

D Emperor 4971

Chapter 4971: Refining Yuanshen Liquid

The most precious thing about top source-level magical medicine is that it can be used repeatedly.

Every other month, one drop of the source-level magic medicine can be drawn from this top source-level magic medicine.

One drop of the source-level magical liquid contains the essence of the source-level magical medicine. The effect is amazing. Someone once calculated that the efficacy of twelve drops of the source-level magical liquid is equivalent to an ordinary source-level magical medicine.

One year of production is equivalent to an ordinary source-level magical medicine, year after year, how many source-level magical medicines are equivalent to?

Moreover, unlike ordinary source-level magic medicines, which can only be absorbed by the existence of the original source state, the source **** medicine liquid, even the existence of the peak of the **** master, can absorb refining, which is of great help in breaking through the original source state.

This is where the top source-level magical medicine is most precious. Even if there are not many creatures in the forbidden area, if you lose a few plants, it is no wonder that you will be mad.

"let's start!"

Lu Ming danced with his hands, and the power of taboo flew out, covering the top magic medicine, and then began to refine according to the method of extracting the liquid.

Refining the source **** medicinal liquid is a delicate task, it needs to be done slowly, not in a hurry, it will hurt the top source-level magic medicine.

About two hours later, a drop of medicinal liquid was extracted from the magical medicine, exuding an extremely rich medicinal fragrance.

Aside, Xie Nianqing quickly took out a jade bottle, filled the drop of Yuanshen medicinal liquid, and then capped the bottle to avoid loss of efficacy.

After the refinement, Lu Ming put this top source-level magical medicine into the prey.

The continent in the prehistoric ring, today's environment, has also undergone tremendous changes from before.

The primordial atmosphere is many times stronger than before.

This surprised Lu Ming. The continents in the Primordial Ring seemed to be recovering at the same time as the Primordial Universe.

Lu Ming was very curious about the origin of Hong Huangjie.

What is the relationship between Honghuangjie and Honghuangjie?

The environment in Honghuangjie has improved, and the magical medicines planted in it are also lush, full of vitality, and surprisingly effective.

The refined top-level source-level magical medicine will recover faster in the prey.

Refining a drop of Yuanshen's medicinal solution a month means that when the recovery is good, if the recovery is not good, it may be difficult to extract a drop in a month.

Even if it is extracted, the medicine is not effective.

But in the prey, one drop per month is definitely no problem.

After releasing this top-level source-level magical medicine, Lu Ming and the others entered the prehistoric ring and captured another top-level source-level medicine, and then continued to refine the source-level medicine.

In this way, they spent a day extracting ten top-level source-level magic medicines, and extracted ten drops of source-level magic medicine.

"We each drop a drop..."

Lu Ming separated the ten jade bottles, one for each.

"Lu Ming, I think you should keep a little bit more. Now that the origin is catastrophe, there are only a few hundred years left. If the resources are too scattered, none of us will be able to break through the origin realm and concentrate on you alone, hundreds of years later. , You can attack the original realm."

The gods spoke first.

"I also think this is the case. Among us, Brother Lu Ming has the strongest combat power. After breaking through the original realm, he will also be the strongest, better than any of us."

Bubble also followed.

Xie Nianqing, Qiuyue, and Ling Yuwei did not speak. Their relationship with Lu Ming was too close after all. If they were the first to propose, it would not be very good.

It is best to let Wanshen and Paobao put forward first.

"I don't need it anyway. My share will be given to Lu Ming."

Ball fairway.

Seeing everyone saying so, the Bone Demon and Tang Jun also nodded.

As for whether Dan Dan agreed, it was directly ignored by them.

"No, these source-level magical medicines are obtained by us together, how can I monopolize them?"

Lu Ming shook his head. He is not the kind of selfish person.

In the end, everyone discussed and decided that of the ten top-level source-level magical medicines, five belong to Lu Ming, and the five Xie Nianqing, Qiuyue, Dandan, and Baobao are equally divided.

Among them, the ball does not use the Yuanshen medicine, which is equivalent to Xie Nianqing, Qiuyue, Ling Yuwei, Paobao, Dandan, Tang Jun, Wanshen and the eight bone demons equally divide the five top source magic medicines.

Everyone evenly divided the ten drops of Yuanshen medicinal liquid, and then they practiced separately.

Sitting cross-legged, Lu Ming took out a drop of Yuanshen medicine and swallowed it.

As soon as the Yuanshen liquid medicine entered Lu Ming's body, Lu Ming could clearly sense that there were luminous objects in the liquid medicine, which was mysterious and abnormal.

Lu Ming knew that this luminous object was the mark of origin.

The existence of the origin realm can mainly refine the treasures that contain the imprint of origin and improve the cultivation.

In the source-level magic medicine, the most important ingredient is the original imprint.

The same is true for Yuanshen's medicinal liquid, but the original imprint in Yuanshen's medicinal liquid is much gentler and can be absorbed by the peak of the gods, while the original marks contained in other treasures are very domineering and difficult to be absorbed by the peak of the gods.

The original imprint in the Yuanshen medicinal liquid enters Lu Ming's body, circulates in Lu Ming's veins, and then gathers into the original seed, making the original power in the original seed stronger, and with the power of the original source. With the enhancement of the original seed, the original seed will also become bigger and fuller.

This is a necessary process to break through to the original state.

The process of breakthrough from the peak of the gods to the origin is to continue to grow the origin seed. When the origin seed grows to the limit, it will take root and sprout.

The original seed will grow roots, extend downwards, and take root under the living beings.

On the upper side, rhizomes will grow, extending upwards, directly above the heavenly spirits, and connected to the vast universe. This is the true origin.

Lu Ming still has a long way to go from this step.

The refining of the source **** medicinal liquid is very fast, and it doesn't take long for a drop of source **** medicinal liquid to completely transform into the power of the source.

Lu Ming could clearly feel that the original seed had grown a little circle.

The strength of the original source has also increased a bit.

"Yuanshen medicinal liquid is worthy of Yuanshen medicinal liquid. The effect is amazing. If I can take one drop of Yuanshen medicinal liquid every day, within a hundred years, I can start to attack the original realm."

Lu Ming thought.

However, this is undoubtedly a foolish dream.

Taking a drop of Yuanshen medicinal liquid every day, unless he has 30 top source-level magical medicines, this is impossible.

After refining a drop of Yuanshen medicinal solution, Lu Ming still had four drops in his hand, and Lu Ming did not continue taking it.

Consecutive use of Yuanshen medicinal solution is not very effective. Every drop of refining requires time to consolidate.

One drop of refining a day, the effect is the best.

A day later, Lu Ming took out another drop of Yuanshen medicinal solution and started refining.

In this way, five days later, all of Lu Ming's five drops of Origin God medicine were refined, and Lu Ming's original strength was at least 30% stronger than before.

Don't underestimate 30%, Lu Ming could hold on for a longer time when he urged the magic soldiers.

Chapter 4972: It's wrong to have too good talent

Time is hurried, and it was half a year in the blink of an eye.

For the past six months, Lu Ming has been cultivating. Every other month, he will extract ten top-level source-level magic medicines one by one.

Five of them were given to Xie Nianqing and the others. He left five of them to practice. In half a year, he made rapid progress.

At this rate, he speculated that it would only take five hundred years for him to reach the realm of impacting the origin.

This is already a very terrifying speed. You must know that the existence of countless gods peaks and the endless years of staying at the gods peaks are all based on stellar years.

A stellar year, but a full billion years.

Moreover, Lu Ming's taboo power is slower to improve and requires more resources. With this speed, it is already against the sky.

In the past six months, Dandan's cultivation base has also successfully reached the peak of the Divine Lord. After reaching the peak of the Divine Lord, Dan Dan joined the ranks of arranging the source-level formation.

"Continuously closed for six months, go for a walk."

Lu Ming stepped out and left the retreat.

.....

Void, Tianhe, Lu Ming and Xie Nianqing, walking hand in hand by the Tianhe River, like a couple of gods.

The two hadn't been hanging out so relaxed for a long time, and they chatted casually.

I didn't talk about cultivation, nor about the current situation of the universe. I just talked about trivial things, such as talking about Lu Shenhua for a while, and talking about their granddaughter Lu Chi.

Xie Nianqing couldn't help complaining when it came to Lu Chi.

Lu Chi's grade is almost over long live, but he is still alone and doesn't even want to find a partner.

"Blame you, I have raised that girl's vision. I talked to her several times, and she always said that she must find a talented person who is not weaker than her grandfather. , At this moment in time, where to find?"

Xie Nianqing began to complain again.

Lu Ming touched his nose and smiled: "Hey, it's a mistake to have too much talent."

"Look at you beautiful..."

Xie Nianqing squinted at Lu Ming and said, "You were persuading that girl. You became an old girl at that time, so don't get married."

"Don't worry about it, how can my granddaughter of Lu Ming not get married?"

"Besides, long live the cultivator is so young, so you don't have to worry about it."

Lu Ming smiled.

"What makes me worry about it? Look at Shenhua. How many years have been married, and there is only a girl like Chi'er. How can I not worry about it?"

Xie Nianqing scratched Lu Ming fiercely.

"Oh, it turns out that there are not enough children and grandchildren, so let's work **** our own."

Lu Ming smiled wickedly and smiled.

Xie Nianqing's face flushed.

Lu Ming hugged Xie Nianqing around his waist, and with a flash of figure, he entered the prey...

There is only one prehistoric ring floating on the banks of the sky, flashing and flashing.

For the next half month, Lu Ming stayed with Xie Nianqing and worked hard.

"You stay with me every day, aren't you afraid that Qiuyue and Yuwei will be jealous? It's rare to have time now. Go with them."

Xie Nianqing said.

"Xiaoqing, what you said is true or false, when have you been so generous?"

Lu Ming replied subconsciously, but as soon as the words were spoken, Lu Ming knew that it was broken, and he wanted to make a mouthful of himself.

Sure enough, Xie Nianqing's beautiful eyes widened, staring bitterly at Luming, and said: "What do you mean? You mean my little belly?"

"Absolutely not, I swear to God..."

Lu Ming immediately swore to heaven.

"Hmph, you don't want to go anymore, don't you, then forget it."

Xie Nianqing said quietly.

"Xiaoqing, you are the best, there is no better woman in the world than you, then I will go one step ahead..."

After speaking, Lu Ming pulled out his legs and left.

"This guy, I knew..."

Xie Nianqing sighed slightly.

The garrison of the Exterminating Army is surrounded by courtyards in beautiful mountains and forests.

This mountain forest is rich in wild atmosphere and the environment is very good. Here is where the Lu family lives.

Today, the population of the Lu family has already swelled to an astonishing level, reaching hundreds of millions, all living in this vast forest.

Among them, the most central and widest piece of the palace is where Lu Ming's parents live.

In a courtyard, Qiuyue was chatting with Lu Yuntian and Li Ping and his wife.

While chatting, Li Ping brought the topic to the child.

Without him, Lu Ming's descendants are only Lu Shenhuang and Lu Chi, they think they are too few.

"Qiuyue, after so many years, haven't you been pregnant yet?"

Li Ping asked suddenly.

Qiuyue flushed, shook her head, and said, "No...no."

"Did Ming'er leave you in the cold? That kid only knows how to cultivate, huh, I'll talk to him another day."

Li Ping snorted coldly.

"No...no, how could the young master neglect Qiuyue."

Qiuyue shook her head quickly.

"Not yet, you have been here for almost two months, and I haven't seen him come to you once."

Li Ping said unhappy.

"Madam, really not, but I heard that the higher the cultivation level, the harder it is to get pregnant..."

Qiuyue explained in a low voice.

"Father, mother, Qiuyue, what are you talking about?"

At this time, Lu Ming's voice came from Xukong.

Lu Ming stepped into the air, with a curious look on his face, but a wry smile in his heart.

With his cultivation base, I heard it far away.

However, he must pretend not to hear.

"Ming'er, you came just right, and I happen to be looking for you for something."

Li Ping said.

"Mother, I have something to look for Qiuyue, let's talk another day, Qiuyue, let's go."

Lu Ming hurriedly pulled Qiuyue and ran away like an escape.

He knew very well that if Li Ping was dragged to chat, he would definitely be complaining, and it would not be over for a few hours.

In another courtyard, Lu Ming and Qiuyue appeared in this courtyard for a moment.

"Master...you... did you hear that?"

Qiuyue's face flushed red, and she dared not look directly at Lu Ming.

She knew Lu Ming's cultivation base well, how could she not hear Lu Ming's cultivation base.

"I heard, so we have to work hard."

Lu Ming sighed.

Ok!

Qiuyue nodded with flushed cheeks.

Then, a breeze blew, and the two entered the room.

Half a month later, Lu Ming appeared over a forest.

In the center of the forest, there is a towering tree that pierces the sky, huge, like the world's **** tree.

This big tree is the sacred tree of the elves, and it grew out of the seed of the sacred tree that Lu Ming gave back.

This is where the elves live.

The elves were almost annihilated by the palace at the beginning, and their population was declining. These years, they have worked hard to develop their population. After nearly 10,000 years, the population of the elves has skyrocketed and the number has exceeded one billion.

The number of people is too much, of course, the number of masters is not much.

There is no alternative. The birth of a master takes time.

Ten thousand years is not enough to give birth to a strong master.

Chapter 4973: The secret in the fairy mouth

However, now the primordial universe is resurrecting, and the ruins of the former universe have long been a holy place for cultivation. The cultivation conditions are much better than before. I don't know how many times better. The speed of cultivation is also much faster than before.

In just about ten thousand years, several **** emperors and hundreds of **** monarchs have been born among the elves.

This was unthinkable before, for ten thousand years, for the existence of the gods, it was just a blink of an eye.

The existence of the gods, any retreat, is more than ten thousand years.

According to this development, the elves want to return to the level before being destroyed, and it is just around the corner.

At the top of the Elf Sacred Tree, there is a luxurious palace. At this time, in the palace, Ling Yuwei is having a meeting with the senior elves.

There is no doubt that Ling Yuwei sat in the first seat.

Among the elves, Ling Yuwei is the first person to be worthy of whether it is in terms of cultivation level or identity.

Above the elf sacred tree, Lu Ming's figure suddenly appeared.

Ling Yuwei seemed to feel something, and raised her head and glanced upward.

Except for Ling Yuwei, none of the other elves found it.

"Well, that's it for today."

Ling Yuwei said, and the others left one after another.

After the others left, Lu Ming appeared in front of Ling Yuwei silently.

"You remember coming to me, I thought you had forgotten me."

Ling Yuwei gave Lu Ming a blank look, her eyes full of sadness.

"How is it possible? No, as soon as I finish my cultivation, I will come to you immediately."

As Lu Ming said, he walked over and took Ling Yuwei's little hand. Ling Yuwei's face turned red, and he took it as Lu Ming.

"Let's go for a walk..."

Lu Ming stopped Ling Yuwei and wandered over the elves.

For the next month, Lu Ming stayed with Ling Yuwei, and the relationship between the two was also growing rapidly.

.....

Yaxian, in an extremely secret underground chamber, five figures are waiting respectfully here.

One of them is the sky.

It's just that in the current sky, his face is a little pale, and his breath is very weak and weak.

Judging from his aura, the sky's cultivation base is surprisingly only the five-fold divine master.

At the beginning, Cang Qiong's cultivation base, but the Divine Master Nine Layers, obviously, in the Zixiao Cave Sky, Cang Qiong used the immortal mark at any cost, and the sequelae were very serious.

Although he was lucky enough to save his life, his cultivation base fell sharply. Not only that, he also hurt his foundation, and he would never want to improve his cultivation base.

On the side, the other four high-ranking Asian immortals sighed in their hearts.

Originally, with the talent of the sky, the future achievements are limitless, but now, the genius has fallen, and there is no possibility of progress.

Suddenly, in the underground chamber, a terrible aura overflowed.

This breath is as brilliant as the mighty sky, supreme, eternal and immortal.

Cang Qiong and the other five people were energetic, and their faces showed great expectation and excitement.

Could it be that their ancestor, a detached one, has awakened?

This breath rose, but it didn't last long, and it quickly converged. The next moment, the space of the secret room burst into waves, and then a figure emerged.

This figure is very small, only the size of a palm, and is filled with mysterious glow.

But you can still see that this is a young man, very handsome, full of domineering, looking down on sentient beings.

As soon as they saw this figure, the five people headed by Cang Qiong showed ecstasy on their faces, and then respectfully bowed down, and said loudly: "Cang Qiong...Cang Luo, see the ancestors!"

"Get up!"

The palm-sized figure waved its hand, and a force supported Cang Qiong and others.

"Ancestor, have you fully recovered?"

Cang Qiong looked at this figure looking forward to it.

This figure, but the ancestor of their Yaxian tribe, is also the biggest and deepest trump card.

Because this is a detached person, a true 'immortal', an invincible existence that has survived the wild continent of the last era.

However, this 'immortal' suffered heavy losses during the battle of the last era and has been in deep sleep.

After endless years, the Yaxian clan has always been so tolerant and low-key, the purpose is to collect treasures in secret, in order to cure the immortal.

However, how can it be so easy to cure immortals?

The immortal was hit hard, the treasures needed were too advanced. Even in the prehistoric continents of the last era, they were all top treasures. In the shattered prehistoric universe, it was too difficult to find.

However, the immortal legacy of Zixiao Dongtian gave the Yaxian tribe hope.

The legacy of the immortal is the essence left by an immortal-level powerhouse. It is a peerless treasure and will definitely help their ancestors to recover. Therefore, the sky will not hesitate to urge the imprint of the immortal and compete for the immortal. Left behind.

"Why is it so easy to recover completely?"

The ancestor of the Yaxian tribe shook his head and continued: "However, the same immortal legacy has a great effect, and it has restored me about 50%."

Is it only 50%?

Cang Qiong and others showed disappointment.

"You don't have to be disappointed. It is very rare to be able to recover 50%. It has given me a part of strength and can heal on my own. As long as it takes some time, the remaining 50% will heal sooner or later."

The ancestor of the Yaxian tribe.

Cang Qiong and others showed joy again.

"Ancestor, can you make a move?"

Sky Road.

There was an immortal who took action. Even the immortal who was seriously injured and unhealed had terrifying combat power. Not to mention the leveling of the three tribes of the forbidden area, the leveling of the heavenly humans, the demons, and the exterminating army, it was more than rubbings.

Moreover, now the origin of the catastrophe, the powerful of the three clans of the forbidden area cannot come out, they can definitely take the lead and take some of the top treasures of the prehistoric universe into their hands.

For example, the human body.

Once they control these top treasures, even if the future situation is chaotic, their Asian immortals will at least have some power to protect themselves.

Unfortunately, Cang Qiong and others were immediately disappointed.

The old man of the Yaxian tribe shook his head and said: "Under the Great Tribulation of Origin, even immortals will be greatly affected and cannot be shot."

"In addition, today's primordial universe is shattered, the heart of the universe is broken, the rules are incomplete, and it is difficult to withstand the power of the immortal. Once the immortal takes action, I am afraid this universe will not be able to withstand it and completely collapse. All creatures will be buried with them, including immortals."

"The broken prehistoric universe cannot withstand the power of the immortal? Then, those celestial figures in the prehistoric universe suddenly disappeared without a trace, didn't they die in battle?"

The sky seemed to have thought of something and whispered.

"At the beginning of the prehistoric universe, there were masters like clouds and a group of immortals, and there were many amazing people who were so easy to die. I guess the universe was broken and could not withstand their power, so it moved."

The ancestor of the Yaxian tribe.

"Relocated? Where will it be transferred?"

The sky was full of doubts.

Chapter 4974: Return to the Ancient Transmission Road

The people of the Yaxian tribe all showed doubts.

Transferred?

Wasn't it a rumor before that the primordial universe was blown up and everyone was buried, including those immortals?

Could it be that some people did not die and left the prehistoric universe? Where did you go?

"do not know!"

The ancestor of the Yaxian tribe shook his head and said: "This world is bigger than you think. I don't know where they can go, but I can be sure that the masters of the last era are absolutely not dead. One day will return..."

"Well, these questions, it's too early to think about them."

Speaking of this, the ancestor of the Yaxian clan set his eyes on the sky and said: "Sky, this time, you did a good job."

"As long as it can help the ancestor's injury, the sky will die."

The respectful way of the sky.

"Ok!"

The ancestor of the Yaxian tribe nodded in satisfaction, very satisfied with this younger generation, and then said: "This time you have done a lot, and this seat will not treat you badly. Your talent is also good. I will start to practice immortality. Chi, you go in and practice for three years."

Upon hearing this, the sky showed ecstasy, repeatedly kowtow, and said: "Thank you, ancestor!"

The masters of the other four Yaxian tribes all showed envy, and of course, they were also pleased for the sky.

Where is Lian Xianchi? That was the place where the ancestor of the Yaxian tribe was sleeping after being seriously injured. It was of great help to the immortal, let alone other people.

Especially for the people of the Yaxian tribe, it has the power against the sky.

What's more, it was three years of cultivation in it, which is a good fortune against the sky.

Most people who want to enter it to practice for a day are not available.

This time the battle for the legacy of the immortal, although the sky was severely injured and damaged the foundation, as long as three years of cultivation in the immortal pond, the foundation can definitely be made up, and even further.

"Come with me!"

The ancestor of the Yaxian clan nodded, turned and walked toward the depths of the secret room, and the sky quickly followed.

.....

In the next period of time, in addition to taking a few days a month to refine the Yuanshen medicinal solution, Lu Ming spent the rest of the time with Xie Nianqing, Qiuyue, Ling Yuwei, and of course his parents.

At the same time, I will also take time to teach several students.

The cultivation bases of his two apprentices, Lu Xiangxiang and Ouyang Moli, both entered the Divine Master Realm.

This speed can be said to be very fast.

Of course, it has something to do with the current cultivation environment.

Today's cultivation environment is much better than before, coupled with the massive resources given by Lu Ming, and the talents of the two of them were originally high, and it is normal for the cultivation speed to be fast.

However, Lu Xiangxiang's cultivation base was even higher, having reached the fourth level of the Divine Lord, while Ouyang Mo Li had just broken through the Divine Lord not long ago.

In fact, in the past ten thousand years, the number of people who have broken through the divine master has greatly increased.

Over ten thousand years, a full two thousand **** masters have been added to the Heaven Extinguishing Army.

This is an amazing number.

You know, in the past sixty star years, the Heaven Extinguishing Army has accumulated a total of about five or six thousand gods.

And ten thousand years, it can increase by two thousand, this rate, if it is placed in the past, no one will believe it.

Not only did the number of divine masters increase, most of the original divine masters also had breakthroughs in cultivation.

Divine Lord Nine Layers, the existence of Divine Lord Peak, there are more.

Of course, not only is the Heaven Extinguishing Army's strength enhanced, other forces are similar.

Demons, celestial races, and other races, such as the previous top ten races, have more and more masters, and people continue to break into the realm of gods.

The divine emperor broke through to the divine lord, which was extremely difficult in the past, but now, the difficulty has dropped a lot.

In fact, it's not that the difficulty has dropped, but that the current cultivation conditions are too good. When everyone makes a breakthrough, they have more resources under their control, and the chance of a breakthrough naturally increases.

It can be said that this universe is developing in a prosperous direction.

In addition, Lu Ming's two named disciples, Zhuang Xiaoshan and Zhuang Xiaorou, also reached the realm of the gods.

Time was hurried, and fifty years passed in a blink of an eye.

After fifty years, with the cooperation of Dan Dan and many masters of formations, several source-level formations were finally arranged around the station of the Exterminating Army.

These source-level formations are based on a variety of precious metals and original bones. They are amazingly powerful and integrate attack and defense.

Now, let alone the sixteen invincible divine masters, the sixteen powerful Origin Realms are probably all dangerous. One inadvertent will even be killed by the Origin Level array.

The power of the source-level formation is not just talking, the ordinary source can't hold it at all.

The formation was 10%, and the Heaven Extinguishing Army was finally relieved, and a big stone fell to the ground in his heart.

At least when the origin of the Great Tribulation has not passed, the Heaven Extinguishing Army's station is safe, and the Forbidden Land tribe or the Celestial Clan can no longer threaten the Extinguishing Army's station.

Over the years, the Celestial Extinguishing Army has not stopped sending people to find clues to the king's heart, but they have found nothing.

Not only the Celestial Army, the Celestial Clan, the Yaxian Clan, the Devil, and the Forbidden Land tribe, they also sent people to look for it, and they also found nothing.

Almost all the areas occupied by the major forces have been searched.

On this day, Lu Ming left the Extinguisher's garrison and headed towards the Yinsha Clan.

He is not going to the Yin Sha clan, but to the original cosmic starry sky.

Over the years, he increasingly worried about the safety of Mulan and Phoenix Spirit.

At first, Mulan and Huang Ling strayed into an ancient teleportation formation and entered an ancient road into the starry sky, not knowing where they went.

However, now the cosmic starry sky, including one-third of the cosmic ruins, has been rummaged, but no trace of Mulan and Phoenix Spirit can be seen, which makes Lu Ming very worried.

Could it be that Mulan and Phoenix Spirit strayed into a certain powerful race and were killed by that race?

After all, the original Mulan and Huang Ling's cultivation bases were too low, and the universe could kill them, just grab a lot of them.

Therefore, Lu Ming decided to find out exactly where Huang Ling and Mulan had gone.

Of course, Lu Ming was with Dan Dan.

Now Dandan's formation ability is many times stronger than before, and it may be able to repair the ancient teleportation formation that has exploded.

In the starry sky of the universe, is enveloped by a strong evil spirit. These evil spirits possess terrifying power and can turn ordinary creatures into evil evil monsters.

However, with the cultivation bases of Lu Ming and Dan Dan, it was very simple to block these evil spirits.

The two of them walked towards the ancient teleportation formation silently, and arrived at the speed of the two within a short time.

"Dan, you see, this teleportation array can be repaired."

Lu Ming said.

"I'll study it first."

Dan Dan surrounded the ruptured ancient teleportation array and observed it carefully.

The more you look, the tighter Dan Dan's brows frown.

Lu Ming's heart sank slightly.

Couldn't it be repaired by Dan Dan's attainments in formation?

Dandan kept watching for three days and three nights before stopping.

Chapter 4975: The creatures from the ancient starry sky

"Dandan, how is it?"

As soon as he saw Dan Dan stop, Lu Ming asked quickly.

"This teleportation array is very, very old. It cannot be arranged by people in this era, and it is very mysterious. It contains 108 changes, intertwined with each other, and formed 72 permutations and combinations..."

Dan Dan said with a crackle.

"Stop talking nonsense, just say, can you fix it?"

Lu Ming interrupted Dan Dan.

"What are you anxious for? It's not calm at all, and doesn't look at who I am. The only teleportation array, how can it be me? Although it is very, very difficult to restore this teleportation array, it is impossible for someone else to succeed... "

Dan Dan squinted at Lu Ming, very upset Lu Ming interrupted him.

Without telling the difficulties of this ancient teleportation formation, how can he show his extraordinary strength?

This guy doesn't cooperate at all.

Lu Ming was too lazy to care about Dandan's thoughts. Hearing that it could be repaired, he felt relieved and smiled.

"Dan Dan, then you have to work hard, if you need help, just say it."

Lu Ming said.

"Of course, some precious materials are indispensable to repair this ancient teleportation array, and it may take several months."

Immediately, Dan Dan said some materials that he needed to use.

They were indeed top-notch materials. Some Lu Ming had them, and some were only available to the Exterminating Army.

The two returned to the Heaven Extinguishing Army, prepared all the materials, and then returned here, Dan Dan began to repair the ancient teleportation array.

A few months passed in a flash.

Three months later, a brand new teleportation formation appeared in front of the two of them.

"I once heard that this teleportation array is one-way, is it true?"

Lu Ming asked.

Dan Dan shook his head and said: "It may have been a misjudgment before. I found through repair that this teleportation array is not one-way, but two-way."

"Two-way?"

Lu Ming moved in his heart, and then asked, "Do you know where this teleportation array leads?"

"During the repair process, I can vaguely feel that it leads to the depths of the ruins of the universe, but the specifics are not clear."

Dan Dan said.

"To the depths of the ruins of the universe? Where is it?"

Lu Ming frowned.

Now, almost one-third of the cosmic ruins that have been explored have been rummaged, and there is no trace of Mulan and Phoenix Spirit.

However, in the depths of the cosmic ruins, there is another saying that the remaining cosmic ruins that have not been explored can also be called the depths of the cosmic ruins.

Could it be that the ancient teleportation array directly leads to the ruins of the universe that has not been explored?

If it is true, who built this ancient teleportation array?

According to Dandan's meaning, the layout of this ancient teleportation array is very old, not from this era, but from the previous era.

However, it cannot be arranged in the last era. This is the cosmic starry sky. These planets have evolved through the universe. How can the ancient teleportation array of the last era be preserved?

It must be arranged later.

So who arranged it?

Forbidden creatures? Celestial? Or the Yaxian?

Hum!

Just as Lu Ming was thinking, the teleportation array that had just been repaired suddenly trembled slightly, emitting a brilliant light, and endless runes flashed on it.

"What's the matter? Ancient Teleportation Array, how did it start?"

Dan Dan cried out in shock.

"Is it on the other side of the teleportation array, a creature is coming over?"

Lu Ming said.

They didn't activate the teleportation array, but the teleportation array was activated. There is only one explanation, that is, the other side of the teleportation array is activated. There are creatures, and they must come from the other side?

Could it be Mulan and Huang Ling?

Thinking of this, Lu Ming's eyes lit up, and his heartbeat accelerated.

This is not impossible.

Perhaps, back then, Mulan and Phoenix Spirit strayed into this ancient teleportation formation and entered a certain peculiar place. Because the teleportation formation on this side burst, they couldn't come back, and they were trapped there.

Now the teleportation array is repaired, and Mulan and Huang Ling start the teleportation array to return. This is very possible.

Lu Ming couldn't help but expect a lot more in his heart.

But the next moment, the pupils of Lu Ming and Dan Dan suddenly shrank, especially Lu Ming, showing disappointment.

Because a figure appeared on the teleportation platform.

This figure is absolutely impossible to be any of Mulan and Huang Ling.

Even though it was shrouded by the brilliant glow, it could still be seen that it was a very burly figure, about three meters tall, and besides the normal hands and feet, there were four dark shadows behind it, which seemed to be extra. Four arms are average.

This is definitely not Phoenix Spirit or Mulan.

Lu Ming and Dan Dan glanced at each other, and they couldn't help but step back, ready for the battle.

The next moment, the light on the teleportation formation disappeared completely, and that figure was completely exposed in front of Lu Ming and the two of them.

This was a man, completely dark, with only one face white, and a cold breath filled his body.

Behind this person, the four dark shadows were not four arms, but four spider legs. Yes, they looked exactly the same as spider legs, extremely sharp.

What race is this?

Lu Ming and Dan Dan moved in their hearts.

They had never seen such a race, and among the cosmic races, they had never seen such a race.

This person's eyes were extremely cold, sweeping across Lu Ming and Dan Dan, revealing a cold murderous intent.

"You guys, come over and kneel down, and then explain your situation in detail..."

The strange creatures spoke coldly, their voices were cold and harsh, but they were full of fierce killing intent, as if they made a difference, they would kill Lu Ming and the others.

However, how could Lu Ming and Dan Dan be afraid of him?

Lu Ming had already seen that this peculiar creature had a cultivation base at the peak of the Divine Lord.

But at the peak of God Lord, how could Lu Ming take it to heart?

Even if he was the Invincible Divine Lord, he was far from Lu Ming's opponent now.

As long as it is not the origin, Lu Ming is not afraid.

"I was about to ask you, who are you? Where do you come from? And, have you ever seen two women. To be honest, I can spare your life."

Lu Ming asked back.

boom!

This peculiar creature seemed to be a kind of ignited explosive, with a terrifying aura spreading out, and the cold murderous intent seemed to condense into substance.

"court death!"

The strange creature drank coldly, and a black light pierced Lu Ming like lightning, aiming at the center of Lu Ming's eyebrows.

Lu Ming saw clearly that this was a spider leg behind the strange creature, which was as sharp as a spear.

"Wei Neng is about the same as the strongest Tianjun."

At the corner of Lu Ming's mouth, an arc of disdain appeared.

As soon as the opponent shot, he could see that this peculiar creature had the same combat power as the strongest heavenly monarch.

Lu Ming didn't care about such a character now.

laugh!

Lu Ming didn't even take out the weapon, just stabbed it out with his finger and pointed it at the opponent's spider leg.

Chapter 4976: Nine Yin Devil Spider

when!

Lu Ming's fingers were stabbed with the other's spider legs, like two spears colliding in the air. There was a loud noise, and Lu Ming didn't move, but that strange creature, a spider leg trembling wildly, bent into an arc, as if to Fractured in general.

In the end, that peculiar creature retreated wildly and kept backing hundreds of miles before stopping. The eyes that looked at Lu Ming were full of solemnity.

Obviously, Lu Ming's strength surpassed his imagination.

"What a hard spider leg!"

Lu Ming also murmured.

Although he didn't use much power for the move he had just now, it was not something that ordinary people could bear. Even the top-level master-level magic weapon would collapse.

But one of the other's spider legs was unharmed, not to mention anything else, just the degree of hardness, it was almost close to the source-level magic weapon.

"Your strength is good, it's worth all my strength."

The eyes of the strange race flashed with tyrannical emotions, and then, an armor appeared on his body. This armor not only enveloped his body, but also wrapped the four spider legs behind him, like four javelins.

Then, the peculiar body shape flashed, rushing towards Lu Ming like a bolt of lightning, and the four spider legs behind him moved together, like four spears, violently stabbing towards Lu Ming.

This blow, apparently the opponent used all his strength, plus the blessing of armor, the power skyrocketed.

It was already close to the combat power of the Guangqian Wangshi of the Yuanguang Clan.

However, Lu Ming still didn't pay attention to this level of combat power. The God of War spear appeared and stabbed out, four spear lights burst out, stabbing with the opponent's four spider legs.

Point the gun to the Maimang!

Ding! Ding! Ding! Ding!

There were four consecutive sounds of gold and iron fighting, and then, a figure violently retreated back, it was the strange creature.

It can be seen that dense cracks appeared on the armor that wrapped his four spider legs.

"you you..."

The strange creature finally panicked, with a look of horror in his eyes.

This piece of armor of his, but a source-level **** soldier, was actually cracked by Lu Ming. This shows that the long spear in Lu Ming's hand is higher than his armor, and its combat power is also terrifying.

Such a person is simply not something he can deal with.

"Human race, human race, there is actually a hidden master, I have never seen this before, this person is not my opponent, it is the best policy to go."

The strange creature's mind turned sharply, then turned around and ran, toward the ancient teleportation formation.

How could Lu Ming let him go?

Huh!

Lu Ming's combat power was fully deployed, and he stepped out in one step, and appeared on top of the strange creature's head. The God of War spear smashed down at the strange creature, like a huge mountain range, smashing down towards the opponent.

Rumble!

The world trembled, and the terrible pressure made strange creatures frightened.

He shot with all his strength, the four spider legs crossed together, trying to block the God of War Spear.

However, in the face of Lu Ming, who was fully equipped, he was far behind.

boom!

The God of War spear hit the four spider legs, and the four spider legs shook wildly, and then exploded with a touch.

Yes, even the armor on it exploded.

The strange creature screamed sternly and slammed into the ground fiercely.

On the ground, dense runes suddenly appeared, forming a formation, strange creatures smashed into the formation, and part of the power was removed by the formation.

This is a shot once, otherwise, if the opponent hits the ground, this planet will definitely explode.

A peculiar creature, coughing up blood, his face was pale, and his bones were almost broken, and he lay there, unable to move.

This was because Lu Ming had collected a part of his power at a critical moment, otherwise, this shot would be able to destroy the square god.

"Come on, where are you from? Have you seen two women?"

Lu Ming stood above the strange creature, condescendingly, looking down at the opponent, and asked coldly.

"Do you dare to kill me? I am from the Nine Yin Demon Spider Clan. If you dare to kill me, the Nine Yin Demon Spider Clan will never let you go."

The strange creature roared.

Nine Yin Demon Spider Race?

Lu Ming and Dan Dan both looked suspicious, because they had never heard of this name.

This doubt just flashed in Lu Ming's heart. In Lu Ming's eyes, the murderous intent was extremely cold, and he said, "It seems that you want to die!"

puff!

The God of War spear pierced through a gap in the opponent's armor, and the tiny spear light entered the opponent's body, constantly stirring and destroying the opponent's muscles and bones.

The other party made a scream.

After a while, it stopped.

"I said, I said..."

The strange creature gasped and couldn't hold it anymore.

He knew very well that Lu Ming was not afraid of their Nine Yin Demon Spider Clan at all.

Immediately, the other party started talking.

Lu Ming and Dan Dan were shocked after listening.

Because based on what the other party said, he judged that the other party actually came from the ruins of the two-thirds universe that had not been explored.

It came from a forbidden area, named Jiuyin Demon Ruins. The owner of the Jiuyin Demon Ruins was the family of Jiuyin Demon Spiders.

He hadn't seen Mulan and Huang Ling. He had accidentally discovered an ancient transmission road and came here along this transmission road.

"It's another forbidden creature, and it comes from the remaining two-thirds of the ruins of the universe."

Lu Ming and Dan Dan looked at each other, and they could see the shock in each other's eyes.

In fact, many people in the Heaven Extinguishing Army speculated that there may be more than one forbidden creature in the universe.

Cang Qiong also revealed this point before.

In the prehistoric continent of the last era, there were not a few terrible forbidden places, anyway there were definitely more than three places.

But now, there are only three forbidden areas in the area being explored, so it is clear that there must be forbidden creatures in the two-thirds of the area that has not been explored.

Now, the appearance of this Nine Yin Demon Spider Race just proved this point.

"I've said everything. I actually don't know much. I strayed into an ancient place. It has been more than ten thousand years. Then I entered this ancient transmission road. I don't know what is going on now. , Okay, give me a good time."

Strange creatures said.

He knew that Lu Ming and Dan Dan would not let him go. It was almost impossible for him to survive.

Just ask for a happy one.

"Complete you!"

Lu Ming shot the strange creature to death, then stretched out and grabbed a storage bag from the opponent's waist.

At the same time, the armor on the opponent's body was also stripped off by Lu Ming.

This armor is a source-level magic weapon. Although it is broken, it can be eaten by the ball.

Then, Lu Ming rummaged in the other's storage bag.

They were all magic weapons or materials, which were of no great use to Lu Ming.

Inside, there is no second source-level magic weapon.

Although the creatures in the forbidden area are very wealthy, they don't have a few source-level magic soldiers. The opponent is just a **** master, and it's not bad to have a source-level magic soldier.

Chapter 4977: Complete map of the ruins of the universe

In the storage bag of the Nine Yin Demon Spider Clan, although no other source-level magical soldiers were found, a map was found.

The power of taboo is input, and a map emerges in the air.

This map is unusually huge, suspended in the air, occupying several miles in a radius. On the map, there are dots of light and a line of silk.

If you zoom in on a certain area of the map, you can see that these dots of light are fragments of continents, and those silk threads resemble Tianhe.

Is this a map of the ruins of the universe that has not been explored?

Lu Ming and Dan Dan were overjoyed.

"Let's compare!"

Dan Dan took out another map.

This map is a map where the ruins of the universe have been explored.

Now, the major forces have rummaged through one-third of the areas they have explored, and they have also made relatively complete maps.

Putting the two maps together, they fit perfectly.

Both of them are overjoyed. This is definitely the map of the remaining two-thirds of the ruins of the universe. Together, the two maps form the map of the entire ruins of the universe.

"This is a good thing. If you want to explore the remaining two-thirds of the universe in the future, this map can come in handy."

Dan Dan said.

Because the ruins of the universe are very dangerous, there are many terrible dangerous places, even if the Origin Realm enters rashly, they are very dangerous.

Today's masters of all major forces in the universe can come and go freely in the ruins of the universe and make good maps.

Some dangerous places on the map are all marked out, which is written with blood lessons.

This is certainly not drawn by the major forces, but it is indeed a collection of the forces of the major forces.

For example, the people of the Yuanguang tribe explored a cosmic ruin and made a detailed map of the cosmic ruins. They will copy this kind of map in large quantities for use by the Yuanguang tribe.

Some maps of the Yuanguang clan will fall into the hands of other races, such as the Exterminating Army.

The Celestial Destruction Army will complete its own map based on the area it explores, plus the map of the Yuanguang clan.

A well-established map is copied and used in large numbers in the Destroyer Army, and then it will fall into the hands of other races, such as the Yinsha tribe or the Celestial race.

In this way, each force will get a map made by other forces. In this way, by integrating the areas explored by the various forces, a complete map will come out.

This kind of map is no longer a secret among the major forces nowadays, and it almost has to be handed over.

"It will be available soon."

Lu Ming whispered.

"Are you going to the depths of the ruins of the universe?"

Dan Dan looked at Lu Ming.

"Yes, it's time to go."

Lu Ming said.

In fact, even if there was no such thing as the Nine Yin Demon Spider Clan, Lu Ming planned to take a trip to the depths of the ruins of the universe and explore the two-thirds of the unexplored area.

Because, the ruins of the universe that have been explored today have not found the whereabouts of the king's heart. There is only one possibility, the heart of the king, in that unexplored area.

For this reason alone, it was worth a trip for Lu Ming.

What's more, now there is a more important reason.

Mulan and Phoenix Spirit are likely to have reached the depths of the ruins of the universe through the ancient starry sky.

With the cultivation bases of Mulan and Phoenix Spirit, he went to the depths of the ruins of the universe, not knowing how dangerous it was. Whether it was alive or dead, he would find them both.

Moreover, now is the best time to enter the depths of the ruins of the universe.

Now that the origin of the calamity, the origin can't come out, with Lu Ming's combat power, he can almost run wild, as long as he avoids those dangerous places.

After the great calamity of the origin, the origin is exhausted, and the masters of the forbidden creatures ran out, there would be nothing wrong with Lu Ming.

It would be more dangerous to go to the depths of the ruins of the universe at that time.

"You want to go through this ancient starry sky?"

Dan Dan asked, he knew Lu Ming very well, and he quickly guessed Lu Ming's mind.

Lu Ming did intend to use this ancient starry sky road to reach the depths of the ruins of the universe, firstly for convenience, and secondly to trace the whereabouts of Mulan and Huang Ling.

"When are you going to leave?"

Seeing Lu Ming's expression, Dan Dan knew Lu Ming's decision and asked again.

"I plan to go to the sky first and ask about the situation of the prehistoric continent in the last era. By the way, I will learn more about the forbidden areas in more detail before setting off."

Lu Ming said.

The ancestor of the Yaxian tribe was an immortal, and the sky must know a lot about the prehistoric continent of the last era.

Lu Ming discovered that no matter what happened to the ruins of the universe, it would be involved in the last era, whether it was the first Supreme Immortal City, the human body, or the Zixiao Cavern, or even the creatures of the Forbidden Land, the Celestial Race, and the demons. The prehistoric continent of the last era.

There must be a huge secret in it.

But his knowledge of the last era is very limited, which is very inconvenient.

Going to the depths of the ruins of the universe, the more you know about the prehistoric continent, the more beneficial it will definitely be.

"I'll be with you, so I can take care of it."

It is rare to say seriously.

He wasn't bragging. Although his combat power was far inferior to Lu Ming, he was able to get rid of Lu Ming one hundred streets in the formation. He was more effective on some special occasions.

Moreover, the formation is unpredictable, even in battle, it is very useful.

Now it will be more convenient for Lu Ming to go to the depths of the ruins of the universe with his help.

But Lu Ming shook his head and said, "This trip, I can do it alone. You still stay at the resident. The formation of the resident needs your maintenance."

The origin does not come out, in the Celestial Destruction Army, in the formation, no one can really match.

The source-level formation of the Heaven Extinguishing Army's garrison would need to be changed in case of any change.

There is another reason. Going to the depths of the ruins of the universe is dangerous and unpredictable. Not only Dan Dan, but Lu Ming intends to carry the ball, and the others will not carry it.

Why dribble the ball?

Because only by following him can the ball get the most out of the game. If it is nested in a certain place, the ball will not improve much at all, but it is a waste of talent.

"Dandan, don't tell Xiaoqing about this matter, Qiuyue and the others, otherwise, most of them will follow..."

Lu Ming exhorted.

If Xie Nianqing, Qiuyue and the others knew, they would probably not be assured that he would go to the depths of the ruins of the universe alone and would follow.

Still the same sentence, this is dangerous and unpredictable, Lu Ming went there alone, it would be more convenient to move, and come and go more freely.

"Well, I set up some formations around here, always pay attention to the situation here."

Once they had finished speaking, they began to set up, mainly to monitor the formation, to prevent them from leaving, the teleportation formation changed again, and even more creatures appeared.

After setting up, they headed towards the Yaxian clan together.

With Lu Ming's current fame, no one in the universe knows. The Yaxian people saw Lu Ming's arrival and hurriedly reported.

Not long after, Lu Ming saw the sky.

Chapter 4978: The three strongest tribes

In the living room, Lu Ming and Cang Qiong sit separately as guests and host.

"Brother Lu, I haven't seen you for decades, and your demeanor is more prosperous. It's really gratifying."

Cang Qiong said with a smile.

"Brother Cang is polite, why are you not?"

Lu Ming said, he is not polite, but truthful.

Lu Ming was really a little surprised, Cang Qiong's current cultivation base had reached the pinnacle of God Lord.

Lu Ming wouldn't be surprised that Cangqiang's cultivation base reached the peak of the gods. After all, Cangqiang also had a piece of Yuanshen tea tea. With the Yuanshen tea tea, it is a matter of course for the cultivation to reach the peak of the gods.

What really surprised Lu Ming was the others.

In Lu Ming's eyes, the sky was like a blazing torch. The energy and blood were extremely strong, and his energy was full. There seemed to be a terrifying force in his body that would burst out at any time.

Especially the mark on the center of the eyebrows of the sky, exuding a high breath, this breath made Lu Ming feel a little pressure.

In the Divine Master Realm, only the Invincible Divine Master could make Lu Ming feel a trace of pressure.

Could it be that the sky has the strength of an invincible god?

In the past few decades, the sky must have gone through something, and it has gained a good fortune against the sky, which is not what it used to be.

Cang Qiong smiled confidently, and said, "Brother Lu is looking for me today, what's the matter?"

"Mainly I want to ask about the Primordial Continent. I don't know how much Brother Cang knows about the Primordial Continent? Please feel free to enlighten me."

Lu Ming said.

"Brother Lu is polite. Now that you and I are in the same situation, we naturally support each other. Cang naturally knows everything is endless. The prehistoric continent, the vastness, the continent

fragments of the ruins of the universe, including the planets evolved from the stars of the universe, It's the broken land of the Primordial Land. Brother Lu should know this."

Sky Road.

Lu Ming nodded.

"The Primordial Continent is not only vast and boundless, and the conditions for cultivation are also unique. It can be said to be a flourishing age of cultivation. The strong are like clouds, the immortals are horizontal and the existence of the original state. At that time, it was nothing at all. It was really a brilliant world. I really want to be born in that era."

Cang Qiong sighed, with deep yearning in his eyes.

Lu Ming was also yearning for it.

It is conceivable how splendid it was in that era of the immortals.

Compared with the devastation now, it is really a heaven and an underground.

"In that era, although there were many races in the Primordial Continent, there were only three races that really dominated the world, that is, the human race, the monster race, and the witch race!"

The sky continued.

"Monster tribe and Wu tribe? What is the difference from the current human demons and Wu tribe?"

Lu Ming asked.

There are also monsters and witches in the universe today.

Among the ten thousand races in the universe, there is a witch race, who is very powerful, and had a big feud with Lu Ming.

As for the monster races, there are even more, not to mention the great universe, even the small world, there are a large number of monsters.

The Shenhua Continent where Lu Ming was born has a large number of demons, fighting against the human race.

"A world apart!"

The sky shook his head slightly, revealing a trace of contempt, and said: "The so-called monster races in the universe today, spread all over the universe and even small thousand worlds, are not pure monster races at all. My race speculates that those monster races should be when the universe evolved. It evolved from the flesh and blood of the monster race in the last era."

"Evolved from the flesh and blood of the monster race in the last era?"

Lu Ming moved in his heart, feeling very likely.

The starry sky of the universe evolved from a part of the ruins of the universe.

The original bodies of those planets are part of the prehistoric continent.

At the end of the Primordial Continent, a world-shaking war broke out, and countless strong men died in battle. The flesh and blood of these strong men, along with the evolution of the cosmic starry sky, gave birth to various creatures.

The first creatures bred are primitive gods.

Primitive gods evolved from the flesh and blood of strong men in the last era. This has long been no secret.

As for the human race, it is likely that the human race evolved from the flesh and blood of the strong human race in the last era. This can be proved by the Yan family on the Star Continent.

The Yan tribe on the Star Continent is actually a human race, and it is very likely that they evolved from the blood of the king of humanity.

Therefore, the monster races in the universe today evolved from the monster races on the prehistoric continent, and it makes perfect sense.

"However, today's Monster Race is no longer a pure Monster Race. At best, it can only be regarded as mixed blood. It is the legacy of the Primordial Monster Race and the talented bloodline. Compared with the Primordial Monster Race, it is far behind."

"The ancient books of our family record that the great monster, swallowing the universe and starry sky, is unparalleled in talent, and extremely powerful. Some of the most talented people can become monsters, suppress an era, and are invincible."

"That is the real monster clan. As for the witch clan today, it is even farther away from the prehistoric witch clan. There is hardly any relationship, or, at most, only a trace."

"As far as I know, the primordial witch tribe hardly cultivates souls, and focuses on the flesh. Some primordial witches are extremely powerful and immortal. With their flesh alone, they can resist immortal-level powerhouses. How terrible is it now? Comparable to the Witches?"

After the sky was over, Lu Ming couldn't calm down for a long time.

The splendid history and tyrannical strength of the prehistoric monster tribe and prehistoric witch tribe were beyond his imagination.

However, isn't it to say that the human race is the strongest in the Primordial Continent? How amazing is the strength of that human race.

"However, no matter how strong the Primordial Demon Race and the Witch Race are, they cannot be better than the Human Race. The Human Race is undoubtedly the first strong race of the Primordial Race. It is said that the Primordial Continent has a history of three races for hegemony. .."

Cang Qiong did know everything without saying anything, and told Lu Ming what he knew.

Later, Lu Ming asked about the creatures in the forbidden area.

As for the creatures in the forbidden area, Cang Qiong knew very little, but he told Lu Ming what he knew, and Lu Ming benefited a lot.

This trip is also considered rich, at least, the prehistoric continent of the last epoch already has a rough outline in his mind, and he will not be as ignorant as before.

After talking for a few hours, Lu Ming got up and left.

"Thank you Cang Qiong for your teaching, Lu Ming remembers it in his heart."

Lu Ming clasped his fists.

"Brother Lu is polite, it's not a trivial matter."

The sky smiled.

The reason why he is like this is of course because of Lu Ming's talent.

In fact, at the beginning, he still had the idea of getting rid of Lu Ming, but now, it has completely changed. He plans to make friends with Lu Ming completely.

With the understanding of Lu Ming, the more he discovered that Lu Ming's talent was really against the sky.

If Lu Ming continues to develop, his future will be hard to limit.

Moreover, Lu Ming is a taboo body, and he controls the power of the universe. The stronger the cultivation base, the stronger the suppression of the forbidden land creatures and the Celestial race, but it is more beneficial to their sub-xian race.

Their subxian races are the creatures of the primordial universe. The stronger the cosmic power of the primordial universe, the more beneficial to them.

Chapter 4979: Hut on the ancient road of starry sky

Lu Ming and Dan Dan left the Yaxian clan and returned to the ancient teleportation array.

"Dandan, help me to conceal it for a while, Xiaoqing and the others asked, you said that I retreat and enlighten the source art."

Lu Ming said.

Anyway, in their realm, it would be commonplace to retreat for hundreds of thousands of years. By then, Lu Ming should have returned.

"I do things, don't worry, Lu Ming, you have to take care of yourself, don't belch..."

Dan Dan said.

"Crow's mouth, I'm leaving."

Lu Ming waved his hand, stepped out, and entered the teleportation formation. The teleportation formation was activated, and Lu Ming's figure disappeared in the teleportation formation.

Lu Ming felt like he was walking through the void at an incredible speed. It hadn't been too long before, and his body was shaken and he appeared in a new place.

Lu Ming found himself appearing on an altar. This altar was actually a teleportation formation. It looked very old and full of traces of time.

After that, Lu Ming glanced around, looking up.

The place he was on was a small continent, which looked like a fragment of a continent, but the area was small.

Around the mainland debris, there is a layer of glow, covering the mainland debris, as if isolated from the world.

"Where is this? It should be in the ruins of the universe that has been explored."

Lu Ming speculated.

One third of the cosmic ruins that have been explored are already astonishingly large. Lu Ming didn't believe that there was a teleportation array that could span such a long distance at a time and directly pass through this one-third of the distance.

Here, most of it is still in one-third of the area.

However, this place should never have been discovered.

"Perhaps, this place is sealed in the depths of the void, it is difficult to find outside..."

Lu Ming speculated that this could be seen from the glow around the mainland debris, and Lu Ming tried to fly outwards, but there was a force to stop him.

This further proved Lu Ming's speculation.

This is probably just a transit point on Xingkong Ancient Road.

Lu Ming searched for the fragments of the mainland. As expected, not far away, Lu Ming found another ancient altar. Lu Ming speculated that this altar was a teleportation array that continued to go down.

"I don't know who built the teleportation array. Look around to see if there is any clue."

Lu Ming thought, and then wandered around the fragments of the continent. The fragments of the continent were not big, and they were quickly turned around by Lu Ming.

Unfortunately, nothing was found, no clues were found.

Lu Ming could only continue to step on the teleportation array, a burst of light flashed, Lu Ming's figure disappeared, and the next moment Lu Ming appeared on a small piece of mainland debris.

This small piece of mainland fragment, similar to the previous one, was also sealed in the depths of the void. It could not fly away, and could only leave by the teleportation array. Lu Ming turned around and found nothing.

In this way, Lu Ming continued to set foot on the teleportation formation.

After six consecutive transmissions, when it was the seventh time, there was finally a change.

Lu Ming discovered that he had been teleported to a hill.

The hill is very small, only about 100 meters high, the peak is flat, and a stone house is actually built.

In front of the stone house, there is an ancient teleportation formation.

Lu Ming's heartbeat accelerated involuntarily.

There is actually a stone house here, who built it?

Was it built by the creatures who built the teleportation array, or was it built by Mulan and the Phoenix Spirit?

Lu Ming resisted the excitement in his heart and walked mostly towards the stone house.

Near the stone house, Lu Ming discovered that there was a small pond on the right side of the stone house, but the pond had dried up.

Lu Ming glanced around and entered the stone house.

The stone house is very simple, with only a stone table and a stone bench.

"Only a stone bench?"

Lu Ming's heart moved.

This was probably not built by Mulan and Huang Ling. There were two of them. If they built it, there would be no reason to build a stone bench.

"There are words on the table!"

Lu Ming's heart jumped and he found that the tabletop of the stone table was full of handwritings, but these words were carved from the writings of the primordial continent of the previous era.

Lu Ming further concluded that the stone table in the stone house was not left by Mulan and Huang Ling.

Lu Ming recognized it carefully.

Over the years, he was not completely idle in the Heaven Extinguishing Army. He also took the time to study the characters of the last era, and most of them can be recognized.

After a while, Lu Ming read the text on the stone table carefully, and his eyes were uncertain.

"Sure enough, these teleportation arrays were built by a mysterious existence..."

Lu Ming whispered.

Literally, the owner of this stone house built many teleportation arrays to form an ancient road. As for why it was built, he did not say.

Then, the owner of the stone house left some opportunities here.

"It turned out that the small pond outside the stone house was called the good fortune jade pond. It contained good fortune jade liquid and had anti-sky effects, but now it has dried up. Could it be that it was absorbed by Mulan and the Phoenix Spirit?"

Lu Ming thought to himself.

Because according to the master of the Nine Yin Demon Spider Clan, Mulan and Phoenix Spirit entered the ancient starry sky earlier than the Nine Yin Demon Spider, and they must have arrived here earlier.

Then, if anyone absorbed the good fortune jade liquid, the most likely one would be Mulan and Phoenix Spirit.

There are other opportunities, and it may be that Mulan and Huang Ling got it.

Of course, this is all Lu Ming's speculation, and the exact facts are still unknown.

"Hey, there are also words on the ground."

Lu Ming continued to observe and found that there were a few lines of delicate small characters on the floor of the stone house.

Lu Ming took a look and was overjoyed.

This was left by Mulan. Lu Ming knew Mulan's handwriting very well, and there was absolutely nothing wrong with it.

The literal meaning is that Mulan and Huang Ling strayed into this place. They had the opportunity to return here, but it was difficult to return. The two of them waited here for decades. Seeing that Lu Ming had not come, they continued to take the teleportation formation.

He also urged that if Lu Ming came and saw the message, don't miss it.

call!

Lu Ming exhaled, feeling a lot more relaxed.

At least it proved that Mulan and Huang Ling had nothing to do here, and they also got the chance to guard against the sky.

"Senior Sister Mulan, Huang Ling, don't have anything to do with you!"

Lu Ming meditated in his heart, patrolling around, and after confirming that there were no other traces, he stepped onto the teleportation formation in front of the stone house.

Xianguang flashed, and Lu Ming disappeared on the teleportation array.

After that, Lu Ming went through five more teleportations. In the next five teleportations, nothing was unusual and there was no writing left.

However, there was no danger or any creatures along the way.

This relieved Lu Ming a lot.

There is no danger, then Mulan and Huang Ling should not be in danger either.

As long as you don't touch the forbidden creatures.

After another teleportation, Lu Ming came to a piece of mainland debris.

But this time, Lu Ming was surprised.

Because around this piece of continental debris, it was not sealed, not in the depths of the void, but suspended in the void of the universe.

The fragments of the mainland were full of rich and wild aura.

Chapter 4980: Meet the Jiuyin Demon Spider again

This was a piece of continental debris in the ruins of the universe, Lu Ming made such a judgment.

But I don't know whether it is one-third of the area they are in or the two-thirds unexplored area.

Teleported so many times, perhaps it has reached the unexplored two-thirds area.

However, Lu Ming was not happy, and frowned instead.

In this case, it would be impossible to figure out the movements of Mulan and Huang Ling.

Did Mulan and Phoenix Spirit continue to teleport down, along the ancient starry sky road, or left the mainland fragments and wandered through the ruins of the universe?

Finally, Lu Ming decided to explore the fragments of this continent to see if Mulan and Huang Ling left any clues nearby.

Lu Ming's spiritual consciousness spread out and he began to explore. The area of this continent was not large. Soon after, the whole continent was explored by Lu Ming.

"There is no way down. Could it be that the ancient starry sky road, here is the end..."

Lu Ming's face was uncertain.

Because, he explored the entire continent fragments again, but did not find a way to continue down.

Before each transmission, there were two transmission formations, one was transmitted from him, and the other was the formation that continued to transmit downward.

However, on this piece of continental debris, there are only the formations that have been transmitted, but there is no formation that continues to be transmitted.

How is this going?

Could it be that this is the end of the ancient starry sky road, or is it that the array that is teleporting down is not on this continent fragment, but on other continent fragments?

It's not impossible, but it's very unlikely.

Lu Ming felt that there was a greater probability that this was the end of the ancient starry sky road.

After Mulan and Huang Ling came here, they left.

And the masters of the Nine Yin Demon Spider Clan, most of them set out from here to reach the stars of the universe.

"I hope that Senior Sister Mulan and Huang Ling will be fine."

Lu Ming sighed, he didn't know where to look for the ruins of the vast universe.

After thinking for a while, Lu Ming planned to leave, step by step.

With a flash of body shape, Lu Ming left the continent and flew towards the distance.

Soon after, Lu Ming judged based on the map that Lu Ming should have come to the depths of the ruins of the universe, to the two-thirds unexplored area.

And Lu Ming also found that the cultivation environment here was amazingly good, even better than the area where Lu Ming and the others were.

Any piece of continental fragments is lush and vigorous, and even on many continental fragments, there are still a lot of magic medicine.

However, these magical medicines were not high-level, and Lu Ming did not waste time picking them.

Ok?

Suddenly, Lu Ming, who was flying, couldn't help but stop.

Because from a few minutes ago, Lu Ming always felt a cold murderous intent, locking him in.

At first, he didn't care too much, but after flying for a few minutes, the killing intent never left, but always followed him. This is a problem.

Lu Ming's eyes were like electricity, as he scanned the surroundings, his spiritual sense spread out, covering a distance of thousands of miles.

call out!

At this moment, behind Lu Ming, there was waves in the void, and then a black light pierced the back of Lu Ming's head, extremely sharp.

At the same time, there was a black light on the left and right sides of Lu Ming, like a sharp spear, piercing at Lu Ming's vitals.

Fast as lightning.

This kind of sneak attack can be said to be seamless and unpredictable. The existence of the peak of the gods can not be resisted and will be killed.

But is Lu Ming the pinnacle of a general god?

I saw Lu Ming retreat abruptly, avoiding the attacks on the left and right sides. While retreating, he stretched out his hand and grabbed the attack from behind.

What attacked him from the back was not a weapon, but a leg, an insect leg.

Spider legs!

Nine Yin Demon Spider!

Lu Ming's thoughts turned sharply, and he shouted, "Get out!"

The palm of the hand was hard, and he flicked it out. Immediately, a figure was flung out, and a terrifying force broke out. One of the other's spider legs exploded directly.

Huh huh!

Then, in front of Lu Ming, three figures appeared.

The height of the three figures is more than three meters, and they look a lot like humans, but they each have two spider legs behind them.

Yes, there are only two.

Even one of them had only one spider leg, because one of them, Lu Ming was blown apart just now, his face was pale, and he stared at Lu Ming with murderous intent.

Although these people had different numbers of spider legs from the Nine Yin Demon Spider that Lu Ming killed in the universe, Lu Ming was certain that these people were definitely the Nine Yin Demon Spider Clan.

"This kid is very powerful. We are probably not opponents. It is better to retreat and let a stronger master deal with him."

"I feel so too."

Several members of the Nine Yin Demon Spider Clan discussed it by means of voice transmission, and then quickly retreated.

Lu Ming frowned. He didn't ask Qinghong indiscriminately just now. He joined forces to assassinate him, but now he wants to leave. Is Lu Ming so good to talk?

"Leave it to me!"

Lu Ming was cold, grabbing with a big hand, and in the void, a huge palm grabbed towards the opponent.

Lu Ming saw clearly that the cultivation bases of the three Nine Yin Demon Spider Clan were only the nine levels of the Divine Master. Lu Ming didn't pay attention to it, and he could solve it with a random palm.

"not good!"

The three Jiuyin Demon Spiders felt Lu Ming's horror, their expressions changed drastically, and then they resisted.

However, how could the three divine masters and nine folds stop Lu Ming's attack.

Two screams came out when the palm of the hand was pressed down. Two of the Nine Yin Demon Spiders screamed, their bodies exploded and their body and spirit disappeared.

Only one Nine Yin Demon Spider survived.

But it was not how strong this person was to block Lu Ming's attack, but that Lu Ming's men were merciful and deliberately let the opponent out, hoping to learn some information from the opponent.

Also, why did the other party shoot him without asking the question?

Although he killed a nine-yin demon spider with four spider legs before, these people didn't know it. It didn't make sense to kill him when they met.

Is it because he is a human race?

Although it is possible, after all, in the period of the Primordial Continent, the creatures and human races in the Forbidden Land were hostile.

But Lu Ming still wanted to ask, and by the way, he explored the current situation deep in the ruins of the universe.

In the starry sky of the universe, although the nine-yin demon spider with four spider legs had said a lot, the other party only knew the situation more than 10,000 years ago.

Because the Nine Yin Demon Spider Clan was the first group of the Nine Yin Demon Spider Clan to awaken. After more than ten thousand years, they awakened and then accidentally entered a secret place to search for opportunities, but trapped 10,000 in that secret place. For many years, even though he successfully broke through, he entered the ancient starry sky road, and then ran into Lu Ming and the others.

Therefore, the Nine Yin Demon Spider didn't know the current situation in the depths of the ruins of the universe.

According to the Nine Yin Demon Spider with four spider legs, at that time, the Nine Yin Demon Spider only awakened a few hundred people, and the ruins of the universe were still withered.
