

D Emperor 4881

Chapter 4881: Breaking God Lord Ninefold

Refining a source-level magic weapon requires about several hundred thousand catties of dark gold, mainly because the dark gold is too heavy, and a fist-sized ball weighs five to six thousand catties.

Hundreds of thousands of jin of dark **** gold is actually not big.

Lu Ming collected all these dark gods, and when they returned to the extermination army station, they could be handed over to the master refiner of the extinction army for refining. Of course, the extinction army would also compensate them accordingly.

It's a pity that there is no time. Under such a large energy vein, it seems that there are not only a large number of prehistoric crystals and magic medicines, but also a large amount of precious metals.

Unfortunately, mining metal takes too much time, even if they have the ball, they don't have that much time.

After dug out the dark gold, there was a rock behind. Lu Ming and the others shot together. After a few hours, they dug through the rock and they entered a stone room.

"Here is not the top of the mountain, but inside the mountain. It seems that this is an underground chamber."

The Bone Demon observed for a while and speculated.

"There is a door, go!"

Lu Ming said, on the side of the secret room, there was a stone gate, which opened with a light push. Behind the stone gate was a secret road.

After passing the secret path, they came to another secret room not long after.

This secret room is very large, like a large hall, surrounded by several stone gates.

They randomly opened a stone door and walked in, and found that it was also a stone room.

"This seems to be a refining room!"

Dan Dan said that he was proficient in a rune formation and had experience in refining tools, judging from the traces on the scene.

There are some stone platforms at the scene, which indeed look like a mixing chamber, but unfortunately there is nothing left.

Afterwards, they withdrew from the stone room and opened another stone door.

Behind Shimen, there is also a stone room.

But this stone room looks like a bedroom.

There are stone beds, stone benches and stone tables.

On the stone bench, there are several stone cups and a stone pot, which should be used for pouring tea and wine.

"It smells good, there seems to be wine in this stone pot!"

Dan Dan's nose moved.

"There is indeed wine, so strong, this wine is incredible."

Lu Ming walked to the stone table.

They had sensed it a long time ago, in the stone pot, there is constantly strong energy gushing out, containing terrifying life essence.

Open the lid, everyone was taken aback.

There is indeed wine in the stone pot, but not much, no, not much, but very little, to be precise, only a drop.

A drop of wine can exude such a strong energy and vitality, which is unbelievable.

What's even more incredible is that this drop of wine should have been left over from the last epoch. After such a long time, this wine has actually been preserved without evaporating and corroding, which is somewhat unimaginable.

"I feel that this drop of wine contains terrifying energy, which is countless times stronger than the energy of Tianyu Ginseng."

Xie Nianqing said.

"Yes, this wine should be refined with some peerless magical medicine. The existence of the last era is really luxurious."

Dan Dan said, licked his lips, and could not wait to swallow this drop of wine.

"This drop of wine contains terrifying energy, and most people may not be able to bear it at all, and they will burst their bodies."

The Bone Demon said quietly, like a plate of cold water pouring on Dandan's head.

"Is it just watching?"

Dao unhappy.

"In this, maybe only Lu Ming can try it. Lu Ming, do you want to try it? I feel that if you can refine this drop of wine, you will soon be able to break through to the Ninth Level of Divine Master."

Bone Demon Road.

Lu Ming also showed emotion.

Just after sensing it, I felt the energy contained in this drop of wine was extremely terrifying, and I closed my eyes as if there was a prehistoric crystal mountain piled in front of my eyes.

If you can really refine this drop of wine, maybe it can really make a breakthrough in your cultivation.

"I'll try it first."

In the end, Lu Ming decided to give it a try.

Of course, Lu Ming would not swallow this drop of wine directly, but with taboo force, stripped a trace of wine, about one percent of this drop of wine.

After all, this is a drop of wine from the last era. Who knows if it is poisonous? Or other, it's better to be careful.

One percent of this drop of wine was swallowed by Lu Ming and Lu Ming.

boom!

As soon as this thread entered Lu Ming's body, it was like a star exploding, turning into turbulent Pengbai energy, and scattered into Lu Ming's limbs and corpses.

"What an amazing energy..."

Lu Ming was shocked, using the taboo power frantically, absorbing and refining the energy.

What made Lu Ming secretly pleased was that there was no poison or other unfavorable factors in this drop of wine, only pure energy, which was extremely pure and easily absorbed and refined.

In just over ten minutes, this energy was refined by Lu Ming, and Lu Ming felt that his cultivation had improved a bit.

"It's amazing energy, at least equivalent to the energy contained in fifty or six million fast crystals, and even more than that. Refining this drop of wine may really help me make a breakthrough."

Lu Ming thought, and then continued to shoot. This time, he stripped one-tenth of a drop of wine and swallowed it.

The extremely rich energy dissolves in the body and quickly transforms into Lu Ming's taboo power.

Soon, one-tenth of a drop of wine was absorbed and refined by Lu Ming, and no abnormality was found.

"Let's refining together, in one blast, and attacking the divine master ninefold."

Lu Ming's eyes were bright and he opened his mouth to suck, and all the drops of wine in the stone pot flew into Lu Ming's mouth.

Boom boom boom!

This drop of wine kept exploding in Lu Ming's body. With a crazy impact, Lu Ming's body was a little swollen.

However, Lu Ming is not what it used to be. Since he has comprehended the third thousand great ancient mysteries, the power of taboo has undergone a qualitative change, which is extremely powerful and tough.

The power of taboo works, madly absorbing the energy of refining and chemical liquor.

Lu Ming's cultivation base was also frantically improving, and soon reached the peak limit of Divine Master Eighth Layer, and launched an impact against Divine Master Nine Layer.

A few hours later.

boom!

There seemed to be a roar in Lu Ming's body, as if a certain level had been breached. Lu Ming's aura skyrocketed, soaring upward, and rushing to another level.

God master ninefold, breakthrough!

Xie Nianqing, Qiuyue, Ling Yuwei, Dan Dan and others are all ecstatic.

Lu Ming broke through to the Ninth Level of the Divine Lord, and his combat power would definitely skyrocket. Under his origin, how many opponents were there?

After another hour, Lu Ming's breath receded and he ended his cultivation.

"Unexpectedly, it really broke through, and it was so fast..."

Lu Ming sighed inwardly.

It was too fast. It was only half a day before and after that, it actually broke through. It was many times faster than refining the prehistoric crystal.

It would take at least one year to refine the prehistoric crystals, even if there was a great heavenly refining elementary formation, but it only took less than half a day to refine this wine drop, and the gap was too big.

This drop of wine is simply a treasure.

Chapter 4882: Eleven pieces of battle armor

"What kind of wine is this, is it too scary?"

Dan Dan wandered around the landing and kept watching.

"Have you never thought that the one who drinks alcohol is the scariest one?"

Xie Nianqing said.

Everyone was shocked.

That's right, the drinker, the owner of the wine, is the real horror.

With only one drop left, Lu Ming was allowed to break through from the eighth layer of the divine master to the ninth layer of the divine master.

And the owner of this wine, obviously drinking the whole pot, how luxurious is this?

What kind of cultivation is the master of this wine?

Absolutely far beyond their imagination.

"Go, let's go up..."

Lu Ming said, confident in his eyes.

Feeling the surging power in his body, Lu Ming is full of confidence. Now, even if he encounters Ye Immortal, Lu Ming has confidence to fight.

Even if he encounters a large group of Yuanguang Clan, he is not afraid at all.

With his current combat power, he can compete with all parties for treasure.

"This stone cup and stone pot, you can't give up and put it away."

Dan Dan quickly took a shot and put away the stone cup and stone pot on the stone table.

It is definitely not easy to pair with such precious wine.

After being collected, they walked up a ladder.

As for the other secret rooms, when Lu Ming was refining Jiudi, the Bone Demon and the others had explored them and found nothing.

The stairs slanted upward, and when the stairs reached the end, they came to a courtyard.

Here, we have reached the top of the mountain.

In the temple on the top of the mountain.

"I remember, that kind of top-level source-level magic weapon armor seems to be in that direction."

Dan Dan pointed to the east.

"go!"

Lu Ming and others rushed to the east quickly.

The top-level source-level magic weapon armor, too precious, is their main goal.

Roar!

Suddenly, a violent roar sounded, with extremely sharp energy, tearing to Lu Ming and others.

It is a silver-eyed corpse.

"Just try my strength..."

Lu Ming rose into the air, his body shaped like lightning, and the God of War spear pierced out, colliding with the claws of the silver-eyed corpse.

When the **** of war spear collided with the claws of the silver-eyed corpse, the claws of the silver-eyed corpse directly exploded into shatters, and the **** of war spear pierced the palm of the silver-eyed corpse and the flame of the blue flame stone. , Shrouded the entire arm of the silver-eyed corpse.

The silver-eyed corpse roared and retreated violently.

However, Lu Ming followed like a shadow, and the God of War spear pierced like lightning. Although the silver-eyed corpse tried his best to resist, after more than ten moves, Lu Ming still stabbed several holes in his body.

Finally, stirred by the God of War Spear, the whole body burst open and completely fell.

"Amazing!"

Dan Dan was amazed.

Lu Ming also showed satisfaction.

The silver-eyed corpse's combat power was equivalent to that of the Emperor Guangqian, but was killed by Lu Ming more than ten moves.

Although the Blue Flame Stone was attached to the God of War Spear, it could restrain the silver-eyed corpse, but Lu Ming also did not perform such tricks as the sky-breaking prehistoric style.

It can be seen that Lu Ming's combat power is much stronger than Yinyan Yin Corpse.

This has greatly increased their confidence.

They continued to head east.

Near the east...

Boom boom boom...

Over there, there was a fierce roar, the glow of sunlight continued, and the roar came out from time to time.

"There is still a melee..."

Lu Ming and the others looked from a distance and found that a melee was breaking out at the junction of the second mountain and this mountain.

The second mountain and this core mountain are also connected by an iron chain. At one end of the iron chain, Ye Immortal, there are strong men from the Yuanguang clan, and some silver-eyed corpses, in a big battle.

It is not difficult to guess that the carriers of the joint attack formation on the second mountain were all taken away by all parties. Then all parties wanted to pass the iron chain to enter the core mountain, and a melee broke out at the entrance of the iron chain.

"good chance..."

Lu Ming and others were overjoyed.

Originally thought that Yuanguang Clan, Ye Immortal and others had come to the core mountain and took away the source-level armor of the gods.

Unexpectedly, they were still fighting at the entrance of the second mountain to the core mountain, which gave them a chance.

How can they miss this opportunity?

Lu Ming and the others accelerated their speed and rushed to the east.

The palace there was shattered by a corner before, and a top-level source-level armor of the gods flew out.

Now in the shattered place, several light groups can still be seen. In each light group, there is a battle armor.

It was exactly the same as the previous top-level source-level war armor, at least the appearance looked the same.

When Lu Ming and others were about to approach there, they were discovered by the Yuanguang clan and Ye Immortal.

Ho Ho Ho...

There were five silver-eyed corpses fighting with people from the Yuanguang clan. Lu Ming and the others were also spotted at this moment. They screamed and abandoned the Yuanguang clan and rushed towards the mountain where Lu Ming and them were.

The five silver-eyed corpses rushed past the chains, very fast.

As soon as the silver-eyed corpse left, the people of Yuanguang clan suddenly lost their opponents. Their opponent was only Ye Immortal.

"The combined attack of the two twenty-one players will continue to deal with Ye Immortal, the others, come with us."

Yuanba Great yelled, and brought the two light front envoys under him, as well as several joint attack formations, along the iron chain, towards the mountain where Lu Ming and others were located.

The same is true for Yuan Jiuji, with his masters, followed by Yuan Baji.

Ye Immortal's eyes were cold, and he made a full shot, trying to rush to the mountain where Lu Ming and the others were located, but unfortunately, he was attacked by a combined attack of two 21 men.

The combined attack of the two twenty-one players turned into one sword and one sword. The attack power was amazing. Taking turns attacking, Ye Immortal could only protect himself. It was extremely difficult to rush through.

"Let's speed it up!"

Lu Ming shouted, they increased their speed to the extreme, and rushed into the shattered palace before the silver-eyed corpse and the Yuanguang clan arrived.

"so much?"

As soon as they rushed into the shattered palace, Lu Ming and the others trembled in their hearts and their eyes widened.

Eleven light groups.

There are actually eleven light regiments, and in each light regiment, there is a battle armor, all of which are exactly the same as the top source-level magic weapon that flew out before.

Their heartbeats could not help speeding up. Could it be that these eleven armors were all top-level source-level war armors?

If it is true, it is really posted.

Lu Ming and the others didn't care about it, and rushed up, one of them looked for a light group and started to shoot.

Lu Ming grabbed it with a big hand and grabbed a light ball.

The defensive power of this light group was much stronger than that of the light group that was shrouded by the mountain peaks in front of the carrier of the combined attack formation, and Lu Ming didn't catch it when he caught it.

With Lu Ming's strength, he didn't break through, let alone other people, naturally they didn't break through.

"Ah, break it for me..."

Dan Dan yelled, it turned into a prototype long ago, the carapace glowed, breaking the light group in a formation.

Chapter 4883: Kill the former envoy again

Xie Nianqing and others also used various methods to break the light group.

Huh hoo...

Lu Ming began to move the sky-breaking style, and his five fingers, like five spears, kept piercing the light group.

After using the sky-breaking style, Lu Ming's power was so strong that the light group finally couldn't bear it, and it burst with a touch, and the battle armor inside the light group was also caught by Lu Ming.

The taboo power was input into the battle armor, plus the spiritual sense swept away, Lu Ming already knew the level of this battle armor.

His eyes are extremely bright.

It is really the top source-level war armor of the gods. According to the level, it is the same level as the gods of the life soul heaven.

Sent, really sent.

The magic weapon of the same level, the defensive armor, is more valuable than the offensive magic weapon like the God of War. I don't know how many times higher it is.

At the time, there was no defensive type of defensive type in the life soul heaven eighteen town hall gods. It can be seen that this level of defensive type of gods is too precious and rare.

In fact, when the creatures in the forbidden area were not present in this world, the major forces in the entire universe did not have many defensive weapons of this level.

However, here is the Zixiao Cave Sky. In the prehistoric continent of the last era, only the top power can occupy it, and it is normal that there are many powerful powers that claim to have a 'fairy' seat. There are many battle armors of this level.

It is estimated that there are many more precious treasures than this one.

However, there was no time for refining now, and with a thought, he took this armor into the prey, and then Lu Ming rushed to the second light group.

Originally, there were still eleven light groups here. Lu Ming and the ten of them were divided into ten light groups, and there was one remaining. Lu Ming's current goal was the remaining one.

Huh hoo...

Lu Ming continued to run the sky-breaking style, his fingers like a gun, constantly stabbing the light ball.

After a while, the light group was also broken open by Lu Ming, and the armor inside fell into Lu Ming's hands.

As soon as he sensed it, Lu Ming knew that this was also a top-level source-level war armor.

It seems that the armors in the light regiment here are all top-level source-level magic armors.

Ho Ho Ho...

The five silver-eyed corpses roared constantly, approaching Lu Ming and the others, and the sharp claws kept grabbing them, with terrible energy, tearing away at Lu Ming and others.

boom!

Lu Ming performed the prehistoric style, patted out with one palm, and a continent formed, blocking the front of the five silver-eyed corpses.

The claws of the five silver-eyed corpses were torn apart on the continent, tearing the continent apart into huge cracks, and finally burst open with a touch.

Of course, this was because Lu Ming didn't use all his strength.

He doesn't want to use his full power for the time being. Now, once he uses his full power, how can he pit the people of the Yuanguang Clan? Once Yuan Baji Yuanjiuji and others see Lu Ming show his full power, do they dare to rush over?

How can you be so excited now?

Lu Ming himself, stopped in front of Xie Nianqing and the others, and the God of War spear continuously pierced out, piercing the silver-eyed corpse one after another.

At the same time, Lu Ming waved his left hand and shot out blue rays, which were all blue flame stones.

Lu Ming was attached to the blue flame stone with forbidden power. When these blue flame stones approached the silver-eyed corpse, the forbidden force on them detonated, blasting the blue flame stone to pieces.

The blue flame stone powder enveloped the five silver-eyed corpses.

At this time, the Bone Demon finally broke open the light group and put away the armor inside.

After putting away the battle armor, the Bone Demon rushed towards the five silver-eyed corpses without stopping. In the process of rushing out, he also shot a lot of blue flame stones.

Of course, it is impossible to completely block the five silver-eyed corpses by relying on the blue flame stone. After all, the silver-eyed corpse has a strong resistance to the blue flame stone.

The black energy on the silver-eyed corpse boiled like flames, rushing through the blue flame stone, but it was Lu Ming and the bone demon's terrible attack that met them.

Lu Ming's and Bone Demon's magical weapons are attached to the blue flame stone, which can be used to restrain the silver-eyed corpse.

Boom boom boom!

With a series of roars, Lu Ming and the Bone Demon blocked the five silver-eyed corpses.

Lu Ming still didn't use all his strength, he looked like he was going all out, and he was very difficult to block the two silver-eyed corpses.

The Bone Demon, with its strong defense power and blue flame stone, blocked the three silver-eyed corpses.

Therefore, in the eyes of other people, Lu Ming's combat power is equivalent to that of an envoy before the light, at most a little bit stronger.

In the back, Yuan Baji and Yuan Jiuji, led people to arrive quickly.

"Shoot from the other side, kill them, and take the armor."

Yuan Baji cold drink.

With his masters, he planned to bypass the battlefield between the Bone Demon Lu Ming and the Yin-eye Yin corpse, and directly attack Xie Nianqing, Qiuyue and others, first kill Xie Nianqing, Qiuyue and others, and seize the battle armor.

This trick was not ruthless, but Lu Ming had expected it a long time ago. He was unmoved, and when the Yuanguang clan approached, he suddenly used his strength.

Huh hoo...

Lu Ming broke out with all his strength, the God of War spear vibrated and turned into splendid spear lights, stabbing several silver-eyed corpses.

Lu Ming, who was struggling with all his strength, had terrible combat power. The spear light directly broke through the silver-eyed corpse's defenses, piercing a few silver-eyed corpses into large holes.

The terrifying power of destruction, like countless tiny spear lights, exploded in the body of the silver-eyed corpse, almost tearing the body of the silver-eyed corpse.

After several silver-eyed corpses were repulsed, Lu Ming shot out with a palm, and a continent formed, descending from high, toward the suppression of the Yuanguang clan.

Covering the sky and the sun, the breath is violent, like a mighty sky, the faces of the Yuanguang clan changed wildly, and their hearts trembled.

The power is too terrifying.

"Why is it so scary?"

"Strike, go all out to block this blow!"

Yuan Jiuji, Yuan Baji roared, shot with all strength, blasted a move towards the sky.

The three light front envoys under them also took full action and blasted a move against the void.

There were other people hurriedly deployed and resisted.

boom!

The mainland was suppressed and collided with the Yuanguang clan's attack, and there was an earth-shattering roar. At the moment of the collision, the bodies of the Yuanguang clan shook wildly, and many of them changed their faces and vomited blood.

"kill!"

Lu Ming roared and displayed the sky-breaking style, and pierced with a shot, stabbing a light front king.

This was Lu Ming's full blow. This Yuanguang clan had just blocked Lu Ming's blow, and he hadn't been relieved yet. The main reason was that he was careless. He hadn't expected that Lu Ming's move would be so terrifying before. , Can actually cause tremendous pressure on so many of them.

He hurriedly resisted Lu Ming's wild style. It's only strange that he could ease his breath. In such a state, how could he withstand Lu Ming's full-scale blow?

Puff!

The head of the king's emissary before the light was pierced by the spear light, and the whole exploded, and the soul was annihilated in an instant.

Chapter 4884: Have a big fight

An ambassador-level existence before the light was killed by Lu Ming and fell on the spot.

Not far away, Yuan Baji Yuanjiuji and other Yuanguang Clan people, all the souls of the dead, the pupils are round, full of incredible colors.

They were shocked by Lu Ming's combat power.

The combat power that Lu Ming revealed just now was really too strong, far surpassing the combat power of the Emperor Guangqian at this level.

Huh!

At this time, Lu Ming's figure flashed and appeared in front of Xie Nianqing and the others, because the silver-eyed corpses were going to attack Xie Nianqing and the others again, and the bone demon alone could not resist it.

Lu Ming waved the God of War spear, blocking the Yin-eyed corpse.

At this time, Xie Nianqing, Qiuyue, and Qiqiu also defeated the light group one after another, and put away the battle armor inside.

At the same time, the three of them also shot one after another, hitting a lot of blue flame stones.

The combat power of the three of them is roughly equivalent to the level of the strongest Heavenly Monarch. Naturally, they are not as good as the silver-eyed corpse, but they can still cause a lot of interference with the blue flame stone against the silver-eyed corpse.

"Retreat, we retire, we retire first!"

Not far away, Yuan Jiuji and others retreated.

Lu Ming's combat power was too strong, and they planned to evade his edge and let the 21-man combined attack formation approach to confront Lu Ming.

However, Lu Ming didn't want to let Yuan Jiuji and others go so easily.

He and Yuanguang Clan definitely cannot reconcile, they are mortal enemies, and now they have the opportunity to get rid of each other, how can they easily give up.

Huh hoo...

Lu Ming brandished the God of War spear and stabbed five shots in a row. These five spears did not stab the Yuanguang Clan or the Yin-eyed corpse, but stab Dandan and bubble them.

No, to be precise, it stabs the five light groups where they are.

Those five light groups had been continuously attacked by Dan Dan, Bao Bao, Ling Yuwei and others, and they had consumed a lot of energy, and they were not far away from breaking open.

And Lu Ming's offensive power was so powerful. With Lu Ming's help, after five spears stabbed the light group, the five light group suddenly shattered.

Ling Yuwei, Dan Dan, Paobao and others all put away the armor in the light group.

All of this is a long story, but in fact it only happens in a flash.

"You enter the prehistoric ring..."

Lu Ming waved his hand, and the Hong Huang Jie opened up the attraction, and Dan Dan, Pao Bao and others were taken into the Hong Huang Jie.

Outside, there was only Lu Ming left, and even the bone demon was taken into the prey.

Lu Ming alone, better acted, planning to do a big job.

His figure flickered, and he directly avoided the silver-eyed corpse's attack. Lu Ming rushed towards Yuan Baji and the others like a stream of light.

Lu Ming is too fast now, and after a few strokes, he has caught up with Yuan Baji and others.

"Join together to block him."

Yuanba great roar.

Yuan Baji and Yuan Jiuji's subordinates had six formations of nine men attacking together, making a terrible attack and attacking Lu Ming.

The two Emperor Guangqian envoys, with the Yuan Baji and Yuan Nine Ji, retreated quickly.

However, Lu Ming did not go head-to-head with the opponent's combined attack formation. The six-seat and nine-person combined attack formation was really terrifying, at least equivalent to the combined attack of a dozen or twenty strongest heavenly monarchs, even for Lu. Ming, don't want to head-on.

Although he is not afraid, he also consumes a lot of power.

He directly displayed his body skills, avoiding the attack of the combined attacking formation, and then displayed the sky-breaking style, attacking one of the formations.

In a single formation of nine players, where Lu Ming's opponent was, he broke out with a spear, and the nine players in the formation were killed at once.

The remaining four, also vomiting blood, suffered heavy injuries.

Lu Ming kept on fighting towards Yuanbaji and Yuanjiuji.

"No, he wants to kill the son and them, block them!"

The remaining five nine-person team were shocked and chased Lu Ming with all their strength.

"Quick, come and support us, don't care about the immortality..."

Yuan Jiuji yelled in horror.

He yelled at the combined attack of the two twenty-one men and asked them to come to rescue.

On the opposite mountain peak, the two 21-person combined attack formations also found that Yuan Baji and others were in a bad situation, and they abandoned Ye Immortal and rushed to the mountain here.

Ye Immortal's eyes flashed, and he did not pursue or stop him.

To be honest, Lu Ming's combat strength also shocked him.

Not long ago, he and Lu Ming fought, and they were able to crush Lu Ming. Even Lu Ming and the others set up a joint attack formation, which was not his opponent. He was chased by him and fled into the crack.

"Did they get a chance under the crack? Could it be that they got all the prehistoric crystals under the Qi vein?"

"However, even if you get so many prehistoric crystals, it is useless. It is impossible to finish refining so quickly and break through the cultivation base."

Yeah, Immortal is a little bit puzzled.

No matter how forbidden the body is against the sky, it is impossible to refine a large number of prehistoric crystals to break through the cultivation base in such a short time.

Did it get another chance?

Ye Immortal's mind kept turning all kinds of thoughts.

He really couldn't figure out many questions.

Under the crack, didn't they encounter a giant beast condensed by the divine light of the cave?

Lu Ming and others did not die.

It's fine if he didn't die, Lu Ming's cultivation level actually skyrocketed, which really couldn't figure it out.

But now it's time to use the strength of the Yuanguang clan to fight Lu Ming. It is best for the two sides to lose both sides, so he can take advantage of the fisherman.

The combination of the two twenty-one players was fast, but Lu Ming was faster.

As soon as the God of War spear pressed, it was like a huge mountain range, pressing against Yuan Baji and Yuan Jiuji and others. Those five and nine people were unable to catch up with the battle formation if they wanted to rescue.

"Block!"

There is no way to avoid it, only hard-wired, Yuan Baji and Yuan Jiuji hissing roar of exhaustion, using all their strength, hit the strongest blow.

It was the same for the two light former envoys, their bodies almost turned into a glow.

Boom boom boom boom!

After four roars, the four figures of the Yuanguang clan retreated violently.

The two kings before the light vomited blood, their faces were pale, and the glow on their bodies was dim.

Surprisingly, Yuan Baji and Yuan Jiuji did not die.

On each of them, a piece of armor enveloped them.

This is definitely a top-level source-level magic weapon armor, no worse than the armor Lu Ming and the others have just received.

Moreover, in their source-level magic weapon armor, there is a layer of runes emerging.

Two consecutive layers of strong defenses blocked Lu Ming's attack, otherwise, with their combat power, they would collide with Lu Ming head-on, and most of them would die.

"These forbidden creatures are really rich, full of treasures..."

Lu Ming muttered in his heart, but the offensive continued.

Breakthrough!

Lu Mingren's spear united into one, turned into a dazzling spear light, and pierced one of the light former envoys.

Yuan Yu!

Yes, Lu Ming pointed at Yuanyu.

This guy hunted him down before and wiped out six trillion cells in Lu Ming's body. Lu Ming will not forget this account.

"not good..."

Yuan Yu's face was pale.

He wanted to dodge and found it was too late.

Chapter 4885: Yuanguang clan retreats

Yuan Yu wanted to dodge, but it was too late.

"what..."

Yuan Yu roared, burning the power of his whole body, making the strongest blow, trying to block Lu Ming's attack.

As long as the blow is blocked, the other five formations of nine players will arrive.

In addition, the combination of the two twenty-one players will arrive soon.

As long as the twenty-one combat formation arrives, he will be saved.

He delivered the strongest blow in his life, attacking with the spear light that Lu Ming had turned into.

boom!

With a shocking roar, Lu Ming's spear light shattered like a bamboo, defeating Yuan Yu's attack. The spear light penetrated Yuanyu's eyebrows.

Puff!

Yuan Yu's head burst open, and his soul was also annihilated.

Another king of light, fallen!

Yuan Yu had been injured before, and Lu Ming's blow was the pinnacle blow, and it was normal that Yuan Yu couldn't stop it.

However, because Lu Ming concentrated on dealing with Yuanyu, the five-seat and nine-man attack formation of the Yuanguang clan had already been attacked. Lu Ming wanted to dodge and it was too late.

However, Lu Ming didn't want to dodge at all. Behind him, at least hundreds of defenses appeared, all of which were transformed by defense-type ancient secret techniques.

However, these great ancient mysteries, it is obviously impossible to block the five-seat nine-person combined attack formation, but they can also offset some of the power.

Boom boom boom boom!

Five consecutive attacks passed through Lu Ming's defenses and bombarded Lu Ming's body. Lu Ming couldn't help but rush out, feeling the blood in his body surge, and a trace of blood overflowed from the corner of his mouth.

"Unfortunately, it is too late to refine that armor..."

Lu Ming had a thought in his heart.

His defensive power is still not strong, although the taboo power has now undergone a qualitative change, and his overall defensive class has also improved a lot, but he was hit by a five-seat nine-man team and was still injured.

If you wear the top-level source-level magic weapon armor, you will definitely not be injured.

Of course, this injury was nothing to Lu Ming. There was a steady flow of energy from every cell, and Lu Ming's injury quickly recovered.

"kill!"

Lu Ming screamed, and the God of War spear backhanded, hitting the two swords.

These two sabers were formed by two nine-man attack formations.

Dangdang made two noises, and the two swords flew out, the light dimmed, and they almost collapsed. The people in the formation coughed up blood at the same time.

There was a deep horror on their faces.

Lu Ming's combat power is really too strong. Lu Ming's attack just now was not a full blow at all. If it were a full blow, they might not be able to maintain the combined attack.

"Prehistoric!"

Sweeping the two nine-man team attack formation, Lu Ming took another shot with one palm, and a huge continent formed, suppressing it towards the Yuan Baji Yuan Nine Ji and the last Emperor Guangqian.

The five nine-person combined attack formation attempted to block the prehistoric continent, but at this time, the five silver-eyed corpses had already been killed, leaving the five nine-person combined attack formation in no time to be cloned.

Although this silver-eyed corpse possessed some intelligence, in their opinion, whether it was Lu Ming or Yuanguang clan, they were all invaders, and they all wanted to attack.

"not good..."

Yuan Baji and Yuan Jiuji both pale.

Although they have the armor of the top source-level gods, and in their bodies, there are life-saving runes inscribed by the strong Yuanguang clan, but these are not omnipotent. They are subjected to powerful attacks and continuous attacks, and their strength can still be Through defense, they were shocked or even killed.

And Lu Ming's combat power was enough to pose a threat to their lives.

But at this moment, the combined attack formation of the two twenty-one people finally arrived.

boom! boom!

With one blade and one sword, it slashed on the mainland, smashing the mainland.

Then, with one knife and one sword, he continued to cut towards Lu Ming.

Hum!

The taboo power in Lu Ming's body rushed into the God of War Spear frantically, and then stabbed two shots in a row, and they matched a two-sword and two-sword formation.

Then, Lu Ming's figure quickly retreated.

"What a powerful force!"

Lu Ming felt a little numb in his arm.

The combination of twenty-one players is extremely powerful, and no one alone is inferior to Lu Ming's combat power. If the two attacked together, even Lu Ming would fall under the wind.

"Kill, kill him for me, and smash him into pieces."

"I want him to die!"

Yuan Baji and Yuan Jiuji both roared.

The two twenty-one men attacked together and went to Lu Ming again.

"war!"

Lu Ming roared, his fighting spirit was rising, his blood boiled, his spear was like a dragon, and he confronted the two joint attack formations.

Boom boom boom!

This mountain erupted with a shocking roar, and violent energy swept all directions.

The two sides fought five or six moves in a blink of an eye.

Lu Ming's figure kept retreating.

Fighting with two twenty-one men in a joint attack formation, Lu Ming was completely at a disadvantage.

However, it is still possible to resist the opponent, and Lu Ming will not lose in a short time.

But at this time, the two-seater combined attack with one sword and one sword, suddenly retreated quickly and came to Yuan Baji and Yuanjiuji.

"What are you doing to retreat? In one anger, kill me that crap."

Yuanjiu roared greatly.

"Nine Young Masters, our power consumption is serious. It is impossible to kill the opponent before the power is exhausted. It is still the best policy."

In the joint attack formation, a big man transmits sound to Yuan Jiuji and Yuan Baji.

This changed the expressions of Yuan Baji and Yuan Jiuji.

They also reacted to the fact that the two-seat 21-person combined attack formation used to fight against Ye Immortal with more moves, and the consumption was already very serious. They also confronted Lu Ming with five or six moves, the consumption was even greater, and the battle continued. The power will really run out.

Once there is no combined attack formation of 21 people, Lu Ming in front and Immortal in the back, they are very dangerous, maybe they will explain here.

"go!"

Yuan Jiuji roared, and Yuan Baji and others chased to the other side of the mountain.

With one sword and one sword, Yuan Jiuji and Yuan Baji retreated quickly.

The remaining five nine people attacked the formation together, also throwing away the silver eyed corpses, and retreated together.

"It seems that the power is about to run out."

With a move in Lu Ming's heart, he guessed the truth.

However, he did not pursue it.

For one thing, it was a combination of two twenty-one players, which was extremely difficult to deal with, and even if they shot, they might not be able to defeat each other.

Secondly, his own strength is also consumed a lot, and continuing to make moves will consume him even more. Don't forget that on another mountain, there is an immortal eye.

Pursuing it will only be cheaper and immortal.

Lu Ming took out two magical medicines, swallowed them in one mouthful, and quickly refined them, and the strength he had consumed was quickly recovering.

Soon, the Yuanguang people rushed down the mountain from the side of the mountain.

Ho Ho Ho Ho Ho Ho!

The Yuanguang clan retreated, and the five silver-eyed corpses lost their target, so they wanted to kill Lu Ming.

However, Lu Ming had no plans to confront the five silver-eyed corpses. He strode forward towards the mountain where Ye Immortal was.

Chapter 4886: Fight again ye immortal

Lu Ming's figure flickered, and he fell on the iron chain, stepped on the iron chain, and rushed forward, toward Ye Immortal.

"Yeah, immortal, let's fight again!"

Lu Ming roared, fighting like a dragon.

He wanted to see, with his current combat power, which is immortal and which is strong and weak.

Ye Immortal's eyes were slightly narrowed, and the power on his body was also running to the extreme. The top source-level magic weapon armor on his body glowed with glow, like a layer of flame beating.

When he was in the Divine Master Jiuzhong, he fought against the Divine Master Eighth Layer's Lu Ming, and was actually at a disadvantage. Now they have broken through. This time, he will definitely suppress Lu Ming.

After all, he broke through from the divine master ninefold to the peak of divine master, compared to Lu Ming's breakthrough from divine master eightfold to divine master ninefold, he improved more.

He had full confidence and suppressed Lu Ming.

Lu Ming's speed was extremely fast, and in such an instant, he was about to pass through the iron chain.

At this moment, Ye Immortal made a move, cutting out a stunned sword light and taking Lu Ming's eyebrows directly.

"Don't you dare to fight openly?"

Lu Ming sneered, Ye Immortal wanted to block him on the chain.

Then, Lu Ming had to face Ye Immortal in front, and five silver-eyed corpses in the back.

Because the five silver-eyed corpses were also chasing Lu Ming along the iron chain.

"Breaking style!"

Lu Ming directly raised his combat power to the extreme, using the Heaven-Breaking Style, where the man and the spear merged into one, turning into a spear light, rushing forward, colliding with the sword light that Ye Immortal slashed out.

when!

A shocking roar erupted, and the light of the gun and the light of the sword continued to tremble, and finally the light of the sword broke away, but Lu Ming's figure was also blocked.

"Honghuang, breaking the sky..."

When Lu Ming's figure stopped, he immediately used two tricks, the Primordial Style and the Breaking Style, almost instantly.

On top of Ye Immortal's head, a continent formed, pressing down towards Ye Immortal, while Lu Ming continued to transform into a spear light and rushed forward.

"The change is so fast!"

Ye Immortal was shocked.

Most people, when performing such tricks, they will never change so quickly, and they often need to take a sigh of relief after performing such tricks.

However, Lu Ming hardly slowed down. He had just performed the breaking style in the front, and there were two tricks in the back. There were almost no gaps in the connection.

He didn't know that this was the realm that Lu Ming could only reach after he realized the third thousand ancient secrets.

Comprehending the third thousand great ancient mysteries, there are too many benefits for Lu Ming. Lu Ming hasn't discovered many benefits yet, he has to wait for constant discovery later.

In the face of Lu Ming's stormy offensive, Ye Immortal howled with all his strength.

Terrifying power erupted from his body, and a few sword lights burst out, some towards the high-altitude continent, and some towards Lu Ming.

Boom...

The continuous roar sounded, and the high-altitude continent was exploded.

However, as soon as Ye Immortal came, his strength was dispersed, and Lu Ming's sky-breaking style was not blocked.

The light of the spear that Lu Ming turned into smashed Ye Immortal's sword energy, rushed through the iron chain, and landed on the mountain where Ye Immortal was.

Hum!

Lu Ming didn't stop, and the God of War Spear swept out, sweeping towards Ye Immortal.

"The sword of heaven and man, the stars burst!"

Ye Immortal roared and displayed the strongest source technique to fight Lu Ming.

The two made another move. This time, they were evenly divided and both retreated.

Then, the two of them moved and slammed towards each other, performing their own tricks.

Lu Ming used the Primordial Style and the World Breaking Style in a series, but Ye Immortal was also really powerful, and the Origin Technique was also used in a series, and he fought fiercely with Lu Ming, and did not lose the wind.

In a blink of an eye, there were several moves.

Last time, Lu Ming suppressed the immortality of the nine-fold divine master with the eight-fold cultivation base of the divine master, and barely gained the upper hand.

But this time, even though he broke through the nine levels of the divine lord, Ye Immortal broke through to the peak of the divine lord, and his improvement was a little bit bigger than Lu Ming.

Therefore, this time, even if Lu Ming tried his best, it would be difficult to suppress the immortality.

After a few moves in the confrontation, the five silver-eyed corpses also rushed over. They roared and attacked Lu Ming and Ye Immortal at the same time.

This confrontation turned into a melee.

In a hidden place in the distance, a group of people were watching in secret. These people were the Asian immortals headed by the sky.

At this moment, the faces of Cang Qiong and others were extremely solemn and ugly.

"It's incredible that Lu Ming and Ye have such an immortal combat power."

"Indeed, with the cultivation base of the Divine Master Realm, such combat power can actually burst out. Such combat power is already comparable to the original source, right?"

"Yeh Immortal can reach that level of combat power, and it is said that he is a reincarnation, after all, he is known as the number one power in the Celestial Race, but it is incredible that Lu Ming can achieve such a level!"

"The most unbelievable thing is that Lu Ming's cultivation is only the ninth level of the divine master. Once he reaches the peak of the divine master, how strong will he be?"

Around Cang Qiong, the voices of several powerful men comparable to the strongest Heavenly Monarch level were trembling.

Although they have the combat power comparable to the strongest Heavenly Monarch, they feel that they are far from Lu Ming and Ye Immortal. They have a feeling that if they face Lu Ming and Ye Immortal alone, they will be spiked.

This feeling is like facing the origin.

The sky did not say a word, but his face was very ugly.

He has always claimed to be a peerless genius, thinking that with his talent, in a battle of the same level in the universe, he is almost invincible.

But now he discovered that he was far from Lu Ming and Ye Immortal.

Although his current cultivation base is still only the Ninth Level of the Divine Lord, even if he breaks through to the peak of the Divine Lord, his combat power is only comparable to that of the Emperor Guangqian, and he is definitely not the immortal opponent of Lu Ming and Ye.

This was a great blow to his self-confidence.

Lu Ming, Ye Immortal, the melee of five silver-eyed corpses has not ended yet, and they have fought for more than 20 rounds.

Boom boom boom...

Suddenly, two figures retreated violently.

It is Lu Ming and Ye immortal.

"Lu Ming, today's battle is over, we will fight another day!"

Ye Immortal left a sentence, his figure was like electricity, and he actually backed away.

"It seems that the immortal power consumption is very serious, but I am similar."

Lu Ming whispered in his heart.

He guessed that the reason why Ye Immortal retreated should be due to the serious consumption of power. After all, before Ye Immortal, he fought with the Yuanguang clan many tricks.

Knowing that the fighting would continue, he couldn't take Lu Ming at all, so he simply retreated.

In fact, Lu Ming was the same. He used to fight against the Yuanguang Clan in a row, and killed the two Emperors before the Light, blocking the two 21-person joint attack formation, and the consumption was very serious.

At this time, his power was almost exhausted.

He also had no idea of continuing to fight. Under such a chaotic situation, continuing to fight would be very dangerous.

Chapter 4887: Maps and advice

"Lu Ming, even if you are shocked, you will be stunning, but the people who killed the heavenly army are dead. What's the use of you alone?"

Ye's immortal figure was about to disappear before Lu Ming's eyes, but a voice came out.

Lu Ming shook his heart, and shouted, "Yeah, immortal, what do you mean?"

"What do I mean, you should be very clear, Lu Ming, I will kindly tell you an address, the ancient mine of heron, go and collect the corpses for the people who destroy the heavens!"

Ye Immortal's voice came again, and the figure had completely disappeared before Lu Ming's eyes.

"Heron Ancient Mine!"

Lu Ming whispered, his face a little gloomy.

Although you can't believe the words of immortality, you can't believe it.

What happened to the people who destroyed the Heavenly Army?

Also, where is the ancient heron mine?

It must be somewhere in Zixiao Cave, but where is the specific address?

There was no time to think about it, because the five silver-eyed corpses came again to kill Lu Ming. Lu Ming's figure flashed, avoiding the five silver-eyed corpses, rushed to the side of the mountain, and disappeared here soon.

The treasures on the top of the mountain have been scoured, and the treasures in the depths of the Qi Veins were also taken away by Lu Ming and the others. There is no need to keep this Qi Veins.

After going down the mountain, the five silver-eyed corpses were still chasing Lu Ming behind. Lu Ming moved at full speed and flew towards the distance. After more than ten minutes, he finally threw away the five silver-eyed corpses and looked for them. In a hidden place, Xie Nianqing, Qiuyue and others were released from Honghuangjie.

Lu Ming told everyone what Ye Immortal had left behind.

"Yeh Immortal must have no good intentions. The ancient heron mine must be very dangerous. He wants to lie to you."

Dan Dan said immediately.

"It may not be completely groundless, what if it is true?"

Tang Jundao's face was solemn, and his eyes were full of worry.

Among the Heaven Extinguishing Army, there are many relatives and friends of Tang Jun, and she is naturally worried.

"Yes, I would rather believe it if there is something or not, and I must go and see it, but before going, we still have to improve our strength as much as possible."

"Also, where is the ancient heron mine, you must find it first."

Lu Ming said.

Since Ye Immortal would tell Lu Ming the name of the ancient heron mine, he would naturally not be kind to give Lu Ming guidance. That place must be very dangerous.

At least, Ye Immortal thinks it is dangerous, so it is necessary to improve the strength.

Of course, they must first find the location of the ancient heron mine.

Everyone looked dumbfounded, how could they know the location of the ancient heron mine?

Shouldn't I go to Ye Immortal to ask?

"We got a lot of scrolls before, don't know if there is a map of Zixiao Dongtian?"

Xie Nianqing said.

The scope of Zixiao Cave Sky is so huge, it stands to reason that people in Zixiao Cave Sky should be able to draw maps.

They had obtained many scrolls on the first mountain before.

Immediately, they took out the scrolls and opened them one by one.

"There really is a map."

When Lu Ming opened the Ninth Fortune Scroll, his eyes lit up.

This scroll is really a map. When Lu Ming injected the forbidden power into the scroll, the scroll glowed, and a huge map appeared in the void. The mountains, rivers and lakes were clearly visible at every location. , And the text is marked out.

It's a pity that these words were from the last era, and Lu Ming didn't know any of them.

"I also found a map here."

"I noticed that too!"

This is, Dan Dan and Pao Chao screamed one after another.

They also found a map separately. After inputting the power, the pattern that emerged was exactly the same as Lu Ming's.

It's exactly the same map.

"It seems that many of these scrolls are maps."

Muttered every day.

They thought that on the first mountain before, many scrolls flew away, and it is estimated that people from other forces have also gained a lot.

"However, this map is marked with the text of the last era. We can't understand it at all. Can anyone of you understand?"

Lu Ming said, his gaze swept towards everyone, more towards the bone demon, Xie Nianqing and Tang Jun.

The Bone Demon has lived for a long time, and Tang Jun and Xie Nianqing are the people of reincarnation. The last life was the daughter of the forbidden sword ancestor Tang Feng, and there were special people in the Heaven Extinguishing Army who studied the writings of the last era. They Do you know some?

"I don't understand!"

The bone demon shook his head directly.

Then Xie Nianqing and Tang Jun also shook their heads, indicating that they did not understand.

"You two were the daughters of the Forbidden Sword Ancestor. Haven't you studied the words of the last era at all?"

Muttered every day.

"When we fell in the last life, the Heaven Extinguishing Army didn't develop for a long time. We didn't have much research on the characters of the last era. It's normal for us to not understand."

Tang Jundao.

Everyone was stunned, with nothing to say.

"Well, let's ask someone from the Yaxian clan. The Yaxian clan has a long heritage. Someone should understand the characters of the last era. I can sense that the Yaxian clan is in that vein."

Lu Ming said.

When fighting against Ye Immortal before, he had already sensed that the Yaxian people were hiding in the distance.

Everyone nodded, and that was the only way to do it.

"You first enter the prehistoric ring, refining the top source-level armor of the gods, I will go to the Yaxian clan and others."

Lu Ming said, let Xie Nianqing and the others enter the prehistoric ring, refining the top source-level armor of the gods, and Lu Ming turned into a rainbow light and continued to move towards that vitality.

In fact, neither the Yuanguang Clan, the Celestial Clan, or the Yaxian Clan have left that vitality.

It is hiding somewhere in the Qi Vessel.

Because they did not know that the treasures in the depths of the Qi Veins, such as the Honghuang Crystal Mineral Veins, were all searched by Lu Ming and the others. They hid in the dark, while avoiding the silver-eyed corpses, while waiting for the divine light in the depth of the Qi Veins Disperse.

After Lu Ming came to the range of the Qi Channel, he sent a message to the sky with the sound transmission jade talisman.

Unexpectedly, he soon received a reply from Cangqiang, asking him to meet him somewhere.

In a gorge, Lu Ming saw the sky, and some other masters of the Yaxian tribe.

After seeing Lu Ming, the masters of the Yaxian tribe showed a trace of fear in their eyes.

"Brother Lu, your combat power is really scary and admirable."

Cang Qiong smiled and clasped his fists, a gentle look, hiding all the jealousy and uneasiness in his heart.

"Brother Cangqiong is polite, just a fluke!"

Lu Ming also clasped his fists and smiled, as if he had forgotten how Cang Qiong helped Exterminate Heavenly Monarch and drove them out of that ancient city.

"By the way, Brother Cangqiong, I am looking for you this time because I need your help."

Lu Ming said.

"Brother Lu has something, just say, as long as Cang can do it, he will definitely help."

Sky Road.

"In fact, it's not a big deal. I don't know if Brother Cang Qiong knows the characters of the last era?"

Lu Ming asked.

"Yes, I have dabbled!"

Sky nodded.

Chapter 4888: The encounter between the Exterminator and the devil

Lu Ming was overjoyed when he heard that Cangqiang knew the words of the last era, and he took out the map and showed Cangqiang a view.

"Brother Lu also got this map of Zixiao Dongtian?"

The sky is quiet.

"Brother Cang got it too?"

Lu Ming asked.

"Yes, I got two pictures by fluke not long ago."

Cang Qiong nodded, and then translated the labels on the map into the current text in detail.

There is no eternal enemy, there is eternal benefit, and everything is going to benefit.

Lu Ming's current combat power is really amazing. Not only did the sky not dare to offend, but he also wanted to protect Lu Ming.

"Heron Ancient Mine, come here."

After the translation of the sky, Lu Ming's eyes lit up, looking at a square on the map.

The Heron Ancient Mine is on the east side of the map, and they are now on the east side of the map.

The distance between them is still long.

"Farewell!"

Lu Ming clasped his fists and said goodbye to Cang Qiong, and then quickly left this vitality line, and according to the map's indication, headed to the ancient mine of heron.

At this time, Lu Ming found that the Bone Demon was looking for him in Honghuang Ring.

With a wave of his hand, the Bone Demon came out of Honghuang Ring.

"Did you find the body address of the Heron Ancient Mine?"

Bone Demon asked.

"Yes, I want to rush."

Lu Ming .

"Well, I'll take it, and refine that top source-level war armor with the heart. The source-level war armor is not very useful to me."

Bone Demon .

The defensive power of the Bone Demon is extremely astonishing, I am afraid that it is even better than the top-level source-level war armor, so I didn't need the source-level war armor.

"Alright!"

Lu Ming nodded, he himself entered the prehistoric ring, took out the black source-level magic weapon armor, and began to refine.

The top-level source-level magic weapon armor is not easy to refine, and it still takes a while.

And the Bone Demon, with the prehistoric ring, flew away eagerly with the heron ancient mine.

The Heron Ancient Mine is a huge mine, and the underground has been hollowed out, extending in all directions.

At that time, there were many people guarding the entrance of the ancient heron mine.

These people are actually forbidden creatures.

Cangming clan and Yinsha clan, etc., actually have them.

However, the number of people is not large, and there is about one person on both sides.

"Don't destroy the heavenly army and those demons? Did they die inside?"

Among the Yin Sha clan? Several Yin Sha clan are chatting.

"In this ancient mine of heron, it was quite weird? Crisis ? Besides, there are absolute corpses? Even if they are not extinct? It is almost the same."

Another yin evil clan.

"But the deadly corpses haven't come out yet? Come to exterminate the heavenly army and the demons. Let's wait."

The Yin Sha clan in front .

Engraved? In the ancient mine of heron, destroying the heavenly army and demons? is facing a crisis.

In the ancient mine of Heron, the terrain is not very complicated, and there are many kinds of mines. There are four kinds of mines.

In a pit mine, the Heaven Extinguishing Army and the demons gathered together? Around them, there was a black hood covering them.

This layer of black hood, is entirely composed of a strong magical energy.

Outside the hood? There are a large number of dead-yin corpses.

These absolutely Yin corpses were roaring constantly around the hood, some of them rushed into the hood, and shook the hood.

Huh hoo...

In the hood, a blue awn flew out, these absolutely corpses.

These blue awns are actually blue flame stones.

In the hood, the lion, Tang Jian and other high-level leaders of the Heaven Extinguishing Army, as well as the head of the devil, all looked outside with condensed expressions.

Most of the Heaven Exterminating Army and demons gathered here.

"If this goes on, our blue rock can't last long."

Tang Jian sighed.

The blue rock he was talking about was actually a blue flame stone.

"They are all forbidden creatures, otherwise we don't have to hide here."

The lion is low.

They couldn't help but started the experience of this time.

After they entered the Zixiao Cave, they spread the news that the Heaven Extinguishing Army and the demons gathered together.

For many years, the Heaven Extinguishing Army and the demons have cooperated with each other, and they are also white. Among the forces in the universe, their strength is weak. If they do not cooperate, let alone compete with other forces and compete for treasures. To survive is to ask.

After they gathered together, their strength greatly increased, and they were ready to explore a vitality, but they were attacked by Jue Yin Corpse.

With its extremely powerful defense and vitality, Jue Yin Corpse was caught off guard by destroying the heavenly army and the demons, and suffered terrible losses.

If it were not for Gu Changfeng to break through the siege with great combat power, their losses would be great.

After breaking through the siege, they couldn't get rid of Jueyin Corpse. Jueyin Corpse was chasing them, and the more they chased, the more they were in number. After that, they reached an astonishing thousands of Jueyin Corpse.

At that time, the people who destroyed the heavenly army and the demons were desperate, thinking that this army would be annihilated.

But the sky is unparalleled, and at a critical moment, they encountered an abandoned mine.

They discovered that Jueyin Corpse was actually afraid of this mine. They used the mine as a yard to block Jueyin Corpse's attack.

It was later discovered that Jueyin Corpse was a kind of blue rock fearing in this mine.

Later, they began to gather the blue rocks in the mines to make a kind of weapon, and even after a long period of research, they successfully attached the blue rocks to the magic soldiers.

After all, there are many Divine Tortoises in the Celestial Extinguishing Army, all of which are the existence of refined formations. Although they are not as good as Dandan, they are not deep in the rune formations.

Among the demons, there are also those with fine rune formations. The two parties cooperated and worked out that attaching blue rocks to the magical soldiers was not difficult.

After , with the help of the blue rock, they beheaded a large number of Jue Yin corpses and successfully rushed out of the surrounding of Jue Yin corpses.

With the blue rock, their confidence greatly increased, and they were ready to continue exploring, but they encountered the forbidden land creatures, the Cangming clan and the Yinsha clan.

The creatures in the forbidden area, when they see them, they shoot.

The blue rock was of no use to the creatures in the forbidden area. Fighting to destroy the heavenly army and the demons would also cost a lot. In this battle, even Gu Changfeng was injured.

At the critical moment, Zixuan, the current leader of the Purple-Eyed Demon, frantically merged the blood crystals of the Demon Ancestor in spite of the danger, and at the critical moment, he succeeded in stimulating the power of the blood crystals of the Demon Ancestor, blocking the forbidden creatures.

Then they retreated while fighting and retreated into this ancient mine of heron.

The terrain of the ancient heron mine is complex, and there are different kinds of dangers inside. After the forbidden land creatures come in, they will lose a lot.

Later, the creatures in the forbidden land retreated, but they used the blue flame stone to rush to a large number of extinct corpses, and they used the extinct corpses to deal with the exterminating army and demons. They themselves guarded outside the ancient mine of heron.

That layer of condensed devilish energy was caused by Zixuan with the blood crystal of the Demon Ancestor.

Chapter 4889: Progenitor of Demon

"This, our luck is not good, we must, the Demon Ancestor Blood Crystal is the treasure of my demon clan. It is extremely ancient. Since ancient times, almost no one can melt the Demon Ancestor Blood Crystal and stimulate The power of the Demon Ancestor's Blood Crystal, this Zixuan can succeed, simply is a miracle."

On the side, Yin Kong, the current leader of the Silver Wing clan, spoke.

Demon Ancestor Blood Crystal, as a precious treasure of the demon clan, there are countless demons who want to use it for their own use.

In fact, in the history of demons, as in the last epoch, there were demons, who wanted to take possession of them and integrate the blood crystals of the demon ancestor into one's own body.

There are rumors for the demon clan that whoever can melt the blood crystals of the demon ancestor will be able to reach the great creation, and become the supreme demon ancestor. The potential of the demon will skyrocket, and the future is hopeful.

In history, no demon has succeeded. No, it's a stunning and stunning demon. Unsuccessful, without a single case. When trying to melt the blood crystals of the ancestors, he turned himself into the blood crystals of the ancestors. Swallowed.

On the face of , no demons dared to try again.

In this era, the blood crystal of the demon ancestor was sealed with the enchantment of the human king, since there is no demon, he will try.

Mian Demon Ancestor Blood Crystal was taken out by Lu Ming, and there was no demonic trying, is a waste of money to send .

This is really unmanageable. If they don't fight hard, they will also die in the hands of the forbidden land.

never arrived, Zixuan House succeeded, successfully integrated the blood crystal of the Demon Ancestor, so that the cultivation base and strength of the skyrocketed, and at the critical moment, a peerless master who fought alone in the forbidden land.

Each of these masters is not weaker than Gu Changfeng.

It is also Zixuan, they will retreat to the ancient mine of heron.

"How is Zi Xuan's state?"

Lion asked, his expression worried.

"It's not too bad, the process of melting the blood crystals of the Demon Ancestor, it seems that it is not a shun, I hope I can pass this level smoothly."

Yinkong sighed, his demon? He also looked condensed and worried.

The devil, the great royal family, is the key to competition. In the past, there were endless wars.

But? Today is different? Now the universe is in great chaos? Forbidden land creatures are born? Demons are declining. If they still kill themselves? They kill themselves.

They had long given up on the suspicion, and which royal clan belonged to the demon? I hope that Zixuan can successfully merge.

If Zixuan succeeds in fusion, they will give birth to a demon that has never existed before, leading the demon clan to glory.

Is Zi Xuan's fusion? is not smooth, is not completely successful, can be regarded as semi-successful, and sometimes sober, sometimes vague, fighting is entirely dependent on tenacity, determination and ability.

"This way? We can't hold on for a long time. The blue rock is almost exhausted."

Tang Jian sighed.

The ore that they encountered contained blue rocks, which contained blue rocks, was not , although they emptied the blue rocks, they couldn't help but continue to consume them.

After this period of time, fighting with Jue Yin Corpse ceaselessly, the consumption is huge.

Moreover, among the corpses of Absolute Yin, there are corpses with silver eyes, as well as corpses of Absolute Yin comparable to the rank of prince. The resistance to blue rocks is such that they don't have great combat power. The blue rock can't stop this big dead corpse.

During this period of time, it was completely dependent on the defensive mask made of the blood crystals of the Demon Ancestor by Zixuan, and after the blue rock was formed, he was reluctant to block the attack of Jue Yin Corpse.

But now, Gu Changfengyi is healing, Zixuan's state is unstable, and the blue rock is about to run out, and the conditions are not good for them.

Roar...

At this moment, there were a few roars, and the burly figure rushed towards them violently and hit the devilish light mask .

Boom boom boom...

The magic light mask vibrated violently.

This figure is full of black aura, and the eyes are silvery white, and it is divided into a corpse with silver eyes.

Silver-eyed Yin corpse, extremely powerful, constantly impacting the magic light mask, making the magic light mask sunken down .

In the Yinyan Yin corpse, followed by more than a dozen burly dead corpses, each of them is comparable to the prince, and they also launched an attack, making the magic light mask more trembling. Awesome.

"Shoot and block them!"

The lion roared.

Whooshoo...

Suddenly, the people who killed the army and the demons shot out, and they shot out a blue light.

This blue light is a long needle polished from blue rock, densely packed, hitting Jue Yin's body, and the blue rock bursts into pieces. It is a raging blue flame, which will never The corpse was shrouded in .

The blue rock still has a lot of influence on Jue Yin corpse, whether it is a silver eyed corpse or a Jue Yin corpse of his level. It needs to run the black energy to resist, and its own strength is not small. The impact of the attack on the magic light mask is also small.

Soon , the silver eye corpse retreated with his absolute corpse.

"I just consumed the blue rocks of the building again. Our blue rocks are gone."

Tang Jian's face looked difficult.

Although their magical soldiers were also attached to the blue rock, they were facing the silver-eyed corpse, and they dared not rush through the melee.

The difference in combat power is too great. Even if there are magical soldiers attached to blue rocks and close combat with the silver-eyed corpse, there will be one death, which will be easy to kill.

Therefore, they can shoot the blue flame stone at a long distance to block the dead corpse. As a result, the consumption is high.

boom! boom! ...

After a long time, the violent roar rang again, and the magic light mask trembles violently.

The silver-eyed corpse, with the Jueyin corpse, began to attack again, helpless to destroy the army and the demon, can continue to fight blue rocks to resist.

After a while , the silver-eyed corpse retired with the absolute corpse, and after a short time, it continued to attack.

For example, the blue rock that killed the army and the demons was finally exhausted.

Roar...

The silver-eyed corpse, another corpse with Jueyin, opened the attack, masked the devilish energy, and trembling.

The lion's face was extremely gloomy.

At this time, without the blue rock, they can rely on themselves.

Boom boom boom!

The devilish mask trembles more and more severely.

This devilish mask, although Zixuan urged the blood crystals of the demon ancestor to exude, it is that Zixuan's cultivation base is limited after all, and the integration of the blood crystals of the demon ancestor is also semi-successful. Although the defensive power is strong, there is no big question to block the general deadly corpse, but it is difficult to completely block the silver-eyed corpse.

Eyes, the silver eye corpse was about to break through the devilish light mask and came in.

"Shoot and block them!"

With a loud roar, the lion rushed forward, took out a source-level magic weapon, and cut a silver-eyed corpse.

On his magic weapon, there is a blue rock attached to it.

Chapter 4890: It's Lu Ming

At the same time that the lion took action, the Heaven Extinguishing Army and other top masters of the demon also took action, killing the three silver-eyed corpses one after another.

However, there are not many top players on both sides.

There are only a handful of experts equivalent to the strongest Tianjun level, and the others are all top Tianjun level existences.

Although their magic soldiers are all attached to blue rocks, their combat power is too far apart from the silver-eyed corpse.

Just once in a confrontation, the master of destroying the heavenly army and the devil retreated violently.

He vomited blood one by one, and his face was pale.

There were even two top Heavenly Monarch level powerhouses, who were directly torn apart by the terrifying claws of the silver-eyed corpse, almost fell.

The hearts of everyone have been sinking.

The difference in combat power is too great.

The silver-eyed corpse was still blocked by the magic light mask, weakening a part of its strength, otherwise they could not stop it even more.

When the silver-eyed corpse broke through the magic light mask, how would they resist?

Ho Ho Ho...

Boom boom boom...

The corpse of Jue Yin kept roaring, the bombarding magic light mask, trembling constantly, finally, was torn into a crack.

The three Absolute Yin corpses rushed through the cracks and appeared on top of everyone's heads, with a violent aura, pressing against them like Mount Tai, making everyone feel tremendous pressure.

Then, the three Jue Yin corpses started their hands, and the claws smashed the void, with terrible vigor, they grabbed everyone.

"Block!"

Lion and others yelled and rose into the sky, trying to block Jue Yin's attack.

In their eyes, there was a resolute color, and there was no devilish mask to stop them. They knew that they could not stop the three silver-eyed corpses. The final result was likely to be killed.

However, they have no choice and cannot escape.

Huh!

At this moment, a figure rose from the ground, rushed towards a silver-eyed corpse, and with a violent roar, this silver-eyed corpse was blocked.

It's Gu Changfeng!

Gu Changfeng's figure drew back abruptly, his face was a little pale, his blood was empty, and his injury hadn't healed.

Roar!

This silver-eyed corpse was blocked, roared furiously, and rushed towards Gu Changfeng. Gu Changfeng was holding a magic weapon and fought against the silver-eyed corpse.

Although Gu Changfeng was injured, it was still possible to block a silver-eyed corpse for a time with the magic weapon attached to the blue flame stone.

But the others are at stake.

Others faced the two silver-eyed corpses, they were not opponents at all. As soon as they fought, someone fell and was torn apart by the silver-eyed corpses.

"kill!"

A silver-eyed corpse unexpectedly roared and rushed towards Yin Kong, with sharp claws grabbing towards Yin Kong's head.

"My life is over!"

Yin Kong sighed, with his strength, facing a silver-eyed corpse, there was no suspense, only a dead end.

At this moment, there was a black light in the sky, full of strong and powerful demon energy, and flew towards this silver-eyed corpse.

With a bang, this silver-eyed corpse was blocked.

In the sky, a figure appeared, exuding a breath of vastness like an abyss.

It's Zixuan!

Zixuan at the moment is in an unusual state.

She closed her eyes tightly, and her body was surrounded by black magic energy, like black ribbons.

A horrible breath came out of her body, but it was not very stable, constantly fluctuating.

The gazes of the two silver-eyed corpses turned to Zixuan, roared, and slaughtered towards Zixuan at an astonishing speed.

Zixuan still closed her eyes, as if from instinct, her palm was empty and me, a devil's knife condensed out, more than ten meters long.

She stepped in the air, brandishing the devil's knife, and fought with two silver-eyed corpses.

After several confrontations, Zi Xuan's figure retreated slightly, and she fell in the wind.

She wants to maintain the magic light mask to block other Absolute Yin corpses, and her combat power is naturally not at its peak.

However, if the devilish light mask is not maintained, a large number of extinct corpses will flood in and destroy the heavenly army and the demons, and I don't know how many people will die.

You know, there are more than a dozen corpses that are comparable to the strongest Heavenly Monarch level, and the Heaven Extinguishing Army and the demons can't stop them.

In this way, Zixuan faced the two silver-eyed corpses, and fell in the wind.

Roar!

The silver-eyed corpse roared and continued to kill Zixuan.

In addition to the devilish mask, there are more than a thousand other Absolute Yin corpses, frantically attacking the devilish mask, bringing tremendous pressure to Zixuan.

Outside the ancient mine of heron, the people of Cangming and Yinsha tribe heard the roar from the ancient mine of heron.

"Such a fierce roar, it seems that the battle is very fierce."

"Perhaps, the war has entered the final juncture. After this battle, it is time to destroy the heavenly army and the demons."

"You can't stay any of the subxian, celestial, celestial army, demons, and some lower races."

"After destroying these low-level races, and then pacify the Cangming and Yuanguang tribes, the vast and empty universe is the world of my Yinsha tribe."

Several people from the Yin Sha clan were discussing in secret.

Similar discussions also occurred in the Cangming clan.

"Who?"

Suddenly, a great master of the Yin Sha clan gave a loud shout and looked at the void behind.

This supreme master of the Yin Sha clan is a powerful person equivalent to the level of the Emperor Guangqian of the Yuanguang clan.

At the same time, there is also a master of the same level in the Cangming clan, and his eyes also look at the void.

Huh!

There was a flash of light in the void, and a young figure appeared.

This figure is naturally Lu Ming.

After the Bone Demon took him to fly for a while, Lu Ming refined the top-level Origin-level Divine Weapon Armor, and let the Bone Demon enter the Prey Ring. mine.

"This person...seems to be Lu Ming of the Heaven Extinguishing Army!"

A member of the Yin Sha clan recognized Lu Ming.

Lu Ming fought against the Celestial Clan and killed three of the strongest Heavenly Monarchs. Ming Zhen Universe. Even the creatures in the Forbidden Land knew Lu Ming's fame and had seen Lu Ming's portrait.

"Yes, it's Lu Ming!"

"It is indeed him!"

The other forbidden creatures also recognized Lu Ming.

"Very good, very good, just in time to send him on the road with the rest of the Exterminating Army."

The infinite master of the Yin Sha clan sneered, his figure flashed like a gloomy light, and he rushed towards Lu Ming.

Before the person arrived, a terrible evil spirit rushed towards Lu Ming, exuding an extremely cold aura.

Lu Ming frowned, his eyes exuding a terrifying murderous intent.

As soon as he arrived here, he heard a violent roar from the ancient heron mine, and he couldn't help but feel very worried.

"roll!"

Lu Ming yelled, the God of War gun appeared in his hand, and a shot was shot out.

The spear light was radiant, directly defeating the evil Yin Qi, and continued to stab the infinite master of the Yin Sha clan as if it had been smashed.

"not good..."

The incomparable master of the Yin Sha clan was shocked, revealing an incredible color.

Lu Ming's offensive power exceeded his imagination, and it was terrifyingly strong.
