

D Emperor 4861

Chapter 4861: Obliterate six trillion cells

But at this moment, two terrifying sword lights also hit Lu Ming.

The defenses laid by Lu Ming were defeated layer by layer, but in an instant, all the defenses laid by Lu Ming were defeated.

Two sword lights pierced Lu Ming.

bump!

Lu Ming's body was knocked out and was divided into three parts.

However, Lu Ming didn't fall here. His vitality was amazing. His soul was scattered among the cells. As long as he didn't destroy all the cells, he would be able to recover.

The three bodies quickly joined together and recovered at an astonishing speed.

In every cell, there was a strong energy gushing out, and Lu Ming recovered very quickly.

As he recovered, he backed away, his face a little pale.

"One-tenth of the cells have been destroyed."

Lu Ming was secretly surprised.

There are sixty trillion cells in the whole body of the human body. In other words, six trillion cells were wiped out in the same move just now.

It can be seen how terrifying the formation of Yuanyu and the nine players is.

"The cultivation base is still too low, the defense is still too low, but the ball is not there..."

Lu Ming's thoughts changed sharply.

After all, he only had the eighth layer of the Divine Master's cultivation base. Although his combat power was unparalleled, his defense was not Lu Ming's strong point, and he was not much better than ordinary people.

At most, it can be compared to the existence of the peak of a god.

If there is a ball in it, the source-level magic weapon armor that the ball turns into can withstand most of the attacks, and Lu Ming won't be so badly injured.

"Is it still not dead?"

Yuan Yu and others' eyes widened, showing shocked expressions.

Yuan Yu knew very well how powerful the move just now was. Not to mention that Lu Ming was just an eight-fold divine lord. Even if the strongest Heavenly Monarch level was hit, he would probably fall.

But Lu Ming actually resisted abruptly. What kind of perverted vitality was this.

"Attack, continue to attack, I don't believe his life is unlimited."

Yuan Yu shouted and continued to call on others to attack, and at the same time he rushed towards Lu Ming himself.

"Die to me!"

Lu Ming yelled? He slapped a palm at the sky.

Suddenly, in the high altitude, there appeared a huge continent? Above the continent? Mountains and lakes were clearly visible? Above it, there were stripes of colorful clouds running through the entire continent.

This kind of colorful clouds can be said to be the prototype of the road.

If Lu Ming cultivated the 'preliminary style' to a higher level, he would shoot out the condensed continent with a single palm, and there would even be a great way through it, as if a real big world was pressing against his opponent.

What's more, there will be creatures appearing on it? Interpreting joys and sorrows.

But that level? Has reached an unthinkable level? Lu Ming is still a thousand miles away from that level?

But even now? The power of the prehistoric style that Lu Ming exploded and displayed was already extremely astonishing.

The continent was huge, covering the sky and the sun, appeared above everyone's heads, and then suddenly pressed down.

"Let's take action together and ruin this continent."

Yuan Yu roared? Thousands of beams of hair shot up into the sky, like a sword stab to the mainland.

Another formation of nine players combined? It turned into a huge sword and cut upwards.

Other Yuanguang tribes also urged beam hair? The dense beam hair pierced into the sky, and the scene was spectacular.

Rumble!

The primordial continent was under terrible attacks, constantly shaking and bursting.

However, there are still terrible forces impacting down.

Some of the weaker Yuanguang clan couldn't withstand the impact at all, and their bodies were torn apart.

Even though the vitality of the Yuanguang clan is extremely tenacious, those with weaker strength are too far away from Lu Ming, and they are torn apart by the terrifying force, and they still completely fall here.

Suddenly, at least 30 Yuanguang clan members were killed.

"Lu Ming..."

Yuan Yu let out a hysterical roar, and the human sword merged into one. It completely turned into a lightsaber, shattering the void, and instantly killed Lu Ming.

Fast, too fast.

The people of the Yuanguang clan were already known for their speed. The ultimate move that Yuan Yu broke out in anxious anger was faster, and Lu Ming was approached in an instant.

Hum!

Lu Ming vigorously waved the God of War Spear and drew towards Yuanyu.

With a violent roar, Lu Ming's figure retreated violently, his body shook violently, and the blood in his body surged.

Lu Ming was hit hard before, and one-tenth of his cells were wiped out. He was still greatly affected, and his combat power was no longer at its peak.

"kill!"

The nine people attacked the sword light of the formation, and then launched an attack, cutting down Lu Ming from the sky.

Lu Ming waved his gun to block it, but was still shaken back.

Then Yuan Yu's attack came again.

The combined attack formation and Yuan Yu's attacks continued, constantly pressing on Lu Ming.

If Lu Ming was at his peak, he would definitely have no problem blocking him, but now his strength was greatly affected, and it would be very difficult to be attacked by the two in a series.

While resisting, he backed away.

"Die to me!"

Suddenly, a figure appeared behind Lu Ming, launching a thunderous blow.

This is an envoy of the king, whose combat power is comparable to the strongest heavenly monarch. It was originally the core of the previous nine-man combined attack formation. The previous combined attack formation was defeated by Lu Ming, and this person has been hiding around. Wait for the mobile hand.

At this moment, Lu Ming was suppressed and unprepared, he immediately seized the opportunity to launch the strongest blow.

Lu Ming did not avoid this blow, nor did he want to avoid it.

Because if he wanted to avoid this blow, he couldn't avoid the attack of Yuanyu and the nine-person team.

Rather than Yuanyu or the nine-man team attacking formation, he would rather take a blow from a 'king under the war'.

puff!

The sword light of the king's war ambassador penetrated Lu Ming's heart, and a terrifying force exploded, shattering Lu Ming's heart.

A normal person's heart is shattered, and if he doesn't die, he will suffer terrible injuries, and his vitality will be severely injured.

But for Lu Ming, the whole body is the same, and there is no particularly obvious point.

So the heart is broken, it has an impact, but the impact is not big.

When he was sneak attacked by the king's war ambassador, Lu Ming had already used a wild way to condense a continent and stand in front of him.

After being pierced through his heart, Lu Ming didn't stop, his backhand was just a punch.

"you..."

The envoy of the king obviously did not expect that after Lu Ming's heart was shattered, there was nothing at all, and he could launch a counterattack in an instant.

He was stunned for a while and decided his fate.

boom!

Lu Ming's fist slammed into the head of the king's warrior and exploded his head.

The terrible power directly annihilated his soul completely.

A king came to war and fell.

bump!

At this time, Lu Ming's prehistoric explosion hit Lu Ming with a terrible sword light.

Lu Ming's body retreated violently, and he was still a step too late. His body was almost split into two, and a terrible wound appeared.

Lu Ming vomited blood, his figure retreated violently, and rushed in one direction.

Chapter 4862: Robbery

With Lu Ming's current combat power, it was still too reluctant to deal with these Yuanguang clan.

If his combat power is fully utilized, it will be no problem to suppress an envoy of the Emperor Guangqian, and even if the opponent is careless, he will be killed by Lu Ming. Before the Yuan Jiujiu's command, there was an envoy of the Emperor Guangqian Yuanhan who died in Lu Naruto.

But the reason why Yuanhan was killed by Lu Ming was somewhat careless.

Really speaking, an Emperor Guangqian faced Lu Ming, even if he was lost, he would not be killed so easily.

Coupled with the two powerful nine-man team attack formation, they fought Lu Ming together, and Lu Ming was naturally lost.

Being able to kill dozens of opponents under such a siege, as well as an envoy under the king, is already an astonishing combat power.

At this time, Lu Ming's combat power was not in his peak state, and he was no longer as good as Yuan Yu.

"Chasing, don't let him go!"

Yuan Yu roared, body like a glow, chasing Lu Ming.

The formation of nine people attacking together turned into a sword of light, chasing Lu Ming.

As for the others, following far behind, Lu Ming's combat power was too terrifying, and they really didn't dare to get too close.

"Lu Ming, if you can't leave, die for me!"

Yuan Yu drank coldly. Thousands of beams of hair turned into thousands of sharp swords and pierced Lu Ming at an amazing speed. The void was pierced and the sound of howling resounded through the sky.

boom!

Lu Ming turned around and slapped it with a palm, turning into a huge continent, hiding behind him like a shield.

At this moment, Lu Ming's combat power was no longer at its peak, and the condensed continent was not at its peak. It was pierced by hundreds of sword lights, and holes were suddenly pierced, and then burst open.

"My strength consumption is too serious."

Lu Ming's face was a little gloomy.

Although the power of the breaking style and the prehistoric style has increased greatly, correspondingly, when it is used, the power consumed also increases.

Just now, Lu Ming's continuous use of the Heaven Breaking Style and the Primitive Style was very exhausting to him.

At this time, Lu Ming's taboo power had already consumed more than half.

As this continues, Lu Ming's situation will become increasingly unfavorable, and Yuanyu and others must be thrown away as soon as possible.

"Go up the mountain and use the broken formation there..."

Lu Ming's heart moved, his figure turned, and he rushed towards the mountain where he had come down just now.

Around this mountain, there are still many broken formations remaining.

Although these formations are broken, it does not mean that there is no danger. Some broken formations still retain terrible power.

Lu Ming had also studied carefully before and spent a lot of time before he passed the formation area.

Although his attainments in formations are far inferior to Dandan, they are just some broken formations. It took him a while to write down some broken formations that still possess terrifying power.

Lu Ming planned to use these remnant formations to block Yuan Yu and the others so that he could get out.

They were originally at the foot of the mountain, so they quickly rushed to the formation area.

Lu Ming's body changed, and he rushed past a dilapidated formation that still possessed terrifying power.

Lu Ming knew that there was a powerful remnant formation here. Yuan Yu and the others didn't know, they didn't have time to identify it carefully.

So when Yuanyu rushed, it naturally triggered this remnant formation.

Huh!

This remnant array was filled with sunlight, and part of the runes emerged, turned into dozens of purple knife lights, and slashed towards Yuanyu and others.

Yuan Yu's face changed drastically, his beams and hair danced wildly, blocking the defenses in front of him.

Bump...

Those purple knife lights slashed on the beam hair, and Yuanyu's beam hair was continuously cut off.

Yuan Yu's body was also blocked.

At the same time, the formation of the nine players was also blocked by the purple knife light.

As for the other Yuanguang clan, because they were far behind, they were not attacked by the remnant array, otherwise, with the power of the remnant array, I don't know how many people would die.

Taking this opportunity, Lu Ming rushed forward quickly and soon approached the top of the mountain.

"Get around this broken formation..."

Yuan Yu yelled, retreated quickly, avoiding the edge of the remnant formation, and then chased Lu Ming from the other direction.

The same is true for the formation of nine players.

It is a pity that this mountain still has a terrifyingly powerful remnant formation. They rushed to chase Lu Ming in more than one place. They were led into the pit by Lu Ming several times and were attacked by the remnant formation.

After several obstructions, Yuan Yu and others completely lost Lu Ming's trace.

"Damn, damn..."

Standing on the top of the mountain, looking at the empty surroundings, Yuan Yu roared, his face extremely distorted.

Twice and twice, he was deflated in Lu Ming's hands. This time he also lost a king's war ambassador. Yuan Yu's mood was so terrible that he wanted to smash Lu Ming.

At this time, Lu Ming had left this mountain and appeared on the side of another mountain.

puff!

Lu Ming's face was a little pale, and he couldn't help but vomit another mouthful of blood.

With a plop, Lu Ming sat down on the ground, looking very languid.

However, Lu Ming's eyes were still piercing, swept in one direction, and said coldly, "Who?"

"Hehehe, Lu Ming, what a coincidence, I didn't expect to meet you here."

A sneer came out, and then a group of people appeared.

It is actually a member of the Celestial Race, and the leader is the Extinct Heavenly Monarch.

Beside Exterminate Heavenly Monarch, there are also two strongest Heavenly Monarch level experts.

But he did not see the Heavenly King of Bai Zhan.

Obviously, the Celestial Race has acted separately.

"Extinct, it was you."

Lu Ming said coldly.

"Lu Ming, you seem to be hurt very badly, but your strength is really beyond my expectation. You can escape from the hands of such a diverse light race master. Your speed of progress is really scary, really You can't keep it."

Extermination Tianjun said, with a cold murderous intent in his eyes, and the two other strongest Tianjun level masters slowly surrounded Lu Ming.

"Did you see it just now?"

Lu Ming asked, pretending to change his face.

"Of course, I happened to see it not far away before, so I arranged it here in advance."

Extinct Tianjun smiled.

"Just a few of you want to kill me?"

Lu Ming sneered.

"I have to admit that if you were at your peak, we couldn't kill you at all, but in the previous battle, you suffered multiple traumas. I can see it clearly. It is a miracle that you did not die. You are still saved now. How much combat power do you have?"

Extinction Tianjun sneered.

"Really, then you might as well try it."

Lu Ming said calmly.

Seeing Lu Ming's calmness, Exterminate Tianjun couldn't help hesitating a little, feeling a little unsure.

Lu Ming's combat power was too terrifying. In the previous battle, Lu Ming was able to contend with a 'light former king's emissary'. Such combat power was simply appalling.

At the time when the Celestial Extinguishing Army garrison battled, Lu Ming successively cut the three strongest heavenly monarchs, showing off the power of terror. Later, it is immortal speculation that Lu Ming's power should not be used at will, or even difficult to use.

After many trials before Extinguishing Tianjun, he also came to this conclusion.

Did they all guess wrong?

Chapter 4863: Extinct, you won't die in vain

Did they guess wrong? Lu Ming's true combat power has always been so terrifying.

Have been pretending to be a pig and eating a tiger?

"Even if he pretended to be before, it is absolutely true that he was severely injured by the Yuanguang clan before. It is a miracle that he is not dead after suffering such an injury. He is just lingering, and there is absolutely no power left. ."

Extinction Tianjun warned himself like this in his heart.

However, he was still a little bottomless, and immediately looked at a tall and burly figure, a puppet of a primitive god.

The Celestial Race originally had two gods and spirit puppets, whose combat power was equivalent to that of the strongest Tianjun, but one blew himself up later, and now only the last one is left.

Extermination Tianjun is cautious by nature, and has some doubts in his heart, so he dare not step forward, so he manipulates the primitive **** puppet to let the primitive **** puppet come forward.

bump!

The primordial **** puppet stepped out in one step, and the body quickly became larger, and a variety of powerful forces filled his body. These forces combined with each other in a wonderful form to form a chaotic and terrifying force.

"kill!"

The primitive **** puppet roared and blasted out with a punch. The huge fist crushed the void into chaos, and the giant fist blasted towards Lu Ming like a hill.

Lu Ming's expression did not change. The God of War spear had long been in his hand, and he used the sky-breaking style, pierced with one spear, and collided with the giant fist of the primitive **** puppet.

The God of War Spear was extremely sharp and invincible, directly breaking through the chaotic power of the primitive **** puppet, piercing his huge fist.

Flesh and bones splashed, and the primitive **** puppet's figure couldn't help backing back again and again. Lu Ming flew to follow, the God of War spear swept out, and slammed on the body of the primitive **** puppet.

The body of the primitive **** puppet shook wildly, backing back again and again, and Lu Ming launched a stormy attack.

The primitive **** puppet was not Lu Ming's opponent at all. It was far away and completely crushed. Even if it was a puppet, it was useless to fear death.

After ten strokes, with a touch, the body of the original **** puppet was swept again, flew out, and almost broke in two. A few celestial races couldn't escape, and were hit by the original **** puppet, the body burst directly, and the courtyard was on the spot.

And the original **** puppet, lying on the ground, motionless, was already half ruined.

All the celestial races on the scene took a breath.

"Your combat power, your combat power... how is it possible?"

Extinct Heavenly Monarch roared in horror, and his eyes were filled with panic and panic.

The primitive **** puppet, but with the combat power comparable to the strongest heavenly monarch, was actually crippled by Lu Ming's ten moves. This combat power was simply terrifying, and it looked like it was severely injured and lingering.

He is clearly a demon king.

"Extinct, today, kill you!"

Lu Ming's indifferent body was affected, murderous as cold as a knife, stalking in the air, powerful aura, oppressing the extinction Tianjun.

Exterminate Tianjun's face was pale, and his heart was cold.

Huh!

He turned and left without hesitation, as fast as lightning.

"I want to go now, it's too late!"

Lu Ming spoke indifferently, stepped out, shaped like an aurora, and rushed towards the Extinct Heavenly Monarch.

Before, Exterminate Tianjun had targeted him repeatedly and wanted to harm him. At that time, because it was not a good time to take action, Lu Ming endured it.

Now, there is no need, this time, we must get rid of the scourge of Exterminating Heavenly Monarch.

Lu Ming's previous battle with the Yuanguang Clan was severely damaged, but it was not as severe as Extinction Tianjun and others imagined.

One, his vitality is extremely tenacious, and his soul is scattered among various cells, which is difficult to destroy at once.

In addition, the speed of Lu Ming's recovery is also extremely terrifying. Although the time before and after is not long, he has recovered a lot.

Although his remaining combat power is not as good as Yuanyu's level of power, if he tries his best to deal with the existence of the strongest Tianjun level, it is still very easy.

It was only about ten tricks before, and the original **** puppet was destroyed.

After just a few breaths, Lu Ming caught up with the Extinct Heavenly Monarch.

"Lu Ming, the Celestial Clan, the Yaxian Clan and the Heaven Extinguishing Army have a cooperative relationship. You can't kill me."

Extinction Tianjun roared in horror.

"ridiculous!"

Lu Ming spoke indifferently, and the God of War spear suddenly pressed forward, and the spear's light soared like a mountain range, pressing against the Extinct Heavenly Monarch.

"Fight with you."

Exterminating Tianjun knew that Lu Ming would not let him go, so he roared like crazy, exploding his power to the extreme.

The divine weapon in his hand is also a source-level divine weapon. He inputs all the power of the origin he controls into the source-level divine weapon, and makes a full blow.

when!

A terrifying roar erupted, and then, Extinction Tianjun's body shook wildly, and his body flew out like a torn sack, hitting a huge rock, and smashing the rock to pieces.

He vomited blood, and the arm holding the source-level magic weapon was twisted and deformed, and his bones broke every inch.

However, the vitality and resilience of characters such as Extinct Heavenly Monarch are also extremely amazing. As long as the soul is not destroyed, the trauma of the body can be quickly recovered.

There was a crackling sound in his arm, his muscles were constantly squirming, and he recovered quickly.

"kill!"

Lu Ming took advantage of the situation and killed him, not giving Extinct Tianjun time to recover.

"Ghost Dance!"

Extinction Tianjun yelled, his figure flashed, and he flashed quickly like a ghost. Obviously, in a head-on confrontation, he was far from Lu Ming, and he wanted to fight Lu Ming with his body.

However, he made a wrong calculation.

A palm shoots out, and the predecessor revolves out, forming a continent, covering a large area, and enveloping the extinct Heavenly Monarch.

boom!

On the mainland, a powerful force burst out, the earth roared, and some places continued to burst.

Extinction Tianjun was also bombarded by a powerful force, slowing down involuntarily, and fighting the mainland with all his strength.

He slashed a shocking blow and slashed on the mainland. Although the mainland shook violently, he did not break open.

Although Lu Ming's current combat power is not in the peak state, the prehistoric style he played is not in the peak state, but it is not easily defeated by the Extinction Tianjun.

The extinct Tianjun was like a lightning strike, and his body fell towards the ground.

Lu Ming took the opportunity to pierce through the heart of Exterminate Tianjun with a shot.

Extinction Tianjun was severely injured, he vomited blood, and his breath was a little languid.

"Quick, come and help me, come and help me deal with this Lu Ming!"

The extinct heavenly monarch roared.

Because he found that when Lu Ming shot him, there was no Celestial Clan to help, but fled in panic.

Including an old strongest heavenly monarch.

"Extinction, you first block, we first withdraw, you will not sacrifice in vain, we will report to the ancestor, let the ancestor avenge you."

"Go, let's go separately!"

The old Tianjun roared, his figure kept moving, and he moved away quickly.

Chapter 4864: Beheaded

This old strongest heavenly monarch, wearing a golden armor, is one of the nine strongest old heavenly monarchs of the Celestial Race, and he fought against Lu Ming at the resident of the Heaven Extinguishing Army.

At the beginning, there were four old strongest heavenly monarchs who cooperated with Ye Qiuxian to besiege Lu Ming, but Lu Ming eventually killed the three old strongest heavenly monarchs, leaving only one elderly strongest. Tianjun is not dead.

The strongest old heavenly monarch who was lucky enough to not die was the one in front of him.

Therefore, he had a shadow in Lu Ming's heart, and he was frightened when he saw Lu Ming. At this moment, seeing Lu Ming reveal such terrifying combat power, the situation of the battle at the extermination army station would come to mind. Where Dare to stay for a fight, wishing to run as far as possible.

The other celestial races did not dare to stay and flee with all their strength.

Even the strongest Heavenly Monarch could not withstand a single blow, didn't they stay in search of death?

"You **** guys..."

Seeing the escape of the Celestial Race, Exterminate Tianjun uttered a desperate roar.

"Hehe, no one seems to be able to save you."

Lu Ming ridiculed, and the God of War spear continued to shoot out.

"Lu Ming, you have to pay the price if you want to kill me, let's die together!"

Extinction Tianjun roared, his eyes showed a harsh color, his body exuded a dazzling radiance, a terrible breath, diffused out.

Extinction Tianjun is desperate, burning the power of his origin in a frenzy, while preparing to explode.

"Leave room, it seems that I don't want to blow myself up."

A hint of sarcasm appeared at the corner of Lu Ming's mouth.

Although the Extinction Heavenly Monarch burned the original power in the original seed, he didn't really want to blow himself up, leaving room, obviously he didn't want to die.

boom!

call out!

Lu Ming continuously displayed the Primordial and Heaven-Breaking Styles, and stepped up time to kill the Extinction Heavenly Monarch. After a few moves, the Extinction Tianjun was hit again, and half of his body was exploded.

This time, Extinction Tianjun suffered too much, his breath was weak, his face pale, and his soul was greatly damaged.

Even if he tried his best to burn the power of his origin, he was still not Lu Ming's opponent.

"Ah ah, die together, die together!"

Extinction Tianjun's crazy roar, the breath radiating from his body is even more terrifying.

This time, Extinction Tianjun finally decided to blow himself up.

Because he knew that he was bound to die, it was difficult to escape, desperately, wanted to pull Lu Ming back.

A dazzling light burst out from him, and his body began to bulge.

Lu Ming's eyes narrowed slightly, but the offensive continued, and another palm shot out, forming a vast land, pressing against the extinct Heavenly Monarch.

Extinction Tianjun was completely desperate.

Originally, he hadn't planned to completely explode, leaving some leeway to see if he could scare Lu Ming. If Lu Ming saw him exploding, he would quickly back up, then he could stop the self-detonation and take the opportunity to escape.

Unfortunately, Lu Ming had no plans to escape at all, and the offensive continued.

"Ahhhhh..."

Extinction Tianjun let out a hysterical roar, his body swelled quickly, and then he exploded completely with a bang.

The strongest Heavenly Monarch blew himself up, his power was very terrifying, and the violent power swept all directions and swallowed Lu Ming.

However, Lu Ming had been prepared for a long time. When Extinction Tianjun was about to blow himself up, he was always ready to perform the Great Move technique.

The moment the Extinct Heavenly Monarch blew himself up, Lu Ming had already performed the Great Move Technique, and waves of the void appeared, and Lu Ming's figure disappeared from the spot.

The next moment, Lu Ming appeared on a flat bottom thousands of miles away.

"Huh, luck, and didn't get into the dangerous place."

Lu Ming breathed a sigh of relief.

Here, Lu Ming didn't dare to use the big move technique unless it was necessary, because he couldn't guarantee where he would move.

There are terrible formations everywhere here, if you move to a formation, you really don't know how to die.

Even though most of the formations on the mountain peaks are now destroyed, there are still many remaining formations with amazing power. If they are moved to the remaining formations, it will be very dangerous.

If it weren't for a last resort, Lu Ming wouldn't use the big move technique.

But the strongest Heavenly Monarch blew himself up and his power was too terrifying. Even Lu Ming, if he was wounded, would be very dangerous if he was swept away.

Because of that destructive power, it was very likely that all Lu Ming's cells would be destroyed in an instant.

Fortunately, Lu Ming had good luck and did not move to a dangerous place.

Huh!

Lu Ming moved towards the place where Extinction Tianjun blew himself up.

Extinction Heavenly Monarch has a source-level magic weapon, and with the qualities of a source-level magic weapon, even if it explodes, it cannot be destroyed.

Lu Ming didn't want to miss the value of a source-level magic weapon.

Soon, Lu Ming returned to the place where the battle was just now, and saw that there was a huge pit. Everything in the pit was vaporized. Only a magic weapon was lying in the middle.

As for the storage ring of Extinction Tianjun, it has been destroyed in a self-destruction.

Lu Ming waved his hand to put away the source-level genius soldiers who exterminated Tianjun, and then left here with a flash of figure.

There was such a big noise here just now, and it would surely disturb other people. People from the Yuanguang clan will probably follow them soon.

Sure enough, Yuan Yu came with a master shortly after Lu Ming left, but he had already lost Lu Ming's trace.

At this time, Lu Ming had appeared in a hidden place, and began to absorb the energy recovery of the prehistoric crystal.

As the energy of the Honghuangjing continued to be absorbed and refined, Lu Ming quickly recovered, and new cells split out.

In just half a day, all the six trillion cells that Lu Ming had been wiped out recovered, and half a day later, Lu Ming's strength returned to its peak state.

After recovering, Lu Ming continued on his way, heading towards the mountain where Xie Nianqing and others had separated before.

However, when Lu Ming arrived here, he did not see Xie Nianqing and others.

"With their strength, there should be nothing wrong."

Lu Ming thought.

Among the nine people like Xie Nianqing, the Bone Demon's combat power is comparable to that of the 'King of the Light', and they also have a combined attack formation. As long as they don't encounter a large number of Yuanguang clan, there should be no problem with self-destruction.

Next, Lu Ming passed through two mountains again.

boom!

Suddenly, Lu Ming heard a violent roar, and there was a brilliant glow, rising into the sky.

A great war broke out on a mountain not far away.

"That is..."

Lu Ming's eyes condensed suddenly, because in the glow, Lu Ming sensed the aura of perfect heavenly power.

Yeah immortal!

Lu Ming immediately judged that this was Ye immortal.

Because this perfect heavenly power is extremely condensed, far surpassing the perfect heavenly power of Yaqiuxian, in this cave, only Ya Immortal controls such a perfect heavenly power.

"Devil Qi, it's a bone demon..."

Then, Lu Ming's heart jumped, and in the glow of sunlight, he sensed the devilish energy of the bone demon.

Chapter 4865: Bone Demon Battle Ye Immortal

Lu Ming sensed the devilish energy of the bone demon.

The devilish energy and the power of perfect heaven are constantly confronting each other.

Obviously, it was the bone demon who was at war with Ye Immortal.

The bone demon was there, and most of Xie Nianqing and others were there.

Huh!

Lu Ming turned into a stream of light and rushed towards the place where the war broke out.

A fierce battle was going on halfway up the mountain where Lu Ming was headed to.

The Bone Demon and Ye are immortal, fought fiercely.

Bone Demon has invincible defensive power and is indestructible, regardless of defense, exploding to the extreme.

But Ye Immortal is not bad either. Ye Immortal is enveloped in a battle armor. This battle armor is a top-level source-level war armor with amazing defenses.

At the same time, Ye Immortal also holds a top-level offensive source-level magic weapon. It can be said that there is no weak point, and the battle with the bone demon is inextricably difficult.

Even the Bone Demon was still a bit disadvantaged.

Obviously, Ye Immortal also had some adventures during this period. Although his cultivation was still Divine Master Nine Layers, his power was stronger, and his body was boiling with blood, like an ancient behemoth.

And his perfect heavenly power, also more condensed, integrated with the physical body.

The overall combat power is stronger than before, plus a complete set of top-level source-level magic weapon armor, the overall combat power can be said to have surpassed Yuanyu, the former king of light.

It is also a bone demon. With its strong defense power, it can fight against Ye Immortal, and it will be even more invincible if it is replaced by another powerhouse of the same level.

On the other side, there is also a big battle.

Xie Nianqing, Qiuyue, Dandan, Paobao, Ling Yuwei, Tang Jun, Wanshen, and the eight ball players are gathering together. Around them, there is a formation covering them and guarding them.

This formation was formed by Dandan combined with the remaining formations here. The defense is extremely strong. They rely on this formation to resist the attacks of the Celestial Race.

Because the offensive power of the Celestial Race is too strong, they actually have a joint attack formation.

Nine players strike together!

Yes, the nine Heavenly Sovereign-level figures in the Celestial Clan have set up a nine-person joint attack formation, which is very powerful.

Dandan, the previous eight players set up a joint attack formation, but it was not against the nine-man joint attack formation of the Heavenly Human Race.

This set of nine-person combined attack of the Celestial Race was also obtained by Ye Immortal and others in this Zixiao Cave. It was an ancient combined attack with extremely powerful power.

In addition, the celestial race is a formation of nine heavenly monarchs, the pinnacle of all gods, and the nine people have the same cultivation base, and they can play the combined attack formation perfectly.

Once their combined attacking method is not against the opponent, it is not that their combined attacking method is inferior to the opponent, but their number, only eight people, one less than the opponent.

In addition, the cultivation bases of the eight of them are uneven.

Among them, the repair of the ball is the pinnacle of the gods.

Xie Nianqing, Qiuyue's cultivation base is the ninefold divine master.

The cultivation bases of Ling Yuwei, Dan Dan, Pao Bao, Wan Shen and Tang Jun are all eightfold gods.

If you want to fully utilize the power of the combined attack method, the formation of the people who have the same cultivation base is the best.

The cultivation base is uneven and the formation is running, it is difficult to reach the peak.

Therefore, before Dandan and others set up an array to fight against the combined attack of the Celestial Race, they were lost.

The most important thing is that there are not only one, but two of the nine members of the Celestial Race. So Dandan and they quickly lost. At the critical moment, Dandan combined with the remnant formation here and confronted with the formation method to temporarily block it. The attack of the Celestial Race.

However, this was only temporarily combined with the remnant formation here, and the power was limited, and it was impossible to resist it for too long. At this time, the formation was constantly trembling, and it seemed to collapse at any time.

"Hahaha, today, all of you will be beheaded and you will meet Lu Ming with your heads. I don't know what Lu Ming's expression will be?"

One of the heavenly monarchs sneered sneer in the nine-member team attacking formation of the Celestial Race.

"Yes, if Lu Ming killed the extinction, then the people Lu Ming cares about the most will be used to pay homage to him, so that Lu Ming knows what regret is."

Bai Zhan Tianjun also spoke indifferently, he stood aside and did not make a move.

Obviously, Ye Immortal and others already knew the news that Exterminate Tianjun was killed by Lu Ming.

When Lu Ming killed Exterminator Tianjun, those who had fled in all directions had already gathered with Ye Immortal.

Ye's immortal eyes are also very cold.

As soon as he came here, he heard the news that Extinction Heavenly Monarch was killed by Lu Ming, which made him extremely strong in killing Lu Ming.

It didn't take long for them to meet Xie Nianqing and others, and he would naturally not let it go.

"Exterminate that guy is more than guilty, I tell you, Lu Ming can kill exterminate, he can also kill you, sooner or later you will die in his hands..."

In the formation, Dan Dan clamored.

"The sword of heaven and man, the death of the sun!"

"Crazy Demon Sword!"

Ye Immortal and the Bone Demon both performed the Origin Art. The origin art of the two people kept colliding in the void, and they fought countless times in an instant.

Subsequently, the two figures retreated at the same time.

"The bones of the last era should have been buried forever among the ruins. Now, I will send you to sleep."

Ye Immortal's cold voice sounded, and then, his eyebrows glowed, and an invisible ripple rushed towards the bone demon.

Suddenly, the bone demon was struck by lightning, and his body retreated continuously, and the devilish energy on his body trembled.

His soul was under a terrible attack.

"Your weakness is really your soul, then die!"

Ye Immortal's eyes gleamed, and the light between his eyebrows was even more dazzling, and he continued to launch a soul attack.

Ye Immortal is a person of reincarnation, with amazing soul power, but the bone demon has a weakness, that is, his soul is in his eye sockets, and there is no defense.

Although the strength of the bone demon's soul is not weak, it is still easy to be attacked without any defense.

"kill!"

The bone demon roared and wanted to preemptively attack, but in the process of rushing out, he was attacked by the immortal soul, his body shook violently, and retreated violently. The devilish energy on his body became weaker, and his breath weakened. .

Buzzing...

Then, Ye Immortal launched a soul attack several times in a row, and the breath of the bone devil became weaker, and the soul was like a candle in the wind, which could be extinguished at any time.

"Bone Demon, quickly enter the formation, don't fight him hard."

Xie Nianqing yelled.

It can be seen that if this continues, the bone demon will not be able to resist for long, and the soul will really be completely annihilated.

By then, no matter how hard his body's bone defenses are, it will be useless.

The Bone Demon turned and rushed towards Xie Nianqing and the others.

"You can't walk away, kill!" Ye Immortal yelled coldly, and quickly pursued the bone demon.

At the same time, he played Yuan Shu, the sword of heaven and man and the destruction of sun.

A round of sun appeared, radiant, and every ray of light was a sword energy that enveloped the Bone Demon.

Dangdang...

The body of the Bone Demon was hit by a series of attacks, making a series of roars, and his figure was immediately blocked.

Chapter 4866: But so

Click!

At this time, Dan Dan they were in the formation, making a clicking sound.

This formation was finally unbearable and was about to be defeated.

At this moment, the Bone Demon, Dan Dan and others were all in crisis.

"The two formations will drive together and defeat them!"

Ye Immortal gave the order, and at the same time he stepped up his attack on the Bone Demon himself, stopped the Bone Demon with Origin Skill, and then attacked the Bone Demon with a Soul Attack.

Ye Immortal's voice fell, and nine celestial races flickered, and a formation was laid.

These nine celestial races are still nine celestial monarch-level figures, and they are all cultivated at the peak of the gods. On their chests, they have a heart-guard.

This heart-guard is the carrier of their formation.

On the nine heart-guards, densely packed runes appeared. The runes were intertwined and penetrated into one body, and then turned into a warrior wearing a golden armor.

The golden warrior, holding a golden war sword, slashed towards the formation where the ball and the others were.

The two combined attack formations, gathered together, were too powerful. Once their formations could not be resisted, they collapsed completely without a few moves.

Then, the two golden warriors killed Dan Dan, Xie Nianqing and others.

The terrible power makes people's complexion changed wildly, and the heart is chilling.

Among them, Qiuqiu, Xie Nianqing, and Qiuyue tried their best to fight against each other, but they were too far away from the nine-man team. It was just one move, and their bodies flew out, coughing up blood, and suffered heavy injuries.

"It's over... This seat hasn't reached its peak yet, dominating the universe, don't want to die."

Dandan screamed.

call out!

At this moment, a spear light penetrated the void and pierced a golden warrior at an astonishing speed.

The speed of the gunman was too fast, and it was almost too late for the Golden Warrior to defend.

boom!

The gun light directly pierced the golden warrior's head. However, the golden warrior's defense was also very amazing. It actually blocked the gun light forcibly, but the body flew out, hitting the rocks, and smashing a large boulder. .

Huh!

A figure appeared in the void.

This figure is naturally Lu Ming.

When he arrived here, he happened to see Xie Nianqing, Qiuyue and others injured. In a rage, he threw out the God of War spear and knocked a golden soldier into flight.

Then, the God of War spear in Lu Ming's hand swept out, slamming on another golden soldier.

With a bang, this golden warrior was also knocked out and hit the rocks.

"It's a strong combination of strikes..."

Lu Ming's eyes narrowed slightly.

The same nine-person combined attack formation, Lu Ming felt that the nine-person combined attack formation of the Celestial Clan was actually better than the Yuanguang Clan's.

However, it is not difficult to understand that the Yuanguang Clan's combined attack formation method should have been refined by themselves, while the Celestial Clan's combined attack formation method should be derived from Zixiao Dongtian, obviously more advanced and more mysterious.

The same number of combined attacks can also be divided into high and low strength.

Before Lu Ming faced the Yuanguang clan's nine-member combined attack formation, with a full blow, he could defeat the opponent's formation.

But with a full blow just now, it didn't break the Celestial Race's combined attack formation.

"Lu Ming..."

Seeing Lu Ming, Xie Nianqing, Dan Dan and others were overjoyed.

"Hahaha, Lu Ming, you've finally arrived, let him forgive me."

Drinking every day.

"Xiaoqing, Qiuyue, Yuwei... are you all right?"

Lu Ming looked at Xie Nianqing and the others, showing concern.

"We're all right, Lu Ming, go and save Senior Bone Demon, he can't resist it anymore."

Xie Nianqing quickly transmitted to Lu Ming.

At this time, Lu Ming's gaze turned towards Ye Immortal, showing a strong will to fight and a cold murderous intent.

Huh!

Lu Ming turned into a streamer, rushed towards Ye Immortal, and the God of War spear shot out.

One shot is breaking the sky.

Now that Lu Ming is so powerful, he made Ye Immortal's heart jump wildly and his face was solemn.

Regardless of continuing to attack the Bone Demon, he wielded his war sword and used a source technique.

Boom!

The attacks of the two collided, and the sky broke out with a violent roar, sweeping across all directions.

"kill!"

After Lu Ming attacked one move, the offensive continued, and another shot was made in a prehistoric manner. A continent was condensed and pressed down towards the immortality.

"The sword of heaven and man, the death of the sun!"

Ye Immortal played another powerful source technique, covering all directions with infinite sword energy, attacking indiscriminately.

In the end, Hong Huangshi and Lu Ming were both blocked.

However, Ye's immortal face was extremely solemn and ugly.

After several fights, Ye Immortal discovered that in terms of attack power, he was actually inferior to Lu Ming.

How is this possible?

Ye Immortal has lived for endless years and rarely encounters such things.

Lu Ming was only in the eighth realm of the divine master, and he did not control the origin spell, so his combat power could reach this level. It was incredible.

This requires foundation and talent to reach an incredible level before it can be realized.

If it were in the prehistoric continent of the last epoch, it would still be the past, after all, there were too many evildoers in that era.

He has seen even more amazing evildoers.

But in this day and age, it's incredible.

"Yeah, it's immortal, but that's all."

At this time, Lu Ming's eyes were bright and full of confidence.

When Lu Ming and Ye Immortal fought at the same level in the Halo World, they were not Ye Immortal's opponents.

But now, Lu Ming can fight with him with a cultivation base that is one level lower than Ye's immortality, which greatly increases Lu Ming's confidence.

Huh hoo...

Lu Ming brandished the God of War spear, and the spear lights criss-crossed, piercing at Ye Immortal continuously, and the two fought fiercely.

On the other side, the two nine-members of the Celestial Race joined forces to attack Xie Nianqing and others again.

However, at this time the bone demon had slowed down, the devilish energy surged, blocking the two golden warriors.

When the Bone Demon fought against Ye Immortal, although his soul suffered a lot, he surpassed the existence of the strongest Heavenly Monarch after all, and his combat power was still very powerful.

Even if it is not in the peak state, it is not a problem to block the two golden warriors with its strong defense power.

Combat formations, but no soul attacks.

The soul strength of other celestial races is far inferior to Ye Immortal. Even if they attack by soul, they will not have much impact on the bone demons.

In this way, Xie Nianqing, Qiuyue and others were given a chance to breathe.

They took out the **** pill and swallowed it, recovering quickly.

Not far away, Bai Zhan Tianjun and others flickered, trying to attack Xie Nianqing and the others.

But Dandan immediately saw through it.

Dandan's hands danced, countless runes flew out, and combined with the remaining formation on the scene, another defensive formation was laid.

Although this formation was only temporarily deployed, it was still very powerful in combination with the incomplete formation at the scene. It was not a problem to block the few strongest heavenly monarchs for a period of time.

Chapter 4867: Suppress the immortality

Bai Zhan Tianjun and the others went around to attack, and they were really blocked by the formation.

In a blink of an eye, Lu Ming and Ye Immortal had already fought a dozen moves.

Both of them are going all out, and the big tricks continue to erupt, which consumes both of them very much.

However, at this time, Lu Ming's advantage was already obvious. He had completely gained the upper hand and began to suppress Ye Immortal.

when!

A spear light stabbed Ye Immortal, but Ye Immortal blocked the spear light with the armor of the top source-level magic weapon.

The frontal attack power of Lu Ming was indeed a bit stronger than that of Ye Immortal. However, Ye Immortal relied on the superiority of the gods, and Lu Ming wanted to completely crush Ye Immortal, and it was difficult for him to cause much damage.

boom! boom!

Then, the two made a few more moves, and Lu Ming seized the opportunity again and shot Ye Immortal with one shot.

Of course, the attack power was still blocked by the armor of Ye Immortal's body, but Ye Immortal's body also flew out, crashed on the rock, and smashed the rock to pieces.

"Damn..."

Ye Immortal roared in his heart.

Although he blocked Lu Ming's attack with the battle armor, he did not cause much damage to himself, but he couldn't make ends meet.

In the eyes of others, he was crushed by Lu Ming.

In the presence of so many celestial races, his prestige was a huge blow.

Who is he? He is the strongest ancestor in the history of the Celestial Race, but he was beaten by Lu Ming when his cultivation base was higher than that of Lu Ming, which is really a shame.

"kill!"

Lu Ming seized the opportunity, and the offensive exploded continuously, attacking Ye Immortal.

Ye Immortal yelled, and the two continued to confront each other, but after a few moves, Ye Immortal was knocked into the air by Lu Ming again and hit the ground fiercely.

"How could this be?"

Around, those celestial races were pale and trembling, as if they had received a huge blow.

In their hearts, the invincible old ancestor Ye Immortal, was actually suppressed continuously by one, and was embarrassed. Their beliefs were severely hit.

This is worse than their own repression.

boom!

Ye Immortal rushed into the sky from the ground, with a terrifying aura surging from his body, his eyes looked a little sulky at Lu Ming.

For many years, he has not been so humiliated since the collapse of the prehistoric continent and entering a new era.

However, he was so humiliated by a young man.

Unforgivable!

However, he has lived for a long time after all, with a firm mind and a scheming plan, and soon calmed down.

"go!"

The indifferent voice came from the mouth of Ye Immortal.

Today, he knew there was nothing left for Lu Ming and the others.

Although they had two formations of nine people fighting together, Lu Ming and the others, but there were two existences at the same level as him.

Now that the Bone Demon is not in its peak state, it is inextricably difficult to separate the battle with the Bone Demon by virtue of the two nine-person team attack formation.

If the bone demon recovers to its peak, the two nine-person combined attack formation may not be the opponent of the bone demon.

Continuing to fight will be even more disadvantageous for them.

Other celestial races, upon hearing the order of Ye Immortal, rushed towards Ye Immortal, including the two nine-person joint attack formations, also got out of the hands of the Bone Demon and rushed towards Ye Immortal.

Lu Ming didn't stop him. Ye Immortal stared at him all the time. He wanted to make a move, and Ye Immortal would definitely stop him.

He knew in his heart that although he was stronger than Ye Immortal, his strength was limited. It was almost impossible to cause much damage to Ye Immortal.

Moreover, so many moves in the war cost him a lot, and it will not be good for him to continue.

It is impossible to keep Ye Immortal and others, so let them leave.

Soon, the people of the Celestial Race gathered behind Ye Immortal, then slowly backed away, and soon disappeared in front of Lu Ming and the others.

call!

Dan Dan and the others were relieved. It was really dangerous before, but fortunately Lu Ming arrived in time.

"Go, let's leave here first."

Lu Ming said, together with Xie Nianqing and others, headed in another direction.

The battle just now was very dynamic, afraid of attracting people from the Yuanguang clan.

Soon after, they came to the other side of the mountain range. There was a huge crack here, which stretched into the depths of the mountain range. In the crack, there was a deep purple golden hole constantly overflowing.

Lu Ming and the others found a hidden place near the crack.

Dan Dan set up a hidden formation here, covering Lu Ming and the others.

They seemed to have disappeared from where they were, and other people couldn't see Lu Ming and them.

Afterwards, Lu Ming, Xie Nianqing, Qiuyue, Qiuqiu, Dandan and others sat cross-legged and began to recover.

Within half a day, the state of Lu Ming and others returned to their peak.

However, they did not leave, but stayed here.

It is safer to stay here instead of walking around.

Walking around, it is easy to meet people from the Yuanguang clan.

Stay here, in the cracks, there may be treasures flying out.

And now is not the time to enter the crack, and only when the divine light of the cave in the crack overflows almost can enter it.

In a blink of an eye, half a month passed.

They stayed here, and they really had something to gain. Every time they shake, there will be treasures flying out of the cracks.

Of course, most of them are prehistoric crystals, that is, immortal stones.

However, he also got a piece of fairy crystal.

They already have dozens of fairy crystals in their hands.

This is a good thing. It contains the imprint of the origin, which is of great use to the existence of the origin realm. Although it is not comparable to the source-level magic medicine, it is also a supreme treasure.

During this period of time, the people of the Yuanguang clan searched almost a dozen mountains in the surrounding area and obtained some treasures.

They also entered the mountain where Lu Ming first entered and saw the four statues. However, to the Yuanguang Clan, the four statues had no reaction at all.

In the other direction, people from the Celestial Race and the Yaxian Race gathered together.

The reason why they gathered together was to join forces against the Yuanguang Clan.

Now, whether it is the Celestial Clan or the Yaxian Clan, there are five to six thousand people, and together, there are more than 10,000 people.

During the period, Yuanbaji also led people to attack the Yaxian and Celestial races, but after a battle, both sides suffered losses.

Yuanguang family did not occupy much advantage.

Although the number of the strongest heavenly monarchs of the Yuanguang clan and the top-level heavenly monarchs is more, the existence of the king of Guangqian at this level, the Yaxian clan and the celestial clan, are not bad.

There is one from the Yaxian clan and one from the Celestial clan.

As for the people of the Yaxian tribe, their background is very deep, and there are not a few of them who can control the combined combat tactics.

The Celestial Race also has two nine-person team attack formations.

This kind of power is already very strong, not much worse than Yuanguang Clan.

After this battle, the people of the Yuanguang clan did not continue to attack the Yaxian and Celestial clan.

If the power of the Yuanguang clan crushes the Yaxian clan and the Celestial clan, it will naturally destroy the two clans unceremoniously.

But when the strength was not much stronger, they hesitated.

Chapter 4868: Top battle armor, divided action

When the strength is not much stronger, the Yuanguang clan will have to weigh it up, because once a battle, even if they can annihilate the Celestial Clan and the Yaxian clan, their own losses will be huge.

You know, there is more than one creature in the forbidden area.

In fact, they are in a competitive relationship with each other. If their Yuanguang clan loses a lot, how can they compete with the Cangming and Yinsha clan?

The most important goal of their trip was to find enough resources to awaken more of the tribe. As for the annihilation of the Asian immortal tribe, the heavenly human tribe, the destruction of the heavenly army and the demons, they are all secondary.

As long as enough clansmen wake up and annihilate the Yaxian tribe, the Celestial tribe, the Celestial Army and the demons, it will not be easy.

Therefore, around this 'qi vein', the major forces have formed a balance, the Yaxian tribe and the Celestial tribe occupy an area, and the Yuanguang tribe occupies an area.

All parties are waiting for the divine light of the Dongtian in the 'Qi Vessel' to overflow, and then enter the depths of the Qi Vessel to find treasures.

Now the Divine Light of the Cave Sky is so full that all parties are afraid to go in. If he encounters the behemoth that the Divine Light of the Cave Sky condenses, he really has only one dead end.

That kind of behemoth is really terrifying.

A few more days passed in a blink of an eye.

Rumble!

Suddenly, deep underground, there was a violent roar, and at the same time, the ground shook crazily. This vibration surpassed the previous one. The entire mountain range was shaking violently. In the cracks, the divine light from the sky constantly rushed out. And the cracks continued to extend forward, tearing away towards the deepest peaks of the mountain range.

In the deepest part of the mountain range, there are three peaks, which are still intact, and the formation above is also intact.

At this moment, dazzling rays of sunlight appeared on the three peaks, and arrays emerged to resist the tearing of those cracks.

Wow!

Suddenly, everyone saw that at the top of one of the mountain peaks, a peak collapsed due to the vibration, revealing a corner of the inside.

Among them, there are several light groups.

In each light group, there is a black armor.

bump!

Suddenly, one of the light groups shattered, and a black armor flew towards the outside like a bolt of lightning.

The direction of flight was surprisingly the direction of Yuanguang Clan.

During the flight, the black armor exudes a powerful aura, like an invincible master.

"This is... a source-level magic weapon!"

"No, it's the top source-level magic soldier!"

Many people exclaimed.

Lu Ming, Xie Nianqing, Qiu Yue, Dan Dan and others all had their eyes glowing brightly.

This armor is actually a top-level source-level magic weapon, and it is also a defensive type. Such treasures are too rare and rare in the world.

It is more than ten times more precious than the top source-level magic soldiers of the same level.

Lu Ming's current shortcoming is defense. If he had a top-level defensive weapon, he would not be so embarrassed and injured when he met Yuanyu and others before, and even turned defeat into victory. may.

A top defense class source-level magic weapon, the value is too high.

It is a pity that this battle armor flew in the direction of the Yuanguang clan. Several powerful men of the Yuanguang clan have already flown out. One of the light beams of the king's envoy flew out, and this war sword He was entangled tightly, and then handed it to Yuanbaji.

This Guangqian envoy was Yuan Baji's subordinate.

"What a pity, what a pity!"

Whether it is the Yaxian, the Celestial Clan, or Lu Ming and others, they all sighed deeply.

Such treasures, whether it is the Celestial Human Race, the Celestial Destruction Army, or even the Asian Immortal Race, are in urgent need.

Among the Celestial Clan, Lu Ming only saw Ye Immortal and Ye Qiuxian possessing such treasures.

Of course, there may be some origins, but most people do not.

Obtaining one is very significant for improving one's combat power.

Therefore, everyone's eyes are staring at the few peaks deep in the Qi Vessel, revealing a fiery radiance.

They just saw that there were still several pieces of the same battle armor in the shattered corner of the palace.

That is only the corner of the collapsed temple revealed. Is there a similar armor in the temple that has not collapsed?

Apart from battle armor, are there other treasures?

The powerful Qi training technique of the last epoch, or the whole set of combo formation carriers?

These are all supreme treasures.

It seems that in addition to the magical medicine and immortal crystals in the depths of the Qi, there are many other precious treasures.

Everyone geared up, waiting for the divine light of the cave to dissipate.

"Perhaps, we can refine a kind of treasure that can pass through the divine light of the cave and enter the depths of the Qi Vessel first."

At this moment, Dan Dan suddenly spoke.

The eyes of Lu Ming, Xie Nianqing, Bone Demon and others all lit up.

"Dan, what you said is true? Are you sure?"

Lu Ming asked.

"Of course, but you need the help of the power of bubble time and space. When the divine light of the cave is not very strong, you can pass through the divine light..."

Dan Dan said.

However, Lu Ming and the others still felt a little unsure.

Because Dandan's gaze was shining, staring at the peaks in the depths of his Qi, the light of greed was about to become real.

Lu Ming was really worried that Dan Dan was greedy and took the risk.

But in the end, Lu Ming planned to give it a try.

The parties on the scene, relatively speaking, still have the lowest strength.

Needless to say, Yuan Guang Clan, Yuan Jiuji and Yuan Baji together, there are three Emperor Guangqian envoys.

There are also some terrible joint attack formations, such as the 21-person joint attack formation.

As for the Yaxian and the Celestial Clan, they have joined forces. Together, there are also two powerhouses at the level of the Emperor before the Light, and there are also a lot of joint attacks.

In front of the competition, Lu Ming and the others could not have the slightest advantage.

However, if you can enter the Qi Vessel first, you can take the lead and obtain a lot of treasures.

Lu Ming and others decided to give Dandan and Pao a try.

Immediately, everyone gathered the materials that Dan Dan needed, Dan Dan and Qiuqiu, and began to refine them.

The others continued to wait, when there was a fairy stone fairy crystal flying out of the crack, they stopped it.

Soon, another month passed.

Within a month, this area vibrated more violently, and the formations of the several mountain peaks deep in the Qi vein were torn apart a lot.

Those formations were completely torn apart, it was only a matter of time.

In addition, the divine light of the cave sky under the energy veins has also diluted a lot.

Of course, it is still very dangerous for all parties.

However, some people on all sides can't bear it anymore.

For example, the three Emperor Guangqian envoys of the Yuanguang clan had already begun to move and rushed into a crack.

Obviously, I want to take the risk to enter it first and seize the opportunity.

Seeing this scene, the people of the Celestial Race and the Yaxian Race couldn't help it.

The strong man of the Yaxian clan who was comparable to the Emperor Guangqian also rushed into a crack.

Chapter 4869: Search all the way

Then, on the side of the Celestial Race, Ye Immortal was shrouded in battle armor, covered with the power of the perfect heaven, and rushed into a crack.

All parties are comparable to the powerhouses of the Emperor Guangqian, and they all enter the vitality first, wanting to seize the opportunity and seize the treasure.

Lu Ming and others looked anxious.

"Dandan, are the treasures you refined, are you ready?"

Lu Ming asked Dandan.

"Don't worry, it will be done soon..."

Dandan responded.

It's fast, but it's actually a day.

A day later, Dan Dan produced two armors, the armors were engraved with runes, and on the armors, there was a strong time and space power enveloped.

"This is a bit similar to Duyue Feizhou."

Lu Ming watched carefully and found that these two pieces of armor were somewhat similar to the flying boat.

"Yes, this is made by me imitating the flying boat of Duyue, with the power of time and space added to it. With the strength of you and the bone demon, wearing this kind of armor and passing through the divine light that is not very strong should not be a problem. ."

Dan Dan patted his chest and said.

"should?"

Lu Ming looked at Dan Dan with distrust.

Lu Ming really couldn't believe this guy.

"Ahem, I used the wrong word. It's not supposed to be, but 100%. Don't you feel relieved if you are doing business?"

He raised his head and looked like an expert.

"worried!"

Lu Ming answered without hesitation.

"you..."

Dan Dan gritted his teeth, wishing to make a kick on Lu Ming's face, so that he didn't give him face.

"Don't worry, if there is a problem, I will raise your head to see you."

Dandan gritted his teeth.

Although Lu Ming was still muttering in his heart, he finally took over a battle armor, and at the same time, the bone demon also took another battle armor and put it on.

"You are waiting for us here."

Lu Ming looked at Xie Nianqing, Qiuyue and the others, and said goodbye to everyone, and then rushed into a crack with the Bone Demon.

Xie Nianqing and others hid in this hidden formation, as long as they did not take the initiative to go out, it should be safe.

Huh! Huh!

Lu Ming and the Bone Demon rushed into the crack, their bodies flickering constantly, avoiding the divine light of the cave.

Although there are armors refined by Dandan, Dandan's words can pass through the not very strong divine light of the cave, but Lu Ming and the bone demon are still a little bit bottomless, they can avoid it, and it is best to avoid it.

The two of them were extremely fast, constantly flashing, rushing towards the bottom of the crack, avoiding more than a dozen rays of Divine Light.

But the next moment, a more majestic and broader divine light rushed out.

This divine light of the cave sky covers too wide a range, it is inevitable and can only be resisted.

"Flush!"

Lu Ming and the Bone Demon surging in strength urged the armor made by Dan Dan and Bubbles to rush toward the divine light of the cave.

Wow!

The divine light from the cave sky impacted on the two of them, making a clattering sound, but to Lu Ming's surprise, the impact he received was not great.

The armor on his body glowed, generating a peculiar power, and this peculiar power blocked the heavenly light from the outside.

In addition, the power of time and space on the armor also produced a good isolation effect, isolating the Divine Light from the outside.

"It's really useful, Dan Dan, this guy, he's finally reliable a few times."

Lu Ming was overjoyed.

Of course, this was just his habitual thought. Speaking of which, since Dan Dan returned from the Wanhua Ruins, he has become quite reliable.

Thanks to Dan Dan's help many times, the danger was turned into a breeze.

It's just that the impression that Dan Dan gave to people before was really not very good, so many people subconsciously think that Dan Dan is not very reliable.

I don't know how Dan Dan would feel when he knew Lu Ming's thoughts.

Soon, Lu Ming and the Bone Demon rushed through the divine light of the cave, and the consumption of them was very small.

"Yes, yes, this armor is really good, Lu Ming, in this way, under this vitality, we are allowed to move, we only need to avoid those particularly rich divine light."

The Bone Demon was also quite excited to transmit sound to Lu Ming.

The Emperor Guangqian of the Yuanguang Clan, the powerhouses of the Celestial Clan and the Yaxian Clan, facing the Divine Light of Dongtian, they are definitely not as relaxed as they are.

Even if they come in a day early, the speed is far behind them.

The two accelerated and rushed downward.

This vitality is very huge and very deep. The two of them travelled hundreds of thousands of miles all the way down before almost reaching the deepest part of the crack.

"The magic drug..."

Suddenly, Lu Ming's eyes lit up, and he saw several miraculous medicines growing on a cliff.

Lu Ming's figure flashed, and he appeared near the magic medicine.

It's the main magic medicine!

Although it is a master-level magic medicine, it is extremely powerful, far above ordinary master-level magic medicine.

Although it was not as good as the Heavenly Jade Ginseng Lu Ming and the others had obtained before, Lu Ming sensed it and found that the power of this main-level magical medicine was dozens of times that of ordinary main-level magical medicine.

This is because the energy in the deep qi veins is too strong. These master-level magic medicines have absorbed such strong energy for many years, and the accumulated medicinal power is really too strong.

Lu Ming waved his hand and manipulated the power of taboo, plucking a few master-level magical medicines and putting them into the prey.

This kind of master-level magical medicine is what they urgently need right now, whether it is Lu Ming, Ling Yuwei, Dan Dan, Pao Bao and others for cultivation, they all need it very much.

After that, they were able to discover the main-level magical medicine from time to time, and every main-level magical medicine, no matter what type it was, was far superior to the main-level magical medicine outside.

In just over an hour, dozens of such master-level magical medicines were obtained.

At this time, they also landed under the crack.

"Hong Huangjing..."

Lu Ming's eyes lit up.

Under the crack, at a glance, there are densely packed prehistoric crystals.

These prehistoric crystals are embedded on the cliff wall, not knowing how fast they are.

It's a pity that it's not like the previous vein, it's the whole vein.

However, this is only a corner of this vein, and it is normal that the whole vein is not formed.

Lu Ming and the Bone Demon took out the magic soldiers and digging.

Digging piece by piece was too slow. They cut the rock in whole pieces, put it in the storage ring first, and then sorted it piece by piece when they were free.

It took them a full half a day to clean up the prestigious crystals here. Lu Ming estimated that there were at least 50 million in number.

Don't be too small, you must know that this is just a corner of the Qi Vessel, with so much content, the center of the Qi Vessel, I don't know how many prehistoric crystals are contained.

After the search, the two followed the crack and headed in other directions.

In a blink of an eye, they stayed in the cracks for several days.

In the past few days, the harvest has been very large, and there have been more than 100 master-level magic medicines.

Honghuangjing is more than 200 million yuan.

If the main-level magic medicine is exchanged for the prehistoric crystal, plus the obtained prehistoric crystal, it is estimated that it will be nearly 500 million.

"That is... the source-level magical medicine!"

Suddenly, Lu Ming's heart jumped wildly.

Chapter 4870: One billion again

Lu Ming's eyes brightened, and he saw a source-level magical medicine ahead.

This is a source-level magical medicine that looks like a Poria plant. Above the magical medicine, there is a small magical medicine running around.

The strong scent of medicine can hardly dissolve.

However, it is not a top-level source-level magic medicine, but an ordinary level.

A top-level source-level magical medicine, but like a living creature, it will run around.

However, even ordinary source-level magical medicine is of infinite value, and Lu Ming has only one plant in his hand.

The source-level magical medicine is very effective for the existence of the source realm, and it can quickly improve the cultivation level.

Lu Ming and the Bone Demon quickly came to the source-level magical medicine, and there was nothing unusual. Soon, Lu Ming transplanted this source-level magical medicine into the prehistoric ring.

"Here's a fork, which side shall we go?"

The Bone Demon asked Lu Ming.

"Go over there, where the Yuanguang Clan is located."

Lu Ming looked to the left. This side was the area occupied by the Yuanguang Clan.

Lu Ming planned to go to the area where the Yuanguang Clan was located. They had armors refined by Dandan. Perhaps the masters of the Yuanguang Clan could take a step ahead and scavenge the treasures in that area.

The two swiftly moved to the left, seeing the treasures along the way, all of them were cleaned up.

"Be careful, there is someone ahead."

Suddenly, the bone demon whispered.

The bone demon's spiritual sense is extremely keen, and it senses someone in front of him.

Because this place is full of the divine light of the cave, ordinary people's spiritual sense will be greatly disturbed, and the distance, the spiritual sense ability will be greatly affected.

However, the bone demon, at its peak, is after all the existence of the Origin Realm, with a keen sense of spirit, even if it is disturbed, it is much stronger than the ordinary strong of the same level.

Lu Ming and the Bone Demon stopped quickly, found a hidden place to hide, and then carefully looked in one direction.

On a cliff, there is a recessed cave. In the cave, there are three figures.

Is the Guangqian envoy of the three Yuanguang clan.

The two stood, one of them sitting cross-legged, seeming to be healing.

It can be seen that there is a wound on this person, with a purple-gold light gleaming, which is clearly a wound left by the Divine Light of Dongtian.

Obviously, the envoy before the light was attacked by the divine light of Dongtian and was injured. He is here to heal.

"In that area, the Divine Light of Dongtian is stronger than other places. The Yuanguang Clan should be injured in that area..."

The Bone Demon pointed in a direction and transmitted sound to Lu Ming.

Lu Ming nodded and said, "That area may contain more treasures. Let's go and take a look."

They have armors made by Dandan. The Emperor Guangqian of the Yuanguang clan will be injured there, and they may not be injured.

The two condensed their auras and carefully walked around from the other side. The Yuanguang clan members did not sense it.

Soon, the two approached the area and rushed into it.

Huhuhu!

The divine light of the cave sky continued to flow, like a violent wind sweeping across the square, impacting on the two of them, but they were both blocked by the armor, and the impact on the two was not much.

The two of them kept going deep, traversing a distance of several hundred miles, and really found a large number of prehistoric crystals and many master-level magical medicines.

The two began to search.

The two of them spent a few days completely scouring the Honghuangjing and the main magic medicine here.

Even, two source-level magical medicines were discovered.

Of course, there are many treasures such as Xianjing.

"Big harvest!"

Lu Ming's face was full of smiles.

The Primordial Crystals obtained in the past few days plus the main-level magical medicine were not counted specifically, but Lu Ming estimated that all of them were converted into Primordial Crystals, at least more than one billion.

This is amazing.

You know, before they got a whole prehistoric crystal vein, only more than one billion prehistoric crystals.

And here, obviously not the core mineral vein, there are so many prehistoric crystals, which is really amazing.

After the search was clean, the two left in one direction, preparing to look elsewhere.

"Lu Ming, it's you!"

Suddenly, a roar came out.

Lu Ming saw a sneer. The person who roared just now was Yuan Yu.

Yuan Yu, as well as the two light former envoys under Yuan Jiujiu's command, broke through the thinner divine light of the cave and rushed here.

As soon as they rushed in, they saw Lu Ming and the Bone Demon, and then they saw an empty space, not even a piece of prehistoric crystal.

There really wasn't a single piece of prehistoric crystal, it was all cleaned up by Lu Ming and the others, and nothing was left to them.

Angry, furious.

The three light former envoys rushed madly at Lu Ming and the Bone Demon in a rage. The sky was covered with beams of hair, like three thousand sharp swords, that pierced Lu Ming and the Bone Demon.

"go!"

Lu Ming and the Bone Demon didn't fight, but rushed in the other direction, planning to retreat first.

The same combat power, two versus three, is obviously a disadvantage.

Lu Ming fought alone, and it was not a problem to crush one of them, but he was definitely not an opponent when he faced the two light former envoys.

As the two retreated, they blocked the beam of hair.

"Dead, die to me!"

"Can't let them go this time!"

Several king envoys before the light roared and turned into Xia Guang, and Xia Guang evolved a variety of divine weapons, and the speed increased sharply, killing the two of Lu Ming.

Dangdang!

Regardless of defense, the Bone Demon blocked the attack of the two Kings before the Light with one enemy and two. However, although he blocked the attack of the two Kings before the Light, he was also knocked out and hit a rich hole. God light.

Fortunately, he was wearing armor made by Dandan and his own defensive power was amazing, successfully blocking this wave of attacks.

Lu Ming easily blocked the attack of the third Emperor Guangqian.

"Bone Demon, let's go to a place full of divine light!"

Lu Ming came to the Bone Demon and passed a voice to the Bone Demon, and then the two of them turned around and rushed towards the direction of the rich divine light of Dongtian.

It just so happened that there was a strong divine light in this direction, rushing over.

Lu Ming and the Bone Demon rushed into the divine light of the cave with the armor made by Dandan. Although they were also greatly impacted, the armor successfully offset some of their strength. Together with their own strength, they succeeded. Blocked it.

However, the three kings before the light did not have this ability. They didn't dare to fight against such a strong cave sky divine light and dodge in a hurry. When they avoided this cave sky divine light, they had already lost Lu Ming and the bone demon. Of the trail.

"Damn, damn..."

Yuan Yu and other three emissaries before the light screamed in anger.

Lu Ming and the two were actually able to ignore the Divine Light of the Cave Sky, came here one step ahead of them, and searched all the treasures here.

For their Yuanguang clan, immortal stone, immortal crystal and magical medicine are more precious than source-level magical weapons and combined attack formation.

They have no shortage of source-level magical soldiers and joint attack formations. What they lack is treasures with rich energy such as immortal stone, immortal crystal and magical medicine, which can help them awaken more tribesmen.
