

## **D Emperor 4961**

Chapter 4961: Force you out

"So, the Celestial Race itself hasn't even arranged a source-level formation?"

Bubble Blinked his eyes.

"Isn't it said that the Celestial Race is the race of the last era, this is too shabby."

Qiuyue muttered.

The poor of the Celestial Race is about the same as the Exterminating Army.

It's not that the Celestial Race is a race from the last era, there are demons.

As the race of the last era, the Yaxian tribe has a much deeper and richer background.

"The Celestial Race and the Devil were the servants of the Human Race at the beginning. Maybe it has something to do with it?"

Lu Ming said.

Everyone nodded, and only this guess made sense.

"Dan, can you break these formations?"

Lu Ming asked again.

"No!"

Dan Dan immediately shook his head and said, "This kind of formation is very terrifying. Among the source-level formations, they are absolutely top-notch. Offensive and defensive are integrated, and they are infinitely powerful. With my strength, it is far from it."

Lu Ming was not too disappointed, he was mentally prepared before.

"Dandan, do you see anything in that palace?"

Lu Ming pointed to the fifth heavenly palace and asked.

"This heavenly palace also carries a terrible formation, but apart from this formation, I always feel a kind of horror. I always feel that there is something terrifying in this heavenly temple..."

Dan Dan said.

"Yes, yes, I feel that way too."

Bubble also cried.

Then, Xie Nianqing, Qiuyue, and Ling Yuwei also spoke one after another, and they all had this horrible feeling.

Everyone is extremely talented, with keen sense and super sensitivity.

"This heavenly palace is very mysterious, so it's better not to act rashly."

Lu Ming nodded.

"They should be tortoises shrinking their heads, but the energy of the original bones is limited. After a while, the energy of the original bones will be exhausted. Let's wait."

Dan Dan said.

"I mean it too!"

Lu Ming nodded.

Anyway, Dan Dan said that the creatures in the Forbidden Land did not kill the Celestial Exterminating Army's station, which is very safe.

Lu Ming is time consuming.

Finally, everyone is here waiting.

Time passed day by day.

In a blink of an eye, half a month passed.

"The formation of that heavenly palace cannot be maintained anymore."

Dan Dan got excited and stared at the Crape Myrtle Palace with shining eyes.

Huh!

Lu Ming got up directly, holding the God of War gun, and headed towards the Ziwei Temple.

Ye Immortal's face was gloomy, and with another wave of his hand, dozens of original bones flew out, allowing other celestial races to use them to continue their formation.

The formation of the Ziwei Tiangong renewed its glory.

However, not long after, the formation of the dream palace began to weaken.

"Damn..."

Hundred Zhan Tiangong roared and took out dozens of original bones with a heartache.

The heavens and humans have dominated the primordial universe for endless years. After such a long period of time, they have accumulated a lot of original skeletons, but they can't withstand such a use.

It was dozens of yuan at a time, and he was heartbroken.

Subsequently, the Hongmeng Temple and the Shenji Temple could only use the original bones to stimulate the formation.

Lu Ming and the others continued to wait.

After half a month, the formation power of Tiangong weakened, and he could only continue to use the original skeleton to stimulate.

"Ancestor, this is not the way to go, even if we have more original bones, we will all be exhausted."

A heavenly ruler.

"Yes, people like Lu Ming must use this attention to exhaust our original bones. When the original bones are exhausted, they will still come in. It's better to fight them now."

Another Tianjundao.

"Fight? How to fight? Before I joined forces with the three tribes of the Forbidden Land, a total of sixteen invincible divine masters were defeated by Lu Ming. They have no origin. No matter how many people are, they are not Lu Ming's opponents."

Ye Immortal said coldly.

The other celestial races shut up.

"The current plan is to cooperate with the creatures in the forbidden area. The closest to us is the Yin Sha clan..."

Ye immortal road.

"Cooperate with the Yin Sha clan? Will the Yin Sha clan cooperate with us?"

A heavenly ruler.

"There is nothing that can't cooperate, just seeing the benefits are not in place, I will send the news..."

Ye Immortal took out a sound transmission jade talisman, and the news came out.

Of course, he didn't directly pass the news to the Yin Sha clan. This place is still too far away from the Yin Sha clan. No matter how advanced the sound transmission jade talisman is, it can't pass such a distance.

He was to pass the news to the Celestial Race outside, so that the Celestial Race would pass the news to the Yin Sha Race.

"I think it's time to force the Celestial Race."

At this moment, Lu Ming stood up suddenly and said coldly.

"You mean?"

Dan Dan rolled his eyes and looked at the large continent below the heavenly palace.

"Yes, on this continent, there are a large number of celestial races inhabiting, and there are definitely a lot of resources. If you don't take it, you don't take it..."

Lu Ming sneered.

The primordial universe has recovered for so many years, the continent under the heavenly palace definitely contains a lot of resources.

"Hahaha, it's just what I want, I've long wanted to do this."

Every time he laughed.

"You shot together, I stared at the temple, if there is a problem, you retreat in time."

Lu Ming said.

"Haha, go!"

Dandan smiled and turned into a ray of light, rushing to the continent below.

Then, Xie Nianqing, Qiu Yue, Ling Yuwei, Bubble and Ball also shot, rushing to the mainland below.

Now, the cultivation bases of Xie Nianqing, Qiuyue and others have reached the peak of the gods.

With their talents, they have the worst combat power, and they all have the strongest Heavenly Sovereign combat power, and even more, as long as Ye Immortal Ye Qiuxian and others don't take action, there is no need to worry about the safety of Xie Nianqing and others.

Boom boom boom!

After a while, there was a violent roar from the continent below the heavenly palace, followed by a scream.

"Damn, damn, they are slaughtering ordinary people of the Celestial Race..."

"Hateful!"

Many people roared.

The continent below is home to a large number of ordinary celestial races.

The cultivation base is not very high, and there are not many in the Divine Master Realm.

In fact, there are only a few in the Divine Emperor Realm.

After all, above are the five heavenly palaces, and most of the existences above the Divine Emperor realm live in the heavenly palaces.

The reason why Lu Ming didn't do anything before was because he didn't want to do anything with the ordinary Celestial Race, but now he has figured out that for the Celestial Race, he doesn't have to be polite or relentless.

If the garrison of the Heaven Extinguishing Army is breached, the Celestial Race will not be polite to the Heaven Extinguishing Army, and will certainly kill the Heaven Extinguishing Army up and down.

History has already proven this point.

For countless years, how many powerful races have been wiped out by the Celestial Race?

Tianxin, Tiandi, Dragon, etc.

Of these races, only a few people were lucky enough to survive, and the others all died in the hands of the Celestial Race.

For such a race, there is no need to move compassionately.

Xie Nianqing, Qiuyue, Dandan and others still exercised some restraint, and only attacked existences above the gods.

Ling Yuwei did not hesitate to make a move.

The elves, full of doors, were almost wiped out by the celestial race, and only a few people survived.

Her hatred of the Celestial Race is monstrous.

Chapter 4962: The origin of the battle alone

Ling Yuwei stood high in the sky, with a towering tree suspended behind him, and the vast and infinite power gathered in Ling Yuwei's body.

She is holding a big bow and bending the bow to shoot arrows.

Hum!

As soon as the bowstring was loosened, an arrow flew towards the ground below.

After the arrow flew out, it became bigger and bigger, and finally turned into an arrow of hundreds of miles long, bombarding the ground.

The earth was immediately blown out of a big pit, and a large number of Celestial Races were swept in by the devastating energy and turned into fly ash.

Ling Yuwei did not show any mercy to the Celestial Race.

She vowed to destroy the Celestial Race by herself and avenge the countless members of the Elf Race.

Xie Nianqing, Qiuyue and others scattered, like a bolt of lightning, horizontally and horizontally above the mainland, unstoppable, and a large amount of resources were collected by them.

Among the four heavenly palaces, those celestial and human races saw their eyes split apart.

"Why? Is it uncomfortable? I don't know if you thought of this scene when you started with other races?"

Lu Ming's indifferent and mocking voice sounded.

"How can those lowly races compare with ours?"

One day the human race roared.

"I thought I was superior..."

Lu Ming's eyes were cold, and there was no trace of pity.

These celestial races, dominating the universe for endless years, have long been accustomed to being aloof, treating other races such as ants to live and kill.

There is no need for such a race to stay in the world.

"kill!"

Above the mainland, Ling Yuwei coldly shouted, and continued to start work. Arrows were shot continuously, and a large number of celestial races fell under the arrows.

"Damn, damn, ancestor, what should I do now?"

Many people look to the immortality.

"Hey, I can only wake up the origin!"

Ye Immortal spoke, and there was a hint of anger and helplessness in his voice.

Before, they forced the extinction of the heavenly army to regain its origin, but now, the situation is completely reversed.

Soon after...

In the crape myrtle palace, there was suddenly a powerful aura that diffused out.

"The breath of origin..."

Lu Ming's eyes narrowed slightly.

He was not surprised that he had regained consciousness.

He asked Xie Nianqing, Qiuyue and others to do that, in order to force the other party's origin to wake up.

"Xiaoqing, Qiuyue... the origin of the Celestial Race has awakened, you quickly retreat."

Lu Ming immediately sent news to Xie Nianqing and others.

Xie Nianqing and the others were already prepared. Upon receiving news from Lu Ming, they quickly left the mainland and rushed into the distance.

Ling Yuwei also stopped the attack and left the mainland.

boom!

In the Ziwei Temple, a powerful breath rushed out, and then a middle-aged man stepped out.

"Ancestor!"

The middle-aged man saluted Ye Immortal.

His expression was calm.

Now that he has awakened, he is ready to fall.

"Go and stop this person!"

Ye Immortal pointed at Lu Ming.

"I will take his head."

The middle-aged man's eyes were cold, and an astonishing murderous intent emerged.

He is the origin and lives with the universe. Does he really want to die? How could it be, it was not forced.

All of this was caused by Lu Ming, and his killing intent on Lu Ming was terrifying.

"Don't underestimate the enemy, this person is extremely powerful, and he is no weaker than Tang Feng at the same level."

Ye immortal road.

Just one sentence made the middle-aged man's face changed wildly.

"Not weaker than Tang Feng, how is it possible?"

The middle-aged man was unbelievable.

"In the Divine Master Realm, this person may be even stronger. After Tang Feng entered the source, he was extremely sublimated and stronger and stronger, so you just need to stop him."

Ye immortal road.

The middle-aged man, his face became particularly solemn, a piece of armor emerged from his body, and he was also holding a purple and gold war spear in his hand.

This battle armor and battle spear are both source-level magic weapons, of course, they are only ordinary level, not top level.

The top ones are too scarce, and there are not many celestial races.

Huh!

The middle-aged man stepped out, the power of the origin ran wildly, raising his breath to the apex.

"Essential? Just give it a try!"

Lu Ming's eyes also showed a strong fighting spirit.

It was the first time for him to rely solely on his own combat power and to fight alone.

"kill!"

With a loud shout, Lu Ming took the lead, and the God of War spear turned into a bright spear light and pierced it out.

"war!"

The origin of the Celestial Race was also shot, and the Zijin War Spear stabbed out violently.

Two magic soldiers, clashing in the void, like the tip of a needle against the wheat.

boom!

In the void, there seemed to be hundreds of stars bursting, and circles of light swept in all directions.

The place where the two confronted turned into chaos.

Then, the two figures retreated backwards.

This trick is equally divided.

"So strong..."

Lu Ming's eyes narrowed slightly.

The origin of the Celestial Race is very powerful, and it is by no means comparable to the ordinary origin.

Although it was also the early stage of the origin, it was definitely stronger than the Star Fire Origin Zun.

Of course, it refers to the Xinghuo Yuanzun without a source-level magic weapon.

Obviously, Ye Immortal does not choose the original attributes at will, but has goals.

He knew that Lu Ming's combat power was terrifying, and if ordinary Origin were to awaken, he might not be Lu Ming's opponent, and could not stop Lu Ming.

So this source of awakening is extremely powerful.

At least in the early days of the origin, the combat power is very strong.

Right now, only the early stage of the source can be awakened, and those above the middle stage of the source, once they wake up, they will soon fall.

At the beginning of the origin, it can still support a period of time.

"This kind of combat power..."

The origin of the Celestial Race, the pupils shrank sharply, really shocked.

He had almost used all his strength just now, and he was only on par with Lu Ming.

Divine main realm, with such combat power, it is simply terrifying.

"Come again!"

Lu Ming's eyes were bright and his confidence increased.

The original state is nothing more than that.

He just wants to use the combat power of the Origin Realm to help him understand Origin Art.

In the Zixiao Cave, under the four statues, Lu Ming not only comprehended the 3,000th great ancient secret technique, but also had a general outline and direction for the origin technique.

The two masters fought together again, fiercely fighting.

Among the four heavenly palaces, except for Ye Immortal, everyone was dumbfounded, their eyes rounded and shocked.

Although I heard from Ye Immortal before, Lu Mingqiang's horror defeated 16 invincible gods alone.

However, how strong the Invincible Divine Lord is, they have no idea.

Therefore, they have no idea how strong Lu Ming is.

After all, apart from Ye Immortal, no one saw Lu Ming make a move.

Now they finally saw it with their own eyes and finally had a concept.

Because there is a source as a reference.

"How is it possible? How is it possible?"

Among the crowd, the one who was most irritated was Yaqiuxian.

At this moment, he muttered to himself blankly, trembling all over, and his face pale.

Although he was repeatedly defeated by Lu Ming, he did not give up. He still had a little extravagant hope that he could defeat Lu Ming in the future.

But at this time, he was desperate.

He found that the gap between him and Lu Ming was getting bigger and bigger, and now it was astonishingly big.

Chapter 4963: Flee to the Yinsha

Boom boom boom!

Above the five heavenly palaces, violent roars continued to erupt. Lu Ming and the origin of the Celestial Race fought for more than ten rounds in a blink of an eye, and the two still won or lost.

To be honest, this origin of the Celestial Race is indeed very powerful.

The existence of the origin, combat power is determined by many factors.

The strength of the source power, whether to master the source art, whether there is a source-level magic weapon or battle armor, and the level of cultivation...

Although this origin of the Celestial Race does not master the origin technique, it does possess a source-level magic weapon and battle armor.

Divine Weapon and Battle Armor, both offensive and defensive, have greatly increased the combat power of this Origin. Without Divine Weapon and Battle Armor, this Origin is definitely not Lu Ming's opponent.

The two continued to confront each other, and Ye Immortal and others also launched actions.

They sent a message towards the continent below, asking them to seize the time to enter the heavenly palace.

"Gather quickly and enter the heavenly palace!"

"Quickly, don't linger, no magic medicine, quick!"

"I don't need these materials, go quickly, is life important or materials important?"

Above the mainland, some Celestial Races with higher cultivation bases commanded the crowd to fly towards the four Celestial Palaces.

Yes, there are four heavenly palaces, not five, because no one flew to the fifth Yuanshi heavenly palace.

The densely packed celestial race flew to the four heavenly palaces.

At the same time, the Ziwei Temple, the Dream Temple, the Shenji Temple and the Hongmeng Temple also opened the formations, allowing these celestial races to fly into the heavenly palace.

The Tiangong is very huge, but like a planet, the number of people it can hold is amazing.

Moreover, the number of celestial and human races is actually not that much compared to the various races in the universe. The four heavenly palaces are easy to accommodate.

Lu Ming didn't stop him, but he couldn't stop him either.

The origin of the Celestial Race has regained consciousness, and the result is doomed. Therefore, his attack is completely a life-threatening style of play. Lu Ming must deal with it with all his attention. Anyone who is not paying attention will suffer a big loss.

Therefore, one can only watch the Celestial Race enter the Heavenly Palace.

In a blink of an eye, Lu Ming and the origin of the Celestial Race had already fought hundreds of moves, and there was no winner or loser.

Huh!

Lu Ming quickly backed away, and the origin of the Celestial Race swiftly followed up. His Spiritual Sense always locked onto Lu Ming to prevent Lu Ming from attacking other Celestial Races.

Soon, the two moved away from the five heavenly palaces.

Suddenly, the void around Lu Ming rippled like water waves, and then a figure appeared, a bubble.

Bubbles covered Lu Ming with the power of time and space, and Lu Ming's speed surged, suddenly throwing away the origin of the Celestial Race.

"Humph!"

The origin of the Celestial Clan gave a cold snort, did not continue to pursue, but returned to the outside of the five heavenly palaces and sat cross-legged.

His cultivation was at the beginning of the origin, and under the current catastrophe of the origin, he could hold it for half a month.

He wants to protect the people of the Celestial Race to retreat safely.

Lu Ming stood in the distance, did not continue to take action, but did not move away, but waited quietly.

In the previous battle, he has already gained a lot, and there is no need to fight again.

As long as you wait for half a month, this source will naturally fall.

It took a full day, and almost all the celestial races on the continent below entered the four heavenly palaces.

However, many treasures, such as the magic medicine planted, were not taken away.

Lu Ming planned to find an opportunity to let Dandan, Paobao and others emptied the treasures of this continent.

Of course, this is not an opportunity to make a move. The Origin is still there. If there is an uproar, Lu Ming may not be able to stop him.

Lu Ming simply sat cross-legged in the void.

In the previous battle with that Yuanyuan, he urged his combat power to the extreme, fought the limit battle, and he did gain some gains, and his perception of Yuanshu improved a little.

Time was hurried, and a few more days passed.

Rumble!

Suddenly, the five heavenly palaces trembled suddenly, and then flew away in one direction.

Ok? Got to go?

Lu Ming's eyes flashed.

Celestial race, is this going to be transferred?

In fact, Lu Ming also knew that facing such a situation, the Celestial Race had no better choice than to transfer.

Because that source can only guard them for half a month, what about after half a month?

Without the source to stop Lu Ming, they still have to rely on the formation to resist Lu Ming.

But the activating formation method requires the original skeleton. Over the years, they have accumulated a lot of original skeletons, but they will also run out.

What should I do once the original bones are used up?

Continue to wake up the origin?

Then their origin, is it not going to die in the end?

Therefore, only transfer and seek asylum.

"Nowadays, only the creatures in the Forbidden Land can be sheltered for the Celestial Race. Could it be that the Celestial Race has taken refuge in the Forbidden Land creatures?"

"In this direction, only the Yin Sha clan is the only one, and the Celestial Race is the closest to the Yin Sha clan."

Lu Ming guessed in his heart.

The five heavenly palaces flew quickly towards the direction of the Yin Sha clan, which was the original direction of the stars of the universe.

And the Empress of the Origin Palace left with the five heavenly palaces.

Hh hh hh...

Around Lu Ming, a group of figures appeared, Xie Nianqing and others.

"Lu Ming, what should I do now?"

Dan Dan asked.

"Come and see!"

Lu Ming said.

They flew behind, following the five heavenly palaces.

This place is far away from the starry sky of the universe where the Yinsha Race is located.

Naturally, the flight speed of the five heavenly palaces cannot be compared with Lu Ming and others.

Therefore, ten days later, the five heavenly palaces did not reach the cosmic starry sky, but the origin is about to fall.

"Back!"

Lu Ming led Xie Nianqing and others back quickly, away from the source.

Without him, he is afraid that this person will fight back.

However, this person did not counterattack, but sat quietly in the void, turning into a little rain and disappearing.

This origin has also fallen.

"Damn it!"

"Damn Lu Ming!"

Witnessing this scene, many celestial races roared and became mad.

Ten thousand years ago, their Celestial Race was still the overlord of the universe, dominating the universe, and no one dared to violate it.

Every one of their celestial races is like a star holding the moon when they go out, no one dares to be disrespectful to them.

But now, they were killed at the door of their house, and they didn't dare to fight back, so they could only shrink in the heavenly palace.

The difference is too big.

Also extremely frustrated.

However, there is no alternative.

"Restart the big array!"

Ye immortal voice spread out from a distance.

The four heavenly palaces re-launch the big formation with the original skeleton.

Then, continue to fly in the direction of Yin Sha clan.

Lu Ming and others continued to follow.

If there is a chance, Lu Ming still wants to force the other party to regain a source of origin.

Unfortunately, Lu Ming couldn't do so.

The celestial race has accumulated a lot of original bones, a batch of energy has been exhausted, and another batch is used to continue the formation.

In this way, after a while, the stars of the universe are in sight.

The starry sky of the universe was filled with black mist, completely enveloped by the evil spirit.

Chapter 4964: To the Yuanji sacred mountain

Compared with 10,000 years ago, the starry sky of the universe has completely changed.

Being shrouded by the spirit of the Yin Sha clan at all times, everything withered, creatures turned into Yin Sha monsters, and plants slowly transformed into Yin Sha attributes. Instead of being emerald green, they became cold and dark.

Huhuhu!

The five heavenly palaces rushed into the evil spirits of Yin, and then flew towards the evil mountain of Yin Keng.

Lu Ming and others continued to follow up, but were more cautious.

After half a day, he gradually approached the Devil Mountain of the Yin Pit.

At this moment, the five heavenly palaces suddenly stopped.

"stop!"

Dan Dan called out suddenly.

Lu Ming and others stopped and looked at Dan Dan.

"In the front, there are many terrifying formations, which should be source-level formations."

Dan Dan said.

"It seems that the Yin Sha clan has long been waiting for us here."

Lu Ming said.

Without the origin, Lu Ming didn't have much fear of the Yin Sha clan.

The only thing he was afraid of was the opponent's source-level formation.

The background of the creatures in the forbidden area is far beyond the celestial race.

They have a lot of source-level formations, as long as they have enough time, they can use their original bones to deploy source-level formations.

When he was in Zixiao Cave, Lu Ming almost suffered a big loss because of this.

Obviously, the Yin Sha clan knew that Lu Ming and the others would follow, so they laid a source-level formation in this area in advance, and there was more than one, but it was a pity that Dan Dan had spotted it in advance.

"Let's go!"

Lu Ming shook his head.

He knew that the Celestial Race must have cooperated with the Yinsha Race, and the Yinsha Race had already deployed a source-level formation in advance, and they couldn't help the Celestial Race.

The reason why the five heavenly palaces stopped was obviously that they had entered the range of the formation.

As long as Lu Ming and the others approached, they would immediately be enveloped in the source-level formation.

Although Lu Ming's current combat power is strong, facing the source-level formations that have been arranged long ago, I am afraid it will be more difficult.

Seeing Lu Ming and the others leave, Ye Immortal and the others showed disappointment.

Originally, I wanted to use the source-level formation to pit Lu Ming and the others, but Lu Ming and the others were too shrewd to be fooled.

Soon after, Lu Ming and the others left the scope of the Yin Sha clan.

"Go, go to Yuanguang Clan!"

Lu Ming said.

"Go to Yuanguang Clan?"

Xie Nianqing and others were surprised.

"Yes, the Yin Sha clan exchanged news with the Celestial Clan in advance, and then they will arrange the source-level formation in advance, but the Yuanguang clan does not know that we will suddenly kill the Yuanguang clan, and we will definitely not arrange a combined attack in advance. law."

Lu Ming said, a ray of murderous intent flashed in his eyes.

The two origins of the Heavenly Army were forced to death, and the three clans of the Forbidden Land had a share. Lu Ming wouldn't just leave it alone.

"Okay, go to the Yuanguang Clan. If you are lucky, maybe you can get two top source-level magical medicines?"

Dandan's eyes began to shine.

The Yuanji sacred mountain where the Yuanguang clan is located, but there are many top source-level magic medicines.

Immediately, they set off, crossed the void of the universe, and headed towards Yuanji Shenshan.

With their current cultivation base, as long as they don't go to those particularly dangerous places, or bad luck, or encounter disaster-level places, in the ruins of the universe, there is still no big problem in safety.

Moreover, their speed was very fast and did not take too long, they crossed the void and came outside the Yuanji Mountain.

Compared with Lu Ming's last visit, the light radiating from Yuanji Shenshan was stronger and dazzling when viewed from a distance.

The three rushed directly into the continent where the source-level sacred mountain was located.

"That's... Void Giant."

Dan Dan suddenly whispered.

On the ground in front, a huge and incomparable behemoth lay on the ground, exuding a breath of terror.

It is the Void Giant.

The Void Giant Beast is still sleeping.

However, it can be clearly felt that the aura from the Void Giant Beast is even more terrifying than last time.

Perhaps it was because the origin of the disaster reached the later stage.

Once the great calamity of the origin is over, the Void Giant Beast will probably wake up.

Thinking of this, Lu Ming's face was a little ugly.

He could feel that this Void Giant Beast was absolutely terrifying, even with his current combat power, feeling the breath of the Void Giant Beast, it felt very terrifying and the pressure was huge.

This is still asleep, if he wakes up, I don't know how strong it will be.

I'm afraid I can slap him to death.

Yuanji Shenshan, but there are four Void Giants.

Once the great calamity of the origin is over, let alone the powerhouse of the Yuanguang clan, these four giant void beasts are absolutely terrifying.

Once the great calamity of the original source is over, and the heavenly army is destroyed, how should they compete with these forbidden creatures?

"I don't know if Senior Feihuang, Senior Tang Feng and others have any countermeasures..."

Lu Ming sighed in his heart.

His cultivation base is still too low.

At this time, there are still hundreds of years left until the Great Tribulation of the Origin has completely passed.

For hundreds of years, no matter how fast he can improve, it is already a fluke to break through to the original state.

To be honest, for hundreds of years, wanting to break through to the original state, in the eyes of others, it is completely idiotic.

Breaking through the origin is many times more difficult than breaking through the peak of the \*\*\*\* master with the ninefold.

However, just breaking through the origin, how can you compete with the forbidden creatures?

We still have to rely on veterans like Feihuang and Tang Feng.

Lu Ming and others carefully bypassed the Void Giant Beast and continued towards the Yuanji Shenshan.

Suddenly, a light and shadow flashed past the right front.

Lu Ming's pupils shrank suddenly.

That is clearly a top source-level magic drug.

That's right, Lu Ming would never read it wrong, it was a top source-level magical medicine.

Lu Ming really didn't expect that their luck was so good. Not long after they entered the Yuanji Mountain, they really encountered a top source-level magical medicine.

Xie Nianqing, Qiuyue, Dandan and others also discovered this source-level magical medicine.

"It's a top source-level magic medicine!"

Dan Dan immediately became excited.

chase!

Hh hh hh...

Lu Ming and others, at full speed, chased after the top source-level magical medicine.

The top source-level magic medicine is extremely fast, like a bolt of lightning, flying to the Yuanji Shenshan quickly.

Harmony soon, it is near Yuanji Shenshan.

Even Lu Ming and others have seen many figures coming in and out of Yuanji Shenshan.

All of them belonged to the Yuanguang clan. Thousands of them were laid out at a glance.

"who?"

Some people from the Yuanguang clan shouted, and they had already discovered Lu Ming.

Thousands of eyes looked at Lu Ming and the others.

"It's Lu Ming!"

"It's Lu Ming and the others, \*\*\*\* it, they want to capture the top source-level magical medicine."

"After eating the Xiongxin Leopard, I dare to catch the source-level magical medicine in our Yuanji Shenshan and look for death!"

"Set up the formation, go and kill him!"

There was a roar, and in an instant, at least hundreds of Yuanguang clan rushed towards Lu Ming and them.

These Yuanguang tribes are all highly cultivated generations, and even possess the carrier of combined attack formations, which are arranged one after another.

There are seven players fighting together, nine people fighting together, and twelve people...

The most common formation is the formation of 18 players.

Chapter 4965: Go ahead

The Yuanguang clan's combined attack formation method, either turned into a knife shape, or turned into a sword shape, killed Lu Ming.

"roll!"

Lu Ming's eyes were cold, the God of War spear vibrated, and it stabbed out violently. In an instant, dozens of spear lights burst out, colliding with these people's combined attack formation.

bump! bump! bump! ...

These knives and swords exploded in an instant.

Then, there was a scream.

Many people in the formation were shattered by the power of destruction, turned into ashes, and fell directly.

Just like that, at least 30 masters of Yuanguang clan were killed.

The other Yuanguang people sucked in cold air, and retreated back in panic.

"This Lu Ming is too abnormal, we are not opponents."

"Hurry up and give the voice to the adults."

Many Yuanguang clan roared.

Lu Ming and others ignored these Yuanguang Clan and continued to pursue the top source-level magical medicine.

With the help of Bubble's time and space, their speed greatly increased.

Especially now, everyone's cultivation base has been upgraded to the peak of the gods, and their speed is much faster than when they were in Zixiao Cave.

"The power of time and space!"

"Devil Realm!"

Bubbles and Xie Nianqing shot at the same time, and the power of time and space and the realm of the demon enveloped the top source-level magic medicine, causing the speed of the top source-level magic medicine to plummet.

Dan Dan quickly shot, the dense runes flew out, forming a large formation, like a net of heaven and earth, shrouded toward the top source-level magical medicine.

Then, Lu Ming, Qiuyue, and Ling Yuwei gathered and grabbed it.

Together, they made the top source-level magical medicine hard to fly. Lu Ming grabbed it and put it into the prey.

In the distance, those Yuanguang clan watched, but did not dare to come over and do something.

"Dandan, look at this Yuanji Shenshan, is there any terrible formation."

Lu Ming looked at Dan Dan.

"Let me see!"

Once transformed into a prototype, the tortoise's shell glows, seeming to be sensing.

After a while, Dan Dan's face suddenly changed, and a trace of horror flashed in his eyes.

When Lu Ming, Xie Nianqing and others saw it, their hearts sank.

"I can sense that this Yuanji Shenshan has only one formation."

Dan Dan said.

"Only one formation? A terrifying formation?"

Lu Ming said.

"Yes, very scary, even more scary than the source-level formation."

Dan Dan said solemnly.

Lu Ming and the others jumped in their hearts.

A formation that is more terrifying than a source-level formation, what formation is that?

This kind of formation, once activated, killing them is easy.

"However, this formation is in a silent state, as if it is a dead formation. I guess that this formation can only be activated by a truly terrifying master, even if it is the existence of the Origin Realm, it will not be activated. "

Dan Dan said.

The existence of the Origin Realm can't be moved.

Lu Ming and the others were relieved immediately.

Now the Great Tribulation of the Origin, the Origin Realm and above, are all proclaiming themselves, all sleeping to avoid the Great Tribulation, the stronger the cultivation base, the less likely it is to wake up.

Then this big formation is tantamount to furnishings, useless.

Even if the original existence of the origin awakens, it can't be moved.

Lu Ming finally knew why there was only one formation in this forbidden area, Yuanji Shenshan.

Because, in the era when it was not the Great Tribulation of the Origin, the Yuanguang Clan definitely had a terrifying existence and did not proclaim itself, or could wake up at any time.

Once a formidable enemy comes in, it is enough to directly activate the terrifying formation.

With this kind of formation, there is no need for other formations, such as the main-level formation or even the source-level formation.

Once this formation cannot be activated, there is no formation in Yuanji Shenshan.

"Dan, you are sure, but sure."

Lu Ming's eyes were piercing, looking towards Dan Dan.

"Hehehe, Lu Ming, I know what you want to do, I tell you, I'm 100% sure, come on, get it up, do it."

Dandan shouted excitedly.

"Let's do it, do a big job, and better get one or two top source-level magical medicine."

Lu Ming was also a little excited.

Huh! Huh! ...

Lu Ming and the others did not retreat, but rushed towards Yuanji Shenshan.

Those Yuanguang clan didn't dare to stop them at all, and when they saw Lu Ming approaching, they retreated.

But at this time, a large number of figures flew out of Yuanji Shenshan.

They are all Yuanguang clan, and the number has reached tens of thousands.

You know, before entering Zixiao Cave Sky, the number of Yuanguang Clan was only a few thousand.

From this it can be seen that a large number of Yuanguang clan has awakened in the past eight thousand years.

"Lu Ming!"

"You dare to come to my Yuanji sacred mountain."

Several roars came.

Lu Ming glanced away and saw some old acquaintances.

Yuan four poles, Yuan five poles... Yuan eight poles, Yuan nine poles.

The one who shouted just now was Yuan Baji and Yuan Jiuji.

"Look, there is a medicine field below!"

Bubble suddenly pointed at the lower road.

Sure enough, not far below, there is a medicine field with a large area and lush greenery, full of different types of magic medicine.

These magical medicines are very neat, obviously cultivated by Yuanguang people.

"Received all, transplanted into the prey."

Lu Ming glanced at Yuan Jiuji and the others, then moved his gaze to the medicine field.

Lu Ming and the others rushed directly towards the medicine field.

This made Yuan Siji and others so angry that it was completely ignored by Lu Ming.

"Set up an array, stop them!"

Yuan Siji roared.

The figure flickered, and the formations were arranged one after another.

In an instant, there were more than a dozen combined attack formations arranged.

Among them, there are a total of nine players with a total of 21 players, and the other team players are all 18 players.

They knew that a too low-level combined attack was ineffective against Lu Ming and others.

"There are nine-seat and twenty-one people fighting together."

Lu Ming's eyes flashed.

However, it was normal. After so many years, the Yuanguang clan had at least awakened tens of thousands of people, and even more than that, and the number of joint attacks increased, which was too normal.

"Xiaoqing, you go pick the magic medicine, these people, give it to me."

Lu Ming spoke to Xie Nianqing, Qiuyue and others. He stood alone in the void, holding the God of War spear, blocking the front of all Yuanguang Clan.

On his body, the top source-level battle armor enveloped him, like a \*\*\*\* of war.

In the next moment, dozens of players joined forces and they came close.

"roll!"

Lu Ming yelled, his aura was mad, and he slapped it out of the sky with a palm. In the void, a continent condensed out, like a real world, suppressing the dozens of combined attacks.

The mainland was depressed, and the power was overwhelming, so that everyone would not dare to take it lightly.

More than a dozen combined attack formations, either turned into war swords, or turned into war knives, at this time, they all hit high in the sky, trying to break through the mainland.

Boom boom boom...

Arrays of roar sounded, and the mainland kept shaking, but the dozens of combined attack formations also trembled.

Hum!

At this moment, Lu Ming continued to shoot, the God of War spear vibrated and swept out.

With two bumps, the giant war gun, as large as a mountain, swept over the two giant war swords.

Chapter 4966: Lu Ming's doubts

The God of War Spear swept across the two huge war swords.

These two huge war swords were formed by two 21-person combat formations.

However, the combined attack formation of the two twenty-one people could not withstand Lu Ming's attack at all.

With two roars, two war swords were swept away tens of thousands of miles away, and all the people in the formation coughed up blood.

The two twenty-one men attacked the formation together, Lu Ming's offensive continued, his gun changed, and one shot was shot.

bump!

Another combined attack formation was blasted into the air, and all the people in the formation were injured. The war swords formed by the formation trembled constantly, almost unable to stabilize.

At this time, the people of the Yuanguang clan also defeated the continent transformed by the prehistoric style and launched a counterattack.

More than a dozen swords were slashed at Lu Ming's body, but they were all blocked by the top-level source-level battle armor. Lu Ming just staggered and changed to seem like nothing, and the God of War spear swept out again.

boom!

Another formation was blown away.

Lu Ming is almost like an invincible God of War, open and invincible.

With every move, these combined attacking formations can be blasted away. These combined attacking formations are like \*\*\*\* one by one, without resistance.

bump!

Finally, there was an 18-person combined attack formation that couldn't stand it, and was exploded by Lu Ming.

All the people in the formation flew out, and seven of the eighteen people in the formation were exploded and fell on the spot.

The others also vomited blood and were injured. They dared to stay wherever they were, and backed crazy.

The others were also terrified, especially the combined attacking formation of those 18 people, even more frightened, and they dared not continue to attack for a while.

Twenty-one people's combined attack formation can also play a few tricks with Lu Ming.

But the formation of the 18 players is far behind, and if they can't stop the two moves, they will be bombarded and the formation cannot be maintained.

Lu Ming alone blocked a dozen seats in a combined attack.

And Xie Nianqing, Qiuyue, Dandan, Paobao and others were frantically searching for the magical medicine in the medicine field.

They are like remnants of wind, and even the land is swept away wherever they pass.

Soon, the magical medicine of a large area of medicine field fell into the hands of Xie Nianqing and the others.

"Lu Ming, the magic medicine is finished, let's go and find other magic medicine."

Dan Dan called.

Lu Ming's figure flashed, merged with Dan Dan and others, and rushed in the other direction of Yuanji Shenshan.

The dozens of combined attack formations did not dare to pursue them for a while.

"Quickly, chase, catch up with them!"

"They are going into the mountain and stop them."

Yuan Baji and Yuanjiu greatly roared, but they themselves did not dare to step forward.

Just kidding, using their strength to stop Lu Ming, isn't that just looking for death? I'm afraid Lu Ming can stab them to death with a single shot.

"chase!"

Yuan Siji gritted his teeth, and Yuan Wuji and others chased Lu Ming and the others.

Soon, Lu Ming and the others entered the boundary of Yuanji Shenshan, and they could see that there were valleys in Yuanji Shenshan.

Lu Ming knew that in these valleys, there were a large number of Yuanguang tribes sleeping.

At the same time, he could see the constant flickering of human figures in Yuanji Shenshan, coming in and out like ants, all of them were Yuanguang clan, the number was astonishing.

Since entering the Yuanji Sacred Mountain, the Yuanguang Clan that Lu Ming has discovered is at least over 100,000.

Moreover, most of the Yuanguang clan's cultivation bases are very high, and the last ones have the cultivation bases of the \*\*\*\* emperor realm, and a small half of them have reached the \*\*\*\* master realm.

This is an unimaginable force, and the Heaven Extinguishing Army is a thousand miles away from the one.

Even the Celestial Race is completely incomparable.

But it is very strange, why are all cultivation bases above the Divine Emperor Realm? This does not conform to the development law of a race.

The development of a race must be shared by all walks of life.

Ground floor, middle level, high level...

It is impossible to all be high-level.

Why does the Yuanguang clan have no gods, kings, or even lower-level clansmen?

It is impossible that the Yuanguang Clan was born in the Divine Emperor Realm. This is impossible, it is incredible.

A race outside the prehistoric universe?

Lu Ming's heart suddenly moved.

In the Zixiao Cave, he already knew that the three races of the Forbidden Land were all races outside the prehistoric universe.

"Is it an intruder?"

Lu Ming's mind turned quickly.

Why did races outside the prehistoric universe enter the prehistoric universe and form a forbidden land?

Perhaps because these races are all invaders, they invaded for some reason, and finally for some reason, they named themselves in one place, forming a forbidden land.

This can explain that the people of the Yuanguang clan are all powerhouses above the Divine Emperor Realm.

Because at the time of the invasion, it is impossible to drag the family with one's mouth, and it is impossible to bring a low-level existence.

"Could it be that the three tribes of the forbidden land are all invaders? If so, what happened to the prehistoric continent of the last era? Why did these races finally turn into the forbidden land?"

Lu Ming's thoughts continued to stretch, thinking a lot, but more questions emerged.

He knows very little about the prehistoric continent of the last era, but one thing can be concluded that the prehistoric continent of the last era was a magnificent era, which was countless times more prosperous than it is now.

According to legend, there was more than one immortal in the prehistoric continent of the last epoch. It was an era when a group of immortals were competing for hegemony. Unlike now, there was no immortal.

"There is also a medicine field there. It is so big, several times larger than the previous medicine field..."

At this time, Dan Dan's excited cheers interrupted Lu Ming's thoughts.

Sure enough, there was a medicine field below.

In this medicinal field, the rich and wild aura is about to become real. This is an excellent place to grow magical medicine.

Some distance away, there is a strong smell of medicine.

"I'm sure, there must be an active-level magic drug..."

Dan Dan's nose kept trembling, and his saliva almost came out.

They didn't hesitate and rushed towards the medicine field.

The expressions of Yuan Siji and others changed drastically.

"Quickly, rush to stop them."

Yuan Siji roared.

They rushed over frantically with those combined strikes.

"Who are you?"

"Hurry up!"

In the medicine field, there are also some Yuanguang clan guardians, and when they see Lu Ming and others, they shouted.

"kill!"

Ling Yuwei drank coldly, very murderous, and straightly bent her bow to shoot arrows. In an instant, a dozen arrows were shot.

Ling Yuwei had repeated adventures, her talent and potential became stronger and stronger, and her combat power became more and more amazing.

Now, she has reached the peak of the gods, with full combat power, better than the strongest heavenly monarch.

The ordinary Yuanguang clan couldn't resist it at all, and a dozen Yuanguang clan were directly shot to death.

Lu Ming, Xie Nianqing, Qiuyue and others also took action, killing dozens of Yuanguang clan in an instant.

Wherever the other Yuanguang clan dared to stay, they all fled frantically.

They easily entered the medicine field.

This medicine field not only has no master guards, nor any formations.

Because this medicinal field is located in the Yuanji sacred mountain, where the Yuanguang clan is sitting, so why do you need any formation?

This is easier for Lu Ming and others.

Chapter 4967: There are two more top source-level magic drugs

"That's... the top source-level magic medicine."

Suddenly, Dan Dan roared in shock.

Lu Ming, Xie Nianqing and the others were also shocked, their eyes widened suddenly.

In the medicinal field, there is a Wang Qingquan with a radius of only one meter, like a small pond.

In the pool water, there are two magical medicines bathing in it.

These two magical medicines are very miraculous. Above the magical medicine, there is a small magical medicine running around.

They are all top-level source-level magic drugs!

Obviously, this medicine field is extraordinary, and there are actually two top-level source-level magic medicines living here.

"Chong Chong, these two top source-level magic drugs belong to us."

Dandan growled excitedly.

Of course, I dare not make too much noise, for fear of disturbing the two top source-level magical drugs.

"Shoot!"

Lu Ming drank low, their bodies were like a flash of lightning, and in a flash, they were approaching two top source-level magical medicines.

This spring water should be a kind of divine spring.

Two top-level source-level magical medicines were bathed in the \*\*\*\* spring, quietly nourishing themselves with the \*\*\*\* spring. Obviously, they did not expect that someone would catch them.

The top level source-level magic medicine is very precious, very mysterious, and completely different from ordinary source-level magic medicine.

Most of the ordinary source-level magical medicines are disposable, and they are gone after one use.

However, the top source-level magical medicine does not need to be taken as a whole plant, but can be taken by squeezing out the medicinal solution from it at regular intervals, so that it can be used for a long time.

Therefore, the top source-level magic medicine can be bred all the time.

The treatment of the top source-level magical medicine is also very good. In the Yuanji sacred mountain, they come and go freely, and no Yuanguang clan will catch them.

After the two top source-level magical medicines found Lu Ming and the others, they wanted to escape, but it was a little late.

Xie Nianqing and Paobo shot at the same time, using the power of the Celestial Demon Domain and Time and Space, and Dan Dan quickly laid out several trapping-type formations.

Two top source-level magical medicines rushed out of the Shenquan, rushing from left to right, trying to escape.

"Lu Ming...you dare!"

"You are so bold."

At this time, Yuansiji Yuanwuji and others have arrived, and they roared when they saw this scene.

The top source-level magic medicine, even in the Yuanguang clan, is a very rare and precious magic medicine.

The entire Yuanguang clan, there is not much in total, and they are reluctant to use it to wake up the clan.

Now, Lu Ming and the others dare to do anything with the top source-level magical medicine, which makes them angry.

"Shoot!"

"Stop them!"

Yuansiji Yuanwuji and others have taken action.

There were six people who shot, and six terrible attacks poured out towards Lu Ming.

Invincible God Lord!

As soon as the opponent shot, Lu Ming knew that the six people who did it were all invincible divine masters.

There are only six, this number is less than Lu Ming expected.

Lu Ming thought that there were at least ten invincible divine masters in the Yuanguang clan.

In fact, Lu Ming misunderstood the scarcity of Invincible Divine Masters.

In the Yuanguang clan, there are actually only six invincible divine masters, and those who have not yet awakened, there are no invincible divine masters.

Because it is the great calamity of the origin, the origin is not coming out, the role of the invincible divine lord is too great, and in addition to the competition for the treasures of the purple sky cave, the yuanguang clan invested resources in it and took the lead in awakening the invincible divine lord level powerhouse.

Although the Yuanguang clan has awakened more than 100,000 members in the past 8,000 years, there are only six invincible divine masters.

In addition to the six of them, the combined attacking formation of the twenty-one also rushed over.

"I'll stop them!"

Lu Ming's voice sounded. He was holding the God of War spear and backed up, and the God of War spear stabbed Yuan Siji and the others.

Anyway, the two top source-level magical medicines are already catching turtles in the urn, so he doesn't care about them.

Six spear lights shattered the void, exuding terrifying power.

The body of the Yuansiji Liuren couldn't help but tensed up, feeling shocked.

They played with all their strength and played the strongest killer move.

Their ultimate moves are very similar, all relying on a light in the body.

For example, the red burning celestial light and the black moon celestial light of the five poles of the Yuan Dynasty and the black moon celestial light are similar to others, and they all control a kind of fairy light.

Those who can become invincible gods are light controllers.

Six fairy lights and six spear lights collided together.

Boom boom boom...

Six consecutive earth-shaking roars erupted, and energy swept across all directions. Then, Yuan Siji and others staggered back, everyone, at least a hundred miles back.

On the other hand, Lu Ming staggered, and stabilized his figure.

The Yuansiji six people, even if they knew Lu Ming's combat power for a long time, they still took a deep breath, their expressions heavy.

Lu Ming's frontal combat power exceeded their expectations. He actually used one person to face the six of them, and knocked them back.

This level of combat power is simply terrifying.

Last time before the garrison of the Heaven Extinguishing Army, Lu Ming defeated sixteen invincible divine masters by one person, but at that time Lu Ming relied on the defensive power of the top source-level armor to rush and smash them all.

Now, Lu Ming had repelled their six invincible gods head-on.

That is, if the combined power of the six invincible \*\*\*\* masters is not as good as Lu Ming, how can this not be frightening?

"Shoot, keep going!"

Yuansi great roar.

The six invincible divine masters continued to take action and launched six attacks.

Lu Ming continued to wield the God of War spear and launched an attack.

Now, Lu Ming's main purpose is to resist. His goal is to allow Xie Nianqing and the others to successfully capture two top source-level magical medicines, as well as search for other magical medicines.

If he rampaged like last time and took the initiative to attack, he could easily defeat Yuan Siji Six.

But in this way, other Yuanguang clan can take the opportunity to rush over and launch attacks on Xie Nianqing and others, especially those combined attack formations.

There was another series of roars, and the six invincible gods retreated violently.

But at this time, Xie Nianqing and the others finally succeeded.

Two top-level source-level magic medicines were heavily trapped by Dandan's formation, and then Xie Nianqing and Qiuyue each seized them, and temporarily put them into the storage ring.

"Damn it..."

Yuan Siji and others roared.

They got the report before, and Lu Ming and the others had already taken away a top source-level magical medicine from them.

Now there are two more plants, that's three.

Three top source-level magical medicines, this is a huge loss.

You know, in the Zixiao Cave, Yuanguang Clan has only obtained three top-level source-level magical medicines.

Therefore, Lu Ming and the others must not be allowed to leave, otherwise they would lose three top source-level magical medicines.

The Six Yuansijis launched a frantic attack, and those combined attack formations have also arrived.

"Get out of here!"

Lu Ming roared, his fighting spirit boiled, and the power of the taboo ran wildly. With a palm, a continent emerged, suppressing the formations.

And he, dressed in battle armor, started a counterattack.

Chapter 4968: The limits of the combined attack

Lu Ming began to fight back.

Anyway, Xie Nianqing and the others had already taken down the two top source-level magical medicines, even if someone rushed to deal with Xie Nianqing and them, they could fight back.

I couldn't fight back before because I was afraid of being run away by the top source-level magical medicine.

Now, even if they lose, but there are bubbles, they can retreat calmly.

Xie Nianqing and others gathered together and began to search for other levels of magic medicine.

The primary goal is the source-level magic medicine

There are at least a dozen source-level magical medicines in this medicine field.

It is the king of medicine in this medicine field, scattered in various areas.

Hum!

The Ares Gun vibrated, and Lu Ming swept out with a shot.

This time, I didn't aim at six people, but at Yuan Siji one person.

Yuan Siji alone, how could he stop Lu Ming's attack.

Even if he has a fairy light body, it is useless.

Under the bombardment of the God of War spear, Xianguang trembled violently, Yuan Siji's figure flew out like a ball, a mouthful of blood spurted out, and his face was pale.

As for Lu Ming, although he was hit by others, he was blocked by the top source-level armor.

Buzzing...

The God of War spear vibrated continuously, and Lu Ming continued to shoot. Yuan Wuji Yuan Liuji and others also stepped into the footsteps of Yuan Siji and others and were shot out.

In the distance, other Yuanguang tribes saw this scene and kept sucking in cold air.

Horrible!

Lu Ming's combat power is terrifying!

In their eyes, the unrivaled invincible God Lord, in front of Lu Ming, was so fragile, like a ball, that he was knocked out one by one by Lu Ming.

Lu Ming, is he still the Lord?

Invincible divine masters are so fragile in front of them, how about ordinary divine masters, isn't even a baby in front of them?

Is it no different from ants?

"kill!"

Lu Ming's fighting spirit was frantic. He knocked the six invincible divine masters into the air, then rushed to those combined attack formations, launching a fierce bombardment.

Moreover, Lu Ming only stared at one of the formations and fiercely attacked.

After several consecutive attacks, one of the combined attacks was abruptly broken up. All the 21 people in the formation were injured, and five or six people were killed.

Lu Ming waved his hand and put away the five or six carriers of the combined attack formation.

Yuan Siji and others saw this scene, their eyes split.

"Sixth brother, you go kill them, the others, do your best to stop Lu Ming, and let people come and set up a source-level formation. I want them all to die."

Yuan Siji roared.

Immediately, someone heard the news, and Yuan Liuji rushed towards Xie Nianqing and others.

"The wind is screaming..."

Dan Dan shouted.

The bubble immediately used the power of time and space, covering everyone, their bodies trembled, the void was filled with ripples, and they disappeared from where they were.

Now, Paobao's cultivation base has reached the Ninth Level of the Divine Lord, and the power of time and space is even more mysterious. After using it, not to mention people of the same level, even if it is an ordinary origin, she may not be able to win her.

Even if she assisted Xie Nianqing and others with the power of time and space, the speed of everyone could be greatly increased.

Xie Nianqing and others have almost all reached the peak of God Lord, and only Dan Dan is still in God Lord Jiu Zhong.

The main reason why Dandan didn't break through was because he didn't have time.

When everyone was in retreat and broke through before, Dandan had to set up an array with other masters of formation, and the three clans of the forbidden area attacked from behind, and then waited for the three clans of the forbidden area to retreat. Dandan had no time to practice.

But his formation is mysterious, and various mysterious formations are emerging in an endless stream. With the power of time and space, the speed is also very fast.

Yuan Liuji couldn't catch them at all.

"hateful..."

Yuan Liuji roared, his face ugly.

"kill!"

At this time, Lu Ming stared at another combined attack formation and launched a fierce bombardment.

As for Yuan Siji and others' attacks, he was too lazy to control.

Anyway, there is a top-level source-level armor body, which can't stand much trauma.

Boom boom boom!

After a few consecutive moves, another combined attack formation was destroyed.

When this combined attack formation was exploded, Lu Ming seized the opportunity and shot out with a palm, and a continent was formed, covering a radius of tens of thousands of miles, covering all the people in the formation.

How can these people resist Lu Ming's prehistoric style?

Under the pressure of the mainland, the bodies of these people in the formation exploded and fell on the spot.

All their combined attack formation fell into Lu Ming's hands.

This is a complete set of 21-man combined attack formation. Take the Sky Extinguish Army back, and the Sky Extinguishing Army can add a powerful combined attack formation and a top-level combat power.

"Damn it, retreat, retreat all the combined attacks!"

Yuansi great roar.

If this continues, all other joint attack formations will be defeated by Lu Ming, and the carriers of the joint attack formation will all fall into Lu Ming's hands.

Lu Ming has no weaknesses, defense and attack are invincible.

Yuan Siji and the others tried their best to entangle Lu Ming, so that the combined attack formation could retreat.

But even so, in the end there was still a combined attacking formation that was blasted by Lu Ming.

At this time, another group of Yuanguang clan rushed over.

These Yuanguang clan are all elderly people, each of them is holding a bone in their hands.

It is the original skeleton.

Dozens of elders from the Yuanguang clan surrounded the battlefield, constantly engraving runes.

"Huh, want to set up a source-level formation against me?"

Lu Ming stared blankly before leaving Yuan Siji and others, and rushed directly towards the old man.

call out!

The God of War spear pierced out, and a spear light shattered into the void, directly piercing the old man's eyebrows.

Although this old man of the Yuanguang clan had the cultivation base of the \*\*\*\* master peak, he was only a general \*\*\*\* master peak, proficient in the formation, but not strong, how could he fight against Lu Ming.

With a puff, the old man of the Yuanguang clan was killed.

Lu Ming grabbed the palm of his hand volley, and the opponent's original bone was caught by Lu Ming.

Then, Lu Ming killed another old man, and the scared old man ran away.

The source-level formation cannot be deployed at all.

It takes time to arrange a source-level array.

It's impossible to arrange it in an instant like a combined attack.

How could Lu Ming give the other party this time to set up an array?

Before, the Yin Sha clan had arranged their formations in advance and waited there.

He shot continuously, rushing the elders all over, then returned to the medicine field and began to search for the magic medicine.

Xie Nianqing, Dan Dan and others also returned to the medicine field and searched together.

"Damn, damn..."

Yuan Siji and others stood far away, but for a moment they dared not attack.

They understood that they couldn't help Lu Ming at all, and attacking Lu Ming would only increase their losses.

"Damn it, we should have refined a set of thirty-six players."

Yuan Liuji Road.

"The thirty-six players' combined attack formation is so easy to refine. In the era of non-primitive catastrophe, the thirty-six players' combined attack formation has little effect, but the cost is amazing..."

Yuan Siji Road.

In the universe, Mingming has its own rules.

Normally speaking, the combined attacking method of the \*\*\*\* master level, 21 people is the limit.

Going forward, it is almost impossible to refine more people's combined attack formation.

Chapter 4969: Fight back to origin

It's almost impossible, doesn't mean it's completely impossible, but the price is too great.

In the 21-person joint attack formation, there is only one 36-person joint attack formation, which may succeed in refining, but the success rate of refining is surprisingly low.

Refining a hundred times may not be successful once, because it violates the rules of the universe.

Once the refining fails, the materials are destroyed.

You know, the materials for refining the 36-person combined attack formation are very precious, and one failure is a huge loss.

And even if it is refined to deal with the general origin, it is still invincible in the face of the powerful origin.

For such powerful races as the Yuanguang Clan, masters are like clouds, there are many in the Origin Realm, and there is no need to refine this kind of combined attack carrier.

So, they regret it now.

The 36-person combined attack formation was several times more powerful than the 21-person combined attack formation. Not to mention killing Lu Ming, at least blocking or repelling Lu Ming was no problem.

Lu Ming and the others were very fast, like a wind rolling cloud passing through the medicine field, wherever they passed, the magic medicine in the medicine field was swept away.

"Haha, those Yuanguang tribes don't dare to take action anymore, shall we continue?"

Dandan laughed, his eyes scanned the rest of the source-level sacred mountain.

Happy, really happy.

Especially when they saw a depressed expression of vomiting blood from the Yuanguang clan, they were extremely happy.

These Yuanguang tribes, who usually look like awkward and coaxing, are now playing with them, and they are dizzy, and they can also search for magical medicine. How unhappy?

"Naturally continue, but to prevent them from jumping over the wall and awakening the masters of the origin realm, you are close to me, once the other party awakens the existence of the origin, you will enter the prey."

Lu Ming said.

"It is good!"

Xie Nianqing and others nodded.

Afterwards, they walked in the air and headed to other places in Yuanji Shenshan.

"Damn, they want to go elsewhere, they are so greedy..."

Yuan Wuji roared.

"It should be killed, it should be killed, really should be killed..."

Other Yuanguang people also roared constantly.

"Let the source awaken, let a powerful source awaken, and kill Lu Ming."

Yuan Siji growled.

"Whoever wakes up, those who are above the mid-primary stage, will soon fall after awakening, and the pressure of the source-induced catastrophe is very heavy, I am afraid it will not be useful."

Yuan Wuji asked.

"Let Yuan Konghai wake up!"

Yuan Siji Road.

"Yuan Konghai? He realized the existence of Origin Art at the early stage of Origin. He has a strong talent and great potential. Is it worth it to deal with Lu Ming?"

Yuan five level road.

"Yes, fourth brother, Lu Ming is wearing a top-level source-level war armor, and he has masters who control the power of time and space around him. His life-saving ability is amazing. Even Yuan Konghai may not kill him. Instead, he will let Yuan Konghai Sacrifice for nothing."

Yuan Liuji also followed Tao.

The words of Yun Wu Ji Yuan and Liu Ji made Yuan Si Ji hesitate.

"The sixth brother is right. I think it is enough to wake up a person whose talent potential has been exhausted, but the strength can stop Lu Ming. If you want to kill Lu Ming, there is a chance. When the origin is over, Lu Ming will die. !"

Yuan Wu Ji Dao.

"it is good!"

Finally, Yuan Siji nodded and adopted the opinions of Yuan Wuji and Yuan Liuji.

The main reason is that Lu Ming's life-saving ability is so strong that even the top players in the early days of the origin may not be able to kill Lu Ming.

Lu Ming and the others searched over the source-level sacred mountain, looking for other medicine fields or top source-level magical medicine.

Suddenly, in a valley in the source-level sacred mountain, a horrible breath filled out.

The breath of origin!

The figures of Lu Ming and others stopped immediately, their expressions becoming serious.

The Yuanguang Clan finally couldn't help it, awakening the existence of the Origin Realm.

"You are all in the prey."

Lu Ming said immediately.

The origin of Yuanguang Clan's awakening is certainly not simple.

Now that he knows Lu Ming's combat power, the origin of his awakening is definitely not ordinary.

There are too many factors in the origin realm that have an influence on combat power. Even if the same is the same in the early days of the origin, the difference in combat power will be very large.

If there is a top master, Lu Ming is also dangerous.

Inspiring the prehistoric precepts, an attractive force spread out, and Xie Nianqing and others entered the prehistoric precepts one after another.

Lu Ming retreated like lightning, and stretched his distance. At the same time, the armor on his body glowed, covering Lu Ming's whole body.

Ready for the war.

boom!

The breath of the Origin Realm exploded, and a stream of light rushed out of the valley and stood in the void.

This is an old man.

There are thick wrinkles piled up on his face, and beams of hair are flying, but the light of beams of hair looks a little dim.

He looked at Lu Ming's gaze, revealing a deep killing intent.

Even though he is old, his life as the source is almost unlimited, and he lives the same life as the universe. If there is no accident, he can live for endless years.

Now, because of Lu Ming, he will soon fall, and his hatred for Lu Ming is terrifying.

"Boy, you are looking for death, kill!"

The elder of the Yuanguang clan shouted angrily, a ten thousand zhang of glow radiated from his old body, and then rushed towards Lu Ming.

"Heaven and Earth Shenguang Jue!"

The old man of the Yuanguang clan shouted, his palms shot out, and beams of light burst out, blasting towards Lu Ming.

"Source-level magic weapon!"

Lu Ming's eyes flashed.

This old man wore a pair of gloves in his hands, and spurred strong fluctuations under the power of Taboo.

This is obviously a source-level magic weapon!

However, Lu Ming knew at a glance that the attacking technique used by the old man was not a source technique.

It wasn't Yuan Shu, Lu Ming felt a little loose, and then, the God of War Spear trembled, unleashing it in a world-breaking manner.

Huh hoo...

Spear lights burst out, colliding with the attacks of the Yuanguang clan elders, inspiring thousands of rays of light, and the vigor continued to roar.

After a series of collisions, Lu Ming felt a powerful force surge, and his body retreated, backing about a kilometer.

And the old man just stepped back hundreds of meters.

"The top source-level magic soldier, forbidden land creature, really rich."

Lu Ming's heart moved.

The old man of the Yuanguang clan, his own strength is average, just an ordinary elementary early stage, but with the addition of the top source-level gods, it is different, and the combat power skyrocketed.

This can be seen from the performance of Xinghuo Yuanzun.

At the beginning, Xinghuo Yuanzun was only about the same as an invincible divine master, but with the top source-level divine weapons given by the bone demon, he directly smashed the sixteen invincible divine masters.

"kill!"

The old man of the Yuanguang clan shouted, to be honest, he was also shocked in his heart, shocked by Lu Ming's combat power.

He finally knew why Yuan Siji and others wanted him to wake up.

The old man of the Yuanguang clan went to Lu Ming to kill again.

Lu Ming was fearless, holding the God of War spear, and fought against the elders of the Yuanguang clan.

Chapter 4970: It's useless to be angry

Although the old man of the Yuanguang clan holds a top-level source-level magic weapon, his combat power is amazing, and he is stronger than the original source of the Celestial Clan who awakened.

Because the source of the awakening of the Celestial Clan controls only ordinary source-level gods.

However, although Lu Ming fell in the wind, the opponent wanted to completely crush him, but he couldn't do it. The two faced off for dozens of moves, and Lu Ming resisted abruptly.

"Happy, happy..."

Lu Ming's eyes were bright.

Fighting against such an opponent is truly happy, and it can always give Lu Ming strong pressure.

In order to cope with the opponent's attack, Lu Ming had to stimulate his potential to the extreme with every move. In this way, his understanding of the source technique became clearer and clearer.

Although the distance is fully understood, there is still a long distance, but at least one step closer firmly.

When Lu Ming fought against the Yuanguang clan elders, the other Yuanguang clan were not idle.

Those masters who are proficient in formations arrange source-level formations in some important places around them.

The existence of the source can only last for half a month at most, and after half a month, it will fall and dissipate. They must deploy the source-level formation within this half month.

At that time, even if they don't have the origin, they can still make it difficult for Lu Ming to move closer with the origin-level formation.

Lu Ming and the old man of the Yuanguang clan fought a few more moves, and his figure quickly retreated.

"Where to go?"

The Yuanguang clan elder shouted loudly, at an amazing speed, and kept chasing Lu Ming.

However, at this time, Bubble had already emerged from the predicament and enveloped Lu Ming with the power of time and space, causing Lu Ming's speed to increase sharply.

The old man of the Yuanguang clan was thrown away at once.

The old man of the Yuanguang clan showed unwillingness, but he knew very well that his purpose of awakening was to guard the source-level sacred mountain. Although he was unwilling, he could only retreat and stop over the source-level sacred mountain to prevent Lu Ming from attacking.

Not long after, Lu Ming appeared in the distance, observed it, and sighed in his heart.

He knew that it was impossible to gain another gain in Yuanguang Clan.

As long as he gets close, the source will move to block him, and the formation masters of the Yuanguang clan are always in the formation.

As long as the source-level formation was 10%, Lu Ming could hardly get close.

However, the Yuanguang Clan can no longer gain, and there is another place, perhaps there is gain.

Cang Ming Sea!

Cang Ming Hai hasn't been there yet.

Thinking of this, Lu Ming turned and left, disappearing into the void, and he headed towards the direction of Cang Ming Sea.

After a while, Lu Ming appeared near Cangming Sea.

The Cangming Sea, as the name suggests, is an ocean.

There is a vast ocean in the void of the universe, but there are many islands in the vast ocean.

The core island is the largest. Around this island, there are a large number of small islands, at least thousands of them.

Thousands of small islands surround large islands like stars holding the moon.

"Dandan, Cangminghai, is there a formation?"

Lu Ming asked Dandan.

In fact, Dan Dan has long been paying attention to observation.

After a while, Dan Dan said: "Of course there are formations. In the Azure Sea, these large and small islands are the base of the formation. These islands form an extremely terrifying formation. I am afraid that the level is not It will be lower than the formation of the source-level sacred mountain."

"Oh? So, even the existence of Origin Realm can't be moved?"

Lu Ming said.

"Not bad!"

Lu Ming nodded.

"Apart from this formation, are there other formations, for example, source-level formation?"

Lu Ming asked.

"No, like the source-level sacred mountain, none."

Dan Dan said.

Lu Ming showed joy.

These forbidden areas are really the same, they are all too confident, except for a terrifying formation, there is no other formation.

Of course, they are confident for a reason.

If it were in the era of non-primitive calamity, their terrifying formation would be enough to block or even kill powerful enemies.

Not to mention that among the creatures in the Forbidden Land, masters are like clouds, living in existences that do not know how strong they are.

Also, in today's prehistoric universe, the masters are withered. Even at the time of the Primal Tribulation, their number of masters is astonishing. How can anyone dare to break into them?

How could they have thought that a freak like Lu Ming had come out.

"Then... grab it!"

Lu Ming smiled, and Dan Dan and the others rushed into the sea of sea.

Soon after, in the sea of sea, an earth-shaking turmoil was set off.

Like the source-level sacred mountain, a large amount of magical medicine was planted in the sea of seas. Lu Ming and the others ransacked it, and their harvest was greater than that of the source-level sacred mountain.

They actually obtained four of the top source-level magic medicine.

In the end, Cang Minghai's countermeasures were the same as the source-level sacred mountain. Only when the source-level awakened did it stop Lu Ming, and the others began to arrange source-level formations.

At this time, Lu Ming retreated calmly.

This time, their harvest was huge. Together, the source-level sacred mountain and the Cangming sea, they obtained seven top source-level magical medicines.

This is a huge gain.

In addition to the three previously obtained by themselves, now they have a total of ten top source-level magic medicines in their hands.

I am afraid that the top source-level magic drug in the forbidden area is not much more than them.

The Yuanguang clan and Cangminghai were naturally furious, and they all wanted to awaken a large number of origins and kill the Heaven Extinguishing Army to destroy the Heaven Extinguishing Army.

However, in the end he held back.

Not cost-effective!

Several source-level magical medicines, although precious, are not worth sacrificing so many source-level powerhouses.

Also, anyway, in a few hundred years, the original catastrophe will pass.

It will not be too late for the Great Tribulation of the Origin to defeat the Heavenly Army.

Let them be arrogant for a while.

After Lu Ming and the others returned to the garrison of the Exterminating Army, they sent masters to pay close attention to the movements of the outside world. Lu Ming was still a little worried that these forbidden creatures would retaliate wildly.

But in the end it was discovered that the creatures in the forbidden land did not move rashly.

In the universe, peace was restored.

All forces are jealous of each other.

The three clans in the forbidden area, the heavens and humans, are afraid of Lu Ming and dare not come.

But the three races of the Forbidden Land learned well, and in their respective domains, they arranged multiple source-level formations based on the original skeleton.

Naturally, Lu Ming didn't dare to attack these forbidden areas again.

The universe has fallen into a rare peace, collecting resources from each other, developing quietly, and waiting for the end of the original catastrophe.

Dan Dan is in retreat.

His cultivation is still in the Divine Master Ninth Layer, and he must break through to the Divine Master pinnacle as soon as possible in order to better arrange the source level formation.

The Exterminating Army, where Lu Ming lived, Xie Nianqing, Qiuyue, Ling Yuwei, Tang Jun, Bone Demon, Paobao and others gathered together.

Their eyes were fixed on Lu Ming's hand.

Because Lu Ming was holding onto a top source-level magical medicine.

"I heard that the top-level source-level magic medicine can be used repeatedly, and every other month, you can draw a drop of the source-level medicine liquid..." Bubble blinked, staring at the top-level source-level magic medicine in Lu Ming's hand.
