Chapter 5151: Shinsenhoin

The five wild beasts have always existed in the heart of the universe. They have no quasi-immortal soldiers, and naturally they can't fully display their combat power.

And the seven quasi-celestial soldiers were at least the quasi-celestial soldiers who had survived three times or more.

A cultivator, when crossing the immortal catastrophe, he himself can choose a weapon to overcome the catastrophe with himself.

After passing the immortal calamity, that weapon will follow the robbery, complete its transformation, and become stronger and stronger.

After going through an immortal catastrophe, a transformation will be completed.

The more Immortal Tribulation you have, the stronger the power will be.

Of course, not all weapons can follow the robbery together.

Treasures made with peerless materials must be used to overcome the calamity together. Otherwise, the practitioner has survived the immortal calamity, but the immortal soldier is destroyed under the immortal robbery.

This is normal and happens from time to time.

The quasi-celestial soldiers who have been able to transition through three times of immortal calamities are amazingly powerful. After being fully urged, even if they are not as good as the true three-tribulation quasi-celestial, they will not be too far apart.

The five quasi-immortal-level desolate beasts were completely suppressed, and Lu Ming knew that it would be a matter of time before the five desolate beasts were defeated.

Sure enough, not long after, a white tiger was chopped off by a quasi-celestial soldier in the shape of a long sword, and his soul was also strangled.

Immediately, the giant python was also killed.

With the quasi-celestial beast being killed, the ending is doomed.

Soon after, all five quasi-celestial beasts were killed.

But this did not end. Seven quasi-immortal soldiers smashed into the heart of the universe, and attacked the rest of the wild beasts. With a random blow, a large swath of wild beasts fell.

Even the Desolate Beast of the Origin Realm is vulnerable to a single blow and can be easily killed by a spike.

Seven quasi-celestial soldiers swept over the heart of the universe, seeming to be looking for other quasi-xian-level desolate beasts.

Suddenly, one of the spears blasted down against a large mountain.

boom!

The mountain exploded, and a behemoth rushed out.

This is a pangolin, several hundred meters in length, with a shocking aura. It is a quasi-celestial beast.

The heart of the universe, as expected, there are quasi-celestial level wild beasts hiding.

Moreover, this pangolin is extremely powerful, stronger than any of the five wild beasts before, and it is covered with scales and is invulnerable.

boom! boom!

After several consecutive collisions, two of the quasi-celestial soldiers were knocked out.

"You all are going to die!"

The pangolin went mad, regardless of the injury, rammed several quasi-celestial soldiers in succession, and then rushed towards the outside of the heart of the universe, with a huge body, culling the powerhouses in all the universes.

The pangolin hadn't arrived yet, and the power of terror squeezed the void, and some people who were too late to dodge were directly squeezed into flesh by the space.

"Naughty animal, look for death!"

In the crowd, a young man yelled, he was not afraid, and waved a talisman.

This talisman seal grew sharply, exuding a dazzling brilliance, and a supreme, eternal and immortal breath permeated out.

Then, on Fu Zhuan, an illusory figure stepped out.

The figure is very hazy, very illusory, shrouded in a layer of glow, and it is not clear what it looks like.

"kill!"

The illusory figure drank softly and pointed out.

A huge finger pointed at the pangolin.

Roar!

The pangolin seemed to feel a huge crisis and roared. The scales of its body fell off and turned into a sharp blade, rushing towards that finger.

Boom boom boom...

With a series of roars, the finger was blocked, but many scales of the pangolin burst apart.

The huge body of the pangolin retreated violently, bleeding continuously.

"That is, the Seal of the True Immortal!"

Someone exclaimed, staring at the talisman seal.

"It is the seal of the true immortal, and there is a trace of the immortal's seal on it. Who is this, who can actually have the seal of the true immortal, you know, the general true immortal will not give the seal of the true immortal. Once the imprint on it is received, Damage, it will also have some impact on the true immortal itself."

Someone whispered.

"It's Xu Liangfu of the Qingquan Universe. This person is known as the number one master in the Origin Realm of the Qingquan Universe, a peerless evildoer."

"It's him, the 897 master in the source list."

"Yes, Qingquan Universe, ranked ninety-sixth in Yangjian, is very powerful, and more than one true immortal sits here. He is such a genius, and he is given special care by the true immortal, and it is normal for him to reward the true immortal seal."

Many people are discussing.

"The source list?"

Lu Ming moved in his heart and was very curious. It was the first time that he heard of the term Origin Chart.

As the name suggests, it should be a list of masters in the Origin Realm.

However, Lu Ming didn't have any idea about the origin list. He didn't know how strong he ranked 897 in the origin list.

The illusory figure condensed by the True Immortal Seal was blocked by one blow, followed by another blow, and another finger condensed and pointed at the pangolin.

At the same time, the seven quasi-celestial soldiers also flew over and joined forces to kill the pangolin.

This pangolin was very strong. It was suspected that it had survived three immortal catastrophes, but in the face of such a powerful siege, it was ultimately lost. After barely supporting it for a few minutes, it was beheaded.

Huh!

The real immortal seal flew back to Xu Liangfu's hand, Xu Liangfu showed a trace of pain, and carefully put it away.

The true immortal seal is not infinitely usable. After using it for a long time, the true immortal imprint on it will dissipate.

Afterwards, the seven quasi-celestial soldiers patrolled the sky above the heart of the universe again, and no new quasi-celestial-level desolate beasts were found.

Then, the seven quasi-celestial soldiers flew back one after another. The masters who urged the quasi-celestial soldiers took a long breath, and their faces were pale, obviously hurting their vitality.

Even if hundreds of masters urged the quasi-immortal soldiers through secret methods together, it was very difficult and paid a lot of money.

"The desolate beast has been solved, go!"

Many people have fiery eyes and rushed towards the heart of the universe.

but...

The light flashed, and in an instant, at least a dozen masters were blown up and fell on the spot.

"What are you doing?"

"It's the Holy Light Universe."

Many people roared and backed away.

The one who shot just now is actually a master of Shengguang Great Universe.

"When dealing with the quasi-immortal-level wild beasts, I watched the excitement on the sidelines. Now that the wild beasts have been solved, but they want to pick up the bargains, how can it be so easy?"

A young man of Shengguang sneered.

"Yes, people from other universes can't enter except those big universes that were shot just now."

The old man with the bones of immortality in Yuqing Universe also spoke indifferently.

The masters of Yuqing Universe and Shengguang Universe, their figures flickered, blocking a void.

In the underworld, the masters of the Skeleton Universe, the Styx Universe, and the Karma-Fire Universe also blocked each other to prevent others from entering the heart of the universe.

"You are too domineering."

"That is, with so many of us, you are not allowed to enter, don't arouse public anger."

Many people yelled.

"I have to go in."

Xu Liangfu of Qingquan Universe is very strong, even in the face of Shengguang Universe, Yuqing Universe's master, he does not want to give in.

Chapter 5152: Geocentric Liquid Fire

The masters of Yuqing Universe and Shengguang Universe stared at Xu Liangfu, but did not speak for a while.

Then, many people stood up, they were all extremely strong masters, and there were even some who, like Xu Liangfu, entered the source list, which attracted the attention of masters such as Shengguang Universe, Yuqing Universe, and Styx Universe. .

This is because these people are also of extraordinary origin. Although they are not the top ten universes of the Yang Yin Realm, they are also ranked in the top 100.

The universe, which can be ranked in the top 100 in the Yang and Yin worlds, is extremely powerful, has a powerful immortal path, and has a profound background. Even if the Yuqing universe, etc., don't dare to underestimate it.

Finally, after a discussion, it was decided to let the top 100 universes between Yin and Yang enter the heart of the universe together.

People from these big universes have obtained the qualifications to enter, and they immediately learned from the previous big universes, blocking all directions and barring other people from entering.

Even the eight clans of the forbidden area were blocked from the outside and could not enter.

"Damn it, these people in the universe are too domineering."

"We have so many masters here, so let's just join hands and rush in. Although they are strong, the highest is only the peak of the origin. We may not be weak."

Someone suggested.

The overall strength of those big universes is terrifying, and the masters are like clouds. I don't know how much stronger than the big universes behind.

But that refers to the pinnacle masters, masters above the quasi-xian level.

Now, those masters can't enter, the strongest is only the peak of origin, those weak universes also have many peaks of origin, together, they may not be afraid of those powerful universes.

"Do you dare to attack the people of Yuqing Universe and Shengguang Universe, are you afraid that they will retaliate afterwards?"

Someone spoke, others shut up.

Indeed, now in the Primordial Universe, although there is no fear of the people of the Yuqing Universe and the Holy Light Universe, but will they leave the Primordial Universe in the future, or the origin of the great tribulation, are you not afraid to settle accounts after Autumn?

Similarly, there is no daring to do anything to the people in the Bone Universe and the Styx Universe.

"It's not easy. Talk to the people in the Yin world, and let the people in the Yin world deal with the universe in the Yang world, and the people in the Yang world can deal with the universe in the Yin world."

At this time, a voice came from the crowd.

This voice, which is near and far away, light and heavy, makes people unable to capture who is talking.

The speaker was Lu Ming.

He changed his face at this time, and when he spoke, he spread to different directions with the power of his origin, mainly because he was afraid of being caught by the people of Yuqing Universe and Shengguang Universe.

After all, it was his idea.

Sure enough, many people's eyes lit up when they heard Lu Ming's words.

It is true, discuss with the people in the underworld, exchange the direction of the attack, and it will be all right.

They go to attack the people in the underworld, Yuqing Great Universe, the people of the Shengguang Great Universe have nothing to say, don't they attack the underworld people?

After all, the Yuqing Great Universe and the Shengguang Great Universe cannot cover the sky with one hand. In the sun, there is always the power to check and balance them.

The same goes for the underworld.

Immediately, Yang Jian sent a representative, and the people on Yin World had a discussion, and the two sides hit it off.

There is no permanent enemy. In the face of interests, enemies can also temporarily join forces.

The relatively weaker universes of the Yang and Yin realms have united and gathered a large number of masters.

Rush!

With a loud roar, a large number of masters gathered into a torrent and rushed to the heart of the universe.

The difference is that the creatures on the side of the Yang rush towards the Styx universe and the skeletal universe, while the creatures of the Yin world rush towards the Yuqing universe and the Shengguang universe.

"hateful!"

The creatures of those powerful universes naturally know that it was deliberate, but they have no alternative.

The creatures of the weak and small universe in the underworld are not afraid of them.

The two sides collided with each other, and suddenly blood was splashed, and many people fell directly.

"Let them in."

In the end, those powerful creatures in the universe had no choice but to get out of the blockade.

Although there are not so many masters in a single universe in those small and weak universes, together, there are more masters than them, and they can't stop them at all.

Suddenly, a large number of creatures rushed into the heart of the universe.

Lu Ming also mixed in the crowd and entered the heart of the universe.

This is the second time he has entered this continent. Last time, when he was fighting for the torso of the King of Humanity, after more than 10,000 years, Lu Ming returned and still felt that the breath of this continent was very similar to the prey.

At the same time, Lu Ming thought of Cangqing Divine Realm again.

The breaths of these three have certain similarities.

Is it a coincidence, or is there an internal cause?

It's a pity that Lu Ming has never been to the first heart of the universe, otherwise, you can make a comparison.

A large number of creatures rushed towards the middle of the heart of the universe.

According to the previous experience of vying for the heart of the universe, if you want to obtain the heart of the universe, you must merge with the heart and soul of the universe heart and refine your heart and soul. Only in this way can you have a preliminary grasp of the heart of the universe.

Only later can the formation be formed, the heart of the universe can be reduced, and it can be refined into a space treasure, which can be carried with you.

And the heart and soul of the heart of the universe, deep underground, in the center of the heart of the universe, should have a channel directly to the center of the earth.

The powerful desolate beasts in the heart of the universe have been solved almost, and the remaining desolate beasts are the strongest but the source, how can they resist the masters of the outer universe.

A large number of creatures rushed past, leaving behind a large number of corpses of wild beasts, blood flowing into a river.

Soon, everyone came to the center of the Heart of the Universe, which was not far from where the human king's torso was sealed, but more than 10,000 years ago, Lu Ming and others' main goal was the human body, and they didn't take it seriously. Investigate, I don't know that there is a huge abyss here.

Yes, an abyss, like a huge deep well, is dark, I don't know how deep it is.

This abyss goes straight to the depths of the earth.

The heart of the universe is not trivial, solid and immortal. If it weren't for this natural abyss, everyone would not be able to enter the depths of the earth, would not be able to break through the earth's crust, or penetrate the underground rock layer.

No one hesitated, as soon as he came near the abyss, he rushed in.

At least nearly 100,000 masters of the Origin Realm came here.

However, the abyss was so huge that a hundred thousand creatures rushed in at the same time, and it was not crowded.

Going all the way down, at least a depth of hundreds of thousands of miles, gradually, a ray of red light revealed below.

Almost to the end.

Soon, the abyss came to an end, and the space below suddenly widened.

The surging excitement is coming.

Below, there is an endless sea of magma.

No, it's not magma.

Lu Ming condensed his eyes, carefully watching the endless sea of flames below.

It was not magma, but the flame turned into liquid.

Liquid fire!

All are liquid flames, the temperature is tens of thousands of times higher than ordinary magma.

Chapter 5153: Flame bird

The liquid flame formed a sea, endless, full of terrifying high temperature, even the existence of the Origin Realm had to deal with it intently and resisted by the power of the origin.

If the existence below the source enters here, it will probably be burned to ashes by the terrifying high temperature.

"This sea of flames is only the surface layer. Only through this layer of flames can you truly enter the depths of the ground."

"go!"

thump! thump!

Many masters plunged into the flame sea, splashing flame waves.

But the next moment, many people rushed up from the sea of flames, with panic on their faces.

quack!

A few screams came out from the flames, and a few big birds rushed out from the sea of flames and rushed towards those masters.

"Phoenix, it's not right, it's not a phoenix."

Lu Ming's eyes flashed.

Those big birds looked very much like fire phoenixes, but when you look closely, there are some differences. They are not real fire phoenixes, but they are somewhat similar.

These big birds were filled with flames, as if they were condensed by flames, exuding an astonishing high temperature, their wings stirred, and culled the creatures who had just entered the sea of flames.

puff!

One of the creatures in the shape of a tiger was caught by the flame bird and killed directly.

That was an existence in the late origin, and was directly killed by a single move.

"The flame bird at the pinnacle of origin did not expect that there would be wild beasts deep in the ground."

"Kill it!"

Some masters at the pinnacle of the origin took action, but a few flame birds took it as soon as they saw it, plunged into the flame sea, and disappeared.

"What happened? How many such flame birds are there in the sea of flames?"

Someone asked the person who had just escaped from the sea of flames.

"Many. Just a quick glance, there are no fewer than a hundred, and the strength is very strong, especially in the sea of flames, the strength is stronger..."

One person explained.

Rumble!

Suddenly, a thunderous roar erupted in the sea of flames, and the sea of flames rolled violently, and the tide was overwhelming.

The liquid flame swept the sky, as if pulling everyone into the sea of flames.

Many masters shot at the same time, playing terrible energy, blocking the sea of flames.

Karma!

A sharp cry sounded, and a huge flame bird rushed out, with a terrifying breath that shocked people's hearts.

The size of this flame bird was several times larger than the previous ones, and its speed was astonishing, like a flaming red light rushing into the sentient beings.

Bang bang bang...

In an instant, more than a dozen masters exploded in their bodies, and then turned to ashes in the terrifying heat, leaving nothing.

Karma!

The scream continued, red light flashed, and a dozen masters died tragically.

You know, these are the masters of the origin realm, and even the existence of the origin peak, but they are vulnerable and directly killed by a spike.

Retreat...

The surrounding creatures retreated madly.

The big bird was chased madly, and dozens of people fell in a blink of an eye.

"It's a quasi-celestial beast!"

"What a terrifying aura, at least the Second Tribulation Quasi Immortal."

"There is actually a quasi-celestial-level desolate beast hidden here, **** it."

Many people exclaimed and fled in embarrassment.

This is beyond everyone's expectations.

Before, the surface of the Heart of the Universe had been searched again, and all the powerful wild beasts had been killed.

But I didn't expect that deep underground, in the sea of flames, there were still a lot of wild beasts inhabiting.

These wild beasts were probably bred from this sea of flames.

In this sea of flames, like a fish in water, the strength is terrifying.

Quack...

The quasi-xian-level big bird, constantly screaming, with a deep resentment in its eyes, slaughtered many creatures.

In fact, Lu Ming could also understand this flamingo bird.

Compared with this flame bird, they are invaders and want to deprive them of the place where they live. They are naturally full of hatred, and they want to kill everyone.

"Set up an array to block him."

Someone yelled.

It was too hasty at this time, and in such a hasty time, it was impossible to sacrifice the quasi-celestial soldiers again.

If you want to sacrifice a powerful quasi-celestial soldier, even if it is a combination of multiple masters, it takes time to prepare.

It's unrealistic to be so hasty.

Today, it can only be resisted by a combined attack.

Those powerful universes do not lack a combination of strikes.

Suddenly, the formation of a combination of strikes came out.

It can be seen that there have been six combined attack formations on the Shengguang Great Universe, and each of the combined attack formations has reached eighteen people.

Moreover, all those who set up the formation are the existence of the pinnacle of origin.

This is the combined attack of the Origin Realm, and it has reached eighteen people.

Before Lu Ming saw the Origin Realm combined attack formation, all three and five players, even then, the power is very amazing.

The 18-person combined attack formation is not known for how powerful it is, and the formations are all the peaks of origin, with a total of six.

In addition, the Yuqing Universe, the Skeleton Universe, and the Styx Universe are not bad, and they are arranged in a combined attack formation.

Boom boom boom!

When the quasi-celestial flame bird arrived, these combined attack formations urged and collided with the quasi-celestial big bird, and the violent energy swept all directions and aroused a monstrous wave.

Fortunately, this is the heart of the universe, solid and immortal, even if such a big battle erupts, it will not cause much damage.

There are more than a dozen powerful formations, working together to fight against the quasi-celestial flamingo bird, but they are still defeated, and they are downwind.

This flame bird is extremely powerful and occupies a geographical advantage. When it shoots, the sea of flames boils, and the endless flames accompany the flame bird to shoot, rushing to those combined strikes.

Quack...

At this time, there was a scream from the wind under the sea of flames, and along with the wave of flames, huge flame birds rushed out and slaughtered everyone.

Although these flame birds are not at the quasi-immortal level, they all exist in the Origin Realm. During the flight, endless flames fill up, and the liquid fire below also impacts.

Suddenly, many people screamed and were crushed by the flames and fell here.

Lu Ming was also attacked by a flame bird, but it was only a cultivation base in the middle of the origin. Lu Ming swept out the flame bird and exploded the flame bird, but the flame bird was not dead. It was in an endless liquid state. In the flames, they reunited unexpectedly.

It's like rebirth from Nirvana.

"It's really similar to the fire phoenix, and has a similar trick."

Lu Ming whispered.

In other mid-primaries, no matter how strong his vitality is, he should be completely destroyed by Lu Ming's shot.

But this flame bird is okay.

It seems that Lu Ming's combat power is very strong. A stronger flame bird rushed towards Lu Ming, and its wings stirred, driving the liquid fire below and rushing towards Lu Ming.

Lu Ming brandished the God of War spear with violent energy, and shot these liquid fires into the air. At the same time, he stabbed a shot. A bright spear pierced through the flame bird and fell into the sea of flames.

But immediately, the flame bird's wound healed, and it was all right, and continued to rush towards Lu Ming.

Chapter 5154: Under the sea of flames

Lu Ming frowned, these flame birds were really difficult to entangle.

These flame birds may really be bred by this sea of flames. As long as they are near this sea of flames, their vitality is very tenacious, and they can use the flames of the sea of flames to continuously Nirvana.

"There are no immortal creatures in the world. The reason why they can Nirvana is just that the damage they have received is not great enough."

Lu Ming whispered, his body swelled quickly, turning to a height of five meters, and then he shot it down.

Performing the Origin Spell, Lu Ming's combat power greatly increased, and when he pressed it down, there was only the Flame Bird at the pinnacle of Origin, and his body burst into pieces.

This is not over yet, the God of War gun continues to suppress, and the destructive force continues to suppress the particles formed by the crushing of the flaming bird, and they will all be wiped out.

In the end, the flame bird never condensed and was completely wiped out by Lu Ming.

At this time, with a sharp cry, piercing the golden cracked stone, the quasi-celestial flame bird went mad and launched a strong blow, exploding an 18-person combined attack formation. There are 18 people arranged, there are Nine people died tragically in an instant.

The other joint attack formations were frightened and couldn't help but retreat.

The Flame Bird went mad and wanted to continue attacking.

"Naughty animal, look for death!"

With a loud shout, Lu Ming saw a young creature walking out of the Shengguang Great Universe. With a wave of his hand, a talisman seal rushed out, exuding an eternal and immortal aura.

True Immortal Seal!

This young creature of the Shengguang Great Universe is obviously also a wicked Tianjiao, with a big background, and possessing a seal of character given by a true immortal on his body.

Fu Zhuan glowed, and a hazy figure appeared, slapped a palm towards the quasi-celestial flame bird.

The young creatures of the Shengguang Great Universe, the true immortal seals that they took out, were even more terrifying, and seemed to be stronger than the true immortal seals taken out by Xu Liangfu of the Qingquan Universe before.

A palm shot directly knocked the quasi-celestial flame bird back, making the flames on its body dim.

The quasi-celestial flame bird screamed and set off a monstrous wave. The vast liquid fire madly gathered towards the quasi-celestial flame bird, making the quasi-celestial flame bird's body more and more massive.

"Shoot together, cooperate with the true immortal talisman, and completely strangle this evil animal."

Someone drank.

Those powerful combined strikes continued to kill the quasi-celestial flame bird.

At the same time, other flame birds also rushed to the quasi-celestial flame bird, intending to help the quasi-celestial flame bird.

"Good opportunity, let's go."

"thump!"

A large number of figures rushed into the sea of flames.

Lu Ming's thoughts turned sharply, and finally plunged into the sea of flames.

The temperature of the sea of flames was astonishingly high, but it was not difficult for Lu Ming to use the power of the taboo origin to separate the flames of the sea of flames.

He rushed towards the bottom of the sea of flames.

Soon, it rushed down several kilometers.

Now, taking advantage of those creatures in the big universe being entangled by the flame bird, and rushing into the depths of the ground earlier, they may be able to take the opportunity to get some opportunities.

When those powerful creatures in the universe free their hands, it will be in trouble.

No one doubts the strength of those powerful universes. Although the quasi-celestial flame bird is strong, they firmly believe that they will eventually be killed by those universes.

Those powerful universes have many cards. There are more than one or two Tianjiao evildoers, and more than one person has the seal of the true immortal.

As long as these people make a move and print the seal of the true immortal, the quasi-celestial flame bird will definitely die.

Even if there are not enough true immortal seals, as long as the quasi-celestial level flame bird is temporarily held, so that other people have time to prepare and sacrifice quasi-celestial soldiers, it can still kill the quasi-celestial level flame bird.

In other words, the quasi-celestial flame bird will be killed sooner or later, it is only a matter of time.

Lu Ming kept rushing down, but after a while, the flames rolled, and a flame bird shuttled through the flames and killed Lu Ming.

However, the strength was not strong, and it was only in the middle of the origin. Lu Ming swept it out with a single shot and exploded it.

Next, Lu Ming encountered attacks from flame birds from time to time, but these flame birds were not very powerful, the strongest was not at the peak of the origin, and there was no other quasi-celestial level that could not threaten Lu Ming.

There should be a group of flame birds living in this liquid flame ocean, and there should be a lot of them, but there should not be many flame birds at the quasi-celestial level, or even one.

Otherwise, there won't be only one dispatched before.

After about half an hour, Lu Ming came to the bottom of the Flame Sea. Lu Ming rushed to the bottom, as if through a thin film. The next moment, Lu Ming came to a wider space.

This space is very peculiar. Looking up, it is a sea of flames, but it is suspended in mid-air, and a drop of liquid flame will not fall.

And looking down, it is also a sea of flames, but the color is slightly different from the sea of flames above, giving people a more terrifying feeling.

The space where Lu Ming is located is sandwiched between two oceans of flames. The environment can be imagined. It is like being in a furnace, filled with terrifying heat. Even the space seems to be hot. Being in it, constantly being simmered by high temperature.

Lu Ming was sure that when the existence of the Divine Master Realm came here, it would instantly turn into flying ashes.

In fact, even if it is a general origin, it is uncomfortable to enter here.

puff! puff! ...

Not far away, the sea of flames above vibrated slightly, and many figures appeared.

Like Lu Ming, they came here through the sea of flames. Among them was the existence of the original origin. After they came here, the original power of the body guard shook, and a layer of flame appeared out of thin air around the body. Burn the power of origin.

what!

One of them screamed and couldn't bear it. The original power of the body guard was burned through, and his body was ignited like a torch.

This person screamed, rushed into the flame sea above, and escaped.

In fact, more than one person is like this, and it is indeed difficult for the original existence of the origin to bear the flames here.

However, there are also exceptions. For example, the source of cultivation power is biased towards heat and flames, and it is like a fish in water here.

Lu Ming glanced a few times, did not stop, chose a direction at will and flew forward.

This space is the core area of the heart of the universe. The heart and soul are hidden in this space, but I don't know the specific location. Whether it can be found depends on personal luck.

Before Lu Ming mixed in the crowd and heard other people talk about it, the structure of the first piece of the heart of the universe before was very similar to this one.

According to previous experience, some treasures will also be bred in this space.

That's the chance that most people want to get.

After flying for a while, Lu Ming saw protruding rocks in the flame sea below.

The rock is fiery red, like red jade.

"A magical medicine."

Lu Ming's eyes lit up.

He saw that there was a magical medicine growing on the raised rock, just like a fire lotus.

Chapter 5155: Body wash

On the raised rock, there is a fire lotus.

The magic medicine that can be produced in such an environment is definitely not trivial.

Lu Ming flew over and discovered that it was a source-level magical medicine.

Of course, it is just an ordinary source-level magic medicine, not a top-level source-level magic medicine.

The top source-level magical medicine is not so easy to appear.

Lu Ming took it off and moved on. Behind him, Lu Ming would find raised rocks from time to time. Of course, not every raised rock had magical medicine growing on it. In fact, he could only encounter it occasionally.

During this period, some people competed with Lu Ming, who was settled by Lu Ming at will.

Killing in this place hardly leaves any traces, and after killing it, throwing it into the sea of flames will not even leave any dust.

"Huh? It's a big piece of rock, like a mountain."

Lu Ming suddenly saw a raised rock in the ocean of flames ahead, but the raised rock was too big, just like a big mountain.

boom!

Suddenly, there was a roar from the top of that big mountain, there was divine light shining, and a few lights and shadows were constantly blasting against each other.

Someone is fighting!

Lu Ming's figure flashed, and he approached the rocky mountain silently.

"I discovered this body lotion first..."

One of them roared, it was an old man, with the cultivation base of the late origin.

"What do you find, those who are able live in it, if you have no ability, it means that this pool of body lotion is not for you."

The other person sneered. He was a brawny man who appeared to be in his thirties, who also existed in the late Yuan Dynasty.

Beside the strong man, there was a young woman who was obviously with the strong man. The two joined hands, and the old man who was pressing was at a disadvantage and kept backing away.

The old man was furious, but also helpless.

Practitioners are like this, strength is respected, without strength, even if they encounter treasures, they have to go back empty-handed.

The conversations between several people were low voices at first, and they didn't spread out, for fear of being heard.

But at this moment, the old man showed a cruel color and suddenly shouted: "Here is a pool of body lotion..."

The sound was like thunder, spreading far away.

The existence of the late Essence, running the power of Essence, roaring, can easily spread hundreds of thousands of miles away.

Lu Ming heard it for the first time.

"The body lotion... the body lotion that legend has it that can cleanse and evolve the body?"

Lu Ming's eyes lit up.

Having spent so many years in the Cangqing Divine Realm, it was not for nothing. Lu Ming had read many ancient books and knew the records of many strange and precious treasures.

There is no record of these rare and precious treasures in the Primordial Alliance, but there is no shortage of Cangqing Divine Realm.

Body lotion is an extremely precious, extremely rare essence of heaven and earth. If the practitioner absorbs and refines it, it can transform the physical body.

If the amount is large enough, even practitioners in the Origin Realm can cultivate into a catastrophe in advance.

The robbery body can only be possessed by the quasi-xian who has survived the immortal calamity. If the origin realm's existence is cultivated into the robbery body in advance, then the confidence when crossing the immortal robbery will be greatly increased.

Even if it is a quasi-celestial existence, it will be jealous, and it will be of great use.

Immortal robbery, but there are nine layers.

The stronger the body, the better.

Before, someone had obtained a chance in the heart of the first universe, and became a robbery body, that is, enough body washing liquid was obtained.

"The body lotion, I'm going to order it."

Lu Ming suddenly accelerated and rushed to the rocky peak.

Lu Ming's current physical body had reached the culmination of a heavy robbery, but he was stuck and encountered a bottleneck. Even in the place where the immortal was buried, he was unable to break through for a long time.

But as long as there is enough body washing liquid, his physical body will be able to transform again and step into the double robbery in advance.

In that way, his combat power will be stronger, and it will be easier when crossing the Immortal Tribulation later.

From the old man who guards the tomb, he learned a lot about the level of Crossing the Immortal Tribulation.

The stronger the power of the origin, the higher the level, the more terrifying the power of the immortal robbery.

Although the benefits will be greater after you get over, but if you can't get over, everything will stop.

Only oneself is strong enough to survive the immortal catastrophe.

The physical body is very important.

"You,,, damn..."

Hearing the old man yelling, the man and woman were furious.

There are a lot of masters who have entered here, and this loud roar will definitely attract other masters. Once a master at the pinnacle of origin comes, they will lose their share.

"Kill him, then take the body lotion away and leave here."

Young woman drank.

The two men and the strong man attacked frantically, wanting to kill the old man in a short time and take away the body lotion.

The old man's face was hideous and crazy, and he tried his best to resist, delaying time as much as possible.

He can't get it, and the other party can't even expect it.

bump!

The old man was hit, half of his body exploded and almost fell.

The brawny man and the young woman wanted to smash the old man completely, but suddenly their expressions changed, stopped, and looked to the right.

I don't know when, a young man appeared on the right.

The young man is burly and slender, with long hair flying, and his eyes are like stars. It is Lu Ming.

Seeing someone coming, the old man flew back and took a distance.

"It's only late in the origin."

The brawny man and the young woman swept away Lu Ming, and found that Lu Ming was only a cultivation base of the late origin, and he was relieved immediately.

The two of them would still be afraid that Lu Ming would not be the same.

"Boy, get out of the way, body wash is not something you can use."

The brawny man drank coldly, and then gave the young woman a voice message. He stopped Lu Ming and told the young woman to quickly collect the body lotion.

"The body lotion is mine."

Lu Ming opened his mouth, stepping out in one step, and he was about to rush to the top of the mountain.

"court death."

The brawny man shouted angrily and banged his fist towards Lu.

This punch was a source technique, extremely fierce, and wanted to kill Lu Ming with one punch.

The masters of the late origins used the origin spells, and the power is not unreasonable, but it is a pity that it is nothing in front of Lu Ming.

Lu Ming stretched out a big hand and grabbed it in the air. A huge palm was formed, with five fingers like five spears, and grabbed it at the brawny and young woman.

The terrifying power made the complexion of the brawny man and the young woman change wildly.

As soon as Lu Ming took action, they felt a fatal crisis and knew they had encountered a terrifying enemy.

The brawny man roared, and the young woman roared, followed by shots, hitting a strong blow.

But in front of Lu Ming, it was not enough.

With a big hand, the attack of the two collapsed, and the destructive power enveloped the two of them.

"Spare..."

The strong man and the young woman cried out in horror for mercy.

However, Lu Ming was unmoved.

Just now, the strong man had clearly acted murderously. He wanted Lu Ming's life as soon as he shot his hand. Now that he sees his loss, he asks for mercy. Is this a cultivator so good?

bump!

The big hand grabbed it mercilessly, the strong man and the young woman screamed, their bodies exploded, and their body and spirit disappeared.

Not far away, the old man watched with cold sweat.

He knew how strong the pair of men and women were. He was much better than him, but when he met Lu Ming, he was vulnerable and was killed in a second.

Lu Ming was also in the late Origin, just like him, but the gap was too big.

Chapter 5156: All parties compete

"Your Excellency, those body lotions belong to your Excellency. Goodbye to the old man."

The old man clasped his fists and hurriedly turned around and left.

"It seems that it is not so easy to get body lotion."

Lu Ming narrowed his eyes slightly, scanning all sides.

From all directions, people rushed in at an amazing speed, and many of them were top masters.

The old man's roar just now came too far, and the surrounding area, as long as it was not particularly far away, heard it, and rushed to this side frantically.

Body lotion, no one is heartbroken.

These top-level heaven and earth spirits, even those powerful universes, don't produce much, it can be said that very few, often only in the endless chaos, can they be bred.

But the endless chaos is very dangerous and contains many unknowns. It is difficult for ordinary people to cross, let alone enter the search for treasures.

Such treasures as body lotion are more important than anything else.

Lu Ming stepped out and came to the top of the rocky mountain. On the top of the rocky mountain, there was a small pond. In the pond, the pond was full of fiery red liquid.

This liquid is not liquid fire, it's just like.

This was a body lotion with a strong fragrance. Lu Ming felt that his pores would automatically open to absorb the fragrance.

Lu Ming took out a jade bottle, energized the power of the original source, and urged the jade bottle, and suddenly an attraction was generated. To the body wash, the body wash turned into strands of liquid like ribbons, which were absorbed into the jade. In the bottle.

Lu Ming's speed was extremely fast, and in a blink of an eye, a pond of body wash was all taken into a jade bottle by Lu Ming.

At this time, the first wave of people finally arrived.

There were about a dozen people, all dressed in uniform, all wearing striped robes, with seeping eyes, staring at Lu Ming.

"Boy, the body lotion is also something you can meddle with, you can die."

One of the big guys stretched out his hand and grabbed Lu Ming with a big hand.

The cultivation base of the pinnacle of origin.

The other party was very decisive, knowing that people were coming from all around, so there was no nonsense at all, and he would take action as soon as he came.

He wanted to kill Lu Ming, grab the body lotion, and then evacuated.

The God of War spear appeared, swept out a shot, and directly exploded the opponent's palm.

Ok?

The opponent's eyes condensed, and he didn't expect Lu Ming to have such a combat power in the late Primal Stage that could block his attack.

"Shoot together!"

This big man drank low, and the other people accompanying him also shot together.

There are more than a dozen people, of which four are at the top of the source, and the others are from the later period of the source.

At the beginning of the origin, or even the middle of the origin, staying in this place for a long time.

"kill!"

Lu Ming shouted, his eyes cold.

Don't blame him for being cruel.

Without revealing the thunderous means, how can it deter other people, there will definitely be people who will continue to attack him.

The Yuanshu was running, Lu Ming turned five meters high, his spear swept out around Shenxia.

Bang bang bang!

The opponent's attacks continued to disperse, and the God of War spear smashed past, more than a dozen people retreated, and those who had only the original late stage of cultivation, their faces were pale, almost vomiting blood.

"How can it be?"

These people were shocked. Lu Ming's cultivation was only in the late stage of the origin, and he actually suppressed them with the power of one person.

Although they were not creatures of this universe, they came to the prehistoric universe and were oppressed, and it was difficult for them to exert their combat power, but Lu Ming was not suppressed?

wrong!

They felt that Lu Ming's breath was consistent with the prehistoric universe.

Lu Ming is a creature of the prehistoric universe.

Swish...

At this time, there were more and more figures around, surrounding this mountain peak, and naturally surrounding Lu Ming in the middle.

"Boy, hand over the body lotion and spare you not to die."

"You can't get rid of such treasures as body lotion."

Cold drinks came out one after another, and a series of icy qi, locked on Lu Ming.

There are people in the yang world, and there are people in the yin world.

But at this time, these people were all staring at Lu Ming.

"There are so many of you, there is only one body lotion. Even if I hand it over, how do you divide it?"

Lu Ming smiled faintly.

He has no fear at all, the so-called art master is bold.

Nowadays, quasi immortal can't come out, in the realm of the source, he is not afraid of anyone.

Even if the masters of the big universe have all kinds of hole cards, doesn't he have any hole cards?

Ren Wang broke his sword, but it has been a long time since he drank blood.

Lu Ming's words made the eyes of those around him flicker, and when they looked at other people, their eyes revealed murderous intent.

Lu Ming's methods of instigating discord are too low-level, wouldn't they know it?

Everyone present knows that Lu Ming is provoking, but even if he knows, what can he do?

They desperately want to get body lotion and want to take it for themselves.

Everyone thinks so, so what Lu Ming said is very realistic, who is it for?

"Everyone, give us a face to mellow the universe. This kindness will be remembered in the next."

On one side, a big man spoke.

The Harmony Universe, among the tens of thousands of universes in the Yang room, is considered to be powerful, and its overall strength can rank in the upper reaches. Generally, the large universe in the Yang room has to give some face.

But now in the face of body lotion, no one is willing to give up.

Not to mention the creatures of the underworld.

"What's the Yuanrong Universe? Get out of here."

In the Yin world, some people drink coldly and don't give face at all.

The two sides surrounded Lu Ming, and no one did anything for a while, forming a stalemate.

No one dared to act first, even if he killed Lu Ming and got the body lotion, he would be attacked by others.

Lu Ming shook his head disappointedly. Originally, he wanted to let all parties kill each other, so he could save some energy, but he didn't expect these people to stay still.

That can only be moved by him.

"Since you don't make a move, then get out of here."

Lu Ming shouted, and stepped away in one of the directions.

His speed is extremely astonishing, stepping out in one step, he is close to the creature in that direction.

boom!

The God of War gun was directly pressed down.

"Do it, kill him."

"Kill this kid first, fighting for body lotion based on his ability."

With a few loud shouts, the person in this direction shot.

In an instant, at least three masters of the pinnacle of origin made a move together, three terrible attacks, and at the same time attacked Lu Ming's vitals, wanting to kill Lu Ming's grid.

But the God of War spear entrained vast destruction energy, and when it fell, three attacks instantly collapsed.

The God of War spear kept on, and the destructive energy burst out. The three masters at the pinnacle of origin snorted, their bodies shook wildly, and they retreated back, vomiting blood one after another.

what?

People in other directions were also shocked.

The three masters at the pinnacle of origins shot together, but they were actually repelled by Lu Ming's move, and they were injured.

This level of combat power is a bit amazing.

"This person is a wicked evildoer. Let's shoot together. Kill him first."

"Yes, let's shoot together."

The masters in other directions also shouted.

Chapter 5157: Existence close to the source list

Around, there were at least a dozen masters at the pinnacle of origin, who wanted to fight together against Lu Ming.

"Too lazy to play with you."

Behind Lu Ming, a pair of wings appeared, and under one flap, he rushed out of the encirclement and rushed towards the distance.

If you really want to slay these dozen or so peaks of origin plus other masters, for Lu Ming, there is not much difficulty.

Even killing these origin peaks is a bit simpler than killing the Lord of Heavenly Palace.

The Lord of the Heavenly Palace was born in the Primordial Universe after all, and stayed in the Primordial Universe all the year round, and gradually adapted to the rules and order of the Primordial Universe. Although he was still suppressed, the suppression was not too great.

Similar to the Celestial Race, and the Forbidden Land Eight Races, the same is true.

And these creatures in the outer universe, shortly after entering the prehistoric cosmos, were suppressed by the prehistoric cosmos, and their strength was discounted a lot, making it easier to kill.

However, it didn't make any sense to kill these people. Lu Ming's purpose was to get body lotion and to find a place where no one could refine it.

boom!

Not long after Lu Ming flew out, a figure appeared in front of him, and he patted Lu Ming with a palm.

The palm strength was astonishing, and the void was completely destroyed. Lu Ming only saw a hazy palm, surrounded by chaos, blasting towards him.

Thinking or not, Lu Ming also slapped it out.

Right now, Lu Ming was in the state of Origin Surgery, with a random strike, and the power was amazing.

A terrifying roar, circles of destruction energy burst out from between the two palms, sweeping across all directions.

Then, the two figures stepped back.

"It's this guy..."

Lu Ming's eyes moved, and in front of him stood an old man wearing a Taoist robe, white hair and white beard, and an immortal spirit.

Isn't this person the old man from Yuqing Universe?

Huh huh!

Behind the old man of Xianfeng Dao Bone, there are many figures rushing, there are a total of more than twenty people, all masters of Yuqing Universe.

"It's Yuqing Universe."

"There is also Feng Yuzi, I heard that Feng Yuzi's combat power is close to the existence of the original source list."

The faces of people in other universes have changed drastically.

There is Yuqing Great Universe, and Feng Yuzi is there, and the body lotion is mostly irrelevant to them.

Feng Yuzi's combat power is extremely astonishing, even in the origin of the entire universe, he has a certain reputation.

It is said that his combat power is close to the source list, which is extremely amazing.

The origin list includes the strongest group of masters in the entire Yang Jian Origin Realm.

On the list, only a thousand seats are listed.

In the vast sun, there are more than 30,000 large universes and countless creatures. Among them, it is impossible to count how many of them exist in the Origin Realm.

Fortunately, the small and weak universes, those powerful big universes, masters are like clouds, and there are too many masters in the Origin Realm.

For example, at the peak of the last epoch of the Primordial Universe, there were groups of immortals in all directions, and the masters of the Origin Realm were in groups, I don't know how many.

In the vast sun, more than 30,000 universes, and countless original realms, only one thousand people can enter the list. It can be seen how powerful these thousand people are.

On average, only one can be produced in dozens of large universes.

And Feng Yuzi, being able to get close to the source list, can imagine his combat power.

"A little bit of strength. In the later stage of the origin, there is such a combat power. It is very rare, but it is still not the opponent of the old man. Give the body lotion to the old man."

Feng Yuzi said, his eyes were extremely hot.

He is determined to get body lotion.

His cultivation has reached the peak of the origin, and it has been endless years, but he has not dared to begin to cross the immortal catastrophe, just not sure.

Once you begin to cross the Tribulation, there will be no retreat, and no one will die.

The body lotion can transform the physical body.

The stronger the body, the greater the grasp of crossing the Immortal Tribulation.

"Go ahead, beat me, and the body lotion will be handed to you."

Lu Ming said, holding a gun in one hand, with a strong fighting spirit.

Close to the strength of the source list, Lu Ming wanted to fight a battle to see if his strength could be compared with the existence of the source list.

He was attacked by Feng Yuzi just now, and in a hurry, he didn't use much power at all.

"If you want to fight against the old man, the old man will do you well."

Feng Yuzi's eyes were cold, and with a scream, his body rushed towards Lu Ming like a cyan light, and blasted towards Lu Ming with a palm.

A cyan palm print, as big as a mountain, was extremely terrifying. It was even stronger than when he attacked Lu Ming just now.

It can be seen that Feng Yuzi was injured, wearing a glove, as thin as a cicada's wings, should be a top source-level **** soldier, able to bless the power of palm prints.

Hum!

Lu Ming brandished the God of War spear and swept it out, bombarding with the palm prints.

bump!

Energetic swept through, but this time Lu Ming was prepared, and the power of his shot skyrocketed, and the cyan palm print collapsed directly, and Feng Yuzi's body shook violently, retreating back violently.

Lu Ming didn't move at all.

"It's close to the power of the source list, but so."

Lu Ming spoke lightly.

"you..."

Feng Yuzi's face was ugly, but she was shocked in her heart.

It's just the latter stage of the origin, and it can actually smash him back, this kind of combat power, even if it is placed in the vast sun, it is also extremely high.

However, it is impossible for him to give up.

"Kill!" Feng Yuzi screamed, his body gushing even more intensely, and the surface of his body actually sees a red glow.

"It's Jie Guang, this guy has also reached the level of a body of one tribulation."

Lu Ming's heart moved.

boom!

Feng Yuzi killed again, waved both palms, the void exploded, and a series of terrifying palm prints covered Lu Ming.

At the same time, Feng Yuzi's eyebrows rushed out of a pagoda.

The pagoda is blue all over, with cyan rays of sunlight, like a waterfall, falling from the top of the tower, suppressing towards Lu Ming.

"That's interesting."

Lu Ming roared, swinging his gun to meet him.

boom! boom! boom!

In a flash, Lu Ming and Feng Yuzi fought dozens of fusions.

Then there was a loud noise, the blue pagoda was shaken out, and cracks appeared on it.

Feng Yuzi retreated violently, coughing up blood, his face was pale, and a blood hole appeared in his chest, which was obviously pierced by the God of War Spear.

The people around him took a breath, somewhat inconceivable.

Lu Ming was able to defeat Feng Yuzi. This kind of combat power was simply terrifying.

"Is this the power close to the source list?"

Lu Ming whispered, with a certain number in his mind.

To tell the truth, Feng Yuzi is very strong, much stronger than the Lord of Heavenly Palace, I don't know how many times it is stronger.

Generally, the peak of origin is not enough to see in front of Feng Yuzi.

Just now, Lu Ming felt that Feng Yuzi's original strength should be intermediate, but it had reached the peak of intermediate.

Moreover, Feng Yuzi's physical body is also exceptionally strong, just like Lu Ming's body.

Moreover, his origin technique, the fire temperature is also very high and deep, being understood to a very deep realm, the power is very amazing.

With his cultivation at the peak of his origin, on the surface, he was not much worse than Lu Ming.

However, Lu Ming's Origin Technique was ultimately more powerful, and Lu Ming was not suppressed, and it was relatively easy to win the opponent.

Chapter 5158: Two Tribulation Body

Of course, if you want to defeat Feng Yuzi in the outer universe, it will not be so easy.

"The vast universe of the universe, sure enough, the master is like a cloud, just close to the origin list, there is this level of combat power, I don't know how strong the strong on the origin list is."

Lu Ming whispered, looking forward to it.

He will not belittle himself and still has invincible faith.

Because, he is far from reaching the peak of the Origin Realm. Whether it is cultivation base, source technique, or source root, he has not reached the peak, and there is still a lot of room for improvement.

"Arrange a combined attack and kill him."

Feng Yuzi suddenly yelled, his eyes fierce.

Even if he loses to Lu Ming, he must get the body lotion.

Suddenly, behind Feng Yuzi, the figure flickered, and the total formation began to be arranged.

"I won't be with you anymore."

The wings behind Lu Ming flicked, and quickly backed away.

The Yuqing Universe is one of the top ten Universes in Yang, and Lu Ming still doesn't want to offend the opponent. At the same time, the opponent's combined attack is also very powerful.

Even Lu Ming didn't want to face that kind of combined attack formed by the eighteen peaks of origin.

Lu Ming's speed was so fast that these people couldn't stop him at all. A few flashes disappeared here without a trace.

"Damn..."

Feng Yuzi roared, furious.

A pool of body lotion disappeared in front of him like this, really angered by liver pain.

But helplessly, Lu Ming's speed was too fast to catch up.

Lu Ming flew swiftly, and in a blink of an eye, he flew out more than 100,000 miles, then chose a place where no one was left, and plunged into the flame sea.

He wants to refine the body lotion in the sea of flames.

The battle with Feng Yuzi gave him almost an understanding of his own combat power.

Although he is very confident and will not be arrogant, but he also feels great pressure.

Feng Yuzi, after all, has not yet entered the source list, how strong should the real source helper be?

Also, how terrifying the existence of those in the top 100 or even the top ten should be.

Lu Ming must continue to improve.

Every realm must go to the strongest rank, this is Lu Ming's goal.

Open the jade bottle, revealing the body lotion inside, a scent of fragrance diffused out, but it was isolated by the liquid fire outside.

"Ball, help me protect the law."

Lu Ming said.

"Don't worry, leave it to me."

The ball flew out and guarded Lu Ming.

Lu Ming took a deep breath, and the body washing liquid in the jade bottle turned into a stream of water and was sucked into his mouth by Lu Ming.

With a grunt, it flowed down the throat and into the stomach.

Lu Ming suddenly felt a warm current, spreading into his body, permeating into the cells of his body.

His cells greedily absorb this energy.

Click, click...

Lu Ming's body began to squirm, and abnormal noises continued to be heard, and wisps of black smoke overflowed from Lu Ming's body.

Lu Ming's body is undergoing transformation.

And Lu Ming constantly swallowed the body lotion.

After half a day, all the body lotion was refined by Lu Ming.

Lu Ming's physical body has also completed its transformation.

His body is slender and his muscles are well-proportioned, as if he is full of powerful strength.

With a slight force, there will be catastrophic light on the surface of the body.

However, at this time, the tribulation light was no longer crimson, but orange.

The Second Tribulation Body!

Lu Ming's physical body made another breakthrough and reached the second catastrophe physical body.

At the end of the origin, the flesh is comparable to the flesh of a person who has survived two immortal calamities, which is absolutely amazing.

The breakthrough of the physical body gave Lu Ming's strength a little improvement again.

"go!"

Lu Ming rushed out of the sea of flames, and went in one direction with the ball.

In a blink of an eye, several days passed.

In the past few days, Lu Ming has not encountered the essence of heaven and earth like body lotion, but he has obtained a lot of magical medicine. Even the top source-level magical medicine was obtained by Lu Ming.

Unfortunately, what Lu Ming wanted most was the treasure that could strengthen his body and soul, as well as the roots.

However, these treasures are too precious, even in the heart of the universe, there are not many.

But too many creatures have entered the heart of the universe, and it is too difficult to gain something.

quack...

A few flame birds threw out from the flame sea above and killed Lu Ming.

Huh!

The ball flew out, and several flame birds were solved in a few strokes.

"There are more and more flame birds in this direction, weird, there must be a problem..."

Lu Ming thought.

When Lu Ming came to this area, he found that there were an astonishing number of flame birds, and they were culled from time to time.

It's like coming to the flame bird's lair.

"With so many flame birds guarding here, the front must be extraordinary, go take a look."

Lu Ming whispered.

He is now a master of art and bold, unless he meets Zhunxian, otherwise he is not afraid.

If you can't beat it, you can retreat.

Lu Ming kept moving forward, and the resistance he encountered was getting bigger and bigger, and flame birds kept coming out of the sea of flames and attacking Lu Ming.

However, the strongest is only the pinnacle of the origin, Lu Ming and the ball teamed up, it is not difficult to overcome.

Not long after, Lu Ming crossed tens of thousands of miles.

"That is..."

Lu Ming's eyes lit up.

He saw a cloud of flame in the air ahead, suspended in the air, burning like a sun.

The flames were huge, tens of thousands of meters in diameter, and Lu Ming could feel the hot temperature if they were far apart.

"This is... the soul of the heart of the universe."

Lu Ming's heart moved.

He was in the crowd before and inquired about many things.

The heart and soul of the first piece of the heart of the universe is like this, like a huge flame, emitting astonishing heat.

"Unexpectedly, I was the first to meet the heart and soul. Could this fragment of the heart of the universe have a predestined relationship with me?"

Lu Ming muttered.

"Lu Ming, this is the heart and soul. It is said that if you merge with this heart and soul, you can initially control the fragments of the heart of the universe. Do you want to collect it?"

Ball fairway.

Lu Ming showed hesitation, struggling in his heart.

Putting the treasure in front of you, trying to be completely indifferent, it is fake.

However, Lu Ming quickly made a decision, shook his head, and said, "Forget it, even if you accept it, you can't keep it."

Even if it is fused with the heart and soul, if you want to take away the fragments of the heart of the universe, many masters will have to deploy a powerful array to reduce the fragments of the heart of the universe and refine it into a space treasure.

Don't say he won't, even if he will, he won't be able to keep it.

There are hundreds of masters of the big universe outside, and there must be more big universes coming here.

He will definitely be chased by these masters.

When there are a bunch of masters on the original source list, Lu Ming will be very difficult to fight, not to mention, there are less than a hundred years, the original source catastrophe is about to pass.

At that time, the immortal will arrive, and Lu Ming will not be able to keep the cosmic heart fragments anyway.

If it is taken, it will cause a fatal disaster.

No way, who would let him have no backing behind him, without the support of a powerful universe.

"Is it so missed?"

The ball is also a bit unwilling.

Chapter 5159: Soul matter

The ball is very unwilling, they are the first to find their souls, can they only watch it.

"It's not enough to miss it completely. It is said that there is a rich soul material in the heart and soul. We can absorb these soul materials without fusing the heart and soul."

Lu Ming said.

The soul matter in the heart and soul, but the rare heaven and earth essence in the world, can temper the soul, make the soul metamorphose, and is of infinite value.

After the cultivation base is close to the peak of the origin, the next step is the immortal robbery.

After passing the immortal catastrophe, one can jump up, surpass the universe, and become a figure of the immortal Dao.

Immortal, that is completely another level of life.

But Xianjie is a bottomless abyss in front of all the practitioners. Since ancient times, I don't know how many stunning and stunning Tianjiao have been buried.

If you want to survive the immortal catastrophe, the body, soul, and root are the most important.

Of the three, none of them can fall.

If one is left behind, the immortal catastrophe will not pass.

Therefore, after reaching the peak of the origin, even the quasi-celestial existences are desperately trying to improve their body, soul, and origin.

In the vast universe, there are indeed rare heaven and earth spirits that can transform the three.

Relatively speaking, it is easier to find the heaven and earth spiritual essence that enhances the physical body.

Treasures that enhance the soul are relatively rarer and rarer.

And the most rare and scarce thing is undoubtedly the treasure of ascending origin.

The soul matter contained in the heart and soul of the Heart of the Universe is a treasure that can enhance the soul, how could Lu Ming miss it.

Even if the heart of the universe cannot be taken away, the soul matter in it must be absorbed.

"go!"

Lu Ming and Qiuqiu rushed towards his heart and soul.

Hum!

The heart and soul seemed to have a sense of intelligence, making a slight vibration, and a terrifying and powerful pressure radiated from it, rushing towards Lu Ming.

"broken!"

Lu Ming yelled, using the source technique, his palm like a knife, slashing down with force, splitting the rushing pressure.

The ball also turned into the appearance of a broken sword, the sword shines like a horse, breaking everything and cutting away the pressure.

One person, one ball, keep moving forward.

There is constantly strong pressure rushing out of the heart and soul. If it is a general origin, or even a general origin peak, it will be difficult to resist this pressure.

But after all, he couldn't stop Lu Ming and the ball.

After more than ten minutes, Lu Ming and Qiqiu approached the heart and soul, stepped out in one step, and the two rushed into the heart and soul and entered the heart and soul center.

Hearts and souls are like the sun. After they enter it, they can't see it outside.

It is strange to say that when outside, the heat is extremely hot, and the temperature radiated by the heart and soul is astonishingly high, and it needs the power of the original source to resist it all the time.

But entering the heart and soul, it was cool and refreshing, and could not feel the slightest high temperature.

Moreover, inside the heart and soul, there is a trace of black matter that is constantly floating.

These black substances, like black ribbons, emit fluorescence, and even have a kind of fragrance, which makes the soul cool and refreshing.

This is the soul matter.

"Ball ball, you also absorb some."

Lu Ming Qiqiu.

Although the physique of the ball is special, it can evolve by swallowing metal materials and magic weapons, but it is always beneficial to absorb more soul material.

"okay!"

As soon as the ball opened his mouth, he swallowed a wisp of soul matter into his mouth.

Lu Ming also opened his mouth and inhaled a wisp of soul matter, then sat cross-legged and began to refine.

At this time, within Lu Ming's source roots, the souls are completely gathered together, and the soul matter enters Lu Ming's body and rushes to the source roots, enters the soul, entangled with the soul, and constantly tempers the soul.

Lu Ming felt his soul grow slightly.

In the burial place, although it can use the will of the strong there to hone the soul, but the speed is far not so fast.

Two hours later, a strand of soul matter was completely refined, and Lu Ming felt that his soul had risen by about one-twentieth.

In just two hours, there was such a big gain, and the speed was amazing.

Opening his mouth and inhaling, there was a soul substance that was absorbed by Lu Ming.

Time passed quickly, and two days passed quickly.

In the past two days, Lu Ming has been refining soul matter, and finally, his soul has also completed the transformation, from the soul of the first tribulation to the soul of the second tribulation, and the soul power and soul strength are greatly increased.

However, there was still a lot of soul matter in his heart and soul. Lu Ming had no plans to leave. He planned to absorb all the soul matter before leaving.

At this time, besides the heart and soul, other creatures finally came.

Swish...

Three figures appeared not far away.

The leader is a young man. If anyone else is here, he will definitely recognize him. This person is Xu Liangfu of Qingquan Universe, the enchanting evildoer who ranks 897 on the Yangjian Origin List.

Behind Xu Liangfu, there were two old men standing, both of them were very strong masters.

"Heart and soul, hahaha, this one is guarded by a large number of flame birds, it is really extraordinary, the heart and soul are here."

Xu Liangfu is overjoyed.

"Congratulations, son, this piece of the heart of the universe is predestined with son."

An old man said with a smile on his face.

"Xu Liangfu, you are too naive to think, and you also want to encroach on the Fragment of the Heart of the Universe."

In the other direction, there was a sneer, and then the light and shadow flashed, and five more figures appeared.

One of them was also a young man. Behind the young man were four big men and the old man.

"Jia Qing, it's you!"

Xu Liangfu's face changed.

Jia Qing is also a peerless evildoer. Like him, he is also in the Yangjian Origin List, and is ranked dozens of places higher than him, ranking 865.

"Xu Liangfu, if you want to get your heart and soul, see the real chapter under your hand."

Jia Qing is very strong.

His ranking is dozens higher than Xu Liangfu, and he is confident that he can suppress Xu Liangfu.

"Hmph, don't think that the ranking is a few higher than me, it is better than me. The original list has not been updated for a thousand years."

Xu Liangfu said coldly.

The implication is simple, now if the source list is updated, he is enough to suppress the opponent.

"Hey, if it is updated, my ranking will not be so simple that it is dozens of places higher than you."

Jia Qing sneered in response.

When speaking, the auras of both parties were raised to the extreme, and the air machines collided in the void, making a rumbling and cracking sound.

Both sides know that it is impossible to get the heart and soul if you enter without thoroughly defeating the opponent.

However, the two sides hadn't fought, suddenly their eyes flashed, and they looked in one direction at the same time.

Five figures came quickly, bringing a cold breath.

Five masters of the underworld.

There are five black panthers. To be precise, they are creatures that look very similar to panthers.

The whole body is pitch black and stands not far away.

The light flashed, and the five panthers turned into human forms.

The first one is a very burly young man, and there are also four old men behind.

"The heart and soul are here, it's mine, you guys, you can get out of here."

The Black Panther young man grinned and glanced at Xu Liangfu and Jia Qing coldly, as if looking at two rubbish.

"What a big tone!"

Xu Liangfu responded indifferently.

Chapter 5160: Sit and watch others fight

"Join to kill him first?"

Jia Qing glanced at Xu Liangfudao.

When you encounter people in the underworld, you can let go of the problems between them first, and solve the masters in the underworld first, and it is not too late to fight for the soul.

"Do it!"

Xu Liangfu's answer was very direct. As soon as the voice fell, he shot directly, like a bolt of lightning, and pounced on the young black panther.

At the same time, Jia Qing also shot, attacking the young black panther from the other side.

The four old men behind the Black Panther Youth wanted to take action, but were stopped by the Black Panther Youth.

"Don't do anything, let me meet them."

The Black Panther youth spoke to the four elders, and at the same time the body had already rushed out, and the cold breath exploded, causing the hot and high temperature here to drop a lot.

boom! boom! boom!

The three figures collided and quickly fought each other, and they fought a dozen moves in an instant.

After the continuous roar, the figure scored a point, and the three figures retreated.

"This is what you call the source list master? But that's it."

The Panther youth sneered.

The Yangjian Origin List, as the strongest masters of the Yangjian Origin Realm, the Yin Realm will naturally collect relevant information.

The Black Panther youth easily recognized Jia Qing and Xu Liangfu.

Xu Liangfu and Jia Qing looked a little ugly.

Unexpectedly, when the two of them joined forces, they couldn't take the other side, and the other side's combat power was amazing.

If it is placed on the Yangjian Origin Ranking, the ranking will be much higher than them.

"Come again!"

Xu Liangfu yelled, red light filled his whole body, urging his combat power to the peak, and once again killed the young black panther.

On the other side, Jia Qing also urged his combat power to the apex and killed him.

"bring it on!"

The young Black Panther sneered, with a cold breath, as if to seal the sea of flames, he roared, turned into a prototype, and culled out.

Three young evildoers, constantly clashing.

The masters they brought also confronted each other, staring at the battlefield cautiously to avoid accidents.

During the clash between the three masters, people kept coming.

Or alone, with three or two people working together, but there are no young people, they are all elderly people, old men, or middle-aged men.

The Black Panther Youth and Xu Liangfu Jia Qing couldn't help but stop fighting and confront each other, but they also stared at the others cautiously.

There is no weak person who can get here.

Even among them, there are masters on the Yang Jian Yuan Yuan list.

"Second elder Kamikawa, these two old guys are also here."

Xu Liangfu and Jia Qing looked at the two elders in red robes, and their faces became solemn.

Coming from Kamikawa, he is also a strong man on the Yangjian origin list.

The origin list is not simply a list of young Tianjiao, but a list based on the combat power that exists in the origin realm.

As long as the strength is strong enough, regardless of age, can enter the source list.

In fact, there are not many young Tianjiao on the original list, and it will definitely not exceed 300.

The others are old and strong in old age, not belonging to the younger generation.

The longevity of the Origin Realm is almost endless, living the same life as the universe.

Many old guys at the pinnacle of the source did not dare to step into the level of crossing the immortal catastrophe, and did not dare to start to cross the calamity, so they stayed in the realm of the peak of the source for a long time.

Some people have stayed in this realm for too long for too long. Even if their talents are insufficient at the beginning, after a long period of cultivation and accumulation, their combat power is very terrifying.

For example, it takes a long time to comprehend Yuanshu slowly, and it will take a long time to comprehend Yuanshu to an astonishing level.

There are also people who, after a long period of time, will always get some opportunities to raise their roots, or raise their bodies and souls.

In short, it is really difficult for some old guys who have stopped for endless years at the pinnacle of the origin to figure out the real combat power.

After all, living time is too long, and sometimes time can slowly make up for some shortcomings in talent.

The two elders of Shenchuan are this kind of characters, and their rankings on the Yangjian Origins list are not much worse than Xu Liangfu and Jia Qing.

In addition to the yang, many people also came to the yin.

In the Underworld, there is no so-called origin list, but undoubtedly, there are no lack of masters equivalent to the origin list.

The situation suddenly became complicated.

Everyone at the scene, looking at the soul from time to time, all want to get the soul in their hands.

Especially those older people who are getting older.

What they desire most is the soul material in their hearts and souls. This is a priceless spirit that can't be bought even if they want to.

The reason why they have been staying at the pinnacle of the origin and not daring to cross the immortal catastrophe is because they are not sure, or afraid of death.

Crossing the Immortal Tribulation Crossing the Immortal Tribulation, once you begin to cross the Immortal Tribulation, there is no turning back, you must go all the way to the end, either to become an immortal or fall.

For example, after you have gone through one immortal calamity, you are not sure about the second immortal calamity, and you will not do it and stay at the level of the first calamity. That is impossible.

If it takes too long, if you don't go to cross the Tribulation, the Tribulation will automatically find you.

Therefore, too many people stay at the peak of the origin.

"The two of us, don't need heart and soul, just the soul matter in the heart and soul." One of the two elders of Kamikawa said.

"Impossible, you don't want to get anything."

Black Panther Youth Road.

How could the young generation's arrogance give out soul matter.

The young enchanting Tianjiao all have aspirations to the immortal way, to put it bluntly, they look down on these old guys who stay at the peak of the origin and dare not cross the immortal calamity.

How can you become immortal with such a cringe?

They never go forward, but they also need all kinds of spiritual assistance.

"If that's the case, it's up to your own ability."

One of the two elders of Kamikawa said with a cold face.

Huh!

Suddenly, an old man in the underworld suddenly moved, turned into a black light, and rushed towards his heart and soul.

"you dare!"

Xu Liangfu drank coldly and immediately blocked it.

The stalemate was broken.

Move the whole body by pulling a hair.

When a few people moved, they immediately caused other people to move.

Swish!

The two elders of Kamikawa joined forces and rushed towards the heart and soul, but were stopped by the black panther youth.

Jia Qing and other masters also fought together.

Around the heart and soul, a big melee broke out.

"There was a fight outside."

Inside the heart and soul, Lu Ming and the sphere looked at each other.

Then the two opened their mouths, swallowing soul matter vigorously, and quickly refining.

They want to refine all the soul matter here before others enter the heart and soul.

No trace of this kind of good thing can be left to others.

One person, one ball, desperately refining soul material, the people outside are also desperate.

puff!

Someone was penetrated, his body was torn, and he fell on the spot.

It was one of the four masters brought by Jia Qing and was killed by a gloomy old man in the underworld.

This ghastly old man also has the power of the source list.

The four subordinates that Jia Qing brought are all from the origin peak, and even in the origin peak, they are all considered masters, but there is still a big gap with the existence of the origin list.

The war became more and more fierce, and people fell from time to time.
