

## D Emperor 4841

### Chapter 4841: Three routes

"After three days, we will leave."

Lu Ming repeated one more sentence, then looked towards the sky, and said: "I am a person who has always had grievances and grievances, with gratitude for gratitude, grudges and revenge, you gave us the method of refining the flying boat, which is regarded as a kindness to us. But from now on, your kindness to us will be wiped out."

After speaking, Lu Ming took Xie Nianqing and the others, and left without looking back.

Cang Qiong's attitude today shows that he is standing opposite Lu Ming and the others, betraying Lu Ming and the others in order to protect himself.

Then, the previous sentiment of sending a ferry to a flying boat was completely wiped out.

"Huh, what is arrogant? It was written off, just a dying person..."

On the edge of the sky, an Asian immortal snorted coldly.

"This person is indeed a talented person. If it weren't for such a situation, I wouldn't want to make things deadlock."

The sky sighed slightly.

For Lu Ming, he always felt a tremendous pressure. Although his current combat power was not lower than Lu Ming, he was always very jealous of Lu Ming.

This is an instinct, and his instinct feels that Lu Ming will be very scary in the future.

If it weren't for the current predicament, he would not choose to offend Lu Ming, at least, he would not do so on the face of it.

But since he was offended, then expect Lu Ming to die at the hands of the Yuanguang clan.

"Send someone to stare at them and see what they are going to do these three days."

Extinction Tianjun ordered his men.

.....

Lu Ming and the others left the city wall and found a place to resume their breath adjustment.

Soon after, their state returned to the peak, and then began to arrange.

Dandan surreptitiously left, came to the north of the ancient city, and began to deploy secretly.

In the north of the ancient city, there is relatively no Yuanguang Clan, because the defensive array here is relatively strong, Yuanguang Clan did not choose to attack here.

Dan Dan secretly left the ancient city and set up an array outside the city wall.

Of course, all of this was discovered by the people of the Celestial Race, because Lu Ming and their every move was under the supervision of the Celestial Race.

About Lu Ming's actions, it soon reached the ears of Exterminating Heavenly Monarch and Hundred Battles Heavenly Monarch.

"It seems that Lu Ming and the others want to set up an array in that place. Three days later, rely on the power of the array to break through the siege."

Hundreds of battles and heavenly monarchs.

"Yes, the master of the world, the control of the formation is extremely exquisite, surpassing most of the world tortoises, if he spends three days, plus some materials to arrange the formation, maybe he can really set up a very Powerful formation."

Extinct Heavenly Jundao.

"Then what do we do? Do you want to disclose this news to the people of Yuanguang Clan to find out?"

Hundreds of battles and heavenly monarchs.

Although they have a hostile relationship with the Yuanguang Clan, if they deliberately reveal the route that Lu Ming and the others might break through, the Yuanguang Clan will send people to guard that route even if they don't believe it.

"No, if Lu Ming and the others were killed by the Yuanguang clan as soon as they broke through, it would not do us any good..."

Extinct Heavenly Jundao.

Although he really wanted Lu Ming and others to be killed by the Yuanguang clan, he still hoped that Lu Ming and the others could break through for the sake of his own life. In that case, he would be able to draw away a part of the Yuanguang clan and relieve their pressure.

If it is easily killed, then the Yuanguang Clan cannot be taken away.

However, it is impossible for Lu Ming and the others to break through the siege too easily. Even the Yuanguang clan members did not find it, and they were surpassed by them.

The Yuanguang clan didn't notice it, so Lu Ming and the others broke through it. It didn't benefit them at all, but it made Lu Ming and the others cheaper.

"Well, when three days are about to arrive, I will deliberately reveal the route that Lu Ming and the others broke through, but not one route, but two, one true and the other false, so that the Yuanguang clan can know that Lu Ming and the others broke through. Because of the scattered power, Lu Ming and the others will really be killed."

Extinct Heavenly Jundao.

"Wonderful, then we will continue to send people to monitor."

Bai Zhan Tianjun clapped his hands.

.....

"Baobu, what are the plans for the Celestial Race?"

On the other side of the ancient city, Lu Ming asked Paobao.

The plan of the Celestial Clan was actually as early as Lu Ming's expectation. Someone was watching them secretly, and it was discovered by Bubbles a long time ago.

Bubble controls the power of time and space. It can hide in the emptiness and disrupt time. Only she monitors others, how can others monitor her?

Of course, it's another matter that the cultivation base is too much higher than the bubble.

So Lu Ming asked Paobao to monitor Extinction Tianjun and others secretly, to see what plans the Extinction Tianjun and others had.

"Brother Lu Ming, those guys are very bad. They plan to reveal the route arranged by Dandan to the Yuanguang Clan, but it is not one. They will also reveal a fake..."

Immediately, Paobao told Lu Ming all about her.

"It's a good calculation, but it's just as good as I want."

Lu Ming smiled.

The plan to exterminate Tianjun was also part of Lu Ming's plan.

Only by doing this, could Lu Ming's plan be carried out smoothly.

When the time comes, the Yuanguang Clan will attack the two routes, one true and one false, while Lu Ming and the others will break through the third route, which will definitely be much easier.

"Baobu, continue to secretly monitor the movements of the Celestial Race."

Lu Ming said to Bubble.

"Don't worry, leave it to me!"

Bubble chuckled, waved a small fist, his figure flashed, and disappeared into the void.

Three days passed in a flash, and soon the time limit given by the Yuanguang clan was coming.

In the past three days, Dan Dan had been pretending to be there in secret, and deliberately made it very secretive. Of course, all of this was seen by the Celestial Race.

When the deadline was approaching, the Celestial Race deliberately sealed the news in a piece of jade, hit outside the city wall, and was discovered by the Yuanguang family.

People from the Yuanguang clan reported it to Jiu Gongzi immediately.

"Jiu Gongzi, how could the Human Race that day be so kind to pass the news of Lu Ming and the others about to break through to us. In my opinion, this may be false."

An old man of Yuanguang clan said.

"It's not the same. The Celestial Clan has always had great feuds with Lu Ming and the others, and they will never die. It is not impossible that they will reveal to us the news of Lu Ming and others' breakthrough."

Another master of Yuanguang clan.

"To disclose to us the news of Lu Ming and his breakout. We easily killed Lu Ming and others. It is not good for their Celestial Race, but it will weaken their power."

The previous person immediately retorted. The two parties held their own opinions, and the discussions were inconsistent. In the end, they all looked at the Nine Young Masters and let them make a decision.

"I'd rather believe that there is something or not, and Lu Ming, we must not let it go."

Jiu Gongzi spoke indifferently, with cold murderous intent in his eyes.

Lu Ming, let him lose his majesty in front of his hands, he must kill Lu Ming to get his majesty back.

Chapter 4842: Seen through

"Furthermore, the Celestial Clan has given two routes, so the authenticity will be greatly increased. These two routes are likely to be true and false, deliberately distracting our strength."

Jiu Gongzi continued to analyze, revealing a wise light in his eyes.

"It is indeed possible that one is true and the other is false. Then we can only divide into two ways. As long as we find that the other way is true, the other way is to support quickly."

On the right side of Jiu Gongzi, sitting a young man in his twenties, handsome and extraordinary, spoke at this moment.

This is a 'before the light', he is the right arm of the Nine Young Masters, with an extraordinary status.

Those who can become the 'Emperor of the Light' have peerless talents, unlimited potential, and unlimited future achievements. They are the key training objects of the Yuanguang Clan. Although their status and status are not as good as those of the Nine Young Masters, they are not much lower. .

Therefore, he can sit on the right side of Jiu Gongzi.

Another man who seems to be in his thirties, sits on the left side of the Nine Young Masters, and is also a "Prince of Light".

As for the others, they all sit down.

"No, we have to divide our troops into three ways, so we are afraid that the two ways that the Celestial Race said are both false."

Jiu Gongzi said, his eyes flashed with cold light, and then he gave the order and began to arrange.

Soon, the more than one thousand yuan light race flickered and disappeared on the earth.

The cold wind howled, cold as a knife.

Lu Ming, Xie Nianqing, Qiuyue and others appeared in a few remote corners of the ancient city. They were all enveloped by the power of time and space. In addition, there was a formation of hidden auras laid down, silent, and did not disturb anyone.

"The time is coming, Dan Dan? Do it."

Lu Ming spoke to Dandan.

"give it to me."

After saying this, both hands began to quickly pinch Yinjue.

Countless runes sank into the void and disappeared? The next moment? At the other end of the ancient city? Outside the city wall, there is a faint light permeating, and there are runes shining? In the runes shining? Ten figures gather together. Out.

These ten figures are actually Lu Ming, Xie Nianqing? Qiuyue and the others.

Exactly? Just like a real person.

These ten figures? Like ghosts? They rushed toward the outside of the city wall.

"Lu Ming? You want to break through here? It's too naive."

A cold drink sounded, and then, in the void in front, a group of figures appeared.

The one headed is the 'Guangqian Wangshi' who seems to be in his twenties? Behind him is a large number of Yuanguang clan masters.

Powerful breath? Make the void tremble.

Lu Ming and others? There was no response at all, but countless runes appeared around their bodies? These runes formed a huge formation.

The formation frantically extracts the energy between heaven and earth, forming a war sword.

The figures of Lu Ming and others were inside this war sword, following the war sword, rushing outside.

In fact, the figures of Lu Ming and others in the formation are naturally fake. They were condensed by the formation of Dandan, but they are all shrouded in other formations, which seriously interfered with the judgment of the Yuanguang clan, so Yuanguang People of the clan thought it was true.

boom!

The people of the Yuanguang clan shot, thousands of beams of hair gathered together, colliding with the war sword condensed by the Dandan formation, erupting with a shocking roar, arousing thousands of sword energy, and rushing straight above the clouds.

The collision only lasted a few breaths, and the war sword condensed by the formation collapsed.

But at the moment when the war sword collapsed, another formation was revealed, and another war sword condensed out, covering Lu Ming and others.

The formation here took three days to lay out, during which a lot of resources were consumed.

Together, the power of deploying an array out of thin air and adding materials is different.

Various materials are added to stimulate the energy in the materials, and the power is definitely stronger than the power of arrays out of thin air.

With Dandan's current skills in the formation, which cost a lot of resources and three days to deploy, the power is already amazing. Although it is impossible to really break through the siege of such a diverse light race, it is still possible to entangle it.

The other end of the ancient city.

"It's getting started, let's go too."

Seeing the sword aura soaring to the sky at the other end, Lu Ming spoke, and then they rushed out of the ancient city silently.

Around this ancient city, in every area, people from the Yuanguang clan roamed and watched.

But now most of the Yuanguang clan are attracted by the two paths, one true and one false. The number of Yuanguang clan patrolling around here is not many.

In the ancient city where Lu Ming and the others were traveling, they encountered two waves of Yuanguang clan patrolling. There were two people in each wave, but they didn't react. They were killed by Lu Ming and the others with the momentum of thunder. Even the news was too late. Spread out.

After a while, Lu Ming and the others were getting further and further away from the ancient city. The ancient city had been left behind by them, and it was like a black spot.

But at this moment, Lu Ming and Xie Nianqing suddenly felt a sense of crisis in their hearts.

"Retreat!"

Lu Ming snorted softly, backing quickly.

Just after they retreated, there was a burst of sword light bursting out of the ground, stabbing Lu Ming where they had just stood.

Those are beams of hair.

Then, the soil on the ground burst, and dozens of Yuanguang tribes appeared.

Then, in front of Lu Ming and the others, their figures flickered, and one Yuanguang clan appeared.

There are more than two hundred people in full.

The headed young man, with cold eyes, was the Ninth Young Master.

"Sure enough, the two so-called routes are both false, and here is where you really break through."

Jiu Gongzi said coldly.

"How did you know we were going to break through from here?"

Lu Ming calmed down quickly and scanned the Celestial Race here.

Fortunately, I didn't see the "Prince of Light".

"Apart from the locations that we often attack, other than those two routes, do you have other options? Lu Ming, I have to say that you are very smart. Not only did you deceive the Celestial Race, but even this young man was almost deceived by you. pass."

Jiu Gongzi said.

"Didn't you have been deceived?"

Lu Ming mocked.

If they hadn't been deceived, how could there be only about two hundred Yuanguang tribes here? Obviously, the other Yuanguang tribes had gone to guard those two routes.

"Hmph, there are people like us, it's enough to kill you, make formations, and shoot!"

The Nine Young Master exclaimed his tyrannical murderous intent.

Hh hh hh...

The body of the Yuanguang clan flickered, and the beams of hair flying in the sky.

With Jiu Gongzi as the leader, four people pounced on Lu Ming and others.

These four have the strongest fighting power of Heavenly Monarch.

Of course, how could the four strongest heavenly monarchs be Lu Ming and their opponents, the assassin of the Yuanguang clan, using a combined attack formation.

There were a total of three joint attack formations, two seven-person joint attack formations, and a nine-person joint attack formation, rushing towards Lu Ming and the others together.

The rest of the Yuanguang clan controlled the beam hair with all their strength, and countless lightspeed hairs were intertwined with each other to form a net of heaven and earth, covering the entire area, blocking the retreat of Lu Ming and others.

Chapter 4843: Break through

The sky is full of beams of hair, forming a net of heaven and earth, covering a large area of the circle.

Obviously, the purpose of these Yuanguang tribes was to restrict Lu Ming and the others' actions, lest they escape.

The real main attack is the four powerhouses comparable to the strongest Heavenly Monarch level, including Jiu Gongzi, and three formations.

The two seven-person formations formed a huge figure, holding a war sword, slashing towards Lu Ming and the others at an astonishing speed.

And the formation of the nine people fighting together was to form a war sword, breaking through the air and killing the enemy, the fastest, approaching Lu Ming and the others quickly.

What made Lu Ming and the others truly jealous was the formation of the nine players.

When they attacked the defense formation of the ancient city before, Lu Ming and the others had seen the power of this nine-man combined attack formation. The people who deployed the formation were all powerful members of the Yuanguang clan, and the combat power exerted by the formation was sufficient. Comparable to the three strongest heavenly monarchs.

And the combat power of the two seven-person joint attack formations is also equivalent to the strongest heavenly monarch.

In sum, the Yuanguang Clan has the strength comparable to the nine strongest heavenly monarchs. This is definitely not something that Lu Ming and the others can fight against, so the Jiu Gongzi is very confident and firmly believes that he will definitely win Lu Ming and the others this time.

"Set up the formation and rush out in one rush."

Lu Ming drank low, his voice rang in the ears of the other nine people at the same time.

Hh hh hh...

Others flickered, iron plates appeared on their waists, runes filled, and they began to set up a combined attack.

Facing the Yuanguang clan's lineup, especially the nine-man team attack, they could only fight with the team attack.

Otherwise, no one can stop the formation of the nine players.

Even if the bone demon's defense is strong, the formation of nine players will not hurt him, but it is possible to knock him out.

In that case, Lu Ming's formation would be chaotic, and they would be divided and entangled by the Yuanguang clan. Once that happened, they would be very dangerous.

Also, the Yuanguang clan from other directions must be coming quickly? If they can't rush out of the siege quickly, once they are entangled for a while, wait for the Yuanguang clan from other directions to come? They have only a dead end.

Want to count on the Celestial Clan or the Yaxian Clan to support? That is impossible.

Therefore, it is the best choice to burst out the strongest combat power in the first place and arrange a combined attack to rush out.

The iron brand shines? Connect Lu Ming and their aura completely together? A huge figure condenses out, but it is not solid, and it looks a little fuzzy.

The huge figure is shrouded in pitch-black armor? Holding a halberd? Like an ancient \*\*\*\* of war.

Just when they came out of the formation of a joint attack? The formation of the nine Yuanguang clan members had already been killed.

Sword Qi whistling? Void tremor? Terrible sword light, cut off at Lu Ming and the others, as if to cut everything in half.

Undoubtedly, the nine-man team attack is very powerful? Can fight the three strongest heavenly monarchs alone? One can imagine how powerful this attack is.

Even the strongest Tianjun? Will be hit hard.

Hum!

Lu Ming and their figures condensed by the combined attack formation moved? The halberd slashed out, slashing towards the sword light.

boom!

The halberd collided with the giant sword, bursting out with a shocking roar and violent energy, swept all directions, and then the giant sword trembled endlessly and flew back.

With this blow, Lu Ming and the others completely gained the upper hand.

This made Lu Ming and the others happy.

Even if there is no perfect joint attack formation, the power is still amazing, far surpassing the strongest heavenly monarch, knocking the opponent's nine joint attack formations into flight with one blow.

If you can achieve perfection, the power will definitely be stronger.

"Chong, rush out in a hurry."

Lu Ming shouted, they controlled the formation and rushed forward.

Now, they have only one way, and that is to continue forward and break out of the encirclement.

It is impossible to retreat, and retreat will be surrounded by other Yuanguang clan.

The huge figure, stepping on the void, rushed forward like a ray of light, the halberd was raised high, and it smashed down.

This time, they were facing a two-seater formation of seven players.

"Block them!"

There was a roar from the two seven-person formations, and their two huge figures gathered together, brandishing their swords, trying to block Lu Ming and the others.

However, after two consecutive roars, the two seven-person formations fought together and retreated violently at the same time.

One of the figures condensed in a combined attack, trembling endlessly, almost collapsed.

kill!

How could Lu Ming and the others miss such an opportunity, before the others could kill them, continue to attack, go forward, and cut out another blow with all their strength, facing the collapsing formation.

bump!

This time, the formation of the seven-man joint attack was directly destroyed, the formation was defeated, and the seven figures retreated violently. Two of them broke apart shortly after they retreated, and they also set up their armors. The formation carrier also exploded.

This set of formations is tantamount to being destroyed.

However, Lu Ming and the others also suffered a few heavy blows from Jiu Gongzi and others, and their formation was almost broken.

"I'm going to die, my strength is running out."

Dan Dan yelled.

"I don't have much power left."

"me too!"

Bubbles and Ling Yuwei also spoke one after another, their faces a little pale.

The power consumed by arranging a combined attack is very huge.

Especially their combined attack formation, the power consumed seems even more terrifying.

But Dandan only has the sixth level of cultivation of the gods, Ling Yuwei and Baobao are the seventh levels of the cultivation of the gods, and their strength is limited, and they are almost reaching the limit.

"Hold on, the last resort, break through their encirclement..."

Lu Ming roared.

Regardless of other people's attacks, they rushed forward with all their strength, and the halberd slashed again.

At the same time they made a move, other people's attacks fell on them.

Boom boom boom...

The condensed figure of the combined attack formation shivered violently and was about to collapse.

Each of them burst their potential to the extreme and concentrate all their energy to maintain the formation.

boom!

Finally, their last move was to hack it out and cut it on the net of heaven and earth arranged with beams of hair from the Yuanguang tribe.

In an instant, hundreds of beams of hair were cut, surrounded by the Yuanguang tribe's arrangement, and a gap was cut abruptly. More than a dozen Yuanguang tribes did not even scream, and their bodies were torn by terrifying energy. Cracked and turned to ashes.

"go!"

Lu Ming and the others seized the opportunity and rushed through the gap, rushing out of the Yuanguang Clan's encirclement.

As soon as they rushed out of the encirclement, their condensed figures trembled and completely collapsed.

Dan Dan, Ling Yuwei, and Bao Bao were completely unable to support them, their entire body was squeezed out of strength, and even the people couldn't stabilize them. They fell towards the ground and were dragged by Lu Ming and the others.

They didn't stay at all. Lu Ming, Bone Demon and others took Dan Dan, Ling Yuwei, Baobao, and Tang Jun and Wanshen, rushing forward quickly.

Chapter 4844: The chase of the king before the light

Jun Tang's cultivation base was only Divine Master Seventh Layer, and like Dan Dan and the others, his strength was almost drained.

The cultivation base of the gods is much better in the eighth layer of the gods, but it also consumes a lot of money.

Lu Ming's taboo power is extremely strong, and although it is a lot of loss, it is not a major problem.

Lu Ming, Bone Demon, Xie Nianqing, Qiuyue, and Qiuqiu took the five of Dandan and them to fly forward with all their strength, but Dandan and the others seized the time to recover.

"Chasing, don't let them run away."

Jiu Gongzi roared, his face was very ugly.

This time he thought it was a good deal, but he didn't expect Lu Ming and the others to run away.

To be honest, he was not sure that Lu Ming and the others would go here before.

He actually believed that Lu Ming and the others would follow the two routes of truth and falsehood.

He took someone to guard here, just in case.

Therefore, they did not bring the two 'Kings of Light'.

The two 'King's Envoys before the Light' have their own missions, one guards the direction of the Dandan formation, while the other has to stare at the Celestial Race and the Yaxian Race.

They should also guard against the Celestial Race and the Yaxian Race taking the opportunity to make trouble.

However, he originally thought that with the power he brought, it was enough to suppress Lu Ming and the others. After all, there were three combined attack formations and four battle powers comparable to the strongest Heavenly Monarch.

It's just that he never expected that Lu Ming and the others would have a joint attack formation, and they were accidentally rushed out of the siege.

He was so angry that his murderous intent was extremely strong, and he led Yuanguang clan people hurriedly chasing Lu Ming, and at the same time, he transmitted sound to Yuanguang clan in other directions so that they could come and join as soon as possible.

As for the Celestial Race and the Yaxian Race? Just leave a few people to guard.

The two people flew in tandem, and the mountains and rivers were left behind by them.

Fortunately, the Absolute Yin corpses in this area? They were all concentrated around the ancient city before? They had almost cleaned it up, so I hadn't encountered a large group of Absolute Yin corpses while flying all the way? Otherwise, it would be another trouble.

Lu Ming and the others flew along the depths of the Zixiao Cave.

About ten minutes later? Dandan? Bubble? Ling Yuwei? Tang Jun and the five gods all recovered some strength.

After regaining some strength, Bubble shot, and with the power of time and space, enveloped Lu Ming and the others.

Suddenly, Lu Ming and the others' speed surged by a large amount. They went away quickly, leaving Yuanguang clan members behind.

"Damn it!"

Nine Young Master yelled? Not willing to let Lu Ming and the others go? Continue to chase people in a hurry.

Soon after, there was a streamer coming from behind, at an incredible speed? Soon after, he caught up with Jiu Gongzi and others.

This is a young man in his twenties, very handsome, with strong self-confidence between his brows.

It was one of the two 'King's Envoys before the Light', and his name was Yuan Yu.

"Yuan Yu, you just came, chasing forward, Lu Ming and those people, are right in front, and fetch their heads for me."

The nine sons drank.

"Ninth Young Master, don't worry, it won't be long before his subordinates will come to see you with their heads."

Yuan Yu said, suddenly accelerated, turned into a stream of light, flew forward quickly, and soon disappeared from the sight of Jiu Gongzi and others.

Lu Ming and the others, under the blessing of the power of Bubble Time and Space, moved extremely fast, all the way towards the depths of the Zixiao Cave.

But Dandan and the others, continue to seize the time to recover, and the \*\*\*\* pill will put money into their mouths without money.

Some \*\*\*\* pills are specially used to restore power, and the speed of recovery is extremely fast. It didn't take long before the power of the gods and others returned to their peak state.

"Do you feel that we have improved our control of the combined attack formation?"

Dan Dan asked.

"Yes, I feel that way."

Lu Ming nodded, and everyone else nodded.

Before they fully controlled the combined attack formation, confronted the Jiu Gongzi and the others, and endured several consecutive blows from each other. At that time, their spirits were condensed to the extreme, and at the last moment, they did have a big breakthrough in the combined attack formation.

"Find a place to experiment and see how far you are from perfection..."

Dan Dan smiled.

"You don't need to find a place, you will find out soon."

Lu Ming's face suddenly became solemn, and he looked back.

Immediately afterwards, Xie Nianqing and Qiuyue's expressions changed, and they also looked back.

In the rear, a streamer came quickly, a bit faster than them.

"It's the Emperor Guangqian of the Yuanguang Clan."

Qiuyue exclaimed.

"I'm here to take your heads and die obediently, lest you suffer unnecessary pain..."

It was Yuan Yu, the envoy of Guangqian who came after him. At this time, Yuan Yu's indifferent voice sounded.

"Set me up!"

Bubble Jiao drink, to use the power of time and space to interfere with Yuanyu.

"Bubble, don't waste your power. To deal with this person, you must deploy a combined attack formation."

Lu Ming pulled down the bubble.

An envoy of the Emperor Guangqian is too strong in combat power. Regardless of the fact that they have the fighting power of the five strongest heavenly monarchs, but facing an envoy of the Emperor Guangqian, it is also vulnerable and will be defeated and killed by each.

Only by deploying a joint attack formation can we fight against it.

Lu Ming and the others stopped flying and immediately started to urge the formation carrier.

The people of the Yuanguang clan are known for their speed. Every Yuanguang clan is very fast, not to mention the "King of the Light". The speed is even more amazing. Even if they continue to fly, they cannot escape each other. Pursue, it is better to take the initiative to fight, but can save some strength.

"You know you can't run away, but you still want to resist. I really can't help myself and die for me."

Yuan Yu's indifferent voice sounded, and his thousands of beam hairs turned into thousands of sharp swords, and they pierced Lu Ming violently.

Thousands of sharp swords are extremely powerful, and every sharp sword can kill an ordinary \*\*\*\* master pinnacle.

Thousands of them together, the power is unimaginable, and the ordinary peak of the gods, if there is no joint attack formation method, even if there are more people, it is useless.

To be honest, the combat power reaching the level of the 'King of the Light' has almost surpassed the combat power of the Divine Master Realm, and can already be used against the general origin.

Even if it is not as good, it will not be too far behind.

Lu Ming and the others dared to be careless, and immediately set up a joint attack formation.

A huge figure came out again.

What made Lu Ming and the others happy was that the figure condensed this time was much firmer and clearer than the previous one, and it was not so illusory.

They guessed it was right. In the previous battle, their control of the combined attack formation had indeed improved a bit.

Hum!

The huge figure wielded the halberd and placed a large light curtain in front of him.

Boom boom boom...

The beams of hair, bombarding the light curtain, erupted with a shocking roar.

The huge figure condensed in the combined attack formation, trembling violently, retreating constantly, and withstanding tremendous pressure.

Chapter 4845: Perfect teamwork

"So strong, is this the combat power of the Emperor Guangqian, too strong."

Dan Dan shouted, his face was ugly.

They set up a joint attack and felt tremendous pressure to resist.

The key is that his strength is rapidly consuming, and if this continues, it will not last long and it will be exhausted.

Not only him, Paobao, Ling Yuwei, and Tang Jun, they are all the same, their faces are a little pale, and the power in the body is rapidly consuming.

"Hold on and sublimate the formation to perfection. This is our only way out."

Lu Ming yelled, as the power of taboo continuously poured into the formation.

At this moment, everyone is pushing out their potential and elevating their spirits to the extreme.

Yes, there are only two ways to perfect the formation as quickly as possible.

The first is to spend a long time polishing, the time is long enough, the arrangement of the combined attack formation method will naturally reach the perfect stage naturally.

Most of the combined attack formation methods are running in this way.

Another is to use external force and strong external pressure to sublimate under pressure and perfect the formation.

The second method can be said to be very difficult, very difficult, unless the people in the formation have the talent of amazing talents, they can break through at the critical moment.

It just so happened that Lu Ming were all peerless geniuses.

It is impossible for others, but it is possible for them.

After everyone tried their best, the figure condensed by the combined attack formation was actually a little clearer.

"Negative Yu stubbornly resists, it is useless after all, kill!"

Yuan Yu coldly shouted? His whole body glowed, as if his body turned into a ray of light, and then his light-like body rushed out? Turned into a war sword? He slashed towards Lu Ming and the others.

Although it was only a sword? But the mighty power was even more terrifying than the hundreds of sword lights before.

Lu Ming and the others controlled the formation, and the huge figure slashed out with a halberd. The attacks of the two collided, and there was a loud noise.

The huge figure trembles constantly, every time it trembles? The body becomes illusory? It seems to collapse at any time.

"Finally can't bear it? So? The next move? Break the formation!"

Yuan Yu spoke indifferently? His light-like body turned into a war sword again, and continued to slash towards Lu Ming and the others.

He wanted this trick to break the combined attack formation of Lu Ming and others.

As long as the joint attack formation breaks, Lu Ming and the others will let him kill.

But just when the light of his sword was about to slash the huge figure? The huge figure that was already blurred? Suddenly quickly solidified? It seemed to become an entity.

A huge figure? Wearing a black armor with barbeds on the armor and holding a halberd? It looks like a warrior from ancient times.

I can't see the illusion at all, and it is no different from the entity.

It was perfect. At this moment, Lu Ming and their combined attack formation finally reached a perfect state, and everyone cooperated without any hindrance.

"kill!"

"kill!"

Lu Ming, Dan Dan, Wanshen and others shouted at the same time, urging a joint attack formation.

Huh!

The huge figure stepped in the air, the black armor shining, holding the halberd in both hands, forcefully burst out.

The halberd once again collided with the sword made by Yuanyu.

boom!

Thousands of vigor swept across all directions. This time, the black armored warrior transformed by the joint attack formation did not move at all. Instead, it was the war sword transformed by Yuanyu. It trembled violently. After about five breaths, Yuanyu was transformed by Yuanyu. The war sword exploded with a bump.

The black armored warrior kept on, and the halberd continued to slash, Yuan Yu was shocked and retreated madly.

His speed is really amazing, like a ray of light retreating, appearing tens of thousands of miles away in a flash.

But after all, it was a step too late. A huge wound appeared on his body, which almost cut him in half.

He was pale, with a trace of blood on the corners of his mouth, and his face was ugly to death.

He was actually wounded, and the combined attacking formation of ten people was able to wound him, which made him extremely murderous.

"It's such a strong attack power, this formation is incredible."

Dandan shouted excitedly.

Lu Ming, Xie Nianqing and others were also a little excited.

The power of this combined attack formation method was beyond their expectations. In a frontal collision, it was actually able to wound a 'King of Light'.

This proves that the combat power of the combined attacking formation method surpasses that of a light former envoy.

They had seen the Yuanguang clan's nine-man combined attack formation before, and it was not that strong, but it was equivalent to the combat power of the strongest heavenly monarchs.

There is still a big gap between it and the level of the "Prince of the Light".

And the formation of their ten players is only one more than nine, but the combat power seems to be much stronger, and it can suppress the Emperor Guangqian.

You know, those who set up the formation do not have the advantage.

Although Lu Ming, Xie Nianqing, Qiuyue, Bone Demon and Qiqiu all possess the strongest power of Heavenly Monarch.

But in the formation, combat power is often not reflected.

For example, secret techniques and tricks that can enhance combat power are not used in formations.

The formation is often related to the power of control and the realm of cultivation.

Although the power they control is very strong, their cultivation bases are too uneven.

There is the peak of the god, the nine-fold, the eight-fold, the seven-fold to the sixth-fold.

The span is too large, which is very unfavorable for the arrangement of the combined attack formation.

To set up a combined attack, it is best for everyone to have similar cultivation bases, at least not too much.

Before the Yuanguang clan or the Yaxian clan, the people in their formations were almost all of the same cultivation level.

At least it is also the cooperation between the nine-layer of the \*\*\*\* master and the peak of the \*\*\*\* master.

However, the combined attack formation that Lu Ming and the others arranged is still so powerful, which can only show that this formation is no small matter.

Combination of strikes is also worth tens of millions, and there are many kinds of points.

It is not the formation of the same number of people, the power is the same.

For example, the same nine-man team attack formation, different formations, the power will be different.

Obviously, it is no trivial matter that they get this set of combined attacking formations.

"Give him another trick, we will retreat, once again, can you hold it up?"

Lu Ming spoke to everyone.

"One trick is still possible."

"I can!"

Dan Dan, Ling Yuwei and others nodded.

Without further ado, they controlled the formation at extremely high speed. The black armored warrior stepped out in one step, spanning tens of thousands of miles, and the black halberd turned into a giant of one hundred thousand zhang, slashing towards Yuanyu.

Under the halberd, the void constantly collapsed and turned into nothingness.

"Yuanguang breaks the sky, Guanghua shines on Kyushu!"

Yuan Yu yelled, and the beam of light flew with long hair, emitting a brilliant glow, integrated with his body, and in an instant, countless rays of light flew out.

Each of these rays of light is a sword aura with infinite power, bombarding the black warrior.

However, the black warrior was like an invincible God of War, and those sword auras bombarded the black armor, making a clanging sound.

Chapter 4846: A huge vein

The black armored warrior was like a \*\*\*\* of war. The halberd slashed down like a broken bamboo, crushing countless rays of light, and finally slashed on Yuanyu.

Yuan Yu retreated violently again, this time his injuries were heavier than last time, and his breath was a little sluggish.

"go!"

Lu Ming and others were not staying, turned around and left, turning into a ray of light and disappearing into the sky.

It's not that they don't continue to attack, but that they are powerless, Dandan, Paobao and others' supernatural powers are going to be exhausted.

In fact, even if they still had enough energy, it was almost impossible to kill an envoy before the light.

Their combined attack formation method, although the combat power is stronger than that of a light front king, but it is not outrageous, it can be defeated, and it is impossible to kill.

If the other party wants to leave, they will definitely not be able to stop it.

Sure enough, it continued to consume, and when the other Yuanguang clan arrived, they couldn't leave.

Lu Ming and the others are most afraid of the combination of the twenty-one members of the Yuanguang clan. The twenty-one strong are in the formation. The power is very terrifying. It is absolutely above their combined attack. Once encountered, there is only one way to lose. .

After flying for a while, they dissipated the combined attack formation. As before, Lu Ming and the others flew forward with Dandan, Paobao and others, so that Dandan and Paobao could recover quickly.

"Damn..."

Yuan Yu roared, his face a little sordid.

He boasted about going down to the sea in front of Nine Young Masters, saying that he would take Lu Ming and their heads back. Not only was he unsuccessful now, but he was injured. If this was passed on, he would become a laughingstock.

"Don't want to run away from me."

Yuan Yu spoke indifferently, took out a few healing pills and swallowed it in his mouth. His figure shook, and he chased Lu Ming and others in the direction where they fled.

However, he was still injured after all, and his speed was greatly affected. For a while? He couldn't catch up with Lu Ming and the others.

Mainly because he didn't dare to use his best.

At his level? He is really close to the Origin Realm, and he can break through at any time? The more he gets to this time, the more cautious he is, so as not to leave hidden injuries and affect future breakthroughs.

So while he was injured? He didn't dare to use his best? He was afraid of leaving hidden injuries.

After flying for a certain distance? Bubbles recovered a bit? Using the power of time and space to help Lu Ming and the others increase their speed.

"That guy? Follow us all the time..."

Dan Dan said? His face was gloomy.

The guy he was talking about naturally meant Yuanyu.

Dandan would set up a surveillance array along the way, so he could naturally see that Yuanyu was not far behind them.

The reason why they didn't catch up was because the injury hadn't fully recovered yet? Second? It was also because they were afraid of Lu Ming's combined attack.

After a while, after all? He was also worried that Lu Ming and the others would recover their strength? Can they continue to deploy a joint attack formation.

So he followed far behind, obviously waiting for other Yuanguang clan people to come together.

"We must get rid of him, otherwise? We will be overtaken by the Yuanguang clan sooner or later."

Lu Ming said.

"It's difficult, a light former envoy, and the speed is too fast, it's hard to get rid of it."

Tang Jun sighed lightly.

Others also looked ugly.

Indeed, it is really hard to get rid of a light former envoy who is good at speed, following them wholeheartedly.

Roar...

Suddenly, a roar came from the front.

It's a dead body!

A large number of Jue Yin corpses rushed towards them, the number was hundreds.

The few headed by them have an overwhelming aura and are absolutely powerful.

Lu Ming and the others could only switch directions, and didn't want to entangle these deadly corpses.

Although they have the blue flame stone, they are not afraid of these deadly corpses, but once they are entangled, they waste time, and they will only let the Yuanguang clan people chase closer and closer.

But this area is far away from the ancient city before, and there are more and more Jue Yin corpses.

Next, they would encounter Jue Yin corpse at every turn, sometimes unavoidable, and inevitably have to entangle them. As a result, their speed becomes slower and slower.

"Hehe, see where you go."

Not far away, Yuan Yu's figure was looming, with a sneer on the corners of his mouth.

His injury has almost recovered, but he is not in a hurry to make a move, after all, he is still afraid of Lu Ming's combined attack formation.

All he had to do was to stare at Lu Ming and the others, and wait for Jiu Gongzi to bring people to meet, which was when Lu Ming and the others died.

Although it was a shame to fail to kill Lu Ming and others, there was nothing to do.

According to the news he received, Jiu Gongzi and others are coming soon.

Huh!

Lu Ming and the others sprinkled a large amount of blue flame stone powder and pushed back some Jue Yin corpses, then gathered together and rushed forward, finally breaking through the obstacles of Jue Yin corpses and continuing to fly.

But in all directions, Jue Yin Corpse roared like thunder, chasing them frantically.

"Trouble, the master of Yuanguang Clan is coming soon."

Dan Dan looked ugly.

According to the monitoring array he left along the way, it can be found that Jiu Gongzi is not far away with a group of Yuanguang clan masters.

Behind Lu Ming and the others, Jiu Gongzi took a group of masters and moved forward quickly.

People from the Yuanguang clan, without knowing what method they have mastered, can actually avoid the induction of Jue Yin Corpse, and their speed is almost unaffected.

"Lu Ming, came here unexpectedly, then let you be with Jue Yin Corpse."

Jiu Gongzi sneered.

Lu Ming and the others continued to fly, during which time they bypassed two batches of Jue Yin corpses.

"There is a mountain ahead..."

Bubble's sharp eyes, first screamed.

On the ground in front, there is a huge mountain range, rolling up and down, looking from a distance, like a giant dragon.

Vaguely, you can see buildings above the mountains.

This is a vitality!

And it was much larger than the aura that they had obtained before.

"I can sense that that mountain range has strong formation fluctuations!"

Dan Dan followed immediately.

"Go to that mountain, Dandan, this time I rely on you."

Lu Ming said.

When it flew in, the mountains became clearer, and the mountains became more majestic when viewed from a close distance.

On the mountain range, the peaks of the mountains tower into the sky, magnificent.

Many mountain peaks are built with temples and other buildings.

"It's definitely a vitality, but a huge vitality..."

The bone demon's voice sounded.

Everyone understands that this line of vitality is not trivial, otherwise, the people of the last era would not have built so many buildings on it.

In the last era, there should be a large number of masters practicing on it.

There are several cracks in the ground around the mountains, and the inside is constantly roaring. But it hasn't affected the qi pulse, I am afraid it will take a while before it affects this qi pulse.

Soon, they approached the mountain peak, but stopped.

Because the mountains are full of formations.

"The killing formations are all killing formations. After such a long time, this killing formation is still very scary..."

Once he observed carefully, his face was solemn.

"Dandan, can you take us in."

Lu Ming asked.

There are many killing formations here, which may not be a bad thing. If they can enter safely, they can use these killing formations to resist the people of Yuanguang clan.

Chapter 4847: Terrible formation

"No, the killing array here is too strong and unpredictable. I have never seen it before. It can't be broken. Let's change the position."

Dan Dan said, after speaking, they quickly changed positions.

However, Dan Dan still couldn't see through the formation of this position, so he had to change another position.

Roar...

In the rear, Jue Yin corpses roared like thunder, and many Jue Yin corpses culled at Lu Ming and the others.

However, Lu Ming and the others took out a large piece of blue flame stone. The blue flame stone emitted a blue glow. Those Absolute Yin corpses did not dare to approach, so they could only shout continuously around the periphery.

Puff puff...

Suddenly, more than ten Jue Yin corpses stepped into the range of the formation, the formation glowed, and a few purple lights flashed, and the bodies of the more than ten Jue Yin corpses were directly turned into powder and drifted away with the wind.

What a terrifying power!

Lu Ming and others felt chills. The power of this formation was beyond imagination. They knew the defensive power of Absolute Yin Corpses. Among the dozen Absolute Yin Corpses, there was a peak of God Lord, but there was no resistance at all. They were bombarded into powder by the formation, and if they entered it, the end would not be much better.

No wonder Dan Dan is so cautious.

In the distance, Yuan Yu's figure appeared, watching from a distance.

"A huge vitality, but it is shrouded by a terrifying killing array. These people actually want to enter it, really looking for death. No matter, I can just stay here and cut off their retreat."

Yuan Yu sneered, standing in the void, waiting quietly.

All he had to do was to block Lu Ming and the others, and wait for Jiu Gongzi to lead the others to arrive, which was when Lu Ming and the others died.

Next, Lu Ming and the others changed positions in succession.

"Dandan? Can you do it? If it doesn't work, we have to change our way as soon as possible. When the Yuanguang clan arrives, we won't be able to leave."

All the gods urged.

"Don't worry? Don't worry? In this direction, I'm a little eye-catching."

Dandan's eyes widened, staring at the front? The rune on the turtle shell?

At this moment, they are under one of the peaks.

It can be seen that this mountain? Among all the peaks of the entire mountain range? Are relatively large? The front? Is taller than this mountain? Few.

There are many buildings built on this mountain.

After a while...

Hh hh hh...

In the distant void, there are streams of light coming quickly.

The light condensed, revealing a group of figures, all of whom were masters of the Yuanguang clan? The head? It was naturally Jiu Gongzi.

There are about dozens of people? They are all top masters.

Obviously? This is only a part, because the strength is strong and the speed is fast? I'm here first.

Ho Ho Ho...

With so many people from the Yuanguang clan appearing together, naturally they couldn't hide those Jue Yin corpses. Suddenly, a large number of Jue Yin corpses roared and slaughtered the Jiu Gongzi and others.

"Looking for death, first destroy these deadly corpses."

Jiu Gongzi drank coldly.

Dozens of the top masters of the Yuanguang clan took action, and tens of thousands of beam hair flew out. Their beam hair, shaking with a peculiar amplitude, could easily break the defense of Jue Yin Corpse and tear the Jue Yin Corpse apart.

Soon after, hundreds of Jue Yin corpses were killed by Yuanguang people.

"No, people from the Yuanguang clan are here. They are not afraid of the corpses. We must enter the mountain quickly or leave..."

Tang Jun said with a solemn expression.

"Go, you follow me."

At this time, Dan Dan spoke, and then stepped out, heading into the mountain.

Lu Ming and others followed the faint pace, the killing array in this area was so terrifying, no one dared to be distracted.

Soon, they traveled more than a hundred meters.

"They can actually see through the formation and walk in."

Yuan Yu's face changed.

"Yuanyu, what's the matter?"

Jiu Gongzi asked coldly.

"Nine sons, this mountain is shrouded by a terrible killing array, and its power is terrible."

Yuan Yu explained.

"Run over, don't let them go deep into the mountains."

Jiu Gongzi was very decisive, and with the people of the Yuanguang clan, he rushed away from the enclosure of Jueyin Corpse and rushed towards the mountain.

"kill!"

Before the mountain peak was approaching, the Nine Young Master shouted and launched an attack.

The beams of hair grew sharply and pierced towards Lu Ming and others.

However, Lu Ming and the others have already entered the range of the formation method, so when the beam hair of the Yuanguang clan approaches the formation method, those formation methods are activated, and the purple light diffuses, sweeping away, cutting off all the beam hair. A ray of purple light even flew out, beheading two Yuanguang clan members.

This shocked the people of Yuanguang Clan, and stopped quickly, not daring to attack again.

Lu Ming and others breathed a sigh of relief.

At least, people from the Yuanguang clan can't attack them anymore.

At this time, another stream of light flew in the distance, still members of the Yuanguang clan, this time there were hundreds of Yuanguang clan, obviously other Yuanguang clan with weaker cultivation base, arrived.

The number exceeded five hundred. They teamed up to clean up the Jue Yin corpses in the surrounding area, and then fanned them, blocking Lu Ming's back path and surrounding the mountain.

Lu Ming and the others have no way back, they can only move forward.

"Come with me."

After some observations, Dan Dan spoke again and stepped forward.

There is no rule in the direction he moves forward, sometimes to the left, sometimes to the right, sometimes back, sometimes forward...

Soon, they traveled about a hundred meters.

Suddenly, runes filled the mountains somewhere, condensed a purple light, and cut to Lu Ming and the others.

"No, the formation is activated."

"Quickly get out of the way."

Lu Ming and others were shocked, and Lu Ming roared even more.

The first direction Ziguang cuts towards is Ling Yuwei.

Lu Ming's heart sank, with Ling Yuwei's cultivation base, if he was cut, only one would end up.

At the critical moment, a figure appeared in front of Ling Yuwei.

It's a bone demon!

The Bone Demon was the closest to Ling Yuwei, so he helped in time.

Keng!

Ziguang slashed on the bone demon, the bone demon's body shook wildly, and backed back.

It can be seen that a shallow trace appeared on the bone demon's body.

After the Bone Demon refines a demon bone in the Boundless Demon Abyss, the defensive power has been incredible. Anyway, whether it is the strongest heavenly monarch or the combat power of the "King of Light" level, it is difficult to stay on the bone demon. Under the slightest trace.

However, this purple light cut out a shallow trace on the bone demon's bones. This power is absolutely terrifying.

Except for the Bone Demon, there is probably no one present who can guard against it, even the ball.

Fortunately, the purple light was also blocked.

But although Ziguang was blocked, the bone demon's stature retreated, but it touched more formations.

On the surrounding mountains, runes continue to spread out.

"God is dead, I too..."

Dan Dan yelled.

"All of them are in the prey."

Lu Ming roared and manipulated the Precious Ring, an attraction appeared, and everyone was sucked into the Precious Ring.

Chapter 4848: Overtake

While Lu Ming took everyone else into the Precious Precepts, he himself entered into the Precious Precepts.

In the air, there is only one prehistoric ring floating.

When they entered the prehistoric ring, there were at least a dozen purple lights that slashed at them, on top of the prehistoric ring.

Dangdang...

The Honghuang Ring was chopped by the purple light and flew everywhere, triggering more formations, and terrible light burst out constantly, cutting on the Honghuang Ring.

Fortunately, the material of the Honghuang Ring is amazing. Once attacked by this formation, it is still intact, there is nothing, even a trace of it.

"What kind of ring is this, there is nothing wrong with it."

Outside the mountain, the Yuanguang clan was also amazed.

At this moment, within Hong Huang Jie, Lu Ming and others secretly breathed a sigh of relief.

"I said Dandan, can you do it, follow you, how can you trigger the formation?"

Bubble stared at Dan Dan uncomfortably.

Dan Dan's old face turned red, sophistry said: "What do you know, this formation is very advanced, it is a powerful formation from the last era. I have never seen it before. Mysterious and unpredictable. I can take you to such a long distance. , Already very good."

"I tell you, apart from this seat, few people in the universe can do it."

"Huh, bragging!"

Bubble obviously didn't believe it, gritted his teeth in anger.

"Dandan, can you take us out of the range of the formation, so that Hong Huangjie will always be attacked by the formation, it is no way."

Lu Ming said.

Although Honghuangjie temporarily blocked the attack of the formation, Lu Ming didn't know where the limit of the Honghuangjie was? If it took a long time and the Honghuangjie reached its limit, it would be troublesome.

Still have to leave as soon as possible.

"Lu Ming? Let my spiritual sense extend? Observe the trajectory of the formation? Then you control the movement according to what I said."

Dan Dan said.

Lu Ming nodded and proceeded as Dan Dan said.

The spiritual consciousness of him and Dan Dan? At the same time extend from the prey.

Dan Dan began to observe the operation of the formation.

After a while...

"Lu Ming? Control Hong Huangjie to move half a meter to the right..."

Dandan Transmission.

Huh!

Lu Ming was always ready, and upon hearing this, he immediately manipulated Hong Huangjie to move half a meter to the right.

This movement immediately avoided all the rays of attack? The surrounding formation? It seemed to have lost its induction? All of a sudden, it quieted down.

The next moment? The original boiling formation? Is it all turned off? The mountain became calm again.

"Dan Dan, I have two hands, continue."

Lu Ming smiled.

"Of course, don't look at who this seat is, how can the trivial formation stump me?"

Dandan's triumphant voice sounded? It seemed to be forgotten that it was his mistake before that caused their current situation.

After talking? Dan Dan continued to observe the formation.

Next? Under the guidance of Dandan, Hong Huang Jie kept moving, toward the mountain peak? The buildings on the mountain peak were getting closer and closer.

According to Dandan's observation, the area covered by the formation is only an area at the foot of the mountain. As long as you cross this area and enter the location of the buildings, there will be no formation.

Watching Hong Huangjie keep moving, Jiu Gongzi's face was a little hard to look.

"Yuan Jiu Gong, show your people how to break this formation?"

Jiu Gongzi looked at an old Yuanguang clan.

This old Yuanguang clan, named Yuan Jiugong, was a master of the Yuanguang clan.

"Yes, Ninth Young Master!"

Yuan Jiugong nodded, came to the formation, and observed carefully, but the more you observe, the deeper the brows of Yuan Jiugong will be.

After half an hour...

"Yuan Nine Palace, how are you looking, can you break this formation?"

Jiu Gongzi asked impatiently.

Because Hong Huang Jie was getting closer and closer to the buildings on the top of the mountain at this time, and seeing that he was about to leave the area covered by the formation, Jiu Gongzi became a little worried.

This mountain range is obviously a huge 'Qi Vein'. The strong men of the last era built palaces here. Among these palaces, there may be precious treasures.

Wouldn't it be a pity if it was 'spoiled' by Lu Ming and others.

Therefore, he can't wait to break through the formation and climb the mountain.

However, the Yuan Nine Palace frowned, with a look of embarrassment, saying: "Nine Young Masters, this formation is a powerful formation left by the Zixiao Palace in the last era. It is too profound and beyond the scope of subordinates' cognition. The subordinate watched for half an hour without the slightest clue."

"No clue? Then how can others see the clue?"

Jiu Gongzi scolded coldly.

"This one..."

Yuan Jiugong was speechless, unable to answer.

He was also very surprised in his heart. He really couldn't figure out that people with the Divine Master Realm could actually see through the formation here.

Anyway, with his understanding of the formation method, he couldn't see through.

"Nine Young Masters, his subordinates speculate that most of the opponents have a peerless genius with a formation. In the entire universe, among the masters of the Divine Master Realm, I am afraid that there are few who can see through the formation here."

Yuan Jiugong Road.

"You can't do it yourself, don't think others can't do it either."

Jiu Gongzi said unhappy.

He was really upset, if it weren't for a stronger formation master, I would have kicked Yuan Jiugong aside.

When the two were discussing, Lu Ming controlled Hong Huang Jie and finally passed through the area covered by the formation.

Hong Huangjie's light flashed, and the figures of Lu Ming, Xie Nianqing, Qiu Yue, Dan Dan and others appeared.

"Finally safe, Dan Dan, this guy, is a rare and reliable one."

Bubble muttered.

"Little girl film, how do you talk, what is it is rare and reliable once, I have always been very reliable..."

Dan Dan yelled.

"Go, let's go to these temples and see."

Lu Ming said.

They turned around and walked towards the temple.

Seeing Lu Ming and the others disappeared in the palace, Jiu Gongzi was even more upset.

"Yuan Nine Palace, can these formations break open?"

Jiu Gongzi asked again.

"It is almost impossible to break through the cultivation base of the Divine Master Realm, but it may not be completely impossible."

Yuan Jiugong Road.

"what way?"

Jiu Gongzi asked.

"Today, in the process of collapse of the Zixiao Cave Sky, several huge cracks have appeared around this Qi vein, which are continuously extending towards the Qi vein. Once it extends into the Qi vein, the Qi vein will collapse and it will definitely tear. Those formations."

"At that time, we can easily pass through the formation without our hands."

Yuan Jiugong Road.

"Nonsense, it depends on you, depending on the situation, it will take at least a year for the formation to collapse on its own."

Jiu Gongzi said coldly, his face ugly.

Do you want him to wait here for a year?

But wait, what can be done?

Even if he didn't kill Lu Ming and others, he still had to wait.

Such a huge vitality is definitely a treasure, not to mention anything else, it contains a huge amount of crystals, which is absolutely massive, and it is of great use to them.

Chapter 4849: Four statues

In the end, Jiu Gongzi decided to surround this place, wait for the Qi veins to collapse on its own, destroy the formation, and then rush in, and solve Lu Ming and others by the way.

"Jiu Gongzi, what should the Yaxian and Celestial Clan of that ancient city do? Those of us who stay there may have difficulty breaking through the formation of that ancient city."

A king's war ambassador asked.

Most of their masters came here, and the manpower surrounding that ancient city was running out. It was extremely difficult to break through the formation of that ancient city.

"Those celestial races and Yaxian races can't turn the wind and waves, they can be killed at any time later, but that ancient city must be obtained."

"The blue rock that built the wall of that ancient city can restrain the corpse. Although we are not afraid of the corpse, it takes a lot of effort to deal with it. With that kind of blue rock, you can save a lot of power. Up."

Jiu Gongzi said.

"It's actually very simple to conquer that ancient city. People from the Celestial Race and the Yaxian race must be frightened. They don't dare to stay for a long time. I'm afraid that once we solve Lu Ming and others, we will return to that ancient city. It is their death date. I guess they must now want to leave the ancient city and break through."

The king's war made Yuan Yu speak.

"Yuan Yu is right, so to take down that ancient city, it's very simple. Just let our people encircle one direction and put the other three directions. The Celestial and the Yaxian will definitely escape from the other three directions. I won't stay in that ancient city until we go back and sit and wait for death."

Jiu Gongzi said, and then let someone send a message back and act according to the plan.

Sure enough, half a day later, news came back from the ancient city? They encircled one and put three according to the plan. As expected, the Celestial Race and the Yaxian Race broke through from those three directions? The Yuanguang Race easily occupied the ancient city.

"Let them mine that kind of blue rock as soon as possible? After mining? Come here to meet."

"Also, send the news to Mynah so that he can bring him to reunite? Lest the Yin Sha clan and Cangming clan come to fight for this vitality."

Jiu Gongzi issued several more orders in succession.

.....

Lu Ming and others headed towards the building on the mountain? The building here occupies a very large area, forming a huge palace.

What a pity, how many halls Lu Ming and others have passed through? But they found nothing.

Didn't get any useful treasures? As for the magical medicine? Naturally, there is no? Because the air is always filled with a cold breath.

Lu Ming went all the way towards the depths of the building.

The temple here? It's not simple? One layer and one layer, as if to surround some precious things in the middle.

Soon, they came to the middle of the palace.

This is a huge yard, surrounded by a tall wall.

There is a gate on the wall? In front of the gate? there is a huge stone monument.

The stele is old? Full of the breath of time.

Hum!

When Lu Ming and the others approached the stone tablet? The stone tablet suddenly shook slightly, and light emerged from it.

"Be careful!"

Lu Ming and the others were shocked, their stature retreated quickly.

However, there is no danger. The stone stele just emits light, and the light is getting more and more bright. Finally, the light rushes into the sky and forms a picture in the sky.

In the picture, there are countless figures standing up. It can be seen that these figures are human races, and each one exudes a frightening atmosphere.

Although it was only through the screen, Lu Ming and others still felt tremendous pressure. This pressure radiated from the depths of their hearts, as if they were facing some irresistible enemy.

The strong, these figures in the screen are extremely terrifying strong.

Lu Ming, Xie Nianqing and others were shocked because there were too many, densely packed, covering the entire picture.

And the place where these strong men stand is the mountain range where they are now.

Suddenly, these figures rushed high into the sky and launched a terrible attack.

Countless attacks, rushing to the sky at the same time, turning the void into chaos, as if at the same time attacking some terrible existence.

At this time, a huge bone claw appeared in the sky. This bone claw was huge and boundless, covering the sky and the sun, and it was covered with a thick black air.

"this is..."

Lu Ming and others' eyes widened suddenly.

Because, the black energy on the bone claw looked very familiar, like the black energy covering the body of Jue Yin corpse.

The huge bone palms photographed them, and the bodies of the strong men who rose to the sky burst apart and turned to ashes.

The body and spirit are destroyed, and there is no bones.

It was too tragic, so many powerful masters, even through the screen, the masters who felt tremendous pressure on Lu Ming and others, turned to ashes under the palm of their bones, leaving nothing behind.

It was terrifying, that bone palm was terrifying, far beyond the imagination of Lu Ming and others.

Killing countless strong men with one palm, the palm of the bone continued to shoot, trying to destroy the entire mountain range.

But at this time, from another direction of the screen, a purple gas flew.

The palm of the bone changed direction, hit the purple qi, and then retracted into the sky.

When the picture reached this point, it suddenly disappeared, turned into a ray of light, and flew back into the stone tablet. The stone tablet became primitive again.

But for Lu Ming and others, it's been a long time to recover.

The picture just now is very likely a picture that actually happened before, and it was recorded by this stone tablet.

In the last epoch, terrible battles took place here. Countless masters died in battle, their body and spirit were destroyed, and nothing was left.

That bone claw, what origin, is too terrifying, even if you can feel it through the screen, it is a terrifying strength far beyond the original state.

There is also the black energy on the bone palms, almost exactly the same as the black energy on Jue Yin Corpse, but it is countless times stronger.

Is the Absolute Yin Corpse in Zixiao Dongtian related to this bone palm?

There is also the cold breath that always exists in the air, is it also related to this bone palm?

Many questions emerged in Lu Ming and their hearts.

After a long time, everyone recovered.

"Let's go in and take a look. Inside is the core of this palace."

Xie Nianqing said.

"I didn't feel the fluctuation of the formation, there is no formation in this area."

Dan Dan said.

"Let me go first!"

The Bone Demon stepped out, his defensive power was amazing, and he could resist any danger.

The bone demon passed through the side of the stone tablet and walked into the gate, without any exception.

Then, Lu Ming and others also passed through the gate one after another, without any danger.

Inside the gate, there was a courtyard with a wide area. As soon as they walked into the courtyard, Lu Ming and the others were shocked and attracted by the things in the middle of the courtyard.

In the middle of the courtyard, four statues stand.

It can be seen that two of the statues are human.

The other two statues, one of which looks like a dragon.

Yes, it looks very similar to the Shenlong, it should be said that it looks almost the same as the Shenlong, with nine dragon claws growing on its abdomen.

The fourth statue looks like a human race, but it is much taller and burly.

Chapter 4850: Evolutionary mysticism

The four statues look simple and unpretentious, and it is hard to see what material they are carved from.

Around the four statues, there are some figures sitting cross-legged, about one hundred in number.

The costumes worn by these figures are very different from today's costumes. They look very old, and look very similar to those corpses.

Lu Ming and the others raised their minds, and they were fully prepared for battle.

Who knows if these are absolutely Yin corpses.

Sure enough, the next moment, the more than a hundred figures moved, turning their heads one after another, looking at Lu Ming and others.

In the beginning, the eyes of these people were no different from those of normal humans, but immediately, the eyes of these people were enveloped in boundless darkness, like two deep wells.

Then, a thick black air filled them.

Absolutely Yin Corpse!

These figures have also been transformed into deadly corpses.

Ho Ho Ho...

The next moment, hundreds of Jue Yin corpses roared and culled at Lu Ming and them.

The sharp claws pierced the air, uttering a terrible whistle, tearing the space apart.

Lu Ming, Xie Nianqing, Qiuyue and others immediately took out a large amount of blue flame stone powder, or a long needle or shuttle cut from the blue flame stone.

The blue flame stone powder enveloped all Jue Yin corpses in, and then those blue flame stone needles or shuttles hit the Jue Yin corpse.

Many of the Absolute Yin corpses had blue flames, and the blue flames and black energy antagonized each other, causing these Absolute Yin corpses to roar constantly and were greatly affected.

However, there were also a few Absolute Yin corpses that could not be affected, and soon suppressed the blue flames and continued to kill Lu Ming and the others.

"Compared to the strength of the strongest Heavenly Monarch."

Lu Ming and others moved in their hearts.

There are a total of eight Absolute Yin Corpses, comparable to the strength of the strongest Heavenly Monarch, which is very terrifying.

There were only a hundred dead corpses, comparable to the strength of the strongest heavenly monarch, there were eight, and the proportion was ridiculously high.

These Jue Yin corpses were absolutely extraordinary existences before they were alive.

Lu Ming and the others suspected that this Zixiao Cave Sky, or even this mountain range, had absolutely Yin corpses comparable to the Origin Realm.

It's just that now the Origin Great Tribulation, Zixiao Dongtian is also within the scope of the Great Tribulation, and those Absolute Yin corpses comparable to the Origin Realm are all asleep.

Without time to think about it, Lu Ming and others tried their best to kill these deadly corpses.

Shoo!

Lu Ming brandished the God of War spear and stabbed more than a dozen shots in a row, stopping two Absolute Yin corpses comparable to the strongest Heavenly Monarch level.

The Bone Demon, Xie Nianqing, Qiuyue, and Qiuqiu also stopped the remaining six corpses that were comparable to the strongest Heavenly Monarch and other powerful Jue Yin corpses.

Their magic weapon, attached with the blue flame stone, can easily break through the defenses of Jue Yin Corpse and have a great advantage against Jue Yin Corpse.

And Dan Dan, Paobao, Tang Jun, Wanshen and Ling Yuwei were in the middle, constantly playing blue flame stones to assist Lu Ming and the others.

Puff puff...

There were constantly Jueyin corpses being shattered by Lu Ming and others, and fell here.

After a while, only eight Jue Yin corpses, comparable to the strongest Heavenly Monarch, remained.

However, these Absolute Yin corpses had to constantly fight against the blue flame of the Blue Flame Stone, which consumed a lot of time. The black energy on the last eight Absolute Yin corpses became thinner and thinner, and their combat power was constantly weakening.

In the end, they were divided and defeated by Lu Ming.

bump!

The last Absolute Yin corpse was split into eight pieces by the Bone Demon and completely destroyed.

"call..."

Everyone was relieved.

"Fortunately, most of the people here have been smashed into pieces by that bone palm. If they are all transformed into deadly corpses, we will all be cool..."

Dan Dan muttered.

Lu Ming and others are relatively speechless. Although this is disrespectful to the ancestors, it is true.

"These four statues seem to be extraordinary. The deadly corpses previously sat around them honestly..."

Xie Nianqing said.

Lu Ming and others also looked at the four statues.

Lu Ming was secretly surprised that he saw a statue of a nine-clawed dragon. These four statues were obviously left over from the last era. There was a nine-clawed dragon in the wild continent of the last era.

"No, there are some differences, but the dragon horns are different."

Lu Ming suddenly noticed something different.

The dragon's body looks similar, with nine claws, but the dragon's horns are very different from the dragons of the universe today.

Because the dragon horn of this statue is actually split.

Two dragon horns, each dragon horn, has nine forks, and the dragon horns of the current Shenlong have no forks.

"It seems that there are also dragon races in the Primordial Continent. Perhaps the dragon race in the universe today is the bloodline inherited from the spirit race of the last era..."

Lu Ming thought to himself, and then looked at the two human statues.

The two human statues look like a man and a woman. They both look very young. They are only in their twenties. The man is very handsome and the woman is beautiful.

Suddenly, Lu Ming felt that the two statues seemed to move.

Lu Ming's heart jumped, and he couldn't help taking a step back. When he looked at it again, he found that the two statues were still there.

Is it an illusion?

"I looked at this dragon, it seemed to have moved just now, did you see it?"

Dan Dan spoke suspiciously and looked at Lu Ming and others.

"I just looked at this statue and found it moved, but I took a step back and found that it didn't move again, strange."

The gods said, what he saw was the burly statue.

"I also watched this statue. It moved just now."

Bone Demon Dao, he and the gods looked at the same statue.

Later, Xie Nianqing, Tang Jun, and Ling Yuwei also spoke. They were looking at the statue of Human Race and found that they were also moving.

Lu Ming was sure that this was not an illusion, but a real occurrence, otherwise it would be impossible for everyone to feel this way.

"I will continue to observe. You can help me see if the two statues have moved."

Lu Ming said, and then stepped forward to observe the two human statues.

Sure enough, in Lu Ming's eyes, the two statues moved, and they actually flew up, dancing in the air, as if they were operating a certain attack method.

Lu Ming stepped back and looked carefully, and found that the statue was still standing there, motionless.

"Did the statue move just now?"

Lu Ming asked.

"No, I haven't moved."

Dan Dan, Xie Nianqing and others all answered like this.

"It seems that that kind of movement is not a real movement, but our consciousness is drawn, perhaps, it is moving in our consciousness."

Bone Demon speculated.

"This is likely to be a huge opportunity. These statues can evolve a certain attack method, which is unpredictable and may be beneficial to us."

Lu Ming said.

Lu Ming felt that he had benefited a lot after just watching it for a while.

A certain attack method evolved from this statue is mysterious and unpredictable, and contains endless mysteries.

Then they experimented.

Lu Ming found that he could feel the statue moving when he looked at the human statue or the statue of the dragon. In the end, there was no response to the burly statue no matter how careful he looked.
