

D Emperor 5121

Chapter 5121: A lot of magic medicine

Zifa youth shouted psychologically, even if we have so many immortal crystals and source-level magical drugs, we can't give you all.

"No, that's not. You also know that the cultivation of the Origin Realm consumes resources very much. Immortal crystals and source-level magical medicines are simply not enough. There are so many immortal crystals and source-level magical medicines."

The purple-haired young man shook his head and resolutely refused to give.

"If you don't compensate for my loss, it's okay. Let's play a fight, but I just broke through, and the force control is not very good, and the spear is very hard. I accidentally stabbed someone to death, but I was blamed... ."

Lu Ming's face turned cold, and the God of War spear in his hand buzzed, as if he was about to fly out to stab people at any time.

The scared Moshang Universe people couldn't help but stepped back, feeling cold all over.

Suffocated, extremely suffocated.

The Zifa youth yelled psychologically, if it weren't for the Great Tribulation of the Origin, and he couldn't enter the middle of the Origin, he really wanted a master who moved to the division to suppress Lu Ming.

Unfortunately, in this situation, no one can counterbalance Lu Ming.

"No, don't you? Then let's do it."

Lu Ming snorted coldly, the God of War spear skyrocketed and turned into the Sky Spear, as if to smash the sky.

At this moment, Lu Ming didn't hide the slightest, the mid-primary aura exploded, and the pressure brought by the advanced roots made the faces of Moshang Universe pale.

Facing Lu Ming, they felt that they were facing a terrifying behemoth, and they were like chickens, completely unable to fight.

"This person is too terrifying, will he not be able to make the original list in the future?"

Many people have such a thought in their hearts.

"Give it, we give it!"

In the end, the Zifa youth compromised.

Because through all the signs, Lu Ming is definitely a ruthless person.

Sacred Wushuang was also fearless. Forbidden Land Eight Clan, he also dared to kill, this kind of people would not be afraid of their Moshang Universe at all.

Besides, the relationship between Yin and Yang is still hostile.

More than four hundred people in the Moshang Universe, pieced together, finally gathered one hundred thousand immortal crystals and three hundred source-level magical medicines, handed them to Lu Ming, and then left here as if they fled.

As Zifa Youth said, both immortal crystals and source-level magical medicines are consumables. There are not many such things in the source realm, and if there are, they will be refined.

More than 400 people can make up so much, which is pretty good.

The people in Cangqing Divine Realm were dumbfounded.

This also works.

This is one hundred thousand immortal crystals, three hundred source-level magical medicines, it is definitely a huge sum of money, just got it?

What is most lacking in the origin realm is the various resources that contain the imprint of the origin.

In general, the refining rate of the original source is only 20%, and 80% is wasted, so the demand for these resources is even greater.

But even if they scratch their heads to get resources, they are still not enough.

Although the universe is now recovering and there are a lot of resources, the competition is great. Countless powerful people in the outer universe have poured in. The competition is too great. It is more difficult to obtain some resources than before.

And Lu Ming, who has obtained so many resources casually, many people want to envy to death.

However, they were only envious, and they would never dare to let them learn from Lu Ming.

One is that they don't have Lu Ming's courage, and the second is that they don't have Lu Ming's strength.

Lu Ming put away the fairy crystal and the source-level magical medicine, showing a satisfied smile.

These resources are enough for him to break through the late stage of the origin.

Of course, the ruins here have not been explored yet, if there are treasures inside, you can't miss it.

"Senior, the people from Moshang Universe are gone, let's continue to explore this ruin."

Lu Ming said.

The people in the Cangqing Divine Realm just woke up like a dream, and walked into the ruins with Lu Ming.

Inside the ruins, there are large tracts of dilapidated buildings. It can be seen that it was a vast mansion back then, but it is now completely dilapidated.

In the dilapidated building, some remains can occasionally be seen.

"There are good storage bags."

Someone exclaimed in surprise.

Sure enough, someone found a storage bag in a remains.

This storage bag is definitely not simple, it is dark gold and contains immortal substances, otherwise it will not be preserved from the last era to the present.

General storage bags, storage rings, storage bracelets, etc., after a long period of time, will also be decayed, will collapse, and the contents inside will flow into the chaotic dark void and never see the sky.

But if the storage bag is made of immortal materials, it can be preserved for a long time, even from the last era to the present.

In fact, most source-level magic weapons also contain immortal materials, so they can be preserved for a long time and are immortal.

"open to take a look!"

Someone urged.

The man opened it and found a lot of immortal crystals, **** pills and so on.

Of course, there can be no magical medicine. Even if the picked magical medicine is put in a storage bag, it will lose energy and it is impossible to keep it until now.

"Keep searching, there are probably other storage bags left."

The old man said.

The crowd scattered to search, and as expected, there were indeed many gains in the following.

Dilapidated source-level magical weapons and intact source-level magical weapons were discovered, and various refining materials were piled up like a mountain.

"It has a strong smell of medicine."

When they went deep into the ruins, everyone smelled a strong fragrance of medicine.

Then, in the depths of their mansion, they found a medicinal field.

This should be the place where the general of the Qingyang Immortal Dynasty planted magical medicine.

This medicine field occupies a large area, and at a glance, it is full of lush magical medicine.

Blossoms of magical medicine, emitting a mysterious glow, as if turning this area into a fairyland.

"Many magical medicines, most of them are source-level magical medicines, which is amazing."

Someone exclaimed.

Lu Ming's breathing also became heavy.

Exchange good books. Pay attention now to receive cash red envelopes!

Mainly, there are too many source-level magical medicines, and the spiritual sense is roughly swept away, there are about a thousand plants.

This is a source-level magical medicine, there are thousands of them, which is amazing.

In the past, the source-level magical medicines were obtained one by one, and it would be great to have a few plants together. There are actually thousands of source-level magical medicines.

"The soil in this medicine field is so good that even when the universe is dead, it can slowly absorb the energy in the universe, so so many source-level magical medicines can be born here."

An old man checked carefully and came to a conclusion.

The reason why so many source-level magic drugs can grow here is entirely related to the soil quality here.

This is a special kind of soil that is extremely suitable for planting magical medicine. He even guessed that this kind of soil can even be used for planting quasi-immortal medicine.

"Then these soil quality can't be let go."

Lu Ming's eyes were bright, and he planned to dig some soil and collect it into the prey to plant magical medicine.

Immediately, everyone started to dig out all the source-level magical medicines here. Of course, they did not let go of the soil here.

Finally, I counted, and there were more than 1,100 source-level magical medicines.

Lu Ming smiled, because according to the agreement, Lu Ming would divide half of them.

This time I came out and made a lot of money.

Chapter 5122: Dan Dan is here

Afterwards, they searched the ruins again, and all that should be searched were cleaned up.

Unfortunately, no more advanced treasures were encountered.

For example, the top source-level magic medicine, even the quasi-immortal medicine, or the quasi-immortal soldier, this level of treasures, have never encountered it.

However, even other treasures, there are many, especially the more than one thousand source-level magical medicines, which are of amazing value.

According to the agreement, Lu Ming left halfway, and there were more than 500 source-level magical medicines, tens of thousands of immortal crystals, many source-level magical soldiers and broken source-level magical soldiers.

This time, it can be said to be full.

"Seniors, juniors are going back to the Cangqing Divine Realm to practice."

Lu Ming clasped his fists and said goodbye.

"Lu Ming, next time there is a suitable ruin, you have to help again."

An old man said.

Others also watched Lu Ming hopefully.

At present, Lu Ming's combat power is too important, and Lu Ming can actually see through some of the weaknesses of the prohibition. With him joining, many of them can't explore the ruins, so they can find Lu Ming.

Even if they divide half of Lu Ming's harvest, they are still making a lot of money.

Just like here, if it weren't for Lu Ming, they wouldn't be so easy to break the restrictions here and get the treasures inside.

Don't say that it is broken, it is estimated that the people from Moshang Universe are here, they can only leave with a gray face, and there will be no chance.

"Naturally, if there are suitable relics, just look for me."

Lu Ming said.

What he said was sincere, and this time he came out, it was just a ruin, and it was such a big gain.

This is only the residence of a general of the Qingyang Immortal Dynasty. God knows how many treasures there are among those truly important ruins.

For example, the fairy capital of the Qingyang Immortal Dynasty, if it hadn't been exploded and preserved, the treasures inside would be absolutely amazing.

Unfortunately, many relics have been occupied by people from the outer universe.

And those important ruins are very dangerous. With Lu Ming's current cultivation base, he can't get in at all, and he will die if he moves.

Therefore, Lu Ming is more concerned with the right ruins than these people.

.....

After Lu Ming returned to the Cangqing Divine Realm, he began to retreat, refining the fairy crystals and the source-level magical medicine, and began to rush towards the late stage of the source.

His cultivation is constantly deepening, and constantly consolidating...

In a blink of an eye, a few years have passed.

However, Lu Ming's cultivation still stayed in the mid-primary stage, and did not break through to the late-primary stage.

"It seems that we have encountered a bottleneck. As expected, we can keep improving without relying on resources."

Lu Ming whispered.

The higher the cultivation base, the more difficult it is to improve. After reaching the original state, it is too difficult to improve to a level.

In fact, many of the origins will be trapped at a certain level, and it will be difficult to break through for a long time.

The original state requires not only resources, but also enlightenment. Once enlightened, the state is reached, and naturally, it will be able to break through.

The reason why Lu Ming was able to just break through before reaching the mid-primary stage was entirely because of the gift of the universe.

Now he is stuck.

Lu Ming understood that this was also normal. If you rely on resources, you can always improve without limits. Then the descendants of those top powerhouses do not need to practice, and rely on resources to accumulate to become top masters.

The descendants of those top masters, such as the descendants or disciples of the immortal figures, will definitely not lack resources.

But in reality, it's not that easy.

The descendants of those top masters also need to hone, fight, and feel...

Different people have different choices.

Some people will go to war with others, fight with others, feel in the war, and temper in life and death.

Some people choose to stay in retreat for a long time and accumulate slowly over the years.

There are others who will walk around the world, experience the various forms of life, polish their minds, and look for opportunities for breakthroughs.

Different people have different choices.

Lu Ming left the pass and stopped practicing.

He knew that when he encountered a bottleneck, it was impossible to break through by refining the fairy crystals or the source-level magical medicine, and if he retreats and cultivates hard, even with his talent, it will take a long time to be possible.

What he lacks most now is time.

Don't wait for me!

Lu Ming intends to go out to hone and hone, by the way, to explore some relics and accumulate more resources.

Once he breaks through to the late stage of his origin, he will need a lot of resources later.

In addition to the late stage of the source, to the peak of the late stage of the source, the resources needed will be more amazing than before.

After Lu Ming left the customs, he contacted several elders in the Cangqing Divine Realm. The elders were overjoyed and invited Lu Ming to explore the ruins together.

In the next time, Lu Ming went into and out of various ruins.

Five or six relics have been explored.

Of course, they are not particularly dangerous relics. With Lu Ming's current cultivation base, there are almost no competitors. Even if there are people from the outer universe competing, they are not Lu Ming's opponents.

As for the Eight Clan in the Forbidden Land, they never asked Lu Ming to trouble him, and seemed to be afraid of being beaten.

But Lu Ming knew that the Forbidden Land Eight Clan could not really be afraid of Lu Ming. They were just dormant and waiting. When the origin of the catastrophe passed, more powerhouses would wake up, and Lu Ming would never be spared.

After exploring so many relics, the rewards are huge.

Lu Ming accumulated a large number of immortal crystals and source-level magical drugs.

Even for the top source-level magical medicine, Lu Ming obtained three plants.

In total, there are fifteen top source-level magical medicines in his hand.

In addition, he also obtained a quasi-celestial soldier, but unfortunately it was broken. In the last epoch, he was beaten and maimed.

But this was a quasi-celestial soldier. Even if it was broken, its value was amazing. It was not comparable to a source-level magical soldier. Lu Ming solemnly put it away.

In this way, more than thirty years have passed.

At this time, it was about two hundred and fifty years before the end of the Great Tribulation of the Origin.

It can be felt that the power of the Great Tribulation of the Origin is getting weaker and weaker. I believe that in the near future, all the existences above the middle of the Origin can wake up and move freely.

However, Lu Ming hadn't made a breakthrough yet, and his cultivation was still stuck at the mid-primary limit.

Hello everyone, our official account will find gold and red envelopes every day, as long as you pay attention to it, you can receive the last benefit at the end of the year. Please seize the opportunity of the official account.

But at this time, Lu Ming received a message that Mulan had passed him.

Seeing this news, Lu Ming was stunned.

Dan Dan is here!

It's true, Mulan's message to him is clear and clear, once he is here, he is in the Cangqing Divine Realm.

Isn't Dan Dan in the eastern universe? Why did he suddenly come to the western universe? How did he come here?

Lu Ming quickly returned to the Cangqing Divine Realm, and he saw Dan Dan, bragging with Mulan and Huang Ling.

"Dandan, how did you come here?"

As soon as Lu Ming saw Dan Dan, he asked directly.

"Of course I came here by the ancient teleportation array."

Dan Dan said.

"Ancient Teleportation Array, didn't it blow up?"

Lu Ming was puzzled.

"It was blown up, but who is in front of you, a rare array genius in ancient times. After many years of research, the teleportation formation has been repaired. Therefore, I came along the ancient teleportation road to take a look. How are you."

"Unexpectedly, I almost scared the tortoise to death when I came over. Why are there so many masters here, I was almost boiled alive, and after all the hard work, I found your news and found here..."

Dan Dan said.

Chapter 5123: Return to the Extinction Army

Dan Dan babbled, his eyes were indeed scared.

He was really scared.

Because the universe in the west is too 'lively', wherever you go, you are all masters of the origin realm, completely different from the universe in the east.

Although the early existence of the origin is now able to move freely, the east universe only has some origins for the three tribes of the Forbidden Territory and the Celestial Race.

The other races do not add up to many human origins.

But the universe in the west is full of origins. He, this tortoise, almost frightened to death, thinking that he had traveled through time and space and came to the prehistoric continent of the last era.

"You actually repaired the ancient teleportation formation."

Lu Ming showed surprise.

Wouldn't he be able to go back at any time.

If there were no ancient teleportation formations, he would only have to go back through that nihility zone. It would not be that easy, it would take a long time.

The three clans of the forbidden area came from that piece of nothingness.

"Don't look at who this seat is, how can a mere teleportation formation really stump me, just spend a little more time."

Dan Dan said proudly, his nostrils were almost upturned.

"The Extinction Army's garrison is like this, the three clans of the Forbidden Land, didn't they go to attack, right?"

Lu Ming continued to ask.

This is what he cares most about.

After all, his relatives and friends are all in the garrison of the Heaven Extinguishing Army.

"It's okay. Although in recent years, the three tribes of the Forbidden Land and the Celestial Race, there have been many early existences of the origin awakening and walking freely, but they have not come to attack and destroy the heavenly army. Level formation, self-protection, they want to break through, it is not so easy."

"Furthermore, they are also afraid of extinguishing the stronger people of the heavenly army. Once they wake up, they can't eat and walk around."

Dan Dan explained.

Lu Ming was relieved now.

As expected, Dan Dan had deployed a complete source-level formation in the early years, and it was motivated by the existence of the source-level formation. The power of the source-level formation would be amazing. Lu Ming had already felt this before.

In addition, in the Celestial Extinguishing Army, there are also the existence of the middle, late and peak origins, forcing to wake up in a hurry, and the destructive power is amazing.

Want to come, the three clans of the forbidden area are also afraid.

However, this situation will not last long.

After the great calamity of the origin, destroying the heavenly army is absolutely dangerous.

Needless to say, among the three tribes of the Forbidden Land, there are definitely those who transcend the Origin Realm, and there are masters who cross the Immortal Tribulation Realm.

Needless to say, the three clans of the Forbidden Land, the Celestial Race, all have such an existence, and by then, the Heaven Extinguishing Army will definitely be unable to resist.

Hello everyone, our official account will find gold and red envelopes every day, as long as you pay attention to it, you can receive the last benefit at the end of the year. Please seize the opportunity of the official account.

As for the Celestial Destruction Army, at its peak, there were only forty-nine origins, not yet.

As for whether there is an existence above the Origin Realm, Lu Ming is not very clear.

But don't think too much, if there are, there won't be more.

Lu Ming guessed that Tang Feng and Feihuang mostly existed beyond their origins.

But the number of people is too small, absolutely can not stop the three tribes of Forbidden Land.

What worries Lu Ming most is that there are most of the real immortal figures in the forbidden area.

Otherwise, in the prehistoric continent period, the avenues will not be jealous, nor will they become forbidden.

As soon as the immortal figures appear, no one can stop, and no one can stop.

Therefore, Lu Ming planned to transfer his relatives and friends to the Cangqing Divine Realm, and even the entire Celestial Extinguishing Army to the Cangqing Divine Realm.

Among the Celestial Destroyer Army, there are many human races, even other races, they are all native creatures of the primordial universe, I believe that the Cangqing Divine Realm will not refuse.

Cangqing Divine Realm has powerful formations and seals, and should be able to protect itself.

Moreover, Lu Ming speculated that there were also immortal figures in the Cangqing Divine Realm.

In the Cangqing Divine Realm, it should be safe.

In the past, it was difficult to do this.

Even if Lu Ming used the Precious Precepts, it was not easy to do it.

Because the size of the internal space of the Precious Ring is limited, and the Celestial Destruction Army is very large and there are too many creatures, even if it is transported by the Precious Ring, it cannot be done all at once.

It needs to be divided several times.

And if you go through the void, it takes a lot of time to go back and forth once.

This is after he broke through the origin, otherwise, it is even more difficult.

Lu Ming explained his thoughts, and Mulan, Huang Ling, and Dan Dan naturally nodded in agreement.

Immediately, the four set off.

Lu Ming originally wanted Mulan and Huang Ling to stay in the Cangqing Divine Realm for cultivation, but the two daughters left for too long, and their relatives and friends were all in the eastern universe. Wherever they could stay, they had to be with Lu Ming. return.

Soon, the four came to the entrance of the ancient transmission road.

This entrance was Lu Ming's last stop when he came to the western universe.

Mulan and Phoenix Spirit had also been teleported here and came to the western universe.

When I came back again, the second girl felt a lot, and the second girl felt that this is not the end of the ancient transmission road, it may be just a point in the middle, but the road that continues to go down, I don't know why, and it is broken.

This guess coincides with Lu Ming.

Lu Ming always felt that this was not the end of the ancient transmission road.

As for where the end point leads, only time will be explored later.

The four of them set foot on the teleportation road and teleported towards the east side of the universe.

After a while, they teleported to a strange place, where there was a small stone house.

"The predecessor who built the ancient teleportation road didn't know where he was. He left a chance here. If it weren't for this, the two of us would not have achieved today's achievements."

Mulan sighed.

At the beginning, she and Huang Ling got great good fortune here, received the transformation of good fortune jade liquid, the ultimate sublimation, the talent and potential have been greatly improved.

Of course, they also got a few other treasures, but those few treasures are too profound, they still don't know how to use them.

They had shown it to Lu Ming before, but Lu Ming couldn't figure out why.

They stopped here for a while, then continued to set off, teleporting again and again, and finally, they returned to the eastern universe.

Then, they headed towards the Extinguisher's garrison, and it didn't take long before they returned to the Extinguisher's garrison.

"Lu Ming is back!"

Before Lu Ming arrived at the site of the Exterminating Army, he was discovered by the Exterminating Army, and the news broke out immediately.

From a distance, Lu Ming could see that the Heaven Extinguishing Army's garrison was enveloped in a huge formation, and there was no doubt that it was a complete source-level formation.

In addition, Lu Ming's spiritual sense extended, and he could clearly feel that there was a source of origin in some important positions of this source-level formation.

Once a major enemy approaches, these origins will spur the formation and explode with powerful powers.

Swish...

As soon as Lu Ming arrived, a large number of figures flew out of the garrison of the Exterminating Army.

"Lu Ming!"

"Master!"

.....

Lu Ming smiled. He saw Xie Nianqing, Qiuyue, Ling Yuwei, Paobao and others.

Of course, there are still several origins.

Think about it, it has been hundreds of years since Lu Ming left the western universe, and everyone is naturally very concerned and worried.

Seeing each other at this time will naturally separate our hearts.

Chapter 5124: Transfer

However, when Xie Nianqing, Qiuyue and others discovered the two daughters of Mulan and Huang Ling, they were naturally surprised.

Mulan and Huang Ling had been away for too long, and there was no news at all. Everyone was afraid that the second daughter would have an accident. They didn't expect Lu Ming to really get the second daughter back this time.

"Lu Ming, your cultivation base..."

Suddenly, someone exclaimed, and the voice was full of incredible.

It was Ke Wang Yuanzun who spoke.

Ke Wang Yuanzun was a strong man in the early days of the origin of the Extinction Army.

In addition, there are several strong men in the Origin Realm of the Heaven Extinguishing Army, who also looked at Lu Ming with shock.

The cultivation bases of Xie Nianqing, Qiuyue and others are only the pinnacle of the gods, and Lu Ming's specific cultivation bases are not yet visible, but Ke Wang Yuanzun and others can vaguely sense them.

Lu Ming just stood there at will, but he gave them a feeling of being thick as a mountain and unfathomable.

The existence of the God Realm would not give them this feeling.

The only thing that can feel like this is the existence of the Origin Realm, and it is very likely that the cultivation base is higher than theirs.

But how is this possible.

Hundreds of years ago, Lu Ming was only in the Divine Realm. In just a few hundred years, could Lu Ming break through to his Origin Realm?

This is not the most important thing. The most important thing is that now under the great calamity of the origin, under the great calamity of the origin, can the creatures of the divine master realm not be able to break through the origin?

Lu Ming, how could it be possible to reach the original state?

"No, it's definitely not the origin. I feel wrong, or Lu Ming is carrying some kind of treasure on his body that gives me this illusion..."

Ke Wang Yuanzun muttered to himself.

The other sources are similar.

"Several seniors, not long ago, Lu Ming had a chance to break through to the original state."

Lu Ming answered with a smile.

What?

Several strong men of Origin Realm almost bit their tongues.

They looked at Lu Ming in a daze, and they were all dumbfounded.

What did Lu Ming say, he really broke through the original state?

how can that be?

Although Ke Wang Yuanzun and others have lived for a long time, they know very little about the things of the last era. As for the outside of the universe, they don't know at all.

Therefore, I don't know at all about being able to break through under the great calamity of the origin, but think that it is impossible to break through under the great calamity of the origin.

Therefore, now Lu Ming has broken their cognition, their shock can be imagined.

"Lu Ming, have you broken through your origin?"

Xie Nianqing and the others were also very shocked. Of course, they were overjoyed afterwards.

"Master will always be so powerful."

Little stars shone in Qiuyue's eyes.

"Fortunately to break through, go, let's go in and talk."

Lu Ming said.

Everyone entered the garrison of the Exterminating Army.

Huh huh!

When they entered the garrison of the Heaven Extinguishing Army, the void cracked, and people continued to tear the void from it. Needless to say, all of them were in the Origin Realm, and there were more than a dozen in total.

They are all strong in the origin of the Heaven Extinguishing Army.

There are more than 40 origins of the Heaven Extinguishing Army, but half of them are in the early origins.

These people appeared, and the spiritual sense kept scanning Lu Ming, showing shock and inconceivability.

"It's really the origin, it's unbelievable!"

"Under the great calamity of the origin, he can actually break through against the sky, he is really a genius of heaven."

These origins are all sighing.

"I have seen you seniors!"

Lu Ming clasped his fists.

"You're welcome, you're welcome, we are at the same level now, and we don't need to match our predecessors."

"Not bad!"

Those origins.

In practitioners, everything depends on the cultivation level, and age is not very important.

Because the existence of the Origin Realm has all lived with the universe, and the universe is immortal, so they are immortal.

For them, time doesn't have any concept, everything depends on the cultivation level.

Similar to the cultivation base, they are peers.

"Lu Ming, what have you experienced in the western universe over the years?"

Xie Nianqing asked.

She knew that Lu Ming was able to break through his origins, it was definitely not that simple, he must have experienced a lot of things.

Immediately, Lu Ming briefly recounted his experience over the years.

Whether it was Xie Nianqing, Qiuyue and others, or the existence of the Origin Realm, they were all dumbfounded.

Because many things Lu Ming talked about broke their cognition.

"The human race from the last era has survived."

"It turns out that there really is an outer universe, but now the passage of the universe is actually opened."

Many origins have difficulty restraining their feelings and whispered.

At the same time, their faces are very heavy.

What an eventful season!

Although the people in the outer universe are still in the western universe and haven't entered the eastern universe, it will happen sooner or later.

There are also many relics in the eastern universe, and people in the outer universe will never let it go.

By then, the eastern universe will definitely be in chaos.

"I'm coming back this time, I want to transfer those who destroy the heavenly army to the Cangqing Divine Realm, everyone, what do you think?"

Lu Ming looked at the origins.

"Okay, I agree!"

"I agree!"

There was almost no discussion, and those origins nodded one after another.

This is really nothing to consider.

Now, when the great world is coming, the Heaven Extinguishing Army is like a lone boat floating on the ocean, which may be swallowed by the waves at any time.

And the Cangqing Divine Realm was a human race from the last era with a profound background and powerful masters. It was not known how much safer than the Heaven Extinguishing Army resident.

How can they disagree.

"Then, everyone, start mobilizing and make preparations."

Lu Ming said.

You Yuanyuan nodded, and left one after another to mobilize the people who destroyed the Heavenly Army.

The garrison of the Heaven Extinguishing Army is composed of huge fragments of continents, and there are a large number of living beings. It is not so easy to transfer, and it takes a little time.

Next, Lu Ming went to see his parents, Lu Shenhua and others.

Soon, several months passed.

The preparations for the extermination of the heavenly army have been initially completed.

A large number of creatures have entered the prey.

Of course, Lu Ming's relatives and friends have naturally entered the prey.

"Sure enough, you can't bring it all at once."

Lu Ming whispered.

According to this scale, it takes at least three times to take away all of them.

When Hong Huang Jie was about to pretend, Lu Ming set off, along the ancient teleportation road, and returned to the Cangqing Divine Realm.

Mulan and Huang Ling, together with Lu Ming, returned to the Cangqing Divine Realm, because the two of them were familiar with the Cangqing Divine Realm, and they needed their help in the future planning.

After returning to the Cangqing Divine Realm, Lu Ming contacted several acquaintances.

Fortunately, someone was in the Cangqing Divine Realm, and soon after, the two old men came together.

They are two strong men in the original realm.

Now, Lu Ming and the origins of Cangqing Divine Realm are very familiar.

Originally, some people who had opinions about Lu Ming in the past have greatly changed their impression of Lu Ming.

"Little brother Lu Ming, what are you looking for?"

An old man said.

"Is such that..."

Lu Ming said his intention again.

If you want to transfer so many creatures from the Celestial Extinguishing Army, it must be arranged by the higher levels of the Cangqing Divine Realm.

These elders are now the upper level of Cangqing Divine Realm.

Chapter 5125: Ancestor

"To transfer a large number of creatures to the Cangqing Divine Realm?"

When the two old men heard this, their expressions were a little strange.

Lu Ming's heart sank slightly.

Don't the two agree?

No, not to mention the relationship between him and the two, just to talk about the inside of the Cangqing Divine Realm, it is also a vast area with sparsely populated areas, and there is a large amount of open space without any creatures. It is easy to accommodate those people who destroy the heavens. It's disagreement.

Seeing Lu Ming's face, the two old men knew that Lu Ming's dreams were bad.

"Lu Ming, don't get me wrong, we don't agree with you to transfer other creatures, and you also said that there are many human races in it, and they are all of our human blood. How can we disagree, but the current situation is somewhat wrong. "

An old man explained.

"The situation is wrong, what do you mean?"

Lu Ming asked.

"Because, inside the Cangqing Divine Realm, some people of the lower cultivation base are secretly transferred to outside of the Cangqing Divine Realm."

The old man continued.

"The people in the Cangqing Divine Realm are also shifting."

Lu Ming's heart sank.

what happened?

Could it be that the Cangqing Divine Realm would be in danger?

"Two seniors, what is going on?"

Lu Ming asked.

"Specifically, we don't know, we just know that this is an order passed down by a few ancestors."

Another old man said.

An order passed down by the ancestor?

Lu Ming knew that there were several ancestors in the Cangqing Divine Realm. They were absolutely top masters. They were unfathomable. At the end of the Great Desolation, the mainland collapsed. They took a hundred thousand people and hid in the Cangqing Divine Realm and preserved the blood of the human race. .

The ancestor's order is definitely not for no reason, it must be a feeling of what is going to happen.

"Lu Ming, if you have any questions, we can take you to see the ancestors. In fact, several ancestors have long wanted to see you."

An old man said.

"See the ancestor!"

Lu Ming's eyes lit up and nodded immediately.

He naturally knew that seeing the ancestor, he was naturally not the ancestor of the Cangqing Divine Realm and was able to move freely. It was likely that the consciousness of the ancestor appeared.

Mulan and Huang Ling stayed behind, and Lu Ming followed the two elders towards the depths of the Cangqing Divine Realm.

Here, there are a few ancient palaces, which are the retreats of the ancestors of the Cangqing Divine Realm. They are usually forbidden, and they are not allowed to come here without permission.

When they arrived here, they were also stopped, but the two old men whispered a few times before they were let go.

They entered the most expansive temple.

You can see that there are several ancient altars in the middle of the hall.

The two elders respectfully saluted several altars and said, "Later generations have paid homage to the ancestors, and Lu Ming begs to see you."

Hum!

Suddenly, two of the altars shook slightly, emitting a dim light, and then two figures appeared on the altar.

It can be seen that the figure is illusory, not physical.

However, it exuded a vast and unpredictable aura. With this aura, Lu Ming felt like an ant, facing two divine dragons.

An old man with gray hair and white robe.

There is also an old woman with gray hair, but very young, like a woman in her twenties, but in her eyes, there is a sense of endless vicissitudes.

"Junior Lu Ming, meet the two seniors!"

Lu Ming solemnly saluted. He knew that these two people should be the two ancestors of the Cangqing Divine Realm.

Lu Ming still had a good impression of the ancestor of the Cangqing Divine Realm.

At the beginning, the eight clans of the Forbidden Land besieged the Cangqing Divine Realm, caught people from the Cangqing Divine Realm everywhere, threatened them with the Cangqing Divine Realm, and asked Cangqing Divine Realm to hand over Lu Ming.

However, the ancestor consciousness of Cangqing Divine Realm manifested, and it was clear that Lu Ming was to be protected.

The two ancestors looked at Lu Ming carefully, showing satisfaction.

"Well, well, in such an environment, there can be such an achievement. It is truly a genius and peerless. Fortunately for my human race!"

The white-haired old woman said.

"Such talent is extremely rare even in the period of the Primordial Continent, and the revival of our human race is expected."

The white-haired old man also followed.

"The two seniors are utterly praised!"

Lu Ming's modest way.

"Do you want to see us, what do you want to consult?"

The white-haired old woman asked.

"Senior, it's like this..."

Immediately, Lu Ming said that he wanted to transfer the souls of the Heaven Extinguishing Army.

"It's not appropriate to transfer at this time. I'm afraid it will be transferred again soon."

The old white-haired woman shook her head.

"Senior, I heard that the Cangqing Divine Realm is moving some people in secret. Is it possible that Cangqing Divine Realm is in danger?"

Lu Ming asked.

"Yes, we speculate that there will be disasters in the Cangqing Divine Realm in the near future. Of course, it may not be true, but we must prepare in advance. Otherwise, once the disaster strikes, our human race will not be cut off... "

The white-haired old woman said.

Lu Ming's face changed slightly, and his heart sank.

Disaster is coming!

Even the first ancestors used the term "disaster" to describe it, probably it would be extremely terrifying, and the movement would destroy the clan. Therefore, the Cangqing Divine Realm would be secretly transferred, and people with a lower cultivation level would be transferred first.

Then his relatives and friends were even more unable to transfer to the Cangqing Divine Realm.

"Senior, what is going on? Cangqing Divine Realm, why is there a disaster?"

Lu Ming continued to ask.

"I will tell you in the future, so as not to increase the troubles. After all, this matter may not happen. Everything is just our speculation."

The old white-haired woman shook her head.

"We are outside the Cangqing Divine Realm. There are several continents, which are very secretive. They have been laid out with various formations. They are relatively safe. All your family and friends can move there."

At this time, another white-haired old man said.

"Then thank you two seniors."

Lu Ming clasped his fists.

Since the Cangqing Divine Realm moved most of the human races to those places, most of those places are still quite safe, otherwise, the ancestor of the Cangqing Divine Realm would not be redundant.

"Okay, let's go. By the way, Lu Ming, I heard you just now that your force is called the 'Destroying Army'. Remember, this name can no longer be used in the future. No matter what, the word '天', It must be removed, otherwise, there will be catastrophe."

Before leaving, the white-haired old woman solemnly warned.

"Senior, why is this?"

Lu Ming asked, his heart was very heavy, as several ancestors said so, the matter was absolutely huge.

[Collect free books] Follow vx to recommend your favorite novels and get cash red envelopes!

"Because of the great taboo, if you can leave the prehistoric universe and wander in the universe in the future, you will naturally understand. Remember, you must change, otherwise, terrible things will happen, and none of you will survive. .."

The white-haired old woman's face was very solemn, and even Lu Ming saw a trace of fear in the depths of her eyes.

Lu Ming's heart was cold.

These ancestors, who are suspected of being detached, and who are suspected of being immortal figures, have a look of fear in the eyes of such characters, which shows how serious this matter is.

Lu Ming nodded solemnly, taking this matter to heart.

Chapter 5126: Follow-up to the ancient teleportation route

Later, Lu Ming and the two old men left.

"Lu Ming, we will take you to the place of transfer."

An old man said.

Afterwards, they merged with Mulan and Phoenix Spirit, left the Cangqing Divine Realm, and hurried towards the place to be transferred.

"When is the head of someone who has moved around like this?"

On the road, Lu Ming lamented in his heart.

Ever since he embarked on the path of cultivation, his parents, relatives and friends, etc. have often followed him around.

At first, it moved from the Divine Desolate Continent, then from the Little Thousand World to the Riot Galaxy of the Primordial Universe, then to the Taixu Sacred Dynasty, and then to the resident of the Exterminating Army...

Because there is no way, if you don't transfer, you will encounter danger.

Since entering the cultivation, he has been practicing hard, one of the purposes is to protect his relatives and friends, but unfortunately, the practice seems to be endless. Whenever he is about to reach the peak, he will know a higher realm and come out. The larger the territory, more powerhouses emerge.

For example, now, the universe has emerged.

Lu Ming said his heart was very tired.

"God, I hope that the universe is the largest territory, and there will be no more territory, otherwise, I really can't cultivate."

Lu Ming wailed in his heart.

"Lu Ming, what's the matter with you? It seems to be worried."

Mulan couldn't help asking when seeing Lu Ming's thoughtful appearance.

Huang Ling also looked over.

"It's okay, just crazy thinking." Lu Ming smiled, shook his head slightly, and threw the messy thoughts out of his mind.

Soon after, they reached their destination.

In the front, it looks like a void, no different from other cosmic voids.

"Magic Array!"

Lu Ming keenly caught that there should be a phantom array here. Sure enough, when he ran the Demon King Emperor Mark, he discovered that the vast universe is full of dense runes.

These runes, intertwined together, formed a huge phantom array, concealing several fragments of mainland.

You can see that above the mainland, there are flashing figures from time to time.

"Here, come with us."

The two old men said, led Lu Ming and them, and flew forward. The two old men had a formation card in their hands. When they approached the phantom array, the phantom array naturally opened and they entered the phantom array.

Then, a few pieces of continental fragments completely appeared in front of a few people.

There are three continental fragments, but they are obviously not ordinary continental fragments. They should be composed of many continental fragments gathered together, and the area is very large.

It should be called a large continental fragment, and the area of each continental fragment is larger than the area where the Celestial Exterminator is stationed.

"This place is good."

Lu Ming showed a slight smile.

It can be seen that the Cangqing Divine Realm has been preparing for it very early. It is located in the wilderness on the edge of the universe, inaccessible to people, and very hidden.

In addition, numerous formations were arranged around.

Not only the phantom array is arranged, but also the source-level defensive array and attack array.

Although the cultivation environment was far inferior to the Cangqing Divine Realm, it was enough as a place of refuge.

"There are not many human races in the Cangqing Divine Realm. The terrain here is very empty, Lu Ming, you can choose a place at will to settle your people."

An old man said.

Lu Ming glanced a few times, and then flew towards a large continental fragment on the left.

No one from the Cangqing Divine Realm had transferred this fragment of the continent.

Lu Ming chose a location, and then released all the people in the Precious Ring.

Why not let everyone stay in the prey, because he has too many enemies, and it is even more dangerous to follow him.

Once he encounters an unexpected event, and the Prestige Jie falls into the hands of others, it is even more dangerous.

It's not the first time everyone has moved. They started to make arrangements, casting buildings, and temples rising from the ground.

Lu Ming bid farewell to everyone, and Mulan and Huang Ling stay here for the time being.

Lu Ming alone, headed towards the east of the universe.

In this way, it took Lu Ming a year to transfer all the people who destroyed the heavenly army to the three continents of the Cangqing Divine Realm.

After everyone was settled, Lu Ming felt relieved.

In this case, even if the people from the outer universe flock to the eastern universe, even if a large number of masters of the three tribes of the Forbidden Area wake up, he will have no worries.

Of course, during the period, Lu Ming also shared the warnings of the two ancestors of the Cangqing Divine Realm with the high-level officials of the Heaven Extinguishing Army, and those high-level officials looked very solemn when they heard it.

Hearing what Lu Ming said, the two ancestors were probably both immortal figures, and these characters were so solemn that they could not tolerate them not paying attention.

In the end, after discussion, they removed the name 'Tian Tianjun' and changed it to 'Premium Alliance'.

The meaning is simple, they are an alliance of native creatures in the prehistoric universe.

Later, Lu Ming did not return to the Cangqing Divine Realm, but stayed here in retreat, accompanying his family and teaching his disciples by the way.

In a blink of an eye, another few years have passed.

On this day, Mulan and Huang Ling came to find Lu Ming together.

"Lu Ming, the follow-up of that ancient teleportation path may be eye-catching."

Mulland said.

"Really?"

Lu Ming's eyes lit up and he was taken aback.

The ancient transmission road, they had speculated before, did not reach the end, and it might be cut off in the middle.

It's just that I haven't found a follow-up transmission path. Now, is there any eyebrow?

"look."

Huang Ling took out a piece of jade pendant.

To be precise, it's half a piece.

Half of the jade pendant was shining with a dark red light at this time.

"This half jade pendant is one of the opportunities we got on the ancient transmission road, but there was no reaction before. Just today, this half jade pendant has suddenly reacted. We estimate that it is related to the ancient transmission road."

Mulland said.

"Go, let's leave here and take a look outside."

Lu Ming said.

There are multiple formations around these fragments of the continent, which are estimated to affect the jade pendant.

Sure enough, when they left here and came to the outer space of the universe, the light emitted by the jade pendant became brighter, buzzed and trembled, and flew automatically, pointing in one direction.

"Maybe it's really related to the ancient transmission road. Go, let's go and see."

Lu Ming said.

The three of them flew away in the direction indicated by Yupei. After more than ten days, Yupei flew directly towards a void.

The void really seemed to be a void. Even if Lu Ming ran the Demon King Emperor Mark, he could only see a void and nothing else.

However, the half piece of jade pendant exudes a dazzling light.

No money to read novels? Give you cash or point coins within 1 day to receive! Pay attention to the official account for free!

The emptiness rippled, and then an altar emerged.

The altar looks very old, as if it has been hidden in the depths of the void for a long time, and it is only now born.

It can be seen that there is also a half piece of jade pendant over the altar. At this time, the half piece of jade pendant is glued to the Phoenix Spirit, and then flies towards the Phoenix Spirit, flying directly into the center of the Phoenix Spirit's eyebrows and disappearing.

Chapter 5127: The end of the teleportation road

"This piece of jade can actually nourish the soul, improve comprehension, and help understand the source art."

Huang Ling said in surprise.

"Sister Huang Ling, congratulations!"

Mulan said sincerely.

At the beginning, the two of them got good luck and some treasures, both of which were evenly divided.

For example, Mulan, there are other treasures in his hand, such as the gem, which is unfathomable, and only a little fur has been researched so far.

After all, it was absolutely no small thing to be able to help Cangqing Divine Realm to open the seal.

"Go, let's take a look along the altar."

Lu Ming said.

After that, the three people stepped onto the altar, the altar was activated, and their figures disappeared here.

The next moment, they came to a small continent, hidden in the depths of the void, from the outside, most of them can't be seen or found.

Here, there is also an altar.

They stepped onto the altar, the altar was activated, and they disappeared again.

In this way, after a dozen consecutive teleportations, they finally came to a strange place.

There was darkness ahead, and they seemed to be in a dark void.

In the dark void, there is an ancient road that stretches forward. At the end of the ancient road, there is a stone gate.

Old and vicissitudes, full of traces of time.

Could it be that the person who built the ancient transmission path was in this stone gate?

"You stay here, I'll go in and have a look."

Lu Ming said to Mulan and Huang Ling.

"No, I want to go together."

"Yes, let's go together!"

Mulan and Huang Ling said in unison.

How could they not know Lu Ming's thoughts? Lu Ming was afraid that there would be danger behind Shimen, and wanted to explore it alone.

After all, Lu Ming couldn't hold back the two daughters, so he could only agree to go and explore together.

The three of them laid heavy defenses around, and then stepped into the stone gate together.

In the next moment, they seemed to have opened a new world.

Stepping into Shimen, they saw a vast continent.

This continent is completely in the dark void, isolated from the outside world.

Maybe it was somewhere in the prehistoric universe, but in the depths of the void, from the outside, it was absolutely invisible.

This world is dead and quiet, without any creatures, not even a single plant can be seen.

There are only peaks standing on the ground.

No, that's not the peak!

The pupils of the three shrank.

They saw clearly that they were obviously large tombs, and tombstones were erected in front of the tombs.

It's just that the big tomb is so huge, it looks like a mountain from a distance.

This really exceeded their expectations.

At the end of the ancient transmission road, there are actually many large tombs.

"This world is so chaotic, full of terrible energy..."

Mulan's face was solemn.

"It comes from those big graves."

Huang Lingdao.

They could feel that sitting in the big tomb was filled with horrible auras, as if in every big tomb, there was a supreme demon inhabiting it.

These large graves are probably buried with terrible existence.

The three speculate!

"bump!"

Lu Ming stepped out first, took a few steps forward, and then stopped to feel silently.

After a long while, Lu Ming said: "In the terrible Qi, there is the will of the supreme strong, and in the void, seemingly silent, but hiding powerful vitality, this area, for us, maybe It is a place of good fortune, where you can polish your body and soul and enhance your cultivation."

Although this world contains terrible qi mechanisms, any creature coming in will be oppressed by these qi mechanisms.

Insufficient repair will be directly obliterated by these Qi machines.

However, if it is strong enough to block these qi mechanisms, you can use these qi mechanisms to hone your body.

This kind of aura, as if emitted by the supreme power, can penetrate the depths of the body, not only to hone one's mental will, but also to polish the body and soul.

At the same time, in the void, there is the supreme vitality hidden, and in the dead silence, with vitality, it is an excellent place for cultivation.

Mulan and Huang Ling also took a few steps forward, side by side with Lu Ming, but their faces were a little pale, obviously not so easy to bear.

"Junior Lu Ming, come to see you, is there a senior here?"

Lu Ming clasped his fist and said, his voice came from a distance.

Here are all large tombs, it is impossible to be the ancient transmission road that people in the large tomb crawled out to build. Most of the living creatures live in this area.

Lu Ming's voice echoed, but he didn't get any response.

Lu Ming and the three looked at each other, and they all saw their doubts in each other's eyes.

Is there no one here?

Or is the existence that created the ancient teleportation path also fallen?

"Junior Lu Ming..."

"Junior Mulan..."

"Junior Phoenix Spirit..."

This time, the three of them held their fists together and spoke.

"Stop screaming, I heard, hey, people are getting old and their ears are not working well."

At this moment, in the depths of the world, an old voice came.

The voice was full of vicissitudes of life, as if it had come from the last era.

The hearts of the three Lu Ming were beating wildly.

Sure enough, there are living creatures here. What kind of creatures are they?

Anyway, judging from the ancient transmission route, it is absolutely extremely long, perhaps, it can be traced back to the era of the First God, the beginning of this era.

After a while, an old man walked out of the depths of this continent.

The old man's rickety body was dressed in a gray linen, his hair was white, and wrinkles on his face were piled up like a gully.

His eyes were muddy, but the three of Lu Ming saw the vicissitudes of life, loneliness, and sadness in the old man's muddy eyes, as if an era could not be opened.

"Junior Lu Ming, Mulan, Huang Ling, have met seniors."

The three of Lu Ming saluted again.

They saw that this old man was actually a human race.

There is a human elder who lives here, and the three dare not care about it. This elder is likely to have survived from the last era.

"After so many years, a little guy has finally come here."

The old man spoke, his turbid eyes swept over the three of Lu Ming, seeming to be looking at them.

However, he only stayed on Mulan and Huang Ling for a while, and finally stayed on Lu Ming. At this moment, his muddy eyes exuded a dazzling brilliance, which was countless times brighter than the sun.

At this moment, the eyes of the old man seemed to be transformed into two rounds of the universe, with countless stars rising and falling, and countless continents shining.

An unimaginable breath permeated out, but only for a moment, this breath was condensed by the old man, and his eyes became muddy again.

Huhuhu...

The three of Lu Ming couldn't help exhaling a few breaths. The aura that the old man had inadvertently exuded was too terrifying. At that moment, they felt as if they were overwhelmed by this aura.

Fortunately, the old man converged in time.

"Yes, yes, it's not bad that you can still be born a arrogant talent like you in this era..."

The old man has several good links. He is obviously in a good mood, and the sadness in his eyes seems to have dispersed a little.

Chapter 5128: Tomb Keeper

"The predecessor is utterly praised, and the junior is ashamed."

Lu Ming said modestly.

"Little guys don't need to be humble, like you, even in the Primordial Continent period, they are rare, and there may not be one in an era."

The old man grinned, showing his yellow teeth.

"Senior, dare to ask the ancient transmission road, was it made by seniors?"

Mulan asked.

"Yes, I was sleeping here at the beginning, and suddenly I felt that the human blood was born in the Far East. When I was curious, I went to take a look. By the way, I left a teleportation path and left a little chance on the road for the destined person. , It seems that it was obtained by your two little girls, and it is considered destined."

The old man said.

Lu Ming's eyes lit up.

Sure enough, I found the righteous master. The ancient teleportation road was really built by this old man. He left some opportunities on the ancient teleportation road, such as the gems of Mulan, the jade pendant of the Phoenix Spirit, etc., and the jade pond of good fortune...

"Thank you seniors for your reinvention!"

Mulan and Huang Ling saluted solemnly, full of gratitude.

If there is no good fortune left by the old man, their potential and talent are far from being compared with the present, and it is even more impossible for their cultivation to reach the current level.

They are equal to rebirth, recreated by Entong.

"Since you are able to meet, it is fate and your chance, no need to say thank you."

The old man said.

"Dare to ask seniors what is called? What is this place?"

Lu Ming continued to ask with his fists.

"You have also seen, here, it is just a cemetery, and I, just a person who survived by chance, just a corpse collector, a tomb guard."

When the old man said, he looked at those big graves, and he was full of deep sadness.

"These big tombs..." Lu Ming and the three people stopped talking. They were curious about who was buried here, but it's hard to ask directly about this kind of thing.

"You should also know that at the end of the last epoch, there was a terrifying battle, the prehistoric continent was shattered, and too many died in the battle. These are the heroes who died in the battle that year. My ability is limited and I can only receive these. Some people, No bones exist, and even the capital of the corpse has not been found."

Speaking of this, the old grave guard sighed deeply.

The three of Lu Ming were shocked.

These big tombs are buried with people who died in battle in the last era.

It is conceivable that these are definitely the top masters of the last era, because there are very few, at a glance, there are only dozens of them.

"Senior, the powerhouses of the last era, have they all died in battle?"

Lu Ming asked again. He had a lot of doubts in his heart. He rarely encountered an existence from the last era, so he naturally wanted to know more about some problems.

And this old man, obviously a human race, didn't have the slightest malice towards them, but was full of kindness.

"Most of the battles died, but there are also some. Let's leave and find the truth about the war. I don't know where I went."

The old man guarding the tomb said.

"The truth of the Great War, Senior, what happened that year, there are rumors from the outside that it was the invasion of the Underworld masters that caused the Great Continent to collapse..."

Lu Ming said.

"On the surface, it is because of the invasion of the Underworld. In fact, how simple it is. The Primordial Continent, after all, is the eleventh largest universe in the Yang. It will be destroyed if it is said to be destroyed, hehe..."

Speaking of the back, the old grave guard sneered, his eyes full of icy chill.

"Behind the scenes, is there any secret?"

Lu Ming whispered, feeling that there were many secrets behind the scenes, as if there were big screens covering the truth.

However, these are too far away from him, with his cultivation base, he can't touch them at all.

These may be related to the game between the universe, or related to other more amazing secrets.

"Well, don't mention things back then, don't always stay in the past, but look forward to the future. You guys have good talents. Although this is a cemetery, the people buried here are no small things, at least they are all immortals. The existence of the level, perhaps, you can get a great opportunity here."

"Of course, what you can get depends on your good fortune."

After speaking, the old man at the tomb turned around and backed away, seemingly walking slowly, but disappeared in a blink of an eye.

"The senior does not seem to be the real body, but the manifestation of consciousness."

Huang Ling whispered.

"indeed!"

Lu Ming nodded.

This is also normal. This is the time of the Great Tribulation of Origin. The real body of the old tomb guard is probably self-appointed. Just now, it was just a manifested consciousness and a concentrated body.

"Let's practice here first, you two, polish it here, maybe you can get one step closer and reach the top three times."

Lu Ming said.

The second daughter is now at the pinnacle of the **** master, breaking the extreme realm for the second time.

Here, with the help of the indestructible will of the supreme strong, to polish the body and soul, and temper the power of the source, it may be possible to increase the combat power to a higher level, reaching three extremes.

"Ok!"

The second woman nodded, and then continued a few steps forward.

The more you move forward, the closer you get to the tomb, the greater the pressure you will receive.

After a few steps forward, the second woman almost reached the limit, so she stopped, sat cross-legged, and concentrated on cultivating.

Lu Ming continued to move forward.

His body, soul, and original power are all stronger than the second woman and can continue to move forward.

Lu Ming kept moving forward, not even far from one of the big tombs, before sitting cross-legged here and starting to practice.

Sure enough, the terrifying willpower, constantly suppressed, wanted to wipe out Lu Ming's body and soul, and destroy his original power.

Those who have insufficient cultivation base and strength will be completely obliterated by this kind of willpower.

It can be said that this is a terrible force of destruction.

Because, the existence in the big tomb was too strong before death, and fell behind. They were full of unwillingness, full of anger and murder, and turned into a terrifying indestructible will, which will last forever, and can obliterate everything approaching.

But there is vitality in this will.

Because the corpses of these peerless powerhouses are buried here, and the vitality of their inner bodies that dominates the world slowly overflows and fills the space between the world.

If you can resist that indestructible will, and then absorb that vitality, you can make yourself stronger and stronger.

Sure enough, after only a few days, Lu Ming felt it had a great effect.

Originally, both his body and soul felt a limit, but now, his body and soul can actually slowly improve and become stronger and stronger.

It seems that the upper limit is being raised, and it seems that it is breaking through a limit.

Lu Ming felt that if he could break through this limit, his body and soul would skyrocket and enter a new world.

Originally, this step was difficult, requiring a huge amount of heaven and earth spirit, plus a long time to polish, but here, he can clearly feel the improvement.

This is definitely an excellent place for cultivation, a holy place for cultivation.

Lu Ming thought of Xie Nianqing and others.

Chapter 5129: Robbery and soul robbery

Lu Ming wanted to bring Xie Nianqing, Qiuyue and others together with such an excellent holy place for cultivation.

"senior..."

Lu Ming swapped the old man guarding the tomb.

Silently, the old tomb guard appeared.

"What's the matter?"

"Senior, I want to bring some more people here to practice, so I want to ask Senior, is it possible?"

Lu Ming said.

"Bring some more people?"

The old man guarding the tomb frowned slightly, thought for a moment, and said, "Here, I have sealed the secrets of heaven. The great powers of the outer universe are difficult to calculate, but once people enter too much, the secrets of heaven will be difficult to be blinded. Here, It may be calculated."

"Well, I'll give you ten more places at most. You can bring ten people. No matter how many people there are, the more people there are, the harder it is to deceive the secrets."

The old man guarding the tomb said.

"Junior understands, thank you senior!"

Lu Ming thanked him.

Here, the people buried here are immortal figures, there are dozens of large tombs, once they are known by the people of the universe, they will definitely flock to them.

A person of immortality, leaving a drop at will, it is a great opportunity.

After that, Lu Ming talked with Mulan and Huang Ling and asked them to stay here to practice, while Lu Ming left here along the same path.

Of course, the jade pendant of the Phoenix Spirit was lent to Lu Ming first, because the old tomb guard said that if there is no jade pendant for the second half of the transmission path, it will not be displayed. The first altar displayed with the jade pendant, After they teleported away, they would continue to hide in the darkness and void, blinding the secrets, just for fear that people would find them.

After Lu Ming returned to the Cangqing Divine Realm, he spoke to Xie Nianqing and others.

Soon, Xie Nianqing, Qiuyue, Ling Yuwei, Paobao, Dandan, Ten Thousand Gods, Bone Demon, Tang Jun, a total of eight people.

In addition, there are Lu Ming's eldest disciple, Lu Xiangxiang, and his granddaughter, Lu Chi.

This adds up to exactly ten people.

Originally, he wanted to give this opportunity to Lu Shenhua, but Lu Shenhua really didn't care much about cultivation, so Lu Ming thought about it and let it go.

On the contrary, Lu Chi was extremely talented, not inferior to Lu Shenhua, and more suitable than Lu Shenhua with firm will and hard practice.

Unfortunately, there are only ten places, otherwise Lu Ming still wants to bring his second disciple, Ouyang Moli.

I can only think of a solution later.

For example, they are almost cultivating, and then some other people will go in for cultivating.

A group of ten people, followed by Lu Ming, came to the burial place.

Because the people buried in this area are all immortal figures, Lu Ming named this area.

"What a great place!"

Every day, his eyes glowed.

"I want to polish out invincible bones here, which is stronger than the ancestral bones of some skeletal universe."

The Bone Demon is confident.

The crowd dispersed, sat cross-legged, and practiced here.

Time is rushing, and decades are in the blink of an eye.

They left the chaos of the primordial universe behind and practiced here with peace of mind.

The progress of everyone is very great.

The special equipment is other people, their souls and physical bodies, without the tempering of stepping on the roof, are originally very weak, far unable to compare with their cultivation base.

But here, their bodies and souls are constantly being polished and are rapidly improving.

As for Lu Ming, the gains were not small, but it was a pity that his body and soul still hadn't broken through that limit.

At first, everyone was far away from those big tombs, but over the years, they gradually adapted to the environment here, and slowly got closer to those big tombs.

Even here, I can walk freely.

They discovered that there were a total of thirty-two large tombs here, each exuding an astonishing atmosphere, and a peerless strong man was buried inside.

This has to make people sigh, even if it is a world-class powerhouse, transcending the universe and proving Dao and becoming immortal, there will still be a day of fall.

No one can be truly immortal!

Although there is no limit of lifespan, there are still many calamities, such as the killing of other powerful creatures, the strength is not strong enough, it can't be saved, and it is still to die.

Moreover, although tombstones were erected in front of these large tombs, there were no words on the tombstones and a blank space. I don't know what the existence is buried in.

bump!

Lu Ming stepped forward and came to the tombstone of a large tomb, less than a hundred meters away from the large tomb.

When he got here, the will emanating from the big grave was even more terrifying. Lu Ming closed his eyes, as if there was not a big grave in front of him, but a peerless strong man sitting there, giving him terrifying pressure.

Click!

Lu Ming felt his bones click, his muscles were trembling, and there were bursts of tingling pain all over his body.

He felt that he was thrown into a furnace, being continuously tempered by the furnace, tempering out useless things, tempering impurities, and purifying body and soul.

At this moment, Lu Ming felt himself melted.

The body and soul melt together, into tiny particles, into cells, and every cell is being tempered when dispersed.

While being tempered, there is a trace of powerful vitality between heaven and earth, which is absorbed by every cell, and every cell in Lu Ming is growing and improving.

At this moment, Lu Ming turned into a cloud of light in the eyes of others, and he couldn't see the human form anymore.

"What's wrong with Lu Ming?"

The others were very worried and screamed towards Lu.

"Lu Ming!"

"Master!"

Xie Nianqing, Qiuyue and others called, fearing that Lu Ming might have some accident.

After all, Lu Ming is too close to the big tomb, and I don't know if there will be any terrible problems.

Silently, the old tomb guard appeared.

"Don't be afraid, he is breaking through."

The old man guarding the tomb said.

"Breakthrough? Is it that Lu Ming is going to break through the late stage of his origin?"

Mulan was surprised, but he knew that Lu Ming only broke through the mid-primary stage decades ago, and is about to break through again so soon?

"It is not a breakthrough in cultivation, but a breakthrough in the body and soul, stepping into a new level, becoming a robbery body and a robbery soul."

The old man guarding the tomb said.

"???"

Everyone has a question mark on their faces.

What do you mean by robbery and soul robbery?

"Above the origin, there is a special realm called Crossing the Immortal Tribulation. Any creature who wants to become a celestial being in a righteous way must experience this realm. Only after passing through the nine-fold celestial tribulation, can it prove the way and become a fairy.

"Nine levels of immortal calamity are more dangerous than one, and each level of immortal calamity has three calamities of lightning, fire, and decay. Once passed, the body and soul will be transformed, just like a new life, extraordinarily powerful. This is the calamity. And the soul robbed."

The old tomb guard explained.

Everyone listened carefully, they were very vague about the level of Crossing the Immortal Tribulation, and this was the best opportunity to learn.

All practitioners who have the heart to prove the Tao and become immortal must pay special attention to the realm of crossing the immortal calamity.

After listening to them, they understood that the robbery of the body and the soul of the robbery refer to the terms that the body and the soul have completed their transformation after the immortal catastrophe.

Chapter 5130: Secret of Crossing the Immortal Tribulation

"The Nine-fold Immortal Tribulation, every time you pass it, your body and soul will transform once, and you will become immortal body and soul in the end after passing the Nine-fold Immortal Tribulation, transcending the universe, wandering in the chaos, immortal, And Lu Ming now breaks through. The body and soul are equivalent to the body and soul of a creature who has survived the immortal catastrophe. It is enough to be able to reach this point in the original realm."

The old man guarding the tomb said.

Everyone was shocked at first, then speechless.

This old man's vision is too high.

The body and soul of the Origin Realm are equivalent to the body and soul of others who have survived a fairy tribulation. Is this still so-so?

What is someone else?

"You have to remember that in order to become immortal, the body and soul are extremely important. Of course, there is also the power of the source."

"The body, soul, and the power of the original source all prove the foundation of Dao becoming immortal. They must go forward together. They are indispensable. Only when these three are exceptionally powerful, can they survive the immortal calamity again and again. There will be ashes, nothing will be left."

The old guard of the tomb warned.

"Thank you senior for your advice!"

Everyone looked solemn, and it was obvious that the old grave guards valued them very much.

In fact, it is true.

After this period of observation, the character of the people, the old man of the tomb is very satisfied, and the talents are good, it is the future of the great universe, so he will not hesitate to give pointers.

"Among you, except for Lu Ming, the bodies and souls of everyone else are too weak and far below the standard. In your state, once you begin to cross the Tribulation, the probability of failure is extremely high. You can only say, You used to lack guidance, and you were in the wrong direction from the beginning, focusing on cultivation, but neglecting the body and soul. But now there is still time to change. You are here to polish your body and soul. I believe it will not be long before you can catch up. "

"It would be even better if he could refine his body and soul. For example, Lu Ming, now breaking through, the body and soul are equivalent to the body and soul of the immortal calamity. Then, when he truly begins to cross the immortal calamity At that time, the first stage of the Immortal Tribulation was not too difficult for him, but his original power was very strong, and when he reached a high level, the power of the Immortal Tribulation would be stronger. The body and soul need to be more powerful. Okay, it's more certain."

The old man guarding the tomb said.

"Senior, doesn't it mean that the power of the origin is also the most important thing, why the power of the origin has reached a high level, and the power of the immortal robbery will be stronger?"

Xie Nianqing keenly caught this point, wondering in her heart, and asked it out.

Others also showed doubts.

"Each immortal calamity is divided into three rounds, lightning strikes, fire burning and decay. Among them, the fire and decay are born from the power of the origin. The stronger the power of the origin, the power of the two calamities, naturally It will be bigger."

The old man guarding the tomb said.

Everyone looked at each other, how could this be?

That being the case, why do many people still try their best to increase the level of the power of origin?

Keep the power of the source at a low level, the power of the immortal robbery will not be smaller, and the chance of passing it will be greater?

As if seeing everyone's doubts, the old man who guarded the tomb rarely showed a smile and said, "You think that the lower the power of the origin, the greater the probability of going through the immortal catastrophe, right? Indeed, the first few catastrophes, indeed It will be easier to get through."

"However, the nine-fold immortal calamity, the more powerful it goes, the stronger one weight is than the other, and the higher the power of the origin, the greater the power of the immortal robbery will indeed be at the beginning, but the stronger the training of oneself will be. After that, the stronger one's transformation will be and the greater the improvement will be. In this way, you will have a greater grasp of the immortal calamity that follows."

"And the lower the power of the source, the first few catastrophes will indeed be easier, but the improvement of oneself is smaller, and after the immortal calamity later, it will not be overcome at all, and there will be no doubt that you will die."

That's it!

Everyone understands.

The power of the origin is low. At the level of Crossing the Tribulation, there is an advantage at the beginning. The power of the Tribulation will be relatively weak, but the training and improvement of oneself is not enough. When the Tribulation becomes stronger and stronger later, there is only a dead end. .

Therefore, we must strive for the upper reaches.

All cultivators understand that the higher the power of the origin, the stronger the power of the immortal robbery, but there is no way, in order to prove the Dao to become an immortal, you can only achieve a higher level of the power of the origin.

"Once you cross the immortal catastrophe, there is no turning back. Even if you want to stay at a certain stage without breaking through, the immortal catastrophe will come by yourself if you don't cross the immortal catastrophe by yourself. So, I want There is no fluke in proving Dao to become immortal. In all aspects, you must be the strongest."

"Therefore, in your future cultivation, not only will your body and soul not fall, but the power of the source must be polished at all times. If you have a chance, you must not hesitate to improve and overcome the strongest immortal calamity in order to achieve the immortal path."

The old man guarding the tomb solemnly warned.

"Thank you seniors for your advice!"

Everyone saluted and thanked.

They have benefited a lot from the words of the old tomb guard. The level of crossing the Immortal Tribulation has become clearer than ever, and it has more direction for future cultivation.

The strong are always strong!

Only through the most difficult immortal calamity, after the most severe tempering, can we finally detach ourselves and prove to become immortal.

There is no shortcut on this road.

The power of the low-level primordial origin, although it is easier for the first few times of immortal calamity, but it can't absolutely overcome the following immortal calamity, and eventually it will die.

And this creature is undoubtedly the weakest in its class.

"This guy, it's going to be done."

The old man guarding the tomb spoke again.

Everyone's gazes turned towards Lu Ming.

At this time, Lu Ming finally made a breakthrough, his body did not look like light rain, but gathered together.

Lu Ming looked the same as before, except that on the surface of his body, there was an extra layer of red glow, and a horrible aura permeated out, making Xie Nianqing and the others feel a strong pressure.

Lu Ming hadn't exploded in his cultivation base, and his original strength had diminished, but he gave people an extremely terrifying aura, just like a wild beast revived.

"This kind of scarlet glow is the tribulation light. Every creature, body and soul that has passed through the immortal tribulation will emit the tribulation light. This little guy is considered to have it in advance."

The old tomb guard explained.

At this time, Lu Ming took a long breath, and then the scarlet light on his body converged, and the whole person looked no different.

But Lu Ming knew that his combat power had improved again.

His mind moved, his whole body glowed, and the soul inhabiting every cell quickly converged towards the root of the source, and then, the complete soul appeared in the root of the source.

The soul is very solid, like an entity, on which there is also a layer of red light.

Now, Lu Ming's soul is many times stronger than before.
