

D Emperor 4821

Chapter 4821: Layered layout

However, like Lu Ming, it was difficult for Qiuyue to completely block the power of the claw mang. There was still a residual power that hit Qiuyue, causing Qiuyue to recede violently, and his face flushed.

Huh!

This silver-eyed corpse was really smart, seeing that the attack was effective on Qiuyue, he launched attacks continuously.

"Your opponent is me."

The Bone Demon yelled, and rushed towards Qiuyue again, helping Qiuyue block her second move.

But the silver-eyed corpse's figure flickered again, and appeared in front of Lu Ming again. The sharp claws pierced the air, and two claws attacked Lu Ming.

The speed of the silver-eyed corpse was too fast, and the bone demon could not stop it at all.

Fortunately, the ball is well prepared.

In a flash, the ball appeared in Lu Ming's sharp spear, turned into a halberd, and slashed out.

However, the ball was also lost and his body was knocked out.

But like the Bone Demon, the ball was just knocked out, but nothing happened.

The ball is metal life, vitality and defensive power, originally very high.

What's more, the ball also swallowed the source-level magic weapon level armor, which itself has the defense power of the source-level magic weapon armor, making his own defense more amazing. The silver-eyed corpse simply relies on its claws. Mang can't break the defensive power of the tee ball.

"Bone Demon, we are alone, blocking its attack."

The ball transmits sound to the bone demon.

"it is good!"

Bone Demon responded, and Qiuqiu was alone, staring at the Yinyan Yin corpse.

Next, the silver-eyed corpse continuously changed its position and launched several attacks, all of which were blocked by the bone demon and the ball.

Bone Demon and Qiuqiu joined forces and finally kept up with the rhythm of the silver-eyed corpse.

Roar...

The silver-eyed corpse roared in anger? The fierce light in his eyes flashed.

"This silver-eyed corpse is about to lose its mind. How long will it take to be horrified? Is it about to risk a close attack? Dandan? How is your formation?"

Lu Ming spoke to everyone, and finally asked Dandan.

"Almost? Almost? You guys hold on for a while..."

Dan Dan responded that he had already turned into a prototype, and the runes on the tortoise shell were permeated? At all times, there were a large number of runes permeating out? Permeating into the void.

Is he smoking white smoke all over? Obviously, he is doing his best.

At this time? In other directions? The Yaxian clan had already resolved the battle.

Among them? There was a peerless master who surpassed the strongest heavenly monarch, and coupled with the blue flame stone, there was basically no suspense in the battle, and it didn't take much time to kill the silver-eyed corpse.

Killed the silver-eyed corpse? Then deal with other absolute corpses? Is it easier? Thousands of absolute corpses? It was quickly resolved by the Yaxian clan, and the ground was full of fragments of absolute corpses.

They stood high in the sky, looking at the battlefield of the Celestial Race and Lu Ming.

"My son? Do we want to help them?"

Asked a member of the Yaxian tribe.

"Help them? Why do you want to help them. If you say that one person solves one side, let them solve it by themselves. Let's go and go to the 'qi vein' that is about to collapse."

The sky said lightly.

Then, the Yaxian people quickly left here, disappearing without a trace.

At this time, the battle between the Celestial Race and the Jue Yin Corpse was at its final juncture.

Originally, although the Celestial Race had the combat power of the six strongest Celestial Monarchs, it was difficult to fight against a silver-eyed corpse, but they had a secret treasure.

This secret treasure is a one-time secret treasure. It is very precious and invaluable. Even if the Heavenly Monarchs are extinct, there is only one.

This secret treasure was excavated by the Celestial Race from a relic in the ruins of the universe. Once activated, it can be transformed into thousands of powerful puppets, entwining the silver-eyed corpse.

In addition, the two primitive puppets desperately entangled the silver-eyed corpse, and after paying a small price, they exterminated the Tianjun, the hundred battles Tianjun and others seized the opportunity to attach the **** of the blue flame stone Bing hit the silver eye corpse, and finally killed it successfully.

However, in this battle, the Celestial Clan destroyed a valuable artifact, and two primitive **** puppets were also severely injured. One of them was almost torn in two.

The other one has a tattered body.

However, this primitive puppet, after constant experiments by the Celestial Race, has become very evil, incorporating dozens of top powers in the universe, and although it has been severely damaged, it will quickly recover itself.

After killing the silver-eyed corpse, dealing with other absolute corpses is easy.

The Celestial Race quickly took control of the situation.

After that, their eyes turned to Lu Ming and their battlefield.

"There are actually five masters comparable to the strongest Heavenly Monarch, this Lu Ming..."

The pupils of the extinct Tianjun, Baizhan Tianjun and others shrank violently, revealing deep fear.

Lu Ming and the others, with only ten people, actually had the fighting power of the five strongest heavenly monarchs, which was too terrifying.

"Extinct, shall we leave, or?"

Bai Zhan Tianjun asked.

"No, I want to watch here. Although Lu Ming and the others have the strength of the five strongest heavenly monarchs, they are definitely not the opponents of the silver-eyed corpse. Sooner or later they will be destroyed by the silver-eyed corpse. See how Lu Ming was killed."

Extinction Tianjun said coldly.

They looked at the battlefield of Lu Ming and others, wanting to see for themselves Lu Ming and others were killed by Jue Yin Corpse.

At this time, Lu Ming's battle with Jue Yin Corpse had also entered a critical moment.

The silver-eyed corpse finally couldn't hold it back, and gradually lost its sanity, roared angrily, rushed to Lu Ming and others, planning to engage in close combat.

"Be careful!"

Lu Ming roared.

The fighting power of the silver-eyed corpse is very terrifying, and the most terrifying is undoubtedly close combat, which is very dangerous.

Lu Ming, Bone Demon, Qiqiu, Xie Nianqing, and Qiuyue five people raised their combat power to the extreme, preparing to fight the silver-eyed corpse, delaying time.

"I come!"

The bone demon roared and rushed out first, rushing to the silver-eyed corpse, the purple gold war yue attached to the blue flame stone, and slashed out.

The silver-eyed corpse roared, without evading, the sharp claws directly grabbed the bone demon.

With a bang, the Zijin Zhanyue collided with the sharp claws of the Yinyan Yin corpse, erupting a terrifying roar.

Then, the bone demon's body retreated violently and was blown away by a powerful force.

The Yinyan Yin corpse paused for a while before rushing towards Lu Ming and the others.

"Only one nail was broken..."

Lu Ming's eyes narrowed slightly.

You know, the Zijin Zhanyue in the hands of the Bone Demon is already attached to the blue flame stone, which can restrain the corpse and easily break through the opponent's defense.

But the collision just cut off only one nail of the opponent.

Obviously, the silver-eyed corpse is too strong, its body is sturdy and immortal, and it has strong resistance to the blue flame stone.

Even if relying on the blue flame stone, it is not easy to break through the opponent's defense.

"Set it for me!"

The ball yelled, and a beam of illusion light shot out of his body, covering the silver-eyed corpse.

The silver-eyed corpse, the body really stopped for a while.

Chapter 4822: Tianluodiwang

The illusion light beam of the ball is useful for the silver-eyed corpse, which shows that this silver-eyed corpse contains soul and is affected by the illusion light.

However, it was only slightly affected. The black energy on the silver-eyed corpse skyrocketed, and it immediately smashed the illusion light beam and charged towards Lu Ming and the others.

At this time, Xie Nianqing and Qiuyue shot one after another.

Xie Nianqing sacrificed the phantom of the Immeasurable Demon Tablet, exuding a monstrous devilish energy, and suppressed the Yin-eyed Yin Corpse.

And Qiuyue cut out the strongest one.

boom! boom!

The silver-eyed corpse and claws were continuously grabbed, defeating the attacks of Xie Nianqing and Qiuyue.

However, the blue flame stone was also attached to Qiuyue's battle knife, and this blow also successfully cut off a nail of the silver-eyed corpse.

Prehistoric!

Breakthrough!

Lu Ming also shot, first with a palm, then the man and the spear were combined, and a spear pierced the silver-eyed corpse.

But the silver-eyed corpse just grabbed it with one claw and tore the continent to pieces, and then grabbed the tip of the God of War with one claw.

Zi Zi Zi...

The tip of the God of War spear pierced the palm of the silver-eyed corpse, making a sizzling sound, sparks shot everywhere, and the body of the God of War spear bent. At the same time, Lu Ming felt a terrifying force. Frantic flooding from the God of War Spear.

With a click, Lu Ming's hand bones broke open immediately, his figure violently retreated, and he retreated to the side of Ling Yuwei and the others before stopping.

"No piercing!"

Lu Ming's pupils shrank slightly.

He clearly saw the palm of the silver-eyed corpse, which was not penetrated by him. It only pierced halfway. There was a blue flame. It diffused from the wound of the palm of the silver-eyed corpse, covering the entire palm. And quickly spread upward along the arm.

Roar!

The silver-eyed corpse let out a terrifying roar, and the earth shook endlessly? The black qi on his body soared? The thick black qi rushed to his arm, abruptly suppressing the blue flame.

Then, the Yinyan Yin corpse? killed Lu Ming and the others.

Bone Demon? Qiuqiu? Lu Ming? Xie Nianqing and Qiuyue? Can only join forces to resist again.

This time? Lu Ming waved his hand and shot out hundreds of needles and shuttles cut from blue flame stone, rushing towards the silver-eyed corpse.

However, it is not attached to the magic weapon, without the power of the magic weapon? Without the blessing of their own strength? The blue flame stone is too fragile? The silver-eyed corpse claws are swung in a row? The needle and the shuttle were all crushed.

However, Lu Ming and others had expected that with a wave of their hands, a large group of blue flame stone powder flew out? Covering a large area.

This somewhat affected the silver-eyed corpse. The blue flame stone powder covered him and made a sneer sound, which had some influence on the speed and power of the silver-eyed corpse.

Then Lu Ming's five people went all out and barely blocked the silver-eyed corpse's attack, but they also retreated steadily.

Bone Demon and Qiuqiu are okay, Lu Ming, Xie Nianqing and Qiuyue are all injured, with blood hanging on the corners of their mouths.

This is still on the premise of the blue flame stone. Although the silver-eyed corpse has a strong resistance to the blue flame stone, the blue flame stone can affect him to some extent, especially when attached to the gods. The power is amazing. The silver eye If the corpse was hit, it would also be wounded. Otherwise, it would be difficult to compete with such a strong person with Lu Ming's five people alone.

For example, the five of Lu Ming and Gu Changfeng, or the battle with Ye Immortal, were quickly defeated, and they would definitely not last for so long.

The five people of Lu Ming tried their best to cooperate with the blue flame stone and entangled with the silver-eyed corpse for more than ten minutes.

"It's done, I got it..."

Finally, Dan Dan's figure rang in everyone's ears.

Everyone lifted their spirits.

They are waiting for this moment.

"Follow the plan and take action!"

Lu Ming spoke to everyone.

"Stop me!"

The ball yelled, the first shot, shot a beam of illusion light, and enveloped the silver-eyed corpse.

The illusion light beam of the ball has an impact on the silver-eyed corpse, but the impact is very small. Under normal circumstances, the silver-eyed corpse can break free at once.

But now, all they need is that all of a sudden, that's enough.

"Time Marsh!"

Bubble immediately followed, and the eyebrows glowed, two ancient characters of origin flew out, the power of time and space exploded, and the silver-eyed corpse was enveloped in the power of time and space.

Roar!

The silver-eyed corpse roared, and the black energy broke out. As soon as he struggled, he broke free from the illusion light beam, and a powerful force rushed out, trying to defeat the time and space swamp of bubbles.

Bubble's time and space power is very strong, but it is a pity that her cultivation base is weaker, only Divine Lord Seventh Layer, too far away from the Silver Eye Yin Corpse, can only affect a little at most, and can cause big interference.

But a little impact is enough.

"Devil Realm!"

Xie Nianqing shot almost at the same time as Paobo, hitting the realm of the demon.

With Xie Nianqing's cultivation base, coupled with the blessing of the immeasurable demon stele, the power of the heavenly demon domain has been increased to its peak, and coupled with the time and space power of the bubble, the speed of the silver-eyed corpse has dropped a lot, and the figure is like a swamp. in.

"Tianluodiwang, give me a seal!"

Dan Dan shouted, and pressed his hands on the air, the void is full of runes, countless runes are intertwined, forming a formation.

This formation condenses a net of heaven and earth, above and below, there are two nets at the same time, covering the silver-eyed corpse.

The silver-eyed corpse was successively affected by the illusion light beam, the time-space swamp, and the celestial demon domain. It was too late to escape the range of the formation, and was directly enveloped by two large nets.

Roar!

The silver-eyed corpse roared and struggled frantically.

However, this formation was obtained by Dan Dan from the ruins of Wanhua, and it took a lot of time to arrange it. It was extremely powerful. It was not easy for the silver-eyed corpse to break free in a short time.

Lu Ming and others would not give him time to break free.

Lu Ming, Qiuyue, Bone Demon, Qiuqiu, Wanshen, Ling Yuwei, Tang Jun, and others all shot together.

Shoo...

Ling Yuwei bent her bow and took arrows, shooting nine arrows in a row.

This arrow is not composed of energy, but an entity, a solid magic weapon. The arrow of each arrow is attached to the blue flame stone.

Nine arrows broke through the ruins. The first one was near the silver-eyed corpse. Although six of them were shot by the silver-eyed corpse, there were still three arrows that hit the silver-eyed corpse, on the silver-eyed corpse. Three small pits were shot out, and the blue flame on them immediately spread around the small pits.

Later, Lu Ming, Qiuyue and others' attacks also arrived.

Qiuyue slashed with all his strength and slashed towards the head of the Yinyan Yin corpse, blocked by the Yinyan Yin corpse's waving arm, and the war knife slashed on the silver eye corpse's arm.

The other arm of the silver-eyed corpse blocked the ball's attack.

However, although he blocked Qiuyue and Qiuqiu's attack with his arm, his arm was also chopped, and the blue flame was filled, quickly consuming the black energy of the silver-eyed corpse.

And Lu Ming and Bone Demon's attack also arrived.

Chapter 4823: Coming back to Qimai

Lu Ming directly threw the God of War spear out, and the God of War spear pierced the silver-eyed corpse like a flash of lightning.

The silver-eyed corpse at this time is hard to avoid.

With a puff, the silver-eyed corpse's chest was stabbed by the God of War Spear, but it didn't penetrate it, only half way in.

Half is enough, the blue flame spread out, almost covering the upper body of the silver-eyed corpse in the blue flame.

Lu Ming grabbed a war sword in his hand and slashed towards the Yin-eye Yin Corpse.)

This war sword is also a source-level magic weapon, with blue flame stone attached to it.

Lu Ming's battle sword almost smashed the silver-eyed corpse at the same time as the Zijin waryue of the bone demon.

The silver-eyed corpse has been weakened many times, and its defense power has declined. Coupled with Lu Ming and the bone demon's full force, they finally completely broke the silver-eyed corpse's defense and cut the silver-eyed corpse into three pieces. .

The raging blue flame completely enveloped the silver-eyed corpse.

Then, Ten Thousand Gods and Tang Jun's attack also arrived, bombarding the remains of the silver-eyed corpse, breaking it into dozens of pieces.

Lu Ming and others did not stop, but continued to attack.

Boom boom boom!

After another wave of attacks, the silver-eyed corpse was completely powdered and could no longer be resurrected.

The silver-eyed corpse was finally wiped out after a series of careful calculations by Lu Ming and others.

Hum!

Lu Ming grabbed the God of War Spear and stabbed it to the right. He stabbed an Absolute Yin corpse comparable to the strongest Heavenly Monarch, pierced it, and then the left and right war swords smashed the Absolute Yin corpse. In two halves.

Although the deadly corpses were killed, the war was not over yet, the remaining deadly corpses had no reason. Once the silver-eyed corpses died? They rushed towards Lu Ming again.

However, without the silver-eyed corpses, these deadly corpses? There was not much threat to Lu Ming and the others.

This scene? The Celestial Race in the distance saw it.

"Damn it? The silver-eyed corpse was actually killed by them."

Hundred Battles Tianjun roared, very upset.

"What a clever calculation, is this Lu Ming? Really deep-minded? A series of arrangements that perfectly combined their power to kill the Silver-eyed corpse? But this? It also shows one thing."

Exterminate Heavenly Monarch Dao? On the contrary, he was not as angry as Baizhan Tianjun.

"what's up?"

Bai Zhan Tianjun asked.

"When they were attacked by the silver-eyed corpse just now? It was dangerous? Lu Ming's two women? Both were injured, but Lu Ming has not used any stronger power. It seems that the ancestor's guess is good. ..."

Extinction Tianjun said coldly? There was a sneer at the corner of his mouth? The fear of Lu Ming in his heart? Most of it disappeared.

"You mean? Lu Ming's power to kill the three strongest heavenly monarchs back then can no longer be used."

Bai Zhan Tianjun's eyes lit up and he remembered.

"Nine out of ten? I can't use it anymore. Otherwise, it's impossible to sit back and watch my woman get hurt. But just in case, I still observe and observe. If you can't use that power, then Lu Ming, it's better to deal with it. Up..."

Extinct Heavenly Jundao.

He was mainly afraid that the kind of power Lu Ming used at the Extinguishing Army's garrison was too strong. Killing the strongest Heavenly Monarch was like cutting melons and vegetables.

If there is no such power, Lu Ming is only comparable to the strongest heavenly monarch. He himself is the strongest heavenly monarch. What is there to fear?

However, he still did not dare to take action against Lu Ming.

First, there are five strongest heavenly monarchs on Lu Ming's side. Although there are six of them, the two primitive **** puppets have been severely injured.

There is another, not afraid of accidents, but just in case, he is afraid that Lu Ming can still use that power in case.

"Go, let's leave first."

Exterminate the Heavenly Jundao, and left here with the people of the Celestial Race.

Outside the ancient city, only Lu Ming and others were still fighting with Jueyin Corpse.

However, the remaining Jue Yin corpses were not enough to threaten Lu Ming and the others. With the blessing of the Blue Flame Stone, a large number of Jue Yin corpses were killed. Soon, the strongest batch of Jue Yin corpses were killed by Lu Ming and others. Guang, then rushed out of the encirclement, throwing away the weaker Jue Yin corpses.

"Lu Ming, where do you go next?"

Bone Demon asked.

"When we went to the ancient city with people from the Yaxian tribe, we saw a 'Qi Vessel' about to collapse. Let's go there."

Lu Ming said.

It is not easy to find the Qi pulse. The Qi pulse collapses, and the treasures under the Qi pulse will fly out. This is an opportunity and cannot be missed.

The others naturally had no objections, and the group flew in the direction of that vitality.

On the road, although occasionally a small number of Jue Yin corpses were encountered, they were not a threat to them and were easily killed by them.

Soon after, Lu Ming and the others came to the vicinity of the Qi vein again.

Last time, when they passed this energy channel, there were many Absolute Yin corpses around the energy passage, but when they came this time, none of the Absolute Yin corpses had been seen.

Because they were all killed.

Was killed by the Yaxian tribe and the Celestial tribe.

Lu Ming narrowed his eyes slightly. Not far in front, there were a large number of figures. They were the sub-xian clan led by the sky, and the celestial-human clan led by the extinct heavenly monarch and the hundred wars.

Obviously, after they left the ancient city, they also came here.

Rumble!

There was a dull roar, coming from underground.

The veins, from the outside, looked like mountains, which were so magnificent. At this time, huge cracks appeared on the magnificent mountains, spreading in all directions.

In the cracks, from time to time a purple-golden glow rushed out, extremely dazzling.

The Yaxian tribe, the Celestial tribe, stood on the periphery of the mountain range, not close.

Lu Ming and his party flew over directly.

Naturally, the Yaxian tribe and the Celestial tribe discovered Lu Ming and the others for the first time.

Cang Qiong's eyes flashed slightly, as if he was a little surprised after seeing Lu Ming and his party.

At this time, Lu Ming and their injuries had almost recovered.

Cang Qiong did not expect that Lu Ming and his party had solved Jue Yin Corpse unscathed and arrived here.

"Brother Lu, you are fine!"

Cang Qiong walked over with a smile to greet Lu Ming.

"Huh, hypocritical."

Dan Dan let out a cold snort, but the sound did not come out, it just rang in the ears of Lu Ming, Xie Nianqing and others, but the sky did not hear it.

Lu Ming naturally knew why Dan Dan was upset.

Among the Yaxian clan, there is a powerful peerless master who has solved the Yinyan Yin corpse a long time ago, but left alone, without the slightest intention of helping.

What about the agreed alliance?

Moreover, Lu Ming and the others had saved the Yaxian tribe before.

Obviously, the surface of the sky looks mild, but in fact it is very sinister.

However, Lu Ming, Xie Nianqing, Qiuyue, Wanshen and others are all old worlds, and they are still in place to control their expressions. Although they feel unhappy in their hearts, they are calm on the surface.

After all, now is not the time to offend the Yaxian clan.

Only the forbidden land creatures and the Celestial Race, the Celestial Destruction Army are very difficult to deal with, and there is no need to enmity with the Yaxian Race.

Chapter 4824: Fairy Crystal and Fairy Stone

Lu Ming smiled slightly and said, "Thank you, Brother Cang Qiong, for worrying. It is a fluke that we can solve the deadly corpse, thanks to the blue flame stone..."

Lu Ming took a simple sentence, then changed the subject and asked: "Brother Cangqiong, why don't you enter the Qi Vessel to find treasures?"

"We also want to go in, but it is very dangerous to go in now. The energy veins are filled with a strong cave sky divine light. The air veins split and the cave sky divine light rushes out. It is very dangerous. Everyone will get hurt, don't talk about us."

"Only when the divine light of the cave sky overflows, we can enter."

Cang Qiong explained.

Lu Ming and their hearts moved, the heavenly divine light that Cang Qiong said was the purple-golden glow.

Indeed, the Divine Light of the Cave Sky is very dangerous. Some of the Divine Lights of the Cave Sky rushed out of the Cave Sky. When they entered the Zixiao Cave Sky before, they all relied on the flying boat.

And the divine light of the cave here is more concentrated, it is directly rushed out of the vitality, and it is more powerful, even if there is a flying boat, it may not be able to resist it.

Only when the divine light of the cave sky overflows, and the energy is in it, it is safe.

Now, you can only wait outside the mountains.

Lu Ming and others finally knew why the people of the Yaxian and the Celestial race were all around outside.

On the other side, Exterminating Heavenly Monarch and Bai Zhan Tianjun cast cold gazes here, and then stared back fiercely.

However, Lu Ming didn't bother to pay attention to the people of the Celestial Race, but instead looked at the mountain range.

This mountain range is the qi veins, very huge, and the scope is very wide. Above the mountain range, there are several huge cracks, and from time to time, there are purple golden cave gods overflowing.

In the cracks, there was a rumbling vibration.

After a while...

boom!

A more violent vibration erupted than before? A thicker cave sky divine light burst out, along with the cave sky divine light burst out, there were raindrops of light.

"Hong Huangjing..."

Lu Ming's eyes lit up suddenly.

That which rushed out with the divine light of the cave sky? It was clearly a piece of prehistoric crystal.

Densely dense? At least more than one hundred thousand yuan.

The Dongtian Divine Light rushed towards the sky, while those prehistoric crystals flew out in all directions.

There is nothing to hesitate? Yaxian tribe? Celestial tribe people rushed towards those prehistoric crystals.

Lu Ming, Xie Nianqing and the others also moved, each performing their own methods, and rushed towards the prehistoric crystals.

Lu Ming used the great aurora technique? The body was like an aurora? He rushed to the forefront? The power of the taboo turned into big hands, grabbing at the prehistoric crystals.

Soon, there were thousands of prehistoric crystals in hand.

Others also used their own methods.

In just a few breaths, more than 100,000 prehistoric crystals were divided up.

Mainly because there are too many people? The sum of the Yaxian tribe and the Celestial tribe? More than four thousand people? So many people shot together? Naturally, the division was very fast.

"I got five thousand wild crystals at once, not bad!"

Lu Ming nodded in satisfaction.

Just now, Lu Ming had obtained about five thousand yuan of the prehistoric crystal.

Occupies one twentieth of the prehistoric crystal that flew out just now.

"Hey, there is a piece of it that is not a prehistoric crystal..."

Suddenly, Lu Ming's heart moved, and he discovered that among the more than 5,000 prehistoric crystals he had just obtained, one of them was very different from the others.

With a move in his heart, this 'Honghuang Crystal' appeared in Lu Ming's hands.

The shape and appearance of this 'preliminary crystal' is similar to other prehistoric crystals, but its aura is quite different.

In the prehistoric crystal, there is a rich and pure prehistoric energy, and the energy is very strong, but in this piece, there is no predominant gas at all, instead it contains a trace of original origin...

Origin imprint, yes, it is origin imprint.

"Is this a treasure with the imprint of origin?"

The gazes of Xie Nianqing, Tang Jun, Dan Dan and others curiously looked at the 'Hong Huang Jing' in Lu Ming's hand, Dan Dan said curiously.

"This should be Xianjing."

Suddenly, a clear voice sounded from the sky.

"Xianjing? Brother Cangqiong, what is Xianjing?"

Lu Ming asked curiously, because of this name, it was the first time he heard it.

"Xianjing is the name given to this kind of spar in the last epoch. For example, the spar with the imprint of origin in the hands of Brother Lu was called fairy crystal during the period of the Primordial Continent. , Has a great effect, can promote the original source level and the cultivation of the existence above the source level, and it is of great value."

"But there are also levels of immortal crystals. Brother Lu's piece should be the lowest-level immortal crystal, but it is also very precious. Although it is not as good as the source-level magical medicine, it is not too far behind, far more than the main level. Magic medicine or prehistoric crystal is precious."

Cang Qiong explained.

Only then did Lu Ming and the others understand that this kind of fairy crystal was originally used for cultivation and promotion of the original stage or above.

"In fact, in the Primordial Continent Period, the Primordial Crystal was not called the Primordial Crystal. The Primordial Crystal was just the name for the creatures of the New Era. During the Primordial Continent Period, the Primordial Crystal was called the 'Sage Stone', which was used by the existence below the Origin Realm to cultivate. Together, they are used as hard currency, but they are one level lower than Xianjing."

Cang Qiong continued. Obviously, Cang Qiong knew very well about the events of the Primordial Continent.

"It turns out that Hong Huangjing was called Xianshi in the last era."

Lu Ming and others whispered.

"Not to mention, Brother Lu's luck is very good, he got a piece of fairy crystal when he came, we didn't get a piece of fairy crystal before."

The sky smiled.

"It's just a fluke."

Lu Ming said something.

After that, everyone did not say much, and continued to wait.

But seeing that Lu Ming got the fairy crystal, everyone's heart became even hotter.

The value of Xian Jing is undoubtedly far above Hong Huang Jing.

Although many people can't use it temporarily, after reaching the Origin Realm, Immortal Crystal is the top treasure and can quickly improve the cultivation level.

Even if you don't use it, you can get a lot of treasures if you sell it to the original existence.

How many treasures are in the depths of this vitality?

In the following time, this vitality vibrated more and more fiercely, and from time to time there was a divine light rushing out of the cave, accompanied by Hong Huangjing and others.

In less than a month, there were millions of primordial crystals rushing out of the energy veins, and there were five immortal crystals. It was really hard to say how many treasures there were in the depths of the energy veins.

And as he went to the back, the divine light of the cave sky overflowing in his energy veins faded away.

Everyone knew that the divine light of the cave sky was finally about to dissipate, and as soon as the divine light of the cave sky dissipated, they could rush in and swept away the treasures in the Qi vein.

"Everyone, after entering the Qi Channel, how should we distribute the treasures obtained? Although our three parties are currently in a cooperative relationship, one of the parties is too weak. In the Qi Channel, no one knows whether there is danger. We, don't want to Take the danger for the weaker side."

At this time, Extinction Tianjun's cold voice sounded, and his eyes swept towards the Yaxian tribe, Lu Ming and others.

Chapter 4825: Dandan's discovery

Lu Ming and the others sneered. Of course they knew who the "weak party" referred to by Exterminating Tianjun was clearly referring to Lu Ming and the others.

There are more than two thousand masters in the Yaxian race and the Celestial race, and they are powerful.

As for Lu Ming and the others, there were only ten players in total, and when compared, their strength seemed too weak.

Obviously, the subtext of Exterminating Heavenly Monarch is that Lu Ming and the others are not worthy of cooperating with the Yaxian and Celestial Clan.

The sky pondered for a moment, and said: "Why don't we, the three parties, act separately? So that we don't enter the Qi Vessel, because the treasure hurts the harmony."

Entering the Qi Vessel, once you find a treasure, everyone will definitely want it, but it is inevitable that there will be a fight.

By acting separately, this problem can be avoided.

Although Cang Qiong said it was a lot more polite, it actually meant the same as the people of the Celestial Race, and didn't want to act with Lu Ming and the others.

With Lu Ming's talents, how could it not be heard?

"These guys..."

Dan Dan was very upset.

"Okay, that's perfect."

Lu Ming spoke, who is honest, he doesn't want to cooperate with these people.

"Then we choose to enter the direction of the Qi Channel, and that direction will belong to us."

Extinction Tianjun opened his mouth and pointed to the direction to the northeast.

"We were the first to come here, so let's get into the Qi Vessel from here."

Cang Qiong also said.

"Why did you choose first? Why did you choose the two best places?"

Dan Dan finally couldn't help but yelled.

The gods and Ling Yuwei also showed angrily.

The position of entering the Qi Vessel is also very particular. The two positions chosen by the Celestial Race and the Yaxian Race have the largest cracks. The divine light of the cave that overflowed before is the most and richest, and the treasures inside are likely to be the most.

Other directions? Relatively speaking, it is much worse.

"We are both first come first? First come first served? Naturally we choose first? And our two sides, there are so many people, even if there are treasures? Everyone gets very few? And you only have ten people, choose whatever you want Any direction is fine."

Extinction Tianjun said coldly.

"Yes, besides? Except for these two positions? There are so many other positions? You can choose? You don't want to thank us? You want to blame us? It's too greedy."

Bai Zhan Tianjun continued.

"Wori, it's all nonsense, what does this have to do with the number of people?"

This time it was the gods who were scolding, he was furious, and he looked like he was about to do something.

But one hand grabbed the shoulders of the gods? Said: "Forget it? Too lazy to pay attention to these shameless people? Let's choose another position."

It was Dandan who stopped the gods?

"Dan Dan...did he find something?"

Lu Ming knows Dandan too well, he knows this guy when he looks at Dandan's eyes? Most of the things he found, the previous rants were pretended.

Otherwise, Yi Dandan's character definitely broke out with the gods, how could it stop the gods?

"Why? They clearly chose the best position."

Pantheon still refuses.

"God, forget it, we don't bother to fight with them, let's go, let's go to other positions."

Lu Ming stopped the gods, and then flew towards other positions.

Lu Ming spoke, and the gods had no choice but to snorted angrily and left with Lu Ming.

Xie Nianqing, Ling Yuwei and others also followed.

"Hehe, it seems that Lu Ming is really limited..."

Extinction Tianjun is more relieved.

He chose a good position just now for two purposes.

A purpose, a good location, naturally has a good treasure.

The second purpose is also to test Lu Ming.

If Lu Ming was really strong, he wouldn't have swallowed his breath.

Exterminating Tianjun was less scrupulous about Lu Ming, and brought the people of the Celestial Race to the position they chose.

Lu Ming and the others also came to other directions.

"Lu Ming, and Dandan, why do you want to give in? It really takes a fight. Although they are crowded, we may not be afraid."

Wan Shen complained a little unhappy.

"This question is about to ask Dandan, Dandan, have you found anything?"

Lu Ming asked Dan Dan.

"Haha, it's worthy of being Lu Ming, I have some demeanor, yes, I did find that I was in other positions and I sensed the fluctuation of the formation."

Dandan smiled proudly.

"The wave of formation? What do you mean?"

The gods still did not understand.

"The formation fluctuates, not on the mountains, but under the energy veins."

Dan Dan added.

At this moment, Lu Ming, Xie Nianqing, Tang Jun, and Bone Demon all reacted and their eyes suddenly lit up.

Below the energy pulse, there is a wave of formation, which can explain many problems.

You know, there are no buildings on this vitality, and no formations have been found, indicating that no one lived here in the last era.

Under an uninhabited air vein, there are wave formations.

This is definitely not simple.

Could it be that a certain strong man from the last era opened up a cave under the Qi Vessel?

According to some information obtained from the ruins of the universe, those great abilities of the last era like to open caves in some remote places.

If you can find a cave mansion that was able to open up in the last era, you might be able to get a huge gain.

"What do you mean?"

Pantheon is still a little confused.

"Big guy, your head is not good. Learn more with me in the future. You see how smart Lu Ming is, it's because I've been around for a long time..."

Then, Dan Dan briefly recounted his speculation.

"So that's the case, no wonder I said how could you easily give in, haha, then let's go quickly."

The gods exclaimed.

"go!"

Dandan led the way and soon came to the destination.

This is the other side of the Qi Vessel, and it's a bit far away from the location chosen by the Yaxian and the Celestial Race.

The cracks here are very small, and the divine light of the cave that overflowed before is not strong, and the people of the Yaxian and the Celestials will definitely not choose here.

"Dandan, is this here?"

Lu Ming asked.

After arriving here, Lu Ming and the others still did not feel any fluctuations in the formation.

However, they doubted Dan Dan's words, Dan Dan's current reaction to the formation is too keen, and there should be nothing wrong with it.

"Yes, it's here, let's wait, wait for the divine light below to overflow, we will go in..."

Dan Dan said.

In a blink of an eye, another seven days passed.

At this time, the divine light of the hole in the energy veins had almost dissipated, even if there was still left, it was very thin, and Lu Ming and others were enough to deal with it.

People from the other two directions, the Yaxian and the Celestial Race, have entered the Qi Vessel to find treasures.

"go!"

Lu Ming took the lead and rushed in through the crack under his feet, holding the God of War gun in his hand long ago, with taboo power all over his body, paying attention to guard.

Chapter 4826: Combat formation

In the vitality, no one knows the danger?

After all, this hole of heaven and blessing is already different.

In other places, there are a lot of Absolute Yin corpses, and there are other weird things in that vitality, it is not impossible, it is better to be careful.

Their formation was the same as before, with Lu Ming, Bone Demon, Qiqiu, Xie Nianqing and Qiuyue at the outermost periphery, enclosing Ling Yuwei, Tang Jun, Wanshen, Dandan and Baobao in the middle.

"Hey, there is no such cold breath in this vitality."

As soon as they entered the qi pulse, Lu Ming and the others felt that there was no cold air that spread all over the space in the qi pulse.

"Without the cold breath, it may be able to nurture precious magical medicine."

Dandan's eyes shined.

The reason why the magic medicine can not be found outside is because the cold breath is everywhere, destroying the illusion that breeds the magic medicine.

In this energy vein, there should be the reason of the divine light of the cave, that kind of cold and cold breath cannot invade, and the environment is unique, and it may be able to breed a rare magical medicine.

The crack was very deep. They flew down for hundreds of miles, far from reaching the end.

"The position of formation fluctuation is coming soon."

Dan Dan called.

After they dropped another ten miles, they stopped.

"The formation came from behind this rock."

Dan Dan pointed to the rocky road ahead.

"Dig through the rocks."

Lu Ming, the first shot, the God of War spear turned quickly, like a drill, piercing the wall.

Zi Zi Zi...

Bump...

The wall suddenly made a harsh sound, sparks shot in all directions, and then pieces of rocks broke apart.

The rock here? The hardness is a bit exaggerated. With Lu Ming's cultivation base and the God of War Spear, the speed of digging? It is actually not very fast.

But this is normal? This is the inside of the Qi Vessel? Nourished by the divine light of the cave sky all the year round, ordinary rocks have become extremely hard? They are like gods.

Bone Demon? Qiuqiu also shot together to dig the rocks.

Others did not take action, guarding for four weeks to deal with unexpected situations.

Although the rock was hard? But under the joint hands of the three of Lu Ming, Bone Demon, and Qiuqiu, a big hole was quickly dug out. Suddenly, there was a touch of Lu Ming's God of War Spear.

"Stop, here it is, formation fluctuation? This is it."

Dan Dan called.

Lu Ming and the three stopped? Dandan stepped forward? Observe carefully.

"What a powerful formation? What a mysterious formation, wonderful, really wonderful..."

Dandan sighed again and again? The golden light in his eyes, as if seeing the supreme treasure.

"I said Dandan, can you break this formation?"

Pantheon asked.

"If it was in the past, I really can't, but through Wanhua Ruins, I am not what I used to be, and this formation, after all, has been flawed for too many years, it is not difficult to break it, at most three Day, you can succeed."

Dan Dan said.

"For three days, it will take so long, then the treasures under this vitality will be searched out by others?"

Pantheon.

"This is likely to be a cave mansion left by a great power in the last era. If that great power left some treasures, it is not comparable to those of the prehistoric crystals."

Dan Dan said.

In the end, Lu Ming and others were persuaded by Dan Dan to protect the law here, and Dan Dan began to break the formation with all his strength.

Once it turned into the body, the shell of the tortoise was gleaming, and dense runes appeared on it, and began to study the formation here.

Once this kind of research is breaking the formation, you can learn it by yourself. The understanding of the formation will become deeper and deeper, and it is also an improvement.

Three days passed in a blink of an eye.

"broken!"

Dandan gave a soft drink, and pushed his palm forward. In front of his palm, there were densely packed runes. These runes were continuously intertwined to form a circular pattern.

The circular pattern was printed on the front of the formation, and the formation immediately fluctuated violently. After a while, a gap appeared in the formation.

"Success. This gap is enough to last for several hours. I have already sensed that there is no danger in the formation. Let's go in."

Once he said, he entered the gap of the formation first.

Immediately afterwards, Lu Ming, Xie Nianqing and others also entered the gap.

The next moment, they appeared in a cave.

This cave is not big, with a radius of about ten meters.

The furnishings in the cave are also very simple, with only one stone table and two stone benches.

On the ground on the other side, there is a futon.

There is nothing else.

The eyes of everyone first fell on the stone table.

Because there are some things on the stone table.

The first is the twelve iron plates.

Each iron plate is small, the size of a baby's palm, and is very simple, full of traces of time, on which are engraved with mysterious runes.

In addition, there is a book on the side of the OEM.

The book did not know what material it was made of. It was neither gold nor jade. Lu Ming grabbed the book with taboo force and found that it was intact.

The material of this book is definitely not trivial, otherwise endless years will not pass and it will remain intact.

There are about dozens of pages in the book. Unfortunately, Lu Ming didn't know any of the words on it.

"Do you know the text above?"

Lu Ming asked, and gave it to Xie Nianqing and others to watch.

Unfortunately, everyone looked around and didn't recognize a word of the same.

"The characters of the last era are completely different from the characters of all ethnic groups today, but after so many years of research, a lot has been deciphered. I also know some characters of the last era, but this type of writing is Never seen before."

Tang Jundao frowned slightly.

She speculated that this kind of writing was probably a relatively niche writing in the last era.

"what a pity!"

Lu Ming and others sighed together.

Generally speaking, such ancient books are very precious.

It is likely to record powerful formations, or powerful Qi training techniques from the last epoch, or even advanced alchemy, refining techniques and so on.

The wealth that can be inherited and revitalized a power is more precious than many treasures of heaven, material and earth.

But if you don't know it, it's no use.

I can only keep it now and wait for a chance to decipher it later.

Then, their eyes turned to the twelve iron plates.

"What is this OEM for?"

Wanshen picked up a OEM card and looked at it carefully. Apart from the exaggeration of the iron card, there was nothing else to discover.

Lu Ming, Xie Nianqing, Bone Demon, Tang Jun and others all picked up a piece of iron and watched them, but they also didn't notice the slightest.

The appearance of the iron plate is almost the same, only the runes above are somewhat different.

"Is this a combined attack method used above the God Realm?"

After watching for a while, he suddenly spoke, revealing a surprise.

"The combined attack formation above the Divine Master Realm is the rune above it?"

Lu Ming's heart jumped, revealing surprise.

Chapter 4827: Carrier of Combat Team

If it were a combined attack above the Divine Master Realm, it would be too precious, it was a priceless treasure, and its value could not be measured.

In today's prehistoric universe, whether it is the Celestial Race, the Devil, or the Celestial Slayer, there is no method of combined attack above the Divine Master Realm.

No matter how many masters in the Divine Master Realm, it is difficult to bring the power of many Divine Masters together to achieve a qualitative change. This has resulted in that the strongest Heavenly Monarch level character can reverse a battle and can freely enter and exit the Divine Master Realm. Among the great army, it is like no one.

Without a joint attack formation, no matter how large the number of Divine Master Realms is, it is just a basin of scattered sand.

Once you have a combined attack formation above the Divine Realm, you can use the advantage of the number of people to defeat the strong with the weak.

Therefore, once the combined attack formation above the Divine Master Realm is obtained, the Heaven Extinguishing Army will no longer be afraid of the Celestial Race, and even has the power to protect itself in front of the creatures in the Forbidden Land.

Lu Ming, Tang Jun and others, their eyes became a little hot, looking at Dandan.

"Don't be happy too early, I am in the ruins of Wanhua, and I have learned a lot about the combination of battle formations above the Divine Master Realm, which may be different from what you imagined."

Dan Dan said.

"Oh, why is it different?"

Lu Ming asked.

"The combined attack method above the Divine Lord Realm is completely different from the combined attack method of the Divine Emperor Realm and Divine Emperor Realm."

"In the realm below the Divine Lord, the general combined attack formation can be used by a large number of masters. Often the more masters deployed, the stronger the power, but the combined attack above the Divine Lord realm cannot do this."

"It's mainly the existence above the Divine Master Realm, and the power is too strong. Once it explodes, it can destroy the heavens and the earth, and there are very few formations that can support it. So the combination attack above the Divine Master Realm? Compared to the formation below the Divine Master? Much more complicated? There must be a carrier..."

Dan Dan explained in detail.

"Carrier?"

Lu Ming and others all showed their doubts.

"Yes, the combined attack above the God Realm? Must have a carrier? This carrier can be in any form, such as a war sword? For example, a war knife? For example, armor? For example, this kind of iron medal."

Dandan carefully observes the iron plate in his hand; "Firstly, the master craftsman and the master of formation must cooperate? Inscribe a part of the combined attack formation on this "carrier", such as this iron plate, and then arrange the formation. Everyone refining an iron plate? Cultivating the corresponding formation on the iron plate? When deploying the formation? You need to input your own strength into this iron plate, and at the same time cast the corresponding formation on the iron plate, In this way, the iron tiles can penetrate each other and the formations can be played together successfully."

"The combined attack above the Divine Realm is so troublesome."

The gods murmured.

"Of course it is troublesome, otherwise, with the background of the Celestial Race, after so many years of digging in the ruins of the universe, how can there be no combined attack formation method above the Divine Master Realm."

"The Celestial Race just didn't excavate this kind of 'carrier', and if you want to refine this kind of 'carrier', the Celestial Race simply can't do it. This kind of refining technique is extremely difficult and extremely difficult. Nowadays, there is no one at all. It can be done, of course, I am not sure about the forbidden land creatures and the Yaxian tribe."

Dan Dan said.

"You mean, if there are a few carriers, only a few people can form an array. There are a total of twelve iron medals, and there can only be 12 people at most?"

Lu Ming asked.

"Yes, there are a few types of carriers, and at most only a few people can set up an array. Of course, you can set up an array if you don't have enough people, but the power can't be maximized."

"The combined attack formation above the gods, the more carriers, the higher the level of the combined attack formation, the more rare and precious it is. Of course, the difficulty of refining will be greater."

"The lowest level combo formation has only two 'carriers', above, three, four, five... nine... twelve... thirty-six, one hundred, one thousand. ...Both."

"There are twelve carriers here, which is not bad. It can allow twelve people to deploy and explode with amazing power."

Dan Dan said.

Through Dandan's explanation, Lu Ming and others finally got a general understanding of the method of combined attack above the God Realm.

The combination of twelve 'carrier' formations is not bad, at least enough for them to use.

Lu Ming asked Dan Dan to put away the twelve iron plates now, and they were studying cultivation when they were free.

Once the cultivation is successful, the ten of them will form an array together, and their combat power will definitely increase dramatically.

After putting them away, they looked at the futon again.

It's a pity that this futon looks intact, but when you take it with your hands, it turns into a cloud of dust.

Obviously, because the years have passed, this futon has rotted and turned into dust.

Everyone was a little disappointed. In this cave mansion, they only got a carrier of a combined attack formation, and an incomprehensible book, which was completely different from what they expected to get a pile of supreme treasures.

I can only say that dreams are not good, and reality is cruel.

Once they checked again and confirmed that there was no hidden door or the like, they left here and continued to descend sharply below the crack.

Soon, the distance they descended exceeded thousands of miles.

After falling thousands of miles, it is finally over.

And as soon as they landed here, they smelled a strong smell of medicine.

The smell of this medicine is too strong, it seems that many magical medicines have turned into liquid, and they are constantly drilling into their noses.

Just smelling the scent of the medicine makes people feel refreshed.

"The magic medicine, hahaha, there is no such cold aura here, it really gave birth to the magic medicine, here..."

Dan Dan was overjoyed and rushed in one direction quickly. Lu Ming and others followed closely.

The further forward, the stronger the fragrance of the medicine, and soon they arrived at their destination.

On a piece of milky white rock, there are nine magical medicines growing.

It is nine ginseng.

"This...is this a master-level magical medicine? Heavenly Jade Ginseng?"

Lu Ming, Xie Nianqing, Dan Dan, Bone Demon, Tang Jun, etc., all opened their eyes wide and were shocked.

It's just that the nine master-level magical medicines can't make them so shocked, but these nine master-level magical medicines are too strange.

Tianyu ginseng, a relatively precious master-level magical medicine, Lu Ming and others have not seen it before, but ordinary Tianyu ginseng only has the thickness of a thumb and is no more than a foot tall.

But the nine Tianyu ginseng plants in front of me are a bit scary in size, as thick as a bucket, and each plant is more than three meters high.

It is almost as large as nine big trees, and the volume is hundreds of thousands of times that of ordinary Tianyu ginseng.

Moreover, everyone can feel that there is a strong and incomparable medicinal power, which is incredible.

"What a strong medicinal power, the main-level magical medicine can grow into this way. The medicinal power contained in it is almost stronger than that of the source-level magical medicine. How many primordial crystals is this celestial jade ginseng comparable to?"

Dan Dan stared at Tianyu Ginseng, almost drooling.

He felt that a single celestial jade ginseng was enough for his cultivation base to break through.

Chapter 4829: Depressed extinction

"Put it out first, dig out the roots, and transplant it into my prey ring first, so as not to lose the medicine."

Lu Ming said.

Everyone nodded, took out their weapons, and started digging.

The nine heaven jade ginseng roots are all rooted on the milky white rock below. This kind of rock is very hard. Even Lu Ming and the others took a lot of effort to dig up the nine heaven jade ginseng roots. Ming puts it into the prehistoric ring, and temporarily planted it in the prehistoric ring.

"Below here, there are Honghuangjing..."

Once this guy's eyes slipped, he immediately found out.

In fact, Lu Ming and the others also noticed that under the pit where they dug away the Tianyu ginseng, they found a lot of prehistoric crystals, which were embedded in a kind of transparent rock.

"Remove the useless rocks around and take a look."

Bone Demon Dao, holding Zijin Zhanyue, has already begun to do it.

Lu Ming and others also all shot and continued to dig the rocks.

Soon, they shaved off a layer of the surrounding rocks, and the scene under the rocks was also revealed.

Hong Huangjing!

They are all prehistoric crystals!

These prehistoric crystals, one by one, are surrounded by a transparent rock.

And this is just a corner, more parts are still covered by rocks.

They finally understood why the president of the nine heavenly jade ginseng was so exaggerated, and the courage was rooted in a large number of prehistoric crystals.

Constantly absorbing the energy of the Primordial Crystal all year round, it is difficult to grow without exaggeration.

However, having absorbed such a huge amount of energy, it was also a miracle that it had not evolved into a source-level magical medicine.

"Is this a vein of the Primordial Crystal, we found a vein?"

Dandan's eyes were fiery.

"We continue to take action, excavate the surrounding rocks, and then take these prehistoric crystals and transparent rocks in one piece."

Lu Ming said.

These transparent rocks are like ice blocks, and the prehistoric crystals are like rice grains.

The rice grains are scattered and frozen in the ice cube. It is too difficult and troublesome to dig out the rice grains from the ice cube. It is better to take away the entire ice cube and slowly follow it. dig.

They had been delayed for three days because of the cave house, and they continued to delay, for fear of the arrival of the Yaxian tribe and the Celestial tribe, which would cause many changes.

Everyone was no longer hesitating, and they tried their best to dig the surrounding rocks. A lot of rocks were removed, and more transparent rocks and prehistoric crystals were revealed.

The eyes of Lu Ming, Dan Dan and others became brighter and brighter.

How many prehistoric crystals does this have?

Add up, I'm afraid that there will be no less than hundreds of millions of prehistoric crystals.

Hundreds of millions of prehistoric crystals are definitely a large number. You must know that only one billion prehistoric crystals were obtained when you searched the treasure house of the dream palace.

It's just that Lu Ming's practice is too abnormal, and he needs too many primordial crystals, which makes people feel that there are not many hundreds of millions of primordial crystals.

This is not all.

It took Lu Ming and others several days to almost remove the surrounding rocks, and all the veins were exposed.

This is a mineral vein, like a big dragon, looking from a distance, it is transparent, and the prehistoric crystals inside, like a little bit of stars, look really spectacular.

"There, I'm afraid there won't be a billion wild crystals."

Dan Dan swallowed his saliva, his eyes were extremely fiery.

"I'm afraid that there will be one billion prehistoric crystals, which is really amazing. Could it be that the prehistoric crystals in this vitality are all gathered here?"

Tang Jundao.

A vitality contains one billion primordial crystals, which is already extremely amazing.

What's more, this vitality shouldn't be very big, otherwise it won't be without the slightest building.

So they speculated that most of the prehistoric crystals in this vitality might have gathered here.

"There is still a little rock left, so work harder to remove it all."

Lu Ming called.

At this moment, not far from here, a group of people are coming here.

This group of people is precisely the Celestial Race headed by Exterminating Heavenly Monarch, Hundred Battles Heavenly Monarch and others.

The extinct Tianjun at the front had an unsightly expression.

These days, they have been searching for treasures under the Qi Vessel, and the gains are some gains, but they are far below their expectations.

Several master-level magic drugs were obtained.

Hong Huangjing received more than 20 million yuan.

Although it is not a small number, there are more than two thousand of them. If one point is taken, not many can be obtained by each.

A treasure in a vitality, just so little?

"There is a voice ahead, someone."

Suddenly, Exterminate Tianjun's ears moved, and he heard a sound coming from the front, which seemed to be the sound of a sharp weapon cutting a rock.

"Go and see!"

Extermination Tianjun took the lead, with more than two thousand heavenly human races, and flew forward.

And ahead is Lu Ming and the others.

After a while, they arrived.

Then, they were all stunned, their eyes rolled round, staring at the prehistoric crystal vein.

Countless prehistoric crystals flashed their eyes and almost went blind.

"Honghuangjing is all Honghuangjing."

"A lot, this is the vein, too much."

"Posted, sent, these prehistoric crystals are all ours."

Many celestial races roared excitedly.

"No, it's from the Celestial Race."

Dan Dan, Wanshen and others' complexions changed.

"There is only a little rock left. I will cut the connection between the vein and the rock with all my strength, and I will collect the prehistoric crystals."

Lu Ming yelled, urging the prehistoric ring with all his strength, and the prehistoric crystal produced a powerful attraction, covering the entire prehistoric crystal vein in it, pulling frantically to collect the prehistoric crystal.

There is one end of the prehistoric crystal vein, which is connected to this rock.

Bone Demon, Xie Nianqing, Qiuyue, Qiuqiu, etc., mobilized their power to the extreme, and each performed unique tricks, bombarding the joint between the vein and the rock.

Boom boom boom...

A violent roar erupted, rocks continued to burst, and rubble splashed.

In addition to the powerful attraction of the prehistoric ring, the connection between the prehistoric crystal vein and the rock was finally disconnected. The entire prehistoric ring vein was shaken, then all disappeared, and it was taken into the prehistoric ring by Lu Ming.

"Lu Ming, it's you!"

"Hand over the prehistoric crystal vein."

At this time, Exterminate Tianjun and others found Lu Ming and the others, and they roared and rushed towards Lu Ming and the others, their eyes red.

"Shoot!"

Lu Ming yelled, his figure flashed, and he appeared in front of him. The God of War Spear became so huge that it swept out, stirring up violent winds and waves.

At the same time, the Bone Demon, Qiuqiu, Xie Nianqing, and Qiuyue also appeared in front, blocking Dandan, Qiuqiu, Ling Yuwei and other weak ones, blocking them behind, and also attacked separately.

Boom boom boom!

The attack of Lu Ming and others collided with the attack of the Celestial Race, forcibly blocking the attack of the Celestial Race.

The terrain here is not wide enough. There are more than 2,000 people from the Celestial Race, and it is difficult to make a move together. Just a few hundred people made the move. It is not difficult for Lu Ming and others to block it.

"Really looking for death!"

The Bone Demon snorted coldly, completely disregarding defenses, and rushed towards the Celestial Race like a bolt of lightning.
