

D Emperor 4871

Chapter 4871: Yuanshen Tea

In the next period of time, Lu Ming and the Bone Demon were both active under the cracks, and they obtained a lot of prehistoric crystals and main-level magical medicine.

At this time, the prehistoric crystals and the main magic medicine in the underground cracks were almost looted.

Because this is not the core of the Qi Vein, the core of this Qi Vein is under the three deepest peaks. The veins of the Primordial Crystal should be there.

The place hasn't cracked yet, the divine light of the cave hasn't overflowed, and it's still very terrifying, and they can't get in yet.

The treasures contained outside the core area are naturally limited.

Seeing that there was nothing to gain, Lu Ming and Bone Demon left the ground and returned to the ground to meet Xie Nianqing and the others.

Then, Lu Ming and the Bone Demon took out the harvest from this trip, and everyone began to sort out, digging out the prehistoric crystals piece by piece from the rock.

In the end, it was settled, and the number of Honghuangjing was more than one billion.

In addition, those main-level magical medicines, if they were exchanged for primordial crystals, it would be equivalent to five or six billion primordial crystals. When calculated by the primordial crystals, it would be nearly two billion.

This is a huge amount.

However, for Lu Ming and others, it is not a large number.

Now, Lu Ming, Ling Yuwei, Ten Thousand Gods, Dan Dan, Pao Bao, and Tang Jun's cultivation bases are all eightfold gods.

Naturally, it goes without saying that Lu Ming, the prehistoric crystals he needed to break through were at least five billion or more.

And Ling Yuwei, Ten Thousand Gods, Dan Dan, Pao Bao, and Tang Jun are five people placed in the universe. They are also peerless geniuses. The power to control is no small thing. The energy required to break through the nine levels of the gods is also very amazing, although not comparable to Lu Ming, but it will not be too different.

A billion, or even more than two billion, is normal.

Two billion prehistoric crystals can only make a breakthrough by one person at most.

In the end, everyone discussed and gave these treasures to Dandan for breakthrough first.

Dandan majored in a rune formation. Relatively speaking, the resources needed to break through were slightly less.

Of course, it is compared with Lu Ming and others.

For others, two billion may not be enough, but for Dandan, two billion should be enough.

Also, along the way, Dandan's rune formations have played a huge role, and I believe they can still play a huge role in the future.

Everyone decided together that Dan Dan was not welcome, and began to refine the prehistoric crystals and magical medicine to break through the realm.

He blessed with the formation method, and the speed of refining the prehistoric crystals increased greatly, but it would still take a while for so many prehistoric crystals to be refined.

Not long after Lu Ming and the others came out, the Guangqian envoys of the Yuanguang clan, the strong men of the Yaxian clan, and Ye Immortal also came out one after another.

When Yuan Jiuji heard Lu Ming shot their treasures again, he was immediately furious and sent a large number of people to find Lu Ming and them. Unfortunately, they could not find the hidden formation that Dan Dan had laid, and they naturally found nothing in the end.

"Nine brothers, in this purple sky cave, whether it is Lu Ming and others, or the Asian immortal tribe, and the Celestial tribe, they have obtained opportunities and become stronger and stronger. If this continues, we will obtain more resources for us. More and more unfavorable, we should let more people come in."

Yuan Baji and Yuan Jiuji discussed.

"I also have this intention. With the resources we have obtained during this period, many people from the tribe will wake up, and there should be a lot of gains on the Seventh Brother side. We will transmit the sound to him and let him send Humans return the resources they obtained to the clan, and if they can wake up the sixth or fifth elder brothers and enter the Zixiao Cave, at that time, whether Lu Ming or the Asian Celestial Clan, will all die."

Yuan Jiu Ji Dao, his face was very hideous.

Immediately, Yuan Baji and Yuan Jiuji sent masters with a large amount of resources to take a leap boat and left Zixiao Cave.

In this Zixiao cave sky, one can leave at any time, as long as they take the flying boat.

Later, they sent another message, and the target was Yuan Qiji, Yuan Qiji, the seventh brother of Yuan Baji and Yuan Jiuji.

.....

On the other side, the location of the Celestial Race.

Ye Immortal and some masters of the Celestial Race are also discussing matters.

"Have you not found the trace of 'Yuan Shen Tea' yet?"

Ye Immortal asked, his face gloomy.

In the last battle, he was actually suppressed by Lu Ming. Even with his deep thoughts, he has been in a bad mood during this time.

Lu Ming's rise was so fast that he, the overlord who had lived for endless years, felt tremendous pressure.

You must improve your strength as soon as possible to completely kill Lu Ming.

And 'Yuan Shen Tea' is a peerless treasure that allows him to quickly improve his strength.

Because Yuanshen Tea can make him quickly enter the peak of God Lord.

From the ninefold divine master to the peak of divine master, generally speaking, it is difficult to pile up treasures or resources. It is necessary to slowly realize and accumulate by yourself, and it will happen automatically.

No matter how talented the enchanting evildoer is, it is difficult to make it overnight.

However, in the vast universe, there are no wonders, and fortunes are endless. The 'source **** tea' can go against the sky, allowing the creatures of the ninefold divine master to quickly break through the ninefold.

However, "Yuan Shen Tea" is too rare and precious. It has only appeared in ancient classics, and no one has actually encountered it in reality.

To be precise, Yuanshen Tea is also a source-level magic medicine, a top-level source-level magic medicine, which is like a creature and can move freely.

Earlier, in another ruin in Zixiao Dongtian, Ye Immortal had accidentally discovered "Yuan Shen Tea" and traced Yuan Shen tea all the way to this place.

That's right, Ye Immortal didn't come here on purpose, but came from tracing Yuanshen Tea.

Unfortunately, as soon as Yuanshen Tea came here, it entered the Qi vein and disappeared. During this period of time, Yeah, I have been sending people to look for it.

All the Celestials at the scene shook their heads, saying that they had not been found.

Ye Immortal's expression became more gloomy, and there was a terrifying aura permeating his body, making the other celestial races dare not breathe.

At this moment, Ye Immortal's expression moved, and with a wave of his hand, a sound transmission jade talisman appeared in his hand.

Someone had passed the news to him, and his spiritual sense swept away, and his face immediately showed joy.

"I found the traces of Yuanshen Tea, follow me, remember to keep it secret, and don't let the Yaxian tribe or other forces discover it."

Ye immortal exhorts.

Then, Ye Immortal took a few masters from the Celestial Race and left quietly.

A day later, Ye Immortal returned with the master of the Celestial Race.

There was a hint of joy on his face, but it was full of pity.

His palm opened, and two emerald green leaves appeared in his hand.

These two leaves are not ordinary leaves at first glance. They are very magical. They are green and shining. Above the leaves, there are shadows, flashing constantly, turning into various wild beasts and sometimes magic weapons. .

Unpredictable and unpredictable, it seems to contain infinite mystery.

"Unfortunately, I was still run away by Yuanshen Tea and only got two pieces of Yuanshen Tea."

Ye immortal whispers.

Chapter 4872: Plan was disrupted

The two leaves in Ye Immortal's hands are the tea leaves of Yuanshen Tea.

"But that's enough, one piece of Yuanshen Tea for one person is enough to break through!"

Ye Immortal said silently in his heart, and then said: "Wait for Ye Qiuxian to come here, let him come to see me!"

"Yes!"

The others took their orders, and then retreated one after another. They knew that Ye Immortal was about to start practicing in seclusion.

After everyone left, Ye Immortal brewed a pot of tea and poured a piece of "Yuan Shen Tea" tea into the water.

Suddenly, the tea is full of aroma, with a refreshing scent, which fills the air and makes one smell refreshed.

Ye Immortal drank the tea, then sat cross-legged and began to practice.

A few days later, Ye Immortal stopped practicing and made another pot of tea. After drinking, he continued to practice.

.....

As time passed, the vibration from the ground became more and more violent. The three peaks in the depths of the energy veins, and the foremost peak, a huge crack has appeared, and many of the formations on the mountain have been broken. .

In a rush of time, Lu Ming emerged from a crack in the underground. Three months have passed.

boom!

A powerful breath came from Dandan.

After three months of cultivation, Dan Dan's cultivation level finally broke through and reached the nine-fold divine master.

However, the prehistoric crystals and master-level magical medicine that Lu Ming brought back were almost exhausted by Dan Dan.

Once he broke through, he teamed up with Bubble to refine the kind of armor that could resist the divine light of the cave.

With the previous experience, Dandan and Bubble refining have become familiar, and the refining speed has been greatly increased.

In just over two months, Dan Dan and Bao Bao had refined eight pieces, plus two pieces from Lu Ming and Bone Demon before, and they had one piece.

"How about it, how about going into the depths of the Qi Veins together now? Sweep away the prehistoric crystal veins in the depths of the Qi Veins."

Dan Dan's eyes gleamed, staring at the direction of the deep qi pulse.

Others also showed their hearts.

Before, Lu Ming and the Bone Demon had just turned around the Qi Vein and obtained a treasure worth 2 billion yuan. Then, how much resources would the prehistoric crystal vein in the depths of this Qi Vein contain?

More than 10 billion?

Once they are exhausted, they have all the resources for cultivation.

Lu Ming was also very excited. Once he got all the resources of this vitality, he would surely have the resources to break through the Divine Lord's Nine Layers, greatly increasing his combat power.

When the time comes, he will not pay attention to any light former envoy.

After nearly half a year, the divine light of the cave in the depths of the energy veins has overflowed a lot, and the divine light contained in the cave is now much thinner. With the armor refined by Dandan, they may not be able to break in. Search the treasures inside in one step.

"Go, let's try. If it doesn't work, you will enter my prey."

Lu Ming urged.

Afterwards, they put on the armor and prepared to walk along the crack and into the depths of the Qi vein.

But just when Lu Ming and the others were about to set off, there was a violent roar from the ground, and a terrifying beast roar came from the depths of their energy veins.

"That is..."

The expressions of Lu Ming and others changed drastically.

A beast roar came from the depths of the energy veins, and they couldn't help but think of the giant beast condensed by the divine light of the cave.

Before, it was just the periphery, and there were those giant beasts, and there were also in the depths of the energy veins?

They stopped suddenly.

Just kidding, if you go into the depths of the Qi Veins and encounter those giant beasts condensed by the divine light of the cave, it is really very dangerous, you can only hide in the prey ring.

Fortunately, they set off a bit late.

Ho Ho Ho...

Then, deep in the Qi vein, the beast roars continuously, and the rich divine light of the cave is constantly rushing out.

Huh!

Suddenly, a behemoth rushed out from the depths of the Qi, and the terrifying breath covered the entire Qi.

This behemoth, like a giant bird, was completely purple-golden, and without a doubt, it was formed by the divine light of the cave.

This kind of giant beast condensed by the divine light of the cave does not have much wisdom. Of course, maybe there is not enough time. If the long years pass, it may be able to give birth to wisdom.

This kind of beast had always lived in the depths of the Qi Vessel before, absorbing the divine light of the cave to strengthen itself. As the earth collapsed, it alarmed them. They instinctively rushed out and instinctively carried out crazy attacks.

This giant bird is no exception. After he flew out, he madly attacked with countless terrifying divine light from the cave, bombarding the 'Qi Vessel' and the formations on the three mountain peaks.

Those formations erupted with brilliant rays of light, condensing a series of terrible rays of light, antagonizing the divine light of the cave, and the three peaks in the depths of the energy veins roared continuously and overflowed with energy.

Although the formation of the three mountain peaks was extremely terrifying, it was torn a lot because the earth collapsed and the cracks extended before. It was difficult to resist the giant bird condensed by the divine light of the cave, and it continued to collapse and burst.

However, the body of the giant bird condensed by the divine light of the cave sky was shrinking rapidly, and the light quickly became dim.

In about half an hour, the giant bird completely dissipated and became invisible.

However, most of the formations on the three peaks were destroyed, and even if there were surpluses, they were only a few.

This is completely beyond the expectations of all parties.

Originally, as expected, it would take at least a few months to wait for the earth to collapse on its own and tear the formation of the three peaks.

But in this way, abruptly several months in advance.

At this time, everyone's eyes became very fiery.

"Go, follow me to the mountain, the treasures on it are ours!"

Yuan Jiuji and Yuan Baji gave orders one after another, bringing the masters of the Yuanguang clan to rush towards the three peaks in the deepest part of the Qi Vessel.

At the same time, the Yaxian tribe and the Celestial tribe also rushed to the depths of the Qi Vessel one after another.

"Let's go too!"

Lu Ming, Xie Nianqing and others also set off, rushing to the depths of the Qi pulse.

Sudden changes disrupted Lu Ming's plan.

They originally planned to go underground first to search for treasures in the depths of the Qi Vessel, and then go to the mountain to compete for the treasures on the mountain.

But now, the plan has to be changed.

The three mountain peaks in the depths of the energy veins absolutely contain precious treasures, not to mention anything else, just those source-level magic weapon armors are of infinite value.

They don't want to miss it, they must fight.

The three mountain peaks in the depths of the energy vein are arranged in a trapezoid shape.

To enter the second mountain, you must pass through the first mountain.

Each mountain is very majestic and covers a very large area. All forces rushed to the mountain from different directions and toward the top of the mountain.

Lu Ming and his group of ten people were extremely fast, and they were always there, able to easily avoid the remnant formations, and soon approached the top of the mountain.

Ho Ho Ho...

When Lu Ming and the others approached the top of the mountain, there was a roar, and the dead corpses appeared one by one, killing Lu Ming and others.

Chapter 4873: Scrolls of the last era

This mountain was actually home to many Jueyin corpses. At first glance, at least several hundred Jueyin corpses rushed towards Lu Ming and the others.

Among the dozens of peaks in the periphery, only a few peaks have deadly corpses. It seems that the three most central peaks, even if there is no formation, are not so safe.

It can be imagined that in the last epoch, these three mountains were also the core of this vitality.

Lu Ming, Xie Nianqing and others all took out the magical soldiers attached to the blue flame stone and killed them towards the dead body.

The more than ten Absolute Yin corpses headed by them are extremely powerful. They are all comparable to the strongest heavenly monarchs. If they are placed in the prehistoric universe, a dozen of them who are comparable to the strongest heavenly monarchs will attack together. Of combat power.

But now, Lu Ming and the others are not afraid.

Their magic weapon, attached to the blue flame stone, can restrain the corpse.

Moreover, Lu Ming's combat power is not what it used to be.

Huh hoo...

Lu Ming and the Bone Demon took the lead, fighting a dozen Absolute Yin corpses comparable to the strongest Heavenly Monarch.

The God of War spear vibrated, the spear light skyrocketed, and six or seven spear lights were pierced in an instant, enshrouding six or seven deadly corpses comparable to the strongest heavenly monarch's combat power.

The sharp spear light, coupled with the blessing of the blue flame stone, easily broke the black gas of the body of the dead Yin corpse and penetrated their bodies.

Afterwards, a blue flame enveloped Jue Yin's corpses, quickly wiping out the black energy on them.

On the other side, the Bone Demon was equally powerful, Zijin Zhanyue cut out in succession, and six or seven powerful corpses were also severely injured.

Lu Ming and the others did not entangle these Jue Yin corpses too much. With Lu Ming and Bone Demon as their heads, they rushed away from the surrounding of Jue Yin corpses and rushed towards the top of the mountain like a sharp blade.

In front, a corpse of Absolute Yin came out to stop him, but fortunately, there was no such corpse of Absolute Yin that was too scary, such as the silver-eyed corpse.

Therefore, it cannot stop Lu Ming and others.

After a while, Lu Ming and the others appeared in a huge palace.

This palace is really huge, because on the top of this mountain, there is only one palace, which is endless.

Dandan felt for a while and found that there was no formation in the palace, they rushed in.

It is strange to say that when Lu Ming and the others entered the hall, the corpses of Jue Yin did not continue pursuing them, but stopped outside the hall.

In the hall, the passages criss-cross, forming a large number of houses. It seems that they are for people to live in. Unfortunately, there is nothing left.

They searched dozens of houses and found nothing.

It was not until they came to a particularly wide hall that they finally made a discovery.

In this hall, there are light groups floating in the air.

At a glance, no less than a hundred.

In each light group, there is a scroll.

Yes, all scrolls are not magical treasures.

However, the eyes of Lu Ming and others suddenly lit up.

Sometimes, the content recorded in the scroll is more precious than the magic weapon.

For example, it records various Qi training techniques of the last era, or records various rune formations, or even the refining methods of divine weapons, or the refining methods of the combined attacking array carrier.

Each of these is priceless.

Each of them can make a big power surge and become the deepest foundation.

This is not comparable to a single magic weapon, a single magic weapon can only benefit one person, and these can benefit almost everyone.

It is vital to the development of a big power.

Huh!

Lu Ming rushed out first, grabbed his palm, and grabbed a light ball.

The defensive power of the light group is not strong. It is estimated that after too long time, the power has weakened too much. Lu Ming grabbed the palm of his hand and easily opened the light group, holding a scroll in his hand.

Lu Ming couldn't wait to open the scroll, wanting to see what was inside.

But after opening it, Lu Ming was a little confused.

Because of the text inside, Lu Ming didn't know any of them.

"It's all words from the last era..."

Lu Ming sighed in his heart, but it didn't matter, he could take it back to Extinguish the Heavenly Army and give it to someone to study.

In every force, there are people who specialize in studying the characters of the previous era.

In the endless years, through the excavation of ancient books in the ruins of the universe, after continuous research, almost all the text of the last era has been deciphered.

Even the Celestial Clan and the Demon Clan were handed down from the last epoch, and among them, there are characters from the last epoch.

"It seems that after leaving Zixiao Dongtian, I have to take time to learn the words of the last era."

Lu Ming thought to himself.

With the improvement of the cultivation base, more and more things will come into contact with the things of the last era, so it is very necessary to learn the characters of the last era.

Otherwise, there are some adventures that may not be available.

With a thought, he closed the scroll.

Then Lu Ming pounced on another scroll.

At the same time, Xie Nianqing, Qiuyue and others also started to collect scrolls.

Soon, more than 30 scrolls fell into the hands of Lu Ming and the others.

"Someone!"

"Be careful!"

Suddenly, Lu Ming's heart moved, and he felt that someone was approaching quickly. Then, a terrifying aura, like a tide, flooded the hall with a cold aura.

"People of Yuanguang Clan!"

Lu Ming swept his eyes and found that he was from the Yuanguang clan.

Almost all the strong members of the Yuanguang clan are here.

Headed by the Yuan Jiuji and Yuan Baji, there are also three Emperor Guangqian envoys, and there are some powerful players who have arranged a combined attack formation.

"Lu Ming..."

As soon as he saw Lu Ming, Yuan Jiuji's eyes revealed a cold murderous intent, and he shouted, "Kill them!"

"kill!"

"Kill, kill!"

The three Guangqian envoys were the fastest. Before Yuan Jiuji's words could be heard, the three of them pounced on Lu Ming and the others. Their bodies glowed and combined with their own magic weapons to launch a terrible attack.

Lu Ming and the Bone Demon rushed out and shot with all their strength to block the attack of the three Kings of Light.

boom! boom! ...

Several earth-shattering roars erupted, and violent energy swept around the hall, directly piercing the hall, exploding large holes and splashing gravel.

These halls were originally extremely hard, but it was a pity that they had decayed for too long and could not stop the attacks of Lu Ming and others.

Moreover, the powerful energy defeated those light clusters. However, those scrolls, because of the protection of the light clusters, were still very hard and were not damaged. However, in the turbulent energy, they flew in all directions.

Lu Ming and Bone Demon retreated violently.

"go!"

Lu Ming yelled, waved his hand, and launched the Precious Ring, and took Xie Nianqing and others into the Precious Ring, and then flew away with the Bone Demon.

The combat power of the Yuanguang clan is obviously superior to them, not to mention the fact that the Yuanguang clan's combined attack formation method is useless, naturally it is the best strategy.

Chapter 4874: Yuanguang Clan Blocking Road

"Chasing, chase me!"

Yuan Jiu roared and ordered a chase, and he himself, with some people, started to grab those scrolls.

However, there were still many scrolls flying far away.

The three light former envoys pursued Lu Ming and the Bone Demon, but here the temples are crisscrossed, the passages are staggered, and the terrain is complex. The speed that the Yuanguang clan is proud of cannot be fully displayed.

Instead, Lu Ming and the Bone Demon rushed from the left to the right. Soon after, they completely threw away the three light former envoys.

The three kings before the light had no choice but to leave.

Lu Ming and the Bone Demon, after throwing away the three light former envoys, found a safe place and released Xie Nianqing, Qiu Yue, Dan Dan and others.

"Those guys, when my cultivation reaches the peak of the gods, I must find a chance to kill them."

Dan Dan said very upset.

Dandan is not bragging. What he is good at is the formation method. If his cultivation base goes further and reaches the peak of the god, and then spends more time and uses some materials to arrange the formation, it may not be able to solve the existence of the king of light.

"Let's go and see elsewhere."

Lu Ming said.

Next, they continued to wander in this palace, but unfortunately, they didn't get anything.

"It seems that if you want to get the magic weapon, you can only rely on the two mountains behind, especially the last one..."

Once he spoke, his eyes shone when he talked about the mountain behind.

A corner of it was shattered before, revealing a few light regiments shrouded in the armor of the source-level gods, and that was the last mountain.

"Let's go to the second mountain."

Lu Ming said.

They left here and headed for the second mountain.

Between this mountain and the second mountain is connected by a huge iron chain, and it is also the only passage between the two mountain peaks.

To go to the second mountain, you must pass through this chain.

Because this area contains forbidden air domains, it is impossible to fly at all. If you want to go to the second mountain, you can only pass through this iron chain.

However, when Lu Ming and the others approached the chain, they stopped.

Because the other end of the chain was blocked by someone.

Yuanguang Clan!

Yes, they are still members of the Yuanguang clan, they have passed the chain and guard the second mountain.

Obviously, if someone passes through the chain, he will be attacked terribly.

"Damn it, this Yuanguang Clan obviously wants to block everyone else here, they have the treasure behind."

Dandan growled.

"Do you want to kill it?"

The eyes of the pantheon were fierce.

They have a combined attacking method, they can make a full shot, and hit the other side by surprise.

"No, the Celestial Race and the Yaxian Race will definitely not be reconciled. Let's find a place to hide first, and wait for them to act first."

Lu Ming said.

"Good idea, we can just take advantage of it."

Bone Demon laughed.

They found a hidden place to hide, and at the same time they could see the situation at both ends of the chain.

After a while, in another direction, the Yaxian people appeared, but they did not take action either. Instead, like Lu Ming and the others, they hid somewhere, waiting for others to take action.

Later, the Celestial Race also appeared, and they also hid somewhere.

"Ancestor, Yuanguang clan blocked the way, what shall we do?"

Tianjun asked.

"Wait, wait for the others to take an action."

Ye immortal road.

Lu Ming and the others, as well as the Celestial Race and the Yaxian Race, have exactly the same choices. They all want to wait for others to take action, so they can take advantage of the fisherman's profit.

Therefore, this time, no one took action for several hours.

boom!

Suddenly, on the second mountain peak, a violent roar erupted, the glow of the sky blasted into the sky, a palace exploded, and rubble splashed.

It can be seen that several huge figures are clashing with a deadly corpse.

These huge figures are the nine members of Yuanguang Clan's joint attack formation. There are three corpses in total, fighting a deadly corpse.

This absolutely yin corpse was a silver-eyed corpse, powerful in combat, and constantly clashing with the three formations, with willful vigor.

That palace was exploded just now by the battle between the combined attack and the silver-eyed corpse.

"That is..."

At this moment, whether it was Lu Ming, the Yaxian or the Celestial Clan, their eyes lit up.

In that shattered palace, there are fifteen light groups. You can see that each of the fifteen light groups has a war knife.

Every battle knife is covered with dense runes.

The carrier of the combined attack.

That's right, it is the carrier of the combined attack formation, and it is also the carrier of the 15-person combined attack formation.

Combining the formation, the more the formation carrier, the more people in the formation, the greater the power, and the more precious.

The carrier of the fifteen players' combined attack formation, and it was left by Zixiao Dongtian. It is definitely a fine product. It can be said that it is of infinite value.

Lu Ming and the others, the Celestial Clan, or the Yaxian Clan, their hearts beat faster.

Especially Lu Ming and the Celestial Race, the Celestial Extinguisher and the Celestial Race, all lack this kind of combined attack formation. If they can be brought back, they will send fifteen divine masters to the peak presence to form an array. The power will definitely be very amazing. Fighting power skyrocketed, and the strongest heavenly monarch was absolutely vulnerable.

But how did the Yuanguang clan stay there?

"I wanted to hide my strength first, and waited for the critical moment to take action. It seems that I can't hide it!"

On the side of the Celestial Race, Ye Immortal whispered, and then ordered: "You hide here first and wait for my news."

After that, Ye Immortal stepped out and walked toward the chain.

"Ye Immortal is about to make a move!"

As soon as Ye Immortal walked out, he was discovered by Lu Ming and others, as well as the Yaxian tribe.

"Ye Immortal actually dared to do it alone, where does he have the confidence?"

Xie Nianqing said.

Yeah's immortal combat power is just equivalent to the "Emperor of the Light". Even if it is stronger than the general Emperor of Light, by virtue of the superiority of the magic weapon, the strength is very limited. As long as the opponent shoots two of the Emperor of Light, It is enough to suppress the immortality.

What's more, there are three kings of light over there, and there are many combined attack formations, which is not something that Ya Immortal can contend. Ya Immortal dare to make a move?

Lu Ming frowned. Based on his understanding of Ye Immortal, Ye Immortal was not such an impulsive person. He was mostly certain of his move.

Could it be that in just a few months, the immortal combat power has skyrocketed?

"People of the Celestial Race? Hehe, really looking for death..."

Yuan Jiuji sneered.

He originally wanted to wait for Lu Ming and the others, but he didn't expect to wait for a Celestial Race.

But it doesn't matter, just kill it.

Ye Immortal stepped forward, landed on the iron chain, step by step, moving forward without any haste.

Soon, I will pass the iron chain and come to the second mountain.

"kill!"

Yuan Baji waved.

Huh!

Under Yuan Baji, the two kings before the light made their move, like two streams of light, killing the immortality.

The beams of their hair, like thousands of sharp swords, will pierce the immortality into a hornet's nest.

Chapter 4875: Ye immortal horror power

Facing the fierce attacks of the two Emperors of Light, Ye's immortal expression remained calm, and Gu Jing was waveless.

When thousands of beams of hair approached, Ye Immortal made a move.

boom!

A terrifying breath erupted from Ye Immortal's body, causing the void to burst and the world to lose its color.

There was a war sword in his hand long ago. It was undoubtedly a top source-level magic weapon, not weaker than Lu Ming's war sword.

Huh!

Ye Immortal rushed out, slashing out a shocking sword light.

The sword light slashed out, and those beam hairs continued to shatter. In an instant, thousands of beam hairs all exploded, and the sword light kept slashing towards the two light front kings.

The two kings before the light were shocked, turned into a glowing light, and tried their best to resist.

Boom!

After two roars, the two light front kings made their bodies like kites with broken wires back violently. The light on their bodies dimmed and their auras wilted a lot.

"The light controller, this is the strength of the light controller..."

A Guangqian king yelled in shock, his eyes full of shock.

Other Yuanguang tribes, such as Yuanjiuji, Yuanbaji and others, were equally shocked.

Not only the Yuanguang clan, but Lu Ming and others, the people of the Yaxian clan were equally shocked.

"The peak of God Lord, Ye Immortal has broken through to the peak of God Lord."

Dandan exclaimed.

"How can it be so fast? It stands to reason that the nine-fold breakthrough of the **** master to the peak of the **** master requires a long period of accumulation. Even a peerless Tianjiao, or a reincarnation like Ye Immortal, cannot be so fast..."

Tang Jun also opened his mouth in shock, his eyes full of incredible.

She is also a reincarnation, and her previous life is also the existence of the origin realm. She knows how difficult it is for the nine-fold divine lord to reach the peak of the divine lord. If you are a peerless evildoer, it is impossible to do it overnight, even if it is a reincarnation, it is the same.

Xie Nianqing was also a reincarnation. Her cultivation level had reached the Ninth Level of the Divine Lord nearly a thousand years ago, but after so many years, there has been no breakthrough.

"Yeah immortal at the pinnacle of God Lord..."

Lu Ming whispered, and looked at each other with Xie Nianqing, Qiuyue, Bone Demon and others, and each other's eyes were full of solemnity.

The nine-fold God Lord's Ye is immortal, and its combat power is very terrifying, equivalent to a light former king's emissary, even a bit stronger.

Then, Ye Immortal, who broke through to the pinnacle of the Lord, was undoubtedly even more terrifying.

Just now it was just a move, it repelled and wounded the two light former envoys, which is evident.

bump! bump! ...

After repelling and wounding the two former kings of light, Ye immortal stepped on chains like a stream of light, rushing to the second mountain.

Many people in the Yuanguang clan showed fear in their eyes, and their bodies couldn't help but back away.

"Arrange the formation, 21 people will fight together!"

Yuanjiu roared greatly.

Suddenly, beside him, there were twenty-one masters who flickered, set up a combined attack formation, turned into a war sword, and slashed towards Ye Immortal.

"The sword of heaven and man, the stars burst!"

Ye Immortal's low voice sounded, a sword cut out, and a big star appeared in the void.

The big star expanded rapidly and collided with the war sword condensed by the Yuanguang clan's combined attack formation method, and then exploded with a bang, forming a terrifying force of destruction.

The war sword condensed by the combined attack formation, trembling constantly, flew backwards.

"What a terrifying power!"

The hearts of everyone on the scene jumped wildly.

Ye Immortal's move is obviously a source technique, and it is a source technique that has not been used before. Its power is far above the 'sword of heaven and man, the death of the moon and the destruction of the sun'.

Obviously, the first two moves are better at group attacks, and this one is extremely powerful in a single attack.

It is very possible that Ye Immortal could not be displayed before, and only after breaking through to the peak of the gods could it be displayed.

It was actually capable of knocking back 21 members of the Yuanguang clan in a combined attack formation, and the power was really beyond imagination.

"Ancestor is invincible!"

The people of the Celestial Race were extremely excited, all trembling with excitement.

The Divine Master Realm actually has such a combat power, how can anyone in the world compare?

Ye Immortal seized the opportunity and rushed past, directly over the chain.

"The sword of heaven and man, the death of the moon!"

Ye Immortal's cold voice sounded, a sword cut out, and a broken moonlight appeared in the void, scattered with thousands of brilliance, shrouded all Yuanguang clan people in it.

Every brilliance is a terrible sword light.

All the masters of the Yuanguang clan, their hair exploded, feeling a deadly threat, their beam hair dancing wildly.

The beams and hairs of the more than one thousand yuan light tribe danced together and intertwined to form an airtight defensive wall. However, the cultivation of the Yuanguang tribe present was uneven after all, and the power of the beam hair was also uneven, some The strong ones naturally blocked Ye Immortal's attacks, and some of the weaker ones could not stop them, their beam hair was penetrated, and their bodies were penetrated by sword light.

Suddenly, at least hundreds of Yuan Guangzu were killed.

Other Yuanguang people were panicked and backed away madly.

"It's immortal, it's really decisive, it's a real hero..."

Even Lu Ming had to sigh.

Although it is a hostile relationship with Ye Immortal, I have to admit that Ye Immortal is a great enemy. He acted decisively, facing the Yuanguang Clan and other forbidden creatures, killing him if he said it, and he would kill hundreds of people.

You know, this will offend the Yuanguang Clan to death, and will definitely face the Yuanguang Clan's revenge in the future.

But Lu Ming also understood a truth. Whether it was the Celestial Clan, the Asian Immortal Clan, or the destruction of the Celestial Army or the Devil, and the creatures in the Forbidden Land were originally hostile, even if they were not guilty, they would fight for life and death sooner or later.

If you don't kill them, they will kill you too.

But it's one thing to understand the truth, and it's another thing to dare to do so decisively.

Most people will hold their luck in their hearts and dare not to offend the forbidden creatures to death.

After repulsing the Yuanguang Clan, Ye Immortal's figure flashed and rushed towards the fifteen battle knives. Obviously, Ye Immortal went against these fifteen battle knives.

A set of fifteen-person combined attack formation method is too powerful. If you find fifteen characters at the peak of the gods to form an array, the combat power is at least comparable to that of a light former envoy, or even more.

In this era where the roots are not born, a strong man of the strongest heavenly monarch level is the most cutting-edge combat power, which can affect the battle of a party, not to mention the combat power of the former king.

It is completely the backbone of a party's power, and the core combat power and the degree of preciousness are self-evident.

Otherwise, Ye Immortal would not risk the consequences of completely offending the dead Yuanguang Clan and act decisively.

"Block him, block him!"

"Set up an array, set up an array for me!"

Yuan Jiuji and Yuan Baji roar at the same time.

The three nine people who had fought against the silver-eyed corpse in a joint attack formation suddenly turned around and killed Ye Immortal.

"The sword of heaven and man, the death of the sun!"

Ye Immortal was cut out with a single sword again, and a round of sunrise appeared in the sky, and the sun was blazing.

Chapter 4876: Melee

When Ye Immortal makes a move, it is Yuan Shu.

In a big day, thousands of rays of sunshine are scattered, and every glow is a sword aura, and every sword aura is extremely hot and can burn everything.

This kind of attack was a wide-range attack, an indiscriminate attack, and it engulfed the three nine-person formations and the silver-eyed corpse all at once.

Dangdang...

Those three nine-person team-attack formations constantly collided with the hot sword light. In an instant, they fought hundreds of times. In the end, two of the nine-person team-attack formations retreated violently, and the light was dim. Man, vomiting blood violently at the same time, was hit hard.

There is also a nine-person team attacking formation, which is even more miserable. It was directly defeated, the formation collapsed, and the nine people in the formation were pierced by thousands of swords and fell directly.

The carrier used for the formation of the nine people was not damaged, but Ye Immortal waved his hand away.

The silver-eyed corpse, the black energy of the body guard was also pierced, and the body was pierced with hundreds of tiny sword holes.

However, the vitality of the silver-eyed corpse was extremely tenacious, and it did not fall. The black energy surged all over, and the sword holes were quickly recovering.

"Damn..."

Upon seeing this scene, Yuan Jiuji's eyes were red.

The formation of the nine players just now was his subordinate.

Even in the Yuanguang Clan, the carrier of a nine-person combined attack formation is very precious, and it has fallen into the hands of Ye Immortal, which is a huge loss.

At this moment, Ye Immortal's hatred in Yuan Jiuji's heart was second only to Lu Ming.

At this moment, Ye Immortal was about to make a move, taking away the fifteen war knives.

But at this time, a huge sword light slashed towards him.

It was a joint attack formation set up by the twenty-one men under Yuan Jiuji's command.

Facing the formation of twenty-one people, even the current Ye Immortal had to concentrate on the battle.

boom!

The two sides made another move that shook the entire energy vein, the void shook, and the mountain shook more severely.

At the same time, there were 21 persons under Yuan Baji's body that flickered and formed a large formation.

That's right, Yuan Baji's subordinates also want a 21-person combined attack formation, the glow of the sky is soaring, and a huge war knife is condensed.

The sword pierced the air and also slammed towards Ye Immortal.

boom!

Ye Immortal made an all-out effort and confronted this huge war knife.

Continuously fighting with two 21 people in a battle formation, even if it is Immortal, it is difficult to match. The involuntary figure retreats violently, and the terrible power directly destroys the other temple below.

"That is..."

Many people's eyes suddenly widened.

Because in this bombed temple, there were also light groups, a total of twelve light groups, and each light group contained a spear full of runes.

It is also the carrier of a set of combined strikes.

This is a mountain, not the same as the previous mountain.

On the mountain in front, there is a huge palace connected together.

The temples on this mountain are separated, at least a dozen, scattered on the top of the vast mountain.

Could it be that in every temple, there is a carrier of a combined attack formation.

Many people's heartbeats speed up, if so, it is really worthless.

Even the Yuanguang Clan, a race with a deep heritage, are all heartened.

The difficulty of refining the carrier of the combined attack is too high, not only the materials are extremely precious and hard to find, but the difficulty requirements for refining are also amazing.

If there are so many carriers of combined attack formation, it is a huge treasure.

"Give me!"

Ye Immortal yelled and grabbed the palm of his hand downward, and a huge claw condensed out, shrouded the twelve spears underneath. The force spurred it, and the light group covering the twelve spears burst directly.

Hh hh hh...

The twelve spears flew towards Ye Immortal together, and they were put away by Ye Immortal.

"Look for death, kill him for me!"

Yuanba greatly shouted.

The combined attack of the two twenty-one players was condensed into one sword and one sword, and they slammed into Ye Immortal, and the two sides launched a peak duel.

The Yuan Baji leader appeared above the fifteen war knives and began to collect these fifteen war knives.

Yuan Jiuji's face was a little gloomy.

He also wanted these fifteen battle sword-type formation carriers, but his current power loss under his command was great, and he could no longer compete with Yuanbaji.

"Go, follow me!"

Yuan Jiuji yelled in a low voice, led his subordinates, and rushed towards another palace.

Perhaps, in every temple here, there is a carrier of a combined attack.

For the carrier of the formation, he can no longer guard the chain.

Ho Ho Ho...

At this moment, there were several angry roars from other temples on this mountain.

Then, a few burly figures rushed out from several halls.

These figures were enveloped by a strong black air, fierce and arrogant.

Absolutely Yin corpses, but also silver-eyed corpses.

On this mountain, there are so many silver-eyed corpses that have appeared, and they are five, plus the previous one.

The silver-eyed corpse was equivalent to the existence of the Emperor Guangqian. So many statues appeared all at once, and the faces of Yuan Baji Yuan Nine Ji and others changed wildly.

"Set up an array to meet the enemy!"

Yuanjiu drink very much.

Only Yuanyu was left under him, a light former envoy, who would definitely not be able to stop him. He had to rely on a combined attack.

At the same time, Yuan Baji also let his men attack.

A big dogfight broke out.

"good chance!"

From a distance, Lu Ming and the others looked at each other, all showing emotion.

Before they were all sitting in the mountains watching tigers fighting, and they hadn't made any moves. Now, it's time to make a move.

Those combined attack formations, their hearts were fascinated, for the current extinction army, it was too important.

Needless to say, the current major forces in the universe and the creatures in the forbidden area have existed since the last epoch. They have a profound background and possess a large number of combined attacks.

As for the Yaxian tribe, their background is also profound and amazing, and there is also a joint attack formation method spread.

Even the Celestial Race has now obtained several sets of combined attack formations, and on the side of the Sky Extinguishing Army, except for Lu Ming and the others, they have obtained a set of combined attack formations.

Perhaps nothing can be achieved. If this continues, the power gap between the Heaven Extinguishing Army and the various forces will grow.

The competition between forces depends on the overall strength, and the overall strength must be strong. Relying on the strength of a few people, it can win for a while, but it will not last for a long time.

For example, Lu Ming defeated his opponent, but the overall strength of the Heaven Extinguishing Army was not strong, nor could it occupy the vast ruins of the universe.

Only when the overall strength is strong can we occupy a larger territory and obtain more resources.

"Xiaoqing, Qiuyue, Dandan... You first enter the prehistoric ring, and the bone demon and I rushed over. When the time is right, let you come out."

Lu Ming transmitted the sound to everyone, and then let everyone enter the Precious Ring first, and he and the bone demon flashed like two streams of light, and rushed towards the iron chain.

Chapter 4877: Ye immortal ambush

As soon as Lu Ming and the Bone Demon appeared, the people of the Yuanguang Clan found them, but now they are too busy to take care of themselves, and they are entangled in the silver-eyed corpse, where is there to stop Lu Ming and the Bone Demon?

Soon, Lu Ming and the bone demon passed the iron chain, rushed in the other direction, and disappeared in front of everyone in a blink of an eye.

Seeing Lu Ming and the Bone Demon rushing over, the Yaxian clan also showed emotions.

In the end, Cang Qiong rushed towards the iron chain with the master who was comparable to the king's envoy before the light, and several joint strikes, and also passed the iron chain smoothly and entered the second mountain.

As for the others, continue to stay on the first mountain.

Because the battle ahead is too fierce, there are too many masters participating, and it is the battle power of the king's emissary level before the light, even the strongest heavenly monarch level existed in the past, it is difficult to intervene, other people pass, Isn't it going to die?

Lu Ming and the Bone Demon were very fast, and they soon moved away from the battlefield and appeared in front of a palace.

With a thought of Lu Ming, Dan Dan was released from Hong Huang Jie.

"There is no formation in the palace."

Dandan felt carefully.

After that, Lu Ming, Bone Demon, and Dan Dan condensed their breath and rushed into the hall.

Unobstructed, they came to the center of the temple, and sure enough they made a discovery.

Twelve light groups, wrapped with twelve war swords, each of which was covered with runes.

The carrier of the combined attack.

Lu Ming, Bone Demon and Dan Dan were all overjoyed.

In every temple here, there really is a carrier of a combined attack.

And fortunately, there is no danger in this temple, and no corpse of Jue Yin has been encountered.

Without hesitation, the three of them immediately started to destroy the light group, and put away the twelve war sword-type combined attack formation carriers.

A set of twelve-man attacking formations will bring back the Celestial Destruction Army. If the twelve **** masters are able to form an array, it will almost give the Celestial Destruction Army one more combat power at the level of the Emperor of Light, even if not as good. Not much difference.

The three of them showed excitement, and walked around this hall, making sure that there is no other carrier of the combined attack formation, they left here and headed for another hall.

The mountain peaks are majestic and the area is huge. Even the top of the mountain has a very wide range. There are more than a dozen temples scattered around the top of the mountain. The distance between each other is still a little.

After a while, Lu Ming, Bone Demon and Dan Dan appeared in front of another palace.

Once felt for a while, there was still no formation fluctuations, and the three of them walked in with confidence.

Sure enough, in the center of the palace, they found another carrier of the combined attack formation.

There are still twelve carriers.

It seems that there are still very few formation carriers of the fifteen battle sword type before.

However, under the carrier of the twelve combo formation, there was a figure sitting there.

Suddenly, this figure turned his head and looked at the three of Lu Ming.

The silver pupils were full of cold and tyrannical aura, and the whole body was enveloped by black aura.

A corpse with silver eyes.

Roar!

This silver-eyed corpse let out a violent roar, and the whole body soared with black energy, and then culled at the three people of Lu Ming, the claws split into the air, and the power was terrifying.

Huh!

Dan Dan directly threw out a handful of blue flame stone powder. The blue flame stone powder adhered to the silver-eyed corpse. The blue flame stone powder collided with the black gas on the silver-eyed corpse, making a sneer.

Lu Ming and the Bone Demon had already killed off, and jointly attacked the Yin-eye Yin Corpse.

Lu Ming and the Bone Demon's combat power are not weaker than that of a silver-eyed corpse, plus the magic weapon attached to the blue flame stone, can restrain the silver-eyed corpse, even if the vitality of the silver-eyed corpse is stronger , It was not Lu Ming and the Bone Demon's opponent, just a few tricks, the silver-eyed corpse fell on the wind, and Lu Ming shot through his body, and the energy of the blue flame stone erupted from the silver-eyed corpse.

However, the silver-eyed corpse is extraordinary after all. The blue flame stone has a huge effect on ordinary corpses, and the effect of the silver-eyed corpse is greatly reduced.

Black energy erupted on the silver-eyed corpse, constantly consuming the flames of the blue flame stone.

Unfortunately, the attack of the Bone Demon also arrived.

Zijin Zhanyue almost smashed the head of the Yinyan Yin corpse, causing the Yinyan Yin corpse to suffer more severe damage.

Lu Ming and the Bone Demon continued to attack like a violent storm, and they continued to kill the silver-eyed corpse. Although the silver-eyed corpse was fully resisted, it was still difficult to resist after more than ten moves. The body was divided into several parts. Completely killed.

After slaying the silver-eyed corpse, the carrier of the entire battle formation was put away.

Then, the three people quickly left here and headed for another temple.

However, this time when the three of them approached the hall, a horrible aura pressed towards them. Lu Ming and the Bone Demon were okay. Once they were struck by lightning, their complexions changed drastically, and a mouthful of blood spurted out.

Fortunately, Lu Ming and the Bone Demon helped in time, blocking most of the power of this breath for Dandan, and pulling Dandan back quickly.

At the door of the palace, a figure appeared, with eyes like stars and murderous as cold as frost.

Yeah immortal!

The figure that appeared from the palace was actually immortal.

"Lu Ming, finally waiting for you!"

Ye Immortal spoke indifferently.

Obviously, Ye Immortal didn't know how to get rid of the masters of the Yuanguang clan, came to this temple in advance, took away the carrier of the combined attack formation in the temple, and lay in ambush here, the purpose is to wait for Lu Ming and the others. Hooked.

Obviously, he had seen Lu Ming and Bone Demon come to this mountain before.

"Arrange the formation, Lu Ming, Bone Demon, use a combined attack to block him."

Dan Dan shouted.

It was too late to say that it was fast, and before Dan Dan's voice fell, Ye Immortal appeared.

"The sword of heaven and man, the death of the sun!"

When Ye Immortal made a move, it was a terrible source technique. A big day appeared, and the ten thousand zhang of clouds shone down, and the infinite sword light pierced Lu Ming, Bone Demon and Dandan.

"Dandan, step back!"

Lu Ming yelled, stepped forward, shielding Dan Dan behind him, and slapped out a piece of land. A continent was condensed and blocked the crowd. Then the God of War spear danced wildly, airtight, like shields.

The Bone Demon also attacked with all his strength, playing heavy defenses, and even his body quickly grew larger, using his body to resist the sword light in the sky.

Puff puff...

The prehistoric condensed continent was penetrated in an instant, and numerous tiny sword holes appeared, and then collapsed.

The hot sword light kept colliding with Lu Ming and the Bone Demon, and there was a intensive collision, and then the two of them retreated violently.

The bone demon was better. Ye Immortal didn't use his soul to attack. He resisted it with a solid and immortal body.

Lu Ming didn't feel that well anymore, he even vomited a few mouthfuls of blood, his face was pale, and his body was pierced by sword light in several places.

"Arrange an array, arrange an array!"

Dandan roared.

The current Ye is immortal and terrifying. With Lu Ming and the Bone Demon, they are not opponents at all, and even running away is a problem.

Chapter 4878: Go underground

When Ye Immortal's cultivation base was in the Divine Master Ninth Layer, his combat power was at the level of the Emperor Guangqian, plus a top-level magic soldier, the combat power was very terrifying.

After breaking through the peak of the gods, the combat power skyrocketed even more.

Originally, there was a great distance between the nine-layer **** master and the peak of the **** master.

Even if Lu Ming and the Bone Demon join forces, they are very different from Ye Immortal. They can only contend with the formation of ten people.

Lu Ming didn't hesitate either. With a wave of his hand, Xie Nianqing, Qiuyue, Paobao and others appeared from Honghuangjie.

As soon as they appeared, they did not delay at all, and immediately began to set up the formation. The formation of ten people came out, forming a huge figure, wearing a black armor, the armor was covered with barbeds, and holding a hand of battle. Halberd, the image looks very hideous.

The combined attack formation method obtained by the Celestial Race has a very different effect.

At the same time, Yeah's immortal attack also arrived.

This time, Ye Immortal used a more terrifying source technique, a single attack source technique, the sword of heaven and man—star burst!

A big star pressed towards Lu Ming and the others, the big star surging constantly, imaginable, contained terrifying energy.

Lu Ming and the others controlled the black armored warriors, their statures retreated sharply, and at the same time they cut out with halberds.

boom!

The halberd slashed on the stars, and the stars left and exploded, bursting out devastating energy.

The black armored warrior shook his body and retreated wildly. The people in the formation such as Dan Dan, Bao Bao, Ling Yuwei and other weaker ones, turned pale and almost vomited blood.

However, Ye Immortal's attack was finally blocked.

"So strong attack power!"

Lu Ming and others were secretly horrified.

You know, when they used to set up a joint attack formation, they could easily suppress Yuanyu's envoy before the light.

At that time, the cultivation bases of Dan Dan, Pao Bao and others hadn't reached the eighth level of the Divine Master, and their combined attack formation was not as powerful as it is now.

Now the power of the combined attack is stronger, but facing Ye Immortal, there is a feeling of invincibility.

It can be seen how strong Yeah is immortal.

"go!"

After blocking Ye Immortal's move, Lu Ming and the others controlled the black armored warriors and hurriedly retreated.

Although the combined attack formation can withstand the immortal attacks, it is also temporary. The combined attack formation consumes a lot of power, especially Dan Dan, Bao Bao, Tang Jun, Ling Yuwei and Wan Shen. Only the eightfold cultivation base of the Divine Master, a body of power, will quickly run out.

They want to get rid of the immortality when their power is exhausted.

"Want to go?"

The murderous intent flashed in Ye Immortal's eyes. For Lu Ming, his murderous intent was stronger than anyone else.

A Taboo Sword Ancestor had already appeared, and he didn't want to have another Lu Ming.

The stronger the Taboo Body, the greater the impact on their Celestial Race.

Ye Immortal stepped out, like a stream of light, chasing Lu Ming and the others, and the war sword swung out, a terrifying sword light, slashing towards the black armored warrior.

However, this was not a source technique, but an ordinary attack, which was easily blocked by Lu Ming and the others.

Even if it is Immortal, it is impossible to cast the source spell all the time, and the use of source spells will consume an amazing amount of power.

Even if Ye Immortal's control of his own power has reached its peak, it will not waste a single bit, and it will not be possible to use it all the time.

It will only be used when the distance is close.

The two sides fought and walked away in a blink of an eye.

"The sword of heaven and man, the stars burst!"

When the distance between the two sides is close, Ye Immortal is another terrible source technique.

A round of stars pressed against the black armored warrior, filled with terrifying power of destruction.

Lu Ming and the others could only meet.

boom!

After this confrontation, the black armored warrior retreated again, his body trembling, and the light on his body dimmed a lot.

"Not good..."

Lu Ming and the others sank.

If this continues, they can't resist a few moves, and once their power is exhausted.

Once the power is exhausted, the formation will collapse.

But looking like this, before the formation collapsed, it was difficult for them to get rid of Ye Immortal.

"We are in the crack..."

Lu Ming communicated to others.

Now, he has to fight, he wants to enter the cracks, with the help of the divine light in the depths of the Qi Veins, to throw away Ye Immortal.

Although it is not a good time to enter the depths of the Qi, because the giant bird that was condensed by the Divine Light of Dongtian rushed out, so that the Divine Light in the depths of the Qi could be violent again. At this time, the depths of the Qi are rich from time to time. The divine light of the cave sky rushed out, still very dangerous.

However, they have armors that they have refined, and they may not be able to give it a try.

"it is good..."

"Just do it!"

Xie Nianqing, Qiuyue, Bone Demon and others all agreed.

Huh!

The black armored warrior rushed toward the side of the mountain, and there was a crack on that side.

Ye Immortal pursued quickly, and after the two sides fought a few tricks in a row, Ye Immortal was another source technique, star burst.

This time, blood spurted wildly among the population such as Dan Dan and Tang Jun, and the formation almost collapsed and was in jeopardy.

But at this time, they were not far from the crack.

They controlled the black armored warlord, rushed into the crack, and then quickly rushed to the bottom of the crack.

"Do you want to use Dongtian Divine Light to block me? It's a good idea, but just don't think about it."

Ye Immortal spoke indifferently, without any hesitation, and rushed into the crack with Lu Ming and the others.

Soon after Lu Ming and the others rushed into the crack, Lu Ming and the others couldn't maintain the combined attack formation, and they couldn't help breaking apart.

With a wave of his hand, Lu Ming took Xie Nianqing, Qiuyue and others into the Precious Ring, leaving him and the Bone Demon outside.

Wearing the armor that Dandan left on them, they rushed forward frantically.

call!

A ray of divine light from the cave rushed, Lu Ming and the bone demon passed through.

In the rear, Ye Immortal did not stop at all, and the sword kept cutting out, cutting out the brilliant light of the sword, abruptly splitting the Divine Light of Dongtian, and followed Lu Ming and the others.

Ye Immortal wanted to slay Lu Ming's heart. He was very determined and would not give up easily. After several consecutive divine lights of the cave, Ye Immortal did not give up.

"This guy, you really want to die..."

The bone demon said uncomfortably, he was really a little jealous of Ye Immortal, and Ye Immortal's soul attack was also very terrifying. It can be said that it is the nemesis of the bone demon, so that his body's defense power will not work.

"Rush to the place where the cave sky is full of divine light."

Lu Ming said.

The two of them landed downwards with all their strength, and flew to the place where the cave sky was full of divine light.

However, Ye Immortal's strength is really very strong, unless there is a very strong cave sky divine light, and the average concentration of the cave sky divine light, Ye Immortal can forcefully break open.

After pursuing them for a while, Ye Immortal still did not give up, but with the interference of Dongtian's divine light, it was not easy for him to catch up with Lu Ming and the others. The two sides always kept a certain distance.

Roar!

Suddenly, a roar of a beast rang, causing Lu Ming's hair to burst.

Chapter 4879: Turned out to be fake

In the depths of this vitality, there was a beast roar, which was really scary, and they couldn't help thinking of the giant beast condensed by the divine light of the cave.

Could it be that one flew out before, and there is another one below this?

Thinking of this, not only Lu Ming's face changed drastically, even if he was immortal, his face changed drastically, and his body became tense.

Roar!

There was another beast roar, and then, in front of Lu Ming and the others, a purple-gold divine light of the cave came surging, and among the rich divine light of the cave, there was a giant beast.

This giant beast is like a lion, but its whole body is purple and gold, and it seems to be condensed entirely from the divine light of the cave, exuding a terrifying aura.

Lu Ming, Bone Demon, and Ye Immortal were all shaking in their hearts.

It was really a beast condensed by the divine light of the cave.

"Into the flood ring!"

Lu Ming let out a low growl, waved his hand, and took the bone demon into the prey.

Only one prehistoric ring remained, suspended in the air.

Ye Immortal's eyes flickered. Now is a good time to win Lu Ming. As long as you hold the Honghuang Ring in your hands, Lu Ming and others will catch turtles in the urn.

However, the giant beast condensed by the divine light of the cave was rushing forward, seeing that the distance between the two sides was not far away.

Ye Immortal still didn't make a move in the end, turned around and walked away, quickly retreating towards the rear.

This kind of giant beast condensed by the divine light of the cave is too terrifying, let alone him, even if the existence of the Origin Realm comes, it will die.

Because this kind of giant beast is not a living being, it is just condensed from the rich to the extreme divine light of the cave, there is no difference in realm, and it is not affected by the great calamity of the origin.

Roar...

That giant beast roared constantly, and the divine light of the cave sky kept flashing, which made Ye Immortal feel even more shocked. He didn't dare to stay at all. After flying out for a while, it rushed upwards frantically.

It is strange to say that the giant beast just roared constantly, and did not continue to pursue Ye Immortal. After roaring for a while, seeing Ye Immortal did not know where it went, this giant beast turned and flew towards the Immortal Ring.

"Nest, it's troublesome. Could it be that this cave **** beast is eyeing Hong Huang Jiu?"

Lu Ming was in the prestige ring, paying attention to the outside situation the whole time, and couldn't help but wailing at this time.

The cave **** beast was the name Lu Ming chose himself.

He originally thought that when hiding in the prehistoric ring, the cave **** beast would go after the immortal, but he did not expect that the cave **** beast would not chase the immortal at all, but stopped to pay attention to the prehistoric ring.

What a mistake!

I saw that the cave **** beast surrounded Honghuangjie and observed for a while, the huge body actually shrank quickly.

In the end, the beast-shaped cave **** beast changed rapidly and became a plant.

This plant is only half a meter tall, and its roots are actually rooted in the void, sneaking around Honghuangjie.

On top of this plant, there is a small plant that looks exactly the same as this plant, flying around, and it is entirely composed of energy.

"I...I'll go..."

Lu Ming gaped, dumbfounded.

What kind of cave **** beast is this, it is clearly a source-level magical medicine.

And it is also a very high-level source-level magical medicine, a source-level magical medicine that will run around.

The divine cave beast before dare to love was completely frightening from this source-level magical medicine.

"well..."

There was a hot light in Lu Ming's eyes. This level of source-level magical medicine was of infinite value and definitely not to be missed.

I don't know if Ye Immortal will vomit blood after knowing it.

Lu Ming's thoughts moved, and his figure immediately appeared outside Hong Huang Jie. With a big hand, a huge palm formed and grabbed the source-level magical medicine.

However, the speed of the source-level magical medicine was extremely astonishing. In a flash, it was directly out of the range of Lu Ming's claws, as if frightened, it flew toward the depths of the Qi pulse.

After finally encountering a high-level source-level magical medicine, how could Lu Ming miss it easily? After putting away the prehistoric ring, Lu Ming quickly pursued Yuanji magical medicine.

However, this source-level magical medicine is obviously bred from the depths of the Qi veins. It is very familiar with the terrain here, and it is not afraid of the divine light of the cave, and it constantly rushes towards the place where the divine light of the cave is rich, wanting to throw it away. Lu Ming.

However, Lu Ming had the armor refined by Dandan, and he was also not afraid of this not very strong divine light, and he was closely chasing the source-level magical medicine.

After the two chased and fled, they soon came to the deepest part of the Qi Vessel.

This is almost below the core mountain.

At this time, Lu Ming released the three of Dan Dan, Bubble and Bone Demon.

He found that it was very difficult for him to catch up with this source-level magical medicine alone. He could only rely on Dandan and Paobao for their help.

"The power of time and space!"

The bubble shot, and the power of time and space was played. The time and space in this area were all affected, and the speed of that source-level magical medicine suddenly dropped.

"Send to me!"

Dan Dan also made a quick shot, playing a dense rune.

Seeing this high-level source-level magical medicine, Dan Dan was more active than anyone else, using the strength of Chi Nai.

In the surrounding void, runes emerged, intertwined with each other, forming a sealing formation, and the source-level magical medicine was sealed in it.

At the same time, Lu Ming and the Bone Demon also tried their best, with surging energy, forming a barrier to completely seal the source-level magical medicine.

The source-level magical medicine radiated brilliant brilliance, rushing from left to right, trying to rush out, but with the joint hands of the four of Lu Ming, it was futile after all.

In the end, this source-level magical medicine was sealed by Dan Dan's formation, was caught by Lu Ming, and held it in his hand.

The source-level magical medicine is like a spiritual creature, constantly twisting the needle, the roots of the roots, constantly twisting.

"What a strong vitality, what a strong original mark..."

Lu Ming looked carefully and discovered that this source-level magical medicine was really extraordinary.

Lu Ming had also received a source-level magical medicine before, especially not long ago, he received more than one source-level magical medicine in the periphery of this Qi Channel.

But those source-level magical medicines, compared with this one, are too far apart, completely different.

"Great chance, really great chance, this source-level magical medicine is not only useful for the origin realm, but even for the existence of the peak of the gods, it also has supreme benefits. It can greatly accelerate the speed and probability of breaking through the origin realm. ..."

The Bone Demon stared at this source-level magical medicine, the soul fire in his eyes, constantly beating.

Dan Dan's eyes gleamed even more, staring at the source-level magical medicine, almost drooling.

Ordinary source-level magical medicine, although it is of great use to the existence of the source realm, it has no effect on the existence of the peak of the gods.

Because of the existence of the peak of the gods, it is difficult to absorb the power of the source-level magical medicine and the original imprint in it.

But this top-level source-level magic medicine is different from ordinary source-level magic medicine.

This top-level source-level magical medicine is very easy to absorb and very easy to refine, even if it is the existence of the peak of the gods, it can be refined.

Chapter 4880: Dark God Gold

The value of a top-level source-level magical medicine is really incalculable. It can greatly increase the probability of breaking through the source. The temptation for the **** master realm is enormous. No wonder Dan Dan showed this expression.

Lu Ming could be sure that the Yuanguang clan definitely had many source-level magical medicines of this level. At the beginning, he saw more than one in Yuanji Shenshan.

With a wave of his hand, Lu Ming took this source-level magical medicine into the prey, and then let Dandan release the seal.

Just let it move freely in the prehistoric ring, this top-level source-level magic medicine, free range is the best, anyway, it can't escape in the prehistoric ring.

"Under this vitality, there seems to be no danger. We might as well search all the treasures below this place first, and let them grab the ones above."

Dan Dan said.

"I mean it too!"

Lu Ming nodded, and then released Xie Nianqing, Qiuyue and others. They all wore the armor made by Shandandan and searched this area.

Soon, there was a major discovery.

Magic medicine, a lot of magic medicine.

The environment in the deepest part of this Qi vein is truly unique, and the magical medicine is large.

Most of them were master-level magical medicines, at least several hundred were discovered by Lu Ming and others.

And most of the medicinal power is much stronger than the main magical medicine outside.

The energy contained in hundreds of master-level magical medicines is extremely astonishing.

In addition, there are a few source-level magical medicines.

Unfortunately, the top source-level magical medicine was not found.

"Mineral veins, prehistoric crystal veins, hahaha, it's released, it's released."

Dan Dan suddenly laughed.

They dug down in a place where the main level magical medicine was, and finally, they saw a prehistoric crystal vein.

It looked similar to the mineral vein they had obtained last time, with countless prehistoric crystals embedded in a kind of transparent rock.

Lu Ming, ten people, began a 'hard' struggle.

Peel off the surrounding rocks, exposing a large number of prehistoric crystal veins inside.

A huge vein of prehistoric crystals as huge as a mountain range was exposed before everyone's eyes.

Their eyes widened, and then they showed excitement.

"This... how many prehistoric crystals does this have?"

Dandan was dumbfounded and his eyes glowed.

"At least, there must be tens of billions of wild crystals!"

Tang Jun also opened his mouth in shock, because she was so knowledgeable, she was still shocked when she saw so many prehistoric crystals at once.

"Lu Ming, the energy you need is finally enough."

Xie Nianqing looked at Lu Ming and whispered.

"Yes, it's finally enough!"

Lu Ming nodded, and then urged the prehistoric ring to collect the entire prehistoric crystal vein into the prehistoric ring.

"Lu Ming, what are you doing next, is it to refine the prehistoric crystal here, break through the cultivation base first, or go up to compete for treasure?"

Dan Dan asked Lu Ming.

Break through the cultivation base first, and their combat power will definitely skyrocket.

The prehistoric crystals here are enough for Lu Ming to break through, and the rest can allow several others to break through.

Lu Ming's current cultivation base is only the eighth level of the divine master, and his combat power is so strong. Once he breaks through to the ninth level of the divine master, his combat power will undoubtedly be even more amazing. Even if he can match the immortality, it is not impossible.

But there is a problem, that is time.

Lu Ming wanted to make a breakthrough, at least to refine more than 5 billion primordial crystals, and even more than that, to refine such a terrifying number of primordial crystals would take a long time even if there was a great heavenly refining elementary formation.

It takes at least one year.

After such a long time, the treasures on it had long been robbed by Ye Immortal or Yuanguang people.

But now they go up, their strength is not enough, they really encounter precious treasures, and they can't compete with Ye Immortal or Yuanguang Clan.

Lu Ming also pondered.

Lu Ming thought for a while, and said, "We are right above the mountain that should be the core of the vital energy. Let's go up here and see the situation. If it is not possible, we will find a place to refine the prehistoric crystal. Break through the cultivation base."

This is a compromise method.

First go up and see if things can be done, if there is something to do, then decisively take the treasure, if not, then withdraw.

"Okay, then do that."

The others also nodded.

Afterwards, everyone flew upwards.

Above, there is no crack, they plan to penetrate the rock and enter the top of the mountain.

Soon, they encountered the rock, took out the magic soldiers, and began to dig.

However, they soon stopped because they encountered obstacles.

Among the rocks is a black metal.

This kind of black metal is very hard. Even if Lu Ming and the others try their best, although they can break open, the speed is very slow.

"Is this Black Star Iron?"

Muttered every day.

"Yes, this is Black Star Iron, a material capable of refining main-level divine weapons. I didn't expect there to be so many here."

Tang Jun nodded.

Just now they dug a range of dozens of miles and found that they were all black star iron, and the content of black star iron here was amazing.

However, now they are running short of time and don't have much time to dig.

"The ball, it's up to you."

Lu Ming faced the ball fairway.

"No problem, look at me."

The ball showed two rows of sharp teeth, and with a bang, a large piece of black star iron was gnawed down.

Boom boom boom...

The big piece of Black Star Iron was gnawed down, and Lu Ming waved his hand and put it away.

Since it is gnawed down, it will not be collected for nothing.

At this level of metal materials, the ball is no longer a favorite, because the effect is not great, he wants to eat, at least the metal material that can refine the source-level magic weapon.

Soon, the ball dug a huge channel, extending all the way up.

Within half an hour, the Black Star Iron was dug through.

"Nest, dark **** gold, there are so many dark **** gold here..."

Suddenly, the ball cried excitedly.

Lu Ming was shocked.

Dark **** gold, but the top metal material capable of refining source-level **** soldiers.

Is it here?

They quickly passed the passage and saw a peculiar metal.

This metal is too dark, darker than darkness, without any light.

Lu Ming pointed out his fingers from the depths, his fingers were like gunshots, piercing the black metal, leaving only a shallow pit in the black metal.

"It's really the dark **** gold, the ball, all dug out."

Lu Ming said a little excited.

The metal materials that can refine the source-level magic soldiers are absolutely precious.

"give it to me..."

The ball screamed excitedly, opened his mouth and started digging.

He started digging along the edge of the dark **** gold.

The edge of the dark **** gold is black gold and iron, so it will be much faster to dig in this way.

As they dig into the ball, they found that the dark **** gold here is really amazing.

It took several hours to dig out all the dark **** gold in this area, at least several hundred million catties.

Refining a source-level magic weapon requires about hundreds of thousands of jin of dark gold, which is at least enough for thousands of source-level magic weapons.
