

D Emperor 4901

Chapter 4901: Re-enter the universe

At present, only Ling Yuwei, Dan Dan, Bao Bao, Wan Shen and Tang Jun are still in the eighth level of the gods, and cultivation requires a lot of resources.

Lu Ming had already reached the Ninth Level of the Divine Lord, and the next step was to break through the peak of the Divine Lord, and he could no longer use resources such as the Primordial Crystal and the Master Grade Magic Medicine.

Ling Yuwei, Dan Dan, Paobao, Wanshen and Tang Jun are all invaluable arrogances. The power they control is not trivial, and the resources required for cultivation are amazing.

It is estimated that each person needs two or three billion primordial crystals, but they have 10 billion primordial crystals, which is almost the same.

A large number of master-level magical medicines and prehistoric crystals piled up into a big mountain.

The five people surrounded the 'big mountain', each grabbing the prehistoric crystals and began to refine them.

Lu Ming, Bone Demon, Qiu Yue, and Xie Nianqing sat cross-legged on the periphery, protecting Dan Dan and the others while comprehending their own secret techniques.

Lu Ming sat cross-legged, using the power of taboo, glowing all over, filled with light spots, like stars in the sky.

A yellow mud road emerged, leading to the depths of Dantian.

"My cultivation level has reached the ninth level of the Divine Master, and the Cosmos Bridge should have reached the Universe Sea. Go and see!"

Lu Ming's heart moved.

After he broke through to the Ninth Layer of the Divine Lord, he didn't even practice and comprehend.

On the Huangni Road, Lu Ming's spiritual consciousness gathered here, and then stepped forward.

After that pool of blood stains, the blood stains were bright red and glowing, as if they had just been spilled on it.

Lu Ming couldn't understand the origin of this pool of blood stains, so he could only ignore it and keep on walking.

This is Lu Ming's cosmic bridge, so his speed is controlled by him, stepping out in one step, he enters the depths of the cosmic bridge, and after two more steps, he comes to the end of the Huangni Road.

Ahead is an endless ocean.

This ocean was filled with endless rays of sunlight, and he stepped out into this piece of sunlight in one step.

Among the rays of light, there are endless stars, galaxies, star fields, etc.

And he, becoming extremely huge, with one hand extended, he can cover a star field.

Between these starfields, there is some glowing light, which is the origin.

This kind of origin is very clear. Lu Ming stretched out his palm to grasp these origins, and he could clearly feel the touch.

"The universe, yes, it is really the universe!"

Lu Ming's eyes were bright.

This is not the first time he has come to the Universe Sea. At the beginning of the battle for the origin of the immortal city, he won the first place, and he has been to the Universe Sea once.

That time, he condensed the original seed.

Now it is the second time.

The difference is that the last time I used the power of the Supreme Immortal City, this time I completely relied on myself and came to the Universe Sea through the Huangni Road.

"I have also heard other **** master Kunou said that when they arrived in the universe, their perception of the origin is very vague. Why am I so clear? It is clearer than when I came to the scene from Tai Shang."

Lu Ming was a little confused.

The last time he went from Taishang Xiancheng to Universe Sea, because he was the first, his perception of the origin was relatively clear. He had inquired about it, and other people were far less clear than him.

Therefore, the original seed he condensed is also bigger than other people.

But now he came to the universe through the cosmic bridge, and his perception of the origin was clearer than last time.

Under such conditions, as long as he understands the power of the source, the speed will definitely be very fast.

"Is it related to my taboo power?"

Lu Ming had to think so.

The power of taboo is not trivial, and his power of taboo has undergone a qualitative change, and it is even more extraordinary. If it is related to the power of taboo, it will pass.

"In the distance...it seems to be the ruins of the universe..."

After that, Lu Ming looked into the distance.

The distance was shrouded in a dense glow, and Lu Ming couldn't see clearly the last time he came in.

But this time, Lu Ming could see a little more clearly. In those rays of light, there seemed to be continents, like the ruins of the universe.

The universe sea seems to be a projection of the wild universe.

Of course, there seems to be a wider area on the other end of the universe ruins, but Lu Ming can't see clearly anymore.

Withdraw his gaze and land on the yellow mud road again.

"The Huangni Road did not stop there, but continued to extend forward. Where does this lead?"

Lu Ming muttered, a little surprised.

He has heard others say that the cosmic bridge extends into the cosmic sea, it ends, it is interrupted, and it will not continue to extend.

The main function of the cosmic bridge is to allow the spiritual consciousness, or consciousness, of the practitioner to come to the universe and to understand the power of the source.

Therefore, the purpose of extending the universe bridge to the universe sea is achieved, but it has not been heard that the universe bridge will continue to extend after it extends to the universe sea.

"Go and see!"

Lu Ming stepped forward, each step out, as if he was walking across a star field, one after another star field leaping under his feet.

Soon, Lu Ming walked along the universe bridge and stepped into the ruins of the universe.

Here, countless mainland fragments are floating, and these mainland fragments seem to be composed of rays of light. Lu Ming stretches out his palm and can cover countless mainland fragments.

Huangni Road continues to extend forward.

Lu Ming continued to step forward, and after a while, he came to the edge of the ruins of the universe.

The edge of the ruins of the universe was shrouded by a dense glow. This glow was like a barrier. Lu Ming could vaguely see what seemed to be behind the glow, but no matter how hard he tried, it was still difficult to see clearly.

Huangni Road, without interruption, passed through the dense sunlight, and went straight forward, seemingly endless.

"Come and see!"

Lu Ming decided.

He was very curious, if the universe sea is the projection of the wild universe, then here is the edge of the wild universe, what will it be when it crosses the edge?

Step out and prepare to walk along Huangni Road.

But no, it was blocked.

Lu Ming was blocked by the strong glow.

This kind of glow really acts like a barrier, blocking Lu Ming from outside.

No matter how hard Lu Ming tried, he couldn't pass through.

"Why is it like this? Huangni Road clearly passed through, why can't I pass through?"

Lu Ming was full of doubts.

After Lu Ming tried several times, they all ended in failure, and Lu Ming finally gave up.

"Is it a taboo body? It will be like this. I will ask Senior Gu Changfeng later."

Lu Ming thought, did not continue, and then walked out cross-legged on the Huangni Road, feeling the clear origin around him wholeheartedly.

"If you want to break through the peak of the god, you must make the original power in the original seed reach a certain concentration, but what I want to do now is to transform the original power in the original seed into the original power of my own characteristics. "

Everyone's original strength is different, and each has its own unique characteristics.

It's based on the power that you control, and it's a gathering of personal energy.

Chapter 4902: Transform the origin

For example, when Lu Ming condenses the power of the origin, he must base on the power of taboo, plus incorporate his spirit.

Therefore, everyone's original power is different. Even if the power of control is the same, after the original power is condensed, the original power will be different.

Before Lu Ming, although the power of the origin had long been condensed, the power of the origin was a mass attribute and did not have personal characteristics. Before breaking through the peak of the gods, he must transform it.

However, it is not so easy to transform successfully. Lu Ming must have a deep understanding of the origin.

Therefore, Lu Ming's temporary cultivation is based on comprehension.

Meditation, time flies.

In the blink of an eye, it was more than half a year.

In half a year, Lu Ming's insight into the origin reached a new level.

"Convert!"

With a movement in the heart, naturally, and just as a matter of course, the original power in the original seeds in Lu Ming's body quickly transformed, and soon, the original power in the original source was completely transformed successfully, and it was transformed into the essence of Lu Ming's own characteristics. The power of origin.

"Unexpectedly, it succeeded in half a year."

Lu Ming opened his eyes and felt the power of the source in his body, revealing joy.

This speed is much faster than he imagined.

He knew that the main reason was the reason why he felt the origin very clearly in the universe.

If not, the speed of transformation is definitely not so fast.

After the first step is successful, the next step is to continue to comprehend and slowly increase the power of the source. Once the power of the source reaches a certain concentration, it will naturally break through to the peak of the gods.

This process cannot be accomplished overnight, it needs to be accumulated slowly.

However, Lu Ming has a clear sense of the origin in the universe, and believes that this time will be greatly shortened, at least it will save a lot of time than others.

Lu Ming glanced at the others and found that Ling Yuwei, Paobao, Wanshen and Tang Jun were still refining the prehistoric crystals and had not broken through.

It is normal that there is no breakthrough, even if there is a great heaven refining element array arranged by Dandan, it is impossible to refine so many prehistoric crystals so quickly.

The required time is at least one year.

The Bone Demon is also cultivating, it should be studying the source art.

Although the Bone Demon can now use the source technique, as the deeper the understanding, the more handy and powerful it will be when it is used.

Xie Nianqing and Qiuyue didn't know what they were comprehending, but they were nothing more than Origin Art and Origin Power.

"carry on!"

Lu Ming closed his eyes, his spiritual consciousness condensed on the Huangni Road, along the Huangni Road, re-entered the universe, and continued to comprehend the power of the source.

Time is hurried, another year and a half.

Lu Ming and the others have been practicing here for two years.

Lu Ming's progress is not small, the original power in the original seed is much stronger than before, nearly doubled.

Of course, it is still far away from the peak of God Lord.

But it can also increase Lu Ming's combat power a bit.

Not to mention anything else, the stronger source of power, all poured into the God of War Spear, will surely inspire more power of the God of War Spear.

After two years of cultivation, the cultivation bases of Ling Yuwei, Paobao, Wanshen and Tang Jun all entered the Ninth Layer of Divine Lord.

As a result, Lu Ming's group of ten people, except for the bone demon and the ball, the cultivation bases of the others are all in the Ninth Divine Master, and their overall strength has greatly increased.

Moreover, once they set up a combined attack, the power of the combined attack will definitely increase greatly.

It can be said that this trip to the Zixiao Cave, their gains are very great.

Rumble!

Suddenly there was a tremor on the ground, a violent roar from deep underground, the sea rolled in the distance, and huge waves surpassed the sky.

Lu Ming and the others, their faces were calm, not surprising.

Because after two years, those huge cracks have already extended to this island. Over the past month, this island has often erupted with roar.

It was only a matter of time before the air veins under the island were torn apart.

Not only that, more than a year ago, Lu Ming discovered that there were already forbidden creatures coming to this island.

Because there are often forbidden creatures flying over their heads.

However, there is a hidden formation arranged by Dan Dan here, and the forbidden creatures cannot find Lu Ming and the others.

Yuanguang, Yinsha, Cangming, and Lu Ming have all seen it.

Huh!

Suddenly, above Lu Ming and their heads, a few more figures flew past, at an astonishing speed, flying in one direction quickly, seeming to be anxious.

It is a member of the Yin Sha clan.

"The Yin Sha clan people seem to have something important, you stay here, I will go and see."

Lu Ming left a sentence, and his figure flickered before leaving the place, following a few Yin Sha clan far away.

These Yin Sha clan are all masters, all of them are the existence of the peak of the gods, but they did not find Lu Ming.

After flying for a while.

Boom boom boom!

Lu Ming heard a violent roar in front of him, and Ben's roar sounded, and the cold breath swept all directions like a wave.

"Above is a place where Absolute Yin Corpse dwells. Could it be that Yin Sha clan and Absolute Yin Corpse are fighting?"

Lu Ming's heart moved.

This is nothing unusual. Those Absolute Yin corpses seem to be very hostile to outsiders. It is normal to drive out the outsiders to extinction, and break out a war with the Yin Sha clan.

The Yin Sha clan quickly rushed forward, and Lu Ming flew in, finally seeing the situation ahead clearly.

On the edge of a dark red earth, Jue Yin Corpse and Yin Sha clan were fighting fiercely.

There are more than a thousand dead corpses.

However, the number of Yin Sha clan is more, there are nearly two thousand.

In addition, the Yin Sha clan controlled the Blue Flame Stone, and Lu Ming discovered that the Yin Sha clan, like the Yuanguang Clan, seemed to have a certain method that could restrain Absolute Yin Corpse and easily penetrate the black energy of Absolute Yin Corpse's body.

"That is..."

Lu Ming's gaze looked up to the sky. There was a big battle there, which attracted Lu Ming's gaze.

The two figures fought fiercely at high altitude, full of energy, and the scene was extremely terrifying.

One of them was a tall corpse of Absolute Yin, wearing a dark and tattered armor, with golden eyes and a terrifying breath.

Absolutely Yin Corpse King, Golden Eye Yin Corpse.

This golden-eyed corpse was not the one that confronted Lu Ming last time, because it was another dark red land.

Obviously, in this dark red land, there are also golden-eyed corpses sitting on the ground.

And the one who confronted the Golden Eyed corpse was an evil evil clan, who looked very young and in his twenties, but his combat power was extremely terrifying, and the battle with the Golden Eyed corpse was indissoluble.

"In the Yin Sha clan, there is such a strong person. Could it be that he entered the Zixiao Cavern from behind?"

Lu Ming thought.

He had known for a long time that the main goal of Yuanguang Clan, Yin Sha Clan, Cangming Clan coming to Zixiao Cave Sky was to obtain resources.

Such as all kinds of magic medicine, there are fairy crystals and stones.

When they get the resources, they will send them out.

Chapter 4903: More powerhouses are coming

Once the four forbidden land creatures have enough resources, they will send people out to awaken more forbidden land creatures.

In the past few years, the creatures in the forbidden area have been in the Zixiao Cave. I don't know how many resources have been transported out, and how many creatures in the forbidden area have awakened.

Most of the awakened creatures in the forbidden area will also enter the Zixiao Cave Sky to obtain more resources, and then transport them out to form a virtuous circle.

Therefore, in the past few years, among the three forbidden creatures, I don't know how many strong people have entered the Zixiao Cave.

It is not surprising that there is an existence comparable to the level of the golden eye shadow corpse.

For example, this terrifying powerhouse of the Yin Sha clan has never seen him before, maybe he has come in from the beginning, or he is a new powerhouse.

In short, after two years, the situation of Zixiao Cave Sky has become more and more complicated.

Even if Lu Ming's current combat power is not what it used to be, he dare not take it lightly.

"The miscellaneous blood of the Jue Yin clan is just a **** to put it bluntly, and I want to kill my clan and I can't help myself."

The terrifying powerhouse of the Yin Sha clan spoke indifferently, with a cold and arrogant voice in his voice, facing the Absolute Yin Corpse, as if the upper one looked down on the lower one.

"The Absolute Yin? What kind of race is this?"

Lu Ming showed doubts.

This is the first time I have heard the term Jue Yin Clan.

"dead!"

The golden-eyed corpse, the golden pupils, showed the color of anger, holding a tattered bronze war sword, he shot frantically and launched a terrible attack.

This kind of combat power is really amazing, even if it is faced by a master of the king's emissary level, it will be severely damaged without a few moves.

However, the master of the Yin Sha clan is also extremely powerful, and it is inextricably separated from the Golden Eye Yin Corpse.

Below, there were as many as six silver-eyed corpses in Jue Yin Corpse, but they were all blocked by the masters of the Yin Sha clan.

Generally speaking, the Yin Sha clan had the upper hand, and Jue Yin corpses were killed from time to time.

Roar!

Suddenly, the golden-eyed corpse uttered a terrifying roar, and the voice passed through the golden cracked cloud and spread far away.

Boom!

Suddenly, this land jumped abruptly, and there was a roar from the depths of the dark red earth at the same time.

The roaring sound was accompanied by the meaning of anger, and a terrifying cold breath rushed towards here frantically.

"Another golden-eyed corpse..."

Lu Ming's pupils shrank suddenly, revealing a look of shock.

There were more than one golden-eyed corpse in this dark red land.

At this time, the dark red earth rushed from the depths, and it was clearly another golden-eyed corpse.

"Miscellaneous blood, how could such a high-level Absolute Yin Clan be formed, **** it, give me back!"

The terrifying strong man of the Yin Sha clan roared.

Following his order, the other members of the Yin Sha clan retreated violently, but although they retreated, they were methodical and did not leave a flaw for Jue Yin Corpse.

At the same time, the terrifying powerhouse of the Yin Sha clan also retreated while fighting.

Roar!

Deep in the dark red earth, the second golden-eyed corpse was extremely fast, and in a blink of an eye, it came close.

"Set up the formation and block him!"

The terrifying powerhouse of the Yin Sha clan ordered.

Below, a joint attack formation method was arranged.

This is actually a 21-person combined attack formation, condensing a huge Yin Sha ghost king, which is much more terrifying than a 15-person formation.

The evil ghost king soared into the sky, and the second golden eyed corpse attacked, and both sides retreated at the same time.

The Yin Sha clan retreated while fighting, the Yin Sha clan was extremely fast, and the body was like a ghost, and the dead Yin corpse could not catch up.

After a while, the Yin Sha clan people calmly evacuated.

Lu Ming also left in secret, without disturbing others.

He returned to the concealed formation and said what he had just seen.

Xie Nianqing, Qiuyue and others fell into deep thought after hearing this.

The situation is getting more and more complicated, and there are too many masters.

In the first few years of the Great Tribulation of the Origin, the existence of the strongest Heavenly Sovereign level almost represented the strongest divine lord, and the existence of this level of other forces was called the strongest divine lord.

As soon as the strongest heavenly monarch came out, other gods could only evade, no match at all.

But with the birth of the forbidden land creatures, masters emerged one after another, and the strongest Heavenly Monarch no longer seemed so strong.

The emperor before the light is a lot stronger than the strongest heavenly monarch.

Now, existences stronger than the king's emissary before the light are constantly emerging.

The golden-eyed shadow corpse among the deadly yin corpses, ye immortal, the terrifying powerhouse among the creatures of the forbidden land, and those combined attack formations...

The situation is too complicated. Even now Lu Ming and the others are getting stronger and stronger, they dare not take the slightest care.

"There are so many living creatures in the forbidden area, and they will definitely rush away with Jue Yin Corpse. We can stay here and sit on the mountain and watch the tigers fight."

Bone Demon Road.

Everyone nodded and continued to practice in the hidden formation.

Soon after, the ball returned.

Over the past two years, Qiuqiu has been digging metal mines on the island, and has not returned until now.

The ball brought back a piece of news, the three forbidden creatures, and indeed, many terrifying powerhouses came. During this period, more than one conflict broke out with Jueyin Corpse. The masters dispatched by both sides were amazingly strong and had golden eyes. A battle of existence at the corpse level.

In addition, the three forbidden creatures have begun to carve up nine vitality veins.

Begin to send people to guard each qi vein and wait for the treasure in the qi vein to fly out.

Sure enough, just two days after Qiuqiu came back, a large number of strong men arrived in this area.

Yin Sha clan!

They belonged to the Yin Sha clan, there were about two thousand people, and the landing area was less than ten thousand miles away from Lu Ming and the others.

It's on the other side of this vein.

The distance of tens of thousands of miles is really close to the existence of the Divine Master Realm.

Lu Ming and the others could easily see each other.

However, they have hidden formations, and the Yin Sha clan cannot see them.

"Damn it, it's clear to grab resources from us, right?"

Dao unhappy.

Although they have now broken through to the Ninth Layer of the Divine Lord, Hong Huangjing has little effect on him.

However, no one would think that the prehistoric crystals were few, and they would bring back the Celestial Destruction Army, which could be used by their relatives and friends, and could also be exchanged for other precious treasures.

What's more, there are precious immortal crystals and source-level magical medicine in the energy veins.

Now that so many Yin Sha tribes have come here, it is too obstructive.

In this way, several months passed.

There were more and more cracks extending from all around, and the roar from deep underground became stronger and stronger.

Huhuhu...

Suddenly, from the energy veins, bursts of purple golden divine light from the cave sky, forming a pillar of light, straight through the sky, rushing into the sky.

However, the concentration of Dongtian Divine Light was not as strong as everyone imagined.

Far inferior to the previous vitality.

"It seems that these qi veins are because the formation of the ancient city continuously extracts the divine light of the cave sky, causing the divine light of the cave sky in these qi veins to be not very rich."

Dan Dan analyzed.

"In that, it probably won't condense that kind of giant beast?"

Bubble Road.

"This...I'm not so sure."

Dandan hesitated.

Chapter 4904: Grab food

If the divine light of the cave sky in the energy veins is really not very rich, after a while, they can enter it and seize the treasures with the armor made of Dandan and Bubbles.

However, they couldn't figure out whether there was such a giant beast that condensed by the divine light in the energy vein.

In the previous one, two giant beasts were condensed inside.

And each of the nine vitality veins here is not smaller than that one. Will there be giant beasts inside?

If under normal circumstances, most of it can be condensed, but because of the formation of that ancient city, it is constantly absorbing the divine light of the cave in the Qi vein, so it is not clear.

Huh hoo...

Along with the divine light of the cave sky, there are a large number of prehistoric crystals.

It can be seen that the Honghuangjing is like a little bit of stars, rushing out with the divine light of the cave and flying in all directions.

Those of the evil evil clan moved their hands, a gust of evil evil aura swept out, swept away all the prehistoric crystals one by one.

You can even see that a piece of fairy crystal is occasionally mixed in.

Honghuangjing was called immortal stone in the last epoch, and immortal crystal is more precious and contains the imprint of origin.

"Damn it, staying here for so long is in vain."

My teeth are itchy.

Lu Ming and others are also a great pity.

Immortal crystal is not immortal stone, immortal stone is of little use to them, but immortal crystal, as long as he reaches the original state, it will be of great use.

With their talents, it is a sure thing to break through the original realm in the future, so it is very necessary to store the fairy crystals in advance.

When they saw that the fairy crystal fell into the hands of the Yin Sha clan, they naturally envy and hate it.

But they are too close, as long as they collect the Immortal Crystal Immortal Stone, they will be discovered by the Yin Sha clan immediately.

The number of Yin Sha clan is about two thousand, and they are definitely masters.

There was a young Yin Sha clan, Lu Ming knew, it was the one who had fought with the Golden Eye Yin Corpse before.

This one alone can confront Lu Ming.

Not to mention there are so many masters comparable to the Emperor Guangqian.

The combined attack formations in it were also extremely terrifying. Once Lu Ming and the others were discovered, they were definitely not opponents.

"I'm here to collect secretly with the power of time and space, they should not be able to find out."

Bubble Road.

"Yes, the power of time and space affects time and space, silently, okay, quick action."

Dandan anxiously said.

After another period of time, there was another violent vibration in the depths of the energy veins, and another burst of divine light burst out, accompanied by a large number of fairy crystals and stones.

This time, Bubble shot.

He pressed his hands out, two ancient Chinese characters appeared on the center of his eyebrows, and a silent wave of fluctuations spread out.

The void and time and space in the distance were all affected.

Many immortal crystals and immortal stones that were flying around suddenly disappeared out of thin air. The next moment, they appeared in the hidden formation where Lu Ming and the others were.

Bubbles use the power of space to intercept the fairy crystals, and then use the power of time to erase all fluctuations, silently and without causing any fluctuations.

At the same time, those of the Yin Sha clan also took action, and the Yin Sha Qi swept away, sweeping away the fairy crystals and stones.

However, they immediately discovered something was wrong.

"Hey, it's weird, how come the number is much less than what you see."

"I think so. I obviously saw a lot of fairy crystals flying out, but when I took it back, I didn't seem to see much."

"Is it my dizziness?"

"It's impossible that everyone is dazzled, right?"

Many people from the Yin Sha clan were discussing, and were uncertain.

The young man of the Yin Sha clan was equally astonished. He glanced around, but found nothing unusual.

"Bubbles, collect a little less next time, lest the difference is too big and they will see the clues."

Lu Ming said to Bubble.

"okay!"

Bubble nodded.

Sure enough, the next time a fairy crystal fairy stone rushed out, the bubble collection rate was a little smaller, leaving a little more for the Yin Sha clan.

After all, isn't it?

It is not easy to **** food from the mouth of the Yin Sha clan.

This time, the people of the Yin Sha clan also found that what they saw was different from what they received, but the difference was not that much, and they didn't find any clues.

Only the terrifying young man headed by the Yin Sha clan was still puzzled.

"No, this time, I can see clearly that many immortal stones have definitely disappeared out of thin air."

The young man of the Yin Sha clan thought in his heart, his eyes opened and closed, flickering fierce light: "It seems that someone secretly wants to grab food from a tiger's mouth. It is really looking for death. I will find you."

His body flickered like a ghost, with very slender Yin evil air, permeating out, like silk threads, penetrating into the void.

There were a large number of Yin Sha clan around him, so Lu Ming and the others did not notice this unusual behavior.

In this way, every time a fairy stone flies out, the bubble will intercept a part of it. After two months, the fairy stone intercepted by the bubble (that is, the primordial crystal, later will be replaced by the celestial crystal), as many as hundreds of millions.

Bubbles intercepted only a small part, and the Yin Sha clan gained absolutely more, at least several hundred million.

After Bubble once again intercepted a part of the Immortal Stones, a cold light suddenly burst into the eyes of the young Shay Yin tribe.

"Finally I found it. It turned out to be hiding in a hidden formation, intercepting the fairy stone with the power of time and space, but don't want to hide it from me!"

The young man of the Yin Sha clan drank coldly, his figure soaring into the sky, with the surging Yin Sha Qi, rushing towards where they were.

The distance of tens of thousands of miles, for such a strong person, will come in an instant.

"No, I was found!"

Lu Ming and others' expressions changed.

At this time, the young man of the Yin Sha clan had already been killed, a palm shot out, and a huge palm condensed out, covering the sky and sun, and slammed their heads towards Lu Ming.

This scene was too sudden. When Lu Ming and the others reacted, the violent power had already blasted, and the concealed formation arranged by Dan Dan roared violently.

This book is organized and produced by the public account. Follow VX **【Book Friends Base Camp】** , read the book and get cash red envelopes!

The concealed formation is not a defensive formation after all. Its defense is not strong, and it collapsed immediately after being suppressed by such a terrifying force.

The hidden formation collapsed, and the figures of Lu Ming and others were naturally revealed.

"It turned out to be the remnant of the ignorant universe, dare to **** food in front of me and die for me!"

The young man of the Yin Sha clan drank coldly, and the evil Yin Qi rushed out, turning into a hideous evil spirit, and pounced on Lu Ming and others.

The evil spirit opened his mouth and shouted, trying to swallow Lu Ming and others into his mouth.

The young man of the Yin Sha clan was very terrifying. He was able to fight against the Golden Eye Yin corpse. Once he shot his hand, his power was earth-shattering. The face of the Bone Demon, Xie Nianqing, Qiuyue and others changed drastically and felt tremendous pressure.

Hum!

Lu Ming shot, the God of War spear trembled, and a spear light bucked the trend and collided with the evil spirit.

Chapter 4905: King of Ghosts

When the spear light collided with the evil spirit, the evil spirit roared. It was obviously an attack from the young man of the Yin Sha tribe, but it was like a living creature.

With a final bang, the evil spirit exploded, and Lu Ming also shook his body and took two steps back.

"Ok?"

The young man of the Yin Sha clan gave a startled, and looked at Lu Ming in shock. Obviously, he did not expect that Lu Ming could actually block him.

His combat power can truly be said to be invincible for the Divine Lord, and in the Divine Lord Realm, there are only a handful of things that can block him.

Especially when he discovered that Lu Ming's cultivation base was only Divine Master Nine Layers, his heart was shaken even more.

Divine Lord Nine Layers actually had such combat power, wouldn't it be even more terrifying after reaching the peak of Divine Lord.

Then his existence, known as the invincible god, has become a joke?

kill!

Must be killed!

At this moment, the other masters of the Yin Sha clan also rushed towards this side quickly.

"Lu Ming, he is Lu Ming!"

A Yin Sha clan comparable to the Emperor Guangqian roared and recognized Lu Ming.

This person met Lu Ming in front of the Heron Ancient Mine, and was almost scared to death by Lu Ming and fled in embarrassment.

"It turns out that you are Lu Ming. That's good. I have heard your reputation when I first came to Zixiao Cave. Let's take your head to celebrate the awakening of King Ghost!"

The young man of the Yin Sha clan, King Ghost, spoke indifferently. His body seemed to be a bottomless pit, constantly rushing out of the Yin Sha Qi, and the world was completely dark, all covered by his Yin Sha Qi.

The breath of horror, like an abyss, weighed on everyone.

"You are all in the prey."

Lu Ming spoke to Xie Nianqing and the others and quietly opened the prestigious ring, an attraction that enveloped Xie Nianqing and others.

"Lu Ming, you have to be careful!"

"Master, be careful!"

.....

Xie Nianqing, Qiuyue and others were all concerned. They could feel the horror of King Ghost. Although they knew that Lu Ming was powerful, they couldn't help but worry.

At the same time, they also know that it is the best choice for them to enter the prey.

Lu Ming alone, wanting to get away is much easier than a group of people.

As soon as they flashed, they entered the prey, only Lu Ming was left.

The ghost king's gaze was cold, and he said indifferently: "Do you think it's useful to put everyone else away? Kill you and other people will die too."

The voice fell, and a black flag appeared in the hand of King Ghost.

On the black flags, there are yin and evil spirits surrounding them, and they are covered with hideous and terrifying patterns.

Obviously, this is a very high-level source-level magic weapon.

Huhuhu...

The ghost king Mendi waved the black flag, and the wind was violent, and the black air rushed into the sky. A roar came from the black flag. Then, huge evil spirits rushed out of the black flag and rushed towards Lu Ming. .

There are nine of them, and each one is very terrifying and exudes a cold breath.

Prehistoric!

Lu Ming directly played a prehistoric style, a continent was formed, and the nine evil spirits were suppressed.

At the same time, other people's spears were united, and they displayed the sky-breaking style, turning into a bright spear light, and stabbing at the ghost king.

"Do you think you can fight me in close combat?"

King Gui Sha drank coldly, his body quickly swelled, and his originally handsome face also became hideous.

His body grew several times bigger, using the black flag as an iron rod, swept out and collided with Lu Ming's spear light.

when!

A shocking roar erupted, and the energy was wanton, the ghost of the evil king's body shook, violently retreated back, and the void that was stepped on continued to explode.

However, Lu Ming's offensive was also blocked, and his figure drifted backward.

Lu Ming felt that an extremely cold aura rushed from the God of War Spear, and even a small part of it passed through the top source-level war armor and attacked Lu Ming's body, which was wiped out by Lu Ming with taboo power.

"What a terrible evil spirit!"

Lu Ming was shocked secretly.

In a head-on confrontation, the evil spirits of Yin can pass through the top source-level war armor, although it is only a small part, it is absolutely amazing.

The Yin Nine Spirits under Dark Night Qiangwei's command also control the evil Yin Qi, but compared with the Ghost Sha King, it is nothing short of a big witch, and it's too far behind.

However, the ghost king was even more shocked.

He felt that Lu Ming's power was so sharp and unbreakable, it almost defeated his heavy body-protecting Yin and evil spirits, and injured his body.

You know, except for the strong in the Origin Realm, in the Divine Master Realm, no one has injured him for many years.

At this time, the nine evil spirits also collided with the prehistoric style and disappeared one after another.

"kill!"

Lu Ming yelled, as soon as he retreated, he immediately launched a counterattack, actively killing the Ghost King, showing off the prehistoric and world-breaking styles in a series.

The speed of Ghost Sha King was also very fast, and he also shot with all his strength, this world was completely enveloped by the evil Yin Qi.

Soon, the two confronted a dozen moves.

After a dozen moves, Lu Ming began to gain the upper hand.

The evil spirit of Ghost King, although powerful and terrifying, is not only extremely cold, but also corrodes and devours the flesh and blood of creatures.

It's a pity that Lu Ming's taboo is too strong, and it seems to be able to restrain the evil spirits. Coupled with the top-level source-level magic weapon armor body, the evil spirits can't help Lu Ming.

Although the Ghost Sha King also has a top-level source body armor body, the positive power is still slightly stronger than Lu Ming. After a dozen moves in the battle, the Ghost Sha King began to retreat.

"How could this be?"

Seeing this scene, the other Yin Sha clan couldn't believe their eyes.

Invincible, the ghost king, known as the invincible divine lord, would actually be at a disadvantage, and the opponent is still a divine lord ninefold. If you hadn't seen it with your own eyes, it would be really hard to believe.

"Set up an array, set up an array, kill him for me."

The Ghost King roared, furious, no longer planning to fight alone with Lu Ming, planning to kill Lu Ming with his formation.

Suddenly, other masters of the Yin Sha clan began to deploy.

The formation of the two 21-person combined attacks was arranged, condensing two huge Yin Sha ghost kings.

That's right, among these Yin Sha clan, there are actually two battle formations of 21 people.

Two huge ghost kings of Yin Sha, rushing towards Lu Ming from two directions, the ghostly spirit soared into the sky, and the world was gloomy.

Ordinary masters at the pinnacle of the gods, let alone confronting such evil ghost kings, I am afraid that they will be frozen to death by this terrifying ghost before they get close.

Huh!

Lu Ming increased his speed to the extreme, like an aurora, retreated sharply, avoiding the two Yin Sha ghost kings.

No money to read novels? Give you cash or points, and receive it within 1 day! Follow the public·public·number 【Book Friends Base Camp】 , get it for free!

"If you want more to win, hehe, then fight another day!"

Lu Ming sneered, turned around and left.

At the same time, facing the Ghost Sha King and the two twenty-one players, Lu Ming knew that he would definitely lose, and he might even have difficulty retreating. Naturally, it was the best strategy.

Although his combat power is slightly stronger than the ghost king, it is because the power of taboo can restrain the opponent, but the strength is very limited. It is difficult to damage the opponent, let alone kill the opponent.

So it's the best policy to just take it.

Chapter 4906: Combat formation

"Don't want to go!"

The Ghost King roared, his body shaped like a ghost, and Lu Ming chased him, extremely fast.

However, although the speed of Ghost Sha King is fast, the speed of the two Yin Sha Ghost Kings is not so fast.

Yin Sha Ghost King, after all, was condensed by the Yin Sha clan using a combined attack formation method, and this combined attack formation method is good at attacking, but speed is not a strong point.

In fact, there are many types of joint attack formations.

Some formations are good at attacking, some are good at defense, and some are good at speed...

It's just that most of the combined attack formations are good at attacking. After all, the power of many masters is brought together and burst out, the purpose is to increase attack power.

There are many combined attack formations that are good at defense, but there are not as many combined attack formations as offensive.

As for the combined attacking method that is known for its speed, it is even less, mainly because it has little effect. This kind of combined attacking method carrier is not refined by many people.

Let me ask, what is used for the array carrier that is produced through hard work and is known for its speed? Escape?

Of course, there are also combo formations, which are very strong in every aspect, but this type of combo formation is relatively rare and precious.

It is also difficult to refine the corresponding carrier of the combined attack formation method.

The same number of combined attacks, this type of combined attack carrier, is more precious.

Lu Ming's speed was also very shocking, like an aurora, disappearing in a flash, only Ghost Sha King could keep up with Lu Ming's speed, as for the other Yin Sha clan, they were left far behind.

The two chased and fled, and flew hundreds of thousands of miles away.

At this moment, Lu Ming stopped abruptly. The God of War spear was like a mountain range, smashing it down at King Guisha, and King Guisha waved the black flag and blocked it.

boom!

Then, Lu Ming shot out with a palm, a continent formed, and was suppressed by King Guisha. King Guisha controlled nine evil spirits to resist. After such a delay, Lu Ming quickly left.

"hateful!"

The ghost king roared, but he did not continue pursuing.

He knew very well in his heart that with him alone, he could not keep Lu Ming. Lu Ming was not only powerful in combat, but his speed was also higher than he imagined. Originally, he wanted to entangle Lu Ming and waited for the battle formation to arrive, but found out It can't be done at all.

"This Lu Ming is really terrifying. If he waits for his cultivation to break through to the peak of the **** Lord, no one can control him under the origin. I have to send news to King Underworld and join hands with him to keep Lu Ming. ."

The Ghost King whispered, his figure flashed, and he left here.

Lu Ming didn't fly far. Seeing that the Yin Sha clan was not pursuing, he stopped and released Xie Nianqing, Dan Dan and others from the prey.

"Lu Ming, what are your plans now?"

Xie Nianqing asked Lu Ming.

"It is estimated that there are forbidden creatures in the vicinity of the nine qi veins, and the treasures under the qi veins naturally cannot be obtained by the forbidden creatures in vain, but we can only watch.

Lu Ming said, murderous in his eyes.

"What are you going to do?"

Dan Dan asked quickly, he knew Lu Ming very well, and he knew that Lu Ming was 'badly'.

"The Yin Sha clan won't let us live well, we naturally won't let them live well. Next, it's up to you two, Dan Dan and Pao."

"Can you two join forces to let me silently kill the Yin Sha clan?"

Lu Ming said coldly.

"Naturally there is no problem!"

"Wrap it on us, hey, I like this thing the most..."

Paobao and Dandan nodded again and again, especially Dandan, smiling very treacherously and coldly.

Everyone discussed and perfected the specific details, and then Dan Dan shot and arranged a hidden formation on Lu Ming and Paobao.

After the formation was completed, Lu Ming sent Xie Nianqing, Qiuyue, Dandan and others back into the prehistoric ring, while he and Paobao returned to the vicinity of the Qi Vessel silently.

This book is organized and produced by the public account. Follow VX **【Book Friends Base Camp】** , read the book and get cash red envelopes!

The ghost king, returned again.

The people of the Yin Sha clan were redistributed around the Qi veins, ready to grab the fairy crystals flying out of the Qi veins.

"Kill those who fight together first."

Lu Ming spoke to Paobao.

Bubble nodded, wrapped Lu Ming with the power of time and space, and quickly rushed towards the Yin Sha clan.

Bubble's current cultivation base has reached the ninth level of the divine master, and his use of the power of time and space has become stronger. The two ancient characters of origin, 'time' and 'empty', have a deeper understanding. They travel through the void, as if they are in another world. , And it was like traveling between the past and the future. When they got closer, none of the Yin Sha clan found it.

Shoo!

Suddenly, Lu Ming shot, stabbing three shots in a row, and three spear lights burst out, stabbing the three masters of the Yin Sha clan.

The reason why he didn't pierce more spear lights was because he was afraid that his power would be scattered and would not be able to kill with one blow.

Three spear lights were pierced at once, and Lu Ming was confident that he could kill with one blow.

The three Yin Sha tribes he aimed at were exactly the three in the 21-person combined attack formation.

To make a move, naturally look for the threat to him the most.

And the combination of the 21 players is undoubtedly the most threatening to him.

"Be careful!"

As soon as Lu Ming shot, King Guisha felt it, roared, and rushed towards him frantically.

And those Yin Sha clan who set up the formation also felt it.

However, it takes time to arrange a combined attack. Although this time is very short, even if it is short, it takes time.

Lu Ming approached and suddenly shot, how fast, they wanted to set up a formation to meet the enemy, it was too late.

Puff puff!

The heads of the three masters of the Yin Sha clan were directly pierced by Lu Ming, and the terrifying power of destruction shattered them, completely killing the three Yin Sha clan.

A skull was hung on each of the three of them. This skull was the carrier of the joint attack formation. Lu Ming waved his hand and put the three skulls away.

Other masters of the Yin Sha clan were shocked and backed away frantically.

The Ghost King also swiftly slammed into it and delivered a terrible blow.

Huh!

Lu Ming retreated quickly. Next to him, the bubble was running with full power of time and space to envelop Lu Ming. In an instant, the two of them swiftly moved away, and they retreated silently. The Yin Sha clan even had a shadow of the two of Lu Ming. did not see.

"The power of time and space is Lu Ming, **** it, **** it!"

The Ghost King roared angrily, his face was extremely hideous.

In a 21-person combined attack formation, three people were killed. The most important thing was that the carrier of the three combined attack formation was also taken away by Lu Ming.

When a person is dead, he can send someone to collect it, and as long as he runs in for a period of time, the joint attack formation can still operate.

But if the formation carrier is lost, this formation is half-worn.

It is extremely difficult to fill up the formation carrier, and the cost required is also amazing.

He was so angry that he wanted to take Lu Ming off.

"Set up the formation, be careful not to spread!"

The ghost king then roared.

Chapter 4907: Retreat in embarrassment

The people of the Yin Sha clan have arranged a joint attack formation.

Seven players, nine players, twelve players...

All the way up to 21.

"Forbidden creatures, the background is really amazing, so many combined attack formations..."

In the distance, Lu Ming and Pao Bao stood in the dark, watching the Yin Sha clan's reaction in their eyes.

Only the Yin Sha clan of more than 2,000 people, combined to attack the formation, reached nearly 30.

Of course, most of them are a combination of seven and nine players, but this is amazing enough.

Ordinary seven divine masters and nine layers of existence, with seven combined attack formations, the combat power is comparable to the strongest heavenly monarch.

The formation of nine players is even stronger.

If all the people who set up the formation are the existence of the pinnacle of the gods, a nine-person combined attack formation is comparable to the strongest of the strongest heavenly monarchs.

Not to mention the stronger twelve players, fifteen players combined to attack the formation.

However, these combined strikes were not in Lu Ming's eyes now.

The only thing that made Lu Ming cared about and threatened Lu Ming was the combination of twenty-one players.

"There are actually two 21-person joint strikes..."

Lu Ming whispered in his heart, shocked in his heart.

Before doing it, the Yin Sha clan only deployed two 21-person combined attack formations to besiege him. Lu Ming thought that among the two thousand Yin Sha clan, there were only two 21-person combined attack formations.

Unexpectedly, there are actually three, and there is one that has not been furnished before.

Lu Ming speculated that most of the opponents wanted to hide their strength. After all, on the island now, multi-party competition and hidden strength can play a decisive role at critical moments.

But now, the Yin Sha clan can't hide it anymore. If you continue to hide, you may be killed by Lu Ming secretly.

One by one, the formation of a combination of strikes condensed the evil ghost kings of different sizes, looking around, as soon as Lu Ming appeared, he would give him a thunderous blow.

But how could Lu Ming appear now?

"They can't always defend in a state of formation. Their strength will be exhausted. When their strength is exhausted, the formation will naturally not be able to maintain. At that time, it will be the time for us to shoot!"

Lu Ming and Paobao communicate secretly.

As time passed, Lu Ming didn't show up.

But those of the Yin Sha clan who set up their formations couldn't hold on anymore.

"This Lu Ming definitely wants to wait until we can't maintain the formation before making a sneak attack. Damn it..."

The ghost king is very shrewd, how can he not know what Lu Ming thinks.

"Disperse the formation, gather together to defend, remember, the 21-person combined attack formation, hide in the middle."

Pay attention to the public account: Book Friends Base Camp, pay cash and coins when you follow!

The voice of Ghost Sha King rang in the ears of every Yin Sha clan.

Suddenly, the Yin Sha clan began to move, and while dispersing the formation, they gathered together and formed a circle.

In the middle of the circle, there are those Yin Sha clan who have arranged 21 people to fight together.

"It's naive to want to stop me in this way. They don't know, can the power of time and space ignore space?"

Bubble chuckled, then the power of time and space enveloped Lu Ming and himself, his figure flashed, and he rushed towards the Yin Sha clan.

The people of the Yin Sha clan form a circle, which may be useful to others, but it is useless to the creatures who are proficient in the power of time and space.

Lu Ming and Bao Bao appeared silently above the Yin Sha clan, the God of War spear stabbed out, and three more spear lights flashed out, piercing the three Yin Sha clan.

These three Yin Sha tribes are the three of another 21-person team.

"Lu Ming, looking for death!"

The ghost king has always been standing high in the sky, a trace of evil spirits dispersed into the void, always watching every move around him.

When Lu Ming didn't make a move, he didn't notice it. As soon as Lu Ming made a move, there was a slight energy fluctuation, which was immediately noticed by King Ghost.

The ghost king waved the black flag, and the nine ferocious ghosts roared and rushed down towards Lu Ming.

However, it is still a step slower.

Lu Ming used the sky-breaking style, three spear lights, faster than the streamer, the three Yin Sha tribes he chose were just the realm of the peak of ordinary gods, how could he avoid them?

As soon as the three spear lights passed through, the three Yin Sha clan were killed.

Lu Ming and Paobao had already left quickly, tens of thousands of miles away.

"Unfortunately, I only got one skull this time, but that's enough!"

Lu Ming opened his palm, and there was a dark skull in his palm.

Originally wanted to take the three together, but the ghost king shot too fast, there was no time, and only took one.

But taking one away is enough. The opponent's 21-person combined attack formation is no longer perfect. Even if someone else is used to replace it, only 20 combined attacks can be arranged.

Lu Ming is no longer afraid of the imperfect combination of 21 players.

As a result, the three and twenty-one members of the Yin Sha clan attacked the formation together, and Lu Ming and Bao Bao destroyed two of them.

The other members of the Yin Sha clan continued to lay out their formations, as if they were facing a major enemy.

"Damn it, **** it, Lu Ming, get out of me, get out of me if you have the ability, and have a fair fight."

The Ghost King kept roaring.

However, Lu Ming was too lazy to bother.

A fight righteously?

Isn't it ridiculous that the opponent will besiege him by a combined attack and fought openly?

How comfortable is it to hide in a sneak attack?

After destroying the last 21-man formation of Yin Sha clan, at that time, no matter how large the opponent was, Lu Ming was not afraid.

He now has a top-level source-level battle armor of the gods, unless it is of the same level as him, it is difficult to break through his defenses, even if there are more people, it is useless.

After roaring for a while, it seemed that he knew that Lu Ming would not show up, and the ghost king gave up helplessly.

"Go, get out of here first!"

The ghost king roared, took the people, and retreated in the other direction.

He was helpless, even if he was unwilling, he could only leave first.

Continuing to stay here, his combined attack formation will be defeated by Lu Ming one after another.

Lu Ming, with the power of time and space, it was too difficult to get involved.

"We must find a chance to kill this Lu Ming, otherwise the threat will be too great."

The Ghost King kept roaring in his heart.

"Want to leave? Decisively."

Lu Ming's eyes flashed, and Bao Bao quickly followed.

However, the members of the Yin Sha clan had been retreating in a state of formation, and Lu Ming never found a chance to start.

Of course he could kill those Yin Sha clan that couldn't form an array, but this kind of Yin Sha clan, killing a few more and a few less would have little effect, but would expose himself, which was not cost-effective.

"That is..."

After following for a while, Lu Ming's eyes suddenly condensed.

Because in the front, there were a group of figures rushing toward this side, and the evil spirits were filled.

It is actually the Yin Sha clan, and the number is astonishing, there are also nearly two thousand.

"So many Yin Sha tribes, it seems that many Yin Sha tribes have awakened during this time."

Lu Ming whispered, his face solemn.

Chapter 4908: See also the top source-level magic medicine

"King Hades, be careful, there is a person who is proficient in the power of time and space beside Lu Ming. They teamed up to secretly attack, and be careful that he broke your combined attack formation."

The ghost king shouted.

Among the Yin Sha clan behind, there was one Yin Sha clan, who seemed to be in his thirties and had the most terrifying aura.

This person is King Hades.

"Layout!"

Upon hearing this, King Hades immediately ordered.

The Yin Sha clan under him immediately began to form an array.

There are a total of two 21-person joint attack formations, and there are other joint attack formations, condensing one Yin Sha ghost king, patrolling all directions.

"King Ghost Sha, it seems you have suffered a big loss!"

King Hades opened his mouth, stood high in the sky, looking around, the powerful Yin Sha Qi, like a spider web, penetrated into the void, capturing Lu Ming's movement.

"Another terrible master!"

Lu Ming's face was solemn.

This King of Underworld is definitely an existence of the same level as King of Ghosts.

The strength of the creatures in the forbidden area is really terrifying, not only has a large number of joint attack formations, but the number of terrorist powers is also astonishing.

In the age when the origin is not available, this level of combat power is far above any side of the Celestial Race, the Asian Immortal Race, the Devil and the Celestial Destruction Army.

After all, the creatures in the forbidden land, in the prehistoric continent of the last era, were already a forbidden land that everyone talked about, and their background was too deep.

As for the celestial race and the demons, although they also existed in the last era, they are after all the servants of the human race, and their backgrounds are far from comparable to the creatures in the Forbidden Land.

"Brother Lu Ming, what are you going to do now? Do you still continue to shoot?"

Bubble asked.

"Do not!"

Lu Ming shook his head and said, "There are two invincible divine masters, and there are more than a dozen of them at the level of the king's envoy before the light. We take action. Once we are surrounded, it will be difficult to get out."

The existence of two invincible divine masters was enough to threaten Lu Ming's life.

In addition, there are more than a dozen of them at the level of Emperor Guangqian. Although it is difficult for a powerhouse of this level to cause substantial damage to the current Lu Ming, there are so many that are enough for him. The action caused a huge disturbance.

In other words, it was enough to haunt him.

Once he entangled him and the two invincible gods attacked, Lu Ming would be very dangerous.

What's more, there are so many combined attack formations.

"Let's observe in secret first to see where they are going."

Lu Ming continued.

After a while, there was no trace of Lu Ming. King Ghost and King Underworld discussed for a while, and then they took a large number of Yin Sha clan and left towards the original vitality.

Stationed right around the Qimai.

The Ghost King and the Underworld King sit on both sides, and once there is a change, they can instantly support them, forming a combined attack.

This gave Lu Ming no chance to make a move.

Rumble!

At this moment, this qi pulse erupted violently, and the vibration was so strong that it surpassed the past.

A huge crack appeared on the island, and a large amount of seawater poured in, but the seawater was washed out by the divine light of the cave in the depth of the Qi vein, and evaporated into a cloud of mist.

Accompanied by the shaking, a large number of fairy crystal fairy stones flew out of it.

The people of the Yin Sha clan immediately took action. There were nearly four thousand Yin Sha clan, all of whom were above the Divine Lord Realm. They shot together, and the Yin Sha Qi filled all directions and took away the fairy crystals and stones Up.

Even Lu Ming saw that many magical medicines had flown out, most of them were master-level magical medicines, but Lu Ming also saw a source-level magical medicine, all of which fell into the hands of the Yin Sha clan.

Lu Ming secretly regretted, but now is not the time to make a move.

To exchange good books, follow the vx public account. [Book Friends Base Camp]. Pay attention now and receive cash red envelopes!

At this moment, there was a commotion among the Yin Sha clan.

"It's the top source-level magic medicine!"

"Don't let it go."

Many people of the Yin Sha clan shouted, the atmosphere of the Yin Sha clan was permeated, forming a big hand, or weaving into a big net, covering a certain place.

Huh!

At that place, a stream of light suddenly rushed out at an incredible speed.

"The top source-level magic medicine!"

Lu Ming moved in his heart and immediately looked in that direction.

A Ganoderma lucidum-like magical medicine, with roots like feet, emptied into the sky, like a stream of light, rushed to the distance.

"It's really a top-level source-level magic drug!"

Lu Ming's eyes brightened.

Obviously, this top source-level magical medicine rushed out from the depths of the Qi Vessel.

"do not miss it!"

Lu Ming's heart was greatly moved. This level of source-level magical medicine is absolutely precious, and it can be used by the gods at the peak, and can help break through the original state.

Among the four statues, Lu Ming and the others got one.

That top-level miraculous medicine initially pretended to be a cave **** beast, frightening away Ye Immortal, and finally fell into Lu Ming's hands, and now he is not honestly in the prey.

Lu Ming found only one source-level magical medicine in that energy vein.

It is very possible that one vitality, just this one, shows how precious it is.

The source-level magical medicine of this level is no longer different from living beings, and can even cultivate independently to complete evolution.

One hundred ordinary source-level magical medicines could not give birth to such a top-level source-level magical medicine.

These top-level source-level magical medicines, the Yin Sha clan were also extremely moved, and one after another caught up.

The Ghost King and the Underworld King were the fastest, chasing after the top source-level magical medicine, they shot out a large amount of evil spirits, which surrounded them layer by layer.

However, this level of source-level magical medicine is extremely fast.

At the beginning, a few plants were found in the source-level sacred mountain, but no matter it was the Yaxian, the Celestial, or Lu Ming, they were not chased.

The last time the other plant was careless, it turned into a cave **** beast, thinking that it frightened Lu Ming and the others, and finally approached Hong Huang Jie before it was taken by Lu Ming, Dan Dan and Bao Bao.

I saw this ganoderma lucidum top source-level magical medicine, flashing in a row, traveling through the void, avoiding the methods of the ghost king and the underworld king, and quickly moved forward.

"Everyone is on guard, chase after!"

The Ghost King yelled, his body shape kept, and he hurriedly chased the top source-level magical medicine.

Other Yin Sha tribes set up their formations one after another. Even at this time, they were still worried about being attacked by Lu Ming and set up their formations for defense.

Lu Ming originally had this thought. He wanted to take the opportunity to abolish the opponent's combined attack formation. Seeing this, he knew that there was no chance, so he didn't make a move, but followed the direction of the top source-level magical medicine.

The Ghost Sha King and the Hades King were chasing them closely. The Yin Sha Kings were already known for their speed. Even if the top source-level magical medicine was fast, they couldn't leave them behind.

And if this goes on, sooner or later you will be caught up.

Lu Ming's eyes flickered, and thoughts turned in his heart, wondering how he should **** the top source-level magical medicine from King Ghost and King Hades.

In this way, a lot of distance was leaped in a blink of an eye.

"It's Yuanguang Clan..."

Suddenly, Lu Ming's eyes flashed.

In the front, a large number of figures appeared, one by one with beams of hair flying, who is not a member of the Yuanguang clan?

Chapter 4909: Multi-party competition

Lu Ming and the others have been chasing the top source-level magical medicine for so long, they seem to have come near another Qi vein, and they have encountered a large number of Yuanguang clan.

Lu Ming glanced at it and found that the number of Yuanguang Clan exceeded at least 3,000.

You know, the number of people who were brought by the Yuan Baji Yuan Nine Extremes before adds up to only a thousand or a few hundred.

Moreover, Lu Ming saw at a glance that Yuan Baji and Yuan Jiuji were among this group of people.

But the two of them stood respectfully beside the other two young people. How could there be the kind of self-respect before?

"who?"

"It's the top source-level magic medicine!"

The people of the Yuanguang clan also immediately discovered that top source-level magical medicine, and they burst out immediately, with fiery eyes.

A top-level source-level magical medicine, with infinite value, cannot be measured with a fairy stone.

"Fifth brother, sixth brother, from the Yin Sha clan!"

In the Yuanguang family, Yuanjiuji said in a low voice.

"Whoever it is, the top-level source-level magic drug, if you encounter it, you must not miss it, shoot it, and surround the magic drug!"

A young Yuanguang clan shouted, his voice spread throughout the audience.

This person is the fifth brother of Yuanjiuji Yuanbaji and his name is Yuanwuji.

With the order of the Yuan Wuji, all the Yuanguang tribes on the scene took action, and countless beams of light hair flew out, grew sharply, intertwined in the air, forming a net of heaven and earth, and shrouded toward the top source-level magic medicine .

The source-level magic medicine immediately changed its direction and rushed in another direction, but in that direction, a lot of beam hair appeared immediately.

Three thousand yuan of light races shot together, the beam of hair covered the sky and the sun, completely shrouded a large area in it, no matter which direction the source-level magical medicine rushed, it would not help.

"This source-level magical medicine belongs to my Yinsha clan, a member of the Yuanguang clan, let this king go away."

The ghost king yelled and waved the black flags. Nine ferocious evil spirits rushed at the Yuanguang clan to break the net of beams and hair.

At the same time, King Hades also shot, and launched a terrible attack.

However, at this moment, two lights and shadows flashed and two figures appeared in front of King Ghost The attack was blocked.

It is Yuan Wu Ji, and the other is Yuan Liu Ji.

There are nine princes in the Yuanguang clan, one is better than the other evildoer, and the other is stronger than the other, each of them is a genius with amazing talents.

Relatively speaking, the talents of the bottom three in 1989 are the worst.

"The source-level magical medicine, since it came to us, it is ours, two people, please go back."

Yuan Wuji sneered.

"Fuck you cold fart, Yuan Wu Ji, get out of my way."

The Ghost King roared and constantly waved the black flags to launch terrible attacks, but they were all blocked by Yuan Wuji.

On the other side, King Hades was also blocked by Yuan Liuji.

"No, if this continues, the source-level magical medicine will fall into the hands of the Yuanguang clan."

Lu Ming's face sank.

Regardless of the source-level magical medicine, it is not what he wants to see in which side it falls.

Huh!

Lu Ming and Paobao quietly appeared not far from the sky and earth net, and then ran the sky-breaking style, stabbing a shot vigorously.

A huge spear light burst out, stabbing the intertwined beam of hair.

Rumble!

The beam of hair trembled violently, and then burst one after another, and finally a huge gap was broken.

"Wrong direction."

Through the gap, Lu Ming could see that the source-level magical medicine was in another direction, not on this side, and it was still quite far away. It was too late to seize the opportunity to break through the gap.

Only by opening a gap near the source-level magical medicine can the source-level magical medicine take the opportunity to rush out.

However, Lu Ming's move was discovered by the Yuanguang clan.

"It's Lu Ming!"

"Damn, set up, kill him for me!"

Yuan Baji and Yuanjiuji roared.

Suddenly, the figures of the Yuanguang clan flashed, and a joint attack formation of two 21 persons came out.

A war knife and a war sword slashed towards Lu Ming.

Huh!

This book is organized and produced by the public account. Follow VX 【Book Friends Base Camp】 , read the book and get cash red envelopes!

Bubbles wrapped Lu Ming with the power of time and space, and with a flash, they left far away, avoiding the two combined attack formations, and appeared on the other side.

This side was not far from the source-level magical medicine.

boom!

Lu Ming stabbed another shot and pierced the defensive wall intertwined with beams of hair, piercing a big hole in this place.

The source-level magical medicine inside seized the opportunity and rushed out.

"Bubble, shoot!"

Lu Ming shouted.

At this time, it was a good time to take action, let Bubble use the power of time and space to take down this source-level magical medicine.

"Leave it to me...no, be careful!"

Bubbles suddenly drank.

With one sword and one sword, he slashed towards Lu Ming from the left and right sides, with terrifying power.

It is a joint attack formation of 21 members of the Yuanguang clan.

The twenty-one members of the Yuanguang clan's combined attack formation is extremely powerful, not only powerful in attack, but also extremely fast.

This is related to the special attributes of the Yuanguang clan.

The sword qi and sword glow were violent, and the time and space power of the bubble was difficult to extend to catch the source-level magical medicine.

The source-level magical medicine took this opportunity to rush towards the distance quickly.

Lu Ming used the Primordial Style and the Sky-Breaking Style to block the two combined attacks with one sword and one sword.

"go!"

Lu Ming drank low, taking this opportunity, the bubbles disappeared from the place with a flash of landing sound, appeared thousands of miles away, and rushed towards the source-level magical medicine.

"chase!"

"That's Lu Ming, looking for death!"

The ghost king, Yuan Wuji and others roared, stopped fighting, and rushed towards Lu Ming and the source-level magical medicine.

Lu Ming used his speed to the extreme, and with the help of Bubbles, his speed was even more astonishing, surpassing the ghost king and others, and even surpassing the source-level magical medicine.

The distance between him and the source-level magic medicine is getting closer and closer.

It seems that it won't take long to catch up.

At this moment, the mutation suddenly occurred, and a light mask suddenly appeared in front of the source-level magical medicine, and headed toward the source-level magical medicine.

This is a light mask like a big bowl, transparent, huge, suddenly appeared from the front, the source-level magical medicine wanted to evade, but it was too late.

With a bang, the source-level magical medicine was shrouded in this light mask.

The source-level magical medicine slammed into the mask, and the mask did not move.

Although the speed of the source-level magic medicine is amazing, its attack power is very mediocre, and it is not directly proportional to its speed.

After the mask covered the source-level magical medicine, it trembled slightly and wanted to fly away.

Bubble hit the power of time and space, trying to control the mask, but was shocked by the mask, breaking the power of time and space.

boom!

Lu Ming slapped out a palm, forming a huge palm like a mountain, pressing it towards the mask, suppressing the mask at once, making it difficult for the mask to fly away.

The next moment, a figure appeared above the mask.

Yeah immortal!

Chapter 4910: The Heaven Extinguishing Army was destroyed?

Ye Immortal appeared in the sky above the mask. Obviously, the mask was played by Ye Immortal.

I don't know if Ye Immortal is right in front, or hidden in the dark long ago, waiting for an opportunity to take action.

Seeing Ye Immortal, Lu Ming didn't even think about it. He just shot it out.

call out!

An extremely sharp spear light penetrated the void and pierced Ye Immortal, at an astonishing speed.

Ye immortal, had to resist.

He slashed out, and a round of stars appeared in the void, and when they collided with the spear light, they exploded and formed a devastating force.

The spear light that Lu Ming pierced was blocked, the God of War spear hummed, and Ye's immortal figure was also shocked, and he took a few steps back.

Lu Ming stepped in the air, slaying towards Ye Immortal, blasted out with a palm, and a continent formed.

"The sword of heaven and man, the death of the sun!"

Ye Immortal continued to use the source technique, a round of great sun appeared, endless sword light emerged, pierced through the void, and confronted Lu Ming's prehistoric style.

Not only that, but there was also a lot of sword light that pierced Lu Ming and bubble.

"Bubble, you first enter the prehistoric ring."

Lu Ming urged the Precious Ring, the bubble shape flashed, and he escaped into the Precious Ring.

Although Bubble has reached the ninth level of the Divine Lord, and its strength is much stronger than before, there is still a huge gap compared with the existence of Ye Immortal. Facing Ye Immortal's attack, it can't stop it at all, and Lu Ming needs to be distracted.

Facing a strong man of the same level like Ye Immortal, Lu Ming must go all out and have no time to get distracted. Therefore, it is the best choice to let Bubble into the Prey Ring.

Bubble entered the prey, Lu Ming shot with all his strength, and Ye Immortal made a few moves.

Seeing, the Ghost Sha King, the Hades King, and the Yuan Liu Ji Yuan Wu Ji in the rear are about to arrive.

Lu Ming and Ye Immortal were a little anxious.

When those people arrived, Lu Ming and Ye Immortal had no idea of getting the source-level magical medicine.

At this moment, Ye Immortal suddenly shouted: "Lu Ming, your friend's head, you don't want it anymore?"

As soon as the voice fell, he waved his hand and more than a dozen heads flew towards the distance.

At the same time, there are still more than a dozen energies, attacking more than a dozen people's heads. If you are hit, you can imagine that these more than a dozen people's heads will definitely explode.

"It's them..."

Seeing the appearance of these more than a dozen human heads, Lu Ming's heart was shocked.

Lu Ming knew all of these dozen heads, and they were clearly a dozen masters of the Heaven Extinguishing Army. Some of them were familiar with Lu Ming.

Before, when Lu Ming and the Exterminating Army were separated, these people were clearly still alive.

There is only one explanation. After Lu Ming and the others left, the people who destroyed the Heavenly Army met Ye Immortal.

With the immortal combat power of Yeah, encounter the Heaven Exterminating Army...

Without time to think, Lu Ming rushed out and rushed towards the heads of the dozen people. At the same time, he wielded the God of War spear, stabbing more than a dozen spear lights, smashing the strength of Ye Immortal's attack, and then rolling the taboo. , He grabbed a dozen heads in his hands.

It is true, not an illusion.

This shows that Heaven Extinguishing Army has really encountered Ye Immortal.

Lu Ming was drawn away with more than a dozen heads, and Ye Immortal grabbed it with all his might. The mask quickly shrank and was put away by Ye Immortal, including the source-level magical medicine inside.

After receiving the Origin-level magical medicine, Ye Immortal did not continue to shoot, but quickly retreated.

"Yeah, immortal, don't go!"

Lu Ming roared and chased him quickly.

"Lu Ming, if I were you, I would leave here and go and collect the corpses for those from the Heaven Exterminator."

Ye immortal sneered.

Lu Ming's face was ugly, and his heart kept sinking.

Could it be that the people who destroyed the heavenly army were really destroyed by the immortality?

Shoo!

Roar!

In the rear, several terrible attacks came towards Lu Ming.

It is the King of Ghost Sha, the King of Hades, Yuan Wu Ji Yuan Liu Ji and others.

After they approached, they shot directly.

Regardless of whether Lu Ming got the source-level magical medicine or not, Lu Ming was on their kill list, and when he saw Lu Ming, he shot it.

The latter four were all terrifying powerhouses, invincible divine master-level figures, and powerhouses of the same level as Lu Ming. The four attacked together. Even if they were a certain distance apart, Lu Ming did not dare to be careless. Can resist with all his strength.

Boom boom boom boom!

After the roars, Lu Ming's figure shook wildly and he was blown out.

Even if he was resisted by a top-level source-level magical medicine, Lu Ming felt the blood surge in his body.

"Leave this to me, Lu Ming, you go chasing the source-level magical medicine!"

Yuan Wuji vs Yuan Liuji Dao.

Yuan Liuji nodded and pursued Ye Immortal.

The Yuan Wu Ji continued to attack Lu Ming.

King Ghost and King Underworld looked at each other, and then King Underworld continued to pursue Ye Immortal, while King Underworld slew towards Lu Ming.

Lu Ming successively killed many of the Ghost King's subordinates, breaking the two 21-person joint attack formation, and the Ghost King was very intent on killing Lu Ming.

As long as you kill Lu Ming, you can get back the carrier of the combined attack formation from Lu Ming, and his 21-person combined attack formation can be perfected.

That's why he abandoned Ye Immortal and launched an attack on Lu Ming.

Lu Ming was not in love with the battle, but displayed his body skills and retreated in the other direction.

Lu Ming knew that in this situation, it was too difficult to seize the source-level magical medicine from Ye Immortal.

Moreover, he is now full of things about the Sky Extinguishing Army, and it is certain that the Sky Extinguishing Army will meet Ye Immortal, but what happened?

Did Lion, Tang Jian, Gu Changfeng and others also die in the hands of Ye Immortal?

With many thoughts and no desire to fight, Lu Ming now only wants to get rid of the Yuan Wu Ji and King Hades, and then investigate the situation of the extinction of the heavenly army.

However, it is not so easy to get rid of two characters of the same level.

Finally, Lu Ming tried hard to take the Underworld King's move, and with the help of the Underworld King's blow, he flew out of the surroundings of the Underworld King and Yuan Wuji.

However, Lu Ming also paid the price, vomiting several mouthfuls of blood in his mouth, and suffered serious trauma.

After all, facing the existence of the invincible divine master level, even with the top source level divine weapon body guard, it is difficult to block all the power.

However, it was easier to rush out of the encirclement.

Bubbles appeared from Honghuangjie in time and enveloped Lu Ming with the power of time and space, causing Lu Ming's speed to increase sharply, surpassing Yuan Wu Ji and King Hades.

After a while, Lu Ming successfully shook off the Yuan Wu Ji and King Underworld, and came to a relatively remote place. Lu Ming and Bao Bao entered the prey, and the Heavenly Army might be destroyed by immortality. , Said it again.

"How could this be?"

Tang Jun's face was a little pale.

Among the people, the one who had the deepest relationship with the Exterminating Army was Tang Jun.

Although Xie Nianqing is also a reincarnation, his memory of personality is mainly Xie Nianqing. Although he has the same memory, he is emotionally different from Tang Jun.

"Don't panic first, what the immortal said may not be true. Maybe it was encountered and some people have fallen, but not everyone has fallen. Maybe immortal only killed a dozen people."

Bone Demon comforted.
