

D Emperor 5131

Chapter 5131: The inheritance of immortality

Now, Lu Ming's soul is many times stronger than before.

Now, even in the face of Holy Wushuang's soul attack, Lu Ming didn't need to disperse his soul into each cell. Even if he gathered into a complete soul, Holy Wushuang could do nothing about Lu Ming.

"The power of the physical body is also many times stronger."

Lu Ming whispered, he had a feeling that now he can beat the existence of the initial origin to death alive with the power of his physical body.

In the past, it was unthinkable.

The previous battles mainly began to rely on the power of taboos or the power of the origin.

However, now only relying on the physical body, without the slightest strength of the origin, can kill the early existence of the origin.

This is just a breakthrough he has just made, if he accumulates for a period of time, he will be stronger.

It can be said that his physical body has improved many times over before.

With his current body and soul, it would be easy to overcome the great calamity of the original source when he hit the original source, without any difficulty at all.

The body and soul of the immortal catastrophe are not just talking.

Regardless of the fact that the physical body can only kill the existence of the original origin, it is of great help to the improvement of Lu Ming's overall combat power.

In the past, when erupting the power of the original source, one would worry that the body would not be able to bear it, and would worry that the soul would be wiped out by the power of the original source. Therefore, when it exploded, a part of the original power was always separated to protect the body and soul. In this way, it will be difficult to truly burst out with all strength.

But now, no need, the body and soul are so powerful that they can explode as much as they want, and there is no need to worry about the power of the original source harming the body and soul.

The body and soul are like a water tank, and the power of the source is the water in the water tank.

If the water is too strong and the water tank is not strong enough, if the water in the water tank rotates and impacts rapidly, the water tank will break.

But now, the water tank is reinforced and indestructible. The water in the water tank can rotate and impact at will, and it can't hurt the water tank.

As a result, Lu Ming's overall combat power became stronger.

"The environment here is very good. It is not impossible for you to achieve this step. Come on, little guys."

The old man who guarded the tomb said a step, and his figure disappeared into the depths of the mainland.

"Lu Ming, how do you feel?"

"I'm very good..."

The crowd gathered together, Lu Ming spoke about his own feelings, and the crowd dispersed again and began to practice, polishing the body and soul.

Time is hurried, and another decade is in the blink of an eye.

The bodies and souls of the people are getting stronger and stronger every day, and at the same time they are becoming more and more adaptable to the environment here, and they become more comfortable in their actions here.

Hum!

On this day, there was a big grave trembling suddenly, emitting a brilliant glow.

"what happened?"

Everyone was shocked and couldn't help but look over there.

The big tomb is shining as a whole, and there is a figure above the big tomb.

It was a woman who couldn't see her appearance, but from her posture, she was absolutely gorgeous.

The woman stands on the big tomb, as high as the sky, surrounded by immeasurable demonic energy, exuding a supreme aura, as if surpassing everything, eternal and immortal.

And under the big tomb, there is also a figure standing upright.

It's Xie Nianqing!

Xie Nianqing stood in front of the big tomb, with long hair fluttering, and a stone tablet floating above his head.

It is the Immeasurable Demon Monument!

At this time, the figure on the big grave suddenly turned into a ray of light, or into a particle, rushed to Xie Nianqing, and fell into Xie Nianqing's body.

Xie Nianqing sat cross-legged, closed his eyes, and the Immeasurable Devil Monument was always suspended above his head.

"Xiaoqing..."

Lu Ming was worried and strode forward.

However, the old man guarding the tomb appeared in front of Lu Ming silently and stopped Lu Ming.

"Don't worry, this girl has a deep blessing and she is accepting inheritance."

The old man guarding the tomb said.

"Inheritance? It won't be the seizure, is that immortal figure is not dead, there is a remnant soul left?"

Dan Dan walked over and muttered.

In fact, this is what other people worry about.

Because the situation just now looks like the peerless masters in the big tomb have remnants of their souls left behind and are robbing them of their houses.

After all, every big tomb buried here is a master of the world.

"I'm telling you, every one of the buried existences here died and was completely gone, not to mention the remnant soul, just a ray of immortal will, and there is no left, hey..."

The old man guarding the tomb sighed.

"However, their corpses were fortunately preserved and reached that level. Even if their bodies die and their souls are completely annihilated, their path of cultivation is deeply engraved in the cells of their bodies. Under normal circumstances, they will follow. The body is silent until it decays and dissipates between heaven and earth."

"But under special circumstances, it will be stimulated. Obviously, the existence is unwilling, even if it is completely fallen, she does not want to break the inheritance by herself. Of course, the little girl named Xie Nianqing was connected to that existence and got her. A corner of the weapon..."

The old man guarding the tomb changed his voice.

That was the case, everyone suddenly felt relieved.

Lu Ming's gaze turned to the Boundless Demon Monument.

Could it be that the Immeasurable Devil Monument was a corner of the weapon in the tomb that existed during his lifetime?

"Little guys, come on, too. There are more than 30 peerless masters buried here. They were all angry and stunning people before they were alive. How can they be willing to remain silent? Even if they die completely, they may pass alternatives. Find a way to descend, pass on your own mantle, and fight for yourself. You all have a chance..."

The old grave guard spoke again, his voice full of temptation.

Everyone's eyes lit up, and then it became hot.

The worst buried here are immortal figures, and even the king of immortals. If they gain their inheritance, they will benefit infinitely, and the benefits will be unimaginable and affect life.

"It's not easy to get the inheritance of those existences, little guys, work hard, it depends on whether you are predestined."

The old man guarding the tomb smiled, showing a big yellow tooth, and then disappeared in place.

Everyone is itchy.

Then they scattered, each based on their feelings, choosing a big tomb, and then practicing under the big tomb.

Lu Ming also chose a large tomb and sat cross-legged, using the willpower emitted by the large tomb to hone himself, but a year later, this large tomb did not respond at all.

"It doesn't seem to be the case, let's change another one!"

Lu Ming muttered, planning to try another big tomb.

The others were the same. After a year, the big tomb I chose did not respond, and they all changed to one.

Hum!

Suddenly, something happened.

One of the large tombs glowed, and a figure appeared on it, emitting a holy light, and it was a beautiful woman.

And underneath, there is also a figure.

Tang Jun!

Chapter 5132: Reincarnation is not that simple

Tang Jun actually got the second inheritance after Xie Nianqing.

The old man guarding the tomb appeared silently again.

"These two girls are amazing, they are extremely talented, and they have great luck."

The old man guarding the tomb sighed.

Lu Ming was not too surprised.

Xie Nianqing and Tang Jun were the daughters of the forbidden sword ancestor Tang Feng in their previous lives. Their fathers must have their daughters. Their talents were originally very high.

In the previous life, they reached their roots at a young age. After reincarnation, their talents were stronger than in the previous life, and it was normal for them to be favored by peerless masters.

"Hey, that's not right... This is the breath of reincarnation, they are reincarnated people? It seems that someone has the chance to guard against the sky and obtain the material of reincarnation."

The old man guarding the tomb muttered.

Lu Ming's ears trembled, he was surprised when he heard it, and said, "Senior, is reincarnation difficult?"

"Of course it's difficult. Even a person from the immortal Taoism can't reincarnate."

The old man guarding the tomb said.

"How can it be?"

Lu Ming was extremely surprised. It is difficult for the immortal figures to reincarnate.

But Xie Nianqing, how did Tang Jun reincarnate?

There is also Dark Night Rose, and Ye Immortal.

Only four of the people Lu Ming knew were met. Lu Ming originally thought that as long as the cultivation base surpassed the original source, he would be able to reincarnate.

"Reincarnation has nothing to do with the cultivation base. No matter how high the cultivation base is, such as reaching the realm of the king, it is difficult to reincarnate. If you want to reincarnate, you must rely on reincarnation matter, but reincarnation matter is rare in the entire universe and there is only one place to own... So I said, their chances are against the sky."

The old man guarding the tomb said.

"Reincarnation matter? Where do you own it?"

Lu Ming asked curiously.

Others also pricked their ears.

"An extremely dangerous place, a place where immortal figures are going to die. That involves the secrets of the entire universe. I don't know much about it. If you have a chance in the future, you can ask yourself."

The old man guarding the tomb said that when it comes to this, I won't say more.

Lu Ming and others were a little disappointed. They wanted to find out information about reincarnation matter from the old grave guard.

When they spoke, Xie Nianjun was already sitting cross-legged, accepting the inheritance.

"This kind of inheritance is not an ordinary inheritance. In the corpses of those immortal masters, there is still some vitality that will rush into their bodies, help them improve their bodies and souls, polish out a peerless body, and make them the strongest. Foundation, paving the way for the future."

The old man guarding the tomb said again.

This makes other people's hearts even hotter.

Faced with such an opportunity, even Lu Ming couldn't calm down.

Everyone continued to meet their chances.

Sure enough, somebody got the inheritance not long after.

The third one to gain inheritance is Bubble.

Time and Space Spirit Mouse, in control of time and space, is unparalleled in talent, and has also won the "favor" of peerless masters and is accepting inheritance.

Then, the fourth one is the gods.

He turned into the form of a primitive god, and he was as high as the big tomb, with blood rushing into the sky, and on the big tomb, there also appeared a giant with a breath of shocking heaven and earth.

The peerless powerhouse of the Wu Clan.

Every time someone gains inheritance, the old tomb guard will appear. From the mouth of the old tomb guard, it is known that the one who has inherited the ten thousand gods is a master of the witch clan.

In fact, Lu Ming and the others now knew that the original gods of the universe and the starry sky were in fact the descendants of the Primordial Witch Race and the Primordial Demon Race.

The gods have the blood of dozens of primitive gods, and they have the blood of the witch clan, which is normal.

Four people in a row obtained the inheritance, which greatly increased the confidence of the rest of the people.

Sure enough, someone in succession gained inheritance.

The fifth, Qiuyue, and the sixth, Lu Xiangxiang.

Seventh, Lu Chi!

Then came Ling Yuwei, Mulan and Huang Ling.

In the end, only Lu Ming, Dan Dan, and the Bone Demon were left, and they hadn't inherited yet.

The three looked at each other.

Could it be that the three of them are so talented that those peerless and powerful in the big tomb can't look down upon them?

"Impossible, this seat is unparalleled, there are a few people who can compare, how could you not look down on this seat, it must have not met the right one."

Dandan gritted his teeth.

He is very narcissistic, thinking that his talent is not worse than others, how can he not be inherited.

At this time, the old tomb guard appeared silently again, and whispered: "There are so many people who have inherited. It seems that when the great world is coming, even if these existences only have instincts, they can't wait. The way of inheritance will be passed down, and I am afraid that it will be lost forever and will be wiped out in the long river. Therefore, even if the talent is not very high, it is reluctant to accept..."

Although the old man guarding the tomb whispered, it was clearly heard by Lu Ming and others.

The faces of the three of them were drawn very long.

The talent is not high, and they are reluctant to accept them, and they have all inherited. So what are the three of them?

Especially Dan Dan, a tortoise's face stretched very long, and he glanced at the old grave guard with extreme discomfort, and then rushed to a large grave.

In the blink of an eye, another two years passed.

Hum!

On this day, another big tomb was illuminated, and some people gained inheritance.

It turned out to be a bone demon.

"Nest, it's not fair. This old guy has inherited his inheritance. He is old and lost. How can he be compared with me..."

Dandan wailed and was hit hard.

Others can get the inheritance, and they said the past, after all, they are all young talents.

But what is the bone demon?

Just an old guy, can actually get the inheritance.

This made a very narcissistic and self-proclaimed Dan Dan, who was hit hard, his face was gloomy and dripping with water.

He asked the heavens speechlessly, only feeling that the heavens were unfair.

"It is your great loss if you don't choose me as the heir."

Dan Dan said bitterly in his heart.

Of course, his body was very honest, and he rushed to a big grave again.

This time there was movement immediately. The big tomb was shining, and dense runes appeared on it, shrouding Dandan in it, and Lu Ming faintly heard Dandan's frantic laugh: "I knew this seat would not be worse than people. Just now I didn't choose the right tomb. If nothing else, it's more than enough to suppress Lu Ming..."

Lu Ming: "..."

In fact, Lu Ming also had some uncomfortable feelings in his heart.

It's not that he is narcissistic, his talent should be the strongest among the people, but now it's the last one, and it hasn't been inherited.

Lu Ming was also a little depressed.

Could it be that there is no suitable one here.

"Don't be discouraged. According to my observation, the power you control is very special. I am afraid that there is no inheritance suitable for you here. Therefore, you can't have special feelings with the corpses of the strong in the big grave."

The old tomb guard explained.

Lu Ming was very disappointed.

This kind of unparalleled opportunity, unexpectedly did not have his share.

It is really uncomfortable. . .

"Maybe, this may not be a bad thing."

The old man guarding the tomb said.

"It's not necessarily a bad thing? Seniors please enlighten me."

Lu Ming said, his heart was full of doubts.

There is such a great opportunity in front of us, but it is not available. Without his share, is it not a bad thing?

Chapter 5133: Great Ancient God Stone Change

"As long as the true peerless masters have to go out of their own way and walk their own way, they will be able to walk out of the strongest road, and gain the inheritance of others, the road will be greatly restricted, and they will be able to reach the achievements of those peerless masters before their lives. Unbelievable, it is extremely difficult to surpass."

"Of course, for most practitioners, this is a supreme opportunity. Just ask, there are countless creatures in the world, and how many people can transcend and prove to become immortals, and they have the inheritance of immortal figures, and they will build the supreme foundation in the future. The chance of proving Dao to become immortal will be greatly increased."

"But those who really aspire to walk on the path of the strongest will not accept the inheritance of others, and at most accept the guidance of others, such as the Three Kings of the Human Race, and whoever accepts the inheritance of others will all walk out of their own path of the strongest."

"You are a talent and have this potential. You shouldn't restrain yourself."

The old man guarding the tomb said.

Ok!

Lu Ming could only comfort himself with this reason.

The old tomb guard has disappeared, and everyone else is accepting the inheritance. According to the old tomb guard, this inheritance process is not so fast and will last for many years.

Lu Ming continued to polish his body and soul here.

In a blink of an eye, more than ten years passed.

At this time, only two hundred years were left before the end of the Great Tribulation of the Origin.

At this time, outside, great changes have taken place in the prehistoric universe.

The power of the Great Tribulation of the Origin has dropped sharply, and has been reduced by a large amount.

In the depths of the forbidden area where the eight tribes are located, a powerful breath burst out, and then a group of figures appeared in the air.

These figures exude a powerful aura, making the void tremble.

All of them are masters of the origin realm, and they are not the early origins, but the middle origins, or even the late origins.

Yes, there are still two hundred years before the Great Tribulation of the Origin, and the power of the Great Tribulation of the Origin is greatly reduced. Not only can it move freely in the middle of the origin, but even the existence of the latter period of the origin has been lifted from self-styled and can act freely.

Of course, the peak of the origin, or the existence of Crossing the Immortal Tribulation, can't yet, still self-proclaimed.

"Lu Ming, the masters of my clan's mid-primary stage and late-primary stage have all awakened. This time, let's see how you died?"

The eight clans of the forbidden area, especially the many masters of the five forbidden areas in the west of the universe, whispered, with a strong murderous intent in their eyes.

After that, the masters of the Five Forbidden Lands dispatched to look for Lu Ming, but there was no trace of Lu Ming. They smashed to the Cangqing Divine Realm, but Cangqing Divine Realm informed that Lu Ming was not in the Cangqing Divine Realm.

And over the years, Cangqing Divine Realm has continuously strengthened the formations and seals of the entrance and exit, withdrawing people outside, the sealing of entrance and exit is extremely strong,

even if a large number of masters from the middle and late origins come from the five forbidden areas, they will not be able to break it. Can retreat unwillingly.

As for the Yuanguang Clan Yin Sha Clan and Cangming Clan, they are far in the east of the universe, and it is not so easy to rush over.

However, they went directly to the Extinguishing Army's garrison. Unfortunately, the Extinguishing Army's garrison had already been left empty, and there was not a single creature left.

Those masters of the Origin Realm who were sleeping in the self-styled slumber also disappeared and were taken away.

"hateful!"

The masters of the eight races of the forbidden area can only furious incompetently.

After a large number of masters from the Eight Clan of the Forbidden Land awakened, a large number of masters from the outer universe also descended from the passage of the universe.

Both exist in the middle and late origins.

These masters have come from other universes long ago, and they have been waiting, and they will come in when the power of the great calamity of the source is reduced and can accommodate the middle and late stages of the source.

For a time, the prehistoric universe became more chaotic.

It can be said that the source is everywhere, and those below the source are difficult to wander outside, because at any time you may encounter a master of the source realm, and if you make a difference, you will be killed.

The Cangqing Divine Realm even more recalled the outsiders into the Cangqing Divine Realm.

And the eight clans of the Forbidden Land also allowed those below their original origin to return to their headquarters, and those who walked outside were all beings above their original origin.

The major relics of the primordial universe, the major secret places, etc., are even more lively, and the masters are like clouds, and wars often erupt.

And some ruins and secret places have been opened.

Because there are more masters and stronger strength, there are various masters who are proficient in formations, and some people also bring big killers, which break into the major relics and wipe out the treasures inside.

Although the human race of Cangqing Divine Realm knew it, they were helpless.

These relics belong to the primordial universe, but now, they can only watch people plunder from the outer universe, and there is no way to stop them.

.....

Lu Ming didn't know anything about outside affairs, and continued to practice with peace of mind.

But on this day, while cultivating in front of a big tomb, suddenly, the big ancient divine stone in the sea of knowledge trembled slightly.

When the ancient sacred stone was trembling, the big tomb also trembled, with light flickering, and a powerful aura permeating, as if there was a supreme being in it that was about to wake up.

Then, a figure appeared in the sky above the grave.

It can be seen that it is a man, wearing a battle armor, standing upright as a mountain, just a phantom, but it gives people an unmatched feeling, as if facing a big universe.

"What's the matter? Do I have to inherit?"

Lu Ming couldn't help but muttered, feeling tangled in his heart.

He is aspiring to become the strongest and to walk his own way. His goal is to be the three kings of the human race, or even stronger.

However, this is the inheritance of the Immortal King. It is a pity to miss it.

When this figure appeared, the great ancient divine stone trembled like never before, and dense and mysterious patterns appeared on the surface.

"Is it related to the Great Ancient God Stone?"

Lu Ming's heart moved.

The Great Ancient God Stone, from the Great Ancient God Court, is the strongest treasure of the Lord of the Great Ancient God Court.

But there are legends that the Great Ancient God Stone was not created by the Lord of the Great Ancient God Court, but he excavated it from a certain ruin.

Looking at it this way, the ancient **** stone is extremely ancient, and it is likely to be a treasure from the last epoch.

Then, it is not impossible to have something to do with the existence in the big tomb.

boom!

At this moment, the figure above the big tomb shrank quickly, turning into the size of an ordinary person, stepping out in one step, and blasting towards Lu with a punch.

"I'm going, what's the matter? Do you want to take back the ancient **** stone?"

Lu Ming was quite speechless.

The inheritance was not obtained, and it was actually attacked. How unfair.

But Lu Ming is not the one who sits and waits for death. Even if the opponent is a strong immortal, he would not sit and wait for death without fighting back.

Lu Ming directly used the Origin Technique to transform it into a giant of three feet, and then wanted to take out the God of War Spear to fight back, but he found that the God of War Spear was isolated, and he could not take it out.

Helpless, can only fist to resist.

boom!

With a roar, Lu Ming's body trembled as he backed away continuously.

The figure continued to step, swinging its fist and banging towards Lu.

A seemingly simple punch, but it seemed to contain infinite mysteries, firmly locked Lu Ming, there was a terrifying trend, crushing towards Lu Ming, and it was inevitable.

Chapter 5134: The king of all mysteries, honing the source technique

The figure in the big tomb launched an attack on Lu Ming. The offensive was very shocking. It was entrained with an infinite and profound momentum and pressed towards Lu Ming, unavoidable.

However, although the opponent's offensive is extremely mysterious, the power contained in it is not too strong. It is only comparable to Lu Ming, but the aura, giving people the impression, is much stronger than Lu Ming.

Lu Ming roared and tried his best to fight, turning the source technique to the extreme.

boom! boom! boom!

The continuous roar erupted, Lu Ming's body trembled wildly, backing back again and again, feeling qi and blood surge, almost vomiting blood.

The opponent's strength is obviously similar to that of Lu Ming, but the offensive is much stronger than Lu Ming. Lu Ming is not an opponent at all.

"Little guy, this is your chance, take it!"

The old man guarding the tomb did not know when he appeared again not far from Lu Ming.

"Senior, what is going on?"

Lu Ming asked, very depressed.

Others are directly inherited, and he is directly beaten, which is unbalanced in people's hearts.

"There must be something in your body that has something to do with the existence in this big tomb, and it resonates, but your Tao is not suitable for inheritance, but the instinct in the opponent's body still appears, hone your skills and fight as much as you want. , Can hone your origin skills."

The old man guarding the tomb said.

"Could it be that the ancient **** stone belongs to the one in the big tomb? My source technique was also based on the ancient **** stone, so the opponent attacked me to hone my source technique?"

Lu Ming's thoughts turned sharply, and when he figured this out, he was not depressed, but instead used his source technique to fight against it.

In a blink of an eye, dozens of moves were fought.

Needless to say, Lu Ming was naturally completely invincible. He barely supported dozens of moves. He was already panting, and his body was in tatters, and his injuries were serious.

The opponent obviously used the same power as him, but in the 'shu', it completely crushed him.

The opponent's random moves and styles contain infinite mysteries, and with the same power, they burst out stronger and closer attack power.

After resisting dozens of moves, Lu Ming had reached his limit.

And that figure seemed to know that Lu Ming had reached the limit, and instead of continuing to attack, it turned into a ray of light and rushed into the grave and disappeared.

"So spiritual, is this just instinct?"

Lu Ming murmured, the existence in this big tomb gave people the feeling that it was not completely dead, or it seemed that there was a trace of imprint left behind.

"The existence in this big tomb is called the King of Profound Dao. It is a king of immortality. The existence of this realm is beyond your imagination. He is indeed dead, without even leaving a mark. Action It's just an instinct engraved in the flesh and blood cells."

The old man guarding the tomb seemed to be able to see through Lu Ming's mind, and he explained something not far away.

Lu Ming nodded, and then sat cross-legged, his movement recovered.

His vitality was amazing, and he recovered to the peak without much effort.

However, instead of getting up, he closed his eyes, quietly recalling the battle just now, the various attacks of the kings of the profound, and they resurfaced in Lu Ming's mind.

This memory is indeed rewarding.

He felt that in the attack of the King of Profounds, it was a bit similar to his Origin Art.

In other words, there are similar traces, which are suspected to be of the same origin.

"The ancient sacred stone, perhaps it is really the treasure of the king of the profound, or, when in the prehistoric continent, it is not called the ancient sacred stone, but by another name..."

Lu Ming thought.

The origin of the name of the Great Ancient God Stone is due to the Lord of the Great Ancient God's Court, but it was not created by the Lord of the Great Ancient God's Court. In the last era, there must have been other names.

The various mysterious stones?

Lu Ming guessed.

Recalling the battle just now, Lu Ming has indeed gained a lot. He feels that he has a deeper understanding of his own origin technique.

Lu Ming got up, his mind moved, and his body started to lift up.

But this time, Lu Ming clearly felt that he hadn't reached thirty feet.

When he first comprehended the origin technique, his body would become three feet tall when it was displayed.

Later, as his understanding of Yuanshu deepened, when he used Yuanshu, his body became slightly shorter, less than three feet, but also close to three feet.

At this time, he found that his body had become shorter and thinner.

Although it was only a small amount, it was difficult to see with the naked eye, but Lu Ming's spiritual perception was so keen, he could clearly feel it even if it was ten times the slightest difference.

Yuan Shu has improved!

Lu Ming's eyes were bright, and then he strode towards the big grave.

When he approached the big tomb, the big ancient sacred stone in his body shuddered and shone again. Then, on the big tomb, that burly figure appeared again, attacking and killing Lu Ming.

Lu Ming fisted to resist and continued the fight.

After dozens of moves, Lu Mingshang retreated, and the figure of the king of the profound disappeared into the grave again.

Lu Ming continued to heal his injuries. After he recovered, he recalled the battle just now, and he gained a lot.

Then, fight again!

In this way, time passed quickly, and it was more than fifty years in a blink of an eye.

After more than 50 years, the inheritance of Xie Nianqing and others has all succeeded.

They have laid a strong foundation, their bodies and souls are extremely powerful, each of them is close to the limit, they are almost able to achieve the robbery of the body and the soul.

This made Lu Ming envious.

Lu Ming had been tempered by stepping on the roof for seven times, and then polishing it for a long time, before he achieved the robbery body and soul.

Others, after accepting the inheritance, realize the transformation, and it will soon be reached.

"I feel that I can break through the original realm at any time, but this place is sealed, and it is not easy to break through. I plan to leave first and go outside to break through."

Xie Nianqing said.

"I'm still under the great calamity of the origin, and I don't know if there is any danger in breaking through."

Lu Ming said.

Although Xie Nianqing is now extremely powerful in all aspects, Lu Ming couldn't help but worry.

"Don't worry, now it is only one hundred and fifty years before the end of the Great Tribulation of the Origin. The power of the Great Tribulation of the Origin is already very weak. Even if we break through now, the pressure will be much less. Of course, the gift we received is also Much smaller..."

The old tomb guard explained.

Lu Ming was relieved now.

Others also followed out, intending to see it.

Because everyone's cultivation level has improved a lot, and many people feel that they are about to break through. Seeing Xie Nianqing's sudden break in advance is inspiring for them.

Coming outside, Xie Nianqing began to break through.

Sure enough, although it was still suppressed by the Great Tribulation of the Origin, its power was much smaller than that of Lu Ming's time. Xie Nianqing didn't take too much effort to leapfrog the past and achieve the origin.

Of course, the gift of Universe Sea was much smaller than that of Lu Ming.

However, the benefits obtained are also extraordinary.

Xie Nianqing's source has reached the intermediate level, and his cultivation level has also been promoted to the peak of the beginning of the source in one fell swoop.

Everyone was very happy and returned to the burial place to continue practicing.

Chapter 5135: Late origin

Time passed day by day, and everyone broke through one by one.

After Xie Nianqing broke through, the second breakthrough was the Bone Demon, followed by Qiuyue, Tang Jun, Pao...

When the Great Tribulation of the Origin is only a hundred years away, everyone has broken through, and the cultivation base has reached the Origin Realm.

Even Xie Nianqing, who made the first breakthrough, reached the mid-primary stage.

They have obtained the inheritance of immortal figures, and this is not an ordinary inheritance.

These immortal figures have all fallen, but their physical bodies have been preserved. Their physical bodies contain extremely strong vitality. In the process of inheritance, they have slowly passed over to Xie Nianqing and others to help them improve their bodies and complete their transformation.

Their roots are simply strong and abnormal.

Moreover, there is still power being sealed, and the seal is in the depths of their bodies. As a result, their cultivation speed will be astonishing.

This has received all the 'gifts' of an immortal figure, even if there is no shortage of immortal characters in the powerful universe, but those immortal characters are still alive, how can there be such a heritage?

Of course, most of these inheritances are sealed.

Not only the horrible life force left by these immortal figures, but also their Tao, their skills, etc., most of them are sealed in the depths of the bodies of Xie Nianqing and others.

Because the Tao and skills of these immortal figures are too advanced and too profound.

Some even involve the art of immortality, vast as an abyss.

With the cultivation base of Xie Nianqing and others, it is impossible to control them. If they are forcibly instilled, they will burst their souls.

Only by waiting for them to upgrade their cultivation base and slowly unlock the seal can they truly gain all the inheritance.

Over the years, Lu Ming has also gained tremendously.

After the constant battle with the King of Profounds, he finally surpassed the bottleneck, and his cultivation reached the late stage of the original source.

And his body and soul are slowly improving, and vaguely, they have reached a new limit.

Asking the old man who guards the tomb and learned that it should have reached the limit of one robbery and soul, and then breaking through is equivalent to the body and soul of the person who has survived the second immortal robbery.

Of course, it is harder to break through than to reach the sky.

Because Lu Ming is only in the Origin Realm now, and there is no real Immortal Tribulation to help temper.

Although Immortal Tribulation is fatal and a nightmare for all practitioners, once it is over, the benefits are huge, and the whole person can be transformed.

Without the tempering of Immortal Tribulation, it is already incredible to be able to achieve one Tribulation Body Tribulation Soul, and it is too difficult and too difficult to want a second time.

Of course, the biggest gain is the source technique.

When Lu Ming used the Origin Surgery now, his height was only one foot and five meters, about five meters, which was twice as small as before.

The effect is that the power of the source technique skyrocketed, at least several times higher than before.

Lu Ming's combat power has skyrocketed again, and his ability to fight at the same level has increased a lot.

Of course, it was the original realm now, and could not be divided according to the extreme combat power, and Lu Ming also didn't know how his current combat power was.

In short, very strong.

It's not clear how strong it is, and it's only known after actual combat.

.....

With only a hundred years left from the Great Tribulation of the Origin, the power of the Great Tribulation of the Origin has once again declined, and the existence of the peak of the Origin can move freely.

Among the eight races of the Forbidden Land, all the existences of the peak of origin have awakened and stepped into the universe.

Among the Celestial Clan, the masters of the major heavenly palaces also stepped out of their self-appointment to dig out some relics.

Destroying the Heavenly Army, no, it should be called the Primordial Alliance in the future, and some top masters have also revived.

For example, the sword of the first day, King Qiankun, Ao Qian, etc., all walked out of self-proclaimed sleep.

Of course, the powerhouses of the outer universe are indispensable.

In the outer universe, a large number of Primal Pinnacles have entered the Primordial Universe, making the Primordial Universe even more chaotic.

However, the existence of Crossing the Immortal Tribulation level can't wake up yet, and can't enter the primordial universe.

Existence at this level needs to wait for the original calamity to completely pass before daring to wake up.

Because, the existence of this level itself will face the immortal calamity. If you enter the primordial universe now, you will not only be suppressed by the original calamity, but may also trigger the immortal calamity in advance and cause terrible consequences.

At this time, a shocking news came out.

In those powerful universes, there are multiple great powers simultaneously deducing the position of the heart of the universe in the wild universe.

Before, there was a powerful deduction. The heart of the universe of the primordial universe was broken into five pieces, scattered all over the universe, but no specific location was deduced.

The main reason is that the great calamity of the origin has disrupted the secrets of heaven and greatly increased the difficulty of the deduction of these great powers.

Although there are countless people looking for it, they have not found it.

But now, with only a hundred years left from the Great Tribulation of the Origin, the power of the Great Tribulation of the Origin has been greatly reduced, and the interference to the secrets of the heavens should be lighter. Many great powers simultaneously deduced the coordinates of one of the universe's hearts, just to the west. Somewhere in the universe.

When the news broke, almost everyone went crazy.

What is the heart of the universe, the core of a universe, this is a chance against the sky.

Even the Heart of the Universe of a small and weak universe is an unparalleled treasure, not to mention that the Primordial Universe ranked eleventh in Yangjian at its peak.

The value of this cosmic heart of the universe is even more immeasurable. Even if it is only one-fifth of the Fragment of the Heart of the Universe, it has immeasurable value.

A cultivator, if he can integrate a piece of the heart of the universe with himself, he can forge an invincible foundation of great avenues, with infinite potential, unparalleled talent, and invincible.

The immortal calamity that ordinary cultivators talked about is nothing at all for the existence that integrates the heart of the universe, and it can be easily passed through.

In other words, if a piece of the heart of the universe is fused, it is almost a certainty to prove that Dao becomes immortal.

If the talent is high enough, it is not too difficult to enter the 'king level'.

Who is not tempted, who is not jealous?

Under normal circumstances, the Heart of the Universe is not available at all.

Because whether it's in the underworld or the yang, there are clearly stipulations that powerful existences are not allowed to attack those weak universes and try to seize the heart of the universe.

Otherwise, it will become the target of public criticism, and will be pursued and killed by the most powerful universe.

Of course, if you go to attack the enemy's universe, no one will care about you.

For example, a strong man in the Yang world will attack the great universe of the Yin world and seize the other's cosmic heart. The Yang Jian will not only not punish, but will also support it.

Of course, you have to have this ability.

Immediately, countless powerful men rushed towards the coordinates where the Heart of the Universe was located, chaos kicked off, and a terrible battle was about to break out.

But at this time, in the Cangqing Divine Realm, there were several old sighs.

"The heart of the universe has been found after all. It is a great disaster for our primordial universe."

"The recovery of the wild universe is because of the heart of the universe. Once the heart of the universe is seized, the recovery of the wild universe will stop abruptly. Not only that, but it will also regress and become even more lonely..."

Chapter 5136: A Supreme Scripture

"But we can't stop..."

Several ancestors of Cangqing Divine Realm were discussing in secret, and their voices were full of helplessness and sadness.

The Primordial Universe is no longer the prehistoric universe of the last epoch. The difference in strength is too great, and it has no power to deter other big universes, nor can it prevent the powerful from other big universes from coming to compete for the treasures of the prehistoric universe.

"Recall all the clansmen to the Cangqing Divine Realm, and then strengthen the seal and formation of the entrance and exit. If you have to, even if you close the entrance and exit again, you will not hesitate..."

An ancient voice of vicissitudes said.

The other voices were silent.

Close the entrance and exit again, then you will be cut off from the world, even if they can't open it.

At the beginning, if Mulan hadn't come with a special gem and broke the seal, the Azure God Realm would have been isolated from the world, and it would have been impossible to obtain some treasures in the ruins.

Not as a last resort, they didn't want to completely close the entrance and exit of the Cangqing Divine Realm.

.....

Lu Ming and others were not clear about what was happening outside, and they still focused on cultivating.

However, they found that if they continued to use the will here to polish their body and soul, the progress was getting slower and slower. Up to now, after one day of cultivation, the progress was minimal.

They seem to have developed 'resistance' to this place.

Not only other people encountered this problem, even Lu Ming also encountered this problem.

Not only did the body and soul progress slowly, even if they were fighting against the masters of the mysteries, the speed at which they could comprehend the source art became slower and slower.

Hum!

On this day, the great ancient **** stone shone brightly, shaking like never before.

And the figure of the King of Profounds suddenly turned into a ray of light, rushing to the center of Lu Ming's forehead, rushed in from the center of Lu Ming's forehead, and plunged directly into the ancient **** stone.

The great ancient divine stone vibrated more violently. The next moment, with a click, a crack appeared on the surface of the great ancient divine stone.

"not good..."

Lu Ming's face changed drastically.

The ancient **** stone, is it going to be destroyed?

This is a pity, Lu Ming has been able to make this achievement along the way, the great ancient **** stone is indispensable.

Regardless of whether it's the Heavenly Breaking Style, the Primordial Style, or the Origin Technique, they are all based on the ancient divine stone.

Even now, the ancient sacred stone is still helpful to Lu Ming. Comprehending the patterns on the ancient sacred stone is very inspiring for him, and he can continuously improve his source art.

Although the speed is not so fast.

To be honest, Lu Ming really couldn't bear it.

Click, click...

The cracks on the surface of the ancient **** stone are getting more and more dense, denser than spider webs.

Finally, a layer of stone skin fell off unexpectedly.

Yes, just a layer of stone skin!

Under the stone skin, there is no crack, it is a brand new big ancient **** stone.

Lu Ming was stunned.

There was a layer of stone skin on the surface of the ancient **** stone. Could it be that what he saw before was just stone skin?

Under the stone skin, is the real big ancient **** stone?

It's like a layer of seal, which has been sealed before, but now because of the King of Profounds, the seal is unlocked?

In an instant, Lu Ming turned a lot of thoughts.

Soon, the stone skin fell off, turned into a burst of light and dissipated, and a brand-new big ancient sacred stone emerged in Lu Ming's sea of knowledge.

This big ancient sacred stone is very similar to the previous one, with runes on the surface, dense and endless.

However, these runes give people the feeling that they are hundreds of thousands of times more profound than the previous runes, like the vast universe, unfathomable.

Lu Ming was curious, staring at it carefully, wanting to understand it.

Suddenly, those runes were twisted and intertwined, forming a figure.

This figure, unable to see its appearance, stood on top of the ancient **** stone, and then shook his fist and blasted it out with one punch.

boom!

At this moment, Lu Ming felt that the whole world was turned upside down and destroyed. His whole body was tingling, as if it was about to explode. The soul in every cell of him felt like he was about to be destroyed.

"Disengagement, disengagement..."

Lu Ming roared, manipulating spiritual consciousness with all his strength, and separated from the sea of consciousness, not paying attention to the ancient **** stone.

Finally, Lu Ming succeeded, retreated, and escaped from the ancient **** stone.

bump!

Afterwards, Lu Ming sat down on the ground, a mouthful of blood, and gasping for breath.

There was tingling pain in his body, and when he swept away his spiritual sense, he found that there were cracks on his body, like cracked porcelain.

"It was too dangerous just now..."

Lu Ming's heart was lingering. If he acted later, his body would really burst, his body and spirit would be destroyed, and nothing would be left.

"Lu Ming, what's the matter with you?"

"Master..."

Xie Nianqing, Qiuyue and others rushed over, watching Lu Ming anxiously.

Just now, they saw Lu Ming's body tremble suddenly, sitting on the ground and vomiting blood, they almost died of fright, not knowing what happened.

"Could it be that the mysterious stones are really on you?"

The old man guarding the tomb appeared silently and appeared beside him again. His eyes were not muddy, bright and brilliant, staring at Lu Ming as if he wanted to see through Lu Ming.

However, in the sea of knowledge of Lu Ming, there seemed to be a layer of mist around the ancient sacred stone, blocking the prying eyes of the old man guarding the tomb.

Divine things hide themselves, some top treasures will hide themselves and prevent others from viewing them.

"The Profound God Stones? Is it really called this name?"

Lu Ming was speechless.

The power of the taboo's origin is constantly working in his body, and his injury is recovering quickly.

"The old man can't see through. You really have various mysterious stones on your body, little guy, what did you see just now?"

The old man guarding the tomb asked.

"Senior, it's like this..."

Immediately, Lu Ming said seriously that the ancient **** stone must be concealed. Just now, a figure of the king of the profound rushed into Lu Ming's forehead, and the old man who guarded the tomb must have seen it.

How can it be hidden from the knowledge of the old man who guards the tomb?

It's better to just say it out and ask the old man to give pointers.

"Sure enough, it is the Profound God Stones. No wonder you can interact with the Profound Kings. According to you, the Profound God Stones used to have a seal, so you can comprehend the secret technique from it, but now the seal has fallen off, little guy. , In the future, don't use all the profound stones to comprehend. In all likelihood, you will die."

The old man guarding the grave cautioned seriously.

"Senior, what is on the Profound God Stone, and why is it so?"

Lu Ming asked seriously.

"A scripture, a supreme scripture, with your current cultivation level, you can't comprehend it at all. Don't say that you have realized it. Even if you look at it, you will be blown up by the supreme power. So, wait for you After the cultivation level is upgraded, you can watch and comprehend."

The old man guarding the tomb said.

Lu Ming was really speechless.

He is now in the late stage of the origin, and he is not even qualified to watch a scripture, and he will die at first sight.

Who does he talk to to reason?

"Senior, what kind of cultivation level do you need to watch?"

Lu Ming asked.

Chapter 5137: The whereabouts of the second heart of the universe

Now that you have the opportunity, it's better to ask clearly, lest you can't help it when you get in.

"At least you have to go through more than six immortal calamities and approach a true immortal's cultivation base before you can watch it. However, if you want to truly enlighten it, you must at least prove it to become immortal."

The old man guarding the tomb said.

Lu Ming: "..."

Okay, Lu Ming really has no temper.

A scripture is so demanding.

Three days later, Lu Ming's injuries healed.

After a few more years, Lu Ming and the others felt that progress here was really slow. Although it was still much faster than practicing outside, everyone was worried about the situation in the prehistoric universe.

Calculating the time, it was less than a hundred years since the end of the Great Tribulation of the Origin, they planned to go out to see the situation, and Lu Ming also planned to send a dozen more people over to practice.

Such as Lu Shenhua, Ouyang Mo Li and so on.

Let other people also improve here, if they can get the inheritance, so much better.

Everyone discussed with the old tomb guard, and the old tomb guard did not refuse, but told that there should not be too many people coming, and it is better to be in the early tenths.

Lu Ming and others naturally agreed, and then left the burial place and headed for the area where the Cangqing Divine Realm moved.

As soon as they returned, they encountered a few masters of the Cangqing Divine Realm.

"Peak of Origin!"

Lu Ming's gaze moved, and one of them gave Lu Ming a strong feeling. With Lu Ming's current cultivation base, and the other party did not hide it, he could see at a glance that the other party's cultivation base was the peak of his origin.

It seems that the existence of the pinnacle of the source is already able to move normally.

"Lu Ming!"

An old man greeted Lu Ming and knew Lu Ming very well.

Lu Ming also nodded, walked over, and said, "I have seen Cheng Lao."

This old man is named Chengchuan.

"You are Lu Ming. As expected, a hero was born as a boy."

The master at the pinnacle of Origin smiled and looked at Lu Ming up and down, as if he wanted to see through Lu Ming.

However, Lu Ming condensed his breath and did not reveal any aura. For a while, he could not see the depth of Lu Ming.

However, when he glanced at other people, his pupils shrank.

"They have broken through their origins. Really powerful, talented and peerless."

This person sighed, and the others were also shocked.

You know, the great calamity of the origin has not passed yet, although the current breakthrough and the suppression of the great catastrophe of the origin will definitely be much less powerful, but not everyone can break through.

In fact, even now, only a few extremely strong talents can break through successfully.

During this period of time, many arrogances in the outer universe began to attack the origin, but the success rate was not high. Among the ten, at least five or six failed.

The people beside Lu Ming were all successful, and they had to be shocked.

"It's just a fluke!"

Lu Ming said modestly, and then changed the subject: "By the way, several seniors, how is the situation in the universe now?"

"Lu Ming, I have something to tell you. Now, all the universes are fighting for the heart fragments of the universe. There have been many tragic battles. There have been countless deaths and injuries. Several ancestors have passed orders. Let us not participate. With our strength, Can't participate at all, can't compete with those big universes."

Chengchuan Road.

"Shard of the Heart of the Universe?"

Lu Ming showed doubts and asked Cheng Chuan for advice.

"The heart of the universe is the core of a universe, as well as the core of the rules and order. Once merged, the perfect foundation of the road can be cast..."

Cheng Chuan and Lu Ming explained it again.

"A few years ago, the power of the outer universe deduced the specific coordinates of one of the fragments of the heart of the universe, and countless masters immediately killed them. In order to compete for that piece of continental fragments, a fierce battle broke out. After several years of fighting, they were finally killed. One of them was temporarily refined into a spatial treasure and brought with him..."

Chengchuan Road.

"Refined into space treasure?"

Lu Ming keenly captured the unusual place.

"The fragments of the heart of the universe are so easy to truly integrate, and the area is very large, like a continent. If you want to collect it, you can only control it initially, and then refine it into a space treasure with a powerful formation. Slowly refining by your side, enough time to merge."

Cheng Chuan explained.

"And not long ago, the power of the outer universe deduced the second piece of the heart of the universe. In the eastern universe, now, countless powerful people have rushed to the eastern universe. I

heard that in your 'Premier League', There are also some people who have rushed to the east of the universe. We have persuaded them, but unfortunately they insist on going, and it is not easy for us to stop them."

At this time, another old man spoke.

"The second piece of the heart of the universe is actually in the eastern universe, and someone from the Great Alliance has rushed past it."

Lu Ming and others were shocked.

The eastern universe was rummaged through all the forbidden lands, and there were no fragments of the heart of the universe. Where is the fragment of the heart of the universe?

"Space treasure?"

Lu Ming had more thoughts in his mind, and he thought of Hong Huangjie.

"It should be a coincidence!"

Lu Ming shook his head slightly.

Afterwards, he asked Cheng Chuan and others for more information, then left and headed to the place where the prehistoric alliance lived.

When I came back, I met many acquaintances.

Because, in the Primordial Alliance, almost all the origins have awakened.

Such as Ke Wang Yuanzun.

"As soon as Feihuang was relieved of his self-appointment, he left alone. On the first day, Sword, Ao Qian, Law King Qiankun and the others rushed to the eastern universe, but you can rest assured, they are not fighting for the fragments of the heart of the universe, they are just going to see in the past. , By the way, return to the Extinguisher's garrison and take a look. Some things that have not been brought are brought over by the way."

Ke Wangyuan respected.

Lu Ming and others breathed a sigh of relief.

They knew that they were worrying too much. How could the sword and others on the first day not know that with their strength, they couldn't compete with those people in the outer universe.

Even Cangqing Divine Realm did not dare to compete, let alone them.

They do things well.

Although Lu Ming had transferred the creatures of the Heaven Extinguishing Army and some important treasures, some things that were not easy to transfer, and not too expensive, were not transferred.

On the first day, Jian and others should have gone for this matter.

"The Fragment of the Heart of the Universe, I also want to see."

Lu Ming thought.

He is not coveting the heart of the universe, he wants to prove one thing.

Because he was always curious whether the Honghuangjie had something to do with the heart of the universe.

At the same time, he learned that when Sword and the others went on the first day, Cangqing Divine Realm had borrowed a battleship.

This kind of warship is very advanced and has an amazing speed. It needs the cultivation of the pinnacle of the origin to be able to move through the void between the east and the west. It does not take long.

In fact, the powerful people in the outer universe are urging similar treasures, and it is estimated that many people have already rushed to the eastern universe.

It takes a long time for people with insufficient cultivation to pass through the void zone, but for the existence of the pinnacle of origin, it does not take a long time to mobilize top treasures.

This kind of treasure can't be taken out by the Celestial Clan or the Heaven Extinguishing Army (the Great Alliance), but those big universes, or the forbidden land and the Cangqing Divine Realm, can be taken out.

Chapter 5138: Sword ancestor statue

After chatting with Ke Wang Yuanzun and others for a while, Lu Ming and others set about arranging the manpower to enter the immortal burial ground.

With more than a dozen people, Lu Ming planned to select all of them in the Primordial Alliance, and did not intend to inform the people of Cangqing Divine Realm.

The immortal burial place is no trivial matter, and the elder guarding the tomb has spent a lot of effort to deceive the secret, and it must not be revealed.

Lu Ming didn't understand the people of Cangqing Divine Realm very well. If he told the people of Cangqing Divine Realm about the buried immortal place, it would be easy to leak it out.

After all, he didn't know the roots of people in the Cangqing Divine Realm. Everyone had relatives and friends. It would be normal for a Cangqing Divine Realm to disclose this to his relatives and friends, and then leak it out.

Once leaked, it would definitely cause the masters of the outer universe to flock to the immortal burial ground, and Lu Ming would never allow such a thing to happen.

He would rather give the spot to the Primordial Alliance, even if some people are not so talented, but at least know the basics.

Soon, twelve candidates were selected.

This time, both Lu Shenhua and Ouyang Moli were on the list, as well as the Haizong who had the blood of Wang, who had been handed over to Ouyang Moli to teach.

Lu Ming's two registered disciples, Zhuang Xiaoshan and Zhuang Xiaorou, Tang Jian, Shi, and Gu Changfeng.

Mulan and Huang Ling took them to the burial place.

At this time, Lu Ming also suggested to Xie Nianqing and others that he would go to the eastern universe.

"We are with you!"

Xie Nianqing, Qiuyue, Ling Yuwei and others said in unison.

Lu Ming shook his head and said, "I know that you are worried about me, but with my current combat power, I can't get out of immortals. I have more than myself. Even if I lose, I can retreat calmly."

In the end, Xie Nianqing and others did not insist on going with Lu Ming. They knew in their hearts that Lu Ming's combat power was indeed enough to protect themselves, but if they followed, they would hurt Lu Ming instead, and would become Lu Ming's concern instead. .

"Don't worry, it won't be long before I will return. You are here to consolidate your cultivation."

Lu Ming said.

Soon after, Lu Ming set off and headed towards the east of the universe.

He knew that the ancient teleportation road, naturally, did not need to go from that nihility zone, and went directly to the ancient teleportation road. With the help of the ancient teleportation road, he quickly returned to the eastern universe.

As soon as he returned to the eastern universe, Lu Ming hurried towards the original 'Destroyer's Station'.

But not long after flying out, Lu Ming stopped.

Because, he felt a bracelet on his wrist, trembling slightly, a powerful breath spreading out.

"The ball finally reacted."

Lu Ming's eyes lit up.

This bracelet is naturally a ball.

Since the ball swallowed the Renwang Broken Sword and spit it out later, the ball has been in a deep sleep, counting the time, it has been hundreds of years.

Lu Ming had been worried before, fearing that the ball would barely swallow Renwang's Broken Sword, and he would have been injured by Renwang's Broken Sword to its origin. What major problems had occurred.

Now the ball finally moved, and the breath exuding it was amazing.

Huh!

The ball flew out of Lu Ming's wrist, turned into a round ball, and emitted a bright glow, one by one, like a beating heart.

Moreover, the atmosphere of the ball is constantly improving.

Originally, the cultivation base of the ball was the pinnacle of the god, but now it has reached its limit, and it is attacking the original state.

.....

At this time, there were some people in the original extinction army garrison.

These people are actually from the Celestial Race.

In the center of the Extinguishing Army's garrison stood a huge statue of a young man, handsome and tall, with a long sword on his back.

This is a statue of Tang Feng, the forbidden sword ancestor.

The Heaven Extinguishing Army was founded by the taboo sword ancestor Tang Feng and the Immeasurable Sky Demon Flying Phoenix. Tang Feng can be said to be the soul of the Heaven Extinguishing Army.

Below the statue, stood many celestial races.

These people are all big figures of the Celestial Race.

If it was Lu Ming again, he would definitely be able to recognize at a glance, four of them were the masters of the four heavenly palaces of the Celestial Race.

In addition to the masters of the four heavenly palaces, some other people are also big figures of the Celestial Race, almost all of them exist in the Origin Realm.

Boom boom boom!

From time to time, there was a roar from all over the place of the Exterminating Army, and human figures flickered.

It is the people of the Celestial Race, wreaking havoc.

The divine light flashed, and some important places of the heavenly army were destroyed.

"Hmph, these rebels are really fast, they have all been transferred, otherwise, this time they will have to be destroyed."

"It's really a pity that I don't know where they went, and they were all transferred. So many people transferred, we didn't even notice."

Several masters of the Celestial Race were discussing, and their expressions revealed a cold murderous intent.

"We have been ruining here for half a month. After those rebels know about it, they will probably come."

Someone whispered.

"In my opinion, this statue was directly destroyed, forcing them to show up. If they were in the dark, they would definitely not be able to help it."

A strong man from the origin realm of the Celestial Race who seems to be relatively young.

This person is the Yelu Magic Spear, the enemy of the Third Demon Sword, and the two often fought before.

Those who can be called the Third Demon Sword's Great Enemy are naturally very talented and have a high status among the Celestial Race, and are known as the future successor of the Lord of the Heavenly Palace.

Therefore, although his cultivation is only in the mid-primary stage, he does not have much awe in front of several gods.

"The Gunslinger is right, and it directly destroyed the Tang Feng statue."

One of the gods, the crape myrtle god, spoke.

"I come!"

Yelu's spear spoke, and then stepped out, a powerful breath erupted, and at the same time, a golden spear appeared in his hand.

Hum!

The spear vibrated and turned into a golden spear light. It was extremely sharp and pierced the head of the statue, demanding a shot to destroy the statue.

when!

The statue shook, and suddenly a sword gas burst out.

This sword aura, peerlessly sharp, broke through the void of the universe as soon as it appeared, and also smashed the golden spear light, slashing towards the Yeling magic spear.

"not good!"

Yelu's face changed wildly, and he found that he was locked, and for a while, it was difficult to avoid it.

At the critical moment, a figure appeared next to the Yelu Spear, pulling the Yelu Spear back quickly, and then made a big seal.

This is the action of the Ziwei God, who made the Zijin Heaven Seal.

boom!

The Zijin Tianyin collided with the sword aura, and a thunderous roar erupted. Then, the Zijin Tianyin retreated violently, but the sword aura was still blocked after all.

The face of the Lord Ziwei paled slightly, and he felt his blood surge and almost vomited blood.

"Unexpectedly, it was just a statue, with such a strong sword intent, Tang Feng deserves to be Tang Feng."

The crape myrtle god, running the power of the original source, soon returned to normal.

Yelu Shenqian's face was even more pale, and she was terrified.

If there was no help from the Ziwei God just now, he would have been killed by that sword aura.

Even the Lord Ziwei was repelled, that sword aura was enough to kill him easily.

Chapter 5139: Jianzu can not insult

"Although Tang Feng is strong, our ancestors are not weak enough to fight against and even suppress him."

Another god, the **** of the gods, spoke.

"Yes, and these rebels, apart from Tang Feng and Feihuang, have no other existence at the level of Transcending the Immortal Tribulation, and they are destined to die."

Hongmeng God also followed the Tao.

"We will join forces and destroy this statue."

Dream God Road.

The statue of Tang Feng, standing in the extermination army station for dozens of stars, is the core of the soul of the extinction army. The destruction of Tang Feng's statue is also a huge blow to the extinction army.

Boom boom boom boom!

The four great gods joined forces to attack, and the four terrifying lights blasted towards Tang Feng's statue.

The statue glows, and there is a burst of breathtaking sword energy, and it confronts the four gods.

"It turned out to be a ray of sword intent left over dozens of star years ago. It has almost completely dissipated long ago. I also want to stop me from waiting and destroy it for me."

The Ziwei God drank coldly, manipulating the Zijin Heaven Seal with all his strength, to wipe out this sword energy.

The same is true for the other three gods.

If Tang Feng were here, how far they ran, but it was just a sword intent left by dozens of stellar years. The statue was injected into it when it was first cast. After such a long time, it will soon dissipate. Now, why are they afraid of the four gods?

Sure enough, after half an hour, this sword intent was finally wiped out.

With a puff, this sword intent was finally wiped out.

Boom boom boom boom!

Four attacks landed on the statue, and the statue was shaken, and a crack appeared on it.

The four great gods wanted to attack again. At this moment, a sword light slashed down from above the sky.

The sword light is vast, like a galaxy, breaking through the darkness and slashing towards the crape myrtle god.

The power of this sword light is terrifying, and even the Lord of Ziwei dare not care about it, and feels like a big crisis.

Hum!

The Ziwei God controlled the Zijin Heavenly Seal with all his strength, and hit it upwards, together with Jian Guang bang.

With a bang, the sword light was blocked, but the Zijin Tianyin was also blasted back.

Above the sky, a woman appeared.

A stunning woman, wearing a snow-white swordsman robe, completely outlined her graceful figure.

She holds a sword in one hand, and her long hair is combed into a ponytail. She is heroic.

Sword on the first day!

The pupils of Lord Ziwei shrank slightly, flashing cold murderous intent.

This rebellion, the biggest traitor in the history of the Celestial Race, made the Celestial Race up and down, hatred to the bone.

Mainly because the talent of the first day sword was too high.

No one in the Celestial Race had thought that this lowly man of Celestial Race and Human Race had such a high talent. At a young age, his cultivation would reach the pinnacle of his origin.

This kind of talent is definitely far above the few of their gods, and they are chasing the gods like Ye Qiuxian.

The higher the sword talent on the first day, the more they hate it.

Roar!

A dragon roar shook the world, and a huge dragon claw grabbed it, and grabbed it towards the **** of the gods.

"Ao Qian!"

The divine machine God screamed and blocked Ao Qian's attack.

At the same time, two terrible attacks attacked the Dream God and the Hongmeng God, allowing the two Gods to deal with it attentively, and there was no time to attack the statue.

Above the sky, after the sword of the first day, three more figures appeared.

A burly middle-aged man, two old men, one in a gray robe and the other in a black robe.

The middle-aged man is naturally the black dragon Aoqian who destroys the world.

Two old men, one is the King of Heaven and Earth, and the other is the leader of Tianyin.

All are the top masters in the prehistoric alliance.

"Very well, all four of you are here."

The eyes of the Lord Ziwei swept across the first Tianjian four, showing cold murderous intent.

"And us."

With a loud roar, a few more figures came quickly in the distance.

What I drank just now was the third magic sword.

Beside the third magic sword, there are also the second magic sword and Tang Xiao.

With the addition of the First Heaven Sword and others, the Primordial Alliance, a total of seven people came, and they all arrived.

"Well, today, I will send you on the road."

Yelu yelled with excitement.

"Only you, it's still a bit worse."

The Third Demon Sword sneered disdainfully, and came to the first day Jian and others.

Huh huh!

Around, there were figures constantly rushing towards this side, surrounding the first day sword and others.

They are all masters of the Origin Realm in the Celestial Race.

"Huh, just with these chicken dogs, you also want to keep us?"

The third Demon Sword said grimly, a look of contempt.

"Wait a moment we take action to block them, the three of you, take the opportunity to remove the statue of Master, Master must not be humiliated by them."

On the first day, the sword was secretly given to the second day sword, the third magic sword, and Tang Xiao.

They did not arrive in advance, but they had just arrived here not long ago. As soon as they arrived, they saw the statue of the Four Great Heavens who defeated Tang Feng from a distance.

Other things can be tolerated, this matter absolutely cannot be tolerated.

The sword on the first day, the second magic sword, and the third magic sword were all Tang Feng's disciples and regarded Tang Feng as a god.

And Tang Xiao is Tang Feng's eldest son. How could they tolerate the destruction of Tang Feng's statue by the Celestial Clan, so without thinking about it, they just shot it.

"Shoot!"

On the first day, the sword screamed coldly and shot directly, the sword light soared, as if it had broken the universe open, and took the lead in killing the crape myrtle god.

At the same time, Ao Qian and others also shot at the same time.

Humph!

The four gods snorted coldly, without fear, and rushed forward.

The eight powerhouses are fighting at high altitude, and the surroundings are in chaos, and it is difficult for others to get close.

When the sword on the first day and the others started, the sword on the second day, the sword of the third magic sword and Tang Xiao also shot, rushing towards the statue of Tang Feng.

"Shoot and kill them."

Yelu's sharp spear yelled, and immediately slammed towards the third magic sword.

when!

The two made a right move, half a catty.

But the other masters of the Heaven and Human Race all shot and killed the three of them.

Here, there are at least dozens of masters of the Celestial Race, and there is no lack of the existence of the late origin.

Dozens of people attacked together, and the power was shocking, even the strong at the pinnacle of origin did not dare to stun the front.

With the cultivation base of Tang Jian's trio, it would certainly be unstoppable.

Just when the people of the Celestial Race thought that this move could kill the three of them, a war sword on the back of the sword the next day cried and flew out automatically.

When the long sword flew out, it resonated with the sword ancestor statue, and a sword intent flew out of the sword ancestor statue and rushed into the long sword.

Hum!

The long sword trembles violently, and the sound of the sword sounds resounding through the void of the universe, and then cut out a sky-shattering sword aura, breaking all the surrounding attacks.

Not only that, in the Celestial Race, there are at least five or six weaker origins, which were cut in half by a sword, directly breaking the origin, and annihilated together with their souls.

The five masters of the Origin Realm died tragically in an instant.

"It's the sword ancestor saber!"

"Damn it, the sword ancestor sabre resonates with the statue, and there are remnants of suggestions in the architectural statue pouring into the sword ancestor saber, making the sword's power soar."

Many people exclaimed, showing fear.

"Hahaha, know that my master is amazing!"

The third magic sword laughed.

Chapter 5140: The old monster of the Fifth Heavenly Palace

Keng!

The sound of the sword of the sword ancestor and the sword sounded from ancient times, and the dazzling sword light illuminates the dark universe, as if to cut through the universe, and once again kills towards the origins of the Celestial Race.

Void was exhibited with a small sword mark, seemingly small, but indestructible, making the faces of the masters of the Celestial Race crazy.

The Sword Ancestor Sabre was originally left by Sword Ancestor to the Second Excalibur a long time ago. Its power is not so strong. More than 10,000 years ago, the Second Excalibur once held the Sword Ancestor Sabre and defeated the Celestial Race. Master.

But this time, the sword of the sword ancestor resonated with the statue of the sword ancestor, and the sword qi in the statue of the sword ancestor was added, and the power was greatly increased, even the masters of the late roots could not stop it.

However, the Celestial Race also has a big killer.

Several masters of the late origins sacrificed their big killers, all of which are treasures of the town clan in the Celestial Race, such as the Spear of Heaven's Punishment.

The power of several big-killing weapons is amazing. Legend has it that the power of the heavens of the Celestial Race was derived from these weapons.

when! when! ...

The sword light cut by the sword ancestor sabre was blocked, but several ancient soldiers of the Celestial Race were also knocked out.

These ancient soldiers of the Celestial Race are quasi-celestial soldiers, and these Celestial Races cannot exert their true power at all.

After repelling a few ancient soldiers of the Celestial Race, the Sword Ancestor Sabre once again cut out a terrible sword light, and several Celestial Race masters were beheaded, and even a master of the late origin was severely injured.

"you dare..."

One of the four great gods, the divine machine, the god, shouted, holding a stone plate of heroic spirits, and summoning several heroic spirits of the ancestors of the Celestial race, extremely terrifying, and constantly culling Ao Qian.

At the same time, there is a heroic spirit, killing towards the second divine sword.

The ancestor of the Celestial Race, the Heroic Spirit, reached out a big hand and grabbed the sword against the sword ancestor.

"Your opponent is me, fight with me, and dare to be distracted and die!"

Ao Qian has long screamed, he has long since turned into a prototype. The dragon's body stretches for tens of thousands of miles. Although it has only five claws, it is terrifying and powerful, and it is stronger than the real nine-claw dragon.

The dragon's claws stepped on, forcing back several heroic spirits, and his two dragon horns turned into two heavenly swords, slashing to the vitality of the divine machine god.

Divine Machine God tried his best and didn't stop him. He was still hit by one of the dragon's horns. Yuangen was almost shattered, and he dodged the vitality of Yuangen dangerously, but half of his body was split and flew out.

Celestial races are creatures of the outer universe. In the primordial universe, they would have been suppressed. After reaching the origin, this is even more obvious. A battle at the same level is often suppressed by the creatures of the primordial universe.

Even the existence of the four great gods at this level is the same. They were very reluctant to fight at the same level, not to mention that he was still distracted and was naturally suppressed by Ao Qian.

Ao Qian is not simply the pinnacle of his roots. In his heyday, he has passed the immortal catastrophe, but he is the existence of the immortal catastrophe level.

It was just that he was hit hard in the past and almost fell completely, but now he has only recovered to the peak of his origin.

Therefore, his combat power is stronger than the average origin peak, and the divine machine God is distracted, naturally suffering a big loss.

"kill!"

Ao Qian yelled, wanting to take the opportunity to completely kill the God of God.

But at this moment, a horrible sword light came from behind Ao Qian, the speed was extremely astonishing, and the terrifying power, even Ao Qian's complexion changed drastically, and it was hard to ignore.

Huh!

The dragon waved its tail, and Ao Qian's tail flung out, like a whip, hitting the sword light. Although the sword light was blocked, the dragon's tail was also broken by the sword light, and a long line appeared. Sword wound.

In the rear, an old man appeared.

Obviously it was a celestial race, but it was very old, with white hair and almost losing teeth.

It seemed that they were similar to the dozens of strongest heavenly monarch-level elders that appeared in the Celestial Race, or even worse, with a scent of decadence on their bodies.

However, the combat power is more powerful than the strongest Tianjun, how many times stronger.

The pinnacle of origin!

This is actually the existence of the pinnacle of origin.

At this moment, not only behind Ao Qian, an old man appeared.

Even behind the First Heavenly Sword, King Qiankun, and Lord Tianyin, an old man appeared.

In addition, an old man also appeared above and below.

Six elders of the Celestial Race appeared all at once, and the mere aura that radiated made the void tremble, causing cracks.

On the first day Jian, Ao Qian and others, their expressions changed wildly.

Because these six elders all exist at the pinnacle of origin.

"Are the old guys sleeping in the fifth heavenly palace finally going out?"

Ao Qian said with a gloomy face.

Most people don't know the secrets of the Fifth Heavenly Palace, how can people at the level of Ao Qian know.

In the fifth heavenly palace, most of the sleeping creatures are some old monsters of the Celestial race.

These old monsters have survived from the last era, real creatures in the outer universe.

Of course, the dozen or so old strongest heavenly monarchs, although they also walked out of the fifth seat, did not survive the last epoch.

The old monsters that can live from the last epoch to the present are at least the existence of the Origin Realm.

They are not forbidden creatures, there is no such means as forbidden creatures, they can also seal the existence under the source, and live for a long time.

However, because these old monsters are all creatures in the outer universe, they are also greatly oppressed by the prehistoric universe, even bigger than those descendants of the Celestial Race.

Those descendants of the Celestial Race were all born from the primordial universe. They were somewhat contaminated with the aura of the primordial cosmos, with a trace of the primordial cosmos, and they were less oppressed.

Therefore, these old monsters are usually asleep and rarely move out.

Only when it encounters a real major event will it be dispatched.

Such as the destruction of the original gods, the destruction of the fate soul heaven and so on.

Ao Qian was injured and almost died because of the old monster in the Fifth Heavenly Palace.

Otherwise, relying on a few great gods, you can't deal with Ao Qian in his heyday.

Now, the great world is coming, the universe is in chaos, these old monsters in the fifth heavenly palace can't sit still, the origin of the catastrophe is weakened, and one after another is going out.

"We were fooled, this is a game!"

Sword spoke on the first day, his face gloomy.

Obviously, this is a game arranged by the Celestial Race, deliberately sabotaging here, just to attract them.

Six old monsters of the Celestial Race hide in the dark, waiting for their mobile hands, this is to destroy them all.

Six elders stood in six directions and forced them towards them.

"Gather together and break out!"

On the first day Jian, Ao Qian and others communicated with each other.

Afterwards, the four masters at the pinnacle of the origins shot with all their strength, repelled the four great gods, joined the third magic sword, the second magic sword, and Tang Jian, and rushed in one direction.

However, the people of the Celestial Race had already guessed their purpose, and they didn't talk nonsense and started directly.
