Chapter 511: Muran's father's true identity

A three-color true dragon roared out, slamming with Shengjiang's blue giant sword.

boom!

The energies of various colors swept out.

"Not good! Go back!"

Some of the people who watched around, some were poor, and they were scared back.

And those energies slammed on the ground, and I saw a few words of inscription flash on the ground, and no trace left on the ground.

"Break me!"

Sheng Jiang roared, the breath was stronger, and the blue sword light was more powerful.

The three-color true dragon resisted for only a moment, and was split by Jianguang into two halves.

Lu Ming laid his spear in front of him.

when!

Jianguang cut the barrel of the spear.

Lu Ming felt a huge force rushing in, and flew backwards directly under the huge shock of his body.

After flying for hundreds of meters, Lu Ming's feet landed, and then bumped and bumped back seven consecutive steps, each step, roaring on the ground.

"Xiaocheng Wang, really powerful!" Lu Ming felt his body full of blood and blood, almost spitting out blood.

There is a big gap between Wu Wang San Chong and Wu Wang Si Chong. It is not a simple difference, but two.

Lu Ming's current cultivation practice is the second king of Wuwang. With his combat power, it is not difficult to kill the warriors of the third peak of Wuwang. However, there is still a certain gap with the small king of the four kings of Wuwang.

This cannot be remedied by a single artistic conception.

But I don't know, Sheng Jiang's heart is more horrified, and at the same time, there is a violent murderous opportunity.

Lu Ming, just the second peak of Wu Wu, was able to block his offense twice or twice, which was incredible and made him feel lost.

For the first time, he was blocked by an inferior king repeatedly.

"dead!"

Sheng Jiang shouted, Ling Xun's murderous eruption broke out, and his breath erupted in an all-round way.

This sword, roaring between the waves of heaven and earth, and the sword of Shengjiang combined to make Shengjiang's attack reach its peak.

This sword is much stronger than just now.

boom!

The sound of dragon yin came from Lu Ming's body, and Zhenyuan was running to the extreme. At the same time, the power of the bloodline melted into himself.

He also exerted his full strength.

Even if he loses, he will fight in the end.

"stop!"

Just then, a big drink came, and a white figure came quickly.

People have not arrived yet, a bright sword light has been cut towards the Shengjiang across the sky.

The power is astonishing.

"Who?"

Sheng Jiang's face changed, and he had to turn his sword around, blazing towards the sword.

The two sword lights blasted together, with a roar, the sword was overflowing, and Sheng Jiang's figure could not help but flicked backward, slightly back two steps.

Uh!

A figure appeared in the field.

The snow-white robe, snow-white pants and snow-white boots are all snow-white and sealed like a jade.

"It's him?"

Lu Ming looked, and he recognized it. Isn't this person Mu Xiuyuan?

Lu Ming once kindly reminded.

When did he come to the Central Xuanxuan Palace?

Lu Ming was puzzled.

"Mu Xiuyuan, are you?"

Sheng Jiang saw Mu Xiuyuan, his eyes narrowed slightly, and he was surprised.

"Holy Jiang, I haven't seen you for a long time. How can I grow without seeing this!

Mu Xiuyuan smiled slightly.

"Huh, Mu Xiuyuan, didn't you go to the east to practice? When will you come back? Also, why did you block me?"

Sheng Jiang asked coldly.

"When do I want to come back, it has nothing to do with you? Also, Lu Ming, my friend, of course I have to shoot!"

Mu Xiuyuan said.

"This kid is your friend? So, you must intervene today?"

Shengjiang Road, his face was a bit gloomy.

For Mu Xiuyuan, he was quite afraid.

The other's cultivation base is higher than him, and he is the genius disciple of the Mu family.

In the Tianxuan domain, the strength of the Mu family made the Holy Family quite afraid.

The Mu family will not give the Holy Family face.

"Yes, since I'm here today, you won't be able to touch his hair. If you want to do it, try it. Don't blame me when you're there!"

Mu Xiuyuan said with a smile.

"Okay, okay, okay, Mu Xiuyuan, did you protect him for a while, did you protect him for a lifetime? Behind, there is time, we will wait and see!"

Sheng Jiang laughed angrily, then turned and strode away.

Shengkong, Shengfeng several people, followed quickly and hurriedly towards the city, and disappeared in an instant.

"This kid actually knew Mu Xiuyuan, and he was so lucky that he escaped!"

"Good luck, I can only escape once, offending the Holy Family, but it is not so easy to hide. According to my understanding of the Holy Family, the Holy Family will certainly not be so good."

"Yes, I don't know what the final result of this kid will be?"

Around, some people talked, and slowly dispersed.

"Lu Ming, are you okay?"

At this time, Mu Xiuyuan looked at Lu Ming.

"Brother Mu, thank you for your help!"

Lu Ming clenched his fists.

"Haha, you're welcome. Since you are a friend of Lan'er girl, that's my friend. You don't need to say thank you."

Mu Xiuyuan smiled, very bold.

"Lan Er girl?"

Lu Ming was shocked.

"Oh? Lu Ming, it seems that you don't know yet? I am Muran's cousin. Muran once asked me to take care of you more. Ashamed, I haven't helped you so much!"

Mu Xiuyuan smiled slightly.

Lu Ming suddenly realized that Mu Xiuyuan was Mulan's cousin. No wonder he had been very kind to Lu Ming since the beginning.

"I don't know where is Sister Muran? I haven't seen Sister Muran since joining Emperor Heavenly Guardian?"

At this time, Lu Ming must seize the opportunity to ask.

Yan Lan once told him that Mulan's father was a big figure in Emperor Tianshen Palace, but Lu Ming hadn't seen Mulan for so long since he joined Emperor Tianshen Palace.

It stands to reason that Muran knew that he should join the Emperor Heavenly Guardian, and he should take the initiative to find him.

"Lu Ming, it's not easy to see Mulan's girl!"

Mu Xiuyuan sighed.

"why?"

Lu Ming quickly asked.

"Lu Ming, it seems that there are many things that you don't know yet. Now, let me explain it to you. First of all, Muran's father is now the owner of the Mu family, and is also the owner of the Xuanfen Palace today!"

Mu Xiuyuan threw a heavy news.

"What? Sister Muran's father, is the owner of Tianxuan Fang Gong Palace?"

Lu Ming was taken aback by surprise.

Yan Lan said that Mulan's father was a big figure in Emperor Tianshen Palace. He didn't expect to be directly the No. 1 figure in the Divine Palace of Tianxuan Domain, the owner of the Divine Palace.

This is indeed beyond Lu Ming's expectations.

Then, Mu Xiuyuan spoke again in detail.

The Mu family, although known as one of the two big families of Tianxuanyu, the Mu family, after all, has only risen for a hundred years. The heritage and the holy family are still incomparable. If the Mu family wants to be strong and continue to be strong, you must use The power of the Holy Family.

How to use it?

Marriage is the best way.

Chapter 512: Thousand Pride Ranking

Muran has been dating a hero from the Holy Family since childhood.

But Mulan doesn't seem to like this arrangement. In her view, this is just an exchange of interests, even if the person she is dating with is extremely good.

Therefore, Muran left the Tianxuan Fang Gong very early and ran to the Xuanyuan Sword School.

But some time ago, because of Lu Ming's relationship, she again sent a message to her father and promised to return to the Emperor Tianshen Palace, on the condition that Lu Ming received an invitation letter from Emperor Tianshenwei.

This incident was later known to the Tianjiao of the Holy Family, so it was only after sending people to the Eastern Palace that Lu Ming's conflict with the Holy Family occurred.

After listening, Lu Ming suddenly realized.

Combining what Yan Lan had said with him, now, everything is clear to him.

"Alas, Sister Muran, why does she suffer? For me an invitation letter, actually..."

Lu Ming sighed.

"Lu Ming, you don't need to blame yourself. In fact, Muran's girl also understood that she could not hide. At a certain time, her father would definitely send someone to take her back. Invitation card."

Mu Xiuyuan said.

But for a time, Lu Ming still couldn't let go, frowning: "I don't know what to do? Can I help Sister Muran?"

"It's hard to help her!"

Mu Xiuyuan sighed.

"You said, as long as I can do it, I will do my best!"

Lu Ming said.

"It's very simple, as long as you defeat the Holy Family Pride of Mulan Ding, prove that your talent is stronger than the other party, things will naturally turn for the better!"

Mu Xiuyuan said.

"Just defeat the opponent?" Lu Ming said with a shock.

"Lu Ming, it is very difficult to defeat the other party. Do you know who the other party is? He is the genius of the Holy Family, known as a rare one hundred years ago, the Holy Family Tianjiao Shengxing."

Mu Xiuyuan said.

"Oh? How strong is he?"

Lu Ming asked.

Mu Xiuyuan didn't answer, but pondered for a moment, then asked, "Lu Ming, do you know the Donghuang Qianjiao list?"

"Donghuang Qianjiao List?"

Lu Ming was stunned for the first time.

With a move, Mu Xiuyuan showed up with a thick book with five characters: Donghuang Qianjiao.

"Donghuang Thousand Pride List was compiled by the First Chamber of Commerce in China and the Tianji Chamber of Commerce!

"The above includes the thousand strong peers of Donghuang who are under 30 years old and the strongest of the younger generation. This is the Donghuang Qianjiao list!"

"The vast eastern wasteland, countless territories, only lists a thousand arrogances. One can imagine that each of these thousand arrogances is a terrifying genius!"

"And the Holy Star is on the top of the list of Donghuang Qianjiao, ranking 998! This is also the only genius in Tianxuanyu who has made the list of Donghuang Qianjiao. Its cultivation practice has definitely reached the realm of Dacheng King. "

Mu Xiuyuan explained seriously.

Lu Ming's eyes flickered and opened the last few pages of the Donghuang Qianjiao list. Sure enough, he saw the name of the Holy Star.

The cultivation marked above is also a great king, but the specific martial king is a bit heavy, but he has not written it.

"Is this Donghuang Qianjiao list accurate? Donghuang is so big and has so many geniuses, can it really be on the list?"

Lu Ming wondered.

Mu Xiuyuan nodded and said, "The Tianji Chamber of Commerce, the first chamber of commerce in the mainland, is extremely powerful. It is everywhere in the mainland, and all kinds of news are also the most informed. Therefore, although it is impossible to say that it is 100% accurate, But it's also ten or nine."

Lu Ming nodded, whispering in his mouth: "Is the Qianjiao list?"

"So, it's too hard to defeat the Holy Star!"

Mu Xiuyuan sighed.

"I will beat him!"

Lu Ming whispered in his heart, but he didn't say it. Before he had the strength, he just put it in his heart and said it. Instead, he was regarded as a joke by others.

"Forget it, don't say this, Lu Ming, you just came to Tianxuan City, I'll show you around, Tianxuan City is very different from other places."

Mu Xiuyuan shook his head, as if to throw out the troublesome things, a smile appeared on his face.

"Okay!"

Lu Ming nodded.

Immediately, Lu Ming and Mu Xiuyuan went to Tianxuan City.

As soon as he walked into Tianxuan City, Lu Ming saw the layers of houses, which were dark and made of black stones, full of the ancient atmosphere.

Most of these houses were preserved from the ancient times together with Tianxuan City.

"What a rich heaven and earth aura, and, is that, heaven and earth artistic conception?"

Lu Ming's expression moved, and his face was amazed.

The aura of heaven and earth in Tianxuan City is thicker than the eastern part of the palace, and there is a faint mood of heaven and earth between heaven and earth, which surprised Lu Ming.

The speed of practicing here and comprehending the world's artistic conception is much faster than the outside world.

Mu Xiuyuan smiled slightly and said, "Tian Xuan City, built on a super aura eye and a Dao eye, is full of rich heaven and earth aura, and has a strong heaven and earth mood. The more you go inside, the stronger the spirit and the mood of the world will be, the stronger!"

"Oh!"

Lu Ming's eyes lit up.

Immediately, the two walked down the street, towards the depths of Tianxuan City.

Along the road, Lu Ming glanced around.

On both sides of the street, there was no shop, so Lu Ming secretly wondered.

This is the first time Lu Ming has seen a shop in Chengchi.

Seemingly seeing Lu Ming's thoughts, Mu Xiuyuan smiled and said: "Tianxuan City is different from other cities. In Tianxuan City, every inch of the earth and every room is a holy place for cultivation. Some Emperor Tianshenwei, who live in Tianxuan City, need to rent a house!"

"Rent a house?"

Lu Ming was surprised.

"Yes, rent a house to live. The entire Tianxuan City is divided into four areas, the outermost circle is the first area. Generally, renting a house requires between 100,000 and 10,000 inferior spirit crystals a day. Here, most of them are rented and lived by Wu Zong level warriors!"

"Go inside and enter the second area. The spirit of heaven and earth and the mood of heaven and earth are stronger. The amount of the loan has also been greatly increased. One day of rental requires one piece of super spirit crystal to ten pieces of super spirit crystal!"

"The third area, renting a day, requires between ten Needling Spirit Crystals and one hundred Needling Spirit Crystals!"

Mu Xiuyuan explained.

wire...

Lu Ming took a breath.

This price is too expensive, it is ridiculously expensive.

You should know that the Taoist Palace in the eastern part of the palace, one day of cultivation, is only one hundred Needling Spirit Crystals, but the third-tier area, the most expensive price has reached one hundred Needling Spirit Crystals for one day.

"What about the fourth area?"

Lu Ming asked.

The third area is so terrifying. How much spirit crystal should be needed in the fourth area?

Mu Xiuyuan shook his head and said, "The fourth area, which is generally not rented out, is some high-rises of the Mu Family and the Holy Family, as well as elite children, and some high-rises of the Tianxuan Fen Gong, Ordinary Emperor Tianshenwei, who wants to rent in the fourth area, not only has a terrible rent, but also needs special conditions."

Chapter 513: Inch soil inch gold

"In addition, if you want to buy a suite in Tianxuan City, a mansion, it's ok, but the price is ridiculously high!"

"So there is a saying in Tianxuan City. If anyone can be assigned to a suite, they will become rich overnight and struggle for decades."

Mu Xiuyuan said.

Lu Ming marveled.

It is true that Tianxuancheng has a lot of money, if it can be allocated to a suite, even if it is rented to others, it will be issued.

"However, it is very difficult for the general Emperor Heavenly Guardian to assign to a suite. Unless you make a big contribution, only Mu Family and Holy Family will have some people assigned to the room."

Mu Xiuyuan continued.

Lu Ming smiled bitterly and could only envy.

No wonder the geniuses of the Holy Family come out like masters. I can imagine that the geniuses of the Holy Family are cultivated in such an environment every day. Can they be strong?

Other Emperor Heavenly Guardians spend a lot of Spirit Crystal on loan every day to live and practice. This is the gap.

The two chatted while walking.

Soon, the two came to the second area.

Here, the aura of heaven and earth and the artistic conception of heaven and earth are much stronger than the first area.

"Lu Ming, in which area do you want to rent a house?"

Mu Xiuyuan asked.

"Go to the third area!"

Lu Ming said.

There aren't many spirit crystals on his body, but did he just grab a storage ring from the holy wind? I believe there will not be too few top-quality spirit crystals in it, just use it.

"go!"

Soon, the two came to the third area.

Here, the spirit of heaven and earth and the artistic conception of heaven and earth have reached an astonishing point.

To live one day, at least ten Needling Spirit Crystals are needed, and the most expensive one is one hundred Needling Spirit Crystals.

Lu Ming looked at it for a while, then stopped in front of a mansion.

"Just this one!"

Lu Ming said.

Mu Xiuyuan nodded and said, "Lu Ming, then I won't be with you anymore. By the way, this time the Emperor Heavenly Guardian sent by the Quartet Division to support, just came for half a month, you can take a good rest without going out with The Celestial Sect fights, but half a month later, they will set off to fight the Celestial Sect."

"There are generally two ways. One is that the mission hall will issue some missions about killing the corpse of the sky, and there will be rewards for completing them. Second, if someone does not take the mission, he will be arranged to go to the battlefield to participate and The Battle of the Celestial Sect!"

"Thank you Brother Mu!"

Lu Ming clenched his fists.

"Well, then I will go first!"

Mu Xiuyuan smiled, and then strode deep into Tianxuan City.

Mu Xiuyuan is the Mu family heir, and the cultivation is unfathomable, naturally living in the deepest part, the fourth area.

After Mu Xiuyuan left, Lu Ming walked towards the mansion next to it.

"Does this little brother want to rent a house?"

At the gate of the mansion, a middle-aged man saw Lu Ming coming in and smiled.

"Yes, I'm renting a house. How many spirit crystals a day?"

Lu Ming asked.

"Fifty Needling Spirit Crystal a day, how long will the little brother rent?"

Middle-aged man.

"Lease for fifteen days!"

Lu Ming took out 750 pieces of Needling Spirit Crystal and gave it to the middle-aged man.

The middle-aged man took it, the smile on his face was stronger, and took out a jade card, saying: "Little brother, this is your key, your room is in room 19!"

"it is good!"

Lu Ming took the jade sign and walked towards the mansion.

In the mansion, there is a room, and outside each room, the room number is written.

On the 19th, Lu Ming quickly found the room on the 19th.

These rooms are all stone, and even the door is a stone door. On the stone door, there is a pit, Lu Ming put the jade card into the pit.

Click!

The stone door opened automatically, and Lu Ming walked in.

The room is very simple, just a bed, a table.

Lu Ming closed the door and sat cross-legged on the bed.

As soon as his thoughts moved, Lu Ming seemed to merge with heaven and earth, quietly realizing the mood between heaven and earth.

"The artistic conception here is really clear!"

Lu Ming was quite shocked.

He felt that although it was a bit worse than in the Taoist palace, it was much stronger than the outside world.

And here, it's just the area of 50 Needy Spirit Crystals for a day, and those areas of 100 Needy Spirit Crystals, even if they are not comparable to the Taoist Palace, will not be too far away.

What is the fourth area?

No wonder, the Holy Family occupies these resources. No wonder that for countless years, it has been prosperous forever, dominating the heavenly domain.

Lu Ming took out the ancient tree of enlightenment to let him comprehend the conception of heaven and earth more quickly. Now, he mainly focuses on the conception of fire.

...

In the fourth area, an elegant courtyard houses dozens of young strong men from the Holy Family.

Among them, Shengfeng, Shengkong and Shengjiang are all in it.

At this moment, the holy wind and holy sky, there is another young man, standing there blushing.

"Several of you, it's really a waste. It was beaten by a rural gangster in the east of a district. It really disgraced my holy family. This time, if St. Jiang arrived, our holy family would really be embarrassed."

A young man wearing a purple robe, with a purple jade finger in his hand, said coldly.

Among these dozens of youths, the youth in the purple robe obviously has a high status. Although the faces of Shengfeng and Shengkong are extremely ugly, they dare not refute.

"This time, if the guy Mu Xiuyuan intervened, I would have scrapped the kid and took him down!"

Sheng Jiang said coldly.

"Huh, this time, I don't blame you. Mu Xiuyuan's fellow, he will teach him sooner or later. The main thing now is to win the kid named Lu Ming. This is not only about the face of the Holy Family, but also the stars. What the Lord means!"

Zipao Youth Road.

As soon as the young man in the purple robe mentioned the holy star, some other young men's complexions changed immediately and became very serious.

Seems in awe of the Holy Star.

"But the kid must have entered Tianxuan City to rent a house now. Tianxuan City is so big, so many houses, it is difficult to find him!"

Another youth road.

"This is simple, that Lu Ming, coming from the east to support, can rest for a maximum of half a month. After half a month, he must show up. Then he will either take the task or force him to assign the task, as long as we send people to stare In the mission hall, as soon as he appears, we naturally know!"

Zipao youth said with a confident face.

"Brother Yu is wise!"

Other youths flattered.

The young man in the purple robe, named Shengyu, smiled proudly at this time and said: "Sometimes ago, Young Master Xing was getting a chance encounter. Now he is retreating and practicing. When the Young Master Xing is out, he must be stronger. What we have to do, That is, before the young master star went out, he won Lu Ming. In this way, the young master star will definitely value us more!"

"Yes, that's for sure, Lu Ming's kid, dead!"

Others responded one after another.

Of course, Lu Ming didn't know all this, and he practiced wholeheartedly.

In a blink of an eye, five days passed.

I don't know why, he feels that the concept of fire has reached the limit, but he can't condense the artistic rune.

Chapter 514: Plane task

He felt a force preventing him from condensing the Rune of Artistic Conception of Fire.

This force actually came from the rune of the artistic conception of thunder and the artistic conception of wind.

These two artistic runes are generating resistance, preventing Lu Ming from condensing the artistic runes of fire.

This situation was actually discovered when Lu Ming condensed the rune of artistic conception of the wind.

At that time, Lei's artistic conception rune also produced an impediment, which prevented Lu Ming from condensing the artistic conception rune of the wind.

However, it was only a single kind of thunder rune, and the hindering power was not great. Lu Ming was rushed by.

But now, the obstacles generated by the two artistic conception runes are too strong, and Lu Ming can't pass it for a while.

No wonder, others will say that the same conception of fellow initiates will become more and more difficult in the future, and there will be almost no achievements.

This will not only disperse energy, but will also be difficult when breaking through.

Lu Ming's three kinds of artistic conception, if they are successfully integrated, will have such a strong obstacle force, and those that have not succeeded in fusion will have a stronger obstacle force.

"If I want to condense the rune of the artistic conception of fire in one fell swoop, I am afraid it will take a long time to polish it. Without three years and five years, I am afraid it cannot be done."

Thinking of this, Lu Ming shook his head for three years and five years? The time is too long, how can he spend so long?

If this road does not work, then you have to take the second road.

With the help of external force, force the impact.

Among the external forces, Aoyi spar is undoubtedly the most effective.

However, the general Arcane crystal is probably not effective.

You need Zhongpin Austrian Crystal to succeed in one fell swoop.

But, Zhongpin Austrian Crystal?

Lu Ming smiled bitterly at the thought of this.

Aoyi crystal is divided into inferior, middle, top and top grade.

What Lu Ming had been in contact with before was the inferior Aoyi spar.

The lowest price in the market also requires a billion inferior crystals, that is, a thousand pieces of crystals.

However, the middle-grade Aoyi crystal is a thousand times more expensive than the lower-grade Aoyi crystal.

Yes, it is a thousand times.

A medium-quality Aoyi crystal must have at least one million pieces of top-quality spirit crystal, which is terrifying.

The main reason is that the middle-class Aoyi crystal is too rare to be encountered.

However, the effect of middle-grade AoYi crystal is much different from that of the next-grade AoYi crystal, and I don't know how many times it is stronger.

Therefore, Lu Ming can only smile bitterly.

He now only has 60,000 pieces of super-spirit crystals obtained from Shengjiang.

Sixty thousand pieces of the best spirit crystal, I am afraid that Lu Ming is not enough to impact the king of Wu.

Poor, Lu Ming felt that he was too poor and the spar was far from enough.

In addition, the Zhenyao gun is really unusable. Lu Ming still wants to find a Wang Mingming refining master, refining a spear?

Looking for a master class refining master to refine a lance, the price is definitely not cheap.

All of this requires Spirit Crystal.

"Cultivate for a few more days, and then see if there are any tasks!"

Immediately, Lu Ming continued to practice.

This time, he mainly focused on comprehending Lei's artistic conception.

Soon, ten days passed.

Thunder's artistic conception has made rapid progress, and has already reached the middle stage of first grade.

At this time, Lu Ming had just lived here for fifteen days, and the house's date was up.

Lu Ming returned the jade sign, walked out of the mansion, and then walked to the mission hall.

The mission hall is not in the third area, but in the second area.

In this heavenly city of heaven and earth, the area of the mission hall is not large. In the mission hall, people come and go.

There are young people and old people, there are all kinds of people, but each one has a very strong breath, and they are all strong in the realm of martial kings. Emperor Heavenly Guardian.

The third-level Emperor Celestial Guardian is generally the King of Xiaocheng.

Lu Ming walked into the mission hall and looked around.

"Ok?"

Lu Ming suddenly found that under a stone inscription filled with inscriptions, there were the most people, and most of them were young people.

Lu Ming was a little curious and walked over.

There is a line of writing on the stone tablet. These writings are all about introducing a task.

Lu Ming also looked at it.

"This mission...!"

Lu Ming's eyes lit up suddenly.

This task is very suitable for Lu Ming.

The Emperor Tianjing Palace discovered a brand-new plane not long ago. It has never been discovered before and has never been mined.

The strong man of the Emperor Tianjin Palace finds the weakest place in this plane space, breaks it and builds an entrance.

However, it was later discovered that this plane, the inherent law, actually has years of inscriptions, and martial artists over the age of 30 cannot enter at all.

Only warriors over thirty years old seem to fit the law of that plane before they can enter.

Behind, a warrior under the age of 30 entered and found that this plane is very vast and endless. Not only there are indigenous people born on this plane, but also a lot of very valuable materials.

For example, Aoyi spar.

Yes, the mysterious crystal contained in this plane is dozens of times, hundreds of times more than the outside.

It is normal for a plane that has never been mined to contain a large amount of crystal.

Aoyi crystal contains innate apocalypse.

For a time, Emperor Tianjin Palace sent a large number of martial arts under the age of 30 to enter this plane to mine Arcane crystals and other precious materials.

But at this time, they found that the Heavenly Corpse Sect actually discovered this plane, and also opened an entrance, sending a large number of body guards under the age of 30 into this plane.

Naturally, when the two forces met, it was inevitable that a fierce war would erupt, and both sides suffered heavy casualties.

In the following months, the two sides launched a brutal hunt in this plane.

A few months later, the Emperor Tianshen Palace has already issued a mission. Any Emperor Heavenly Guardian under the age of 30 can take the mission and enter this plane to hunt the corpse guard.

The various materials discovered by himself, the Emperor Tianjing Palace did not pick up anything, and would only purchase them at a high price.

In addition, the corpse guards who hunted the corpses of the celestial corpse can also obtain generous rewards.

Slash a corpse guard with a heavy weight and reward 2,000 Needling Spirit Crystals.

Slash a corpse guard with a double king, rewarding 5,000 Need Spirit Crystals.

Kill a triple guard of the King of War, rewarding 10,000 Need Spirit Crystals.

Kill a corpse guard of the four kings of the king of war, rewarding 20,000 pieces of the best spirit crystal.

The killing of a Wu King's five-fold corpse guard rewards up to 50,000 Needling Spirit Crystals.

...

The rewards can be described as very generous, and Lu Ming is very excited.

This task not only has rewards, but also obtains Arcane Crystal.

However, this task is also extremely dangerous.

Emperor Tianshenwei has rewards for hunting and killing corpse guards, and the Scorpion Sect also issues missions to corpse guards. Hunting Emperor Tianshenwei also has generous rewards.

In addition to this, it is also necessary to guard against the indigenous people of that plane. The indigenous people of this plane are becoming dangerous.

"Just this task!"

Lu Ming walked directly to the counter.

"I'm going to take the task of the scale demon plane!"

Lu Ming said to an old man at the counter.

The scale demon plane is the name of that plane.

Chapter 515: Scale Demon Plane, Team

"Yes, I'll help you register. How many pieces of Soul Sealer do you need to buy?"

The old man asked.

Sealing the soul crystal, can block the soul, as long as the warrior who killed the corpse of the heavens, confined their souls in the crystal of the sealing soul, and brought it back to the Emperor Tianshen Palace, it is natural to know how many corpse guards killed the corpse of the day .

Moreover, some Ming refining masters can also use warrior souls to refine some peculiar things.

Normally, it is generally not allowed to kill other warriors, ban the soul, and be used for inscriptions. However, the Celestial Sect is the hostile force of the Emperor Tianshen Palace, and the cultivation of the evil gate exercises, naturally there is no problem.

"I bought one hundred Soul Sealing Crystals!"

Lu Ming pondered for a while, said.

"One hundred dollars? Little one, your appetite is not small!"

The old man was slightly taken aback, and looked at Lu Ming with some surprise.

"Buy a few more pieces in case you need it from time to time!"

Lu Ming smiled slightly.

"Well, okay, there are ten Needling Spirit Crystals, one hundred, for a total of 1,000 Needling Spirit Crystals!"

The old man said, and took out a box, which contained a lot of angular and dark red crystals.

This is the Soul Gem.

Lu Ming also took out a thousand pieces of Needling Spirit Crystal and gave it to the old man. Then he collected the Soul Gemstone and walked out.

After a while, Lu Ming went out of Tianxuan City, turned into a lightning, and headed north.

The entrance of the scale demon plane is five million miles north of Tianxuan City.

Even at the speed of Lu Ming, it will take a few days.

In Tianxuan City, Sheng Yu's other courtyard, someone was telling Sheng Yu.

"Lu Ming is already in the mission hall and has received the mission of the scale demon plane!"

A young man reported to Sheng Yu.

Several masters such as Sheng Jiang were also on the sidelines.

"Sure enough, I didn't expect that Lu Ming really took the task of the scale demon plane. Now, news is coming out, and we should start!"

Holy Jade Road, the murder in his eyes flickered.

"Finally, Lu Ming, this time, to see who can save you, I not only want you to die, but also your reputation!"

On the side, Shengkong gritted his teeth.

The man in the Holy Family, whoever said he hated Lu Ming the most, was definitely him. He had been abused by Lu Ming twice.

In addition, the holy wind is almost the same. Lu Ming has taken away all his belongings. Isn't it unreasonable?

"Lu Ming, dare to take my storage ring, I want you to spit it out ten times."

The holy wind shouted.

...

Three days later, Lu Ming crossed a distance of five million miles and appeared in a small city.

The entrance of the scale demon plane is in this small city.

At first glance, this small city was newly built, just because of the entrance of the scale demon plane, but it was only a few months long.

Lu Ming walked into the small town and headed towards a huge palace in the center of the city.

At the gate of the palace, there are master guards of the Emperor Tianshen Palace. Not only the gate, but some of the stone houses around them are surrounded by some strong men, that is, to prevent the Tianzong Zong from attacking here.

"Come here and stop, if you want to enter the scale demon plane, first verify your identity!"

At the door, a big man blocked Lu Ming's way.

Lu Ming took out the guardian token and gave it to the big man. After checking, the big man nodded and said, "You can go in!"

Lu Ming put away the guardian token and walked into the hall.

In the hall, it was very empty, and there was only a black vortex. Around it, the inscriptions shone.

This is the entrance to the scale demon plane.

Lu Ming did not hesitate and stepped inside.

The heavens and earth twirled, and at the next moment, Lu Ming discovered that he appeared on a huge square.

A loud noise came into Lu Ming's ear.

Lu Ming discovered that there were many people in the square.

All of them are young men and women under the age of thirty. They gather together in groups of three or five. Some are chatting with each other, and some are sitting cross-legged, closing their eyes and raising their minds.

Lu Ming glanced and found no fewer than hundreds of people.

In front of the square, there is a majestic high wall, with a high energy of 300 meters, surrounding the whole square.

This high wall was built to resist the attack of the scale demons.

Because here, it is the place where Emperor Heavenly Guardian departs, it is also the place to rest and adjust, the place to gather.

For the scale demons, they belong to outsiders and aggressors. The scale demons naturally hate them and will naturally attack them.

"Come and come, our team is still short of a person. Which one is willing to join our team, it is enough to cultivate to achieve the Wu Wang double, and everyone will get together and start immediately!"

"Come on, our team lacks a warrior who understands the mood of the wood. As long as you know several healing methods, you can join."

"Our team lacks a warrior who understands the artistic conception of the earth and is good at defense. Which brother came from?"

At this time, a loud shout came into Lu Ming's ear.

This is the Emperor Heavenly Guardian in the formation of a team, together to hunt the body guards of the corpses of the celestial corpses, looking for treasures.

The artistic conception of each attribute is different.

Like the wind, it is good at speed, like fire, and the explosive power is extremely scary.

Like the mood of wood, he is good at healing and healing, while the mood of earth and the mood of mountains are better at defense.

Only when multiple people form a team and the mood complements each other, can the strongest power burst.

Going alone is too dangerous after all.

"This brother, look at you as a real boy. Is this your first time in the scale demon plane?"

At this time, four young men and women came towards Landing Ming.

Three men and one woman.

At the forefront was a young man with a burly figure, with a handsome face and a sincere smile on his face watching Landing Ming.

It was this young man who spoke just now.

"Yes, this is my first time."

Lu Ming said.

"Oh, it's Hanban, I don't know what to call the brothers?"

Han Man clenched his fists and smiled.

"Under Lu Ming!"

Lu Ming replied.

"It turned out to be Brother Lu, Brother Lu, our team is just short of one person. I don't know if Brother Lu can join us and hunt the corpse guards of Heavenly Corpse Sect together?"

Han Mandao said, very sincere in his eyes.

Lu Ming pondered for a moment, hesitating.

"Brother Lu, this is Yao Xuan, who just joined our team. Now our team is short of one person. After all, four people are too weak. With Brother Lu, we can start."

Han Man pointed to the woman.

The woman, who looked like a twenty-four or four-year-old, was petite and exquisite, and her appearance was very beautiful and beautiful. At this time, she looked timidly.

At this time, Han Man continued: "Moreover, Brother Lu came to the Scale Demon Plane for the first time, and may not be very familiar with everything. Join our team and we can discuss each other!"

"Okay, I join!"

Lu Ming groaned and nodded.

Indeed, as Han Man said, he came to the Scale Demon Plane for the first time. He didn't understand a lot of things. The location of the Scale Demon Plane was blackened.

It is necessary to join a team first and get familiar with it.

After he is familiar with the scale demon plane, he will consider acting alone.

Chapter 516: Scale Demon

Moreover, Han Man and others looked sincere and should be able to cooperate, so Lu Ming agreed.

Seeing Lu Ming agree, Han Man showed great joy, and said: "That's great, Brother Lu, let me introduce Brother Lu!"

Immediately, Han Man introduced it.

Han Man himself, Wu Wang Sanzhong's later cultivation practice.

Yao Xuan, Wu Wang's second peak of cultivation.

The other two young people are really a pair of brothers named Mu Lin and Mu Sen.

A Wuwang triple pre-cultivation behavior, a Wuwang second double peak cultivation practice.

Everyone is good at different moods, some are good at defense, and some are good at attacking and fighting.

"Okay, people are here, let's go!"

Han Mandao said.

Immediately, a group of five people walked towards the huge high wall.

Under the high wall, there is a huge stone gate. Five people walked out of the stone gate. Outside the high wall, there is an endless vast mountain.

"Near the gathering point, all have been explored. All kinds of treasures and crystals have been searched. We can only get some chances and treasures if we go to a wider place!"

"However, there are more treasures in a wider area, but it also means more dangerous, because there are a large number of scale demon clan that have not been destroyed, what do you think?"

Han Man asked everyone.

"We have no opinion!

Mu Lin and Mu Sen nodded.

"I... I have no opinion!"

Yao Xuan said timidly.

"I have no opinion!"

Lu Ming smiled slightly.

"Okay, let's start. It's better to meet the small scale demon tribe, then we will send it!"

Han Man's eyes erupted in his eyes.

According to the experience of this period, generally in the scale demon tribe, there will be a Arcane crystal pit, which can excavate Arcane crystal.

Uh! Uh!

The five rose into the sky and went deeper into the scale demon plane.

The scale demon plane is huge. Among the small planes, it is absolutely top-notch, and it can even be regarded as a medium-sized plane.

The wide scope can almost be described as boundless.

The Emperor Tianjing Palace and the Celestial Sect have discovered the scale demon plane for a few months, and have not explored the margins at all, and there are even a large number of areas that have not been explored.

The five people continued to fly, and one day later, they had flown nearly a million miles.

When they arrived here, their speed decreased, because here, the Emperor Tianjing Palace was less explored, and the danger increased accordingly.

"Look, it's black forest grass!"

Suddenly, Mu Lin pointed to a mountain in front and called.

Lu Ming looked at it, and on the cliff of that mountain, he saw a dark, dark grass.

There are about a dozen plants, like black jade, which are shiny.

That is black forest grass, a kind of fifth-grade middle grade spirit grass, the price is very high.

"Hahaha, I didn't expect that as soon as we came in, we met dozens of fifth-grade middle-grade spirit grasses, so good luck!"

Han Man laughed.

Lu Ming also sighed.

It is a plane just discovered, and the product is rich. If it is outside, the fifth-level spirit grass is very rare.

It is basically difficult to find the fifth-level spirit grass in the wild, and it has long been stripped.

Yes, most of them are artificially cultivated, or they may appear in some mountains and deep mountains, or in some Jedi.

Also, there are some secret realms in the plane.

"We take it off and share it equally!"

Han Mandao said.

The five people flew towards the cliff, and then Zhenyuan took a roll and took off this piece of black forest grass.

"Good luck, just fifteen, we have five each!"

Han Man grinned.

Then one person divided five plants, and a smile appeared on each face.

"Let's take a look nearby to see if there are other spirit grasses!"

Han Man proposed.

"it is good!"

"it is good!"

Everyone nodded in agreement, then searched among the nearby mountains.

Lu Ming also rushed into a mountain alone, glancing at him.

"Huh? Is this the millennium mushroom?"

Lu Ming found a purple mushroom under an ancient tree, and the rich spirit essence diffused from this mushroom.

The strength of the essence of Reiki is still above the previous black forest grass.

This is a five-level top-level elixir, one level higher than the black forest grass.

Lu Ming overjoyed to put it away.

Lu Ming's physical body has now reached the sixth grade perfection. If he wants to break through, the fifth-level elixir is almost useless, and the sixth-level elixir is necessary.

Although the fifth-level elixir can't help Lu Ming to break through, but it is sold at a high price. This kind of thing is more beneficial.

Lu Ming was excited and was about to continue searching.

boom!

On a mountain not far away, a sudden roar burst.

"Scale Demon Race!"

A roar came from Mu Lin's voice.

Lu Ming moved and rushed towards the other side.

Uh!

In a mountain, a figure rushed out and looked very embarrassed. Behind him, a dozen burly figures with a height of more than two meters chased out quickly.

These figures are very peculiar in length, and their facial features are similar to those of humans, but they are covered with dark scale armor, covering them like armor.

This is the scale demons.

Wow! Wow! ...

These scale demon crows roared and shouted, and they could not understand what they were screaming, waving tomahawks, iron bars, etc., and slamming towards the woods.

One is equivalent to the double peak of Wuwang, three is equivalent to the early stage of Wuwang, two are equivalent to Wuwang, and the others are half-step kings.

Lu Ming moved.

It's no wonder that Mu Lin is going to flee in embarrassment. His cultivation behavior is also the peak of Wuwang's double. In the face of so many scale demon clan, he is naturally invincible.

Uh!

Lu Ming rushed past.

Wow wow!

A martial demon clan roaring in the early stage of the double king, holding a battle axe, slammed towards the landing.

The tomahawk swung out, which contained terror and great power.

This scale demon clan has extremely terrifying physical strength, and has a strange power, similar to the true element, but different.

call out!

Lu Ming's spear shocked and turned into an electric light burst.

Boom!

This scale demon tribe, the eyebrows are directly penetrated.

The scale demon roared and fell to the ground.

"What a hard scale!" Lu Ming whispered.

The scale demon, even the face, is covered with scale armor, and it is extremely hard. Lu Ming just stabbed a shot and felt great resistance.

At this time, Han Man, Mu Sen and Yao Xuan have also arrived, killing those scale demon clan.

The cultivation of Han Man Wu Wang's Triple Peaks is extremely powerful, and the scale demon race of Wu Wang's Double Peaks was completely suppressed by him. After a few moves, he was killed by Han Man.

Lu Ming's spear pierced and turned into a rifle.

puff! puff!

Five or six scale demon races were pierced by guns and fell to the ground.

It didn't take long for these scale demon tribes to be killed.

"According to previous experience, these dozen scale demon tribes should be a hunting team of a scale demon tribe. They came out to hunt prey, and they just happened to meet us!"

Han Mandao said.

Chapter 517: Sky Corpse Shot

"A squad of the Scale Demon Clan? So to say, there may be a Scale Demon Clan near here!"

Mu Sen's eyes lit up.

The Scale Demon Tribe represents the crystal pit of the Arcane Crystal, which can excavate the Crystal of Arcane Crystal.

The eyes of several other people also light up.

For the warriors above the Martial Realm, the Arcane Crystal is definitely an irresistible temptation, which can greatly accelerate the speed of cultivation.

"Just don't know how big this tribe is and how strong it is?"

Mu Lin said.

This point has to be considered. If it is a small tribe, they can think about it. If it is a larger tribe, then they can only die of this heart.

Not to mention anything else, if this tribe has the equivalent of a little king, they will die.

But just give up, they are not reconciled.

"I think so. It is not easy to meet a scale demon tribe in the vast mountains. Let's find this tribe first, check the strength of this tribe, and then make a decision?"

Han Man suggested.

"Okay, I have no opinion!"

Several others nodded.

Naturally, Lu Ming will not oppose it, and Lu Ming is also very eager.

Immediately, the five assigned tasks and searched in the vicinity.

After a few hours, they really found out.

There is a scale demon tribe more than 30,000 miles away from the place just now. Presumably those scale demon tribes came from this tribe.

The people approached carefully and observed carefully on a mountain not far away.

In front, there is a simple stone house, in which the scale demon clan people live.

Around this stone house, high stone walls were repaired.

"There are more than a hundred stone houses, and the number of scale demon clan should not exceed 500. This is a small tribe!"

Han Man whispered.

"Generally speaking, a small scale demon tribe, there should not be too many masters, there will not be the equivalent of a small king, we should be able to cope!"

Mu Sen said.

"Yes, as long as you kill some of the strongest scale demon clan in the tribe, and other scale demon clan are not afraid, we can start to dig the Arcane Crystal Pit!"

Han Man nodded.

Lu Ming and Yao Xuan did not speak. Both of them came to the Scale Demon Plane for the first time. Without experience, they would not speak easily.

"Brother Lu, Miss Yao, what do you think?"

Han Man looked at Lu Ming and Yao Xuan.

"I... I don't have any opinions, everything is up to you!"

Yao Xuan whispered.

"Neither do I have an opinion!"

Lu Ming smiled slightly.

"Okay, then we'll wait until it's dark and rush in!"

Han Mandao said.

Immediately, everyone waited quietly.

Time flies, and soon, night comes.

In the scale demon tribe, they fell into darkness.

"Let's go!"

Han Mandao said!

"Wait!"

At this moment, Lu Ming suddenly said, and the sound pressure was extremely low!

"what happened?"

Han Man and others were a little puzzled, but at the next moment, their faces changed slightly.

Huh...

In the night sky, five black coffins suddenly flew into the air and flew towards the tribe.

"Heavenly Sect!"

Yao Xuan whispered.

Lu Ming's eyes also flashed, and after entering the scale demon plane, he was the first person to meet the Heavenly Corpse Sect.

"It seems that the Sky Corpse is also eyeing this tribe, what shall we do?"

Mu Lin asked.

"We are watching the changes, sitting on the mountain and watching the tiger fight, just let the people of the corpse sect try the strength of this tribe!"

Han Man said.

Han Man seems to be honest, but his head is very flexible and his cultivation base is strong. Both Mu Lin and Mu Sen are headed by him.

In an instant, the five coffins flew into the tribe.

Wow wow wow!

At this time, the scale demon clan in the tribe apparently also found the corpses of the celestial corpse, and roared wow.

Then, from each stone house, rushed out of a tall figure, each with dense black scale armor, holding a battle axe, iron rod, etc., rushing towards the corpse of the sky.

Kaka...

The five coffins opened, and each coffin flew out two corpses.

咻咻...

The iron chain was horizontal and stabbed towards the scale demon clan, and suddenly some weak scale clan were directly stabbed to death.

Wow wow wow!

A scale demon flying in the front, the tallest figure, close to three meters, the breath is also the strongest, reaching the triple peak of Wuwang.

Obviously, this scale demon tribe is the leader of this tribe. He shouted a few times, and some scale demon tribes below the martial king retreated.

Only the scale demon clan above the martial king continued to kill the corpses of the sky.

"Two martial corpses of the triple peak of Wu Wang, as well as five mortal corpses of the triple mid and early stages of Wu Wang!"

Han Man whispered, his voice full of fear.

The power of the Celestial Sect surpassed them comprehensively, and also surpassed the scale demon tribe.

Although the scale demon tribe has an advantage in number, but after the outbreak of the war, it still shows a one-sided situation.

One scale demon clan was killed.

The scale demon tribe, who reached the triple of King Wu, besides the tallest scale demon tribe, there are two others, which are too different from the celestial sect.

High-end combat capabilities are too far apart.

The screams were sent out continuously, and the scale demon below the Martial King's Realm also sent out screams.

In the end, regardless of the strength gap, they rushed towards the corpses of Heavenly Corpse Sect.

"A group of uncivilized animals who want to resist, really looking for death!"

A cold voice came from a coffin, and then a pale-faced young man walked out of the coffin.

"Hey, but these animals are in good health. They are good for refining corpses!"

In another coffin, a pale young man also emerged.

Corpse guard of the Heavenly Corpse Sect.

Successively, out of the five coffins, five young bodyguards emerged.

"Hey, die, animals!"

The five corpse guards sneered, and immediately moved towards the scale demon clan below those kings.

The corpse swelled, the claws waved out, and the scale demon were killed.

Wow wow!

The scaled demon headed, roared, seemed extremely angry.

The scale demon clan below the king heard the roar of the first scale demon clan, and yelled, then turned around one by one and fled outside the tribe.

"Want to escape, die!"

The five corpse guards waved their claws and killed the scale demon one by one.

At the same time, control the corpse refining and kill the scale demon masters.

The leader of the scale demon clan, under the siege of two corpses of the same level, was finally defeated. A scale armor was penetrated, torn, and finally killed.

After a while, all the upper levels of the scale demon clan were killed, and the scale demon clan below the king, except for a few escaped, all the scale demon clan died, leaving behind a body.

"Hey, this trip is worth it. Not only can you get some good corpses, but you can also get the Arcane Crystal!"

A corpse guard sneered and walked deep into the tribe.

"How to do?"

On the mountain, Mu Lin was anxious.

Chapter 518: Kill all

Seeing that the fat in the mouth was about to fly, I was unwilling.

But the strength of the Heavenly Corpse Sect is too strong, far above them, if they force up, they will only end up like the scale demon tribe.

"Forget it, let's retreat. The strength of Tianzong Zong is too strong."

Han Man frowned.

Heavenly Corpse Sect, there are two corpses of King Wu triple triple peak, and there are another five corpses of King Wu triple triple, it is too strong, it is simply not their enemy, this is not the five corpses guards.

The five bodyguards are also a strong force.

"It's hard to meet such a place, how can you easily miss it!"

At this time, Lu Ming spoke.

Han Man, Mu Lin and others are all stunned.

Immediately, some incredible look at the landing song.

"Lu Ming, what do you want to do? You don't want to kill it, it's a dead end!"

Musen Road.

"There is no battle, how do you know it is a dead end?"

Lu Ming smiled slightly, then rose up and walked away, heading towards the scale demon tribe.

"Lu...Lu Ming!"

Yao Xuan whispered, wanting to be with Landing Ming, but he didn't dare and hesitated there.

Han Man, Mu Sen and Mu Lin glanced at each other, but did not follow. In their eyes, instead, they each flashed a gloomy color.

Lu Ming's speed is very fast, a few steps out, and appears above the scale demon tribe.

"who?"

A corpse guard shouted and looked coldly at Lu Ming.

The other four bodyguards also looked at Lu Ming.

"The people who killed you!"

Lu Ming said faintly, his voice was calm, but in the calm, he revealed the cold killing opportunity.

"Kill us? Haha, is it up to you? What a big joke."

A bodyguard laughed, full of disdain.

"Boy, are you Emperor Heavenly Guardian? Hey, a Emperor Heavenly Guardian, when he saw us, he dared to appear, really looking for death, kill!"

A bodyguard shouted.

Uh!

A corpse refining in the mid-three stages of the King of Martial Arts, waving his arms, and the iron chain, like a snake, lingered toward the landing.

boom!

Lu Ming erupted, breathing out a shot, and several iron chains were hit by Lu Ming.

"Cultivation of the second peak of Wuwu District, dare to resist and find death!"

The corpse guard shouted, controlled the refining corpse of the triple peak of Wu Wang, and madly rushed towards the landing.

The other four bodyguards stood on the side and did not do anything. They looked good.

"Too lazy to play with you, die!"

Lu Ming drank coldly, and Thunder's artistic conception soared into the sky, combining with Lu Ming's gun style.

call out!

One shot stabbed, turned into a lightning bolt, penetrated everything.

The corpse refining was originally afraid of thunder, not to mention, Lu Ming's conception of thunder has reached the first grade of middle adulthood.

With a bang, the corpse was hit by a lightning bolt and turned into a coke.

"Lei Zhicheng Xiaocheng, you...you..."

The bodyguard yelled in horror.

"dead!"

The cold voice came from Lu Ming's mouth.

Another lightning bolt pierced.

The bodyguard wanted to retreat in horror, but how could he avoid it?

Directly hit by a lightning bolt, a big hole was blown out of his chest, and his body was bursting with anger, and there was no breath at all.

"Damn, let's take a shot and kill him!"

The other four bodyguards were frightened and shouted, manipulating the corpse refiner, and slamming towards the landing.

There are nine corpses in total.

There are six of them, all of which are more than the triple of King Wu, and the remaining three are also the strength of Double of King Wu.

"A bunch of garbage playing with other people's bodies, all die!"

boom!

Lu Ming held a spear, which turned into a kilometer in length, and swept out of the direction of the thousand armies, pulling out in all directions.

bump! bump! bump! ...

The nine corpses were like nine broken sacks, and Lu Ming flew out one by one, with no resistance.

"This...this...how is this possible?"

The four corpses guarded their tongues together, their eyes almost stunned, full of incredible colors.

Lu Ming, a warrior with double warriors, is this terrifying combat power too?

"No good, rewind!"

A bodyguard shouted in horror.

Without the guard of corpses, their combat power will be greatly weakened.

"Now I want to retreat, it's too late, I want to hit it!"

call out!

Lu Mingren's guns are united into a lance, and they pierce the void.

puff!

A corpse guard who had reached the triple peak of Wuwang was directly pierced through the eyebrows and died on the spot.

"what!"

The other three bodyguards shouted in horror and retreated.

Not far away, Han Man and others were also dumbfounded.

"Shoot, help Lu Ming!"

Han Man's eyes flashed a gloomy color, sighed, and rushed out.

Later, Mu Lin, Mu Sen, and Yao Xuan also rushed over and killed one of the bodyguards.

call out!

Lu Ming seemed to turn into a flash of lightning. After a flash, he appeared behind a corpse guard and stabbed with a shot to solve the corpse guard.

Immediately, the figure moved, and flew to the next bodyguard.

When Lu Ming solved the fourth body guard, Han Man they also beheaded the fifth body guard.

As soon as the bodyguard died, all the corpses were standing still in the void.

"Brother Lu, you're a real person who doesn't show his face. I didn't expect such a powerful fighting force. I really admire and admire it."

Han Man and others came to the landing Ming Fei, all with a look of amazement, Han Man first clenched his fists.

"Emperor Tianjin Palace, when did the genius such as Brother Lu appear, we didn't know at all in advance, it seems our news is too backward."

Mu Sen also grinned.

And Yao Xuan, looking at Lu Ming, is full of curiosity and worship.

The five powerful bodyguards were actually killed by Lu Ming several times. It was incredible if he had not seen it with his own eyes.

"You're welcome, now, seal the soul!"

Lu Ming said.

After saying that, Lu Ming took out the soul crystal and began to seal the soul of the bodyguard.

After the death of the ordinary warrior, the soul will not dissipate within ten minutes, but after the past ten minutes, the soul will dissipate, making it difficult to seal.

Lu Ming took out a sealed soul crystal and placed it on top of a corpse guard body, inputting the true yuan.

A complex inscription emerged on the surface of the Soul Gemstone, and then an attractive force emerged, drawing a black smoke from the body of the bodyguard.

The smoke is constantly distorted, and the shape is very similar to the body guard, which is the soul of the body guard.

The soul of the corpse guard flew into the Soul Gem, and a black mist appeared on the surface of the Soul Gem. The seal was successful.

Lu Ming put it away.

On the other side, Han Man and others just sealed the soul of the bodyguard they killed, and the other bodyguards killed by Lu Ming did not move.

Whoever is killed, the soul belongs to whom, this is the rule.

Lu Ming is also not polite, leaving the souls of the three bodyguards one by one.

"Okay, now, let's go to see Aoyi Jingkeng!"

In Lu Ming's eyes, a look of anticipation flashed.

Aoyi spar is what he longs for.

Immediately, the five people walked deep into the scale demon tribe.

Chapter 519: Zhongpin Aoyite

Deep in the scale demon tribe, there are seven altars made of stones.

The seven altars are round and surround a large pit in the middle.

After Lu Ming and others approached, they found that the atmosphere of the mysterious mystery filled the big pit.

This is the breath of the world's artistic conception.

This big pit is the so-called Aoyi Jingpit.

"The mood of the earth!"

Lu Ming felt a little disappointed.

The Yiyijing pit exudes the atmosphere of the earth's artistic conception, indicating that this deep pit contains the earth-property crystal.

He can't use it directly, but can only be exchanged for it.

"Let's start digging!"

Lu Ming said, went directly to the big pit, took out a large knife, and began to dig.

Keng!

The sword was cut, and a clanging sound was made. The stone under the big pit was extremely hard.

However, under Lu Ming's powerful True Element, he was still being cut off piece by piece.

"Let's go together!"

Han Man greeted him, Musen and others walked into the big pit together, took out various weapons, and began to dig up.

The five of them started together, and the speed was very fast. Soon, a deep pit three meters wide and ten meters deep was dug.

At this time, the breath of the earth's artistic conception was more intense.

The spirit of the five people was shocked, and they dug harder.

Soon after, the deep pit was dug to a depth of twenty meters.

"There is a mystic crystal here!"

A clear voice sounded, quite excited.

It was Yao Xuan. Unexpectedly, it was Yao Xuan's first excavation of Aoyi spar.

Everyone's eyes looked at the past, and the stone wall in front of Yao Xuan was inlaid with an earthy yellow crystal, exuding a strong sense of earth.

"Girl Yao, put it away first!"

Han Mandao said.

Yao Xuan nodded, carefully digging that piece of Arcane crystal, put it in a jade box, and put it away.

Then, the people dug harder.

With Yao Xuan's good start, next, everyone's harvest came, and there were constantly unearthed crystals.

These mysterious crystals were buried deep in the earth and only condensed out after endless years.

The five people kept digging and found more and more Aoyi spar.

In two children, this deep pit was dug by five people to a width of 10 meters and a depth of 50 meters. A total of 26 earth-propelled crystals were obtained.

"Haha, I didn't expect that there are more than 20 crystals in the crystal pit, which is already very good."

Han Man grinned.

Up to now, in the deep pit, the breath of the earth's artistic conception has not been felt, indicating that the crystal of the Arcane Crystal in the Arcane Crystal Pit has been excavated by them.

"Ok?"

At this moment, Lu Ming suddenly felt that there was a stone under his feet, which was very special.

This stone, the size of a human head, was just dug out by Lu Ming and set aside at will, but when he looked at it now, he found that the color of this stone was slightly different from the surrounding stones.

This stone, with a somewhat crystalline feel, radiates a faint glow on the surface.

Lu Ming cut the stone with a knife.

when!

After the knife was cut, Mars was shooting everywhere, and Lu Ming's big knife was bounced back.

"So hard?"

Lu Ming was taken aback.

In his hand, the sword of the fourth-grade top spirit soldier level is extremely sharp. If one cuts at will, it is a mountain. It will be cut in half. This stone has not been split, but just left on it. There was a trace.

Han Man and others looked at it with some curiosity.

"interesting!"

Lu Ming's eyes flashed, the real element in his body surged toward the War Sword, and at the same time, the three artistic concepts also merged into the War Sword.

Immediately, a knife was cut towards the stone.

Zi...

A violent friction sounded, and Mars hit the stone. The stone was still not cut, but it was cracked.

At the same time, a strong and unbelievable conception of earth diffused out of the stone.

"This... this mood, how could it be so rich?"

Lu Ming was taken aback.

And Han Man and others also widened their eyes in surprise.

The artistic conception of this soil is too rich and too strong. The other earth-property crystals are like garbage in front of the artistic conception of this soil.

Lu Ming felt his heart beating faster.

As soon as the hand moved, the sword in Lu Ming's hand disappeared, and a sledgehammer appeared.

Buzz!

The sledgehammer hit hard against the stone.

bump!

The gravel splattered, and this stone finally cracked completely, exposing the contents.

A spar, a yellow crystal.

On this crystal, there is a strong sense of heaven and earth. Everyone seems to be able to see that a piece of mysterious filament is floating between heaven and earth.

"This, this, is this the middle-class earth attribute mystic crystal?"

Han Man growled, his voice shivered a little, and there was a fiery glow in his eyes.

"Middle Grade Arcane Crystal?"

Others were also surprised, the boss staring at the eyes, staring at the spar.

"Middle Grade Arcane Crystal?"

Lu Ming was also shocked in his heart, then, Zhenyuan broke out, and under a roll, he grabbed the piece of mysterious crystal in his hand.

The eyes of several others immediately gathered under Lu Ming's palm.

"Okay, now, let's assign Arcane Crystal!"

Lu Ming spoke lightly.

Han Man, Mu Sen and Mu Lin glanced at each other, and then their eyes flashed.

"Well, this time, the reason why we are able to enter here is all due to Brother Lu. If Brother Lu did not kill the corpse guards of the Heavenly Corpse Sect, we can only retreat. Therefore, I propose that the middle-grade Aoyi crystal should be owned by Brother Lu, and the other inferior Aoyi crystal will be shared by us, how?"

Han Man suggested.

"Okay, I have no opinion!"

"Neither do I have an opinion!"

Mu Sen and Mu Lin, opening one after another, are very refreshing.

Only Yao Xuan looked at Lu Ming with a somewhat complicated look, and was somewhat reluctant.

After all, the Zhongpin Austrian Crystal is too precious.

Finally, after biting his teeth, Yao Xuan whispered: "I have no opinion!"

"Then thank you all!"

Lu Ming clenched his fists and arrogantly took Zhongpin Aoyi Jingshi as his own.

Subsequently, the inferior Aoyi spar was distributed.

A total of twenty-six pieces, five pieces per person, one more piece, Han Man took out a thousand pieces of Needling Lingjing to buy, and then one thousand pieces of Needling Lingjing were divided equally.

Lu Ming didn't care, he randomly collected the Aoyi crystal and Lingjing.

"Let's destroy those corpses, otherwise they will be touched by the corpses of the celestial corpses, and it will be a disaster!"

Han Man suggested.

Everyone nodded.

Lu Ming waved his hand, and Lei's artistic conception turned into a rifle flying out, turning these corpses into coke.

After the solution, the five rose into the air and left here.

In the next two days, the five people searched within hundreds of thousands of miles. The scale demon tribe was touched by them again, but this scale demon tribe was too large. It is roughly estimated that the number was more than 10,000.

They observed from a distance, and found that at least the strength of the five scale demon clan, above the Xiaocheng king, this is not what they can deal with at all.

Chapter 520: Meet the Holy Family again

They bypassed far and searched elsewhere.

This plane is worthy of the newly discovered plane, and its products are really rich. In the past few days, a total of about five fifth-grade spirit grasses, spirit flowers, and some fifth-grade refining materials have been discovered.

These add up to great value.

But did not meet the person of the corpse.

"Huh, what is that?"

Suddenly, Musen pointed to the middle of a valley in front.

The valley is not big, and there are repeated red lights shining out of the valley.

"Go and see!"

The five flew towards the valley and flew into it, suddenly surprised.

A large piece of red spirit flower.

Each spirit flower is fiery red like a flame burning, exuding a strong medicinal fragrance.

"This is the fourth-level spirit flower, the fire cage flower!"

Han Man said in surprise.

Level 4 Linghua can't surprise them so much, the key is that there are too many.

It is densely covered with more than half of the valley. It is roughly estimated that there should be more than 1,000 plants.

A small valley actually gave birth to so many fire cage flowers, it is incredible, this is very abnormal.

"The mood of fire, here, is filled with a faint mood of fire, covered by these fire cage flowers."

At this time, Lu Ming said.

Among the five, only he cultivates the artistic conception of fire. Although the artistic conception of fire here is very weak, it is still felt by Lu Ming.

"The mood of fire?"

Han Man and others frowned, and then their eyes suddenly lit up.

"Below this, it is likely to be a Arcane crystal pit, containing the fire attribute Arcane crystal, so that so many fire cage flowers can be bred."

Han Man said with some surprise.

Lu Ming nodded, and he guessed it.

Immediately, the five people took off all the fire cage flowers.

Counting it, there are about 1,200 plants in total, five people are divided equally, and more than two hundred plants per person.

After the firecage flower was picked, the red land was exposed, and a strong sense of fire atmosphere filled the sky and earth, and it was very rich.

"Sure enough, it's Aoyi Jingkeng, ha ha ha, good luck!"

Mu Lin laughed.

"Let's start digging!"

Lu Ming also showed a smile.

Immediately, the five men started to dig.

Sure enough, shortly afterwards, Han Man was the first to discover a fire-proprietary crystal.

Of course, it is inferior.

The five of them worked harder.

Uh! Uh! ...

At this moment, a few sounds of breaking the sky came from the sky, and three figures came toward this side. At the next moment, they appeared in the sky.

The three young men, with cold, proud faces on their faces.

The trio's eyes swept downwards, showing an excited smile.

"Haha, we are so lucky. There is a Profound Crystal Pit here, and I can make another fortune."

One of the youths laughed.

Immediately afterwards, he looked at Lu Ming and others with cold eyes, scolding: "You hurry up and leave me, now here, it is ours."

"Hahaha, ridiculous, three, but here we discovered first."

Han laughed broadly.

"What did you find? I said it is ours, it's ours."

A young man in a purple robe sneered.

"Why?"

Mu Sen was anxious.

"Why? Just because we are the children of the Holy Family, boy, see clearly."

When the young man in purple robe waved his hand, a token emerged, and it was brilliant. On the token, there were two big characters: Holy Heaven.

"Holy token!"

Mu Sen, Mu Lin and others exclaimed.

Sure enough, he is the heir of the Holy Family.

"Now, you can get away."

The purple robe sneered.

"hateful!"

Musen growled.

"Three, what if you are the children of the Holy Family? We discovered this place first, according to the rules, it is ours, three, please come back!"

Han Man stepped out in one step, and his voice was powerful.

"Boy, you dare to rebel against my holy family, to death!"

The purple robe youth shouted.

boom! boom! boom!

Three powerful breaths erupted from the three holy family youths.

The young man in the purple robe has the cultivation practice of the triple peak of Wuwang.

The other two holy family youths were the early cultivation practices of Wu Wang Sanzhong.

The three of them erupted into a strong breath, and they burst out toward Han Man.

"To bully too much!"

Han screamed, and a strong breath broke out.

At the same time, Mu Sen and Mu Lin also exploded with a strong breath, meeting Han Han and resisting the Holy Family youth.

"This..."

Yao Xuan hesitated and gave Lu Ming a look, and finally bit his lip, and his breath burst out.

Lu Ming's eyes flashed, a strange smile appeared on the corner of his mouth, and then a strong breath erupted from his body.

The five people work together, the breath is no weaker than the Holy Family.

"Bold! You dare to resist, so bold."

The young man in Zipao shouted, and his face was cold and murderous.

"It's a big battle, I'm not afraid, even if I go to the palace owner, it's our reason!"

Han was screaming, not letting go.

"Good, good, good!"

The young man in the purple robe smiled angrily, and even said a few good words, but in his eyes, hesitated.

Half-sounding, the young man in purple robe said coldly: "You few, I remember, today, just let you go and leave!"

Then, with a wave of his hand, he took the other two youths and flew away into the distance, and disappeared in a blink of an eye.

"Let's continue digging, be quick, otherwise the holy family will come again and it will be in trouble."

Han Mandao said.

"it is good!"

Mu Sen and others responded, digging harder.

No one found that the inexplicable smile in Lu Ming's mouth was thicker.

Half an hour later, more than half of the valley was dug through by several people. This time, a total of 30 pieces of fire-like mystic crystal were dug.

It is a pity that the five people have searched all over, and have not found Zhongpin Aoyi spar.

It is a pity that Lu Ming secretly sighed that if there is a medium-quality fire-quality arcane crystal, he will be able to condense the artistic conception rune of fire in one fell swoop by virtue of the fire-quality arcane crystal.

It seems that you can only go to the Qizhen Building in Tianxuan City after going out to see if you can exchange a fire-quality middle-grade arcane crystal with the earth attribute.

Moreover, even if it can be exchanged, the handling fee is definitely not small.

"Let's leave here soon!"

Han Mandao said.

Afterwards, the people evenly divided the thirty fire-proprietary crystals and left the place.

A few hours later, the five were already 100,000 miles away, and at this time, the night had come.

The five lit a bonfire, hunted several monsters in the nearby forest, and began to barbecue.

This plane also has monsters, but the level is not very high.

Soon, the monster meat was roasted golden, and the aroma was tangy.

"Haha, come, I brought some fruit wine from my hometown. This fruit wine is a specialty of my hometown. It is very famous. It is made from 108 kinds of spirits. You try it!"

Han Man laughed, took out the five-tan wine, and handed them to Lu Ming and Yao Xuan, one person and one altar.
