

D Emperor 4941

Chapter 4942: Trump card

Gu Changfeng and Zixuan fought against each other, and Lu Ming and Ye immortal also fought together.

The vicinity of the immortal legacy of Zixiao Dongtian also became a melee.

However, the four people were fighting each other separately, but it was not so tragic, and it was not easy to tell the winner within a short time.

And near the Immortal Legacy of the Jue Yin Clan, it was truly tragic.

The six invincible gods of the three tribes of the forbidden area and four deadly corpse kings broke out in a tragic melee. If you leave, you will be besieged by everyone, and many people have been bloodied and suffered serious damage.

Roar!

Suddenly, with a roar, a burly figure found a gap and rushed towards the immortal legacy of the Jue Yin clan.

It is the fist of the four great dead corpse kings.

"court death!"

"Don't think about it!"

The Ghost King, Yuan Wuji and the others who were in the melee originally yelled immediately and pointed their spears at Quan Jue, a series of terrible attacks, blasting them towards Quan Jue.

"Jian Jue, take the legacy of the immortal and go quickly!"

This time, the fist never dodged, but shouted, resisting with all his strength.

Wearing a set of pitch-black and rusty gloves on his fists, his body soared in darkness, followed by his fists and blasted out wildly.

But how did he resist the joint attack of six peerless masters from the three clans in the forbidden area? His boxing was suddenly exploded.

Shoo!

Two celestial lights, one red and one black, penetrated the black energy of Quan Jue's body, cut open the ancient battle armor of Quan Jue's body, leaving two hideous wounds, and almost cut his body into several pieces.

However, Quan Jue screamed, did not retreat, and continued to attack with his fists.

His purpose is to block the masters of the three races of the Forbidden Land and buy time for Jian Jue.

"Roar!"

Jian Jue roared fiercely, seeming to be very angry, but his figure kept turning into a sword light, rushing towards the immortal legacy of the Jue Yin clan.

"Go away!"

"kill him!"

Seeing Jian Jue quickly approaching the Immortal Legacy, the Ghost Sha King and the others became anxious, raised their combat power to the extreme, and launched a terrifying killer move.

However, the attacks of Prince Cangluo and Prince Cangqing were blocked by the two corpse kings Dao Jue and Ji Jue.

But after all, they could only block the attacks of the two, and the attacks of the other four peerless masters were powerless.

Boom boom boom boom!

This time, the four masters attacked even more fiercely, directly defeating Quan Jue's strength and bombarding him.

Quan Jue had been hit hard in the first place, no matter how he could withstand the powerful blow of the four masters, his body was suddenly torn into five or six pieces.

Even so, Quanjue was not dead, the black air was permeated, and the broken corpses wanted to gather, but the ghost king waved the black flag, and nine evil spirits appeared and swallowed the body of Quanjue.

In this way, the fist absolutely fell!

However, after a block of Fist Jue, Jian Jue finally rushed to the side of the Immortal Legacy. With a big hand, he grasped the Immortal Legacy in his hand.

There is no abnormality, and there is no danger.

After grasping the immortal legacy, Jian Jue quickly rushed towards the distance.

"Chasing!" "Don't want to go!"

The ghost king, Yuan Wuji and others shouted, chasing Jian Jue.

However, Jian Jue's speed is extremely fast, like a sword light, not weaker than the Ghost Sha King, Yuan Wu Ji and others who are known for speed. He chases and flees, and then goes away.

But at this moment, a figure suddenly appeared in front of Jian Jue.

Sky!

Yes, this figure is actually the sky.

He had been observing from a distance before, sitting on the mountain to watch the tigers fight, so he could act first, and stopped him before Jian Jue.

Lu Ming fought against Ye Immortal, but Yu Guang also caught this scene.

"What does Cangqiang want to do? Does it want to seize the Immortal Legacy from Jian Jue's hands? This is impossible. Jian Jue's move can severely damage or even kill him."

Lu Ming was puzzled.

Not only him, but everyone else is similar.

Although Cangqiang had a high talent and was considered a peerless in the universe, after all, his cultivation base was only ninefold, and his combat power was comparable to the strongest Heavenly Monarch.

It is undoubtedly an act of seeking death to compete with Jian Jue and other peerless corpse kings for the legacy of the immortal.

Jian Jue recognized Cangqiang and knew that Cangqiang was with Lu Ming. He didn't make a move immediately. Instead, he yelled, "Go away, otherwise, die!"

"Give me the immortal legacy, otherwise, you will die!"

The sky spoke indifferently.

"court death!"

Jian Jue coldly drank, not showing mercy, the ancient sword in his hand was cut out, a dark and terrifying sword light slashed towards the sky.

This sword is enough to severely injure the existence of an envoy of the Light Front.

At this time, the mark on the center of the eyebrows of the sky glowed, burning like a flame, and a terrifying breath radiated from his body.

With the sky as the center, the void exploded into chaos at a speed visible to the naked eye.

Then, Cang Qiong pointed it out and pointed it on the sword light that Jian Jue had cut out, and with a touch, the sword light that Jian Jue had cut out directly shattered.

Then the sky flashed and disappeared from the place. The next moment, he appeared directly in front of Jian Jue, the distance between the two was less than two meters.

Jian Jue was shocked, and the sky's speed was approaching incredible. He did not hesitate to use his full strength and cut out a sword.

This sword was several times stronger than the one just now, and it was comparable to Ye Immortal's original technique.

"Exit!"

The sky drank loudly, and the breath that filled the body became even more terrifying.

At this moment, in his body, there seemed to be a peerless strong man who had recovered, bursting out with earth-shaking power.

The body of the sky was enveloped by a hot glow. His fingers were like divine swords. No, they were sharper than the source-level divine weapons. As soon as they pointed out, a hot and sharp sword light appeared from his fingers. Burst out.

when!

The finger of Cangqiang pointed to Jian Jue's dark ancient sword. The ancient sword kept shaking, and Jian Jue's burly figure actually took a few steps back. The ancient sword in his hand almost flew out.

"dead!"

The next moment, five fingers in the sky were like a sword, grabbed out, and grabbed Jian Jue's head.

Roar!

Jian Jue roared and furiously resisted, the ancient sword burst out and slashed on the sky's body.

But an astonishing scene appeared. The hot light on the sky blocked the sword, and the sky itself was unaffected.

His claws suddenly grabbed out, like five sharp swords, which pierced Jian Jue's head.

With a pop, Jian Jue's head burst open and completely fell.

And the immortal legacy in his hand also fell into the hands of the sky.

At the scene, everyone's hearts were shocked, revealing an incredible color.

Jian Jue, this is a peerless corpse king, an invincible divine master-level existence, and his vitality is even more amazing, so he was killed.

Being killed by a person of the Nine-fold Divine Master is simply incredible.

Although the Ghost King and others had killed Quan Jue just now, the four of them joined forces, and they also spent a lot of effort.

But Jian Jue was in the hands of the sky, and seemed to have no power to fight back.

Chapter 4943: Busy for nothing

"The breath of immortality, that is the breath of immortality..."

Lu Ming roared in his heart and kept repeating these words.

The aura exuding from the sky is too similar to the aura of the immortal fighting spirit left by the previous two immortals.

The same bright as the heavenly majesty, the same high above, as if detached from everything.

That is the unique breath of immortals.

There are things related to 'Xian' in the sky.

Lu Ming couldn't help but remember that Cang Qiong had said that an ancestor of the Yaxian tribe was a true immortal.

"It's the mark of the immortal, you don't want to die, the mere divine master ninefold, dare to use the mark of the immortal..."

Yuan Wu greatly roared.

As the peerless heavenly arrogance of the creatures of the Forbidden Land, they have extremely high vision and wide-knowledge.

The immortal mark cannot be used casually. The bloodline of the person who must use it must be extremely close to that immortal, extremely similar, and can only be used after the immortal's approval.

And once it is used, it is very dangerous. It needs to burn the source of life and burn its own essence.

With the cultivation base of the sky, once used, it will be half-waste, the repair base will fall, and the heavy will die.

"Don't let him go, shoot!"

At the same time, the ghost king roared and waved the black flag, the evil spirit erupted, and the nine evil spirits rushed towards the sky.

At the same time, King Hades, Yuan Wu Ji and Yuan Liu Ji also reacted and played a killer move together.

Four terrible attacks slew towards the sky.

Before that, the four of them joined forces and suffered a heavy blow.

"Humph!"

The sky snorted coldly, pointed like a sword, and cut out four swords in a row.

Four hot sword lights burst out, and they actually blocked the attacks of the Ghost Sha King, Hades King, Yuan Wu Ji, Yuan Liu Ji.

The complexion of the four ghost kings changed drastically.

But at this moment, Prince Cangluo and Prince Cangqing, as well as Dao Jue and Ji Jue, two Jue Yin Corpse Kings, also rushed over.

The four of them were fighting in a melee, but after seeing that Cangqiang shot and killed Jian Jue and snatched the Immortal Legacy, they stopped rushing.

"Killing him together, he inspired the immortal mark, and it won't last long."

Yuan Wu greatly drank, and the red Zhixianguang was urged to the extreme by him, and he slew towards the sky.

Cang Qiong's expression changed for a while, then suddenly turned around and rushed towards the back.

"chase!"

Eight peerless masters roared, chasing towards the sky.

At this moment, the whole world collapsed more violently.

Before, there seemed to be two immortals suppressed by the immortal fighting spirit, and the collapse of heaven and earth was slower.

No money to read novels? Give you cash or points, and receive it within 1 day! Follow the public-public-number 【Book Friends Base Camp】 , get it for free!

Now the suppression of the immortal indestructible warfare is lost, and it has been turned upside down.

Heaven and earth collapsed, generating a powerful force of destruction, sweeping across all directions. Everyone must dodge these forces of destruction at all times, worrying about being swept in.

At this moment, the battle between Lu Ming, Gu Changfeng, Zixuan, and Ye Immortal has also progressed to a fierce battle. The four have each killed dozens of moves, and there is no winner.

But just as the sky ran away, when the eight masters were chasing the sky, a figure rushed towards the immortal's legacy in Zixiao Dongtian at an astonishing speed.

"Cangxian...No, Dark Night Qiangwei!"

Lu Ming's pupils condensed.

This figure rushing towards the immortal legacy is the Dark Night Rose.

But at this time, he was still the appearance of Princess Cangxian of the Cangming clan.

"Absolute Magic Wall!"

Zixuan yelled, a pair of demon wings glowed, and two magic walls emerged.

On the one hand, blocking Gu Changfeng's attack, on the other hand, it appeared in front of Dark Night Qiangwei.

Dark Night Rose slapped it out, and a black hole appeared in the palm of her hand. The terrifying devouring power burst out, bombarding the absolute magic wall.

"God Lord Peak!"

Lu Ming was shocked again.

As soon as Dark Night Qiangwei shot, he sensed that Dark Night Qiangwei's cultivation level had actually reached the pinnacle of God Lord.

You know, the last time we met, the cultivation base of Dark Night Qiangwei was only the nine-fold divine master.

It has only been more than a month, and Dark Night Qiangwei's cultivation base has actually broken through.

Even if Dark Night Qiangwei got the Yuanshen tea tree, with Yuanshen tea tea leaves, it is impossible to break through so quickly, right?

"Perhaps, it has something to do with the body of Dark Night Rose. After all, they are both plant life. Will it be faster to absorb Origin God Tea?"

Lu Ming had a thought in his heart.

Dark Night Qiangwei blasted the Absolute Demon Wall with a palm, exploding the Absolute Demon Wall, but her figure was also blocked.

"Lu Ming, you promised to help me once, now it's time to fulfill your promise and block them for me."

Dark Night Qiangwei's voice rang in Lu Ming's ears.

Lu Ming's face sank slightly.

Dark night Qiangwei asked him to promise to help her once, is it just for this moment?

Is Dark Night Qiangwei planning so far, already planning to fight for the legacy of the immortal?

To be honest, Lu Ming didn't want to agree.

However, Dark Night Qiangwei had helped him after all, which was tantamount to saving his life.

Moreover, he swears by the origin of life.

Before he broke into the Origin Realm, it was difficult to resist the backlash of Origin Oath.

Have no idea...

Hum!

Lu Ming waved the God of War Spear and blocked Zixuan who was about to rush towards Dark Night Rose.

Then, with a palm shot, a continent was formed, suppressing Ya Immortal, and blocking Ya Immortal.

"Senior Gu, you shot..."

Lu Ming's voice rang in Gu Changfeng's ears.

He promised Dark Night Qiangwei to help her once, but Gu Changfeng did not promise to help her.

"Lu Ming, you are cheating."

Dark Night Qiangwei transmits to Lu Ming.

"I blocked the two people and tried my best. I didn't break the oath."

Lu Ming responded.

He didn't lie, and was able to stop Ye Immortal and Zixuan for a short time. He had already tried his best and did not violate his oath.

"Humph!"

Dark Night Qiangwei snorted coldly, pressing her hands, and a huge rose flower suddenly appeared in front of Gu Changfeng.

The rose flower is huge, biting at Gu Changfeng like a big mouth, and the center of the bud burst out with terrifying swallowing power, like a black hole.

"Haoyue Changfeng Fist!"

Gu Changfeng used the Origin Technique, blasted out with a punch, the void burst, and the devastating punch surged out.

However, a part of the boxing power was actually swallowed by the rose flower, and the remaining power did not defeat the rose flower.

Taking this opportunity, Dark Night Qiangwei flashed around, appeared before the slough of the fairy in Zixiaodong, grabbing the slough of the fairy.

"Everyone, I will laugh at the immortal legacy."

Dark Night Qiangwei smiled, her body divided into two, two into four, and four into eight...

The identical figure of Badao rushed in eight different directions, at an astonishing speed.

But at this time, Lu Ming did not continue to stop Zixuan, Zixuan hurriedly pursued Dark Ye Qiangwei, but after a while, Zixuan stopped.

Because I don't know which one to chase.

Afterwards, Zi Xuan gave Lu Ming a complicated look, and the Demon Wings flew towards the distance and disappeared in a blink of an eye.

"This time, I'm busy for nothing..."

Lu Ming sighed in his heart.

He didn't get any of the two immortal legacy.

Chapter 4944: Want to kill ye immortal

After hard work, Lu Ming didn't get one of the two immortal legacy.

"Is my luck running out?"

Lu Ming muttered in his heart.

But Lu Ming didn't care too much. If he didn't get it, he didn't get it, and he didn't need to force it.

This trip to the Zixiao Cave, his harvest has been very huge.

Not to mention anything else, but he has realized the 3000th great ancient mystery, coupled with his cultivation base breaking through the divine master's ninth layer, which allowed him to reach the level of invincible divine master by several steps. Comes affordable.

Moreover, they also evacuated two Qi veins, at least obtained more than 20 billion immortal stones, many immortal crystals, and magical medicines of various levels.

But there are three top source-level magic medicines.

The most important thing is that he also obtained more than a dozen pieces of Origin God Tea Tea. As long as it takes a little time, his cultivation level can reach the peak of God Lord.

The same goes for Xie Nianqing and others.

These are huge gains, and they can be quickly transformed into their strength.

Although the Immortal Legacy was extremely precious, to be honest, even if Lu Ming got it now, he didn't know how to use it.

The immortal legacy, the essence of the immortal body, contains endless energy, and it is not that they can refine it now.

Even if you get it, you can only keep it.

Can not be used.

Therefore, there is not much loss in his heart.

Also, there is one more important thing to do now, and that is to kill the immortal!

This is a rare opportunity, Ye Immortal is alone, without other helpers.

After seeing the Immortal Legacy slaughtered by Dark Night Rose, Ye Immortal knew that there was nothing to do, and quickly fled in the other direction.

However, Lu Ming and Gu Changfeng had already focused on him.

"Leave me!"

Gu Changfeng yelled and blasted his fist with a terrifying punch, rushing toward the immortality.

In the face of such terrible boxing power, even if Ye Immortal had a top-level source-level armor bodyguard, he did not dare to be careless and wave his sword to resist.

"Prehistoric!"

Lu Ming slapped it out with a palm, and a continent formed, suppressing Ye Immortal.

"The sword of heaven and man, the death of the moon, the death of the sun!"

Facing the siege of Lu Ming and Gu Changfeng, Ye Immortal felt a huge crisis and pushed his combat power to the extreme. The top source-level magic weapon level sword was cut out, and he used two sources in an instant. Surgery.

A big sun and a waning moon appeared in the sky at the same time.

A ray of light filled the sky, countless sword auras pierced the mainland and Quan Jin, blocking the attack of the two.

But Ye Immortal seized the opportunity, and his body was like a ray of light and shadow, and quickly retreated behind.

But at this time, a huge halberd slashed at Ye's immortal head.

Ye Immortal's pupils shrank, not daring to be careless, and quickly swung his sword to resist.

With a bang, Ye Immortal's figure trembled, and he backed away, his face gloomy.

What blocked him was a huge figure, wearing a black and hideous battle armor, which was exactly the combined attack formation arranged by Xie Nianqing, Qiuyue, Dandan and others.

Twelve people arrived together, this is the perfect combination of strikes.

call out!

Lu Ming showed the sky-breaking style, turned into a bright spear light, and pierced Ye Immortal.

At the same time, Gu Changfeng defeated the waning moon and the big sun, and Quan Jin continued to crush it towards Ye Immortal.

Yeah, there is no escape.

He tried his best to dodge, but in the face of the siege of the three statues of the same level, it is impossible to avoid them all.

bump!

Lu Ming's God of War spear hit Ye Immortal's chest, and Ye Immortal's body flew out, vomiting blood.

Even with the top source-level magic weapon armor body, it is impossible to completely remove Lu Ming's offensive power. The terrifying power will still hurt him through the armor.

Lu Ming hit with one move, and Gu Changfeng and the twelve players followed closely behind, and each launched a killer move.

boom! boom!

Both of the killer moves accurately hit Ye Immortal.

bump!

Ye's immortal body hit the earth like a meteorite.

In fact, it can no longer be called the earth at this time.

Because the earth has completely collapsed and turned into pieces of earth fragments.

Ye Immortal smashed into a piece of earth fragments, directly smashing this piece of earth fragments into smaller pieces.

After being hit by three people in a row, Ye Immortal was hit hard.

"kill!"

Lu Ming and the others yelled, and continued to kill the immortality to get rid of the immortality.

Ye Immortal is the backbone of the Celestial Race, and it has a deep mind, far beyond what Ye Qiuxian can match.

Although Ye Qiuxian's talent is not low, he is much more tender than Ye Immortal.

As long as you kill Ye Immortal, the Celestial Race is nothing to fear.

Ye Immortal's eyes were cold and composed, even at this moment of crisis, he still did not give up, and he would never give up until the last moment.

He mobilized all the power that he could mobilize, and his spiritual consciousness radiated madly, looking for a chance to escape.

Rumble!

boom! boom! ...

At this time, between the heaven and the earth, there was an astonishing roar and explosion, and a terrifying force of destruction swept all directions, raging in the void between the heaven and the earth.

The space was torn apart, the earth was completely destroyed, countless boulders, countless earth fragments, like popcorn, rushed to the ground in all directions.

At this moment, the entire Zixiao Cave Sky was exploded.

Lu Ming clearly saw that many Jue Yin corpses were swept by the terrifying force of destruction, their bodies were directly torn apart and turned to ashes.

Even Lu Ming and the others had to resist in order to block the destructive power around them.

Ordinary gods can never stop this destructive power and will be torn apart.

However, their figures were also blocked by this raging destruction.

Ye Immortal would miss this opportunity, turning into a sword of light, rushing out violently in the distance, and the speed was even better than his heyday.

He is ignoring his injury and burning potential.

At this time, he really didn't care about the injury. He understood that this was an excellent opportunity. If he missed this opportunity, he might stay forever.

"chase!"

Lu Ming yelled, the God of War spear buzzed, violent shaking, bursting out a powerful force, breaking the surrounding gravel, and the power of destruction, he quickly pursued Ye Immortal.

Unfortunately, he was still a step slower, Ye Immortal had already rushed out of their encirclement, rushing forward frantically, even if the destructive force formed by the cracking of the sky hit him, he would not care.

His speed has risen to the strongest in history, and the distance from Lu Ming is constantly increasing.

Moreover, the sky is now cracking, there are gravel everywhere, misty seawater, and dust everywhere, seriously affecting the sight.

After chasing for a while, after jumping over a few huge earth fragments, Lu Ming lost his immortal trace.

"unfortunately..."

Lu Ming sighed in his heart.

Lu Ming couldn't catch up. Gu Changfeng and Xie Nianqing couldn't keep up with their combined strikes.

Chapter 4945: Return to the ruins of the universe

Lu Ming stopped, and after a few breaths, Gu Changfeng and Xie Nianqing's combined attack formations rushed over.

"Escaped by Ye Immortal!"

Lu Ming said.

The black armored warrior touched, dissipated, and the combined attack was lifted, revealing the figures of Xie Nianqing and Qiuyue.

They fought back one after another, and with everyone's current cultivation base, it was not a problem to block the raging destruction.

"This yeah is immortal, it's really hard to die, just in time for the complete collapse of Zixiao Cave."

Dan Dan said a little unhappy.

If Zixiao Dongtian collapses completely a moment later, they will be sure that they will be immortal.

"Regardless of the immortality, let's leave first. Zixiao Dongtian is completely chaotic."

Lu Ming said.

Now, the Zixiao Cave Sky had completely collapsed, it was a real collapse, the sky collapsed and the earth cracked, the rules and meanings, etc., were in chaos.

Even the bubble feeling, time and space, are all confused, and they can't distinguish the direction.

"Senior Lion, you enter my prehistoric ring..."

Lu Ming said.

To be on the safe side, Lu Ming opened the Prestige Ring, intending to let everyone enter the Prestige Ring, so he and Gu Changfeng stay outside the Prestige Ring to break through.

The sky is falling apart and no one knows what will happen.

"No, I want to stay outside, I feel something delicious..."

The ball is called, and a pair of eyes are shooting everywhere.

"I want to stay outside too, I can help you."

Bubble also called.

In the end, Lu Ming left the bubble and the ball, and everyone else entered the prey, and then together with Gu Changfeng, a group of four people rushed in any direction.

Boom boom boom...

Between the heavens and the earth, there were constant violent roars, like the scene of the beginning of the universe.

Lu Ming knew that before long, Zixiao Dongtian would completely disappear into the universe.

"delicious..."

The ball suddenly yelled and stared in one direction.

Lu Ming looked over and saw that a piece of purple-gold metal was inlaid in a huge rock, the size of a water tank.

"This is the Purple Moon God Gold, an excellent material for refining source-level magic soldiers..."

Lu Ming's eyes lit up.

"give it to me."

Bubble opened and pressed both hands, the power of time and space exploded, and the space around the purple moon **** gold suddenly twisted, and then the purple moon **** gold automatically broke away from the rock and flew towards Lu Ming and the others.

"Qiuqiu, you have eaten enough during this period of time. I will put this piece of Purple Moon God Gold temporarily away and give it to you later..."

Lu Ming said, with a wave of his hand, he collected the Purple Moon God Gold.

"You guys, there is a piece there too!"

"There are several pieces..."

As they fly, the ball keeps discovering all kinds of different metals, and they are all extremely high-level, at least they can refine the source-level magic soldiers.

Because those metals that can only refine the main level magic weapon, or the lower level, can't get the ball at all.

Obviously, these top metal materials were buried deep under the earth before, and they couldn't be found without careful investigation. Now the earth has completely collapsed, and these top metal materials are all exposed.

Even sometimes, they can get some fairy stone fairy crystals.

It's not only the qi veins that contain immortal crystals, places like Zixiao Dongtian, and other places also contain immortal crystals, but there are not as many qi veins.

Flying all the way, harvesting continuously.

I don't know how long it took to fly, and suddenly I saw a glimmer of light.

"I'm going to the edge, I can feel that the time and space outside will not be chaotic."

Bubble cried excitedly.

"rush out!"

Lu Ming and the others speeded up and rushed forward.

With a touch, they seemed to have rushed through some kind of barrier and appeared in a calm place.

"Come out, this is the ruins of the universe, yes."

Exclaimed Bubble.

Everyone's gaze swept away, and it was certain that this place should be the ruins of the universe, and they had already left Zixiao Cave.

Because the void behind, shaking like water waves, in the distorted and covered area, I don't know how big it is. Anyway, at first glance, this kind of distorted void is everywhere.

Obviously, Zixiao Dongtian was collapsing, affecting the space of the ruins of the universe.

"We will leave here soon, lest we meet the masters of the three clans of the Forbidden Land!"

Lu Ming said.

They came out, and the masters of the three clans of the Forbidden Land were mostly fine. If they met, it would be bad.

In the ruins of the universe, they are much less restricted than Zixiao Dongtian. As soon as their figures flashed, they disappeared from the place where they were.

They quickly flew towards the Extinction Army station.

To be honest, they were a little worried about the others who would destroy the Heavenly Army.

Although the lion had confessed before, let those things go wrong, so he evacuated quickly and left Zixiao Cave.

The Zixiao Cave sky collapsed. Although it could not cause fatal damage to Lu Ming and the others, ordinary divine masters could not withstand that destructive force.

If the Zixiao Caverns were completely destroyed and the people who destroyed the Heavenly Army were still there, the consequences would be disastrous.

However, when he came out just now, Lu Ming transmitted sound to a few acquaintances of the Mietian Army, but discovered that the sound transmission jade talisman could not be transmitted at all.

Those few people all have the strength of the top heavenly monarch, even in the Zixiao Cave Heaven, they can logically survive.

There are three reasons why the sound transmission jade talisman cannot be transmitted.

One was that they had come out a long time ago and returned to the Extinguisher's garrison. The distance between the two sides was too far, so they couldn't spread it out.

The second is that they have fallen.

Third, they are still in the Zixiao Cave.

Lu Ming felt that the first reason should be bigger.

After all, Lion, Gu Changfeng and others had explained that they had caused everyone to leave early.

They quickly flew towards the Exterminating Army, but after flying for a while, they stopped.

"Something is wrong, this cosmic ruin, something is wrong..."

Lu Ming whispered, frowning slightly.

"It's really wrong, I feel that the profound rules between heaven and earth are much stronger than before, and a lot more orderly..."

Bubble also followed.

"Let's take a look at a piece of continental debris."

Lu Ming said.

After a while, Lu Ming and the others were a little stunned.

They found a piece of continental fragments, but this piece of continental fragments was extremely huge, as if many fast continental fragments were pieced together.

Around this huge continental fragment, there are also some small continental fragments, which seem to be slowly approaching this continental fragment.

Although the speed is not fast, it is indeed approaching.

The most important thing is that the environment on these continental fragments is too good.

The vegetation is lush, full of vitality, and even covered with all kinds of magical medicine. Although the level is not high, the quantity is amazing.

The main reason is that the prehistoric aura is too strong.

Yes, on the mainland fragments, the rich and wild aura is astonishing, and it is simply better than the cultivation environment in the former resident of the Celestial Exterminator.

If they remember correctly, these continent fragments were all ruins before.

Chapter 4946: Has been eight thousand years

These fragments of the continent were just ruins before, and there was nothing on them.

Because it is not very far from Zixiao Cave, they passed by here when they came last time, so they remember it very clearly.

what happened?

It's only been a few years, why has such a huge change occurred here?

Lu Ming released Xie Nianqing, Qiuyue, Lion and others from Honghuangjie, and they also looked confused.

"In just a few years, such a big change has actually occurred. It shouldn't be. Even if the ruins of the universe begin to recover, it shouldn't change so fast."

Dan Dan has some incredible ways.

"Will there be an error in time, in fact, it is more than a few years in the past..."

Bubble suddenly spoke.

Others were shocked.

"Bubble, what do you mean?"

Lu Ming asked.

"When the sky of Zixiao Cave collapsed, the time and space inside became very chaotic and completely irregular. Perhaps it has not been long before the universe is ruined, but many years have passed."

Bubble speculated.

what?

The hearts of the people shook more violently.

Many years have passed?

But it's not impossible. Bubbles' attainments in time and space are indeed beyond their reach.

"If it is true, how many years have passed?"

Lu Ming asked again.

"It's hard to say, it's hard to judge."

Bubbles frowned, his little brows like white jade, it was obvious that he was embarrassed.

"Let's go and see elsewhere."

Lu Ming said.

They left again, and continued to fly towards the Extinction Army station.

After flying some distance, they again found a huge continental fragment.

As before, this piece of continental debris was also very huge, as if it was made up of many pieces of continental debris, and there were many other continental debris around, approaching the largest continental debris in the middle at a slow speed.

On the fragments of the mainland, it is lush, full of vitality, and very strong.

Is Bubble's speculation true? Many years have passed.

Wouldn't it have been more than ten thousand years.

Has the origin of the catastrophe passed?

"The Great Tribulation of the Origin has not passed yet, because I can still feel the pressure brought by the Great Tribulation of the Origin, but it seems that this pressure is much smaller than before."

Gu Changfeng said.

"I also have this feeling."

Lion followed.

It is difficult for ordinary divine masters to feel the changes brought about by the great calamity of the origin, but the peak of divine masters is different.

The peak of the **** master is infinitely close to the origin realm. Although the origin catastrophe is harmless to them, they can still feel the origin catastrophe.

Vaguely, I can feel a dull pressure between heaven and earth.

"The origin of the catastrophe has not passed, which means that ten thousand years have not passed, but the pressure is much lighter than before. It seems that time has really passed a lot."

Lu Ming speculated.

"We quickly return to the station."

Lion Road, his face was worried.

If a long time had passed, what happened to the Heaven Extinguishing Army?

Will it be attacked by forbidden creatures or other forces?

Their hearts became a little anxious.

They have increased their speed to the extreme, regardless of the loss of power, a flash is a distance of hundreds of millions of miles.

Along the way, they discovered that the continental fragments in the ruins of the universe were indeed converging with each other.

From small continental fragments, they converge into large continental fragments.

They don't know what caused it.

Could it be that all the continental fragments in the future will gather together?

The reappearance of the wild continent?

After a while, they were not far from the station of the Heaven Extinguishing Army.

"The news has spread."

The lion spoke suddenly, a little excited.

After constant attempts, news finally came out.

They continued to fly, and soon they saw a group of people flying towards them.

They are the people who destroy the heavenly army.

All are the existence of the **** master level.

Ye Ling, Mo Chang, Rong Gong...

Lu Ming saw many acquaintances at a glance.

Their hearts are all loose, and the big stone in their hearts is finally let go.

Ye Ling, Mo Chang, Rong Gong and others had entered Zixiao Cave Sky together before, but now they are all alive, which shows that they have indeed evacuated Zixiao Cave Sky a step earlier.

Lu Ming and the others were happy, but found that Ye Ling and others were even more happy.

"They are still alive!"

"Hahaha, I know, they are still alive, they are lucky, how could something happen."

"Yes, yes, great."

From the crowd of the Exterminating Army, cheers continued.

There were at least hundreds of people who came to meet Lu Ming and the others, all of whom were in the Divine Realm.

The two people quickly gathered together.

"Mengxu, what happened?"

The lion couldn't wait to ask Mengxu God Lord.

Mengxu Divine Lord, Qiuyue was the master of the Heavenly Palace, and later joined the Heaven Extinguishing Army. He was a top-level Heavenly Sovereign figure. When the Lion and others were away, he was the high-level of the Heaven Extinguishing Army.

"You have disappeared for eight thousand years..."

As soon as Mengxu Divine Master spoke, Lu Ming and the others were shocked.

Eight thousand years!

Could it be that eight thousand years have passed since they were in the Zixiao Cave for such a short period of time.

Immediately, the God Lord Mengxu spoke briefly.

At the beginning, after Lion, Tang Jian, Rong Jin, Gu Changfeng and others left, they continued to explore the periphery of Zixiao Cave Sky. Seeing that Zixiao Cave Sky collapsed more and more severely, it would be very dangerous to stay longer, so they just Using the flying boat, he left Zixiao Cave and waited outside.

Also leaving, there are some ordinary **** masters of the Celestial Race and the Yaxian Race, all of which are not top in combat power.

Later, they discovered that a large number of powerful people from the three tribes of the Forbidden Land were coming towards Zixiao Cave Sky. They dared not stay, and quickly left and returned to the station of the Exterminating Army, but secretly sent people to always pay attention to the news of Zixiao Cave Sky.

But this waited for a full eight thousand years.

All the major forces, except for those who came out of ordinary power, those top masters, actually did not come out.

Lu Ming and others, the top masters of the Yaxian tribe and the Celestial race, such as Ye Immortal, Ye Qiu Xian, Cang Qiong and so on.

The same is true for the three families of the Forbidden Area. Not only did the top experts who entered in the front not come out, even the top experts who entered in the back did not come out.

They thought that something happened in the Zixiao Cave and the people who stayed in it were dead.

Unexpectedly, after eight thousand years, Lu Ming and others appeared alive.

That's it!

Lu Ming and the others understood that things were similar to what they had previously guessed.

The previous times were all synchronized, and the Zixiao Cave Sky completely collapsed in the back, reversing time and space, resulting in errors in the time between Zixiao Cave Sky and the Primordial Universe.

Those masters who entered behind the three clans of the Forbidden Land, such as the more than ten invincible divine masters mentioned by Cang Qiong, were mostly rushing to the Zixiao Immortal Kingdom, halfway through the collapse of the Zixiao Cave, and they were trapped together with Lu Ming Same, sleepy for so many years.

Chapter 4947: Retreat

"Eight thousand years, plus the previous 1,500 years or so, add up to about 9,500 years, which is not far from the origin of ten thousand years."

Lu Ming calculated it silently, feeling a little complicated.

Originally thought that he had enough time to slowly accumulate and prepare for the attack on the original realm.

Unexpectedly, after coming out of Zixiao Dongtian, he was not far from the end of the Great Tribulation of the Origin, and he felt that time was tense again.

"Eight thousand years, eight thousand years have passed. No wonder the ruins of the universe have undergone such a big change."

Dan Dan and others whispered.

Before, the ruins of the universe had already begun to recover, the cultivation environment became better and better, the wild aura became more and more dense, and the magical medicine everywhere was constantly appearing.

Now that a full eight thousand years have passed, the environment in the ruins of the universe has changed dramatically, which is normal.

"By the way, in the past eight thousand years, have all the forces attacked us and destroyed the heavenly army?"

The lion asked.

"No, maybe the top masters of all forces are not there, or maybe they are afraid of our strong origins."

Mengxu God dominates.

Lu Ming nodded, this is normal.

The top masters from all sides are not there, and other gods, even if they want to attack and destroy the heavenly army station, will not easily break the defensive formation of the heavenly army station.

What's more, it's really urgent. Origin is desperate to wake up, and those ordinary gods who can stop will die.

Therefore, when the top masters and leaders of all parties did not come out of Zixiao Cave, the universe ushered in a rare peaceful period.

All forces are developing silently.

Lu Ming, Xie Nianqing, Shi and others quickly adjusted their mentality.

For people of their level, eight thousand years have passed all at once, but it is actually not very long.

After all, a lot of god-level characters retreat once, for hundreds of millions of years, billions of years, or even several stellar years.

Eight thousand years is really nothing.

After chatting for a while, they returned to the extermination army station.

The people who destroyed the Heavenly Army cheered when they saw Lu Ming and others return.

"We are ready. Since we have come out of the Zixiao Cave, most of the masters of other forces have also come out. After they come out, the tranquility of the universe will definitely be broken, and they may attack us again."

In the Great Hall of the Exterminating Army, below the origin, all the high-level leaders of the Extinguishing Army arrived, Lu Ming slowly spoke.

This time in Zixiao Cave, Lu Ming learned a lot of information.

The three races of the Forbidden Land, the Celestial Race and the Demons, are not races in this universe. They will all be suppressed by this universe, especially above the Origin Realm.

In addition, the forbidden power he controls is actually the power of the universe. As his cultivation level increases, the power of the universe will become stronger and stronger. The stronger the power of the universe, the suppression of the three tribes, the celestial race and the demons will be forbidden. , Will be stronger.

Therefore, the taboo body and these forces are mortal enemies.

The devil doesn't know for the time being, but the three tribes of the Forbidden Land and the Celestial Clan will definitely not give up.

This time the master came out, and he would take care of them, so he must prevent it.

"For the past eight thousand years, we have been strengthening our defensive formations."

Mengxu God dominates.

"Not enough, far from enough."

Lu Ming shook his head.

Most of the formations of the Heaven Extinguishing Army's garrison are some main-level formations, and at most some broken source-level formations, which are sufficient to defend against ordinary gods, but for the existence of invincible gods, most of them are difficult to defend.

The existence of invincible divine master level, the combat power is too strong, it is not comparable to ordinary divine masters.

Moreover, there are now three more forbidden territories.

Back then, the Celestial Race had special methods that could break the defensive formations of the Celestial Army in a short time, not to mention the Three Races of the Forbidden Land.

Lu Ming waved his hand, and a large number of scrolls flew out.

"In this, there are some source-level formations, and some methods of refining artifacts and alchemy. They are all from the last epoch. You can use them to study and study. Once again, you also study and study together, and then try to destroy the heavens. Layout the source-level array around."

Lu Ming said.

"Of course it's fine, leave it to me..."

Once his eyes shone, he was excited to study the active-level array.

"However, in order to arrange a source-level formation, generally speaking, the existence of the source-level state is required. With my cultivation base, it is still very difficult. Some special materials must be used, such as some special metals, and even the source-level strong people. Bones..."

Dan Dan said.

"This is okay. If you ask Senior Lion, Senior Lion, believe that the Exterminator should have this inventory, right?"

Lu Ming looked at the lion.

Now, everyone has a faint feeling of being led by Lu Ming.

"Yes, after all, our Celestial Extinguishing Army has been established for sixty sidereal years. This inventory is still available."

Lion nodded.

"Also, here is a combined attack formation. We must choose suitable people to practice, which can greatly enhance our combat power."

Lu Ming waved his hand again, and a large number of carriers of combined attack formation appeared.

Most of the treasures they obtained in the Zixiao Cave are hidden in the prehistoric ring.

"so much..."

Lion, Tang Jian, and Rong Jin knew about them, but the God Lord Mengxu and others didn't know, staring at a large number of carriers of the combined attack formation at this moment, their breathing became heavy.

With a complete source-level formation, the method of refining tools and alchemy of the last era, and so many carriers of the combined attack formation method, what great gains did this trip to the Zixiao Cave have?

Many things are what they have been dreaming of without digging through the ruins of the universe.

Now, there are so many in front of them.

"Also, people who are distributed around the station or go out to take risks in cultivating, it is best to summon them back and guard the station. I am afraid that it will not be long before the forbidden creatures will attack us."

Lu Ming continued.

Everyone nodded.

After discussing for a while, everyone began to act in batches.

Of course, Lu Ming, Xie Nianqing, Qiuyue and others practiced in retreat.

Those scattered things, Lion, Tang Jian and others, will naturally arrange them.

The most important thing for them now is to break through retreat, especially Lu Ming, to break through the peak of the gods, the top priority.

There are too many masters in the three races of the forbidden area. According to Cangqiong, after removing the six invincible divine masters before, more than ten invincible divine masters appeared behind.

This is a staggering number. Once they are killed together, the Heaven Extinguishing Army will be very dangerous and even risk of destruction.

Time is pressing.

In a quiet courtyard, Lu Ming continued to take out the teapot and began to brew Yuanshen tea.

With a cup of Yuanshen tea underwater, Lu Ming closed his eyes and understood the origin.

And far away from the resident of the Heaven Extinguishing Army, dozens of figures appeared out of thin air on a piece of mainland debris.

The leader is Ye Immortal, behind Ye Immortal, following dozens of masters of the Celestial Race, Ye Qiuxian is among them.

puff!

Ye Immortal's face was pale, and a mouthful of blood came out.

Chapter 4948: Yeah the immortal plan

"Ancestor, are you okay?"

Ye Qiuxian asked with concern.

Ye Qiuxian's cultivation base at this time had actually reached the peak of God Lord.

At the beginning, Ye Immortal obtained two pieces of Yuan Shen tea, one of which was distributed to Ye Qiuxian, allowing Ye Qiuxian's cultivation base to break through to the peak of the gods.

But Ye Qiuxian did not go to the Zixiao Immortal Country, but took dozens of masters from the Celestial Race to look for treasures outside the Zixiao Cave.

When Zixiao Dongtian was about to collapse, they relied on their cultivation base and did not leave for the first time.

On the way, I found the seriously injured Ye Immortal, and then escaped from Zixiao Cave.

Not long ago, they had just come out and originally wanted to return to the Heavenly Palace, but Ye Immortal's injuries were so serious that they had to stop here.

"The primordial universe has changed tremendously, and the rules are many times more stable than before. Perhaps, the Zixiao Cave sky collapsed, time has been chaotic, and the primordial universe has been for many years."

Ye Immortal whispered.

After all, he is an old monster who has lived for endless years. His experience is too rich. Based on a little clue, he can infer a lot of things.

"Many years have passed?"

Ye Qiuxian and the others, their expressions changed slightly.

"But the origin of the catastrophe is still there. It should be within ten thousand years. This time, my injury is very serious. I must find a place to heal as soon as possible, otherwise the root of the disease will fall. You should return to the Tiangong first to check the situation..."

Ye Immortal ordered.

After that, he entered the fragment of the continent, swallowed the **** pill, and began to heal his injuries.

Ye Qiuxian protects the law for him, and the other celestial races first return to the Tiangong to investigate the situation.

Ten days later, several Celestial Races returned and reported the news.

"Eight thousand years have passed..."

Ye Immortal whispered, with no expression.

"Ancestor, who on earth hurt you? Is it the forbidden land?"

Ye Qiuxian asked, this question has been held in his heart for more than ten days.

"It's Lu Ming..."

Ye Immortal said coldly, with cold murderous intent in his eyes.

"What? Lu Ming again? Could it be that he has broken through to the peak of God Lord?"

Ye Qiuxian clenched his fists tightly, and his eyes were full of jealousy.

When Lu Ming was in the Ninth Level of the Divine Lord, he was able to fight against Ye Immortal at the pinnacle of the Divine Lord. In other words, Lu Ming of the Ninth Level of the Divine Lord had the power of the invincible Divine Lord.

At the peak of his Divine Lord, he didn't have this kind of combat power, but was comparable to the light front king envoy of the Yuanguang clan.

Back then, when he was in the Supreme Immortal City, Lu Ming was at most equal to him, but now he is far ahead.

"Lu Ming did not break through to the peak of the gods, but this time, he and other people besieged me. He alone can't help me."

Ye immortal road.

"We must get rid of, ancestor, this Lu Ming, we must get rid of, otherwise it will be another Tang Feng..."

Ye Qiuxian roared, his eyes were a little red.

Originally, based on his xinxing, this was not the case, but he was really crushed by Lu Ming too hard, too frustrated.

Ye Qiuxian's growth is not all smooth sailing.

At the beginning, he was not well-known among the Celestial Clan and was even looked down upon by others, but he has been forbearing, practicing in secret, intending to cultivate great achievements, and he is a blockbuster and proud.

Finally, he cultivated into the power of the perfect sky, and became the third masterpiece in the history of the Celestial race to control the power of the perfect sky.

At this time, it coincided with the birth of Taishang Xiancheng, and at this time was a once-in-a-generation, blockbuster opportunity.

However, in the Supreme Immortal City, he lost to Lu Ming.

I held a breath for so long, before I rushed up, I was suppressed, which was more uncomfortable than anything.

Later, he always wanted to surpass Lu Ming and suppress Lu Ming, but every time the consequence was that he was suppressed by Lu Ming.

This time, the blows caused him to burst his mind whenever he mentioned Lu Ming.

"Lu Ming naturally wants to get rid of..."

Ye Immortal said coldly: "After I recover from my injury, I will unite with the three clans of the Forbidden Land to kill Lu Ming. Not only Lu Ming, but also the Heavenly Army, will also be destroyed."

This time, he was seriously injured.

After being attacked by Lu Ming, Gu Changfeng, and the combined attack formation, although he fled later, he was continuously wounded by the destruction of the Zixiao Caverns, hurting and wounding.

It will take at least a few months to fully recover without leaving any sequelae.

He finally reincarnates, wants to reach new heights in this life, surpass his previous life, and even prove to be immortal. He must walk very steadily and not leave any sequelae.

Moreover, a few months earlier and later a few months, there is no effect.

They have stayed in Zixiao Cave for eight thousand years. Then Lu Ming and others must be the same as him.

Besides, he didn't know that Lu Ming and the others had obtained Yuanshen tea leaves.

Without Yuanshen Tea Tea, it would take a long time to accumulate from the nine-fold breakthrough of God Lord to the peak of God Lord, so he was not in a hurry.

Ye Immortal continued to practice in retreat, and Ye Qiuxian and others protected him.

In a blink of an eye, it was another three months.

Ye's immortal injury was finally healed, leaving no sequelae.

"You first return to the Heavenly Palace, I'll go to the Devil Mountain in the Yin Pit..."

Ye Immortal ordered, and then stepped out, disappearing without a trace.

Now, the entire cosmic starry sky has long been enveloped by the evil Yin Qi, and all have become the territory of the Yin Sha clan.

Outside the Devil Mountain in the Yin Pit, Ye Immortal saw King Ghost and King Hades.

Along with the Ghost King and the Underworld King, there are three masters of the Yinsha clan. They all look young, but the breath they give is extremely terrifying, not weaker than the Ghost King and the Underworld King.

These three are the existence of invincible gods, the peerless arrogance of the Yin Sha clan.

These three people awakened from behind. They had entered the Zixiao Cave and wanted to help King Ghost and Underworld, but they had just entered Zixiao Cave and had not arrived at the Zixiao Immortal Kingdom, so Zixiao Cave was completely Collapsed.

They also came out of Zixiao Cave Sky a few months ago.

"Ye immortal, you are alone, and you dare to come to my pit magic mountain, I think you are impatient to live."

The ghost king spoke coldly, staring at Ye's immortal eyes, flashing cold murderous intent.

He would never forget that Ye Immortal once took away one of their top source-level magical medicines.

Ye Immortal's expression remained unchanged, and he said, "I'm here to pay your magic medicine, not to mention, you killed me, it will not do you any good."

After speaking, Ye Immortal's hand glowed, and a magical medicine emerged.

It is a top-level source-level magical medicine, this magical medicine is constantly struggling, but it is wrapped in the immortal power and can't escape at all.

"Return our magic medicine?"

The five invincible **** masters at the scene were all shocked.

Ye Immortal took out a jade box, packed the top source-level magical medicine into the jade box, and then closed the jade box.

There are layers of seals on this jade box, so the magic medicine is not afraid to escape.

Chapter 4949: Sixteen invincible gods

After the ghost king took the jade box, he was finally convinced that Ye Immortal really came to return the top source-level magical medicine.

"Come on, what else is there for you?"

The ghost king turned his eyes.

He didn't believe that the Ye Immortal Society rushed to deliver the top source-level magical medicine.

If Ye Immortal was so timid, he would not have taken the initiative to **** the top source-level magical medicine.

This is a ruthless person.

This is King Guisha's evaluation of Ye immortal.

In today's prehistoric universe, there are only two of the ghost kings who have commented so much. The other is Lu Ming.

"I want to join forces with you to kill Lu Ming, to attack and destroy the heavenly army!"

Ye immortal road.

"Go kill Lu Ming? Attack and destroy the heavenly army?"

The Ghost King's eyes flashed.

"It's easy to say, but don't forget that in the Extinction Army's garrison, there are a lot of powers from the Origin Realm. If our army crushes the realm, the Extinction Army is in danger of being destroyed. Will those Origins wake up? Many, we can't stop awakening a few terrible origins."

King Hades continued.

"Now that the Origin Tribulation is still there, if the Origin of the Heaven Extinguishing Army is forced to wake up, it is looking for death. The stronger the cultivation base, the greater the impact of the Origin Tribulation, and the faster it will die.

Ye Immortal smiled faintly, as if Zhizhu was holding it.

"Before they die, it will be enough to kill us."

King Hades continued coldly.

"This is easy to handle. I have two suggestions. First, we can be prepared to open the wormhole in advance not far from the station of the Exterminating Army!"

"Second, we can also find the Yuanguang Clan and the Cangming Clan to join forces. Lu Ming is a taboo body, and the power to control the universe is our common enemy. I believe that the Yuanguang Clan and the Cangming Clan are also willing to attack. Kill Lu Ming, we all work together, and each party will bring some sleeping origins."

"If the Heaven Extinguishing Army has too many origins and too strong at one time, then we can also awaken the Origins and fight against them. As far as I know, there are only forty-nine origins of the Heaven Extinguishing Army. We will join forces. Even if there is a loss, it will not be great, and the energy consumption will kill the heavenly army."

"If the Heaven Extinguishing Army has not many sources of awakening, and its strength is not strong, we can stop them, even if they can't stop them, they can also take a wormhole to leave. You must know that under the great calamity of the source, once the source is awakened, it is irreversible. Yes, once awakened, there is only one dead end, and it is a dead end, we will not have any loss, and this will also consume them."

Ye Immortal explained his plan in detail.

The eyes of Ghost King and others lit up.

This plan is completely feasible.

If they all work together, each party can bring some of the origins.

Even if all the forty-nine origins of the Celestial Extinguishing Army awakened, the big deal was that they would also awaken the forty-nine origins. Even if they died together, their four forces joined forces, and each side only lost more than ten origins.

With their background, it is completely bearable.

At the very least, it is totally worth it to eliminate Lu Ming and Gu Changfeng, and to eliminate the two taboo bodies.

This is called permanent elimination.

Ghost Sha King, Hades King, and the other three Invincible Divine Masters secretly talked with each other for a while, and they decided to agree to Ye Immortal's proposal.

In fact, when they first came out of Zixiao Cave, they also wanted to take action against the Heavenly Annihilation Army, killing Lu Ming, because they were afraid of the sleeping origin of the Heavenly Army.

It's just the words of the gods, they didn't take it seriously.

No matter how strong Lu Ming and Gu Changfeng are, they are just two people, equivalent to two invincible divine masters.

"We agreed, but the Yuanguang Clan and Cangming Clan may not agree."

Ghost evil king.

"They have no reason to disagree."

Ye immortal smiled confidently.

Sure enough, after they went to the Yuanguang Clan and the Cangming Clan, the two clans did not think too much, and agreed.

The three powerhouses gathered and once again slammed towards the station of the Exterminating Army.

Only this time, the momentum is greater than ever.

The three clans of the Forbidden Land and the Celestial Race joined forces, plus the Celestial Race.

Not many people are deployed.

But they are all top masters.

The three clans of the forbidden area, plus Ye Immortal, have a total of sixteen invincible divine masters.

In addition to the sixteen of them, each force also dispatched hundreds of people to control these dozens of chariots.

Among these dozens of chariots, the powerful primordial realm of the Quartet is sleeping.

Sixteen invincible **** master-level existences flew in the forefront.

"I heard that your race is called the Celestial Race, and the forces you created are called Celestial Palace?"

In the Yuanguang clan, a young man looked towards Ye Immortal and asked quietly.

This person is called Yuan Siji.

"Not bad!"

Ye Immortal groaned.

"Hey, you dare to use the name 'Heaven' as the name. I really don't know that the sky is high and the earth is thick. If those beings know about it, your clan will instantly turn into fly ash, disappear from the sky and the earth, leaving no trace. under."

Yuan Siji sneered.

Others also looked at Ye Immortal with a smile.

Ye Immortal's face suddenly turned pale as snow, as if thinking of something, a look of fear was revealed in the calm eyes.

"It's just called in this abandoned prehistoric universe, shouldn't it matter?"

Ye Immortal showed an ugly smile, but the smile was very far-fetched.

"Those who don't know about existence will naturally not get in the way. If they know it, it's hard to say..."

Yuan Siji smiled.

"The demihumans are the demihumans, and they dare to use the name "Heaven". I advise you to change it back early. Now that the primordial universe is recovering, no one can predict the future..."

Ghost evil king.

"You...you mean that those existences will descend into the prehistoric universe?"

Ye immortal and fearful.

"In the future, who is accurate? However, the Heaven Extinguishing Army dare to use the name 'Exiting Heaven', and it will only die even more miserable. We wiped them out in advance, which is considered to be a help for them."

Ghost King sneered.

Ye Immortal fell silent, not talking, seemed to think of a lot, and worried.

.....

Annihilation army resident.

During this period of time, the Heaven Extinguishing Army had summoned all the people in the surrounding area and guarded the station.

In the past few months, both day and night and other masters of the formation of the Sky Extinguish Army have studied the source-level formation.

However, the source-level formation is too mysterious and obscure, even with Dandan's knowledge of the formation, it is difficult to study.

Not to mention the layout.

For more than three months, Dan Dan teamed up with the masters of the formation, only to arrange a corner, and even one percent of the resident of the Exterminating Army was not covered.

Even with sufficient metal materials and original bones, it will not work.

Their cultivation base is still a little too weak, and Dandan has only Divine Master Nine Layers, and can't arrange it by hand, and can only let other Divine Master Peak masters do it for them.

However, it is extremely difficult to arrange the source-level formation based on the cultivation base of the **** master peak, and it takes a lot of effort to inscribe a formation.

In addition, I am not familiar with the matchmaking method, and each pattern needs to be studied and compared repeatedly, and the speed is naturally slow.

Chapter 4950: Boost

Lu Ming was still cultivating, and he had already exhausted the energy of a piece of Yuanshen Tea. That piece of tea, not in emerald green, became transparent, without the slightest abnormality.

But Lu Ming still hadn't made a breakthrough, and his cultivation was still in the Ninth Divine Master.

And, the second tea leaves have been used for a while.

"Xiaoqing and Tang Jun have both broken through, and Qiuyue is coming soon, and everyone else is just a piece of Yuanshen tea. I almost run out of the second piece, and I haven't broken through yet."

Lu Ming was also a little speechless.

The original power in his original seed is already much stronger than a few months ago, but it is still stuck in the nine layers of the gods.

He had long guessed that his cultivation consumes more resources than ordinary people, and indeed one piece of Yuanshen Tea is not enough.

He even felt that two pieces of Yuanshen tea leaves were not enough.

Ok?

Suddenly, Lu Ming looked in one direction, and there was a strong breath.

"Qiuyue broke through!"

Lu Ming showed joy.

Xie Nianqing and Tang Jun made a breakthrough first. The two of them are reincarnation. The previous life is the existence of the original state. When they break through, naturally they are faster than the others.

Now Qiuyue is also breaking through, and it's not too far away from the other people.

"I'm going to work harder. Although the forbidden land creatures and the Celestial Race have not changed in the past three months, it is still unpredictable. I always feel uneasy..."

Lu Ming took a deep breath and calmed himself down, then drank a pot of Yuanshen tea tea leaves, drank it in one gulp, closed his eyes, and began to understand.

咚咚咚...

Soon after, there was a sudden loud noise.

It is the sound of war drums.

Lu Ming opened his eyes suddenly, with a solemn expression in his eyes.

"The drums of war sounded. After a few months, it came."

Lu Ming sighed slightly.

His spiritual consciousness radiated and left the cave, as if a pair of eyes had condensed outside, looking towards the void above.

咚咚咚...

The drum of war continued to sound.

"Enemy attack!"

"Prepare for war!"

"Dazhen, get up!"

There were roars, and countless figures rushed into the void and stood in the void.

Gu Changfeng, Lion, Tang Jian, Rong Ban, Mengxu God Lord, even Tang Jun and Xie Nianqing also appeared one by one.

"Yeah Immortal, there are people from the three races of the Forbidden Land, they have joined forces."

Looking out of the void, the lion's face changed wildly.

The faces of other people are also extremely solemn.

At this moment, endless runes appeared around the Extinguisher's garrison, intertwined, forming a huge array, covering the Exterminating Army's garrison.

Through the formation, it can be seen that outside the resident of the Exterminating Army, several huge wormholes have emerged at a distance of more than 100 million miles.

One after another, chariots rushed out of the wormhole.

In the end, there were about a thousand figures standing outside the wormhole.

Although the number of people is not large, it has gathered forces from all sides.

Tianren, Yuanguang, Yinsha and Cangming.

"The six invincible gods and the immortality of Kaye are all here."

Gu Changfeng said.

The expressions of the others in the Heaven Extinguishing Army changed wildly.

In the past, they thought that the strongest heavenly monarch was the strongest under the origin. Now they know that there are several classes of the strongest heavenly monarch going up.

Invincible Divine Lord, than the strongest Heavenly Monarch, I don't know how many times stronger.

This time, did seven invincible **** masters come in one breath?

How to fight this?

It doesn't come from the source, it's not an opponent at all.

"Don't be too happy, these seven people are just three tribes I have seen, known, and forbidden, and there must be invincible gods I don't know."

Gu Changfeng continued to speak, letting everyone's hearts sink to the bottom.

The Quartet forces, about 1,200 people, pulled dozens of chariots and stood side by side outside the wormhole, very close to the wormhole. If you want to go, you can leave through the wormhole at any time.

Hh hh hh...

Some of them, stepping forward, approached to the station of the Exterminating Army.

A total of sixteen people.

Ye Immortal is among them, and the other fifteen people, the Yin Sha clan, the Yuanguang clan, and the Cangming clan, each have five.

It can be seen that the ghost ghost king, the Yuan Wu Ji Yuan Liu Ji, the Cang Luo Prince and the Cang Qing Prince are all among them.

Although separated by a distance of more than 100 million miles, the speed of the fifteen people was extremely fast. With just a few flashes, they crossed a distance of hundreds of millions of miles and arrived not far from the station of the Exterminating Army.

The sixteen people were filled with an aura of horror, like sixteen terrifying black holes, floating outside the resident of the Heaven Extinguishing Army.

"Sixteen invincible **** masters!"

Gu Changfeng's pupils contracted sharply and exclaimed.

The other people suddenly felt a chill, and went straight to the sky from the soles of their feet.

Sixteen invincible divine masters, the three tribes of the Forbidden Land, unexpectedly dispatched so many terrifying powerhouses, they actually have so many terrifying powerhouses.

Sixteen invincible gods, what is this concept?

At the beginning, the twenty strongest heavenly monarchs of the Celestial Clan were killed, and the power was astonishing enough, but compared with this, it was the difference between the candlelight and the Haoyue.

It's totally incomparable.

"How to do?"

"It's over, do you want to wake up the source?"

Many people in the Exterminating Army had thoughts in their hearts.

Lu Ming saw all these through spiritual sense.

"The three clans of the forbidden area, as expected, the masters are like clouds. Each party has actually dispatched five invincible divine masters. The defensive formation of the Heaven Extinguishing Army's resident is absolutely unable to stop these people. I must speed up and speed up..."

Lu Ming roared in his heart, revealing a hint of fruit, and took out another piece of Yuanshen tea, put it in the teapot, and brewed it.

Brew two Yuanshen tea leaves together.

Yuanshen tea leaves are best brewed one by one without any side effects, but if you brew two pieces together, you don't know.

Because no one is so luxurious.

But Lu Ming can't manage that much now, and must speed up.

He quickly brewed a pot and drank it in one gulp.

wire...

Lu Ming immediately took a deep breath, and felt tearing pains coming from his head.

The medicinal properties are too strong!

Hold back!

Lu Ming took a deep breath, resisted the pain, and began to understand the origin.

Lu Ming's mind, boundless tenacity, although the pain in his brain became more and more intense, he couldn't move his heart.

After a while, he even showed a hint of joy.

With the two pieces of Yuanshen tea tea leaves, the speed of comprehending the origin has really increased.

In this way, the time for him to break through the peak of the gods will definitely be shortened.

Outside the station of the Exterminating Army, sixteen terrifying figures stood side by side.

"Everyone, is there any good strategy to break the battle?"

Ye Immortal glanced over the other fifteen people.

"To break the formation, of course, let the Yin Sha clan go out. The Yin Sha clan breaking the formation bead is a weapon for breaking the formation."

A young man in the Yuanguang clan laughed lightly.

This is Yuan Siji.

The five invincible **** masters of the Yuanguang clan are vaguely headed by Yuan Siji.

Not all of them are brothers.

Yuan Siji Yuan Wuji Yuan Liuji are brothers, the other two are just two peerless geniuses of Yuanguang Clan, but their status is not as high as Yuan Siji.
