

D Emperor 5081

Chapter 5081: Crooked Jujube

Lu Ming pondered for a moment, and agreed to let Mulan and Huang Ling follow.

The main thing is that he has full confidence to ensure that the second daughter is okay, otherwise, he will never let the second daughter follow.

The three rushed towards an exit.

"It's Lu Ming!"

"Lu Ming has come out, it seems that he finally can't sit still, he's going out!"

"It's still a bit conscience."

"I have a conscience, why didn't he come out early, causing my brother to die tragically, because he was greedy for life and fear of death."

Lu Ming came out, causing a wave of fluctuations in the Cangqing Divine Realm.

Many people rushed directly to Lu Ming.

"Brother Lu, you don't have to go out, my Cangqing Divine Realm can protect you!"

A young man with a big beard is Fu Yuan with the blood of Sheng Xiren Wang.

"Yes, several ancestors have already spoken. If you want to be considerate, you can stay here with peace of mind. Forbidden Land Eight Clan cannot enter."

Another peerless Tianjiao, Zao Wuji Dao who broke the extreme three times.

"If you want to protect him, you must sacrifice others. Hundreds of people have been beheaded before, and now there are hundreds of people at stake. If Lu Ming has a conscience, he will go out and surrender himself."

Some people said coldly, hoping that Lu Ming could take the initiative to go out.

Lu Ming glanced at these people casually, and didn't say much.

Most of these people have relatives and friends outside, and it is inevitable to worry about them. They are all selfish.

"Brother Fu, Brother Zhao, thank you for your kindness, but Lu Ming doesn't want to hurt others. I will solve my own problems by myself."

Lu Ming clasped his fists towards Fu Yuan and Zao Wou-Ki, taking Huang Ling and Mulan, they were about to move on.

"Wait!"

However, a few people blocked Lu Ming's path.

There are a total of seven people, of which five are masters of the Origin Realm, some are elderly, and some are middle-aged.

There are also two young men.

"Lu Ming, you want to go out, but girl Mulan, you can't go out with you. You have to know that she is a disciple of a big man. If she has something, we can't explain it."

An old man said.

Lu Ming frowned slightly. Although the other party meant that although it was for Mulan's sake and did not want Mulan to have an accident, his tone was very bad, and he said to Lu Ming in a commanding tone.

"Where I am going by myself, no one can stop it!"

Mulan said.

"Miss Mulan, we are doing this for your own good. Lu Ming, a person who has some strength, is indifferent and overpowering. If you follow him, you will only harm yourself. It would be better to choose a partner early."

A young man.

"Yes, there is this girl who stayed with him, there is no need to be buried with Lu Ming."

Another young man followed the Tao, looking at Huang Ling, full of enthusiasm.

Lu Ming understood that these people were for Mulan and Huang Ling, obviously they had ulterior motives, and for this reason, they prevented the two daughters from going with Lu Ming.

"roll!"

Having figured this out, Lu Ming didn't have a good face, and directly sent a word of 'roll'.

The faces of a few people in the original realm were ugly.

They are seniors anyway, it is unreasonable that Lu Ming actually told them to get rid of.

"Lu Ming, do you know how to respect the teacher and respect the teachings? With some talents, you will run wild. No wonder you are offending people everywhere..."

The old man started to teach with a straight face.

"If you don't roll, I will let you roll by yourself!"

Lu Ming interrupted the opponent directly, the God of War Spear appeared, and a powerful aura burst out, pressing towards the opponent.

At the same time, the God of War spear swept out.

"you..."

Everyone was horrified and shot with all their strength, but their statures retreated again and again.

"You...you are really hopeless..."

The old man was furious.

"kill!"

Lu Ming suddenly yelled, his body swelled, using the Origin Technique, and the God of War Spear was pressed down again.

boom!

The violent breath erupted, and the opponent's five origins retreated violently, and four of them vomited blood.

The old man had the strongest combat power. He had understood the origin technique, but he couldn't resist it. He even retreated 10,000 meters and his face was pale.

"A word of nonsense will kill them all."

Lu Ming's tone was cold and murderous appeared.

The opponent's body was cold, like falling into an ice cellar. Although his heart was so angry, he did not dare to say a word.

When I personally fought Lu Ming, I realized how terrifying Lu Ming's combat power was, and it made them terrified.

They are all origins, but facing a god, there is a feeling of being killed by a spike, which is simply incredible.

"Crazy, Lu Ming is already crazy. He knows that he will undoubtedly die when he goes out. He acts even more madly. Let's not offend him now. He won't live long anyway."

"It's just a pity that there are two stunning women, if they match Liu San and Liu Da, how good they would be."

Several sources secretly communicated with each other, Liu San and Liu Da, naturally referring to the two young people.

After repelling several origins, Lu Ming grabbed them with a big hand, and the two young men were caught in his hands.

Ahhh...

The two young men, Liu Da and Liu San, yelled in fear. In front of Lu Ming, they were like two little chickens, with no resistance.

"Just the two of you crooked melons and dates. Toads want to eat swan meat. Go back and look in the mirror."

Lu Ming sneered, and with a quick throw, Liu Da Liu San hit the ground, smashed the ground out of two big holes, and vomited blood out of his mouth.

After that, without looking back, Lu Ming took Mulan and Huang Ling and walked outside the exit.

"Damn it, damn..."

Liu Da screamed, but he was very depressed. He dared not yell out, because he was afraid of being heard by Lu Ming.

"He is dying anyway, and in the hands of the Eight Clan of Forbidden Land, he will definitely die miserably, so you don't have to worry about him."

Liu Sandao.

"Unfortunately, Lu Ming must have a lot of good things on him. Now it's cheaper to ban the Eight Clan. This kid, before he died, should leave those good things behind."

Liu Dadao.

In fact, Cangqing Divine Realm and Liu Da Liu San two people think like this, not a few.

He thought that Lu Ming was dying anyway, so he should leave the treasures on him and make contributions to others.

However, seeing the fate of Liu Da Liu San and others, no one dared to stand up and speak.

Lu Ming is not a soft persimmon. Although he only has the cultivation base of the Divine Master Realm, his combat power is too strong. In the early existence of the origin, there are not many who can stabilize Lu Ming.

If Lu Ming goes crazy and desperately, no one knows what will happen.

Moreover, the ancestors of the Cangqing Divine Realm meant to protect Lu Ming, and those with ulterior motives did not dare to go too far.

Soon, Lu Ming left from an exit and headed out.

"Lu Ming, come out!"

The people of the eight races in the Forbidden Land immediately saw Lu Ming, and their eyes glowed coldly, wishing to penetrate Lu Ming.

"Lu Ming, unexpectedly came out alone with two women, something is wrong..."

Behind the crowd, Ye Immortal's expression changed involuntarily after seeing Lu Ming and Mulan Phoenix Spirit.

He knows Lu Ming very well.

Based on his understanding of Lu Ming, Lu Ming is not such a person who would easily come out to die, let alone bring two women with him.

Chapter 5082: Threats with drugs

Ye Immortal could tell at a glance that Mulan and Huang Ling were Lu Ming's confidantes.

Even if Lu Ming came out to die by himself, he couldn't bring two confidantes with him.

"Could it be that Lu Ming is sure, or there is a big killer on his body, he had been silent before, but now he suddenly came out, is it what he was preparing before?"

Ye Immortal's thoughts turned sharply, and there was a chill in his heart, and he had a bad premonition.

He could live for so many years, and even survived the battle of destruction of the prehistoric continent in the last era, relying on caution and a keen intuition for crisis.

"go!"

Ye Immortal didn't notify anyone, and walked away quietly, hiding on a broken continent in the distance, watching from afar.

Lu Ming and the three people quickly came to the front of the eight clans in the forbidden area, facing the hundreds of origins of the eight clans far away.

"Now, let the people go."

Lu Ming spoke.

In the Cangqing Divine Realm, at least thousands of people were caught here, controlled by the eight clans of the forbidden area, and hundreds of people were kneeling in the void in front of them.

In half a day, these people will be killed.

At this moment, seeing Lu Ming coming out, these people breathed a sigh of relief.

When Lu Ming came out, they would be able to survive.

"Lu Ming, finally came out, but I told you that you are not qualified to make terms with us."

Yuan Sanji sneered.

"who are you?"

Lu Ming glanced at Yuan Sanji lightly.

"Yuan Sanji!"

Yuan Sanji answered.

"It turned out to be those trash brothers, I wrote it down~"

Lu Ming laughed mockingly. The waste he was talking about obviously refers to Yuansi Yuanwuji and others.

Yuansiji Yuanwuji and others were also here, furious upon hearing this.

"Lu Ming, you are looking for death!"

Yuan Si was extremely angry.

"Lu Ming, don't forget, these people in the Cangqing Divine Realm are still in our hands. You don't want their lives anymore?"

Yuan Sanji sneered, his beams of hair flying, like a divine sword, as if it would be stab at any time, killing people.

"I have thirteen top source-level magic medicines here."

【Collect free books】 Follow v.x 【Book Friends Base Camp】 Recommend your favorite novels and receive cash red envelopes!

Lu Ming waved his hand, and in the void, a strain of magical medicine emerged. A total of thirteen plants were top-level source-level magical medicines, which were confined by Lu Ming with the power of the forbidden origin.

"what?"

Around, everyone's eyes were straight, staring at the thirteen top source-level magical medicines in front of Lu Ming, almost drooling.

Thirteen top source-level magical medicines, these are thirteen.

Lu Ming actually had thirteen top-level source-level magic drugs on his body, which was terrifying.

The top source-level magical medicine is so precious. There are not many forbidden places. Lu Ming has so many in his body.

The people of the Eight Great Forbidden Lands have fiery eyes, and they can't wait to take it as their own.

"Lu Ming, bring the magic medicine here."

Yuan three drink greatly.

"Let people go, if you don't let them go, I will destroy these miraculous medicines. Don't even think of getting them."

Lu Ming said coldly.

He wrapped thirteen magical medicines with the power of the taboo origin, and as long as his mind moved, he could destroy these magical medicines.

Yuan Sanji and others changed their expressions.

In their opinion, the treasures on Lu Ming's body belonged to them, and they absolutely couldn't be destroyed by Lu Ming.

As for the lives of those people in the Cangqing Divine Realm, in their eyes, it was nothing.

However, people can't let them go so easily. After everyone let them go, Lu Ming knew that he was bound to die. They went crazy and ruined the magical medicine. Wouldn't they be at a loss?

"Lu Ming, you give us the magic medicine first, and we will release them immediately."

Yuan three drink greatly.

"impossible!"

Lu Ming refused.

"you..."

Yuan Sanji's face was gloomy, and he couldn't wait to slap Lu Ming to death. He was really scrupulous about the top source-level magical medicine in Lu Ming's hands.

"Well, you give us half first, we let the people go, and you give the remaining half, how about?"

The uncle of Mosha from the extremely evil clan said.

"can!"

Immediately, Lu Ming waved his hand, and six of the top source-level magical medicines flew towards Yuan Sanji.

Yuan San was extremely happy, the beam of hair swept out, and six top source-level magical medicines were about to be rolled.

But immediately there were seven or eight figures, rushing towards Yuan Sanji.

They are all masters among other forbidden creatures.

These people, how could Yuan Sanji get the magic medicine, they all want to get it.

Boom!

These people immediately fought together, and in an instant, they fought more than ten moves.

"Everyone, now is not fighting each other. When we are fighting for treasures, when we kill Lu Ming, how about the treasures on his body, how will the eight clans of ours divide equally?"

The uncle of Mosha yelled.

With a bang, everyone in the melee separated, and you could see that the six magical medicines still fell into Yuan Sanji's hands.

After all, the magical medicine flew towards Yuan Sanji, and Yuan Sanji was the first to make a move, taking the lead.

But he also paid a lot of money. He was hit by someone, blood shed from the corner of his mouth, and the injury was not light.

Everyone's eyes fell on Yuan Sanji, making him feel a strong pressure.

Yuan Sanji was extremely upset, but a smile squeezed out on his face, and said, "Yes, these magic medicines, I will keep them first. After killing Lu Ming and getting the treasures on his body, we will share them equally.

"Okay, that's it."

"can!"

People of other races nodded.

They are not afraid of Yuan Sanji going back.

Here, there are eight forbidden places. If Yuan Sanji dares to repent, and the other seven clans attack them together, the people of Yuanguang clan here will die.

Yuan Sanji cautiously temporarily put the six top source-level magical medicines into the storage ring bag.

"Now, let them go!"

Lu Ming said, in his heart, it was quite a pity.

He sent six top-level source-level magical medicines to Yuan Sanji, and he also meant to rely on treasures to let all races fight each other and kill each other. Unfortunately, these people are old fried dough sticks and are not fooled.

But it's okay, after someone is rescued...

In the depths of Lu Ming's eyes, a ray of murderous intent flashed through, but it was a pity that no one saw the Eight Clan in the Forbidden Land.

"Release!"

"Release!"

Suddenly, the strong in each clan gave orders separately.

Soon, thousands of people in the Cangqing Divine Realm were free, and they flew towards the Cangqing Divine Realm one after another, and entered the Cangqing Divine Realm from the entrance of the Cangqing Divine Realm.

They all breathed a sigh of relief, they were safe.

Of course, people have different feelings. Some people think that Lu Ming gave up and saved others, and they are grateful to Lu Ming.

But some people think that Lu Ming should save them, because it was Lu Ming who caused them...

"Okay, now that everyone has released it, hand over the magic medicine on your body. Also, if there are other magic medicines in your storage ring, it is best to hand the storage ring to us together."

Yuan Sanji Road.

"Senior Sister, Huang Ling, stand back!"

Lu Ming ignored Yuan Sanji and whispered to Huang Ling and Mulan.

"Junior Brother, be careful!"

"Lu Ming, be careful!"

Mulan and Huang Ling urged that although they knew Lu Ming was sure, they couldn't help but worry.

"rest assured!"

Lu Ming smiled, and the second girl backed away.

But the Eight Clan of the Forbidden Land, as well as the people of Cangqing Divine Realm, were a little confused.

Lu Ming, what are you going to do?

Chapter 5083: Three kills with one sword

boom!

Lu Ming stepped forward, the power of the forbidden origin, erupting like a volcano, and the violent breath, rushing forward like a tide.

At the same time, the remaining seven top-level source-level magical medicines disappeared without a trace, and were collected by Lu Ming into the prey.

The masters of the Eight Clan of the Forbidden Area narrowed their eyes slightly, revealing a cold light.

Lu Ming's attitude is obvious, how can they not know what Lu Ming means?

This is unwilling to compromise and is going to die with them.

However, there are hundreds of strong people in the original realm here. What and why did Lu Ming smash them?

It's a maniac arm as a car, just struggling.

Some people in the Cangqing Divine Realm, such as Han Yue, Fu Yuan, etc., showed sadness in their eyes.

In their opinion, Lu Ming knew he would die, but he did not want to die in humiliation, but to fight to death.

They want to save, but unfortunately they don't have that strength.

There was a tragic atmosphere in the air.

"Dying struggling, then let the old man send you on the road."

Mosha's uncle's eyes were extremely cold.

He promised Mosha to take Lu Ming's head back to Mosha.

Huh!

Mosha's clan uncle made a move, and one move was his ultimate move, the extremely evil hand of Origin Skill.

A big grey hand, as big as a star, grabbed Lu Ming, extremely terrifying, and the energy of the void was in chaos.

There is no doubt that the uncle of Mosha is extremely powerful. In the early days of the origin, he almost stood at the peak, not weaker than the Yuan Sanji.

Otherwise, facing Lu Ming who has broken the extreme five times, he will not be so confident.

Unfortunately, he met Lu Ming.

In Lu Ming's hand, a broken sword suddenly appeared.

The power of the taboo origin is input, the formation at the hilt is activated, a ray of energy overflows, the king breaks the sword, the sword light soars, and a sword light cuts through the void of the universe.

puff!

The palm of the Mosha Clan's uncle was instantly split, blood splattered all over the space.

what!

Uncle Mosha screamed, his voice was full of panic, and his figure retreated violently.

But it was too late.

The sword light was too fast. It was just a flash. It was cut on the uncle of the Mosha clan. The source-level battle armor on the uncle of the Mosha clan was broken like tofu. At the same time, there is also his roots. Disintegrated in an instant.

Mosha's clan uncle's body was divided into two, floating in the void, no longer alive.

what?

This scene, beyond everyone's expectations, was not only a person from the Cangqing Divine Realm, but also a person from the Eight Clans of the Forbidden Land, and his eyes suddenly rolled round.

They are all dumbfounded, this scene is really illusory.

The uncle of the Mosha tribe who had the top combat power in the early days of the origin was killed by Lu Ming when he shot. This situation was completely reversed from their estimation.

At the next moment, the people of the eight races of the Forbidden Land were terrified, their spine chills, and they could not help taking two steps back.

"Receive my top source-level magic medicine, next, it's your turn!"

Lu Ming stared at Yuan Sanji with cold eyes.

After Lu Ming's gaze was swept away, Yuan Sanji only felt a chill, rushing from the tail vertebrae to the sky.

"The blow he had just now must have been sent by some kind of secret treasure, it can't last, let's kill him together!"

Yuan San greatly drank, and took the lead in the trouble. Thousands of beams of hair stabbed towards Lu Ming like a sharp sword.

Moreover, he used the martial arts fairy light, thousands of beams of hair, all covered by a layer of martial arts fairy light, the power is extremely strong.

At the same time, there were more than 50 origins of the Light Clan at the scene, and they also shot together.

They each delivered the strongest blows, and the sky was full of light beams, like a net from the sky and the earth, covering the land.

More than 50 Yuanyuan shot together, this kind of offensive is too horrible, even if it is a master like Yuan Sanji, it will be beaten into scum all at once.

However, Lu Ming was very calm and did not evade. Instead, he used the Origin Spell, his body turned three feet high, and a pair of wings appeared behind him.

Then, the broken sword in his hand slashed out again.

The sky-shaking sword light erupted, extremely brilliant, illuminating the pitch-black universe.

The beam of light that resembled a net of heaven and earth was divided into two by the sword light. Then, the wings behind Lu Ming flashed, and his figure was like a lightning bolt, rushing towards Yuan Sanji.

Yuan Sanji and others were dumbfounded.

More than fifty strong original sources attacked together, and it was actually broken by Lu Ming, which was too shocking.

"not good!"

Yuan Sanji reacted in an instant, and his fear instantly overwhelmed him. His figure violently retreated. When he violently retreated, he also grabbed the other two Yuanguang clan in the original realm on the side and pushed towards Lu Ming.

Yuan Sanji's combat power was already strong, but the two of them did not expect Yuan Sanji to use this trick. They were completely unprepared and were directly pushed out by Yuan Sanji.

"Yuan Sanji..."

"Shameless!"

The origins of the two Yuanguang tribes let out a heartbreaking roar, and under the jealousy and fear, they could only burst out to resist.

But all is in vain.

The sword light flashed, their attacks, their defenses, and even the source-level magic weapon armor that covered their bodies were all divided into two.

Moreover, after Jianguang split the two men, he did not stop at all, and continued to slash towards Yuan Sanji.

The Yuan Sanji set exudes a dazzling light, and the battle armor he wore was a top source-level battle armor, which he urged to the extreme.

But the sword light flashed, and with a pop, a blood stain appeared on the center of Yuan Sanji's eyebrows, and then the blood stain grew larger and larger and extended downward.

The next moment, blood and light splashed all over, Yuan Sanji's body split into two.

His eyes were round, full of unwillingness and disbelief.

Yes, the origin and soul of the Yuan Sanji have collapsed and fell on the spot.

Three kills with one sword!

"It's so powerful."

Lu Ming himself had to sigh that the power of this man's King Broken Sword was really terrifying. Even the top source-level battle armor could not stop it and was easily cut open.

This was just a weak energy at the hilt of the Renwang Broken Sword. The most terrifying energy in the depths of the sword body could not be controlled by Lu Ming at all. If it burst out, I don't know how strong it is.

Far away, on an abandoned continent, Ye Immortal saw the whole journey in his eyes.

Even with the concentration that he had lived for countless years, he couldn't help shaking at this moment.

Incomprehension, fear, and fear filled his heart.

He was really scared. If he hadn't had any more thoughts before and retreated secretly, I'm afraid Lu Ming would be the first to kill him.

With his strength, it is absolutely unstoppable, no doubt he will die.

"It's that broken sword, everything is because of that broken sword, that broken sword, what on earth is it coming from, and why is it so terrifying?"

Ye Immortal's gaze fell on the broken sword in Lu Ming's hand, with fear and greed in his eyes.

He didn't know Ren Wang Duanjian.

Not only him, but no one else can recognize it.

The only person who had seen Renwang Broken Sword was Ge Qian, who was already dead.

Later, even though Xuanyuanyi fought with Renwang Broken Sword and Dique, their speed was too fast, and in the depths of the cosmos, the sky was full of vigor and glow, and the others couldn't see the broken sword in Xuanyuanyi's hands at all.

Chapter 5084: Horrified

Later, Xuanyuanyi gave the King Broken Sword to Lu Ming, faster, directly shattering the void and flying into Lu Ming's sea of knowledge. Even Lu Ming himself did not react, let alone other people.

All, no one knows, this is Renwang Broken Sword.

But they all know that the broken sword in Lu Ming's hand is incredible.

"I have to leave first, or if Lu Ming finds out, I will definitely die."

Ye Immortal thought about it, and then he hid it deeper, intending to find a chance to slip away completely.

Lu Ming killed three people with a sword. This scene was more shocking and shocking than before Lu Ming beheaded the Mosha uncle.

Just now, more than fifty Yuanguang clan members besieged and killed Lu Ming, but Lu Ming broke through with a sword, beheading the three masters, and the impact was too great.

Many people sucked in cold air, chilling all over.

"kill!"

Lu Ming shouted, without stopping, another sword slashed out, the sword light soared, and it slashed towards the surrounding Yuanguang clan origin.

Puff...

This time, five original sources were directly killed by Jianguang.

The sword light inspired by the Broken Sword of the King of Humans is too terrifying. Killing the existence of these early origins is like killing a chicken.

"Flee!"

The surrounding area was the origin of the Yuanguang clan. At this time, he was so frightened, one shouted, and all of them scattered in a rush, fleeing in all directions.

"Don't be afraid, he relies on the broken sword, but this kind of big killer is extremely laborious to control, and he can't hold on to a few tricks."

Someone from the Evil Race screamed.

"Yes, if there is a combined attack, set up a combined attack to kill him!"

A source of the Nine Yin Devil Spider also roared.

Except for the origin of the Yuanguang clan, the powerhouses of other races did not retreat, but instead slammed towards Lu.

They have hundreds of origins, and they also have a joint attack formation.

This is not the combined attack of the Divine Master Realm, but the combined attack of the Origin Realm.

The original source realm's combined attack formation method is the same as the Divine Master Realm's combined attack formation method. The principle is the same, and it also needs to refine the combined attack array carrier.

However, the carrier of the combined attack formation method of the Origin Realm would be many times more difficult to refine by the Divine Master Realm, and the required materials would be many times more precious.

Even in the major forbidden lands, there are not many combined attack formations in the Origin Realm.

"Arrangement!"

There is no doubt that the major forbidden areas have the combined attack formation method of the Origin Realm, and they have begun to deploy.

However, Lu Ming discovered that the combination of the three players was mostly.

This is obviously different from the Divine Master Realm's combined attack formation. The Divine Master Realm's combined attack formation method is at least a five-person combined attack formation. It should be a three-person combined attack formation, and its power is too weak.

But the original environment is different.

For one thing, it is extremely difficult to refine the carrier of the combined attack formation method of the Origin Realm. The more people deploy the formation, the more difficult it is to refine it.

There is another, the Origin Realm, even if it is just three people, the power will increase a lot, not just as simple as three times.

Among the various races, there are at least ten combined attack formations, but the largest number is the five combined attack formations, with only two.

In each forbidden area, there are naturally more people's original joint attack formations, but they have not brought them.

Originally, it was just to deal with a Lu Ming. They had enough of them to be dispatched. I thought it was more than enough, so who would bring so many joint strikes?

Experts of all races surrounded Lu Ming in a fan shape. The long-range attack had already blasted towards Lu Ming before the people arrived.

"Then kill it."

The cold light flashed in Lu Ming's eyes.

Forbidden Land Eight Clan, it seems that he will not let him go. Since he wants his life, then be prepared to be killed by him and blood flowed into rivers.

Hum!

As if feeling Lu Ming's will, the king's broken sword buzzed, and the sword light skyrocketed.

From a distance, Lu Ming seemed to be holding not a broken sword, but a divine sword with dazzling light, intact.

Lu Ming swung his sword and broke all the long-range attacks against him. Then the wings on his back stirred, and his body rushed out like lightning.

The first one to bear the brunt is a trio of extremely evil tribes.

The origins of the three extremely evil tribes arranged a combined attack and turned into an extremely evil blade, slashing towards Lu Ming.

when!

Lu Ming swung his sword and collided with Extreme Evil Blade.

There was a shocking roar and the crazy vibration of the Evil Blade, you could clearly see that there were cracks on the Evil Blade, and then it exploded with a touch.

After the three set up the formation, blood spurted from their mouths and retreated violently. It was obvious that they were hit hard and wanted to retreat, but it was too late.

Lu Ming used the Origin Technique, so fast, he caught up with them in a flash, the sword light flashed, and the three of them were beheaded.

Killing the three great masters of the extreme evil clan, Lu Ming kept his stature, and continued to charge forward. Jianguang kept cutting out, screaming at each other ups and downs.

In an instant, more than ten original sources of the extremely evil tribe were killed.

The origins of the extreme evil races were all shattered and dispersed in a rush.

Then, Lu Ming rushed to the Jiuyin Demon Spider again, defeating a combined attack formation, killing the three of them in the formation.

Of course, Lu Ming was also recruited in this process.

Renwang Broken Sword, although its power is unmatched, it is only a strong offensive power, and it will not provide Lu Ming with faster speed and stronger defense.

There were too many people from the Eight Clan in the Forbidden Area, and hundreds of people attacked together.

Although Lu Ming can wield the King Broken Sword and split these attacks, there will always be something that is missed. Lu Ming was hit continuously and staggered. Even with the top-level source-level armor body, there is a layer of thin-film body that is useless. , He was still injured, bleeding from the corners of his mouth.

"kill!"

Lu Ming roared like a wounded beast, and the offensive became more violent.

Puff!

It's like a tiger entering a flock of sheep. Anyone who is stared at can't escape. They are all killed and fall on the spot.

Although the injuries were getting more and more serious, in just a few minutes, more than fifty origins died in Lu Ming's hands.

The masters of all races were terrified when they were killed. Seeing where Lu Ming rushed, the people over there quickly backed away.

"Don't be afraid, he is injured. Although his broken sword is powerful, it is only a strong offensive power. Let us spread out, don't get together, keep a distance from each other, attack from a long distance, and you can definitely kill him!"

An old man of the Yin Sha clan shouted.

"Then kill you first!"

Lu Ming stared at the old man, his wings stirred, and rushed towards the old man.

The old man of the Yin Sha clan was horrified and turned around to flee, but Lu Ming's speed was so fast, under full rotation, above the old man of the Yin Sha clan, the distance between the two sides was quickly shortening.

"Help, help me..."

The old man of the Yin Sha clan roared in horror, and tears were almost streaming out.

He regretted why he had just turned his head and shouted, which attracted Lu Ming.

"bombardment!"

Attacks continued to blast towards Lu Ming from all directions, and Lu Ming flickered, avoiding these attacks and slashing out a sword at the same time.

This Yin Sha clan old man was killed directly without any accident.

Chapter 5085: Great gains after the war

"kill!"

After Lu Ming killed the Yin Sha clan old man, his wings stirred, his body suddenly collapsed, and he killed in another direction.

Puff!

Blood splattered, and two powerful masters were smashed and killed, and the blood splattered into the void.

However, Lu Ming himself was hit by a slash. He was hit by a knife, almost breaking his body armor, breaking his defensive film, and splitting his body.

The person who shot is undoubtedly a top expert, at the same level as Yuan Sanji.

Moreover, the sword used by this person was a top source-level magic weapon. Under the urging of the source realm, it was so powerful that it would not work even if Lu Ming had a top source-level battle armor, and it would be broken.

Although it was finally blocked, there was still a terrible sword energy invading, cutting Lu Ming's body, and Lu Ming couldn't help but cough up blood.

"Shooting together, Lu Ming's injury worsened, and it won't last long."

Someone yelled at the edge.

"dead!"

Lu Ming screamed, black hair flying, murderous intent, like a **** of murder, with a sword in his backhand.

The master who slashed Lu Ming was horrified, his figure retreated violently, and he dared not stun the front.

However, how could Lu Ming let the opponent get out, his wings stirred, faster than lightning, rushed to the opponent, quickly approached, and then swung his sword, the sword light flashed, and the head flew up.

Then, this person's body and source were also shattered by the sword light, and his body and spirit were destroyed.

A top master fell.

After beheading this person, Lu Ming glanced with murderous eyes, and then rushed in one direction towards several Cangming people.

Because just now, it was these people who roared that Lu Ming was injured, and they shot together.

After Lu Ming used the Origin Art, he condensed the pair of wings, the speed was too fast, few people could compare it in the early days of Origin.

The Yuanguang clan and Yinsha clan are also extremely fast, but among the people of the early roots, there is no one that can compare with Lu Ming.

"not good..."

"Help!"

Seeing Lu Ming rushing forward, these Cangming masters roared in horror and fled frantically, but it was useless. Lu Ming killed them and slashed with his sword. Several Cangming tribes were killed.

Of course, during this process, hundreds of attacks attacked Lu Ming, covering almost all directions. No matter how fast Lu Ming was, he was still hit.

All of these existed in the Origin Realm, and the origin of the forbidden land, each of them possessed Origin Level God Weapon, that is to say, any one could pose a fatal threat to Lu Ming.

As long as he is hit, Lu Ming's injuries will get worse.

And some of them are even proficient in soul attacks, such as the Black Sky Warrior and the Yin Sha clan.

If I changed to another person, I would have been unable to hold on for a long time and would be seriously injured and dying.

However, Lu Ming's vitality is extremely tenacious, and his soul is scattered among the cells of his body, attacking the soul, which has little effect on him.

He kept running the power of the taboo origin, his whole body cells glowing, his injuries were being repaired quickly, and his combat power had not weakened.

Lu Ming howled wildly, like a wounded beast, and like a **** of murder, continuing to kill the masters of the eight races in the Forbidden Land.

As long as anyone attacked him, he would stare at who would kill.

After a while, there were more than a dozen origins that died in Lu Ming's hands.

The people of the eight races in the forbidden area are finally chilled.

Lu Ming is like an immortal **** of war, he can't kill him no matter how he kills, and as long as they are stared at by Lu Ming, they will definitely die.

No one dared to shout, for fear of attracting Lu Ming's attention.

He didn't even dare to take action, because once he hit Lu Ming, Lu Ming would chase and kill him frantically.

How to fight like this?

Run away!

I don't know who screamed, the remaining masters of the Forbidden Land Eight Clan finally couldn't hold on, and scattered, fled in all directions, rushing in all directions.

However, Lu Ming didn't want to stop there. He continued to chase and kill the masters of the eight clans in the Forbidden Land with his sword.

Anyway, he has already killed so many people. It is no longer possible to ease his relationship with the Eight Clan of the Forbidden Land. It is already immortal, so there is no need to be merciful.

In addition, he felt that the energy at the hilt of Renwang's Broken Sword was about to run out.

Yes it is!

There was a formation on the hilt of Renwang Broken Sword, which had accumulated a lot of energy, but after Lu Ming's continuous use, it was almost exhausted, and there was not much left.

Lu Ming even wanted to take this opportunity to kill him.

Lu Ming increased his speed to the extreme, chasing and killing the masters of the Eight Clan in the Forbidden Land.

Moreover, he paid special attention to the three tribes in the east, the extreme evil tribe and the Nine Yin Demon Spiders, and was the first to hunt down these five tribes.

There was a scream, and the strong were constantly killed by Lu Ming, but no one dared to save them. Everyone was overwhelmed and fled frantically.

The several exits of Cangqing Divine Realm were silent, and everyone was petrified.

This scene is too mythical, everyone did not expect that things would be like this.

Lu Ming killed nearly four hundred Yuan Yuan and fled, leaving the corpses all the way.

Not only were the entrances and exits silent, even in other places in the Cangqing Divine Realm.

Because some people used the shadow stone to project the scenes of the war in the air of different places in the Cangqing Divine Realm, and many people could see it.

The Cangqing Divine Realm fell into deathly silence. After a long while, the crowd returned, and then there was an uproar.

After chasing for more than ten minutes, Lu Ming stopped.

Because there is really no way to chase, the rest of the people have already ran away long ago.

With so many people, it is impossible for Lu Ming to chase and kill all of them. It is unrealistic. When he chases and kills one person, the others can fly a long distance.

They are all origins, and they are trying their best to escape, the speed is too fast, and it is tens of millions of miles in a flash.

After stopping, Lu Ming began to harvest the spoils.

All the storage bags of the slain, as well as the source-level magic soldiers, were taken away by Lu Ming.

Finally, Lu Ming made an inventory. There were a total of one hundred and two origins, and they died in Lu Ming's hands.

These are all in the original realm, and a hundred and two died, it is crazy. This day can be called a **** day.

At the same time, Lu Ming also made a fortune.

All the storage bags of one hundred and two origins fell into Lu Ming's hands. How many treasures were there?

Massive!

There are countless immortal crystals and stones, various refining materials, heavenly materials and earth treasures, magical medicine and Shendan, etc.

The only pity for Lu Ming was the source-level magical soldiers.

Among them, more than half of the source-level magical soldiers were destroyed. The special source-level magical soldiers were defensive. They were previously split by the king's broken sword and became incomplete magical soldiers.

This made Lu Ming shouted a pity.

However, as long as it is repaired slowly, it can still be repaired.

Even if it can't be repaired, it's the same for the ball to eat.

The ball will not be short of rations for a long time.

In addition to these broken source-level magic weapons, there are thirty-six source-level magic weapons that have not been destroyed, and they are all attack-type source-level magic weapons.

Lu Ming smiled and brought these source-level magical soldiers back to the Heaven-Extinguishing Army. The origin of the Heaven-extinguishing Army should be able to handle a source-level magical soldier.

Chapter 5086: Cosmos channel opened

In a hurry, Lu Ming didn't make a careful check. When he was free later, he could check again.

"Junior Lu Ming, are you okay!"

Mulan flew over and asked with concern. From the side, Huang Ling didn't speak, but the concern in his eyes couldn't be removed.

Just now, they saw that Lu Ming was hit with a lot of tricks and kept coughing up blood. It was an attack launched by a master of the Origin Realm urging the Origin Level Divine Weapon, which could penetrate the galaxy, and the power was extremely terrifying, they had to worry.

"Don't worry, I'm fine. I will be able to cultivate for a period of time. Let's go back first."

Lu Ming said, and then the three of Lu Ming returned to the Cangqing Divine Realm.

After returning to the Cangqing Divine Realm, Lu Ming returned to the place where he lived and began to recuperate.

But in the Cangqing Divine Realm, there was an uproar, and there was a lot of discussion.

Some people definitely killed Lu Ming well and made the human race famous, but some people expressed concern.

Forbidden Land Eight Races, those are eight forbidden areas, with extremely profound background, and the strength they possess is far more than that.

They are afraid of the revenge of the Eight Clan in the Forbidden Land, implicated in the Cangqing Divine Realm.

It is conceivable that the Eight Clans of the Forbidden Land will definitely not stop there, and will retaliate wildly.

Sure enough, after the news of the battle came out, the forbidden grounds of all races shook, and then several forbidden grounds talked, they would retaliate wildly.

Moreover, Cangqing Divine Realm sent people out to inquire and learned that the forbidden areas of all races would come up with various powerful combined attack formations, and would also invite some terrifying big killers to kill Lu Ming.

Knowing these news, inside the Cangqing Divine Realm, he couldn't calm down, and the news spread, so that all the human races outside would return to the Cangqing Divine Realm to deal with the next big changes.

However, a few days later, even greater drastic changes have taken place.

Because almost all practitioners feel that the universe is shaking.

Yes, the universe is shaking, no matter where you are, you feel the universe is violently shaking almost at the same time, and then, all the existence above the peak of the gods will feel a different breath.

In the universe, there seems to be fresh air flowing in.

Yes, it is like a long-closed secret room, the dust-sealed door is opened, and the air outside the secret room flows in.

Ordinary people can't feel it, but the existence above the peak of the gods can clearly feel it.

Even Lu Ming, who was healing in retreat, could clearly feel it.

This kind of breath definitely does not belong to the prehistoric universe, and it becomes stronger and stronger as time goes by.

"The passage to the universe has been opened!"

Soon after, a message spread throughout the universe.

Because it's not long since the Great Tribulation of Origin has passed, only a few hundred years are left. Some forbidden ancestors, as well as a few ancestors of Cangqing Divine Realm, although their bodies are self-appointed, their consciousness has been able to manifest themselves freely, and they will inform you. a lot of things.

This news came from the ancestor-level figures in the forbidden areas.

With the passage of the universe opened, the various races can't calm down anymore, maybe, soon there will be other powerful people in the big universe coming.

The tribes originally wanted to reach the Cangqing Divine Realm and destroy Lu Ming's plan, but they had to temporarily shelve them to prepare for the major events that would happen next.

A few days later, the universe shook again.

Another cosmic channel was opened.

Everyone already knows that there is more than one cosmic channel.

"The storm is coming!"

Lu Ming sighed. At this time, his injury had already healed.

.....

Endless chaos, there is a universe of yin and yang, distributed in two directions.

If someone can stand at a high angle and look down at the endless chaos, it can be seen that the yin and yang universe is distributed in two different directions, just like the two eyes of a yin and yang fish.

And in the middle of the two universes, there are nearly 70,000 large and small universes.

Take the middle of the two cosmic seas as the dividing line, with one side being the yang and the other being the yin.

The place where the Primordial Universe is now is at the junction of the Yang and Yin worlds.

The Yuqing Void Universe, ranked tenth among the countless universes in the Yang, is one place higher than the heyday of the Primordial Universe. It has passed on endless years and is an incomparably ancient universe, prosperous to the extreme, with incomparable possessions. The ancient Taoism, the group of immortals horizontally and horizontally, is extremely powerful.

Yuqing Palace, the oldest and most powerful orthodoxy in the Yuqing universe.

Above a hall, there was a figure sitting cross-legged.

This is an old man with a fairy style and bones, white hair and white beard, but his face is ruddy, like a young man, unable to spy on his specific age.

But if the people of Yuqing Universe are here, they will definitely recognize that this person is the founder of Yuqing Palace and the ancestor of Yuqing.

This is a great power who has lived for an unknown number of years. In the impression of countless creatures in the Yuqing Universe, it seems that the ancestors of Yuqing existed when the universe opened up.

Below the main hall, there are many people kneeling respectfully, all of them are the top powerhouses of Yuqing Palace, the overlord of Yuqing Universe, stomping their feet, the role that Yuqing Universe will shake.

But these people, in front of the ancestors of Yuqing, are respectful and extremely awed.

"I calculated that the vast and emptied universe has already been born."

The voice of the ancestor Yuqing sounded, and as soon as he spoke, golden lotus was growing everywhere. This is a vision, indicating that the cultivation of the ancestor Yuqing has reached an incredible state.

"The primordial universe has reappeared."

The big guys below the hall were all shocked.

"Back then, the primordial universe was exploded, and the last part of the masters left the primordial cosmos, and sealed the passage of the universe, isolated from the world, and left the original cosmic coordinates, allowing the primordial universe to drift in endless chaos. , I didn't expect to be alive again."

Some people sigh.

"In the ancient universe, countless people died in battle, and there are not a few immortal figures who have buried countless treasures. Now they are reappearing. It is also a chance for us."

Another person spoke.

"Yes, not long ago, I felt the breath of the Primordial Universe again, right at the junction of Yang and Yin, but now the Primordial Universe is at the end of the Primordial Tribulation, and the strongest can accommodate the existence of the Primordial Early Stage. The younger generations go to experience, some little guys, don't they want to find the cosmic breakthrough of the Origin Great Tribulation, this is a good choice."

The ancestor of Yuqing.

"Yes, ancestor, I will arrange it now."

.....

At the same time, the Holy Light has no big universe.

This is also an extremely powerful universe, ranking higher than the Yuqing universe in the Yangjian universe.

Some of the great abilities of this universe also sensed the birth of the great universe, allowing people to arrange elites of younger generations to go to the great universe.

Not only these top ten universes, but those big universes with low rankings have terrifying powerhouses. These people, when the cosmic passage of the Primordial Universe was opened, they also sensed the breath of the Primordial Universe. At the same time, he also sensed that the primordial universe was under the catastrophe of its origin.

There are elites in these universes, rushing to the prehistoric universe.

Chapter 5087: Chaos kicks off

In the sun, there are constantly powerful people from different universes rushing to the prehistoric universe.

The underworld also has it.

When the cosmic passage of the primordial universe was opened, the great powers of the underworld also felt the aura of the primordial universe, and sent a large number of elites to rush to the primordial universe to seize opportunities for good fortune.

Among them, there are some evildoers.

Of course, the highest cultivation level of these people is only in the early stage of the origin.

Under the great calamity of the origin, the strong in the outer universe can't enter, and once they enter, they will also be suppressed by the great calamity of the origin, and they will die.

For a time, Fengyunhui is prevalent!

Somewhere in the wild universe, there are fragments of continents, even star debris, Tianhe ruins and so on.

Moreover, there is dead silence here, there is no vitality, and there is no predominant aura, no one or any creature, even a cultivator, can not live here forever.

Beyond the edge of the wilderness, the chaotic energy surged, but in the surging chaotic energy, there was obviously a path extending all the way to the depths of the chaos.

Here is the cosmic channel.

Rumble!

Suddenly, there was a violent roar from the depths of the chaos, the air of the chaos surged violently, and then a bronze warship sailed from the depths of the chaos along the passage.

The bronze warship looks very old, shrouded in a layer of glow, and you can see some creatures standing on the deck of the warship.

These creatures are all grown-ups, and I don't know whether they are transformed into human beings or born to be grown-ups.

"Is this the great universe? The legendary place where the celestial beings lie in all directions is also my chance."

A young man with a handsome appearance, his eyes twinkling with swords, his energy skyrocketing, and an extraordinary posture.

"There is terrible pressure in the dark. Is this the great calamity of the origin? Very good, I want to break through the origin and achieve my invincible path under the great calamity of the origin."

Another young man is more confident.

The battleship suddenly glowed, the space was torn apart, and then the battleship entered into the cracks in the space. When it reappeared, it was already infinite distance, and the speed was incredible. It flew at full force and countless times faster than the existence of the Origin Realm.

Not long after the bronze warship left, the chaotic energy outside the passage of the universe surged again, and a gleaming silver pagoda flew out.

A ray of sunlight fell from the pagoda, separating the surrounding chaos. The pagoda has nine floors. You can see that there are figures in the nine-story pagoda.

When the pagoda flashed, it also shattered and left.

After flying away from the pagoda for a period of time, another war sword broke through the chaos and flew. The war sword was huge, shrouded in sword light, and a large number of figures could be seen standing in the sword light.

.....

In another direction on the edge of the universe, there is also a cosmic channel.

Roar!

Suddenly, there was a roar from the depths of the cosmic passage, and the trembling chaotic energy surged, and then a huge monster flew out.

This skull dragon!

At least, the appearance looks very similar to the dragon race of the primordial universe, slender and huge, like a mountain range.

However, this bone dragon has a pair of wings, and the wings are also bony.

It looked like a dragon with a pair of wings growing on it, but its aura was particularly terrifying.

On the back of the huge bone dragon stood a large number of figures. Around these figures, the Yin Qi was rolling and extremely cold, as if it could freeze the void of the universe.

After the bone dragon appeared, he directly tore the space and left.

After the Bone Dragon left, another strong man rushed in with a yin river.

Within the Yin River, there are also a large number of strong men.

.....

Several months have passed since Lu Ming fought against the Eight Clans in the Forbidden Land.

During this period of time, Lu Ming has been retreating in the Cangqing Divine Realm, concentrating on polishing himself, trying to make himself perfect, so as to attack his original realm.

At the same time, Human King Broken Sword, slowly absorbing external energy and recovering himself.

That's right, a few months ago, Lu Ming fought against the Eight Clan of the Forbidden Land, beheading the one hundred and two origins, but the energy at the hilt of the King's Broken Sword was almost exhausted, and there was not much left.

However, the formation at the hilt was able to continuously absorb external energy and restore itself.

However, the speed is not fast, and it may take a long time to fully recover.

It can only be said that Renwang Broken Sword can only be used at critical moments, not unlimited.

This puts Lu Ming under even greater pressure and desperately wants to break through his origins.

However, every time he was about to break through the origin, he would feel a great crisis in the midst of it, making him cold all over his body.

This feeling is too real, as if as long as he really breaks through, he will definitely die.

Lu Ming couldn't tell what was going on, he could only keep polishing himself.

At this moment, with a move of heart, a sound transmission jade talisman appeared.

It was Mulan's message to him.

"People from the outer universe have finally arrived!"

Lu Ming's face changed slightly after the spiritual sense was swept away.

"Outer universe and others, has it finally come?"

Lu Ming whispered.

Mulan's voice transmission briefly introduced the current situation of the universe.

The powerhouses of the outer universe have come, and the number of them is amazing, and they come from many different universes.

It's hard to tell how many universes have come.

As soon as these people entered, there were **** conflicts with all ethnic groups.

Because, when people from the outer universe descend, their main goals are the ruins, ruins, and hidden secrets of the primordial universe.

In these places, a large number of treasures are often buried, all left over from the last era.

And the goals of the major forbidden areas are also these, and conflicts will naturally occur.

But in the end, it was the forbidden areas that suffered a great loss.

The masters who descended from the outer universe, although the strongest were only at the beginning of the origin, the number was astonishing, and they possessed a variety of combined attack formations, and some large universes also carried terrible weapons.

Even in the major forbidden areas, they didn't dare to stand up and had to abandon many relics, secret places, etc.

Of course, the major forbidden lands were completely unconcerned about dealing with Lu Ming.

In short, during this period of time, the primordial universe was in chaos.

In order to compete for the ruins, secret places, etc., the powerhouses of the outer universe not only clashed with the forbidden places, but also fought against each other in the outer universe and shed blood.

Because these creatures come from different universes, even from the yin realm and the yang realm.

Needless to say, the yang and the yin world have been hostile since ancient times.

Even if the universe is the same as the Yang or Yin, they are in competition with each other, and they are also prone to wars.

In the void outside the Extreme Evil Land, a huge bone dragon emerged, making the Extreme Evil Race a great enemy.

Above the bone dragon, a group of people looked at the terrible place.

Among them, a golden skeleton, with golden flames beating in its eye sockets, was extremely breathtaking.

Next to him, there are various other types of skeletons, human-shaped and animal-shaped, but they are all respectful to this golden skeleton.

Without him, this golden skeleton is the top evil in their universe.

Chapter 5088: The origin of the forbidden creatures

"It's really unexpected that the extremely evil race in the legend lives here."

There was a voice from the golden skull.

Their voices rang out with the vibration of soul and fire, and they did not differ from other creatures when they spoke.

"I did not expect that, according to legend, before the endless years, the extremely evil clan was also a big clan in my underworld, but then the king of the clan led the army of the clan to fight a certain place. The evil race has also gone into decline, and now it seems that the extreme evil race was here to conquer the prehistoric universe."

An existence like a dog bone.

"Not only that, during this period of time, I also heard about the Nine Yin Demon Spiders, Black Sky Warriors, Tianyin Vine Tribe, Yuanguang Tribe, Yin Sha Tribe, Ice Fire Tribe, and Cangming Tribe. These races were originally from the Underworld. The big clans, almost at the same time as the extremely evil

clans, the kings of these clans led the army to fight a certain place, and then disappeared together. It seems that they have all come to the prehistoric universe."

"Well, it's not just these eight clans, at least there are more than 20 big clans who disappeared together at that time!"

Several other skeletons are discussing.

"Now it seems that these big clans have come to attack the primordial universe at the same time, but according to time calculations, the primordial universe at that time was not strong enough, and the ranking in the Yangjian was far from reaching eleven, far less powerful than the latter, so much. Clan, why did you attack the primordial universe at the same time? And it seems to have failed. If you don't face the primordial universe, how can you flourish?"

The golden skull asked a question.

"I don't know, there seems to be a terrific event involved, but now it's hard to tell."

Dog Skeleton Road.

"It stands to reason that the original Majestic Universe is far from being as powerful as it was later. There are not too many top masters. How can more than 20 royal families attack the Majestic Universe together?"

"Furthermore, at that time, the passage of the Primordial Universe was not sealed. Even if the great royal clans failed, why didn't they leave, but lived in the Primordial Universe and turned into the so-called forbidden land of the Primordial Universe?"

The Golden Skull continued.

"Young Master, the old slaves really don't know these. Unless they are the big people of that era, they may know a little secret, or ask the extremely evil race and the Yinsha race."

"People of these races don't seem to be people of this era. They were sealed down from a long time ago."

Dog Skeleton Road.

"Well, let's go. Let's leave here. Deep in this place, there is a terrible existence, which is not something we can handle. Let's go to other places to catch a few people and ask."

Golden Skull Road.

There are not a few people who have the same questions as them.

Because the eight clans of the forbidden land were originally the royal clans of the underworld before endless years.

Any royal family is famous in the vast underworld of more than 30,000 large universes, but back then, more than twenty royal families attacked a certain place together, and finally disappeared together. At that time, it caused an uproar.

Since the main force of those races disappeared, those races have gone into decline one after another, being replaced by other royal families.

Unexpectedly, these races are actually in the prehistoric universe.

But now, there are only eight clans left.

Many people want to know what happened that year.

They naturally did not dare to attack the main parts of the forbidden areas, but secretly captured the people from the forbidden areas and questioned them, but the result was disappointing.

The people in the forbidden lands don't know the details of the year, only know that they followed their king and attacked the wild universe. In the end, they were defeated and were sniped by terror.

Many kings of the royal family have been killed, floating corpses are predominant in the wild continent.

This shocked the creatures in the outer universe.

The king of a clan, since it can be called a king, is a terrifying existence. It is not the king of the mortal world, but the king of immortality.

Each one is definitely a pinnacle-like existence, famous for countless characters in the universe.

Such characters are all dead, what happened to them?

According to the time period, the three kings of the human race hadn't been born yet in the prehistoric universe at that time. What happened to those races?

Unfortunately, no one can tell.

Soon, these questions were put down by them, and the most important thing was to fight for immediate benefits.

Although many ruins and secret places are still unopened and cannot be accessed now, the various universes and great tracts are all fighting for bloodshed.

Let's talk about it first.

Anyway, hundreds of years later, once the origin of the catastrophe has passed, the universe where they are located, the line of Taoism where they are located, the real strong will be able to come, break through these ruins and secret grounds, and obtain the treasures inside.

In addition to fighting for relics and secret places, naturally the duel between young Tianjiao is indispensable.

The eight families of the forbidden area, as well as the human races of the Cangqing Divine Realm, and some famous Tianjiao have also been challenged.

For example, during this period, many young Tianjiao came to Cangqing Divine Realm to challenge Fu Yuan. Zhao Wuji et al.

These arrogances in the outer universe are all amazingly strong, possessing a variety of methods that can be photographed, and their bloodlines are inherently powerful, even if they are the same three times, the arrogance of the Cangqing Divine Realm is actually not an opponent.

Except for Fu Yuan and a tie with one person, everyone else was defeated one by one.

However, Lu Ming devoted himself to retreating and polishing himself, and turned a deaf ear to the challenges of the outside world.

Even if someone challenged him by name, he ignored it.

His current thoughts are all placed on how to break through the origin.

Just one year after Lu Ming fought against the eight clans in the forbidden area, a news came out that the black sky warrior's first day of arrogant martial arts was challenged.

Since Xi Tianteng broke the origin, the Primordial Universe has broken the pole four times, and only Wu Jue is left.

Undoubtedly, the person who challenged the martial arts decision was also a monster who broke the extreme four times. He came from an extremely prosperous universe in the sun, the universe of heaven and light.

The skylight universe, even in the 30,000-plus universe of the sun, can rank in the top 100.

The duel between the two four-time breaks aroused the interest of countless people and attracted a large number of people to watch.

However, Lu Ming remained motionless and continued to retreat.

Finally, the news broke, and Wu Jue was defeated.

The two fought more than 500 moves, but Wu Jue was ultimately defeated.

Even after Lu Ming received the news, he was moved by it.

Wu Jue, who was as famous as Xi Tianteng in the past, is said to have fought no less than ten times, but they did not have a victory or defeat.

Lu Ming is very clear about how strong Xi Tianteng is. If it were not for the home court advantage, Lu Ming might not be able to beat Xi Tianteng.

And Tianchong, that is, the enchanting evildoer of the Skylight Universe, in the Primordial Universe, the destruction is also suppressed, and under the same suppressed situation, he can defeat Wujue, which shows its horror.

After defeating Wujue, Tian Chong's own confidence and state reached the peak.

Then, an even more explosive news came out, and Tian Chong wanted to hit the original realm.

Under the great calamity of the origin, it shocked the origin and shook countless people.

Chapter 5089: The Fury of the Universe

Tianchong, the peerless evildoer of the Tianguang Universe, has broken the extreme four times, the heart is higher than the sky, and has the heart to become a king. In the Tianguang Universe, it is almost a character who suppressed an era and beat the invincible hand of the same generation.

He learned that the primordial universe was in the final stage of the great calamity of the origin, and he immediately rushed to prepare to break through the origin under the great calamity of the origin.

Challenging Wujue is to adjust one's own state and enhance one's confidence.

After defeating Wujue, Tianchong's momentum rose to the sky, and his state reached the highest level in history. He wanted to break through the origin, which attracted the attention of a large number of masters.

A large number of masters rushed toward the sky to break through the pass.

Among them, the most numerous are the many evil spirits of the outer universe.

These enchanting Tianjiao all have the heart to become a king, and they all want to break through under the origin of the catastrophe. Before the breakthrough, it is undoubtedly a better choice to watch other people break through.

When Lu Ming heard the news, he was also moved, ended the retreat, and went to the place where the conflict broke.

He has recently felt that his state is at its peak, and he has carefully inspected himself hundreds of times, feeling that he has no flaws or weaknesses.

But every time you want to hit the bottleneck and break through the source, you will feel a big crisis.

This is a kind of origin, a manifestation of the ultimate keenness of spiritual sense, able to seek good fortune and avoid evil.

Lu Ming was puzzled and didn't know the reason.

Perhaps, watching other people break through, we can find the reason.

When Lu Ming arrived, there were already mountains and seas, and the number of creatures was astonishing.

Most of them come from other universes, mostly young people.

Lu Ming changed his appearance, hid his breath, mixed in the crowd, secretly observed, and was surprised.

Each of these young people has a strong aura and a peerless look. They are all peerless arrogances. To many people, Lu Ming feels the aura that resembles Xi Tianteng.

Lu Ming was convinced that there were not a few that had broken the pole four times.

Lu Ming observed for a while, at least he found no fewer than thirty arrogances of this level.

Thirty, the number is too amazing. You must know that in the past, except for Lu Ming, the only forbidden places were Xi Tianteng and Wu Jue, and they were not people of this era, but came from ancient seals.

At the scene, there were 30 suspected four-time-breaking existences, and even more. The gathering here was too shocking.

But from another angle, this is normal.

A big universe can't have a few quadruple breaks, but these people here do not come from one big universe, but from different big universes in the Yang and Yin realms.

All of these people have hearts higher than the sky, and they all want to break through under the great calamity of the origin, so they rushed to the prehistoric universe.

It can only be said that the boundaries of the Yin-Yang Universe Sea are too big, even if there is one in each big universe, there will be tens of thousands.

Of course, it is impossible for every big universe to have a Tianjiao that breaks the extreme four times. This is unrealistic. It is difficult for those big universes with relatively weak strength and relatively low rankings to appear four times.

However, it cannot be said to be 100%.

In some weak universes, there will also be the enchanting Tianjiao that is rare in the world, rising all the way to become the world's strongest, leading the universe to rise continuously and soaring in rankings.

Although there are few such examples, they are not uncommon.

These young arrogances, each standing on one side, have their own followers, just like the overlord of one side.

Moreover, Lu Ming discovered that most of these creatures were transformed into human forms.

This makes Lu Ming a little strange.

Lu Ming didn't believe that the bodies of these creatures were all adult-shaped, probably in various forms, but why did they all turn into human forms?

Does the human race have such an influence in the universe?

Lu Ming didn't quite believe that at the peak of the Primordial Universe, he was only ranked 11th in Yangjian. The influence was there, but it wasn't that great.

Do all creatures think that the human form is the most beautiful?

Lu Ming denied this speculation, which was not very reliable.

Lu Ming estimated that there must be something he didn't know about it, and he could only find an opportunity to inquire about it later.

He easily mixes in the crowd and is inconspicuous.

Even if there are people from the Eight Clan in the Forbidden Land here, they will not pay attention to Lu Ming, mainly because there are too many living things.

A few days later, Tianchong began to break through.

But the result shocked everyone.

Because in the end, Tianchong failed and fell under the great calamity of the origin, and was wiped out.

Lu Ming discovered that the power of the Primordial Tribulation this time was much stronger than when Xi Tianteng broke through last time.

Although Tianchong was extremely talented and extremely powerful, he was stronger than Xi Tianteng and Wu Jue of the same realm, but he still couldn't resist it. His unwilling roar shook the void of the universe, but in the end it was useless and vanished.

Tianchong's guardian was anxious and wanted to save him, but he died under the great calamity of the origin.

The scene was silent. This scene, beyond everyone's expectations, also poured cold water on the ambitious Tianjiao.

They could see how strong Tianchong was. When they were fighting with all their strength just now, they showed their strength to the extreme.

Both the body and the soul have reached a kind of peak, even if the same four breaks are the same, some people feel that it is not as good as the sky.

Tianchong is defeated, how can they succeed?

How difficult is it to break through under the Great Tribulation?

"No, when Xi Tianteng broke through, the power of the Primordial Tribulation was far less powerful. Why is the power of the Heavenly Conflict broken, so powerful."

Someone exclaimed.

Lu Ming glanced away and found that he was the first arrogant of the extremely evil race, the evil cicada.

The evil cicada had seen Xi Tianteng break through.

The people at the scene, except for some people from the Forbidden Land Eight Clan and Cangqing Divine Realm, and people from the outer universe, have never seen Xi Tianteng's breakthrough.

Someone immediately asked: "What are you talking about, you mean that when Xi Tianteng broke through, the suppression of the Great Tribulation of Origin was not that great?"

"Yes, it's far from that strong!"

"Yes, it's far, otherwise, Xi Tianteng would not be able to break through successfully."

Forbidden Land Eight Clan has several Tianjiao openings in a row.

"That's it, I understand, it's the fury of the universe!"

There is a youth road in the outer universe.

"What is the fury of the universe?"

Someone who does not understand asks.

"The legend says that during the Great Calamity of the Origin, once someone breaks through the Origin Realm under the Great Calamity of the Origin, it will cause a violent cosmic sea. If someone wants to break through, the cosmic sea will be violent, and the suppressing power of the Great Calamity of the Origin, It will explode, and it will be difficult for anyone to break through under the great calamity of the origin."

The person explained earlier.

"Yes, I have also heard such rumors that not all the Great Tribulation of the Origin will be like this. Many universes experience the Great Tribulation of the Origin, and it will not be like this. No one will break through and cause the suppression of the Great Tribulation to become stronger. This is only a few. , I didn't expect to be met by me."

Another person explained.

Chapter 5090: Rent-back fairy bone

At the scene, most of the people were silent, especially those who are interested in breaking through the source of the catastrophe are Tianjiao, and their faces are even more ugly.

In this way, wouldn't they have no chance.

Breaking through under the great calamity of the original source will have too many benefits. Once you break through, your potential talent will be greatly improved, which can greatly expand your follow-up

path, and allow your follow-up practice to go faster and more stable, surpassing other people of the same generation. .

Such a golden opportunity, just missed it?

It can be said that Xi Tianteng's breakthrough blocked the way for others to follow.

"Why is this?"

Wu Jue's face was pale and was hit hard.

In this way, didn't he have no chance to catch up with Xi Tianteng, and the gap between him and Xi Tianteng was hard to make up.

Unless it is after breaking through the origin and obtaining other opportunities against the sky, it can catch up.

Lu Ming did the same, his face was not very good.

He finally understood why he would feel a terrible crisis every time he wanted to break through the origin.

It turned out to be the cause of the violent cosmic sea.

The pressure of the Origin Great Tribulation is too strong, even if he breaks through with his strength, it may be difficult to succeed, and it will end in death.

It's not that he still has defects, but that he has no conditions. One person breaks through and future generations have no way.

"Could it be that there is no chance at all?"

Some people are unwilling to ask like this.

"It's not that there is no chance at all. As long as you are strong enough, you can break all obstacles. Tianchong fails. In the final analysis, you are not strong enough."

A young man spoke.

Wearing a white runner, this person was shrouded in holy light. Even if he saw the sky strike failed, his words and expressions still had a confident color.

"The world's proudest arrogant of the Shengguang Great Universe, holy and unparalleled!"

"The ninth-ranked Holy Light Universe!"

"Sacred Wushuang is here too. It sounds like he has already broken the extreme five times. No wonder he is so confident."

"Not necessarily, five times to break the pole, and it may not be sure to make a breakthrough."

Some people talked secretly.

"Yang Jian ranked ninth in the Holy Light Universe."

Lu Ming couldn't help but stared at Holy Wushuang, secretly startled.

The top ten in the tens of thousands of universes in the sun is absolutely terrifying, and the strength is unimaginable.

This kind of big universe is absolutely prosperous to the extreme. You must know that the end of the Primordial Universe is the most prosperous period in the history of the Primordial Universe. It is only ranked eleventh in the Yangjian, and there is still a big gap between it and the ninth place.

Such a big universe is naturally eye-catching. Many people have looked at the holy Wushuang, especially some big universes from the underworld, and are thinking about removing the holy Wushuang in this way.

Because, five times to break the extreme, even if you look at the universe, they are all the top enchanting evildoers, with endless potential, and hope to become a king in the future. Once they grow up, they will become a great enemy of the underworld.

This kind of future enemy can be eliminated as soon as possible.

However, Sheng Wushuang is fearless and still very confident.

"You are strong enough, of course, you can break all obstacles, but with your sacred and unparalleled strength, I am afraid that it is still far away. If you have the ability, you can break through one to see?"

Someone made a mockery.

Many people were shocked and dared to mock the sacred and unparalleled face to face, so bold.

Shengguang Great Universe, domineering is notorious, offending them will not end well.

But when everyone looked at the person who spoke, it became clear.

It was a golden skeleton, golden bones, brighter than gold, gleaming terrible sunlight, and seemed indestructible and unbreakable.

"The returning ancestor fairy bones of the Skeleton Universe!"

Someone whispered and took a breath.

The skeletal universe, a top-level universe in the underworld, ranks in the top ten among the tens of thousands of universes in the underworld, but is seventh.

Ranked higher than Shengguangda Universe in Yangjian.

Moreover, the origin of the immortal bones of returning to the ancestors is even more amazing. The legend is that the bones of the immortal king gave birth to consciousness, and he was born extraordinarily strong, and his bone defenses were extremely terrifying and almost indestructible.

Their only weakness is their soul. If you want to defeat them, you must first defeat their soul.

"There is such a big universe. The bone demon was born in the wrong place. If you go to the skeleton universe, you will be like a fish in the water."

Lu Ming muttered in his heart.

Sacred Wushuang's eyes were like two rounds of the sun, scanning the ancestor's fairy bones, and finally did not speak.

Obviously, he was terrified of returning to the ancestors immortal bones.

Lu Ming mingled in the crowd, and the audience chatted, but he heard a lot of the secrets of the universe.

Let him know more about the situation of the universe.

"The legend says that at the end of the great famine, the tribes of Human, Witch, and Demon joined forces and spent infinite resources to create a stepping platform. Stepping on the top platform can use the ancient forces in the universe to temper one's soul and body. , To greatly improve all aspects, enhance your talent and potential, don't know if it is true or not?"

Someone started talking again.

"Yes, there are detailed records in the ancient books of our clan. The reason why the original prehistoric universe was able to rise quickly is also an important reason for stepping on the rooftops. It can make their top talents rise to the next level and give birth to more. The strong ones form a virtuous circle, but the core materials for building a rooftop terrace are too rare and hard to find. Many large universes want to build it, but they have no intentions."

Someone else spoke and confirmed the matter.

"I don't know if the stepping platform has been preserved in the Great War of the past. If it is retained, if you can find it, you can use the stepping platform to make yourself better and perfect in all aspects. It may not be impossible to break through the origin of the catastrophe!"

Someone whispered.

This makes many people's eyes hot.

Stepping on the sky, the heavy weapon of the primordial universe, has a certain relationship with the rapid rise of the primordial universe.

Many big universes are jealous, even if there are not many powerful big universes.

To be sure, only the top ten universes should be available, but you can't open it if you want to open it. Every time you open it, you have to wait for a long time before it can be reopened.

Therefore, many of the top ten giants of the universe have never set foot on the rooftop. Hearing this, they are extremely moved.

If the Tiantai Terrace of the Primordial Universe is still there, and endless years have not been opened, once it is found, it will definitely be able to be opened.

With the help of stepping on the roof, they can be stronger, and it is possible to break through under the catastrophe of the origin.

"Go, look for it!"

"It must be somewhere in the prehistoric universe!"

Many people whispered and then left.

"Take the rooftop!"

Lu Ming's eyes also showed a fiery light. If he could use the help of stepping on the roof, he might be able to break through.

It's just that you have to find it first, it's not easy, otherwise it would have been turned out by the Forbidden Eight Clan.

"It's better to follow the fate, or I am not strong enough, I still have room for improvement, and my source technique should be far from reaching its peak..."

Lu Ming thought, also left here and returned to the Cangqing Divine Realm.
