Chapter 4851: The third thousand great ancient mysteries, success

Others are also different.

Xie Nianqing, Qiuyue, and Tang Jun can feel the statues moving only when they look at the two human statues, but they don't feel the slightest feeling when they look at the other two statues.

Dandan and Paobao, only when you look at the dragon statue can you feel the other three statues, nothing unusual.

As for the gods and bone demons, looking at the burly statue, you can see the statue moving, but when you look at the two human statues and dragon statues, there is no feeling.

As for the ball, no matter what statue I looked at, there was no response.

The strange thing is Ling Yuwei, she actually only has feelings for two human statues.

Lu Ming speculated that this had something to do with blood. Lu Ming had human and dragon blood in his body, so he reacted to the human and dragon statues.

The same is true for other people, the blood in the body corresponds to the statue.

However, Ling Yuwei, who is an elven clan, actually only has feelings for human statues. Lu Ming speculated that the elves and humans are closely related, perhaps because of the multiplication and change of the human blood.

"I'll protect the Fa for you, try it out and see what you gain."

Bone Demon said.

"I also came to protect the law for you, anyway, I didn't respond to any statues."

The ball also said.

Lu Ming and the others nodded, let the bone demon and the ball protect the law for them first. They first observed the statue carefully to see how they reacted.

Lu Ming, Xie Nianqing, Qiu Yue, Ling Yuwei, Tang Jun, Qiuqiu, Paobao, the eight gods approached the statue, then sat cross-legged, staring at the statue seriously.

Suddenly, in Lu Ming's eyes? Three of the statues moved.

Two human statues, stepping in the air, dancing with their arms? Their body shapes are also constantly changing positions.

That Shenlong? Is also moving? The dragon's body twisted, as if it contained numerous changes.

"this is..."

Lu Ming was shocked.

He found that the three statues were all evolving some kind of secret technique? No, or not called secret technique, but similar to secret technique.

But it changes a lot? Every move? It seems to contain infinite mystery.

Every move? It seems that there are dozens of methods of attack.

Hum!

At this moment? Lu Ming's big ancient sacred stone in the sea of consciousness glowed? Numerous patterns appeared on the surface, which seemed to echo the movements of the three statues.

"Wonderful, wonderful, I feel that the level of mystery is far beyond the three thousand ancient mysteries I have understood? Can I comprehend the third thousand ancient mysteries from it?"

Lu Ming thought? His eyes lit up.

He has been trapped by the third thousand great ancient mysteries for many years? He hasn't made a breakthrough? He was a little eye-catching when he came in, but he didn't know how long it would take to fully understand.

But he discovered that the mysterious art evolved from the three statues contained profound cosmic mysteries on top of the three thousand ancient mysteries.

After just watching it for a while, Lu Ming seemed to have a lot of experience.

Perhaps, with the help of three statues, the 3,000th ancient mystery can be completely understood.

Crisis is often accompanied by chance, perhaps, this is his chance.

Immediately, Lu Ming sank, and he thought about it, and learned what was useful to him from the evolution of the three statues.

Sure enough, in just a few days, Lu Ming had gained a lot, and he had a lot of clarity about the direction of the third thousand great ancient mysteries.

It is only a matter of time before we have a direction and come to realize it.

As time passed, the third thousand ancient mysteries became more and more clear in Lu Ming's heart.

A month later, in Lu Ming's mind, he already had an outline for the third thousand great ancient secret techniques.

Others seem to have gained a lot, immersing themselves in the cultivation, with no distractions.

In the past month, apart from the larger cracks around the mountain peaks, there was occasionally a dull roar from the ground, no other abnormalities.

The Bone Demon looked a little itchy.

"Qiuqiu, you help us protect the law, I will also go to see and understand, if there is a situation, immediately wake us up."

The bone devil faced the ball fairway, and then also came to the burly statue, joined the enlightenment.

Time flies, and half a year passed in a blink of an eye.

In the past six months, others have gradually recovered from their insights.

Ru Dandan, Paobao, Ling Yuwei, Ten Thousand Gods, and the Five Qiuyue were the first to wake up.

Then came the Bone Demon, Xie Nianqing and Tang Jun.

Lu Ming is the last one.

On this day, Lu Ming suddenly exploded with a powerful aura, and a strong and strong taboo force rushed out, covering his whole body.

There are tens of thousands of light spots everywhere in his body, just like tens of thousands of stars.

"Lu Ming, this is a breakthrough."

Dandan said in astonishment.

"No, there is no breakthrough, the cultivation level is still the eighth layer of the \*\*\*\* master, but his power seems to have skyrocketed by a lot..."

Tang Jundao.

"It's terrifying, it's the power of taboo. His taboo power has undergone tremendous changes, and even I feel terrified."

The bone demon's voice sounded, and two groups of soul fire throbbed in his eyes, full of shock.

More than an hour passed before the aura on Lu Ming calmed down, and Lu Ming opened his eyes.

"Success!"

Lu Ming's eyes were full of surprises.

The third thousand kinds of great ancient mysteries were really successfully comprehended, turned into mystery runes and integrated into the cells.

"My taboo power seems to have changed dramatically."

Lu Ming felt the taboo power in his body.

When the third thousand great ancient mysteries were successfully comprehended, he could clearly feel that the power of taboo had undergone tremendous changes, as if a qualitative change had taken place.

It has become more vigorous, more condensed, and more terrifying than before.

It seems to have changed from a low-level power to a high-level power.

boom!

Lu Ming waved his hand at random, and a big explosion occurred in the void, which was beaten into chaos.

"Sure enough, the power of random strikes is amazing, much stronger than before, and I feel that there have been great changes in the breaking style and the prehistoric style..."

"And... what is that feeling? It seems to touch the origin?"

Lu Ming became more excited the more he thought about it.

He had successfully comprehended the third thousand great ancient mysteries, and he felt an earth-shaking change.

Whether it is the power of taboo or the secret technique, there is a qualitative improvement.

Moreover, he still had a kind of comprehension in his heart, vaguely touching a more terrifying secret technique.

That seems to be... Yuan Shu!

Yes, Lu Ming estimated that it was a terrible secret technique that could only be understood in the original state, that is, the source technique.

Although he didn't fully understand it, it was because his cultivation level was still low, but he already had a direction.

He is extremely yearning for the power of Yuanshu.

Ye Immortal is so terrifying because of its origin technique.

"Lu Ming, what do you mean by standing there giggling?"

Dan Dan's face suddenly appeared in front of Lu Ming, looking at him curiously.

"Ahem, nothing?"

Lu Ming smiled awkwardly, it turned out that he had just smiled unconsciously.

In the eyes of others, he became standing there giggling.

Chapter 4852: Distribution

Lu Ming glanced away, and found that Xie Nianqing, Qiu Yue and others looked at him curiously.

"Haha, this time the harvest is not small, what about you guys, what are the gains when you end your enlightenment so early?"

Lu Ming changed the subject. In fact, he was also very curious about what other people had gained.

"This time I have gained a lot. I have a deeper understanding of the formation method, and I have a deeper understanding of the various secret arts I have mastered in the past. The power has increased greatly. Most importantly, I vaguely touched a An extremely powerful secret technique. I communicated with Bone Demon and the others before. This is probably a source technique."

Dan Dan was the first to speak.

"Dandan, have you enlightened the origin technique?"

Lu Ming asked quickly.

"No, not yet, just an outline."

Dan Dan said.

"I'm the same, the power of other secret techniques has skyrocketed, and I have also touched the direction of the source technique."

Bubble Road.

Then, Qiuyue, Ling Yuwei, and the gods all spoke up. Their gains were similar to those of Dandanbubo.

"What a mysterious statue..."

Lu Ming was secretly surprised.

Just sitting cross-legged in front of this statue for half a year has actually made such a big gain.

This gain is amazing.

In general, only by breaking through to the original source realm, completely controlling the power of the source, and based on the power of the source, can you comprehend the source technique.

In the Divine Master Realm, it is almost impossible to comprehend the Source Art.

Because there is no foundation, and even the power of the source is not mastered, what is the use to understand the source art?

You know, many of the existence of the origin realm do not comprehend the origin art? It can be seen that it is very difficult to understand the origin art.

Not to mention being in the Divine Master Realm, even if only one direction? An outline? is inconceivable.

But Dandan? Bubble, Qiuyue, ten thousand gods? Ling Yuwei five people? Just half a year of comprehension in front of the statue, they actually have such a harvest, which can be called sky-defying.

"Xiaoqing? How about you? What are the gains?"

Lu Ming's gaze looked at Xie Nianqing? Tang Jun? and the Bone Demon.

The three of them? Different from Qiuyue and the others, the three of them have actually reached the original state, so the harvest will be different.

"Lu Ming, I guess, once my cultivation level reaches the peak of the gods? I can use the origin technique."

Xie Nianqing smiled.

Lu Ming's eyes lit up.

Normally speaking? Only the cultivation base reaches the original source state? Can the source technique be used.

Like the immortal kind? It's Tele.

Before the reincarnation of Ye Immortal Wheel, the realm was too high, much higher than that of Xie Nianqing? Tang Jun and the others in the previous life, so that they could use the source technique in the \*\*\*\* master realm.

But that kind of character is rare in the world, and Lu Ming has seen one immortal anyway.

Being able to perform the Origin Art at the peak of the God Lord is already incredible.

Obviously, Xie Nianqing has gained a lot.

It is conceivable that once Xie Nianqing breaks through to the peak of the gods and can use the source technique, the combat power will be amazingly improved.

"I'm the same. Once the cultivation base reaches the peak of the gods, you can use the source technique. Not only that, but the understanding of other secret techniques has also improved a lot."

Tang Jundao.

"Hahaha, I can use the origin spell now."

The bone demon laughed.

"it is good!"

Lu Ming was overjoyed.

This time it was really a big gain. The Bone Demon was able to use the Origin Technique, and its combat power absolutely skyrocketed. With its own extremely powerful defense power, it might be able to compete with the Emperor Guangqian.

"Can my combat power compete with the 'King of the Light'?"

Lu Ming thought, looking forward to it very much.

Before he could comprehend the third thousand great ancient mysteries, if he broke out with all his strength, his combat power would not be weaker than the strongest heavenly monarch.

Now that the third thousand great ancient mysteries have been comprehended, the power of taboo has undergone a qualitative change, and the combat power has definitely skyrocketed. Can it fight against the 'King of Light'?

Is it possible to fight against the nine-fold God Lord Ya Immortal?

I haven't tried it, and Lu Ming doesn't know.

"It's a pity, this statue is wicked, after a serious enlightenment, it won't work if you get closer."

Dandan sighed.

"No effect?"

Lu Ming was surprised.

Seeing everyone nodding their heads, they obviously tried.

Lu Ming also tried, and continued to approach the statue. As expected, the statue did not respond at all, as Dan Dan said.

"It seems that one person can only seriously enlighten once."

Lu Ming sighed.

He originally wanted to continue to comprehend, completely comprehending the Origin Art, it seems impossible.

However, the harvest this time is big enough.

Rumble!

At this time, bursts of fierce roar came, and the mountain trembled constantly.

"It seems that this mountain range is about to collapse."

Lu Ming frowned.

"Go out and see how far it is."

Dan Dan said.

When they came outside the temple, they found several more cracks around the mountain range, extending all the way to this mountain range.

Some mountains were cracked, dense runes appeared on the mountains, many runes were torn apart, and some formations collapsed.

Fortunately, the mountain range is deeper. There is a huge crack on their mountain peak, and many formations have been torn apart.

"I estimate that there will be at most half a year before the formations on this mountain will be torn apart."

Dan Dan said.

"Those Yuanguang tribes are still guarding outside, it's really lingering."

Wan Shen said unhappy.

Lu Ming and the others frowned, because they found that the Yuanguang clan surrounding the mountain was more than one thousand. It seemed that the Yuanguang clan around the ancient city had all been transferred.

"They not only want to kill us, but they also want to get the treasure of this 'qi vein'. Naturally, they will not leave easily. All we can do is to improve our strength as soon as possible."

"I propose to distribute those Honghuang Crystals and nine Heavenly Jade Ginseng to the four of Dandan, Paobao, Yuwei, and Tang Jun."

Lu Ming said.

"Give it to us, Lu Ming, don't you need Honghuangjing's breakthrough more?"

Ling Yuwei immediately shook her head, trying to leave Hong Huangjing to Lu Ming.

Lu Ming's cultivation base is the eighth level of the divine master. Once he breaks through the ninth level of the divine master, his combat power will be greatly improved, more than their breakthrough.

Lu Ming shook his head and said, "I want to break through to the Ninth Layer of the Divine Master. I need at least five billion yuan of prehistoric crystals. At present, these prehistoric crystals and magic medicine are far from enough. Instead of giving it to me, I might as well leave it to you. , Our combined attack formation can last longer."

Lu Ming explained.

He had already thought about this.

He needs too many prehistoric crystals, and the prehistoric crystals they got before are far from enough.

But for Dandan, Ling Yuwei and the others, it was enough for each of them to break through at least one weight.

Now, Ling Yuwei, Paobao, Tang Jun's cultivation base is the Seventh Divine Lord.

Dandan's cultivation base is the sixth layer of the Divine Lord, and there are not many crystals they need to break through.

As for the cultivation base of the gods, it is the eighth level of the divine master, at the same level as Lu Ming. The power he controls is not trivial. It breaks through the nine levels of the divine master. Even if the required prehistoric crystals are not as good as Lu Ming, the number is amazing, and he is not enough to break through.

Chapter 4853: Yuanbaji

Lu Ming's proposal, Xie Nianqing, Qiuyue, Bone Demon and others also agreed. In the end, Ling Yuwei, Tang Jun, Dan Dan and Paobao could only agree with Lu Ming.

They also knew in their hearts that what Lu Ming said made sense.

The stronger their average strength, the closer they are, the stronger the power of the combined attack formation, but the longer the time.

Their overall strength will still be strong.

Immediately, they returned to the temple and came to the four statues. Then Lu Ming waved his hand and a huge vein of prehistoric crystal appeared.

The transparent rock is inlaid with densely packed prehistoric crystals.

Lu Ming's ten people joined forces and began to dig out the prehistoric crystal.

The number of Honghuangjing is too much, even with his ten people working together, without eating, drinking or sleeping, it took a full half a month to unearth all the Honghuangjing.

After counting, the number has reached 1.2 billion.

1.2 billion prehistoric crystals, this amount is already more than the original treasure house of the heavenly palace.

In addition, there are nine huge Tianyu Ginseng.

Ordinary jade ginseng is only a foot long, but these nine jade ginsengs are actually three meters long, like three small trees.

The volume is thousands of times that of ordinary jade ginseng, and the energy essence contained in it is thousands of times.

Lu Ming and the others estimated that the energy contained in a single celestial jade ginseng is equivalent to 50 million prehistoric crystals.

Nine natural jade ginsengs are equivalent to more than 400 million wild crystals.

Unfortunately, even if these add up, for Lu Ming, it is still far behind.

But for Dan Dan, Ling Yuwei, Paobao and Tang Jun, it was enough.

They are all peerless geniuses? The power they control is extremely powerful, and the energy needed to break through is much more than ordinary people? But their cultivation base? After all, they are still low.

Ling Yuwei? Tang Jun and Paobao are both Divine Lord Seventh Layer, even Lu Ming? From the Divine Lord Seventh Layer to the Divine Lord Eightfold? It only needs about 600 million Yuan Huangjing.

And Ling Yuwei, Tang Jun and Paobao are even less? About two to three billion? Can break through.

Two to three billion per person? Add up to more than one billion.

Dandan's cultivation base is lower? Only Divine Master Sixth Layer? Needs less energy.

"These nine celestial jade ginsengs? Keep them first. These prehistoric crystals are enough for us to break through."

Ling Yuwei pondered for a while, and still handed the nine Tianyu Ginseng to Lu Ming.

"Okay, then I'll plant it first."

Lu Ming nodded.

"Should I arrange a formation first? It can speed up our refining of the prehistoric crystal..."

Dan Dan said? Then began to deploy.

This formation is called the Great Heaven Refining Yuan Formation, which Dan Dan obtained from the ruins of Wanhua, which can greatly accelerate the speed of refining the prehistoric crystal or magic medicine.

A few days later, a formation? Shrouded this place.

Afterwards, Ling Yuwei, Tang Jun, Dan Dan and Bao Bao, sitting cross-legged, began to refining the prehistoric crystal.

Ling Yuwei, Dandan and Paobo condensed the original seeds at the beginning, and after so many years of insight, the direction has long been clear, as long as there are enough resources, they can continue to make breakthroughs.

As for Tang Jun, let alone, the previous life is the existence of the original state, the realm perception and direction, that is incomparably clear, and also has enough resources, and it can be quickly broken through.

But Lu Ming, Bone Demon, Xie Nianqing, Qiuyue and others did not sit idle, each studying the secret technique to consolidate the understanding of the previous period.

Dandan broke through the fastest. He only needed tens of millions of primordial crystals to break through from the sixth layer of the divine lord to the seventh layer of the divine lord. Reached the Seventh Level of God Lord.

Later, after consolidating for a while, he continued to refine the prehistoric crystals and began to attack the Divine Master Eightfold.

About three months later, Ling Yuwei, Paobao, Tang Jun, and Dan Dan broke through one after another, and their cultivation reached the eighth level of the \*\*\*\* master.

Lu Ming secretly marveled that this Great Heavenly Lianyuan Formation was indeed mysterious, allowing them to refine the prehistoric crystals at a speed that increased dozens of times.

All four of them reached the eighth layer of the Divine Master, and the 1.2 billion prehistoric crystals were almost consumed.

At this time, the cultivation bases of the ten of them were Bone Demon and Ball Ball, which were the pinnacle of God Lord.

Xie Nianqing and Qiuyue are the ninefold gods.

Lu Ming, Wan Shen, Ling Yuwei, Tang Jun, Dan Dan and Pao Bao are all eightfold gods.

The people's cultivation bases were closer, and they tried to deploy the combined attack formation, and they found that the power of the combined attack formation had increased a lot, and the duration was several times longer than before.

This undoubtedly improved their overall strength a lot.

But by this time, the vibration from the ground became more and more intense.

A huge crack appeared on this mountain peak, which almost tore the mountain apart. If it hadn't been for the formation on the mountain, it would have been torn apart.

But even so, it won't last long. Many formations on the mountain peak are damaged. It only takes about two or three months before those formations will be completely destroyed.

"Dan, we should also make arrangements."

Lu Ming said to Dan Dan.

"Give it to me, I can use the damaged formations of this mountain and the remaining formations here to build a killing formation. If those Yuanguang tribes are killed, they will definitely be able to drink a pot, hehehe..."

Dandan sneered.

They left the temple, walked down the mountain, and came to the edge of the formation. After observing for a while, Lu Ming and others left, looking for a hidden place to hide, and Dandan used the formation to hide his figure. Begin to deploy.

None of the Yuanguang people found out about all this.

"Look at there, many people are from the Yuanguang clan..."

Suddenly, Bubble whispered and looked into the distance.

Lu Ming and the others also noticed that in the distance, there were streams of light flying quickly.

They were obviously from the Yuanguang clan, about 1,000 in number, not the group of people led by Jiu Gongzi, because they had been around the mountain without moving.

It was other Yuanguang clan who arrived.

The hearts of Lu Ming and others sank again.

The number of Yuanguang clan has greatly increased, and their pressure has increased.

Under the mountain, Jiu Gongzi and others naturally discovered it.

"It's Ba Gongzi and they are here."

Beside the Ninth Young Master, a 'War Envoy under the King' whispered.

Soon, those Yuanguang clan came to the front.

"Myna, why did you come so late? I have already given the news."

Jiu Gongzi flew forward.

Among the Yuanguang clan behind, the headed one is also a young man. He looks like he is in his twenties, wearing a green robe, and his appearance is somewhat similar to that of Jiu Gongzi.

He is the eight son of Yuanguang clan, named Yuan Baji.

The name of Jiu Gongzi is Yuan Jiuji.

"Brother Nine, I'm sorry, we were late because we attacked a vitality."

Yuan Baji smiled faintly.

"Attacking a vitality, I must have learned a lot from Brother Nine."

Yuanjiu geek set a sentence.

"Fortunately, compared to this vitality, that's far worse. The Lu Ming you mentioned is still inside?"

Yuan Baji looked at the mountains.

"Yes, it's still inside, and there will be a few months left before the formation of this mountain will be torn apart."

Yuan Jiu Ji Dao.

Chapter 4854: Wait for the rabbit

The people of Yuan Jiu Ji and Yuan Ba Ji converged, but did not find that in the other two directions of this mountain range, two groups of people were hidden secretly.

These two groups of people are surprisingly the Yaxian tribe led by Cangqiang, as well as the Celestial race led by the Exterminating Heavenly Monarch and Baizhan Heavenly Monarch.

At the beginning, after they rushed out of the ancient city, they separated and each found a secret place to hide.

But some time ago, the qi vein that Lu Ming and the others were in split, and the divine light of the cave in the depths of the qi vein rushed out from the ground, directly above the sky, and could be seen from a long distance.

The Yaxian tribe and the Celestial tribe came here when they saw the divine light of Dongtian, but as soon as they arrived nearby, they found the Yuanguang tribe. In shock, they looked for a hidden place to hide nearby.

At this time, they were surprised to see a group of Yuanguang clan coming.

However, this 'qi pulse' is too big, much larger than what they had encountered before, and it definitely contains a huge amount of treasures. They are so excited that they don't want to leave.

Although their strength is far inferior to that of the Yuanguang Clan, this "qi vein" is huge and covers a very wide area. It is not that they can't fish in troubled waters and get some benefits.

Besides, they have long sent news to their people, letting other people meet here.

When you meet with other masters, you will have a lot more control.

"Depending on the situation, Lu Ming and the others fled into that mountain range, so the Yuanguang clan members have been surrounded there."

Extinct Heavenly Jundao.

"There are many formations in the mountains. When the people of the Yuanguang clan kill in, they will have no way to advance or retreat? There is only a dead end, hehe."

Bai Zhan Tianjun sneered.

"By the way, the ancestor has no news yet?"

Extinction Tianjun turned around and asked an elderly Tianjun.

"Not yet... wait a minute!"

That old Tianjun just shook his head? Suddenly his expression moved? Take out a sound transmission jade talisman and look at it? Then he showed joy.

"Yes, there is news from the ancestors that they are attacking a 'Qi Vessel'? As long as they obtain the treasures inside, they will rush to this side, so let's not act rashly for the time being."

The old way of heaven.

"Okay, is there an ancestor here? We are sure? It's much better."

Extinct Heavenly Monarch? Bai Zhan Tianjun and the others were all showing joy? I was greatly relieved.

Facing the creatures in the forbidden area? Their pressure is too great? They are always in crisis, and they are worried. With the immortality, they seem to have the backbone.

In their hearts, no matter how big the crisis? Ye Immortal will lead them to resist the past.

Because Ye is immortal? He is the strongest ancestor in the history of the human race.

Another direction? Yaxian clan is also preparing.

Soon? Three more months passed.

This area was constantly roaring, huge cracks appeared on the ground, and purple divine light from the cave sky, constantly rushing out from the ground.

The mountain that Lu Ming and the others were on was almost torn apart, and the formations on the mountain were constantly torn and damaged.

Of course, some peaks in the deeper part of the mountain range have not been damaged or split yet, and are still shrouded in terrifying formations.

But torn apart, sooner or later.

"It's done, the formation of this mountain has been completely destroyed, there is no threat to us, and now we can kill it."

Yuan Yudao, the master of formation of the Yuanguang clan.

"It is indeed damaged."

Yuan Baji also brought a master of formation, nodding.

"Myna, in order to avoid being escaped by Lu Ming and the others, we took people to attack from the two directions of the mountain, how about?"

Yuan Jiuji looks towards Yuan Baji Dao.

"It's just what I want, this Lu Ming, who dares to kill a member of my clan, is heinous, see who can kill him, let's go!"

After Yuan Baji finished speaking, he took the master he brought and rushed towards the side of the mountain.

"go!"

With a wave of his hand, Yuan Jiuji brought a group of masters and rushed towards the mountain where Lu Ming and the others were.

Of course, they all avoided those cracks.

Because in those crevices, the divine light from the heavens constantly rushed out, so rich and powerful, they didn't dare to stun them.

"coming!"

On the mountain peak, Lu Ming and the others could see the actions of the Yuanguang clan clearly.

"Sure enough, we acted in batches. Fortunately, we were prepared before."

Xie Nianqing whispered.

"Lu Ming is thoughtful, we are ready to retreat."

Pantheon.

Two batches of Yuanguang Clan were besieging from two directions. Their formation alone would definitely be unstoppable, and it would be good if they could bring some losses to the other party.

Lu Ming had considered this point before and had already prepared his way back in advance.

"We hide it and we will give them a ruthless note later."

Lu Ming said, the figure flashed, and the figures of Lu Ming and others were hidden.

Yuan Jiuji at least brought more than five hundred strong men, rushed towards the mountain, and soon approached the summit.

At this time, it also entered the range of Dan Dan's formation.

"No, there is a wave of formation..."

At this moment, Yuan Yu, the master formation master of the Yuanguang clan, suddenly shouted.

"I found out now that Dao Xing is too low, start it for me!"

Dan Dan's voice sounded, and then, dense runes appeared on the ground.

A huge formation emerged, covering the Yuanguang clan.

At the same time, the formation condensed purple rays of light, like a purple war sword that killed the Yuanguang clan.

Ahhhh...

There was a scream, and suddenly, more than a dozen Yuanguang clan members were killed by the purple sword light.

"Block, block me!"

Yuanjiu roared greatly.

The people of the Yuanguang clan moved quickly, beams of hair flying, intertwined with each other, like a net, covering all the Yuanguang clan in it.

There are too many masters here, more than five hundred Yuan Light Races combined their forces, and their defense power is amazing. They immediately blocked the purple sword light.

"Huh, it's not that easy to block the formation that this seat has exhausted."

Dandan snorted coldly.

After his cultivation reached the eighth level of the Divine Master, the power of the formation was also improved. At the same time, this formation was not completely laid by Dandan himself.

He combined some of the remnant formations of this mountain, combined his own rune with the runes of the remnant formation of this mountain, and possessed part of the original power of the formation of this mountain. The power of the formation is many times stronger.

"Condensation!"

Dan Dan yelled, his hands danced quickly, and those purple sword lights quickly gathered together to form a huge war sword, slashed towards the Yuanguang clan people, and slashed on the defensive wall where the beams of hair were condensed.

boom!

There was a thunderous roar, and those beam hairs were constantly torn apart, one by one, the beam hairs intertwined and formed a strong defense, and they were abruptly torn apart.

Terrible energy rushed in, and suddenly five or six Yuanguang clan masters were killed.

Then, the huge lightsaber will rush through the gap and enter.

The expressions of Yuan Jiuji and others changed drastically.

## Chapter 4855: Head to the front

The lightsaber condensed in the formation was so powerful that it broke through the defense of the Yuanguang Clan and directly slammed in, killing five or six people in a row in an instant, taking the nine young masters' eyebrows.

Yuan Jiuji's face changed wildly, the power of this lightsaber was too terrifying, he absolutely couldn't stop it.

At the critical moment, the two figures quickly rushed out and came to Yuan Jiuji.

It was the two "light front ambassadors" beside Yuan Jiuji, and the two light front ambassadors shouted, as if turned into two divine lights, rushing towards the lightsaber together.

boom!

A earth-shattering roar erupted, igniting terrible energy, and swept the surrounding Yuanguang clan into pieces, directly breaking their bodies.

Even Yuan Jiuji, as if being hit by a huge wave, his body retreated quickly.

Then, there were two figures, faster than Yuan Jiuji's retreat.

It was the two 'princes before the light', the light on their bodies trembled, and a trace of blood overflowed from the corners of their mouths.

"Hahaha, any envoy before the light will kneel down when you encounter this seat."

Dandan laughed triumphantly.

The two ambassadors before the light were actually injured. This is absolutely an amazing record, and it is only surprising.

Of course, with Dandan's current cultivation base, even if he was given a few months to set up an array, I'm afraid it would be difficult for him to easily wound the two light former kings, mainly because Dandan used the residual array pattern here. This result was achieved by greatly enhancing the power of the formation.

One move repelled the two light former kings, Dan Dan continued to control the lightsaber to kill Yuan Jiuji.

"Set up an array, set up an array for me to block their formation."

Yuan Jiuji yelled while retreating.

Hh hh hh...

The body flickered, there were a total of 21 Yuanguang Clan? Holding a war sword full of runes, they laid a combined attack formation, condensing a huge war sword.

The 21-person combined attack formation? Is Yuan Jiuji the strongest combat power around? It is also the most feared by Lu Ming and the others? It was this combined attack formation before that broke the defense of that ancient city.

when!

The war sword condensed by the twenty-one team attacking the formation method collided with the war sword condensed by the formation method deployed by Dan Dan? There was a thunderous roar. This time, the lightsaber concentrated by the formation method deployed by Dan Dan was blocked? Even the light is dim.

"In a rush? Break his formation? I want them to die."

Yuanjiu roared greatly.

"kill!"

Twenty-one people in the formation shouted in unison? Fully control the joint attack formation? Take the initiative to attack.

"It's not that easy to break my formation."

Every time he shouted, his hands were constantly dancing, and he played a rune to make the formation shine? Constantly inject new power? The light of the lightsaber flourished again.

Dangdang...

The two sword lights are constantly colliding? Terrible power is constantly bursting toward the four directions? In the surrounding area, other Yuanguang clan dare not stand, let alone defend.

"You? Go kill them."

Yuan Jiuji stared at Lu Ming and the others, with cold murderous intent in his eyes, and ordered an envoy before the light.

"Don't worry, Jiu Gongzi, I'll take their first level."

The Emperor Guangqian who appeared to be in his twenties opened his mouth indifferently, shaped like a ray of light, and rushed towards Lu Ming and the others. The beam of hair was like a sharp sword and pierced towards Lu Ming and others.

"The defeated generals still dare to fight!"

Lu Ming drank coldly.

"You are missing one person now, how do you arrange the formation?"

Before the light, the king sneered.

He said one less person, referring to Dan Dan.

Dan Dan is now fully controlling the formation, it is impossible to deploy a combined attack formation.

If one less person sets up a combined attack formation, the power will definitely be reduced by a lot, which is why he dared to kill Lu Ming and others in the first place.

"Bone Demon, leave this person to me, and I will kill the Ninth Young Master."

Lu Ming transmitted sound to the bone demon.

"Don't worry, leave it to me, I just want to try my strength."

The Bone Demon chuckled, stepped on his feet, and rose to the sky, rushing to the Emperor Guangqian.

Zijin Zhanyue had appeared in his hands long ago.

"Crazy Demon Slash!"

The Zijin Zhanyue in the hands of the Bone Demon was slashed out. Suddenly, the demon energy was violent, and dozens of magic blades appeared in the void, slashing in all directions.

The beams of the light beams of the king's emissary continued to collapse.

King Guangqian made his complexion greatly changed, and quickly retracted his beam hair. If he was slower, he would be bald.

His body glowed, constantly twisted, turned into a glow, and finally turned into a war sword, which shot through the air, ignoring the dozens of magic blades, and directly slammed the bone demon body.

"Good job!"

The Bone Demon sneered, and Zijin Zhanyue came out again, this time not with dozens of magic blades, but one, bombarding with King Light.

boom!

The two met each other, and then backed away at the same time.

"Your combat power? No, this is the source technique. You are the pinnacle of the \*\*\*\* master, how can you use the source technique?"

King Guangqian roared in shock.

The Bone Demon's combat power was so terrifying that it could rival him, which shocked him extremely.

What shocked him even more was that the Bone Demon was able to cast the Origin Spell, and the Bone Demon was able to compete with him because it was able to cast the Origin Spell.

Excluding the origin technique, the bone demon's own power is not as good as him.

However, isn't the source art only the existence of the source realm can be used, how can a \*\*\*\* master pinnacle be used?

Not only him, but Yuan Jiuji, as well as other members of the Yuanguang clan, were equally shocked.

"Hahaha, you are surprised, there are more, come on, fight to the death."

The bone demon soul laughed, holding the purple gold war yue, rushing to the emissary of the light front, and once again performed the source technique.

The Emperor Guangqian burst out his power to the strongest, slaying the bone demon, and the two figures fought a battle in the void. In an instant, they fought a dozen moves, and there was no victory or defeat.

However, although there was no winner or loser, the Bone Demon gradually began to gain the upper hand.

In Boundless Demon Abyss, the bone demon is fused with a bone, the origin is absolutely amazing, not only makes the bone demon indestructible, but the demon energy contained in the body is also rich and powerful.

Even if you continue to use the source technique, you are not afraid of overdrawing your strength.

With his strong defensive power, he disregarded the defense, attacked with all his strength, and slowly began to suppress the Emperor Guangqian.

Not far away, Yuan Jiuji's expression was extremely ugly, and he ordered another Emperor Guangqian to deal with the bone demon together.

Lu Ming stepped out, stopped in front of the Emperor Guangqian, and said, "Your opponent is me!"

"Just rely on you, the mere eightfold \*\*\*\* master, you can't help yourself!"

The Emperor Guangqian, named Yuan Han, spoke indifferently, and a beam of hair like a sharp sword pierced Lu Ming.

"Look at me, that's great!"

Lu Ming sneered at the corner of his mouth, and his eyes showed expectation.

After comprehending the third thousand great ancient mysteries, the power of taboo has undergone a qualitative change. He also wants to know whether his current combat power can match a light former envoy.

The Zhanzi Jue had nine times the combat power, instantly triggered, the taboo power, madly running, all over the body.

Then, Lu Ming grabbed the palm of his hand and accurately grasped a beam of Yuan Han's hair in his hand.

Chapter 4856: Lu Ming's terrifying combat power

Lu Ming grabbed a beam of Yuanhan's hair in his hand, no matter how hard Yuanhan tried, the beam of hair remained motionless.

what happened?

Yuan Han was shocked. Before he could react, he felt a terrifying force surge in the beam's hair, dragging him out along the beam's hair.

If he doesn't react, he will fall into a shit.

"Damn it, give it to me!"

Yuan Han couldn't help but screamed and broke his hair, only to get rid of Lu Ming.

Huh!

The next moment, Lu Ming appeared above his head like a stream of light, and the God of War spear was as huge as a mountain, pressing down towards him.

The terrible power made Yuan Han's muscles tremble.

"Holy Light Heaven Void Slash!"

Yuan Han roared fiercely, and rays of light rushed out from every pore of his body, and a war sword was condensed on top of his head.

At the same time, a war sword appeared in his hand, obviously a source-level magic weapon.

Xia Guang converged with the source-level magic weapon war sword, and then soared into the sky, colliding with the God of War Spear, and with a shocking roar, Lu Ming's figure retreated, but Yuan Han was also similar, his body shook wildly, backed repeatedly, and stepped out of the ground. A dozen big pits.

"Your combat power... how could it be so strong?"

Yuan Han yelled in shock.

Not far away, Yuan Jiuji's eyes almost went violently, his face full of incredible.

Lu Ming can actually compete head-on with Yuan Han, how is this possible?

Lu Ming's cultivation base is obviously still the eighth layer of the divine master, and he has not made a breakthrough. Why has his combat power soared?

He felt that his mind was short-circuited, and he couldn't figure it out.

"Come again!"

Lu Ming's eyes were bright, his fighting spirit was strong, and his self-confidence was greatly increased. He felt that the fighting power of the Emperor Guangqian was nothing but that.

"Breaking style!"

This time, Lu Ming showed the sky-breaking style, and a terrifying spear light pierced out violently. Wherever the spear light passed, the void seemed to be evaporated.

"Holy Light Tianlong Slash!"

Yuan Han roared, and also broke out a terrible killer move to confront Lu Ming.

A huge light dragon rushed to the spear light.

This time, Yuan Han fell in the wind. After the collision between Guanglong and the spear light, it shook violently and then collapsed.

Yuan Han's figure retreated violently, and he was able to avoid Lu Ming's spear light, but he felt a tingling pain in his chest. If he moved slowly just now, his chest would be pierced by the spear light.

"The power of breaking the sky, so strong!"

Lu Ming's eyes were bright and excited.

He guessed right. After successfully comprehending the third thousand great ancient secret arts, not only did the power of taboos undergo a qualitative change, but also became stronger, and even the power of the secret arts he learned, the power of the world-shaking style, has also undergone a qualitative change. Becomes more terrifying.

The power of the world-breaking style has greatly increased.

boom!

Lu Ming directly shot it out with a palm, and a huge continent condensed out towards Yuan Han's suppression.

The mountains and lakes above are clearly visible, just like a real world.

In addition, there is a breath of ancient times permeating out, as thick as the universe, entraining the Huanghuang Tianwei, pressing against Yuanhan.

Yuan Han felt tremendous pressure before the mainland was depressed.

"Broken, broken, broken!"

There is no way to retreat, the huge continent completely enveloped Yuan Han, only to confront it head-on.

Yuan Han raised his combat power to the peak, his whole person turned into a lightsaber, merged with the source-level magic weapon war sword, and turned into a sword light, rushing to the prehistoric continent.

boom!

There was another earth-shattering roar, and the wild continent violently shook, and cracks appeared on it, but they were not broken.

Instead, it was Yuanhan's sword light, trembling non-stop, densely covered with cracks, and then exploded with a touch.

Yuan Han's body retreated violently, but a terrifying spear light greeted him.

Breakthrough!

At the same time that he displayed the prehistoric style, Lu Ming had already performed the breaking sky style. After Yuanhan was shaken and flew, the breaking sky style followed.

what!

Yuan Han roared hysterically, feeling that death was approaching. He resisted with all his might, but it was useless after all. His body was pierced by the gun, and terrifying power erupted from Yuan Han's body, exploding Yuan Han's body into five or six. Piece.

Even the soul was torn apart.

However, Yuan Han was not dead, his broken body turned into streams of light, retreated quickly, and condensed again in the void.

It's just that the breath has languished a lot, and his face is pale, as if he was seriously ill.

"So strong vitality, so strong soul."

Lu Ming's expression was also very solemn.

If an ordinary creature, such as a master of the Celestial Race, is hit by his move, the soul will be torn apart, and there will be a dead end.

But Yuanhan was okay.

I have to say that the people of Yuanguang clan, vitality and soul, are incredibly powerful.

However, no matter how strong he was, he was hit hard by Lu Ming's move, and his combat power was greatly reduced.

How could Lu Ming miss such an opportunity, planning to take this opportunity to get rid of Yuanhan.

This is an envoy before the light, even Yuanguang clan, there will not be many, removing one will be a great blow to the opponent's strength.

Huh!

Lu Ming rushed out and started killing.

"Set up the formation, stop him!"

Yuanjiu roared greatly.

By his side, there are just two light former envoys who are his right-hand men, and there must be nothing to do.

Huh huh!

The remaining Yuanguang clan began to deploy.

Three formations with nine players and seven formations with seven players all set up and rushed towards Lu Ming.

"Devil Realm!"

"Nine orifices are one!"

"Illusory light beam!"

Xie Nianqing, Qiuyue, the ball also shot, unleashing a killer move, wanting to stop those combined attacks.

However, there are only three of them, and they are still far behind.

But at this moment, Dan Dan and the twenty-one team attacked the formation, but they issued a victory or defeat.

With so many moves between the two sides, the power consumption of the 21 Yuanguang clan in the formation was very serious. At this time, some people finally exhausted their power, causing the joint attack formation to collapse.

And Dan Dan, continuously controlling the formation, the power consumption is also very serious.

Although most of the power of this formation is to absorb the power of heaven and earth, the person who controls the formation will also consume power.

If it were placed before Dandan had not broken through, when he was still in the Sixth Layer of the Divine Lord, it would have long been unable to bear it.

With the current eightfold cultivation base of the God Lord, there is not much power left, but after all, there is still a little power left.

With a wave of his hands, the formation condensed dozens of sword lights, killing the Yuanguang clan's combined attack formation.

"Lu Ming, I will block them for you. You killed the envoy before the light."

Drinking every day.

Lu Ming didn't answer, he told everyone with practical actions.

boom!

The prehistoric style was once again unfolded, and another continent was formed, moving towards Yuanhan's suppression.

At the same time, breaking the sky came out again.

The two ultimate moves, double-sided flanking, attacked and killed Yuanhan.

"Ah, Jiu Gongzi save me!"

Yuan Han yelled in horror.

Facing Lu Ming's two killer moves, even in his heyday, it was hard to resist, let alone his vitality.

Chapter 4857: Kill the former king

"Damn, damn..."

Yuan Jiuji kept roaring, but he didn't dare to stay, and quickly backed away, because he was afraid of being enveloped in Lu Ming's wildness.

Even if they are far apart, he can feel the terrifying horror, and the hairs on his skin stand upright.

He has a feeling that if he is hit by the predatory style, even with his vitality, he will be bombarded and killed.

He wanted to save Yuanhan, but he was powerless.

"stop!"

At this moment, a loud roar came from the other direction of the mountain.

Yuan Jiuji's face showed ecstasy, and he shouted, "Myna, hurry, come here, come!"

Yuan Baji took the people and killed him from the other direction of the mountain.

The battle between Lu Ming and Yuan Jiuji and the others just now, although it was a long one, didn't take much time. They shot lightning fast, and dozens of moves were just a few breaths away.

In the other direction of the mountain, there was a stream of light, flying fast, flying in the front, there were two figures, the speed is amazing, and at the same time it exudes a terrifying power.

"kill!"

Lu Ming remained unmoved, his ultimate move continued to target Yuanhan.

This time, where Yuan Han resisted, a scream occurred, his body was beaten to powder, and his soul was completely wiped out.

This time, it fell completely.

A former king's envoy, who was comparable to Gu Changfeng, was killed.

"it is good!"

Dan Dan and others were very excited.

But the people of Yuanguang clan felt cold in their hearts.

The emissary of the former king, claimed to be invincible without the origin.

Even being able to contend with the weaker origin, this kind of existence was actually killed by someone in a one-to-one situation, which is simply incredible.

Besides, it was a divine master Eightfold who killed him. If he hadn't seen it with his own eyes, he wouldn't believe it.

"My combat power is stronger than I thought."

Lu Ming thought.

The power of taboo, the secret technique he created, has undergone a qualitative change, and his power has skyrocketed. After he has exploded to the peak of his combat power, he is completely able to suppress a light former envoy.

Of course, the reason why he was able to kill the opponent just now was because the opponent had a hint of care, and he took the opportunity to take a heavy hit at the beginning.

If the opponent is more cautious and wants to take a heavy hit at once, it is not so easy.

There is another reason that Lu Ming's God of War Spear is more advanced than the opponent's Source Grade God Soldier, which also gives Lu Ming an advantage.

But overall, Lu Ming's combat power has surpassed the opponent.

Such combat power is almost invincible under the origin.

"court death!"

At this moment, there was a roar from the other direction.

The two masters flying in the forefront each played a killer move, two rays of different colors of Xianguang, and killed Lu Ming and others.

"Block!"

He shouted, trying his best to control the formation, trying to block the two attacks.

But in the end, only one attack was blocked, and the other one flew towards Lu Ming.

Hum!

The God of War spear vibrated, swept out, collided with this glow, and crushed this glow, but Lu Ming's figure was also shaken, and he backed away.

"The Emperor Guangqian!"

Lu Ming's heart was shocked, his face solemn.

On the other side, Dandan controlled the formation to block another glow, but Dandan's body also retreated wildly, and the surrounding rune formation was dim.

After continuous battles, the formations that were laid down every day, the energy has also been exhausted.

"go!"

Lu Ming yelled, rushed towards Xie Nianqing, Qiuyue and others, and gathered with Qiuyue and others.

The Bone Demon also knocked his opponent back with one move, returning to Lu Ming and the others.

The bone demon had the upper hand in the fight against the opponent, and it was naturally easy to retreat.

After they gathered, they rushed directly to the depths of the mountain.

"Kill, kill, don't let them run, kill me!"

Yuan Jiuji yelled frantically.

A light former envoy was killed in front of his eyes and fell completely. He was almost crazy.

He was called Jiu Gongzi, and he knew that he had many brothers and sisters, and there was also a huge competitive relationship between them.

He worked so hard to win the two kings before the light. This was the capital for him to compete with his brothers and sisters. Now, one was killed. This was a huge loss, and his heart was bleeding.

The price to be paid to cultivate or win over a prince before the light is very high.

Whoops whoops...

Those Yuanguang clan launched a crazy attack on Lu Ming and the others.

On the other side, the masters led by Yuan Baji also attacked Lu Ming and the others.

Ordinary Yuanguang clan attack, but it is easy to deal with.

Lu Ming and Bone Demon made their moves and they were able to resist one by one.

But the attacks of three of them were very threatening to them. Even if Lu Ming and Bone Demon made their best effort, it would be difficult to resist...

These three are the three kings before the light.

One person beside Yuan Jiuji, two people beside Yuan Baji.

Fortunately, the bone demon was able to withstand it by relying on its own abnormal defense.

While resisting, they flew toward the depths of the mountain, which is the depth of the mountain range.

The depths of this mountain range are still covered with terrifying formations, which have not been torn apart.

The cracks in the ground have not yet extended here.

This is the retreat they had thought of before, and Dan Dan had also studied it here. They planned to use the formation here to resist the Yuanguang clan.

"Nest, the three kings before the light, there are too many masters among the creatures in the forbidden area, if we kill them to the extinction army station, we can't stop it at all."

Dan Dan called, very shocked.

Lu Ming and others are not shocked.

The masters of the Yuanguang clan far exceeded their imagination. There were only four of them, and there were only four emissaries before Guangxi.

As for the envoys of the king who are comparable to the strongest heavenly monarch, there are at least twenty or thirty.

This level of combat power far exceeds the Celestial Race.

In the Celestial Clan, there is only one person who can be compared to the emissary before the light.

Among the Heaven Extinguishing Army, there was only Gu Changfeng alone, and the gap was too great.

The Yuanguang clan is so powerful, and other forbidden creatures, such as the Yinsha clan and Cangming clan, are probably not far behind.

Although they are small in number, their combat power is far surpassed by the Celestial Army or the Celestial Race.

"If they hadn't been afraid of the existence of the Origin Realm, they would have been to the station of the Heaven Extinguishing Army."

Tang Jundao.

Lu Ming and the others knew this well.

Under the great calamity of the origin, the existence of the origin realm all pretended to fall asleep to avoid the great catastrophe of the origin.

But it doesn't mean that you can't wake up, can't make a move.

The existence of the Origin Realm can also be released from self-styled action.

But the price is death.

Once the origin state's existence is lifted from its self-styled action, it will not take long for the origin root to be sucked away, fall into the state, or even fall completely.

Moreover, under the great calamity of the origin, once the self-appointment is lifted, there will be no second chance of self-appointment.

In other words, once the self-appointment is lifted, there is only one end, that is, the root cause dissipates.

Under normal circumstances, no source will do this.

But if it's at the critical moment of life and death, it's not necessarily.

Chapter 4858: Difficulties and changes

At the juncture of life and death, for example, the Celestial Extinguish Army is about to die, then, the origin of the Celestial Extinguishing Army, there will definitely be someone who will lift the seal, sacrifice themselves, and kill powerful enemies.

Therefore, the creatures in the Forbidden Land did not kill the Celestial Clan, the Subxian Clan, or the Celestial Exterminator's garrison. They were afraid of the strong in the Origin Stage.

Back then, the Celestial Race defeated the demons. That's because the origin of the demons was self-appointed in the dark universe.

Then, the celestial race went to the extermination army station. Lu Ming and the others speculated that most of the celestial race took the strong from the origin realm.

After all, at the beginning, the Celestial Race, with a lot of chariots, guarded them in the distance. Most of the chariots contained strong men in the original state.

Otherwise, the celestial race is not so bold, and dare to go to the station of the Exterminating Army.

As long as the Celestial Extinguisher has the strongest source level to lift the self-appointment, most of the Celestial Clan will also have the strong source level to lift the self-appointment.

If the Heaven Extinguishing Army hadn't awakened from the Origin, the Human Race would naturally not let the Origin awaken, because once awakened, there is only a dead end.

The Yuanguang clan has three 'King's Envoys before the Light', and there are other terrifying formations that make Lu Ming and the others feel tremendous pressure.

Lu Ming and Bone Demon were able to resist the Yuanguang Clan's attack.

While resisting, they backed away, and soon left this mountain and headed for another mountain.

When he came to another mountain, Dan Dan took the lead and rushed forward.

The mountain peaks here are still full of terrifying formations, but Dan Dan has studied them a long time ago and found a way out in the formations.

This is a good escape they have found.

Lu Ming and the others followed Dan Dan into the formation, and immediately after that, the Yuanguang clan attacked.

However, the surrounding formations immediately emerged, turning them into terrifying killing power, defeating these attacks one by one.

The people of Yuanguang clan rushed to the formation? One after another stopped again, not daring to move forward.

"Hahaha, have the ability? Come on? Come hit us..."

Dan Dan clamored.

"hateful..."

Yuan Jiuji roars? A face is extremely ferocious and cold.

"Yuanyu? Break the formation for me."

Yuan Jiuji roared.

"Jiu Gongzi? This...this...subordinates can't do it."

Yuan Yu bowed his head and said.

"What a waste!"

Yuan Jiuji scolded? But slowly he calmed down.

He also knew that Yuanyu didn't have this ability, otherwise they wouldn't have to wait a year before.

"Myna, your people, is there any way to break the formation?"

Yuan Jiuji looked towards Yuan Baji again.

Yuan Bajixun asked the master of formation he had brought? There was naturally no way.

"Although it can't break the formation? But this'qi vein' will eventually collapse? And it won't take long? These mountains will all be destroyed, then? Those formations can't help them."

Yuan Baji Road.

"We can lay a formation in the cracks in front, bombard the cracks with formations, and speed up the 'collapsing' speed of this energy vein. Within two months, this mountain will be torn."

Yuan Yudao.

"Okay, I'll leave it to you."

Yuan Jiuji nodded.

Immediately, Yuan Yu and other masters of formation retreated and began to deploy formations in the huge cracks behind them.

Soon after, the formation began to start, emitting a bright brilliance, pushing the cracks, making the roar from the cracks more and more intense.

The crack extended forward, and it only took ten days to reach the mountain where Lu Ming and the others were.

Rumble!

The cracks split, and the divine light of the cave rushed out from the ground, forming a force of destruction, constantly impacting the formation above.

Bang bang bang!

The bursting sound continued, and those rune formations continued to burst and disconnect.

Halfway up the mountain, Lu Ming and the others' faces were a bit solemn.

They are trapped.

"Dandan, can you do it? It won't be long before this mountain will be torn apart."

All the gods urged.

Once there is no formation, it will fight the Yuanguang clan head-on.

Although their combat power has skyrocketed, and there are still ten players fighting together, they are definitely not opponents when facing Yuanguang Clan, and they are far apart.

The Yuanguang clan has three 'Kings before the Light', as well as a combined attack formation. For example, the 21 combined attack formation is very terrifying.

Near Yuan Baji, most of them also have that terrible formation confrontation, and most of them will die.

However, they were trapped, trapped by the formation here.

"What do you know, this formation is constantly changing all the time, it's different from what I did before, and it's misguided and misguided."

Once an uncomfortable look at Wanshen, he continued to study.

But for several days, they didn't break through and they were still trapped.

The roar from underground became more and more violent, and there were more and more torn formations on the mountain.

The huge crack continued to approach Lu Ming and their location.

"Hahaha, it seems that they are trapped. They are really self-inflicted and cannot live."

Yuan Jiuji also saw that Lu Ming and the others were in trouble, and couldn't help but become excited.

In an instant, it was another two days.

"Okay, I finally researched it out, wait a minute, you guys follow me closely, don't let the slightest slack."

Dan Dan called, and began to wave his hands and hit tens of thousands of runes. These runes formed a rune thread, entwining some surrounding formations.

Then, Dan Dan flickered and rushed forward from left to right.

Lu Ming and others followed in Dan Dan's footsteps without the slightest deviation.

Soon, they traveled hundreds of meters.

In the front, everything is going well. Seeing that we are about to break through this trapped formation, once we break through this trapped formation, once they can bring Lu Ming straight to the top of this mountain, maybe they can escape from the other side of the mountain. , Throwing away the Yuanguang Clan, but at this moment, the sudden change occurred.

Beside Xie Nianqing, a dark whirlpool suddenly appeared, exuding a terrifying swallowing power, trying to swallow Xie Nianqing in.

"No, this formation actually hides a hand, be careful..."

Dandan exclaimed.

The power of that vortex was very terrifying, Xie Nianqing couldn't resist it at all, and was about to be swallowed in.

"Xiaoqing..."

At this moment, Lu Ming was extremely anxious, and he had no time to think about other things. He turned the Great Aurora Technique to the extreme and rushed towards Xie Nianqing.

In an instant, Lu Ming appeared in front of Xie Nianqing, and the powerful taboo force surged crazily, pushing Xie Nianqing and pushing Xie Nianqing away from the whirlpool.

But he himself was dragged by the whirlpool and flew to the whirlpool quickly.

It was too fast, and in a blink of an eye, Lu Ming disappeared into the whirlpool.

After Lu Ming disappeared, the vortex quickly disappeared.

"Lu Ming..."

Xie Nianqing cried out mournfully, extremely anxious and panicked.

The same is true for Qiuyue, Ling Yuwei, Wanshen and others.

Chapter 4859: All parties gather energy

"Don't panic, everyone, the vortex just now should not be lethal, it's not a killing and cutting formation, Lu Ming should be fine."

Dan Dan called.

"Should? Are you sure?"

The gods stared.

"I'm sure that the vortex should be a teleportation formation. Lu Ming may have been teleported to other places. He bet he will be fine. Let's leave here first, maybe on the other side of the mountain. , You can meet Lu Ming."

Dan Dan said.

Everyone had no choice but to hold down the worry in their hearts and follow Dandan to move on.

Nothing happened next, and he successfully broke through this trap.

The formation behind it will not change at any time, and Dan Dan has successfully broken through with everyone.

There are also some buildings on this mountain, but unfortunately, they did not encounter the statue like the previous mountain, and they did not get any chance.

They came to the other side of the mountain, Dan Dan began to study the formation, ready to break out from here, throw away the Yuanguang clan.

In a blink of an eye, another three days.

Rumble!

Suddenly, there was an earth-shattering roar, and the whole mountain range shook violently, and the divine light of the cave that rushed out from those cracks became more intense.

Even from deep underground, there was a roar of beasts.

At this moment, everyone's expressions changed drastically.

How could there be a roar of beasts in the depths of the Qi Vessel?

Could it be that there are terrible beasts living deep underground?

Roar! Roar!

Deep underground, there were several roars in succession, and then, the whole energy vein shook more severely, and those cracks quickly grew larger? The formation on the mountain peak was rapidly collapsing.

boom!

Then? Along with the rich divine light of the cave, a giant beast rushed out from the ground.

This giant beast, purple and gold in its entire body? It was actually made up of the divine light of the cave.

"The divine light of the cave sky here? It is so rich, it actually condenses into a beast shape."

"Pay attention to concealment, this behemoth? Can't be the enemy."

The people of the Yuanguang clan were shocked? Back quickly? They quickly searched for a place to hide their bodies.

On the other side of the mountain? Xie Nianqing? Bone Demon and others were also shocked? Instinctively feeling the crisis, they quickly found a place to hide their figure.

Roar!

The giant beast condensed by the divine light of the cave roared, swooping down, from it, rushed out of the divine light of the cave? Sharper than the magic knife? It bombarded the ground wildly.

Boom boom boom!

The ground roars? The gravel splashes? Large pits were blown out of the ground.

The cracks around were bigger.

And those formations were constantly blown up by the Divine Light of Dongtian.

Except for the few peaks in the center of the Qi Vessel? In other places, there is a world-shaking scene.

This behemoth does not seem to be wise, only knows the constant bombardment.

After a while, the giant beast slowly stopped.

At this moment, the body of this giant beast had become bleak and dim, and with the last touch, it turned into a cloud of divine light and completely dissipated.

"Go, let's leave here."

Dan Dan immediately rushed out of a pile of rocks, and then Xie Nianqing and others also rushed out one by one, following Dan Dan and rushed forward.

Originally, this side was also covered with powerful formations, but it was bombarded by a shock just now, most of the formations were destroyed, and only a few remaining formations were left.

There are only a few remaining formations, and it is naturally hard to resist.

Of course, there are also a few complete formations left, just avoid them.

Soon, Dan Dan, Xie Nianqing and others disappeared here.

At this moment, a figure appeared on another mountain peak.

This person is Lu Ming.

He was swallowed by the vortex before, and the next moment, he came to another mountain.

There are about a dozen towering peaks in this vein. In the depths of the mountain range, there are several peaks that are the tallest and towering. They were not destroyed by the giant beast condensed by the divine light of the cave just now. The other peaks have been destroyed. The formation above , Becomes incomplete.

And those cracks, spreading rapidly, will tear these mountains apart.

These cracks do not know how deep they are, like a series of abysses, extending to the depths of the ground.

The whole vitality is an appearance of frequent collapse.

Originally, when Lu Ming was teleported to this mountain peak, there were also a large number of formations around the mountain, but now, these formations have become incomplete formations, and they are broken.

But Lu Ming is not Dandan, and his formation skills are far inferior to Dandan, so he still needs to be cautious.

This is because even some incomplete formations can sometimes burst out terrible attacks, and if they are not careful, they will be caught.

But at least it's not as difficult as before.

"Xiaoqing and the others followed Dan Dan. It should be fine. I'll go to the top of the mountain to take a look."

Lu Ming looked towards the top of the mountain. There were also some buildings on the top of this mountain.

Lu Ming had the sweetness of the first mountain, so naturally he wanted to try his luck here.

At the same time, people from the Yuanguang clan also appeared from various hidden places.

"The formation has been destroyed, well, well, well, Lu Ming, now, it depends on where you go."

Yuan Jiuji said indifferently, and then together with Yuan Baji, with the masters of the Yuanguang clan, rushed forward across the mountains and plains.

Around the Qimai, there are two places where the people of the Yaxian tribe and the Celestial tribe hide.

Naturally, they all saw what happened on the Qi veins.

"Except for the deepest mountain peaks, almost all the formations on the vitality have been destroyed. This vitality must contain great opportunities. You must not miss it. We will pass."

The sky opened.

At this time, the number of Yaxian tribes here has reached more than 6,000.

Over the past year or so, the Asian clan has continued to come and converge, making the Asian clan more and more masters, and the firmness of the sky is also a lot.

Their Yaxian clan has a deep background, and the sky is very clear about how strong they are.

Even if they encounter Yuanguang Clan, they are not afraid now.

Moreover, the entire mountain range is very large, with more than a dozen peaks covering an area of hundreds of thousands of miles, even if you enter it, you may not be able to encounter it.

"go!"

Cang Qiong led the master of the Yaxian clan to rush towards the 'Qimai' from another direction.

"Extinction, shall we also pass?"

In the other direction, Bai Zhan Tianjun asked exterminating Tianjun in a low voice.

Extinction Tianjun's eyes flickered, and he hesitated.

These hours, Ye Immortal has never come to meet.

Although another group of people from the Celestial Race came to converge, their strength did not increase much. There were only seven of the strongest Celestial Monarch level combat power.

If they meet the masters of the Yuanguang clan, it will be very dangerous.

But in the end, Extinction Tianjun decided to fight.

"There is definitely a great opportunity here. If you are afraid of the head and tail, you will only get more and more gaps with other people. Moreover, the scope of this place is so wide that you may not be able to meet the Yuanguang clan. We should be careful, and it should be fine."

Extinct Heavenly Jundao.

In the end, the people of the Celestial Race cautiously rushed towards the 'Qimai' from another direction.

Chapter 4860: Fight Yuan Yu again

After careful study, Lu Ming finally came to the top of the mountain after spending some time.

On the top of this mountain, there are also some majestic palaces built. After Lu Ming walked around, he was a little disappointed because he didn't find anything.

No precious treasures were left, and no statues like the previous ones were found.

Thinking of the four mysterious statues before, Lu Ming secretly regretted it.

When they were leaving before, they wanted to take the four statues away.

Although they lost their effect after a period of enlightenment, they could be used by others.

Take it back and place it in the garrison of the Heaven Extinguishing Army, so that the people of the Heaven Extinguishing Army can comprehend, each secret technique can be greatly enhanced.

It's a pity that the four statues seemed to have taken root, and they couldn't be removed at all.

In the end they can only give up.

I thought that other mountains also had treasures, but I didn't expect to get anything from this mountain.

"It seems that only by entering the depths of the Qi Vessel can you gain something."

Lu Ming muttered.

However, now there is a divine light constantly rushing out from the depths of the Qi pulse, which is very rich, and now it is impossible to get in.

After turning around, without gain, Lu Ming headed to the other side of the mountain, rushing to the mountain where they were trapped by the formation.

He is more worried about Xie Nianqing and others.

Except for the deepest mountain peaks, the formations on the other peaks have been destroyed. People from the Yuanguang clan swarmed in. If Xie Nianqing and others were surrounded by a large number of Yuanguang clan experts, they would very dangerous.

Lu Ming broke through some broken formations. Soon after, he came to the foot of the mountain. He was about to head towards the previous peaks. He suddenly became vigilant and moved laterally, but he was a step too late, and there was a piercing sound around him. , Followed by a sharp sword light? To be precise, it was a beam of hair that stabbed Lu Ming violently.

Obviously? It is the Yuanguang clan.

"roll!"

Lu Ming yelled? The God of War gun appeared in his hand long ago? It swept out, and a huge spear light swept around in a circular arc.

Rumble!

The gunman is extremely domineering? Bringing violent energy, sweeping across all directions, knocking out those beam hairs.

"Lu Ming? This time? It's your death date!"

An indifferent voice sounded.

"Yuan Yu!"

Lu Ming's eyes narrowed slightly.

As soon as I heard the sound? Lu Ming knew who it was.

Was it one of the two 'Guangqian Wangshi's around Yuan Jiuji? The Guangqian Wangshi who looked twenty-something? Yuanyu.

He had chased Lu Ming and the others before, but was wounded by the formation of a combined attack by Lu Ming and them.

Lu Ming glanced away, and he found Yuan Yu stepping in the air with extremely cold eyes.

Yuan Guang clan arrived, not only Yuan Yu afterwards? There are also hundreds of other Yuanguang clan masters.

Inside? It includes two figures at the level of "War Envoy under the King".

"Do you think it depends on you? Can you kill me?"

Lu Ming sneered? A hint of disdain appeared at the corner of his mouth, which made Yuan Yu's eyes more murderous.

He had previously boasted that he wanted to take off Lu Ming's head in front of Yuan Jiu Ji and many Yuanguang clan people? But he was stunned by Lu Ming's hands many times.

This time, he led people to search everywhere, but met Lu Ming alone. This was a rare opportunity.

If Lu Ming is alone, he can't set up a joint attack formation. Although Lu Ming's previously demonstrated combat power was extremely terrifying and hardly weaker than him, he is not alone now.

"Layout!"

Yuan Yu drank coldly.

As soon as Yuan Yu's words fell, some of the Yuanguang clan's figures flickered, and they formed a joint attack formation.

The two nine-person team attacking formations, each headed by a 'king under the war envoy', the others, the all-chump of the gods, condensed two huge war swords.

Lu Ming's face sank slightly.

The power of the formation of the nine players is already very terrifying, and the strength of the people in the formation is undoubtedly even more terrifying.

It is no wonder that Yuan Yu still looks confident knowing that Lu Ming is strong.

"Other people, assist in attack, kill!"

Yuan Yu yelled coldly, his body emitting a brilliant glow, as if his whole person had turned into a ray of light, and rushed towards Lu Ming. In the process of rushing out, his body turned into a war sword.

And the two swords formed by the nine-man joint attack formation method also slammed towards Lu Ming from the other two directions.

Three huge war swords pierced Lu Ming's three vital points from three different directions.

The violent sword aura, before Lu Ming approached, seemed to tear Lu Ming apart.

Lu Ming's pupils narrowed slightly, and the strength of his whole body exploded to its peak.

boom!

In an instant, Lu Ming slapped a palm, and a continent condensed.

Prehistoric!

Now Lu Ming's control over the prehistoric style has greatly increased, and the condensed prehistoric continent is very clear, just like the essence.

Moreover, this continent was erected, like a huge shield, rushing towards Yuanyu, and there was also a nine-person combined attack formation.

With this move, Lu Ming didn't ask for much harm to the opponent, he just wanted to block the opponent.

After playing the prehistoric style, Lu Ming immediately displayed the sky-breaking style, turning into a bright spear light, and piercing another nine-man team attack formation.

Relatively speaking, although the nine-man team attack is powerful, it is equivalent to the combat power of the strongest heavenly monarch, but it is still not as good as the 'King of Light'.

Therefore, Lu Ming decided in an instant to choose the nine-player formation as a breakthrough.

when!

The dazzling spear light collided with the sword light head-on, bursting out with an earth-shattering roar, inspiring a sky full of energy.

In the next moment, the sword light formed by the nine-person attacking formation continued to tremble, and then retreated violently, the light appeared to dim.

"kill!"

Lu Ming yelled, his body shape kept, and he continued to rush towards the opponent. In the process of rushing out, his body had tens of thousands of light spots emitting brilliant brilliance, like a star.

Then, tens of thousands of light spots kept rushing out of the sun, which was a variety of different secret techniques, slamming at the opponent.

However, Lu Ming continued to use the Heaven-Breaking Style to kill the opponent.

He wants to smash the opponent's formation.

The opponent is interfered by a large number of secret techniques, it is difficult to avoid, and can only be hard-wired.

"court death!"

Yuan Yu roared fiercely, and with another nine-man attack formation, he had already defeated the "preliminary style" and killed Lu Ming.

"Fight!"

A fierce color flashed in Lu Ming's eyes, and a series of defensive secret techniques appeared behind him.

That's right, Lu Ming was ready to resist the opponent's attack.

bump!

Lu Ming's spear light once again stabbed the nine-man combined attack formation.

This time, this nine-person combined attack formation did not block Lu Ming's attack, and the condensed war sword exploded with a bang, and six figures retreated violently.

That's right, there were only six figures, because three of them had been torn apart under Lu Ming's attack just now.
