

D Emperor 4891

Chapter 4891: It's too late

The spear light directly pierced the evil evil spirit of the great master of the evil evil clan, and directly blasted the evil evil clan's body into a big hole.

The superb master of the Yin Sha clan, his figure retreated violently, his body was constantly twisted like a ghost, the Yin Sha Qi was permeated, and the big hole that was blown out was quickly repaired.

The physique of the Yin Sha clan is extremely special, between illusion and reality, as if there is no entity, but pure Yin Sha energy.

This kind of physique, ordinary attack, it is difficult to cause damage to it.

However, Lu Ming's attack was not a normal attack. It was too strong. Regardless of your physique, everything would have to be destroyed. Although this supreme master of the Yin Sha clan was not dead, he was also seriously injured, and his breath was a little weak.

"kill!"

Lu Ming yelled coldly, his body shape kept, and hurriedly followed, the God of War spear was like a mountain range, pressing down at the master of the Yin Sha clan, and the violent destructive energy completely submerged it.

what!

The master of the Yin Sha clan let out a scream, his body exploded directly, his body and spirit disappeared.

His cry was extremely unwilling.

He was careless and underestimated Lu Ming, otherwise, with his strength and special physique, he would never be killed by Lu Ming's two moves.

It's a pity that it's too late, and regret is useless.

"This person..."

The other Yin Sha clan, including the Cangming clan, felt chills in their hearts and cold air. They couldn't help but retreat, where they dared to stop Lu Ming.

Lu Ming also had no intention of continuing to attack the other Yin Sha clan and Cangming clan, and directly turned into a rainbow light and rushed into the ancient mine of heron.

The Yin Sha clan and Cangming clan didn't feel relieved until they disappeared.

"This Lu Ming is terrifying."

"It's really scary, Lord Shahuang just now must have been careless, but being able to kill Lord Shahuang with two moves is also amazing."

"We send news to other adults and let other adults come and kill this person!"

Some people from the Yin Sha clan talked, and then news came out.

The people of the Cangming clan also believed that Lu Ming could not stay and had to be killed, so the news also spread, letting more Cangming clan masters come.

Lu Ming rushed into the ancient grey heron mine and flew at a very fast speed in the direction where the roar came from. Along the way, he saw some mechanism formations, but they were all broken. It was broken by a dead body or a forbidden creature, and it had no power.

At this moment, the battle between destroying the heavenly army and the demons, and the dead-yin corpse, has progressed to a critical moment.

Gu Changfeng entangled a silver-eyed corpse with a badly wounded body, which was already at the limit, and it was still completely downwind. After a long time, it would probably be invincible.

But Zixuan fought two silver-eyed corpses, and had to urge the magic light mask to resist a large number of absolute corpses.

Since the war, Zixuan has been retreating steadily.

Puff!

Finally, the sharp claws of a silver-eyed corpse caught Zixuan, and directly tore the devilish energy from Zixuan's body, leaving several deep wounds on Zixuan's body.

Zixuan kept her eyes closed, and her body was trembling at this moment, and her breath fluctuated greatly.

Even the devilish light mask around it trembled violently, as if it was about to collapse.

"Prepare for the battle..."

The lion roared, transformed into a prototype, and danced wildly.

The people who destroyed the heavenly army and the demons all took out the magic soldiers, and their power broke out, ready to fight at any time.

Once the devilish mask is broken, there is only a fight to the death.

"Everyone remember that when the next big battle breaks out, they will attack with all their strength. If they can escape, they will try their best to escape. Don't care about others. You understand."

Tang Jian shouted.

Many people have sorrow in their eyes. This is the most helpless decision, but it must be done. The only way to save the power for the Celestial Extinguish Army is to save one and one. Otherwise, the Celestial Extinguish Army will be destroyed.

Roar!

The two silver-eyed corpses continued to roar and rushed towards Zixuan.

Zixuan can only resist with all his strength.

"If this goes on, Zixuan will be very dangerous. He didn't fully integrate the Demon Ancestor Blood Crystals, but only half-fused. If this continues, most of it will fall short, and he will even be swallowed by the Demon Ancestor Blood Crystals..."

Yin Kongdao's face was extremely solemn.

Other demons, especially the purple-eyed demons, are extremely worried.

"Look outside."

Suddenly, someone shouted, and many people looked out of the devilish light mask.

I saw that direction, and suddenly a large amount of blue light flew out, shooting at the dead-yin corpses.

Everyone can see clearly that those blue rays are clearly the kind of blue rocks they used before.

These blue rocks were polished into a fusiform or needle shape, bombarded on the corpses of Jue Yin, then exploded and turned into blue flames, covering the corpses of Jue Yin.

They all made a sneer.

Then, a figure rushed towards this side with an astonishing direction, wherever it passed, the guns flashed, and the dead corpses burst apart.

"Lu Ming, it's Lu Ming!"

Someone exclaimed in the Exterminating Army.

"He is the only one!"

However, some people in the Heaven Extinguishing Army felt a sinking heart.

What is the use of Lu Ming coming alone? Isn't it going to die?

"Lu Ming, go quickly, some Jue Yin corpses are terrifying, and you can't deal with them."

The lion roared.

The name Jueyin Corpse was known to him from the devil. There are some ancient books about the Devil who have records of Jueyin Corpse.

Lu Ming's strength is strong, comparable to the strongest Tianjun, but it's useless under such circumstances.

Among the Dead Yin Corpses, there are at least a dozen existences equivalent to the strongest Heavenly Monarch level.

What's more, there are still silver-eyed corpses at this level. Lu Ming can't be an opponent at all. He just came to die.

With Lu Ming's talent, it would be a pity to die here.

To be honest, Lu Ming's value alone is worth tens of thousands.

Others also yelled, letting Lu Ming leave.

But by this time, it was too late.

At least four or five Jue Yin corpses, comparable to the strongest Tianjun level, rushed towards Lu Ming.

"That's too late!"

Lion, Tang Jian and others, their faces were pale, showing expressions of lament.

But the next moment, their eyes widened.

Lu Ming didn't retreat but moved forward, the God of War spear vibrated, and five spear lights were pierced in succession, each stabbing five Absolute Yin corpses comparable to the strongest Heavenly Monarch level.

The spear light was like a ruin, and the five deadly corpses, comparable to the strongest Heavenly Monarch level, could not withstand a single blow. The body was directly penetrated, exploding a big hole.

The blue flame stone flame attached to the tip of the gun diffused from the wound of Jue Yin Corpse and enveloped them.

With one move, five Absolute Yin corpses, comparable to the strongest Heavenly Monarch level, were hit hard.

Before the lion, Tang Jian and the others were shocked, Lu Ming continued to shoot, and five spear lights stabbed out again.

This time, the five Absolute Yin corpses comparable to the strongest Heavenly Monarch level, their bodies exploded directly, torn apart, and completely fallen.

Chapter 4892: Zixuan's situation

"This this...."

Inside the devilish mask, everyone who killed the heavenly army and the devil opened their mouths wide, dumbfounded.

With just two moves, the five existences comparable to the strongest Heavenly Monarch level were killed. What kind of combat power was this?

They knew how strong this type of corpse was.

It is said to be comparable to the strongest heavenly monarch, but in fact it is much more difficult than the strongest heavenly monarch. Their attack power is comparable to the strongest heavenly monarch, but their vitality and defensive power far exceed the strongest heavenly monarch.

The most powerful heavenly monarch in general has no chance of winning against such a deadly corpse.

However, Lu Ming killed five Jue Yin corpses with two strokes. Although they could see that Lu Ming's magic weapon was also attached to that kind of blue rock, although the blue rock had a restraining effect on Jue Yin corpses. , But the effect is not so bad.

There is only one possibility, and that is that Lu Ming's own combat power is too strong!

Could it be that Lu Ming has made tremendous progress during this time?

"Zixuan, let me in!"

At this time, Lu Ming came outside the demon qi light cover, and his voice passed into the demon qi light cover.

When Lu Ming's voice fell, the devilish light mask made waves, revealing a gap.

Obviously, although Zixuan closed her eyes tightly, she was still conscious.

Lu Ming rushed into the devilish mask as soon as he moved. Without time to say hello to the lion, Tang Jian and others, Lu Ming killed in the direction where Zixuan was.

Breakthrough!

Lu Mingren's spear united into one, turning into a spear light, piercing the void, at an alarming speed, and stabbing a silver-eyed corpse.

Roar!

This silver-eyed corpse roared and swung its claws to Lu Ming.

With a loud sound, the spear light collided with the claws of the silver-eyed corpse, and then the sharp claws of the silver-eyed corpse were shattered, and the spear pierced through the palm of the silver-eyed corpse.

The silver-eyed corpse retreated violently, and Lu Ming quickly followed up, spears like a dragon, and launched a stormy offensive.

Lu Ming's combat power was already far above the silver-eyed corpse, and the blue flame stone restrained the silver-eyed corpse. A silver-eyed corpse could hardly resist Lu Ming's offensive.

It was just a few tricks. The body of the silver-eyed corpse was pierced by the God of War Spear, and then there were a few more tricks. The body of this silver-eyed corpse fell apart on the spot.

After slaying this silver-eyed corpse, Lu Ming turned around and slew towards the silver-eyed corpse that fought against Gu Changfeng.

Because Gu Changfeng's situation is even more unfavorable.

Zixuan was able to stabilize the situation because of the loss of a silver-eyed corpse.

Huh! Huh! Huh! ...

The spear light was like a dragon, and the offensive was mad. The silver-eyed corpse who fought against Gu Changfeng didn't stop Lu Ming with many moves, so he was killed.

At this moment, everyone in the audience was shocked beyond recognition, all shocked by Lu Ming's combat power.

Such a terrifying silver-eyed corpse could not stop Lu Ming with several moves. What kind of combat power is Lu Ming?

Is this still the Divine Realm?

Can the combat power of the God Realm actually achieve this step?

This is simply a source.

Even Gu Changfeng was extremely shocked.

"Even if it is a taboo body, there are not many people who want to achieve such a combat power in the Divine Lord Realm since ancient times. What's more, Lu Ming is only the 9th Divine Lord. If his combat power reaches the peak of the Divine Lord, how strong should he be? Taboo Body , Can this be achieved?"

"The two forbidden bodies that were the most amazing in ancient times, the Lord of the Life Soul Heavenly Court and the Lord of the Great Ancient God Court, did not have this kind of combat power in a battle at the same level?"

Gu Changfeng had thoughts in his heart, and then he took out a few divine pills and swallowed them.

Without stopping, Lu Ming killed the last silver-eyed corpse again.

Roar!

The spirit of the silver-eyed corpse was already very high. Seeing Lu Ming's continuous killing of two existences of the same level as him, he knew that he was far from Lu Ming's opponent. Seeing Lu Ming killing, he turned around and left, trying to escape.

However, how could Zi Xuan let him run away and try his best to contain the opponent, but Lu Ming swiftly killed him, cutting off the silver-eyed corpse's escape route.

With Lu Ming and Zixuan joining hands, the outcome of this silver-eyed corpse was doomed.

Without a few tricks, he was completely bombarded and killed.

Ho Ho Ho...

Outside the devilish mask, those Absolute Yin corpses, without much intelligence, are still attacking.

Lu Ming waved his hand, and the figures of Xie Nianqing, Qiuyue, Bone Demon and others emerged.

"Let's take action together and destroy these deadly corpses!"

Lu Ming's voice came out, and he slaughtered outside the devilish light mask.

Immediately, Xie Nianqing, Qiu Yue and others also killed Lu Ming and shot out blue flame stones.

"kill!"

Immediately afterwards, the masters who killed the heavenly army and the demon roared and killed them together.

The three silver-eyed corpses were all killed, comparable to the absolute corpse of the strongest heavenly monarch, and there were not many left, and their strength plummeted.

And here, there are masters like Lu Ming, Zixuan, and Gu Changfeng, who are completely devastating, and a large number of Jue Yin corpses have been beheaded.

Soon after, thousands of Jue Yin corpses were almost beheaded.

At this time, Gu Changfeng directly sat cross-legged on the ground and started to heal his injuries with all his strength.

Zixuan, on the other hand, fell on the ground, her eyes closed tightly, her body surging with demonic energy, rising and falling, very unstable.

"Zixuan's situation is very short, Brother Lu, can you help her?"

Yinkong came to Lu Ming and sighed.

"I don't quite understand this, Bone Demon, what can you do?"

Lu Ming turned to the Bone Demon.

Bone Demon is the ancestor of Demon Dao, there must be a way, but the bone demon shook his head.

"The origin of the Demon Ancestor Blood Crystal is scary for a long time. I don't understand it at all, but I can perceive it. The energy of the Demon Ancestor Blood Crystal is so scary. If you want to merge, it is hard to reach the sky. Outsiders cannot intervene at all. Zi Xuan is herself."

Bone Demon Road.

Hearing the bone demons say so, the faces of those demons were very solemn.

It seems that Zi Xuan's own good fortune can only be seen.

"Lu Ming, how did you find this place?"

Tang Jian asked.

"I listened to Ye Immortal."

Lu Ming said, in his mind, Ye Immortal should have been active in this area before knowing that Heaven Extinguishing Army and demons were surrounded here.

But Ye Immortal told Lu Ming that he had no good intentions at all. Most of them wanted to use the hands of the Cangming and Yin Sha clan to deal with Lu Ming.

He knew that Lu Ming would definitely come here to rescue the people from the Heavenly Army, so that he would definitely confront the Cangming and Yin Sha clan.

It can be said that this is an arrogant plan. Lu Ming knew this, but had to come.

"Yeah, immortal? This guy is not at ease."

Tang Jian whispered, they naturally guessed Ye's immortal intentions.

"By the way, how did you get here? Why are you stuck here?"

Lu Ming asked.

"Is such that..."

Tang Jian simply recounted their experience during this period.

"Are the Cangming clan and Yinsha clan?"

A ray of murderous intent flashed in Lu Ming's eyes, and then he said: "We have to leave here as soon as possible. The Yin Sha clan and Cangming clan are guarding the outside, and most of them have passed the news to others, but Chi has changed."

Chapter 4893: Wizards of the ages, unprecedented

"What about Zixuan?"

Silver Sky Road.

"Take her away and let her enter my prey."

Lu Ming said, and then transmitted to Zixuan, let Zixuan cooperate, and then took Zixuan into the prey.

"Senior Gu Changfeng, go to Honghuangjie to heal your injuries."

Lu Ming looked at Gu Changfeng again.

"Lu Ming, have you comprehended the third thousand great ancient mysteries?"

Gu Changfeng's eyes were bright, staring at Luming.

"Yes, senior has a torch!"

Lu Ming nodded, and did not hide it.

Hearing Lu Ming's words, Gu Changfeng was shocked and said, "You actually realized three thousand great ancient mysteries. This is incredible, unprecedented."

"The predecessors are absurdly praised, the Lord of the Great Ancient God Court, hasn't he already realized the 3,000th great ancient secret technique?"

Lu Ming said.

"That's just a rumor."

Gu Changfeng shook his head and smiled, and then said to Lu Ming by means of sound transmission: "To tell you the truth, I once heard a surviving predecessor of the ancient gods say that the master of the ancient gods did not comprehend three thousand kinds of big Ancient secret techniques, in fact, he only comprehends 2,999 kinds."

Lu Ming was stunned, and he also responded with a voice transmission: "How is this possible? Didn't it all say that there are three thousand ancient secret techniques in the Great Ancient God's Court?"

"Have you seen someone gathered three thousand great ancient secret techniques?" Gu Changfeng asked back.

Lu Ming was stunned, unable to answer.

Yes, it has always been just a rumor that there are three thousand ancient secrets in the ancient gods, but no one has ever gathered them.

Legend has it that since the Lord of the Ancient God Court fell, no one has collected three thousand great ancient secret arts.

"So, this is just a rumor. In fact, there are only 2,999 kinds of ancient secrets in the ancient gods, and the third thousand kinds of ancient secrets have always been speculations by the lord of the ancient gods, but I didn't realize it. Unexpectedly, you could actually comprehend the third thousand great ancient mysteries. So, you are unprecedented. I can feel it. Your forbidden power has become even more terrifying. Is it related to this?"

Gu Changfeng said.

"Not bad!"

Lu Ming didn't hide it.

"Wizards of the ages, in my previous taboo body, I am afraid that your achievement is the highest. At the beginning, the Lord of the Ancient God Court had no way to go, and you passed it."

"But I heard that Tang Feng, the forbidden sword ancestor, seems to have taken another path, which seems to be unprecedented. I really want to have the opportunity to see him."

Gu Changfeng said.

Regarding age, Gu Changfeng was considered Tang Feng's predecessor, but when Tang Feng was born, Gu Changfeng was already asleep, and the two had never met.

After talking with Gu Changfeng, Lu Ming's heart fluctuated.

It turns out that he accidentally walked out an unprecedented road.

He originally thought that the Lord of the Great Ancient God Court had also comprehended three thousand great ancient secret arts.

Unexpectedly, the lord of the ancient gods did not succeed, but got stuck in two thousand nine hundred and ninety-nine.

Fortunately for this rumor, Lu Ming only succeeded in comprehension. If he had known that the Lord of the Ancient God Court had not succeeded in comprehension, he might not have succeeded in comprehension.

Because he had always thought that the Lord of the Great Ancient God Court had comprehended three thousand great ancient mysteries. He believed that since others can succeed, it means that this path is feasible and he can succeed, so he has always Persevere without giving up.

If he had known for a long time that the Lord of the Ancient God Court had not succeeded, he would have been discouraged, thinking that this path would not work, and maybe he would have failed.

The world is really unpredictable.

After that, Lu Ming also took Gu Changfeng into the prey.

Not only Gu Changfeng, but Lu Ming let everyone else enter the prey.

Outside of the ancient heron mines, most of them are guarded by creatures in the forbidden area. With a large group of people, it is a burden. It is safer and more convenient for him to act alone.

After putting everyone in the Precious Ring, Lu Ming's figure flashed, and he rushed out of the ancient heron mine.

Soon after, Lu Ming came outside the ancient mine of heron.

As soon as he arrived outside the ancient mine of heron, Lu Ming felt cold eyes falling on him.

His eyes were full of murderous intent, as if cutting a sharp blade on his skin.

These are naturally forbidden creatures, both Cangming and Yinsha clan, and there are hundreds of them, several times more than when Lu Ming entered before.

The number of Yin Sha clan and Cangming clan is too much.

"Coming so fast!"

Lu Ming's face sank slightly.

He went in for the rescue, and it took a long time for the people of the Yin Sha and Cangming clan to increase several times. It seems that there are masters of the two clans in the surrounding area.

"Lu Ming, you dare to kill my master of the evil evil clan, you are really looking for death, set up an array, summon the evil evil ghost king, and tear him up for me."

In the Yin Sha clan, a middle-aged man spoke, and his body was constantly twisting, as if it were a ghost.

This middle-aged man came here from behind. Before entering, Lu Ming had not seen him.

However, the breath that this person exudes is very terrifying, it is estimated that he is a super master.

Hh hh hh...

A total of fifteen masters of the Yin Sha clan rushed out. They all had a treasure similar to a skull. This skull looked the size of an adult's fist and was covered with runes.

These skulls are the carriers of the combined attack formation.

The runes were permeated, fifteen skulls glowed, intertwined and connected to each other, and then formed a huge figure.

This figure exudes a terrifying evil spirit, and it is the evil evil ghost king in the mouth of the evil evil clan.

This is the evil ghost king condensed by fifteen players, and it is very powerful.

The evil ghost king roared and rushed to Lu Ming.

At the same time, Cangming Clan also shot.

There is also a combined formation on the Cangming clan, but it is not a combined attack of 15 people, but a combined attack of 18 people.

The combined attacking formation of eighteen people condensed a flying fish.

This flying fish, with two wings growing, one wing, like an arrow from the string, slammed towards Lu Ming.

The two attacking formations, from the left and right sides, attacked Lu Ming together.

And immediately behind the two formations, there were two figures, also killing Lu Ming at a very fast speed.

One is the middle-aged man of the Yin Sha clan, and the other is an extremely strong man of the Cangming clan.

These two people are comparable to the existence of the Emperor Guangqian.

They knew that Lu Ming was powerful, so when he shot, he was the strongest combat power, and the coordination was seamless.

Two terrifying combined attack formations, two masters comparable to the Emperor Guangqian, formed a lore, and wanted to create a lore against Lu Ming.

Faced with such an attack, the existence of the same level as the King of Light, absolutely must be killed in seconds.

Even the presence of the envoy stronger than the former king would be severely damaged.

However, Lu Ming's strength was not a little stronger than that of the Emperor Guangqian.

What's more, he also controls a top-level source-level magic weapon armor.

Chapter 4894: Kill the two masters

On the way to the Heron Ancient Mine, Lu Ming had already refined the top source-level armor of the gods.

At this moment, Lu Ming's thoughts moved, and a black armor appeared, covering Lu Ming's entire body. The cage was as strict as a **** of war.

call out!

Out of the sky, it turned into a sharp spear light and killed the evil ghost king.

Roar!

The evil ghost king roared, holding a ghost king knife, slashed towards Lu Ming, and collided with the spear light, there was a shocking roar, the next moment, the ghost king knife trembled violently, and densely packed runes appeared on it. And Yin Sha Ghost King himself, also backed back again and again.

The ghost king of Yin Sha was condensed from the fifteen players' combined attacking formation. The 15 players in this formation were all masters at the peak of the gods. Compared with Yuanguangzi's nine-player combined attacking formation, it was naturally stronger. Cut, but compared to the 21-member Yuanguang Clan's combined attack formation, it was a lot worse.

The offensive power was slightly stronger than that of a light former envoy, so naturally he was not Lu Ming's opponent.

Just when Lu Ming repelled the ghost king of Yin Sha, the 18-member joint attack formation of the Cangming clan, and two top masters of the Cangming and Yin Sha clan also killed them, three terrible attacks. Falling on Lu Ming.

Lu Ming directly ignored these three attacks, concentrated all his strength, and continued to use the Heaven-Breaking Style, killing the Yin Sha Ghost King.

Boom boom boom!

Three terrible attacks fell on Lu Ming. Lu Ming only shook his body a few times before blocking the three attacks.

"It's worthy of being a top-level source-level magic weapon. The defensive power is so strong. Through the shock of the armor, there is not much. I can completely defend it."

Lu Ming turned a thought, and his confidence greatly increased.

The top source-level war armor of the gods did not disappoint Lu Ming at all. The defense was too strong, and the three terrible attacks were almost completely prevented.

Even if there is power to form a shock through the battle armor, it is not strong. With Lu Ming's current cultivation base, it can completely withstand it.

Unless you have the same offensive power as Lu Ming, you can cause a certain amount of damage to Lu Ming through the armor.

These people are obviously not enough.

boom!

Lu Ming's offensive was not affected much, and the second move against the evil ghost king. This time, the ghost king knife of the evil evil spirit king directly exploded, and the spear light penetrated the body of the evil evil ghost king through a hole.

In fact, it penetrated the body of a master Yin Sha clan inside.

The power of destruction erupted, and the master of the Yin Sha clan fell apart on the spot.

Fifteen people attacked the formation together, and one was killed. The formation was suddenly unstable and the light was dim, almost unable to maintain the form of the evil ghost king.

Prehistoric!

Lu Ming patted it out with a palm, displaying the wild style, forming a continent on top of the ghost king of Yin Sha.

This continent is small, only a hundred meters in radius.

Primitive, the smaller the range, the stronger the attack power.

The continent with a radius of 100 meters was suppressed on the ghost king of Yin Sha, and terrible power erupted, and the ghost king of Yin Sha directly exploded. There were still 14 people in the formation, all of them were shaken to death.

Yes, all of the fourteen people in the formation were stunned to death by the predecessor, and their bodies and spirits were destroyed. Only fifteen skulls were still floating in the air.

At this time, three more attacks fell on Lu Ming, but they did not cause much damage to Lu Ming.

"kill!"

Lu Ming roared, the God of War spear swept out.

The first one to bear the brunt was the extremely master of the Cangming clan who was comparable to the Emperor Guangqian.

This super master of the Cangming clan, the closest to Lu Ming, was directly struck by the God of War Spear, and his body flew out like a cannonball, smashing through a mountain.

"go!"

The supreme master of the Yin Sha clan, his face trembled with fear and pale.

Lu Ming's combat power was so terrifying that he had already scared him.

He couldn't help thinking of the powerful Yin Sha clan who had been killed by Lu Ming before. He was at the same level as him. Since he could be killed by Lu Ming, what about him?

Therefore, he ran away without hesitation.

The Yin Sha clan's speed is extremely fast, not less than that of the Yuanguang clan, like a ghost, a few flashes, and disappear into the distance.

The other members of the Yin Sha clan did not dare to stay at all, and followed the strong man and fled to the distance.

Lu Ming's eyes were cold, he didn't chase, but his figure flashed, and he killed the Cangming master who had been Hongfei.

"Ah, damn..."

The supreme master of Cangming clan was shocked. After seeing the master of Yinsha clan escape, he was extremely angry, but the most important thing in front of him was to stop Lu Ming.

"Come and help me!"

The master of the Cangming clan roared, and at the same time he burst out with all his strength, he opened his mouth, and a long river appeared.

The long river is full of this kind of river water, extremely cold.

This kind of coldness is different from ordinary coldness. It is not only cold, but also full of shady air, just like the air of Jiuyou.

The river was surging and swept towards Lu Ming.

At the same time, the combined attacking formation of the 18 people also came to Lu Ming to kill.

However, Lu Ming directly ignored the attack of this formation.

"open!"

Lu Ming yelled, and the power of the taboo rushed into the God of War Spear. The God of War Spear quickly grew in size, like a huge mountain range, pressing forward and slamming on the cold long river.

Wow!

The river splashed in all directions and was directly split by the God of War Spear. The powerful force hit the strong man of the Cangming Clan and blasted him into the air. The man trembled, his face pale, and the blood kept flowing out of his mouth.

At this time, the combined attack of the eighteen people hit Lu Ming again.

Lu Ming staggered slightly, blocking this attack.

To be honest, the combined attack formation of the 18 members of the Cangming clan is very powerful. Compared with the 21 member combined attack formation of the Yuanguang clan, it is only a difference. If there is no such top-level source-level magic weapon Lu Ming dared not let it hit the battle armor.

In fact, even if there is a top source-level magic weapon armor, there is a powerful force through it, bombarding Lu Ming.

However, this strength cannot cause severe injuries to Lu Ming all at once, but only minor injuries. With Lu Ming's vitality and resilience, he can quickly recover.

Of course, this was just such a formation that Lu Ming could ignore. If such a formation had ten and eight, Lu Ming would not dare to be so big.

Continuous minor injuries can also accumulate into serious injuries.

"Send you on the road!"

Lu Ming's eyes were cold, staring at the master of the Cangming clan.

To fight, one must stare at one fight.

boom!

The prehistoric style came out, and a continent condensed on the head of the master of the Cangming clan, and pressed down towards him.

"Ahhhhh..."

The infinite master of Cangming clan roared, fighting with all his strength.

But they were all useless. When the mainland was suppressed, the attack of the master of the Cangming clan continued to collapse, and finally, the mainland fell on him.

bump!

This person's body was torn apart.

Chapter 4895: The contents of the scroll

This extremely master of the Cangming clan was suppressed by Lu Ming's prehistoric manner, his body was torn apart, and his soul was wiped out by the violent force of destruction.

Another terrifying master was killed by Lu Ming.

The rest of the Cangming clan is very cold.

"go!"

"Retreat first!"

Those Cangming clan, including the combined attacking formation of the eighteen people, all fled towards the distance.

"I want to go now!"

Lu Ming's eyes were cold and he stepped on his feet, like a streamer, chasing after the Cangming clan, and in an instant, he caught up with the 18-person combined attack formation.

boom!

Lu Ming blasted out with a palm, another prehistoric blast, a whole continent, blasting towards the 18-person combined attack formation.

The 18 members of the Cangming clan combined their attacking formations, and what condensed was a giant fish with two wings. The head of the fish was as long as a sword and surrounded by the cold water.

Seeing that they couldn't escape, the combined attacking formation of 18 people could only resist.

But the result was that this giant fish retreated violently.

Fighting against Lu Ming head-on, the combination of these eighteen people was still a short distance away.

What's more, Lu Ming now has a top-level source-level magic weapon armor, fighting against people, can use more power to attack, regardless of defense, this kind of combat power will undoubtedly be stronger.

In the past, the immortality was to occupy this advantage, and in the first battle at the same level, it was often stronger.

One move has the upper hand, Lu Ming keeps on the offensive, and the advantage is attacked several times in a row, and the opponent has no power to parry.

After a few moves, Lu Ming broke through the opponent's defense with a single shot, killing one of the Cangming clan in the formation.

The remaining seventeen Cangming tribes were really panicked.

"Lu Ming, you really intend to kill them all. By doing so, you will become mortal enemies with my Cangming clan. Can you stop our revenge?"

A Cangming clan shouted.

"We are now, aren't we dead enemies?"

Lu Ming sneered.

These forbidden creatures, he can see through, even if you evade everywhere and avoid the other party, the other party will still take the initiative to trouble you and take the initiative to kill you.

Therefore, only by anti-killing, killing the opponent, and even smashing the opponent, can the future trouble be avoided forever.

Lu Ming would never show mercy to these forbidden creatures.

call out!

The sky-breaking eruption turned into a bright spear light. This time, the spear light directly penetrated the two-winged giant fish.

This giant fish exploded, and the seventeen people in the formation were instantly strangled by gunshots.

The remaining ten people were all injured. They fled in all directions regardless of their injuries.

"Scatter away and pass the news to Lord Cang Luo."

"During this time, we have brought back a lot of resources to Cangming Sea, and immediately more powerful people will wake up and come to Zixiao Cave. Then, those powerful people will avenge us."

A few Cangming clan roared, their figures kept on fleeing with all their strength.

Lu Ming tried his best to kill, and in the end, six people were killed by Lu Ming, but a few people escaped.

There were a lot of people in the Cangming clan, and besides these people who deployed the formation, there were also those who did not have the formation, and they also fled early.

Seeing that he couldn't catch up, Lu Ming didn't stop, his figure flashed, and he left here.

A day later, in a relatively quiet and hidden place, Lu Ming appeared and released all the people who destroyed the heavenly army and the demons.

When everyone saw that it was safe, they naturally thanked Lu Ming a lot.

Especially Lion, Tang Jian and others sighed for Lu Ming's strength.

At the same time, they are also very ashamed.

After they entered the Zixiao Cave, they were chased and killed by Jueyin Corpse soon afterwards, and finally got rid of Jueyin Corpse and encountered the forbidden creatures.

So during this period, it can be said that nothing was achieved.

On the other hand, Lu Ming's combat power soared, forming a sharp contrast.

"By the way, Senior Lion, Senior Tang, do you know the characters of the last era?"

Lu Ming asked.

"I know a thing or two!"

The lion nodded.

"That's great. We got some scrolls of Zixiao Dongtian. The scrolls are written from the previous era. We can't see through it at all. Please take a look at it!"

Lu Mingdao

"The scroll of Zixiao Dongtian!"

Lion's eyes lit up.

Not only him, but everyone else on the side heard them, showing joy and expectation.

If these scrolls recorded some mysterious Qi training techniques from the last era, even advanced weapon refining techniques and alchemy techniques, they would be of infinite value.

Lu Ming waved his hand, and a large number of scrolls appeared.

Lion picked up a set of scrolls, opened it expectantly, and watched it carefully.

Soon after, the lion showed excitement and said: "On this scroll, there is a profound refining technique that can refine source-level divine weapons. If this is given to our refining master, it will surely enable them. The level of refining weapons has greatly increased, and the success rate of refining source-level magic weapons can also be increased a lot."

"It's actually a sophisticated refining technique, it's a priceless treasure."

Tang Jian was also refreshed.

This kind of refining technique is too valuable for a certain force.

The various forces in the universe, such as the Celestial Army, the Celestial Race, and the Demon, although there are also master craftsmen who can refine the source-level magic weapons, the success rate is very low.

It is conceivable that the speed of the source-level magical soldiers produced is far in short supply.

If the success rate of source-level magic weapon refining can be increased, it is vital to the development of a power.

"But although I can understand it, it is still very complicated to translate it and it takes a long time."

Lion Road.

"It's okay, first look at what's in these scrolls, and when you take them out, slowly translate it."

Lu Ming said.

Then, Lion picked up the second scroll and looked at it.

This scroll is a kind of advanced refining technique and a means of attack, named Taiyi Tianque Palm.

Once the cultivation is successful, the power is extremely powerful, and it is more than a kind of ancient secret technique.

Of course, the value of this Qi training technique is not as good as the previous refining technique.

After all, the Qi training techniques of this type of attack are generally only suitable for the cultivation of the creatures below their origin.

Because after reaching the source realm, you can only comprehend the source art based on your own source power.

The power of the source technique is generally far superior to that of the Great Ancient Secret Technique or this type of attacking Qi training technique.

Afterwards, Lion picked up the third scroll to watch.

"This is a source-level formation!"

Suddenly, the lion exclaimed, revealing the color of formation.

"What? Source-level formation."

The first thing that reacted was Dan Dan, who also appeared in front of the lion with a flash, staring at the lion with fiery eyes.

"It's actually a source-level formation!"

Others also cheered up, their eyes brightened.

"Yes, it is a source-level formation, but a defensive source-level formation."

The lion nodded his head.

The source-level formation is no trivial matter.

In the past, the Celestial Race or the Devil didn't know it, but in the Celestial Extinguishing Army, there was no source-level formation, and there was no source-level formation.

Therefore, those formations in the Extinguishing Army's garrison are not powerful.

Chapter 4896: Zixiao fairyland

"Is it a complete source-level formation?"

Tang Jian asked quickly.

For so many years, the Celestial Extinguishing Army has been digging the ruins of the universe, and has not obtained a complete source-level formation.

The complete source-level formation, once deployed, is absolutely amazing.

If the Heaven Extinguishing Army garrison has a complete defense-like source-level formation, there is no need to be afraid of an attack by the Celestial Clan.

If they control a complete source-level formation, after the great calamity of the source, after the source of the Sky Extinguish Army is awakened, the overall strength of the Sky Extinguishing Army will definitely be greatly increased.

"Yes, it's a complete defensive formation!"

The lion nodded his head.

Many people's breathing is heavy.

"Can you translate it for me..."

Every day Twilight stared at the lion shiningly.

"It may take a long time to translate it. After all, a formation involves a lot of content."

Lion was a little embarrassed.

"Dandan, don't worry. Sooner or later, what should be given to you will be given to you. You can't run away. Moreover, your cultivation base is only the nine-fold divine master. Even if you give it to you, you can't arrange it. The source-level formation?"

Lu Ming patted Dandan's shoulder.

Dan Dan smiled awkwardly and took a few steps back.

It is not so easy to set up a source-level formation, and the conditions are very harsh.

Generally speaking, it requires the existence of the origin realm to set up the formation, because the existence of the origin realm controls the power of the origin, and the power of the origin level formation must be arranged and activated by the power of the origin.

Taking a step back, at least the existence of the peak of the gods can be arranged.

But generally speaking, the existence of the peak of the gods is difficult to succeed.

Although the **** master pinnacle has condensed the source seeds and contains the source power, the **** master pinnacle's source power is too small, and it is not enough to arrange the source-level formation.

Of course, it is not impossible to cooperate with some special treasures or means.

But once, after all, only the nine-fold divine master, it would be impossible.

Lion continued to watch other scrolls.

The remaining scrolls are of high value. For example, there are various Qi training techniques, weapon refining methods, alchemy methods, and some other source-level formations.

Even inside, there is a method of refining the carrier of the combined attack. Although it is only a method of refining the carrier of the nine-person combined attack, the value is also infinite.

Once you get it back, as long as you gather enough materials, isn't the Heaven Extinguishing Army constantly refining the carrier of the combined attack formation.

Of course, the refining power of the combined attack method carrier is definitely extremely low, but it is better than nothing.

There are also some scrolls, but they are all maps of Zixiao Dongtian, exactly the same as the one Lu Ming gave Cang Qiong to translate.

"Lu Ming, what are your plans next?"

After reading all the scrolls, the lion asked Lu Ming.

"Go to Zixiao Immortal Country!"

After Lu Ming finished speaking, he waved his hand and the map glowed, forming a huge map in the air.

Their current location is in the northeast of the map.

"Zixiao Immortal Country!"

Everyone's gazes are in the center of the map.

Before, the lion translated all the text marked on this map in front of everyone, so everyone can understand this map.

You can see that in the middle of the map, there is a huge sea area surrounded by continents.

In the center of the sea, there is an island.

This island is the Zixiao fairyland.

This is also the real core of Zixiao Dongtian.

At the beginning, the immortal of Zixiao Dongtian was sitting here.

There is no doubt that the most precious treasure in the Zixiao Cave sky is definitely hidden here.

I didn't know before, after reading the map, is there any reason not to go?

Other people also showed emotions.

You don't need to guess that there are absolutely heaven-shattering treasures in the Zixiao Immortal Kingdom. This is the place where the immortal sits, what immortal is, that is the transcendence, above the universe, the eternal existence of the universe that will never die.

Even a trace of fur left behind by the immortal is a priceless treasure.

"The Zixiao Immortal Kingdom is the true core of Zixiao Cave. I believe that the Celestial Clan, the Subxian Clan, and even those creatures in the forbidden area will definitely go there when they know it. It will become a chaotic place, very dangerous and powerful. If it's not enough, it's just going to die."

The lion's voice rang in everyone's ears.

Many people's hearts sank, and the light in their eyes faded.

Yes, the Celestial Clan, the Yaxian Clan, and the forbidden land creatures, how can you miss the Zixiao Immortal Kingdom?

Special features are those living in the forbidden area. Once they know it, they will never miss it. All, that area will be very dangerous.

How strong are the creatures in the forbidden area, they know very well that if they go, instead of getting the treasure, they will die.

"I don't limit your choices. If you want to go, you can go. If you don't want to go, just stay in this outer continent and look for treasures. There are countless treasures on this outer continent."

Lion Road.

"I will not go!"

"I stayed!"

Many people spoke.

Except for Lu Ming, almost no one went.

As the leaders of the Heaven Extinguishing Army and the demons, Lion, Tang Jian, Yinkong and others naturally also stay behind and advance and retreat with everyone.

Although Gu Changfeng wants to go, he is now injured and has inconvenience. He plans to focus on healing. If there is time after the injury is healed, he will rush over to have a look.

In the end, it was decided that Lu Ming, Xie Nianqing, Qiu Yue, Ling Yuwei, Dan Dan, Pao Bao, Qiuqiu, Bone Demon, Ten Thousand Gods, Tang Jun, or a group of ten of them, went to the Immortal Country of Zixiao.

Others continue to stay in this outer continent looking for treasures.

"I have a good place to go, there is a chance, right here, on a mountain peak here, there are four statues, very mysterious, can help people understand the secrets..."

Lu Ming moved in his heart and pointed to a corner on the map.

The place he was talking about was exactly the vein that Lu Ming and the others used to compete with Yuanguang Clan, Celestial Clan and others for treasure.

There are four statues, but Lu Ming and the others have gained great benefits there.

It was there that Lu Ming comprehended the third thousand great ancient mysteries, which made his combat power soar.

Without those statues, Lu Ming's three thousandth great ancient mystery, I don't know if he can comprehend it. Even if he can, he doesn't know it will be the year of the monkey.

If all the members of the Heaven Extinguishing Army were there to comprehend something, their strength would definitely increase.

Especially some top figures, such as Gu Changfeng, Lion, Tang Jian, etc., will definitely gain amazing results.

"There is such a mysterious place..."

Hearing Lu Ming's introduction, Lion, Tang Jian and others, their eyes lit up, revealing a hot light.

"But in that place, maybe Yuanguang Clan, Yaxian Clan, and Celestial Clan are still there. Please be very careful when you go."

Lu Ming reminded.

"Don't worry, we will not act rashly. We will look for hidden places around and hide first. When the Yuanguang, Celestial, and Yaxian people are gone, we will not be too late. They can't stay there forever."
."

Lion Road.

Chapter 4897: Nine Veins Gathering

"So feasible!"

Lu Ming nodded.

The plan was set in this way. Lu Ming's ten people went to the Zixiao Immortal Kingdom first, while the others who destroyed the heavenly army and the devil went to that vitality first, waiting for the opportunity to act.

And Gu Changfeng can heal the injury first.

As for Zixuan, she can practice in a quiet environment and strive to overcome difficulties.

After the agreement was reached, everyone moved separately. Lu Ming and Xie Nianqing and ten people began to set off, heading towards the middle of the Zixiao Cave.

Most of the time, Lu Ming and the Bone Demon took turns on the road, while the others stayed in the prey and practiced quietly.

Although Xie Nianqing and others had already refined the top source-level magic weapon armor, they could understand the secret technique.

Before the four statues, they had already touched the outline of the source technique, such as Xie Nianqing and Tang Jun, who were confident that they could perform the source technique at the peak of the gods.

If you hurry to consolidate this state, it will definitely benefit a lot.

Lu Ming and the Bone Demon took turns rushing forward, very fast, and once they encountered Jue Yin Corpse or the like, they would avoid them first.

Finally, half a month later, they came to the beach.

Although it is the inland sea, it is endless and can't see the edge at a glance.

The sea is very calm, without wind and waves, like a mirror.

"In the sea, there seems to be no life!"

Lu Ming sensed, his figure flew across the sky and headed toward the depths of the sea.

Along the way, no abnormalities were encountered. This sea area was like a dead sea. Lu Ming increased his speed to the extreme. When he was tired, he changed the bone demon and hurried away.

The two of them worked together, and in just a few days, they crossed this sea area, and when they went, a huge monster appeared on the sea level.

An island!

The Zixiao fairy country has arrived.

"This breath..."

As he approached the Zixiao Immortal Country, Lu Ming's pupils shrank and his face was shocked.

The island, that is, the sky above the Zixiao Immortal Country, was pitch black, densely covered with dark clouds, the sky and the earth were gray, and there was a cold atmosphere, constantly coming.

This cold breath is the same as other places in Zixia Cave, but it is many times stronger.

Looking from a distance, it seemed to be possible to see that in the Zixiao fairy kingdom, there was a wave of black cold energy radiating out and rushing in all directions.

"Such a strong cold atmosphere, an immortal country has become like this, what happened here?"

Lu Ming whispered, while secretly disappointed.

This place is filled with such a strong cold atmosphere, which shows that basically no magical medicine will be bred on the island. It seems to be disappointed to get some source-level magical medicine here.

But since it's here, naturally it can't come in vain, so I have to explore it.

Lu Ming continued to step out and flew towards the island.

The island was huge, like a continent. Lu Ming stood high in the sky and observed carefully.

The island is bare everywhere, without any plants.

You can even see a lot of places on the island, with large pits, or sword marks. Obviously, this is the trace of a shocking battle that has not completely disappeared even in the endless years.

Lu Ming waved his hand to make Xie Nianqing, Qiuyue, Dan Dan and others appear from the prey.

Xie Nianqing, Dan Dan, Paobao and others all have special methods, and Lu Ming needs everyone's opinions.

"Dandan, did you feel any fluctuations in the formation?"

Lu Ming asked Dandan.

"Yes, in the center of this island, there are wave formations, and it is very, very scary."

Dan Dan pointed to the front, his face very solemn.

Lu Ming and the others' expressions also sank, it was the first time that Dan Dan used several 'very' and his expressions were so solemn.

"Can you go and see?"

Lu Ming asked Dandan.

"Looking from a distance, there should be no problem."

Dandan nodded.

Immediately, they set off, and soon after, a huge ancient city appeared in front of them.

This ancient city is magnificent and covers an astonishingly large area.

However, there were layers of purple-golden light that enveloped the ancient city, making it difficult to see the specific situation in the ancient city.

"This is Dongtian Divine Light!"

"Why is it that such a rich divine light from the cave sky shrouds this ancient city?"

Qiuyue, Ling Yuwei and others all exclaimed and wondered.

Even the bone demon, Xie Nianqing, and Tang Jun are very knowledgeable, and they also show doubts.

Dandan frowned, looked carefully, sometimes looked at the ancient city, sometimes looked at the ground, and penetrated a rune into the ground.

After a long while.

"This ancient city is equipped with mysterious formations, which can constantly extract the divine light from the deep underground to protect this ancient city. It seems that under this ancient city, no, maybe under this island is a huge Qi pulse..."

Dandan judged that when he came to the back, his eyes shone, as if he had seen countless treasures.

"Let's take a look inside the sea, maybe we can see the clues."

Xie Nianqing suggested.

Everyone agreed and left here.

They speculated that this ancient city is the real Zixiao Immortal Country, but the ancient city is densely covered by the Divine Light of the Cave Heaven, and the Divine Light of the Cave Heaven is so strong that they cannot enter.

Even if there is the kind of armor that Dandan and Bubble refining together, it is far from good.

They even speculated that even if the strong from the Origin Realm came, they couldn't get in. If they broke through, they might be killed by the rich Divine Light of the Cave.

They came to the edge of the island, entered the sea, and sank all the way down.

Soon after, they sank to the bottom of the sea and saw a huge mountain range, like a dragon, extending towards the depths of the island.

Qi pulse, a huge Qi pulse.

However, they showed a trace of doubt.

Although this vitality is very large, it seems to be similar to the one previously fought against the Yuanguang clan.

This is the Zixiao Immortal Country, it is only located on such a vitality, it is out of status.

"Perhaps, there is more than one vitality under this island, let's look at it again."

Bone Demon Road.

Lu Ming and the others nodded. They walked along the seabed and circled the island.

Sure enough, they found another qi vein, no smaller than the previous one, extending from a distance, and one end converging with the other qi vein in the depths of the island.

There really is more than one.

They continued to watch, and then found the third, fourth, fifth...

Finally, after making a circle around the island on the seabed, they found a total of nine vitality veins.

Yes, there are nine full veins.

Each qi vein is about the same size.

Nine vitality veins, like nine dragons, entrenched on the bottom of the sea, and the dragon heads gathered in the island.

They speculated that the place where the nine energy lines converge is probably under that ancient city.

That ancient city was formed a powerful guard by continuously extracting the divine light of the cave from the depths of the energy veins.

"It seems that in a short period of time, we can't enter that ancient city at all."

Lu Ming shook his head and sighed.

Chapter 4898: The talking dead corpse

Lu Ming sighed slightly, it seemed that they would not be able to enter that ancient city in a short time.

"Yes, the formation of that ancient city is too advanced. At my level, it can't be broken at all."

Dan Dan also shook his head.

"Could it be that you can only enter when this area collapses on its own?"

Bone Demon Road.

"It's true. Sooner or later, Zixia Cave Sky will completely collapse. At that time, the nine energy veins will collapse, and even the formation of the ancient city will be torn apart. At that time, people outside can enter."

"But it will take at least a few years to wait until then!"

Dan Dan said.

Everyone nodded.

The collapse of Zixiao Cave did not happen instantaneously, but gradually collapsed. This process will continue for a period of time.

As short as a few years, as long as a hundred years are possible.

The collapse of Zixiao Cave Sky started from the surroundings and slowly extended towards the center.

At this time, the most fringe area of Zixiao Cave Sky collapsed almost completely, in a state of chaos, and formed huge cracks extending towards the center.

When they came before, they saw that there were actually a few huge cracks in the sea, and the sea was inverted and the scene was amazing.

These cracks will continue to extend to this side of the island.

When it extends to this island, it will surely tear the nine qi veins below the island, the qi veins will collapse, and cannot absorb the divine light and energy of the sky, the formation of that ancient city naturally has no effect.

"It seems that we were the first to come here, so it's better to look around and familiarize yourself with the terrain, so that we can take the lead in the future."

Tang Jun's proposal naturally received everyone's approval.

A group of ten people immediately began to explore the entire island.

Around the island, there was a dead silence, no plants, and no magic medicine.

They wandered around for a while, but found nothing.

After half an hour, they saw a dark red land.

They stopped at the edge of the dark red land, because they felt that this land was a bit unusual, the cold atmosphere, and more dense, with a kind of infiltration.

"The color of this land is different from other places, it turns dark red, as if it was soaked in blood!"

Bone Demon said condensedly.

Huh!

With a wave of his hand, Lu Ming controlled a magic weapon and flew into the dark red earth.

Without causing any abnormalities, the **** soldiers flew around the dark red ground and then flew back.

"It seems we are worried..."

Lu Ming spoke, but before he finished speaking, he paused, his eyes condensed.

Because on the dark red ground, some places suddenly squirmed, and then stretched out a dark claw.

Bang bang bang...

Then, burly figures jumped out from the mud.

It's a dead body!

At least there were hundreds of Jue Yin corpses, with dark eyes, like an abyss. They stared at Lu Ming, but they did not attack.

Roar!

With a roar, hundreds of Jue Yin corpses on the scene flashed and arranged in a square array.

Then a more burly figure stepped out and landed in front of the square.

It's a silver-eyed corpse!

"Outsiders, get out of this island, otherwise, kill without mercy!"

The silver-eyed corpse actually spoke, his voice hoarse, full of tyranny.

Lu Ming and others were dumbfounded.

This silver-eyed corpse could actually speak?

It's not that they haven't encountered the silver-eyed corpses before, and they have encountered a lot of them. Although the silver-eyed corpses, although they have spiritual wisdom and are not low in wisdom, none of them can speak.

This silver-eyed corpse could not only command other Absolute Yin corpses in a square formation, but could also speak, which really surprised Lu Ming and the others.

Seeing Lu Ming and others stunned, the silver eyed corpse's silver eyes revealed a tyrannical murderous intent.

"I say it again, outsider, get out of this island, otherwise you will kill you without mercy!"

The hoarse voice of the silver-eyed corpse sounded again, filled with cold murderous intent.

"Get out of this island? Why? You are just some dead bodies, you still want to occupy this Purple Heaven Immortal Country?"

Dan Dan yelled.

"kill!"

The silver-eyed corpse, showing tyrannical murderous intent, roared.

Ho Ho Ho...

Those Absolute Yin corpses screamed and rushed towards Lu Ming and others.

"court death!"

Dan Dan yelled and stepped on the ground, and dense runes appeared on the ground, forming a large array, covering hundreds of deadly corpses.

"Time Marsh!"

Bubble shot, the power of time and space covered all the dead Yin corpses, limiting the speed of the dead Yin corpses.

Ling Yuwei bent her bow and took an arrow, burst out with all her strength, and shot a series of amazing arrows.

The Bone Demon, Tang Jun, Wanshen, Xie Nianqing, Qiuyue, Qiuqiu and others also rushed out and played weapons made of blue flame stone.

Lu Ming didn't move, staring at the silver-eyed corpse.

Ordinary Absolute Yin Corpses, although their combat power is also very strong, there are many Absolute Yin Corpses comparable to the strongest Heavenly Monarch level, but the Bone Demon and others can cope with the Blue Flame Stone.

"kill!"

The silver-eyed corpse stared at Lu Ming, and roared, like a black lightning, and killed Lu Ming. The claws grabbed it, and unexpectedly condensed a big bird, and pounced on Lu Ming.

"This is... some kind of attack!"

Lu Ming was shocked.

This silver-eyed corpse was really amazing. Not only was it extremely savvy, it could speak, and it could also perform attacks.

The Absolute Yin corpses Lu Ming and the others had encountered before would only blindly wave their claws to attack.

The comparison between the two is simply a world of difference.

The battle power of Zhanzi Jue broke out nine times, and the power of taboo was running, and it poured into the God of War Spear. The God of War Spear burst out with a brilliant light, a shot that directly pierced the big bird shot by the silver eye, and the spear light continued. Pierced the palm of the silver-eyed corpse.

The silver-eyed corpse retreats sharply, and the black energy on its body is filled, and it confronts the blue flame on the palm, slowly extinguishing the blue flame.

"It's so dark."

Lu Ming discovered that the black energy pervading the silver-eyed corpse was rich and frightening, and it was stronger than the silver-eyed corpse he had encountered before.

At the same time, Lu Ming also noticed that the black energy on the other Absolute Yin Corpses was also stronger than the Absolute Yin Corpses he had encountered before. In other words, these Absolute Yin Corpses were even more difficult to entangle.

"The Jue Yin corpse here is generally stronger, perhaps because of the environment here."

Lu Ming thought.

On this island, the cold breath is more intense.

In addition, the earth in front became dark red with a cold atmosphere, which was extremely rich. These absolutely shadowy corpses lived under the dark red earth for many years, creating terrifying strength.

Fortunately, now Xie Nianqing, Qiuyue and others have refined the top-level source-level magic weapon armor, and the top-level source-level magic armor can block those absolute corpses.

The silver-eyed corpse was pierced in the palm of Lu Ming's hand, his figure retreated sharply, and then he yelled to the sky, and the voice spread far away.

Chapter 4899: Dead Yin Corpse King

The silver-eyed corpse roared, and the voice came from afar.

In the next moment, the dark red earth squirming further away, burly figures emerged from the ground.

It's a dead body again!

And this time the number is even more, reaching thousands.

At the head, there are three silver-eyed corpses.

"what happened?"

"What are you doing to wake us up?"

The few silver-eyed corpses in the back actually spoke up one after another.

"If outsiders come here, they will definitely hinder our plan. They must be driven away."

At the beginning, the silver-eyed corpse said.

"Outsiders? It's the most critical time, how can you allow outsiders to intervene and kill!"

Behind a certain silver-eyed corpse roared, and took the lead to kill the bone demons and them.

The other two silver-eyed corpses also started to move at an electric speed, and then the thousands of corpses roared like thunder and rushed towards Lu Ming and the others.

Lu Ming's eyes narrowed slightly, and he stepped out to appear beside Xie Nianqing and others.

"You have all entered the prehistoric precepts, and let me deal with them here."

Lu Ming said.

They can actually set up a combined attack formation method, but the combined attack formation method consumes divine power, and now there are five cultivation bases of Dandan, Paobao, Ten Thousand Gods, Tang Jun, and Ling Yuwei, which are only the eighth level of the gods. It's not as good as one person, it is better to enter the prey, it is more convenient for Lu Ming to move alone.

Although they all have top-level source-level war armors, they are not in the origin realm after all, and it is difficult to exert the power of top-level source-level war armors. It is almost the same as resisting ordinary corpses, but facing the silver-eyed corpses, Still very dangerous

The attack of the silver-eyed corpse fell on the battle armor, and the shock force formed was enough to hurt them.

Xie Nianqing, Qiuyue and others also understood this truth, so they didn't say much, they all entered the prey.

Only one bone demon was still outside.

The bone demon's defense is amazing, and its own combat power is enough to block a silver-eyed corpse, stay outside, and have enough power to protect itself.

Xie Nianqing and others have all entered the prey, Lu Ming can let go of the battle with his hands and feet without scruples.

He performed the sky-breaking style, stabbed four spear lights in succession, flew in different directions, and stabbed the four silver-eyed corpses.

boom! boom! boom! boom!

Four consecutive stunned roars, four silver-eyed corpses retreated violently.

However, these four silver-eyed corpses were really very powerful. Although they were repelled by Lu Ming, they were not hurt at all. They roared and rushed towards Lu Ming again.

At the same time, the other Jue Yin corpses also rushed towards Lu Ming, dense energy, surging towards Lu Ming, trying to drown Lu Ming.

"Your opponent is me!"

The Bone Demon waved the Zijin Zhanyue and killed a silver-eyed corpse, blocking the silver-eyed corpse.

Huh!

Lu Ming waved the God of War spear, and the spear of man and spear merged into one, turning into a bright spear light, shattering the void, and rushing forward.

The spear light pierced into a large pile of dead-yin corpses.

This was Lu Ming's full blow. How could an ordinary dead-yin corpse stop Lu Ming's full blow?

Not even the kind of Absolute Yin Corpse whose combat power is comparable to the strongest Heavenly Monarch.

Bang bang bang...

Wherever the spear light passed, the corpses exploded and were completely destroyed by the destructive power on the spear light.

bump!

In the end, the spear light collided with the corpse of Jue Yin, and knocked the corpse of Jue Yin away.

Lu Ming kept his body in shape, and continued to kill the Jue Yin corpse.

To kill, just stare at one kill. As for the attacks of other Jue Yin corpses, and even Silver Eyed corpses, Lu Ming didn't bother to care about it.

Anyway, he has a top-level source-level war armor, the attack of the silver-eyed corpse, he can still block it.

"Previous style, earth-breaking style..."

Lu Ming's full combat power, two ultimate moves, used in series, launched a storm-like offensive against this silver-eyed corpse.

With just a few tricks, half of the body of this silver-eyed corpse was blasted by Lu Ming. Although he wanted to repair it, Lu Ming's power was too strong, and the silver-eyed corpse could not be repaired at all.

Keng! Keng!

The attacks of the other two silver-eyed corpses fell on Lu Ming, and they were all blocked by the source-level magic weapon's armor. Even if the impact force hits Lu Ming through the armor, it is still within Lu Ming's bearing range. .

After all, Lu Ming's current cultivation base has reached the ninth level of the Divine Master, his overall strength has greatly increased, and his defense has increased many times.

Lu Ming ignored the attacks of the other Absolute Yin corpses and attacked the heavily damaged silver-eyed corpse with all his strength.

boom!

With a palm shot, a continent was formed, suppressing the opponent.

The silver-eyed corpse resisted with all its strength, but under the heavy damage, its strength was limited. The body was torn apart by the shock, the black energy continued to dissipate, the breath was wilted, and it was about to fall frequently.

"kill!"

Lu Ming yelled and continued to perform the Heaven-Breaking Manner, the man and the spear were combined, and the God of War spear pierced the eyebrows of this silver-eyed corpse.

There is a blue flame stone on the God of War Spear, so the damage to the silver-eyed corpse is even greater. With this move, Lu Ming intends to completely kill the silver-eyed corpse.

Roar!

At this moment, there was a roar from the depths of the dark red earth.

This roar was extremely terrifying, and the entire sky trembled, and a thick and incomparable black air erupted from that direction, like a tide, rushing here.

"The corpse king, save me!"

The dead silver-eyed corpse yelled for help.

Rumble!

The sound of space bursting came, and Lu Ming glanced around, and found a burly figure deep in the dark red earth, rushing towards it at an astonishing speed.

Lu Ming's face was solemn, but he didn't stop making shots.

puff!

The God of War Spear accurately pierced the silver-eyed corpse's eyebrows and pierced its head. The blue flame was mixed with destructive power, and the silver-eyed corpse was completely wiped out.

"court death!"

Seeing the silver-eyed corpse being killed, the burly figure rushing out from the depths of the dark red earth let out an angry roar.

He was holding a black halberd. The halberd looked tattered, but it contained an extremely cold and black air.

The halberd force burst out, increased sharply, and split towards the top of Lu Ming's head.

Lu Ming brandished the God of War spear to respond.

With a sudden sound, the God of War spear vibrated violently, and Lu Ming felt an extremely powerful force rushing towards him along the God of War spear. His figure couldn't help but back again.

However, the burly figure was similar, the forward rushing trend was blocked, and the figure drifted backward.

"It's another dead-yin corpse, but the eyeballs are golden. Is this the golden-eyed corpse that the sky said?"

Lu Ming's heart moved.

The sky had previously said that on top of the silver-eyed corpse, there was another kind of golden-eyed corpse, known as the king of the absolute corpse.

This level of dead-yin corpse is extremely difficult to form, and only the creatures who were masters of the world before they were alive can form golden-eyed corpses.

In the last epoch, when corpses broke out in the Primordial Continent, the number of Golden Eyed corpses was much rarer than that of Absolute Shadow corpses in the Origin Realm.

Chapter 4900: More than one place

Lu Ming had always suspected that there were Absolute Yin corpses in the Origin Realm in Zixiao Cave, but it was because of the Great Tribulation of the Origin Realm, the Absolute Yin Corpses in the Origin Realm were all asleep.

"Outsiders, dare to kill my men, die!"

The golden eyed corpse roared, and cold murderous intent flashed in the golden pupils.

The black aura surging in his body was several times stronger than that of the silver-eyed corpse, the aura was thick and terrifying.

He held the pitch-black tattered halberd, and when he stepped on it, like a stream of light, he called and killed him.

"Try the golden eye shadow corpse, just how powerful it is."

Lu Ming rushed up with the God of War spear in his hand and fought with the Golden Eye Yin Corpse.

The speed of the two was very fast, and in a blink of an eye, they fought a dozen moves, and the other deadly corpses were completely unable to intervene.

The other silver-eyed corpses simply went to besiege the Bone Demon, which made the Bone Demon quite depressed, and could only flee while fighting. Fortunately, with his unpredictable body, he was unharmed.

"What a strong combat power, the combat power of this golden-eyed corpse is not weaker than me, and it is extremely difficult..."

Lu Ming turned his thoughts in his heart, his face solemn.

The combat power of the golden eyed corpse is very amazing. Lu Ming has already used all his methods, and he can use it in a series of primitive and broken styles, but it can't help this golden eyed corpse.

Moreover, the defensive power and vitality of the golden-eyed corpse were also strong metamorphosis, and Lu Ming discovered that the blue flame stone had a smaller effect on the golden-eyed corpse.

Although it cannot be said to be negligible, it can't play a decisive role.

Soon, after a few more battles, Lu Ming's figure suddenly retreated, and a few flashes, he appeared beside the bone demon, urging the prehistoric ring and let the bone demon enter into the prehistoric ring, while Lu Ming flew quickly towards the distance. .

It wasn't that he was afraid of the golden-eyed corpse, but Lu Ming felt that there was no need to continue the battle, and there was nothing to do with the golden-eyed corpse. Instead of wasting his strength, it was better to take the best strategy.

"chase!"

The Golden Eyed Yin Corpse roared and led an army of Absolute Yin Corpses to chase Lu Ming.

However, Jueyin Corpse is not good at speed. Even the Golden Eyed Corpse is not as fast as Lu Ming. After chasing for a while, he lost Lu Ming's trace.

"Damn it, the order continues. Once you see an outsider, you will kill you without mercy!"

The golden-eyed corpse roared angrily, and finally returned helplessly to the dark red earth, and disappeared without being seen.

After shaking off for a while, Lu Ming stopped, and released Xie Nianqing and others from the prey ring again, and then talked about the golden eye corpse.

"It seems that the Jueyin Corpse on this island is extremely intelligent. The Jueyin Corpse has formed a complete power and is extremely difficult to deal with."

Xie Nianqing sighed.

In other places, the Absolute Yin corpses they encountered were almost scattered in the sand. Although the Silver Eyed Yin corpse could also order low-level Absolute Yin corpses, it was definitely not so neatly planned.

The others also nodded. The dead-yin corpses on this island are gathered together like a tribe. It is indeed difficult to deal with the overall deployment.

However, this island has a large area, so I will avoid it in the future.

After discussing for a while, they decided to avoid the dark red land and continue to explore other parts of the island.

Keep going...

After half a day, they made another amazing discovery, because they found a dark red land on the other side of the island.

The dark red earth exudes almost the same breath as the one they had met before.

Lu Ming and the others had just stepped into this vast underground, and unexpectedly corpses rushed out.

This time, Lu Ming and the others learned to be smart, and they retreated straight away, there was no need to entangle them too much with these Absolute Yin corpses.

But in their hearts, they were still shocked.

This island, the dark red earth, actually has more than one place, and under each place, there are actually corpses inhabited.

They speculated that this dark red earth should have been soaked in the blood of some terrifying creature, creating a terrifying and fierce land, but it was suitable for dwelling and cultivating deadly corpses.

In the end, Lu Ming and the others traveled around the entire island, and found three dark red land, all with deadly corpses.

Outside of these three dark red lands, there were no abnormalities in the rest of the island, no creatures, and of course no magical medicine.

"Let's find a place to settle down and wait slowly. It won't take a few years anyway."

Lu Ming said.

They have no plans to leave, and the huge cracks will extend here in a few years at most.

Not to mention that in that ancient city, the resources contained in the nine energy veins are unimaginable.

You know, they have obtained more than 10 billion primordial crystals in the previous energy vein, and there are also a large number of main-level magical medicine, source-level magical medicine, and even top-level source-level magical medicine.

And there is a fairy crystal in it, the value is simply incalculable.

And such a huge energy vein, there are a total of nine here, such a chance, how can you miss it?

"I know a place, right on the edge of a vitality, where we settled down. In the past few years, we have just been able to practice cultivation."

Dan Dan said.

Naturally, everyone would not have any opinions, and immediately set off and came to a hill.

This hill is adjacent to an air vein. If that air vein splits and there are treasures flying out, they can easily collect it.

After coming here, Dan Dan began to arrange the formation.

The main thing is to hide the formations, but they can be hidden. Even if people from other forces come, or the corpse of the dead, they will not be found.

"You stay here first. I have found precious metal deposits in many places on this island. Don't miss it. I'll go get some."

Ball fairway.

The cultivation base of the ball has reached the peak of the gods, and his cultivation mainly relies on swallowing high-level gods or metal materials. It is of no use to him to practice hard here.

"Go, remember to be careful, and try to avoid people from other forces."

Lu Ming said.

"Don't worry, I won't face them head-on, let's go!"

After speaking, the ball flashed and left here.

It took Dan Dan a day to set up a large hidden formation, and then Lu Ming took out the huge prehistoric crystal vein.

They started to dig down the prehistoric crystals on this vein.

Finally, after calculating, the number of primordial crystals in this vein reached 10.1 billion.

There are also hundreds of fairy crystals.

Each piece of fairy crystal contains the imprint of origin, which is an important resource for the cultivation of strong origin realm.

Then, everyone else also took out the prehistoric crystals, the main magical medicine, etc. they had previously obtained.

Putting them together, if converted into a Honghuangjing, there are ten billions.

"These resources should be enough for the five of you to cultivate to the Ninth Level of Divine Master."

Lu Ming glanced over Ling Yuwei, Dandan, Paobao, Wanshen and Tang Jun.
