

D Emperor 5111

Chapter 5111: The formation is also fearless

"Then, kill it!"

Lu Ming's eyes flickered with cold murderous intent, and his thoughts moved, the top source-level armor appeared, covering his body, and at the same time, the God of War Spear also appeared in his hand.

The source is glowing, and the power of the forbidden source is madly flooding into the battle armor and the God of War Spear.

boom!

Both divine weapons exploded with a strong aura, and their power was completely detonated.

At the peak of the gods, Lu Ming could not exert the power of the source-level gods. At this moment, how powerful is Lu Ming's taboo origin?

Although his cultivation base is only in the early stage of the origin, his origin is the high-level origin. Correspondingly, his origin power is also the high-level origin power.

The power of the high-level origin is much stronger than the power of the low-level origin.

It can be said that by simply comparing the power of the source, the mid-primary stage is better than him, unless the existence of the late-primary stage makes a move.

In the early stage of the source, the power of the source is comparable to the later stage of the source, and it is really against the sky. This is the power of the advanced source.

With Lu Ming's current source power, he could fully display the full power of the top source-level magic weapon.

Hum!

The God of War spear vibrated, as if cheering, a bright light burst out, and the horrible spear light burst out, and the void constantly burst, colliding with the sword light cut by the opponent.

With a shocking roar, the spear light and sword light dissipated at the same time.

"Kill, kill, kill!"

Hello everyone, our official account will find gold and red envelopes every day, as long as you pay attention to it, you can receive the last benefit at the end of the year. Please seize the opportunity of the official account.

The people of the eight races in the forbidden area shouted, spurring the source-level formation with all their strength, the runes filled the void, and sword light condensed continuously in the void, killing Lu Ming.

Every sword light is as horrible as boundless.

The existence of dozens of Origin Realm, based on the origin bones, and the origin level formations laid down, are too powerful. If they were replaced by Lu Ming who had not broken through before, they would definitely not be able to resist them. They would die without a few tricks, even if he No matter how strong the vitality is, it is useless, and it will be dissipated by the shattered smoke.

So before he didn't hesitate to start breaking through, otherwise, once he fell into the source-level formation, it would be dangerous.

But now, Lu Ming is not afraid.

Breaking through the origin, his combat power has improved too much, not knowing how much stronger than before.

With a long scream, the source technique revolved, and Lu Ming's body quickly swelled and turned into a height of three feet.

Hum!

Shoo...

The God of War spear continuously pierced out, and the spear lights were so bright that they blocked the surrounding sword light.

People from the eight races in the Forbidden Area had very ugly faces and were horrified.

Lu Ming's combat power was too terrifying, and he could actually resist the source-level formation.

Among the people on the scene, it is not that there are no masters. They control the top-level source-level magic weapon and understand the source technique, and the source is also at the intermediate level.

This kind of person, in the early days of the origin, was known as the top, and there was more than one on the scene.

But they found that their combat power was far worse than Lu Ming's, and there was a huge gap.

"At any cost, burn the original bones and bombard him."

Someone yelled.

Thirty-six formations of the strongest source shouted, spurring the formation with all their strength, those original bones, exuding a gorgeous glow, like a flame enveloped.

This is burning the original bones.

The burning of the original bones can explode the energy of the original bones in a short period of time, so that the power of the source-level formation can be increased to the extreme.

In the void, endless runes permeated, and then, these runes condensed a figure.

This figure, holding a war sword, exudes the aura of suppression of eternity, like a detached person standing in the void, looking down on the common people.

Huh!

This figure, the sword volleyed, slashed towards Lu Ming, the void collapsed and destroyed, and the force of destruction rushed towards Lu Ming.

Lu Ming's face became solemn, and he felt tremendous pressure.

The source-level formation, under the urging of the strong in the source realm, is really terrifying, known as the source of desperate situation. Generally speaking, unless it is the existence of the peak of the source, the general source will step into it.

Lu Ming roared, the power of the taboo origin was running wildly, the battle armor and the **** of war spear emitted a bright glow, and at the same time, the origin technique was also turned to the extreme by him.

He held a spear in both hands, smashing out with force, a huge spear light, like the Optimus Prime, bombarding the sword light.

boom!

A shocking roar erupted, a big explosion occurred in the void, part of the area turned into chaos, and all matter was annihilated.

Then, Lu Ming's figure shook wildly, and he backed away, his face flushed, and a trace of blood showed at the corner of his mouth.

"He is injured and continues to attack. He can't last long."

The old man of the extremely evil clan shouted, ecstatic.

kill!

The thirty-six sources of the formation shouted, and continued to urge the formation, controlling the condensed figure of the formation, and killing Lu Ming.

To be precise, the condensed figure of this formation can be called the formation soul.

Lu Ming confronted with all his strength and fought against the Array Soul.

The two sides fought against each other several times. Although Lu Ming was injured, he was not serious, and he was able to resist it.

This shocked the people of the Eight Clan in the Forbidden Area. They all burned the original source bones. Lu Ming could actually resist it. If he changed to another source, he would have died long ago.

It was the same in the early stage of the origin, with the same mastery of the origin technique, and the same mobilization of the top source-level magical soldiers, but why is Lu Ming's combat power so strong?

It seems that the top source-level magic weapon in Lu Ming's hands can exert a stronger power.

In addition, Lu Ming's origin technique was beyond imagination, far superior to the general origin technique.

The most terrifying thing is that Lu Ming's original power is as thick as the universe, and it is indestructible. Every strand seems to penetrate the void of the universe.

"It's the power of high-level origin, absolutely high-level..."

Someone growled.

Everyone was shocked, horrified, and envious at the same time.

Yes, they can be sure that Lu Ming's original power is advanced.

High-level, Lu Ming only broke through the original source, the power of the original source actually reached a high-level, this is too amazing, there are not many in ancient times.

Looking at the vast sea of universe, the power of the origin has reached a high level just after entering the origin, and it is also numbered, and it is difficult to find how much it is to search tens of thousands of universes.

Each of these characters is a miracle, and each is a legend.

People are more popular than people, thinking about them, using all means, it is difficult to evolve and transform the power of origin.

Some people died in nine deaths, and got the chance to guard against the sky, and then the power of the source was transformed into an intermediate level.

As for Lu Ming, just after breaking through, the power of his origin has been advanced, how can this be compared?

You should know that the power of the source is the level of the root of the source, which is greatly related to the upper limit of future achievements.

At this time, the original bones used to deploy the formations burned too violently and their energy was exhausted. They changed another batch, continued to burn, condense the formation souls, and attacked Lu Ming.

"Is this your assassin, but so, it's just to hone my source art."

Lu Ming roared, his fighting spirit rushed into the sky, his spear beams dazzling, and the universe was empty.

His whole body was shrouded in brilliant glow, which was the manifestation of Yuan Shu's urging to the extreme.

This kind of battle is very beneficial to Lu Ming, as he said, it can hone his origin skills.

Chapter 5112: Blast combo

Lu Ming's Origin Technique was just a start-up, far from reaching its peak, and there is still a lot of room for improvement.

This kind of battle is of great benefit to Lu Ming. He can use his origin technique to the extreme, comprehend and perfect his origin technique during the war.

Vaguely, it seemed that he had become a little shorter and his body shrank a little.

Yes, this is not an illusion.

When he performed the source technique, his body would become three feet tall, bulging in a big circle.

But now, his body seemed to have shrunk a bit. Although the magnitude was small, Lu Ming still felt it.

Lu Ming was overjoyed, this is the reason for the improvement of Yuanshu.

Why did he become three feet tall when he used the origin technique?

It wasn't because the origin technique was a start-up and it was not perfect enough. Once Lu Ming used it, his control was not perfect, and it was caused by the spread of the power of the origin.

As he deepened his understanding of the source technique and his control became more and more stable, his body would become smaller and smaller when he used the source technique.

When he is truly successful, his body will not be any abnormal when he uses it, just like his usual state.

Lu Ming is still far from this state.

But in the previous battle, he did improve.

Lu Ming was even more excited, looking up to the sky and screaming, ignoring his injuries, fighting with all his might.

This made the people of the Eight Clan of the Forbidden Area terrified, it was too enchanting, and they actually used the source-level formation to hone the source art.

"Arrange a combined attack formation to attack and kill this person together with the source-level formation."

Someone drank.

There is nothing to hesitate, the Eight Clans of the Forbidden Area, began to deploy.

At this time, the surrounding Origin Realm masters had more than 500 people, constantly coming from other directions.

Huh huh!

The figure flickered, and the formations were arranged one after another.

This time, in order to kill Lu Ming, the Eight Clans of the Forbidden Land spent a lot of money and deployed various terrifying joint strikes.

It's not an ordinary three-person and five-person combined attack formation, the worst is the seven-person combined attack formation, and even a nine-person combined attack formation.

The combined attack formation method of the Origin Realm is not the combination attack formation method of the Divine Master Realm. Not only is the power gap huge, the formation carrier is also more difficult to refine.

In general, the combination of three players is very rare.

As for the combination of seven and nine players, even in the major forbidden areas, there is not much, and the loss of one piece will make them heartache.

This time, the Eight Clan of Forbidden Land dispatched a total of five nine-person combined attack formations, five seven-person combined attack formations, and a total of ten combined attack formations, to kill Lu Ming.

The ten combined attack formations, either turned into war swords, or devil spiders, or transformed into ghosts, exuded terrifying power, killing Lu Ming, and cooperating with the source-level formation, to kill Lu Ming.

"Is it finally dispatched? Very good, then, let's break through..."

At this moment, Lu Ming did not continue to suppress his own cultivation base, and the remaining energy from the universe and sea was instantly transformed into the power of the taboo origin.

Lu Ming's cultivation base could no longer be suppressed, and he directly broke through the mid-primary stage and rushed into the mid-primary stage.

Lu Ming's cultivation base skyrocketed, and the power of the taboo's origin was increasing crazily.

People from the eight races in the forbidden area almost bit their tongue, almost staring at them.

What did they see?

In the middle of the origin, Lu Ming actually broke through again.

Didn't Lu Ming just break through his original state? How could he break through again?

Unbelievable, unimaginable.

Not good!

Many people feel chills.

Now, although it has entered the late stage of the Great Tribulation of the Source, it is still in the Great Tribulation of the Source, and only the existence of the early days of the Source can move freely without being affected.

Those above the mid-primary period will still be greatly affected. Once they are born, they will be suppressed by the great calamity of the source, and the root of the source will be swallowed.

However, this problem does not exist for the creatures that broke through under the Great Tribulation of the Origin.

Because such creatures have already been recognized by the universe, not to mention the middle stage of the origin, even if it is promoted to the late stage, the peak of the origin, or even a higher level, there is no problem, and it will not be suppressed by the catastrophe of the origin.

This is also the reason why Lu Ming dared to break through to the middle of the origin.

"kill!"

Lu Ming roared, as if his body was full of endless power, the God of War spear, like the Optimus Prime, pierced the sky, and then blasted towards a nine-person combined attack formation.

This nine-person combined attack formation, condensing a war knife, filled with gray light, exuding an evil aura, is exactly the combined attack formation method of the extremely evil race.

Hello everyone, our official account will find gold and red envelopes every day, as long as you pay attention to it, you can receive the last benefit at the end of the year. Please seize the opportunity of the official account.

when!

Knife and gun collided, the void was split, and thousands of vigor swept across all directions. The next moment, the extremely evil tribe's combined attack formation directly exploded, and the nine people in the formation screamed and vomited blood.

Their bodies are covered with cracks, like porcelain.

They retreated madly, trying to stay away from Lu Ming, but after a period of retreat, their bodies burst apart, not even their souls were left, and they all fell.

The only thing left was the gray war knife suspended in the air.

The carrier of the united attack formation in the original realm!

Lu Ming was not polite, and with a wave of his hand, he put the nine combo formation carriers into the storage ring.

The people of the eight races in the forbidden area are all dumbfounded.

This level of combat power is really terrifying. One move, just one move, exploded a nine-man combined attack formation, a terrifying exaggeration.

Hum!

Lu Ming exploded a nine-man combined attack formation. After putting away the formation carrier, the God of War spear swept out and collided with the other combined attack formations. A continuous roar came out, and the other nine combined attack formations. , Was repelled by Lu Ming.

As for Lu Ming himself, although he backed away, he immediately stabilized. With a flap of the wings behind him, he rushed toward one of the combined attack formations, smashing again with a single shot.

"Block it!"

The person with this joint attack formation was shy, yelling frantically, and shot with all his strength, trying to block Lu Ming's attack.

But it was in vain.

Under the pressure of the God of War Spear, this combined attack formation shook wildly, and then burst open. The people in the formation were overwhelmed by the power of destruction and fell on the spot.

Another carrier of the nine-man team attacking formation fell into Lu Ming's hands.

Then, Lu Ming's offensive turned again, attacking another combined attack formation, but at this time, the formation spirit of the source-level formation was killed, blocking Lu Ming's attack.

"Quit, quit!"

The people who arranged the other joint attack formations were frightened, retreated quickly, and wanted to leave the source-level formations.

There is a huge gap between their combat power and Lu Ming's, even if they have a combined attack formation, they will not be able to go on like this, they will all be blown by Lu Ming.

If it hadn't been for the help of the formation of souls just now, another joint attack formation would be destroyed.

"Looks at breaking your source-level formation!"

Lu Ming went mad and fought fiercely with the formation soul. This time, he actually began to suppress the formation soul.

Before he broke through the mid-primary stage, Lu Ming was suppressed by the Array Soul and fell to the bottom, but as soon as he broke through, he turned to suppress the Array Soul.

It can only be said that the original state, with every breakthrough, the gap is huge.

There are only four small realms in the original realm, which are the early stage, the middle stage, the late stage, and the peak.

Therefore, for every breakthrough in a small realm, the power of the origin will skyrocket very powerfully.

This is the case for most people, let alone Lu Ming.

Chapter 5113: Quasi soldier

Boom!

In an instant, Lu Ming and Array Soul blasted more than ten moves continuously, and the Array Soul trembling constantly, the light became a little dim.

Click!

Click!

Those original bones made strange noises, and there were cracks on them.

And the thirty-six people in the formation were trembling even more, with blood overflowing from the corners of their mouths.

The source-level formation was going to be blown up unexpectedly.

"Continue to set up the formation, stack the source-level formations, and kill him!"

The old man of the extremely evil clan shouted.

There are eight clans in the forbidden area, with more than five hundred origins, and it is impossible to have only one origin-level formation.

Immediately, there were a lot of original masters who were proficient in the formation, and they took out the original bones and began to deploy the formation.

The formation master of the Origin Realm, who arranges the Origin Level formation, originally does not need the origin bones, and can directly deploy the formations with runes.

However, it takes time to directly deploy an array with runes, and there is not enough time, so the deployed array is not powerful.

With the original bones as the base of the formation, the formation speed will be very fast, and the power can also keep up.

Buzzing...

The void trembles, and the sky is full of runes.

Soon, two more attacking and killing formations came out.

They also burned the original bones, instantly releasing the energy of the original bones, condensing formations, and killing Lu Ming.

The three formations were superimposed, condensing the three formation souls, and their power skyrocketed, and they were inextricably separated from Lu Ming for a time.

"Sacrifice a big killer, kill him!"

There was a loud roar on the Nine Yin Devil Spider, and a dozen very old Nine Yin Devil Spiders came together to offer a precious mirror.

boom!

As soon as this precious mirror came out, it suddenly became larger, covering the sky and obscuring the sun, exploding with terrifying power, as if it could crush the eternal void, and the surrounding space completely exploded, destroyed, and turned into a chaos.

"Quasi Immortal Soldier, the Nine Yin Demon Spider is really big, and it actually sacrificed the Quasi Immortal Soldier!"

Someone exclaimed.

"Quasi Immortal Soldier!"

Lu Ming's face was extremely solemn.

Quasi-celestial soldiers, they are weapons that surpass the source-level magical weapons. Generally speaking, they are exclusive weapons at the level of Crossing the Immortal Tribulation.

How can it be simple if it gets the word "Xian".

But generally speaking, it is difficult to control the quasi-celestial soldiers with the existence of the Origin Realm, nor can it exert the power of the quasi-celestial soldiers.

Obviously, the creatures in the forbidden area are no small things, and most of them have passed some kind of secret technique to motivate the quasi-celestial soldiers.

"Not a complete quasi-immortal soldier, there are cracks!"

Lu Ming discovered that there were a few small cracks on the mirror surface of the treasure mirror, which would be difficult to find unless you look closely.

This is a broken quasi-celestial soldier!

Perhaps, this is one of the reasons why the Nine Yin Demon Spider can control the quasi-celestial soldiers.

A beam of light shot towards Lu Ming with a beam of light.

avoid!

Lu Ming's figure flashed quickly and wanted to avoid it, but he seemed to be locked. No matter how much he dodges, he couldn't avoid it, so he could only resist.

In an instant, the beam of light approached Lu Ming.

Lu Ming had no choice but to push his combat power to the extreme, holding his guns in both hands and volleying.

The God of War Spear is bigger than the mountains, and it surrounds the gods of the sky, slamming on the beam of light.

boom!

Lu Ming's body shook violently, retreated violently, and coughed up blood at the same time.

Real white smoke came out of his body, as if burned and corroded. Even the top source-level battle armor could not resist, and there were pits and dents on it.

A top-level source-level battle armor was half ruined, and even the God of War Spear had dim light and almost broke.

With just one move, Lu Ming was hit hard.

The power of the quasi-celestial soldier is beyond imagination and terrifying.

In fact, the people of Jiuyin Demon Spider were even more shocked.

Lu Ming was able to resist one move without dying. You know, this is a quasi-celestial soldier, left by a strong man of the clan who has survived the second immortal calamity. It is extremely powerful. Even if it is damaged, its power is still It is not something that the general origin realm can fight against.

Lu Ming was able to make a direct move without dying, his vitality was really terrifying.

"carry on!"

The people of the Nine Yin Devil Spider roared, and they wanted to continue to mobilize the quasi-celestial soldiers to completely kill Lu Ming.

"Hmph, if it weren't for Renwang Broken Sword, it would have directly broken you, a quasi-immortal soldier."

Lu Ming snorted coldly in his heart. This time, without waiting for the opponent to attack again, he rushed in one direction.

Huh!

The spears of others are united into one spear light, as if eternal.

Over there, there was a soul who wanted to stop, and was directly struck back by Lu Ming.

"Block him, he wants to rush out of the encirclement."

Someone yelled.

"Block it!"

"Block it with all your strength!"

The roar of the Eight Clan of the Forbidden Land, especially those masters who arranged the source-level formation, directly dispersed the soul of the formation and turned into a sky full of glow, like countless divine swords, killing Lu Ming.

There was even a joint attack formation that stood in front of Lu Ming.

Although the quasi-celestial soldiers are powerful, they are too difficult to mobilize and take a certain amount of time.

Can get it!

"broken!"

Lu Ming tried desperately, and the cells all over his body glowed, as if burning up, raising his combat power to the limit.

He wants to rush out of the encirclement before the opponent launches the second attack of the quasi-celestial soldier, or destroy the opponent's forbidden area.

Bump...

The terror attacks condensed by the source-level formation were broken open by Lu Ming, and then directly impacted on a combined attack formation.

This joint attack formation is also a nine-man joint attack formation, but it is completely useless in the face of Lu Ming, who has raised his combat power to the extreme. It is like a balloon that is rushed by the spear light and bursts directly.

Huh!

Lu Ming rushed to a huge array of flags.

This array of flags is exactly one of the foundations of the banned soldiers field.

"not good!"

The expressions of the eight races in the forbidden area changed wildly.

"kill!"

Some people in the Nine Yin Demon Spider roared, urging the quasi-celestial soldiers desperately. The broken treasure mirror once again emitted a dazzling glow, and a beam of light formed, shining towards Lu Ming.

At this moment, Lu Ming brandished the God of War spear and slammed on the flag.

bump!

Although this flag was extremely hard, it couldn't stop Lu Ming's attack, and it burst directly into pieces.

As long as the formation flag is broken by one shot, the banned area will be broken.

At this time, the beam of the quasi-celestial soldier also appeared above Lu Ming's head.

At this critical moment, Lu Ming finally regained contact with Renwang Broken Sword. In a short while, Renwang Broken Sword appeared in Lu Ming's palm and slashed out against the sky.

A shocking sword light broke out, slashing on the beam of light.

With a puff, the beam of light was directly split open, like a piece of rotten wood, hitting a magic weapon.

"Now, it's my turn!"

Lu Ming's eyes were cold and murderous, the wings behind his back flapped, his figure soaring into the sky, he rushed towards the quasi-immortal soldier, and then cut it out with a sword.

when!

The king broke the sword and slashed on the quasi-immortal soldier's treasure mirror. Suddenly, the treasure mirror was torn apart and flew into pieces.

All the Nine Yin Demon Spiders who controlled the quasi-immortal soldiers vomited blood and their faces were pale.

"Go!"

"Retreat!"

The people of the eight races in the forbidden area yelled, very decisively, and fled in all directions.

Chapter 5114: Killed at the Jiuyin Devil Ruins

The people of the eight races in the forbidden area scattered and fled.

As soon as they saw that Lu Ming broke through the forbidden territory and regained contact with Renwang Duanjian, they knew it was over. There is absolutely no way to stop Lu Ming today. They have to run away, or else they will die.

"kill!"

Lu Ming roared, killing intent rushed into the sky, Renwang Broken Sword strenuously slashed out, a sword light that shocked the sky, traversing the sky, as if splitting the universe.

Puff puff...

In an instant, five or six masters of the Origin Realm were cut off, their souls were annihilated, and they fell on the spot.

Then, Lu Ming flapped his wings like a flash of lightning, and chased it down, and the King of Broken Sword kept cutting out.

At least two people were beheaded every time they were cut out.

Blood stained the void!

"Disperse!"

The people of the eight races in the Forbidden Area were terrified and did not dare to gather together. They were all scattered, fearing that they would be killed by Lu Ming's sword.

Even so, people continued to fall on Lu Ming's hands.

At the peak of the God Lord, Lu Ming used the source technique, relying on the wings behind his back, and his speed surpassed these original sources. Now, Lu Ming's cultivation base has skyrocketed to the middle of his source. Too much, too fast.

I can only see that in the vast void of the universe, there is a rainbow light, which is constantly flickering, faster than lightning, and every flicker can take at least one life.

The people of the eight races in the forbidden area were almost scared to death, fleeing frantically.

what!

Some people screamed in fright. They found that when facing Lu Ming, they were like babies, too fragile. This situation is desperate.

Some people even swear in their hearts that as long as they can escape this time, they will definitely hide in their headquarters for hundreds of years and will not provoke Lu Ming.

As long as these hundreds of years have passed, Lu Ming will be dead once the origin of the catastrophe is over.

"Old man, where are you going?"

Lu Ming stared at an old man of the extremely evil clan.

This old man had been clamoring before, Lu Ming had long wanted to kill this person, but this person clamored hardest every time and escaped the fastest.

But this time, Lu Ming won't let this person go.

"Ah, the aging is finished!"

The old man of the extremely evil clan screamed, and was smashed by Lu Ming's sword power, killing him here.

This killing lasted for a full half an hour, Lu Ming chased hundreds of millions of miles, beheading a full 150 origins, and finally ended.

The storage bags and storage rings left by these people naturally fell on Lu Ming's hands.

The most precious of them was the broken quasi-celestial soldier. Although it was crushed by Lu Ming, the fragments were still extremely precious, and they were absolutely tonic for the ball to eat later.

Of course, the various treasures left by the One Hundred and Fifty One's Origins were also massive, and now Lu Ming didn't have time to clean it up, so he put away it all.

However, Lu Ming didn't want to forget it.

Before and after he had already killed more than two hundred and fifty origins of the Eight Clan of the Forbidden Land, and the Eight Clan of the Forbidden Land, there was no room for relaxation at all, and he was completely immortal.

The Eight Clan in the Forbidden Land would never let Lu Ming go, and would kill Lu Ming whenever he had the opportunity.

Therefore, Lu Ming will never let go of the eight clans in the forbidden area, and if he has the opportunity, he will fight back.

Now is a very good time.

Today, none of the races above the mid-primary period can move freely and are still in a state of self-styled. Now he is in the mid-primary period and is invincible in the world.

Now what will happen to the headquarters of the Eight Clan in the Forbidden Area.

Just do it!

Even if the eight clans of the forbidden area cannot be destroyed, they will kill the other side with fear and plunder a large wave of resources by the way.

This place was the closest to the base camp of the Jiuyin Demon Spider Clan, the Jiuyin Demon Ruins, and Lu Ming hurried directly to the Jiuyin Demon Ruins.

With a movement of Lu Ming's figure, he directly tore through the void and walked at an incredible speed. In just one day, Lu Ming came outside the Jiuyin Demon Ruins.

After arriving at the Jiuyin Demon Ruins, Lu Ming knew that he was thinking too much, because he was far away, and he felt the terrifying aura exuding in the Jiuyin Demon Ruins, which made people feel frightened.

Lu Ming twirled the Demon King Emperor's pattern and looked at the Jiuyin Demon Ruins.

Suddenly, the Jiuyin Demon Ruins changed in his eyes, and dense runes appeared.

Those are the formations, it is certain that they are all source-level formations, one connected to the other, continuous ups and downs, I don't know how many there are, covering the vast Jiuyin Demon Ruins.

Even every some distance, there is a master of Origin Realm sitting in control.

It can be said that the Nine Yin Demon Ruins are tightly guarded and tightly closed. Once a creature breaks in, they will enter the Nine Yin Demon Ruins, and all source-level formations will be activated, launching a devastating attack.

With so many source-level formations activated together, Lu Ming has reason to believe that any source of origin will die, and even the existence of ordinary crossing the immortal robbery can't bear it.

Of course Lu Ming would not think that the Nine Yin Demon Spider was just to guard him. This is unlikely. To be honest, the Nine Yin Demon Spider who was killed by Lu Ming just now has not returned yet. Lu Ming arrived earlier than those people. Nine Yin Demon Ruins.

"It's mostly people who defend the outer universe."

Lu Ming whispered.

Today, the passage of the universe is open, and countless masters of the universe are swarming in. Even in the forbidden areas, they are waiting strictly, and they dare not relax. It is normal to lay down heavy defenses in their own headquarters.

"However, these source-level formations have no effect on me."

Lu Ming whispered, the Demon King Emperor's pattern in his eyes kept flashing with mysterious light, and the secrets of the source-level formation were completely exposed in Lu Ming's eyes.

Soon, he discovered the loopholes in these source-level formations.

As long as you enter the Nine Yin Demon Race along these loopholes, you won't disturb the people of the Nine Yin Demon Spider.

There is nothing to hesitate, Lu Ming converged his aura and approached the Jiuyin Demon Ruins silently, intending to follow the loopholes in the formation to enter the Jiuyin Demon Ruins, and secretly search for the treasures of the Jiuyin Demon Ruins.

But when Lu Ming approached the Jiuyin Demon Ruins, his body could not help but tensed, and the hairs all over his body exploded, and a chill rushed to the heavenly spirit cover from the bottom of his heart.

Dangerous, extremely dangerous!

In the center of the Jiuyin Demon Ruins, it seemed that some prehistoric beast inhabited, awakening.

Lu Ming felt that there was a sense of horror that enveloped the entire Jiuyin Demon Ruins, and it was constantly circulating, Lu Ming was sure that any creatures entering the Jiuyin Demon Ruins would not be able to escape the envelope of this consciousness.

Lu Ming stepped back without hesitation, and he took a long breath and relaxed until he retreated far.

Suddenly, he found that he was cold and sweaty just now.

When he reached his level, he was all in a cold sweat, showing how nervous he was just now.

"Among the Nine Yin Demon Spiders, there is a terrifying powerhouse, whose consciousness has awakened, covering the entire Nine Yin Demon Ruins..."

Lu Ming whispered.

He had known for a long time that, although some horrible existences are still self-proclaimed and their bodies cannot come out, their consciousness can already be revealed.

There is such an existence in the Cangqing Divine Realm. When the eight tribes of the Forbidden Land surrounded the Cangqing Divine Realm and wanted to kill Lu Ming, the consciousness of several ancestors in the Cangqing Divine Realm appeared. Naruto.

Chapter 5115: Shake the universe

Now, in the Cangqing Divine Realm, there is a terrifying consciousness of existence manifesting, covering this Jiuyin Demon Ruins. It is obvious that he is also a strong guard against the outer universe.

Obviously, Jiuyin Demon Spider is very cautious.

After all, the universe is vast, and there are all kinds of creatures, even if there are creatures that can break through various formations and enter the Jiuyin Demon Ruins silently, they are not surprised.

Because the Nine Yin Devil Spider knew that there were such creatures in the universe, who could ignore all kinds of formations.

Therefore, they have the horrible ancestor consciousness manifested, covering the Jiuyin Demon Ruins, so they are foolproof.

Lu Ming groaned for a moment, then retreated decisively.

He wouldn't be able to break the sword even if there were some people. The water in the forbidden area was too deep, and here was the headquarters of the forbidden area, and the ghost knew what would happen if he broke into it.

You know, during the period of the Great Continent, the king would be injured if he flattened the forbidden land.

Leaving the Jiuyin Demon Ruins, Lu Ming did not return to the Cangqing Divine Realm, but headed towards the extremely evil land.

He also wanted to try his luck.

However, when he approached the terrible place, he also stopped.

Because the extremely evil land, like the Jiuyin Demon Ruins, was also laid out with numerous formations, and there was a horrible consciousness of existence manifesting, covering the entire extremely evil land.

It seemed that Lu Ming's abacus was going to fail.

Today's universe is so chaotic that even the major forbidden areas are waiting strictly and dare not relax.

Needless to say, most of the other forbidden areas are the same, and Lu Ming didn't bother to make a trip in vain.

As a result, he couldn't help but think of the Extinction Army station.

What happened to the Extinguishing Army's garrison now?

Lu Ming was fortunate that the several cosmic passages were all in the western universe and the eastern universe. There was no cosmic passage. Moreover, the east and west universes were separated by a

vast void. The creatures in the outer universe should have not yet made their way to the eastern universe.

Although there are three races in the Forbidden Land in the eastern universe, part of the Celestial Extinguishing Army will awaken in the initial stage of its origin, and it should be more than enough to protect itself in conjunction with the source-level formation arranged by Dandan.

However, Lu Ming was still a little worried. He planned to wait for a while, if his cultivation base became stronger, and then return to the Eastern Universe.

The creatures in the outer universe will go to the east universe sooner or later, and sooner or later there will be chaos there.

Lu Ming left the extremely evil land and returned to the Cangqing Divine Realm.

"It's Lu Ming, Lu Ming is back!"

"He broke through, successfully broke through under the Great Tribulation of the Origin, reached the Origin Realm, and even rushed to the middle of the Origin, beheading many masters of the Eight Clan in the Forbidden Land."

"Horror, miracle!"

Lu Ming returned to the Cangqing Divine Realm, causing a sensation.

There is no impermeable wall in the world. The news about Lu Ming being besieged and killed by the eight clans in the forbidden area, and then at a critical moment, Lu Ming broke through to the middle of his origin and counter-killed the eight clans in the forbidden area.

After all, there are so many people from the Eight Clan in the Forbidden Area, but if one person reveals a little to his disciple or friend, it is easy to spread.

This news was so shocking that as soon as it came out, it spread throughout the universe at the speed of a hurricane.

As Lu Ming traveled to the Jiuyin Demon Ruins and the extremely evil land, and drove back from the extremely evil place to the Cangqing Divine Realm, this matter had already spread to a lot of enthusiasm.

This is so amazing, even the creatures in the outer universe feel shocked.

Lu Ming had just stepped on the roof to defeat the heroes and seized the highest step on the roof, and then there was such a disturbance.

Not only did he break through under the great calamity of the origin, but he also entered the middle of the origin in one fell swoop. This kind of speed is simply scaring to death.

This kind of evildoer, even in the top universes of the universe, will attract worldwide attention.

People know that a great evildoer has risen, and as long as it does not die, future achievements are hard to measure.

There will be no more kings in the prehistoric universe, right?

"Don't worry, the heart of the universe in the primordial universe is broken. I don't know where it falls. The rules and order of the entire universe are not complete.

The person with the big universe sneered.

Everyone nodded, indeed.

Some people feel sad for Lu Ming.

With such a talent, if it is placed in the complete universe, the achievements are really hard to limit, even if there is really another king, it is not impossible.

But it is a pity that the big universe is broken and the rules and order are not complete. At most, it is only to cross the immortal catastrophe, and it is difficult to transcend and prove to become immortal.

In such a big environment, even if the talent is ten times stronger, it is useless.

"I want to prove the truth. It's ridiculous. Even if he crosses the Immortal Tribulation, it is impossible. Once the origin of the Tribulation is over, he will undoubtedly die."

People from the eight tribes who have forbidden places are talking.

This matter has been heated up for several days before it fell silent, because people's attention has shifted to another important event.

There is a group of Tianjiao who are about to break through.

Yes, most of the Tianjiao who gained good luck on the rooftops are ready and plan to give it a try.

But the truth is cruel.

Several Tianjiao who tried at the beginning failed, and were reduced to ashes under the great calamity of the origin.

The Primordial Tribulation did not become violent again because of Lu Ming's breakthrough. It was similar to the time when the conflict was broken, but it was still extremely difficult. Several Tianjiao who broke the extreme four times had their bodies and spirits vanished.

This casts a shadow over everyone's hearts.

Some Tianjiao who were about to make a breakthrough had to stop and did not dare to break through.

But not everyone is frightened. There are still people who are very confident in themselves and believe that they are incomparable. Even if their combat power is not as good as others, they will not be bad in other respects and they will definitely be able to break through.

However, seven or eight consecutive attempts to break through, all fell, and none succeeded.

Even one of them failed five times.

The chance of breakthrough success is surprisingly low.

This seems to prove from the side that Xi Tianteng was extraordinary at the time.

Although Xi Tianteng was the first to make a breakthrough, the Great Tribulation of the Origin at that time had not yet been violent and his power was not that strong, but you should know that Xi Tianteng had not gained the good fortune on the roof.

It can only be said that Xi Tianteng's combat power may not be as good as some people, but in other aspects, it is absolutely top-notch.

Body and soul, as well as their own willpower and so on.

The failure of many people in a row finally deterred many people. Breaking through in the current environment, the success rate is too low, it is a life of nine deaths.

They are all peerless arrogances. Although they can make a breakthrough under the great calamity of the origin, they can obtain infinite benefits and make everyone's heart move, but once they fail, there will be nothing, everything is zero, and the price is too high.

With their talents and potential, even if they don't break through the great calamity of the origin, their achievements will be amazing.

Moreover, breaking through under the great calamity of the origin is just a kind of good fortune, and they may be able to obtain other good fortunes in the future, even larger than this.

Not necessarily inferior to those who broke through under the great calamity of the origin.

But not everyone is deterred.

People who have a higher heart than the sky, such as returning to the ancestors, such as Sheng Wushuang, do not want to lag behind others, and they firmly believe that they will not be worse than others. Since Lu Ming can succeed, so can they.

Chapter 5116: 80% conversion rate

Returning to the ancestor Xian Bone and the sacred Wushuang, unexpectedly coincidentally chose to break through on the same day, which attracted worldwide attention.

Everyone is paying attention, wanting to see if the two can break through and succeed.

In the battle on Tiantai, the two were masters second only to Lu Ming.

It was even said that it was not necessarily worse than Lu Ming, but they were restrained from each other.

Such as Sheng Wushuang, although he was defeated by Lu Ming, he defeated the Xian Bone of Returning Ancestor.

But if the Returning Ancestor Immortal Bone confronts Lu Ming, Lu Ming is probably not an opponent.

The two failed, and there was an element of luck in it.

Therefore, people want to see if these two people can succeed.

On this day, the place where the two broke through was crowded with people.

The final result also shocked the universe.

Returning to the Ancestor Immortal Bone failed, his soul dissipated and fell completely, but his body did not dissipate.

The golden fairy bone remained.

This shocked everyone. Others broke through. Once they failed, nothing would be left, and their body and spirit would be destroyed and completely dissipated.

However, the body of the Xianzu Xian Bone can be preserved intact, which makes people have to guess, this is not really the bones of the immortal figure.

Also, the people of the Skeleton Universe solemnly put away the body of the Returning Ancestor Immortal Bone.

There are legends that the people of the Skeleton Universe will take the fairy bones back and place them in the secret place of the universe. After endless years, maybe this bone will give birth to new wisdom and reappear a world-famous arrogant.

Many people in the universe were stunned.

Dare to love this ancestor-returning fairy bone, and it can be used repeatedly, as long as it is not destroyed, it will be able to repeatedly give birth to a world-class evildoer.

The failure of returning to the ancestor Xian Bone caused more people's attention to the holy Wushuang side.

Soon after, the news came out, Divine Wushuang succeeded and broke through to the original realm alive.

This is the first successful Tianjiao evildoer after Lu Ming.

However, after Sheng Wushuang succeeded, his cultivation was only the peak of the initial stage of his source, and he did not reach the middle stage of his source like Lu Ming.

As for Sheng Wushuang's source level, outsiders don't know, they are all guessing, is it intermediate or advanced?

The success of Divine Unparalleled also gave others confidence, after which some people attacked the original realm one after another.

But most of them have failed, and no one can succeed, even if it is the same for five times.

Lu Ming didn't pay attention to this. After he returned to the Cangqing Divine Realm, he began to retreat.

He organized the storage ring and storage bag he obtained this time.

The gains are amazing. In addition, the original source killed by him last time is more than two hundred and fifty. These are all forbidden creatures. Everyone controls the source-level magical soldiers, and some people even have more than one. Pieces.

After sorting it out, there are more than four hundred source-level magic soldiers, and there are even top-level source-level magic soldiers.

In addition, there are also eight sets of the original-level combo formation carrier.

These are all amazing gains. Bringing these source-level gods back to the Heaven Extinguish Army can arm the origin of the Heaven Extinguishing Army to the teeth.

Of course, these are only part of the gain.

In addition, the precious materials, the magic pill, and the source-level magic medicine, the fairy crystal fairy stone, the quantity is also amazing.

What Lu Ming valued most was the source-level magical medicine and the fairy crystal.

Both of these contain the imprint of the origin, and the existence of the origin realm can directly absorb refining and improve cultivation.

Lu Ming's retreat this time was mainly for refining these source-level magical medicines and immortal crystals to improve his cultivation.

Although his progress was fast enough, he reached the mid-primary stage as soon as he broke through, but he still felt that it was not enough, and he must rise faster.

The universe is in chaos, and it is conceivable that once the origin of the catastrophe is over, the primordial universe will usher in a sky-shattering storm.

He is full of a sense of crisis and urgency, and his strength is still too weak. He has no time to cultivate slowly and must rise quickly.

Lu Ming waved his hand, and dozens of fairy crystals burst into pieces. You could see that in the smashed fairy crystals, strands of special air currents emerged, like runes and rules of order.

These are the original imprints.

Lu Ming opened his mouth and inhaled, all these original imprints were inhaled by Lu Ming, then he closed his eyes and began to realize that Lu Ming's body was enveloped by a layer of mist.

The imprint of the origin in the fairy crystal and the source-level magic medicine is not energy, and cannot be assimilated like energy, and needs to be understood.

Yes, it needs to be understood.

Only after comprehension can it be transformed into the power of the original source and strengthen the power of the original source.

Therefore, everyone's conversion rate for fairy crystals or source-level magical drugs is different.

For example, if the origin mark of a piece of fairy crystal is divided into ten percent, not everyone can absorb and refine ten percent of the origin mark.

It is estimated that the average person can only absorb 20% of refining.

Because it is necessary to comprehend these original imprints, the more you comprehend, the more you absorb.

At 20%, you can only absorb 20%, and at 30%, you can only absorb 30%...

Others will dissipate in the heavens and the earth.

The higher the talent, the higher the understanding, and the higher the conversion rate.

Lu Ming's current comprehension is too terrifying. These original imprints circulated in his body, and after a while, they turned into the power of taboo origin. Lu Ming's taboo origin power became stronger and stronger.

Lu Ming estimated it by himself, and it turned into 80%.

If this spreads out, it will definitely scare countless lives to death.

You know, the general origin, the conversion rate, is only 20%.

Achieving 30% is considered to be a good talent, 40% is a talented person, and 50% is a peerless evildoer, the kind that is rare in the world.

But Lu Ming has reached 80%, which is already incredible.

But Lu Ming still sighed, a little dissatisfied, because 20% was wasted.

He feels pain, is it easy for him to obtain these resources?

His heart was dripping with the waste of 20%.

If this is to let others know what he thinks, it is estimated that he will be beaten to death.

Don't be so irritating.

After a while, dozens of immortal crystals were refined by Lu Ming, and Lu Ming felt that his cultivation base had improved a little, and he had taken a small step forward on the basis of the mid-primary period.

His cultivation base had just entered the mid-primary stage, and there was still a long way to go before the late-primary stage.

However, with his cultivation speed, Lu Ming believes that he will soon be able to enter the late stage of his roots.

With a wave of his hand, dozens of immortal crystals flew out, and then burst into pieces. The original mark inside was absorbed by Lu Ming.

In this way, Lu Ming fell into a deep retreat, constantly absorbing refining fairy crystals and source-level magical medicine.

Time is hurried, and ten years have passed.

In the past ten years, Lu Ming has refined all the immortal crystals and source-level magical drugs on his body, and only then has his cultivation level reached the peak of the mid-primary period, and he has not entered the late-primary period as he imagined.

Insufficient resources.

"The resources I consume are too terrifying, isn't this the price to be paid for achieving Advanced Root?"

Lu Ming's face was bitter.

Chapter 5117: Qingyang Xianchao

He killed more than two hundred and fifty origins of the eight tribes in the Forbidden Land, scoured their treasures, and obtained immortal crystals and origin-level magical medicines, which were not too few, very amazing, enough for ordinary origins, and took a long time.

However, he actually only used it for ten years, and his cultivation level had only risen from just entering the mid-primary period to the peak of the mid-primary period.

A small realm has not been crossed.

It can only be said that the resources he consumes during cultivation are terrifying.

The higher the source root, the more terrifying the resources consumed by cultivation.

Lu Ming's roots are high-level roots, and the resources he consumes are at least a hundred times that of low-level roots.

This is the reason why his conversion rate has reached 80%. If not, even if he consumes all these fairy crystals and source-level magical medicines, he will not reach the mid-primary peak.

"It seems that we have to go out to find resources, otherwise, the pace of practice will be slower."

Lu Ming whispered.

The existence of the origin realm, if there is no fairy crystal and source-level magical medicine, it is not impossible to improve.

For example, through the cosmic bridge, consciousness enters the cosmic sea, and when the cosmic sea cucumber understands its origin, it can also be ascended. During the peak period of the gods, most people do this.

But the pace of cultivation like this is too slow, and it takes a long time to accumulate.

At the same time, the existence of the Origin Realm can also directly refine the Yuanshen medicinal solution to improve the cultivation base. The Yuanshen medicinal solution can be directly absorbed without waste at all.

However, Yuanshen liquid medicine is too scarce.

A top-level source-level magical medicine can only extract one drop in a month, which is not enough for Lu Ming.

"Lu Ming, you are out of the customs, and I happen to ask you for help if something happens."

Not long after Lu Ming left the customs, he met a few elders. Lu Ming knew that they were all in the original state of the Cangqing Divine Realm.

Lu Ming has a good impression of these people. At the beginning, the Cangqing Divine Realm was besieged by the eight clans in the forbidden area. Some people advocated handing over Lu Ming, but some people refused to let them. These old men were one of them.

"Several seniors, please tell me something." Lu Ming smiled.

"Recently we are attacking a ruin. There are definitely a lot of treasures in this ruin, but people from other universes are competing. I would like to ask you for your help and attack this ruin together."

A red-haired old man explained.

"Attack the ruins?"

Lu Ming's eyes moved.

"This ruin is not a particularly large ruin, and it shouldn't be too dangerous."

Thought Lu Ming hesitated, the red-haired old man explained.

"Okay, take a trip with a few seniors."

Lu Ming said.

He happened to lack resources. These relics were all left by powerful forces in the Primordial Continent. Maybe there were a lot of resources in it.

Even if no one invited him, Lu Ming planned to go around.

Seeing Lu Ming's promise, several old men were overjoyed.

Lu Ming's current cultivation base, but in the middle of the origin, can be said to be the only one in the universe, and his combat power is extremely powerful.

In a sense, Lu Ming can now be called the 'first master' of the universe.

With his help, they can have no fear of other universes, and their confidence is greatly increased.

Immediately, they set off and headed for the ruins.

A few days later, they came to a piece of continental debris.

Today, the continent fragments of the primordial universe are all converging with each other, and some closer ones have already converged together to form a larger continent.

It's just that the vast void of the universe is too vast, and the distance between many continent fragments is so big that it takes a long time to gather together.

This piece of continental fragments is drifting slowly in a certain direction, and one day, it will be glued together with other continental fragments.

In the center of the continental debris, there is a large mountain range, and you can't see the end at a glance.

On the way, several old men had already talked to Lu Ming in detail about the ruins.

This relic comes from a huge immortal dynasty of the Human Race, named Qingyang Immortal dynasty during the Primordial Continent Period.

Those in the name of immortals are amazing, this immortal dynasty definitely has immortals sitting in town.

In fact, the Qingyang Immortal Dynasty was extremely powerful during the Primordial Continent Period, and could rank among the top ten in the ethics of all races.

This is absolutely remarkable. I think that Zixiao Dongtian, which occupies a cave, was not ranked in the top ten among the major forces of the human race at the time, and there was a big distance.

The human race of the Primordial Continent, although there are kings across the world.

However, the King of Humans did not create a force that unified the human race, but was divided into many different forces and different ethics.

The King of Humans is a respectable name, a respectful name for those who have made great contributions to the human race, and is respected by most human races.

It was not the creation of an immortal dynasty that was called the King of Humanity.

In fact, among the three human kings, only Ren Wang Xuanyuan created an orthodoxy, and the other two, such as Ren Wang Shengxi, and the Queen of the Ages, did not create any orthodoxy and lived alone.

Of course, the king of the world respects the world, if there is a major event, you will be able to gather together with an order.

At that time, the human race was divided into many different ethical traditions of different sizes.

Immortal dynasties, immortal sects, etc., segregate one side, and are extremely brilliant.

The Qingyang Immortal Dynasty can be ranked in the top ten among the various avenues of the human race. I don't know how powerful it is. According to legend, there is a 'king' in charge.

Of course, this 'king' is not the king of human kings.

The relics left by this immortal dynasty are absolutely amazing.

Of course, the ruins in front of them were not the immortal capital of the immortal dynasty, but the residence of a general of the Qingyang immortal dynasty.

If it were the site of the immortal capital of the Qingyang Immortal Dynasty, I am afraid that the heroes will have gathered long ago, and it will not be the turn of the Cangqing Divine Realm to compete.

However, if it were the immortal capital of the Qingyang Immortal Dynasty, the risk factor would also rise linearly. With the strength of the initial stage of the origin, he would not dare to attack at all.

And the ruins in front of them were only the mansion left by a general of the Qingyang Immortal Dynasty, and the risk factor was much smaller. This is why the Cangqing Divine Realm dared to attack now.

"The vicissitudes of life, time has passed, the mansion of the general of the Qingyang Immortal Dynasty, is buried in this mountain range, and the surrounding is full of restrictions, every step is murderous!"

"In addition, the Qingyang Immortal Dynasty is good at refining stone puppets and fighting for them. There are many stone puppets in this ruin. When we excavated before, we were attacked. Although endless years have passed, they are still preserved. The combat effectiveness is very strong and should not be underestimated."

Several elders, continue to introduce.

Lu Ming nodded, remembering one by one in his heart.

"Go, let's go over there, our people are over there."

A few elders led the way, and soon Lu Ming saw a large group of people with more than two hundred people, all of whom were strong in the original realm.

These prehistoric relics are very dangerous. Under the origin, they dare not participate at all, and they will die if they move.

Seeing Lu Ming's arrival, the people in the Cangqing Divine Realm were all overjoyed, with a lot of confidence.

boom!

A violent roar suddenly occurred in the depths of the mountain range, and dozens of figures rushed out quickly.

Chapter 5118: Break the prohibition

In the depths of the mountain range, there were more than a dozen figures, rushing out quickly, all masters of the Cangqing Divine Realm.

"Attention, there are stone puppets coming out and jointly annihilate!"

Among a dozen people, one drank it.

"Shoot!"

There were more than two hundred people outside, the power of the source was operating, and the source-level magical soldiers hummed, ready for the battle.

boom! boom! ...

In the next moment, Lu Ming felt the ground roar, and behind the dozen figures, some giants rushed towards him.

Look carefully, where are the giants, they are clearly stone people, each of them is more than ten meters high, holding stone soldiers, and the ground is roaring, chasing and killing the dozens of people.

Lu Ming knew that this was a stone puppet, there were thirteen puppets in total.

Soon, the two sides approached.

"Shoot!"

On the side of the Cangqing Divine Realm, an old man shouted, and more than two hundred masters of the Origin Realm shot at the same time, blasting brilliant rays of light and bombarding the thirteen stone puppets.

Boom boom boom!

Continuous explosions sounded, thirteen stone puppets were blown out and hit the ground.

But soon, the thirteen stone puppets stood up again, as if nothing had happened.

If you look closely, you can see that there are only some shallow traces on the stone puppet.

"What a hard body, when it was attacked by the Origin Realm, it only left some superficial traces."

Lu Ming was a little surprised.

Undoubtedly, these stone puppets were all left over from the last era. After the epoch change, they can be preserved without decay. They are already rare. There is such a strong defense, it is really amazing.

However, with such an obstruction, the dozen people were able to escape the danger and join the crowd.

"Tack again!"

Shoo...

This time, everyone directly beat the source-level magical soldiers out.

Hundreds of source-level divine weapons hit the thirteen stone puppets, blasting loudly, and sparks shot in all directions. You can see that there are constantly flying out of the thirteen stone puppets.

In particular, some of the source-level magical soldiers are still top-level source-level magical soldiers, and they are more powerful, directly smashing large stones.

In the end, under the siege of more than two hundred masters of the Origin Realm, the thirteen stone puppets were destroyed and shattered to pieces.

"There is an area of stone puppets, all of which have been led out and wiped out. We can explore that area."

One of the dozen people who ran out just now was humane.

"Go, leave some people behind, let's go in and have a look!"

Immediately, there were about a hundred people heading into the mountains, and Lu Ming followed in.

On the way, Lu Ming revolved the Demon King Emperor's pattern, and suddenly, the surrounding environment changed in his eyes.

Above the mountains, dense runes appeared, forming a powerful ban.

However, in this generation, many restrictions have been broken.

Obviously, it was broken by the people of Cangqing Divine Realm.

But deeper in the mountains, there are densely packed runes, forming more intact prohibitions.

Soon, they came to an area.

The prohibition in this area was also broken, and they saw large tracts of ancient buildings.

These buildings are all dilapidated and decayed. It seems that they had gone through a great battle at the beginning.

They went in and probed.

Afterwards, they saw some dry bones, and with a light touch, the weather dissipated and turned into powder.

"The creatures who died here are not very powerful. They should have been implicated when the universe collapsed."

"At the end of the prehistoric period, the universe was full of wars, and the strong were recruited to join the war, and none of those who were left were very strong. It is a pity that when the universe is dying out, the weak will not survive.

Several old men sighed.

These elders have lived for a long time. Their ancestors have survived from the period of the Primordial Continent, and their ancestors have told them about their experiences at that time.

It was an era of despair.

The war was raging, the strong went to fight, and the weak stayed behind.

It is a pity that in the end the prehistoric continents were blown up, the heart of the universe burst, and the destructive force swept the entire universe. Under such destructive power, the weak could not survive at all, only destruction.

What a despair that is!

Only a handful of creatures can survive.

They probed and found some broken source-level magic soldiers.

To be honest, the masters of the Celestial Sky Divine Realm didn't like these broken source-level magic soldiers, but Lu Ming would not let it go, and calmly collected a lot of broken source-level magic soldiers.

The ball has too much appetite, this is the ration for the ball.

Thinking of this, Lu Ming couldn't help looking at his wrist.

After so many years, the ball remained silent, turned into a bracelet and carried it in Lu Ming's hand.

Lu Ming was really worried.

Exchange good books. Pay attention now to receive cash red envelopes!

Back then, the ball swallowed Renwang's broken sword, which was too reluctant.

Renwang Broken Sword, what is that? It is Renwang Xuanyuan's saber, a real fairy soldier, the ball won't work no matter how talented it is.

Lu Ming was really worried about what went wrong with the ball.

But now, Lu Ming has no better way, so he can only wait.

Hope the ball can hold it.

Lu Ming has a feeling that if the ball can't hold it, it must be great.

"This is just the periphery of the ruins. If it is the center of the ruins, there must be treasures left. After all, this is the mansion of a general. exist."

"Unfortunately, there are too many bans here. It is not easy to break it."

Many people sigh.

"Perhaps, I have a way to break these restrictions."

At this time, Lu Ming spoke.

"Do you have a way?"

Many people looked at Lu Ming.

"Well, I can see the weaknesses of these restrictions, but you still need your seniors to attack these weaknesses in order to break these restrictions."

Lu Ming said.

The people in the Cangqing Divine Realm were shocked. Lu Ming could actually see the weakness of the restraint, what kind of talent is this.

However, they didn't ask much. They knew very well that there must be a lot of secrets in a monster like Lu Ming. If he didn't tell him, they would naturally not inquire.

"This is naturally no problem."

The person in the Cangqing Divine Realm nodded.

After that, Lu Ming left here and stepped out into the depths of the ruins. Lu Ming twirled the Demon King Emperor's pattern, his pupils glowed, and the restrictions around him were fully revealed in his eyes.

"Thirty meters ahead of the right..."

"One hundred and thirty-six meters from the front left..."

"Attack the 858 meters ahead of the void..."

Lu Ming kept pointing out the weakness of the prohibition.

The Cangqing Divine Realm's master hand blasted out a brilliant glow, bombarding the place Lu Ming pointed out.

Boom boom boom!

There was an explosion in these places, and then the blockade was broken, and the runes were dissipating.

"Broken, the prohibition is broken!"

There is no shortage of strong people who are proficient in formations, and they cried out in surprise at this time.

Others are also ecstatic.

Especially the few old men who came to Lu Ming before, are even more overjoyed. This time, it's great to come with Lu Ming.

Chapter 5119: The robbery is coming

Lu Ming pointed out the weakness of the prohibition with the Demon King Emperor's pattern, and then attacked these weaknesses by the master of Cangqing Divine Realm, and the prohibition was easily broken.

Heavy restrictions were broken, and they continued to penetrate into the ruins, and large tracts of dilapidated buildings appeared before their eyes.

Bang bang bang!

Suddenly, the ground roared, and burly figures appeared, culling them at Lu Ming.

It's a stone puppet!

There are many, at least fifty or sixty.

"Let's retreat first, join other people, and solve these stone puppets first."

An old man yelled.

These people here don't have enough manpower. They will suffer a big loss against fifty or sixty stone puppets. They will first meet with the people outside and take action together to destroy these stone puppets.

They stepped back quickly, and at the same time spread the news.

Soon, they retreated, and the stone puppets were chasing after them.

Hundreds of masters outside were already prepared, and after seeing the stone puppet, they launched a fierce attack.

Lu Ming and others also stopped their attacks.

However, fifty or sixty stone puppets were dispatched together, and their combat power was amazing. They dispersed, and they were actually pulled closer, dispelling the formation of the Cangqing Divine Realm.

bump!

A stone puppet held a stone knife and cleaved the origin of a Cangqing Divine Realm into the air with one move, coughing up blood.

"Arrange a combined attack formation!"

Someone yelled.

Suddenly, many people began to arrange a combined attack formation.

However, there were not many people left by the Cangqing Divine Realm from the period of the Primordial Continent, so there were not many remaining combined attack formations. There were only three combined attack formations at the scene, and the number of people was very small.

Two three-person team attack formations, one five-person team attack formation.

The combined attack formation was powerful, and immediately knocked out many stone puppets.

The others gathered in groups and barely stabilized the situation.

Hum!

Lu Ming held the God of War spear in his hand, and shot it up, and a shot was drawn on a stone puppet.

Lu Ming's current combat power is so powerful that he immediately took the stone puppet away, and dense cracks appeared in his body.

bump!

The stone puppet hit the ground and burst into pieces like porcelain.

Buzzing...

Lu Ming constantly wielded the God of War spear and attacked the stone puppets.

With every move, a stone puppet was blown up.

Si Si Si...

The others took a breath.

Lu Ming's combat power was too terrifying.

These stone puppets, they know how hard they need to be continuously attacked with source-level magical soldiers to break open, but in Lu Ming's hands, they are fragile, and they are blown up by one move, as if they really look like porcelain. general.

In the end, all fifty or sixty stone puppets were defeated, more than half of the stone puppets defeated by Lu Ming alone, the masters of the Cangqing Divine Realm were taken aback for a moment.

After that, they repeated their old tricks and entered the depths of the mountains. Lu Ming saw through the weakness of the restriction, and the others attacked and broke the restriction.

When there are stone puppets, they will be led outside, and everyone will defeat them together.

In this way, a large-scale ban in this direction was broken by Lu Ming and the others, and a large number of ancient ruins were exposed.

bump! Bump!

Lu Ming and others smashed a group of stone puppets once again.

"Well, the stone puppets in this area have basically been cleaned up. Next, you can explore this area well."

An old man said with a smile on his face.

"This time, little brother Lu Ming has given the most credit. I propose that if there are gains later, half of it will be given to little brother Lu Ming. What do you think."

Another old man suggested.

"I have no objection!"

"I think so too!"

Everyone nodded, and even if some of them were dissatisfied, it was not easy to bring them up.

This time, it was indeed Lu Ming's greatest contribution, and it was not half of it.

The prohibition was based on Lu Ming's weakness. If Lu Ming hadn't been there, they wanted to break it, and they didn't know how long it would take.

Not to mention, more than half of those stone puppets were defeated by Lu Ming.

It can be said that Lu Ming's contribution alone is greater than the others combined, and it should be half of Lu Ming's harvest.

Lu Ming did not refuse either.

Now is not the time for hypocrisy, he urgently needs a lot of resources to improve his cultivation.

At this moment, Lu Ming suddenly raised his head and looked in one direction.

Swish...

In that direction, rainbow lights flickered, and a large number of figures came towards this side.

In the next moment, hundreds of figures appeared in the sky.

"It's a person from Moshang Universe."

The complexion of the people in the Cangqing Divine Realm changed drastically.

This ruin was not only seen by the Cangqing Divine Realm, but the other two were all creatures in the outer universe.

The three parties had also competed for this place before, and a great war broke out. In the end, they discussed and divided the place equally. Each of them chose a position, each with its own ability. Whoever can get rid of the prohibition and obtain the treasure belongs to whoever owns it.

Moshang Universe is one of them.

This is a big universe from the underworld, and it is not ranked high in the underworld, but it is a complete universe after all, and there are still many masters.

These hundreds of people are all in the early days of the origin.

"This is the place of my Cangqing Divine Realm, what are you doing here?"

An old man in Cangqing Divine Realm asked.

"Haha, this is obviously a land of no owner. When did it become your territory? Now, this position belongs to us, and you can go."

In the Moshang universe, a purple-haired youth laughed.

"What? You want this place. We have discussed it with the three parties before, and each chooses one. Each depends on his ability. You don't want to keep your promise!"

The people in Cangqing Divine Realm were furious.

"What was negotiated? When you discussed before, I was not there. Now I am here. I don't agree with that agreement. Now, if I want this area, let me go!"

The purple-haired youth had his hands on his back with a look of contempt.

He got the news that the people of Cangqing Divine Realm suspected that they had broken the restriction here. He was overjoyed when he heard the words, and immediately brought people over.

This area, he has to decide.

"Damn, this guy must know that we broke the ban and want to take it away."

"Damn it, want to get something for nothing, no way!"

"There are many more masters in the Moshang Universe than before. No wonder they are so arrogant."

The people in the Cangqing Divine Realm were full of anger, but they were also very jealous.

Because in the past, the number of people in the Moshang Universe was far less than it is now, and they could handle it.

But now, the number of people in the Moshang Universe has doubled compared to before, and the strength is far above them.

"I can persuade you, don't toast or eat fine wine, don't think that you can fight us, the human race is no longer the human race of the Primordial Continent period, you have to recognize yourself, you are just the offspring of some lingering people."

The purple-haired youth sneered, jokingly.

"What are you talking about? Asshole!"

"You dare to insult us."

Many people were furious.

"Why, do you want to do it?"

The purple-haired youth sneered, waved his hand, and suddenly, hundreds of masters in the Moshang Universe, bursting out aura, trembling in the void, and horrifying, pressed towards the people in the Cangqing Divine Realm.

Chapter 5120: I'm robbing

The number of people in the Moshang Universe is about four hundred, which is twice as much as that of the Cangqing Divine Realm. The breath of the 400 people joining forces is too amazing, making the faces of the Cangqing Divine Realm ugly.

Moreover, the Moshang universe is a complete universe, with a complete lineage, endless years of inheritance, and profound background, which is not comparable to the Cangqing Divine Realm.

The Moshang Universe definitely does not lack all kinds of powerful combined attack formations, and the Cangqing Divine Realm has only three combined attack formations.

If you really want to do it, they are definitely not opponents.

"roll!"

At this moment, a cold humming sounded, which sounded very abrupt at the scene.

The person in the Cangqing Divine Realm couldn't help turning his gaze to a person, and then his eyes lit up.

The person who spoke was naturally Lu Ming.

Lu Ming was very upset and his face was gloomy. In his opinion, half of the treasures in this area belonged to him. Now, the people of Moshang Universe actually want to empty the glove white wolf and grab the treasure from him.

Moreover, the attitude of the other party made him extremely unhappy, so he directly scolded him.

Thinking of Lu Ming's combat power, the people of Cangqing Divine Realm couldn't help but relax.

They almost forgot about Lu Ming, yes, with Lu Ming, why are they afraid of Moshang Universe?

The people in Moshang Universe also turned their eyes to Lu Ming, especially the purple-haired youth, with two cold electricity shots in their eyes, and said, "Boy, who were you talking to just now?"

"Nonsense, so poor understanding, are you a pig, I will let you go."

Lu Ming continued to scold.

"Hahaha, boy, you are looking for death, do you know? Now I will give you a chance to kneel down and kowtow to admit your mistakes, and cut off your arm. What I said just now, I can treat it as if I didn't hear..."

"Get out!" Before the youth with purple hair had finished speaking, Lu Ming also yelled, seeing his attitude as if he was yelling at a wild dog.

The purple-haired young man exploded, and his anger was like a volcano, suddenly becoming violent.

"Boy, you are looking for death, kill him for me."

The purple-haired youth yelled.

Huh!

In the Moshang universe, a big man stepped out with a domineering aura, put out a big hand, and grabbed Lu Ming.

There is no doubt that this big man is a master who has understood the origin technique. This big hand is the embodiment of his origin technique. Otherwise, he wouldn't be so big and he would just do it.

After all, the aura that Lu Ming reveals is also in the original state.

call out!

Lu Ming snapped his fingers, and a spear light burst out, piercing the person's palm directly, and a blood hole appeared.

what!

The middle-aged man screamed, his stature retreated.

what?

The people in Moshang Universe were shocked.

This big man is not a weak one. In the early days of the origin, he understood his origin skills and was considered a master, but he was pierced by Lu Ming's finger in his palm, which was terrifying.

They realized that the young man in front of them was an enchanting figure.

However, they were only shocked, but not afraid.

They have more than 400 masters, and they also have a combined attack. How can they be afraid of someone of the same level?

"Dare to hurt someone, set up an array, and kill him!"

The purple-haired youth shouted.

Suddenly, his body flickered, and a five-person joint attack formation was arranged, transforming into a giant black wolf, and pounced on Lu Ming.

The giant wolf was as big as a mountain, a wolf claw grabbed it, and the void shattered directly, terrifying.

Lu Ming was too lazy to talk nonsense, took out the God of War gun, swept it out, and collided with the claws of the giant wolf.

Draw red envelopes!

With a touch, the giant wolf's claws exploded, and the spear light continued to smash at the giant wolf, directly exploding the giant wolf.

The five people in the formation screamed and flew out like five cannonballs, smashing to the ground, vomiting blood, their faces pale and breathless, and were severely injured.

This is still Lu Ming's mercy, otherwise, these five people will definitely not survive.

But this also stunned the people of Mo Shang Universe.

In the early days of the same source, it was possible to explode a five-man team attack formation with one move. What kind of combat power is this?

No, it's not the early stage of the source, but the middle stage of the source.

Lu Ming's breath just disappeared in a flash, it was clearly the cultivation base of the mid-primary stage.

However, people in the middle of the roots can't lift the seal, can't they come out.

How could Lu Ming sway around?

wrong!

Immediately, they thought of who Lu Ming was.

Some time ago, the eight clans in the Forbidden Land encircled and killed Lu Ming. In the end, Lu Ming broke through at a critical moment and reached the mid-primary stage. The anti-killing of more than one hundred masters of the eight clans in the Forbidden Land had long been known in the universe.

At present, there is only one person in the Primordial Universe who has a cultivation base in the mid-primary stage, and that is Lu Ming.

Thinking of this, their faces paled.

This is a ruthless person who is stepping on the roof, defeating the heroes, defeating the holy Wushuang, and occupying the highest stepping on the roof.

When breaking through the origin, it was possible to enter the mid-term in one fell swoop. How many masters were dispatched by the Eight Clan in the Forbidden Area, but the result was heavy casualties.

This evil star is actually here.

The purple-haired youth only felt that his feet were trembling and his lips were trembling.

Although he can be regarded as a figure of the arrogant, but facing Lu Ming, the absolute difference is huge. He scolded Lu Ming like that just now, he was really afraid that Lu Ming would stab him to death with a shot.

A smile more ugly than crying squeezed out on his face, and said: "Misunderstanding, it was a misunderstanding just now, which **** lied to me to come here, I will not forgive him, now, goodbye..."

The purple-haired youth clasped his fists and turned around to leave.

"Come as you want, leave as you want, when I'm good to talk, right?"

Lu Ming's faint voice sounded.

The purple-haired youth froze, turned around to look at Lu Ming again, and said, "Lu Ming, what do you want?"

"Simple, you are such a large group of people, rushing in black pressure, I was really frightened, there are cracks in my soul, and the roots are unstable..."

Lu Mingdao

Shit!

Give him the **** of forgiveness.

The purple-haired youth shouted psychologically.

Are you scared? It's like a needle piercing your eyes and talking nonsense. With your combat power, you will be scared. It is clear that you are pretending to be a pig and eating a tiger. It is us who really scared you.

Of course, he was just thinking about this in his heart, and he didn't dare to say it.

"You... what compensation do you want?"

The purple-haired youth had an ugly face, as uncomfortable as eating a dead mouse.

This time, he brought people to occupy this place and gain benefits, but now it's better, but he was actually asked for compensation in turn.

"Simple, I don't want too much, just one hundred thousand fairy crystals, three hundred source-level magical medicines."

Lu Ming said.

The purple-haired young man almost jumped up and shouted as if he had been stabbed, "What? One hundred thousand immortal crystals, three hundred source-level magical drugs, why don't you grab it?"

"I'm just robbing."

Lu Ming replied faintly, almost causing the Zifa Youth to vomit blood.

"No, we don't have so many immortal crystals and source-level magic drugs."

The purple-haired youth yelled.

"You have more than four hundred Origin Realm existences here. Will there be no 100,000 Immortal Crystals and Origin Grade miraculous medicine? Do you think I will believe it?"

Lu Ming said, his eyes were bad.
