

D Emperor 4831

Chapter 4831: Yuanguang Clan's Combined Attack

The Ninth Young Master of the Yuanguang clan had a deep hatred for Lu Ming and wanted to kill Lu Ming all the time.

At the garrison of the Heaven Extinguishing Army, Lu Ming not only rebelled against him, but finally defeated him. He was defeated by a man of the Eightfold Divine Master, and still in front of his men. This was a great blow to his prestige.

Therefore, he always wanted to kill Lu Ming.

When in the ruins of the universe, for the sake of the overall situation, he always forbore and did not do anything.

Originally, I was thinking of killing Lu Ming after entering the Zixiao Cave, but unfortunately, after entering the Zixiao Cave, he never encountered Lu Ming.

Hearing the news of Lu Ming at this time, the killing intent in his heart was completely aroused.

Jiu Gongzi stopped and said indifferently, "Say, where is Lu Ming?"

"After I tell you, you will let us go."

Extinct Heavenly King shouted.

"You are not qualified to make terms with me, say, otherwise, die!"

The Nine Young Master was very domineering, and he didn't care about the conditions for extermination of Heavenly Monarch.

"Don't agree to my terms, don't think about me."

Extinct Heavenly Jundao.

"It's naive to want to threaten me with this, kill!"

Jiu Gongzi was very decisive and waved directly.

boom! boom! ...

The master next to him stepped out again, shaking the void, beams of hair flying, and aura.

"Damn it..."

Extinction Tianjun roared in his heart, knowing that it was impossible to send Yuanguang Clan people easily.

However, he must tell the whereabouts of Lu Ming.

Speaking of Lu Ming's whereabouts, most of the Yuanguang clan members would not help but send someone to chase Lu Ming, so that it would relieve their pressure.

"Lu Ming is in another direction, walk along this crack, and you can find him."

Extinction Tianjun roared and pointed in a direction.

Jiu Gongzi's eyes flickered.

Exterminating Tianjun's mind? Would he not know, but he wanted to kill Lu Ming even more urgently.

"You? Stop them? Others? Follow me!"

Jiu Gongzi allocated manpower to leave five masters comparable to the strongest Heavenly Monarch level, as well as more than 100 other masters of the Yuanguang Clan? Want them to entangle the Celestial Race first.

And he personally led the remaining people? To kill Lu Ming's location.

He didn't want to delay, because he was afraid that Lu Ming would run away after a long time.

Hh hh hh...

Jiu Gongzi led more than 90 Yuanguang tribes to the direction where Lu Ming was located? Very fast? Soon after, they were approaching the direction where Lu Ming was located.

"Fully? Breakthrough!"

After Jiu Gongzi took the people away? Extinction Tianjun roared and led his people to break through.

This is a rare opportunity. Yuanguang Clan has only five powerhouses of the strongest Heavenly Sovereign level, and they have six at all, which is a good opportunity for breakthrough.

Otherwise, if Jiu Gongzi returns? They won't be able to leave.

But? Even if there are only more than a hundred members of Yuanguang Clan, it is not easy to break through.

The light beams of the Yuanguang tribe's hair fluttered? Intertwined with each other, like a net of heaven and earth, blocking the surrounding void.

"kill!"

Extinct Heavenly Monarch? Hundred Battle Heavenly Monarchs, and two old strongest heavenly monarchs, two primitive **** puppets joined forces, like a sharp knife, launched a violent impact on one direction.

The six strongest heavenly monarchs joined forces, and the power was very terrifying, and the beam hair in that direction continued to explode.

In the end, the five 'war ambassadors under the king' of the Yuanguang clan joined forces to stop them, and they still retreat steadily.

The same level of combat power, five versus six, naturally suffers.

"Layout!"

At this time, a 'war envoy under the king' of the Yuanguang clan gave the order.

Hh hh hh...

Suddenly, there were seven masters of the Yuanguang Clan, and their bodies flickered.

At the same time, a glowing armor appeared on them.

The armor was covered with runes, these runes shone, and the mysterious aura permeated, bringing together the aura of the seven Yuanguang Clan masters.

boom!

From the seven masters of the Yuanguang Clan, all powerful forces spread out, intertwined, and formed a giant.

Among the seven people, five of them are limbs and heads, and the other two are trunks. They use energy to form a giant with a few terrifying breaths.

boom!

This giant, holding a war sword, cut out with a single sword, and slashed towards the extinction Tianjun and others, and banged against the extinction Tianjun. As a result, both sides retreated back.

have equal shares.

"Combined attack formation, the combined attack formation of the Divine Realm."

Extinction Tianjun roared in shock.

Among the Celestial Race, although there is no combined attack formation above the Divine Master Realm, he had heard it before, so he recognized it at a glance.

That's right, this is the Divine Master Realm's combined attack formation, and the armor on the seven Yuanguang tribes is the carrier of the combined attack formation.

Among the seven Yuanguang clan, four of them are the cultivation base of the **** master peak, and the other three are only the cultivation base of the **** master's nine layers, but after the formation of the seven people, the combat power is completely comparable to the strongest heavenly monarch.

This is the power of the combined attack.

If there is no combined attack formation method, four ordinary **** masters peak, three **** masters nine layers, even if the Yuanguang clan has a strong talent, and the combat power of the same level surpasses the Celestial Clan, but the combination of these seven people is far less than the strongest sky Jun.

The ugly point is that it will cause no harm to the strongest Tianjun, and will be easily defeated.

But once the joint attack formation is deployed, it can be compared to the strongest heavenly monarch.

However, things are not over yet.

In addition, the seven Yuan Light Races also flickered, and the same armor appeared on their bodies.

Seven more Yuanguang tribes have deployed a combined attack formation. Five are limbs and heads, and two are trunks, condensing a giant.

This set of combined strikes was obviously exactly the same as the previous seven.

In this way, among the Yuanguang Clan, it was equal to the two most powerful Heavenly Monarch level combat powers.

The top combat power has surpassed the Celestial Race.

It's no wonder that the Yuan Guang Clan's combat power is not as good as the Celestial Race, and the Jiu Gongzi still let these people entangle the Celestial Race for this reason.

Boom boom boom!

The continuous roar sounded, and the momentum of the Celestial Clan's impact was blocked, and it was difficult to rush out.

"hateful!"

Extinction Tianjun roared, his face was extremely ugly.

In the universe, there has never been a combined attack above the Divine Master Realm, so he ignored this possibility from the beginning. He did not expect that there would be a Divine Master Realm combined attack in the forbidden creatures, making them completely passive. .

If this continues, they will not be able to break through, and they will all die when the rest of the Yuanguang clan returns.

"Blast, let the primitive **** blew myself up."

Suddenly, Extinction Heavenly Monarch shouted, of course, in the form of sound transmission, to Baizhan Tianjun and other Tianjun.

"Let the primitive **** puppet explode, this is quite the puppet of the strongest heavenly monarch..."

Bai Zhan Tianjun stared.

In order to make this kind of puppet, the Celestial Race didn't know how much effort it took, so it blew up, which is really a shame.

"It's not a time of hesitation, if we don't blew ourselves up, we will all die."

Extinct Heavenly Jundao.

Chapter 4832: War Yuanguang Clan

In the end, Bai Zhan Tianjun and others agreed.

Extinction Tianjun is right. Although this primitive **** puppet is extremely precious, can it be compared to them?

To make it harder to say, the primitive **** puppet is just an experiment of the Celestial race. Based on the powerful primitive gods, the experiment incorporating various powerful forces is just a puppet, and it will be difficult to improve in the future.

And they have unlimited potential.

The value is completely incomparable, even if the immortality knows it, it will not be blamed.

In the end, they decided to let a primitive **** puppet explode.

boom!

A primitive **** puppet, whose body has grown sharply, turned into a giant of a million feet, standing upright, rushing in one direction, completely ignoring defense, and attacking desperately.

Puff...

Suddenly, the body of this primitive **** puppet was pierced by beams of hair.

However, the original **** did not stop in the slightest, and continued to rush forward, and there were horrible fluctuations in his body.

"He wants to blow himself up and stop him."

In the Yuanguang clan, a 'war envoy under the king' roared, together with the other 'war envoy under the king', and two seven-man attack formations, frantically attacking, wanting to kill the primitive **** puppet before it explodes. .

However, this is just a puppet, and the vitality and defense are extremely powerful, and it is extremely difficult to kill at a time.

Although the head, one arm and one leg of this primitive **** puppet were cut off, the tendency to explode has not slowed down.

The aura on his body is getting stronger and stronger, emitting a dazzling light, like the most dazzling star.

"No, go back! Go back!"

"Rewind!"

The Yuanguang clan's roar, knowing that it could not be stopped, quickly backed away.

The people of the Yuanguang clan have retreated extremely fast, but some people are still a step slower.

boom!

There was a earth-shattering roar? That primitive **** puppet, comparable to the strongest Heavenly Monarch, exploded, producing terrifying power of destruction? Swept all directions? More than a dozen Yuanguang clan people were swept in? Bone to pieces.

However, the five 'war envoys under the king' and two seven-man combined attack formations were extremely fast? Avoided the center of the self-destruction? However, being hit by the powerful destructive force was also a huge shock to the body, almost vomiting blood.

The Yuanguang Clan's encirclement of the Celestial Clan? A huge gap was forced out.

"go!"

The extinct heavenly monarch roared? The first to rush out of the encirclement? Other celestial races followed closely behind? One after another rushed out of the gap? Then flew towards the distance.

"chase!"

"Don't let them run away? Give the nine sons a voice."

The people of Yuanguang clan roared and chased to the Celestial Clan.

"Go, go to that ancient city."

Extinct Heavenly King shouted.

The walls of that ancient city can have a huge restraining effect on Jueyin Corpse, but it is mostly useless to Yuanguang Clan.

But the walls of the ancient city still left some remnants.

Before dealing with Jue Yin Corpse? You didn't need these remnant formations? But dealing with Yuanguang Clan, it was enough.

As long as the remnant formation above is activated, it should be able to block the Yuanguang Clan.

The people of the Celestial Race and the Yaxian Race? They have done research on the remnant formations in the ancient city a long time ago. The purpose is to make sure that there are some remnant formations on it, and they can stimulate and inspire them.

The purpose of exterminating Tianjun is very simple, that is to return to the ancient city and rely on the remnant formation above to block the Yuanguang clan.

Because it is too dangerous to run to other places, once you encounter a dead body or other forbidden creatures, it will be dangerous.

Sticking to the ancient city and waiting for reinforcements is the best policy.

On the other side, the Yaxian tribe also rushed out of the siege.

According to the strength comparison on the bright side, it is difficult for the Yaxian clan to break out of the Yuanguang clan.

However, the Yaxian clan actually also controlled the combined attack formation of the God Realm.

They have a set of nine-person team-attacking array carrier, which can make the existence of the peak of the nine gods join forces to form an array. The power is amazing. When it is displayed, it can fight against the existence of the most powerful heavenly monarch.

In the end, relying on this formation, he rushed out of the siege in one fell swoop, with the people of the Yaxian tribe, also rushed to the ancient city.

They share the same thoughts as the Celestial Race, intending to use the remnant formation in the ancient city to resist the Yuanguang Race.

During the battle between the Celestial Clan and the Yaxian Clan and the Yuanguang Clan, Jiu Gongzi took more than 90 Yuanguang Clan masters and also found Lu Ming and them.

"It's the forbidden creatures of Yuanji Shenshan."

Seeing Jiu Gongzi and others, Lu Ming's expressions changed.

They didn't expect that under this vitality, they would encounter creatures in the forbidden area.

"Boy, you really are here, very good, very good, dare to offend me, today is your death date, kill me!"

The Nine Young Master roared, his aura exploded, and he brought more than 90 Yuanguang Clan to kill them at Lu Ming. The light beams in the sky were long and pierced through the void, dense and terrifying.

"The four strongest heavenly monarchs are just, and they want to kill us, naive!"

The Bone Demon sneered. As soon as the other party made a move, the Bone Demon instantly sensed it with keen intuition. Among the opponents, the strongest Heavenly Monarch level masters were only four.

They have five strongest heavenly monarchs.

"Be careful, they are in formation, it is the combined attack of the Divine Master Realm."

Dan Dan suddenly shouted.

Sure enough, as the Yuanguang Clan rushed towards Lu Ming and the others, some people flickered and began to make formations.

There are two waves of people.

In one of the waves, there were seven people, and one piece of armor appeared on their bodies, and the armor was full of runes.

Among the seven, five are limbs and heads, and two are torso, condensing a giant, holding a war sword, with amazing power.

This combined attack formation method is exactly the same as the one deployed against the Celestial Race.

The other wave was even more shocking, and it was actually formed by nine people.

The nine men held a war knife full of runes in their hands. This war knife was the carrier of the combined attack. The breath was connected. The nine of them were connected to each other and turned into a huge war knife, terrifying and slashing. Lu Ming and the others, faster than the others, were the first to approach Lu Ming and them.

The Bone Demon rushed up, brandished the purple gold waryue, chopped down, and slashed on this huge battle knife.

With a bang, the bone demon's body shook tremendously, and then violently retreated backward like a cannonball.

Lu Ming and their hearts sank.

This sword can actually knock the bone demon flying with one blow, and its power is really amazing, obviously beyond the scope of the strongest heavenly monarch.

Fortunately, the bone demon has amazing defensive power, so there is no need to worry about him.

"No, these nine team attack formations are arranged with the forbidden land creatures at the peak of the nine gods. It's too strong, we can't stop it, fast back."

Dandan exclaimed.

"go!"

Lu Ming also yelled.

These forbidden creatures actually control the combined attack formation of the Divine Master Realm, which is really invincible.

Now it's just a seven-man formation and a nine-man formation, and I know if there is any more advanced joint attack formation.

Lu Ming and the others quickly backed away.

"If you want to leave, none of you can leave today."

Jiu Gongzi drank coldly.

Chapter 4833: Return to the ancient city

Jiu Gongzi was full of murderous intent, and rushed towards Lu Ming and the others.

In particular, the speed of the battle sword transformed by the nine-person joint attack formation was too fast, and it continued to slash at Lu Ming and the others. The sword had not been cut yet, and the terrifying blade force had already caused Lu Ming and the others to feel pain in their skin. The knife cuts in general.

"Dan, is there a way to break their combined attack formation."

Lu Ming spoke to Dan Dan at a very fast speed.

"No, the combined attack method above the Divine Master Realm is based on the carrier and is integrated and extremely difficult to break, unless their carrier is crushed with extremely strong combat power..."

Dandan responded.

Lu Ming was speechless. He wanted to get rid of the opponent's formation carrier unless he possessed a combat power far surpassing that of the opponent, but with that kind of combat strength, he could directly tear the opponent's formation. Why do we need to break the formation carrier?

Hum!

The God of War spear in Lu Ming's hand vibrated, and he planned to take the knife.

"Lu Ming, leave it to me."

The ball flew out, turned into a battle armor, and stood in front of the sword.

when!

The earth-shaking roar erupted, and the armor of the ball turned into a huge shock, constantly twisting, and finally, like a bone demon, it also violently retreated back, but in the end the attack was blocked.

Lu Ming, Xie Nianqing and others took the opportunity to retreat violently.

"Spacetime Vortex!"

"Devil Realm!"

While retreating, Bubbles exerted the power of time and space to the extreme, and the power of time and space revolved wildly, forming a huge vortex, pulling the people of the Yuanguang clan into it.

At the same time, Xie Nianqing also displayed the realm of the demon to interfere with the Yuanguang clan.

This was undoubtedly effective. The speed of the Yuanguang clan members was affected a bit. Lu Ming and the others took the opportunity to fly a long distance.

Dandan has long since turned into the body, and the turtle shell glows? While flying, dense runes flew out of it, sinking into the void.

"Chasing? Chase me? Don't let them run."

Nine Young Master yelled? Lead people to chase him.

Lu Ming and the others quickly merged with the bone demon and the ball and flew in one direction together.

The direction they were flying? It was also the old city before.

There are many remnant formations in that ancient city, and Dandan's understanding of the formation is enough to inspire many remnants above it.

Behind? The people of the Yuanguang clan are chasing after him? But Dandan is flying? While setting up an array? Interfering with the Yuanguang clan along the road? At the same time, Bubble and Xie Nianqing? Now, it is very difficult for Yuanguang people to catch up with Lu Ming and them in a short time.

Soon after, that ancient city?

"Huh? Is it the Celestial Race and the Yaxian Race? They also fled back here."

Far away? Lu Ming and the others saw the people of the Celestial Race and the Yaxian Race.

The people of the Celestial Race and the Yaxian Race, holding the magic weapon attached to the blue flame stone, are rushing towards the ancient city? Because around this ancient city, there are still some deadly corpses left, and these deadly corpses are constantly rushing towards Yaxian, Tianren and Yuanguang clan behind.

The Celestial Clan and the Yaxian Clan have magical soldiers attached to the blue flame stone. It is easy to deal with Jue Yin Corpse. They easily rushed through a passage and quickly approached the ancient city.

It was the Yuanguang clan that surprised Lu Ming and the others.

Yuanguang Clan can actually deal with Jue Yin Corpse, and it is not very difficult.

I saw the light beam hair of the Yuanguang tribe flying, and in the process of dancing, it vibrated with a special frequency, and when it pierced the Jue Yin Corpse, it easily penetrated the Jue Yin Corpse's body.

The Jue Yin Corpse was covered with a thick layer of black energy, which made Jue Yin Corpse's defenses astonishing. Lu Ming and the others understood this.

However, members of the Yuanguang Clan could easily penetrate the defense of Jue Yin Corpse.

Those powerful Jue Yin corpses are nothing more. Some Yuanguang clan who are obviously not strong can easily penetrate the defense of Jue Yin corpses. This surprised Lu Ming and the others.

"They seem to know the weakness of Jueyin Corpse very well, and the black energy on Jueyin Corpse doesn't seem to be that strong against Yuanguang Clan's power defense."

Tang Jun whispered.

Lu Ming nodded, he also saw this.

No wonder these Yuanguang tribes don't have blue flame stones on them, but they don't seem to be afraid of corpses. This is the reason.

Is this absolutely Yin corpse also related to the forbidden creatures?

How else would it be?

Lu Ming's thoughts changed sharply, but he couldn't figure it out.

However, the blue flame stone is still more effective in restraining the corpse of the dead, so the people of the Celestial Race and the Asian Immortal race move faster.

"Flush!"

Lu Ming and the others also rushed towards the ancient city.

There were naturally some Jue Yin corpses rushing towards Lu Ming and the others, but there were also some Jue Yin corpses rushing towards the Jiu Gongzi and them.

"The disgusting corpse made by Jue Yin Clan, get out."

Jiu Gongzi drank coldly, beaming hair flying, and pierced the bodies of several deadly corpses.

Other Yuanguang clan members also tried their best, but their speed was not as fast as Lu Ming and the others.

The Jue Yin corpse here is not particularly strong, because the particularly strong were killed by them as early as when they went out.

Therefore, Lu Ming and the others were extremely fast, and the Jue Yin corpse in front of them was constantly being killed or blown away.

Just after the Yaxian and Celestial races rushed into the ancient city, Lu Ming and the others were also approaching the ancient city.

"Quickly, stimulate the formation, don't let the Yuanguang clan people come in."

Extinction Tianjun roared, and when he looked at Lu Ming and the others, his murderous intent flashed.

Buzzing...

Among the Celestial Clan and the Yaxian Clan, those who understand the formation technique began to fully stimulate the formation technique in the ancient city.

Others who don't understand the formation method are constantly launching long-range attacks to block the Yuanguang clan.

Fortunately, they had already carefully studied the incomplete formation in the ancient city, so it was not too difficult to stimulate.

Buzzing...

Suddenly, the ancient city glowed, runes permeated, and the formations were excited and emerged.

Many of them are defensive formations, forming a layer of masks, covering the ancient city.

Of course, there are also some attack types.

"Go over there to stimulate the formation, the Yuanguang clan over there will also come in."

Extinction Tianjun pointed in one direction and shouted, his eyes flashed with cold light.

Because that direction is exactly the direction Lu Ming and the others are going to rush to.

Before Lu Ming and the others entered the city, Extinction Heavenly Monarch had to activate the formation. Obviously, they wanted to take the opportunity to stop Lu Ming and the others outside.

Immediately there were several Celestial Race masters who were proficient in the formation, rushing over there, urging the formation on the wall over there.

Buzzing...

The runes of the city wall were permeated, and several defensive formations emerged.

"Damn, these guys, want to keep us out."

The gods roared and furious.

"Want to stop us outside, they are too naive to have this seat here."

Dan Dan said, the shell of the tortoise glowed, and a formation on it flew out from the shell of Dan Dan, from small to large, and flew on the defensive formations.

Those defensive formations immediately trembled, sunken, and a gap appeared.

Lu Ming and others rushed in through the gap.

Chapter 4834: Refining combined attacking method

Lu Ming and others rushed into the ancient city through the gap, and the gap quickly disappeared.

boom!

The gods stepped out in one step, and the powerful aura permeated, pressing toward the heaven and human race.

"What did you mean? Are you blind, haven't you seen us yet? You want to take the opportunity to stop us outside, right?"

The gods yelled and stared at Extinction Tianjun and others.

"Misunderstood, just now we were watching the Yuanguang clan who were about to rush in, so we hurriedly activated the formation. After all, once the Yuanguang clan rushed in, it would be troublesome."

Extinction Tianjun smiled lightly and understated.

"I have to take a word, how easy it is."

Panjin said angrily.

Boom boom boom!

At this moment, the members of the Yuanguang clan also arrived, and beams of hair, like a sharp sword, pierced the defensive formation, bursting with roars.

"Everyone, the enemy is now, and it should be the time to work together to deal with the enemy."

Not far away, the sky opened his mouth.

"Young Master Cang Qiong said it was right. At this time, we should join forces. It is not a time of civil strife."

Extinction Tianjun smiled coldly.

"hateful!"

The gods were so angry.

"All Gods, it doesn't matter, this account will be cleared sooner or later."

Lu Ming patted Wanshen on the shoulder and smiled.

He took this account down, and it will be clear sooner or later. At this time, it is indeed not the time to settle the account, otherwise, it will only make Yuanguang clan cheaper.

Dan Dan also joined the ranks of the inspiring formations. On the city wall, a number of remnant formations were activated, most of which were defensive, and a few were attacking.

It's a pity that for too many years, there are only the leftover formations? Compared with the heyday, the power is naturally a thousand miles away.

However, there are a lot of them? Stacked together? The power is still very impressive? All the attacks of the Yuanguang Clan are blocked.

Even those few attacking formations killed more than a dozen Yuanguang clan members? Let the remaining Yuanguang clan retreat to a certain distance.

The people of the Yuanguang clan from the three parties gathered together again, the number was about four hundred.

"Jiu Gongzi? What to do? The formation of this ancient city? Very powerful? It is not easy to break."

A 'war envoy under the king' said.

"The ancient city is very big? We gather everyone together? We attacked one place together. These formations are only broken formations, and their power is limited. Over time? They will definitely break open."

"Also? Send them news? Let them all come here to meet? I'm going to decide the lives of these people."

Jiu Gongzi said coldly, the murderous intent in his eyes was extremely strong? Cold as a knife.

"Yes!"

Immediately, about four hundred Yuanguang clan gathered together to attack one formation, causing that formation to keep shaking.

"They want to attack one place together, and we also attack to interfere with them."

Sky Road.

The Yaxian tribe, the Celestial tribe, and Lu Ming also gathered in that position, launching a long-range attack from the inside of the formation.

The attack attacks from the inside out and will not be affected by the formation.

A series of attacks still had a great impact on the Yuanguang Clan, preventing them from attacking at ease.

"Retreat!"

After attacking for a period of time, the members of the Yuanguang clan retreated and stopped continuing to attack. They cleaned up the scattered corpses around and then fanned them around the ancient city.

"Finally retreated!"

In the ancient city, many people felt relieved and relieved.

But the sky, the extinction Tianjun, and some of the people with extraordinary minds, their faces are not good.

They knew that most of the Yuanguang clan was waiting for reinforcements.

Once the reinforcements of the Yuanguang clan arrived, they were in danger.

"Should we break out?"

On the edge of the sky, an old man said.

The sky frowned, thinking quickly in his heart.

Today, they have two options.

One option is to stay here and rely on the formation of the ancient city to resist the Yuanguang clan.

Then there was news, waiting for reinforcements from the Yaxian clan.

But the Yuanguang clan was definitely waiting for reinforcements, depending on whose reinforcements arrived early.

Another option is to rush out now and break the siege.

Currently, the number of Yuanguang clan is not many.

Although there are a lot of masters in the Yuanguang clan, there are also many top masters, and there are many combined attacking methods.

However, the tribe of Yaxian, Celestial, Lu Ming and the others joined forces, and they might not be able to rush out.

But breaking the siege is also very risky.

Even if you break the siege, you may encounter other forbidden creatures.

After all, creatures in the forbidden area, but there are three parties, and now only see one side.

Sky, a little undecided for a while.

Extinction Tianjun and others are also thinking about this issue.

"Look over there."

Suddenly, someone pointed to the south and shouted.

Many people looked at it one after another, and their expressions changed drastically.

I saw that in that direction, there was a stream of light flying quickly.

Forbidden creatures, Yuanguang clan!

Everyone saw clearly that all the streams of light were all from the Yuanguang clan.

The Yuanguang Clan's reinforcements arrived so soon, and many people's hearts sank.

Fortunately, the number of Yuanguang Clan who came here was not particularly large, only about 300 people.

Soon, the three-hundred Yuanguang Clan and Jiu Gongzi joined together, and the number of Yuanguang Clan outside the city wall reached seven hundred.

"It's troublesome. It's hard to get out of the siege now."

The sky whispered.

The Yuanguang Clan is extremely powerful. It can suppress the Celestial Clan in a battle at the same level. Before it was only 400 people, it was very difficult to deal with. Now there are 300 more people. Now even if they want to break out of the siege, they have nothing to do. Grasped.

However, the Yuanguang clan still did not attack and continued to surround themselves, apparently still waiting for reinforcements.

"Dandan, let's refining the combined attack formation first..."

Lu Ming spoke to Dandan.

The current situation is very unfavorable and they must increase their strength as soon as possible.

And the fastest way to increase strength is undoubtedly the combination of strikes.

That set of combined attack formation requires twelve people to display it completely, but there are not enough people and can be used, but it can't fully display the power of the combined attack formation.

"Okay, let's go to refining immediately."

Dandan nodded.

He talked to Cangqiang briefly and asked him to send them a voice message before leaving the city wall.

"What do these guys want to do? Do you want to refine those prehistoric crystals? Damn it..."

Extinction Tianjun roared in his heart, very anxious.

The thought that the piles of prehistoric crystals would be refined by Lu Ming and others made him feel very uncomfortable.

But now the Yuanguang Clan had not attacked the city, and he could not find a reason to stop Lu Ming and the others.

Lu Ming and his party found a hidden place in the ancient city, and Dan Dan laid a hidden formation around him, then took out twelve iron plates and divided them into one.

"Each iron plate has a different formation. If you want to successfully deploy a combined attack, you must first refining the iron plate, and then master the above formations familiarly, and then cooperate together. Only Only with perfect cooperation can the power of the combined attack formation be brought out."

Dan Dan explained the main points of the joint attack formation.

Chapter 4835: Not perfect

The steps are simple, everyone just needs to follow the steps.

Lu Ming, Xie Nianqing, Qiuyue, Ling Yuwei, Dan Dan, Paobao, Wanshen, Qiuqiu, Bone Demon, Tang Jun, a group of ten people, each holding an iron medal, began to refine.

Refining iron cards is actually very simple. It didn't take long for Lu Ming and the others to refining all iron cards, and they could collect them into the sea of knowledge at will.

The hard part is the rune above.

When they refined the iron plate, a piece of information on the iron plate automatically came into their minds.

This piece of information is a formation.

There is not a complete formation, but only a section of a formation. Ten of them each obtained a different formation.

Everyone must have a complete grasp of the corresponding formation, and then perfectly cooperate, through the iron plate as the carrier, in order to display the combined attack formation.

They didn't stay in the slightest, they didn't have much time left, and they had to master it as soon as possible.

As soon as he comprehended, Lu Ming felt that this formation was very difficult to understand. After comprehending for a while, his progress was extremely slow.

He opened his eyes and looked, and found that the gods, Baobao, Ling Yuwei? Qiuyue were all frowning, obviously they had encountered a problem.

They weren't very good at the formation? And this formation? Obviously it was from the last era? It is more difficult.

Xie Nianqing, Tang Jun, and the Bone Demon are better? They used to? After all, they all exist in the original realm. There is a foundation, and the understanding should be smoother.

The easiest? Naturally, Dandan.

His shell glowed? The dense runes enveloped him? It looked smooth.

After pondering for a while? Lu Ming continued to comprehend.

Practitioners of the gods? Against the formation method? Something will dabble, because some simple formation methods are sometimes very practical.

Especially the deeper the cultivation base, the deeper the understanding of the practice, and the deeper the understanding of the formation?

For example? A strong master in the realm of God? Even if you didn't deliberately cultivate one formation? But the control of one formation is still stronger than a master of true God realm. This is the difference brought about by different realms.

So? Lu Ming and the others were able to comprehend this formation, otherwise it would be impossible to comprehend it if they didn't know anything about it.

Dan Dan's speed was very fast, but it took three days to fully understand the formation on the iron plate.

"Although each of us has different formations to comprehend, there are also some things in common. I will tell you about some of the experiences that I have summarized."

Dan Dan asked Lu Ming to temporarily stop comprehension, and explained some of his experience in comprehension of this combined attack formation in detail.

With the guidance of Dandan, the master of the formation, the speed of Lu Ming and others' enlightenment was greatly improved.

A few days later, Xie Nianqing, Tang Jun, and Bone Demon also succeeded in comprehending.

Lu Ming's distance was successful, and he was approaching.

After all, each of them is a genius with extraordinary savvy, and the speed of learning one thing is much faster than ordinary people.

A few days later, after they had comprehended the formation for ten days, Lu Ming, Qiuyue, Bone Demon, Paobao, and Ling Yuwei also successfully comprehended.

"Come on, try it!"

Dan Dan was already a little impatient.

For a master of formation like him, he was really curious about the combined attack formation left over from the last era.

"Layout!"

Lu Ming yelled, and suddenly, a group of ten people, according to their own formation, flashed and stood in different positions.

At the same time, the iron plate appeared on their waists, and the runes were filled with mysterious rays of sunlight. Among the ten people, the rays of sunlight intertwined, slowly condensing a huge figure.

This figure is adult-shaped. There are ten of them, two of them are heads, two of them are torso, there are two arms on the left and right, and one on both feet.

However, the figure is very vague and not solid enough to be able to barely see. This is a person who is covered in a dark armor. The armor looks a bit hideous. There are sharp barbs on his wrists and shoulders.

This figure, still holding a halberd in his hand, seemed to have a kind of stunning majesty.

However, when Lu Ming and the others were about to operate the formation, when they controlled this figure to launch an attack, the figure trembled and collapsed.

Failed!

"What's the matter? We have clearly mastered the formation, why can't we succeed?"

Pantheon spoke with doubts.

"That's because the cooperation between us is not perfect. We must practice hard."

Dan Dan said.

"Okay, start over."

Lu Ming said.

They continued to try to form an array, but unfortunately, the figure that had condensed was still blurred, and it soon collapsed.

The difficulty of this combined attack is indeed very great.

According to normal procedures, even if there is an array carrier, it takes a long time for the people in control of each other to practice and adapt before they can be perfectly arranged.

However, there is really not much time left for them. They must arrange it as soon as possible and must practice more quickly.

They fell into a frenzied practice, and forgot to sleep and eat, and just like that, another five days passed.

After five days of continuous practice, their mastery of the combined strike method has improved a lot, and the condensed figure is also much clearer, and the time of existence is much longer, reaching about one minute.

And they tried to launch an attack, the power is indeed amazing, the attack power is higher than the strongest Tianjun.

Unfortunately, it still can't be arranged perfectly, and it feels like a step away.

"This last step is very difficult. There are only two ways to succeed. One is to succeed after a long period of time."

Dan Dan said.

"What about another one?"

Pantheon asked quickly.

"The other is facing a life-and-death crisis. In the crisis, with the help of the pressure of the crisis, it succeeded in one fell swoop, and it was perfectly arranged, but it is very dangerous, or it may lose your life.

Dan Dan said.

"Nose...it seems to be very difficult to succeed in a short time."

All the gods muttered.

"Don't be discouraged. Even so, our strength is much stronger than before, at least within a minute..."

Lu Ming smiled and comforted the gods.

This combined attack formation method is very extraordinary. Although they can't arrange them perfectly, the minute they are arranged, they still greatly increase their strength. Aside from anything else, at least their attack power is close to Gu Changfeng's level.

At this moment, Lu Ming received Cang Qiong's voice transmission.

"The war is about to begin, the Yuanguang Clan is about to start siege."

Lu Ming said solemnly.

They have run out of time.

After waiting for half a month, Yuanguang Clan finally began to attack the city, mostly waiting for reinforcements.

"go!"

Lu Ming and others flew toward the city wall.

Chapter 4836: Siege and Breakthrough

Lu Ming and others flew towards the city wall quickly, and before they could fly to the city wall, they heard roars.

The people of Yuanguang clan have already begun to break the formation.

"So diverse light races."

When Lu Ming and the others came to the city wall, they were shocked.

The Yuanguang clan outside the ancient city had 500 more people than half a month ago.

Half a month ago, there were only 700 members of the Yuanguang clan outside the ancient city. Now, it has increased to 1,200.

The strength of the 1,200 Yuanguang clan is absolutely amazing.

Because the quality of Yuanguang clan masters is too high, the strong inside are like clouds, and the combat power of the same level is also very amazing.

The overall strength of the 1,200 yuan Light Clan has far surpassed the sum of the Asian Immortal, Celestial and Lu Ming in the ancient city.

In a frontal battle, they will definitely be destroyed.

One thousand and two hundred yuan Guang Clan, divided into two batches, are attacking two positions in the ancient city.

The beam of hair was flying, as if the sky was full of sword light, piercing the defensive formation of the city wall, causing the formation to roar continuously.

In particular, some of the Yuanguang clan are extremely terrifying, and their combat power has reached the level of the strongest heavenly monarch.

"Is this what the Yuanguang clan calls the 'war envoy under the king'? There are as many as fourteen."

Lu Ming was secretly surprised.

The Yuanguang clan's 'war envoys under the king', whose fighting power is comparable to the strongest heavenly monarchs of the Celestial Clan, now there are 14 of them.

This is an astonishing force. When the Celestial Race defeated the demons and attacked and destroyed the garrison of the Celestial Army, only the twenty strongest Celestial Monarchs could compete.

The fourteen 'war envoys under the king', plus the purple-robed youth, are fifteen. They are not much worse than the Celestial Race, and are much stronger than the Celestial Army and the Devil.

This is only one thousand and two hundred Yuanguang Clan, and there are nearly three thousand Yuanguang Clan that has been born.

The Yuanguang Clan still being sealed, do not know how many.

The really scary thing is the 'Prince of Light', which makes people jealous.

The strength of the creatures in the forbidden area is really terrifying.

The fourteenth Yuan Guang Clan? All-out attacking the formation, the power is very amazing, making the formation tremble violently.

"fight back!"

The sky yelled? Ordered the people of the Yaxian clan to launch an attack? One after another, they flew out of the city? They attacked the Yuanguang clan and interfered with the Yuanguang clan breaking the formation.

In this way, the Yuanguang Clan wanted to defend while it was unable to break the formation with all its strength? The effect was still good.

On the other side, the people of the Celestial Clan are also attacking outwards? Interfering with the Yuanguang Clan breaking the formation.

Lu Ming and the others landed on the side of the Celestial Race? They also attacked outside.

The Yuanguang tribe's people attacked for a few hours? They didn't break through the city wall.

"Layout!"

Nine Young Masters stood in the sky? Condescendingly overlooking the entire battlefield? At this time, he gave the order.

Suddenly? There were many celestial races flickering, and they began to arrange a combined attack formation.

"So many sets of combined strikes."

Whether it was the Yaxian, the Celestial Clan, or Lu Ming and the others, they were shocked.

The seven-man attacking formation deployed by the Yuanguang Clan? There are a total of nine.

The most amazing thing is that there is actually a combined attack formation of 21 people.

Twenty-one masters of the Yuanguang clan? Everyone has a war sword covered with runes. The glow of the war sword is permeated and intertwined together to form a huge war sword.

Of the twenty-one people in this formation, twelve of them are the cultivation base of the **** master peak, and the other nine are the cultivation base of the **** master nine layers. The condensed war swords are filled with astonishing aura.

boom!

The huge war sword slashed on the defensive formation, causing the mask formed by the formation to tremble violently, trembling wildly, and stirring up ripples.

Even the city walls trembled violently, as if an earthquake had occurred.

"What a terrifying power."

The people inside the city wall were shocked and their faces changed wildly.

The power of the 21-person combined attack formation is really amazing.

For the combined attack above the God Realm, the more the number of people in the formation, the more terrifying the power will be.

However, the number of people in the formation cannot be increased casually. The more the number of people in the formation, the more complicated the formation involved, the higher the requirements for the carrier, and it is very difficult to refine.

It doesn't mean that the two seven-person combined attack formations are merged together, it is a fourteen-person formation. This is completely impossible. Two formations of seven players gathered together, and it was a world of difference from a formation of fourteen players.

boom!

Twenty-one people attacked the war sword condensed by the formation and continued to bombard the formation, shaking the formation continuously.

"Block them, block them with all your strength."

The sky roared.

They kept launching attacks, including Lu Ming and the others.

Thousands of attacks, constant bombardment on the huge war sword, burst out roars, but that war sword, nothing at all, continued to bombard the formation.

Boom boom boom...

A violent roar sounded, the formation at this place, trembling constantly, stirred up ripples, and after a while, with a boom, a formation was broken.

Fortunately, there was more than one defensive formation on the wall, one was breached, and there were several more.

But the faces of everyone are very ugly.

If this continues, other formations will also be broken.

Without the formation method, they face the Yuanguang clan, only to be killed.

Although they are large in number, they are completely vulnerable.

In particular, the combined attack formation of the twenty-one members of the Yuanguang clan was so powerful that it surpassed Gu Changfeng's level.

Even if the existence of Gu Changfeng's level faced him, he could only retreat.

"To withstand, we must withstand. Arranging this kind of combined attack is a very serious consumption of strength, and they won't last long. As long as we block, their combined attack will destroy itself without attack."

Drinking every day.

"Yes, block it!"

The sky roared, and within the Yaxian clan, there was also a joint attack formation above the Divine Master Realm, and they naturally knew the weakness of the joint attack formation.

That is the consumption of power is very serious.

The stronger the combined attack formation, the more serious the consumption of strength.

More than two thousand Asian immortals, as well as Lu Ming and the others, attacked the giant sword with all their strength, trying to cause interference.

It's a pity that people from other Yuanguang tribes couldn't just sit idly by. Other Yuanguang tribes took action and blocked Lu Ming and the others.

On the other side, the Celestial Race wanted to come and help, but couldn't get away.

They will also take action to interfere with the Yuanguang clan over there, if they walk away, without their interference, their formation on this side will not be able to resist for long.

The situation is getting worse and worse.

After about a few minutes, the defensive formation on the Yaxian clan's side was continuously broken by the giant sword.

Seeing that the last formation is also in jeopardy.

"Prepare for the battle, the others, continue to control the formation."

The sky roared.

If the formation is broken, it does not mean it is destroyed. As long as you continue to control and continue to inject strength into the formation, the formation will be restarted.

They must block the Yuanguang Clan's offensive before the formation is restarted.

Click!

The last formation was also torn into a crack, which was about to be completely torn apart.

Chapter 4837: King of the Great War

Seeing that the last formation was about to be torn apart, at this moment, the giant sword formed by the twenty-one members of the Yuanguang clan trembled, and the light of the giant sword quickly dimmed. The appearance of collapse.

"Their strength is going to run out."

Dandan roared.

Everyone lifted their spirits. To tell the truth, they were very jealous of the twenty-one attacking formations, and they couldn't compete. Now that the opponent's strength is about to run out, they have a chance.

"Final blow!"

A sound was heard from the giant sword formed by the combined attack formation, and then the light of the giant sword burst again, and the sword slashed above the defensive formation.

This time, the defensive formation was torn into a huge crack, as if it was about to collapse.

As for the opponents' formation, their power was finally exhausted. The huge sword shuddered and collapsed with the last touch. Twenty-one persons in the formation appeared one after another, retreating violently.

Other Yuanguang clan took the opportunity to launch a fierce attack, wanting to completely tear the formation in one fell swoop.

"Knock them back."

The sky roared, and ordered the people of the Yaxian tribe to continuously attack the people of the Yuanguang tribe.

The Yaxian tribe has seven strong men comparable to the strongest Tianjun, and there is also a peerless master whose combat power exceeds the strongest Tianjun level. Attacking together, the power is still very amazing.

However, there are too many masters of the Yuanguang clan.

There are a total of 14 'king under the war ambassador' of the Yuanguang clan, and there are also seven on this side.

The key is that there are too many combined attack formations of the Yuanguang Clan. There are seven formations and nine formations. When used, the power is very amazing.

As long as the people of the formation have sufficient cultivation base, the combat power of the seven-person formation is comparable to the strongest heavenly monarch.

All of a sudden, the sky and their attacks were blocked.

Huh!

At this time, a middle-aged man on the edge of the sky took a shot? Transformed into a streamer? Instantly appeared in front of the city wall? Thousands of beams of hair pierced frantically, piercing the cracks in the defense formation.

"Drive me!"

This middle-aged man of Yuanguang clan roars.

The beam hair of the other party is like a strip of tentacles? Holding on both sides of the crack? Struggling to tear to the sides.

The remaining part of the hair, intertwined, turned into a shield? Blocked the attacks of the Yaxian tribe and Lu Ming.

This is a terrifying powerhouse? Has the power to surpass the strongest Heavenly Sovereign? He is a 'light ambassador' of the Yuanguang clan.

"In the Yuanguang Clan? At least two 'Emperors before the Light' came."

Lu Ming's face was very solemn.

Because this shot? Isn't the one who went to the extermination army station? The 'Emissary before the Light' who fought against Gu Changfeng at the extinction army's station was still with Jiu Gongzi.

This shows that among the Yuanguang clan, there are at least two peerless masters at the level of the 'King of the Light'.

If the formation is broken, they are really dangerous.

The king of light before the battle is extremely powerful? Struggling to shoot? Crazy pulling? Want to break the defensive array.

"A close fight? Otherwise, the formation will definitely be broken!"

Lu Ming yelled, very decisive? He came out in a world-breaking manner, turned into a dazzling spear light, and pierced the 'Prince of Light'

With this shot, Lu Ming tried his best.

"Illusory light beam!"

At the same time that Lu Ming shot, the ball also shot, shooting a beam of light, enveloping the 'King of Light'.

Not only did the ball shot, Qiuyue, Xie Nianqing, and Bone Demon also shot.

"Nine orifices in one yuan cut!"

"The Immeasurable Palm of the Demon!"

Qiuyue and Xie Nianqing each performed unique tricks.

Qiuyue slashed out a transparent blade of light. Xie Nianqing's trick was her fusion of the Immeasurable Demon Monument and the Great Handprint of the Heaven Demon, which was very powerful.

And the Bone Demon, a flashing body, appeared in front of the 'King of Light', and the Zijin Zhanyue struck down.

Lu Ming's attack was the fastest. He immediately pierced the intertwined beam hair of the 'King of the Light', bursting out roars, and his vigor spread out round after round.

Then, the attacks of Bone Demon, Qiuyue, and Xie Nianqing also arrived.

The 'King's Envoy before the Light' was slightly affected by the illusion beam of the ball, and his strength was not enough for an instant, and this was when Lu Ming and others attacked and grasped the opportunity very accurately.

Boom boom boom!

Being continuously attacked, the opponent's beam hair continued to explode, and the attacks from Lu Ming and others attacked the opponent's body frontally.

The opponent's pupils contracted slightly, and the body retreated wildly instinctively.

"Set up an array, do your best!"

Cang Qiong's reaction was also very fast. When Lu Ming and the others launched an attack, he also shouted and ordered his men to rush out and attack.

The current defensive formation has not been completely broken, as long as the Yuanguang clan's attack is blocked, the defensive formation can be easily restarted.

If you miss this opportunity, the consequences are unpredictable.

The people of the Yaxian clan also took out the secret knowledge at the bottom of the box. In addition to the seven strongest heavenly monarchs, there were also a seven-person combined attack formation and a nine-person combined attack formation.

The seven-man team attack formation is equivalent to one of the strongest heavenly monarchs, while the nine-man team attack formation is deployed by the top masters of the nine gods, and the combat power is equivalent to several times the strongest heavenly monarch. Of combat power.

In addition, the other Asian immortals also took full action, completely blocking the attack of the Yuanguang clan masters at once, and it was inextricably separated from the opponent.

But Dandan, as well as those masters of the Yaxian clan who are proficient in the formation, fully control the formation, trying to restart the formation.

"court death!"

After Lu Ming and the others repelled the 'King's Envoy before the Light', he roared, revealing a strong murderous intent.

"Xiaoqing, Qiuyue, you stand behind, the ball, the bone demon, join hands with me to block him."

Lu Ming communicated to others.

The ball landed on Lu Ming and turned into an armor covering Lu Ming.

However, the armor was somewhat different from before. From both sides of Lu Ming's body, there were two more war knives, which were turned into **** and could be used to attack.

There is also a mirror on Lu Ming's chest, which is also transformed by the ball. With the deepening of the ball's cultivation, he can already use the mystery of several source-level magic weapons at the same time.

Huh! Huh!

Lu Ming and the Bone Demon rushed in front and killed the 'Prince of the Light', while Xie Nianqing and Qiuyue attacked from behind.

The defense of the two of them is too weak, if they are hit by the 'Prince of the Light', it's no small matter.

Lu Ming and the Bone Demon attacked with all their strength and collided with the attack of the "Prince of the Light". The two sides fought a few moves, and then Lu Ming and the Bone Demon retreated violently.

Lu Ming felt qi and blood surge all over, almost vomiting blood.

The opponent's combat power is too strong, even if he merges with the ball, there is still a long way to go and it is difficult to compete.

If it weren't for the bone demon, Xie Nianqing and Qiuyue had joined forces together, and he couldn't stop it at all.

"Many arm is a car, it's not over it, die!"

"The King of Light" snorted coldly, and the whole body was filled with bright rays of light. The whole body seemed to turn into a light, and the terrifying aura spread out, which shocked Lu Ming and others.

Chapter 4838: Don't use all your strength?

"Sky, send someone to support us."

Lu Ming roared and asked for help.

They faced an 'Emissary before the Light' alone, and the pressure was too great.

And Wan Shen, Dan Dan, Pao Bao, Ling Yuwei and their cultivation bases are too low, facing such a peerless master, it is difficult to have any effect.

"You, help Lu Ming and the others."

Cang Qiong gritted his teeth and ordered the nine people to fight together.

He knew very well in his heart that if he couldn't stop the 'Prince of the Light' and let them rush in to defeat the formation, it would be their Yaxian clan that would lose the most.

"Extinction, a hundred battles, don't come to help us, let the formation on this side restart first, and you can support it for a while."

Then, the sky roared again, and the voice reached the extinction Tianjun and others.

The situation is too endangered because another master of Yuanguang Clan's Ninth Young Master has taken action.

This master is the strong man who fought against Gu Changfeng at the Extinguishing Army's garrison, and he is also an 'Emperor before the Light'.

The peerless master of the Yaxian clan greeted him and blocked him.

But overall, they are completely at a disadvantage.

Because without that peerless master, and without the nine-person combined attack formation, the strength of the Yaxian clan is far inferior to the Yuanguang clan here.

On the other side, Exterminate Tianjun's expression changed, but in the end he gritted his teeth and rushed to this side with a group of masters from the Celestial Race.

He didn't want to come and help Lu Ming and the Yaxian clan. He still wished that Lu Ming would die in the hands of the Yuanguang clan, but he couldn't just ignore him.

They are now grasshoppers on a rope, their lips are dead and their teeth are cold. If Lu Ming and the others are killed and the big formation is broken, the next one to be killed is their Celestial Race.

They only acted to protect themselves.

With the addition of the Celestial Clan, the pressure on the Yaxian Clan has eased a lot.

And Lu Ming and the others got the help of the nine-member Yaxian clan fighting the battle formation, and their pressure was reduced a lot? Finally, they barely blocked the 'before the light'.

"Kill the formation, start with me!"

After a while, Dan Dan on the city wall shouted? Shining on the city wall under his feet? A formation emerged.

This formation appeared in the air, emitting a brilliant glow, and then a giant bird flew out of the formation.

This giant bird, like a golden-winged big penguin bird, was golden all over? It was filled with terrible aura? Its wings were like a magic sword? It was killing towards a group of Yuanguang clan.

Puff puff...

Suddenly, more than a dozen Yuanguang tribes were beheaded. Among them was a strong man at the pinnacle of God Lord.

Then? The golden bird turned around, turned a direction, and then killed other Celestial Races.

The fighting power of this golden bird was amazing. Even if it killed many Yuanguang tribes, even a 'king under war envoy' was beaten out by the golden bird.

"Haha? You know how good this seat is."

Every time he laughed.

"The killing array on the wall? This guy actually activated one."

Cang Qiong and others were shocked.

They knew? That was the killing formation of this city wall? It was just very broken and almost unusable. The formation master of the Yaxian clan had studied it a long time ago, and finally came to the conclusion that it cannot be repaired and is difficult to stimulate.

Unexpectedly, he was successfully repaired by Dandan.

"Lu Ming, I will help you."

Every time he laughed, the shell of the tortoise glowed, and the runes continued to spread out, fully urging the killing formation of the city wall.

The formation in the void, the runes became more prosperous, and then a big golden bird unexpectedly condensed out to kill the 'King of Light' who fought against Lu Ming and the others.

"kill!"

The 'Prince of the Light' drank coldly, and his body seemed to have turned into a ray of light, which covered his beam hair, making his beam hair more powerful.

Hundreds of beam hairs swept out, knocking the golden bird out.

However, this big golden bird was formed by a condensed formation. After being knocked into the air, it flapped its wings and rushed towards the opponent.

With the help of the two big golden birds, Lu Ming's pressure was reduced a lot, completely blocking the Yuanguang clan.

But at this moment, Jiu Gongzi ordered the Yuanguang clan on the other side to attack this place together.

The two sides gathered all their strengths together, planning to show off.

But at this time, the formations on this section of the city wall continued to shine, and many formations were restarted.

"The formation is about to start, retreat!"

The sky drank.

They retreated while fighting.

But the people of the Yuanguang clan naturally didn't want Lu Ming and the others to easily retreat into the ancient city and initiate a fierce attack.

Dan Dan controlled the two big golden birds to stop the Yuanguang Clan, allowing Lu Ming and Xie Nianqing to successfully retreat to the ancient city.

Then, the Yaxian tribe and the Celestial tribe also successfully returned, but they paid some price.

After Lu Ming and the others, the Celestial Race, and the Yaxian race successfully retreated into the ancient city, the defensive formation of the city wall was activated again, blocking the Yuanguang race from the outside.

"Damn it, retreat first!"

The voice of the Ninth Young Master of the Yuanguang Clan rang, causing the Yuanguang Clan to stop temporarily and retreat to a certain distance.

The Yuanguang clan's people were also very exhausted and needed time to recover.

In the ancient city, the people of the three parties all breathed a sigh of relief.

It was really dangerous just now, and the reason why they were able to block the Yuanguang Clan was also related to their favorable terrain.

They just blocked the gaps where the formation was broken. The gap range was limited, and the Yuanguang clan members could not all shoot, so that they could block the Yuanguang clan's attack.

If the big formation is broken, the Yuanguang clan all rush in, and they will only be defeated by the three parties.

"Lu Ming, why didn't you do your best just now?"

At this time, Extinction Tianjun suddenly looked at Lu Ming and asked.

Lu Ming was taken aback for a moment.

"What nonsense are you talking about? Didn't you see that Lu Ming was desperate just now, he was injured and he didn't try his best? You are blind."

Drinking every day.

"Hehe, at the beginning, Lu Ming was able to kill the three strongest heavenly monarchs of my clan alone. That kind of combat power is not just comparable. Lu Ming has obviously hidden his strength just now. We are all working hard, but he is What is the intention to hide strength?"

Extinction Tianjun sneered.

"This guy..."

Dandan gritted his teeth, but was speechless.

At the beginning, Lu Ming killed the three strongest heavenly monarchs alone, but it had spread throughout the universe long ago.

And with the combat power that Lu Ming showed just now, it was obviously not that strong.

Did Lu Ming really hide his strength?

Many people from the Yaxian tribe showed suspicion and dissatisfaction when they looked at Lu Ming.

In the war just now, the Yaxian clan suffered a lot of losses.

More than fifty masters have fallen, all of them exist in the Divine Master Realm.

The biggest loss was the seven-man team attack.

In the previous battle, the seven members of the Yaxian clan attacked the formation and were broken by the opponent's strong. The seven members of the formation died three, and the carrier of the formation was also captured by the opponent.

This means that this array method is useless.

This is a huge loss.

Chapter 4839: Divorce

Combat formations above the God Realm must be deployed through the 'carrier', and the refinement of the carrier is very, very difficult. It not only requires precious materials, but also requires people who can refine the 'carrier'.

Refining the carrier of the combined attack is much more difficult than deploying an array alone or refining a magic weapon.

It is necessary to have extremely high attainments in both the way of rune formation and the way of refining in order to successfully refine.

The point is that many of the methods for refining the 'carrier' of the combined attack formation have been lost.

Therefore, the destruction of the carrier of a combined attack formation is a very huge loss.

No wonder the people of the Yaxian tribe are upset. They are desperately and suffer huge losses, but Lu Ming is still hiding and hiding his strength. What is the purpose of this? Is it to use the hands of the forbidden land to weaken their strength?

"This guy is really cunning..."

Lu Ming whispered in his heart.

He knew very well that Exterminating Tianjun had two purposes when he said that. The first purpose was to divorce his relationship with the Yaxian clan and make the Yaxian people hate Lu Ming.

The second is to reconfirm whether Lu Ming can explode the combat power of the Exterminating Army station.

Lu Ming couldn't refute it. Could he directly say that he couldn't break out that kind of combat power, he had already tried his best?

This can't be said bluntly, otherwise, isn't it lowering your deterrence?

"I believe Brother Lu has a secret. The most urgent thing is to restore his strength as soon as possible, so as not to prevent the Yuanguang Clan from attacking again."

The sky came out to round the field.

He was extremely clever. He had long guessed from a series of things that Lu Ming was mostly doing his best. As for the power of the Heaven Extinguishing Army station to behead the three strongest Heavenly Monarchs? Most of them could not be used.

And now is not the time for conflicts, but it is important to work together to deal with the Yuanguang Clan.

Extinction Tianjun sneered and walked aside to recover.

Lu Ming and others also began to adjust their interest rate and resume.

Outside the ancient city? Some senior members of the Yuanguang clan? Discuss again.

"Nine sons, these guys are very difficult to deal with with the power of the ancient city formation? The attack just now? We lost dozens of people..."

A 'war envoy under the king' reported it.

The people of their Yuanguang clan have been sealed from endless years to the present, so there are not many people? They are not comparable to some big clans in the universe.

So they can't afford to lose? Losing dozens of them? It hurts them all.

"A frontal attack? It's really not a good strategy? Even if it can be beaten down? Our losses will not be small..."

After the Ninth Young Master finished speaking, he groaned for a while, and then said: "A frontal attack is not good, then divide them from the inside."

"Dividing them internally, how to divide?"

Someone asked.

"I've heard that before? What are the strongest forces in the universe today? They all have enmity with each other? Especially the Destroying Army and the Celestial Race? Then Lu Ming and the Celestial Race are deadly enemies. Now they can cooperate completely. Is it because of their pressure? If we change our strategy, their alliance will fall apart in an instant."

"In doing so, send someone to shout outside the ancient city, saying that my purpose is only Lu Ming's group, as long as they take the initiative to hand Lu Ming's group to us, we will immediately retreat..."

Jiu Gongzi ordered.

"Wonderful, most of the Celestial Race and the Yaxian Race know that Jiu Gongzi has an antagonism with Lu Ming. In this way, they must be convinced. In order to protect themselves, hehe..."

A 'war envoy under the king' sneered and flattered.

"Okay, act now."

Jiu Gongzi waved his hand.

Above the city wall.

"The Yuanguang Clan is here again."

Suddenly someone exclaimed, interrupting the recovery of others.

Everyone suddenly stopped to recover, looking nervously outside the city wall.

Why did the Yuanguang clan come so quickly? It stands to reason that the Yuanguang clan's consumption just now was very large, and they didn't recover?

They haven't recovered yet.

Upon seeing it, he breathed a sigh of relief.

Originally, there was only one member of the Yuanguang clan.

A Yuanguang clan stopped outside the ancient city and shouted loudly: "Listen, our Ninth Young Master is speaking. All he wants is Lu Ming and his accomplices. It has nothing to do with other people. As long as you keep Lu Ming and When his accomplices hand over, we will immediately retreat and leave here."

"I'll say it again. Our Ninth Young Master is speaking. All he wants is Lu Ming and his accomplices..."

The Yuanguang clan yelled twice in a row, and after yelling, he stopped.

Above the city wall, there was a silence at first, and then many people's gazes couldn't help but looked at Lu Ming and the others. Some people's gazes would have been unkind.

"It turns out that the purpose of the Yuanguang Clan is Lu Ming and the others."

"As long as we hand them over, we will be fine. There is no need to fight the Yuanguang clan."

Some people have already started talking in secret.

"Is it possible that this is the Yuanguang clan's divorce plan, wanting to deliberately separate us?"

Not everyone is easily deceived, and some people have raised questions.

"It's not necessarily a divorce. Haven't you heard that Lu Ming and the Nine Young Masters of the Yuanguang Clan had a long time to celebrate the festival? When Lu Ming defeated the Nine Young Masters of the Yuanguang Clan at the Extinguishing Army's resident, the other party wanted revenge. It's also human nature."

Someone retorted.

"Yes, Lu Ming and the Ninth Young Master of the Yuanguang Clan really have a big holiday. From this perspective, it is really possible."

Those who were originally skeptical were a little convinced.

Perhaps, as long as Lu Ming and the others were handed over, the Yuanguang Clan would retreat.

More and more people showed unkindness in their eyes, staring at them, especially those of the Celestial Race.

Extinction Tianjun even sneered. Yuan Guang Clan did this, which was just what he wanted.

"This is obviously a divorce of the Yuanguang Clan. You want to weaken our strength. You can't even figure this out. Have your mind been caught by the door?"

Drinking every day.

However, the attitude of the surrounding people did not change, they still stared at Lu Ming and the others with bad eyes. If they weren't really worried about Lu Ming and their combat power, I'm afraid they have already started.

"Lu Ming, things are up to this point. We can't help you if we want to. Let's see that we are in a cooperative relationship. We won't do anything. You can leave by yourself and go out of town."

Extinction Tianjun spoke, with a sneer on his face.

"If you want us to leave, just say it straight. If you say this, you will only appear hypocritical."

Lu Ming said lightly.

"Lu Ming, don't you want to leave? You didn't use all your strength before, do you really want so many of us to be involved by you?"

Extinct Heavenly Jundao.

"Yes, leave quickly, lest we do it."

"Go, don't be too selfish, do you want us to be buried?"

Others also shouted.

"If you want us to go, it depends on your ability."

Drink coldly.

"Yes, before you leave, destroy your Celestial Clan tribe."

The gods also yelled, and a powerful breath filled his body.

Chapter 4840: Lu Ming's plan

Lu Ming, Xie Nianqing, Bone Demon and others also burst out powerful auras, which contained cold murderous intent.

This Exterminating Heavenly Monarch has repeatedly targeted them, and Lu Ming and the others have long been murdered.

The people of the Celestial Race also filled with a powerful aura, colliding with the aura of Lu Ming and the others, causing ripples. On the city wall, there were bursts of roar, like thunder.

Outside the ancient city, people from the Yuanguang clan looked at each other and smiled upon seeing this scene.

"The Nine Young Masters are really clever calculations. No, just as soon as they finished speaking, conflict broke out within them. It's really a mess."

A war envoy of the king flattered.

"You're right. The Celestial Race, the Asian Immortal Race, and the Celestial Destruction Army are all scattered sand. With a little trick, you can make them fall apart."

"The order continues, saying that they will only be given three days. After three days, if Lu Ming is not handed over, we will continue to attack. When we attack, we will not stay."

Jiu Gongzi sneered.

Then, the Yuanguang clan outside the city wall spoke, repeating the words of Jiu Gongzi.

At this time, the confrontation on the city wall became more tense.

"Wait!"

At this time, the sound of the sky sounded, and the master of the Yaxian clan suddenly broke into between Lu Ming and the Celestial Clan. The peerless master who surpassed the strongest Heavenly Monarch exploded with a powerful breath, like a sharp sword. , Cutting off the aura of the confrontation between Lu Ming and the Celestial Race abruptly.

"Brother Cangqiong, what do you think?"

Lu Ming looked at the sky and asked.

"Brother Lu, if it's just me, I would naturally support Brother Lu. It's a big deal to fight the Yuanguang clan to the death, but..."

Speaking of this, the sky pondered for a moment.

A sneer appeared at the corner of Lu Ming's mouth. He already knew what the attitude of the sky was.

Sure enough, Cang Qiong continued: "However, as the young master of the Yaxian clan, I am responsible for the thousands of lives of the Yaxian clan. I can't let them accompany me to die. So, Brother Lu, sorry. Yes, please leave, hey..."

"Nousao, you hypocritical guy, you are greedy for life and fear of death and just say that you have asked us to cooperate before. Is this the way of cooperation?"

Dan Dan cursed and glared at the sky.

"Boy, pay attention to your attitude. The Yuanguang clan's condition is that we hand you over. We didn't do anything to let you leave by yourself. It's the end of benevolence and righteousness. You don't have to make an inch of it..."

On the edge of the sky, a middle-aged man scolded.

"Come on, do it, who is afraid of whom?"

Drinking every day.

"Dandan, all gods..."

At this time, Lu Ming patted Dandan and Wanshen on the shoulders, so that the two of them were calm and restless.

Lu Ming has always been very calm, with a sneer at the corner of his mouth.

In the sky, the thoughts of exterminating the heavenly monarchs and their minds are clear to him.

Let them leave by themselves instead of handing them out. It is the best policy for the Yaxian and Celestial races.

Because they want to hand over Lu Ming and the others, a big battle will inevitably erupt. Even if Lu Ming and them can be taken in the end, can the Yaxian and the Celestial race be guaranteed no loss?

And they couldn't believe in the Yuanguang clan. If Lu Ming and the others were handed over, the Yuanguang clan would not retreat and would continue to attack?

And let Lu Ming and the others leave by themselves, eliminating the need to deal with Lu Ming and the others. Moreover, Lu Ming and the others will definitely not be caught with their hands. They will fight desperately outside. It will definitely attract a part of the Yuanguang clan. This is for them. , Is very advantageous.

"Well, three days later, we will leave."

At this time, Lu Ming spoke.

Many people were shocked.

Dandan, Wanshen, and Baobao were even more surprised to see Lu Ming. Obviously they had not expected that with Lu Ming's character, they would actually compromise.

"Lu Ming, why promised them? It's a big deal. With our combat power, although we can't deal with the Yaxian tribe, we may not lose when we deal with the Celestial race."

Dan Dan transmitted to Lu Ming, full of doubts.

"You have also seen that when we take action against the Celestial Clan, the Yaxian Clan will definitely not sit idly by. Our battle with the Celestial Clan will mostly hurt both sides. This will weaken the strength in the ancient city, which is not good for the Yaxian Clan. , They will definitely protect the Celestial Race."

Lu Ming explained.

"Then if we leave, doesn't it also weaken the strength of the ancient city?"

This time I asked the gods.

"When we leave, at least a part of the Yuanguang Clan can be taken away, and even the Ninth Young Masters of the Yuanguang Clan will take people away..."

Lu Ming explained.

Dandan, Wanshen, and Baobao all understand.

But Xie Nianqing, Tang Jun, and the Bone Demon were meticulous and had already guessed it.

"With the current situation, it is better to stay here than to leave. Maybe you can get out of the current predicament."

Lu Ming continued.

If you continue to stay here, the ancient city will be broken sooner or later, and it will be very dangerous to face the Yuanguang clan head-on.

Of course, if they want to leave, they can't leave at will. They have to arrange some things, otherwise they will rush out like this, which is tantamount to moths fighting the fire.

In addition, there was another reason why Lu Ming decided to leave, and that was that they already had a joint attack formation, which was their biggest hole card.

Although it is not perfect, once used, it can play a big role at the critical moment.

It would not be difficult for them to deploy a joint attack formation to defeat the extermination Tianjun and the others. If there was no Yaxian clan to wipe their hands, Lu Ming would really do it, and first solve the extinction Tianjun and the others.

However, it is impossible for the Yaxian clan to intervene. If there is a real battle, they will only lose both. Instead, the Yuanguang clan will be cheaper. When the Yuanguang clan takes the opportunity to break the formation, they will all die. This is also Lu Ming's plan to leave. Another important reason for not working on the Celestial Race.

"Lu Ming, do you have any plans? We will leave like this. It is undoubtedly moths fighting the fire..."

Tang Jun said.

"We have three days to prepare. In these three days, let Dandan set up an array somewhere. The people of the Yuanguang clan will definitely think that we are going to break through with an array. At that time, we will break through from another direction... ."

Immediately, Lu Ming briefly explained his position.

"I think it works!"

The Bone Demon nodded.

"Okay, just do it, it's a pity that I can't kill the offal by hand. It's really uncomfortable..."

Dan Dan sighed.

"Exterminate this person, you will die sooner or later, sooner or later, let him live for a while."

Lu Ming said coldly, his voice full of murderous intent.

A small leak will sink a great ship.

If there is only Lu Ming alone, he might get into trouble and solve the extinction Tianjun first, but now Xie Nianqing, Qiuyue, Ling Yuwei, Bone Demon, Dandan, Bubble, All Gods, Qiuqiu, and Tang Jun's nine lives, Between their thoughts, he had to act cautiously.

His first consideration is to preserve the integrity of other people.

As for the killing of Tianjun and others, there will be opportunities in the future.
