

D Emperor 5091

Chapter 5091: Stepping up

Of course, after Lu Ming returned to the Cangqing Divine Realm, he didn't have a thoughtful retreat and ignored things outside the window. He entrusted people to always pay attention to the situation of the universe, specifically about the situation of stepping on the rooftops, and notify him as soon as there is news.

Time is hurried, and ten years are in the blink of an eye.

In the past ten years, the primordial universe has become increasingly chaotic, because more and more people have entered the primordial universe.

In the primordial universe, masters of the outer universe can be seen everywhere, and wars are always visible.

In particular, the primordial universe is now floating at the junction of the yang and the yin realm. There are a large number of masters from both sides entering the primordial universe. The kind that never ends.

It is conceivable that during this period of time the war in the primordial universe has been so tragic, it has become a battlefield between the sun and the yin world, and the blood of the origin is shed everywhere.

And those ancient ruins and secret places have naturally become the focus of contention. Every ancient ruins and secret places are bleeding and soaked in blood.

Although many secret places and relics cannot be opened now, they can be occupied first, and when the origin of the catastrophe passes, the powerhouses of the cosmos crossing the immortal catastrophe level can come, and they can be broken.

Over the past ten years, Lu Ming has been practicing hard in retreat, hoping to become stronger, but unfortunately, his progress is very limited.

At Lu Ming's current level, almost all aspects have reached a limit, such as the physical body, the power of the forbidden origin, the soul, and it will be too difficult unless he breaks through the realm.

As for the source technique, Lu Ming has just enlightened it now, and his progress should be great. However, the advancement of the source technique requires a long time to accumulate.

Ten years, for the people of the gods, is like a flash, it is too short, even with Lu Ming's talent, it is difficult to make much progress.

At this speed, it is impossible for Lu Ming to break through the origin and obtain the gift of the universe under the great calamity of the origin.

But at this moment, a piece of news spread rapidly throughout the prehistoric universe.

Tiantantai was born and found.

When Lu Ming received the news, he immediately left the customs and asked Mulan for more information.

Mulan informed that the news came from the Baiyu Universe.

Stepping on the rooftops was also found by the people of Baiyu Universe.

"The people in the Baiyu Universe have found the Tiantantai, why do they want to spread the news and not use it by themselves?"

Lu Ming was curious.

The White Feather Universe, in the Yang room, is also considered a relatively powerful universe, which can be ranked within a thousand names in the Yang room.

"It is said that there is not enough manpower from the Baiyu Universe, and they can only use people from other universes to open the Tiantai Terrace. Therefore, they can only spread the news and invite all the talents to gather on the Tiantai Terrace."

"Of course, some people say that when Baiyu Great Universe discovered that it was stepping on the rooftop, it was also discovered by people in other Great Universes. Seeing that the news can't be hidden, we can only spread the news, so as not to attract all parties to target. Many Tianjiaos in the Blue God Realm have left for the Tiantai Terrace."

Mulan explained.

"Go, let's go and see too!"

Lu Ming said.

Since Tiantai was born, Lu Ming would never miss it.

Lu Ming, Mulan, and Huang Ling were together. On the way, they ran into a few people from Fuyuan and Zao Wuji, who happened to accompany them to the rooftop.

On the way, he learned more details from Fu Yuan and others.

The current Tiantai is probably broken and incomplete. Some people speculate that it may be part of the complete Tiantai. It has been hidden in the void before. Therefore, the forbidden lands in the western universe, including the Cangqing Divine Realm, were all not found.

But now, the main reason is that there are too many creatures from the outer universe. The creatures of the outer universe can be seen everywhere in the vast universe. Such a search-style search can find the Tiantai. Otherwise, if you want to be born on the Tiantai, you can only rely on it. Luck.

After a while, Lu Ming and others rushed to the location of Tiantai.

Step on the rooftop, on top of a piece of mainland debris.

At this time, there was already a sea of people on this continent fragment.

And from all directions, people continue to come.

You can see that on one side are the creatures in the yang world, and on the other side are the creatures in the yin world.

The two sides maintained a delicate balance, and no war broke out.

Lu Ming and the others mingled in Yangjian, heading towards the center of the mainland debris.

In the center, there is a huge stone platform.

This stone platform was obviously artificially made, in a regular octagonal shape, like a huge gossip, standing on the ground.

The stone platform is very large, with an active and wide surface, and one side can be 100,000 miles long.

But you can see that there are several cracks on the stone platform, extending from one end to the other, as if the stone platform flies and falls apart at any time.

Around the stone platform, there are creatures everywhere.

Each of them has a strong breath, especially young people. Needless to say, they are all geniuses.

Stepping on the roof was originally prepared for geniuses.

"Such a big terrace, even if you want to conceal it, you can't hide it. It will be discovered soon. No wonder Feiyu Universe will spread the news."

Lu Ming thought.

"The primordial universe is the big universe of the Yang, and it belongs to the Yang. You can roll over the yin things in the Yin world!"

Suddenly, walking around the rooftops, there was a cold drink.

"Hehe, ridiculous, the primordial universe, now at the junction of the yang and the yin, that is the unowned thing, which does not belong to your yang, and even if it belongs to your yang, if it is attacked by us, it is in our yin. The universe of the world."

On the underworld, someone sneered in response.

"A strong word, do you have the ability to attack it?"

There was a big drink in the sun.

"Incapable? Hahaha, how did the great universe shatter in the first place? Wasn't it destroyed by the power of my underworld?"

The creatures of the underworld responded.

The two sides argued, the smell of gunpowder was full.

But finally restrained within a certain range, and no war broke out.

There are too many living things here today. Once a war breaks out, it will be difficult to control and will cause terrible bloodshed.

Moreover, there is not much difference in the strength of the two sides. It is really going to be a big battle, and neither side is sure of winning.

The most important thing is that the main purpose of everyone here today is to step on the roof, especially the top enchanting Tianjiao. The most important purpose is to use the help of stepping on the roof to temper yourself and make yourself to a higher level. Fortunately, the origin Break through under the catastrophe.

In the past ten years, there has not been any enchanting Tianjiao who tried to attack the Origin Realm. When the Heaven Conflict broke, the suppression of the Origin Great Tribulation was too terrifying, and no one was sure.

Now, stepping on the roof is undoubtedly an opportunity.

"This roof terrace has cracks, can it still be used?"

"Furthermore, it is a little different from the other powerful universes in the legend. The terrace looks a little too small, far from being as huge and as powerful as the legend."

Many people in the crowd raised questions.

Chapter 5092: The domineering holy light universe

"I believe many people already know that this Tiantiantai is incomplete. Maybe it's just a part of the complete Tiantiantai. It was completely destroyed in the original war."

On the octagonal stone platform, stood an old man, this old man, dressed in a white feather suit, was a master of the origin realm of the white feather universe.

"Since it is a broken rooftop, can it still be used?"

Someone asked.

"can!"

The elder of Baiyu Universe said: "Through our research, although this roof stepping platform is broken, its function is almost the same as the complete one. However, the number of people that can be accommodated is relatively small, and it can only be used once. Step on the roof and it will fall apart completely."

The old man of Baiyu Universe explained.

It is a pity that many people secretly said that if they can continue to use it, many large universes will be jealous. Even the top ten universes between the Yin and Yang will be heart-warming and will take action.

But stepping on the roof can only be used once, and that effect is not great. If you can't use it continuously, you can't continue to create a powerful Tianjiao.

Everyone understood that the reason why the creatures of the Baiyu Great Universe announced the world was also for this reason.

If it is a complete stepping platform that can be used continuously, Baiyu Universe estimates that it will do its best to remove the stepping platform. Will there be news?

"Then how can I start stepping on the rooftop?"

Someone asked.

"It's very simple. Stepping on the roof is specially for young geniuses. There is a prohibition on testing the age, so the old ones don't have to report any illusions. It is useless!"

"As long as there are enough young geniuses to step on this stone platform and fully stimulate the body's qi and blood, you can start stepping on the roof."

The old man of Baiyu Universe said.

"What are you waiting for? We have enough geniuses now, and we can start stepping on the roof now."

"Yes, it can be started right away. What time is wasted."

Many people shouted.

These yelling people are not too confident in themselves. They start before many geniuses arrive. They may still get a share of the pie. The more they wait, the more geniuses come, they will have no chance Up.

"No, my family's Tianjiao hasn't arrived yet, so it can't be activated."

Someone spoke, very domineering.

"It's ridiculous, your clan's genius can't be activated before it arrives. Why should so many people wait for them?"

"That's it, this is ridiculous, how can chances wait for someone, and if you arrive late, you will bear the consequences."

Many people are unhappy.

"Why? We are Shengguang Great Universe."

An indifferent voice sounded, and that area was covered by a strong holy light.

Many people shut up.

This is the Holy Light Universe, Yang Jian ranked ninth, has always been domineering, and the horror of strong strength, who dares to offend.

Even if the universe is among the top ten, it must give them face.

For example, Yuqing Great Universe, ranked tenth in Yangjian, although most of the Tianjiao had arrived, they did not speak against it, but stood there quietly.

For one thing, they were jealous of Shengguang Universe and did not want to offend.

Secondly, they are also the top tianjiao among them. They are very confident and think that they are not weaker than others. Even if there are more tianjiao, they still have a place.

At the same time, there are also powerful universe geniuses who have not arrived in the underworld, and they need to wait to prevent everyone from opening the rooftops now.

In the face of these giant universes, the creatures of other universes naturally dare not say much.

In the vast universe, although there are many universes, there are more than 70,000 large universes between the Yang and Yin realms.

However, the power gap between these big universes is very huge.

The top ten in the yang, or the top ten in the yin world, are amazingly powerful, and pass on endless years. I don't know how many terrifying existences inhabit.

It can be said that there are many immortals in all directions, and there are not a few strong immortals.

And some small and weak universes do not even have a figure of immortality. Those powerful universes can destroy those weak universes by sending out a strong one at random.

The gap is not generally large, and those small and weak universes naturally dare not offend the powerful one.

Everyone can only wait.

A few days later, the arrogances of those powerful universes arrived one after another.

For example, the peerless evildoers of Shengguangda Universe are holy and unparalleled.

There are also the ancestral bones of the skeletal universe.

Of course, there are more than two such powerful Tianjiaos, and there will definitely be more Tianjiaos in these ten years.

Lu Ming secretly observed that some of his enthusiasm was astonishing, and even he felt the pressure.

Now, in the same level, Lu Ming can feel a little bit of pressure, at least four times.

If you feel a little bit more pressure, you will definitely have to break the pole five times.

Of course, there are also source-level Tianjiao in secret, such as Xi Tianteng, but the source-level Tianjiao does not participate in competition.

Stepping on the roof is mainly aimed at the origin.

"Let's get started, as long as you are young Tianjiao, you can come on stage!" The old man from Baiyu Universe finished speaking, and flew away from the stone platform.

Swish...

Suddenly, there were densely packed young talents around, flying onto the stone platform.

The number is astonishing, and at a glance, there are at least several hundred thousand.

Yes, the young Tianjiao has hundreds of thousands of people, and they are all the cultivation bases of the peak of the gods, and they are even broken.

The worst have reached a breaking point.

This was completely unimaginable before.

One break to the extreme is equivalent to the existence of the strongest Heavenly Monarch level. How many of the Celestial Races are there?

But now, there are hundreds of thousands, and they are all young people, unimaginable.

However, in the vast sea of cosmos, where the various universes converge, this is nothing.

Moreover, this cannot be the gathering of all the geniuses of the gods in the universe, it cannot be so few, this is only a small part of the vast universe.

"Lu Ming, you go, we won't go!"

Mulan and Huang Ling said.

They are very self-knowing. Although they have the ability to break the extreme twice, they are considered top geniuses in the former Majestic Universe, but looking at the universe, it is nothing at all.

There are too many geniuses, they can't compete when they go up.

"Well, you stay next to the people in Yuqing Universe."

Lu Ming nodded, and secretly transmitted his voice. That's good, if Mulan and others don't compete, he doesn't need to worry anymore.

Stay next to the Yuqing Universe people to avoid being targeted.

Then, he moved and rushed to the stone platform.

Fu Yuan, Zao Wou-Ki and others are peerless geniuses who have broken the extreme three times, naturally they will not give up, and they have rushed to the stone platform one after another.

After breaking the pole three times, looking at the universe, he can be regarded as a very top arrogant.

boom!

Hundreds of thousands of young geniuses fell behind the stone platform and agitated their own blood.

Suddenly, blood rose to the sky on the octagonal stone platform, as if countless volcanoes erupted at the same time.

At the same time, the octagonal stone platform shook violently, and densely packed runes appeared on it.

From a distance, the octagonal stone platform is really like a gossip platform.

It lasted for a while, and some small octagonal stone platforms appeared in the eight corner areas of the octagonal stone platform.

Chapter 5093: War giant

In the area of the eight corners of the octagonal stone platform, there are some small octagonal stone platforms emerging. You can see that there are eight small octagonal stone platforms in each corner.

This small octagonal stone platform is suspended in the air, and it is also densely covered with runes.

The eight corner areas add up to a total of 64 small stone platforms.

Many people's eyes lit up, stepping on the roof, and the start-up was successful.

The opportunity lies on those small octagonal stone platforms.

Haven't you eaten pork and haven't seen a pig run? Everyone at the scene, although no one has used stepping on the rooftop, most of them have heard of the legend of stepping on the rooftop.

Stepping on the Tiantai usually continuously absorbs the energy in the universe, and then through the continuous condensing and transformation of the Tiantai itself, it will finally be transformed into an extremely pure and extremely special energy.

Once this kind of energy enters the body, it can greatly enhance the physical body, soul, and even the power of the taboo origin of a creature. It can be said that it can make a creature achieve a huge improvement in all aspects.

And if you want to arouse that kind of energy, you can only step on those small octagonal stone platforms.

But a stone platform, in the end, only one person is allowed to set foot.

But on the spot, there are hundreds of thousands of people wanting to compete.

"That stone platform is mine!"

"I must occupy a stone platform!"

The next moment, hundreds of thousands of figures moved, rushing towards the 64 octagonal stone platforms respectively.

There are a total of 64 stone platforms, but there are hundreds of thousands of competitors. On average, there are more than 5,000 people competing for each stone platform.

A stone platform can't hold more than 5,000 people to stand on. Therefore, before falling on the stone platform, various attacks erupted in the void.

The brilliant rays of sunlight collided and filled half of the sky.

puff!

In an instant, someone splashed with blood on the spot, was beheaded, fell here, and the corpse fell to the ground.

Competition is very cruel.

It can be seen that some people are really very powerful, such as the Immortal Bone of Returning Ancestor, and the holy Wushuang of the Shengguang Great Universe. These people are too strong. They have broken the battle force five times. One attack is unstoppable .

Not to mention the three times below the extreme, even if it is four times, they will all be injured by one of their moves.

Many people were terrified and quickly retreated and rushed to other stone platforms.

Because they know that there are people who have broken the pole five times, they can't compete at all, and if one is careless, they will be killed.

Therefore, the competition among other stone platforms is even greater, and the number of people competing in some stone platforms reaches tens of thousands.

Of course, not all Shitai people retreat, fearing to break the pole five times.

Some people from Shitai didn't retreat, but a number of masters planned to join forces to defeat the existence that broke the extreme five times first.

Because these 64 stone platforms are just the first step.

There are eight stone platforms in each direction, and after waiting for the eight stone platforms to determine a good person, the competition will continue afterwards. Eight enters into four, and new stone platforms will emerge.

The further the stone platform is, the more energy it can mobilize, the more it can temper itself, and the greater the benefits will be.

If you don't solve the existence of the five times broken pole now, you will encounter it later.

boom!

A terrible battle broke out on one of the stone platforms.

Hundreds of people finally landed on the stone platform, and then these hundreds of people joined forces to besiege a purple-golden giant.

This purple-golden giant is more than ten meters tall and has purple-golden body and purple-golden hair. It is like a purple-gold cast. It is impenetrable, powerful and terrifying.

This is a clan of war giants, and there is no doubt that this is a powerhouse who has broken the extreme five times.

Hundreds of Tianjiao besieged this purple and gold giant.

However, it is clear that these people have underestimated the terrifying horror five times.

Zijin actually held the Zijin battle axe and slashed it horizontally and horizontally, without the power of one, and the existence of four times breaking the extreme, in front of him, there was no power to fight back, and he was hit hard with one move.

"Just because you wanted to stop me, you killed them all!"

The purple-gold giant roared, his muscles squirmed, blood boiled, shaking the void, his eyes were like the sun, shining with a raging will to fight, and his battle axe slashed frantically.

Nothing fancy, but the attack power of each axe is terrifyingly strong.

what!

A scream came from a silver-skinned youth, this silver-skinned youth was directly cut in half by Zijin, and even his soul did not escape.

Others showed fear.

This silver-skinned youth, but a four-time-breaking existence, an absolute enchanting figure, such enchanting, was killed, and everyone else was terrified.

"Come, come again!"

Zijin roared hugely, fighting like crazy.

However, no one dared to take action anymore. The so-called cooperation is only temporary. If the situation is not good, the cooperation will collapse naturally.

"Go to other stone platforms!"

The Tianjiao of this stone platform left one after another, like lightning, and rushed to other stone platforms.

"Hey, I haven't broken the pole five times, and I want to fight with me. I can't help myself."

The Zijin Giant smiled, and suddenly stepped on the soles of his feet, and the powerful blood and taboo origins burst into the stone platform.

boom!

The stone platform roared and the dense runes glowed. A powerful force gushed out of the stone platform and enveloped the purple and gold giant in it.

The energy contained in the stone platform has been stimulated. Other people, representing this stone platform, have been actually occupied by Zijin, and the others have already lost the qualification to compete.

As a result, those stone platforms that have not broken the pole five times have even greater competition.

There are not so many existences of breaking the extreme five times, after all, it is impossible for every stone platform to have the existence of breaking the extreme five times.

In fact, everyone estimates that there are only about five of the five breaches.

Why is it about? Because of the extreme combat power, it is difficult to see with the naked eye unless the opponent shows its combat power to the extreme.

It is hard to guarantee that some people still hide their combat power.

The vast sea of cosmos, nearly 70,000 universes, and the geniuses and evildoers who have broken the extreme five times, naturally there are far more than five people.

But only about five people came to the prehistoric universe.

Some people are too far away and can't catch up in a short time. Some people are in retreat, and some people have other opportunities...

The vast universe has countless opportunities, and it is not only the primordial universe that has opportunities.

There were five people who had broken the extreme five times clearly. These five stone platforms were not in competition at all, and they were directly occupied by them, stimulating the energy on the stone platforms and tempering themselves.

At Lu Ming's stone platform, more than 10,000 people competed. Of course, many people were quickly eliminated. Those geniuses who broke the extreme once and broke the extreme twice were not qualified to compete at all. Anyone who is careless will be beheaded.

The competition is very cruel. In just a few minutes, hundreds of geniuses have been killed.

These people are all geniuses and have great prospects. Even without this opportunity, they will not be low, and naturally they don't want to die here.

Therefore, many people just give up just seeing the competition but quickly retreat.

To truly participate in the competition, at least have three breaks.

Chapter 5094: Show your strength

Lu Ming's stone platform, the genius who finally landed on the stone platform, exceeded a hundred people.

Almost all of these one hundred people possessed the power to break the extreme three times.

And there are more than ten people suspected of breaking the pole four times.

A group of people looked at each other, their eyes were cold, and they all wanted to suppress each other.

"Boy, get out of here!"

Beside Lu Ming, a burly figure suddenly killed Lu Ming.

The cold breath swept towards Lu Ming frantically.

This is a Tianjiao in the Yin Realm. He has a very powerful combat power. He has the power to break the limit three times, second only to the four times.

At the same time, other people in the underworld also launched an attack, and their target of attack was the arrogance of the sun.

Obviously, the geniuses of the Yin world want to work together to defeat the geniuses of the Yang, and then compete with each other.

Not only this octagonal stone platform, but also other octagonal stone platforms, the people of the Yin world are all joining hands, planning to defeat the people of the Yang world first, of course, the people of the Yang world also have this intention.

People on both sides are fighting together.

"It's you who got out of here!"

Lu Ming's eyes were indifferent, and the God of War spear swept out, colliding with the master of the underworld.

With a bang, the master of the underworld was shocked, his arms burst directly, his body was like a sack, he flew out of the stone platform, vomiting blood, and almost died.

Around, everyone else was taken aback.

Unexpectedly, Lu Ming looked unremarkable, and his combat power was so strong that a genius who was about to break through four times was beaten to death by one move.

Suddenly, several evildoers in the underworld stared at Lu Ming.

"There are two times, I will meet you!"

A woman with snake hair slammed towards Lu Ming.

This woman's hair is a small snake body, constantly twisting, making a hissing sound, very oozing.

In addition, these snake hairs can open their mouths and spray out beams of light. The power is very terrifying. Whenever this beam of light is irradiated, the body will turn into stone and then be crushed by this woman.

Before, Lu Ming personally saw several Tianjiao in the sun, turned into stone by this woman, and then smashed.

Lu Ming's God of War spear swung and spun at extreme speed, with extremely powerful energy, blocking the beam of light emitted by the Gorgon, and then the God of War spear shook and turned into a sharp spear light that pierced the Gorgon.

Lu Ming didn't use the Origin Technique for the time being.

His origin technique is quite special, once it is used, it consumes too much energy of the origin.

Moreover, it is not yet time to use it. Now once he uses it, he will show his power of breaking the extreme five times, and he will most likely be besieged by others.

The competition on this stone platform is all the talents of the outer universe. No one knows Lu Ming, and he doesn't know that Lu Ming has the power to break the extreme five times.

When the other people's battle was almost over, Lu Ming showed his strongest combat power and determined the victory in one fell swoop.

Lu Ming was fighting with the snake-haired girl, not in a hurry to defeat the other party, but to come and go with the other party, and the fight was inextricably difficult.

After a while, there were only a dozen people left on this stone platform, and all the others were defeated, coughing up blood and retiring.

Some people were even killed directly and fell here.

boom!

Some people want to mobilize the blood and the power of the source to mobilize the energy of the stone platform, but it is impossible to succeed at all. It is impossible to arouse the energy of the stone platform before the victory is decided on the battle platform.

At this time, Lu Ming stepped up his fierce attack, and the gobbler who killed him retreated.

"The prehistoric style, the world-breaking style..."

Lu Ming's two big killer moves came out in succession, the snake-haired girl screamed, and finally lost to Lu Ming. She vomited blood and was blasted out of the stone platform. Her chest was pierced by Lu Ming's God of War's gun. The front and back were bright and bloody. DC, the injury is very serious, and the vitality is severely injured.

She still wanted to rush to the battlefield to continue fighting, but the older people of the clan stopped her.

It has been defeated, suffered heavy damage, and it is meaningless to go up. If one is not good, he will lose his life here.

After Lu Ming defeated the snake-haired girl, he rushed to another battlefield, helping a Tianjiao in Yang, and besieging a Tianjiao in Yin Realm.

The two teamed up, and the Tianjiao in the underworld was quickly defeated.

The balance of this stone platform was broken, and the Yang room had the absolute upper hand. Soon after, all the geniuses of the Yin world were defeated.

At this time, there were six people left on the stone platform.

All of these six people came from Yang Jian, and they all existed four times.

"Brother's combat power is good, but the face is very good, I don't know which universe it comes from?"

A young man looked at Lu Ming and smiled.

"The Great Universe!"

Lu Ming answered.

There is nothing to conceal. When he reveals his strongest combat power later, these people must know his origins.

The prehistoric universe?

The other five young people on the stone platform were stunned when they heard it.

Lu Ming, from the prehistoric universe?

Is it the human race of the prehistoric universe?

However, isn't the human race of the prehistoric universe just a surviving one? It is a thousand miles away from the human race of the past, and there is no arrogant talent that deserves attention at all.

Unexpectedly, there are actually people like Lu Ming.

A broken universe, the heart of the universe is shattered, the rules are incomplete, and the cultivation conditions are very poor. It is really rare that a arrogant such as Lu Ming can be born.

"There are only six of us left, let's decide the outcome!"

Another young woman said, she was very beautiful and had outstanding temperament.

"I think you should step back, this stone platform, I want it!"

It was Lu Ming who spoke.

Ok?

The other five people all looked at Lu Ming.

With a big tone, they actually let the five of them take the initiative to leave.

Lu Ming had shown good strength before, but he was not strong enough to overpower the five of them.

boom!

At this moment, a more powerful breath erupted from Lu Ming's body. His body swelled and turned ten meters high. The God of War spear surrounded the Shenxia, and the breath was forcing people.

This breath made the other five young Tianjiao's expressions dignified and felt strong pressure.

However, it was just pressure, and they couldn't be sure of Lu Ming's true combat power without taking action.

"I'll test how strong you are."

A burly young man rushed towards Lu Ming. He had a purple gold stick in his hand, a top source-level **** soldier, and a stick smashed towards Lu Ming.

A Tianjiao who broke the extreme four times made an all-out effort, and his combat power was amazing.

However, Lu Ming's expression remained the same, and the God of War spear swept out and collided with the purple golden stick.

With a sound, the purple gold stick shook violently, and the burly young man flew out of the stone platform like a meteorite.

His arm was trembling non-stop, and the bones of his arm had been broken.

Break five times!

The burly youth's voice trembled a little.

The others also took a breath, showing a sense of horror.

Lu Ming was actually a peerless evildoer who broke the extreme five times.

The gazes of the surrounding onlookers also turned towards Lu Ming.

The sixth and fifth break, appeared.

Chapter 5095: Too many geniuses

The people watching the battle around him all looked at Lu Ming.

"Humph!"

Many people from the Eight Clan in the Forbidden Area finally noticed Lu Ming and suddenly let out a cold snort.

"Do you know this son?"

Someone asked people from the eight ethnic groups in the Forbidden Area, and when they learned of Lu Ming's identity, the audience was shocked.

They never imagined that the five newly-appearing poles were actually human races left over from the primordial universe.

"The talent of the human race is really terrifying. No wonder it was able to rise rapidly back then and was famous in the world!"

Some people marveled.

The universe is nearly 70,000 large universes, and it is also called the heavens and the world, which is completely deserved.

"You're right, the primordial universe has been blown up, the rules and order are incomplete, and there can be five extreme-breaking existences. It's really an enchanting evildoer."

"Sure enough, there are five times of evil spirits hiding in the crowd. In addition to this Lu Ming, perhaps there are five times of breaking the existence, and they must all want to compete for the highest step on the rooftop. This is a good show."

There was a lot of discussion in the crowd.

In general, the emergence of a new five-time breaking extreme, everyone was not too shocked, they were even more shocked by Lu Ming's identity.

"You guys, are you still going to fight?"

On the stone platform, Lu Ming was wary and glanced at the remaining four Tianjiao.

"Five times breaking power, no more fights!"

A young woman shook her head and smiled bitterly, then with a scream, she withdrew from the stone platform.

She has self-knowledge, and at the same time, she also knows very well about the five-times extreme, because their universe also has a five-times extreme existence. Although she did not come this time, she

has fought against it today and knows it four times. Even if the four of them joined forces, they couldn't be Lu Ming's opponent.

Since it is not an opponent, it is better to withdraw altogether and compete with other stone platforms.

Now, for some stone platforms, the winner has not yet been determined, and there is still time for them to go.

After the young woman withdrew, the remaining three people also simply withdrew and killed the other stone platforms.

There is only Lu Ming on this stone platform.

boom!

As soon as Lu Ming stepped on his feet, his blood boiled, and the original power and blood penetrated the stone platform. The stone platform suddenly vibrated, and an extremely powerful energy gushed out, covering Lu Ming's body.

The energy contained in Shitai was inspired by Lu Ming.

This energy is too pure, as if the genius is condensed. As long as Lu Ming works for a while, the energy will rush towards Lu Ming and be absorbed by Lu Ming.

After being absorbed by Lu Ming, this energy quickly dissipated into Lu Ming's body, penetrated into the limbs, corpses and internal organs, dispersed into every cell, and also into the soul.

Lu Ming could feel that the body and soul, which had almost reached their limits, were being tempered and quickly ascended.

Not only the body and soul, but even the origin of the taboo is also improving.

This kind of improvement is not an improvement of the realm, but an improvement of the foundation, which is like laying the foundation, it is an all-round improvement.

"Wonderful, it's really wonderful, it's worthy of stepping on the roof. I originally thought that if the realm is not broken, the power of the taboo will definitely be difficult to improve. Unexpectedly, it can continue to improve."

Lu Ming was amazed in his heart, and at the same time he became more determined, and he wanted to go down.

This is only the first step to stepping on the roof, and there are higher-level stone platforms behind, which need to be drawn out by a battle of geniuses.

Not enough people and not enough geniuses can't lead to real stepping on the roof.

This is also one of the reasons why Baiyu Universe will be announced on the rooftop.

Because they alone are not enough, even if you find a rooftop terrace, you won't be able to use it.

Unless all the geniuses of the Baiyu Universe are called, it will take a long time. Once it has been delayed, it would have been discovered by others, so it would be better to announce it generously.

Lu Ming is undergoing the tempering of stepping on the roof, and the competition for other stone platforms is still going on.

Without breaking the pole five times, it would be difficult to achieve one-sided crushing. Even the Tianjiao who broke the pole limit four times could not be crushed in the face of the other four poles. The strength is limited.

Therefore, many stone platforms, the wars are extremely tragic, for the sake of opportunity, they fight madly.

Unless there is a big difference in combat power, no one is willing to give up easily, because stepping on the roof is too important for them.

Although the tempering of stepping on the roof can not directly improve the realm and combat power, it can greatly enhance the foundation.

The foundation often represents potential.

In addition, if you want to break through the origin under the great calamity of the origin, the foundation is too important.

The stronger the foundation, the higher the chance of breaking through the origin under the great calamity of the origin.

If you want to break through the origin under the great calamity of the origin, it is not that the higher your combat power, the more sure you can break through.

uncertain.

In history, there have been many successful breakthroughs in the existence of four breaking extremes, and many failures of the enchanting breakthrough five times.

In general, the higher the combat power, the greater the chance of breakthrough, but not 100%.

But one thing is certain, the stronger the foundation, the greater the chance of breakthrough.

Breaking through under the great calamity of the origin is a test of all aspects of the body and soul.

For the genius who aspired to break through under the great calamity of the origin, the stepping on the roof is of great significance.

"kill!"

The various stone platforms are fighting extremely fiercely. The battle is mad, and at this point, the three breaks are almost impossible to intervene, and it is almost a duel between the four breaks.

Fu Yuan, Zao Wou-ki and others coughed up blood and withdrew. The injuries were not light. They simply withdrew from the contention.

They were lucky, some of the existences that broke the extreme three times were directly killed, and the blood was here.

There were even four times that the existence of breaking the extreme was killed.

"There are too many masters. There are more than 500 masters who have broken the extreme four times. If I knew there were so many masters, I would not come. There was no hope."

Zao Wou-ki shook his head and smiled bitterly.

There is no way to see how much breaking power there is when it is not revealed. They only knew before that among the people coming in from the outer universe, there are many geniuses.

But I don't know how strong they are, so they came to compete to step on the rooftops. Only now I know that they are sitting in the well and watching the sky. It is terrifying that there are so many geniuses coming in from the outer universe.

More than five hundred four breaks, this is almost terrifying.

Before the passage of the universe was opened, how many times did the entire primordial universe break the pole?

With Lu Ming, there are only three.

As rare as phoenix feathers, at that time, it was impossible to imagine more than five hundred four-time breaks.

But thinking about it the other way round, they were relieved again.

This is the heavens and myriad worlds, and this is the universe and sea.

The total universe of the entire universe is nearly 70,000.

Even if there is a quadruple break in every few big universes, how many are there?

Especially those top-level universes, geniuses of this level, and more.

Four times to break the pole, not five times to break the pole. In the universe, it is not so rare.

Even some medium-sized universes may be born.

Only some small and weak universes can hardly give birth to this level of genius.

Chapter 5096: Eight breaks five times

For example, in the prehistoric continent of the last era, in its most prosperous period, there was no shortage of Tianjiao who broke the extreme four times.

When it was young, dozens, the most prosperous era, there were even hundreds of four-time breaks.

Of course, five times to break the pole, it will be much less.

Sometimes, there is no one in one era.

Even in the most prosperous period, in one era, there are only a few five breaks in parallel.

And the prehistoric universe, the most prosperous period, was only ranked eleventh in the sun, and those stronger universes had absolutely more geniuses.

From this it can be seen how many arrogances of the universe are there.

Five hundred four-time breaks are not too exaggerated. This is only a part. Most of the tianjiao, for various reasons, did not come to the prehistoric universe.

In a word, it's not that there are too many geniuses, but that the universe is too big and there are too many creatures.

This fight lasted for a full hour before the situation of the 64 stone platforms became clear, and they were taken by people.

Eight broke the pole five times!

When the battle came to the back, two more people showed their fighting power five times, defeating the heroes and occupying a stone platform.

The other fifty-sixths were all four times breaking the extreme, and most of them were four times breaking the extreme limit, close to the existence of five times breaking the extreme, otherwise they would not be able to overwhelm the crowd and occupy a stone platform.

This kind of character, if it has an opportunity, may not be able to achieve five breaks.

Even the first day of the Black Sky Warrior Clan's arrogant martial arts battle failed and did not occupy a stone platform.

boom!

Everyone mobilized the energy on the stone platform to temper themselves.

Many people suffered serious injuries after the previous battle. The most serious ones were torn apart and they were about to fall, but under this energy, they recovered quickly, and soon returned to their peak state and improved. Layer class.

After half a day, everyone finished the tempering, because the energy drawn from the stone platform has been exhausted.

If you want to continue to refine, you must draw a higher stone platform and defeat an opponent.

Lu Ming secretly felt that he found that the body, soul, and the power of the emergency source had all gone to the next level.

"If I come here a few more times, I will be confident that I will break through under the great calamity of the origin."

Lu Ming's eyes were brilliant.

The highest step on the roof, he is about to decide.

After that, Lu Ming began to look at the people on the other stone platforms.

In his corner, there are a total of eight stone platforms, all of which are looking at each other.

"Fortunately, there is no such thing as five breaks at the moment."

Lu Ming thought.

Eight corners of the Bagua Terrace, eight stone platforms in each corner, and eight on Lu Ming's side, there was no existence of five breaks.

"It's a coincidence. Eight and five breaks, each in eight different corners, I couldn't touch it in the early days."

Someone whispered.

"It's not necessarily a coincidence. In my opinion, it is those who deliberately avoided. At the beginning, there were six people who showed their fighting power five times. They will definitely avoid each other, and they will show five times afterwards. The extremely two people also deliberately avoided the other six."

"What you said makes sense!"

Everyone discusses.

Avoid it deliberately to avoid premature encounters.

After all, they have broken the pole five times, and they are all top evildoers, and no one is sure to win the other side.

On Lu Ming's side, the other seven people were all looking at Lu Ming, showing deep fear.

I was expecting in my heart that I would not meet Lu Ming prematurely.

Once they meet Lu Ming, they will undoubtedly lose.

How many times the pole is broken is completely divided according to combat power, not according to realm. Therefore, there is no such thing as a cross-level war.

Four times to break the pole and five times to break the pole, you will undoubtedly lose, basically there will be no suspense.

The eight stone platforms slowly turned, and suddenly, two of them flew towards the sky.

The two people on the stone platform were happy.

Because their opponent is not Lu Ming.

When the two stone platforms flew to a certain height, they suddenly collided and merged quickly, and finally turned into a larger octagonal stone platform.

The two Tianjiao stand on both sides of the stone platform.

The fused stone platform can be regarded as a new stone platform. As long as it defeats the opponent, it can arouse the energy of this stone platform and temper oneself again.

The same is true for the other seven regions, where two stone platforms collide together.

"Boy, surrender, otherwise, I will make you die miserably!"

On Lu Ming's side, one of the Tianjiao spoke. This person was gloomy, and he was a Tianjiao from the underworld.

On the opposite side of this person, there is a heavenly arrogant.

"Hehe, this sentence is exactly what I want to give you!"

The Tianjiao from Yang Jian sneered in response.

There is nothing to say, the two come from different camps and fight directly together.

Both of them have very strong combat power. It can be said that they are top monsters in each other's universe, and their combat power has reached the extreme limit of four times. Therefore, the battle between the two is destined to be extremely tragic.

Fighting together thousands of moves, in the end, it was the genius of Yang Jian who won the victory and defeated the opponent with a slight advantage.

After the victory, he aroused the energy of Shitai, enveloped himself, and his injuries quickly recovered.

Then, among the remaining six stone platforms, two more stone platforms flew upward.

I don't know if it's a coincidence or the stone platform has the induction. The geniuses on the two stone platforms still come from the Yin world and the other from the Yang world.

Both of them showed joy, and the faces of the rest were a little ugly.

Because, among the remaining people, the chance of meeting Lu Ming is even greater, can their faces look good.

When meeting Lu Ming, there is almost no suspense, and he is doomed to fail. When meeting other people, he can still fight, and the outcome is unpredictable.

Soon, the two stone platforms flew to a certain height, and they merged into one stone platform, and the two on it fought together.

The combat power of the two sides is almost the same, this is still a shopping battle.

In the end, he fought a thousand moves, and this time, the arrogant of the underworld won with a slight advantage.

After the victory, it naturally mobilizes energy quickly and restores itself.

Afterwards, two more stone platforms flew up.

"Finally it's my turn!~"

Lu Ming whispered.

This time, it was his turn. His opponent was a Tianjiao from the Underworld. This Tianjiao from the Underworld, seeing that his opponent was Lu Ming, his face was ugly to death, his already gloomy complexion was so gloomy. Water dripped.

Soon, the two stone platforms merged together.

boom!

When the stone platforms merged together, Lu Ming shot his hand, like a tyrannosaurus, rushing towards his opponent.

The other party was shocked and hurriedly retreated. In the process of retreating, he fully resisted.

The two collided with each other, and the Tianjiao in the Yin Realm withdrew from the stone platform in the shape of lightning.

This is an active surrender.

Draw red envelopes!

He can clearly recognize the situation. He is not Lu Ming's opponent at all. He is really going to fight. Not only can he compete, but he might even lose his life. It would be better to simply give in.

Chapter 5097: Three Good Fortune

In this way, Lu Ming triumphed easily. He invigorated his vitality and the power of his origin, drew the energy of Shitai, and suddenly Lu Ming was enveloped by the incomparable energy.

This energy is twice as rich as the previous stone platform, and it constantly rushes into his limbs and limbs, tempering his body and soul and having the original power, and grind the foundation.

After Lu Ming's victory, the last two stone platforms in this area also flew up, and the battle started.

When the winner was decided here, the other areas almost decided the winner.

The eight who broke the extreme five times naturally had no suspense and easily won the victory.

Through this observation, everyone can almost be sure that there are no more failures five times, just these eight.

Because other people's battles are extremely tragic, if there are really five breaks, at this time, there is no need to hide it, because there is no need.

After a round of war, sixty-four people became thirty-two people, all bathed in rich and pure energy, gaining good fortune.

This is why it has attracted hundreds of thousands of talents here.

Because the good fortune of stepping on the roof is not limited to one person, but multiple people can get good fortune. As long as you **** a stone platform, you can get good fortune once.

Therefore, some general geniuses, such as those who break the extreme once and twice, all want to try their luck.

But I didn't expect that the number of Tianjiao who came here was beyond imagination.

Under the roof, countless people showed envy and jealousy.

Especially those who have broken the extreme four times, with this kind of good fortune, they can try to make a breakthrough under the great calamity of the origin.

Once successful, the benefits are endless, and the future is hopeful.

"Those who have broken the extreme five times, if they can break through under the great calamity of the origin after getting the good fortune this time, I don't know how strong they will be in the future. It is really unimaginable."

Someone sighed lightly.

"Such a person, as long as he doesn't die, it goes without saying that he will become a king, and he may not be able to become a figure of the level of the king of man."

The old man whispered.

King of People!

Many people were shocked.

At the end of the great famine, the reputation of the three kings of the human race was too great, and the king of absolute kings was one of the small group of strong men who stood at the top of the universe.

As far as the entire universe is concerned, it can be called a side overlord.

Is there such a potential? It's really amazing.

If it is a weak universe, such a character can lead the universe and rise rapidly, the ranking will also rise rapidly, and more resources will be obtained.

The big universe where the Five Times Breaching Extreme Tianjiao is located is all looking forward to it. Even though the big universe they are in is extremely powerful, a human king-level figure can still make their cosmic strength skyrocket.

Nothing is more exciting than those in the Cangqing Divine Realm.

They are extremely looking forward to it.

King of people!

They really hope that Lu Ming can succeed, and the Human Race will give birth to a new King of Humanity.

In the extremely long past, Human Race has risen rapidly because of the birth of Human Wang Shengxi.

Human race, if there is another human king, based on the Cangqing Divine Realm, it may not be able to rise quickly and return to the peak.

But when some people looked at Lu Ming, they were full of murderous intent.

Of course, these people belong to the Eight Clan of Forbidden Land.

Outside of the Cangqing Divine Realm, Lu Ming killed more than 100 origins of the eight clans in the Forbidden Land alone. On average, each clan lost more than a dozen origins. This was a huge loss.

They hated Lu Ming deeply, and they absolutely would not allow Lu Ming to rise.

However, the creatures on the Tiantai platform will be protected by the Tiantiantai formation. With their strength, they can't do it at all. I am afraid that they will be killed by the Tiantiantai formation before they hit Lu Ming. .

"Let's make arrangements first, and when Lu Ming leaves Tiantantai, it is his death date!"

"Great!"

People from the eight ethnic groups in the forbidden area gathered together to discuss.

.....

After a while, all the Tianjiao on the thirty-two stone platforms had completed their tempering.

All of them showed beaming expressions, and their gains were great.

Subsequently, the next round of contention began.

On Lu Ming's side, there were four stone platforms, and two of them flew upward at the same time.

One of them is Lu Ming.

The young man opposite Lu Ming, his face was completely stretched, and he yelled at him with bad luck, and he unexpectedly met Lu Ming.

When he met Lu Ming, he knew that he was bound to lose. His journey to the rooftops ended here.

Originally, he still wanted to win another game and get another chance to refine.

He now has two chances of tempering, and if he gets a third chance of tempering, he will be able to attack the origin.

Unfortunately, Lu Ming couldn't give him the opportunity.

boom!

The two stone platforms converge into a larger stone platform.

There is nothing to hesitate. The Tianjiao on the opposite side retreated violently and directly withdrew from the stone platform. Lu Ming won the victory before he even started.

No one was surprised at this point.

There is no comparability between the four times of extreme breaking and the five times of extreme breaking. This is based on the level of combat power, not on the level of realm.

Afterwards, the remaining two stone platforms also flew up and merged into a larger stone platform. On top of them, the two Tianjiao fought fiercely together.

At this point, there is no weak person, who are promoted from defeating other evil spirits of the same level, and have almost reached the limit of breaking the extreme four times. Therefore, the battle is extremely tragic.

The two of them succumbed to their lives, trying to create a broad road for themselves.

The third refining is very important, perhaps with this refining, it will be possible to break through under the great calamity of the origin.

The two fought in blood, their bodies were mutilated, and they were still fighting.

puff!

In the end, one of the people's head was chopped off, and his body was torn apart and almost fell. He barely dragged his remains and left the stone platform.

Although the other one was victorious, it was not much better. His whole body was in tatters, his internal organs were completely shattered, and his bones were broken.

If it weren't for the existence and vitality of this level, it would have fallen.

However, the price was totally worth it. After he mobilized the energy on the stone platform, his injuries were quickly recovering.

In other areas, the situation is similar to that of Lu Ming's side.

Five times to break the extreme, victory was achieved without fighting, and the others only ended the battle after fierce fighting.

Follow the public account

For a while, everyone completed the tempering.

"It is twice as pure and powerful than the second time."

Lu Ming thought.

It seems that the stone platform at the back is twice as powerful as the energy contained in the stone platform in front each time.

After three times of tempering, Lu Ming felt that both his body and soul were stronger.

In his body, qi and blood surged like the water of a big river.

His soul, he is radiant, exudes a special luster.

Even the power of his taboo origin is more condensed than before.

Become more solid and indestructible.

His combat power, more or less, still has a slight improvement.

Chapter 5098: Spiritual and physical ascension

Although, the combat power that exists in the Origin Realm almost relies on the power of the origin, the origin technique, and the origin-level magic weapon, the body and soul have very little influence.

The body and soul are just the foundation, and have little influence on combat power.

However, the power of the origin has become more condensed, and it still has some influence on combat power.

At least, when Lu Ming casts the origin technique, he can make the power of the origin technique stronger and last longer.

"If I can go to the end and set foot on the highest roof, there are still four opportunities for tempering. By then, my foundation will be extremely stable, and I am absolutely sure to break through the origin under the great calamity of the origin, so I must go to At last..."

Lu Ming whispered, his eyes firm.

He can't be defeated!

Hum!

The stone platform vibrated and began to float upward again.

This time, there was still no suspense. The other party saw Lu Ming, gave up and quit Shitai.

Lu Ming won the victory easily, and he was alone in this corner of the octagonal stone platform.

The other seven corners are similar. The existence of the five breaks all wins without a fight.

There is no existence of four times breaking the extreme and want to challenge the authority of five times breaking the extreme, because without the help of powerful foreign objects, it is impossible to win by relying solely on their own combat power. For this, there have been many people in history Practiced.

There is one person left in every corner.

The eight people, standing in all directions, were all looking at each other, their eyes collided, and they sparked sparks.

"Very well, it's been a long time since I have made five extreme breaks with other universes. This time, the final victory must belong to me!"

Holy Wushuang opened his mouth, very confident.

Among the top ten universes in Yang Jian, none of the first eight have come here. The Holy Light Universe is the highest-ranked universe in Yang.

"Hehe, ridiculous!"

The golden skeletons of the Skeleton Universe sneered, full of contempt.

"If you encounter it, you will be suppressed!"

Sacred Wushuang looked at the golden skull coldly.

"You Shengguang Universe, are you only bragging? I hope you don't get your tongue out."

Golden Skull responded with a sneer.

The others remained silent and began to arouse the energy of the stone platform for tempering.

In the fourth tempering, the energy in Shitai was twice as powerful and pure as before, rushing through Lu Ming's pores madly, tempering Lu Ming's body and soul.

Lu Ming discovered that this kind of energy is most important for tempering the body and soul, and it is secondary to the enhancement of the original power, as if incidentally.

Lu Ming could clearly feel that there was a trace of black matter in his physical body that had been tempered and turned into black smoke and dissipated.

Lu Ming sighed that even though he had deliberately tempered his physical body at this stage of his cultivation, his physical body was also very amazing. Every breakthrough, his physical body would be tempered.

Lu Ming could now blast the characters of the early days of the Emperor with one punch with his body alone.

Originally thought that his physical body was strong and pure enough, but he didn't expect to be able to refine impurities.

Not only the body, but also the soul, black smoke flew out, and impurities were also tempered.

The body and soul have become more pure and dirty, constantly improving and condensing.

When the tempering was completed, Lu Ming discovered that his body and soul had improved a bit.

Now he felt that without other power, he could fight against the existence of the late Divine Emperor Realm with his physical body alone, and with a punch, the void would be exploded.

However, as you get to the back, you get slower and slower.

boom! boom! boom! ...

After completing the tempering, eight corners, eight peerless evildoers who broke the extreme five times, all burst out with a powerful aura, raising the state to the extreme, ready to fight at any time.

All around, there were at least a million people watching the battle. Everyone held their breath and stared at the platform for a moment.

The duel between the five extreme breaks is not common, even in the universe, it is extremely rare.

Because, in the universe, the gods of the realm of Tianjiao are not too strong, they are all protected and will not easily go out of the universe to experience, and generally practice in their respective universes.

In a universe, how many times can the pole break five times?

Even in the top ten universes, in the same era, not many have broken the pole five times, and collisions rarely occur.

As for the universes behind the top ten, one era can give birth to a five-time break, thank goodness, how can you see the showdown between eight five-time breaks at the same time.

Hum!

Suddenly, two stone platforms shook slightly, and then flew upwards, and then the two stone platforms gradually leaned against each other.

"It's holy Wushuang!"

"There is also Tan Ye from the Big Universe!"

Many people exclaimed.

Among the tianjiao on the two stone platforms, one of them is sacred Wushuang, and the other is a peerless tianjiao from the Yin Realm Karma and Fire Universe.

The Karma Fire Universe, although it did not rank in the top ten in the Yin Realm, it also ranked eighteenth, and it was also an extremely powerful Universe.

And Tan Ye is the number one arrogant of the generation of Yehuo Universe.

"Very well, today you are the first one to achieve my prestige, you ghosts of the underworld.."

Divine Wushuang's eyes burst with dazzling brilliance.

Of course, the 'yin spirit' he referred to is just a deliberately degrading term. The creatures in the Yin world are not actually the Yin spirits, and there is actually no difference between them and the creatures in the Yang.

It's just that the living environment is different. They are born with the yin attribute, the cultivation techniques, and the energy they master are also biased towards yin and cold.

However, many people in the Yang room, in order to deliberately depreciate the creatures of the Yin world, it is an insult to call each other the Yin spirit.

Sure enough, a cold murderous intent flashed in Tan Ye's eyes.

Rumble!

Two stone platforms collided and then merged into a larger stone platform.

Swish!

At the moment when the two stone platforms merged together, Sheng Wushuang and Tan Ye turned into two rainbow lights and rushed towards their opponents.

boom!

The first time the two collided, a terrifying roar erupted.

There is no doubt that the combat power of the two has stood on the top of the Divine Lord Realm, breaking the extreme five times, not just talking, the general origin is not enough in front of them.

As soon as the two of them took action, they used their full strength to push their respective combat power to the pinnacle and launched a pinnacle battle.

Five times to break the extreme, without a doubt, all have realized the origin technique, without comprehension of the origin technique, it is simply difficult to achieve the five times of breaking the extreme.

The duel between the source technique and the source technique, the collision of the power of the source and the power of the source, is extremely fierce.

Soon, the two confronted hundreds of moves.

At this time, it can be seen that Divine Wushuang is slowly gaining the upper hand.

The Demon King Emperor pattern appeared on Lu Ming's pupils, watching the battle earnestly.

It was the first time he watched the five extreme matchups, which touched him a lot and helped him a lot.

I have to say that there is no weak person who has broken the pole five times.

Five times to break the extreme, it is almost the limit of the Divine Master Realm.

Although there are legends and powerful inferences in the universe, there should be six times to break the pole, but since ancient times, no one has actually seen six times.

Breaking the pole six times is just an inference.

Chapter 5099: The horror of rent-back fairy bone

In the universe, five times breaking the extreme is the true peak of the limit.

Those who can reach this step are rare evildoers in the world, no one can be weak, the difference is not big.

Lu Ming thought, even if he went up by himself, he was not fully sure.

Although Sheng Wushuang had the upper hand, it was not so easy to defeat Tan Ye.

Sure enough, Tan Ye screamed, with overwhelming aura, resisted with all his might, and fought hundreds of tricks against Divine Wushuang. The result was tragic, and both of them were injured.

Sacred Wushuang's half of his body was smashed, with a hideous face.

Tan Ye was even more miserable, his lower body was directly destroyed, his eyebrows were pierced, and he rushed out of the battlefield with difficulty.

This battle ended in the victory of Divine Wushuang, but it was only a terrible victory, and it did not crush it.

After Shenshan Wushuang defeated Tan Ye, he immediately sat cross-legged and healed his injuries. He did not immediately mobilize Shitai's energy, because he still had to watch other people's battles so as to know himself and his opponent.

Hum!

At this time, two more stone platforms flew up and merged together.

The two peerless evildoers above fought fiercely together.

This battle was even more fierce than the previous one, because the combat power of the two enchanting evildoers did not differ too much. The two continued to fight, looking for the fleeting opportunity, and wanted to solve the battle completely.

In this battle, the two sides tried a thousand moves, and finally one of them, with a weak advantage, won the victory, but the result was that both of them were seriously injured and dying.

However, at their level, as long as they are not killed immediately, there is a way to recover.

Afterwards, there were two more stone platforms, which flew upwards.

This time, one of them is the golden skeleton of the Skeleton Universe.

And the other person, listening to other people's comments, is a peerless evildoer from the tenth largest universe in Yang, the Yuqing universe.

The peerless evildoer of Yuqing Universe is named Jiang Yufeng.

There is nothing to say, the two are fighting together.

But the result was surprising, because the result of this battle turned out to be one-sided.

The golden skull completely crushed Jiang Yufeng.

It is not that Jiang Yufeng is not strong, Jiang Yufeng's combat power is definitely not weaker than the previous Tan Ye and others, but it is still crushed.

Mainly the body of the golden skeleton, too strong, powerful, and invulnerable. During the war, he completely ignored his own defense and attacked with all his strength.

Jiang Yufeng's attack landed on the golden skeleton of the golden skull, making a clanging sound, leaving no trace on it.

"It's terrifying defense, it's completely indestructible, even if the top source-level magic weapon slashes on it, it can't leave a trace."

"With such a physique, it is truly unbeatable. This time, it is estimated that the Xian Bone of Returning Ancestor will finally set foot on the highest platform!"

Many people talked.

Lu Ming also looked solemn.

He measured himself, but found that if he was against the Golden Skull, there was no way he could only fail.

He is not an opponent of the Golden Skull.

It's not that he is weak, but that the Returned Ancestor Immortal Bone is too strong. Anything with the word "Xian" is terrifying and cannot be measured by common sense.

According to legend, the ancestral bones were formed by the bones of the strong immortal Dao, who gave birth to spiritual wisdom.

In other words, the body of the golden skeleton is likely to be the bone of a strong immortal.

How terrifying is the skeleton of a strong immortal? Who can move?

However, some people also put forward different opinions.

"A strong immortal, the body is eternal and immortal. How can there be only one skeleton left? I think it is mostly an exaggeration of the skeleton universe, raising oneself, and wanting to shock others."

"That's right, in the universe where I live, a strong person once deduced it and came to a conclusion that the so-called ancestral fairy bones are probably made by smelting the flesh and blood of the strong immortal Dao in the bones."

"What? It happened."

Everyone talked, some people exclaimed.

Even if it wasn't the bones of the Immortal Dao powerhouse, but the flesh and blood of the Immortal Dao powerhouse was smelted, that would be great, absolutely terrifying.

Is the flesh and blood of an immortal powerhouse so easy to smelt? Ordinary people can't bear it at all, and being able to smelt it shows that their talent is absolutely terrifying.

"The weakness of Returning Ancestor Immortal Bone is the soul, attack his soul!"

Someone reminded me.

In fact, Jiang Yufeng also knew the weakness of the Returning Ancestor Immortal Bone without the need for others to carry it. However, he was not good at soul attacks. Although he knew a little, he was not very strong and could hardly cause great damage to the Returning Ancestral Immortal Bone.

In fact, the existence under the origin has some strength of soul, even if some soul attacks are mastered, the power will not be particularly strong.

For example, the people of the Yin Sha clan know many soul attack methods, and are naturally good at soul attacks, but the power is not particularly strong.

The existence of the Origin Realm is slightly better.

The real horror of the soul attack is after the Origin Realm, entering the realm of Crossing the Immortal Tribulation.

After the training of catastrophe, the existence of the realm of crossing the immortal catastrophe, the strength of the soul will skyrocket, and the use of soul attacks will be very powerful and can instantly destroy the souls of others.

Of course, there is no absolute in the world.

Some people are born with powerful souls, but under the great calamity of the origin, they can be refined into powerful souls to attack.

There are also some people who get some special chances, and they can also become powerful soul attacks. Of course, such existence is very rare.

In general, the Golden Skull completely suppressed Jiang Yufeng. Although Jiang Yufeng was extremely unwilling and tried his best to show terrifying combat power, it was still useless.

The Golden Skull directly resisted Jiang Yufeng's attack with his body, thus making a domineering shot.

With just a few dozen moves, Jiang Yufeng was seriously injured and was knocked out of the battlefield.

"What a terrible strength, the battle power of the Golden Skeleton, in the five extreme breaks, I am afraid that there are few opponents!"

"It's true, if there is no means to restrain him, it will be almost invincible among the five extreme breaks."

Many older people talked about it.

"Sacred Wushuang, I am looking forward to meeting you, see what you can win against me?"

The gaze of the Golden Skull looked at Divine Wushuang, revealing a provocative expression.

Humph!

Sacred Wushuang snorted coldly and did not answer.

Next, the last two stone platforms flew upward.

One of them is naturally Lu Ming.

And Lu Ming's opponent was a blue-skinned young man, surrounded by a black water band, like a river, filled with cold air.

Through the discussion of people around, Lu Ming already knew that this young man came from the tenth largest universe in the Underworld, a peerless evildoer in the Styx universe, named Lan Yuchen.

"Human race, very good. I was not born when the wild universe was destroyed. It's a pity. Now it's time to see what the legendary human race has."

Lan Yuchen had dark eyes like two black holes, and when he looked at Lu Ming, he was full of evil spirits.

"Fortunately, you were born late, otherwise you will cry when you meet the human race of the prehistoric continent!"

Lu Ming smiled contemptuously.

Chapter 5100: Underestimate yourself

Lu Ming's words made the evil spirit in Lan Yuchen's eyes more intense, and he sneered: "Really, I've decided, and later I will let you cry and beg me."

When the two had a conversation, the two stone platforms collided and quickly merged.

Huh!

When the stone platforms merged together, Lan Yuchen moved, and the water belt around his body, which was like a river, instantly soared and turned into a vast river. The waves rolled and rushed towards Lu Ming.

Wherever he went, the void seemed to freeze, exuding a terrifying chill.

Lu Ming grabbed his palm in the air, and the God of War spear appeared and stabbed out.

The spear light is bright, and the tip of the gun, as if there is a sun, emits a dazzling light.

The gun light collided with the river and burst into a violent roar, and then the river was knocked out and flew back to Lan Yuchen.

However, Lan Yuchen had already expected this.

Although he expressed contempt for Lu Ming, his actual actions did not despise at all.

He is very clear that there is no weak person who can break the extreme five times.

Therefore, when the river was hit back, Lan Yuchen rushed towards Lu Ming like lightning, and shot out with a palm, dozens of rivers appeared in the sky and rushed towards Lu Ming.

Yuanshu!

After trying a little trick, Lan Yuchen raised his combat power to the highest level and used the Origin Technique.

Using the origin technique is the real power to break the extreme five times.

boom!

Lu Ming's breath was violent, and his body swelled rapidly, turning into a giant of three feet.

Lu Ming also used the source technique in an instant.

There is no room for hiding at all for the same five times to break the pole, and we must go all out.

Hum!

The God of War spear vibrated, and the body of the gun surrounded the gods. As the God of War spear pierced out, a series of splendid spear lights broke out and pierced the rivers.

The two are constantly colliding.

The duel of peak power aroused violent energy and wreaked havoc in all directions.

"kill!"

Lu Ming roared, his three-foot-tall body broke through the obstruction of watching the river, and slammed towards Lan Yuchen.

"Styx Sword!"

The river around Lan Yuchen's body turned into a war sword and slashed towards Lu Ming.

This river is not a real river, but a top source-level magic weapon.

when!

Lu Ming shook his gun, and the two collided, causing a shocking roar.

It can be seen that the war sword hummed violently, vibrated crazily, and then flew backwards.

Lan Yuchen's complexion changed drastically, and his figure receded in an instant.

call out!

Lu Ming had the upper hand, how could he miss the opportunity and launched a stormy offensive.

"what?"

Those who watched the match were all taken aback.

Especially the people of Styx Universe exclaimed: "Then Lu Ming, how can he be so strong."

"What a terrifying combat power, it has the upper hand so quickly."

"I see, Lu Ming is because he is a creature in this universe and will not be suppressed by this universe, while Lan Yuchen, entering the wild universe, will be suppressed by the wild universe, so they are all five times breaking poles, and their combat power is not as good as Lu. Ming."

"It should be like this!"

Many people nodded.

However, only Lan Yuchen himself knew that this was only one of the reasons, mainly because Lu Ming's combat power was really terrifying.

He felt that Lu Ming's random moves seemed to change a lot, possessing a variety of different attacking powers.

In the same move, the attacking power of different attributes such as hot and cold, sharp, heavy, etc. will appear, making it very difficult for him to parry.

He tried his best to push his combat power to the extreme, but it was still useless and unstoppable. After dozens of moves, he spewed out a mouthful of blood and his face was pale.

Lu Ming's eyes gleamed, and the more he fought, the more confident he became.

He found that he underestimated himself.

To be precise, he underestimated the source art that he had realized by himself.

When he broke the pole four times, he could only barely win Xi Tianteng. He originally thought that he was better than the others five times.

But with his hands, he found that he was completely able to suppress Lan Yuchen.

His origin technique is too powerful.

After all, based on the three thousand ancient mysteries, plus a large amount of magical enlightenment, all the mysteries and magical arts, gathered in one, realized the ultimate sublimation, the power is amazing, and it exceeded Lu Ming's estimation. .

Although he had fought against the existence of the Origin Realm before, it was the first time he fought against the five times.

After all, the realm of the Origin Realm is much higher than him, and it is not easy to measure one's own combat power. Only if there is a war with the same level can one better measure one's own combat power.

"It's really disappointing that you have this strength. Didn't you say you want me to cry on my knees."

Lu Ming said as he shot.

"you..."

Lan Yuchen only felt hot.

Before doing it, he was very confident, and his words could suppress Lu Ming, causing Lu Ming to kneel and cry.

But as soon as he did it, he was suppressed and fell into a disadvantage. The contrast was too big and it was really shameful.

He knew very well that he was indeed suppressed in the Primordial Universe, but even without this heavy suppression, he would not be Lu Ming's opponent, at most he would hold on for a while.

He was unwilling, he screamed, stimulated his potential, raised his combat power to an unprecedented level, and went all out to fight.

But it was still useless, Lu Ming's offensive was frantic, and he retreated steadily.

bump!

After a few moves, Lu Ming broke through Lan Yuchen's defenses, and the God of War spear struck him. Even if Lan Yuchen had the armor body, his body almost broke apart.

He coughed up blood, retreated madly, trying to avoid Lu Ming's sharp edge, and then readjusted himself, adopting the way of fighting, fighting against Lu Ming, looking for opportunities to counterattack.

He is not willing to admit defeat easily.

Huh!

A river appeared under his feet, causing his speed to soar, flashing constantly on the stone platform, actually avoiding Lu Ming's attack seven or eighty-eight.

"Want to compare speed with me?"

A sneer appeared at the corner of Lu Ming's mouth, and a pair of wings emerged from behind.

With his wings flapped, Lu Ming's speed surged, and he instantly caught up with Lan Yuchen's speed, and the God of War spear smashed down like a mountain.

bump!

Lan Yuchen didn't expect Lu Ming to be so fast, and he caught up with him in an instant. He was stunned for a moment, before he had time to resist, he was directly hit on the head.

Even with the top armor body, he couldn't bear it. Lan Yuchen's head almost exploded, his head buzzed, and the whole person thumped and smashed to the ground.

Lu Ming fell quickly, and the God of War spear hit Lan Yuchen again.

Crackling!

Lan Yuchen's bones continued to burst like fried beans, and finally limp on the ground, unable to move.

"not good!"

"Lu Ming, if you have something to say, don't kill him!"

Outside the stone platform, many masters of the Styx universe shouted.

Lan Yuchen failed miserably. In this state, there was no way to escape. They were really afraid that Lu Ming would kill Lan Yuchen.

"Lu Ming, kill him, we are immortal between the Yang and Yin worlds, there is nothing to hesitate!"

An old man in the Great Universe yelled.
