D Emperor 5041

Chapter 5041: Major event

Mulan was almost numb to Lu Ming's various miracles.

So after hearing that it took Lu Ming two hundred years, he had crossed the Ten Thousand Demon Road that the Demon Race had been unable to cross for endless years, Mulan had no fluctuations in her heart and was very calm.

"Hey, the pressure of the Origin Great Tribulation has become smaller again."

Suddenly, Lu Ming said softly.

Originally, the existence of Divine Lord Peak could feel the pressure brought by the Great Tribulation of Origin.

Lu Ming discovered that the pressure on him from the Great Tribulation of Origin was much less than it was two hundred years ago.

But this is also normal, after all, there are only about three hundred years left before the end of the Great Tribulation of the Origin.

The closer it is to the end of the Great Tribulation of the Origin, the less powerful the Great Tribulation of the Origin will be.

"Go, let's go back to the Cangqing Divine Realm first."

Lu Ming said.

A group of three people flew towards the Cangqing Divine Realm, and after a while, they returned to the Cangqing Divine Realm.

As soon as they returned to the Cangqing Divine Realm, Lu Ming and the others learned two important news.

The first one is that now the original existence of the origin has been awakened one after another.

Now the Great Tribulation of the Origin, there is not much danger to the existence of the origin in the early days, and the existence of the origin in the early days is no longer worrying about life, and can move freely.

Of course, the stronger the cultivation base, the more severe it will be suppressed by the great calamity of the origin, and those above the mid-primary period cannot regain their consciousness.

This is definitely a major event, and it is enough to change the pattern of the major forces in the past.

In the past, the origin did not come out, and the invincible divine lord was the strongest, and could dominate the battle and sit on one side.

Now, the role of the Invincible Divine Lord will be greatly weakened.

No matter how strong the invincible divine lord is, it is only the divine lord, at most equivalent to the most common origin.

However, among the creatures of the Forbidden Land, how many masters were there in the original origin?

The creatures in the forbidden land, and the Cangqing Divine Realm, are not the Celestial Army or the Celestial Race, there are only dozens of hundreds of origins, and their origins are astonishing, and they are not comparable to the Celestial Army or the Celestial Race.

Pay attention to the public account: book friends base camp, pay attention to send cash and coins!

Even in the existence of these early origins, there are also Tianjiao-level figures.

It can be said that the right to speak now is no longer the invincible god, but these origins.

Lu Ming was quite depressed.

He finally cultivated into a source technique, and he was likely to reach the level of breaking the extreme five times. He originally thought that he could be invincible in the world and had no opponents.

Unexpectedly, it hasn't become the limelight yet, the existence of the Origin Realm has already been born.

Although Lu Ming is strong, he has not yet reached the point of arrogance. With his combat power, dealing with those ordinary origins is still about the same in the early stage. When encountering the origin of the Tianjiao enchanting level, he must be cool.

You know, the Origin Realm can fully display the power of the Origin Level Divine Weapon.

The second major piece of news is that Xi Tianteng, the enchanting evildoer of the Tianyin Teng tribe, will hit the origin realm at the Qingtian Peak site in a month's time.

"Under the great calamity of the origin, can you also attack the origin?"

Lu Ming was shocked and couldn't help exclaiming.

"Of course, legend. Under the great calamity of the origin, once you break through the origin, you will get unimaginable benefits, and your talent and potential will be greatly improved. Of course, it is extremely difficult to break through, and it is also extremely difficult. Danger, the legend does not know how many amazing geniuses who want to attack the original source under the great calamity of the original source, and die in the end."

It was Han Yue who explained to Lu Ming and the others.

"It turns out that it is still possible to attack the original source under the great calamity of the original source."

Lu Ming whispered in his heart, his eyes filled with amazing colors.

"It is said that Xi Tianteng had long wanted to attack the origin under the great calamity of the origin, but before the great calamity of the origin was too powerful, he dared not act, until recently, the power of the great calamity of the origin has weakened a lot, and he began to prepare for the impact. Nowadays, a large number of people from all major forces have gone to the Qingtianfeng site to witness this rare event in the ages."

"Originally, I also planned to leave. You just came back. Do you want to go together?"

Han Yue asked.

"Go, of course to go!"

Lu Ming said.

He is also a person whose heart is higher than the sky.

Since hitting the origin under the great calamity of the origin, he will gain huge benefits and raise his upper limit, why should he not be tempted?

He naturally wanted to see Xi Tianteng's impact on the origin, so as to increase his knowledge, if possible, he also wanted to attack the origin under the catastrophe of the origin.

His cultivation base has reached the limit of the **** master peak, as long as he consolidates for a period of time, he can begin to break through.

"Well, let's go together!"

Han Yue nodded.

.....

Qingtian Peak was very famous during the prehistoric continent period of the last epoch, and it was a world-famous mountain.

Xi Tianteng chose to make a breakthrough here. For one thing, the environment of this famous mountain is very superior and the aura of the wild is extremely rich.

Secondly, there is also the meaning of being taller than the sky. It can be seen that Xi Tianteng's heart is taller than the sky.

When Lu Ming and the others rushed to Qingtian Peak, there were still ten days before Xi Tianteng hit the origin.

At this moment, there is already a sea of people around Qingtian Peak.

Human Race, Nine Yin Demon Spider, Extreme Evil Race, Sky Yin Vine, Black Sky Warrior, Ice Fire Race.

The six major forces in the western universe are all counted, and there are hundreds of thousands of people from each side.

At least one million people at the scene.

Nowadays, with the recovery of the primordial universe, there are more and more resources, and more and more people in the forbidden land are awakened.

Of course, the origins of the creatures in the forbidden areas are not counted, and the clansmen who wake up later are not particularly exaggerated.

There are not many masters in the Divine Realm.

Because all the creatures in the forbidden areas had resources before, the ones who awakened first were the powerful ones who broke the extreme.

Only by awakening the strong can we seize more resources.

Although the number of creatures in the forbidden area that awakened was large, most of them were ordinary **** emperors and **** masters.

Lu Ming scanned the crowd and saw many acquaintances, such as Zhu Tian from the Nine Yin Demon Spider, Mosha and Evil Cicada from the extremely evil tribe.

In addition, among the crowd, there are many horrible auras.

There is no doubt that these people are strong in the original state.

Lu Ming and Mulan were quietly mixed among the human masters, and with the help of these human masters, they blocked the sight of Zhu Tian, Mosha and others.

If Zhu Tian, Mosha and others find Lu Ming, I am afraid that they will go crazy, and they will ask the origins of the two races to deal with Lu Ming.

Now, watching Xi Tianteng break through the origin is the most important thing, more is worse than less.

Fortunately, the attention of Zhu Tian and others were all on Qingtian Peak, and they did not notice Lu Ming's arrival.

I saw that on the top of Qingtian Peak, the figure of the cross-legged author was Xi Tianteng.

Around Xi Tianteng, there are at least dozens of strong Tianyinteng guards to ensure that Xi Tianteng will not be disturbed.

Of course, outsiders can't intervene when it really starts to hit the origin.

Attacking the origin under the catastrophe, outsiders intervening, is an act of seeking death, which will not only harm oneself, but also implicate the person who breaks through.

Not only can outsiders not be able to help, but even all kinds of magic weapons cannot be used.

Chapter 5042: Xi Tianteng began to break through against the sky

Lu Ming mixed in the crowd, listened to all directions, listened to the conversations of other people around, and obtained a lot of useful information.

"If you want to break through the origin under the great calamity of the origin, there are two main difficulties. The first difficulty is how to let the seed of the origin take root under the great calamity of the origin and transform into the root of the origin.

Not far away, several human elders were discussing.

A few human elders just stand there at will, giving people a feeling of being one with the heavens and the earth.

This is the original state!

Obviously, these elders of the human race have recently released their self-appointment and have revived their origins in the early days~www.wuxiaspot.com~collar red envelopes] pay attention to the public.. public number [book friends base camp~www.wuxiaspot.com ~Draw up to 888 cash red envelopes!

These people have lived for a long time and know many secrets.

"Yes, under the Great Calamity of the Origin, you will be oppressed by the Universe Sea. If you want to transform the Origin Seed into the Origin Root, it is more than ten times more difficult than usual, and it is very dangerous. If you are not careful, the Origin Seed will be in the Universe Sea. It collapses under the oppression of the world, when the time comes, it will not be as simple as the collapse of the original seed, and it will be destroyed in all likelihood."

Another old man in a silver robe said.

"This is only the first difficulty. The second difficulty is even more dangerous. Even if the breaker succeeds and transforms into the root of origin, the cosmic sea will absorb the root of origin. How can we stop the swallowing of the cosmic sea is the most important thing. The weight is so heavy, if you dare to break through under the great calamity of the origin, the universe will be violent, and the power of swallowing will be extremely strong, unable to resist, it is also a dead end."

The old man in front continued.

Some young people around were pale.

This difficulty is too great.

Originally, under normal conditions, the difficulty of breaking through the original source was astonishing, and it was also very dangerous, and there was a risk of falling away if one was careless.

Not to mention, it was under the catastrophe of the origin.

It's hell-level difficulty.

"This is the difference between the evildoer and the ordinary genius. Although this step is dangerous, it is also a chance. If you pass, the distance between the evildoer and the ordinary genius will be further widened."

"Even, geniuses of the same level who have gone through and have not gone through, the gap between each other will quickly widen. Legend has it that in the prehistoric continent of the last era, there will be ghosts of the world, who are specifically looking for the great calamity of the origin. The universe below, go to that universe to break through to raise your upper limit and enhance your talent and potential."

An old man glanced at several young people and said lightly.

"Yes, according to legend, both Wang Xuanyuan and the Queen of the Ancients have done this."

Another old man followed.

A few young people poked their lips secretly, disapproving.

Wang Xuanyuan and Queen of the Ages, who are they? Is that the king of men? It is the supreme power that dominates the prehistoric continent. Even the creatures in the Forbidden Land and other universes are invincible and powerful. Can they compare?

It's normal to be incomparable.

To be a man, one can't take a long time.

However, Lu Ming's eyes shone brightly.

"King of Man, have you also gone through this step?"

Lu Ming whispered.

Although he is not narcissistic enough to be like a king, he also has ambitions and wants to go further.

Since there is such an opportunity, he does not want to miss it.

Let's take a look at Xi Tianteng's situation first.

Ten days will pass in a blink of an eye.

Xi Tianteng, who had been closing his eyes and rested, suddenly opened his eyes and nodded slightly to the masters of the Tianyinteng tribe around him.

"Retreat!"

The masters of the Tianyin Teng clan around Xi Tianteng quickly retreated and left Qingtian Peak.

boom!

After the people of the Yinteng clan left, Xi Tianteng burst into a powerful breath.

Started to break through!

The eyes of millions of people around are bright.

Before, Xi Tianteng had been adjusting his state. Obviously, he had adjusted his state to the peak, and he immediately began to break through.

Xi Tianteng's breath became stronger and stronger, as if there was no end, he kept climbing up.

Around his body, there are two kinds of light, one red and one black. It can be seen that in his body, there is a light ball, like the sun, emitting a dazzling brilliance.

"What a strong breath, is this the four breaks?"

Some of the original state's existence showed a solemn color on their faces.

Without hands, just breath, they all felt the pressure, and they were horrified at the terrible strength that they broke four times.

Of course, these are relatively ordinary origins, and those truly powerful origins have not changed their expressions.

Xi Tianteng's breath is still improving.

Lu Ming knew that Xi Tianteng was already attacking the Origin Realm, and when his aura reached its peak, that was the key.

Rumble!

Suddenly, the void trembled, and in the depths of the void, bursts of roar sounded.

Then, at the scene, a terrifying pressure suddenly spread.

"The pressure of the Great Tribulation of Origin has been strengthened!"

Lu Ming's face moved slightly.

Just now, Lu Ming clearly felt that the pressure of the original catastrophe had increased a lot.

"It's really amazing that the universe has caused an unexpected movement before the breakthrough has been successful."

"Rewind!"

Those in the Origin Realm retreated quickly, quickly retreating from billions of miles away, and moved away from Xi Tianteng as soon as possible.

The reason why they were able to lift their self-proclaimed birth was because the power of the Great Tribulation of the Origin has been weakened, and it has not had much impact on the existence of the origin in the early days.

But when Xi Tianteng broke through, he actually caused an abnormal movement in the universe, which greatly increased the power of the origin of this area. Where can these origins dare to stay?

Keep staying, I'm afraid Xi Tianteng hasn't succeeded in breaking through, they will fall first.

The changes in the universe and the sea have greatly increased the pressure on the origin of the catastrophe, and it does not have much impact on the people under the origin.

The people below the source did not retreat and continue to watch.

Xi Tianteng's breath continued to rise, and it could be seen that the original seed in his body began to tremble a little.

Everyone knows that now has reached a critical moment.

Now Xi Tianteng must have been under tremendous pressure. If one fails, his original seed will explode, his whole person will explode, and his body and spirit will be destroyed.

Rumble!

The roar in the depths of the void continued and became more and more intense.

The next moment, the space in the void continued to rotate, forming a vortex.

Just above Xi Tianteng, the space was distorted and collapsed. Through the distorted space, one could even see an ocean.

That is the universe!

The cosmic sea is rolling, the waves are heavy, surging, breathtaking, and seem to be furious.

From a distance, this whirlpool, like an eye, was condescending and corroding Xi Tianteng.

Click!

A crisp sound spread throughout the audience and made everyone's hearts beat.

Everyone saw that a crack appeared on Xi Tianteng's original seed.

"There is a crack in the original seed, is Xi Tianteng going to fail?"

"Nonsense, that's a state of taking roots and sprouting, Xi Tianteng is about to make a breakthrough."

Many people yelled,

Chapter 5043: Source root level

A crack appeared in Xi Tianteng’s original seed, which made many people feel uncomfortable. At first, many people thought that Xi Tianteng was going to fail and would not be able to carry it anymore, but they immediately discovered that they were wrong. Xi Tianteng was about to make a breakthrough. , The original seed is about to take root and germinate.

Only when the original seed breaks the wall can it take root and germinate and grow the original root.

Sure enough, the sound of clicking continued to be heard, and there were more and more cracks on the seed of Xi Tianteng's original source. After a while, the cracks were like a spider web, densely covered.

Then, from the original seed, there are roots stretched out.

These roots spread out and extended to all parts of Xi Tianteng's body.

The existence of the source, the roots of the source root, take root everywhere in the body, like veins, all over the body.

Above the source root, it goes straight to Cangming, connecting with the universe.

And the soul will enter the source root, and use the power of the source root to nurture and grow the soul.

Therefore, for the existence of the original state, the root of the source is the most important thing. Once the root of the source is destroyed, the consequences will be very serious.

There are more and more roots on the original seed of Xi Tianteng, extending to the whole body, and concealed everywhere. Then, the original seed slowly grows upwards, and a section of the original root slowly emerges.

The root of the source looks like a meridian, but in fact it is completely condensed by the power of the source. It is extremely hard and comparable to a magic weapon. Generally speaking, it is difficult to break.

There is also a life-saving method for the existence of the Origin Realm. Once the Origin Root is attacked, it is about to be broken. The practitioner can hide the soul into the Root Root to protect the soul.

Because the roots of the roots are rooted in the flesh, as long as the flesh is not completely destroyed, relying on the roots in the flesh can still regenerate the roots.

Therefore, the existence of the Origin Realm is extremely tenacious, and it is very difficult to kill it, unless the physical body is wiped out, or the opponent's soul is destroyed with the momentum of thunder.

Although the existence of the Origin Realm theoretically, even if the Origin Root is defeated, it will not fall, but no one will go back and try.

First, the root of the source is defeated, you may not be able to grasp the opportunity to escape your soul into the roots.

The moment many people's roots were defeated, their souls had no time to escape and were immediately destroyed.

Second, even if you hide your soul into the roots and save your life, the root of the root is defeated, and it is very difficult to grow back. The cost of resources is staggering, and it will even affect your future cultivation path. .

After all, there are too few evildoers that can break and stand.

As time passed, the roots of Xi Tianteng grew longer and longer, and became stronger and stronger.

Finally, it grew to an inch long and stopped.

It can be seen that the roots of Xi Tianteng, the two colors of white and red intersect, are like beautiful jade, very beautiful.

"Successful, the origin of the breakthrough was an inch long, and Xi Tianteng succeeded in the breakthrough."

"Awesome, it's really an enchanting thing to be able to break through under the Great Tribulation of Origin."

"I don't know what level of Xi Tianteng's original power is, it shouldn't be a low level~www.wuxiaspot.com~Welfare] Give you a cash red envelope! Follow the vx public [Book Friends Base Camp] to receive it!

"Nonsense, with Xi Tianteng's talent, his original strength cannot be low-level, at least intermediate."

Many people talk about it.

Source roots are also divided into levels.

Divided into low-level, intermediate, high-level, and top-level.

Before the source, the stronger the power to control, the higher the level will be after the power of the source.

Of course, most practitioners, after breaking through the origin, the origin is low-level.

Including a lot of genius evildoers, even the existence of breaking the pole once and breaking the pole twice, after the breakthrough, the roots are all low-level.

It is too difficult to achieve Intermediate Root.

Only those who have broken the extreme three times, the original control of the power is too strong, after the breakthrough, the root of the source will be intermediate.

For example, Xi Tianteng, who has broken the pole four times, after breaking through the origin, the origin is definitely intermediate.

As for the high-level roots, it is even more difficult, as difficult as the sky.

It is almost impossible for an existence who has just broken through the original source realm to achieve a high-level source.

Four broken poles will not work.

Of course, in the prehistoric continent of the last era, there were five world-breaking demons. As for whether they can do it, it's not clear.

As for the top roots, it is impossible to condense them just after breaking through the roots, there is no possibility.

However, the level of the source is not completely fixed. After breaking through the source, if there is a chance, it is still possible to continue to improve, but it is too difficult.

The higher the level of the source root, the stronger the power of the source power will naturally be.

There are many factors influencing combat power due to the existence of the original state.

The level of cultivation, the strength of the origin technique, the battle armor of the gods, and the level of the origin.

Of course, there are also war experience, combat awareness and so on.

The level of cultivation is just one aspect.

Therefore, Lu Ming smiled bitterly when he heard that people in the early days of the origin were free to move around.

Some exist, seem to have only the initial cultivation base of the origin, but the combat power is terrifying and unreasonable.

Although Lu Ming may have broken the extreme five times, it is better to keep a low profile.

"It's too early for you to be happy, Xi Tianteng just passed the first level. Under the great calamity of the origin, it is the most dangerous to give birth to the root of the origin."

An old man said coldly.

Many people's expressions changed, especially the people of the Yinteng tribe in cloudy days, even more worried.

When fighting with people, the roots are defeated, the soul may escape into the roots, and there is the possibility of re-growth roots behind.

However, under the great calamity of the origin, the universe swallowed not only the origin, but also the roots. It was truly uprooted without any luck.

Rumble!

At this time, the roar of the void was louder, the universe seemed to be furious, and the pressure of terror became stronger.

The whirlpool quickly rotated, and then a terrible swallowing force acted on Xi Tianteng.

here we go!

Everyone was shocked, knowing that the most critical moment had arrived.

If Xi Tianteng can't make it through, everything before that will be in vain and die.

If it can survive the past, the future will be a broad road, and the future will be bright. As long as you don't die, you will become a certainty.

Hum!

It can be seen that the source of Xi Tianteng's growth is violently shaking, and it seems to be leaving the body.

"No one can take away my roots, not even the universe...no!"

Xi Tianteng roared, the breath of the whole body burst out, and the power of the original source covered the whole body to resist the swallowing power from the universe.

Under Xi Tianteng's full confrontation, Yuangen temporarily stabilized.

However, the roar of the universe sea became stronger, it seemed to be more violent, and even more terrifying devouring power burst out.

puff!

Xi Tianteng's body trembled violently, a mouthful of blood spurted out, and his face was pale.

Chapter 5044: Lu Ming’s new direction

The Universe Sea erupted with even more terrifying devouring power, Xi Tianteng's body trembled, blood was vomiting, and his face was pale. Many people shouted badly.

Could it be that Xi Tianteng couldn't resist it anymore?

Xi Tianteng's source, is going to be swallowed?

puff! puff! ...

At this moment, Xi Tianteng vomited a few mouthfuls of blood again, and the original power covering his body trembled constantly and began to collapse.

Even his physical body began to decay slowly, and a trace of flesh and blood was slowly dissipating.

Cosmic Sea, this is to swallow even his flesh and blood.

Obviously, Xi Tianteng uses his body and the power of the source to shroud the source, defending the source and preventing it from being swallowed. The universe is very domineering, and he must destroy the defense first.

Destroy the defenses first, devour the roots, and completely obliterate Xi Tianteng.

"not good..."

The people of Tianyinteng are the most worried and worried.

Could it be that Xi Tianteng was unable to succeed in the end, and was going to lose.

What a pity, Xi Tianteng has already come this far, and has successfully stepped into the origin. From then on, there is no limit to his achievements. What is in front of him is a broad road that leads directly to the immortal road. The future is destined to be bright, and that’s it. Fall is an irreparable loss for the Tianyin Vine Clan.

Of course, there are also some people secretly happy that these people come from other forbidden creatures.

Such as Jiuyin Demon Spider, Extremely Evil Race and so on.

They are in a competitive relationship with the Tianyin Vine Clan. One hundred people who don't want to see the Tianyin Vine Clan give birth to an evil spirit against the sky.

Once they grow up, it won't do them any good.

"Xi Tianteng, it hasn't reached the limit yet, there is still a chance..."

Lu Ming stared at the court with bright eyes.

He fought with Xi Tianteng, and he knew very well about Xi Tianteng's strength.

It can be said that Xi Tianteng was not weaker than him before he had realized the Origin Art. The reason why he won was because he was a native of the universe and had an innate advantage.

He didn't believe that Xi Tianteng would go to extinction.

Roar!

Xi Tianteng roared, and the power of the original source broke out frantically, and his body was covered with divine clouds. Then, his body quickly changed and turned into a vine.

This vine is pitch black all over, like black iron, filled with yin.

This is the body of Xi Tianteng, a powerful Tianyin vine.

After Xi Tianteng turned into the main body, the vine body began to grow wildly, from a few meters in length to several million meters in length, extending out countless vines, and these vines were rooted in the void.

Void was grasped by the cane, and actually gathered towards Xi Tianteng, becoming a layer of defense for Xi Tianteng.

After turning into the body, the roots in Xi Tianteng's body were immediately stabilized a lot.

Rumble!

The universe sea is roaring, the void is shaking, and the terrible devouring power is constantly erupting, forming a stalemate with Xi Tianteng.

Time passed by, and the people watching around also raised their throats.

Everyone knows that every minute and every second is the key to Xi Tianteng, and maybe the next moment, Xi Tianteng will be unable to bear it and be defeated.

Xi Tianteng's situation is indeed not good. As time passed, he looked miserable. Many rattans were decayed, dying, and disintegrating.

The huge sky-yin vine, which was originally several million meters long and covered Cangyu, was slowly shrinking.

From millions of meters to hundreds of thousands of meters, tens of thousands of meters, thousands of meters...

Two hours later, the main body of Xi Tianteng was only a few meters long.

But at this time, things have turned for the better.

The roar of the void began to weaken, and the vortex like eyes in the void began to shrink.

Through the vortex, I saw that the universe sea slowly became calm, not surging, not roaring.

In the void, that terrifying pressure is constantly decreasing.

It's going to pass!

The people at the scene were extremely complicated. They knew that Xi Tianteng resisted, resisted the great calamity of the origin, and successfully broke into the origin realm.

It's against the sky!

Among them, those of the Tianyin Teng tribe are the most excited.

They are going to have a world-class powerhouse.

"It has passed. It seems that it is not completely impossible to break through under the great calamity of the origin. Xi Tianteng can, and so can I..."

Lu Ming clenched his fists, his eyes showing firmness.

There was another person who had the same firm gaze as Lu Ming.

This person comes from the black sky warrior clan, he is as famous as Xi Tianteng, one of the only two four-time breakthroughs in the universe.

Xi Tianteng can, so can he, his eyes are firm.

Except for the two of them, the other Tianjiao are only envious.

Xi Tianteng was about to die frequently before breaking through successfully. They were far behind Xi Tianteng. They forced a breakthrough under the Great Tribulation of the Origin, which was looking for death.

Suddenly, the vortex in the void completely disappeared.

But before the vortex disappeared, a burst of energy flew out of the universe and shot at Xi Tianteng's body.

When this energy fell on Xi Tianteng's body, it quickly sank into Xi Tianteng's body.

It can be seen that Xi Tianteng's originally dilapidated body, after rapid cultivation, the cane has grown again, and it looks tougher.

Not only that, the source roots in Xi Tianteng's body are also changing, rapidly becoming thicker and longer, and the source roots themselves become more solid and exude a brilliant luster.

Everyone at the scene, including Yuan Yuan, showed a strong color of envy.

They know that this is a gift from the universe.

As long as one succeeds in breaking through the origin under the great calamity of the origin, only then can the gift of the universe be obtained.

The gift of the universe is no small thing. This energy can make Xi Tianteng transform, not only the physical body will become stronger, but the root and soul can be transformed.

It can be said that Xi Tianteng's origin, or the power of origin, has become stronger.

"Could it be that Xi Tianteng's roots have reached advanced levels?"

Someone spoke in shock.

With Xi Tianteng's talent, even if he breaks through under normal conditions, Root is definitely intermediate. Now with the gift of Universe Sea, Root has been transformed and become advanced?

"It's hard to tell, there are too few examples of successful breakthroughs under the Great Tribulation of Origin in history, and everyone's talents and potentials are different, and the gifts they receive will be different. No one can tell."

"Yeah, maybe it's really advanced, maybe it's only intermediate."

Some older people are talking.

They know more secrets. It is not that they can successfully break through the origin under the great calamity of the origin without having four times to break the origin. There are too many things involved in this, and personal strength is the opposite. In addition, there are willpower and talent. Potential and so on.

In history, there are no shortage of existences that have broken through four times to break through the origin under the great calamity of the origin, but there are very few successful ones.

[Reading book leads red envelopes] Follow public.. public accounts [Book Friends Base Camp], reading books can draw up to 888 cash red envelopes!

There were even five times of breaking extremes, but none of the breakthroughs were successful, and the deaths disappeared. Therefore, there was very little information left.

Chapter 5045: Fight after the origin

Xi Tianteng's physical body quickly recovered. When he fully recovered, he reverted to a human form. At the same time, the energy between heaven and earth madly gathered towards Xi Tianteng, and the breath of Xi Tianteng's body rose madly.

A terrible pressure radiated from Xi Tianteng.

Around, many people kept retreating, as if they were being pressed by hundreds of planets.

The breath on Xi Tianteng's body has been climbing. This process lasted for several hours. Finally, Xi Tianteng's breath calmed down completely.

However, the pressure is still very strong, even stronger than before.

"At the initial peak of the origin, a breakthrough not only completely stabilized the cultivation base, but also reached the peak of the early origin. Is this the benefit of breaking through under the great calamity of the origin."

"Not only that, the transformation of the body, soul, and roots is also superficial. The most important thing is talent and potential..."

Some of the Origin Realm experts opened their mouths in shock, with envy in their eyes.

Once a breakthrough is made, the cultivation base is the peak of the origin, which saves much time than ordinary people don't know.

In addition, the body, soul, and roots have all been transformed and become stronger. These benefits are simply eye-catching.

However, these are still superficial and can be seen.

The most important thing is talent and potential, even if it is improved, others will not see it.

For example, when your comprehension is improved, others will not be able to see it.

These are the most critical, related to future achievements, the upper limit of the future.

Many young Tianjiao evildoers breathed heavily, and there was a look of desire in their eyes.

Under the great calamity of the origin, once the breakthrough is successful, the benefits are too much, and it is difficult to calm down.

Huh!

At this moment, Xi Tianteng, who had been closing his eyes tightly, finally opened his eyes. His eyes seemed to be able to see through everything.

Anyone who was swept by him felt a strong pressure, even the roots of those old brands did not dare to look at them.

It can be said that although Xi Tianteng has just broken through the origin, he has almost stood at the peak in the initial stage of the origin, and there are not many opponents.

Yuan Shu, Xi Tianteng had long understood.

As for the battle armor of the gods, Xi Tianteng has long ago, and they are all top source-level gods and battle armors.

Yuangen, Xi Tianteng is at least intermediate, how many people have it in Yuanyuan's early existence.

It can be said that as soon as Xi Tianteng broke his roots, his combat power skyrocketed considerably.

"Wu Jue, if you can't break through under the Great Tribulation of Origin, from now on, you will no longer be my opponent."

Xi Tianteng's gaze turned to a burly figure in black armor.

This figure, named Wu Jue, was the prestigious evildoer who used to be as famous as Xi Tianteng.

Wu Jue's eyes flickered and did not speak.

He knows that what is said now is superfluous.

The current Xi Tianteng is indeed invincible, and before he breaks through the source of the catastrophe, saying nothing is useless, but it seems ridiculous.

Moreover, Xi Tianteng was right. If he could not break through under the Great Tribulation of the Origin, but waited for the breakthrough after the Great Tribulation of the Origin, then the gap between him and Xi Tianteng would be irreparable.

He will never be Xi Tianteng's opponent.

He did not speak, but his heart became more determined.

Must break through under the great calamity of the origin.

Then, Xi Tianteng's gaze jumped over the crowd and landed in Lu Ming's position.

"Lu Ming, I know that you are here. When I first broke through, I was in harmony with the universe and had a keen sense of consciousness. I have already sensed you."

Xi Tianteng spoke again.

"Lu Ming is here?"

Zhu Tian, Mosha and others, with cold eyes, looked towards Lu Ming's location.

As soon as they observed it carefully, Lu Ming couldn't hide it even if he wanted to, and was immediately discovered.

Lu Ming smiled slightly and stepped out. Since he was discovered, there is nothing to hide.

"It really is Lu Ming!"

To exchange good books, follow the vx public account. [Book Friends Base Camp]. Pay attention now and receive cash red envelopes!

All of a sudden, countless eyes turned to Lu Ming.

Some are curious, some are gloating.

Two hundred years ago, Lu Ming defeated Xi Tianteng.

Will Xi Tianteng seek revenge from Lu Ming now?

Lu Ming looked directly at Xi Tianteng without fear.

He understood that with his current combat power, it was impossible to be Xi Tianteng's opponent after the breakthrough.

But if Xi Tianteng really wants a battle, he won't avoid it. If he really wants to lose, he will hide in the prey.

Now that I was discovered, I can only face it.

"Lu Ming, I have to thank you!"

Unexpectedly, even Lu Ming felt surprised that Xi Tianteng actually said this.

"Being defeated in your hands made me realize my shortcomings, made me make up for my weaknesses, and made my Dao Xin more tenacious. Otherwise, I may not be able to break through and succeed under the great calamity of the origin."

Xi Tianteng continued.

Lu Ming did not speak, but sighed in his heart that Xi Tianteng was really a terrible opponent. He was defeated in his hands. Instead of being hit, he was stronger and finally completed the transformation.

Lu Ming had only seen such an opponent in his entire life, and even Lu Ming had a heart of admiration.

"I really want to fight you again, but now is not the time. You have not broken through the origin, not my opponent, Lu Ming, I will wait for you, when you break through the origin, you and I will fight again. I hope you don't let me down."

Xi Tianteng said, his voice was gentle, but his gentle tone was full of strong self-confidence.

Before Lu Ming broke through his origin, he disdaind his shot.

He had to wait for Lu Ming to break through, and then fight Lu Ming.

"Well, when I break my roots, you and I will fight again, but I tell you, if I can beat you once, I can beat you a second time."

Lu Ming responded, very strong, and also very confident.

"Hahaha, well, I hope that day will come soon."

Xi Tianteng laughed.

"Senior Sister, Huang Ling, let's go!"

At this time, Lu Ming pulled Mulan and Huang Ling back quickly.

"Lu Ming, where to go?"

"Since I showed up, I still want to leave, leave it to me."

With a few roars, Zhu Tian and Mosha rushed towards Lu Ming.

In addition to them, there were several origins from the two races who also rushed towards Lu Ming.

These people are full of murderous intent in their eyes.

Especially Zhu Tian and Mosha, thinking that Lu Ming had suppressed them before and exchanged them for top-level source-level magical medicines, they would kill Lu Ming, and they would like to thwart Lu Ming's bones and ashes.

"go!"

Lu Ming took Mulan and Huang Ling, speeding back.

However, the several origins are obviously extraordinary, they are all masters in the early days of origins, and their speed is amazing.

They approached Lu Ming quickly, the power of the source burst, several terrible attacks, shattering the void, and killing Lu Ming.

Lu Ming felt tremendous pressure.

The combat power of these origins is very powerful.

The people of the two races knew in advance that Lu Ming had the power to break the extreme four times, so naturally the shots won't be from the ordinary origin, they are all masters in the origin, and they are sure to be able to suppress Lu Ming.

Chapter 5046: Someone from the East Universe

The Jiuyin Demon Spider and several powerful origins of the Extreme Evil Race launched an attack on Lu Ming, the void shattered, and the energy was violent, pressing on Lu Ming, the scene was astonishing.

The combat power of these people is very strong. In the early days of the origin, they are all masters, all have comprehend the existence of the origin technique, and are equipped with the origin level magic weapon.

Lu Ming felt the tremendous pressure and was preparing to fight with all his strength.

At this moment, a black sword light appeared, severing the void, and several Origin Realm attacks were also cut off by the black sword light, smashing into the void.

"Xi Tianteng...you...what are you doing?"

Zhu Tian roared.

The one who helped Lu Ming block the attack just now was actually Xi Tianteng.

Lu Ming was also taken aback. He didn't expect Xi Tianteng to make a move. He was going to use the Chuyuan Technique to resist with all his strength, but he stopped.

This book is organized and produced by the public account. Follow VX [Book Friends Base Camp], read the book and receive cash red envelopes!

"Lu Ming just had a fight with me, you rescued him and tried to do it, why, don't you put me in your eyes?"

Xi Tianteng said coldly.

"Xi Tianteng, we have no intention of opposing you. Lu Ming has a big grudge against us. We are just taking revenge."

Mosha explained.

"If you do it in other places, I can't control it, but here today, I'll control it. It's really shameful and not ashamed of a group of origins to join forces to deal with a divine lord."

Xi Tianteng sneered, with a mocking look.

Zhu Tian, Mosha and others were flushed and roared in their hearts, you are so awesome, do you think everyone has you so awesome, don't use the origin, how can we deal with Lu Ming?

Of course, they can only roar in their hearts and dare not say anything in their mouths.

Today's Xi Tianteng is too strong. In the early days of the origin, there were almost no opponents.

These original powerhouses of the two races, together, may not be Xi Tianteng's opponent.

"Lu Ming, let's go, but I can only help you once. If you die in the hands of those Xiaoxiao in the future, it means that you are not worthy of being my opponent."

Xi Tianteng said to Lu Ming, his tone still haughty.

"Thank you!"

Lu Ming clasped his fists.

Although Xi Tianteng was arrogant, but his character was still good, he took note of the help this time.

If Xi Tianteng didn't make a move today, with his strength, he might not be able to retreat.

After that, Lu Ming took Huang Ling and Mulan back and back.

Zhu Tian, Mosha and the others stared coldly at Lu Ming, Mulan and Huang Ling.

Since Xi Tianteng was here to stop them, they would follow in secret, and move on when they left this area.

"Seniors, let's go too, and return to the Cangqing Divine Realm together."

In the crowd, Han Yue shouted at some of the origins of the human race.

"Well, anyway, Xi Tianteng has already made a breakthrough, so it's time to leave!"

"Go back together!"

These origins of the human race are all human spirits, how can you not know what Han Yue meant.

Han Yue wanted to invite them and Lu Ming and others to avoid being sneaked by the Nine Yin Demon Spiders and the Extreme Evil Clan halfway through.

They had heard of Lu Ming's name long ago. With a body of inferior bloodline, they actually possessed four times breaking power. These enchanting evildoers, but of their human race, would they see Lu Ming being killed?

Suddenly, the masters of the human race, together with Lu Ming and the others, headed towards the direction of the Cangqing Divine Realm.

"hateful..."

Zhu Tian, Mosha and others roared in their hearts.

Together with the many origins of the human race, they have no chance to shoot.

Forcibly shot, is it going to go to war with Cangqing Divine Realm?

They still can't represent the Nine Yin Demon Spider and the Extreme Evil Race, they just represent a certain force in the two races.

They couldn't be the master of such a major event as the battle against the Cangqing Divine Realm.

After all, they wanted to kill Lu Ming because it was only a personal grievance. It was impossible for the Jiuyin Demon Race or the Extremely Evil Race to fight the Cangqing Divine Realm for them.

Now that the origin has awakened in the early stage, the forces of all parties have become stronger, and there are many masters. Once a battle, the involvement of a wider range of origins may be lost. This makes the actions of the major forces more cautious than before.

In the past, all the people who were killed were the divine lord and divine emperor.

For a big family like the forbidden land creatures, **** emperors and even **** masters are easy to cultivate, but the origin is difficult to cultivate.

The origin is definitely the backbone and cannot afford to lose.

Zhu Tian, Mosha and others could only watch Lu Ming and the others, disappearing in front of them.

"Huh, there will always be opportunities in the future. There are still three hundred years before the end of the Great Tribulation of the Origin, and there are opportunities."

Zhu Tian roared in his heart, his eyes extremely cold.

With Xi Tianteng's successful breakthrough, the onlookers from all sides also left one after another, and this area tended to be calm.

Lu Ming, Mulan, and Huang Ling followed the masters of the human race towards the Cangqing Divine Realm. On the way, the human origin kept saying hello to Lu Ming, and Lu Ming nodded and responded one by one.

In general, the Cangqing Divine Realm's human race is still very kind, and it is not because Lu Ming is of inferior bloodline that he despises him.

People like Liu Weiyang and Pang Xiao are a minority after all.

Today's human race is no better than the human race of the last era. The human race is weak, and the human race has long lost the strength of the Primordial Continent period, and it has no arrogance.

Generally speaking, getting along is fairly harmonious.

After more than twenty days, they returned to Cangqing Divine Realm.

"Girl Han Yue, I have been away for these two hundred years, is there any other major event in the universe?"

After returning to the Cangqing Divine Realm, Lu Ming invited Han Yue to get together, by the way, to inquire about what happened during his absence over the years.

"The only major event is that Xi Tianteng broke through. There is no other major event, but there is one interesting event that may be of interest to you."

Han Yue said.

"Fun, what is it?"

Lu Ming asked curiously.

"The three of you all come from the eastern universe. Recently, there are quite a few people from the eastern universe."

Han Yue said.

"People from the East Universe."

Lu Ming flashed his eyes and asked, "Who are there? How are their appearances? Girl Han Yue, you can talk to me in detail."

There was someone in the eastern universe, and Lu Ming suddenly became interested.

"About a hundred years ago, many strange races suddenly appeared in the western universe and attracted the attention of the six major forces in the western universe. Our human race also sent people to check, and finally came to the conclusion that these strange races are also forbidden. Living beings, but not from the western universe, but from the eastern universe."

"According to ancient records, they should be the Yuanguang clan, Yinsha clan, and Cangming clan."

Han Yue said.

"It's the forbidden creatures in the east universe. How did they come to the west universe?"

Lu Ming was puzzled.

"It’s not clear. More than a hundred years ago, the eastern universe came from under the origin. In recent decades, because the origin of the origin can move freely, the origin of the three races has continued to come to the west universe. Together, their strength is getting stronger and stronger, but they have not been in contact with the major forces in the western universe, nor have they occupied any resources, so the major forces have not taken care of them."

"But through observation, the three clans in the eastern universe should be looking for something."

Han Yue explained.

Chapter 5047: Ren Wang’s painstaking efforts

"What are you looking for?"

Lu Ming whispered, revealing the color of thinking.

The three tribes of the Forbidden Land joined forces to come to the western universe. They must have been brought through the void. It took such a long time and untold hardships to come to the western universe. What are they looking for?

"The strange thing is that since they entered the Nine Elements Forbidden Land more than ten years ago, they have never left."

Han Yue continued.

"Nine Elements Forbidden Land? Is it also a forbidden land?"

Lu Ming asked involuntarily.

The five forbidden places in the west of the universe where the creatures are located, but there is no forbidden place of nine elements.

[Reading benefits] Give you a cash red envelope! Follow the vx public [Book Friends Base Camp] to receive it!

"Yes, the Nine Elements Forbidden Land is also a terrible forbidden land. During the period of the Primordial Continent, it was as famous as the Jiuyin Demon Ruins, the Extremely Evil Land, etc., and a terrible creature lived in it. However, in the Primordial Continent During that period, Wang Xuanyuan was beaten down."

Han Yue said.

"It was flattened by Wang Xuanyuan."

Lu Ming, Mulan and Huang Ling were all shocked.

"During the period of the Primordial Continent, there were actually many similar forbidden lands. There were terrible creatures inhabiting them. Some of these creatures lie dormant, but some often do things. Some terrible disasters in the history of the Primordial Continent may have come from these forbidden lands. The hands of creatures, so some peerless masters in the Primordial Continent have a lot of friction with these forbidden land creatures, and there are even peerless masters who directly smashed into the forbidden land and flattened the forbidden land."

"Legend, Ren Wang Xuanyuan, once flattened two forbidden areas, such things, Ren Wang Shengxi and the Queen of the Ages have done such things, otherwise, such forbidden areas, it is more than the present."

"The Nine Elements Forbidden Land is one of the two forbidden areas that were flattened by Wang Xuanyuan. However, these forbidden areas have amazing origins, profound backgrounds, and strengths beyond imagination. Especially the Nine Elements Forbidden Lands are among the major forbidden areas. In the middle, the strength is top level. Legend has it that after Wang Xuanyuan broke into the Nine Elements Forbidden Land, a shocking battle broke out. In that battle, Wang Xuanyuan was injured and his heart was pierced by a sharp sword, leaving a drop of blood. Turned into a vast ocean..."

Han Yue was very excited when talking about these allusions.

However, Lu Ming's brain made a thud, his inspiration flashed, and he caught something important.

"Ren Wang Xuanyuan smashed into the Nine Elements Forbidden Land. In the Nine Elements Forbidden Land, a shocking battle broke out. The Ren Wang was injured and his heart was pierced by a sharp sword, leaving behind a drop of blood..."

"The blood of the King of Humans, the three clans of the Forbidden Land are in the Forbidden Land of Nine Elements, and have not left for ten years. Is it for the blood of the King of Humans?"

"What do they want the blood of the King of Humans? Is it for the flesh of the King of Humans? By the way, the heart of the King of Humans."

Lu Ming's thoughts turned sharply, and finally suddenly thought of the King's Heart.

Could it be that the three clans of the Forbidden Land are looking for the human king's heart?

"By the way, besides the three tribes of the Forbidden Land, are there any other races?"

Lu Ming asked.

"It seems to be. I heard that someone took the shadow stone from a distance and recorded the appearance of those people. I will find a copy to show you..."

After Han Yue finished speaking, he left, but within half an hour, Han Yue returned.

By the way, he brought back a piece of shadow stone.

Motivated the shadow stone, a picture suddenly appeared in the void.

In the screen, a large group of figures appeared, with more than five hundred figures.

Sure enough, it is the three clans of the forbidden area.

Lu Ming could tell at a glance that there were indeed three types of forbidden places in the picture, and there were many familiar faces of Lu Ming, such as Yuan Si Yuan Yuan Wu Ji, Ghost Sha Wang Ming Sha Wang and others.

Of course, there are more raw faces, middle-aged people, and old people, but even through the shadow stone, you can feel the powerful aura of these people.

Obviously, these people are all in the original state.

The three clans in the Forbidden Area, the origins of the dispatches, are surprisingly large, which shows the importance they attach to this matter.

"Yeah immortal..."

Later, Lu Ming saw a familiar figure in the crowd.

The strongest ancestor of the Celestial Race, ye immortal!

"Sure enough, Ye Immortal is among them. This confirms my thoughts. It must be that Ye Immortal urged the three clans of the Forbidden Land to cooperate again. The purpose is to find the King's heart so that we don't have the King's body..."

When Lu Ming saw Ye Immortal, he understood.

All of this must be caused by the immortality of Yah, who has lived for a long time, has a secret mind, and is treacherous and cunning.

"They guess they have mastered a certain method to find out the location of the king's heart with the painstaking effort of the king. No, the heart of the king can't fall into their hands. I must get it..."

Lu Ming whispered, he had already guessed everything.

At this time, among the Nine Elements Forbidden Land, the three clans of the Forbidden Land, and Ye Immortal and others, stood on a mountain and watched.

In front, was a huge pit with an area of one million square kilometers. The pit was obviously dried up, and the bottom was blood-red, as if it had been soaked with blood.

"The original man, Wang Xuanyuan, what kind of cultivation, just a drop of blood, he smashed the Nine Elements Forbidden Land into a million-kilometer deep pit and destroyed a large area of primitive mountains. It is said that a sea of blood was formed, but the time has passed too much. For a long time, the blood dries up."

A source of Yuanguang clan exclaimed.

"Human Wang Xuanyuan, that exists at the pinnacle of the prehistoric continent. Even if you look at the many universes, he is also a pinnacle-level powerhouse. Naturally, it is not what I can imagine."

The other person also sighed.

"That kind of existence is not dead. We are about to succeed. It won't take much time to extract the drop of Ren Wang Xuanyuan's heart and blood, and use this heart and blood as a guide to find the King's heart."

A young man of the Yin Sha clan said coldly, with an arrogant expression.

This young man of the Yin Sha clan is a top enchanter of the clan, and he is not much older than the Ghost Sha King Had Sha King and others, but he is already at the beginning of the original source of cultivation. He is unruly and arrogant.

In the words, it seems that even the king of people does not pay attention to it.

On the side, Ye Immortal showed a hint of contempt.

This kind of person has never seen the power and horror of the King of Humans.

He has seen it before, if such a thing really meets the King of Man, he will be wiped out by blowing his breath.

The three clans of the forbidden area joined forces to form a large formation in the deep pit in front of them, and they were refining the blood of the king who penetrated it.

It has been going on for almost ten years, and it won't take long to succeed.

Of course, Renwang's heart and blood has stayed here for endless years. They can't extract a complete drop of heart and blood. They only need to extract a part of it.

The three clans in the forbidden area searched through ancient books to find this way.

Taking part of the human king's heart and blood as a guide, you can find the specific location of the human king's heart.

From a few months to a year, they will succeed.

.....

When Lu Ming knew about the Cangqing Divine Realm, he immediately decided to stop it.

He intends to leave immediately and go to the forbidden area of Nine Elements.

Chapter 5048: Want to fish in troubled waters

"Lu Ming, there are so many masters in the Three Clans of the Forbidden Land, you may be dangerous if you go there alone."

Han Yue said.

"I won't act rashly. I'm just going to check the situation first. There is another thing. I still need girl Han Yue's help. Can you help me find some people and spread news along the way..."

Lu Ming said.

Now that the early masters of the three families of the Forbidden Area have been dispatched so many, how could Lu Ming be so stupid, to work hard with the other party, it was an act of seeking death.

Lu Ming just planned to check the situation first, and ask Han Yue to find some people for him to spread news along the way.

After all, if they are too far apart, the sound transmission jade talisman cannot be transmitted. Some people must respond along the way, like a post station, one stop after another, so that the news can be spread quickly.

Lu Ming planned to hide and observe first. If he observed that the three clans of the Forbidden Land had indeed found the location of the King's Heart, he would explode the news.

The King of Human Heart believes that the major forces in the western universe will also be excited, and when the major forces are dispatched together, he will be able to fish in troubled waters.

Otherwise, with his strength alone, with Mulan, Phoenix Spirit, and Qiqiu at most, it would be impossible to capture the King's heart in front of the three forbidden tribes.

"This is easy..."

Han Yue fully agreed.

With Han Yue's influence in the Cangqing Divine Realm, it was very simple to help find some people to receive messages along the way.

Soon, everyone was found, and Lu Ming led them and set off immediately.

Mulan and Huang Ling were naturally uneasy. They wanted to go with Lu Ming, but Lu Ming sternly refused, leaving the two daughters to stay in the Cangqing Divine Realm and wait for the news.

Lu Ming swiftly headed towards the Jiuxing Forbidden Land, and at intervals along the way, one person would be left to receive the news. Within this distance, the sound transmission jade talisman could be transmitted.

Ten days later, Lu Ming was alone, approaching the Jiu Xing Forbidden Land.

The territory of the Nine Elements Forbidden Area is very large. Although the Yuanguang clan and other three forbidden areas have sent people to patrol the surrounding area, their number is limited and it is impossible to monitor the entire area. Lu Ming easily found the gap and rushed in. .

The Nine Elements Forbidden Land is a rundown, and the originally solid and immortal ground is full of cracks.

The cracks stretched forward, as if they were chopped out by a war sword.

Lu Ming speculated that most of this was left by Wang Xuanyuan's forbidden area.

Afterwards, Lu Ming ran the Demon King Emperor pattern, and a mysterious pattern appeared on his eyeballs. He was investigating whether there was a formation in the Nine Elements Forbidden Land.

In the other forbidden areas, there is a terrifying formation, and that formation is far beyond the source-level formation, and it is likely to involve the immortal realm, which is extremely terrifying.

Running the Demon King Monarch Pattern, a pattern suddenly appeared in the area in front of it.

It's an array pattern!

However, they are all incomplete.

There are both the earth and the void, and they are very severely mutilated. They are broken and not formed at all, and there is no threat at all.

"If this formation is intact, it will be extremely terrifying, but it is completely torn apart. Was it made by Wang Xuanyuan? The power of the human king is as terrifying as it is..."

Lu Ming sighed.

The power of the King of Humans is impossible to measure at all. I don't know how strong it is. If a forbidden ground is flat, it will be flat.

This kind of forbidden land, even in the period of the Great Continent, was a terrifying Jedi, the existence that made countless powerful people talk about it, and the background was extremely deep.

The power displayed in the major forbidden areas today is just the tip of the iceberg.

[Reading books to receive cash] Follow vx public. Public account [Book Friends Base Camp], reading books can also receive cash!

The main reason is that under the Great Tribulation of the Origin, none of the truly powerful forces in these forbidden areas can appear, otherwise, there is nothing to destroy the heavenly army or the heavenly human race.

In the vastly prosperous, master-like clouds, and the prehistoric continents of immortals, all can be called the forbidden land of terror, which is enough to imagine.

However, Lu Ming immediately thought of the human body.

According to legend, the King of Humanity was killed by the enemy, dividing his body into seven and sealing them in seven different places.

As strong as the king, he was killed without a whole body, how terrible his enemy was.

What kind of enemies did the original prehistoric continent encounter?

Lu Ming observed for a while and found that there was no danger, his figure flashed, and he walked toward the depths of the Nine Elements Forbidden Land.

There are not many people in the three tribes of the Forbidden Land, and it is impossible to monitor the vast Nine Elements Forbidden Land. In fact, Lu Ming came in without seeing a single figure.

However, there are many monitoring formations everywhere.

Obviously, it was placed by people from the three tribes of the Forbidden Area for monitoring.

However, Lu Ming now has the Monstrous Monarch pattern, and these monitoring formations can't hide in Lu Ming's eyes. Lu Ming easily avoided these formations and continued to penetrate into the Nine Elements Forbidden Land.

"Yeah, immortal, there are people from the three races of the Forbidden Land..."

Suddenly, Lu Ming saw a large number of figures, no less than five hundred.

Among them, there are Ye Immortal, King Ghost, King Hades, Yuan Siji and others.

Arrived!

Lu Ming converged his breath, his figure flickered, hidden in a dilapidated mountain nearby, hidden in a pile of rocks, carefully looking at it.

Similar to what that piece of Xiying Stone had seen, the three clans of the Forbidden Area really came to many masters, and those who stood there casually, the surrounding void was constantly rippling, which was squeezed by powerful forces.

There is no doubt that those are masters of the Origin Realm.

Relatively speaking, the existence of the original origin is easy to see, because the early existence of the origin is at the early stage of the origin, and the power of the origin is not so delicate to control, and there will be power leaks, which will cause the surrounding illusion. influences.

After the mid-primary period, there would be no such problem. Instead, the strength was reduced and returned to the basics.

Lu Ming glanced at it roughly, and the origin of the three clans in the Forbidden Land actually exceeded three hundred people.

Yes, more than three hundred origins, this is a terrible data.

This is the origin, the Heaven Extinguishing Army has accumulated sixty star years, and only forty-nine origins.

There are only a hundred and dozens of origins of the Celestial Race, masters.

The three clans of the forbidden area now randomly pulled out more than three hundred original existences, which shows how deep the background is.

In addition to the three races of the Forbidden Land, more than a dozen origins of the Celestial Race also came, standing next to Ye Immortal.

Further ahead, there is a huge deep pit, blood red, and it is covered with array patterns, intertwined into a huge array, which is fully operating.

Lu Ming guessed at once that the deep pit was probably where the blood dripped from the king's heart. Now the three tribes of the Forbidden Area are relying on the formation to refine the blood of the king's heart.

"It seems that it is still early. They must first extract the blood of the King of Humans, and then rely on the blood of the King of Humans to find the location of the heart of the King of Humans. I will send another message."

Lu Ming thought.

Lu Ming's plan was to follow in secret and wait for the people of the three clans of Ye Immortal and Forbidden Land to find the place where the king's heart was, and then he would poke the news out and let all the forces compete and fish in troubled waters.

Chapter 5049: I found the king’s heart

In a blink of an eye, half a year has passed.

The formation in the deep pit suddenly filled with a strong light.

"It's going to succeed!"

Among the three clans of the forbidden area, some people exclaimed, unable to hide their excitement.

The painstaking effort of the King of Humans is about to be refined.

The array gleamed and became more dazzling, blood-red blood tinged out from the deep pit and gathered in the air.

Endless vitality, constantly converging, condenses into one point.

The core of this point is the hard work of the king.

Suddenly, a horrible aura permeated from that point, as if a universe was weighing on everyone's hearts. People from the three tribes of the Forbidden Land, Ye Immortal and others, almost knelt down.

Even Lu Ming, who was far apart, felt a great deal of pressure.

terror!

This is the majesty of the king, just a drop of blood, and endless years have passed, it has penetrated into the depths of the earth, and it has dried up, and now it has been refined, there is such a strong pressure.

It is unimaginable how strong the pinnacle king is.

It is said that the power core of the human king's body is concentrated in the human king's heart. It seems that it is not just talking.

There is more and more blood flowing out of the deep pit, and the blood is constantly converging, and the pressure in the void is getting bigger and bigger.

The people of the three races of the forbidden area had to retreat and distance themselves from the King of Kings.

Lu Ming also backed silently.

After about half a day, in the deep pit, no new blood finally filled out.

In the void, a drop of blood the size of a fingertip appeared.

This is the painstaking effort of the king.

Of course, this cannot be the painstaking effort of a complete man.

Because the time has passed for too long, even the blood of the King of Humanity will dissipate part of it. Moreover, the strength of the people like the Immortal and the Forbidden Land cannot extract the complete blood of the King of Humanity.

It is estimated that this drop of human Wang’s blood is only one-tenth of that of a complete human.

However, the three tribes of the Forbidden Area are also ecstatic.

enough!

They only need a little guidance from the king's heart and soul, and they can find the heart of the king.

With the human king's heart, they are equivalent to having a huge amount of human king's heart and blood.

If the essence of the human king's heart can be extracted, it will be an unparalleled tonic, and it is more valuable than any magical medicine.

Even those who are detached must be jealous.

Hello everyone, our public account will find gold and coin red envelopes every day, and you can receive them as long as you pay attention. Please seize the opportunity for the last benefit at the end of the year. Public Account [Book Friends Base Camp]

"Set up the formation, put away this drop of Renwang's heart and soul."

A strong man from the Yuanguang clan gave the order.

Although the human king's heart and soul is only one-tenth of the full, and after a long time, the energy has dissipated a lot, it is still not accessible to them, and it must be collected in a special way.

To assist with formations.

At this moment, a sudden change occurred.

That drop of Renwang's blood in the sky suddenly burst into a terrifying energy wave, and then burst into pieces with a touch.

Ren Wang's painstaking effort actually exploded on its own.

However, after the blood of the king's heart exploded, it did not completely collapse, but with the blood of the king's heart as the core, countless bloodshots were differentiated.

The bloodshot strands, like a spider web, fell toward the ground and fell into the pit again.

On the ground, a line of blood appeared.

These blood lines, intertwined, formed a peculiar pattern, which looked like a formation.

Rumble!

Immediately afterwards, the ground vibrated violently.

The core of the vibration is in the center of the pit.

"what happened?"

"Why Renwang's blood, how did it turn into blood and fall to the ground again?"

"The formation we laid out has also disappeared!"

"Why did a huge earthquake suddenly occur on the ground, as if something was going to be born deep underground."

The creatures of the three races of the forbidden area uttered bursts of exclamation. This scene exceeded their expectations.

Even Ye Immortal had a gloomy face, and he didn't expect it to be like this.

Rumble!

The ground vibrated more and more fiercely, as if something huge was about to rush out from deep underground.

Could it be that the blood of the king's heart dripped here, penetrated into the depths of the earth, and what terrifying creatures were bred here?

Many people couldn't help but come up with such an idea.

Click!

Suddenly, the deep pit cracked open, and a gap was opened. As soon as this gap appeared, it quickly expanded.

The cracks quickly extended on both sides, seeming to tear the entire land apart.

But after a while, the crack did not continue to extend and stopped, but a huge crack appeared on the ground.

In this crack, a faint light of blood permeated out continuously.

The bloodshots on the ground unexpectedly gathered together again, gathered into a drop of blood, rushed into the crack, and disappeared.

"Could it be that the human king's heart is under this crack?"

Someone exclaimed.

Other people's eyes flickered, thinking it was very possible.

"It is very possible that this area was originally sealed, and we unintentionally opened the seal here when we were refining the blood of the king."

"The king of blood took the initiative to fly in, most of it was attracted by the heart of the king."

"It's really a good method. The most dangerous place is the safest place. Who would have thought that the human king's heart is sealed under his own blood."

The three clans of the Forbidden Land, as well as Ye Immortal and others speculated that the human king's heart was probably under this crack.

"Send someone in to investigate!"

In the end, the three clans of the forbidden area decided to send some people into the cracks to investigate.

In the cracks, I don't know the danger, maybe there is a big crisis, and those who enter must have the determination to die.

The three clans added up and sent a total of nine people, each of which had three people, led by a source, and the other two were the existence of the pinnacle of the gods.

"This is probably where the King of Human Heart is located."

Lu Ming also made a judgment.

He participated in several battles for the human body. Based on previous experience, he felt that the human body should have been sealed here.

Just when the three clans of the Forbidden Area sent people to explore the cracks, Lu Ming heard the news.

The news he sent was very simple. The King's Heart was in the Nine Elements Forbidden Land, allowing Han Yue, Mulan and others to find a way to spread the news to the major forces in the western universe.

Soon, the news reached Han Yue Mulan and the others.

Then, through their respective networks, they spread the news in an orderly manner.

First, it spread to the Cangqing Divine Realm at a hurricane-like speed, and then spread to the Nine Yin Demon Spider Clan, the Extremely Evil Clan, etc., at an even more astonishing speed. The six major forces in the western universe were all shocked.

The heart of Wang Xuanyuan was born!

That is the heart of the king, how valuable is it?

The Celestial Army or the Celestial Race cannot fully estimate the value of the human king's heart, but how can the forbidden creatures know?

Back then, Wang Xuanyuan was so powerful that he leveled the two forbidden lands alone, and dared not say anything when he killed all the forbidden lands.

The value of the heart left by these characters is simply against the sky.

Chapter 5050: The world sealed by the king’s heart

The six major forces in the western universe suddenly fryed the pot, and countless masters rushed towards the Jiu Xing Forbidden Land.

After Lu Ming heard the news, he continued to hide in secret and wait.

It didn't take long for the nine masters who entered the crack to investigate, all came out.

They were not in the slightest difference, and there were no injuries on their bodies. Obviously, there was no danger in the cracks.

Soon after these nine people came out, the masters of the Ye Immortal and Forbidden Land tribes launched their actions and rushed into the cracks. Of course, some masters were left guarding outside. If anything happens, you can notify the cracks in time. People in.

Just a few days after Ye Immortal and others entered the crack, many masters of the six major forces in the western universe arrived ahead of time.

Swish...

A large number of human figures appeared in this area.

"Damn, why are so many people here?"

"Has it been discovered?"

The expressions of those who stayed behind in the three clans of the forbidden area changed drastically.

"Everyone, Yuanguang, Yinsha, and Cangming are working here. Please leave."

A strong man of Yuanguang clan's original origin exuded a powerful breath and shouted loudly.

"It's ridiculous, the Nine Elements Forbidden Land, is it your tribe? Get out!"

"If it is blocked, I will send you on the road."

Some masters such as the Nine Yin Demon Spiders and the Extreme Evil Clan sneered coldly. They are also forbidden creatures. They are not afraid of the Yuanguang Clan, the Yin Sha Clan or the Cangming Clan.

Besides, they came from six major forces, and the other party only had three forces. Why should they be afraid?

"Everyone, give face, and see each other in the future."

A source of origin of the Cangming clan.

"You want to swallow the human king's heart, it's ridiculous, your territory is in the east universe, you run to the universe to the west of us, and you want to swallow our treasures, it's ridiculous."

A master of the human race coldly drank, directly exposing the human king's heart.

He did this, of course, with a purpose, the purpose is to provoke a struggle between the east and the west forbidden space in the universe.

In this way, it is beneficial and harmless to their human race.

Relatively speaking, the strength of these forbidden lands is too strong. There are five forbidden creatures in the western universe, and three forbidden creatures in the eastern universe, and their human race has only one blue **** realm. If these forbidden creatures work together, they Terran, the end is worrying.

Fortunately, these forbidden land creatures are also fighting endlessly with each other. If they can intensify the contradictions between these forbidden land, human race can have a chance to breathe.

Sure enough, the creatures in the forbidden areas of the western universe directly exploded.

Forbidden creatures such as the Jiuyin Demon Spider and the Extreme Evil Clan are inherently evil, acting arrogantly and domineeringly, for the sake of profit, and unscrupulous, at this time, how can they care about Yuanguang clan and so on.

"What are you doing with so much nonsense with them? Go straight in!"

"Yes, blockers, kill them."

The Nine Yin Demon Spider, some strong people in the extremely evil clan shouted, rushing to the left-behind people of the Yuanguang clan, the Yin Sha clan, and the Cangming clan.

At the same time, Tianyin Vine Clan, Black Sky Warriors, etc., also rushed towards the crack.

The number of people from the six major forces in the western universe is at least several thousand, and among them, no less than two hundred masters in the Origin Realm.

This is only the first that the six major forces rushed, and I don’t know how many people are rushing later.

The three clans of the forbidden land in the east universe, the people who stay behind, it is impossible to block so many masters here in the west universe. They saw so many masters rushing, knowing that they could not stop them, and roared unwillingly. They took the lead and rushed into the crack. in.

Even if they did it, they were just looking for death. They simply ran away, and then passed the news to those who had entered the crack before.

Swish...

Thousands of masters from the six major forces in the western universe also rushed into the cracks.

At this moment, Lu Ming also moved, turned into a flash of lightning, followed the crowd, and rushed into the crack.

The crack was straight down, I don't know how deep it was. Below, a light red blood continued to fill out. The more it went down, the wider the crack became. After a while, Lu Ming's eyes suddenly widened.

"Sure enough, there is a world under this crack."

Lu Ming whispered.

Under this crack, a continent was sealed, forming a world of its own.

This is very similar to the place where the human king's trunk was sealed.

The human king's torso was sealed in the halo world, which was a continent surrounded by halo.

The Halo World was initially sealed in the Qianqiu Battlefield.

When Halo World was born, it forcibly tore the main continent of Qianqiu Battlefield.

It is not surprising to see that the King of Man's heart is also sealed in a continent.

Perhaps the human body is too big, and only with such a seal can it be safe.

The person who sealed the flesh of the king also took great pains.

The world under the crack was very big, and Lu Ming's spiritual sense radiated out, and he found that he could not detect the edge.

The people who rushed in rushed in all directions. Whoever can find the King's heart first depends on whose luck.

Thousands of people quickly disappeared into this vast world.

Lu Ming also chose a direction at will and flew quickly, while his spiritual sense radiated out, staring at his surroundings, guarding against danger.

However, this world is completely different from the world where the human king's torso was sealed.

The halo world that seals the human king’s torso is full of vitality and inhabits a large number of wild beasts, and even many powerful primitive beasts.

Now Lu Ming has understood that the desolate beasts are similar to the demon races, and they exist in the prehistoric universe. Strictly speaking, they are those demon tribes with uncivilized intelligence and powerful power, but the demon races with low intelligence are collectively called desolate beasts.

But the continent in front of me, although not deadly silent, there are no creatures.

Even if you encounter a few creatures occasionally, they are just ordinary beasts with low strength.

Lu Ming flew for a long time, but he didn't find any powerful beasts.

Suddenly, Lu Ming, who was flying, stopped abruptly, because just now, he felt a terrible crisis.

There are powerful creatures lurking in the dark, holding strong hostility towards him.

"Who?"

Lu Ming scanned all directions and let out a cold cry.

"Spiritual sense is quite sharp..."

With a sneer, waves appeared in the void, and then a figure appeared out of thin air.

This was an old man with a gorgeous purple robe, snow-white hair, and meticulous combing, but his eyes were full of murderous intent when he looked at Lu Ming.

Terran!

This person is a human race, not a forbidden creature.

Moreover, he is still a strong man in the original realm.

"Liu Weiyang and Pang Xiao, who are you?"

Lu Ming asked.

The people of the Cangqing Divine Realm wanted to kill him only by the relatives of Liu Weiyang and Pang Xiao. As for the others, Lu Ming asked himself that he had not offended him, and there was no reason to have such a strong murderous intent against him.
