soon there will be news, and it will be done in a few days at most.

There are two main difficulties in attaching the blue flame stone to the magic weapon.

One is stability.

For example, if you grind the blue flame stone into powder or smelt it into a liquid, apply it on the **** soldier, which is very unstable. The flame stone will also be rubbed off.

If that doesn't take a few tricks, it's useless.

The first thing to be solved is to use the rune formation method to firmly attach the blue flame stone to the magic weapon, so that it is not easy to be scratched off.

This is the first difficulty.

The second difficulty is that it is easy to get rid of after being attached to the magic weapon, rather than being permanently attached to the magic weapon.

For example, if it is attached to a source-level magic weapon, and then cannot be removed, it will have a considerable impact on the power of the source-level magic weapon itself, and the value of the source-level magic weapon will be greatly reduced, which is too cost-effective. Up.

These two difficulties were both related to the rune formation, and with the addition of Dan Dan, they were quickly overcome.

Just a few days later, you will be done. At that time, everyone's weapons can be attached to the blue flame stone, and they can kill them, defeat these deadly corpses, and find treasures.

Lu Ming, Xie Nianqing and others strolled on the city wall.

This city wall? Inscribed with these runes, it is a residual formation. Although a long time has passed, there are still a few that can be used.

However, the Celestial Race or the Yaxian Race did not urge or use these formations, because it was not necessary at all.

With the deterrence of the Blue Flame Stone itself, is it enough to make Jue Yin Corpse afraid to approach? There is no need to urge the formation.

Roar!

Outside the city wall? Suddenly there was a loud roar. With this roar, the scattered corpses outside the city wall became orderly? Slowly retreating? Gathering together? Encircling the ancient city.

Above these absolute Yin corpses stood a tall figure, filled with black energy, exuding a frightening atmosphere.

"This absolute corpse is terrifying."

Lu Ming's pupils shrank slightly.

"It's really scary. This silver-eyed corpse has a combat power that surpasses the strongest Heavenly Monarch? It already has some spiritual wisdom."

Coming from the sky? Explained.

"The Absolute Yin Corpse whose combat power exceeds the strongest Heavenly Monarch."

Lu Ming and the others were shocked.

There is such a terrible existence in the dead body?

If there is no blue flame stone? There is really only a dead end when encountering a deadly corpse of this level.

The Absolute Yin corpse, comparable to the strongest Heavenly Monarch, was already very terrifying? His body was indestructible and impenetrable. Even if Lu Ming shot with all his strength and mobilized the God of War Spear, he could barely leave a scar, and it was difficult to cause huge losses.

It is conceivable how terrifying the Jue Yin Corpse, whose combat power is stronger than the strongest Heavenly Monarch, is, I am afraid that Lu Ming's full attack will not be able to break the opponent's defense.

Roar!

Suddenly, there was a loud roar from the other direction.

Lu Ming and the others discovered that in that direction, there was also a dead-yin corpse standing high in the sky, with a shocking aura.

Similarly, the eyes of this absolutely Yin corpse were black with silver.

It was another silver-eyed corpse.

At this moment, Qiong's expression also became serious.

"Before, there was only one silver-eyed corpse around the ancient city. I didn't expect a second one to appear now. I hope no more will appear..."

Sky Road.

But the voice of the sky had not fallen yet, and a terrifying roar came from another direction.

The third silver-eyed corpse appeared.

The hearts of Lu Ming, Cang Qiong and others sank.

The three silver-eyed corpses, this combat power is too terrifying, and there are ancient cities blocking them, otherwise, they are all dangerous.

"Now, I can only rely on the Blue Flame Stone."

Cang Qiong said with a solemn expression.

But their hearts are very heavy, and they don't know if the blue flame stone is attached to the magical soldier, can it deal with the silver-eyed corpse.

After all, the opponent's combat power is too strong, and the attack power is amazing. If he is hit by a move, he will die first.

Fortunately, there was no fourth dead corpse, only three appeared, standing in three directions of the ancient city, staring at it.

In a blink of an eye, three days passed, Dan Dan and others finally succeeded in refining.

Everyone went to the blue flame stone mine in batches, and began to attach the liquid blue flame stone to their gods.

Everyone has two or more magic weapons attached, mainly for precaution, in case one is damaged, there are weapons to use.

There were only more than four thousand people in the ancient city, and all of them were attached quickly. In just two days, all the magical soldiers were attached to a layer of blue flame stone.

Lu Ming also attached the tip of the God of War gun to a layer of blue flame stone. Yes, the God of War gun looked blue, like a blue gem.

Lu Ming also attached another source-level magic weapon to a layer of blue flame stone as a backup.

Afterwards, all the people of the Celestial Race and the Yaxian Race stood on the city wall, looking into the distance.

"Everyone, what should we do next?"

Cang Qiong looked at Lu Ming, exterminating both Tianjun.

"Outside the city, there are three silver-eyed corpses, and we happen to have three people. I think it's fairest for one party to deal with one."

Extinction Tianjun spoke, a sneer appeared at the corner of his mouth, and he swept towards Lu Ming and others.

This is obviously intentional. Although there are three people here, Lu Ming has too few people. Even with the ball, there are only ten people.

It is very dangerous to deal with a silver-eyed corpse.

This is to use the power of Jue Yin Corpse to get rid of Lu Ming and the others.

"I agree. If we say good cooperation, we will naturally contribute. We can't let us share the burden for them."

"Yes, it is most suitable for the three parties to attack from three directions."

Hundred Battles Heavenly Monarch and other Celestial Races all spoke.

"This..."

Cang Qiong showed a hesitant expression, looking at Lu Ming and the others, looking very embarrassed.

What Exterminate Tianjun and others put forward was reasonable, and he was not good at helping Lu Ming and the others speak.

"Okay, we promise."

Lu Ming answered.

It is better to rely on yourself than to rely on mountains and waters. It is obviously impossible to rely on other people. Now you can only fight for it. If it is not enough, you will return to the ancient city.

"Well, if that's the case, let's start, war!"

The sky yelled, his breath exploded, and the red mark on his eyebrows filled with astonishing heat.

A Lan Yingying war sword appeared in his hand, and a fiery red battle armor appeared on his body, which enveloped him.

Lu Ming could tell at a glance that this battle sword and battle armor were not trivial. They were definitely not ordinary source-level magic weapons, and they were probably both top-level source-level magic weapons.

The Yaxian clan is unfathomable and profound. As the sky, it is not too unusual to have two top source-level magic soldiers.

Chapter 4819: The terrifying powerhouse of the Yaxian

With the talent of the sky and the nine-fold cultivation base of the gods, plus two top source-level gods with one attack and one defense, the combat power is absolutely amazing, and the most powerful Heavenly Monarch level powerhouse is probably not his opponent.

The same as the original Ye Qiuxian.

When attacking and destroying the garrison of the Celestial Army, Ye Qiuxian also attacked and defended two top source-level magical soldiers. The combat power was amazing. At that time, when Lu Ming fought with Ye Qiuxian, he was still at a disadvantage at first.

It is best to rely on the ball to beat the opponent.

The main reason was that Lu Ming lacked a source-level defensive weapon. In terms of defense, he was inferior to the opponent, and it was difficult to give full play to his strength.

Unfortunately, there are too few defensive source-level magic weapons. It is extremely difficult and extremely difficult to get one, not to mention the top-level source-level magic weapons of the defense type.

"kill!"

The sky drank loudly and took the lead, rushing out of the ancient city.

The other masters of the Yaxian clan followed the sky closely, and several powerful masters were on both sides of the sky, protecting the safety of the sky.

With the strength of the sky, you are not afraid of other deadly corpses, just afraid of the silver-eyed corpse.

More than two thousand masters of the Asian fairy clan gathered together and rushed out like a sharp sword.

The silver-eyed corpse in this direction exudes a strong black energy.

Roar!

A violent roar came from his mouth, and a terrifying sound wave came from his mouth, sweeping across all directions, making the sky and the earth tremble.

This seemed to be giving orders. After hearing the other Jue Yin corpses, they also screamed fiercely? Like a tide, they rushed towards the Yaxian tribe.

The speed of both sides is very fast? In a blink of an eye, they collided together.

"kill!"

All the **** soldiers of the Yaxian clan are attached to the blue flame stone, and various weapons, attacking the Jue Yin corpse.

Those Absolute Yin corpses? The same as before? They only knew offense, and completely ignored the defense, they were hit immediately.

puff! puff! ...

It's like cutting melons and vegetables? People of the Yaxian tribe? They broke the defense of Jue Yin corpse directly? Many Jue Yin corpses were split in half by one blow? Blue flames? Cover Jue Yin corpses? Let Jue Yin corpses cover. A painful roar.

"Useful, haha, die for me!"

"Kill me!"

The people of the Yaxian tribe saw that the magical soldiers attached to the blue flame stone were useful, and they were overjoyed, and their morale greatly increased? What followed was a stormy offensive? A large number of dead-yin corpses were blasted to pieces.

The sky? Also met a dead-yin corpse.

This Jue Yin corpse had a combat power comparable to the strongest Heavenly Monarch, and was very terrifying.

Huh!

The sky was slashed out with a sword, and it collided with the claws of the Jueyin Corpse, only to hear a clang, the Jueyin Corpse's claws were cut off.

And the sword kept slashing towards the opponent.

puff!

The sword slashed on the head of the dead Yin corpse, and actually directly chopped off half of the opponent's head, and wisps of blue flame spread down from the opponent's head, enveloping the opponent's upper body.

There was a sizzling noise on the opponent, and white smoke came out.

Cang Qiong seized the opportunity and shot continuously, and the dense sword light cut the opponent into pieces.

The people of other Yaxian tribes are similar, relying on the magic weapon attached to the blue flame stone to completely crush the dead Yin corpse.

Roar!

Finally, the silver-eyed corpse roared in anger, like a bolt of lightning, rushing towards the sky and others.

However, beside the sky, there is a mature man who has not taken any action before. At this time, his body shape is like a sharp sword, and he flies to the silver-eyed corpse. Wherever his body passes, the space continues to explode, bursting with terrifying energy.

boom!

The brawny man of the Celestial Race and the Yin-eyed Yin corpse actually collided head-on, causing a shocking roar. Then, he saw the burly body of the Yin-eyed Yin corpse retreating violently, and a deep wound appeared on his body. Around the wound, blue flames flickered constantly.

"What a terrifying combat power, this is a combat power that surpasses the strongest Heavenly Monarch."

Lu Ming and the others were shocked.

As expected, the Yaxian clan is incredible, unfathomable, and possesses such a powerful fighter.

This brawny man of the Yaxian tribe can compete head-on with the silver-eyed corpse even without using the blue flame stone. Such combat power is definitely not weaker than Gu Changfeng.

There is no suspense.

Lu Ming and the others knew that there was no suspense about the battle between the Yaxian clan and Jueyin Corpse.

The strength of the strong man of the Yaxian tribe is not weaker than that of the silver-eyed corpse, and the magical weapon attached to the blue flame stone is completely superior to the opponent.

It is only a matter of time before the opponent is defeated.

"You haven't set out yet, because you want to wait for us to defeat Jue Yin Corpse, so you can pick up cheap ones from behind, don't you want to contribute?"

At this time, Extinction Tianjun looked at Lu Ming and the others, and spoke mockingly.

"Huh, you yourself, don't you have no action?"

Dandan counterattacked.

"We are going to make a move soon, but we didn't make a move because we were afraid that you would follow to pick up the bargain."

Extinction Tianjun sneered.

"Don't worry, we won't take advantage of yours, let's go."

Lu Ming opened his mouth, finished speaking, and stepped out, heading in another direction.

"Hey, I hope you can make it out smoothly."

Extermination Tianjun said hypocritically, and then also took the Celestial Race, rushed out of the ancient city, and slew in the direction of the other silver-eyed corpse.

The silver-eyed corpse roared and ordered the other dead corpses to rush towards the people of the Celestial Race, and the two sides fought together.

"With our strength, if we want to deal with the silver-eyed corpse, we must have a plan. We will do this later..."

Lu Ming spoke to Xie Nianqing, Qiuyue, Ling Yuwei and others.

Just now, Lu Ming had already figured out how to deal with the Yinyan Yin corpse.

With their strength, if they want to deal with the silver-eyed corpse, even if there is a blue flame stone attached to the magic weapon, they must take a long-term plan and make a good plan, otherwise it will be difficult to succeed.

"Okay, then do it!"

The others nodded, and then they speeded up and rushed out of the ancient city.

Seeing Lu Ming and the others rushing, the silver-eyed corpse in this direction let out a roar, and then, at least thousands of deadly corpses rushed towards Lu Ming and the others.

Lu Ming and the others added the ball. Although there were only ten places, they had no fear at all and directly collided with the army of Jue Yin corpses.

Shoo...

Lu Ming wielded the God of War spear, bursting out spear lights, dozens of spear lights, and stabs dozens of dead-yin corpses.

These Absolute Yin corpses, which were originally astonishing in defense, had no defense at all against Lu Ming's attacks. They were easily pierced by the God of War Spear, and strands of blue flame enveloped these Absolute Yin corpses.

"Haha, kill!"

Next to Lu Ming, the Bone Demon radiated soul fluctuations. He held the Zijin Zhanyue and kept cutting it out. Every time he made a move, he would split the corpse of the dead body in half.

In an instant, more than twenty absolute Yin corpses had been split by the Bone Demon.

The others are not bad. With the magic weapon attached to the blue flame stone, dealing with these deadly corpses suddenly becomes very easy.

Chapter 4820: Silver-eyed corpse

"To deal with these deadly corpses, it's a disadvantage with a spear."

Lu Ming's heart moved.

With a spear, even if the corpse of Jueyin was pierced into a hole, the corpse of Jueyin would not die yet, but was hurt by the blue flame.

Splitting Jue Yin's corpse in half can make the opponent lose their combat effectiveness in a short time.

It will be much easier to kill it completely.

Thinking of this, Lu Ming's spear momentum changed. Instead of focusing on stabs, he changed to slashing and strokes.

Shoo...

The tip of the gun drew arcs, like a knife beam, hitting a deadly corpse.

Puff puff...

These absolutely Yin corpses were directly split in half and lost their combat effectiveness.

Then the God of War spear shook, and terrifying power erupted, crushing on these Absolute Yin corpses that had been split in half, blasting these Absolute Yin corpses into pieces.

Lu Ming and ten of them surrounded the city in a circle.

Lu Ming, Bone Demon, Qiqiu, Xie Nianqing, and Qiuyue have the strongest combat power of Heavenly Monarch, standing on the outermost periphery.

Wanshen, Ling Yuwei, Tang Jun, Paobao on the inner layer.

But Dan Dan is in the middle.

Among the ten people, only Dan Dan did not take action against Jue Yin Corpse, because he had been engraving the formation.

In a blink of an eye, there were hundreds of Jue Yin corpses that were bombarded and killed by Lu Ming and others.

There is a blue flame stone attached to the magic weapon, and it is much easier to deal with the corpse of the dead than before.

In the past, cutting off the corpse was like an ordinary person holding a kitchen knife and cutting on steel, but now it is like an ordinary person holding a kitchen knife and cutting on Chinese cabbage.

Yes, it's that easy.

Moreover, Jueyin Corpse had a natural fear of the Blue Flame Stone. Facing the Blue Flame Stone, couldn't his strength burst out? It was naturally easier to deal with it.

Roar...

Finally, a terrifying Jue Yin corpse approached Lu Ming and others.

Is it the Absolute Yin Corpse comparable to the strongest Heavenly Monarch? There are ten in total.

"kill!"

Lu Ming yelled? A palm shot? A prehistoric eruption, condensing one side of the mainland, and suppressing the two deadly corpses.

Two Absolute Yin corpses rose to the sky? Tearing the mainland? But Lu Ming's follow-up attack arrived.

Unfolding from the sky-breaking style, the human spear united into one, turning into a dazzling spear light? Stabbed one of the deadly corpses, piercing its body.

The blue flame on the blue flame stone? Immediately diffused? This absolutely Yin corpse roared? The figure retreated? Fully urged the black energy against the blue flame.

Then, Lu Ming turned around, and then killed the second Jue Yin corpse.

Swish...

This absolutely Yin corpse kept grabbing both claws, bursting out terrifying claws to confront Lu Ming.

Rumble!

The two faced off with more than a dozen tricks in a row. Finally? Lu Ming defeated these claws? The God of War spear pierced the palm of this corpse? Easily broke through the opponent's defense, pierced the opponent's palm, and the God of War Keep moving forward, piercing Jue Yin's chest.

Jueyin's corpse was severely injured and his body retreated sharply.

However, Lu Ming wouldn't let the opponent leave easily, and his spear changed from stabbing to slashing.

puff!

His vitality was directly injured by the blue flame stone, he was naturally not Lu Ming's opponent, and he was immediately split in half.

However, these absolute Yin corpses were really very powerful, and the body that had been split in half was still filled with black energy and wanted to recover.

But Lu Ming kept shooting, and the God of War spear continuously stabbed the Jue Yin corpse. The blue flame on the blue rock continued to diffuse out, completely covering the Jue Yin corpse and consuming the opponent's black energy.

Then the **** of war spear pressed, and the opponent's body was completely broken into pieces.

A dead-yin corpse comparable to the strongest heavenly monarch was completely killed.

Bone Demon, Xie Nianqing, Qiuyue, and Qiuqiu, with the cooperation of the blue flame stone, the results were also brilliant, and at this time they also killed an absolute Yin corpse comparable to the strongest heavenly monarch.

Of the ten strongest corpses, only five remained.

Roar!

Finally, the silver-eyed corpse could not hold back and finally shot, it roared and charged towards Lu Ming and others.

"Be careful, defense!"

Lu Ming yelled, retreated sharply, and returned to the circle.

The Bone Demon, Qiuqiu, Xie Nianqing, and Qiuyue also retreated, reunited with everyone, and regrouped in a circle, enclosing the other weaker ones in the middle.

The silver-eyed corpse, after rushing a certain distance, stopped dozens of miles away from Lu Ming and the others, instead of continuing to rush forward, it waved two sharp claws and grabbed it continuously.

Chi Chi Chi Chi...

The sharp claws grabbed it, and the void was torn apart, and a few terrifying claw lights grabbed Lu Ming at an alarming speed.

"Block!"

Lu Ming drank low, resumed the God of War Spear, and swept it out continuously, hitting several claw lights.

Hum!

The God of War spear vibrated violently, and Lu Ming felt a terrifying force. It rushed from the God of War spear and rushed into Lu Ming's body. Lu Ming shook wildly, and his body couldn't help but retreat, and his feet slipped out of the ground. Deep pit.

Lu Ming's arms were trembling slightly, and blood surged in his body, almost spurting out a mouthful of blood.

It was too strong. The attack power of this silver-eyed corpse was really too strong, far surpassing the strongest Heavenly Monarch. Lu Ming was very reluctant to block it.

This is just the claw mang. The opponent's body is not close, and the attack power cannot be fully utilized. Otherwise, Lu Ming may be seriously injured directly.

This is definitely comparable to Gu Changfeng's combat power.

However, the opponent's intelligence is not low, and he is obviously very jealous of the blue flame stone.

Roar!

The silver-eyed corpse let out another roar, and violently grabbed it out with two claws, and the two claws flew out through the air, continuing to grab Lu Ming.

Obviously, the silver-eyed corpse wanted to keep attacking a point, breaking it, and then completely defeating Lu Ming and others.

"I'm here to block his attack."

The bone demon's voice came out, and his body flashed before appearing in front of Lu Ming, disregarding his own defenses, allowing his claws to attack him.

With two roars of 'Dangdang', the bone demon retreated violently, but nothing happened.

The body of the Bone Demon is too hard. In terms of defense, it is stronger than the silver-eyed corpse. The attack of the silver-eyed corpse can't break the defense of the bone demon. It can only repel the bone demon.

After the bone demon was repulsed, his power exploded, and he rushed to the silver-eyed corpse again, trying to fight the silver-eyed corpse.

The silver-eyed corpse roared, and the two claws were caught in succession. The terrifying claws once again bombarded the bone demon, knocking the bone demon into flight, but the bone demon was still fine.

"Hahaha, come, come again..."

The Bone Demon laughed and continued to charge forward.

This silver-eyed corpse obviously does not attack from the soul, cannot hurt the soul of the bone demon, and poses no threat to the bone demon.

The bone demon continued to rush towards the silver-eyed corpse.

This time, the silver-eyed yin corpse became clever, and no longer attacked the bone demon, but shook his body, disappeared in place like a bolt of lightning, appeared in another direction, grabbed two claws, and grabbed Qiuyue. .

"Nine orifices in one yuan cut!"

Qiuyue attacked the strongest move, a blade of light slashed horizontally, colliding with the two blades of claws.
