

D Emperor 4951

Chapter 4951: Break the formation

The five invincible **** masters of the Yin Sha clan all showed a trace of pride.

"The formations of the Celestial Destruction Army are messy and messy. Most of them are main-level formations. There are a few incomplete source-level formations. Although they seem to be large in number, they are not powerful and it is not difficult to break them."

The Ghost King faintly analyzed and said, he looked like he was sure.

"Then please take action, lest it will change later."

Ye immortal road.

"Change, what else can change?"

Among the Yin Sha clan, a pale youth smiled disdainfully.

This person is called the evil evil king.

He looks down on Ye Immortal.

It is ridiculous that the sub-human races were just enslaved by the human races, and now they are on an equal footing with them.

Ye Immortal cursed inwardly, but his face remained calm.

"Go ahead!"

Gui Sha Wang Dao, he waved his hand, the storage bag around his waist glowed, and a dozen black beads flew out.

The storage items of the three tribes in the Forbidden Area are very similar to those of the Primordial Continent in the last era. They used storage bags instead of storage rings.

In fact, the functions are almost the same, there is no difference.

At the side, King Underworld, King Evil, and other four people also took out a dozen black round beads from their storage bags.

This black round bead is the Yin Sha breaking array bead, a unique treasure of the Yin Sha clan.

Huh hoo...

The five masters of the Yin Sha clan knocked out the Yin Sha Breaking Array Beads in their hands. A total of more than 60 Yin Sha Breaking Array Beads flew to all sides of the Heaven Extinguishing Army's resident, and then exploded.

The endless evil spirit of Yin and evil, permeated, enveloped the entire Extinction Army station, and collided with the defensive formation of the Extinction Army station.

Zi Zi Zi...

The evil evil spirit in the evil spirit breaking array is extremely corrosive. After contact with the defensive formation, it makes a sizzling sound and begins to corrode the defensive formation.

The Extinguisher's garrison was shrouded in darkness, and the surrounding formations were trembling.

In just a few hours, the defensive formation of the Heaven Extinguishing Army was much weaker.

Many formations even dissipate directly.

Of course, the evil evil spirit outside also consumes a lot. A trace of light shines through the evil evil spirit into the station of the Celestial Extinguisher, and you can see that every person of the Celestial Exterminating Army has a very complex expression. Ugly.

"Hehehe, give me despair!"

Seeing the expressions of the people in the Exterminating Army, the evil evil king smiled repeatedly.

After a few more hours, the evil spirits outside of the Heaven Extinguishing Army's garrison were almost exhausted, but the defensive formation of the Heaven Extinguishing Army had also dimmed many times, becoming precarious.

"Now, let's break it!"

Gui Sha Wang Dao, he took out a black flag, the black flag waved, nine hideous evil spirits appeared, rushing towards the formation of the extinction army station.

Keng!

Ye Immortal also made a move, slashing out with a sword, and a ray of sword light that shook the sky, reaching hundreds of millions of miles, slashed towards the resident of Heaven Extinguishing Army.

Huh hoo...

The five masters of the Yuanguang clan, their beam hair, like a series of sharp swords, stab at the station of the Exterminating Army.

The master of the Cangming Clan of the Yin Sha clan also shot at the same time.

Sixteen invincible divine masters shot, and the power was too terrifying. When the attack fell on the defensive formation of the Sky Exterminating Army, cracks appeared in the defensive formation of the Sky Extinguishing Army.

At the beginning, it took hundreds of years for the formation of more than 10,000 gods of the Celestial Race to break open. They could break open in a few hours.

One reason was that the formation was broken by the evil spirits, which consumed too much energy.

The second reason is that the power of the invincible divine master is too strong.

It's not that the power of sixteen invincible divine masters exceeds more than ten thousand divine masters, that is impossible.

The main thing is that although the power of more than 10,000 gods is strong, it is scattered. The power cannot be twisted together. The attack power is scattered, and the destructive power against the formation is naturally insufficient.

But the attack of the invincible divine lord, concentrated together, violently attacked one point, the destructive power was too strong.

Even if there is no Yin Sha Breaking Array Orb, the defensive formation of the Heaven Extinguishing Army will not be able to stop them for long.

"Break it for me!"

Ye Immortal yelled, the sword light soared, and the defensive formation was abruptly torn into a crack, and he was about to rush in through the crack.

"Get out of here!"

Gu Changfeng yelled, stepped out, appeared not far from Ye Immortal, and blasted out with a punch.

Fist strength smashed the void and crushed towards Ye Immortal.

Ye Immortal swung his sword to resist, with a bang, his figure violently retreated, his defensive formation squirmed quickly, and the crack disappeared.

But at this moment, on the other side, Yuan Siji also tore a crack in the formation.

Gu Changfeng's expression changed, and he immediately rushed towards Yuan Siji, knocking Yuan Siji back with a punch.

"Just you, an invincible god, see how you block us?"

"Tear me!"

Yuan Wu Ji, Ghost Sha King and others all sneered, and they also shot with all their strength, the formation was shaking, and they were all torn apart.

Gu Changfeng was alone, it was impossible to block them all.

"Arrange the formation, deploy the attack formation, and blast them out."

The lion roared.

Suddenly, the shadows of the people in the Heaven Extinguishing Army flickered, and a set of combined attack formations were arranged.

All levels are available.

The strongest joint attack formation is a joint attack formation of 21 people, which is composed of 21 strong masters on the peak.

Almost all the arrangers of other combined attack formations are also the existence of the peak of the gods.

The strongest group of people in the Heaven Extinguishing Army were selected to arrange a combined attack formation.

There are dozens of large and small combined attack formations. Naturally, Lu Ming and the others brought them out of Zixiao Cave.

The large and small combined attack formations are condensed into various forms, some swords, some swords...

Most of them are condensed into a warrior, wearing battle armor.

These combined attack formations rushed high into the air, and they slew towards the invincible **** masters who had torn apart the formations.

"Go away!"

"The mere formation of nine people, also want to stop me, die!"

A series of indifferent voices sounded, and a terrible attack broke out.

One by one, they were beaten out of the formation.

There were more than ten combined attack formations, and they even broke apart. The body of the people in the formation was torn and fell on the spot.

The Invincible Divine Lord is too strong, except for the 21-person joint attack formation that can match the Invincible Divine Lord, other joint attack formations are not acceptable.

It's not bad to be able to block it without breaking apart.

But those nine-person combined attack formation, seven-person combined attack formation, it's not enough.

There are many more, all of which are incomplete combined attacks, lacking a carrier, and not perfect.

What broke up just now was the relatively small and incomplete combined attack formation.

"Unless it is a combined attack formation of 21 people, otherwise, with these broken formations, I want to stop us, naive!"

"broken!"

Ye Immortal and the others came out again, the defensive formation was torn into cracks, and they stepped in through the cracks and walked into the garrison of the Heaven Extinguishing Army.

More than a dozen terrifying auras spread out, pressing on the people of Heaven Exterminating Army.

Chapter 4952: Awakening

Sixteen invincible divine masters had torn apart the defensive array and stood high in the sky.

They didn't immediately attack the Heaven Extinguishing Army's people. Instead, they waved their hands and shot out a ray of glow, flying to all directions of the Extinguishing Army's resident.

They are aiming at those bases.

As long as the formation is broken and the formation of the Celestial Army is destroyed, it will not be able to operate completely, and they can advance and retreat freely.

After all, they are still afraid of destroying the origin of the heavenly army.

I'm afraid that if those Origins are desperate, too many suddenly wake up, and there are formations behind them, and they don't retreat in time, then I have to explain here.

Boom boom boom...

The formations were cracked by bombardment.

The formations shrouded in the Extinguishing Army's garrison all dissipated.

The fifteen invincible gods all breathed a sigh of relief.

In this way, they can advance and retreat freely, and once they sense the aura of the source, they can instantly retreat.

"Gather together, defense!"

The lion roared.

The masters of the Heaven Extinguishing Army gathered together quickly. Those combined attack formations fell on the periphery, and the other gods were in the middle.

As for the divine lord, they are all on the ground below. If the situation is not right, let them escape in a wormhole or teleportation formation.

In this war, there is no room for intervention under the gods.

"Hehe, want to stop us too?"

The ghost king and others sneered, condescending, watching the people who destroy the heavenly army, like a lamb slaughtered.

"Where is Lu Ming, where is he?"

Ye immortal eyes are like electricity, sweeping all directions.

Among the Heaven Extinguishing Army, the one that cared about him most was Lu Ming.

Even if everyone in the Heavenly Army was killed, but let Lu Ming run away, it was still useless.

"Yes, what about Lu Ming, is it a tortoise with a shrunken head, hides, and quickly get out and die!"

"Hmph, if you don't get out, you will kill all the heavenly soldiers."

The Ghost King and Yuan Wuji drank coldly.

At this time, Lu Ming was still cultivating, but he was watching what happened outside.

"Damn it, is it too late!"

Lu Ming shouted in his heart.

He still has no breakthrough, no time.

The three clans of the forbidden area broke the formation too fast. He originally thought that the defensive formation of the Heaven Extinguishing Army could delay a period of time.

It seems that there is only one battle!

At this point, there is no other way but to fight to death.

It is impossible for him to watch other people die in battle and survive on his own.

He was about to end his cultivation and went out to fight, but suddenly his mind moved and he looked in one direction.

In that direction, a breath of horror spread out.

It's like a dormant beast waking up.

The terrifying breath was instantly sensed by everyone.

The expressions of the sixteen invincible gods changed suddenly.

"It's the origin, the origin has awakened!"

"Retreat first!"

The sixteen invincible divine masters, their faces were a little dignified, and their bodies were like electricity, retreating back.

Although they are powerful, they dare not care about their origins.

Although they can sense that the source of awakening is only one, they can't feel how strong the aura of this source is.

As long as they are far enough away, they can rest assured.

They retreated tens of millions of miles before they stopped.

"The Great Tribulation of Essence now is much weaker than it was in its heyday, but Essence awakens and is still dying."

Yuan Wu Ji Dao.

"Yes, and the higher the cultivation base, the greater the influence of the great calamity of the original source, and the faster it will die. The cultivation base of this awakened original source should not be too high."

King Hades analyzed.

The three clans of the Forbidden Area have profound backgrounds, know a lot of secrets, and understand the origin of the Great Tribulation.

However, they still didn't dare to be careless, fearing that the Heavenly Annihilation Army had its origin and desperately, and what awakened was a terrible origin.

"The origin is awakened..."

The people who destroyed the heavens naturally felt it, but their expressions were not excited, but sad.

Under the great calamity of the origin, once the origin awakens, it is irreversible.

Once awakened, it is destined to fall.

Which source is it?

Huhuhu!

The aura of the Origin Realm diffused out like a volcanic eruption, covering the extinct heavenly army station, and then a figure suddenly appeared in the void.

This figure is as thick as a mountain in the eyes of those who destroy the heavens.

"Xinghuo Yuanzun!"

Someone cried out.

Many people recognize that this source is Xinghuo Yuanzun.

Lu Ming once saw this origin, on the battlefield of Qianqiu.

Xinghuo Yuanzun was enveloped by a strong source of power, his breath was strong, his eyes were like torches, staring at Ye Immortal and others, coldly shouted: "Fault me and destroy the heavenly army, kill!"

After speaking, he stepped out in one step, like lightning, rushing towards Ye Immortal and others.

"It turns out that I'm just a person from the early days of origin. How strong should I be? It's a laughter, this person, leave it to me, I want to make the people who destroy the heavenly army feel desperate..."

Yuan Wuji sneered, and stepped forward. He actually wanted to fight against a source alone.

Yuan Wuji's body glowed, among which a red glow was particularly conspicuous.

Red burning fairy light!

Facing the strong in the Origin Realm, even in the early days of the Origin, Yuan Wu Ji did not dare to take care of it. Once he shot, it was the strongest killer move.

The red burning fairy light combined with the war sword, cutting out a shocking sword.

Xinghuo Yuanzun also played a killer move, and the two attacks collided.

boom!

The void vibrated, and was torn into hideous cracks. Then, the two figures retreated back.

Tie!

This move is actually a tie.

The people of the three clans of the Forbidden Land were not surprised, but the people of the Heaven Extinguishing Army had their pupils widened.

Tie!

A divine lord, confronting a source of origin, can actually be tied?

What kind of combat power is this?

This is the invincible god?

Invincible God Lord, can clash with the source?

Most of the people in the Heaven Extinguishing Army had their hearts sinking.

Although they knew that the Invincible Divine Lord was very strong before, they didn't know that it was so powerful.

In fact, before the forbidden land creatures came out, most of the people in the Heaven Extinguishing Army had never seen the Invincible Divine Lord, or even heard of it in their entire lives.

Before that, under the origin, the strongest Tianjun was the strongest.

But the strongest heavenly monarch is far behind the origin, and can't compete with the origin at all.

The difference between the Divine Master Realm and the Origin Realm was too big, they thought that no one in the Divine Master Realm could contend with the Origin Realm.

"you..."

Xinghuo Yuanzun himself was also shocked.

Similarly, Xinghuo Yuanzun himself has never encountered an opponent of the invincible divine master level.

He originally thought that when he was awake, he could suppress the opponent, or at least repel it.

But now, he was actually blocked by the opponent alone.

"Hahaha, don't tell me, this is all your strength?"

Yuan Wu laughed greatly.

"kill!"

Xinghuo Yuanzun shouted, and his body exuded a hot aura. His original power was biased towards the fire attribute, and every time he shot it, it was like the fire of stars.

Swinging a dozen palms in a row, dozens of hot and huge palm prints, blasted towards Yuan Wu Ji.

Chapter 4953: The origin of the invincible god

Xinghuo Yuanzun blasted out more than ten palms in a row, but the Yuan Wuji was not afraid, urging the red light, holding the top-level source-level magic weapon, and fought against Xinghuo Yuanzun.

The speed of the two of them was reaching the extreme, and the people under the divine lord could not even see their movements clearly.

In an instant, the two clashed dozens of moves, and still had no winners or losers.

"Is this all your combat power? Hahaha, a source-level magic weapon, who has not understood the source of the source art, you are really ashamed of the source!"

Yuan Wu laughed greatly, completely not paying attention to Xinghuo Yuanzun.

Rage filled the eyes of Xinghuo Yuanzun, but he was also very helpless. In fact, he also knew very well that in the Origin Realm, his combat power was the weakest kind.

There are many factors affecting combat power in the original state. The cultivation base is one aspect, but not all, but only a part.

With the same cultivation base, the combat power may also vary greatly.

For example, source-level magic weapons, source-level battle armor, and source skills are all important factors that affect combat power.

The cultivation base of Xinghuo Yuanzun was in the early stage of the origin, and there was no origin-level magic weapon and no insight into the origin technique. It was almost the weakest kind of origin.

Otherwise, it will not help but a god.

The people who killed the Heavenly Army showed anger and sorrow in their eyes.

Xinghuo Yuanzun did not hesitate to awaken his life, but as a result, he was blocked by a **** master of the opponent.

Moreover, there are still fifteen opponents at this level, how can they fight?

Could it be that in order to deal with a few **** masters, the Heaven Extinguishing Army had to sacrifice more than a dozen origins?

"Fifth brother, no need to talk nonsense with him, I will help you kill him."

Yuan Siji's indifferent voice sounded, he stepped out and rushed towards Xinghuo Yuanzun, and also used a killer move to kill Xinghuo Yuanzun.

The two invincible divine masters shot together, and Xinghuo Yuanzun was immediately lost, and his body retreated violently.

"Four brothers and fifth brothers, I'll help you kill him."

Yuan Wuji also rushed up, the beam of hair like a divine sword pierced towards Xinghuo Yuanzun.

The three masters joined forces, and Xinghuo Yuanzun was even more invincible.

The other invincible gods did not take action, but stood in the distance to watch the show.

It is enough for the three of them to take action, so that it can also force the Annihilation Army to wake up more of its origin.

The origin disaster is irreversible, once awakened, there is only one way to fall.

They want the Exterminating Army to lose more of its origin.

puff!

Xinghuo Yuanzun was accidentally slashed by a sword of the Yuan Wuji, and the terrible red burning fairy light instantly broke through the origin body of Xinghuo Yuanzun, leaving a hideous wound on his body. The hot energy of Xiangguang is constantly eroding Xinghuo Yuanzun's body.

"Die to me!"

Yuan Wuji took the opportunity to kill, Xinghuo Yuanzun did not dare to hard-wire, and dodged.

Below, the people who destroyed the Heavenly Army were extremely anxious.

"What to do? If this goes on, Xinghuo Yuanzun will be killed."

Someone said anxiously.

After awakening, it was a great sorrow that a deity did not die under the great calamity of the source, but was killed by several gods.

"Would you like to ask a source with a stronger cultivation base to wake up? Kill the enemy in one fell swoop?"

Someone suggested.

"No, although the great calamity of the origin is in the late stage, the power is weaker than before, but it is not over yet. The higher the cultivation base, the stronger the power of the great catastrophe of the origin will be. Now the early existence of the origin is awakened, and it can support a period of time. Those who exist in the mid-term or higher cultivation level, once awakened, I am afraid that they will soon be unable to hold on and die under the great calamity of the origin."

Lion shook his head and suddenly refused.

Under the great calamity of the origin, the higher the cultivation base, the stronger the calamity strength it will bear.

Now in the later stage of the Great Tribulation of the Origin, the existence of the early origin can still bear for a while, and the stronger ones will soon be drained of the origin and fall on the spot.

"Then what should I do? Xinghuo Yuanzun will soon be unstoppable..."

Someone is anxious.

Xinghuo Yuanzun fell, and it was their turn later.

Even if you can't wake up the original source, is it true that the Heaven Extinguishing Army is going to be destroyed today?

Huh!

At this moment, a figure rose into the sky.

It's a bone demon!

He rushed towards Xinghuo Yuanzun and shouted: "Senior, take the magic weapon!"

Between waving his hands, two divine soldiers flew towards Xinghuo Yuanzun.

One is the Zijin Waryue, and the other is a pitch-black battle armor, which is the top source-level war armor of the gods in the Zixia Cave.

Xinghuo Yuanzun's eyes lit up, his body was like lightning, and he rushed towards the two divine weapons.

"Stop him!"

"Don't let him get it."

Yuan Siji Yuanwu roared, his body glowed, and he launched a terrible attack.

However, a skeleton appeared in front of them, and its body quickly grew larger, to block Yuan Siji and others' attacks.

"court death!"

"Break me!"

"dead!"

Yuan Siji, Yuan Wuji, Yuan Liuji three coldly shouted, and the three fairy lights bombarded the bone demon.

Keng! Keng! Keng!

Like the sound of gold and iron fighting, the bone demon was shocked, and the body was like a cannonball. It slammed down below the extinction army station. With a bang, it smashed into the ground, and smashed the ground out of a big hole. .

"Bone Demon..."

Xie Nianqing, Tang Jun, Lion and others rushed over, only to find that the bone demon had flown out of the big hole. There were only three shallow traces on him, which was not a major problem.

"Relax, I'm fine!"

Bone Demon Road.

Everyone is relieved.

Blocked by the Bone Demon, Xinghuo Yuanzun finally seized the opportunity and grabbed the two divine soldiers in his hands.

The original power in his body rushed into the top source-level battle armor madly.

He could tell at a glance that these two magic weapons were both top-notch.

However, it is better to refine the battle armor first, which has a greater effect.

The origin power of the origin realm was surging and thick, and almost instantly, the battle armor was refined and appeared on the body of the Starfire Origin Venerable, almost covering his body in the battle armor.

As soon as he put on the battle armor, Yuan Wuji and others' attack arrived.

However, the existence of the Origin Realm is fully capable of exerting the power of the Origin Level Divine Weapon.

The top source-level battle armor falls in the hands of the source, and the power that falls in the hands of the **** master is completely two concepts.

The attacks of Yuan Wuji and others fell on Xinghuo Yuanzun's body, and Xinghuo Yuanzun's body trembled a few times, nothing happened.

He kept running the power of the origin, rushing towards Zijin Zhanyue, refining Zijin Zhanyue.

Hum!

The tremor of Zijin Zhanyue was also refined.

"kill!"

Xinghuo Yuanzun shouted, killing intent like crazy, and Zijin Zhanyue strode out horizontally. The first to bear the brunt was Yuan Liuji.

The existence of the Origin Realm urged the top source-level magic weapon, the power was too strong, the Yuan Liuji face changed wildly, and quickly urged the top source-level armor to resist.

That's right, Yuan Liuji also has the top source-level battle armor.

The background of the creatures in the forbidden area is too deep. The source-level gods and source-level battle armors are precious to the Celestial Race and the Celestial Exterminator, but to them, they are nothing.

The invincible divine masters of the forbidden creatures all have top-notch soldiers and armor.

Chapter 4954: One person guards one side

boom!

Zijin Zhanyue slashed on Yuan Liuji's body severely.

Yuan Liuji's body shook wildly, even with a top-level source-level battle armor body.

The strong in the origin realm urged the top gods, the power is really terrifying, the violent power, through the armor, impact on the Yuan Liuji, the body of the Yuan Liuji, directly collapsed and turned into a strand of rich Yin Sha Gas.

However, the Yin Sha clan's body is special and its vitality is extremely tenacious. The Yin Sha Qi retreats violently, and then gathers together again, and the Yuan Six Pole reappears.

However, although Yuan Liuji was not dead, his aura was extremely sluggish, his face was even paler, and the Yin Sha clan aura on his body was many times weaker than before.

Yuan Wuji and Yuan Siji were horrified, and they did not dare to stand up and retreated violently.

"kill!"

Xinghuo Yuanzun shouted, killing intent into the sky, his current combat power has reached the strongest ever.

Many of the Origin Realm's existence does not even have a source-level magic weapon, let alone a top-level source-level magic weapon, let alone a top-level source-level battle armor.

The combination of the two made Xinghuo Yuanzun's combat power soar.

Now, even in the mid-primary existence, he doesn't care about it.

The source-level magic weapon has a great influence on the existence of the source realm.

With and without, there is a huge gap in combat power.

Xinghuo Yuanzun, towards Ye Immortal, and the powerhouses of the three races of the Forbidden Land.

Ye immortal, the expressions of the ghost king and others changed.

"Let's shoot together to block him!"

Yeah immortal yelling.

"Shoot!"

King Ghost, King Hades, Prince Cangluo, etc., all shot together, and they all used killer moves.

Yuan Siji Yuanwuji two also stopped and shot together, only Yuan Liuji retreated to a distance to heal his injuries.

Fifteen invincible divine masters shot with all their strength, and the offensive was earth-shaking.

However, Xinghuo Yuanzun didn't care about it, and had no intention of resisting it, allowing these attacks to fall on him, and urging Zijin Zhanyue to be cut out.

Boom boom boom...

More than a dozen attacks landed on the Starfire Source Venerable, all of which were blocked by the top source-level armor.

The existence of the origin realm urges the top source-level battle armor, the defense is too strong, the attack of the invincible divine master, there is almost no power to attack the star fire source through the defense of the battle armor.

If you want to damage the Starfire Source Venerable through the battle armor, only the existence of the same Origin Realm can inflict damage on the Starfire Source Venerable by urging the source level magic weapon, even the top source level magic weapon.

bump!

Zijin Zhanyue struck King Hades.

King Underworld shook violently and was smashed into the air. Like Yuan Liuji, he was hit hard.

If it weren't for the top source-level battle armor to resist, I'm afraid it would be killed directly.

With one move, one person was hit hard, and the Xinghuo Yuanzun continued to wave the Zijin Zhanyue, and smashed another person into flight.

bump! bump! bump!

In an instant, five or six invincible divine masters were smashed into flight, and all suffered heavy losses.

"Retreat, retreat all..."

At this moment, the ghost king roared.

In the rear, the masters of the four races, with their chariots, rushed into the wormhole and disappeared here.

And those invincible divine masters, gathered together, and constantly launched attacks on Xinghuo Yuanzun, attacking and retreating.

Don't want to hurt the Xinghuo Yuanzun, just to stop the Xinghuo Yuanzun.

A series of attacks continued to bombard Xinghuo Yuanzun's body, blocking his forward momentum.

Although Starfire Source Venerable is not afraid of these attacks, these attacks still have the impact, which falls on the source-level battle armor and forms an impact. It is not easy for Starfire Source Venerable to rush over.

He kept brandishing the purple and gold waryue, broke through these attacks, and kept approaching Ye Immortal and others.

But at this time, Ye Immortal and others were already close to those wormholes.

Huh! Huh! Huh! Huh! ...

Then, these invincible **** masters flew back, rushed into different wormholes, and disappeared.

Xinghuo Yuanzun stood outside the wormhole and did not pursue it.

There are four or five wormholes, which one should he chase?

If he chases down a wormhole, and the forbidden creatures in the other wormholes are killed again, who will guard the station of the Annihilation?

After pondering for a while, Xinghuo Yuanzun retreated to the sky over the resident of Heaven Extinguishing Army.

"Wait, do all you can to repair the defensive formation of the station."

Xinghuo Yuanzun only said a word, and then sat cross-legged in the sky over the garrison of Heaven Extinguishing Army.

"Efforts to repair the formation!"

"Start to repair the formation!"

Lion and others shouted.

They knew that Xinghuo Yuanzun was buying time for them.

The formation master of the Heaven Extinguishing Army immediately began to act.

Lu Ming continued to fully understand the origin.

Two days passed in an instant.

At a distance of more than 100 million miles beyond the resident of the Exterminating Army, those four or five wormholes, silently, some more figures appeared.

One of them is Ya Immortal.

Some other people are the invincible gods of the three races of the Forbidden Land.

Xinghuo Yuanzun suddenly opened his eyes, and his eyes were as bright as two suns.

However, he did not make a move.

Ye Immortal and others are standing by the wormhole. Obviously, as soon as he takes action, Ye Immortal and others will immediately return to the wormhole and escape.

The people who destroyed the Heavenly Army also discovered Ye Immortal and others, and they immediately became alert.

"Hey, it's ridiculous to want to stop us here!"

"That's it, now the origin of the catastrophe, how long can you stop us, and before long, you will fall."

"Your roots are constantly being swallowed and deprived by the universe. Every day, your roots will weaken by one point. Look, at most half a month, it is your death date!"

Yuan Wu Ji, Ghost Sha Wang and others sneered.

Xinghuo Yuanzun just glanced at Ye Immortal and the others coldly, then closed his eyes and didn't pay much attention.

In this way, he can last longer.

Xinghuo Yuanzun did not make a move, and Ye Immortal and others did not leave, standing near the wormhole, waiting quietly.

Time passes by day by day.

After more than ten days, Qiuyue, Paobao, Wanshen, Ling Yuwei and others broke through one after another, and their cultivation reached the peak of the gods.

However, Lu Ming still had no breakthrough.

In the past ten days, the breath of Xinghuo Yuanzun became weaker and weaker.

Even a person of average cultivation level can feel that the aura of Xinghuo Yuanzun is much weaker than when he first awakened.

From a distance, Xinghuo Yuanzun's body seemed to be leftover leaves in the wind, which might decay at any time.

"Genzun..."

Many people cried out with tears in their eyes.

The fall of Xinghuo Yuanzun is already inevitable.

This is to destroy the heavenly army, for the continuation of the heavenly army.

From the day he woke up, he knew his final fate, but he remained firm.

Many people feel very uncomfortable because a stone is stuck in their throat.

They hate their lack of strength, otherwise, why should Yuanzun desperately guard them?

"Hey, there are leaves in the wind, and they are about to perish."

"At most, it will fall completely in a few days."

"Can you protect them for a while, can you protect them for the rest of your life? When you fall, the Celestial Army will still be destroyed."

The ghost king and others mocked.

Chapter 4955: Sad and desolate, Yuanzun falls

Ghost King and others, constantly mocked.

Those who extinguished the heavenly army were so angry.

"Do what you should do, as long as you survive, all the sacrifices are worth it."

Xinghuo Yuanzun's voice sounded.

"Genzun..."

Many people cried out sadly.

In the distance, the ghost king and others sneered, but they still did not dare to take action.

Although Xinghuo Yuanzun is very weak now, and the combat power is probably not as good as the Invincible Divine Lord, they are still afraid.

Afraid of Xinghuo Yuanzun's dying counterattack, or even blew himself up.

One Yuanzun blew himself up, the power is unimaginable, they don't want to be dragged by Starfire Yuanzun to cushion their backs.

Anyway, just wait a few more days.

In a blink of an eye, another few days.

Xinghuo Yuanzun has been sitting cross-legged in the sky over the garrison of Heaven Extinguishing Army for half a month.

"Hey..."

Suddenly, a sigh sounded from Xinghuo Yuanzun.

With a wave of his hand, the Zijin Zhanyue and the top source-level battle armor flew towards the bone demon, and then his gaze took a deep look at the resident of Heaven Extinguishing Army, with a deep sense of perseverance.

Then, Xinghuo Yuanzun's body gradually turned into light rain, floating in the void.

"Genzun..."

The people who destroyed the heavenly army cried out sadly.

At this moment, in the distant void, a vision suddenly appeared, and a little light rain scattered, half like a meteor.

This is the ruins of the universe. It stands to reason that there are no meteors. This is a vision that only exists when the source falls.

The world is sad!

"Hehe, finally dead!"

"Now, keep going!"

Yuan Siji, King Guisha and others, stepped out, toward the station of the Exterminating Army.

There are still sixteen invincible gods.

Those who had been respected by Xinghuoyuan before, after half a month of recuperation, have recovered.

"Layout!"

Lion and others roared.

Around the garrison of the Exterminating Army, there are more runes of debut, and the formations are condensed.

However, the strength of the formation is far less than before.

In the past half month, although there have been rush repairs day and night, only part of the formation has been repaired.

"This dot matrix method also wants to stop us..."

Ghost King sneered.

This time, they didn't take out the Yin Sha Breaking Array Bead, and attacked directly.

Sixteen invincible divine masters shot, this formation could not stop it, and after a while, it was torn apart.

However, at this time, there was another powerful aura in the depths of the Heaven Extinguishing Army's garrison.

The breath of origin!

Obviously, the Heaven Extinguishing Army, another origin has awakened.

In the void, a figure appeared out of thin air.

This is an old man, with white beard and hair, but a fairy style.

"Fengxian Yuanzun!"

Many people from the Heaven Extinguishing Army recognized this old man.

This old man is also an early existence in the Origin Realm.

Seeing Fengxian Yuanzun appearing, the people who destroyed the Heavenly Army were not at all happy, but deeply sad.

Fengxian Yuanzun wakes up and will end exactly the same as Xinghuo Yuanzun.

"Source-level magic weapon and battle armor, lend me a use."

Fengxian Yuanzun looked at the bone demon.

"please!"

With a wave of the bone demon, the Zijin Zhanyue and the Yuan-level battle armor flew towards Fengxian Yuanzun.

Fengxian Yuanzun grabbed the Zijin Zhanyue and the battle armor, stepped out in one step, and left the formation of the Exterminating Army.

Seeing Yuanyuan awakening, Ye Immortal, King Ghost Sha, and others, have long retreated and retreated to the side of the wormhole.

Fengxian Yuanzun did not chase, but sat cross-legged where Xinghuo Yuanzun had fallen.

Afterwards, Fengxian Yuanzun's gaze glanced at a certain place where the Heaven Extinguishing Army was stationed. This place was exactly where Lu Ming retreats.

At this moment, Lu Ming seemed to feel Fengxian Yuanzun's gaze falling on him.

Lu Ming's heart shook wildly.

He knows what this means.

Fengxian Yuanzun probably knows that he is breaking through retreat. This is to place hope on him.

He wanted to buy time for Lu Ming.

The previous Xinghuo Yuanzun should also mean this.

They sat cross-legged in the garrison of the Heaven Extinguishing Army and could only guard for more than ten days. This was basically a palliative but not a permanent solution. When they died, the three tribes of the Forbidden Land and the Celestial Clan would continue to attack.

The reason they still did this was mainly to buy time for Lu Ming.

"senior..."

Lu Ming felt his nose sore and his chest was blocked by a big stone.

"Don't be distracted, continue to practice and destroy the heavenly army, it's up to you."

A gentle voice rang in Lu Ming's ears.

Lu Ming knew that it was Fengxian Yuanzun who transmitted the sound to him.

"Senior, I promise you that in the future, the three tribes of the forbidden land and the celestial race will be destroyed..."

Lu Ming responded with a voice transmission. This was his oath and his goal.

Fengxian Yuanzun didn't respond any more, just sat in the void quietly.

"Here is another one to die. I want to guard here, how long can I keep it?"

"At most half a month, they will fall. That's okay. One half a month. There are only forty-nine origins of the Heaven Extinguishing Army. Within a few years, all of them will die."

The ghost king and others sneered.

This is exactly what they want, they only need to wait quietly, and they can destroy the origin of the heavenly army without any effort. The loss is only a few years.

But what counts for them in a few years?

"Damn, deceive people too much!"

"It is tolerable, which is unbearable, go and fight with them!"

"Yes, fight it, most of them are dead, and you can't let more of the strong roots fall in vain!"

The people who killed the Heavenly Army were flushed, and the anger in their hearts was burning.

Can't bear it!

Watching the seniors of the Origin Realm, in order to protect them, one by one sent to death, they really can't stand it, they are too useless and too stubborn.

Husband, I would rather die in battle, shroud in horse leather, than live so aggrieved.

"shut up!"

At this time, Fengxian Yuanzun yelled, opened his eyes, his gaze was like electricity, and he swept towards the person who killed the heavenly army: "If you can't bear it, you will make a big plan. Do you want Xinghuo to sacrifice for nothing?"

"can..."

Many people want to say more.

"When you have to endure, you have to endure it. Do you want the Heaven Extinguishing Army to be destroyed? Many of your people and your family have died at the hands of the Celestial Race. Don't you want to take revenge?"

Fengxian Yuanzun continued to shout loudly, and the voice rang in the ears of every Exterminating Army, like thunder rolling in the sky, deafening.

The people who killed the Heavenly Army, their hearts, slowly calmed down.

Yes, most of the Celestial Destroyer Army has a deep hatred with the Celestial Race, and they all want to take revenge on the Celestial Race and avenge their family, friends or tribe.

They can't die yet.

"Hey, are there really a lot of enemies of your demihuman race?"

Yuan Wuji looked at Ye Immortal and sneered.

Ye Immortal's face was calm, and he didn't answer, but showed a thoughtful expression.

Fengxian Yuanzun, is delaying time?

But what's the use of him delaying time?

What's the use of procrastinating for more than ten days?

What is the Exterminating Army preparing for?

But a mere ten days or more, what can happen?

Chapter 4956: Breakthrough success, God dominates the peak

Ye Immortal kept thinking in his heart.

Suddenly, he thought of Lu Ming.

"Is it because of Lu Ming? Speaking of which, Lu Ming has not shown up. Is it because he is retreating and breaking through his cultivation base?"

Ye Immortal suddenly moved in his heart and thought of this.

Lu Ming's previous cultivation base was only the nine-fold divine master, but the strength of his combat power was shocking to the world.

It's just that the divine master ninefold has achieved the invincible divine master's combat power.

If you break through to the peak of the gods, your combat power will definitely be terrifying, unimaginable.

Thinking of this, Ye Immortal felt violent.

Is Lu Ming really breaking through the peak of God Lord?

No, it's impossible!

If there is no Yuanshen tea tea leaves, it is impossible to break through the peak of the **** in such a short period of time.

He knows the taboo body very well.

Although the taboo body is powerful, it is more difficult than others to break through the peak of the gods, and it takes longer, and it is even more impossible to break through in just ten days or dozens of days.

"Yuanshen tea? Did they get Yuanshen tea?"

Ye Immortal thought over and over in his heart, surprised and uncertain.

The speed of Yuanshen tea leaves is extremely amazing and it is extremely difficult to capture. He had only got two pieces of Yuanshen tea leaves at the beginning, and was ran away by Yuanshen tea.

It stands to reason that Yuanshen Tea will definitely hide deeper behind it, and it is almost impossible to find it.

Moreover, in Zixiao Dongtian for so long, if Lu Ming had obtained Yuanshen tea tea, it would have been used to break through, but in the process of finally fighting for the immortal legacy, Lu Ming's cultivation base was still the **** master nine layers. , And no breakthrough.

Did you get the Yuanshen tea leaves in the last few days?

This chance is too small.

His eyes swept over Xie Nianqing, Tang Jun and others, wanting to see something in them.

However, Xie Nianqing, Tang Jun and others were too far away from him, and there was a large array of obstacles, and the specific cultivation skills of Xie Nianqing and others could not be seen at all.

"Yeah immortal, what are you thinking?"

King Hades looked at Ye Immortal Road.

"It's nothing!"

In the end, Ye Immortal shook his head.

He felt that he was worrying too much.

How can it be so easy to get Yuanshen tea leaves?

The most important thing is that he thought of a key point, that is the Cangxian princess of the Cangming clan.

When he saw Princess Cangxian for the first time, he remembered clearly that Princess Cangxian's cultivation base was the Ninth Divine Lord.

But when fighting for the remains of the Heavenly Immortal in Zixiao Cave, I found that Princess Cangxian's cultivation level had actually reached the peak of the gods.

Being able to break through the peak of God Lord in such a short period of time, he guessed that Princess Cangxian was the last person who might get Yuan Shen Tea.

Perhaps Yuanshen Tea has long been in the hands of the Cangming Clan.

It is impossible for the Cangming people to give the Yuanshen tea leaves to Lu Ming.

He didn't even know that Princess Cangxian was actually Dark Night Rose.

He just thought that Princess Cangxian got the decay of the immortal, and later he saw Prince Cangluo and others, but did not mention this matter.

He thought that Princess Cangxian and Prince Cangluo were in collusion. Prince Cangluo and Prince Cangqing went to fight for the immortal legacy of the Jueyin clan, while Princess Cangxian secretly made a move. Left behind.

Where is he qualified to question Prince Cangluo and others.

It was only after thinking of this that he felt that it was almost impossible for Lu Ming to get Yuanshen tea leaves.

Time passed day by day.

In a blink of an eye, half a month.

"Genzun..."

Suddenly, those who destroyed the heavenly army cried out sadly.

I saw Fengxian Yuanzun also stepped into the footsteps of Xinghuo Yuanzun, his body turned into a little rain and disappeared into the void.

Light rain appeared in the void of the universe, like meteors.

In just one month, the Heaven Extinguishing Army fell two successive origins.

A strong air of sadness is permeating the Heaven Extinguishing Army.

"Hahaha, another dead one!"

"Let's do it, and force another one out to see how long they can last."

The Ghost King and the others laughed, stepped in the air, and headed towards the station of Heaven Exterminator.

In an instant, they came to the sky over the Extinguisher's garrison and launched a fierce attack.

The Great Formation of the Heaven Extinguishing Army trembled crazily, and soon after, it was torn into cracks.

"Damn, damn..."

"Do you want to wake up the source again? If this goes on, the source will fall. What is the use of leaving us? How can I get revenge?"

"Fight, fight with them!"

"Have you forgotten what Fengxian Yuanzun said? With our strength, fighting with them will be for nothing."

"Then what to do?"

"Flee, scatter and escape!"

The people who destroyed the heavenly army were making a noise.

Gu Changfeng, Lion, Tang Jun, Xie Nianqing and others all had extremely gloomy faces.

Their fists were pinched tightly, and their nails were caught in the flesh.

"Lu Ming..."

Xie Nianqing, Shi and others whispered, they can only pin their hopes on Lu Ming now.

Click...

The defensive formation of the station was torn into cracks.

The creatures in the forbidden area are still immortal, and they are about to enter.

boom!

At this moment, somewhere in the garrison of the Heaven Extinguishing Army, there was a roar, a powerful breath, diffused out, extremely powerful.

Everyone at the scene began to feel a shock, thinking that the Heaven Extinguishing Army had a new source of awakening, and the Ghost Sha King and others were planning to retreat.

But it was immediately discovered that something was wrong. Although this breath was powerful, it was not the breath of the origin at all, but the breath of the peak of the gods.

"Lu Ming, it's Lu Ming!"

"He broke through!"

Xie Nianqing, Qiuyue and others felt the breath first, and they showed ecstasy.

Later, Ye Immortal also reacted.

His pupils suddenly widened, showing a shock and unbelievable color: "Lu Ming, it is Lu Ming, this breath is Lu Ming, he broke through..."

Ye Immortal roared in shock.

At this moment, he couldn't calm down, his mentality exploded.

regret!

At this time, Ye Immortal regretted deeply.

Lu Ming was really breaking through, and he succeeded in breaking through.

Could it be that Lu Ming really got Yuanshen tea leaves?

Regardless of the reason, Ye Immortal regrets it.

"What? Lu Ming broke through!"

The Ghost King and others were also shocked.

"How is it possible? The nine-fold divine master reaches the peak of the divine master, how can it break through so quickly?"

Prince Cang Luo even shouted.

"Yuanshen tea, it must be Yuanshen tea. There is a Yuanshen tea in the sky of Zixiao Cave. I made a breakthrough with Yuanshen tea."

Ye immortal called.

"What? Origin God Tea, in the Zixiao Cave, there is actually a source of God Tea?"

King Ghost, Prince Cangluo and others all shouted.

"You Cangming tribe don't know about Yuanshen tea? Didn't Yuanshen tea be obtained by your Cangming tribe? Otherwise, how could Princess Cangxian break through her cultivation so quickly?"

Ye immortal road.

"Cangxian? We have found out that the Cangxian in Zixiao Dongtian is a fake, and the real Cangxian has fallen."

Prince Cang Luo said.

They Cangming Clan only learned that Princess Cangxian had fallen after coming out of Zixia Cave.

Chapter 4957: Beat the Invincible Lord

Princess Cangxian has fallen?

Ye Immortal's body shook wildly, and then some clues were all connected in series, making his face pale.

The Cangxian princess in Zixiao Dongtian was faked, and that person got Yuanshen Tea.

Then, Lu Ming might also get Yuanshen Tea.

Before, Lu Ming had always used Yuanshen Tea to break through his cultivation base, but now he has finally succeeded.

"Yeah immortal, why didn't you say it earlier?"

The ghost king roared.

"Where did I know that Lu Ming got Yuanshen tea, I thought Yuanshen tea fell into the hands of the Cangming clan."

Ye immortal road.

"hateful..."

The ghost king and others roared.

They knew that Lu Ming was terrible, the nine-fold divine master was comparable to the invincible divine master, so how strong should he break through to the peak of the divine master?

Before, they didn't put Lu Ming in their eyes.

No matter how strong Lu Ming was, he was only an invincible divine lord, and only one person.

An invincible God Lord, what big waves can be set off.

However, once Lu Ming broke through to the peak of God Lord, his things were completely different.

boom!

The powerful breath came out, and then a figure rose into the sky and stood in the void.

"It's Lu Ming!"

At this moment, ordinary Celestial Slayers also discovered Lu Ming.

However, they were not too happy.

Lu Ming didn't know the specific combat power of Lu Ming. Before Lu Ming, he was already comparable to the Invincible Divine Lord.

So, they thought, even if Lu Ming broke through to the peak of the gods, what use would it be?

On the other side, there are 16 people comparable to the origin.

His heart is still heavy.

Lu Ming's gaze fell directly on Ye Immortal and the others, with raging anger and rich murderous intent burning in his eyes.

"You guys... all **** it!"

An indifferent voice came from Lu Ming's mouth.

Lu Ming had seen the fall of Xinghuo Yuanzun and Fengxian Yunzun before.

The murderous intent in his heart was already strong enough, if it hadn't been for the critical moment of breakthrough, he would have killed it long ago.

Finally, not long ago, he officially broke through, consuming three pieces of Yuan Shenchang tea before and after.

Breaking through to the peak of the gods, the seed of the origin has become ten times larger than before, and the power of the origin has become more than ten times greater.

His combat power has reached the highest level ever.

"Arrogant, even if you break through the summit of God Lord, so many of us are enough to kill you!"

Yuansi great drink.

He has never fought with Lu Ming, only heard.

I heard that I will never be as real as I know it first.

"kill!"

Lu Ming stopped talking nonsense, snorted coldly, rushed to the outside of the formation, the God of War spear pointed directly at Yuan Siji.

"Lu Ming..."

"He wants his life."

Many people in the Exterminating Army were shocked.

Lu Ming actually killed one person. This was looking for death.

Didn't you see that before the Starfire Source Master could only fight one of them before he got the two divine weapons, when facing the opponents, he was immediately injured.

The origin is still like this, and Lu Ming, just a divine master, took the initiative to kill so many terrifying masters, isn't it just looking for death?

"do not worry..."

Gu Changfeng's voice sounded.

what?

The people who destroyed the heavenly army were a little startled.

Gu Changfeng's expression seemed to have confidence in Lu Ming.

But where does this confidence come from?

"kill!"

"Shoot together!"

Sixteen masters such as Yuan Siji, Yuan Wuji, Ye Immortal, King Guisha, Prince Cangluo, Prince Cangqing, etc., all shot at the same time, and sixteen terrifying attacks headed towards Lu Ming.

The combined blow of sixteen invincible divine masters was terrifying and shocking, and the original existence of the original source would also be killed if there was no source-level armor protection.

"Prehistoric!"

Lu Ming shot it out with a palm, and a continent was formed, blocking the front.

Although he has a top-level source-level magic weapon armor body, he can't resist as hard as the Starfire Source Zun.

After all, Xinghuo Yuanzun, but the true origin, can fully display the power of the top-level source-level magical armor.

After all, he is only the cultivation base of the peak of the gods. The strength of the source is still unable to compare with the real source, and he cannot fully display the power of the top source-level battle armor.

In this way, facing the attack of the sixteen invincible gods, there will still be an impact on him through the armor.

Therefore, he needs to resist.

The power of the original source, the condensed prehistoric continent, is more solid than before, on top of it, the rays of sunshine like a avenue are vertical and horizontal, and the power is stronger than before.

Boom boom boom...

Attacks one after another, falling on the desolate continent, the desolate continent violently shakes.

The attack of the sixteen invincible divine masters was too strong after all, even if it was the prehistoric style of greatly increased power, it could not be completely blocked, cracks appeared, and then burst.

However, the attacks of the sixteen invincible gods have been more than half cancelled, and the remaining power is not much, Lu Ming can resist it.

"Breaking style!"

Lu Ming no longer defended, but displayed the sky-breaking style. The man and the gun were combined into a spear light and pierced the Yuan Siji.

In an instant, Lu Ming broke through a lot of force, and the spear light approached Yuan Siji.

Yuan Siji showed a look of horror, and there was a blue glow on his body. This is the blue ice fairy light, and the red burning fairy light and the black moon fairy light are all of the same level.

The difference is that the blue ice fairy light contains terrible cold air.

Lan Bing's fairy light attached to the war sword in Yuan Siji's hand and slashed towards Lu Ming.

when!

The spear and the sword intersected, and there was a terrifying roar, and circles of terrifying power swept all directions.

Then, Yuan Siji's body shook wildly and retreated violently.

He held the sword in his arm, trembling, oozing blood.

The bone of his arm was broken, and blood was also flowing out of his mouth.

He was injured when he resisted.

Hum!

After one attack wounded Yuan Siji, the God of War Spear in Lu Ming's hand swept away.

The God of War spear grew rapidly, like a mountain range, and I searched for the ghost king and the underworld king.

The evil spirits of the Ghost King and the Underworld King continued to roll, and they were directly broken open by the God of War Spear. The God of War spear hit them. Their bodies, like two balls, were blown out of millions of miles. Besides, each breathed out blood, the evil spirits on his body were dimmed a lot.

"This this..."

At this moment, in the Heaven Extinguishing Army, except for Xie Nianqing, Qiu Yue and other people familiar with Lu Ming, everyone else was stunned.

Some people almost stared at them.

What did they see?

Lu Ming was beating the Invincible God Lord.

Moreover, under the siege of sixteen invincible gods, the invincible gods were beaten violently.

This is too fierce, it is more fierce than the original source.

Is this still God Lord?

Some people even thought that they were looking forward to the Heaven Extinguishing Army's counterattack, and they had hallucinations. After slapped themselves several times, they were sure that these were true.

Chapter 4958: Hit the temple

"kill!"

Lu Ming yelled, with a frenzied momentum, the more he fought.

Keng! Keng!

Two terrible attacks fell on Lu Ming, but they were blocked by the armor of Lu Ming Shenshan.

He just staggered, and it didn't matter, the impact of the two attacks on him through the armor was not very strong.

"My origin power seems to be extraordinary. Even though it is far less powerful than the origin realm, the origin battle armor seems to have been stimulated by me with a strong power."

Lu Ming's heart moved.

He found that his original power was stronger than he expected.

Is there a difference between the power of the source?

His original power is transformed from the power of taboo.

In terms of taking care of Changfeng, this source of power is called the source of taboo.

Although it was only the pinnacle of the gods, the power of the origin was not particularly strong, but Lu Ming had already felt that the origin of the taboo was different, indeed stronger than the power of the ordinary origin.

The specific strength still needs to wait for him to reach the original state before he can distinguish more clearly.

However, for Lu Ming at this moment, it was a great thing.

He can reduce the strength on the defensive side and strengthen the attack.

Hum!

The God of War spear trembled, as if there was a force of awakening, just the power of the spear trembling, it shook the nearby void into chaos.

Huh hoo...

The God of War spear continued to pierce, and at the same time, Lu Ming also played the wild style.

A series of prehistoric and sky-breaking styles, Lu Ming is like an invincible **** of war, fighting horizontally among a dozen invincible gods, seven in and seven out, no one can stop.

Invincible, what is called invincible, this is the real invincible, invincible under the origin.

At this moment, Lu Ming's invincible posture was deeply imprinted in the hearts of the Exterminating Army.

bump! bump!

More than a dozen invincible divine masters, one after another, was blown out by Lu Ming, vomiting blood and pale.

During this period, Lu Ming was hit dozens of times at least, but he was fine, and at most was only slightly injured.

The cultivation base has reached the pinnacle of the gods, not only can urge the top source-level armor to be more powerful and enhance the defense, but his own defense and vitality have also been greatly improved.

Therefore, even if there is power to attack him through the armor, he can completely block it.

Even if he received some minor injuries, he was able to recover quickly.

bump!

Ye Immortal was hit by a prehistoric style, retreated violently, his face pale, and a mouthful of blood was spit out.

Then, the God of War spear pierced and exploded the eight or nine demons condensed by the ghost king. The gun force kept on stabbing the ghost king.

A dark armor appeared on King Ghost, blocking the God of War Spear, but his body trembled violently, and his figure retreated violently.

"dead!"

Lu Ming stared at King Ghost Sha, and the offensive continued, and the sky-breaking style continued to launch, continuing to pierce King Ghost Sha's eyebrows.

The whole body of the Ghost Sha King was covered by the battle armor. This shot naturally pierced the battle armor. However, this gun contained terrifying penetrating power and continued to impact the Ghost Sha King through the battle armor.

what!

King Guisha let out a scream of intense pain, and his head almost burst open.

His head received a terrible shock, and even hurt the soul inside.

He retreated madly, retreated madly towards the wormhole, at this moment, he was extremely frightened.

He felt that if he continued to fight Lu Ming, he might be killed by Lu Ming.

Even if there is a top source-level battle armor, it is useless.

Fortunately, other people's attacks arrived and blocked Lu Ming, allowing King Ghost to successfully retreat to the edge of the wormhole.

"Retreat, retreat, this Lu Ming is invincible, we are not his opponent at all."

The ghost king roared, he was a little bit scared.

"go!"

"Retreat!"

Others also stepped back and rushed to the wormholes.

They had already retreated. Lu Ming, at the pinnacle of God Lord, had too strong combat power. Coupled with the top-level source-level magic soldiers and battle armor, the combat power far surpassed them.

Moreover, their attacks seemed to have little effect on Lu Ming.

If the battle went on, Lu Ming was fine, some of them couldn't bear it anymore, and they were going to be killed.

With their talents, the future is unimaginable, who wants to fall?

Even if some people are unwilling to see others have retreated, they dare not stay.

"Yeah immortal..."

Lu Ming glanced away and fixed his eyes on Ye Immortal.

Ye Immortal retreated earlier than King Ghost.

This guy is quite cunning. He is an old fox, playing with the heart and soul, the invincible **** masters of the Forbidden Land tribe, far from him.

At this moment, seeing Lu Ming's gaze swept over, Ye Immortal didn't hesitate to rush into a wormhole and disappeared.

The other invincible divine masters of the three clans of the Forbidden Land also rushed into the wormholes.

Lu Ming's eyes flashed, and a voice came into the ears of Gu Changfeng, Xie Nianqing, Dan Dan and others; "I'm going to pursue immortality. If anything happens, give me a voice."

After that, Lu Ming rushed directly into the wormhole where Ye Immortal had escaped.

He wasn't afraid that the tribesmen would wait for him to leave before killing them back.

Because the other party doesn't have that guts, it's not necessary.

He is completely different from Yuanyuan. After he sits for half a month, Yuanyuan will fall. Those people from the three tribes of the Forbidden Land will come back. One is to watch the show, and the other is to wait for Yuanyuan to fall and continue to attack, forcing other Yuanyuan to wake up.

But Lu Ming wouldn't fall, and they would have no meaning when they came back.

Of course, just in case, Lu Ming asked Gu Changfeng, Dan Dan and others to prepare and notify him in time if there is a situation.

Passed through the wormhole and came to a void.

After flying for a while, Lu Ming recognized that this area was occupied by the Celestial Race.

"The Celestial Race..."

Lu Ming's eyes flashed with a cold luster, and when he moved his figure, he disappeared from the place where he was facing the area where the heavenly palace was.

Not long after, Lu Ming arrived.

In front, a huge fragment of the continent was suspended in the air.

This piece of continental debris has an extremely large area. Obviously, a large number of continental debris have gathered together over the years.

In fact, in recent years, the garrison of the Exterminating Army has also undergone tremendous changes.

The Heaven Extinguishing Army's garrison used to be composed of dozens of hundreds of continental fragments, but over the years, these continental fragments have all gathered together to form a huge continent.

The same is true of the area occupied by the Celestial Race.

Above this continent, there are five huge, ancient temples suspended.

"Five Heavenly Palaces..."

Lu Ming's eyes narrowed slightly.

When the Celestial Race was at its peak, there were nine celestial palaces. Later, four of them were destroyed, and there were five more.

However, there have always been only four of the prehistoric universe, namely the Dream Palace, the Ziwei Palace, the Hongmeng Palace and the Shenji Palace.

The most mysterious Yuanshi Temple has never appeared.

But now, there are five heavenly palaces here.

Chapter 4959: Want to break the heavenly formation

But here, there are five heavenly palaces, which means that the fifth most mysterious heavenly palace is here.

Lu Ming's gaze suddenly fell on the middle heavenly palace.

This Tiangong seems to be the smallest in size, but it is also the oldest, with a frightening aura permeating, as if some kind of terrifying monster lives in it.

There was no formation to guard this heavenly palace, and no figure was seen.

As for the other four temples, many figures can be seen.

"Yeah immortal..."

Lu Ming saw at a glance that Ye Immortal rushed into one of the heavenly palaces.

There are four huge ancient characters on the plaque of this temple.

Ziwei Temple!

Ye immortal, entered the Ziwei Temple.

Huh!

Lu Ming also pursued the Ziwei Temple.

"Start the big array!"

A loud shout, spread throughout the audience.

Buzzing!

Around the four celestial palaces, densely packed runes emerged, and one array emerged, enveloping the four celestial palaces.

Only the smallest, seemingly oldest heavenly palace, there is no movement or any formation.

However, this heavenly palace gives people the strongest feeling of danger.

And this heavenly palace still didn't see a figure, as if it was empty.

As for the other four heavenly palaces, dense figures have emerged.

Lu Ming saw many acquaintances. In the Ziwei Temple, he saw Ye Immortal. Next to Ye Immortal, there was a young figure standing beside him, Ye Qiuxian.

Ye Qiuxian stared at Lu Ming, his eyes full of jealousy, murderous intent, jealousy and other complex emotions.

"There are some main-level formations, and some broken source-level formations. There is no complete source-level formation..."

Lu Ming glanced away and made a judgment in his heart.

He was able to recognize it because the formations of the Heavenly Palace looked similar to the formations of the Heaven Extinguishing Army garrison. Even if they were stronger, they were not much stronger, and they did not give Lu Ming a sense of threat.

Lu Ming stepped out and forced his way towards the Ziwei Temple.

"Ye immortal, do you think it will be fine if you hide in the palace? You instigated the three clans of the forbidden area to besiege and destroy the heavenly army?"

Lu Ming's voice was cold.

The three races of the forbidden area are also in competition with each other. It is not so easy to join forces. Among them, there must be some people doing linkage and bonding.

This person is most likely the old fox, Ye Immortal.

"Lu Ming, the Essence Tribulation will last for hundreds of years. By then, the Essence and the existence above the Essence will be awakened, and the Heavenly Annihilation Army will be destroyed in an instant. Even if you are struggling, it is useless. Your destiny is already doomed.

Ye Immortal said coldly.

His meaning is very obvious, once the origin of the catastrophe is over, those terrifying existences among the three tribes of the Forbidden Area will wake up, destroy the heavenly army, and survive?

Lu Ming's face was gloomy, he had already thought of this.

After the great calamity of the origin, not to mention the three tribes of the Forbidden Land, the power of the Celestial Race alone is not something they can fight against.

"I can show you a clear path. There is only one way to save your heavenly destruction army, and that is for you those forbidden bodies to abolish your self-cultivation, abolish the power of the taboo, and then take the heavenly destruction army and seek refuge. Only a forbidden area can be preserved. Otherwise, if you destroy the heavenly army, you will be punishable by the whole family, and the chickens and dogs will not stay, including your relatives..."

Ye Immortal said coldly.

"Hehe, before my Heaven Extinguishing Army is destroyed, I will definitely cut off your head first."

Lu Ming sneered, unmoved.

He has experienced countless winds and waves throughout his life, how can he be easily shaken by these words?

call out!

Lu Ming stopped talking nonsense and shot directly, stabbing it out with a shot.

A spear light, shattering the void, getting bigger and bigger, piercing the defensive formation around the Ziwei Temple.

boom!

The sky shook loudly, and the defensive formations around the Ziwei Heavenly Palace trembled violently.

"I can break open."

A smile appeared at the corner of Lu Ming's mouth.

With the shot just now, he didn't use his full strength, it was just a test.

After testing a shot, he found that the Ziwei Tiangong array defense was not that strong, at best it was stronger than the defense array of the Heaven Extinguishing Army resident. With his current combat power, he could completely tear it apart.

"Breaking style!"

After that, Lu Ming used his full strength, and the Zhanzi Jue was triggered by nine times the combat power, which was another shot.

The Celestial Race and the others only saw a splendid spear light bursting out of the void, and the next moment it pierced the defensive formation of the Ziwei Temple.

Boom!

The entire crape myrtle palace vibrated violently, those defensive formations flashed wildly, and at the same time, the place that was stabbed by the spear ray sank.

It's like a balloon with very good toughness. It is dented by the finger, as if it is harder, the balloon will burst.

In the end, the defensive formation withstood the attack, but the light around the sunken area dimmed a lot.

"The formation is unstoppable!"

"Why is his attack power so strong?"

"Our formation can block the attacks of the strong in the Origin Realm!"

"He is the Lord, he is the Lord..."

The people who destroyed the Heavenly Army roared in shock.

Shocked, incredible, unbelievable...

In the end, the emotions turned into fear.

Lu Ming actually had this level of combat power. This level of combat power was already comparable to the origin, no, even stronger than the general origin.

Such a person, in this era of no origin, who can be the enemy?

If he breaks the formation, who can stop him?

Even if their strongest ancestors are not enough, right?

Many people's eyes turned to Ye Immortal.

Ye Immortal's face was gloomy, and Ye Qiuxian, who was standing next to Ye Immortal, looked pale and clenched his fists tightly together.

"Ancestor, what should we do? Our formation will not last long."

"According to his attack, there are no ten moves. No, I am afraid that with only five or six moves, the formation will be broken."

Around, many masters of the Celestial Race began to inquire.

"Activate the source-level formation above the heavenly palace."

Ye Immortal finally spoke, and with a wave of his hand, bones appeared.

These bones are as white as jade, and they all exude the original breath.

These bones are the bones left by the existence of the original state.

boom!

At this time, Lu Ming blasted out another move, constantly shaking the Ziwei Temple, making the light of the defensive formation even dim.

"Quickly, take the original bones and activate the formation!"

Yeah immortal yelling.

Suddenly, dozens of masters of the Celestial Race left here with dozens of original bones.

"Break for me, break..."

Lu Ming used the power of the original source, and made a few consecutive moves. The formation vibrated even more severely. Every time Lu Ming attacked, he attacked a point, and seeing that point, he would be penetrated.

At this moment, the sound of the ancient walls of the Ziwei Tiangong showed a series of runes.

These runes look ancient and mysterious, full of breath of time.

Then, a breath of horror spread out.

Chapter 4960: One person encircles Tiangong

On the wall of the Ziwei Temple, ancient and mysterious runes appeared, and at the same time a horrible breath filled.

This breath made Lu Ming's pores stand up.

"Retreat!"

Lu Ming backed away without hesitation.

He has a feeling that if he doesn't back down, it will be very dangerous.

In an instant, he backed away a million miles.

At this moment, a huge formation appeared on the top of the Ziwei Heavenly Palace, and it was just a formation that enveloped the Ziwei Heavenly Palace.

"Source-level formation, and it's extremely terrifying source-level formation..."

Lu Ming's eyes narrowed slightly.

He was surprised before that the Celestial Race did not have a source-level formation?

The Celestial Race, anyway, was the race of the last epoch, but judging from the various performances, it was too shabby.

The source-level magic weapon is extremely lacking.

Source-level formation, no!

Combat formation carrier, no!

This is not at all like a race left over from the last epoch, not to mention that it is compared with the forbidden land creatures, even the Yaxian tribe is far behind.

The same goes for demons.

Lu Ming estimated that this was related to their status as human slaves.

Now that the Celestial Clan had used a source-level formation, Lu Ming was not so surprised.

In other words, it is also the race of the last era, and some hole cards are normal.

If you don't even have this hole card, how can the heavenly rule the endless years of the universe.

Moreover, this formation seems to be carved on the wall of the Tiangong, is it the Tiangong's own?

Lu Ming once heard that the nine heavenly palaces were not created by the Celestial Race themselves, but left by a certain force in the last era.

"It seems that this kind of source-level formation requires very harsh conditions and requires the original bones. Fortunately, the last time I hacked into the dream palace, there were almost no masters..."

Lu Ming couldn't help but think of invading Dream Palace.

That time, most of the masters of the Celestial Race went to besiege and destroy the camp of the Heavenly Army, and there were very few masters who stayed in the Heavenly Palace.

There are not many in the God Realm.

If you want to urge this source-level formation, it is estimated that the existence of the peak of the god, plus the original skeleton.

Treasures like the original bones are probably carried by the top masters of the Celestial Race.

After all, when Lu Ming and the others opened the treasure house of the Dream Palace, they did not see the original skeleton.

Therefore, at that time, the people of the dream palace, even if they wanted to activate the source-level formation, could not.

Thinking of this, Lu Ming couldn't help but feel a little grateful.

If the Celestial Race were able to activate the source-level formation at that time, they would get in, and probably none of them would get out.

"This formation is not something I can break..."

Lu Ming watched from a distance.

He even felt that this formation had not only defensive power, but also terrible offensive power.

However, the Ziwei Temple cannot be broken, there are other heavenly palaces.

Lu Ming's gaze turned to another heavenly palace.

Dream Palace!

The palace that was robbed by them.

Huh!

Lu Ming stepped out and rushed towards the Dream Palace.

The Dream Palace was also guarded by a large number of celestial races, and their expressions changed when Lu Ming rushed forward.

"My lord, what should I do?"

"Do you want to activate the source-level formation?"

Many people looked at a middle-aged man.

This person is the person with the highest status in the dream palace, and one of the four strongest kings in the palace at the time, the heavenly king with hundreds of battles.

"Start the formation!"

As soon as Bai Zhan Tianjun gritted his teeth, the storage ring glowed, and the original bones flew out.

They all saw Lu Ming's attack on the Ziwei Temple before.

Too strong, the defensive formation of the Dream Palace could not stop Lu Ming's attack at all, only the source-level formation could be activated.

Dozens of heavenly monarchs at the pinnacle of the gods rushed in all directions with dozens of source-level formations. Soon after, the source-level formation of the Dream Palace was activated.

When the formation was activated, Lu Ming quickly backed away.

"Sure enough, every heavenly palace has terrible formations..."

Lu Ming whispered in his heart.

The formation of the Dream Palace gave him the same horror as the Ziwei Palace.

However, in the absence of the original state of the shot, the original bone needs to be activated.

"Look at how many original bones you have..."

Lu Ming's eyes flashed, his figure moved, and he rushed towards the other heavenly palace, Hongmeng Heavenly Temple.

"Damn it, start the formation!"

The Hongmeng Tiangong was also guarded by a large number of celestial races. One of the strongest celestial monarchs roared and took out dozens of original bones.

Soon, Hongmeng Tiangong also activated a terrifying formation.

Lu Ming rushed to the Shenji Tiangong again, and the Shenji Tiangong could only activate the formation.

In this way, the four heavenly palaces all activated terrifying formations to stop Lu Ming.

This formation was too terrifying. Lu Ming knew he couldn't break it, so he looked at the fifth heavenly palace, Yuanshi heavenly palace.

Yuanshi Tiangong did not activate the formation, and there was no formation at all.

But Lu Ming thought about it, but still didn't make a move.

This heavenly palace always gave him a feeling of horror. Although there was no strong aura permeating, the feeling of horror was always lingering.

It's as if there are terrifying wild beasts living in it.

"The energy of the original bone is limited. I see how long you can hold on."

Lu Ming's indifferent voice sounded, and then he sat cross-legged in the void, closing his eyes to calm himself.

The energy of the original bones is limited, and the energy will always be exhausted if the formation is activated.

Once the energy is exhausted, the formation loses its power.

Lu Ming just had to wait for the energy of the original bones to run out.

Inside the heavenly palace, Ye Immortal and the others looked ugly to death, but they were helpless.

"Ball, you go back to the station to see the situation, and let Dandan and Bubble come by the way."

After a while, Lu Ming opened his eyes again and faced the ball lane.

He was still a little worried about the situation of the Heaven Extinguishing Army's garrison. Although he was determined not to kill the creatures in the forbidden land, he was not afraid of accidents, just in case.

The ball turned into a bracelet, following Lu Ming's side.

"it is good!"

After the ball was finished, it changed into a rainbow light and disappeared from the horizon.

Lu Ming didn't wait too long, but Dan Dan, Bao Bao and Qiqiu came again.

Xie Nianqing, Qiuyue and Ling Yuwei also came together. They rushed over because they were worried about Lu Ming.

"Dandan, take a look, what is the formation of Tiangong."

Lu Ming said.

Dandan's eyes are embarrassing, staring at the five heavenly palaces.

"The formations of these four heavenly palaces are mostly main-level formations and broken source-level formations. It is not to be feared. What is really terrifying is the formation carried by the origin of the four heavenly palaces."

After watching for a while, Dan Dan saw the doorway.

"The formation that he carries?"

Bubbles are curious.

"Yes, the formations activated by the Tiangong are engraved on the walls of the Tiangong. They are ancient, mysterious and powerful. They have a very long time. They should not be arranged by the people of the Celestial race, but carried by the Tiangong itself. "

Dan Dan explained.
